NEWS RELEASE

**Drilling Commences at Indian Ranch Project,
Cortez Trend, Nevada**

Vancouver, British Columbia – White Knight Resources Ltd. (TSX – WKR)
September 28, 2004

White Knight Resources Ltd. (the “Company”) announces that Placer Dome U.S. Inc. (“PDUS”) has commenced drilling on the Company’s 75% owned Indian Ranch property located within the prolific Cortez Trend, north central Nevada.

During the past year, PDUS conducted geological, geochemical and geophysical programs on the property which covers a portion of a covered Lower Plate window. The principal stratigraphic, structural and intrusive geologic features, plus gold mineralization recognized in and around the Indian Ranch window, closely resemble the geologic settings within productive portions of the Cortez Trend. The announced drill program is anticipated to comprise an initial six holes totaling 2,000 metres which are currently permitted, with a further four drill holes totaling approximately 1,000 metres awaiting archaeological clearance before drilling may commence.

The Company owns an undivided 75% interest and Chapleau Resources Ltd. owns an undivided 25% interest in the property. PDUS may earn a 60% interest by spending US\$2,000,000 over a four-year period. Upon vesting its 60% ownership, PDUS can elect to earn an additional 15% by financing a feasibility study on the property.

On behalf of the Board of Directors,

“John M. Leask”

John M. Leask, P.Eng.
