Please provide a breakdown of percentages for each cell of the matrix for loans that fall within the appropriate category broken down between loans with MI and loans without MI as well as the loan count for each breakdown in the matrices below. The sum of the percentages for the with MI and without MI percentages should equal 100%. The sum of the loans in the matrices below should equal the number of loans in the pool. If FICO is not available for loan, default to <450 bucket. If deal does not have MI, provide data for the entire pool in the "Loans without MI" matrix.
