Sumisho Computer Systems Corporation Announces Revision of Consolidated and Non-Consolidated Forecast for The Fiscal Year Ending March 31, 2005

On March 11, 2005, Sumisho Computer Systems Corporation (hereinafter, the "SCS"), announced today the following revisions of its consolidated results forecast for the fiscal year ending March 31, 2005 from those announced on October 28, 2004.

1. Revision of the forecast for the year ending March 31, 2005 (the period from April 1, 2004 to March 31, 2005).

(1) Consolidated Results Forecast

(millions yen)

	Sales	Ordinary Income	Net Income
Prior forecast (A)	77,500	6,500	4,000
Revised forecast (B)	70,000	4,800	3,000
Change (B-A)	-7,500	-1,700	-1,000
Rate of Change (%)	-9.7	-26.2	-25.0
(For reference) Prior FY results ended March 31, 2004	76,675	7,122	3,978

(2) Non-consolidated Results Forecast

(millions yen)

	Sales	Ordinary Income	Net Income
Prior forecast (A)	72,400	6,800	4,100
Revised forecast (B)	65,200	5,100	3,100
Change (B-A)	-7,200	-1,700	-1,000
Rate of Change (%)	-9.9	-25.0	-24.2
(For reference) Prior FY results ended March 31, 2004	70,874	6,936	4,102

2. Reasons for the revised forecast (consolidated and non-consolidated basis)

Since smaller IT investments in size, quicker delivery of results, fiercer competition, and larger costs before contract have increasingly come to the front in this fiscal year, business environment in the market seems to remain in a severe condition. Customers' IT investments, however, seem to have hit bottom and have been slightly improving from the latter phase of last year.

In this condition, the consolidated and non-consolidated sales are likely to fall below the prior forecast. Orders received go through a phase of recovery, compared to the same term last year, whereas those are unlikely to make a large contribution to sales and income for this fiscal year. In addition, some scheduled projects were delayed in taking action, some were passed up, and inspection of delivered results scheduled in this fiscal year is estimated to be postponed to the next fiscal year at the customers' own conveniences.

Furthermore, the consolidated and non-consolidated ordinary income and net income are also likely to fall below the prior forecast, due to decreasing sales, additional costs, and deterioration and deficit of some projects.

3. Other

Revision of projected dividends of common stock (JPY 13 per share) for the fiscal year ending March 31, 2005 from those announced earlier would not be forecasted at this time.

Cautionary Statement:

Statements made in this release with respect to Sumisho Computer System Corporation's current plans, estimates, strategies and beliefs, and other statements that are not historical facts are forward-looking statements about the future performance of Sumisho Computer System Corporation. These statements are based on management's assumptions and beliefs in light of the information currently available to it. Sumisho Computer System Corporation, therefore, cautions you that a number of important risks and uncertainties could cause actual results to differ materially from those discussed in the forward-looking statements, and you should not place undue reliance on them.
