Press Information

Vienna International Airport: Good development of traffic in February.

Although the second month of the year is generally one of the weakest travel periods, traffic showed good development in February 2005. The number of passengers rose 3.3% over the comparable prior year level to 948,384. Flight movements increased 1.8% and maximum take-off weight grew 5.0%. Cargo also recorded good results with a plus of 8.4%. However in contrast to February 2004, February 2005 had only 28 days. Adjustment for this factor would improve the year-on-year comparison by almost more than four percentage points.

The number of passengers showed differing developments by region: the Far East reported a minus of 1% and North America a minus of 7.8%, but the Near East and Middle East registered strong growth of 49.1%.

The number of passengers increased 5.9% to 1,933,457 for the first two months of 2005, while a decline of 1.3% was recorded in transfers. Maximum take-off weight increased 7.9%, flight movement rose 4% and cargo volume grew 13.7%.

	February 2005	Change in %	January to February 2005	Change in %
Passengers	948,384	+3.3	1,933,457	+5.9
Transfer passengers:	311,228	-6.4	653,632	-1.3
Maximum take-off Weight (in tonnes):	444,758	+5.0	926,791	+7.9
Flight movements (arrival + departure):	16,253	+1.8	33,598	+4.0
Cargo in tonnes (air cargo and trucking):	16,163	+8.4	31,768	+13.7

Re: FJH AG (the "Company")
File No. 82-5077

Dear Sir or Madam:

Subsequent to our submission of January 25, 2005 enclosed please find a statement by the Company regarding the delay of the publication of the Company's financial statements 2004.

Please do not hesitate to contact the undersigned should you have any questions regarding the above.

Very truly yours,

Johannes K. Gäbel
U.S. Authorized Representative

Enclosures

Dear Mr. Gaebel,

The publication of the annual financial statements 2004 of FJH, (ISIN DE0005130108), the consultancy and software company for the insurance sector, will be postponed from 22 March to 27 April 2005.

The reason for this change of date is the sale of Heubeck AG in January 2005 and the effects of this transaction on the balance sheet. The sale had become economically effective on 30 December 2004. This leads to significant delays in preparing the annual financial statements.
