COMPUTATIONAL MATERIALS DISCLAIMER

The attached tables and other statistical analyses (the "Computational Materials") are privileged and intended for use by the addressee only. These Computational Materials have been prepared by Greenwich Capital Markets, Inc. in reliance upon information furnished by the issuer of the securities and its affiliates. These Computational Materials are furnished to you solely by Greenwich Capital Markets, Inc. and not by the issuer of the securities. They may not be provided to any third party other than the addressee's legal, tax, financial and/or accounting advisors for the purposes of evaluating said material.

Numerous assumptions were used in preparing the Computational Materials which may or may not be reflected therein. As such, no assurance can be given as to the Computational Materials' accuracy, appropriateness or completeness in any particular context; nor as to whether the Computational Materials and/or the assumptions upon which they are based reflect present market conditions or future market performance. These Computational Materials should not be construed as either projections or predictions or as legal, tax, financial or accounting advice.

Any weighted average lives, yields and principal payment periods shown in the Computational Materials are based on prepayments assumptions, and changes in such prepayment assumptions may dramatically affect such weighted average lives, yields and principal payment periods. In addition, it is possible that prepayments on the underlying assets will occur at rates slower or faster than the rates shown in the attached Computational Materials. Furthermore, unless otherwise provided, the Computational Materials assume no losses on the underlying assets and no interest shortfall. The specific characteristics of the securities may differ from those shown in the Computational Materials due to differences between the actual underlying assets and the hypothetical underlying assets used in preparing the Computational Materials. The principal amount and designation of any security described in the Computational Materials are subject to change prior to issuance. Neither Greenwich Capital Markets, Inc. nor any of its affiliates makes any representation or warranty as to the actual rate or timing of payments on any of the underlying assets or the payments or yield on the securities.

Although a registration statement (including the Prospectus) relating to the securities discussed in this communication has been filed with the Securities and Exchange Commission and is effective, the final prospectus supplement relating to the securities discussed in this communication has not been filed with Securities and Exchange Commission. This communication shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities discussed in this communication in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification of such securities under the securities laws of any such state. It does not purport to be all-inclusive or to contain all of the information that a prospective investor may require to make a full analysis of the transaction. All amounts are approximate and subject to change. The information contained herein supersedes information contained in any prior term sheet for this transaction.

For each of the Mortgage Loans, the related borrower must make a minimum monthly payment which is subject to adjustment on a date specified in the mortgage note and annually on the same date thereafter, subject to the conditions that (i) the amount of the minimum monthly payment will not increase or decrease by an amount that is more than 7.50% of the last minimum monthly payment, (ii) as of the fifth anniversary of the first due date and on the same day every five years thereafter as well as the final payment adjustment date, the minimum monthly payment will be recast without regard to the limitation in clause (i) above to amortize fully the then unpaid principal balance over the remaining term to maturity and (iii) if the unpaid principal balance exceeds 110% of the original principal balance due to Deferred Interest (the "**Negative Amortization Limit**"), the minimum monthly payment will be recast without regard to the limitation in clause (i) to amortize fully the then unpaid principal balance over the remaining term to maturity.

Negative amortization on a Mortgage Loan will occur when the monthly payment made by the borrower is less than interest accrued at the current mortgage rate on the unpaid principal balance of the Mortgage Loan (such deficiency, "**Deferred Interest**"). The amount of the Deferred Interest is added to the unpaid principal balance of the Mortgage Loan.

The "**Group 1 Mortgage Loans**" consist of conforming balance adjustable rate, first lien residential mortgage loans with original terms to maturity of not more than 30 years. The "**Group 2 Mortgage Loans**" consist of conforming and non-conforming balance adjustable rate, first lien residential mortgage loans with original terms to maturity of not more than 30 years. The Group 1 Mortgage Loans and the Group 2 Mortgage Loans are collectively referred to herein as the "**Mortgage Loans**".

On the Closing Date the aggregate principal balance of the Mortgage Loans as of the Cut-off Date is expected to be approximately \$1,198,209,256, the aggregate principal balance of the Group 1 Mortgage Loans as of the Cut-off Date is expected to be approximately \$649,289,765 and the aggregate principal balance of the Group 2 Mortgage Loans as of the Cut-off Date is expected to be approximately \$548,919,491.

Credit Enhancement: Senior/subordinate, shifting interest structure. The credit enhancement information shown below is subject to final rating agency approval.

Credit enhancement for the Senior Certificates will consist of the subordination of the Class B-1, Class B-2, Class B-3, Class B-4, Class B-5 and Class B-6 Certificates, initially [7.00]% total subordination.

Shifting Interest: Until the Distribution Date occurring in February 2015, the Subordinate Certificates will be locked out from receipt of unscheduled principal (unless the Senior Certificates are paid down to zero or the credit enhancement percentage provided by the Subordinate Certificates has doubled prior to such date as described below). After such time and subject to standard collateral performance triggers (as described in the prospectus supplement), the Subordinate Certificates will receive increasing portions of unscheduled principal.

The unscheduled principal payment percentages on the Subordinate Certificates are as follows:

<u>Periods:</u>	<u>Unscheduled Principal Payments (%)</u>
February 2005 – January 2015	0% Pro Rata Share
February 2015 – January 2016	30% Pro Rata Share
February 2016 – January 2017	40% Pro Rata Share
February 2017 – January 2018	60% Pro Rata Share
February 2018 – January 2019	80% Pro Rata Share
February 2019 and after	100% Pro Rata Share

This information is furnished to you solely by Greenwich Capital Markets, Inc. and not by the issuer of the securities or any of its affiliates. Greenwich Capital Markets, Inc. is acting as Underwriter and not acting as Agent for the issuer or its affiliates in connection with the proposed transaction.

This Preliminary Term Sheet is provided for information purposes only, and does not constitute an offer to sell, nor a solicitation of an offer to buy, the referenced securities. It does not purport to be all-inclusive or to contain all of the information that a prospective investor may require to make a full analysis of the transaction. All amounts are approximate and subject to change. The information contained herein supersedes information contained in any prior term sheet for this transaction.

In addition, the information contained herein will be superseded by information contained in term sheets circulated after the date hereof and by information contained in the Prospectus and Prospectus Supplement for this transaction. An offering may be made only through the delivery of the Prospectus and Prospectus Supplement.

However, if the credit enhancement percentage provided by the Subordinate Certificates has doubled from the initial credit enhancement percentage (subject to the performance triggers described in the prospectus supplement), (i) prior to the Distribution Date in February 2008, the Subordinate Certificates will be entitled to only 50% of their pro rata share of unscheduled principal payments or (ii) on or after the Distribution Date in February 2008, the Subordinate Certificates will be entitled to 100% of their pro rata share of unscheduled principal payments.

Scheduled principal payments will be distributed pro rata to the Senior and Subordinate Certificates.

Any unscheduled principal not allocated to the Subordinate Certificates will be allocated to the Senior Certificates. In the event the current aggregate senior percentage (aggregate principal balance of the Senior Certificates, divided by the aggregate principal balance of the Mortgage Loans) exceeds the initial aggregate senior percentage (aggregate principal balance of the Senior Certificates as of the Closing Date, divided by the aggregate principal balance of the Mortgage Loans as of the Cut-off Date), the Senior Certificates will receive all unscheduled principal payments for the Mortgage Loans, regardless of any unscheduled principal payment percentages above.

Unscheduled principal will generally consist of the sum of (i) liquidation proceeds, recoveries, and other unscheduled amounts and (ii) the excess if any of voluntary prepayments over Deferred Interest.

*Allocation of
Realized Losses:*

Any realized losses (inclusive of bankruptcy, special hazard and fraud losses) on the Mortgage Loans will be allocated as follows: first, to the Subordinate Certificates in reverse order of their numerical Class designations, in each case until the related class principal balance has been reduced to zero; and *second*; to the Senior Certificates (other than the Class A-X-1 Certificates) as follows:

- (a) any realized losses remaining on the Group 1 Mortgage Loans *pro rata*, to the Class 1-A-1 Certificates and the group 1 principal only component of the Class A-X-2 Certificates, on a pro-rata basis until the related class principal balance or component principal balance has been reduced to zero, *provided however* that any realized losses otherwise allocable to the Class 1-A-1 Certificates will instead be allocated *pro rata* to the Class 2-A-3 and Class 2-A-4 Certificates until its class principal balance has been reduced to zero.
- (b) Any realized losses remaining on the Group 2 Mortgage Loans *pro rata*, to the Class 2-A-1A Certificates, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates and the group 2 principal only component of the Class A-X-2 Certificates until the related class principal balance or component principal balance has been reduced to zero, *provided however* that realized losses otherwise allocable to the Class 2-A-1A Certificates will instead be allocated to the Class 2-A-1B Certificates, until its class principal balance has been reduced to zero *and* that realized losses otherwise allocable to the Class 2-A-2A Certificates will instead be allocated to the Class 2-A-2B Certificates, until its class principal balance has been reduced to zero.

Net Mortgage Rate: The "*Net Mortgage Rate*" with respect to each Mortgage Loan is equal to the mortgage rate less the servicing fee rate (0.375%) and the trustee fee rate.

Net WAC Cap: The "*Net WAC Cap*" for the Class 1-A-1 Certificates is equal to (x) the weighted average of the Net Mortgage Rates of the Mortgage Loans less (y) the Certificate Interest Rate of the Class A-X-1 Certificates multiplied by a fraction equal to (i) the notional balance of the group 1 component of the Class A-X-1 Certificates immediately prior to such Distribution Date divided by (ii) the aggregate principal balance of the Class 1-A-1 Certificates immediately prior to such Distribution Date, in each case adjusted for the related interest accrual period.

This information is furnished to you solely by Greenwich Capital Markets, Inc. and not by the issuer of the securities or any of its affiliates. Greenwich Capital Markets, Inc. is acting as Underwriter and not acting as Agent for the issuer or its affiliates in connection with the proposed transaction.

This Preliminary Term Sheet is provided for information purposes only, and does not constitute an offer to sell, nor a solicitation of an offer to buy, the referenced securities. It does not purport to be all-inclusive or to contain all of the information that a prospective investor may require to make a full analysis of the transaction. All amounts are approximate and subject to change. The information contained herein supersedes information contained in any prior term sheet for this transaction.

In addition, the information contained herein will be superseded by information contained in term sheets circulated after the date hereof and by information contained in the Prospectus and Prospectus Supplement for this transaction. An offering may be made only through the delivery of the Prospectus and Prospectus Supplement.

The “**Net WAC Cap**” for the Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates is equal to (x) the weighted average of the Net Mortgage Rates of the Mortgage Loans less (y) the Certificate Interest Rate of the Class A-X-1 Certificates multiplied by a fraction equal to (i) the notional balance of the group 2 component of the Class A-X-1 Certificates immediately prior to such Distribution Date divided by (ii) the aggregate principal balance of the Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates immediately prior to such Distribution Date, in each case adjusted for the related interest accrual period.

The “**Net WAC Cap**” for the Subordinate Certificates is equal to the weighted average of the Net Mortgage Rates of the Mortgage Loans, adjusted for the related interest accrual period.

Carryover Shortfall Amount:

The LIBOR Certificates will be entitled to the payment of an amount equal to the sum of (i) the excess, if any, of (a) interest accrued at the Certificate Interest Rate for such Class (without giving effect to the Net WAC Cap) over (b) the amount of interest actually accrued on such Class and (ii) the unpaid portion of any such excess from previous Distribution Dates (and any interest thereon at the Certificate Interest Rate for such Class without giving effect to the Net WAC Cap) (together, the “**Carryover Shortfall Amount**”). The Carryover Shortfall Amount will be paid only to the extent of interest otherwise distributable to the Class A-X-2 Certificates (after the reduction due to Net Deferred Interest allocable to the Class A-X-2 Certificates) and additionally only in the case of the Class 1-A-1, Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates, amounts available from the related Yield Maintenance Agreement, on such Distribution Date or future Distribution Dates.

Adjusted Cap Rate:

The “**Adjusted Cap Rate**” for the Class 1-A-1, Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3, Class 2-A-4 Certificates and Subordinate Certificates and for any Distribution Date equals the related Net WAC Cap, computed for this purpose by first reducing the weighted average of the Net Mortgage Rates of the Mortgage Loans by a per annum rate equal to: (i) the product of (a) the Net Deferred Interest for the Mortgage Loans for such Distribution Date, and (b) 12, divided by (ii) the aggregate principal balance of the Mortgage Loans as of the first day of the month prior to such Distribution Date.

The “**Adjusted Cap Rate**” for the Class A-X-2 Certificates and any Distribution Date shall equal the Certificate Interest Rate for the Class A-X-2 Certificates, computed for this purposes by (i) reducing the weighted average Net Mortgage Rate of the Mortgage Loans by a per annum rate equal to the quotient of (a) the Net Deferred Interest on the Mortgage Loans for such Distribution Date multiplied by 12, divided by (b) the aggregate principal balance of the Mortgage Loans as of the first day of the month prior to such distribution date, and (ii) computing the weighted average of the pass-through rates of the certificates (other than the Class A-X-1 and Class A-X-2 Certificates) by substituting “Adjusted Cap Rate” for “Net WAC Cap” in the definition of pass-through rate for each of the Class 1-A-1, Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 and Subordinate Certificates.

Net Deferred Interest:

The “**Net Deferred Interest**” for a Distribution Date is the excess, if any, of Deferred Interest for the related due period over voluntary principal prepayments for the related prepayment period.

For any Distribution Date, Net Deferred Interest will be allocated among the Certificates in an amount equal to the excess, if any, for each such class of (i) the current interest accrued at the applicable Certificate Interest Rate for such class, over (ii) the amount of current interest that would have accrued had the Certificate Interest Rate for such class equaled the related Adjusted Cap Rate for such class and Distribution Date. The amount of current interest allocable to each Class of Certificates (other than the Class A-X-1 Certificates) will be reduced by the amount of Net Deferred Interest allocable to such Class of Certificates and such Net Deferred Interest will be added to the principal balance of such Class of

Yield Maintenance Agreements:

On the Closing Date, the Trustee will enter into “Yield Maintenance Agreements”, or “YMAS”, with a counterparty (the “Counterparty”) for the benefit of the Class 1-A-1, Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates. The notional balance of each YMA for any Distribution Date is subject to a maximum equal to the aggregate principal balance of the related class of certificates immediately prior to such Distribution Date. The Counterparty will be obligated to make monthly payments to the Trustee when one-month LIBOR exceeds the specified strike rate. Such payments will be capped at their maximum amount when one-month LIBOR equals or exceeds 10.50%. Each Yield Maintenance Agreement will terminate after the Distribution Date in June 2015. Any payments received from the related Yield Maintenance Agreement will be used to pay Carryover Shortfall Amounts on the related class of Certificates (allocated *pro rata* based on class principal balance), as applicable.

Available funds from the Mortgage Loans will be distributed in the following order of priority:

- 1) Senior Certificates, accrued and unpaid interest, at the related Certificate Interest Rate, from the related Mortgage Loans, *provided, however*, that any interest otherwise distributable with respect to the Class A-X-2 Certificates will be reduced to the extent necessary to pay any Carryover Shortfall Amount (after giving effect to any Net Deferred Interest amount allocated to the interest only component of the Class A-X-2 Certificates);
 - 2)
 - a) from the Group 1 Mortgage Loans, first to the Class A-R Certificates, second, to the Class 1-A-1 Certificates and third, to the group 1 principal-only component of the Class A-X-2 Certificates, sequentially, until the principal balance of such Class (or the related principal only component in the case of the Class A-X-2 Certificates) has been reduced to zero, up to the principal allocable for such classes;
 - b) from the Group 2 Mortgage Loans, first, pro-rata to the Class 2-A-1A, Class 2-A-1B, Class 2-A-2A, Class 2-A-2B, Class 2-A-3 and Class 2-A-4 Certificates until the aggregate principal balance of such Classes has been reduced to zero and second, to the group 2 principal-only component of the Class A-X-2 Certificates, until the principal balance of the related principal only component of the Class A-X-2 Certificates has been reduced to zero, up to the principal allocable for such classes;
