## Note to Form D

This Form D relates to a subordinated unsecured convertible promissory note in the principal amount of \$16,669,379.87 (the "Note") that Churchill Downs Incorporated (the "Company") issued to one of its shareholders as consideration for the Company's redemption of shares of common stock of the Company from that shareholder. Upon maturity, the Company must pay the principal balance and unpaid accrued interest on the Note in any combination of cash and shares of the Company's common stock, based upon a set price per share, subject to adjustments for stock splits and the like (the "Conversion Price"). The holder of the Note may convert the Note, in whole or in part, into the number of shares of the Company's common stock equal to the principal amount of the Note being converted plus accrued and unpaid interest thereon divided by the Conversion Price, subject to certain limitations and procedures as specified in the Note. This Form D is intended to cover the issuance of the Note as well as the issuance of any shares of common stock or other securities of the Company, if any, that may be issued upon any conversion or payment of the Note. Since the Note was issued to redeem shares of the Company's stock, no cash proceeds were received by the Company as a result of the issuance of the Note.
