The total number of multiservice network ports in Lipetsk region has reached 1 954

Moscow, February 11, 2005, CenterTelecom has enhanced and upgraded the regional multiservice network (MSN). The total number of multiservice network ports has reached 1 954, in 2004 - 1 322 ports became operational. In early 2005 - 620 ports were employed.

Lipetsk regional multiservice network was built on equipment of the leading world manufacturers, such as Alcatel, Cisco Systems, Huawei, Corecess, ZyXEL, and Newbridge. The network is a modern transport system integrated into the national and global networks under the modern standards and protocols. The network is structured in such a way that it supports most modern technologies and enables to provide various network interfaces: G.703, v.24, v.35, Ethernet, TDM and the like.

The multiservice network allows the company to offer its clients a wide range of modern services, in particular, broadband Internet access, high-speed data transmission, etc. MSN was used as a backbone for VPN networks for Lipetsk region government, Finance Department, local federal treasury office, tax office, Lipetsk regional office of RF Central Bank as well as Novolipetskiy steel mill, Stinol refrigerator plant, Lebedyansk canning plant, Lipetskenergo utility and other corporate clients.

CenterTelecom is a leading fixed communications company providing the entire range of telecommunication services in the Central Federal District where over 20 % of the population of Russia resides. CenterTelecom offers the full range of telecommunication services, including telephony service, the Internet, IP telephony, data communications, CATV, wired and VHF broadcasting. The company actively develops modern multiservice and SDH networks as well as new radio access systems. The Company trades on RTS (ESMO, ESMOP), Moscow Interbank Currency Exchange (CTEL, CTPLP) and has ADR Level 1 common stock program (CRMUY).

CenterTelecom Lipetsk branch is a regional incumbent providing traditional telephony and value-added services in Lipetsk region. The electronic exchanges of CenterTelecom Lipetsk branch are among the highest in the central federal region and amounts to 62.7 %, including 81.28 % in the regional center, 72.41 % at the city network and 29.8 % at the rural network. Teledensity is 27.18 lines per 100 citizens of the region; including 33.04 lines in the urban network (35.24 lines in Lipetsk); and 16.53 lines in the rural network.

Lipetsk region in-zone network is 100% digital

Lipetsk, February 8, 2005. CenterTelecom has built and commissioned an in-zone SDH network on the basis of fiber-optic communication lines in Lipetsk region. The project was completed one year ahead of time.

The last section of Dolgorukovo - Zadonsk in-zone network 60.7 km long closing the fourth in-zone regional fiber-optic ring was put into operation by CenterTelecom Lipetsk branch in the beginning of Q4 2004. The project scope comprised laying 777.6 km of fiber-optic cable. In-zone fiber-optic network of Lipetsk region, including that utilized in cooperation with Rostelecom, stretches for 1 021.95 km. With the completion of the construction, the backbone network of in-zone communications has become 100% digital.

The SDH network has STM-1, STM-4 level circular structure, which significantly increases the communication reliability and enables the company to provide modern multiservice network services and meet different requirements in terms of data volume, capacity and quality anywhere in Lipetsk region. City exchanges and substations of Lipetsk were linked with STM-1, STM-4, and STM-16 fiber-optic lines with the total length of 165 km back in 1999.

News release

CENTERTELECOM SHARES TO BE TRADED ABROAD

FSFM of RUSSIA GRANTED A PERMIT TO CENTERTELECOM FOR TRADING IN ITS SHARES ABROAD

The Federal Service for Financial Markets (FSFM of Russia) at its meeting on January 19, 2004 resolved to issue a permit for trading of 623,312,699 ordinary registered book-entry shares of CenterTelecom beyond the territory of the Russian Federation. The quantity accounts for 39.5 per cent of the total number of the Company's ordinary shares. The permit under the existing Level I American Depositary Receipts (ADR) Program was necessitated by the registration of a new share issue undertaken to increase the legal (charter) capital through the increase of the nominal value of the ordinary registered book-entry and preference registered book-entry class A shares from RUR0.3 to RUR3.0. The increase does not affect parameters of the ADR Program.

On December 16, 2004 the FSFM of Russia performed the state registration of the relevant issues of CenterTelecom's shares and assigned state registration numbers: #1-04-00194-A to the ordinary registered book-entry shares and #2-04-00194-A to the preference registered book-entry shares.

Level I ADR Program for underlying ordinary shares of CenterTelecom was registered on August 22, 2001 by the US Securities and Exchange Commission. One ADR represents 100 ordinary shares of the Company. ADRs are traded on the OTC market (OTC: CRMUY). JPMorgan Chase Bank is the depositary bank for the Company's ADR Program. The depositary agreement between JSC CenterTelecom, JPMorgan Chase Bank and ADRs holders was entered into on September 4, 2001 and revised and amended on December 10, 2001.

The bond placement is effected by entering into sale-purchase deals at the bond placement price set by the Issuer's Board of Directors (starting from the second day from the bond placement start date the buyer during the closing of the sale-purchase deal shall also pay the coupon interest accrued on the bonds).

Closing of bond placement deals shall start on the first day of the bond placement period and end on the bond placement end date specified for the bond issue.

Bond placement shall be effected at the Securities Market Section of Private JSC Moscow Interbank Currency Exchange (henceforth MICEX).

Deals on the bond placement are made in the negotiations mode conducted at MICEX's Securities Market Section by granting applications for sale/purchase of the bonds filed using trade and settlement system of MICEX.

The Seller of the bonds is the Underwriters, acting in their own names, but on a commission and for expenses of the issuer. The issue underwriters are Joint-Stock Commercial Bank Moskovski Delovoy Mir JSC (Moscow Business World – Public Joint-Stock Company), Private Joint-Stock Company Raiffeisenbank Austria, Private Joint-Stock Company Investment Company Troyka-Dialog (henceforth the "Underwriters").

A potential buyer of bonds who is a member of MICEX's Securities Market Section acts on its own.

In the event that a potential bond buyer is not a member of MICEX's Securities Market Section it/he/she should conclude a relevant agreement with any broker, who is a member of MICEX's Securities Market Section, and issue an order to the broker to acquire bonds of the issue.

A potential bond buyer shall open a relevant depo account with Not-for-profit Partnership National Depository Center (henceforth NDC) effecting the centralized custody storage of the bonds of the issue, or with another depository who is a depositor with respect to NDC. Arrangements and period for opening account are according to rules of procedure of the relevant depositories.

Members of MICEX's Securities Market Section (the "Dealers") acting in their own names and for their own sake, or in their own name but on behalf and for the sake and at the expense of potential buyers, who are not dealers, may on any business day within the bond placement period file an application for a bond purchase at the placement price identifying number of bonds planned to be purchased.

The applications for securities purchases should be granted by Underwriters in full, provided that the number of bonds identified in the application for purchase does not exceed the number of the unplaced bonds of the issue. If the number of bonds identified in the application for purchase does exceed the number of bonds remaining unplaced, the application for bond purchase should be granted to the amount of unplaced bonds of the issue.

Underwriters shall grant the applications for bond purchase according to First Come – First Served order. If the total bond issue is placed the further applications are not accepted.

A mandatory condition for bond purchase on MICEX during the bond placement is depositing of the buyer's funds on the account of the member of MICEX's Securities Market Section on whose behalf the application was filed, with MICEX's Clearing Chamber. The amount of deposited funds shall be enough to cover the whole payment for the bonds identified in the applications for bond purchases, including all applicable MICEX's fees and charges. If the conditions stated in a bond purchase application meet the requirements above, the Underwriter shall accept the application at MICEX on the date of filing and the application should be registered with MICEX. The sold bonds shall be entered by the Depository into the bond buyer's depository account at the date of executing the sale-purchase transaction.

Security provided for the bond issue:

Entity providing the security: *Bassian invest Limited Liability Company*

Type of security: *Surety*

Monetary value of the security: *RUR600,000,000 and the accrued interest*

Conditions of the collateral provision:

Agreement to provide surety to Joint-Stock Central Telecommunication Company for the purpose of bond issue #611/02 – DO of April 30, 2002 concluded by and between the Issuer and Bassian invest LLC identifies the Agreement as an offer, open for third parties – owners of the bonds to join it through bond acquisition. Third parties gain the right to demand from Bassian invest to meet its obligations under the said Agreement as of the moment of bond acquisition by them, the said bonds being covered by the Agreement to provide surety for the Issuer's obligations. Disposal of the bonds by their owners is deemed as a waiver of the rights with respect to Bassian invest LLC granted by the said Agreement. With the transfer of rights for the bonds to the bond purchaser the latter gains the rights of a bond owner under the said Agreement and in the same scope and under the terms and conditions, as existed at the moment of the transfer of rights for the acquired bonds.

Acquisition of bonds means conclusion by the bond purchaser of a contract under which the surety for the bond issue is provided. With the transfer of rights for the bonds to the bond purchaser the latter gains the rights of a bond owner under the said contract and in the same scope and under the terms and conditions, as existed at the moment of the transfer of rights for the acquired bonds.

Bassian invest LLC undertakes to meet for the issuer its obligations toward the bond owners only after it was established that the issuer is unable to meet its obligations to the bond owners.

Bassian invest LLC undertakes to perform the issuer's obligations to the bond owners entitled to demand from the surety performance of its obligations according to the concluded Agreement subject to simultaneous fulfillment of the following conditions:

- the issuer failed to pay or paid partially coupon income as a percentage of the bond nominal value to bond owners at the time set out in decision on the bond issue and bond issue prospectus;
- the issuer failed to pay or paid partially the nominal value of bonds on the redemption to the bond owners at the time set out in decision on the bond issue and bond issue prospectus;

Simultaneous existence of these conditions constitutes an instance of default of the issuer on its obligations toward owners.

Should the fact of the issuer default be established Bassian invest LLC undertakes within 2 days from the date when the default was established as a fact to meet the issuer's obligations to pay the bond nominal value and coupon to all bond owners.

The arrangements and procedure of performance by Bassian invest LLC of the issuer's obligations toward the

Bond placement arrangements:

Arrangements and terms and conditions for entering into civil legal agreements (terms and conditions for filing and granting applications)

Specifics of bond placement on the first day of placement:

The bond sellers shall be the Underwriters acting in their own names and/or on behalf of the issuer for the purpose of concluding relevant contracts and agreements with third parties, including without restrictions the bond buyers, and other persons; those contracts or agreements might accompany or be directly or indirectly necessary for placement of bonds by the Arrangers of the bond issue pursuant to the Agreement.

The bond placement is effected by entering into a sale-purchase deal at the bond nominal value (starting from the second day from the bond placement start the buyer in the completion of the sale-purchase deal shall also pay the coupon accrued on the bonds).

Bond placement shall be effected at the Securities Market Section of Private JSC Moscow Interbank Currency Exchange (henceforth MICEX).

Full registered name: Private Joint-Stock Company Moscow Interbank Currency Exchange.

Abbreviated corporate name: MICEX

Address: 13 Bolshoy Kislovski Per., building 1, Moscow, 125009, Russia.

Mailing address: 13 Bolshoy Kislovski Per., Moscow, 125009, Russia

License number #077-05870-000001

Date of issue: February 26, 2002

Valid till: Valid for an indefinite term

Licensing authority: issued by FCSM of Russia

Arrangements for concluding deals on the first day of placement

An auction for determination of the first coupon interest rate for the bond issue shall start and end on the first day of the bond placement period. The arrangements for holding the auction to determine the first coupon interest rate for the bond issue are set forth in item 57.11 of the Bond Issue prospectus and item 8.3 of the decision on the bond issue.

Upon expiry of the period for filing applications for the auction to determine the first coupon interest rate

MICEX shall compile registers of the entered applications filed with each of the Underwriters, and submit them to the Issuer and/or Underwriters. Based on the submitted registers of the applications the Underwriters compile a compounded list of applications.

Based on the analysis of compounded list of purchase applications filed for the auction the Issuer shall determine the first coupon interest rate and in writing advise of it MICEX and Underwriters.

Underwriters shall publish a notice of the first coupon interest rate using MICEX's trade system by sending electronic messages to all members of MICEX's Securities Market Section.

Upon receiving from the Issuer of a written notice of the first coupon interest rate Underwriters based on the compounded list of applications filed for the auction to determine the first coupon interest rate identify the general list of applications to be granted by them and the order of granting them. Underwriters shall put on the general list of accepted applications only those applications where the acceptable interest rate stated in the application by the prospective buyer of bonds is less or equal to the first coupon interest rate determined by the Issuer based on the results of the auction held by it.

By an acceptable first coupon interest rate is meant the first coupon interest rate which if announced by the Issuer will lead to a potential buyer's willingness to buy the number of bonds specified in its application at the par value.

Underwriters determine the order of granting applications, based on the following criteria:

In the first place applications where the least first coupon interest rates are stated.

If there are multiple applications for bond purchase registered in the list and stating the same first coupon interest rate, the applications filed earlier in time shall be granted in the first place.

After the general list of accepted by Underwriters applications is compiled and the order of granting them is identified, the Underwriters shall compile specific lists of applications to be granted, filed with each Underwriter and the order of granting them by each Underwriter specifically.

After compiling specific lists of applications to be granted, filed with each Underwriter and the order of granting them by each Underwriter specifically Underwriters shall grant these applications. Granting applications by the Underwriters shall start at the same agreed upon moment.

If on the first day of the bond issue placement the Underwriters accepted applications of prospective investors filed for the action to determine the first coupon interest rate and carrying on aggregate the number of bonds equal the total volume of the bond issue (i.e. 2,000,000 bonds), there shall be no further placement of the bond issue.

Arrangements for bond placement on the subsequent days of the placement.

If on the first day of the bond placement after the Underwriters have granted all applications filed for the auction to determine the first coupon interest rate, a part of the issue remains unplaced on the second and following days of the placement the remaining bonds will be placed.

Starting from the second day of the bond placement the bond buyer when completing a sale-purchase transaction shall also pay the accrued coupon income (the ACI) on the bonds, calculated by the following formula:

$$ACI = C_j * Nom * (t - T_{j-1}) / 365 / 100 \%$$

where

Nom – nominal value per bond;

C_j – the relevant coupon interest rate(per cent p.a.)

T_j – the first day of the start of the j th coupon period;

t – current date.

j – the consecutive number of the relevant coupon period: 1-6;

The amount of the accrued coupon income is calculated with accuracy of 1 copeck (round-off follows mathematical rules, i.e. the quantity of copecks remains the same if the next less significant digit is less than 5, and is increased by 1, if the next digit is from 5 through 9 inclusive).

On the second and following bond placement days members of MICEX's Securities Market Section file applications for purchase of bonds both on their own expense and for the expense and pursuant to customers' orders. The time for filing applications for purchase is set by relevant MICEX's rules upon concurrence of the Issuer and/or the Underwriters. Applications for bond purchase are filed with one of the Underwriters and should specify the following significant conditions:

- a.1) Purchase price - 100 % of the nominal value;
- a.2) Number of bonds that the potential buyer would like to purchase.

Upon expiry of the period for filing applications for the bond purchase MICEX shall compile a list of entered applications filed with each Underwriter and submit it to the Issuer and/or the Underwriters. Based on the submitted list of filed applications the Underwriters shall compile a general list of applications.

After the general list of accepted by Underwriters applications is compiled and the order of granting them is identified, the Underwriters shall compile specific lists of applications to be granted, filed with each Underwriter, and the order of granting them by each Underwriter specifically.

After compiling specific lists of applications to be granted, accepted by each Underwriter and the order of granting them by each Underwriter specifically, Underwriters shall grant these applications. Granting applications by the Underwriters shall start at the same agreed upon moment.

Terms and conditions and arrangements for placement of the bond issue

Specifics of the bond placement on the first day of placement

The bonds shall be placed pursuant to effective regulations and rules of Private JSC Moscow Interbank Currency Exchange.

Potential buyers who are members of MICEX's Securities Market Section are admitted for purchasing bonds. The Surety shall not be liable for indemnity of legal expenses of the Bond owners and recovery of other losses and/or fines caused by undue performance or non-performance by the Issuer of its obligations to repay the nominal value of the Bonds and/or coupon interest on the Bonds.

The Surety shall be responsible for meeting by the Issuer of its Obligations subject to simultaneous occurrence of two conditions:

- A bond owner or a duly authorized person of a bond owner filed with the Surety a request to fulfill the relevant Obligation (the "Request");

- The request shall contain:

(a) the nature of unfulfilled obligations of the Issuer toward the bond Owner;

(b) the value of unfulfilled Obligations of the Issuer toward the bond Owner;

(c) the full corporate name of the Owner (name and surname if the Owner is a natural person) and the person authorized to receive consideration under the Obligations (if any is appointed);

(d) location (address) of the Owner and of the person authorized to receive consideration under the Obligations (if any is appointed);

(e) for a natural person – passport number, when and by whom issued;

(f) the country where the Owner is a tax resident;

(g) number of Bonds owned by the Owner making the Owner eligible to receive payments on them; and

(h) bank details (bank account number, etc.) of the Owner or the person authorized to receive consideration under the Obligations (if any is appointed).

- the following documents shall be attached to the Request:

(a) a copy of a statement of the depo account of the Owner, certified by the depository performing the book-keeping and confirmation of rights attached to the Bonds, stating the number of Bonds, owned by the Owner;

(b) if the Request is filed by a representative of the Owner, the relevant documents executed according to effective legal acts and regulations of the RF, confirming the powers of the person who filed the request.

The Request shall be signed by the bond Owner or the person authorized to file the Request. If the Request is filed by a legal entity it should bear the seal of the legal entity.

Request may be filed with the Surety not later than two years after the date set as the redemption date of the Bonds as determined by the Prospectus of securities issue.

The Surety shall effect the payments as required not later than 30 (thirty) days as of the receipt of the Request into the bank account specified therein.

Purchase of the Bonds signifies the acceptance of the Offer, i.e. conclusion by the Bond purchaser of a surety agreement with the Surety under terms and conditions set forth herein. The said surety agreement shall be considered executed as of the moment of ownership rights on the Bonds of the first owner, the written form of the agreement being considered honored. The transfer of the Bond rights to the purchaser means transfer of all rights granted by the said surety agreement and under the same terms and conditions as existed at the moment of the bond right transfer. Transfer of rights under the surety agreement is invalid unless the transfer of rights on the bonds is effected.

The Offer is irrevocable.

All disputes arising from the Offer and the surety agreement executed by acceptance of the Offer shall be resolved by the Arbitration Court of Moscow or the court of general jurisdiction at the location of the defendant.

Legal relations arising in connection with the Offer and the surety agreement concluded by the acceptance of the Offer, shall be governed by the Russian Law.

Notification (disclosure of information) of changes in terms and conditions of providing collateral for performance of obligations under the Bond issue due to reasons beyond the control of the issuer or owner of secured bonds:

An official notice provided by the Issuer of changes in terms and conditions of the collateral provided to ensure performance of obligations under the Bonds due to reasons beyond the control of the Issuer or owners of the secured Bonds shall be published by the Issuer within the period and according to arrangements set forth in par. 11 of the Decision on the bond issue and par. 2.9 of the Prospectus of securities issue.

Terms and conditions of conversion (for convertible securities): *the placed securities are non-convertible bonds.*

This quarterly report contains estimates and forecasts of authorized governing bodies of the Issuer regarding future events and/or developments, development outlook for the industry where the Issuer does business, and results of the Issuer's business activities, including the Issuer's prospects and plans, probability of certain event occurrences and undertaking certain actions. Investors are advised not to rely fully on the estimates and forecasts made by the Issuer's governing bodies, as actual results of the Issuer's activities in future may deviate from the forecast ones due to a number of reasons. Purchases of securities carry inherent risks outlined in this quarterly report.

1.6 Information on other persons who signed the quarterly report

No such other persons.

II. Basic information regarding the financial position and economic state of the issuer.

2.1 Financial and business performance of the issuer

Description	9 months of 2003	9 months of 2004
Net assets of the issuer, RUR in thousands	15,521,787	15,203,478
Ratio of debt financing to capital and reserves, %	93.31	178.83
Ratio of short-term liabilities to capital and reserves, %	57.38	87.55
Debt service payments covered, %	158.18	31.65
Overdue debt, %	2.98	2.0
Net asset turnover, times	0.96	1.18
Accounts payable turnover, times	3.03	2.58
Accounts receivable turnover, times	4.88	4.51
Portion of profit tax in the pre-tax profit, %	32.08	98.56

Guidelines provided by regulations issued by federal authorities for securities market were used to calculate the shown performance data.

The data shown witness a satisfactory solvency level of the issuer.

Growth in raised funds in the reporting period was caused by a significant expansion of the investment program, growing switching capacity and fixed assets put into operation.

The accelerated net assets turnover for 9 months of 2004 as compared to the same period last year was caused by growing revenues in the period being analyzed.

Growth of the ratio of debt financing to capital and reserves for 9 months of 2004 resulted from increase in raised funds.

Lesser turnover of accounts receivable of the issuer was due to faster growth rates of accounts receivable as compared to the revenues growth rates as compared to the same period of the previous year.

Growing government debt to the issuer (social welfare bodies and budget-funded organizations) for telecommunications services was one of the main reasons for growth of accounts receivable.

Accounts receivable related to provision of telecommunications services to population eligible for benefits appeared due to insufficient compensation from the government for telecommunications services rendered to this population.

A similar situation existed also in previous years.

Given the yearly under-compensation trend, and tariff hikes for telecommunications services, accounts receivable actually grew.

Lower accounts receivable turnover of the issuer is attributed also to faster growth rates of accounts payable as compared to those of the costs for 9 months of 2004 compared to the same period in 2003.

2.2 Market capitalization of the issuer

Market capitalization	
Month	Market capitalization, USD
December 1999	28,851,818
December 2000	101,354,959
December 2001	16,226,717
December 2002	153,428,191
December 2003	690,638,646
March 2004	796,606,360
June 2004	785,392,568
September 2004	561,478,718

Notes:

The figures are calculated based on bilateral deals completed at trading sessions. To prepare the data over the reporting period starting from July 1, 2003 only addressless deals are taken into account pursuant to Information disclosure rules enacted on July 1, 2003 (Ordinance of the Russian FCSM #03-32ps).

Market capitalization was calculated based on Prices of 10 major deals using data on the number of outstanding ordinary and preference shares available from RTS stock exchange.

There are no creditors in the structure of the accounts payable accounting for 10% of the total amount of the accounts payable. (As on September 30, 2004 the total amount of accounts payable was RUR25,836,590 thousand (Form 1 lines 590+690-640), 10 per cent of which is RUR2,583,659 thousand).

2.3.2. Credit history of the issuer

There were no credit and loan facilities with principals valued at over 10% of the net assets as on September 30, 2004.

Net asset value as on September 30, 2004 was RUR15,203,478 thousand (10 per cent of which is RUR1,520,348 thousand).

2.3.3. The issuer liabilities arising from securities provided to third parties

The total amount of securities provided by the issuer in the total amount of third parties' obligations on which the Company provided securities both in the form of pledge and surety.

Total obligations as on June 30, 2004, RUR in thousands: 10,950,986

including:

pledge (the issuer's liabilities) as on September 30, 2004, RUR in thousands: 6,750,045

value of surety provided to third parties as on September 30, 2004, RUR in thousands: 2,231,836

There were no issuer's obligations to provide security to third parties (including pledge and surety) valued at over 5% of the book value of the issuer's assets for 3Q2004, as the amounts shown above represent different liabilities, each valued at less than 5% of the assets book value.

2.3.4 Other liabilities of the issuer

No other liabilities

2.4 The objectives of securities issues and channeling the proceeds from placement of issued securities

A bond issue undertaken by JSC CenterTelecom, series 04 was placed in August 2004. The bond issue proceeds totaling RUR5.622 billion were appropriated to finance the Company investment activities.

BRIEF DESCRIPTION OF THE MAJOR INVESTMENT PROJECTS OF THE ISSUER

Projects aimed at provision of modern telecommunications services to subscribers are considered as top priority ones when making decisions regarding investments.

By lines of telecommunications development:

- Cable TV

In Kostroma deployment of a broadband hybrid (coaxial – fiber-optic) cable TV network is scheduled. The network will enable offerings of 12 TV channels, sound program multicasts and data (internet). Expected number of subscribers: 6070- thousand.

- Multiservice networks

Network deployment is planned based on equipment manufactured by Cisco implementing backbone transmission technologies: ATM, Gigabit Ethernet, Frame Relay, MPLS. Deployment is scheduled in the following regional branches: Lipetski, Tambovski, Moscow, and Voronezhski. Simultaneously, it is planned to provision video-conference facilities to render corporate and commercial services (bidding for supply contracts), and implementation of data network of CenterTelecom, using capacities of RTComm.RU.

- Call Centers

It is planned to install operator service centers Protey locally manufactured by LONIIS to provide directory, information services using call distribution system.

- Intelligent networks

Deployment is planned in Voronezhski and Tverskoy subsidiaries based on APC STC Dialog equipment.

- IP-telephony

Networks are scheduled for construction in Voronezhski, Tverskoy and Tambovski subsidiaries based on Cisco equipment and in Orlovski subsidiary based on locally manufactured Svetets equipment.

According to preliminary forecasts within the period before maturity of the securities issued by the issuer, i.e. in 2004-2006 cash proceeds will consistently exceed the expenses for relevant activities (including coupon payments and repayment of series 01, 02 and 03 bonds of the issuer).

Projected cash flow (RUR in thousand)	2004	2005	2006	2007	2008	2009
Cash proceeds including bond issue	42,523,368	47,401,160	56,519,624	65,250,837	70,640,313	85,644,506

Proceeds/expense ratio	0.9842	0.9983	1.0022	0.9988	0.9990	0.9995

2.5. Risks related to purchases of outstanding issued (to be placed) securities

2.5.1. Risks in the telecommunications industry

The key risk factors taken into account by the Company in doing business are:

- enactment of the Federal Telecommunications Act; summing up an increased government pressure may expected to be brought to bear on JSC CenterTelecom toward solving social issues. The declared priorities favor customers and simplify licensing arrangements will lower the barrier for new market entrants in favor of competition.
- ongoing consolidation of alternative operators creating large international holdings;
- uncertainty in tariff shaping set by the Federal Antimonopoly Service, and their impact on the Company business.

It should be noted, however, that CenterTelecom anticipates likely negative impacts of these risk factors and undertakes necessary measures to alleviate the consequences.

Currently JSC CenterTelecom implements marketing strategies aimed primarily at maintaining its market share, increasing revenues generated by non-regulated telecommunications services, and improving the Company's competitive edge.

The following economic factors may result in worsening of the Issuer market position and in the situation in the telecom industry as a whole:

- falling demand of the businesses due to declining oil and gas and non-ferrous metal prices on the world markets;
- general reduction in production output and economy growth rates;
- rouble depreciation rates surpassing tariff growth resulting in significant growth of negative translation adjustments and higher costs of servicing hard currency nominated liabilities;
- growing competition in the mobile communications of Russian and foreign operators, expansion on the mobile market by operators using competing standards;
- increase of settlement rates charged by Rostelecom – the principal domestic long-distance and international carrier, providing to the Issuer an access to the nationwide and international networks;
- economic risks inherent to the Russian Federation as a whole, including the level of macro-economic instability in the country, probability of changes in the legislation resulting to possible reduction in the Issuer profit, or hardening regulations governing taxation of income from securities.

The Issuer is expected to undertake the following actions, should changes occur.

In the event of negative developments the Issuer is going to capitalize on the following competitive strengths:

- fairly extensive network infrastructure
- high quality of service despite ever growing number of subscribers;

Additionally, the Issuer plans:

- to optimize production costs structure;
- to revise the investment program of the Company;
- to adjust pricing and marketing policies of the Company;
- to change the break down of offerings to maximize profits.

Risks related to possible changes in prices for raw materials, services used by the Issuer in its activities are mainly risks involving changes of rates charged by Rostelecom for leasing circuits and for international telecom services, and changes in prices charged by key equipment suppliers.

Impact of these factors on the issuer business and performance of its obligations related to issued securities: no tangible impact.

Risks connected to changes in prices for government regulated telecommunications services may result in short-term decline in demand for these services and tougher competition. In such circumstances JSC CenterTelecom will aggressively promote services offered at unregulated prices, thus preventing significant reduction of revenues.

JSC CenterTelecom successfully manages risks inherent to the Company activities. On the whole, exposure of the Issuer to the industrial risks and performance of obligations on its securities can be assessed as minimal. The Company owns a single united network infrastructure in the Central Federal District, enabling provision of a wide range of services in the telecom market, remaining a competitive company and increase margins of services provision.

2.5.2 Sovereign and regional risks.

FORECAST OF EMERGENCIES

1. Regional risks (risks related to possible military conflicts, introduction of the state of emergency and industrial actions/strikes).

The Issuer is registered as a taxpayer and performs its core business activities in the Central Federal District (Okrug) of the RF, where risks of military conflicts, introduction of the state of emergency are estimated as **minimal possible**.

Political and social situation in the territory of the Issuer business operations is viewed as calm enabling to do business running lowest social and political risks.

The risk of an overt military conflict, introduction of the state of emergency in the area **cannot be assessed by the Issuer**. Should these circumstances occur the Issuer will act pursuant to effective legislation.

2. Risks related to the geographic features of the region (*emergencies of the natural character*).

Forecast of natural disasters.

General climatic temperature trend indicating warming in the major part of the Russian territory is characterized by a higher frequency of occurrence of natural sources of emergencies featuring abnormal deviation of their parameters from average long-term values. Due to the existing patterns of atmospheric circulation the frequency of occurrence of dangerous phenomena in the past decade reached its highest values for the whole period of observations. Instabilities in the atmospheric circulation will remain in 3Q2004.

The heaviest damage to the economy of the Central Federal District and highest social tension are caused by forest and peat fires, fires in population centers and industrial facilities, disruptions in fuel and heat supply and utilities functioning, transport system disruptions.

Solar and geomagnetic activity

In 3Q2004 solar and geomagnetic activity is forecast to be lower compared to 2Q2004 and close to average in terms of disturbances. During geomagnetic disturbance one cannot exclude man induced emergencies resulting from human errors of operators and failures in complex electronic and electronic-mechanical systems.

Natural fires

The following areas are treated as potentially dangerous: Shatura, Orekhovo-Zuevo, Klinski areas of the Moscow region, Ivanovo, Vladimir, Tver, Smolensk, Tambov, Yaroslavl, Kostroma regions.

The scale of natural fires in the territory of the Russian Federation in 3Q2004 is forecast as somewhat lower than that of the previous year.

Earthquakes

Earthquakes in the territory of the CFD in the reporting period are extremely unlikely to happen.

Climatic emergencies

Deviation of climatic conditions from normal ones (hurricanes, tornadoes, heavy rains, hails) can cause failures resulting in disruptions of normal life and activity of population and functioning of economy.

Shorter cycles of weather changes observed in the recent years causes some difficulties in forecasting natural weather phenomena impacting timely warning and to a higher degree the possibility to estimate their consequences.

All region of the CFD are running such risks.

Droughts

3Q2004 is expected to be more favorable in terms of this type of emergencies than 3Q2003.

Other dangers (landslides, avalanches, mudstreams, bank erosion, etc.)

No danger in the territory of the CFD, except bank erosion in the **Yaroslavl region**.

3. Risks related to man induced emergencies

Forecast of man induced emergencies.

No significant decrease in failure occurrences is expected in 2004.

Generally, the prevailing types of man induced emergencies in 2004 will be:

- major transportation failures;
- fires in residential housing and industrial sites;
- human factor: violation of operation rules, low skills of personnel and poor infrastructure, negligence.

Transportation dangers

The highest risk of most frequent transport failures is expected: in July – railways; in August – in automobile transportation; in August – air transportation.

The biggest number of man induced local emergencies is forecast to happen in Moscow, the Moscow region, Tula,

Voronezh, Tambov, Kursk, Ryazan, Belgorod regions, as regions with developed transport and industrial infrastructure carrying such risks in the first place.

Radiation danger

Areas carrying the highest risk of radiation leaks are those where nuclear reactors are deployed: Moscow, Kursk, Voronezh, Smolensk, Tver, Kaluga regions.

There is a clear trend of **lower number of accidents** at nuclear plants and their more stable and safer operation observed in the recent years.

According to forecast, security and safety of nuclear facilities will remain the same as in the previous year.

Chemical danger

Moscow and the Moscow region, Bryansk, Tula, Ryazan, Voronezh regions run the risk of chemical accidents. In case of a major accident a huge area may be affected leading to a high toll of casualties.

Forecast of biological and social emergencies

Probability of contagious diseases in 2004 is expected to be the same as in the previous year.

Seasonal peaks of incidents of diseases transmitted by insect bites are expected as follows:

leptospirosis – in August;

hemorrhagic fever with kidney syndrome – in June-September.

Socially aggravated diseases are expected to grow: HIV and sexually transmitted diseases.

TB situation will remain in general serious.

Mortality level will remain high.

Loss of population due to natural mortality exceeding birth rate will remain in 2004. The highest overall loss is expected in Tver, Voronezh and Tula regions.

The Issuer actions to be undertaken in case of unfavorable changes in the situation in the area (region) will be in line with effective regulations and legislation governing legal relationship arising while protecting personnel and territories from emergencies of natural and man induced character.

2.5.3 Financial risks

The issuer's activities are affected by financial risks such as overdue credit repayments and interest payments, and as a consequence, imposing fines and late payment charges and increasing interest rates charged by commercial banks.

The highest degree of the risk is inherent to accounts payable.

Overdue debt connected with borrowed funds as compared to the total value of borrowed funds over the past three years on average did not exceed 2.1%, which is rather insignificant. Additional expenses of the issuer resulting from fines and additional late payment charges do not significantly affect the issuer's financial position.

As refinancing rates set by the CB of Russia diminish, the issuer takes measures to amend terms and conditions of the concluded loan agreements towards lower capital costs of the granted loan facilities and early repayment of high capital cost loans.

Susceptibility of the Issuer financial position (its liquidity, financing sources, results of operations, etc.) to currency exchange rate volatility.

JSC CenterTelecom has some obligations under credit facilities, supplier credits, leasing liabilities nominated in foreign currencies, so that substantial changes in the currency exchange rates may affect the Company financial position.

Projected actions to be undertaken by the Issuer in case of negative impact of currency exchange rate changes and interest rates on the Issuer operations.

In case of significant changes in currency exchange rates in order to reduce the impact of this risk the Issuer intends to do the following:

- to optimize production costs structure;
- to revise the investment program of the Company;
- to raise tariffs charged by the Company for rendered telecommunications services;
- to adjust pricing and marketing policies of the Company;
- to change the break down of service offerings to maximize profits.

Impact of inflation on payments made on securities:

Before the deadline for meeting by the Issuer of its obligations under its bond issues, the Company Economic Development forecast for 2004-2010 envisages annual tariff growth rates and operating margins growth for offered

services exceeding those of the inflation. The relevant annual inflation rates are estimated by the Issuer at the level of 10-12%. The risk will not significantly affect financial performance of the issuer; nor will it influence its ability to meet its obligations connected with securities.

Critical for the Issuer inflation rates and projected actions of the issuer aimed at reduction of the inflation risks

In the Issuer's view critical inflation rate values are far beyond the inflation rates forecast for 2004-2009, in the vicinity of 30-40% yearly. Should inflation rates reach their critical for the issuer values the Issuer intends to adequately raise prices for its services to compensate the negative impact of this factor. If inflation rates exceed the critical values, the issuer intends to raise prices for services rendered and undertake cost cutting exercises, reduce accounts receivable and average period in arrears of accounts receivable.

Indicators of financial reports of the issuer most susceptible to changes due to impact of financial risks affecting financial reports of the issuer; probability of their occurrence and nature of changes in reported indicators.

Profit and loss account (income statement)

Line 010 Revenues from sales of goods, products, works, services

Line 020 Costs of goods sold (products, works, services)

Line 120 Non-sales revenue (income)

Lin1 130 Non-sales costs

Line 140 Pre-tax profit (loss)

The main factor affecting financial statements of the issuer is sharp deviation of the inflation rates from the predicted ones.

Inflation growth unless adequate measures in business management are undertaken by the Issuer, could result in growing costs of sold goods, products, (works, services) reflected in financial statement Form 2 Profit and loss account Line 020, and as a consequence, reduction of posted profit (loss) in Form 2 Line 140.

If adequate countermeasures to resist growing inflation rates are taken by the Issuer management, the growth may not significantly affect operation results. Then in Form 2 Profit and loss account figures in Line 010 Revenues from sales of goods, products (works, services) and Line 020 Costs of sold goods, products (works, services) will be up.

2.5.4. Legal risks

The Issuer carries out its core operations as a telecommunications carrier without export of services, and works and goods likewise. Therefore legal risks related to the Issuer business arise mostly in activities of the Issuer on the internal market, which characteristic of a majority of businesses in the territory of the Russian Federation.

Only a small portion of the equipment required for provision of services is purchased by the Issuer based on foreign-trade sale-purchase contracts on supply of equipment by foreign suppliers, so that the Issuer runs certain legal risk related to compliance with effective currency and customs regulations, as well as legislation governing foreign trade activities. Additionally, there are some legal risks within normal business risks related to a possibility of non-performance or undue performance of obligations under foreign trade contracts by counterparties in contracts.

A significant part of telecommunications equipment required for doing business directly as a telecommunications operator is acquired by the Issuer as a lessee initially for usage and then as a property under leasing deals, including those with participation of foreign suppliers. Nevertheless, risks inherent to execution and performance of foreign trade contracts are mainly run by the lessor which is the purchaser and owner of the leased property.

In the currency control regulations:

The Federal Law On currency regulation and currency control #173-FZ of December 10, 2003 took effect on June 17, 2004. To enforce the Law a number of regulations and other legal acts were enacted amending relevant federal laws as required.

In particular:

Federal Law #118-FZ of August 18, 2004 On amending Code of Administrative Offences of the Russian Federation and Tax Code of the Russian federation relevant amendments were introduced into the Code of Administrative Offences of the Russian Federation, and among others a new issue of Article 15.25 violation of Currency Regulations Legislation of the Russian Federation and acts of currency regulation authorities, enacted as from October 1, 2004. Compared to the previous issue of the Article the new version significantly extends the grounds for taking to account for administrative violations including besides those directly related to currency operation which are illegal, some violations that could be made in conducting illegal currency operation, in particular, violation of execution of foreign trade deal passport, violations in making deposits to support currency operations, violation of

rules and deadlines for submitting reports and accounts dealing with currency operations, etc.

Thus, in the normal course of business both on internal and external markets the Issuer runs normal business risks related to compliance with requirements of currency regulations in conducting currency operations, and a possibility of non-performance or undue performance of their obligations under foreign trade contracts by contract counterparties.

Tax legislation:

There were no significant changes in tax legislation in 3Q2004. No federal laws regulating tax relations were passed or took effect in the reporting period, except introduction of some amendments in the Tax Code of the Russian Federation, caused by taking effect as from January 1, 2004 of the new Tax Code of the Russian Federation passed by Federal Law #63-FZ of May 28, 2003.

Changes in regulations touched upon legal governance of relationship between tax authorities and taxpayers. For instance, Order by the Ministry of Tax Duties #SAE-3-27/468 as stated in Order of the same ministry #SAE-3-27/499 of September 16, 2004 approved Regulations of taxpayers treatment, including those regarding verification of settlements with budget of major taxpayer. Tax authorities in charge of dealing with constituent entities of the Russian Federation are required to be directed by the Regulations in the part, not contradictory to the previously passed legal acts. Additionally, Order of the Ministry for Taxes and Duties of the RF #SAE-3-27/483 approved new accounting forms for verification of settlements with budget and advising taxpayers of the status of settlements with budget and Guidelines for filling out the forms to be enacted as of November 1, 2004.

However, being a conscientious taxpayer without any overdue payments with respect to taxes and duties to budgets of all levels and due to strict abidance and correct application of tax regulations the Issuer runs no higher risks in performing its activities.

Customs legislation:

Due to enactment as from January 1, 2004 of the new Customs Code of the Russian Federation passed by Federal Law #63-FZ of May 28, 2003 required amendments in federal laws are being introduced, and supporting regulations are aligned. In particular, some changes are made in the Tax Code of the Russian Federation and the Code of Administrative Offences of the Russian Federation.

As the new Tax Code of the Russian Federation aims at providing streamlined, clear and detailed regulations of customs procedures, to the same extent businesses have an opportunity to avoid or minimize risks involved in misunderstanding or being unaware of these procedures.

Though a substantial part of provisions regulated by both the Tax Code and Customs Code remains inconsistent, leading to some risks related to legal conflicts that should be eliminated in near future.

The Customs Code of the Russian Federation approved by the Supreme Soviet of the Russian Federation #5221-1 of June 18, 1993 remains in force regarding Par. 6,8, Article 110, Article 114, 116 and Article 119 (regarding customs duties) effective until December 31, 2004.

An Instruction letter of the State Customs Committee (SCC) of the Russian Federation #14-10/7236 of February 27, 2004 On enactment of legal acts regulations acts of the SCC issued for the purpose of implementation of the Customs Code of the Russian Federation clarified that until enactment of legal acts of the SCC issued in order to implement the new issue of the Customs Code of the Russian Federation, legal acts/regulations of the SCC are applicable and enforced in the part not contradictory to the new issue of the Customs Code of the Russian Federation.

Thus, as a portion of the equipment required for provision of telecommunications services and acquired by the issuer through sale-purchase or financial lease is imported or manufactured from foreign made components, changes occurred in the legislation regulating customs procedures including those governing payment of customs duties may carry additional insignificant risks for the issuer related to accurate execution of foreign trade contracts and compliance with requirements of customs clearance of purchased equipment.

Legal risks related to changes in requirements for licensing of the core business of the issuer, or licensing facilities/sites with restricted negotiability.

The new Federal Telecommunications Act was enacted as of January 1, 2004. Pursuant to this law the list of services to be stated in licenses and respective lists of licensing requirements shall be set by the Russian Government to reviewed annually. The law also expanded the list of data to be provided to the licensing authority. In order to renew a license or make amendments/changes related to changes in radiofrequency spectrum and service area of the license the same documents should be submitted as when initially applying for a license.

Pursuant to the Presidential Decree of March 9, 2004 # 314 and Ordinance of the Government of the RF #163 of April 6, 2004 licensing of activities in telecommunications is entrusted to the Federal Telecommunications Supervision Service.

These changes may cause additional expenses of the licensee in performing telecommunications activities.

There are no significant legal risks that may arise due to changes in the judiciary practice in the reporting period connected with activities of the Company and adversely affect the results of its operations, and the outcome of ongoing litigations.

2.5.5. Risks inherent to the activities of the issuer

The following law suits can be treated as significant ones:

- law suits valued at over 10% of the book-value of the Company, which is equal to 3,713,516 thousand roubles;
- law suites hampering business activities of the issuer or aimed at their prohibition or discontinuance (suits requesting wind-up of the Company, admission of insolvency or bankruptcy of the Company or its daughter and affiliated companies, alienation of property (assets), contesting license or patent rights, recovery of arrears in taxes and budget payments and out-of-budget funds in a significant amount).

There were no law suites valued at or over 10% of the assets carrying value filed against the Company.

In view of the above it can be stated that there were no significant legal risks involved in the Company participation as a party in ongoing litigations.

Risks related to a non-renewal of the issuer's licenses to carry out certain activities or to use facilities with restricted usage:

Risks related to inability to renew licenses may be related to:

- 1) changes in the applicable law governing licensing;
- 2) reorganization of licensing authorities.

Risks related to possible liability of the issuer for debt of third parties, including its daughter companies.

According to the registration of contracts concluded by the Company, performed by the Contract Division of Contractual and Property Relations of the Company in 3Q2004 the Company concluded two surety contracts with OAO RTC-Leasing for OAO Russian Telecommunications Networks. The risks involved in possible liability of the issuer for third party debt are insignificant due to a negligible value of the granted security. There are no agreements to pledge the issuer's property to secure third party's obligations, or other agreements involving possible liability of the Company for third party's obligations.

III. Detailed profile of the issuer

3.1.3. Evolvement and development of the issuer

Period of existence of the issuer: from June 1994 up to now.

The Issuer is established for an unlimited term.

The Issuer background and development history.

JSC CenterTelecom – a telecommunications carrier in the Center of the European part of Russia was established on October 1, 1886. At that time a postal and telegraph service district was organized in the territory of the Moscow and Ryazan provinces of the tsarist Russia functioning as a telecommunications operator. As of May 12, 1890 the service took over the country telephone network of the Moscow region; since then the Moscow regional operator offers the full range of customer telecommunications services. In 1994 postal services were separated; and during the privatization process the company was transformed into a public joint-stock company. As of December 1, 2002 public telecommunications operators in the Central and Central-Black-soil areas of the Russian Federation joined JSC CenterTelecom as its regional branches (wholly owned subsidiaries).

With over 6 million access lines CenterTelecom is one of Russia's largest fixed line telecoms, owning a telecommunications infrastructure in Russia's most populated Federal districts with 20% of Russia's total population, fairly well developed manufacturing industry, agriculture, innovative ventures.

CenterTelecom's customers and subscribers in 17 constituent entities of the RF are government agencies and bodies, general public and a prevailing majority of businesses. CenterTelecom was granted licenses to provide a wide range of telecom services: traditional POTS, Internet access, data, air and cable TV, wireline and UHF sound program broadcasting, trunking, lease of channels and other facilities, to offer public network interconnection to other operators.

Under stiff competitive conditions the Company pursues proactive marketing policies, maintaining domineering positions in the fixed line telephony, expanding its sales of new services where rates are not regulated by the government.

In the traditional telephony CenterTelecom's share is maintained over 85% both across the regions and overall in the CFD, slightly falling. Given the projected service development rates the company's position in the traditional service market will be preserved.

Competition is particularly tough in the Internet access segment. CenterTelecom regional operating branches manage to keep intact their leading positions with on average 60% of corporate and 70% of individual customers. CenterTelecom share of Internet service market in the CFD was around 50% in 2003.

The goals of setting up JSC CenterTelecom:

The main goals for setting up the Company are making profit and provision of telecommunications services to population, government bodies and other organizations.

The Company mission: Its mission the Company views in rendering modern high-quality telecommunications services and world class service in the territory of the Central Federal District with the aim:

- *to satisfy customers' needs based on a personal approach to everyone;*
- *to ensure growing shareholders value and income and make proper contribution into development of the society where the Company is doing business;*
- *to build up long-term mutually beneficial relations with partners based on mutual trust, integrity and transparency;*
- *to ensure comprehensive realization of the potential of each employee;*
- *to perform the duties of the public telecommunications operator.*

Significantly important new types of products (works, services) offered by the issuer on the market of its core business, to the extent the information is consistent with public information about these types of products (works, services).

In 2004 the Company embarked on aggressive deployment of Call Centers, to be used as a platform for provision of advanced services like telemarketing, HelpDesk, phone card support platform. In future Call Center functionality will be expanded to provide outsourcing services.

Current state of development/implementation of such product types (works, services):

At the moment it is already determined in which regions of the CFD Call Centers will be established.

The main Call Center (50 operator positions) – based on Moscow subsidiary of JSC CenterTelecom (2004-2005).

Regional Call Centers will be based in the following regional subsidiaries of

1st implementation stage (2004)

- Kaluzhski (30 operator positions)
- Yaroslavski (30 operator positions)

2nd implementation stage (late 2004 – 2005)

- Voronezhski (30 operator positions)
- Tulski (20 operator positions)
- Belgorodski (20 operator positions)
- Vladimirski (20 operator positions).
- Conducting researches and studies to identify the most attractive subsidiaries for deployment of Call Centers.

Current status: completed.

The following milestones for implementing Call Centers have been successfully reached:

- Gathering initial data for the project of network distributed Call Center;
- Drafting requirements to be met by the equipment supplier and software vendor for implementing the network Call Center;
- Selection of the equipment supplier and software vendor for implementing the network Call Center based on

the tender results;

- Signing of a contract for supply of the Call Center equipment and software.
- Delivery of equipment to Kaluzhski and Yaroslavski subsidiaries of JSC CenterTelecom – completed.
- Equipment to Moscow subsidiary of JSC CenterTelecom is delivered partially. Additional deliveries are expected in December 2004.
- Based on Kaluzhski subsidiary of the Company; installation and commissioning of the Call Center server equipment were completed. Set-up and tests of Definity mini-switch were carried out. The switch is linked to PSTN with two E1 trunks. Temporary numbering is allocated. Trial operation is started. Interface with EWSD switch is streamlined. Software modules of the Call Center are installed. Installation of equipment and software required for gathering statistics of the Call Center operation is underway.
- A demo-version of the Call Center operator position is completed for two trial positions.
- In Yaroslavski subsidiary of JSC CenterTelecom installation of hardware and software is underway. Installation and preparation for testing of the Call Center server equipment is also carried out.
- In Moscow subsidiary of JSC CenterTelecom a survey of the buildings assigned for Call Center deployment is completed, including operators' room, server site, maintenance and support services.
- Streamlining of services to be offered by Call Center is initiated.

3.2.5 Markets for sales of the issuer's products (works, services)

Customers accounting for over 10% of the total revenues generated by provision of telecommunications services are the residential sectors and organizations not-funded by respective budgets. Besides these customers the Company renders its services to various budget funded organizations though their share in the total revenues in 3Q2004 did not exceed 10%.

Period	Revenues from provision of telecom services RUR in thousands	Customer type	
		Residential sector	Organizations not funded from relevant budgets
2Q2004	5,889,906	3,609,690	1,805,431
%	100.0	61.3	30.7
3Q2004	6,091,366	3,726,954	1,938,727
%	100.0	61.2	31.8

Organizations not funded from respective budgets – businesses.

The core business of the issuer on the market in the Central Federal District is provision of telecommunications services. JSC CenterTelecom offers access to PSTN, domestic long-distance and international telephone services, Internet access and data, lease of channels, wireline broadcasting, etc.

The Central Federal District where the Company interests are focused consists of 17 regions (oblasts) with a population accounting for 20% of Russia's total. The district share of Russia's GDP (less Moscow) is estimated by experts at 12.8% signifying a fairly large share compared to other federal districts. In terms of the living standards the district is ranked forth among Russia's seven federal districts, while in terms of the per capita income it is only the seventh. Uneven development of the region is quite evident. There are both fairly well developed regions like the Moscow, Yaroslavl, Belgorod regions, and less developed regions like Kostroma, Ivanovo and Orel.

During past several years a justifiable trend of redistribution of revenues generated by different types of telecommunications services in favor of modern advanced services mostly mobile services was quite obvious. The Central federal District is not an exception. Starting from 1999 the share of traditional telephony (POTS) in the revenues break down fell from 87% to mere 66% benefiting modern services emerged owing to technology development.

Negative factors that are likely to adversely affect sales of the issuer's services.

- economy downturn
- decline in solvency of major customers
- stiffer competition of alternative operators.

In such a case the Company will take the following measures:

1. Completion of the build-out of multiservice networks (MSNs) enabling a significant expansion of the range of offered services with simultaneous improvement of quality of service.
2. Implementation of packaged services based on modern multiservice networks
3. Increasing the activated switching capacity and raising the number of subscribers.
4. Utilizing open code software products to enable the workflow and technology processes (particular to ensure functioning of switching equipment).
5. Making use of leasing for expanding the output.

Provision of substitute services (In particular, there is a surge observed in proliferation of IP-telephony, that under certain changes in market situation may become a substitute for long-distance service). Migration to packet switching from circuit switching for long-distance service.

3.2.6 Policies of using current assets and inventories

Ratio	Calculation following guidelines recommended by FCSM of Russia	9 months of 2003	9 months of 2004
Turnover ratio (days)	365/Costs/Year average inventories	31.17	19.57

The issuer's current assets policies are aimed basically at reducing accounts receivable and inventories, and accelerating the current assets turnover in days.

Acceleration of the turnover for 9 months of 2004 over 9 months of 2003 is due to the reduction by 36% of inventories and growth by 33% of the costs in the reporting period compared to the same period last year.

3.2.7 Raw materials

As JSC CenterTelecom core business is provision of telecommunication services, there are no "raw materials" used in the process; materials are used .

3.2.8 Major competition

Currently CenterTelecom is doing business in the territory of the Central Federal District in 17 regions (Belgorod, Bryansk, Vladimir, Voronezh, Ivanovo, Kaluga, Kostroma, Kursk, Lipetsk, Moscow, Orel, Ryazan, Smolensk, Tambov, Tver, Tula and Yaroslavl regions).

Market share of CenterTelecom regional subsidiaries in the telecom service market of the CFD at the 2004 start was 63% (including local cellular operators, but excluding revenues of BeeLine and MTS).

Main competitors of CenterTelecom are **national carriers**. Their combined market share depending on the service type and the region is varying from 1 to 18%. Comincom company is successfully promoting its services in the Black-Soil area, while JSC Central Telegraph is gaining ground in the market of the Moscow region.

Private network operators are no less threatening. Their share is significant in the long-distance market and Internet access, while in the local telephony market their exposure is fairly limited. These operators aggressively penetrate most lucrative market segments. TransTelecom pursues particularly active policy.

As far as the cellular companies are concerned they are searching for entries to other market segments, for instance, Internet access.

Local operators themselves are not competitors of the MegaRegional Company JSC CenterTelecom (henceforth MRC), as their operation areas are limited, though they are prospective partners for national and private network operators, and often present serious competition to regional subsidiaries of JSC CenterTelecom on strategically important markets. IP-operators should be noted specifically, as they offer serious competition on the long-distance and IP access markets.

It should be noted that CenterTelecom's strategic plans envisage changing terms and conditions of interconnection with these carriers to use local operators as channels for promotion of CenterTelecom's services (if the ownership structure of local operators does not ensure control of national operators over them).

Despite active pushing of competitors of CenterTelecom to regional markets CenterTelecom continues to gather substantial infrastructural and financial capacity while for majority of alternative operators this is impossible to do.

One of the **threatening trends** for JSC CenterTelecom in the telecom market of the CFD is over-saturation of the Moscow market and predicted by analysts shifting of telecom activities into regions, resulting in tougher competition.

Market shares, captured in the issuer's opinion, by the issuer itself and its major competitors:

<i>Company</i>	<i>Market share in 2002, %</i>	<i>Market share in 2003, %</i>
<i>JSC CenterTelecom</i>	<i>73%</i>	<i>63%</i>
<i>Equant</i>	<i>1%</i>	<i>1.2%</i>
<i>Golden Telecom</i>	<i>3%</i>	<i>3.6%</i>

As JSC CenterTelecom was set up as a unified company in 2002, the information is shown starting from 2002.

Competitive strengths of the Issuer:

- *extensive infrastructure*
- *high quality of service despite growing subscriber base.*

The extent to which, in the issuer's opinion, the competitive strengths affects the competitiveness of its products (works, services):

- *Extensive infrastructure enables offering of a full range of services, including those using advanced technology solutions, thus improving competitiveness of the Company;*
- *High quality of service ensures strong positive image of the Company and attracts new customers.*

JSC CenterTelecom is the largest among MultiRegional telecommunications companies created in 2002. The Company owns a well developed telecommunications infrastructure in the most densely populated area of Russia, accounting for 20% of Russia's total population.

The Company operates in 17 constituents entities of the Russian Federation.

JSC CenterTelecom provides a wide range of services, like POTS, Internet, data, on-air and Cable TV, wireline and UHF radio, lease of channels and other resources, etc. The Company also offers public network interconnection to other operators.

Installed switching capacity of JSC CenterTelecom telephone network as of October 1, 2004 according to current information is 6,681,660 subscriber lines.

Nowadays local telephone networks constitute a complex system with some 9,000 switches of different makes. Telecommunications network of JSC CenterTelecom is constantly improved and modernized. New digital exchanges and switching nodes are brought into service, digital links and microwave lines are built. Capacity of digital switches as of October 1, 2004 accounts for 45.9% of the total installed switching capacity. Installation of modern digital switches both locally made and from foreign vendors not only expands network switching capacity but also makes it possible to offer a wider range of services, including Internet, ISDN, data, etc. In 3Q2004 some 133,017 lines were installed and put into operation at telephone exchanges, of which 115,757 lines at urban switches, and 17,260 at switches in rural areas.

Urban telephone lines account for 85 % of the total PSTN capacity of JSC CenterTelecom, while capacity of rural networks makes up the rest (15%); evidencing a clear dominance of urban telephone networks in the overall structure of local telecommunications of the Company.

Cable and linear assets of the local networks of JSC CenterTelecom are installed and used for provision of services according to licenses. Total length of the cable links is 715,239 km, and the figure is constantly growing, of which some 4.992 thousand are fiber-optic links.

Long-distance telecommunications

JSC CenterTelecom offers domestic long-distance and international telecommunication services based on agreements with Russia's leading long-distance carrier – OJSC Rostelecom.

Traffic between local telephone networks and trunk network of Rostelecom is routed via long-distance exchanges. At the moment JSC CenterTelecom owns 25 such switches. Both fiber-optic and microwave links are used for trunk links and distribution networks.

The length of intra tariff band trunk transmission channels according to current data as of October 1, 2004 is 30,534.283 km, including 11,633.883 km of fiber-optic links laying a solid basis for provision of high-quality digital channels and trunk links. Only certified for compliance and meeting strict requirements fiber-optic cables are used. Some 885.083 km of intra tariff-band fiber-optic links were commissioned for service for 9 months of 2004.

Installed capacity of long-distance telephone switches is currently 116,115 ports (as of October 1, 2004). In 3Q2004 there was no increase in the capacity of the long-distance exchanges.

All local centers and key regional cities have an access to IDD telephone service. The Company bills its customers for long-distance services, collects payments in respect of the services rendered, and settles accounts with Rostelecom for carrying long-distance traffic.

SUMMARY

of radio frequencies allocated by bodies of the State radio-frequency service according to applicable law for provision of telecommunications services using radio-electronic means in the Central Federal District of the Russian Federation

In order to provide telecommunications services using means of radio-electronic communications the following frequency resources were allocated to JSC CenterTelecom:

1. To provide on-air TV and radio broadcasting (TV and sound program on-air broadcasting) in the territory of the Belgorod, Vladimir, Voronezh, Ivanovo, Kaluga, Kostroma, Kursk, Lipetsk, Moscow, Tambov, Tver, Yaroslavl regions – altogether 132 radio frequency assignments, executed

in 42 permits granted by the Federal State Unitary Enterprise Main Radio Frequency Center and Ministry of Communications (the "permits").

2. To provide cellular radio-telephone services using NMT-450 standard in the territory of Ivanovo, Kostroma and Yaroslavl regions – altogether 440 frequency assignments, executed in 8 permits.
3. To provide cellular radio-telephone services in the territory of Tambov region: using GSM-900 – altogether 712 frequency assignments in 6 permits; using GSM-1800 standards – 36 frequency assignments in one permit.
4. To provide cellular radio-telephone services using AMPS/DAMPS standards in the territory of Tula – altogether 24 frequency assignments in one permit.

7. To provide local telephony services using wireless access systems in the territory of the Belgorod, Vladimir, Voronezh, Ivanovo, Kaluga, Kostroma, Kursk, Lipetsk, Moscow, Orel, Ryazan, Smolensk, Tula regions – altogether 228 radio frequency assignments (radio channels) in 65 permits.

Additionally, 456 frequency assignments in 102 permits were secured for provisioning of transmission systems on local and trunk lines using microwave facilities.

3.4 Plans of future activities of the issuer

Until the year end scheduled developments to expand and upgrade the existing local and trunk networks will be continued based on implementation of new technologies. In 4Q2004 it is planned to commission for operation facilities with installed switching capacity of 171,485 lines, in some subsidiaries fiber-optic links with the total length of over 1,500 km will be brought into operation; in Tulski and Yaroslavski subsidiaries new long-distance exchanges will be built with installed capacity of 1,260 circuits. Gradual migration of PSTN to multiservice networks offering a wide range of services is the strategic direction of network development.

JSC CenterTelecom continues a wide-scale deployment of multiservice networks in keeping with CenterTelecom's plans to consolidate the Company's position on new service markets (Internet access, packet telephony, data) and to meet the demand for these services of individual subscribers, private businesses and state authorities.

Under Svyazinvest's guidance JSC CenterTelecom participates in the development of a system design to deploy a corporate data network of Svyazinvest's Group of companies, that will unite local networks of subsidiaries with the General Directorate of JSC CenterTelecom and Svyazinvest, will ensure reliable communications for integrated corporate information infrastructure. This network is scheduled for completion within short-term period to enable JSC CenterTelecom as early as in near future to switch to new information technologies in the management of the Company.

Before the consolidation of the Company that took place on November 30, 2002, there was no revaluation of the issuer's fixed assets. Fixed assets of the merged companies were valued for accounting purposes at their depreciated book value as at November 30, 2003. Though it should be noted that in some of the merged companies in 2000-2002 revaluations were actually carried out. As revaluations were made by independent at that time companies and due to different revaluation time (Voronezh, Orel, Tambov – 2000, Tula, Kaluga, Kostroma – 2001, Tver – 2000-2002) and various valuation techniques (different appraisers) the issuer does not think it makes any sense to report detailed data on revaluation history for each of the merged companies before the consolidation.

For 9 months of 2004 JSC CenterTelecom put into operation fixed assets totaling RUR4,239,117 thousand.

Information on lien/encumbrance of fixed assets:

The Company pledged under credit facility agreements fixed assets valued at RUR6,750,045 thousand (as of September 30, 2004). The pledge takes effect as of the credit facility drawdown and terminates at the moment of repayment of outstanding amounts under credit facility agreements (up to 2008).

Terms and conditions of credit facility agreements are confidential.

Information on acquisition, replacement, retirement of fixed assets valued at 10% or more of the total fixed assets value, and other fixed assets at the issuer's discretion, existing at the date of approval of the issue prospectus: *no information*

3.7.2 Value of immovable property of the issuer

Value of the immovable property of the issuer (land lots, buildings, telecommunications facilities) was:

- RUR14,233.79 million as on September 30, 2004;
- Depreciation (buildings, telecommunications lines) as on September 30, 2004 was RUR6,155.32 million.

The total value of immovable property includes value of telecommunications facilities (cable ducts, telecommunications lines). It should be noted that the list of telecommunications facilities to be state registered is not finalized yet; neither the state registration procedure is identified. Article 8 of the Telecommunications Act stipulates that arrangements for state registration of telecommunications facilities shall be determined by the Government of the Russian Federation. According to Par. 21 of the Order of the Russian Government #1776-r of December 4, 2003 it was planned to pass regulations On specifics of the state registration of ownership and other property rights for linear cable telecommunications facilities in 2Q2004. At the moment of writing the regulations were not passed.

IV. Financial and business performance of the issuer

4.1 Results of the financial and business operations of the issuer

4.1.1 Profit and losses

Description	3Q2004
Revenues, RUR	6,183,764,000
Gross profit, RUR	1,401,034,000
Net profit (undistributed profit/nor-covered loss), RUR	27,870,000

Return on assets, %	0.07
Return on equity, %	0.18
Sales margin, %	22.7
Not-covered loss on the reporting date, RUR	-
Ratio of not-covered loss to book value	-

Revenues of JSC CenterTelecom from sales of goods, products, works, services in 3Q2004 totaled RUR6,183,764 thousand (growth of 3.3% over 2Q2004), including revenues from sales of telecommunications services of RUR6,091,366 thousand (growth of 3.4%).

Net profit for 3Q2004 reached RUR27.87 million.

Productivity in 3Q2004 grew 5% over 2Q2004 and reached RUR93,239 per employee.

Fairly low indices of return on assets and equity (0.07% and 0.18% respectively) were due to the fact that during the reporting period the Company implemented the bulk of its investment program financed mainly through debt and borrowing. The cost of the borrowing took its toll on the financial result in 3Q2004.

Sales margin in 3Q2004 grew 4% over 2Q2004 and reached 22.7%.

4.1.2. Causes of changes in the issuer's revenues from sales of goods, products, works, services and profit (losses) from recurrent operations.

Revenues in 3Q2004 were RUR6,183,764 thousand.

Changes in revenues in 3Q2004 occurred owing to raising rates for telecommunications services and growing number of subscriber telephone lines.

Period	Change in revenues, RUR in thousands	Factors causing changes in revenues
3Q2004	+1,401,034	Growing sales of basic services: 43.5% Raising tariffs and other causes: 56.5%

4.2. Liquidity of the issuer

Description	9 months of 2003	9 months of 2004
Own working capital, RUR in thousands	-64,653,340	-16,741,591
Financial dependence ratio (Equity to Total Assets)	0.88	1.70
Own capital autonomous ratio	0.53	0.37
Inventory coverage by own working capital	-3.50	-14.24
Permanent asset index	1.42	2.10
Current ratio	0.87	0.73
Quick ratio	0.53	0.52

Calculation of the financial ratios followed the guidelines recommended by regulations approved by federal stock market regulatory bodies.

The data in the Table clearly indicate that the issuer extensively uses raised funds alongside with its own funds in order to carry on business and financial activities. This takes its toll on growing ratio of financial dependence and decreasing autonomous ratio. Growth of financial dependence ratio is caused by increasing raised credit facilities and loans, mainly long-term ones, to be repaid after 2008. The permanent asset index increased due to growing value of non-current assets related to technical modernization and upgrade of the Company. Decrease of liquidity is attributed to the faster growth rates of current assets in the reporting period compared to the same period previous year.

4.3 Amount, structure and sufficiency of the issuer's capital and current assets

4.3.1 Value and structure of the issuer's capital and current assets

The charter (authorized) capital of the issuer is according to its foundation documents.

Target financing funds of the issuer (including amounts allocated for specified target financing, funds received from other organizations and individuals, budget funds, etc.):		
Total capital of the issuer	15,084,047	14,718,453

Decreasing share of the own capital in the Issuer's liabilities in the reporting period (36%) compared to the same period previous year (51%) was caused by growing debt financing to fund the achievement of the Company's targets.

RUR in thousands

Description	9 months of 2003	9 months of 2004
Inventories	1,848,899	1,175,288
VAT	989,088	1,481,110

Short-term financial investments	17,288	1,863,824
Cash and equivalents	1,323,193	640,986
Other current assets		1,156

Total current assets	7,228,153	9,147,830
----------------------	-----------	-----------

Current assets grew 26.6% for 9 months of 2004 compared to 9 months of 2003, mainly due to growing VAT, accounts receivable and short-term financial investments of the issuer.

In the assets break down of the Company for 9 months of 2004 the share of current assets fell compared to the same period previous year and reached 225 (25% for 9 months of 2003), so the share of non-current, mainly fixed, assets increased to 78% (75% for 9 months of 2003), owing to industrial specifics of the Company possessing a huge extensive telecommunications infrastructure. Current assets are mainly accounts receivable, almost all of which are short-term.

Financing sources of the working capital are own and raised funds the latter being short and long-term credit facilities from banks.

Factors that may result in changes in the policies of financing current assets:

- changes in accounts receivable, inventories, current assets turnover;
- changes related to interest rates charged by banks;
- changes in market prices of inventories and other tangible items;
- changes in prices of services rendered by the Issuer.

Likelihood of those factors:

- the Issuer's policies of current asset management and in particular, accounts receivable and inventory management are aimed at reducing the amount and turnover periods. Negative impact of this factor on the practice of current asset financing is unlikely;
- cost of bank loans and refinancing rate set by the Central Bank of Russia tend to decline. Negative impact of this factor on the practice of current asset financing is unlikely;
- prices of tangible items and goods employed by the Issuer in the process of business activities are not exposed to large volatility. Negative impact of this factor on the practice of current asset financing is unlikely;
- market strategy of the issuer is aimed at expanding business in unregulated sectors where prices are not subject to government regulation. Negative impact of this factor on the practice of current asset financing is unlikely.

4.3.2 Sufficiency of the capital and current assets of the issuer

Operating expenses for 9 months of 2004 (lines 070+100) reached RUR2,659,344 thousand.

Own capital as on September 30, 2004 was RUR14,718,453 thousand.

Short-term liabilities as on September 30, 2004 were RUR12,886,265 thousand.

According to guidelines recommended by regulations issued by federal stock market regulatory bodies of Russia, the issuer's own capital is deemed sufficient to cover current operating expenses and meet short-term liabilities, as the amount stated in line 490 of Form 1 of the balance sheet for 9 months of 2004 exceeds that of line 690 by 1.14 times. Average daily operating expenses and debt servicing amounts of the Issuer in 2Q2004 were RUR8,159 thousand, and RUR12,981 thousand for 3Q2004. Forecast for 4Q2004 is RUR8,282 thousand. The Issuer expects that current assets in 4Q2004 will be enough to finance current operating expenses anticipated in 4Q2004.

4.3.3 Cash and cash equivalents

The issuer's needs in cash funds are anticipated as follows:

for 2004 - RUR43,005,482 thousand, the amount in 3Q2002 (actual) is RUR15,417,582 thousand, the estimate for 4Q2004 is RUR11,717,313 thousand.. Sources for financing are cash flow from rendering telecommunications services, proceeds from other realizations and other financing (mainly short and long-term bank loans and credits).

Possible factors that are likely to affect growing cash financing requirements of the Issuer are: changes in investment policies, changes in market prices for raw materials, tangible items, services, power supply and energy resources, changes in tax policies, interest rate policies of the CB of Russia, etc.

Lending from commercial banks and proceeds of bond issues are main financing sources to fund investment policies of the issuer. Loan agreements set forth provisions common in the practice of the Issuer for doing business with credit organizations: interest rate, total amount, terms and period of

repayment, security provided for lender. Violation of basic terms and conditions of doing business with lending organizations may negatively affect the issuer's image and standing and subsequently be an obstacle for securing loan resources.

Information on balance of arrested bank accounts:

No balances of arrested bank accounts.

Information on accounts payable of the issuer accumulated in the bank records:

No accounts receivable of the Issuer on the bank records.

4.3.4 Financial investments of the issuer

Share of investments is over 10% of the total at the end of the reporting quarter.

10% of the total financial investments of JSC CenterTelecom as on October 1, 2004 is RUR244,441,747

Intangible items were accounted for according to PBU 14/2000 approved by Order #91n of October 16, 2000 issued by the Ministry of Finance.

4.4 Policies and expenses of the issuer in respect of R&D, licenses and patents, new designs and research reports

Development and implementation of the invention to monitor security state of rural exchanges in Mozhayski CTS of the Moscow subsidiary of JSC CenterTelecom were completed. Patent #2231125 for the invention of a device for transmission of alarm signals on seized digital channels.

The Federal Service for intellectual property, patents and trade marks granted to the Company a Useful model patent for the invention of a Network for broadcasting (initial title was A method to integrate TV studios in a single network using a public data network) #40558 of September 10, 2004.

Currently the Federal Service for intellectual property, patents and trade marks is reviewing an application for a patent A Broadcasting Network. According to the application the issue is now being examined.

At the moment a patent application is finalized to have a patent granted for a method of integration of TV studios into a single network using public data network, developed by employees of JSC CenterTelecom.

Under a contract for taking stock of intellectual property items and other results of intellectual activities in Yaroslavski – a subsidiary of JSC CenterTelecom a technical audit is under way to identify such items. 10 items of intellectual are now identified capable of gaining legal protection under copy-right law.

The Company was issued Trademark Certificate # 200257 of March 11, 2001. The trademark is used by the Company to differentiate and make distinct and recognizable its products, works and services. The registration of the Company trademark is effective across the whole of the Russian territory for 10 years as of October 16, 2000.

An application was filed on August 18, 2004 with the Federal Service for intellectual property, patents and trade marks for registration of a trade mark (service mark) for the editorial board of a wireline sound program radio station Iva-radio of Ivanovski subsidiary of JSC CenterTelecom. After a formal examination the application was accepted for a review (A notice of September 1, 2004 given by the Federal Service for intellectual property, patents and trade marks).

Patent validity term, trademarks (service marks) registration is defined according to applicable law. Effective legislation provides for extension of validity term of patents and registered trademark (service mark) registration.

4.5 Trend analysis of the core business of the issuer

Telecommunications is one of the rapidly evolving industries of the nation's economy with growth rates significantly surpassing that of other industries. Share of the telecommunications in the GDP persistently grows (2001 – 2.1%, 2002 – 2.39%, 2003 – 2.9%).

According to CominfoConsulting forecast the total Russian telecommunications market volume by 2006 will jump 2.6 times (as compared to 2002) and reach over RUR550 billion. Data market will grow 5 times through expansion of Internet access and acceptance of new services, like IP-telephony, VPN, etc.

Mobile communications market will grow by 2.8 times (from 2002 level) due to expansion of subscriber base. All industry analysts agree that further mobile market growth will be in the regions.

Over past several years revenues generated by various services are naturally rebalanced in favor of advanced services, mostly mobile services. The CFD is not an exception. Starting from 1999 the share of fixed line telephony in revenues fell from 87% to 66% due to evolving new technologies.

Revenues generated by telecommunications services tend to grow steadily; according to Goscomstat data average annual growth rates of revenues from core business of telecommunications companies were 140% (or around RUR40

billion per year). Source: Goscomstat.

General positive trends in the development of telecommunications invariably affect operations of JSC CenterTelecom. The number of subscriber lines grew by 89,157 lines in 3Q2004. Growth of revenues from telecommunications services as on July 1, 2004 as compared to the same date in 2003 was 127%. In the beginning of 2004 the percentage of revenues generated by new services in the total revenues reached 3% as compared to 1.8% in 2002.

In the future the key negative impact should be expected from tougher competition, particularly, on the part of mobile operators.

The probability of tougher competition of mobile operators is very high, as they are aggressively expanding into all regional markets and widening the range of service offerings.

JSC CenterTelecom is going to benefit from its competitive advantages. It should be noted however that JSC CenterTelecom is realizing possible adverse implications of the changes and takes measure to overcome them.

Currently JSC CenterTelecom implements a marketing strategy aimed primarily at maintaining its market share, increasing revenues generated by non-regulated telecommunications services, and improving the Company's competitive edge on telecommunications service market. Key strategies are developed for the period up to 2006.

V. Detailed information about individuals – members of the issuer's governing bodies, internal control and supervisory bodies of the issuer, brief data on the issuer's employees (personnel).

7.4 Total value of export and export share in the total sales volume.

JSC CenterTelecom does not sell its services beyond the territory of the Russian Federation. The market for sales of JSC CenterTelecom services is regions of the Russian Federation.

7.5 Information regarding significant changes in the issuer's property after the end of the last full fiscal year.

There were no significant (in excess of 5% of asset value of the Company) changes in the immovable property of the issuer.

In the total value of the immovable property the value of telecommunications facilities (cable ducts, linear plant) is specified. It should be noted that in the scope of telecommunications facilities the list of items to be registered by the government is not definitively finalized yet, nor are the registration arrangements. Article 7 of the Federal Telecommunications Act stipulates that specifics of the state registration of telecommunications facilities shall be set forth by the government of the Russian Federation. According to item 21 of the Russian Government executive order of December 4, 2003 #1776-r it is planned to draft a legal act On specifics of the state registration of ownership rights and other property rights for linear and cable plant in 2Q2004. The said legal act has not been passed yet.

7.6 Information about litigations involving the issuer that may materially affect its financial and business operations.

The following law suits can be deemed as significant:

- lawsuits to the amount in excess of 10% of the Company's assets, the amount being equal to RUR3,713,516 thousand as on September 30, 2004;
- lawsuits hampering normal business operations or aimed at their prohibition or termination (lawsuits demanding winding up of the Company, ruling on bankruptcy or insolvency of the Company or its daughter or affiliated companies, assignment of property (assets), contesting or jeopardizing licensed or patented rights, recovery of overdue levies and taxes payable to budget and out-of-budget funds in significant amounts).

In 3Q2004 and during 3 years preceding the reporting quarter end the Company was not involved in any lawsuit that may (might) significantly affect its financial and business activities.

Additionally, please be advised, that in 2003-2004 the Company was involved or takes part as a defendant or plaintiff in the following lawsuits where the risk of potential losses is or was in excess of RUR8 million.

1. The Federal Arbitration Court of the Central Federal District on January 13, 2003 made a court ruling leaving as it stood the decision of the Court of Arbitration of the Lipetsk region, and did not grant the appeal filed by the Inspectorate for the Right-bank district of Lipetsk of the Ministry of Taxes and Duties (MNS). The lawsuit requesting to invalidate the decision of the Inspectorate of the MNS for the Right-bank district of Lipetsk was filed against JS Lipetskelektrosvyaz (currently Lipetski subsidiary of JSC CenterTelecom).

The Arbitration Court of the Lipetsk region by its decision invalidated a decision made by the chief of the said Inspectorate.

In its appeal the applicant requested to repeal the court decision due to wrong application of the corporeal right law. The Inspection claimed that regulations governing tax reliefs related to profit tax were applied wrongly.

The Inspectorate exercised a desk inspection of the tax profit calculation made by the Company.

In the course of the desk inspection the Inspectorate found that the Company wrongfully requested a tax relief amounted to RUR73,364,714 as the amount exceeded the net (undistributed) profit according to the profit and loss account (line 190), and incorrectly applied the profit tax relief allocated to cover loss of previous years. According to the results of the desk inspection the Inspectorate issued a statement and the Inspectorate chief made a decision to recover the undervalued amount of taxes to be payable by the Company in the amount of RUR6,572,951, an additional charge of RUR410,809, late payment charges of RUR269,178 and to fine the Company according to Par. 1 of Article 122 of the Tax Code of the Russian Federation in the amount of RUR891,970; the total charged amount was RUR8,144,908.

The Federal Arbitration Court of the Central Federal District ruled that the lower court correctly drew a conclusion that the profit tax relief according to Article 6 of the Law On the profit of businesses and organizations of the Russian Federation shall be calculated based on the taxable profit.

To confirm the validity of actions to apply the tax profit relief amounting to RUR73,364,714 the Company submitted the calculations and supporting documents justifying the application of the tax relief.

Par. 7 Article 7 of the Law On the profit of businesses and organizations stipulates that tax reliefs in total shall not decrease the actual tax amount calculated net of the tax reliefs by more than 50%.

The Company met this requirement.

The Inspectorate's claim that amounts set to cover losses shall be evenly allocated during 5 consecutive years was not founded on legislation governing taxes and duties.

The Court did not find any violations of the applicable law on taxes and duties when calculating the amount of the profit tax relief.

The Federal Arbitration Court ruled that under these circumstances there were no grounds to grant the appeal of the Inspectorate.

II. In 2003 Moscow Courts of Arbitration rejected two lawsuits drawn up and filed by a legal counsel engaged by JSC CenterTelecom acting on behalf and in the interests of JSC CenterTelecom and requesting to recover expenses of RUR8,057,531 and RUR5,975,041 related to benefits for enjoyed by some categories of customers with respect to payments for telecommunications services rendered. The amount shall be payable by the Russian Federation represented by the Ministry of Finance from the treasury funds.

In the first case the court decided that the plaintiffs claims of inaction of the defendants were not substantiated by documents; in the second case the court ruled that "the federal budget for 2001 and 2002 did not provide in full for compensations of expenses incurred by telecommunications companies. Under such circumstances there were no grounds to grant the request.

The plaintiff's claims that the Russian Federation is an equal party in the civil law relation with legal entities were dismissed by the court.

According to Par. 2 Article 124 of the Civil Code of the Russian Federation provisions regulating participation of legal entities in the relations governed by civil law shall be applied to public legal formations, unless other arrangements are stipulated by law or follow from specific features of such formations.

From the specific feature of the state it follows that given the lack of funds in the federal budget the harm-doer.

Granting the lawsuits under the stated circumstances would entail actual revision of the budget and infliction of harm to an unlimited circle of persons". The legal counsel acting on behalf and in the interest of JSC CenterTelecom compiled and filed a complaint with the Supreme Court of Arbitration of the RF to retry these two cases in the course of exercising supervisory powers; however, judges of the Court brought the decisions to refuse to submit the decisions of the Court of Arbitration and rulings of the Federal Court of Arbitration of the Central Federal District to the Presidium of the Supreme Court for revision in the course of exercising supervisory powers.

In 3Q2004 the engaged legal counsel acting on behalf and in the interests of JSC CenterTelecom drafted and filed again lawsuits over the same subject-matter between the same parties due to newly discovered facts (an order issued by the Constitution Court was cited as the newly discovered fact). The court of the first appearance rejected the lawsuits.

III. In December 2003 an engaged legal counsel acting on behalf and in the interests of JSC CenterTelecom drafted and filed a lawsuits demanding to recover losses incurred due to benefits provided by the Company to veterans in the Tula regions related to payments for telecommunications services. The claimed amount is RUR92,989,136.

The defendant in the lawsuit was named as the Ministry of Finance of the RF as a representative of the Russian Federation.

In the course of initial hearings the department of social protection of the administration of the Tula region and the Ministry of Labor and Social Development were named as co-defendants.

On May 25, 2004 Moscow Court of Arbitration issued the decision in the lawsuit brought by JSC CenterTelecom against the Russian Federation satisfying the demand of JSC CenterTelecom to recover the said amount payable by the Ministry of Finance (MoF); however the court ruling was appealed, and the appellate court by its judgement of September 1, 2004 agreed with the appeal filed by the MoF and dismissed the lawsuit brought by JSC CenterTelecom. By the end of the reporting quarter JSC CenterTelecom had drawn up and filed an appeal to be heard on October 25, 2004.

IV. Moscow Court of Arbitration on May 13, 2004 ruled in favor of JSC CenterTelecom in its lawsuit filed against the Ministry of Finance, Ministry of Labor, Department of Social Protection of the Tambov region demanding reimbursement of RUR10,241,700 incurred by due to benefits provided according to the federal Law on veterans in respect of payments for telecommunications services. The appellate court supported the ruling.

V. During 2003 Voronezhski subsidiary of JSC CenterTelecom filed 3 lawsuits with the Court of Arbitration of the Voronezh regions to the total amount of RUR20.805 million of debt arising from provision of benefits to some categories of customers in respect of payments for telecommunications services. During the litigations the amount to be reimbursed was increased up to RYR23,237,506. The court ruled to recover the said amount in favor of the Company.

VI. On June 25, 2004 the Court of Arbitration of the Voronezh region issued a decision in the lawsuit filed by Voronezhski subsidiary of JSC CenterTelecom to recover income lost by the Company due to provision of benefits offered to some categories of customers in respect of payments for telecommunications services amounted to RUR10,607,180.57.

VII. In July 2004 Voronezhski subsidiary of JSC CenterTelecom filed with the Court of Arbitration of the Voronezh region 3 lawsuits to the total amount of award of RUR49,707,988.74 of lost income to be recovered and payable by the Russian Federation arisen in respect of provision of benefits in respect of payments for telecommunications services rendered to some categories of customers according to law On Veteran, On social protection of disabled people and On social protection of persons exposed to harmful effects of Chernobyl nuclear disaster. The lawsuits are ongoing.

VIII. In 2003 JSC CenterTelecom filed a lawsuit against Moscow region registration chamber and Municipal authority of Chekhov district of the Moscow region represented by the Administration of the district requesting to invalidate the registration of the registered ownership rights of the Municipal authority on the town telephone and radio-relaying networks owned by the Company and to recognize the ownership right of the Company. The assessed value of the assets is RUR8,040,712.

On November 18, 2002 a department of Moscow region registration chamber on Chekhov district illegally registered ownership rights of the Municipal authority of Chekhov district of the Moscow region and issued certificates of the state registration of the rights on town and rural telephone and sound-program broadcasting networks.

The basis for the state registration of the ownership rights of the Municipal authority of Chekhov district of the Moscow region was statements issued by the Department of property relation of the Administration of the Chekhov district of the Moscow region.

However, Article 17 of the Federal Law On the state registration of ownership rights on immovable property and transactions involving immovable property does not mention as grounds for the state registration of ownership rights such things as statements issued by departments of property relations of local administrations that were submitted to the Moscow region registration chamber to support the ownership right registration.

Moscow region registration chamber by its illegal registration of the ownership right of the Municipal authority of Chekhov district of the Moscow region on the said immovable property violated the ownership rights of JSC CenterTelecom for the segments of the urban and rural telephone and radio broadcasting networks.

The facilities were and have been used by JSC CenterTelecom as its assets owned by the Company both before privatization and currently.

Linear-cable plant was included in the Privatization plan of the state enterprise for telecommunications and informatization Rossvyazinform of the Moscow region, was included in the itemized list of building and facilities contributed to the charter capital of Company as on July 1, 1992. Moreover, after privatization new cable linear plant facilities were commissioned for service ordered and paid for by JSC CenterTelecom, and JSC CenterTelecom also performed maintenance and repair of the plant as confirmed by contracts/purchase orders.

The Municipal authority cannot and could never be the owner of the disputed property.

The said formerly state-owned property during privatization process of the state enterprise for telecommunications and informatization Rossvyazinform of the Moscow region was transferred to JSC Elektrosvyaz of the Moscow region (now JSC CenterTelecom).

The court of the first instance tried the case on the merits on April 15, 2004. JSC CenterTelecom's requests were completely granted.

Nevertheless the Federal Court of Arbitration of the Moscow district rendered that the lower court failed to duly consider all circumstances essential for trying the case on the merits and handing down the ruling.

By Order of the Federal Court of Arbitration of the Moscow district of July 14, 2004 the ruling of the Court of Arbitration of the Moscow region was cancelled and the case was sent for a review by the court of the first instance. The case trial on the merits was set on November 2, 2004.

IX. In 2003-2004 the FGUP Russian TV and sound program broadcasting network (FGUP RTRS) filed 3 lawsuits against the Company requesting to invalidate as null and void the privatization of telecommunications companies merged into JSC CenterTelecom in the part related to transfer to them of property of broadcasting centers:

- 1) On May 15, 2003 a lawsuit was filed requesting to apply the consequences of a null and void transaction related to the inclusion into the charter capital of JSC Elektrosvyaz of the Ryazan region of the building of the ORTVTC in the city of Ryazan. The book value of the building is RUR397.54 thousand. The court of the first instance by its decision on January 14, 2004 dismissed the lawsuit. The appellate court and higher courts confirmed the decision of the lower court.
- 2) A lawsuit was filed with the Court of Arbitration of the Moscow region requesting to apply the consequences of a

null and void transaction of the privatization of SETI (GPSI) Rossvyazinform of the Moscow region in the part related to the inclusion in the charter capital of the Company of the building of TV repeater in the town of Stupino of the Moscow region and requesting the return of the building into the state owned property. The book value of the building is RUR0 (completely depreciated).

By a court decision on August 9, 2004 the lawsuit filed by FGUP RTRS was dismissed.

The court decision has entered into force and was not appealed by the end of the reporting quarter.

- 3) FGUP RTRS filed a lawsuit with the Court of Arbitration of the Kaluga region requesting to invalidate Par. 6.1 of the Charter of JSC CenterTelecom in the part related to the inclusion in the charter capital of the Company of the four items: a tower in the town of Maloyaroslavets, microwave links Kirov-Manino-Lyudinovo, Manino-Betlitsa, Kirov-Novooaleksandrovski of the Kaluga region. The book value of the said property is RUR27,438,408.

The territorial division of the Ministry of Property Relations was another party in the lawsuits filing its own requests.

The court of the first instance dismissed the lawsuit filed by FGUP RTRS.

The appellate court repealed the decision of the court of the first instance and brought another decision in favor of FGUP RTRS.

In the reporting quarter JSC CenterTelecom filed an appeal.

X. A state organization – Federal post service of the Moscow region (hereinafter “the UFPS MO”) filed with the Court of Arbitration of the Moscow region a lawsuits demanding invalidation of the ownership rights registered by JSC CenterTelecom for the premises located at the address: 1 Sobtsova Street, Taldom, the Moscow region of the total area of 524.1 sq. m.

The case hearing on the merits is scheduled for November 15, 2004.

The counterclaims filed by ct to UFPS MO requesting to vacate the premises was suspended by court injunction of the Court of Arbitration of the Moscow region of March 24, 2004 until entering into force of the court decision in the lawsuit disputing the ownership rights on the premises.

XI. An engaged legal counsel in the expired period of 2004 ending in the reporting quarter had the following lawsuits on behalf and in the interests of JSC CenterTelecom:

- a lawsuit requesting to recover losses incurred as lost income due to provision by Tulski subsidiary of JSC CenterTelecom of benefits to veterans related to payments for telecommunications services in 2003. The value of the lawsuits is RUR17,025 thousand;
- a lawsuit requesting to recover losses incurred as lost income due to provision by Bryanski subsidiary of JSC CenterTelecom of benefits to veterans related to payments for telecommunications services in 2001-2003. The value of the lawsuits is RUR28,164 thousand;
- a lawsuit requesting to recover losses incurred as lost income due to provision by Ivanovski subsidiary of JSC CenterTelecom of benefits to veterans related to payments for telecommunications services in 2001-2003. The value of the lawsuits is RUR20,137 thousand;
- a lawsuit requesting to recover losses incurred as lost income due to provision by Tverskoy subsidiary of JSC CenterTelecom of benefits to veterans and disabled persons related to payments for telecommunications services in 2003. The value of the lawsuits is RUR19,711 thousand

All the lawsuits were accepted by courts for hearing and are set to be heard.

The Issuer may appoint additional payment agents and cancel such appointees. An official Issuer's notice of such actions shall be published by the Issuer within a period of not more than 10 (ten) business days before making such appointments or their cancellation in the Russian papers Daily News. Podmoskovie and Vedomosti.

Repayments on the bonds are made in the local currency of the Russian Federation by bank transfer to depositors of NDC performing central storing of the bonds in favor of bond owners. A bond owner who is not a depositor of the NDC may authorize a bondholder who is a depositor of the NDC to receive amounts due in respect of income payment and redemption of bonds.

Bond repayments shall be made to depositors of the NDC in favor of bonds owners as registered at the end of business day of the NDC, preceding the seventh business day before the bond redemption date (hereinafter the date is referred to as the "record date").

Not later than 3 business days before the bond redemption date the NDC shall provide the Issuer and/or its Payment agent a list of the bonds owners as finalized on the record date. The list shall contain the following data:

- a) the full name of the bondholder;*
- b) number of bonds as stated on the depo accounts of the holder in question;*
- c) the holder's location and postal address;*
- d) the holder's bank details:*
 - the holder's account current*
 - the holder's individual taxpayer number*
 - the holder's bank name*
 - correspondent account number of the holder's bank*
 - bank identification number of the holder's bank.*
- e) The taxpayer status of the NDC depositor (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.).*

It is the holder's duty to check the accuracy and timeliness of the bank details submitted by him to the NDC. In the event these bank details were not submitted to the NDC or were not provided on time, these obligations shall be met toward a person who requested to fulfill the obligations and recognized as the bondholder on the date of filing the request. The issuer shall perform the obligations on bonds as per the data of the NDC.

Not later than 2 business days before bond redemption date the Issuer shall remit the necessary amounts to the Payment agent account.

Based on the list of bondholders provided by the Depository the payment agent calculates the amounts payable to each bondholder authorized to receive repayments of the bonds.

On the bond redemption date the Payment agent shall remit the amounts due into the accounts of the bondholders in favor of the bond owners.

In the event that one person is authorized to receive repayment amounts on the bonds by several bond owners the person in question shall receive the total amount without break down on each of the bond owners.

There shall be no redemption of bonds before maturity.

Interest (coupon) payable on the bonds:

Income payable on the bonds of the issue:

Income payable on the bonds shall be the sum of coupon income accrued and payable for each coupon period, and discount equal to the difference between the redemption price at maturity (nominal value) and the placement price.

Each bond carries 6 coupons.

Interest rate on the coupons is as follows:

on the first coupon the interest rate is 20% (twenty percent) per annum;

on the second coupon the interest rate is 20% (twenty percent) per annum;

on the third coupon the interest rate is 18% (eighteen percent) per annum;

on the fourth coupon the interest rate is 18% (eighteen percent) per annum;

on the fifth coupon the interest rate is 16% (sixteen percent) per annum;

on the sixth coupon the interest rate is 16% (sixteen percent) per annum

Calculation of the amount payable on each coupon is to be performed according to the following formulae:

$$K_j = C_j * Nom * (T(j) - T(j-1)) / 365 / 100 \%$$

where:

j – coupon period number, j=1,2,3,4,5,6

K_j – amount payable on coupon for each bond;

Nom – the bond par value;

C_j – coupon yield in percent of coupon number j as determined by the decision of the issuer's Board of Directors;

T(j-1) – starting date of the jth coupon period;

T(j) – end date of the jth coupon period.

The coupon amount payable is calculated with the accuracy of RUR0.01 (round-off follows the rules of mathematics).

Arrangements and terms of coupon income payments

Coupon payments on the six coupons of the bonds of the issue shall be made on the following days:

The first coupon is paid on the 91st day from the bond placement start day.

The second coupon shall be paid on the 273rd day from the bond placement start day.

Payment procedure for coupon (interest) payments:

Income payments due on the bonds of the issue on all coupons are made in the currency of the Russian Federation by remittances to NDC depositors. A bond owner who is not an NDC depositor, is entitled to

authorize a bond owner – NDC depositor to receive amounts payable in the respect of bond income. Income payments on bonds shall be made in favor of the bond owners who own bonds as at the close of business of NDC on the day, preceding the 6 (sixth) business day before the income payment day (henceforth the “record day” to finalize the list of bondholders). Performance of the obligations toward a bond owner listed in the list of bond owners is deemed appropriate, including the situation where bonds were reassigned (alienated) after the bond owners record date.

Not later than 3 (three) business days before the bond income payment date NDC shall provide the Issuer and/or its payment agent a list of the bondholders as finalized on the bondholders record date. The list shall contain the following data:

- a) the full name of the bondholder;
- b) number of bonds as stated on the depo accounts of the relevant bondholder;
- c) the location and postal address of the bondholder;
- d) the bank details of the bondholder:
 - account number of the bondholder;
 - the name of the bank with which the account is opened;
 - the holder’s Individual Taxpayer Number (INN);
 - correspondent bank account number;
 - bank identification number of the holder’s bank.
- e) tax status of the NDC depositor (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)

A bondholder is responsible for timely and accurate provision of bank details to NDC. If the information is not available or provided to NDC after time, such obligations are performed toward the person who filed the request to perform the obligation and recognized as a bond owner as on the date of filing the request. The issuer shall perform obligations under the bond issue based on NDC data.

Not later than 2 (two) days before bond income payment date the Issuer shall remit the necessary amounts to the payment agent.

Based on the list of bondholders, provided by NDC, the payment agent calculates the amounts payable to each bondholder authorized to receive bond income payments.

On the bond income payment day the payment agent shall remit as required the necessary funds into accounts of bondholders in favor of the bond owners.

In the event that one person is authorized to receive bond income payments by several bond owners the person in question shall receive the total amount without breakdown on each of the authorizing bondholders.

If the redemption day is a public holiday, whether a state public holiday or a non-operational day for making settlements, the payment of the payable amount shall be effected on the first business day following the holiday. A bond owner is not entitled to seek interest accrual or any other compensation for such delayed payment.

The payment agent functions with respect to bond redemption shall be fulfilled by Commercial Stock Bank ROSBANK (Public Joint-Stock Company) (hereinafter "the payment agent") with the registered office at the following address: 11 Mashki Poryvaevoy Street, Moscow, 107078, Russia and located at the following address: 11 Mashki Poryvaevoy Street, Moscow, 107078, Russia.

The issuer is entitled to appoint additional payment agents and cancel such appointments of agents. An official announcement of the said actions of the issuer shall be published by the issuer according to terms and conditions set forth in Par. 11 of the Decision on securities issue and Par. 2.9 of the Prospectus of securities issue.

Bonds are redeemed and repaid at par on the 1830 (one thousand eight hundred and thirtieth) day from the bond placement start day.

If the redemption day falls on a holiday no matter whether a public holiday or no-business day for settlement transactions the payment of the due amounts shall be effected on the first business day following the holiday. A bond owner shall be not entitled to claim interest accrued or any other compensation for such delayed payments.

Redemption and income payments on the bonds are made in the local currency of the Russian Federation by bank transfers in favor of the bonds owners. It is presumed that nominal holders – depositors of NDC are authorized to receive bond redemption amounts.

Redemption of the bonds shall be performed in favor of the bonds owners who are recognized as such at the end of a business day preceding the 7 (seventh) business day before the maturity day ("the record day to finalize the list of bond owners and/or nominal holders of the Bonds").

Performance of the obligations related to bond redemption shall be effected on the basis of the list of owners and/or nominal holders of bonds provided by NDC (hereinafter "the list of bond owners and/or nominal holders")

An NDC depositor and/or other person not authorized by its customers to receive bond redemption amounts, not later than on the 6 (sixth) business day before the date set for the bond redemption shall submit to NDC a list of

bond owners containing all necessary details as specified below for the list of owners and/or nominal holders of the Bonds.

If among bond owners who authorized a nominal holder to receive the bond redemption amounts there are non-residents and/or individuals, the nominal holders shall provide the following information related to such persons:

- *the full name of the organization/individual – owner of bonds;*
- *number of bonds owned by the bond owner;*
- *full name of the person of the person authorized to receive bond redemption amounts;*
- *the location (registration for natural persons) and postal address (including ZIP code) of the bond owner;*
- *the bank details of the person authorized to receive bond redemption amounts;*

Bond owners, their duly authorized persons, including NDC depositors are responsible for timely and accurate provision of bank details to NDC, and take all risks resulting from failure to provide or untimely provision of information.

If the information is not available or provided to NDC after time, the issuer shall not be liable for undue performance or non-performance of redemption obligations under the bond issue. The risk of damages/losses in the event of untimely or undue provision of the information shall lie with the bond owner.

In the event of non-provision (untimely provision) to NDC of the information required for performance by the issuer of its obligations under the bond issue, such obligations are performed with respect to the person who filed the request to perform the obligations and is recognized as a bond owner as on the date of filing the request. The issuer shall perform obligations under the bond issue based on NDC data, and the performance of the issuer's obligations

in such a case shall be deemed due and complete.

In the event that information provided by a bond owner or a nominal holder, or bank details and other relevant information available in NDC and required for performance by the issuer of its obligations does not allow for the timely remittance of funds by the payment agent, the delay shall not be treated as a delay in performance of obligations under the bond issue, and the bond owner in question shall not be entitled to demand accrual of interest or any other compensation for such delay in payment. The issuer in the circumstances set forth in the contract with NDC shall have the right to request confirmation of such data with the records of the rights on the bonds.

Based on the list of bond owners and/or nominal holders, provided by NDC, the payment agent calculates the amounts payable to each person authorized to receive redemption amounts on the bonds.

Not later than on the 3 (third) business day before the bond redemption the issuer shall remit the necessary amounts to the payment agent account.

At the bond redemption date the payment agent shall remit as required the necessary funds into accounts of persons authorized to receive bond redemption amounts in favor of the bond owners.

In the event that one person is authorized to receive bond redemption amounts by several bond owners the person in question shall receive the total amount without breakdown on each of the bond owners.

In the event of non-provision (untimely provision) to the NDC of the information required for performance by the issuer of its obligations under the bond issue, such obligations are performed with respect to the person who filed the request to perform the obligation and recognized as a bond owner as on the date of filing the request. The issuer shall perform obligations under the bond issue based on NDC data, and the performance of the issuer's obligations in such a case shall be deemed due and complete.

In the event that information provided by a bond owner or a nominal holder, or bank details and other relevant information available in NDC and necessary for performance by the issuer of its obligations do not allow for the timely remittance of funds by the payment agent, the delay shall be treated as a delay in performance of obligations under the bond issue, and the bond owner in question shall not be entitled to demand accrual of interest or any other compensation for such delay in payment. The issuer in the circumstances set forth in the contract with NDC shall have the right to request confirmation of such data with the records of the rights on the bonds.

Payments of coupon of the bonds shall be performed in favor of the bonds owners who are recognized as such at the end of a business day preceding the 7 (seventh) business day before the maturity day ("the record day").

Performance of the obligations related to coupon payments shall be effected on the basis of the list of owners and/or nominal holders of bonds provided by NDC (hereinafter "the list of bond holders and/or nominal holders")

An NDC depositor and/or other person not authorized by its customers to receive coupon payments on the bonds not later than on the 6 (sixth) business day before the date set for making coupon payments on the bonds shall submit to NDC a list of bond owners containing all necessary details as specified below for the List of holders and/or nominal holders of the Bonds.

If among bond owners who authorized a nominal holder to receive coupon payments on the bonds there are non-residents and/or individuals, the nominal holder in question shall provide the following information related to such persons:

- the full name of the organization/individual – owner of bonds;
- number of bonds owned by the bond owner;
- full name of the person of the person authorized to receive coupon payments;
- the location (registration for natural persons) and postal address (including ZIP code) of the bond owner;
- the bank details of the person authorized to receive coupon payments on the bonds;
- taxpayer identification number (INN) of the bond owner;
- taxpayer status of the bond owner.

If the bond owner is a legal entity-nonresident, then

- individual identification number (if available)

If the bond owner is a natural person, then:

- type, number, date and place of issue of identity papers certifying the identity of the bond owner; name of the issuing authority;
- number of the state pension insurance certificate of the bond owner (if available);
- INN of the bond owner (if available);
- date of birth of the bond owner.

Performance of the obligations toward a bond owner listed in the list of owners and/or nominal holders of bonds is deemed appropriate, including the situation where bonds were reassigned (alienated) after the record date.

If the rights of the bond owners with respect to the bonds are recorded by a nominal holder and the nominal holder is authorized to receive coupon payments, the person authorized to receive the coupon payments shall mean the nominal bond holder.

If the rights of the bond owners with respect to the bonds are not recorded by the nominal holder or the nominal holder is not authorized by the bond owner to receive coupon payments, the person authorized to receive the coupon payments on the bonds shall mean the bond owner.

Not later than on the 4 (fourth) business day before date set for making coupon payments a Depository shall provide the Issuer and its Payment agent the list of the bonds owners and/or nominal holders as finalized on the bond owners and/or nominal holders record date. The list shall contain the following data:

- a) the full name of the person authorized to receive coupon payments;
- b) number of bonds as stated on the owner's depo account or inter-depository account of the nominal bondholder authorized to receive coupon payments on the bonds;

- c) the location and postal address of the person authorized to receive coupon payments;
- d) the bank details of the person authorized to receive coupon payments amounts:
 - account number;
 - the name of the bank with which the account is opened;
 - correspondent bank account number;
 - bank identification number and INN of the holder's bank.
- e) Taxpayer Identification Number of the person authorized to receive coupon payments on the bonds;
- f) tax status of the person authorized to receive coupon payments on the bonds.

If the information is not available or provided to NDC after time, the issuer shall not be liable for undue or untimely performance of obligations to make coupon payments on the bonds; the risk of damages/losses in case of untimely or undue provision of the information shall lie with the bond owner.

In the event of non-provision (untimely provision) to NDC of the information required for performance by the issuer of its obligations under the bond issue, such obligations are performed with respect to the person who filed the request to perform the obligations and is recognized as a bond owner as on the date of filing the request. The issuer shall perform obligations under the bond issue based on NDC data.

Based on the list of bond owners and/or nominal holders, provided by NDC, the payment agent calculates the amounts payable to each person authorized to receive coupon payments on the bonds.

Not later than on the 3 (third) business day before the coupon payment date the issuer shall remit the necessary amounts to the payment agent account.

At the coupon payment date the payment agent shall remit as required the necessary funds into accounts of persons authorized to receive coupon payments on the bonds in favor of the bond owners.

In the event that one person is authorized to receive coupon payments by several bond owners the person in question shall receive the total amount without breakdown on each of the bond owners.

Terms of exercising and enforcement of bond owners' rights under the provided securities:

Agreement # 611/02 – DO of April 30, 2002 on provision of a collateral for Joint-Stock Central Telecommunication Company for the purposes of a bond issue concluded between the issuer and Bassian invest LLC stipulates that the said Agreement shall be an offer and open for third parties- bond owners to join by way of bond acquisition. Third parties gain the rights to demand from Bassian invest LLC to fulfill its obligations under the Agreement as of the moment of their acquisition of bonds which are covered by the said Agreement concluded to provide a collateral for the issuer's obligations under the bond issue. Disposal of bonds by their owners signifies the waiver of the rights to hold Bassian invest LLC liable as provided in the said Agreement. Transfer of the rights for bonds to the new bond buyer means gaining by him the rights of a bond owner under the Agreement to the same extent and volume and on the same terms and conditions as were effective at the moment of the transfer of the rights on bonds.

Acquisition of bonds signifies conclusion of contract by the bond buyer under which the collateral for the bond issue was provided. Transfer of the rights for bonds to the bond buyer means gaining by him the rights of a bond owner under the contract to the same extent and volume and on the same terms and conditions as were effective at the moment of the transfer of the rights on bonds.

Bassian invest LLC undertakes to meet for the issuer its obligations toward the bond owners only after it was established that the issuer is unable to meet its obligations to the bond owners.

Bassian invest LLC undertakes to perform the issuer's obligations to the bond owners entitled to demand from the surety performance of its obligations according to the concluded Agreement subject to simultaneous fulfillment of the two following conditions:

- *the issuer failed to pay or paid partially coupon income as a percentage of the bond nominal value to bond owners at the time set out in decision on the bond issue and bond issue prospectus;*
- *the issuer failed to pay or paid partially the nominal value of bonds on the redemption to the bond owners at the time set out in decision on the bond issue and bond issue prospectus;*

Simultaneous existence of these two conditions constitutes an instance of default of the issuer on its obligations toward owners.

Should the fact of the issuer default be established Bassian invest LLC undertakes within 2 days from the date when the default was established as a fact to meet the issuer's obligations to pay the bond nominal value and coupon to all bond owners.

The time frame and procedure of performance by Bassian invest LLC of the issuer's obligations toward the bond owners are identical to the same set out for the issuer as described in decision on the bond issue and bond issue prospectus.

Terms of exercising and enforcement of bond owners' rights under the provided securities:

Acquisition of bonds signifies conclusion of contract by the bond buyer under which the collateral for the bond issue was provided. Transfer of the rights for bonds to the bond buyer means gaining by him the rights of a bond owner under the contract to the same extent and volume and on the same terms and conditions as were effective at the moment of the transfer of the rights on bonds. The written form of the contract is deemed executed.

Bassian invest LLC undertakes to meet for the issuer its obligations toward the bond owners only after it was established that the issuer is unable to meet its obligations to the bond owners.

Bassian invest LLC undertakes to perform the issuer's obligations to the bond owners entitled to demand from the surety performance of its obligations according to the concluded Agreement subject to simultaneous fulfillment of the two following conditions:

- *the issuer failed to pay or paid partially coupon income as a percentage of the bond nominal value to bond owners at the time set out in decision on the bond issue and bond issue prospectus;*
- *the issuer failed to pay or paid partially the nominal value of bonds on the redemption to the bond owners at the time set out in decision on the bond issue and bond issue prospectus;*

Simultaneous existence of these two conditions constitutes an instance of default of the issuer on its obligations toward owners.

Should these circumstances occur the surety will perform the issuer's obligations pursuant to the following arrangements:

A bond owner or a person duly authorized by him is entitled to file a request in writing with the surety for performance of the issuer's obligations ("the request"). The request should contain:

- *the bondholder's full name, and if bonds are assigned for nominal holding and the assigned holder is authorized to receive payments due to the bond owner under the bond issue, the full name of the nominal holder;*

8.7 Information on legal acts regulating import-export of capital that may affect payment of dividend, interest and other funds to nonresidents.

The key piece of legislation covering capital import and export is the Law On currency regulations and control of December 10, 2003 #173-FZ which took effect in June 2004.

Also these issues are regulated by Federal Law of July 9, 1999 #160-FZ On foreign investments in the Russian Federation (as revised by Federal laws of March 21, 2002 #31-FZ, of July 25, 2002 #117-FZ), of December 8, 2002 #169-FZ), Federal Law on Investment activities in the Russian Federation in the form of capital foreign investments of February 25, 1999 #39-FX (as revised by Federal Law of January 2, 2000 #22-FZ), by international treaties of Russian Federation signed to avoid double taxation; by Instructions of the Central Bank of the RF of December 28, 2000 #96-I On special Type C accounts of nonresidents (as revised by Directive of CB of the RF of February 25, 2003 #1253-U and of

August 13, 2003 #1319-U), by Directive of the Central Bank of the RF of July 2, 2001 #991-U On the list of securities operations for which are carried out by nonresidents using special type C accounts of nonresidents.

To the extent that the above listed legal acts do not provide for tougher measures regulating payment/remittance of dividend, interest and other payables to nonresidents due to them under securities held by them, including outstanding traded securities to the same extent nonresidents holding stock, bonds and other securities under which the issuer is liable, run no higher risks.

8.8 Taxation of income incurred on placed and to be placed issued securities

Taxation of income received from participation in the organization in the form of dividends

Taxation of income received from placed and being placed issued securities of the Issuer is governed by the Tax Code of the Russian Federation (henceforth the "TC"), and other legal acts of the Russian Federation, passed according to the Tax Code of the Russian Federation.

TAX RATES

Type of income	Legal entities		Natural persons	
	Residents	Non-residents	Residents	Non-residents
Coupon income	24% (of which: 5% to the federal budget; 17% - to the budget of the relevant constituent entities; 2% - to the local budget)	20%	13%	30%
Income from realization of securities	24% (of which: 6% to the federal budget; 16% - to the budget of the relevant constituent entities; 2% - to the local budget)	20%	13%	30%
Dividends	6%	15%	6%	30%

TAXATION OF NATURAL PERSONS

Type of tax - income tax.

The following income falls in the category of income received from sources in the Russian Federation:

- dividend and interest payments received from Russian organizations, and interest payments received from Russian individuals-entrepreneurs and (or) from a foreign organization in connection with activities of its permanent representative office in Russia;
- proceeds from realization in the RF of shares or other securities, and stakes in the charter capital of organizations.

Taxation base

A taxpayer's income received as a material benefit is the material benefit received from purchase of securities. The tax base is defined as the surplus of the market value of the securities determined taking into account the limits of market price fluctuations, over the actual cost of the securities for the taxpayer. The procedures of identifying the market price of the securities and limits of market price fluctuations are set forth by federal authority regulating stock markets.

The following income is taken into account in determining taxation base for income received from transactions with securities:

- sale-purchase deals with securities traded on organized stock market;
- sale-purchase deals with securities not traded on organized stock market

Income (loss) on sale-purchase deals with securities is defined as the difference between the proceeds from realization of securities and expenses related to the acquisition, realization and safe-keeping of securities actually incurred by the taxpayer and supported by documents, or property deductions accepted for reduction of proceeds from sale-purchase deals.

Such expenses include:

- amounts paid out to the seller according to the agreement;
- payments in respect of depositary services;
- commissions paid to professional participants of stock market, discount paid (recovered) by a unit fund management company during sale (cancellation) by an investor of his interest in the unit fund determined according to the procedure set forth by applicable Russian law on unit funds;

- stock exchange charges (commission);
- payments in respect of registrar's services;
- other expenses directly related to sales, purchases and safe-keeping of securities, paid for in respect of services rendered by professional participants of securities market during their professional activities/

Income (loss) from deals with securities traded on organized securities market shall be increased (reduced) by the amount of interest paid for using funds raised for closing sale-purchase deals with securities, within the limits calculated on the basis of the effective refinancing rate set by the Central Bank of the Russian Federation.

The amount of loss incurred from transactions with securities traded on organized securities market is determined taking into account the limits of the market price fluctuations of securities.

By market prices of securities listed on organized stock market is meant an average weighted price of the securities across the deals closed over a trading day through the trading arranger. If deals with the same securities were closed through more than one trading arranger the tax payer is entitled to choose on its own the market price of the securities calculated according to data from a particular trade arranger. If the average weighted market price of the specific securities is not calculated by a trade arranger, the average weighted market price is deemed as the arithmetic mean of the minimum and maximum prices in the deals closed through the trade arranger over the day.

The tax base is determined separately for each transaction.

Income (loss) from sale-purchase deals with securities is defined as the sum of income amounts across the deals with securities of a certain type closed in the tax period, less the amount of loss.

If a taxpayer's expenses incurred in acquisitions, realization and safe-keeping of securities cannot be directly charged to the costs of acquisition, realization and safe-keeping of particular securities, these expenses shall be allocated pro rata to the evaluated cost of securities to which these expenses are charged. The evaluated cost of securities is determined as on the date of incurring these expenses.

If a taxpayer's expenses cannot be supported by documents, the taxpayer is entitled to resort to the property tax deduction as provide for in par. 1 of sub-item 1 of item 1 of Article 220 of the TC of RF. A property tax deduction or deductions amounted to all actually incurred expenses supported by documents shall be provided to the tax payer by the income payment source at the moment of calculation and payment of taxes to the state budget (by the broker, trust managers, managing company performing trust management of property, constituting an investment unit fund or by other person conducting transactions under an agency contract or other similar agreement in favor of the taxpayer), or upon expiry of the tax period filing tax returns with tax authorities.

If the tax calculation and payment are offset by the source of income outpayments (by the broker, trust managers, managing company performing trust management of property, constituting an investment unit fund or by other person conducting transactions under an agency contract or other similar agreement in favor of the taxpayer) in the tax period, the property tax deductions are provided to the taxpayer by the source of income payments with a possibility of subsequent offsetting upon expiry of the tax period when filing a tax return with tax authorities.

If there are more than one source of income payments the property tax deductions are provided by only one source of income payments at the discretion of the taxpayer.

The tax base for securities sale-purchase deals (cancellation of investments in investment unit funds) is defined as the income received upon expiry of a tax period for securities deals.

Loss from deals with securities traded on organized stock market incurred as the result of a tax period shall reduce the tax base for sale-purchase deals with this particular type of securities.

Income from sale-purchase deals with securities not traded on organized securities market that at the moment of the acquisition trading did not meet requirements to be met by securities traded on organized securities market can be reduced by the amount of loss incurred in the tax period from sale-purchase deals with securities trade on organized securities market.

The date of the actual receipt of income:

- the date of income payment including remittance of income amounts into the taxpayer's accounts with banks, or by the taxpayer's order into accounts of third persons – if income is received in cash funds;
- the date of securities acquisition if income is received as material benefits.

Tax base with respect of securities sale-purchase deals and forward deals with financial instruments is defined upon expiry of a tax period. Calculation and payment of the tax amounts are effected by the tax agent upon expiry of a tax period or while making income payments in favor of a taxpayer before expiry of a tax period.

Tax agents are recognized as Russian organizations generating income or paying income to a taxpayer. Tax agents shall calculate, withhold from the tax payer and pay out the tax amount. If the tax payment source is a person acting under an agency agreement or other similar contract in favor of the taxpayer, the obligations of a tax agent shall be fulfilled by

the person actually paying the income to the taxpayer.

If a tax agent is making cash payments before expiry of the subsequent tax period, the tax amount is paid according to the portion of income defined according to this clause with respect to actually paid out cash income. The income portion is determined as the total income amount multiplied by a ratio of the paid amount to the valuation of securities defined at the date of payment of cash funds in respect of which the relevant tax agent acted as a broker. If there were multiple payments of cash funds to a taxpayer during a tax period the due tax amount is accumulated taking into account previous tax payments.

Securities valuations are identified based on actually incurred and supported by documents expenses related to acquisition of relevant securities.

By cash fund payments are meant payments of cash funds, remittances of cash funds into a bank account of a natural person or to a third party bank account pursuant to the natural person's order.

If it is proved impossible to withhold the calculated tax amount by the source of income payments the tax agent (the broker, trust manager other person conducting transactions under an agency contract, commission contract or other similar agreement in favor of the taxpayer) within one month from the moment of occurrence of these circumstances shall inform in writing the relevant tax authorities at the location of its registration about the impossibility of withholding and the tax amount owned by the taxpayer. In the event of such circumstances taxes are paid pursuant to Article 228 of the Tax Code of the RF.

TAXATION OF LEGAL ENTITIES

Type of tax - income tax.

Received income includes:

- proceeds from realization of property rights (income received from realization);
- income not related to realization received in the form of interest payments on securities and other debt instruments and/or interest participation in other organizations.

Tax base

A taxpayer's income received from realization or other disposal of securities (including redemption) is defined on the basis of the price of the realization or other disposal of securities, and amount of interest income (coupons) paid by the purchaser to the taxpayer, and amount of interest income (coupons) paid by the issuer to the taxpayer; the interest income (coupons) received from realization or other disposal of securities and already taken into account for taxation purposes being excluded.

Expenses incurred from realization (other disposal) of securities are determined on the basis of the purchase price of the securities (including purchase expenses), realization costs, discounts applicable to the calculated values of investment units, accrued interest income (coupons) paid by the taxpayer to the seller of securities the interest income (coupons) already taken into account for taxation purposes being excluded.

Interest under credit facilities, loans and other similar agreements, other debt obligations (including securities) are taken into account at the date income posting according to Article 328 of the Tax Code of the Russian Federation.

The date of income and expense recognition with respect to bond transactions shall be the date of realization of the said bonds according to Article 329 of the Tax Code of the Russian Federation.

Securities are considered as publicly traded on organized stock market if the following three conditions are satisfied at the same time:

- 1) the securities in question are accepted for trading by at least one trading arranger entitled to do so according to effective national legislation;
- 2) if price information (price quotations) is published in mass media (including electronic ones), or can be provided by a trading arranger or other authorized person to any interested party within three years after closing deals with securities;
- 3) if listed market prices of securities are calculated according to effective national legislation.

For tax purposes the market price of securities traded on organized stock market shall be the actual price of realization or other disposal of securities, if this price is less than maximum and more than minimum prices of deals (the "price interval") involving the securities in question, registered by the trading arranger on securities market on the date of closing the relevant deal. If securities traded on organized securities market are realized at prices below the minimal price of deals closed on organized market the financial result is determined on the basis of the minimal price of deal on the organized stock market.

By an accrued interest income (coupon) is meant a part of the interest (coupon) income payable under the term and conditions of such securities issue calculated pro rata to the number of days elapsed from the date of issue of such securities or from the date of previous coupon payments until the date of closing the deal (transfer of securities).

With respect to securities not traded on organized stock market the actual price of realization or other disposal of securities is accepted for tax purposes subject to meeting at least one of the following conditions:

- 1) if the actual price of the relevant deals is in the price interval of the similar (identical, same type) securities registered by a trading arranger on stock market at the date of closing the deal or at the date of the latest trading before closing the deal, if trading in such securities took place with the trading arranger at least once in the past 12 months;
- 2) if the deviation of the actual price of the relevant deal is within 20% in excess of or below the weighted average price of similar (identical, same type) securities calculated by the trading arranger on organized stock market according to the rules set forth by the said trading arranger upon results of trading at the date of closing such deal or at the date of the latest trading before closing the deal, if trading in such securities took place with the trading arranger at least once in the past 12 months.

The income of a taxpayer disposing of shares received by him/her in the process of increasing the charter capital of a joint-stock company is defined as the difference between the price of realization and initially paid-up share price adjusted according to changes in the quantity of shares due to the increase in the charter capital.

Tax base with respect to securities transaction is defined by the taxpayer separately barring the tax base for securities transactions defined by professional participants of securities market. Taxpayers (barring the tax base for securities transactions defined by professional participants of securities market carrying out broker activities) shall define the tax base for transactions with securities traded on organized stock market, separately from the tax base for transactions with securities not traded on any organized securities market.

Valuation of securities being realized or otherwise disposed of is carried by the First In First Out (FIFO) method for issued disposed of securities, and by actual cost of securities for non-issued securities.

Taxpayers receiving income (loss) from transactions with securities in the previous tax period or previous tax period are entitled to reduce their tax base for transaction with securities in the reporting (tax) period (defer the said loss) according to terms and conditions set forth in Article 283 of the Tax Code of the Russian Federation.

Loss from transaction with securities not traded on any organized securities market incurred in the previous tax period (previous tax periods) can be charged to the reduction of the tax base from transactions with such securities defined in the reporting (tax) period. Loss from transaction with securities traded on organized securities market incurred in the previous tax period (previous tax periods) can be charged to the reduction of the tax base from transactions on realization of given category of securities.

Within a tax period losses incurred in the relevant reporting period from transactions with securities traded and not traded on organized securities market shall be deferred separately for these categories of securities respectively within the limits of profits received from transaction with such securities.

If the recipient of the interest from a debt obligations of any type including bonds carrying the right of participation in profits and convertible bonds, is a foreign organization, not performing activities through its permanent representative office in the Russian Federation, the tax from such income is calculated and withheld by the tax agent. If the source of such income payments is a person performing activities under an agency agreement or other similar agreement in favor of the taxpayer the tax agent obligations shall be fulfilled by the person actually paying income to a foreign organization, which does not have operations through its permanent representative office in the Russian Federation.

If a tax agent makes income payments to a foreign organization taxable in the Russian Federation according to international treaties (agreements) under reduced rates, the tax agent shall calculate and withhold the tax at the relevant reduced rates subject to provision by the foreign organization of supporting documents to the tax agent as stipulated by par. 1 of Article 312 of the Tax Code of the Russian Federation. In the vent of income payments made by Russian banks on transactions with foreign banks confirmation of the permanent domicile of the bank in an overseas country with which an international treaty (agreement) regulating tax issues is concluded, shall not be required if such domicile is confirmed by information available from a public domain directories.

Form and other terms and conditions of making income payments on the bonds of the issue: **cash funds**

Reporting period for which income payments on the bonds of the issue were made: **2002**

Actual fulfillment of the obligations:

Any bond owner is entitled to request interest payment of 2 (two) per cent p.a. of the nominal value per bond upon expiry of each calendar year. A bondholder registered in the register of the bondholders of the relevant type of bonds on January 1st of each year before maturity is entitled to receive interest payments. The deadline for meeting obligations to pay coupons is not defined by the relevant Decision on the bond issue.

The total amount of income actually paid on book-entry series 2-II bonds of JSC CenterTelecom: RUR42,712.00

The reason:

- too few bondholders bothered to turn up at the headquarters of the Issuer to receive interest payments on the bonds specified above, despite timely placement of the relevant notice in the media. The bond issue series 2-II of CenterTelecom is a "telephone" one: the key incentive for bond owners is not receiving interest payments, which is preserved in full, but provision of an access to telephone network.

Total amount of income paid out for all bonds of the issue in 2002: **RUR42,712**

Income payable on the bonds of the issue in monetary terms, per bond, **RUR1.00**

Total amount of income payable on all bonds of the issue, **RUR212,161**

GUIDELINES

Protection of confidential information in JSC CenterTelecom

(Approved by Order of the general Director of JSC CenterTelecom #322 of July 6, 2001)

1. General provisions

- 1.1 These Guidelines for protection of confidential information in JSC CenterTelecom (hereinafter "the Guidelines") were developed in compliance with the Civil Code of the Russian Federation¹, Federal Telecommunications Act², Federal Law On information, informatization and protection of information³, On Joint-Stock Companies⁴, Guidelines on handling sensitive/proprietary information with restricted circulation in federal administrative bodies⁵ and other legal acts and regulations of the Russian federation governing relations in the area of information protection, and in conformance with the Charter of Joint-Stock Central Telecommunication Company (hereinafter "the Company").
- 1.2 The Guidelines cover confidential information⁶ covered by List of confidential data⁷ owned by the Company (commercial secrets) or provided to it by state authority bodies of the Russian Federation, by organizations of various forms of ownership, individuals under the confidentiality terms (personal data, secrets of investigations and court proceedings, professional secrets, classified information, etc.).
- 1.3 The Guidelines are an instructive document, mandatory for compliance with it for all staff of the Company, and setting forth organizational measures aimed at preventing infliction of damages to economic interests and business standing, and proven records of the Company caused by illegal (poorly judged) actions of legal entities or individuals due to disclosure (transfer, loss) or gratuitous appropriation of confidential information.
- 1.4 Protection of the confidential data cannot be used to conceal negligence, unfair competition and other negative phenomena in the activities of the Company.
- 1.5 The commercial secrets⁸ of the Company shall mean scientific, technical, commercial, general and other information used in the Company's activities under its charter that has a potential or actual economic value due to the fact, that it is not in a public domain and cannot be easily obtained or derived in a legal manner by any other person who may gain economic benefits from its disclosure or usage, and is a subject-matter of adequate legal, organizational, technological and protection measures.
- 1.6 The commercial secrets of the Company are the property of the Company, and protection of these secrets is an integral part of the scientific, technical, financial, economic, business and social activities. The Company is entitled to establish, within the scope of its powers, the rules of development, making records, and storage and handling of information media, rules of procedure for providing access to commercial secrets to third parties, and organization of the system for storing trade secrets (hereinafter "the confidentiality arrangements").
- 1.7 In the event that the commercial secrets of the Company are the result of collaboration between the Company and other organizations on a contractual basis, the secrets shall be the joint property of the relevant parties and can be used only on a mutual agreement between them.
- 1.8 The data constituting a trade secret are classified as "confidential". Certain items confidential by their nature can bear other restrictive classifying markings established as identified by a decision of the Company management, as well as other specific arrangements for handling such data to be provided in special regulations (instructions).
