Qualitative Information Concerning Progress in Results of Operations (Consolidated)

The consolidated group has, as in the interim consolidated accounting period, continued to diversify risks by making loans in smaller amounts and to strengthen its examination and administration, while concentrating on promotion of the "Separate Loan", which is repayable in easy payments, and focusing on negotiation of discounted commercial notes. As a result, the occurrences of debt management receivables and bad debt costs associated therewith have been steadily reduced. Furthermore, the number of branch offices became 70 due to the integration of 16 offices during the interim accounting period. The effect of such integration has become apparent as reduction in personnel and non-personnel costs and other expenses during this third quarter. We will further reduce costs by significantly improving the efficiency of operations.

As a result, the balance of loans as at the end of the third quarter of the consolidated accounting period was 111,094 million yen for operating loan and 45,352 million yen for commercial notes, and the amounts of outstanding loans as at the end of the third quarter of the consolidated accounting period decreased by 25,220 million yen to 156,446 million yen, compared to the end of the previous fiscal period.

The operating income, operating profit, ordinary profit and net profit were 18,157 million yen, 2,309 million yen, 1,820 million yen and 1,899 million yen, respectively, which moved as scheduled.

Qualitative Information Concerning Changes in Financial Condition (Consolidated)

The consolidated group, as in the interim consolidated accounting period, continued its efforts to strengthen its financial position by reducing interest-bearing liabilities through extinguishment of bad loans, sale of investment securities, repurchase, cancellation and redemption of bonds and convertible bonds. The consolidated group also issued "Zero Coupon Convertible Bonds due 2006 (bonds with stock acquisition rights, or *shinkabu yoyakuken-tsuki shasai*)" on November 4, 2003, the aggregate amount of issue being 7.5 billion yen, for payment of debts, and implemented flexible and expeditious capacity policy that responds to changes in business environment.

As to the statement of cash flow, cash and cash equivalent as at the end of the third quarter decreased by 8,287 million yen to 34,227 million yen, compared to the end of the previous fiscal period.

(i) Cash Flow from Operating Activities

Net cash provided by operating activities was 1,229 million yen. This is mainly attributable to decrease in the amount of loans due to promotion of disposal of bad loans and decrease in borrowings related to liquidation of commercial notes.

(ii) Cash Flow from Investing Activities

Net cash provided by investing activities was 905 million yen. This was due to sale of investment securities and repayment of time deposit.

(iii) Cash Flow from Financing Activities

Net cash used for financing activities was 10,423 million yen, despite the issuance of zero coupon convertible bonds during this third quarter. This was due to repurchase, cancellation and redemption of the bonds and convertible bonds existing.

3. Forecast of Consolidated Business Results (April 1, 2003 through March 31, 2004)
