Jury finds that eSpeed patent invalid

London, February 23, 2005 - ICAP plc (IAP.L), the world's largest interdealer broker announced the outcome of the patent infringement case brought by eSpeed against two ICAP Group companies.

In the United States District Court for the District Of Delaware, which has been hearing the patent infringement claim for the last two weeks, the jury in this case found that the eSpeed's patent is invalid.

The judge had previously ruled that ICAP's BrokerTec platform does not infringe eSpeed's patent and that the ICAP Group companies, including Garban LLC, will not face any liability for damages.

Michael Spencer, Group CEO of ICAP commented, "We are delighted with the outcome of this case. The jury has found that eSpeed's patent is invalid and we look forward to the judge's decision on whether the patent was acquired by inequitable conduct.

This is a great result for everyone trading US Treasury products.

ICAP provides the most liquid electronic broking venues in the US Treasury market through the BrokerTec and Garban platforms. ICAP's combined voice in the electronic market share overall in US Treasury products was estimated to be 60% in the fourth quarter of 2004, compared with a 46% share in the same period of 2003."
