AUDITORS' REPORT

To the Shareholders of Baja Mining Corp:

We have audited the consolidated balance sheet of Baja Mining Corp. (the "Company") as at December 31, 2004 and 2003 and the consolidated statements of loss and deficit and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2004 and 2003 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

Baja Mining Corp (Formerly First Goldwater Resources Inc.)

Notes to the Consolidated Financial Statements

December 31, 2004 and 2003 – Page 1

Stated in Canadian Dollars

Note 1 Nature and Continuance of Operations

Baja Mining Corp, formerly First Goldwater Resources Inc., was incorporated on July 15, 1985 under the Company Act of British Columbia. The Company is a reporting issuer in British Columbia and trades on the TSX Venture Exchange. Effective April 20, 2004, the Company completed a business combination with Mintec International Corporation through a reverse takeover.

The Company is in the process of exploring its resource properties in Mexico and is considered to be in the exploration stage.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern which assume that the Company will realize its assets and discharge its liabilities in the normal course of business. The Company's ability to meet its obligations and maintain its operations is contingent upon successful completion of additional financing arrangements and/or the ability to generate profitable operations in the future.

Note 2 Reverse Takeover of Mintec International Corporation

Effective April 20, 2004, pursuant to a share exchange agreement, the Company acquired all the issued and outstanding shares of Mintec International Corporation ("Mintec") by issuing 40,000,000 common shares of the Company. The transaction resulted in a change of control and therefore, the transaction is treated as a reverse takeover for accounting purposes whereby Mintec is identified as the acquirer. Accounting for the business combination as reverse takeover results in the following:

- (a) The consolidated financial statements of the combined entities are issued under the legal parent (Baja Mining Corp) but are considered a continuation of the financial statements of the legal subsidiary, Mintec International Corporation. As such, the comparative figures presented are those of Mintec International Corporation as at December 31, 2003 and for the year then ended.
- (b) Since Mintec is deemed to be the acquirer for accounting purposes, its assets and liabilities are included in the consolidated financial statements at their historical carrying values.
- (c) The fair value of net assets acquired were as follows:

Total assets	\$ 110,167
Total liabilities	<u>(63,796)</u>
	<u>\$ 46,371</u>

Note 3 Summary of Significant Accounting Policies

(a) Principles of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. The Company's significant subsidiary is Mintec International Corporation and its wholly owned subsidiary, Minera y Metalurgica Del Boleo, S.A de C.V. All significant inter-company transactions and balances have been eliminated.

(b) Resource Interests

The Company is in the process of developing its mineral properties and has capitalized the acquisition costs for its property rights and mining concessions. The Company has adopted the policy of expensing mineral exploration costs incurred prior to the completion of an economic feasibility study.

Capitalized costs for a producing prospect are amortized on a unit-of-production method based on the estimated life of ore reserves, while capitalized costs for prospects abandoned are written off.

Management periodically reviews the estimated future operating cash flows of its mining operations in determining if adjustments to the carrying values of its mining assets are required to record those assets at the net recoverable amount. The ultimate recoverability of the amounts capitalized for the mining assets is dependent upon the delineation of economically recoverable ore reserves, the Company's ability to obtain the necessary financing to complete their development and realize profitable production or proceeds from the disposition thereof. Management's estimates of recoverability of the Company's investment in the mining assets have been based on best estimates. However, it is reasonably possible that changes could occur in the year term, which could adversely affect management's estimates and may result in further write-downs of capitalized carrying values.

Note 3 Summary of Significant Accounting Policies – (cont'd)

(c) Property, Plant and Equipment and Amortization

Property, plant and equipment are recorded at cost. Amortization for assets held in Canada are calculated using the declining balance method at the following annual rates:

Computer equipment	30%
Office equipment and furniture	20%
Software	100%

Amortization for assets held in Mexico are calculated using the straight-line method at the following annual rates:

Computer equipment	30%
Machinery and equipment	25%
Mining equipment	50%
Office equipment and furniture	10%
Transportation equipment	25%
Warehouse	5%

One-half the normal rate is applied in the year of acquisition.

(d) Management Estimates

These consolidated financial statements have been prepared in accordance Canadian generally accepted accounting principles. These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reported periods. Actual results may differ from these estimates.

(e) Fair Market Value of Financial Instruments

The Company's financial instruments consist of cash, short-term deposits, accounts receivable and advances, accounts payable and amounts due to related parties. The fair value of these financial instruments approximates their carrying values, unless otherwise noted. The Company is not exposed to significant interest, currency or credit risks arising from these financial instruments, except for the currency risk (*Note 3(f)*).

Note 3 Summary of Significant Accounting Policies – (cont'd)

(f) Foreign Currency Translation and Currency Risk

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at rates of exchange in effect at the date of the balance sheet. Non-monetary assets, liabilities and other items are translated at historical rates. Revenue and expenses are translated at average rates of exchange prevailing during the year. Exchange gains or losses arising from these translations are included in income of the year.

The Company operates internationally, which gives rise to the risk that cash flows may be adversely impacted by exchange rate fluctuations. The Company has not entered into foreign currency contracts to hedge its risk against foreign currency fluctuations.

As at December 31, 2004, the Company has the following foreign denominated financial instruments:

	<u>Foreign Amount</u>	<u>Canadian Equivalent</u>
Cash in U.S. dollars	765,307	635,848
Cash in Mexican pesos	155,807	16,796
Value added taxes recoverable in Mexican pesos	363,129	39,145
Payroll taxes payable in Mexican pesos	82,511	8,895

(g) Basic and Diluted Loss per Share

Basic earnings per share are computed by dividing the loss for the year by the weighted average number of common shares outstanding during the year. Diluted earnings per share reflect the potential dilution that could occur if potentially dilutive securities were exercised or converted to common stock. The dilutive effect of options and warrants and their equivalent is computed by application of the treasury stock method and the effect of convertible securities by the "if converted" method. Fully diluted amounts are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

(h) Income Taxes

The Company follows the asset and liability method of accounting for income taxes. Under this method, current income taxes are recognized for the estimated income taxes payable for the current period. Future income tax assets and liabilities are recognized for temporary differences between the tax and accounting basis of assets and liabilities as well as for the benefit of losses available to be carried forward to future years for tax purposes only if it is more likely than not that they can be realized.

Note 3 Summary of Significant Accounting Policies – (cont'd)

(i) Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, term deposits and short term highly liquid investments with the original term to maturity of three months or less, which are readily convertible to known amounts of cash and which, in the opinion of management, are subject to an insignificant risk of changes in value.

(j) Stock-based Compensation

On January 1, 2004, the Company adopted the amended CICA Handbook Section 3870 "Stock-based Compensation and Other Stock-based Payments". Under this amended standard, all stock-based awards made to employees and non-employees are measured and recognized using a fair value based method. Compensation costs attributable to share options granted is measured at a fair value at the grant date and charged to operations over the vesting period. Consideration paid by the option holder, at the time options are exercised, is recorded as an increase to share capital.

(k) Property Option Agreements

From time to time, the Company may acquire or dispose of properties pursuant to the terms of option agreements. Due to the fact that options are exercisable entirely at the discretion of the optionee, amounts payable or receivable are not recorded. Option payments are recorded as resource property costs or recoveries when the payments are made or received.

(l) Asset Retirement Obligations

The recommendations of CICA Handbook Section 3110, Asset Retirement Obligations ("CICA 3110"), became effective on January 1, 2004. This section requires the recognition of a legal liability for obligations relating to the retirement of property, plant and equipment and obligations arising from the acquisition, construction, development, or normal operation of those assets. Such asset retirement costs must be recognized at fair value, when a reasonable estimate of fair value can be estimated, in the period in which the liability is incurred. A corresponding increase to the carrying amount of the related asset, where one is identifiable, is recorded and amortized over the life of the asset. Where a related asset is not easily identifiable with a liability, the change in fair value over the course of the year is expensed. The amount of the liability is subject to re-measurement at each reporting period. The estimates are based principally on legal and regulatory requirements. It is possible that the Company's estimates of its ultimate reclamation and closure liabilities could change as a result of changes in regulations, changes in the extent of environmental remediation required, changes in the means of reclamation or changes in cost estimates. Changes in estimates are accounted for prospectively commencing in the period the estimate is revised.

No liability accrual has been recorded as the Company is in the exploration stage on its properties and no reasonable estimate of the fair value of the liability can be estimated. There is no effect on prior years, as a result of adopting this new recommendation.

Note 4 Resource Property Costs

Boleo Project details are as follows:

	2004	2003
Property rights <i>(Note 4a)</i>	\$ 651,443	\$ 651,443
Mining concessions <i>(Note 4b)</i>	106,350	106,350
Total at cost	\$ 757,793	\$ 757,793

(a) Property rights:

The Company owns three properties containing approximately 6,692 hectares, located near Santa Rosalia, Baja California Sur, Mexico. The annual property tax on these properties is approximately \$6,200.

(b) Mining concessions:

The Company acquired certain concessions covered by 15 separate titles and covering approximately 10,081 hectares, located near Santa Rosalia, Baja California Sur, Mexico. The annual fees related to these concessions are approximately \$58,000.

(c) Details of cumulative expenditures on the Boleo Project are as follows:

	2004	2003
Camp and general and travel	\$ 569,885	\$ 339,355
Concession fees and other	1,618,916	1,455,435

	<u>\$ 33,517,766</u>	<u>\$ 29,692,068</u>

Note 4 Resource Property Costs – (cont'd)

(d) Pioneer Canal Property

As part of the reverse takeover transaction with Mintec, the Company acquired the Pioneer Canal oil and gas properties owned by the Company's 100% owned subsidiary, Goldwater Energy Inc. At the time of the acquisition the property was valued at \$27,000. Effective April 26, 2004, the Company disposed of the oil and gas property by transferring all of the issued and outstanding shares of the subsidiary to a company controlled by a former director of the Company. As consideration, the Company received consulting services valued at \$27,000, therefore there was no gain or loss on sale of this property. The purpose of this transaction was to enable the Company to focus on the Boleo Project in Mexico.

Note 5 Share Capital

(a) Authorized:

200,000,000 common shares without par value

(b) Details of transactions are as follows:

	<u>Shares</u>	<u>Amount</u>
Balance – December 31, 2002	1,016,149	\$ 31,577,900
Shares issued (i)	5,137,455	-

Shares issued on exercise of warrants	52,000	6,760
Balance – December 31, 2004	<u>60,236,306</u>	<u>\$ 40,582,163</u>

(i) In accordance with the principles of reverse takeover accounting, the authorized share capital and number of common shares issued are those of the legal parent (the Company). The amount of share capital proceeds, to the date of the reverse takeover, represents that share capital proceeds of Mintec and is not related to the issuance of the shares by First Goldwater Resources Inc. As a result, although First Goldwater Resources Inc. issued 5,137,455 shares in the year ended December 31, 2003 and 600,000 in the 2004 period prior to the reverse takeover, Mintec did not issue any shares and did not have any share capital proceeds. The proceeds raised by First Goldwater Resources Inc. are included in the net assets acquired by Mintec in the reverse takeover transaction.

Note 5 Share Capital - (cont'd)

(c) Share issued to acquire Mintec International Corporation:

Effective April 20, 2004, pursuant to a share purchase agreement, the Company acquired all the issued and outstanding shares of Mintec International Corporation in exchange for 40,000,000 shares. The share exchange resulted in a change of control, which is accounted for as a reverse takeover.

(d) Private Placements:

(i) Brokered Private Placements

In connection with the above-mentioned acquisition, the Company completed a brokered private placement of 10,666,666 units at \$0.75 per unit on April 20, 2004. Each unit consists of one common share and one half warrant. Each whole warrant is exercisable for a period of five years at \$1.15 per share. In connection with the private placement, the Company paid the agent a 6% cash commission, a \$48,000 corporate finance fee and granted the agent 533,333 non-transferable share purchase warrants, exercisable into 533,333 common shares at \$0.75 until October 19, 2005.

(ii) Short Form Offering

The Company also completed a public offering of 2,666,666 units at \$0.75 per unit. Each unit consists of one common share and one-half warrant. Each whole warrant is exercisable for a period of five years at \$1.15. In connection with the offering, the Company paid the agent a 6% commission of which \$84,473 was in cash and the agent elected to receive 47,370 units for the balance of the commission), a \$10,000 administration fee, issued the agent 30,000 units as a corporate finance fee and granted the agent 133,333 non-transferable share purchase warrants, exercisable into 133,333 common shares at \$0.75 until October 19, 2005.

(e) Warrants:

As at December 31, 2004 the following warrants are outstanding:

Number of Warrants	Exercise Price	Expiry Date
6,705,351	\$1.15	April 20, 2009
666,666	\$0.75	October 19, 2005
4,210,550	\$0.13	July 11, 2005 (i)
<u>11,582,567</u>		

(i) The warrants, expiring on July 11, 2005, originated in First Goldwater Resources Inc., prior to the reverse takeover.

Note 5 Share Capital - (cont'd)

(f) Stock Options:

As at December 31, 2004 the following stock options are outstanding:

Number	Exercise Price	Expiry Date
240,000	\$0.22	October 1, 2005
2,290,000	\$0.75	March 22, 2009
695,000	\$0.75	May 17, 2009
225,000	\$0.75	July 22, 2009
620,000	\$0.75	August 13, 2009
500,000	\$0.75	August 17, 2009
100,000	\$0.75	August 20, 2009
<u>4,670,000</u>		

The Company adopted a stock option plan ("the Plan"). Under the Plan the Company may grant stock options up to 10% of the number of issued shares of the Company at the time of the granting of options. As at December 31, 2004, the Company has reserved 6,023,630 common shares under the plan. The option plan has the following vesting requirement:

- (i) Options granted to employee and consultants conducting Investor Relations Activities will become vested with the right to exercise one-quarter of the option upon conclusion of every 3 months subsequent to the grant date.
- (ii) Options granted to other employees, consultants, directors and officers are vested immediately.

The fair value of the options granted during the period was estimated at the date of the grant using the Black-Scholes option-pricing model. During the current year the Company has recognized a stock-based compensation expenses in the amount of \$1,395,706 (2003 - \$Nil), which has been charged as \$578,382 to exploration expenses and \$817,324 to general and administrative expenses, with the offsetting amount recorded as a credit to contributed surplus (*Note 5g*).

The Black-Scholes option-pricing model has the following assumptions:

Risk free interest rate-average	3.61%
Dividend yield	0%
Expected volatility-average	80.52%
Weighted average expected stock option life	4.8 years

During 2004, on the exercise of 20,000 options, \$5,517 of contributed surplus has been transferred to share capital.

(h) Escrow Shares

On April 20, 2004, 40,000,000 shares issued on the acquisition of Mintec International Corporation were placed into escrow and will be released from escrow over a three-year period. The three-year release period includes 4,000,000 shares released upon exchange approval and 6,000,000 shares released every six months thereafter.

A pooling agreement also covers the escrow shares, whereby 50% of these shares will be released by April 20, 2005, a further 25% of these shares will be released by October 20, 2005, and the remaining shares will be released by April 20, 2006.

During the year, 10,000,000 shares were released from escrow. As at December 31, 2004, there were 30,000,000 shares remaining in escrow and the full 40,000,000 original escrow shares, remain subject to the pooling agreement.
