News Release

SingTel's regional mobile subscriber base increases to almost 62 million

Largest ever quarterly increase of 5.2 million subscribers

Singapore, 1 February 2005 -- Singapore Telecommunications Limited (SingTel) today announced that its aggregate number of mobile subscribers in the region increased by 5.2 million during the past three months to almost 62 million on 31 December 2004. The increase of 5.2 million is a new record for the Group for net additions in any quarter.

The combined mobile subscriber base of SingTel, SingTel Optus and the Group's four regional associates grew 40 per cent from about 44 million a year ago. On a proportionate basis, SingTel's subscriber base in the six markets – Australia, India, Indonesia, the Philippines, Singapore and Thailand – increased 38 per cent from a year ago to 25 million.

SingTel's four Asian mobile associates – Advanced Info Service, Bharti, Globe and Telkomsel – all posted strong subscriber growth year-on-year, ranging from 15 to 79 per cent. Their combined subscriber base grew 45 per cent to 54 million.

SingTel Optus acquired 283,000 customers during the quarter, posting a 16 per cent year-on-year increase in subscribers, bringing its base to 6.2 million. The growth was achieved despite a mobile penetration of over 80 per cent in Australia.

In Singapore, SingTel maintained its subscriber base at more than 1.5 million in a highly saturated mobile market with over 90 per cent penetration. During the quarter, SingTel signed up more than 23,000 from a quarter ago.

More details of the market and financial performance of the six mobile operations will be available when SingTel announces its results for the third quarter and nine months ended 31 December 2004 on 3 February 2005.

About SingTel

SingTel, Asia's leading communications group, is reaping the benefits of an international expansion strategy which has been successfully developed over the last 15 years. With significant operations in Singapore and Australia (through wholly-owned subsidiary SingTel Optus), the Group provides a comprehensive portfolio of services that include voice and data services over fixed, wireless and Internet platforms.

SingTel Optus is a leading Australian integrated communications company. Since commencing operations in 1992, Optus has invested more than A\$7 billion in the construction of fixed, mobile and satellite networks. Optus' mobile business unit has captured around one third of the total Australian GSM mobile market.

SingTel is also a strategic investor in four of the region's most successful mobile operations. It has a 21.5 per cent stake in Advanced Info Service (AIS), Thailand's largest mobile operator. In India, the Group has a 28.5 per cent effective interest in Bharti Tele-Ventures, the country's largest GSM operator. One of SingTel's earliest investments in the region is Globe Telecom in the Philippines. Today, it has a 45.1 per cent stake in the company. SingTel has a 35.0 per cent stake in Indonesia's largest mobile operator, Telkomsel.

The SingTel Group had a turnover of S\$12.0 billion (US\$7.17 billion) and net profit after tax of S\$4.49 billion (US\$2.68 billion) for the year ended 31 March 2004. For the year, AIS, Bharti, Globe and Telkomsel contributed S\$927 million in pre-tax earnings (excluding exceptional items) to the Group. The four associates also contributed S\$223 million in dividends for the year. More information can be found @ www.singtel.com.

Media Release

1 February, 2005

Optus smashes through 100,000 DSL customer mark

In less than 12 months since launching resale DSL, Optus has smashed through the 100,000 customer mark.

OptusNet broadband customers now total 310,000 including 210,000 customers on Optus cable broadband.

“Optus has rapidly established itself as the largest DSL reseller in the market even though we entered the market later than some competitors less than 12 months ago,” Scott Lorson, Acting Managing Director of Optus Consumer and Multimedia said.

The 100,000 DSL subscribers milestone is particularly noteworthy given this figure excludes broadband subscribers on the HFC cable network which runs through the metropolitan areas of Sydney, Melbourne and Brisbane.

“Optus has also achieved exceptionally high bundling rates for its DSL base with over 95 per cent of DSL customers continuing to choose Optus for their home phone services,” Mr Lorson said.

New technologies, increased competition and changing consumer behaviours will create a dynamic and challenging landscape in 2005.

Despite these challenges, Optus is well positioned to increase subscriber numbers by leading the market with simple and differentiated offers, and by continuing its dominance in superior customer service delivery.

“Optus is pleased to have achieved this milestone at a time when we are finalising plans to invest in our own DSL network – a move that will further drive retail competition in the Australian broadband market,” Mr Lorson said.

“We will continue our assault on the broadband market in 2005 by multiplying and retaining our subscriber base through product innovation and our highly effective broadband bundling offers.”

Optus plans to announce its third quarter results during the first week of February 2005. These results will include broadband subscriber numbers of 292,000 as at December 31, 2004.
