Cendant Settlement Services Group will use Emergis® Vendor Services Exchange to electronically deliver and manage appraisal services

System-to-system integration will seamlessly link Cendant's ordering system with the BCE Emergis eLending platform

McLean, Va., March 11, 2004 — BCE Emergis (TSX: IFM) announced today that Cendant Settlement Services Group, a subsidiary of Cendant Corporation (NYSE: CD), has opted to utilize Emergis Vendor Services Exchange to conduct appraisal transactions electronically. BCE Emergis will develop a customized integration with Cendant's proprietary ordering system, enabling Cendant's mortgage originators and over 2,500 appraisers to connect online to seamlessly place, receive, and manage status of appraisal orders in a standardized format. BCE Emergis will also provide Cendant access to automated appraisal review engines that will improve error identification and enhance quality control.

Emergis Vendor Services Exchange is a workflow management service that transmits loan data and documents between mortgage originators and settlement service providers in real-time. It is part of the BCE Emergis eLending platform, a comprehensive set of Web-based services designed for paperless loan fulfillment, closing and storage that can be used individually or as an end-to-end solution.

"When Cendant Settlement Services Group issued their request for proposal seeking a flexible method for delivering appraisal orders and products, we knew Emergis Vendor Services Exchange would provide exactly the customizable, secure and efficient electronic processing capabilities they needed," declared Jim Aber, President of eFinance at BCE Emergis. "The eLending platform is designed to be integrated easily with our customer's proprietary systems and provide end-to-end mortgage loan processing functionality."

The agreement strengthens the existing relationship between BCE Emergis and Cendant. BCE Emergis will migrate Cendant's users from their Appraisal Delivery System (ADS), which Cendant has been using to deliver appraisals electronically since 1998, to Emergis Vendor Services Exchange on the eLending platform. BCE Emergis plans to roll out the integrated solution, which is already in development, to Cendant users in the second quarter of 2004.

"Implementing this cutting-edge technology solution represents a significant improvement to the service we provide our users, and to their ability to place and fulfill orders while improving overall efficiency and order cycle time," stated Mike

Barattucci, Vice-President of Cendant Settlement Services Group. "BCE Emergis is a leading provider of e-mortgage solutions, and we are confident it will continue to be a mutually beneficial and longstanding relationship."

Cendant Settlement Services Group is a leading real estate information company providing products and services to support residential and commercial transactions. Cendant Settlement Services Group is a national company with 2,300 employees, headquartered in Moorestown, New Jersey. BCE Emergis acquires InfoPharm and Tri-Comp

Montréal, March 22, 2004 — BCE Emergis (TSX: IFM) announced today that it has acquired Montréal-based Gestion InfoPharm Inc., and Saskatoon-based Tri-Comp Systems Ltd. in two separate transactions. Both companies provide IT pharmacy management and network solutions to pharmacies. With these transactions, BCE Emergis extends its portfolio of services which it provides to Canadian pharmacies.

BCE Emergis acquired all of the issued and outstanding shares of Gestion InfoPharm and of Tri-Comp Systems for an aggregate consideration of approximately \$17.5 million payable in cash, less amounts withheld pending any post-closing adjustments.

"We are strengthening our leadership position in the provision of pharmacy information network services in Canada," said Tony Gaffney, President and Chief Executive Officer of BCE Emergis. "This in line with our strategy to offer more complete solutions to the private and public health care sectors."

BCE Emergis already has strong relationships and a secure network that links the health care community. It is among the leading providers of health claims processing, adjudication, and payment services in Canada, serving top private and public insurers. Its electronic platform enables the seamless exchange of information from pharmacies and various health care providers to adjudication service providers, and ultimately to insurers.

Based in the Montréal, Québec region and founded in 1986, InfoPharm now serves some 900 pharmacies in Québec. It specializes in the design, development and marketing of dispensary and point of sales software solutions customized for pharmacies. Its network solution also carries over 10 million drug claims per year.

Tri-Comp Systems was founded in 1983, and is headquartered in Saskatoon, Saskatchewan. It provides pharmacy management software and point of sale systems to approximately 700 pharmacies in British Columbia, Alberta, Saskatchewan and Manitoba.
