**10. Explanatory letter**

Lietuvos Telekomas' Group provides fixed-line telephony services, Internet-related and data communication services, wholesale services to other local and international telecommunication operators as well as other services. From 1 January 2003 AB Lietuvos Telekomas together with its subsidiaries is designated as an operator with significant market power (SMP) in the public fixed-line telephony network and services, leased line services and interconnection services markets.

As on 30 September 2004, Lietuvos Telekomas' Group consisted of the parent company, AB Lietuvos Telekomas, (Savanorių ave. 28, LT-03501 Vilnius) and its daughter companies: UAB Comliet (Palangos str. 4, LT-01117 Vilnius), UAB Lietuvos Telekomo Verslo Sprendimai (J. Galvydžio str. 7/Žygio str. 97, LT-08222 Vilnius), UAB Lintel (J. Galvydžio str. 7/Žygio str. 97, LT-08222 Vilnius), UAB Voicecom (Eigulių str. 14, LT-03150 Vilnius) and VšĮ Lietuvos Telekomo Sporto Klubas (Savanorių ave. 28, LT-03116 Vilnius). AB Lietuvos Telekomas also owned 60 per cent stake of UAB Baltic Data Center (renamed form Baltijos Informacinių Duomenų Valdymo Centras) (Žirmūnų str. 141, LT-09128 Vilnius), 30 per cent stake of company under liquidation UAB Verslo Portalas (J. Jasinskio str. 16a LT-01112 Vilnius) and 26 per cent stake of UAB TietoEnator Consulting (Žirmūnų str. 141, LT-09128 Vilnius) shares.

As on 30 September 2004, UAB Comliet owned 100 per cent of UAB Comliet Sprendimai (renamed from Sonex Komunikacijos), 95 per cent of Comliet-Kaliningrad (Russian Federation) and 55 per cent of Estonian company Telegrupp AS shares. On 28 July 2004, UAB Comliet sold its shares of Latvian company Datu Tikli SIA. In May 2002, Comliet acquired 75 per cent stake in Datu Tikli SIA. In June 2004, UAB Sonex Komunikacijos acquired 5 per cent of shares of Comliet-Kaliningrad, and in August 2004, UAB Sonex Komunikacijos changed the name into UAB Comliet Sprendimai.

In December 2003, Lietuvos Telekomas transferred all its shares of its subsidiary UAB Lintkom (J. Galvydžio str. 7/Žygio str. 97, LT-08222 Vilnius) to UAB Lintel, another subsidiary of Lietuvos Telekomas. In March 2004, the process of reorganisation of UAB Lintel and UAB Lintkom by merger of UAB Lintkom into UAB Lintel was started and in May 2004 it was ended. After reorganisation UAB Lintel continues its activities, while UAB Lintkom activities were terminated. Now UAB Lintel holds 4.67 per cent of Lietuvos Telekomas' shares (treasury stocks) that UAB Lintkom acquired during the Initial Public Offering (IPO) in 2000.

In July 2004, UAB Baltijos Informacinių Duomenų Valdymo Centras changed the name into UAB Baltic Data Center. UAB Baltic Data Center owns 100 per cent of Latvian company Baltic Data Center SIA.

In February 2004, shareholders of UAB Verslo Portalas (AB Lietuvos Telekomas has 30 per cent and UAB Verslo Žinios 70 per cent of the shares) decided to terminate activities of the company and liquidated it. UAB Verslo Portalas was operating business-to-business portal *verslas.com*.

In September 2004, AB Lietuvos Telekomas acquired from Nexcom Communications LLC 40 per cent of UAB Voicecom shares. Now Lietuvos Telekomas owns all shares (100 per cent) of UAB Voicecom.

The core business of the parent company, AB Lietuvos Telekomas, includes fixed-line telephony, data communication, fixed-line network, wholesale and Internet-related services. It also operates an Internet portal, *Takas*.

UAB Comliet provides such services as designing and construction of fixed-line and wireless telecommunications networks, installation and maintenance of low voltage networks. On 1 April 2004, UAB Comliet transferred telecommunication services installation, fault elimination, order management and network maintenance functions to Lietuvos Telekomas. Due to that 844 employees of Comliet were transferred to Lietuvos Telekomas. In March, it was announced that UAB Comliet considers sell off of its construction business.

UAB Lietuvos Telekomo Verslo Sprendimai provides services and complex telecommunications solutions as well as technical consultancy services on telecommunications issues to around 600 major business customers of Lietuvos Telekomas.

UAB Lintel focuses on provision of the Directory Inquiry Service 118, telemarketing and contact center solutions services. Since June 2004 UAB Lintel holds 4.67 per cent of AB Lietuvos Telekomas' shares (treasury stocks) that previously were held by UAB Lintkom.

UAB Baltic Data Center provides information systems support and comprehensive server management services as well as a wide range of IT customers support center services to Lietuvos Telekomas and other companies in Lithuania and the Baltic region. TietoEnator Oyj owns 40 per cent of shares of the company.

UAB Voicecom provides voice over IP (Internet Protocol) services to residential and business customers.

UAB TietoEnator Consulting provides companies in the Baltic region with high-value-added IT-related consulting services. TietoEnator Oyj owns 74 per cent of shares of the company.

Lietuvos Telekomas is a sole founder of the non-profit organization V&I Lietuvos Telekomo Sporto Klubas.

As on 30 September 2004, consolidated financial statements of Lietuvos Telekomas' Group combined financial statements of AB Lietuvos Telekomas and its daughter companies: UAB Comliet, UAB Lietuvos Telekomo Verslo Sprendimai, UAB Lintel, UAB Voicecom, UAB Baltic Data Center and VšĮ Lietuvos Telekomo Sporto Klubas added together on a line-by-line basis, eliminating the book value of the related investments against the Group's share of equity, and, in the case of not fully owned subsidiaries, the Group recognises a minority interest consisting of the portion of net income and net assets attributable to the interest owned by the third party. Investments in associated undertakings, where AB Lietuvos Telekomas has between 20 and 50 per cent, are accounted for by the equity method of accounting. Consolidated financial statements of UAB Comliet combine financial statement of UAB Comliet, UAB Comliet Sprendimai, Comliet-Kaliningrad and Telegrupp AS. All statements are prepared on the basis of the same accounting principles.

#### Key figures of Lietuvos Telekomas' Group (in thousand of litas)

	Nine Months of 2004	Nine Months of 2003	Change (%)
Revenue	543,615	605,402	-10.2

## Revenue

The total Lietuvos Telekomas Group's revenue for the third quarter of 2004 of 179 million litas was almost the same as for the previous quarter (180 million litas) and revenue from major source of the Company's revenue, the fixed-line telephony services, even slightly increased by 0.1 per cent in spite of decline in number of lines by 0.3 per cent. Revenue from internet and data communication services for July - September of 2004 increased by 3.6 per cent and 9.8 per cent over the same revenue for the second quarter of 2004 and the third quarter of 2003, respectively. In the third quarter of 2004, revenue from other activities of the Group went down by 16.9 per cent compared with the second quarter of 2004 and 21.2 per cent compared with the third quarter of 2003.

The total revenue of Lietuvos Telekomas' Group for the nine-month period of 2004 was down by 10.2 per cent compared to the nine-month period of 2003. The continuing growth of revenue from internet and data communication services by 7.7 per cent, y-o-y, do not compensate a decline in revenue from fixed-line telephony and other activities by 13.4 per cent and 12.5 per cent, respectively.

In the fourth quarter of 2003, Lietuvos Telekomas has adjusted its revenue grouping following the latest standard used by TeliaSonera AB. Revenue from ISDN services was moved from the Internet and Data Communication Services group to the Fixed-line Telephony Services group, and revenue from Contact Centre services (Inquiry service 118, Operator-assisted services) was moved from the Other Services group to the Fixed-line Telephony Services group. Major changes in the grouping of revenue were made in the first quarter of 2003, when services of Lietuvos Telekomas' Group were divided into the following three main groups: Fixed-line Telephony Services (including the former Interconnection Services group), Internet and Data Communication Services (including the former Leased Lines group) and Other Services.

### Reclassified breakdown of the Groups' revenue (in thousand of litas)

	Third Quarter of 2004	Third Quarter of 2003	Change (%)	Nine Months of 2004	Nine Months of 2003	Change (%)
Fixed-line Telephony Services	136,602	154,258	-12.1	412,924	476,604	-13.4
Internet and Data Communication Services	32,779	29,862	9.8	95,671	88,790	7.7
Other Services	10,531	13,368	-21.2	35,020	40,008	-12.5
<b>Total</b>	<b>178,912</b>	<b>197,488</b>	<b>-9.4</b>	<b>543,615</b>	<b>605,402</b>	<b>-10.2</b>

Reduction of tariffs for telecommunication services started in fall of 2003 and applied various discounts caused a decline in revenue from fixed-line telephony services. On the other hand, it increased loyalty of the customers and usage of services. During the first nine month of 2004 roughly 41 thousand new fixed-line telephony lines were installed while 48 thousand were disconnected. Still, net result is a loss of 7 thousand lines. But for comparison during the first nine month of 2003 the Company lost more than 100 thousand lines. As of 30 September 2004 number of main lines in services was 821,045 and fixed-line telephony penetration rate in Lithuania stood at 23.9.

Traffic figures for January - September 2004 are well above the figures for the same period year ago: traffic of local calls is up by 15.3 per cent, long-distance calls - up by 25.4 per cent, calls from fixed to mobile networks - up by 29.2 per cent and international calls - up by 14.6 per cent. In February 2004 improved local calls' and long distance calls' payment plans by additional 30 hours free of charge calls during off peak time and weekends for the same subscription fee as before boosted not only number of payment plans subscriber but traffic figures as well. At the end of September 2004 number of payment plans subscribed by the customers reached almost

409 thousand (357 thousand a year ago). The most popular is local calls' payment plan, *Vietinis (Local)*, which accounts for 82 per cent of the total number of subscribed payment plans. International calls' payment plan, *Pasaulis (World)*, introduced in October 2003, and domestic long-distance calls' payment plan, *Miestai (Cities)*, launched in January 2004, that offer lower than regular tariffs are also gaining popularity.

However increased traffic volumes and stabilised customer base do not offset an impact of reduced tariffs and revenue from traffic charges for nine months of 2004 was 22.4 per cent lower than revenue for the same period year ago.

According to the Communications Regulatory Authority's (CRA) Report on Telecommunications market for the Second Quarter of 2004, 21 companies at the end of the second quarter of 2004 were providing international fixed-line telephony call services, eight whereof (including Lietuvos Telekomas) were providing domestic (local and/or long distance) call services too. Number of customers of alternative fixed-line telephony service providers was 26.4 thousand. According to the Report, Lietuvos Telekomas' share of fixed-line telephony services market (excluding networks' interconnection) for the second quarter of 2004 in terms of revenue amounted to 95.37 per cent and in terms of total traffic - 96.7 per cent (98.7 per cent of local calls, 93.4 per cent of domestic long-distance calls, 78.1 per cent of international calls and 95.8 per cent calls from fixed to mobile networks traffic).

The CRA Report shows that at the end June 2004 Lietuvos Telekomas had 26.5 per cent of the total number of internet access users in Lithuania (including internet access via mobile, cable TV networks, LAN and etc.) but in terms of revenue the Company accounted for 50.1 per cent stake in total internet providers' market for the second quarter of 2004.

Number of Lietuvos Telekomas' internet access services users continues to grow. At the end of September the total number of DSL Takas service users was 36,997 (16,509 a year ago). In July, the Company introduced a new internet plan, *Takas iD3*, which offer unlimited internet access during off-peak time, weekends and holidays for just 26 litas a month (data download speed up to 256 kbit/s, upload - up to 128 kbit/s). During July - September more than 5 thousand internet users subscribed to this plan. As on 30 September 2004 the total number of dial-up internet access service users was more than 36 thousand (32 thousand a year ago) and more than 17 thousand customers were subscribers to dial-up internet payment plan, *Internetas (Internet)*, which was introduced in February.

In spite of growing number of internet access service users, the competition from other internet service providers puts pressure on the services prices and the growth of revenue from internet-related services slowed down compared with the growth in previous years.

Fluctuation of revenue from other Group's activities is mainly affected by the fluctuation of revenue from Comliet's construction activities.

### Expenses

During the third quarter of 2004, the Group continued to streamline its activities. Major reorganisation in Lietuvos Telekomas occurred in the first half of 2004. During July - September the total number of employees decreased from 3,207 to 3,180 and at the end September the number of main lines per one full-time employee in the core business was 326, while a year ago this figure stood at 275.

Due to reorganisation additional employee redundancy expenses for the nine months of 2004 amounted to 10.7 million litas. Nevertheless, employee related expenses for January - September of 2004 went down by 12.6 per cent over the same period a year ago. Interconnection expenses increased by 5.8 per cent, while other expenses went down by 9.8 per cent. Overall, total operating expenses in the period of nine months of 2004 were down by 7 per cent over the same period of 2003.

Due to lower revenue level EBITDA for January - September 2004 went down by 13.5 per cent to 257 million litas over EBITDA for the same period of 2003, but EBITDA margin still was 47.3 per cent (49.2 per cent a year ago).

#### Net Result

Regular depreciation and amortisation charges excluding assets revaluation charge of 41.5 million litas for the third quarter of 2003 continues to go down at roughly 16 per cent (y-o-y) rate. Declining depreciation and amortisation charges together with diminishing financial costs have a positive effect on Lietuvos Telekomas' profitability.

In the third quarter of 2004, the Group suffered a loss of 397 thousand litas on sales of shares of Latvian subsidiary of Comliet, Datu Tikli SIA.

Overall, the profit before profit tax for the nine months of 2004 was 31 million litas, while comparable profit before profit tax (excluding assets revaluation charge) for nine months of 2003 was 11 million litas. The net profit of Lietuvos Telekomas' Group for January - September of 2004 was 25 million litas while a year ago comparable profit was 8 million litas and actual loss was 27 million litas.

#### Investments

During the nine months of 2004 the total amount of investments made by Lietuvos Telekomas' Group amounted to 45 million litas (40 million litas in 2003). Major part of investments went into development of transmission and access networks. As a result, on 30 September 2004, the digitalisation rate of Lietuvos Telekomas' network stood at 92.1 per cent (90.1 per cent a year ago), total number of ISDN channels in service was 43 thousand (38 thousand a year ago), total number of ADSL access points (including wholesales) more than doubled from 17,516 to 39,464 and number of MPLS VPN (Multiprotocol Label Switching Virtual Private Network) access points grew from 666 to 898. In August, Lietuvos Telekomas increased its international internet access capacity from 930 Mbit/s to 1,400 Mbit/s.

During the third quarter of 2004, Lietuvos Telekomas' Group continued to streamline its structure. In July, UAB Comliet disposed its 75 per cent stake in Latvian company Datu Tikli SIA. Shares of Datu Tikli SIA were acquired in May 2002. In September 2004, Lietuvos Telekomas took over full control of UAB Voiccom by acquiring 40 per cent stake from Nexcom Telecommunications LLC, U.S.A.

#### Balance Sheet and Cash Flow

Due to continuous depreciation and amortisation of the assets, decrease in inventories, assets held for sales and cash the total assets of Lietuvos Telekomas' Group decreased by 17.3 per cent from 1,542 million litas on 31 December 2003 to 1,275 million litas on 30 September 2004. During the first nine months of 2004 shareholders' equity declined by 2 per cent due to payout of dividends in May and amounted to 1,114 million litas at the end of September. In the third quarter of 2004 the net debt went below zero and on 30 September 2004 was -19 million litas. The net debt to equity ratio was -1.7 per cent (6.2 per cent on 31 December 2003).

During the nine months of 2004 the net cash flow from operating activities was 179 million litas (265 million litas during the same period a year ago). The cash flow after investing activities was 146 million litas (233 million litas in 2003). An amount of 218 million litas was used in financing activities for repayment of loans and payout of dividends for the year 2003. Overall, during January - September 2004 cash and cash equivalents of Lietuvos Telekomas' Group decreased by 72 million litas.

## IV. MATERIAL EVENTS IN THE ISSUER'S ACTIVITY

### 11. Material events in the Issuer's activity

On 27 July 2004, the Board of AB Lietuvos Telekomas approved unaudited consolidated financial statements of Lietuvos Telekomas' Group for the second quarter and six months of 2004 prepared according to International Financial Reporting Standards and appointed Gintautas Žintelis as a Deputy Chairman of the Board. Revenue for the six months of 2004 amounted to 365 million litas, a decrease by 10.6 per cent over the revenue of 408 million litas for the same period a year ago. During the second quarter of 2004 the number of main lines in service declined by 2.3 thousand to 823.5 thousand, while a year ago number of main lines in service stood at 859.2 thousand. In the first half of 2004 Lietuvos Telekomas reorganised its management structure and reduced the total number of employees by 379, and incurred additional redundancy costs of 9 million litas, but nevertheless operating expenses, year-on-year, went down by 8.5 per cent from 210 million litas to 192 million litas. EBITDA for the six months' period was 172 million litas (198 million in the same period a year ago) and EBITDA margin amounted to 47.2 per cent (48.4 per cent in 2003). Profit before profit tax for the first half of 2004 was 17 million litas and net profit amounted to 13 million litas, while a year ago net profit amounted to 1.2 million litas. Net cash flow after investment activities for the six months' period of 2004 amounted to 116 million litas (161 million litas in 2003). Due to payout of dividends and repayment of loans, during the first half of 2004 cash and cash equivalents decreased by 53 million litas. Investments for the six months of 2004 amounted to 22 million litas (30 million litas in 2003).

On 28 July 2004, UAB Comliet, a subsidiary of AB Lietuvos Telekomas, sold all shares of Latvian company Datu Tikli SIA owned by UAB Comliet. On 16 June 2004, the Board of AB Lietuvos Telekomas approved proposal of UAB Comliet to sell shares of Datu Tikli SIA. In May 2002, UAB Comliet acquired 75 per cent of Datu Tikli SIA shares.

On 30 July 2004, the Company announced that UAB Baltijos Informaciniu Duomenu Valdymo Centras, a subsidiary of AB Lietuvos Telekomas, is renamed UAB Baltic Data Center. AB Lietuvos Telekomas owns 60 per cent of UAB Baltic Data Center. At the end of 2001, Lietuvos Telekomas established a wholly-owned subsidiary UAB Baltijos Informaciniu Duomenu Valdymo Centras. In May 2002, Lietuvos Telekomas sold a 40 per cent stake in Baltijos Informaciniu Duomenu Valdymo Centras to TietoEnator Oyj.

On 10 August 2004, the Company announced that UAB Sonex Komunikacijos, a subsidiary of UAB Comliet, which is a subsidiary of AB Lietuvos Telekomas, is renamed UAB Comliet Sprendimai. In July 2003, UAB Comliet acquired 100 per cent of UAB Sonex Komunikacijos' shares from UAB Sonex Group.

On 8 September 2004, the Company announced that following the resolution of the Board of 17 August 2004 AB Lietuvos Telekomas signed an agreement to acquire 40 per cent of UAB Voicecom shares from Nexcom Telecommunications LLC, U.S.A. Agreement shall come into force upon receipt of the permission of Lithuanian Competition Council for concentration. AB Lietuvos Telekomas has submitted an application to Lithuanian Competition Council for permission to pursue the concentration. The joint American-Lithuanian venture, UAB Voicecom, 60 per cent owned by AB Lietuvos Telekomas, was registered on 6 March 2001. UAB Voicecom provides internet telephony services to business and residential customers. This announcement disclosed the content of the confidential announcements of the material event of 17 August 2004 and 26 August 2004.

On 24 September 2004, the Company announced that Lithuanian Competition Council issued a permission for concentration and AB Lietuvos Telekomas acquired 40 per cent stake in UAB Voicecom from Nexcom Telecommunications LLC. From now on Lietuvos Telekomas owns the whole 100 per cent stake in UAB Voicecom. UAB Voicecom provides internet telephony services to business and residential customers.

All material events related to the activity of the Company have been submitted to Lithuanian Securities Commission, Vilnius Stock Exchange, Lietuvos Rytas daily, BNS and ELTA news agencies and posted on the Company's internet page [www.telecom.lt](http://www.telecom.lt).

26-10-2004

### Lietuvos Telekomas' Group Results for the Third Quarter of 2004

Lietuvos Telekomas' Group, the largest fixed-line telephony and Internet related services provider in Lithuania, announces its unaudited consolidated financial statements for the third quarter and nine months of 2004 prepared according to International Financial Reporting Standards.

#### Highlights

- Revenue for the third quarter of 2004 amounted to 179 million litas (180 million litas for the second quarter of 2004). The total revenue for the nine months of 2004 amounted to 544 million litas, a decrease by 10.2 per cent over the revenue of 605 million litas a year ago.
- During the third quarter of 2004 the number of main lines in service declined by 2.5 thousand to 821 thousand, while a year ago number of main lines in service stood at 836 thousand. During the year number of *DSL Takas* users more than double and by the end of September 2004 reached 37 thousand.
- The total operating expenses for the nine months amounted to 286 million litas, a decrease by 7 per cent over 308 million litas a year ago.
- EBITDA for the nine months' period of 2004 was 257 million litas (298 million in the same period a year ago) and EBITDA margin amounted to 47.3 per cent (49.2 per cent in 2003).
- Profit before profit tax for January - September of 2004 was 31 million litas and net profit amounted to 25 million litas, while a year ago net result was a loss of 27 million litas due to assets revaluation in the third quarter of 2003.
- Net cash flow after investment activities for the nine months' period of 2004 amounted to 146 million litas (233 million litas in 2003). During the period cash and cash equivalents decreased by 72 million litas due to payout of dividends (47 million litas) and repayment of loans (170 million litas).
- Investments for the nine months of 2004 amounted to 45 million litas (40 million litas in 2003).

#### Group's Key Financial Figures (in thousand of litas)

	Third Quarter of 2004	Third Quarter of 2003	Change (%)	Nine Months of 2004	Nine Months of 2003	Change (%)
Revenue	178,912	197,488	-9.4	543,615	605,402	-10.2
Operating Expenses	93,785	97,479	-3.8	286,280	307,817	-7.0

NOTES: (a) Includes assets revaluation charge of 41.5 million litas for the third quarter and nine months of 2003.

(b) Treasury stocks are excluded.

1 € = 3.4528 litas, 1 US dollar = 2.8029 litas (30 September 2004)

Arūnas Šikšta, General Manager of AB Lietuvos Telekomas, has made the following comments on the results for the third quarter and nine months of 2004:

"The third quarter development in financial terms was stable. We have managed to keep the decline in fixed lines on a very low level. The total call traffic continued to increase which was positive as well. The biggest growth was in the number of internet service users. Lietuvos Telekomas has 50 per cent of the internet market share (by value) and 95 per cent of the fixed voice services market share (by value). That indicates that we are managing well in the competition among all local telecommunication market players and have succeeded in implementing our strategy to keep the position as the biggest internet service provider in the Lithuanian private and corporate segments. Competition has increased in all areas, but we are strongly focusing on further improvements in our service and customer relationship activities. One of the main focuses in our business in the coming period will be to find profitable new core business options on the local market. We will also continue our strong operational expenses control."

#### Revenue

The total Lietuvos Telekomas Group's revenue for the third quarter of 2004 of 179 million litas was almost the same as for the previous quarter (180 million litas) and revenue from major source of the Company's revenue, the fixed-line telephony services, even slightly increased by 0.1 per cent in spite of decline in number of lines by 0.3 per cent. Revenue from internet and data communication services for July - September of 2004 increased by 3.6 per cent and 9.8 per cent over the same revenue for the second quarter of 2004 and the third quarter of 2003, respectively. In the third quarter of 2004, revenue from other activities of the Group went down by 16.9 per cent compared with the second quarter of 2004 and 21.2 per cent compared with the third quarter of 2003.

The total revenue of Lietuvos Telekomas' Group for the nine-month period of 2004 was down by 10.2 per cent compared to the nine-month period of 2003. The continuing growth of revenue from internet and data communication services by 7.7 per cent, y-o-y, do not compensate a decline in revenue from fixed-line telephony and other activities by 13.4 per cent and 12.5 per cent, respectively.

In the fourth quarter of 2003, Lietuvos Telekomas has adjusted its revenue grouping following the latest standard used by TeliaSonera AB. Revenue from ISDN services was moved from the Internet and Data Communication Services group to the Fixed-line Telephony Services group, and revenue from Contact Centre services (Inquiry service 118, Operator-assisted services) was moved from the Other Services group to the Fixed-line Telephony Services group. Major changes in the grouping of revenue were made in the first quarter of 2003, when services of Lietuvos Telekomas' Group were divided into the following three main groups: Fixed-line Telephony Services (including the former Interconnection Services group), Internet and Data Communication Services (including the former Leased Lines group) and Other Services.

#### Reclassified breakdown of the Groups' revenue (in thousand of litas)

	Third Quarter of 2004	Third Quarter of 2003	Change (%)	Nine Months of 2004	Nine Months of 2003	Change (%)
Fixed-line Telephony Services	135,602	154,258	-12.1	412,924	476,604	-13.4
Internet and Data Communication Services	32,779	29,862	9.8	95,671	88,790	7.7
Other Services	10,531	13,368	-21.2	35,020	40,008	-12.5
<b>Total</b>	<b>178,912</b>	<b>197,488</b>	<b>-9.4</b>	<b>543,615</b>	<b>605,402</b>	<b>-10.2</b>

Reduction of tariffs for telecommunication services started in fall of 2003 and applied various discounts caused a decline in revenue from fixed-line telephony services. On the other hand, it increased loyalty of the customers and usage of services. During the first nine month of 2004 roughly 41 thousand new fixed-line telephony lines were installed while 48 thousand were disconnected. Still, net result is a loss of 7 thousand lines. But for comparison during the first nine month of 2003 the Company lost more than 100 thousand lines. As of 30 September 2004 number of main lines in services was 821,045 and fixed-line telephony penetration rate in Lithuania stood at 23.9.

Traffic figures for January - September 2004 are well above the figures for the same period year ago: traffic of local calls is up by 15.3 per cent, long-distance calls - up by 25.4 per cent, calls from fixed to mobile networks - up by 29.2 per cent and international calls - up by 14.6 per cent. In February 2004 improved local calls' and long distance calls' payment plans by additional 30 hours free of charge calls during off peak time and weekends for the same subscription fee as before boosted not only number of payment plans subscriber but traffic figures as well. At the end of September 2004 number of payment plans subscribed by the customers reached almost 409 thousand (357 thousand a year ago). The most popular is local calls' payment plan, *Vietinis (Local)*, which accounts for 82 per cent of the total number of subscribed payment plans. International calls' payment plan, *Pasaulis (World)*, introduced in October 2003, and domestic long-distance calls' payment plan, *Miestai (Cities)*, launched in January 2004, that offer lower than regular tariffs are also gaining popularity.

However increased traffic volumes and stabilised customer base do not off set an impact of reduced tariffs and revenue from traffic charges for nine months of 2004 was 22.4 per cent lower than revenue for the same period year ago.

According to the Communications Regulatory Authority's (CRA) Report on Telecommunications market for the Second Quarter of 2004, 21 companies at the end of the second quarter of 2004 were providing international fixed-line telephony call services, eight whereof (including Lietuvos Telekomas) were providing domestic (local and/or long distance) call services too. Number of customers of alternative fixed-line telephony service providers was 26.4 thousand. According to the Report, Lietuvos Telekomas' share of fixed-line telephony services market (excluding networks' interconnection) for the second quarter of 2004 in terms of revenue amounted to 95.37 per cent and in terms of total traffic - 96.7 per cent (98.7 per cent of local calls, 93.4 per cent of domestic long-distance calls, 78.1 per cent of international calls and 95.8 per cent calls from fixed to mobile networks traffic).

The CRA Report shows that at the end June 2004 Lietuvos Telekomas had 26.5 per cent of the total number of internet access users in Lithuania (including internet access via mobile, cable TV networks, LAN and etc.) but in terms of revenue the Company accounted for 50.1 per cent stake in total internet providers' market for the second quarter of 2004.

Number of Lietuvos Telekomas' internet access services users continues to grow. At the end of September the total number of DSL Takas service users was 36,997 (16,509 a year ago). In July, the Company introduced a new internet plan, *Takas iD3*, which offer unlimited internet access during off-peak time, weekends and holidays for just 26 litas a month (data download speed up to 256 kbit/s, upload - up to 128 kbit/s). During July - September more than 5 thousand internet users subscribed to this plan. As on 30 September 2004 the total number of dial-up internet access service users was more than 36 thousand (32 thousand a year ago) and more than 17 thousand customers were subscribers to dial-up internet payment plan, *Internetas (Internet)*, which was introduced in February.

In spite of growing number of internet access service users, the competition from other internet service providers puts pressure on the services prices and the growth of revenue from internet-related services slowed down compared with the growth in previous years.

Fluctuation of revenue from other Group's activities is mainly affected by the fluctuation of revenue from Comliet's construction activities.

### Expenses

During the third quarter of 2004, the Group continued to streamline its activities. Major reorganisation in Lietuvos Telekomas occurred in the first half of 2004. During July - September the total number of employees decreased from 3,207 to 3,180 and at the end September the number of main lines per one full-time employee in the core business was 326, while a year ago this figure stood at 275.

Due to reorganisation additional employee redundancy expenses for the nine months of 2004 amounted to 10.7 million litas. Nevertheless, employee related expenses for January - September of 2004 went down by 12.6 per cent over the same period a year ago. Interconnection expenses increased by 5.8 per cent, while other expenses went down by 9.8 per cent. Overall, total operating expenses in the period of nine months of 2004 were down by 7 per cent over the same period of 2003.

Due to lower revenue level EBITDA for January - September 2004 went down by 13.5 per cent to 257 million litas over EBITDA for the same period of 2003, but EBITDA margin still was 47.3 per cent (49.2 per cent a year ago).

#### Net Result

Regular depreciation and amortisation charges excluding assets revaluation charge of 41.5 million litas for the third quarter of 2003 continues to go down at roughly 16 per cent (y-o-y) rate. Declining depreciation and amortisation charges together with diminishing financial costs have a positive effect on Lietuvos Telekomas' profitability.

In the third quarter of 2004, the Group suffered a loss of 397 thousand litas on sales of shares of Latvian subsidiary of Comliet, Datu Tikli SIA.

Overall, the profit before profit tax for the nine months of 2004 was 31 million litas, while comparable profit before profit tax (excluding assets revaluation charge) for nine months of 2003 was 11 million litas. The net profit of Lietuvos Telekomas' Group for January - September of 2004 was 25 million litas while a year ago comparable profit was 8 million litas and actual loss was 27 million litas.

#### Investments

During the nine months of 2004 the total amount of investments made by Lietuvos Telekomas' Group amounted to 45 million litas (40 million litas in 2003). Major part of investments went into development of transmission and access networks. As a result, on 30 September 2004, the digitalisation rate of Lietuvos Telekomas' network stood at 92.1 per cent (90.1 per cent a year ago), total number of ISDN channels in service was 43 thousand (38 thousand a year ago), total number of ADSL access points (including wholesales) more than doubled from 17,516 to 39,464 and number of MPLS VPN (Multiprotocol Label Switching Virtual Private Network) access points grew from 666 to 898. In August, Lietuvos Telekomas increased its international internet access capacity from 930 Mbit/s to 1,400 Mbit/s.

During the third quarter of 2004, Lietuvos Telekomas' Group continued to streamline its structure. In July, UAB Comliet disposed its 75 per cent stake in Latvian company Datu Tikli SIA. Shares of Datu Tikli SIA were acquired in May 2002. In September 2004, Lietuvos Telekomas took over full control of UAB Voicecom by acquiring 40 per cent stake from Nexcom Telecommunications LLC, U.S.A.

#### Balance Sheet and Cash Flow

Due to continuous depreciation and amortisation of the assets, decrease in inventories, assets held for sales and cash the total assets of Lietuvos Telekomas' Group decreased by 17.3 per cent from 1,542 million litas on 31 December 2003 to 1,275 million litas on 30 September 2004. During the first nine months of 2004 shareholders' equity declined by 2 per cent due to payout of dividends in May and amounted to 1,114 million litas at the end of September. In the third quarter of 2004 the net debt went below zero and on 30 September 2004 was -19 million litas. The net debt to equity ratio was -1.7 per cent (6.2 per cent on 31 December 2003).

During the nine months of 2004 the net cash flow from operating activities was 179 million litas (265 million litas during the same period a year ago). The cash flow after investing activities was 146 million litas (233 million litas in 2003). An amount of 218 million litas was used in financing activities for repayment of loans and payout of dividends for the year 2003. Overall, during January - September 2004 cash and cash equivalents of Lietuvos Telekomas' Group decreased by 72 million litas.

Due to lower revenue level EBITDA for January - September 2004 went down by 13.5 per cent to 257 million litas over EBITDA for the same period of 2003, but EBITDA margin still was 47.3 per cent (49.2 per cent a year ago).

#### Net Result

Regular depreciation and amortisation charges excluding assets revaluation charge of 41.5 million litas for the third quarter of 2003 continues to go down at roughly 16 per cent (y-o-y) rate. Declining depreciation and amortisation charges together with diminishing financial costs have a positive effect on Lietuvos Telekomas' profitability.

In the third quarter of 2004, the Group suffered a loss of 397 thousand litas on sales of shares of Latvian subsidiary of Comliet, Datu Tikli SIA.

Overall, the profit before profit tax for the nine months of 2004 was 31 million litas, while comparable profit before profit tax (excluding assets revaluation charge) for nine months of 2003 was 11 million litas. The net profit of Lietuvos Telekomas' Group for January - September of 2004 was 25 million litas while a year ago comparable profit was 8 million litas and actual loss was 27 million litas.

#### Investments

During the nine months of 2004 the total amount of investments made by Lietuvos Telekomas' Group amounted to 45 million litas (40 million litas in 2003). Major part of investments went into development of transmission and access networks. As a result, on 30 September 2004, the digitalisation rate of Lietuvos Telekomas' network stood at 92.1 per cent (90.1 per cent a year ago), total number of ISDN channels in service was 43 thousand (38 thousand a year ago), total number of ADSL access points (including wholesales) more than doubled from 17,516 to 39,464 and number of MPLS VPN (Multiprotocol Label Switching Virtual Private Network) access points grew from 666 to 898. In August, Lietuvos Telekomas increased its international internet access capacity from 930 Mbit/s to 1,400 Mbit/s.

During the third quarter of 2004, Lietuvos Telekomas' Group continued to streamline its structure. In July, UAB Comliet disposed its 75 per cent stake in Latvian company Datu Tikli SIA. Shares of Datu Tikli SIA were acquired in May 2002. In September 2004, Lietuvos Telekomas took over full control of UAB Voiccom by acquiring 40 per cent stake from Nexcom Telecommunications LLC, U.S.A.

#### Balance Sheet and Cash Flow

Due to continuous depreciation and amortisation of the assets, decrease in inventories, assets held for sales and cash the total assets of Lietuvos Telekomas' Group decreased by 17.3 per cent from 1,542 million litas on 31 December 2003 to 1,275 million litas on 30 September 2004. During the first nine months of 2004 shareholders' equity declined by 2 per cent due to payout of dividends in May and amounted to 1,114 million litas at the end of September. In the third quarter of 2004 the net debt went below zero and on 30 September 2004 was -19 million litas. The net debt to equity ratio was -1.7 per cent (6.2 per cent on 31 December 2003).
