RELEASE

Jeruk 3D Seismic Survey Begins

Cue is pleased to report that Jeruk 3 (3D) dimensional seismic survey acquisition has begun in the Sampang Production Sharing Contract, offshore East Java, Indonesia.

Acquisition of 3D field data is expected to take to the end of April to be followed by around three months of data processing.

The survey is designed to provide better seismic control over the Jeruk discovery and over nearby undrilled prospects.

Acquisition of 3D seismic data over the eastern end of the Sampang Production Sharing Contract area has been completed and the data is being processed. Information from the eastern survey will be used to potentially locate drilling locations for wild cat wells to be drilled in the second half of 2005.

Oyong Participants

Participants in the Sampang PSC are:

Cue Sampang Pty Ltd	15%
Santos (Sampang) Pty Ltd	45% (Operator)
Singapore Petroleum Company Limited	40%

Any written queries regarding the announcement should be directed to the company on (03) 9629 7318 or email mail@cuenrg.com.au.

Robert J Coppin
Chief Executive Officer
