Press Release

Stockholm, April 11, 2005

Börje Ekholm new CEO for Investor as of September 1, 2005

Investor AB's Board of Directors has today appointed Börje Ekholm as new President and Chief Executive Officer effective September 1, 2005. He succeeds Marcus Wallenberg, who is also leaving Investor's board as of September 1.

Börje Ekholm, 42, has been employed by Investor since 1992. He has been Executive Vice President and Head of the New Investments business area since 2000 and is currently a director on the boards of several of Investor's holdings, including WM-data in Sweden and Tessera Technologies, Inc. in the U.S.

"After six intensive years as President and CEO – and against the background of my proposed chairmanship of SEB – it is a natural step for me to hand over Investor to a new CEO. Investor has developed strongly over the past two years and has a solid financial position today," comments Marcus Wallenberg.

"I am excited about taking over the leadership of Investor and I feel confident about taking the company forward. Investor is well positioned to successfully develop companies and generate long-term attractive returns for shareholders," says Börje Ekholm.

OFFICE OF INTERIM REPORTS
CORPORATE FINANCE

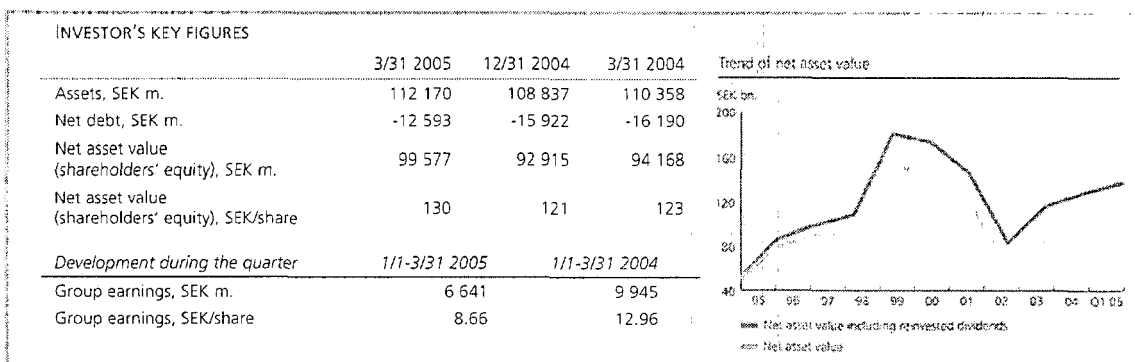

Interim Report January-March 2005

Important events in the first quarter

- This is Investor's first interim report prepared in accordance with International Financial Reporting Standards (IFRS).
- Investor's financial flexibility was further strengthened and leverage declined to 11 percent.
- Shares were sold in AstraZeneca, ABB and Scania for SEK 2,207 m., SEK 788 m. and SEK 550 m., respectively.
- Five new investments were made in the New Investments business area. Investor Growth Capital successfully sold Entific. In March, EQT announced that it is participating in a public tender offer to acquire the listed company ISS A/S in Denmark. In the beginning of April, EQT reported that it is selling Dometic.
- The mobile broadband operator 3 Scandinavia had 414,000 subscribers in Sweden and Denmark at the end of March. Average revenue per user continued on a healthy level.
- The Grand Group sold Berns and two buildings next to the Grand Hôtel in Stockholm to release capital for its hotel business.

Financial information

- The net asset value amounted to SEK 99,577 m. on March 31, 2005 (SEK 130 per share), compared with SEK 92,915 m. (SEK 121 per share) at year-end 2004.
- Group earnings for the period totaled SEK 6,641 m. (SEK 8.66 per share), as against SEK 9,945 m. in the corresponding period of last year (SEK 12.96 per share).
- Core holdings had an impact of SEK 6,152 m. on first-quarter earnings (10,007). AstraZeneca, ABB and Atlas Copco had the biggest impact: SEK 2,697 m., SEK 1,342 m. and SEK 1,211 m., respectively, while Ericsson affected earnings by SEK -1,127 m.
- New investments had an effect of SEK 486 m. on earnings in the first quarter (169).
- The total return on Investor shares was 13 percent in the first three months of 2005 (12). The total return was 26 percent during the past 12-month period (69).

President's comments

Investor's holdings continued to develop strongly during the quarter. This was reflected in our earnings for the period, which totaled approximately SEK 6.6 bn. In the first quarter we sold shares in a number of holdings, such as AstraZeneca, ABB and Scania, to increase our financial flexibility. Being disciplined and building balance sheet strength during good times is key for creating a solid foundation for the future.

The trend of Investor's net asset value remained positive during the first quarter. Our position has been strengthened by our core holdings, which performed strongly, and because we made a number of profitable transactions. Our holdings in the New Investments business are continuing to develop positively. The mobile broadband operator 3 is also heading in the right direction.

Strong balance sheet builds a solid foundation

During the first few years of the new millennium, we experienced a weak economy and declining stock prices. During this period, we supported our holdings financially and through active ownership efforts. As the economy gradually recovered and the value of our holdings rose, we have realized some profits on those investments. We have continued to strengthen our financial position in the first quarter through the partial sale of large holdings, primarily because of our goal to secure financial flexibility for Investor going forward. However, this does not change our positive view of our holdings.

Focusing on profitable growth in the core holdings

We have noted earlier that the core holdings have generally strengthened their financial position and increased the efficiency of their operations. A number of holdings have also advanced their market share relative to their competitors. Their employees, managements and boards deserve credit for such accomplishments. During the spring, a number of holdings reported that they intend to distribute a portion of accumulated capital to shareholders. At the same time, those companies have made sure that they have sufficiently strong balance sheets for future substantial investment in organic growth and/or growth through acquisitions.

We have a positive view of most of our core holdings and their ability to create opportunities for both organic growth and to make selective acquisitions. An acquisition strategy must be carried out with great discipline. It is easy to grow through acquisitions, but more difficult to buy at justifiable prices. To achieve long-term profitable growth, it is extremely important that companies continue to develop competitive product offerings in existing and new markets, and to maintain current and future customer focus. We remain convinced that this will ensure the best value creation for shareholders in the long term.

Positive result within New Investments

We can now look with increased confidence at the results of many years of hard work within the New Investments business area. With the adoption of IFRS, we now can report that New Investments has contributed more than SEK 5.4 bn. in investment results to our earnings since 1998. We have also achieved an average annualized return that has more than met the targeted return requirement of 20 percent. We believe in this business and our ability to build successful small and medium-size companies. We have a number of holdings with strong potential and we continue to see attractive business opportunities in Europe, the United States and Asia.

Despite the recommendations of some to close down our Asia business during the economic crisis of the late 1990s, we chose to stay. We continued the building process, developed a local network and worked further on building up our knowledge of the region. We are very gratified by this persistence, as we now have a much stronger presence in the Asian market. This illustrates the importance of perseverance and adhering to your convictions, even in turbulent times.

Today, we also see clear synergies between our Core Holdings and New Investments activities, as well as between our investments in different markets. By having a diversified portfolio, we can more adequately balance some of the risks in these businesses.

Important progress for 3

Less than two years after 3 launched its services and became the first 3G mobile broadband operator in Scandinavia, the company has the second most extensively built out 3G network in the world, second only to Hong Kong. 3 has more than 414,000 subscribers in Scandinavia, improved customer service and an attractive offering of mobile broadband services in 3G handsets that are getting better and better.

3's cost of subscriber acquisition has decreased and its average revenue per user has risen. At the same time, a growing number of people are leaving fixed telephony and moving to mobile broadband services. 3 has a good position in this growing but highly competitive market.

A handwritten signature in black ink, appearing to read 'M. Wallenberg'.

Marcus Wallenberg

Development of the Group

In the first quarter, Investor reported strong earnings totaling SEK 6.6 bn. AstraZeneca, ABB and Atlas Copco accounted for most of the earnings for the period. The New Investments business had an impact of SEK 486 m. on earnings. The net asset value rose from SEK 92,915 m. at year-end 2004 to SEK 99,577 m. on March 31, 2005.

Net asset value (shareholders' equity)	130	99 577	121	92 915

Adoption of IFRS

The adoption of International Financial Reporting Standards (IFRS) has impacted the net asset value because new valuation principles are being applied to equity holdings and the loan portfolio. On December 31, 2004, the net asset value, calculated in accordance with the new principles, amounted to SEK 92,915 m. The corresponding figure in accordance with previously applied principles was SEK 89,966 m. See also Appendix 1, page 15.

Total assets by sector, 3/31 2005

Trend of earnings

Group earnings totaled SEK 6,641 m. in the first quarter (9,945). Increases in the value of holdings in AstraZeneca, ABB and Atlas Copco accounted for the greater part of earnings for the period.

During the three-month period, Core Holdings impacted earnings by SEK 6,152 m. (10,007), New Investments by SEK 486 m. (169), Other Holdings by SEK 52 m. (13) and Other Operations by SEK 1 m. (-26).

Core Holdings

Core holdings performed strongly in the first quarter and had an impact of SEK 6.2 bn. on earnings. During the first quarter Investor sold parts of its holdings in AstraZeneca, ABB and Scania to increase its financial flexibility. Realized gains on the sales, estimated on the basis of acquisition costs, totaled SEK 1,879 m. Ainax shares held by Investor were also converted to Scania A-shares during the first quarter.

Read more on the Web: ch.investorab.com >>

Purchases and sales

In the first quarter of 2005, shares in the Core Holdings business area were sold for SEK 3,535 m. Shares were sold in AstraZeneca, ABB and Scania to increase Investor's financial flexibility.

Sales during the three-month period consisted of 7,810,000 shares in AstraZeneca for SEK 2,207 m., 18,300,000 shares in ABB for SEK 778 m. and 1,900,000 Scania A-shares for SEK 550 m. Realized gains on the sales, estimated on the basis of acquisition costs, totaled SEK 1,879 m.

After these sales, Investor's holding in AstraZeneca now amounts to 3.4 percent of the votes and capital; in ABB, 9.1 percent of the votes and capital; and in Scania, 10.6 percent of the capital and 19.3 percent of the votes.

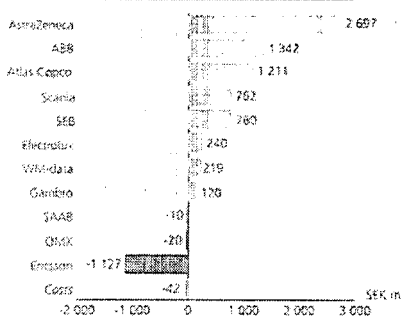

Ainax shares held by Investor were also converted to Scania A-shares during the first quarter.

Dividends from core holdings totaled SEK 285 m. in the first three months of 2005 and pertain to AstraZeneca.

Earnings for the period

Core holdings had an effect of SEK 6,152 m. on first-quarter earnings (10,007). AstraZeneca and ABB had the greatest impact, SEK 2,697 m. and SEK 1,342 m., respectively, while Ericsson had an effect of SEK -1,127 m. on earnings.

New Investments

The New Investments business area continued to develop positively in the first quarter and had an impact of SEK 486 m. on earnings. Five new investments were made and a number of divestments. The adoption of IFRS had an effect of SEK 3.1 bn. in surplus values, corresponding to a 28 percent increase in value.

Read more on the Web: ni.investorab.com >>

Purchases and sales

A total of SEK 1,131 m. was invested in the first three months of the year in the New Investments business area (490). The investments comprised five new investments for SEK 920 m. (375) and a number of follow-on investments for SEK 211 m. (115).

Holdings were sold for SEK 1,005 m. in the first quarter (845). Realized capital gains on the divestments, estimated on the basis of the acquisition values, totaled SEK 779 m.

Adoption of IFRS

In connection with the adoption of IFRS, Investor has also adapted the valuation principles for the net asset value so they are in agreement with the valuation principles used in the company's accounting. This change gave rise to the effect that the value of holdings in the New Investments business on December 31, 2004 rose by a total of SEK 3.1 bn., or by 28 percent. See also Appendix 1, page 15.

New Investments by geography, 3/31 2005

Earnings for the period

Earnings totaled SEK 486 m. in the first quarter (169). The positive trend of earnings was largely attributable to Investor Growth Capital, where the successful exit of Entific and increased value of Tessera, which was partially sold during the quarter, had a positive impact on earnings. Increases in the value of the holdings in Investor Capital Partners – Asia Fund and a stronger dollar were other contributing factors.

TREND OF EARNINGS, NEW INVESTMENTS

During the period January 1, 1998 to March 31, 2005, earnings of the New Investments business area totaled SEK 3,416 m. The average annualized return on realized investments more than met the targeted return requirement of 20 percent during this period.

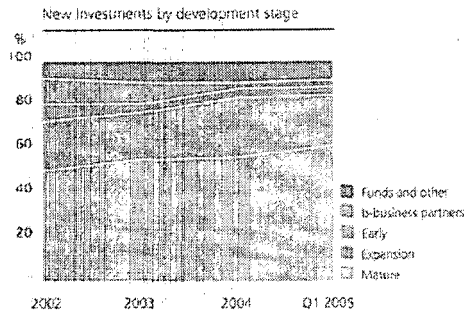

Trend of earnings,
New Investments business area

VENTURE CAPITAL ACTIVITIES WITHIN THE NEW INVESTMENTS BUSINESS

Venture capital investments have been made since Investor was established in 1916 but were given their current modern shape and structure in the mid-1990s. The venture capital activities within New Investments generate high returns when exits are implemented, allow for increased diversification of the portfolio, synergies with the core holdings and the possibility to discover important new technologies and new business trends early. Investments in the New Investments business area, which involve more risk by their nature, are made with the objective of realizing an average annualized return (IRR) of 20 percent.

Investor conducts two different types of venture capital investments within the New Investments business: buyouts and venture capital. Buyout activities are conducted through funds partly owned by Investor: EQT and Investor Capital Partners – Asia Fund. Venture capital activities are conducted by the wholly owned subsidiary, Investor Growth Capital. Through its seven funds, EQT focuses on companies in Northern Europe. Investor Capital Partners – Asia Fund is focused on buyouts in Greater China and South Korea, while Investor Growth Capital is active in the United States, Northern Europe and Asia.

Investor Growth Capital

[Read more on the Web: www.investorgrowthcapital.com](http://www.investorgrowthcapital.com)

In the first quarter, new investments were made in Innovative Micro Technology and Axiomed.

Innovative Micro Technology, based in California, is a leading manufacturer of micro-electromechanical systems (MEMS).

Axiomed, based in Ohio, has developed a next-generation artificial disc implant for patients with degenerative spine disease.

In the first quarter, shares in the Nasdaq-listed company LifeCell were also purchased on the market.

Follow-on investments were made in CHF Solutions, Solstice Neurosciences, Kunskapsskolan, Aerocrine and Neuronetics, among other companies.

The entire holding in Entific, based in Sweden, was sold to the listed company Cochlear of Australia. The divestment more than met the goal of an average annualized return of 20 percent.

In addition, the holding in Digia was sold in its entirety and Optillion announced that it will cease operations.

Holdings in Tessera, Micronic, Lycos Europe, ISTA and Kyphon were also partially divested.

Sector exposure, Investor Growth Capital, 3/31 2005

EQT

[Read more on the Web: www.eqt.se](http://www.eqt.se)

In the first quarter, EQT III completed the acquisition of Carl Zeiss Vision, Munksjö and ISS Healthcare.

In the first quarter, it was also announced that EQT IV had signed an agreement to acquire Sanitec and that EQT III and EQT IV, together with Goldman Sachs Capital Partners, made a public tender offer to acquire ISS A/S, a listed company in Denmark.

Within EQT III, a follow-on investment was made in Leybold. After the close of the reporting period, EQT III announced that it had signed an agreement to sell Dometic AB.

Investor Capital Partners – Asia Fund

[Read more on the Web: www.investorcapitalpartners.com](http://www.investorcapitalpartners.com)

Investor Capital Partners – Asia Fund made no additional investments or divestments during the three-month period.

The fund has two investments in the portfolio from earlier: Global Beauty and Memorex.

The value of both holdings changed positively in the first quarter.

Other Holdings and Other Operations

During the first quarter, an additional loan of SEK 495 m. was provided to 3, which had 414,000 subscribers in Sweden and Denmark as of March 30, 2005. The Grand Group sold two buildings next to the Grand Hôtel in Stockholm, as well as Berns, to release capital for its hotel business.

In the first quarter, Hutchison Whampoa reported that 3 Scandinavia had 414,000 subscribers in Sweden and Denmark as of March 30, 2005, an increase of 64,000 since December 10, 2004. Average revenue per user (ARPU) rose to SEK 397. It was also reported that 3 Scandinavia's subscriber acquisition cost (CAC) had decreased.

Hi3G continued to build out its 3G network, which covered 92 percent of the population of Sweden as of March 1, 2005. The network has also been judged to be the best 3G network in Sweden. Measures to improve customer service are continuing with undiminished strength.

As reported earlier, Investor estimates that its total capital commitments to Hi3G, in the form of equity contributions, will be between SEK 4 bn. and SEK 5 bn. The intention is to finance Hi3G over time with shareholders' equity and external project financing on an approximately 50-50 basis. Investor's outstanding loans with Hi3G are expected to be transferred to external project financing of Hi3G in the future.

In the first quarter, SEK 495 m. was provided to Hi3G in the form of a loan. Hi3G's financing needs in 2005 are estimated to be below the level of SEK 2,233 m. in 2004.

The Grand Group

Read more on the Web: www.grandhotel.se >>

In the first quarter, The Grand Group sold Berns and two buildings next to the Grand Hôtel in Stockholm. As a result of these divestments, The Grand Group now has a clearer focus on its hotel business. The proceeds will be used to develop the Burmanska Palatset (former SAF building) into hotel rooms and conference facilities.

The Grand Group's result after net financial items was SEK -7 m. (-17) in the first quarter.

Active portfolio management

Investor's active portfolio management activities generated net income of SEK 21 m. in the first quarter (1). Active portfolio management had a long net position on March 31, 2005.

Novare Human Capital

Read more on the Web: www.novare.se >>

Novare Human Capital is a group of companies that operates in a structured manner to offer services in the human resources field to Investor and its holdings, and to external companies.

In the first quarter, the Alumni recruitment company (Sweden) purchased a 45-percent interest in the recruitment company Novare Rekratering, which changed its name to Novare Jobb in connection with the new partnership. With its new partner, Novare Jobb will be able to expand its customer base faster.

Consolidated net debt

Consolidated net debt totaled SEK 12,593 m. on March 31, 2005, as against SEK 15,922 m. at year-end 2004. The change in the net debt is primarily attributable to proceeds from the sale of shares in AstraZeneca, ABB and Scania.

Investor's net debt, as a percentage of total assets, was 11 percent on March 31, 2005, as against 15 percent at year-end 2004.

Cash, bank balances and short-term investments amounted to SEK 15,256 m. on March 31, 2005, as against SEK 12,127 m. at year-end 2004.

During the remainder of 2005, outstanding loans in the nominal amount of SEK 3,137 m. will be due for payment. In addition, it is proposed that a dividend of SEK 1,726 m. be paid to shareholders.

Standard and Poor's credit rating for Investor has been AA- since 1997. In the first quarter of 2005, Moody's upgraded Investor's credit rating from A3/Prime-2 to A2/Prime-1.

Share capital

Investor's share capital amounted to SEK 4,795 m. on March 31, 2005 (SEK 4,795 m. on December 31, 2004).

STRUCTURE OF SHARE CAPITAL

Class of share	Number of shares	Number of votes	% of capital	% of votes
A 1 vote	311 690 844	311 690 844	40.6	87.2
B 1/10 vote	455 484 186	45 548 418	59.4	12.8
Total	767 175 030	357 239 262	100.0	100.0

Investor shares

Read more on the Web: share.investorab.com >>

The total return (sum of share price changes and reinvested dividends) was 13 percent in the first quarter (12). The total return on Investor shares has been 26 percent over the past 12-month period (69). The average annualized total return on Investor shares has been 16.5 percent over the past 20-year period.

The price of the Investor B-share was SEK 95.50 on March 31, 2005, as against SEK 84.50 on December 31, 2004.

Other

Accounting principles

This interim report has been prepared in accordance with International Financial Reporting Standards (IFRS).

This is the first external report from Investor to be prepared in accordance with these standards. See Appendix 1 for a description of the changes to accounting principles and their effect on Investor's financial results and position.

Value changes

For items that were held in the balance sheet at the beginning and at the close of the period, the value change consists of the difference in value between these two dates. For items in the balance sheet that were realized during the period, the value change consists of the difference between the value at the beginning of the period and the proceeds. For items in the balance sheet that were acquired during the period, the value change consists of the difference between the acquisition cost and the value at the close of the period.

Valuation principles for financial instruments

Listed holdings

Listed holdings are valued on the basis of their share price on the closing date (purchase price, if there is one quoted).

Unlisted holdings and fund holdings

Unlisted holdings are valued on the basis of the "International Private Equity and Venture Capital Valuation Guidelines" prepared and published jointly by the venture capital organizations EVCA, BVCA and AFIC.

For directly owned holdings (i.e. those owned directly by a company in the Investor Group), an overall evaluation is made to determine the valuation method that is appropriate for each specific holding. It is first taken into account whether a recent financing round or "arms length" transaction has been made, after which a valuation is made by applying relevant multiples to the holding's key ratios (for example, EBITDA), derived from a relevant sample of comparable companies, with deduction for individually determined adjustments as a consequence of, for example, the size difference between the company being valued and the sample of comparable companies. An assessment is then made of the above-mentioned methods to determine the one that best reflects the fair value of the holding, and the holding is then valued according to that method. In those cases when other valuation methods better reflect the market value of a holding, this value is used, which means that certain holdings are valued with methods other than the ones described above.

Unlisted holdings in funds are valued at Investor AB's share of the value that the fund manager reports for all unlisted holdings in the fund. If Investor AB's assessment is that the fund manager's valuation does not sufficiently take into account factors that affect the value of the underlying holdings, or if the valuation is considered to deviate considerably from IFRS principles, the value is adjusted. Listed holdings in funds are valued in the same way as listed holdings, as described above.

Liabilities

Investor AB uses derivatives to control the exposure of the debt portfolio against fluctuations in exchange rates and interest rates. Hedge accounting is applied to reflect this in the consolidated accounts in cases when a derivative and the underlying loan qualify for this in accordance with IAS 39. When loans and derivatives do not qualify for hedge accounting, the basic rules of IFRS are applied, in which case loans are valued at amortized cost and derivatives are valued at fair value with changes in value recognized through profit and loss.

The greatest effect will arise in the valuation of derivatives used to achieve fixed interest rates. The value of these derivatives will vary with changes in interest rates.

¹⁾ Refers to active portfolio management activities. Value change include sales amounting to SEK 4,990 m. (7,753).

²⁾ Net sales amounted to SEK 161 m. (149) and refer primarily to The Grand Group and EQT Partners.

³⁾ The amount refers to exchange rate differences on investments held by subsidiaries with another functional currency than SEK. No exchange rate difference arises in 2005 due to the fact that the functional currency in these subsidiaries has been changed to SEK as per 1/1 2005.

Appendix 1 – Transition to reporting in accordance with IFRS

In accordance with IFRS, this appendix describes how the adoption of the new financial reporting standards has impacted the accounts of the Investor Group. The adoption of IFRS has affected shareholders' equity, calculated on December 31, 2004, by SEK 38,702 m., and the net asset value by SEK 2,949 m.

In accordance with the IAS regulation adopted by the European Union (EU) in 2002, listed companies throughout the EU are to apply International Financial Reporting Standards – IFRS (previously International Accounting Standards – IAS) – when preparing their consolidated financial statements as of 2005. The standards, issued by the International Accounting Standards Board (IASB), become mandatory for European companies as they are endorsed by the EU Commission.

IFRS 1 sets out the procedures that companies must follow when they adopt IFRS for the first time. The standard stipulates that a company, when transferring from national Generally Accepted Accounting Principles (GAAP) to IFRS, shall present at least one year of comparative figures in accordance with IFRS (voluntary for financial instruments). Furthermore, the company shall explain how the transfer from previous GAAP to IFRS has affected its financial position, earnings and cash flow. The information shall be published, in accordance with IFRS 1, in connection with the first interim report for fiscal year 2005 at the latest.

In accordance with recommendation issued by the Stockholm Stock Exchange (November 2004), information about the most important effects of transferring to IFRS was already presented in the year-end report for 2004.

Accounting principles – significant differences

Investor AB only applies IFRS in the preparation of the consolidated financial statements. The intention is to adapt the accounting of legal entities (the Parent Company and subsidiaries), in accordance with IFRS, as soon as Swedish legislation enables the adoption of the full set of rules and regulations.

Comparative figures, restated to IFRS, are published for all entries, including financial instruments.

Due to the transition to IFRS, most items in Investor's balance sheet are valued at market value (see below). Investor has chosen to apply the same methods for the valuation of balance sheet items at market value as those for the calculation of the net asset value in the consolidated accounts. The net asset value is thereby in agreement with shareholders' equity. Since changes in the fair values of holdings are recognized in the formal income statement and balance sheet in accordance with IFRS, the volatility in earnings increases, compared to before. Therefore, earnings in accordance with IFRS essentially agree with the change in net asset value. The main difference is dividends paid, which are not included in earnings.

Financial instruments – IAS 32 and 39

In Investor AB's case, it is mainly the rules in IAS 39, concerning the accounting of financial instruments, which affect reported values, compared with accounting in accordance with previous principles. The standard stipulates that financial instruments, which for Investor AB comprise mainly equity-related investments and the debt portfolio, shall be valued for the most part at fair value in the year-end accounts, instead of at the lower of acquisition cost and fair value, the previous practice. IAS 32 concerns the disclosure and presentation of financial instruments.

Equity-related investments

After the adoption of IFRS, Investor AB is reporting equity-related investments at fair value through profit and loss. Shares and participations in associated companies are also accounted for this way in accordance with IAS 28 p.1. As a consequence, there is no longer any consolidation in accordance with the equity method and associated companies are reported at values that are more true and fair for an investment company. Subsidiaries are consolidated as before. Equity-related investments are valued as follows in accordance with IFRS:

Listed holdings

Listed holdings are valued on the basis of their share price on the closing date. In accordance with IFRS, listed holdings are valued at the bid price, when such is quoted, as opposed to previous principles, in which the price of the most recent transaction was used for the valuation (in the calculation of the net asset value, as in the consolidated statements, if this value was lower than the acquisition cost). Listed holdings in the New Investments business are no longer charged automatically with a liquidity discount.

Unlisted holdings and fund holdings

Unlisted holdings are valued on the basis of the "International Private Equity and Venture Capital Valuation Guidelines", prepared and published jointly by the venture capital organizations EVCA, BVCA and AFIC.

For directly owned holdings (i.e. those owned directly by a company within the Investor Group), an overall evaluation is made to determine the valuation method that is appropriate for each specific holding. It is first taken into account whether a recent financing round or "arms length" transaction has been made, after which a valuation is made by applying relevant multiples to the holding's key ratios (for example, EBITDA), derived from a relevant sample of comparable companies, with deduction for individually determined adjustments as a consequence of, for example, the size difference between the company being valued and the sample of comparable companies. An assessment is then made of the above-mentioned methods to determine the one that best reflects the fair value of the holding, and the

holding is then valued according to that method. In those cases when other valuation methods better reflect the market value of a holding, this value is used, which means that certain holdings are valued with methods other than the ones described above. As before, when a holding has such a negative development that its value is determined to be 0, it is valued at 0.

Unlisted holdings in funds are valued at Investor AB's share of the value that the fund manager reports for all unlisted holdings in the fund. If Investor AB's assessment is that the fund manager's valuation does not sufficiently take into account factors that affect the value of the underlying holdings, or if the valuation is considered to deviate considerably from IFRS principles, the value is adjusted. Listed holdings in funds are valued in the same way as listed holdings, as described above.

Debt portfolio

For the debt portfolio Investor AB applies, whenever possible, so-called hedge accounting, in which changes in the value of loans are matched with changes in the value of derivatives acquired for the purpose of eliminating currency risks and changing the fixed interest rate in the debt portfolio. In accordance with the form of IAS 39 adopted by the EU Commission, the basic rule is that loans are valued at amortized cost and derivatives are valued at fair value with changes in value recognized through profit and loss. Since Investor AB applies hedge accounting to most of its liabilities, the volatility that would appear in the income statement is lower than if the basic rule was applied.

Property, plant and equipment – IAS 16

In accordance with IAS 16, Investor AB's real estate properties are reported at fair value. In accordance with previous principles, real estate properties were reported at the lower of acquisition cost (with deduction for depreciation) and the recoverable amount.

Share-based payment – IFRS 2

Share-based payment, which for Investor includes employee stock option and share programs, are reported in accordance with IFRS 2. The standard divides share-based payments into equity-settled transactions and cash-settled transactions. Investor's programs are recognized in accordance with the regulations for share-based payments that are settled by means of equity instruments. This means that a value for the program is estimated on the allocation date, and that this value then comprises the basis for the cost that is distributed over the vesting period of the options. Continuous provisions for social security costs are reported on the basis of the actual value (the difference between the fair value of the underlying share and the strike price).

Share swap agreements are signed in connection with the issue of employee stock options to protect Investor against the effects of an increase in Investor's share price. These swaps are classified as financial instruments and are therefore valued at fair value. Changes in the value of stock swaps are recognized in the consolidated income statement.

Income taxes – IAS 12

The valuation of assets and liabilities at fair value results, in cases when the fair value differs from the tax value, in temporary differences. In accordance with IAS 12, a deferred tax liability, or a deferred tax receivable, is reported for temporary differences. Deferred tax receivables are booked only to the extent to which it is expected to be realized against future taxable profits.

Effect on earnings, financial position and cash flow

The income statement, balance sheet and accompanying notes presented on the following pages show, in accordance with IFRS 1, how the adoption of IFRS affects earnings and cash flow in 2004, and opening balance sheet items for 2004.

Net asset value

In connection with the application of IFRS, Investor AB has also adapted the valuation principles for the net asset value so they are in agreement with the valuation principles used for the company's accounting.

The table below shows how the net asset value is affected by the changes in accounting principles.

EFFECT ON NET ASSET VALUE

SEK m.	12/31 2004	Adjust- ment IFRS	IFRS 12/31 2004
Core Holdings	87 643	-235	87 408
<i>New Investments</i>			
Investor Growth Capital	6 514	1 098	7 612
EQT	3 896	1 596	5 492
Investor Capital Partners – Asia Fund	410	382	792
New Investments, total	10 820	3 076	13 896
Other Holdings (incl. Hi3G)	2 406	-	2 406
Other Operations	1 868	-	1 868
Other assets and liabilities	2 780	479	3 259
Total assets	105 517	3 320	108 837
Net debt	-15 551	-371	-15 922
Net asset value, total	89 966	2 949	92 915

The differences for equity holdings are mainly as follows: listed holdings will be valued at the bid price instead of at the price of the most recent transaction. Listed holdings in the New Investments business are no longer charged with a liquidity discount (only in exceptional cases). The previously used cap on the value of unlisted holdings at acquisition cost is eliminated in IFRS, which means that unlisted holdings are stated at a higher value, if a higher value is estimated to exist.

The adjusted value of the debt portfolio is a consequence of the valuation of derivatives used to achieve fixed interest rates. The value of these derivatives varies with changes in interest rates.

The presentation below of how the adoption of IFRS has impacted the income statement, opening and closing balance sheets, and the statement of cash flows for 2004 is based on the company's **accounts**, which is why changes do not correspond to the effects of SEK 2,949 m. on the net asset value.

Notes to adjustment items in the income statement

- Note 1. Core holdings are valued at fair value in accordance with IFRS. The adjustment consists of unrealized changes in value.
- Note 2. New investments are valued at fair value in accordance with IFRS. The adjustment consists of unrealized changes in value.
- Note 3. Other holdings are valued at fair value in accordance with IFRS. The adjustment consists of unrealized changes in value.
- Note 4. The adjustment is attributable to the depreciation of real estate. In the adoption of IFRS, the Group's real estate properties are valued at fair value and depreciation is based on the useful life of the components.
- Note 5. Holdings of securities in active portfolio management are valued at fair value in accordance with IFRS. The adjustment consists of unrealized changes in the value of these holdings.
- Note 6. The reporting of employee stock option programs and share programs in accordance with IFRS 2 results in a cost amounting to SEK 18 m.
- Note 7. The adjustment item refers to unrealized changes in the value of derivatives acquired for the purpose of eliminating currency risks and changing the fixed interest rate in the debt portfolio. It also refers to unrealized value changes in equity swaps held for the purpose of protecting investor against the effects of employee stock option programs when investor's share price increases.
- Note 8. The equity method was previously applied to holdings in associated companies. With the adoption of IFRS, these holdings are instead reported at fair value through profit and loss.
- Note 9. The adjustment consists of a reversal of the tax expense that arose in the accounting of associated companies in accordance with the equity method (see Note 8) and to deferred tax on some unrealized changes in value.
- Note 10. In accordance with IFRS, deductions are not made for minority interest in the income statement. Instead, income is distributed between the Parent's shareholders and the minority interest, and is reported adjacent to the income statement.

Adjustment of the statement of cash flows

As a consequence of adopting IFRS, the definition of cash and cash equivalents has been changed to only consist of investments with a term not longer than three months. In accordance with previous principles, investments with a term up to 12 months were included in cash and cash equivalents. The effect on cash flows for 2004 is as follows:

SEK m.	2004	Adjust- ment IFRS	IFRS 2004
Cash flows for the period	2 367	-1 055	1 312
Cash and cash equivalents, opening balance	9 803	-7 539	2 264
Exchange difference in cash and cash equivalents	-45		-45
Cash and cash equivalents, closing balance	12 125	-8 594	3 531

Notes to adjustment items in the balance sheet

Note 1. Buildings and land are reported at fair value in accordance with IFRS. In accordance with previous principles, these items were reported at acquisition value with deduction for depreciation and any impairment. Due to the change in principle, the balance is affected as follows:

Buildings and land	906
Deferred tax liability	-254
Net effect on shareholders' equity	652

Note 2. Shares and participations are valued at fair value in accordance with IFRS. In accordance with previous principles, shares and participations were reported at acquisition cost with deduction for any impairment. The effect of the revaluation on the balance sheet has been distributed by business area as follows:

Core Holdings	33 295
New Investments	4 206
Other Holdings	569
Effect on shares and participations	38 070

Deferred tax liability	-8
Net effect on shareholders' equity	38 062

Note 3. The equity method was previously applied to associated companies. With the adoption of IFRS, receivables and liabilities from/to these companies are reported as other current and long-term receivables and liabilities.

Note 4. Derivatives held for the purpose of eliminating currency risks and changing the fixed interest rate in the debt portfolio have affected the opening balance of assets by SEK 837 m. The effects of valuing short-term financial instruments on the assets side of the balance sheet at fair value amounts to SEK 2 m.

Note 5. Shares held as assets within the framework of active portfolio management are valued at fair value in accordance with IFRS. The effect on the opening balance is SEK 41 m.

Note 6. In accordance with previous principles, premiums and discounts on loans, investments and associated derivatives were accounted for as prepaid expenses. With the adoption of IFRS, they are reported as part of the value of the underlying instrument. The effect on the assets side of the balance sheet is SEK -92 m.

Note 7. Short-term investments are reported at fair value in accordance with IFRS. The effect on the balance sheet is SEK 2 m.

Notes to adjustment items in the balance sheet

Note 8. Restricted reserves have been adjusted as a consequence of the adoption of IFRS. The adjustment can be divided into the following:

Revaluation reserve, real estate (see Note 1)	652
Revaluation reserve, cash flow hedge	67
Net effect on restricted reserves	719

Note 9. Unrestricted equity has been adjusted as a result of the adoption of IFRS. The adjustment can be divided into the following:

Fair value of shares and participations (see Note 2)	38 070
Fair value of inventories of shares (see Note 5)	41
Fair value of other financial instruments, assets (see Note 4)	2
Fair value of short-term investments (see Note 7)	2
Valuation of loan at fair value, hedge accounting (see Note 4, 6, 8, 15, 17)	-413
Tax effect on unrealized changes in value (see Note 13)	-8
Adjusted reported value of employee stock options (see Note 14)	32
Fair value of other financial instruments (see Note 16)	-27
Adjustment of various accrued expenses (see Note 17)	174
Net effect on unrestricted equity	37 873

Note 10. Due to the adoption of IFRS, minority interest is being classified as part of shareholders' equity.

Note 11. Due to the adoption of IFRS, the effects on shareholders' equity in 2004 are as follows:

Opening adjustment for IFRS on December 31, 2003 – opening balance	36 622
Change in revaluation reserve for fixed assets	32
Change in reserve for cash flow hedging	42
Accounting of employee stock options in accordance with IFRS 2	-59
Currency differences, subsidiaries	-125
Reversal of equity transactions concerning associated companies reported in accordance with the equity method	293
Effect of adjusting net income for the year according to IFRS	1 897
Net effect on shareholders' equity	38 702

Note 12. The heading "Provisions" is discontinued and the items have been transferred to long-term liabilities as follows:

Provisions for pensions and similar commitments	-226
Provisions for deferred tax (see Note 13)	-283
Other provisions (see Note 14)	-474
Total transfers	-983

Note 13. Revaluations at fair value resulted in deferred tax liabilities as follows:

Revaluation at fair value, tangible fixed assets (see Note 1)	254
Revaluation at fair value, shares and participations (see Note 2)	8
Total effect, deferred tax	262
Add: transfer from provisions (see Note 12)	283
Total deferred tax	545

Note 14. Other long-term liabilities have been affected by transfers and adjustments as follows:

Transfer from provisions (see Note 12)	474
Adjustment of reserve for employee stock options	-32
Total effect, other liabilities	442

Note 15. The value of the debt portfolio has been adjusted as a consequence of the adoption of IFRS. Hedge accounting is used whenever possible. Liabilities that do not qualify for hedge accounting are valued at the accrued acquisition cost and all derivatives are valued at fair value. The effect on raised loans and associated derivatives is valued at fair value and amounts to SEK 1,210 m. on the liabilities side of the balance sheet.

Note 16. The adjustment of other short-term liabilities is attributable to the valuation of short positions in active portfolio management items at fair value in accordance with IFRS.

Note 17. In accordance with previous principles, premiums and discounts on loans, investments and associated derivatives were accounted for as prepaid expenses. With the adoption of IFRS, they are reported as part of the value of the underlying instrument. The effect on the liabilities side of the balance sheet was SEK -119 m. Various adjustments to accrued costs have affected the item by SEK -174 m.

Press Release

Stockholm, April 11, 2005

Bulletin from Investor AB's Annual General Meeting

The Annual General Meeting approved the proposed dividend to shareholders of SEK 2.25 per share. The record date was determined as Thursday, April 14, 2005. The dividend is scheduled to be distributed by VPC AB (the Swedish Securities Register Center) on Tuesday, April 19, 2005.

The Meeting discharged the members of the Board and the President from liability for fiscal year 2004.

Current board members Sune Carlsson, Sirkka Hämäläinen, Ulla Litzén, Håkan Mogren, Anders Scharp, O. Griffith Sexton, Björn Svedberg, Jacob Wallenberg and Marcus Wallenberg were re-elected.

The Annual General Meeting elected Jacob Wallenberg as new Chairman.

Peter D. Sutherland declined re-election and was thanked by retiring Chairman Claes Dahlbäck for his contributions and service. Claes Dahlbäck had declined re-election and was thanked by the Honorary Chairman, Peter Wallenberg.

The Meeting approved a total compensation to the Board of Directors of 5,050,000 Swedish kronor to be divided as follows: 1,500,000 Swedish kronor to the Chairman, 400,000 Swedish kronor to the other Members of the Board not employed in the Company, and a total of 750,000 Swedish kronor for work in the committees of the Board.

The Meeting authorized the Board to decide on the purchase and transfer of the company's own shares in line with the Board's proposal.

The Meeting approved the decision by the Board of Directors regarding the principles for compensation and other terms of employment for management for 2005 and the scope and key principles of the 2005 employee stock option plan and a combined employee stock option and share plan for 2005.

Our press releases can be accessed at www.investorab.com on the Internet.

Investor is the largest industrial holding company in the Nordic region. For almost a century, our business concept has been to build best-in-class companies in sectors where we have a strong knowledge and networking advantage. Investor is a leading shareholder in a number of multinational companies, including AstraZeneca, Ericsson and SEB. Investor also conducts private equity activities in Northern Europe, United States and Asia.

The Annual General Meeting approved the proposal regarding a Nomination Committee.

At a statutory Board meeting in conjunction with the Annual General Meeting, Anders Scharp was elected Vice Chairman of the Board. The following Members of the Board of Directors were elected to the Compensation Committee: Jacob Wallenberg (Chairman, committee fee 100,000 Swedish kronor), Anders Scharp (committee fee 50,000 Swedish kronor) and O. Griffith Sexton (committee fee 50,000 Swedish kronor). The following Members of the Board of Directors were elected to the Audit Committee: Sune Carlsson (Chairman, committee fee 150,000 Swedish kronor), Håkan Mogren (committee fee 100,000 Swedish kronor) and Jacob Wallenberg (committee fee 100,000 Swedish kronor). The following Members of the Board of Directors were elected to the Finance and Risk Committee: Björn Svedberg (Chairman, committee fee 100,000 Swedish kronor), Sirkka Hämäläinen (committee fee 50,000 Swedish kronor), Ulla Litzén (committee fee 50,000 Swedish kronor) and Marcus Wallenberg.
