AKBANK T.A.Ş.

REVIEW REPORT  
FOR THE INTERIM PERIOD 1 JANUARY - 31 MARCH 2005

To the Board of Directors of Akbank T.A.Ş.

1. We have reviewed the accompanying unconsolidated balance sheet of Akbank T.A.Ş. ("the Bank") at 31 March 2005 and the related unconsolidated statement of income for the period then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to issue a report on these financial statements based on our review.
2. We conducted our review in accordance with the Uniform Chart of Accounts of banks, accounting standards and the independent audit principles in conformity with Banking Act/No. 4389. Those principles require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries concerning the Bank's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.
3. Based on our review nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Akbank T.A.Ş. at 31 March 2005 and the results of operations for the period then ended in accordance with accounting principles and standards set out by the regulations in conformity with Article 13 of the Banking Act.

Additional paragraph for convenience translation into English:

4. As explained in Section 6.II., the effects of differences between accounting principles and standards set out by the regulations in conformity with Article 13 of the Banking Act No. 4389, accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**SECTION ONE  
GENERAL INFORMATION**

**I. BANK'S SERVICES AND NATURE OF OPERATIONS**

Akbank T.A.Ş. ("the Bank" or "Akbank") was established on 30 January 1948 as a private commercial bank, in accordance to the decision of the Council of Ministers, No. 3/6710; it was authorised to perform all economic, financial and commercial activities which are allowed by the laws of Turkish Republic. As of 31 March 2005, the Bank had 631 branches dispersed throughout the country, 1 representative office and 8 branches operating outside the country (31 December 2004: 633 branches, 1 representative office and 8 branches operating outside the country). As at 31 March 2005, the Bank employed 10.401 people (31 December 2004: 10.413 people). In addition to regular banking operations, the Bank also provides insurance intermediary services as an agency of Aksigorta A.Ş. and Ak Emeklilik A.Ş.. Some of the Bank's shares have been quoted on the Istanbul Stock Exchange since 1990. In 1998, 4,03% of the outstanding share capital of the Bank was offered and sold in an international offering outside of Turkey in the form of Ordinary Shares and American Depository Receipt ("ADR"). As of 31 March 2005, almost 34% of the shares are publicly traded, including the ADRs (31 December 2004: 32%).

**II. INFORMATION ABOUT THE BANK'S MAJOR SHAREHOLDING GROUP**

The major shareholder group, directly or indirectly, is Sabancı Group.

**III. INFORMATION AND DISCLOSURES ON INTERIM FINANCIAL STATEMENTS**

- a. As explained in footnote Section Three I-b, as of 1 January 2005 the inflation accounting application has been terminated. Except for the discontinuation of inflation accounting application, accounting policies and methods consistent with the policies applied in the preparation of the year-end financial statements have been applied in the preparation of the interim financial statements, without any changes. These accounting policies are explained in Section Three in detail.
  - b. There are no transactions of a seasonal or periodical nature in the interim period.
  - c. There are no fundamental errors or significant temporary transactions affecting the financial statements.
  - d. There are no accounts affecting the shareholders' equity, net income and cash flows which originated from extraordinary transactions.
  - e. There are no changes in the estimated amounts related to the current period on the basis of the materiality principle.
  - f. There are no issuance and repayments of securities within the period.

**g. Explanations related with dividends paid:**

The ordinary General Assembly meeting of the Bank was held on 25 March 2005. In the ordinary General Assembly meeting, it was decided that of the YTL1.020.528 net income generated from 2004 operations; YTL464.812 would be distributed in cash to the Bank's shareholders, founders' shares and usufruct shares, and the remaining YTL555.716 would be set aside as legal and extraordinary reserves. In the ordinary General Assembly it was also decided to increase paid-in share capital from YTL1.500.000 to YTL1.800.000 by using internal sources. YTL150.000 of the increase will be funded by "Adjustment to share capital" account, YTL5.314 will be funded by real-estate sale income and YTL144.686 will be funded by the extraordinary reserves.

The required applications related to the capital increase were made as of the preparation date of these financial statements. Cash dividend payments have been substantially completed.

**h. There are no important subsequent events whose effects should be reflected in the interim financial statements.**

**i. Transactions affecting the structure of the Bank, like purchase or sale of subsidiaries, long-term investments restructuring or discontinuing of operations.**

As of 9 March 2005, the Bank has acquired 60% of shares in it's subsidiary Ak Uluslararası Bankası A.Ş. (formerly named BNP Ak Dresdner Bank A.Ş.) which previously belonged to foreign shareholders. Ak Uluslararası Bankası A.Ş. will be merged by absorption with the Bank.

**j. There have been no changes in contingent liabilities following the preparation date of the financial statements.**

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005

(Amounts expressed in thousands of New Turkish lira (YTL))

**SECTION THREE**  
**EXPLANATIONS ON SIGNIFICANT ACCOUNTING POLICIES**

**I. EXPLANATIONS ON THE PRESENTATION OF FINANCIAL STATEMENTS:**

- a. The preparation of the financial statements and related notes and explanations in accordance with the Accounting Application Regulation (“AAR”) and the other relevant accounting standards that have been promulgated:**

The Bank maintains its books of account and prepares its statutory financial statements in new Turkish lira in accordance with the Banking Act, Turkish Commercial Code and Turkish tax legislation. These financial statements have been prepared in accordance with the 13<sup>th</sup> Article titled “Accounting Standards” of the Banking Act No. 4389 and in accordance with Accounting Application Regulation (“AAR”) published in the Official Gazette No. 24793 dated 22 June 2002 brought into effect on 1 July 2002 by the Banking Regulation and Supervision Agency (“BRSA”) and the communiqués on accounting standards.

- b. Preparation of financial statements based on the current purchasing power of Turkish lira:**

Financial Reporting in Hyperinflationary Economies Standard stated in the Communiqué 14 on the Accounting Application Regulation (“AAR 14”) has become effective as of 1 July 2002.

In accordance with AAR 14, the Bank should prepare its financial statements in the purchasing power of the Turkish lira at the balance sheet date. The corresponding figures for previous periods are restated in the same terms. According to the related communiqué, certain criteria are used to classify an economy as hyperinflationary and one of these criteria is a cumulative three-year inflation rate announced by State Institute of Statistics approaching or exceeding 100% and the other is annual inflation rate approaching or exceeding 10%.

In accordance with AAR 14, the obligation of the preparation of financial statements according to inflation accounting will be terminated when key indicators in the economy have disappeared. The announcement of the period in which inflation accounting will be discontinued will be made by the BRSA. Accordingly, on 28 April 2005, the BRSA announced that the inflation accounting application in the banking sector has been terminated based on the decree numbered 1623 and dated 21 April 2005. It has been stated that the indicators in the economy, including the inflation rate which obligated the preparation of financial statements according to inflation accounting, had disappeared and that the application of inflation accounting effective from 1 January 2005 was to be terminated. According to AAR 14, in case of the discontinuation of inflation accounting, the opening balances of the current period’s financial statements will be the year-end figures adjusted at the end of the inflationary period. In the preparation of the Bank’s financial statements, inflation accounting has been applied until the end of 31 December 2004 and starting from 1 January 2005, it has been discontinued. In these financial statements, corresponding figures expressed for previous periods are restated in terms of the purchasing power of the TL at 31 December 2004.

Until 31 December 2004, inflation adjustments have been performed in accordance with the standards indicated in AAR 14 and by using the wholesale price indices published in the appendix to AAR 14 and announced by the State Institute of Statistics. Detailed information related to the application of inflation accounting is presented in “Explanation related to inflation accounting” section numbered five, note IX.

**c. Accounting and evaluation policies adopted in the presentation of financial statements:**

The principle accounting policies and evaluation methods adopted in the presentation of financial statements are in accordance with the "AAR". These policies and methods are explained in the notes II through XXI.

**II. SUBSIDIARIES, ASSOCIATES AND SHARE CERTIFICATES INCLUDED IN THE AVAILABLE-FOR-SALE PORTFOLIO :**

Turkish lira denominated investments, associates, subsidiaries and share certificates in the available-for-sale portfolio are accounted by deducting additions to equity of these companies arising from funds like "revaluation funds" allowed to be kept and financing expenses including foreign exchange differences cash and cash equivalent contributions in terms of the measuring unit at the balance sheet date.

Foreign currency (FC) denominated investments and associates, subsidiaries and share certificates in the available-for-sale portfolio are valued through the translation of the historical foreign currency amounts by using exchange rates prevailing at the balance sheet date.

When the cost of investments, associates and share certificates is higher than the net realizable value, the carrying amount is reduced to the net realizable or fair value taking into consideration whether the value decrease is temporary or permanent and the ratio of the value decrease.

**III. FOREIGN CURRENCY TRANSACTIONS**

Foreign currency denominated monetary assets and liabilities are translated with the exchange rates prevailing at the balance sheet date. Gains and losses arising from such transactions are recognized in the income statement under the account of net foreign exchange income/expense. Foreign currency investments included in non-monetary asset which are carried at historical cost are translated with the exchange rates at the balance sheet date.

**a. Foreign exchange rates applied in the conversion of foreign currency transactions in financial statements:**

As of 31 March 2005, rates applied for the conversion of foreign currency balances into Turkish lira are YTL1,3760 for USD, YTL1,7825 for EURO and YTL1,2872 for Yen.

**b. Total foreign exchange gains/losses reflected in the current period net income:**

The Bank's foreign exchange gains reflected in these financial statements amount to YTL819.

**c. Total amount of foreign currency revaluation fund resulting from foreign exchange gains/losses and changes that occurred within the period:**

No foreign currency gains/losses were reflected in the revaluation fund.

**d. Significant changes in the foreign exchange rates subsequent to the balance sheet date and their impacts on the financial statements:**

The Bank does not have a significant net foreign currency position as disclosed in Section Four-Note V. Accordingly, the changes in the foreign exchange rates will not have a significant impact on the financial statements.

**e. Capitalized foreign currency exchange differences:**

There is no foreign currency exchange difference capitalized for the period.

**f. Fundamental principles of foreign exchange risk management policy:**

The fundamental principles of foreign exchange risk management policy are explained in detail in Section 4, note V.

**g. Accounts used for foreign currency translation differences of net investments in foreign subsidiaries and associates, loans and other hedging instruments:**

Foreign currency net investments in associates and subsidiaries abroad are converted into Turkish lira with the exchange rates current at the balance sheet date. Foreign currency conversion differences arising from such transactions are recognized as "foreign exchange gains/losses" in the income statement.

**h. The method applied for the translation of goodwill arising from the acquisition of a foreign subsidiary and amounts resulted from fair value adjustment of assets and liabilities of such subsidiaries:**

The Bank has no goodwill related with acquisition of a foreign subsidiary or difference resulting from fair value adjustment of assets and liabilities of foreign subsidiaries.

**i. Accounts used to record the results arising from sale of a foreign subsidiary:**

During the current period, the Bank has not sold any foreign subsidiary.

**j. Status and recognition of foreign exchange differences arising from the translation of debt securities issued and monetary financial assets into Turkish lira:**

There are no debt securities issued. Foreign exchange differences arising from the translation of monetary financial assets are included in the "foreign exchange gains/losses" in the income statement.

**IV. EXPLANATIONS ON DERIVATIVE INSTRUMENTS**

The major derivative instruments of the Bank are currency and interest rate swaps, money options and currency forwards. There are no embedded derivatives originated by the Bank.

The Bank classifies its derivative instruments as held for "Hedging" or "Trading" in accordance with Communiqué 1 on the Accounting Application Regulation "Accounting of Financial Instruments" ("AAR"). All derivative financial instruments are classified as held for trading. Even though certain derivative transactions, while providing effective economic hedges under the Bank's risk management position, do not qualify for hedge accounting under the specific rules in AAR 1, and are therefore treated as derivatives held for trading.

Derivative instruments are measured at cost on initial recognition and the related transaction costs are included in the initial measurement. Payables and receivables arising from the derivative instruments are followed in the off-balance sheet accounts on their contractual values.

After initial recognition, derivative instruments are measured at their fair values and the fair values are included in the balance sheet under either "Accrued Interest and Income Receivable" or "Accrued Interest and Expense Payable" depending on whether they are positive or negative. Differences due to the measurement of the fair value of trading derivative instruments are included in the income statement.

As of 31 March 2005, fair value of derivatives of the Bank amount to YTL17.561 (YTL202.474 as of 31 December 2004).

**V. OFFSETTING FINANCIAL INSTRUMENTS**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

**VI. INTEREST INCOME AND EXPENSE**

Interest income and expense are recognized in the income statement on an accrual basis. When the Bank management estimates and judges that the collection becomes doubtful, then the interest income is not recognized until the collection is made and any accruals and income recognized in relation to these receivables are reversed.

**VII. FEE AND COMMISSION INCOME AND EXPENSES**

All fees and commissions income/expenses are recognized on accrual basis, except for certain commission income and fees for various banking services which are recorded as income at the time of collection. Loan fees and commissions expenses paid to the other financial institutions are recognized as operational costs and recorded on effective yield method. Contract based commission fees regarding purchase and sale of assets are recognized as income at the time of collection.

**VIII. TRADING SECURITIES**

Trading securities are securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio in which a pattern of short-term profit making exists.

All regular way purchases and sales of trading securities are recognized at the settlement date, which is the date that the asset is delivered to/from the Bank. Trading securities are initially recognized at cost and subsequently re-measured at their fair value based on quoted bid prices or amounts derived from cash flow models. However, if fair values cannot be measured reliably, the securities are carried at amortised cost using the effective yield method. All gains and losses arising from these evaluations are reflected in the income statement. Interest earned while holding securities is reported as interest income and dividends received are included separately in dividend income.

**IX. SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS**

Securities sold under agreements to repurchase ("repurchase") are classified as "trading securities", "available-for-sale securities" and "held-to-maturity securities" in the balance sheet according to the investment purposes and measured according to the portfolio to which they belong. Funds deposited under repurchase agreements are accounted under "Funds Provided under Repurchase Agreements" and difference between the sale and repurchase price determined by these repurchase agreements is accrued evenly over the life of the repurchase agreement using the internal rate of return method.

Funds given against securities purchased under agreements to resell ("reverse repurchase") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and resell price determined by these repurchase agreements is accrued evenly over the life of repurchase agreements using the internal rate of return method.

The Bank has no securities lending transactions.

**X. EXPLANATION ON INVESTMENT SECURITIES HELD-TO-MATURITY AND INVESTMENT SECURITIES AVAILABLE-FOR-SALE**

The Bank classifies and accounts its financial assets as "trading securities", "available-for-sale securities", "originated loans and receivables" and "held-to-maturity securities". Sale and purchase transactions of the financial assets mentioned above are recognized at the "settlement dates". The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

Where the estimated recoverable amount of the financial asset, being the present value of the expected future cash flows discounted based on the effective yield, is lower than its carrying value, then it is concluded that the asset under consideration is impaired. Provision is made for the diminution in value of the impaired financial asset and is charged against the income for the year.

**a. Investment securities held to maturity:**

Held-to-maturity investments are securities with fixed maturity and fixed or determinable payments where management has both the intent and ability to hold the investments till maturity. Held-to-maturity securities are initially recognized at cost, and subsequently carried at amortized cost using the effective yield method. Interest earned whilst holding held-to-maturity securities is reported as interest income.

The Bank has no financial assets that were initially classified as held-to-maturity which will not be classified as held-to-maturity investments for the following two years due to subsequent changes in classification. There is no diminution in value for the held-to-maturity securities and no provision for impairment is made.

**b. Investment securities available for sale:**

Available-for-sale securities are defined as securities other than the ones classified as "held-to-maturity securities", "trading securities" and "originated loans".

Available-for-sale investment securities are subsequently remeasured at fair value. When fair value calculations, based on market prices, cannot be performed reliably, the securities are carried at amortised cost using the effective yield method. Unrealized gains and losses arising from changes in the fair value of securities classified as available-for-sale are recognized in shareholders' equity as "Marketable securities value increase fund", unless there is a permanent decline in the fair values of such assets or they are disposed. When these securities are disposed of or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement.

**XI. BANK ORIGINATED LOANS AND RECEIVABLES AND SPECIFIC AND GENERAL PROVISIONS**

Loans and advances originated by the Bank by providing money, service or goods directly to customers are categorized as originated loans. Loans and receivables originated by the Bank are carried initially at cost and subsequently recognized at the amortized cost value calculated by using effective yield. The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

If the collectibility of any receivable is identified as limited or doubtful by the Bank management through assessments and estimates, the Bank provides general and specific provisions for these loans and receivables in accordance with the "Decree Related to Principles and Procedures on Determining the Qualifications of Bank Loans with Required Reserves and Other Claims and on Reserves to be Held" published in the Official Gazette dated 30 June 2001, No. 24448 and paragraphs 1 and 12 of article 11 of the Banks Act No. 4389. In addition, considering the statistical analysis on possible risks that can arise from consumer loans, the Bank has set aside a general reserve for possible loan losses and accounted it in the "other provisions" in the liabilities. Provision expenses are deducted from the net income of the period. If a receivable for which provision is provided is subsequently collected, it is deducted from the specific provisions and recorded as income in "Other Operating Income". Uncollectible receivables are written-off after all the legal procedures are finalized.

**XII. GOODWILL AND OTHER INTANGIBLE ASSETS**

As of 31 March 2005 and 31 December 2004, the Bank has no goodwill.

Intangible assets are measured at the cost of the asset on initial recognition and the related other costs are included in the initial measurement. Intangible assets are carried at cost less accumulated depreciation and accumulated value diminution .

Intangibles are amortised over five years (their estimated useful lives) using the straight-line method. The useful life of the asset is determined by assessing the expected useful time of the asset, technical, technological and other kinds of wear and tear and all required maintenance expenses made to utilise the economic benefit from the asset.

The Bank does not expect material changes in the estimation of useful lives, depreciation methods or residual values that may have a significant impact on current period or future periods.

Costs associated with development of computer software programmes and expenditures that enhances and extends the benefits of computer software programmes beyond their original specifications and lives are added to the original cost of the software and capitalized. Capitalized computer software development costs are amortised using the straight-line method over their remaining useful lives.

**XIII. PROPERTY AND EQUIPMENT**

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting up the asset are included in the initial measurement. Property and equipments are carried at cost less accumulated depreciation and accumulated value diminution.

Depreciation is calculated over the restated amounts of property and equipment using the straight-line method. The expected useful lives are stated below:

|   |          |
|---|----------|
| Buildings                                   | 50 years |
| Machinery, furniture, fixtures and vehicles | 5 years  |

The depreciation charge for items remaining in the property and equipment for less than an accounting period at the balance sheet date is calculated in proportion to the period the item remained in the property and equipment.

Where the carrying amount of an asset is greater than its estimated net realizable value, it is written down immediately to its recoverable amount and the provision for the diminution in value is charged to income statement.

Property and equipment is not carried at a revalued amount in the financial statements.

Gains and losses on disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales revenue.

---

Expenditure for the repair and renewal of property and equipment is charged against income. The capital expenditures made in order to increase the capacity of the tangible asset to increase the future benefit of the asset are added to the cost of the tangible asset. Investment costs are costs that prolong useful life, enlarge the service capacity, extend the quality or diminish the cost of the goods produced or services rendered.

There are no pledges, mortgages and other commitments given to acquire property and equipment and there are no other limitations on property and equipment which restrict the right to use them.

The Bank does not expect any changes in the accounting estimates related with property and equipment that will have a significant impact in the current period or that may have a significant impact on future periods.

**XIV. LEASING TRANSACTIONS**

Assets acquired under finance lease agreements are capitalized at the inception of the lease at the lower of the fair value of the leased asset or the present value of the amount of cash amounts that is going to be paid for the leased asset. Leased assets are included in the property and equipment and depreciation is charged on a straight-line basis over the useful life of the asset. If there is any diminution in value of the leased asset, provision is provided for the impairment. Liabilities arising from the leasing transactions are included in "Finance Lease Payables" on the balance sheet. Interest and foreign exchange expenses regarding lease transactions are charged to the income statement. The Bank does not engage in finance leasing transactions as lessor.

Transactions regarding operational agreements are accounted on accrual basis in accordance with the related contracts.

**XV. PROVISIONS AND COMMITMENTS**

Provisions and contingent liabilities are provided for in accordance with Communiqué 8 on the Accounting Application Regulation "Standard for Provisions, Contingent Liabilities and Accounting of Assets" except for the specific and general provisions provided for loans and other receivables.

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. When a reliable estimate of the amount of obligation cannot be made, contingent liability exists. A provision is recognized when it is probable that the contingent event will occur and a reliable estimate can be made.

**XVI. OBLIGATIONS RELATED TO EMPLOYEE RIGHTS:**

Obligations related to employee rights are accounted in accordance with Communiqué 10 on the Accounting Application Regulation ("AAR 10") "Accounting of Obligations Related to Employee Rights". Provision for notice pay and employment termination benefit liability is calculated by taking the simple arithmetical average of the ratio of the actual payment to the total liability for the last five years before the balance sheet date and applying this ratio to the total liability of the current period in accordance with AAR10. Five-year simple arithmetical average of actual payment rates as a basis for provision for employee termination benefits and notice pay is 11,44%. (31 December 2004: 11,23%)

The Bank does not employ any person subject to an agreement where the employment period will terminate in more than 12 months as at 31 March 2005.

The Bank's personnel are members of the "Akbank T.A.Ş. Personnel Pension Fund Foundation" ("Pension Fund"), established in accordance with the Social Security Law, Article No. 20. The financial statements of the Pension Fund have been audited by an actuary in accordance with the 38<sup>th</sup> Article of the Insurance Supervisory Law and the Actuarial Regulation based on the same Article. Based on the financial statements of the Pension Fund prepared in accordance with technical interest rate of 10%, neither a technical nor an actual deficit was determined, thus, no provision has been calculated.

**XVII. TAXES**

Corporation tax is payable at a rate of 30% (33% for 2004) on the total income of the Company after adjusting for certain disallowable expenses, exempt income and investment and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey or are resident corporations, are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 10%. An increase in capital via issuing bonus shares is not considered as profit distribution and thus does not incur withholding tax.

Corporations are required to pay advance corporate tax quarterly at a rate of 30% (33% for 2004) on their corporate income. Advance tax is declared by the 10th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations is credited against the annual corporation tax calculated on their annual corporate income. The balance of the advance tax paid may be refunded or used to be offset against other liabilities to the government.

Capital gains derived from the sale of equity investments and immovable are tax exempt, if such gains are added to paid-in capital by the end of the second year following their sale.

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005**

(Amounts expressed in thousands of New Turkish lira (YTL))

Capital expenditures, with some exceptions, over YTL10 thousand (2004: YTL6 thousand) are eligible for an investment incentive allowance of 40%, which is deductible from taxable income prior to calculation of the corporate income tax, without the requirement of an investment incentive certificate; the amount of allowance is not subject to withholding tax. Investment incentive rights are transferable to the following years if the corporate income is insufficient. Investment allowances utilized within the scope of investment incentive certificates granted prior to 24 April 2003 are subject to withholding tax at the rate of 19.8%, irrespective of profit distribution.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Tax losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns within four months following the close of the accounting year to which they relate. Tax returns are open for five years from the beginning of the year following the date of filing during which period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

The Bank calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with the Communiqué 18 on the Accounting Application Regulation and the related disclosures of BRSA about the income taxes.

**XVIII. EXPLANATIONS ON BORROWINGS**

Trading financial liabilities and derivative instruments are valued with the fair value and the rest of financial liabilities are carried at amortized cost using the effective yield method.

The Bank utilizes various hedging techniques to minimize the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds are issued for the period.

**XIX. PAID-IN CAPITAL AND CAPITAL STOCK**

Transaction costs regarding the issuance of share certificates are accounted as expense in the income statement.

Distribution of profit for the period 1 January-31 December 2004, resolved at the General Meeting of Shareholders, is explained in Section I, Note III-g.

**XX. AVALIZED DRAFTS AND ACCEPTANCES**

Avalized drafts and acceptances shown as liabilities against assets are included in the off-balance sheet commitments.

**XXI. GOVERNMENT GRANTS**

As of 31 March 2005 there is no government grant and support for the Bank.

**XXII. RECLASSIFICATIONS**

Where necessary comparative figures of 31 March 2004 has been reclassified to conform to changes in presentation in the current period.

**XXIII. NEW TURKISH LIRA**

Through the enactment of the Law numbered 5083 concerning the "Currency of the Republic of Turkey" in the Official Gazette dated 31 January 2004, the New Turkish lira ("YTL") and the New Kuruş ("YKr") have been introduced as the new currency of the Republic of Turkey, effective from 1 January 2005. The hundredth part of the YTL is the YKr. When the prior currency, Turkish lira ("TL"), values are converted into YTL, one million TL (TL1.000.000) shall be equivalent to one YTL (YTL1). Accordingly, the currency of the Republic of Turkey is simplified by removing 6 zeroes from the TL.

Effective from 1 January 2005, the YTL replaced the TL as a unit of account for keeping and presentation of the records, accounts and financial statements. According to the decree of BRSA numbered BDDK.DZM.2/13/1-a-1, publicly available financial statements and disclosures will be presented in "thousands of YTL" including the previous periods on until 1 January 2005 for comparison. In this respect, for comparison purposes, 31 December 2004 and 31 March 2004 amounts previously prepared and presented in "billions of TL" have been presented as "thousands of YTL".

SECTION FOUR  
INFORMATION RELATED TO FINANCIAL POSITION

I. STRATEGY OF USING FINANCIAL INSTRUMENTS AND EXPLANATIONS ON  
FOREIGN CURRENCY TRANSACTIONS

The Bank's main operating activity is banking including retail banking, corporate banking, private banking, foreign exchange, money markets and securities transactions (treasury transactions) and international banking services. By nature, the Bank's activities are principally related to the use of financial instruments. As the main funding source, the Bank accepts deposits from customers for various periods and invests these funds in high quality assets with high interest margins. Other than deposits, the Bank's most important funding sources are equity and mostly intermediate and long term borrowings from foreign financial institutions. The Bank follows an assets-liabilities management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments on various financial assets with longer periods at higher rates. The Bank has sufficient liquidity. In liquidity management, it is imperative to take into account the term structure of assets and liabilities. The main objective of asset and liability management is to limit the Bank's exposure to liquidity risk, interest rate risk, currency risk and credit risk while increasing profitability and strengthening the Bank's equity. The Asset and Liabilities Committee ("ALCO") manages the assets and liabilities within the trading limits on the level of exposure, placed by the Executive Risk Committee ("ERC").

Investments in credits and securities, within the frame of their term structure and market conditions, are the areas that generate a higher income than the average calculated for the Bank's overall areas of activity. In terms of liquidity management, deposit placements in banks have shorter terms and usually lower interest.

To take the advantage of short term capital market fluctuations in currency, interest and price, the Bank takes exposure within the set limits and market conditions. The ERC constantly monitors these exposures and updates the trading limits that are applied according to daily conditions.

The Bank controls and manages the currency risk exposure that arises from foreign currency transactions and foreign currency denominated securities in available-for-sale and other portfolios by using natural hedges that arise from offsetting foreign currency denominated assets and liabilities and with various derivative financial instruments. Currency risk of investments in foreign affiliates and subsidiaries is also managed with similar protective methods.

Interest rate risk is managed on a portfolio basis by using natural hedges that arise from offsetting interest rate sensitive assets and liabilities.

Detailed explanations regarding the Bank's risk management are given in the notes numbered III, IV, V, VI and VII of this section.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005

(Amounts expressed in thousands of New Turkish lira (YTL))

II. CAPITAL ADEQUACY RATIO

- a. The Bank's capital adequacy ratio is 33,59% (31 December 2004: 36,24%). This rate is considerably above the minimum rate of 8% that is specified by the pertinent regulation.
- b. For the calculation of the capital adequacy ratio, the Bank classifies the risk weighted assets and non-cash loans according to the risk weights defined by the regulations and calculates "Total risk weighed assets" which is the sum of "market risk on securities" and the "Bank's currency risk". The following tables show the classifications of risk weighted assets and the calculation of shareholders' equity for the capital adequacy ratio calculation.
- c. Information related to capital adequacy ratio:

**III. CREDIT RISK**

- a. Credit risk is the risk that the counterparties may be unable to meet the terms of the agreements. This risk is monitored by reference to credit risk ratings and managed by limiting the aggregate risk to any individual counterparty, group of companies and industry. While determining credit risks, criteria such as the customers' financial strength, commercial capacities, sectors, geographic areas and capital structures are evaluated. Analysis of the financial position of the customers are based on the statements of account and other information. Previously determined credit limits are constantly revised according to changing conditions. Collaterals, corporate and personal guarantees are determined on a customer basis.

During crediting procedures, limits determined on customer and product basis are essentially followed up; information on risk and limits information is closely monitored.

- b. There are risk control limits set for the market risks and credit risks arise from forward and option agreements and other similar agreements.
- c. When necessary, derivative instruments are written to control and to offset credit risks that can especially originate from foreign exchange and interest rate fluctuations.
- d. Non-cash loans turned to cash loans are included in the same risk group as cash loans which are not collected on maturity. Credit risk management is applied for all positions involving counter party risk.

Rescheduled or restructured loans are followed in their relevant groups until all receivable from the loans is collected. Monitoring continues until receivable from loan is completely collected.

The Bank considers that long term commitments are more exposed to credit risk than short term commitments, and points such as defining risk limits for long term risks and obtaining collaterals are treated in a wider extent than short term risks.

- e. The Bank's banking activities in foreign countries and crediting transactions do not constitute an important risk in terms of the related countries' economic conditions and activities of customers and companies.

When considered within the financial activities of other financial institutions, the Bank as an active participant in the national and international banking market, is not exposed to a significant credit risk. As seen in the balance sheet, the ratio of loans under follow-up to total loans is 1,7% (31 December 2004: 1,3%) and 100% provision has been provided.

- f. The Bank provided a general provision amounting to YTL80.026 (31 December 2004: YTL76.592).

IV. MARKET RISK

The Bank considers currency risk and interest rate risk as the most important components of market risk. The ERC sets critical risk limits for market risk and through close monitoring of the markets and overall economy, such limits are updated as necessary. These limits and implementation of strategies are assigned to various levels of management in order to enhance control effectiveness. The Bank's market risk position is calculated and reported to the ERC members daily and weekly. The table below shows how the market risk as of 31 March 2005 is calculated in accordance with the Regulation related to the Measurement and Evaluation of the Bank's Capital Adequacy, published in the Official Gazette dated 31 January 2002, No. 24567 and the Regulation related to the Market Risk Calculation by the Standard Method.

(\*) Of the "Amount subject to market risk", only YTL129.596 (8% of YTL1.619.948) is used in the calculation of the market risk related to the capital adequacy ratio which is given in Section four, note II. YTL129.596 is the minimum amount of capital that can hedge the mentioned risk.

V. CURRENCY RISK

The difference between the Bank's foreign currency denominated and foreign currency indexed assets and liabilities is defined as the "Net Foreign Currency Position" and is the basis of currency risk. Foreign currency denominated assets and liabilities, together with purchase and sale commitments, give rise to foreign exchange exposure. This risk is managed by using natural hedges that arise from offsetting foreign currency denominated assets and liabilities and the remaining short foreign exchange exposures are hedged on a portfolio basis with derivative financial instruments that include primarily forward foreign exchange contracts and currency swaps. The Board, taking into account the recommendations by ERC, sets a limit for the size of foreign exchange exposure, which is closely monitored by ALCO.

**Information on the Bank's currency risk: (Thousand YTL)**

The table below summarizes the Bank's exposure to foreign currency exchange rate risk, categorized by currency. Foreign currency indexed assets, classified as Turkish lira assets according to Uniform Chart of Accounts, are considered as foreign currency assets for the calculation of Net Foreign Currency Position. Therefore, the difference between the sum of the foreign currency assets in the following table and in the balance sheet is equal to the sum of foreign currency indexed assets. The Banks' real position, both in financial and economic terms, is presented in the table below:

VI. INTEREST RATE RISK

“Interest Rate Risk” can be defined as the impact of interest rate changes on interest-sensitive assets and liabilities of the Bank. The Executive Risk Committee sets limits for the interest rate sensitivity of assets and liabilities and the sensitivity is closely monitored and reported weekly. In case of high market fluctuations, daily reporting and analyses on transaction bases are made.

The Bank manages the interest rate risk on a portfolio basis and tries to minimize the risk effect on the profitability, financial exposure and cash flows by applying different strategies. Basic methods such as: using fixed or floating interest rates for different portfolios and maturities, setting the fixed margin in floating rates, varying the rates for the short or long-term positions are applied actively.

a. Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates:

## VII. LIQUIDITY RISK

Liquidity risk arises from mismatching of maturities of assets and liabilities. The Bank balances the maturities of the related assets and liabilities according to specific criterion and keeps the mismatching of maturities under control. A major objective of the Bank's asset and liability management is to ensure that sufficient liquidity is available to meet the Bank's commitments to customers and to satisfy the Bank's own liquidity needs. For this objective, the Bank holds sufficient amount of short term funds. The Executive Risk Committee sets limits on the maturity mismatch of assets and liabilities and these limits are updated as necessary. Liquidity risk is measured and reported on a weekly basis. The Bank also analyses its liquidity risk on a daily and transaction basis, if there are significant market fluctuations. In case of high market fluctuations, daily analysis on transaction bases are made.

The most important funding resources of the Bank are the equity capital which is mainly placed in interest earning assets, the diversified and steady deposit base and the long term funds borrowed from international institutions. In spite of a substantial portion of deposits from individuals being short-term, deposits are diversified by number and type, and maturities of great portion of deposits are renewed which indicates that these deposits will provide a long-term and stable source of funding for the Bank.

**AKBANK T.A.Ş.**

**NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005**

(Amounts expressed in thousands of New Turkish lira (YTL))

**j. Information related with other assets:**

1. As of 31 March 2005, the Bank has no “deferred tax assets”.

There are no carry forward tax losses that can be used as deductions for the tax calculation. The temporary differences arising due to the different treatment of accounting policies and valuation principles, compared to the tax law, give rise to deferred tax assets and deferred tax liabilities; and this is accounted as “net deferred tax liabilities” in other liabilities.

2. Other assets amount to YTL82.719 (31 December 2004: YTL42.214) on the balance sheet and do not exceed 10% of the total assets, excluding the off-balance sheet commitments.

**II. INFORMATION AND DISCLOSURES RELATED TO LIABILITIES**

**a. Information about deposits:**

The liabilities providing the funding sources of the Bank are deposits and borrowings. Deposits are the most important funding source of the Bank and diversification of these deposits by number and type of depositors with a stable structure does not create any risk concentration. The borrowings are composed of funds such as syndicated and securitized loans, money market and post finance which are obtained from different financial institutions with different maturity-interest structures and characteristics. There is no risk concentration in any of the funding sources of the Bank.

AKBANK T.A.Ş.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005

(Amounts expressed in thousands of New Turkish lira (YTL))

The Bank purchased foreign currency indexed government bonds with maturities of 3 to 5 years through the auction procedures in 2001 and valued them at 31 December 2001 with the market prices of the Eurobonds issued by the Turkish Undersecretariat of Treasury, in accordance with the Special Audit Communiqué and the Banking Act, Article 4. At 1 January 2002, the Bank started to value the mentioned securities with their amortised costs using the "Internal rate of return method". As of 31 December 2003, based on the prudence principle of AAR, these securities were valued, effective from their acquisition dates in accordance with the related regulations, with the "Internal rate of return method", and the resulting difference between the two methods was accounted under "Other Provisions" in the liabilities as at 31 March 2005, the related difference amounts to YTL31.737 (31 December 2004: YTL39.302).

2(ii). The "other provisions" account amounts to YTL93.228 (31 December 2004: YTL98.859); YTL79.152 (31 December 2004: YTL86.717) of this amount is the above mentioned provision provided for possible risks and the valuation difference of foreign currency indexed government bonds with maturities of 5 years valued with their amortised cost.

5. Information on capital commitments, the purpose and the sources until the end of the fiscal year and the subsequent interim period:

The Bank has no capital commitments in the mentioned periods.

6. The effects of anticipations based on the financial figures for prior periods about the Bank's income, profitability and liquidity, and the anticipations regarding the uncertainty of these indicators on the shareholders' equity:

The Bank has been continuing its operations with high profitability and has been retaining most of its net profit in the equity, either by increasing its capital or transferring it into reserves. On the other hand, only a small part of the equity is allocated to associates and subsidiaries and fixed assets, thus giving a chance for a considerably high free capital which provides funds for the liquid and high interest bearing assets. Considering all these points, the Banks's shareholders' equity is getting steadily stronger.

7. Information on privileges given to shares representing the capital: None

**f. Information on net income or loss for the period:**

1. Other operational expenses

In accordance with the Uniform Chart of Accounts, the foreign exchange gains from foreign currency indexed securities are recorded to the "Interest income on marketable securities" account instead of "Foreign exchange gains" and the foreign exchange losses from the foreign currency indexed securities are recorded to "Other operating expenses". Thus, as of 31 March 2005, approximately YTL33.000, essentially foreign exchange loss, has been booked as "Other operating expenses". Had these amounts been booked in the "Foreign exchange gains/losses" account, the Bank's "Other operating expense" would be YTL226.066 at 31 March 2005 and "Net foreign exchange loss" would be YTL33.819 at 31 March 2005 (31 March 2004: YTL21.912 net foreign exchange loss).

2. Tax provision

Effective from 1 January 2004, the use of inflation accounting principles in the calculation of the corporate tax base is stipulated by Law 5024 published on 30 December 2003 in the Official Gazette No.25332. In accordance with the law, if the cumulative price increase in the Wholesale Price Index (WPI) is higher than 100% for the last 36 months and higher than 10% for the last 12 months, inflation accounting principles must be taken into consideration in the calculation of the tax base. At 31 March 2004, since the conditions for the application of inflation accounting were realized, the Bank calculated and accounted its tax provision in accordance with the inflation accounting principles.

Since the criteria of the Law number 5024 have disappeared, the application of inflation adjustment has been terminated effective from 1 January 2005 as announced by the decree number 18 published on 19 April 2005 by the Ministry of Finance.

3. Information on any change in the accounting estimates concerning the current period or consequent periods:

None

IV. INFORMATION AND DISCLOSURES RELATED TO OFF-BALANCE SHEET ACCOUNTS

a. Information on contingent liabilities:

1. Contingent liabilities related to joint ventures:

None.

2. The accounting of contingent liabilities and assets is as follows:

For contingent assets: the asset is recorded in the financial statements if the probability of occurrence for the condition is near certain; the asset is explained in the notes if the probability of occurrence is high. For contingent liabilities: if the probability of occurrence for the contingent liability is high and can be reliably measured, a provision is calculated and reflected in the financial statements. If the probability cannot be reliably measured, the commitment is explained in the notes. If management does not expect any material loss as a result of these transactions or if the expected loss is very small, it is also explained in the notes. Accordingly, the Bank has identified certain legal proceedings outstanding against the Bank as contingent liabilities and as at 31 March 2005 the Bank has booked a provision in the amount of YTL6.296 (31 December 2004: YTL6.296).

b. Information related to off-balance sheet commitments:

1. Type and amount of irrevocable commitments: The commitments for credit card limits and cheque books amount to YTL5.163.324 (31 December 2004: YTL6.833.068) and YTL1.200.009 (31 December 2004: YTL1.096.148) respectively.
2. Type and amount of probable losses and obligations arising from off-balance sheet items:

The Bank has no probable losses arising from off-balance sheet items. Obligations arising from off-balance sheet are disclosed in "Off-balance sheet commitments".

- 2(i). Non-cash loans including guarantees, bank acceptances, collaterals and others that are accepted as financial commitments:

(Amounts expressed in thousands of New Turkish lira (YTL))

---

Figures presented in the table above show the sum of "sale" and "purchase" amounts of the related transactions. Each forward and swap contract and spot transaction represents a simultaneous receivable and payable to be received and paid, on a future date, in respective currencies: Accordingly, the difference between the "sale" and "purchase" transactions represents the net exposure of the Bank with respect to commitments arising from these transactions. As of 31 March 2005, net amounts of transactions with associates and subsidiaries are YTL2.001 (31 December 2004: YTL15.062), and for direct and indirect associates are YTL843 (31 December 2004: YTL356).

**b. With respect to the Bank's risk group:**

1. The relations with entities that are included in the Bank's risk group and controlled by the Bank irrespective of the relationship between the parties:

The relationship of the Bank with the entities that are included in the Bank's risk group covers all banking activities that are consistent with the Banking Act, within the terms of bank-customer relationship and the market conditions.

2. The type of transaction, the amount and its ratio to total transaction volume, the amount of significant items and their ratios to total items, pricing policy and other issues:

Loans and deposits amounts are the most important items among these transactions. Pricing and other conditions are performed according to the market ratios and conditions. The ratio of related party loans to total loans is 3% (31 December 2004: 3%); the ratio of related party deposits to total deposits is 3% (31 December 2004: 2%). Transactions with related parties are not significant within the income statement items. The ratio of non-cash loans granted to related parties to total non-cash loans is 21% (31 December 2004: 15%). The ratio of derivative transactions with related parties to total derivative transactions is 5% (31 December 2004: 8%)

3. Transactions accounted in accordance with the equity method: None

4. Information on purchase/sale of property plant and equipment and other assets, purchase/sale of services, contracts with agents, financial lease agreements, transfer of data obtained through research and development activities, license agreements, financial (loans, cash or in kind capital aid included), commitments and contingencies and management agreements:

Insurance products by Aksigorta and Ak Emeklilik are offered at the branch offices of the Bank which act as agencies for these firms. The entire financial leasing activities are carried through BNP Ak Dresdner Finansal Kiralama A.Ş., which is 100% owned by BNP Ak Dresdner Bank A.Ş., the subsidiary of the Bank.

The cash and non-cash loans to the related party's are granted in accordance with the limits designated by the Banking Act and the current market interest rates and conditions.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005

(Amounts expressed in thousands of New Turkish lira (YTL))

VII. EXPLANATION RELATED TO INFLATION ACCOUNTING

As explained in Section Three Footnote I-b on 28 April 2005, the BRSA announced that the inflation accounting application in the banking sector has been terminated based on the decree numbered 1623 and dated 21 April 2005. It has been stated that the indicators in the economy, including the inflation rate which obligated the preparation of financial statements according to inflation accounting, had disappeared and that the application of inflation accounting effective from 1 January 2005 was to be terminated. According to AAR 14, in case of the discontinuation of inflation accounting, the opening balances of the current period's financial statements will be the year-end figures adjusted at the end of the inflationary period. In the preparation of the Bank's financial statements, inflation accounting has been applied until the end of 31 December 2004 and starting from 1 January 2005, it has been discontinued. In these financial statements, corresponding figures expressed for previous periods are restated in terms of the purchasing power of the TL at 31 December 2004.

The principles included in AAR14 explanations about the inflation accounting applied until 31 December 2004 are stated below.

- a. Financial statements have been restated to eliminate the effect on the financial statements of the changes in the purchasing power parity of the Turkish lira at the balance sheet date.
- b. These inflation adjusted financial statements have been prepared based on statutory financial statements.
- c. The below conversion factors and wholesale price indices announced monthly on the same basis by the State Institute of Statistics have been used to restate the financial statements as at 31 December 2004:

| <u>Date</u>      | <u>Price Index</u> | <u>Conversion Factor</u> |
|------------------|--------------------|--------------------------|
| 31 December 2004 | 8.403,800          | 1,0000                   |
| 31 March 2004    | 7.862,200          | 1,0689                   |
| 31 December 2003 | 7.382,100          | 1,1384                   |
| 31 December 2002 | 6.478,800          | 1,2971                   |

- d. Monetary assets and liabilities, which are carried at amounts current at the balance sheet date, are not restated because they are already expressed in terms of the monetary unit current at the balance sheet date. Non-monetary assets and liabilities which are valued at current value i.e. foreign currency denominated asset and liability accounts and whose yields or capitals are indexed to inflation or foreign currency are not restated in accordance with the related regulation and accounted like monetary items when calculating monetary gain and loss.

Non-monetary assets and liabilities which are not carried at amounts current at the balance sheet date and components of shareholders' equity are restated by applying the relevant conversion factors. In the restatement, these items are restated on the basis of their initial recognition date in the balance sheet.

- Assets are restated on the basis of their acquisition date. During the restatement of assets which are subject to depreciation, the effects of revaluation on these assets and respective accumulated depreciation, which have been recorded in accordance with the related regulation, are eliminated.

AKBANK T.A.Ş.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS AT 31 MARCH 2005

(Amounts expressed in thousands of New Turkish lira (YTL))

- In the restatement of shareholders' equity, transfers from revaluation fund and other similar funds to share capital are eliminated since they are not recognized as capital injection from shareholders. Transfers of amounts which do not occur as a result of revaluation such as reserves, unappropriated profit, share premiums, income from the sale of investments and real estates are deemed to be cash contributions and are restated. As a result of the restatement, any increase in the paid-in-capital with respect to the historical amount of paid-in capital is disclosed as "the inflation adjustment of paid-in capital" under equity in the financial statements.
- All items in the statement of income are restated by applying the monthly conversion factors. Since the wholesale price indices reflect monthly price changes, the same monthly conversion factors are used for all the transactions realized within a month.
- The effects of inflation on the Bank's net monetary position are included in the statement of income as "gain or loss on net monetary position".
- All Turkish lira denominated investments, associates, subsidiaries and share certificates included in the available-for-sale portfolio are adjusted after deduction of the increases in the value of these investments due to the increases in their capitals from revaluation and other funds as well as capitalized financial expenses if any.

Foreign currency denominated investments, associates, subsidiaries and share certificates included in the available-for-sale portfolio are valued at foreign currency acquisition costs restated in terms of the evaluation rates at the balance sheet date.

If the inflation adjusted value is higher than the net realizable value, the values of related investments, associates, subsidiaries and share certificates included in the available-for-sale portfolio are reduced to the net realizable or fair value, if impairment is permanent.

- e. In the restatement of assets subject to depreciation, revaluation values calculated in accordance with the related regulation are eliminated. Depreciation is calculated over the restated amounts of property and equipment using the straight-line method to write off the restated cost of each asset to its residual value over its estimated useful life. Information on the useful lives of the assets are disclosed in the related notes.
- f. Registered values of reserves and paid-in capital under the Turkish Commercial Code and the Articles of Association of the Bank are as follows:

|                  | <u>31 December 2004</u> |
|------------------|-------------------------|
| Paid-in capital  | 1.500.000               |
| Legal reserves   | 160.977                 |
| General reserves | 913.760                 |

- g. The financial statements of the Bank as of 31 December 2004 have been audited by Başaran Nas Serbest Muhasebeci ve Mali Müşavirlik A.Ş., (a member of PricewaterhouseCoopers). In the auditor's report, it is stated that the financial statements present fairly, in all material respects, the financial position of the Bank and the result of its operations and its cash flows for the year then ended in accordance with accounting principles and standards set out by the regulations in conformity with Article 13 of the Banking Act.

- h. Income and expenses accrued for the period; a statement to confirm the existence of objective measures that income and expenses are not seasonal and evenly distributed:

Income and expenses accrued during the period and income and expenses made during the period are not seasonal and evenly distributed. Although this situation permits the usage of "average indices" for the restatement of income statement items, "monthly" income and expense balances were obtained and these balances excluding "tax provision" were restated separately with the relevant month's indices, in order to perform more precise calculations and fair presentation of financial statements.

**VIII. INFORMATION THAT SHOULD BE DISCLOSED RELATED TO SUBSEQUENT EVENTS**

**1. Subsequent events and non-finalized transactions and their effect on the financial statements:**

- a. On 9 March 2005 the Bank acquired the remaining 60% of shares in it's subsidiary Ak Uluslararası Bankası A.Ş. (formerly BNP Ak Dresdner Bank A.Ş.) from foreign partners. Ak Uluslararası Bankası A.Ş. will be merged by absorption with the Bank.
- b. On 14 April 2005 the Bank has acquired 28% shares of Sabancı Bank plc. from H.Ö. Sabancı Holding A.Ş. (24%) and Exsa A.Ş. (4%) for an amount of GBP31.953.880.
- c. The Bank gave mandate to the WestLB AG London Branch to arrange a new financing related to export receivables, cheque receivables and workers' money orders amounting up to USD1 billion in total.
- d. In accordance with the Bank's Board of Directors' decision of 2 May 2005 it has been resolved to buy-back 2.538 founders' and usufruct shares which had been issued in line with the article 9-F of Bank's Articles of Association. Buy-back of these shares will be funded from the Bank's extraordinary reserves. The Board of Directors decided to apply to the Commercial Court for the assignment of an expert for valuation in accordance with the Article 31 of the Turkish Commercial Code.
- e. In accordance with the Bank's Board of Directors meeting held on 5 May 2005 an Extraordinary General Assembly meeting will be held on 30 May 2005 with the following agenda:
- In relation to the merger by absorption of Ak Uluslararası Bankası A.Ş. (formerly BNP Ak Dresdner Bank A.Ş.), ratification of the Bank's financial statements as at 31 March 2005 and authorization of the Board of Directors to sign off merger by absorption agreement.
  - In accordance with the Board of Directors' proposal and the permissions taken from legal authorities, amendment of the articles of association to comply with the New Turkish lira.

**2. Information about significant changes in the foreign exchange rates after the balance sheet date and their effects on foreign currency transactions, financial statements and foreign operations of the Bank.**

As disclosed in Section Four – Note V, the foreign currency exposure of the Bank is very low, thus the effect of any change in the rates will not be significant..

OTHER EXPLANATIONS AND FOOTNOTES**

**I. OTHER EXPLANATIONS RELATED TO BANK OPERATIONS**

None.

**II. EXPLANATIONS ADDED FOR CONVENIENCE TRANSLATION INTO ENGLISH**

The effects of differences between accounting principles and standards set out by regulations in conformity with the Article 13 of the Banking Act No. 4389, accounting principles generally accepted in countries in which these financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these financial statements. Accordingly, these financial statements are not intended to present the financial position, results of operations and changes in the financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**SECTION SEVEN  
EXPLANATION ON REVIEW REPORT**

**III. EXPLANATION ON REVIEW REPORT**

The unconsolidated financial statements as at and for the period ended 31 March 2005 have been reviewed by Başaran Nas Serbest Muhasebeci ve Mali Müşavirlik A.Ş. (a member of PricewaterhouseCoopers) In the review report dated 9 May 2005 it is stated that nothing has come to their attention to believe that the unconsolidated financial statements do not give a true and fair view of the financial position of the Bank at 31 March 2005 and the result of its operations for the period then ended in accordance with accounting principles and standards set out by the regulations in conformity with Article 13 of the Banking Act.
