## Investment Plan for PDP Line

□ With strong confidence in the PDP market, LGE announced the investment plan for A3, its 4<sup>th</sup> PDP line, which will be capable of producing 120,000 units monthly.

With its investment A3, LGE will be able to reinforce its PDP market presence and secure a powerful driving force in grabbing the world's No. 1 position by 2005.

□ Initially, LGE will invest \$568 Million USD by the second quarter of 2005.

Afterwards, to respond flexibly to the fast-growing PDP market, the company plans to gradually move into the second and third stages.

□ The 4<sup>th</sup> line (A3) will be equipped with a mass-production system capable of producing 6 panels from a single sheet of glass.

□ In addition, the 3<sup>rd</sup> line (A2), which began operations in late April, will increase its monthly capacity from current 75,000 to 100,000 PDPs, by producing 4 panels from a single sheet of glass.
