AUDITORS' REPORT

TO THE DIRECTORS OF XINHUA FINANCE LIMITED
(incorporated in the Cayman Islands with limited liability)

We have audited the financial statements on pages 2 to 38 which have been prepared in accordance with International Financial Reporting Standards.

Respective responsibilities of directors and auditors

The Company's directors are responsible for the preparation of financial statements which give a true and fair view. In preparing financial statements which give a true and fair view it is fundamental that appropriate accounting policies are selected and applied consistently.

It is our responsibility to form an independent opinion, based on our audit, on those financial statements and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Basis of opinion

We conducted our audit in accordance with Statements of Auditing Standards issued by the Hong Kong Institute of Certified Public Accountants. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the circumstances of the Company and the Group, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance as to whether the financial statements are free from material misstatement. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Opinion

In our opinion the financial statements give a true and fair view of the state of affairs of the Company and the Group as at December 31, 2004 and of the loss of the Company for the period from January 5, 2004 (date of incorporation) to December 31, 2004 and of the loss and cash flows of the Group for the year then ended.

XINHUA FINANCE LIMITED

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2004

1. GROUP RESTRUCTURING AND BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Company was incorporated on January 5, 2004 in the Cayman Islands as an exempted company with limited liability and acts as an investment holding company with its subsidiaries engaged in the provision of China-specific indices, financial news feeds, credit ratings and investor relations services.

These financial statements are presented in United States dollars (US\$), the currency in which the majority of the Group's transactions is denominated.

Under a group reorganisation to rationalise the structure of the Group, the Company became the holding company of the Group in March 2004 (the "Group Reorganisation"). The principal steps of the reorganisation, which involved the exchange of shares, were that the shares of the Company were issued and allotted to the then existing shareholders of Xinhua Financial Network Limited ("XFN") in exchange for their shares in XFN.

The Group resulting from the above mentioned reorganisation is regarded as a continuing entity. Accordingly, the financial statements of the Group have been prepared using the principles of pooling of interests in accordance with International Accounting Standard ("IAS") No. 22 "Business combinations" ("IAS 22").

2. POTENTIAL IMPACT ARISING FROM THE RECENTLY ISSUED ACCOUNTING STANDARDS

In 2003 and 2004, the International Accounting Standards Board issued a number of new or revised IAS and International Financial Reporting Standards ("IFRS") (herein collectively referred to as "new Standards") which are effective for accounting periods beginning on or after January 1, 2005. The Group has not applied these new Standards in the financial statements for the year ended December 31, 2004 except for the IFRS 3 "Business combinations" ("IFRS 3") to business combinations for which the agreement date is on or after March 31, 2004, IAS 36 (Revised) "Impairment of assets" ("IAS 36 (Revised)") and IAS 38 (Revised) "Intangible assets" ("IAS 38 (Revised)") for goodwill and intangible assets acquired through business combinations for which the agreement date is on or after March 31, 2004.

The Group has commenced considering the potential impact of these new Standards but is not yet in a position to determine whether these new Standards would have a significant impact on how its results of operations and financial position are prepared and presented. These new Standards may result in changes in the future as to how the results and financial position are prepared and presented.

3. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared under the historical cost convention, except for the revaluation of certain financial instruments, and in accordance with IFRS.

In the current year, the Group applied, for the first time, IFRS 3 to business combinations for which the agreement date is on or after March 31, 2004 and applied, for the first time, IAS 36 (Revised) and IAS 38 (Revised) for goodwill and intangible assets acquired through business combinations for which the agreement date is on or after March 31, 2004. For business combinations which the agreement date was before March 31, 2004, goodwill/negative goodwill arising on those acquisitions is accounted for in accordance with IAS 22. Under IAS 22, goodwill represents the excess of the cost of the acquisition over the Group's interest in the fair value of identifiable assets and liabilities of a subsidiary at the date of acquisition and is stated at cost less accumulated amortisation and accumulated impairment losses. IFRS 3 requires goodwill arising from acquisitions to be determined as the excess of the cost of acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities on the date of acquisition. After initial recognition, IFRS 3 requires goodwill to be carried at cost less accumulated impairment losses. IFRS 3 prohibits the amortisation of goodwill. Under IAS 36 (Revised), impairment reviews are required annually, or more frequently if there are indications that goodwill might be impaired. The application of IFRS 3 has resulted in the recognition of goodwill of US\$103,848,000 which are not subject to amortisation but, impairment reviews are required. The application of IAS 38 (Revised) has no material effect to the Group.

The principal accounting policies adopted are as follows:

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and enterprises controlled by the Company (its subsidiaries) made up to December 31 each year. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

On acquisition, the assets and liabilities of a subsidiary are measured at their fair values at the date of acquisition. For business combinations which the agreement date was before March 31, 2004, any excess (deficiency) of the cost of acquisition over (below) the fair values of the identifiable net assets acquired is recognised as goodwill (negative goodwill). The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. For business combinations which the agreement date was on or after March 31, 2004, any excess of the cost of acquisition over the fair values of the identifiable assets, liabilities and contingent liabilities acquired is recognised as goodwill. Any deficiency of the cost of acquisition below the fair values of the identifiable net assets acquired (i.e. discount on acquisition) is credited to income statement in the period of acquisition. The interest of minority shareholders is stated at the minority's proportion of the fair values of the assets and liabilities recognised. Subsequently, any losses applicable to the minority interest in excess of the minority interest are allocated against the interests of the parent.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All significant inter-company transactions and balances between group enterprises are eliminated on consolidation.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Goodwill

For business combinations with the agreement date before March 31, 2004, goodwill arising on consolidation which represents the excess of the cost of acquisition over the Group's interest in the fair value of the identifiable assets and liabilities of a subsidiary at the date of acquisition, is recognised as an asset and amortised on a straight line basis over its estimated useful life. For business combinations with agreement date on or after March 31, 2004, goodwill arising on consolidation, which represents the excess of the cost of acquisition over the Group's interest in the net fair values of the identifiable assets, liabilities and contingent liabilities of a subsidiary at the date of acquisition, is recognised as an asset and reviewed for impairment at least annually. Any impairment is recognised immediately in income statement and is not subsequently reversed.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually and whenever there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit.

Goodwill arising on the acquisition of subsidiaries is presented separately in the balance sheet.

On disposal of a subsidiary, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Negative goodwill

Negative goodwill represents the excess of the Group's interest in the fair value of the identifiable assets and liabilities of a subsidiary at the date of acquisition over the cost of acquisition. For business combinations which the agreement date was before March 31, 2004, negative goodwill is released to income based on an analysis of the circumstances from which the balance resulted. To the extent that the negative goodwill is attributable to losses or expenses anticipated at the date of acquisition, it is released to income in the period in which those losses or expenses arise. The remaining negative goodwill is recognised as income on a straight line basis over the remaining average useful life of the identifiable acquired depreciable assets. To the extent that such negative goodwill exceeds the aggregate fair value of the acquired identifiable non-monetary assets, it is recognised in income immediately. Negative goodwill arising on the acquisition of subsidiaries is presented separately in the balance sheet as a deduction from assets.

Discount on acquisition arising on business combinations with agreement date on or after March 31, 2004 is recognised immediately in the income statement.

Investments in subsidiaries

Investments in subsidiaries are stated at cost less any identified impairment loss in the Company's financial statements.

XINHUA FINANCE LIMITED

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Revenue recognition

Revenue from subscription based real-time and historical information services is recognised on a straight line basis over the period of the subscription.

Service and solutions revenue is recognised when the services are provided.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the interest rate applicable.

Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets of the Group at their fair value at the date of acquisition or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs.

Rentals payable under operating leases are charged to income on a straight line basis over the period of the respective leases.

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any recognised impairment loss.

The gain or loss arising from the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the income statement.

The cost of leasehold improvements is depreciated over three years using the straight line method or over the remaining period of the relevant lease, whichever is shorter.

Depreciation is provided to write off the cost of other property, plant and equipment, using the straight line method, over the following estimated useful lives:

Computer equipment	1 - 7 years
Furniture, fixtures and equipment	4 - 7 years

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant leases.

XINHUA FINANCE LIMITED

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Intangible assets

Intangible assets with finite useful lives are stated at cost less amortisation and any identified impairment loss. Amortisation is calculated on a straight line basis over their estimated useful economic lives.

Onerous contract

An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The present obligation under the contract shall be recognised and measured as a provision.

Impairment

At each balance sheet date, the Group reviews the carrying amounts of its assets (excluding goodwill arising on business combinations with agreement date on or after March 31, 2004) to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. For goodwill arising on business combinations with agreement date on or after March 31, 2004, impairment reviews are performed annually, or more frequently if there are conditions that goodwill might be impaired. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the greater of net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately. An impairment loss recognised for goodwill arising from business combinations for which the agreement date is on or after March 31, 2004 is not reversed in subsequent period.

XINHUA FINANCE LIMITED

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Financial assets

The Group's principal financial assets are securities assets, trade and other receivables and bank balances and cash.

Securities assets

Options and warrants are initially recognised at cost, being fair value of the consideration given including associated acquisition charges and are measured at fair value at subsequent reporting dates. Unrealised gains and losses are included in the income statement.

Trade and other receivables

Trade and other receivables are stated at their nominal value as reduced by appropriate allowances for estimated irrecoverable amounts.

Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into. Principal financial liabilities include trade and other payables and consideration payable for acquisition.

Trade and other payables, consideration payable for acquisition and other long term payables are stated at their nominal value.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill (or negative goodwill) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

3. SIGNIFICANT ACCOUNTING POLICIES - continued

Taxation - continued

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

- Deferred tax is calculated at the tax rates that are expected to apply to the period when the liability is settled or the asset realised. Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Foreign currencies

Transactions in foreign currencies are initially recorded at the rates of exchange prevailing on the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are re-translated at the rates prevailing on the balance sheet date. Non-monetary assets and liabilities carried at fair value that are denominated in foreign currencies are translated at the rates prevailing at the date when the fair value was determined. Gains and losses arising on translation are included in net profit or loss for the period, except for exchange differences arising on non-monetary assets and liabilities where the changes in fair value is recognised directly to equity.

On consolidation, the assets and liabilities of the Group's overseas operations are translated at exchange rates prevailing on the balance sheet date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are classified as equity and transferred to the Group's translation reserve. Such translation differences are recognised as income or as expenses in the period in which the operation is disposed of.

8. LOSS PER SHARE

THE GROUP

The calculation of the basic loss per share is based on the Group's net loss for the year of US\$1,420,000 (2003: US\$1,576,000) and on the weighted average number of 89,530 (2003: 27,988) shares in issue on the assumption that the Group Reorganisation and consolidation of shares as detailed in note 23 had been effective on January 1, 2003.

THE COMPANY

The calculation of the basic loss per share is based on the Company's net loss for the period of US\$2,754,000 and on the weighted average number of 89,530 shares in issue on the assumption that the consolidation of shares as detailed in note 23 had been effective on January 5, 2004 (date of incorporation).

No diluted loss per share have been presented for the Group or the Company because the exercise of the warrants and options would result in a decrease in the loss per share.

<u>CARRYING AMOUNT</u>	
At December 31, 2004	<u>122,853</u>
At December 31, 2003	<u>4,170</u>

At the balance sheet date, the cost of goodwill which are not subject to amortisation in accordance with IFRS 3 was US\$103,848,000 (2003: Nil). The remaining balance of goodwill is amortised on a straight line basis over its estimated useful economic life of 20 years.

At December 31, 2004, the carrying amount of goodwill in relation to business combination with agreement date on or after March 31, 2004 had been allocated to the following cash generating units ("CGUs") that are expected to benefit from the respective business combinations:

	US\$'000
Production of database and analysis (comprised of Mergent Inc. only)	74,409
Production of other analysis	<u>29,439</u>
	<u>103,848</u>

The recoverable amounts of the CGUs are determined from value in use calculations. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates and expected changes to selling prices and direct costs during the period. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGUs. The growth rates are based on industry growth forecasts. Changes in selling prices and direct costs are based on past practices and expectations of future changes in the market.

During the year, the Group performed impairment review for goodwill in relation to business combinations with agreement date on or after March 31, 2004 based on cash flow forecasts derived from the most recent financial budgets for the next five years approved by management using a discount rate of 5%. No impairment loss was considered necessary.

At the balance sheet date, the Group and the Company have unutilised tax losses of US\$21,421,000 (2003: US\$15,915,000) and US\$1,341,000 respectively, available for offset against future profits. No deferred tax asset has been recognised in respect of the unutilised tax losses due to the unpredictability of future profit streams. Included in unrecognised tax losses are tax losses of US\$9,770,000 which will expire gradually up to 2024. Other tax losses may be carried forward indefinitely.

17. FINANCIAL ASSETS

THE GROUP

The directors consider that the carrying amounts of trade and other receivables, amount due from a joint alliance partner, amount due from a shareholder and bank balances and cash approximate to their fair values.

THE COMPANY

The directors consider that the carrying amount of note receivable from a subsidiary and amount due from a subsidiary approximate to their fair values.

The note receivable from a subsidiary is unsecured, carries interest at the prevailing market rate and is repayable in 2005 except for an amount of HK\$750,000 which is repayable in 2006.

17. FINANCIAL ASSETS - continued

Credit risk

The Group's financial assets are trade and other receivables, amount due from a joint alliance partner, amount due from a shareholder and bank balances and cash, which represent the Group's maximum exposure to credit risk in relation to financial assets.

The Company's financial assets are note receivable from a subsidiary and amount due from a subsidiary, which represent the Company's maximum exposure to credit risk in relation to financial assets.

The Group's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables, if any, estimated by the Group's management based on prior experience and their assessment of the current economic environment.

The credit risk on liquid funds is limited because majority of the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The Group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

18. FINANCIAL LIABILITIES

THE GROUP

The amount due to a minority shareholder of a subsidiary, amount due to a related company, amounts due to shareholders, amounts due to directors and other long term payables are unsecured, interest-free and are repayable on demand.

The loan from a related company, loan from a shareholder and other short-term loan are unsecured, carry interest at the prevailing market rate and are repayable on demand.

The directors consider that the carrying amounts of trade and other payables, consideration payable for acquisition, amount due to a minority shareholder of a subsidiary, amount due to a related company, amounts due to shareholders, amounts due to directors, loan from a related company, loan from a shareholder, short-term bank loans and other short-term loan approximate to their fair values.

THE COMPANY

The directors consider that the carrying amounts of accounts payables, consideration payable for acquisition, amounts due to subsidiaries and loan from a director approximate to their fair values.

The loan from a director is unsecured, interest-free and is repayable on demand.

23. SHARE CAPITAL - continued

The Company was incorporated on January 5, 2004 with an authorised ordinary share capital of HK\$5,500,000 divided into 550,000,000 ordinary shares of HK\$0.01 each and preference share capital of HK\$4,500,000 divided into 450,000,000 preference shares of HK\$0.01 each. At the time of incorporation, the Company issued 1 ordinary share of HK\$0.01 each, for cash at par, to provide the initial capital for the Company.

Pursuant to ordinary resolutions passed in an extraordinary general meeting held on August 24, 2004, the authorised ordinary share capital of the Company was increased from HK\$5,500,000 to HK\$45,500,000 by the creation of an additional 4,000,000,000 shares of HK\$0.01 each. These shares rank pari passu with the then existing ordinary shares in all respects. In addition, for each class of the Company's shares, every 2,000 shares of HK\$0.01 each were consolidated into 1 share of HK\$20 each.

During the year, the changes in the issued share capital of the Company were as follows:

- (a) Upon Group Reorganisation, the Company issued 63,017,993 new ordinary shares, 20,860,728 Series A preferred shares and 62,597,944 Series B preferred share of HK\$0.01 each in the Company credited as fully paid as consideration for and in exchange for the entire issued capital of XFN.
- (b) Ordinary shares of HK\$0.01 each were issued for acquisition of subsidiaries and additional interests in a subsidiary (Note 27).
- (c) Ordinary shares of HK\$0.01 each were issued as compensation for directors and staff at HK\$0.01 per share.
- (d) Series B preferred shares of HK\$0.01 each were issued at US\$0.36 per share.
- (e) Series C preferred shares of HK\$0.01 each were issued at US\$0.73 per share.
- (f) Pursuant to the underwriting agreement dated October 18, 2004, the Company offered 20,000 new shares of HK\$20 each for subscription at Yen175,000 per share.
- (g) On November 29, 2004, 2,290 ordinary shares of HK\$20 each were issued at Yen175,000 per share on exercise of over-allocation options.
- (h) On October 28, 2004, every preferred shares were converted to an ordinary shares.

The share capital shown on the consolidated balance sheet as at December 31, 2003 represented the share capital of XFN.

25. SHARE BASED PAYMENT ARRANGEMENT

In January 2002, XFN, the predecessor of the Company, adopted a share option plan which was subsequently revised in November 2003 and was later adopted by the Company in April 2004. The plan will expire on its tenth year anniversary. The purpose of the plan is to attract key employees to the Group and encourage them to make the Group's business more successful. Under the plan, the compensation committee which is appointed by the board of directors, may grant ordinary shares of the Company and/or options to subscribe for ordinary shares of the Company to any eligible employees of the Company, including directors of the Company, consultants and advisers of the Company. An award agreement will be signed with each recipient. Options granted are exercisable within ten years from the date of grant or as other terms set forth in the award agreement. No consideration is payable on the grant of an option. The maximum number of shares in respect of which options may be granted under the plan may not exceed 20% of the enlarged share capital of the Company.

The financial impact of share options granted is not recorded in the Group's balance sheet until such time as the options are exercised, and no charge is recognised in the income statement in respect of the value of options granted in the year. Upon the exercise of the share options, the shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded in the share premium account. Options which lapse or are cancelled prior to their exercise date are deleted from the register of outstanding options. The financial impact of shares granted are recorded by the Company as additional share capital at their nominal value.

31. RETIREMENT BENEFITS SCHEME

The Group operates a Mandatory Provident Fund Scheme (the "Scheme") for all qualifying employees in Hong Kong. The assets of the Scheme are held separately from those of the Group in funds under the control of trustee. The Group contributes 5% of the relevant payroll costs to the Scheme, which contribution is matched by employees but subject to maximum contribution of HK\$1,000 per month per employee.

The employees employed in the subsidiaries in PRC are members of the state-managed retirement benefits scheme operated by the PRC government. The PRC subsidiaries are required to contribute a certain percentage of their payroll to the retirement benefits scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits scheme is to make the required contributions under the scheme.

The Group has a defined-contribution retirement plan (the "Plan") covering the employees in the US subsidiaries who have completed at least three months of service. The first amendment to the Plan dated September 1, 2004 provides that the former employees of certain acquisitions would become immediately eligible to participate in the Plan and would receive prior service credit. Employees may make salary contributions up to 15% of their salary on a pre-tax basis, subject to a maximum contribution. The Group makes matching contributions and may make discretionary profit sharing contributions.
