We audited the accounts of OJSC North-West Telecom for the period from January 1, 2004 till December 31, 2004 inclusive.

The accounts of OJSC North-West Telecom consist of a balance sheet, a profit and loss statement, a capital variation statement, a cash flow statement, an attachment to the balance sheet, and an explanatory note (Items 3, 5, 7-15). The management of OJSC North-West Telecom is responsible for preparation and presentation of the above accounts. Our duty is to express our opinion on the reliability of these accounts in all material aspects, and on the compliance of the bookkeeping procedures with the laws of the Russian Federation on the basis of the completed audit.

We carried out the audit in compliance with the Federal Law *On Auditing*, approved federal auditing rules (standards), and the Auditing Rules (Standards) approved by the Commission for Auditing under the President of the Russian Federation, and the International Auditing Standards as far as these do not contradict the above Rules.

Our audit was planned and carried out so as to ensure reasonable confidence that the accounts do not contain material distortions. The audit was made on a sample basis, and comprised test-based study of proofs supporting the values and exposure of information on the business activities in the above accounts, evaluation of the accounting principles and methods, the rules of preparation of the said accounts and the important assessed values obtained by the management of the audited party, and appraisal of overall presentation of the said accounts. We believe that the completed audit provides sufficient grounds for our opinion on the reliability, in all material aspects, of the above accounts, and on the compliance of the bookkeeping procedure with the laws of the Russian Federation.

In our opinion, the bookkeeping procedure related to preparing the accounts of OJSC North-West Telecom in 2004 complied with the requirements of Federal Law on Bookkeeping No. 129-FZ of November 21, 1996, and the above accounts prepared in compliance with the said Law reliably represent the financial standing of OJSC North-West Telecom as of December 31, 2004 and its business results in the period from January 1, 2004 till December 31, 2004 inclusive in all material aspects, complying with the requirements of the Russian Federation laws for accounting.

The appended financial statements are not intended to present the financial standing and business results in compliance with accounting principles or methods generally adopted in countries and other administrative/territorial entities other than Russia. Accordingly, the appended accounting statements are not intended for persons who are not acquainted with Russian accounting principles, procedures, and methods.

Information Message/Trade in the 3rd issue of the OJSC North-West Telecom bonds started at the Stock Exchange of the Moscow Interbank Currency Exchange

Trade in the 3rd issue of the OJSC North-West Telecom bonds started at the Stock Exchange of the Moscow Interbank Currency Exchange on 20th April. The relevant decision was made by the Exchange Board. At present, the 2nd issue of the NWT bonds as well as ordinary and preference shares in the company are traded at the Moscow Interbank Currency Exchange. Thus, all of the NWT securities are currently listed.

Bonds series 03 of OJSC NWT were placed at the Stock Exchange of the Moscow Interbank Currency Exchange on March 3, 2005. The issue with the nominal volume of RUR 2.5 billion was issued during the day with the demand of RUR 7.4 billion.

The 1st coupon rate is 9.25% per annum. For coupons 2 to 12, the rate is equal to the 1st coupon rate. On expiration of 3 years' period the issuer will decide on the coupon rates for the subsequent three years. The coupon income on bonds is paid on the quarterly basis. The maturity period of the OJSC NWT is 6 years with the right of early presentation of bonds for redemption in 3 years. The 3rd issue of bonds is to be redeemed in stages at the following dates: on the 1820th day from the placement commencement day, 30% of the nominal value, on the 2184th day, 40% of the nominal value of bonds.

The organizer of the issue is Web-Invest Bank, its co-organizer is joint-stock commercial bank Svyaz-Bank, the co-underwriters are Vneshtorgbank, Gazprombank, Promsvyazbank, SOYUZ Bank, Bank of Moscow, All-Russian Bank for the Development of Regions, Evrofinance-Mosnarbank, CentroCredit Bank, Raiffeisenbank Austria, International Moscow Bank, Russian International Bank, ING Bank (Eurasia), Industry and Construction Bank, NOMOS Bank, FK URALSIB, BK REGION.

On April 21, 2005 the Agreement for cooperation and development of information and telecommunications networks in the Pskov Region was signed at the meeting between JSC North-West Telecom Chief executive officer Vladimir Akulich and Pskov Region Governor Mikhail Kuznetsov. The Agreement will enhance the implementation of a uniform communications development policy in the Region. The document provides for developing concepts and implementing programs for the development of communications and information systems in the Pskov Region; coordinating works for the creation and development of telecommunications networks and formation of information resources; introducing new communications services based on new technologies in the construction of next generation networks; ensuring the social orientation of projects being implemented in the Pskov Region.

In the course of the meeting Vladimir Akulich assured that North-West Telecom would retain the high rates of investments in the communications sector of the Pskov Region and in 2005 would allocate RUR 197.7 million for 49 investment projects in the Pskov Region. The network modernization and installation of digital telephone exchanges will be carried out in rural communities during the year, including the expansion of the line and station capacity in Pskov, Velikiye Luki, Gdov, Nevel, OPOCHKA etc.

The Agreement with the Pskov Region Administration was the final document signed by OJSC North-West Telecom as part of the program of meetings between the NWT management with the heads of administrations in the area of the Company's activity. The agreements provide for the coordination of the parties' efforts in developing the telecommunications infrastructure of the North-West Federal District and facilitate the inclusion of remotest areas in the unified information and communications space of Russia.

PRESS-RELEASE/On the 9th of May North-West Telecom will Provide Discounts for Communication Services

In honor of celebrating the 60th anniversary of the Victory in the Great Patriotic War, on the 9th of May North-West Telecom will provide for disabled veterans and ex-servicemen of the Great Patriotic War and for categories of citizens with the equal status free telephone calls from telephone sets in their flats to places in Russia, the CIS and Baltic countries. (Bills for the services will state the complete price of the services . To have the sums re-calculated, one will have to apply to his/her respective subscriber's office, producing the received bill and the respective documents before 29.06.05.).

Besides, it will be possible to give a traditional phone call from trunk-call offices, producing the respective ID and passport. This year the duration of free long-distance phone calls has been increased to 15 minutes.

On the 8th and 9th of May, a 20% discount for sending telegrams from post-offices and trunk-call offices will be provided to disabled veterans and ex-servicemen of the Great Patriotic War and to categories of citizens with the equal status upon presentation of respective documents.

Taking into account the significance of the jubilee, North-West Telecom sets the rates equal to 80% of the holiday and day-off rates for long-distance communication services provided via the automatic and order system for all its subscribers on the day of celebration of the 9th of May.

The collective body of North-West Telecom JSC sincerely congratulates veterans of the Great Patriotic War on the Victory Day! Thank you for the peace that you have defended! We wish you a sound health, good spirits and many years of life. And let the front-line pals' friendship be strong on this holiday!

PRESS-RELEASE/North-West Telecom operating performance for the first quarter of 2005

North-West Telecom JSC presented its results for the first quarter of 2005 according to the Russian Accounting Standard. The sales proceeds amounted RUR 4,906,839 thousands, including 3,344,974 for the provision of communication services. In comparison to the same period last year the sale proceeds increased by 46.7%, including 47% for the provision of communications services.

A considerable increase in proceeds results from the affiliated with "Lensvyaz" JSC and "Svyaz" of the Republic of Komi JSC by North-West Telecom which came into effect on 1 October 2004 and thus in the first quarter of 2004 their results were not included into the accounting reports of the North-West Telecom JSC.

The comparable data (including the financial indices of the affiliated companies for the first quarter of 2004) shows that the growth rate of North West Telecom JSC for the first quarter 2005 in comparison to the same period of 2004 was 18.3%. The increase in profit mainly resulted from the rise of local rates and the increase in proceeding from Internet services and other new services. The proceedings from the unmanaged telecommunications services in the first quarter of 2005 increased by 36.4% in comparison to the same period last year.

The cost of the provided services was RUR 3,715,241 thousands, including 3,652,394 for the provision of communication services. EBITDA in the first quarter 2005 increased by 16.4% as compared to last year and was RUR 1,506,183 thousands.

The net profit of North-West Telecom JSC decreased by 6.3% as compared to the same period last year and was RUR 637,468 thousands. The decrease in net profit in the first quarter of 2005 in comparison to the same period last year is a result of a large one-off financial transaction in the first quarter of 2004.

The Balance Sheet and the Lost & profit report of North-West Telecom JSC in the first quarter 2005 can be found at the corporate web-site of the company under the section «Economics and Finances».

Information message/Audition financial statement for year 2004 by RAS

Dear guests,

The North-West Telecom audition financial statement for year 2004 according to RAS is placed in "Economic and finance" section.

PRESS-RELEASE/North-West Telecom has ceased to be entitled a shareholder of CJSC St. Petersburg Electric Communications Center

As part of the strategy of OJSC NWT withdrawal from secondary business in accordance with the decision of the Board of Directors (Meeting Minutes No. 07-05 of March 23, 2005), North-West Telecom sold a 59.38% stake in CJSC St. Petersburg Electric Communications Center. The ownership of the stake passed on May 20, 2005.

The shares were purchased by the Professor M.A. Bonch-Bruyevich St. Petersburg State University of Telecommunications.

The St. Petersburg Electric Communications Center was set up in 1995 as a regional industry training center. OJSC NWT was a promoter and shareholder of the Center by legal succession. The Center provided additional professional training in the field of telecommunications, computer technologies, management and marketing in the communications industry. From 2005, educational activity was fully conducted by the non-government educational institution "St. Petersburg Electric Communications Center" set up by the Center. In cooperation with the non-government educational institution the Center provides services in organizing corporate events (seminars, conferences etc.), classes as well as performs scientific and consultation work, workplace certification.

OJSC NWT uses the services of the Center for the additional training of specialists, but the development of contractual development was complicated by the fact that as the major shareholder OJSC NWT was interested in these deals. At the same time, OJSC NWT does not need to influence the management of CJSC St. Petersburg Electric Communications Center as all relations are based on market conditions. In this connection, the decision was made to sell the stake in the Center.

The Bonds floatation during the floatation period is effected by satisfying applications for purchase/sale of Bonds, submitted using the trading system of the Exchange in compliance with Rules of Trading and Clearing Rules (hereinafter referred to as Exchange Rules), effective as of the Bonds floatation date.

Starting from the first day of the Bonds' floatation, the Issuer offers the full amount of the Bond issue as specified in Clause 5 of the Securities Issue Decision, Clause 2.3 of the Securities Offering Circular.

The Bonds are floated through making transactions of sale and purchase at the face value of the Bonds (starting from the second day of the floatation of the Bonds of the issue, the buyer shall, in the course of the Bonds sale and purchase transaction, additionally pay the accrued coupon yield under the Bonds, to be determined according to the Decision on securities issue and Offering Circular).

The Bonds will be floated via the Issuer's securities floatation agent (hereinafter referred to as "the Underwriter") acting on its own behalf by assignment and at the expense of the Issuer. Web-Invest Bank Open Joint-Stock Company is the Underwriter.

Transactions related to Bonds floatation are made starting after the bidding results have been summed up (as regards the 1st coupon interest rate) (hereinafter referred to as Bidding), and end on the of the issue floatation deadline day.

The decision on approving a related-party transaction of sale and purchase of Bonds to be made during the Bonds floatation shall be taken before the transaction is made according to the procedure established by federal laws.

Any party intending to acquire Bonds in the course of their floatation, if transactions with such parties are related-party transactions for the Issuer, shall declare its intention on Bonds acquisition.

Prior to the floatation, the Issuer shall submit to the financial consultant on the security market who has signed the securities Offering Circular (hereinafter - "the Financial Consultant"), and to the Exchange the list of parties, any transactions with which during the Bonds' floatation may be found related-party transactions under the Federal law. The Issuer shall also name the parties out of the said list, the transactions with which have been approved by the Issuer in advance.

Where any related-party transactions have not been approved by the Issuer in advance of their execution, the relevant applications for purchase of securities on the basis of a written application by the Issuer to the Underwriter shall not be satisfied and are subject to denial by the Underwriter.

Any potential buyer of the Bonds being a Participant to the Exchange's bidding shall act independently.

Where a potential buyer of the Bonds is not a Participant to the Exchange's bidding, such buyer shall enter into an appropriate agreement with any broker that is a Participant to the Exchange's bidding, and issue an order to buy the Bonds to such broker.

The potential buyer of Bonds must open a respective custody account with NDC or with any other depository being a depositor of NDC. The procedure and timing of opening custody accounts are established by the bylaws of respective depositories.

On the starting day of the Bonds' floatation, an auction to determine the interest rate of the first coupon shall be held at the Exchange among the potential buyers of the Bonds. On the Auction day, the Exchange trading Participants (hereinafter - "the Trading Participants") shall file addressed applications for purchase of the Bonds, both at their own expense and by the order of their clients, under Accounting Code T0, using the Exchange's trade system, and in accordance with the Exchange Rules.

The time and procedure for submitting applications for the auction to determine the interest rate of the first coupon is established by the Exchange upon agreement with the Underwriter.

Applications for acquisition of Bonds are to be sent by Participants to the Underwriter.

Each application must contain the following significant conditions:

- 1) Purchase price: 100% of the face value;
 - 2) Number of Bonds, that the potential buyer would like to acquire, if the Issuer assigns the interest rate of the first coupon as greater or equal to the acceptable interest rate indicated in the application.
 - 3) Interest rate of the first coupon acceptable for the investor.
- The term "Acceptable interest rate" means the interest rate of the first coupon, which, if announced by the Issuer, would make the potential investor ready to buy the number of Bonds indicated in the application at the price of 100% of the face value. The acceptable interest rate must be expressed in per cent per annum accurate to not more than a hundredth of per cent.
- 4) Other parameters in compliance with Exchange Rules.

By the beginning of the Auction, the Trading Participants shall have reserved on their trade accounts at the Non-bank credit organization Closed Joint-Stock Company Clearing Agency of the Moscow Interbank Currency Exchange (hereinafter referred to as Clearing Agency of MICEX), amounts of money sufficient for full payment for the Bonds specified in the purchase applications, all commission fees included.

Applications, which do not meet the above requirements are not permitted for participation in the auction.

Upon expiry of the period for collecting applications for the auction, the Trading Participants can not cancel the applications filed by them.

Upon expiry of the period for collecting applications for the auction, the Exchange makes up the summary register of entered applications filed to each of the Underwriter and not cancelled (according to the Exchange Rules) by the Trading Participants as of the date of the expiry of the period for collecting applications for the auction (hereinafter referred to as Summary Register (schedule of applications

received)) and hands it over to the Underwriter, which, in its turn, informs the Issuer on the submitted applications.

The Summary Register (schedule of applications received) contains all the significant conditions of each application viz. acquisition price, total number of securities, the date and time of application's receipt, the number of application, the value of Acceptable interest rate of the first coupon, the Taxpayer's Identification No. assigned to the Issuer company by tax authorities and the name of the Participant of the Exchange's Trading who presented the application. The Summary Register (schedule of applications received) shall be approved by the Financial Consultant and sent to the Underwriter to be handed over to the Exchange.

Proceeding from the total volume of the filed applications and the interest rates for the 1st coupon stated in those, the Issuer shall take a decision on the interest rate of the first coupon. The Issuer shall advise the Exchange in writing of the decision taken not later than 30 minutes prior to sending the information for publishing on the news tape. After the notice on the interest rate of the first coupon is published on the news tape the Issuer shall inform the Underwriter on the interest rate of the first coupon. The Underwriter shall notify the Participants of Trading on the interest rate of the first coupon established by the Issuer using the Exchange's trading system by sending electronic messages to all the Participants of Trading.

Information on the interest rate of the first coupon shall be disclosed according to the procedure and within the time provided for by Clause 11 on the Decision on securities issue.

When the interest rate of the first coupon is named, the Underwriter shall, by the Issuer's order, satisfy the applications received by setting out sale offers for the Bonds at their face value, specifying the number of the Bonds specified in the relevant purchase application.

The applications may only be satisfied upon approval of the Summary Register (schedule of applications received) by the Financial Consultant.

Applications of Trading Participants for purchase of the Bonds at their face value shall be satisfied by the Underwriter on the terms of priority of the coupon interest rate specified in such applications. Where several purchase applications have been registered at one first coupon interest rate, applications filed earlier shall be satisfied in the first place. Where the size of the last of the applications satisfied exceeds the number of the Bonds remaining in the Underwriter's offer, such purchase application shall be satisfied in the amount of the balance of the Bonds in the Underwriter's offer. In this case, the purchase application of the Trading Participant shall be satisfied provided that the coupon rate specified therein does not exceed the first coupon rate specified in the Underwriter's offer. Any Trading Participants' applications that are not satisfied shall be denied by the Underwriter.

The Issuer shall not enter into Bonds sale transactions not pre-approved as required by the law as related-party transactions, and transactions mentioned in clause 2.5.4 of the Standards for Securities Issue and Registration of Securities Offering Circulars approved by Resolution No. 03-30/ps of the RF Federal Commission for Securities Market dated June 18, 2003 (as amended 17.12.2003). In this case, the filed application for purchase of the Bonds shall be denied by the Underwriter on the basis of the Issuer's written application to the Underwriter.

When the interest rate of the first coupon has been named, and the applications submitted during the auction to determine the interest rate of the first coupon have been satisfied, should any Bonds remain unflouted, any Participants of Trading, acting on their behalf and at their own expense, or on their behalf but at the expense and by the order of their clients, may apply for purchase of the Bonds on any business day during the period of the Bonds' floatation.

The time for submitting applications is established by Exchange upon agreement with the Underwriter. The Underwriter shall publish information on the balance of unflouted securities on the trade account with the Exchange's trade system by setting out non-dedicated offers in the Exchange's trade system.

Upon completion of collecting applications, by the results of each bidding day during the floatation period, the Exchange shall execute a Final Schedule of bonds purchase applications. Applications for Bonds acquisition not flouted during the auction may only be satisfied upon approval of the schedule of bonds purchase applications received by the Financial Consultant.

The filed applications for the purchase of securities are to be fully satisfied by the Underwriters, unless the number of Bonds stated in the purchase application exceeds the number of the Bonds of the issue that have not been flouted. If the volume of a Bonds purchase application exceeds the number of the Bonds that have not been flouted, such a securities purchase application shall be satisfied in the amount of the

unfloated residue of the Bonds. Applications for the purchase of Bonds shall be satisfied by the Underwriters according to the sequence in which they have been filed. If all Bonds are floated, no further applications for the purchase of Bonds shall be accepted.

A mandatory condition of acquiring Bonds at the Exchange when they are floated is reservation of buyer's money on the account of the Participant of trading, on whose behalf the application is filed, at the Clearing Agency of MICE.

The money shall be reserved in the amount sufficient for full payment for the Bonds as stated in the applications for the purchase of Bonds, taking into account all required commission fees.

If the conditions of the applications meet the above requirements, they shall be registered at the Exchange and accepted at the Exchange by an Underwriter acting on its own behalf, by assignment and at the expense of the Issuer.

The sold Bonds shall be transferred to the custody accounts of the Bond buyers to the NDC or to the custody accounts of the Depositories – depositories of NDC, servicing the Bonds buyers, on the date of the sale and purchase operation.

Upon completion of the floatation of the Bonds, the Exchange shall execute a Final Schedule of bonds purchase applications received as per the requirements of Resolution 03-30/03 of the RF Federal Commission for Securities Market dated June 18, 2003. The Final Schedule of bonds purchase applications received shall be approved by the Financial Consultant.

Any agreement entered into during the floatation of the Bonds may be revised and/or terminated for reasons and in the procedure provided in Article 29 of the RF Civil Code.

No option of priority purchase of the securities to be floated has been provided for.

The procedure of entering a receipt record for the first buyer's custody account with the depository providing the required centralized care of the issue's securities is as follows:

The potential buyer of Bonds must open a respective custody account with NDC or with any other depository being a depository of NDC. The procedure and timing of opening custody accounts are established by the bylaws of respective depositories.

The receipt records for the first buyers' custody accounts shall be made by the results of the exchange transactions clearing, on the basis of orders and/or other documents of the clearing entity as per the requirements set for the conditions of clearing business pursued by such clearing entity, and for the conditions of depository business of the depository providing centralized care of the certificate, and other depositories having their custody accounts with the said depository for accounting of their clients' securities.

The rights to the securities that are kept, and (or) the rights to which are recorded at the depository shall be considered as transferred from the moment the depository makes the respective entry for the client's (depositor's) custody account.

The Issuer presumes to apply to the Stock Exchange for the admission of the floated Bonds to secondary circulation on the Stock Exchange.

The bonds are floated with the aid of a Financial Consultant for the securities market:

Net assets mean the value of all assets of the company after deduction of all liabilities from their total amount. The difference between the net assets and the authorized capital is the initial index of the stability of the enterprise's financial position.

The net assets considerably exceed the amount of the authorized capital for the 5 recent completed fiscal years, thus, as of 01.04.2005 the value of net assets was 13.5 times higher than the authorized capital. After the completion of the procedure of affiliation of telecommunication operators of the Northwestern Region with OJSC NWT at the end of 2002, the amount of net assets of the company increased by 174% as compared to the index as of the start of 2002. In the year 2003 the net asset growth was 4%. Starting from 1st October 2004, OJSC Lensvayaz and OJSC Syvaz of the Republic of Komi joined OJSC NWT, and, as a result, the total net assets increased by 129% as compared to the start of the year. In the 1st quarter of 2005 the growth as compared to the start of the year was 4%. The positive dynamics of this index shows the increase of the stability of the Company's financial position.

The attracted funds-to-capital and reserves ratio (leverage ratio) shows the borrowed funds amount per 1 rouble of the company's equity capital. The percentage of borrowed capital in the structure of Company's liabilities was constantly growing in 1999-2004. As of 01.01.2005, one rouble of own funds corresponded to 74 kopecks of borrowed funds, including 43 kopecks of short-term liabilities. A considerable growth of liabilities in 2003 was caused by the floatation of the 3 years period bonded loan worth of 1.5 billion roubles, which made it possible for the Company to restructure the accrued debt and to increase the volume of investment in the fixed capital. In the 1st quarter of 2005 the 3rd bonded loan with the total volume of 3.0 billion roubles was issued with the redemption period of 3 to 6 years, as a result of which the share of the borrowed capital in the structure of the Company's liabilities somewhat increased and amounted to 77% of own capital.

For the years 2002-2004 the bulk of the outstanding debt was the debt to Vnesheconombank, which acted as the leading agency of the RF Ministry of Finance, which provided long-term funding to the Company in 1995-96 for the purpose of buying telecommunication equipment from foreign suppliers. By the end of 2004 the said debt was completely repaid, and as of 1.04.2005 there was no outstanding debt.

The efficiency of the Company asset management is constantly growing, which can be seen from the positive trend of the net asset turnover index: thus, 1 rouble of net assets gained 1.1 roubles of earnings in the year 2003, and 1.5 roubles in the first quarter of 2005.

The accounts payable turnover rate lied in the interval between 3.3 and 3.8 times a year for the years 2000-2004 (except for the year 2000). In the 1st quarter of the year 2005 the account payable turnover rate increased as compared to the year 2004, and the average accounts payable repayment time was 64 days.

27

Starting from 2000, there has been a stable trend of the growth of the accounts receivable turnover rate (with a certain slow-down in 2004), i.e. a reduction of the average period of accounts receivable repayment is observed (35 days in 2004). Such dynamics show the efficiency of the Company's work with debtors. Besides, the reduction of the accounts receivable repayment time reduces the own circulating capital requirement. In the 1st quarter of 2005 the trend of the growth of the accounts receivable turnover rate continued and amounted to 12.9 times (28 days).

An analysis of the behavior of the above indicators confirms the stability of the Company's sufficient financial standing, its solvency, and low credit risk.

2.3.4. Other Liabilities of the Issuer

As of the report date, the Company has no agreements, including futures contracts not recorded in its balance sheet, that may affect its financial standing, liquidity, funding sources and terms of their use, business results, and expenses, and had no such agreements earlier.

2.4. Goals of the Issue and Areas of Using the Funds Received as a Result of Floating the Issued Securities

Indicate the goals of the issue and areas of using the funds received as a result of floating the issued securities:

1. Series 01, 02 and 03 bonds issue. The funds obtained from floating the series 01, 02 and 03 bonds are used for development of OJSC North-West Telecoms investment programmes, as well as for restructuring the rouble and currency debt of the Company in order to reduce its service costs.

2.5. Risks Related to Acquisition of Floated Issued Securities (to be Floated)

2.5.1. Industry Risks:

The competition level is rapidly growing on the Russian telecommunication services market. The market positions of fixed telephone communication services are seen to be weakening in favor of the growing mobile communication services market. One of the main uncertainty factors on the telecommunication services market is the tariff reform, the nature and dates of which remain unclear.

On July 7, 2003, the Federal Law on Communication was passed. The law creates prerequisites for development of a competitive market in the industry, and greater transparency in the communication operators' business. At the same time, there is uncertainty as to the impacts of the new law on the Issuer's business.

State regulation of the telecommunication industry brings risks and uncertainty common for all interregional companies into the Issuer's business. They are related to tariff revision and restricted cross-subsidizing.

The Issuer's market standing may be aggravated by the following economic factors:

- the rouble devaluation rate exceeding the tariff growth rate, which would result in a significant increase of negative exchange rate margins and more expensive currency debt service;
- higher competition in the mobile communication sector by Russian and foreign communication operators, and expansion of competing formats operators to the mobile communication market;
- higher charge rates of OJSC Rostelecom as the major long-distance and international communication operator providing the Issuer's access to the national network and international communication channels;

- economic risks typical for the Russian Federation in general, including the level of macroeconomic instability in the country, predictable revisions of legislation resulting in lower earnings of the Issuer or in a stricter taxation procedure for income on securities.
- In case of unfavourable development of the situation in the region, the Issuer plans to:
- optimize the structure of production expenses;
 - reduce enterprise's expenses, including reduction and revision of Issuer's investment programme;
 - change the structure of provided services for the purpose of maximizing the income of the enterprise.

Risks related to possible variation of prices for raw materials and services used by the Issuer in its business (separately for the domestic and international market):

OJSC NMT's principal activity is that of communication operator, and as such, the Issuer does not export goods, work, or services. The portion of imported equipment is insignificant and does not affect the Issuer's business. Therefore, the risks related to possible variation of prices for raw materials and services used by the Issuer in its business are described for the home market only.

One of the possible risks are higher charge rates of OJSC Rostelecom as the major long-distance and international communication operator providing the Issuer's access to the national network and international communication channels.

Impact of the above risks on the Issuer's business and fulfillment of its securities-related obligations:

Higher charge rates of OJSC Rostelecom would result in higher costs, and accordingly lower earnings of the Issuer, which may adversely affect the Issuer's fulfillment of its obligations in respect of securities.

Risks related to possible variation of prices for the Issuer's products and/or services (separately for the domestic and international market):

One of the main uncertainty factors is also the tariff reform, the nature and dates of which remain unclear.

State regulation of the telecommunication industry brings risks and uncertainty common for all interregional companies into the Issuer's business. They are related to tariff revision and restricted cross-subsidizing. There is a certain risk of slower local communication tariff growth in 2005.

According to the active laws, the rates for services of operators recognized as natural monopolists are subject to regulation by the RF antitrust authorities. According to the law, interregional communication operators are natural monopolists, and their business is subject to regulation by antitrust authorities.

Any change in the rates charged by natural monopolist operators requires approval by the RF antitrust authorities, and may therefore lag behind the variations of the actual economic situation and of the operator's costs. Therefore, the natural monopolists see the risk of delayed tariff updating, which impairs their competitiveness and may adversely affect their business profitability.

According to the new law "On communication", universal communication services are guaranteed in the RF. A universal communication service shall be provided by a universal service operator to be named in a bidding. Where no applicants are available, an operator having a material standing in the territory may be appointed as such operator. Currently, an interregional company is the only communication operator of such level over most of the RF. Therefore, it will be assigned the "universal service operator" junction. In this case, the operator may not deny the duties assigned thereto. The "universal service" mechanism is intended to be introduced in the RF in 2005.

Provision of a universal service implies provision of a minimum scope of telecommunication services in all communities, and will require sizeable investments from the operator. The law "On communication" defines the mechanism ensuring recovery of losses to a universal service operator. However, such a mechanism has not been developed so far. There is a risk for future universal service operators of delayed and incomplete refunding of their losses, which would entail growing accounts receivable and lower profitability of the operator's business. When the universal communication service is introduced, all active communication operators in the RF will have to make regular deductions to the universal service reserve. However, the industrial regulatory documents do not describe the mechanism of calculation or revision of the size of such deductions, which means a risk for communication operators. The deductions to the reserve will entail a risk of lower profitability of the operator's business.

Impact of the above risks on the Issuer's business and fulfillment of its securities-related obligations:

The above risks may result in deficient earnings by the Issuer, which will adversely affect its paying capacity.

An important line of the industry's development in the years to come is radical improvement of the tariff policies of telecommunication companies by bringing the communication service charge rates to the level of economically feasible costs, and by minimizing the limits of communication services cross-subsidizing.

Among other things, the communication services pricing reform implies higher rates for local telephone communication and avoidance of local communication service subsidizing at the expense of long-distance communication services.

2.5.2. Country Risks and Regional Risks

The Russian market of telecommunication services is becoming very competitive. Although the traditional wire service market is generally divided between the regional operators, each being the absolute monopolist in provision of such services in its region, competition is getting stronger due to a larger proportion of new communication services, and aggressive activity of their providers.

As to the main factors of political risk emergence, the following risks may be emphasized:

- imperfect legislative base to regulate economic relations;
 - poor efficiency of the judicial system;
 - unstable power in the Russian Federation's subject territories.
- A deterioration of the economic situation in the North-Western region may take place in case of material changes in the economic situation in Russia, including drastic changes in the exchange rate of the national currency, which may entail a reduction of the number of industrial enterprises operating in the region, a growth of unemployment and a slowdown of the population's solvent demand. Such developments would result in a reduction of the volume growth of communication services provided by the Issuer in the territory of the region and a growth impairment of the income base.

Among other risk factors that may affect the Issuer's business are:

- a not too long, by this day, period of existence of the united company, which means that the Issuer may face risks and problems not evident as of this writing;
 - uncertainty in setting the charge rates by MAP and their effect on the Company's business.
- There are no risks related to any geographic features of the region, such as higher danger of natural disaster, or possible break of transport communication due to remoteness or poor accessibility. There are no risks related to possible hostilities, declaration of a state of emergency, or strikes, as the Issuer pursues its business in a region that is stable economically and socially, and is far from places of predictable hostilities or confrontations.

2.5.3. Financial Risks

The Issuer, like any other entity, is subject to influence of the following financial risks:

- currency risks;
- market risks;
- liquidity risks.

Currency risks:

In the recent years, gradual decrease of the rouble-to-euro exchange rate and the increase of the rouble-to-dollar exchange rate have been noticed in Russia. The capability of the Government and of the Central Bank of Russia to support a stable rouble exchange rate will depend on many political and economic factors. These factors include the capability of funding the budget deficit without resorting to issuing banknotes, control of the inflation level and maintaining sufficient foreign currency reserves to support the rouble exchange rate.

A part of contracts with suppliers, credits and loans of the Company are nominated in US dollars and Euros. As a result of the reduction of the rouble/Euro exchange rate, the Company may increase expenses for debt service and for pays under contracts and agreements. It should be noted that the different directions of Euro and US dollar exchange rate changes observed during the past several years show the balanced status of the foreign currency portfolio.

Starting from the year 2003, the Company maintains a steady policy of reduction of the currency segment in the total liabilities amount. For instance, the foreign currency segment in the total liabilities amount reduced over the year 2003 from 40.1% as of the beginning of the year to 23.9% as of the end of the year. In 2004 and in the 1st quarter of 2005 the share of the foreign currency constituent in the total amount of liabilities continued to decrease and, as of 31.03.05, it amounted to 9.3% in the total amount of liabilities. In case of a serious rouble devaluation and occurrence of inflation risks, the Company may take the following measures to reduce them:

- optimize (reduce) costs;
- revise the investment programme;
- take measures to increase the turnover of the accounts receivable.

Changes in interest rates:

Changes in the monetary and credit policy in the country may result in aggravated inflation, increase interest rates for attracted credits used by the Issuer and, respectively, increased expenses of the Issuer.

Presumable actions of the Issuer in case of an adverse effect of a change in the exchange rate and interest rates on the Issuer's business:

In case of an adverse effect of a change in the exchange rate and in interest rates on the Issuer's business, the Issuer presumes to take the following actions:

- optimize costs;
- revise the investment programme;
- take measures to increase the turnover of the accounts receivable.

Inflation:

According to the RF Government official forecast for Russia's social and economic development the inflation rate will be:

- in 2005 - 8%
- in 2006 - 6%

From the point of view of the Issuer's financial results, the effect of the inflation factor is polyvalent. Lower inflation rates given a continuing economic growth will promote further growth of real earnings of the population and the corporate sector, thus increasing consumption of communication services. On the contrary, higher price rise rates may result both in lower consumption of communication services and in the Issuer's higher costs (for example, due to a fuel price rise) and higher borrowed funds cost, causing decrease in profitability indices. Therefore, in case of the inflation rates materially exceeding the RF Government forecasts, i.e. for inflation rates increasing to 25-30% a year, the Issuer intends to take actions to restrict the cost increase, to cut down the accounts receivable, and to reduce their average periods.

The Issuer believes that the critical inflation rate is within 30% to 40% a year.

Presumable actions of the Issuer to reduce the inflation-caused risk:

If inflation is rapidly growing, the Issuer intends to give special attention to higher turnover rates of current assets, primarily by cutting down the inventory in stock, and to modify the existing contractual relations with the users to reduce the buyers' accounts receivable.

The main inflation-related risk of the Issuer is an increase in the prime cost in respect of material or fuel resources, which is far ahead of the change in the rates for communication services.

In case of inflation growth, the issuer is planning to take measures to limit the growth of expenses and to pay special attention to increasing the turnover of circulating assets, including a change in the existing contractual relations with the consumers for the purpose of reducing the accounts receivable of buyers.

Liquidity risks:

The above risks generate a liquidity risk. The Issuer's inability to timely meet its liabilities due to lack of cash increases the probability of a loss. A consequence of such risk event may be penalties, fines, damages to the Issuer's business reputation etc.

In the Issuer's opinion, the key financial indicators of the Issuer, i.e. profit and service prime cost, are the most affected by the financial risks as listed above. The financial risks' effect on the proceeds level is minimum. The Issuer estimates the probability of occurrence of the above-described financial risks (sudden change of exchange rates, inflation, or interest rate growth) as low for the next few years.

2.5.4. Legal Risks

Risks related to changes in currency regulation:

The Issuer estimates the risks related to changes in currency regulation as minimum. Due to the ongoing currency regulation liberalization policy, the risks related to changes in the currency laws are decreasing.

Risks related to changes in the tax regulation:

OJSC North-West Telecom considers as one of the risks related to the change in the active law the fact that starting from 1st January 2004, Chapter 30 "Tax on Property of Organizations" of the Tax Code of the Russian Federation took effect, canceling the property tax privilege that was earlier applied by the Issuer – exemption from paying the property tax on the balance value of communication lines.

According to Ruling No. 169-O of the Russian Federation Constitution Court dated April 8, 2004 and published in 2004, the Issuer shall bear the risks of this Ruling entailing re-scheduling of the income VAT set-off as applied to transactions funded with borrowed funds. Practical implementation of this Ruling

by tax authorities may adversely and materially affect the Company's financial standing, and lead to re-classification of incoming VAT amounts currently recorded as current assets. As of the date of this reporting, the Company management cannot predict the effect of this event on the Company's business.

Risks related to changes in the customs inspection rules and customs duties:

The new Customs Code of the Russian Federation adopted by Federal Law No. 61-FZ of 28.05.2003 became effective on January 1, 2004.

The Customs Code of the Russian Federation approved by the RF Supreme Soviet under No. 5221-1 of 18.06.1993 remains valid as applied to Article 110 (clauses 6 and 8), and Articles 114 and 116, as well as Article 119 (as regards customs duties), which will remain valid until December 31, 2004.

Letter No. 14-10/7236 of the Russian Federation State Customs Committee "On the Coming into Effect of Regulatory Acts of the RF SCC Issued to Implement the Customs Code of the Russian Federation" dated 27.02.2004 lists the RF SCC regulatory acts becoming effective in particular in the 1st quarter of the year 2004 to implement the new Customs Code of the Russian Federation. The Letter also notes that until the effective date of these RF SCC regulatory acts issued to implement the new version of the Customs Code of the Russian Federation, regulatory and other documents of the RF SCC issued before 31.12.2003 will be still applicable where they do not contradict the new version of the Customs Code of the Russian Federation.

Among the regulatory acts that have become effective, the Letter mentions the joint RF SCC and RF Central Bank Regulation No. 01-100/1243-P of 22.12.2003 titled "On Application of the Bank of Russia and RF SCC Instruction No. 86-1 and No. 01-23/26541 "On Currency Inspection Procedure for Receipts from Commodity Export Received in the Russian Federation" dated 13.10.1999, and of the Bank of Russia and RF SCC Instruction No. 91-1 and No. 01-11/28644 "On Currency Inspection Procedure Related to Justification of Payments for Imported Commodities by Residents" dated 04.10.2000" (the Regulation became effective on 15.02.2004).

As a large part of the equipment purchased by the Issuer to provide communication services is made of components manufactured outside Russia, the change of the customs inspection rules and customs duties may imply certain risks for the Issuer related to higher costs of purchased fixed assets.

Effect of changed requirements for licensing of the Issuer's core business or for licensing of the rights to use facilities of restricted circulation (natural resources included): The new Federal Law "On communication" became effective on January 1, 2004. In compliance with this Law, the list of names of communication services to be entered in licenses, and the appropriate lists of licensing terms shall be set by the RF Government to be annually updated. This law extends the list of information to be submitted to the licensing authorities for obtaining a license.

To extend the term of validity of a license, the documents shall be submitted in the same scope as for the initial license.

In compliance with Decree No. 314 of the President of the RF dated March 9, 2004 and with the RF Government Resolution No. 163 of 06.04.2004, communication business will be licensed by the Federal Communication Supervision Service.

These changes may cause additional costs of the licensee in pursuing communication business.

Judicial practice in matters related to the Issuer's activity (licensing matters included) that may adversely affect its business results and the results of ongoing lawsuits involving the Issuer:

The Issuer is not involved in lawsuits that might adversely affect its business, therefore changes of judicial practice in matters related to the Issuer's activity (licensing matters included) will not have an adverse effect on its business results.

2.5.5. Risks Related to Operation of the Issuer

Risks related to inability to extend the validity of the Issuer's license for a certain activity or for the use of facilities of restricted circulation (natural resources included):

The terms of issue of new licenses to communication operators, and of extension of existing licenses are determined by a federal executive authority, whose functions are currently performed by the RF Ministry of Information Technologies and Communication. The RF Ministry of Information Technologies and Communication is authorized to determine the method of licensing of individual kinds of services and for individual RF territories, either in a bidding or by the results of review of the communication operator's application. In compliance with Decree No. 314 of the President of the RF dated March 9, 2004 and with the RF Government Resolution No. 163 of 06.04.2004, communication business will be licensed by the Federal Communication Supervision Service. The period of

OJSC NWT's licenses expires at different times in the range of the years 2004 - 2012 and can be prolonged after submitting an application to the Federal Communication Supervision Service. OJSC NWT has no guarantees that the licenses will be extended upon expiry of their term of validity, and that the liabilities will not be increased and/or that the rights will not be reduced under extended licenses, which would involve higher costs, and possibly a restriction of the communication service zone. If the Issuer is unable to extend the existing licenses or to obtain updated licenses on conditions comparable to the current ones, it will have to reduce the scope of services provided, which will entail a decrease of the number of subscribers. On the other hand, the term of validity of the licenses for provision of communication services making the largest segment in the Company's earnings is four to nine years, which materially reduces the mid-term risk of uncertainty in license prolongation.

Risks related to possible liabilities of the Issuer for third parties' debts, including the Issuer's subsidiaries:

The Issuer will face a risk related to liabilities for third parties' debts in the following cases:
Non-fulfillment by OJSC RTK-Leasing of its obligations under credit agreements where the Issuer is the warrantor to the Savings Bank of Russia (OJSC). The sum of liabilities under the guarantee agreements is 817.5 million roubles.

The Issuer estimates this risk to be minimum, considering that all the equipment purchased by OJSC RTK-Leasing with funds borrowed from the Savings Bank of Russia (OJSC) under credit agreements where the Issuer acts as the warrantor has been transferred to the Issuer under leasing contracts. The source of repayment of the credits from the RF Savings Bank for OJSC RTK-Leasing is the moneys received by OJSC RTK-Leasing from the Issuer as payments under the leasing contracts.

Risks related to ongoing lawsuits where the Issuer is a party:

The Issuer is not involved in any court proceedings that might adversely affect its business results.

Other risks related to possible liabilities of the Issuer for third parties' debts, including the Issuer's subsidiaries: none

HISTORY OF ISSUER'S FOUNDATION AND BUSINESS

Brief Description of the History of Issuer's Foundation and Business

The enterprise providing telephone communication for St. Petersburg – Petrograd – Leningrad – St. Petersburg was established in 1882 when the rights of arranging and operating telephone communications in St. Petersburg were granted to the international company Bell's Telephones.

In compliance with the Decree of the RF President No. 721 of July 1, 1992 On Organizational Measures for Transformation of State-Run Enterprises into Joint-Stock Companies, privatization of the State-Run Leningrad City Telephone Network (LGTS) started.

On July 14, 1992, on the basis of the Order for the Leningrad City Telephone Network (LGTS), a privatization commission was formed. From July to September 1992 the foundation documents of the Company were prepared (Articles of Association, Privatization Plan, Property Evaluation Statement, etc.).

On April 8, 1993, Resolution No. 613-r of GKI (State Committee for Property) of RF On Privatization of LGTS was signed.

On May 6, 1993, the Registration Chamber of the St. Petersburg Mayor's Office issued the Certificate of Registration of the Open Type Joint-Stock Company Petersburg Telephone Network (OTJSC PTN), and on May 31, 1993, the Financial Board of the St. Petersburg Mayor's Office registered the issue of OTJSC PTN's stock.

In 1996 OTJSC PTN was transformed into OJSC PTN, and respective amendments were introduced to the Articles of Association.

On November 28, 2001, on the basis of a decision of an extraordinary General Meeting of the Shareholders, in the framework of re-organization in the form of affiliation of 8 telecommunication operators of the North-Western region with OJSC PTN, the latter was transformed into OJSC North-West Telecom, and then the respective amendments were introduced to the Articles of Association.

On 17th July 2002 OJSC North-West Telecom was re-registered by the Inspectorate of the Ministry of Taxes and Fees of the Russian Federation for Tsentralny District of St. Petersburg and received its basic registration No.: 1027809169849.

On 31st October 2002 the following companies providing telecommunication services in the territory of the North-Western Federal District were affiliated with OJSC North-West Telecom:

- *Artelecom of Arkhangelsk Oblast Open Joint-Stock Company*
- *Murmanelectrosvyaz Open Joint-Stock Company*
- *Novgorodtelecom Open Joint-Stock Company*
- *Open Joint-Stock Company Electrosvyaz of Pskov Oblast*
- *Cherepovtselektrosvyaz Open Joint-Stock Company*
- *Electrosvyaz of Volodga Oblast Open Joint-Stock Company*
- *Electrosvyaz of Kaliningrad Oblast Open Joint-Stock Company*
- *Electrosvyaz of the Republic of Karelia Open Joint-Stock Company.*

*At the end of 2003 – beginning of 2004 the Cherepovtselektrosvyaz Branch of the Open Joint-Stock Company "North-West Telecom" was liquidated through affiliation with the Electrosvyaz of Volodga Oblast Branch.
On 1 October 2004 the affiliation of OJSC Svyaz of the Komi Republic and OJSC Lenskiyaz was implemented.*

GOALS OF ESTABLISHING THE ISSUER

The main goal of incorporation of the Company is gaining profit.

Basic areas of business (as per clause 4.2 of the Issuer's Articles of Association):

- *provision of local and intrazone telephone communication services;*
- *provision of long-distance and international telephone communication services via payphones and call offices;*

3.2. Basic Business Activities of the Issuer

3.2.1. Branch to which the Issuer belongs

Codes of basic branch areas of the issuer's activities according to the OKVED classifier:

Basic code: 64.20.11

Other codes: 64.20.3; 64.20.22; 64.20.21; 64.20.12

3.2.2. Basic Business Activities of the Issuer

The key predominating and priority business of the company in the quarter under report is: provision of telecommunication services.

Services providing over 10% of the OJSC NWT income are:

- local telephone connection services (city and rural telephone exchanges);
- national and international connection services.

long-distance and international telephone connections, thousand min.,

In compliance with the resolution of the Government of RF dated 26.09.97 No. 1235 (version of 14.01.02)

"On Approval of the Rules for Provision of Telephone Communication Services":

Long-distance telephone communication is a telephone connection between users situated in the territory of different entities of the Russian Federation or different administrative districts of one entity of the Russian Federation (except for districts within a city);

International telephone communication is a telephone connection between a user situated in the territory of the Russian Federation and a user situated in the territory of another state.

Volumes of provided long-distance and international communication services are measured in thousands of minutes of calls. The price of the service is determined in roubles and kopecks per minute of a call (depending on the distance between the issuer's subscriber and the user with whom the telephone connection is provided, the type of subscriber and the discounts applied).

Local telephone communication services (city telephone communication, rural telephone communication), subscriber fee system.

In compliance with the Resolution of the Government of RF dated 26.09.97 No. 1235 (version of 14.01.02)

"On Approval of the Rules for Provision of Telephone Communication Services", local telephone communication is a telephone connection between users situated within one inhabited locality or administrative district.

Volumes of provided local telephone communication services are measured by the number of serviced subscribers (telephone lines) of all types (population, budgetary organizations, commercial organizations). The price of the service is determined as the monthly subscriber fee for servicing and is established by the issuer upon agreement with the regulating state authority for each type of subscriber.

As of 31/03/2005, income from local connection makes the largest segment (39%) in the OJSC NWT income structure, income from long-distance and international connection being 30 %.

The Issuer pursues its basic business activities in the territory of Russia.

Seasonal nature of business.

The kinds of business pursued by OJSC NWT are not of a seasonal nature.

3.2.4. Names of the issuer's suppliers, on which 10% and more of all inventory holdings supplies fall, with the indication of their shares in the total volume of supplies

The Issuer does not have any suppliers, on whom at least 10% of all inventory holdings supplies fall.

Forecasts of the accessibility of material holdings and fixed assets sources are estimated as favourable. The key sources of material holdings and fixed assets are reliable and long-term partners of the Issuer, whose production activities are aimed at telecommunication companies who are the main consumers. No changes in the structure of material assets suppliers are planned. The offer of produced and sold of imported products used in the Issuer's production activities considerably exceed the Issuer demand for them. Thus, no difficulties in accessibility of material assets and fixed assets sources are expected.

3.2.5. Issuer's products (jobs, services) sales market

The key buyers of the Issuer's products are enterprises of all forms of ownership, and individuals of the North-Western region of the Russian Federation.

There are no consumers of Issuer's products, on whom at least 10% of the total receipts from Issuer's sales fall.

Possible adverse factors that may affect the sales of the Issuer's products are:

- Deterioration of the legal, political and economic situation in the country and in the Issuer's business region;
 - Intensification of investment in alternative telecommunication enterprises of the Issuer's business region;
 - State regulation of the company's commercial activities
- The factors reducing such influence are:
- availability of own network resources as a basis for provision of all kinds of services;
 - feasibility of fast deployment of a large number of new services on the basis of the existing network infrastructure;
 - common marketing policy within the region;
 - re-distributable financial resources;
 - human resource potential.

The Company's management provides regular monitoring of variations of the group of the most important indicators describing the Company's efficiency in terms of the economic, financial, engineering, and marketing to enable prediction of, and fast response to occurrence and/or enhancement of influence of various adverse factors. The Company's strategic and mid-term development plans are developed on the assumption of a pessimistic scenario, which provides an additional safety margin for the Company's business in case of a crisis situation. The economic development forecasts and marketing strategy are annually updated by the performances of the previous period and analysis of the Company's business environment variation.

3.2.6. Practice of Activities in Respect of Circulating Capital and Inventories

The procedure for the accounting of inventories by the Company is set forth in the Provisions on Accounting Policy of OJSC North-West Telecom.

Accounting of inventories shall be based on Accounting Prices. Accounting of transportation and procurement expenses shall be recorded on account 16 "Deviation in the Value of Materials". Withdrawn inventories (except for precious metals) are evaluated at the average prime cost.

The inventories use rate is characterized by the turnover ratio (in times or days):

$$ITR \text{ (times)} = \text{Prime cost of sold products (line 020 of form 2)} / ((Ib + Ie)/2)$$

$$ITR \text{ (days)} = 365 * ((Ib + Ie)/2) / \text{Prime cost of sold products}$$

where *Ib*, *Ie* is the value of inventories as of the beginning (of the end) of the period (line 210 of the Balance sheet).

| Index | 2000 | 2001 | 2002 | 2003 | 2004 | 1 st quarter of the year 2005 |
|--|------|------|------|------|------|--|
| The inventories turnover ratio, times | 17 | 27 | 23 | 24 | 29 | 36 |
| Duration of the inventories turnover, days | 21 | 13 | 16 | 15 | 12 | 10 |

The high turnover rate of inventories is attributable to their minor share in the Company's circulating and overall assets, as supplies have an auxiliary role in the communication service production. For the 1st quarter of 2005 the portion of stocks in the current assets decreased by 4.4% amounting to 11.1%, while their portion in the aggregate assets decreased by 0.3%, amounting to 1.8%.

3.2.7. Raw Materials

Due to the peculiarities of OJSC North-West Telecom's activities, whose key business area is the provision of communication services, no raw material resources are used.

3.2.8. Key Competitors

OJSC NWT is the leader by physical indicators in the sector of local telephone connection services for residents. In the regional branches of OJSC NWT the share of local telephone connection services provided to the population is from 60 to 98%. As to the business sector, which is the most profitable today, the market share by physical volume in the regional branches of OJSC NWT is from 50% to 85%.

The OJSC NWT's market share of long-distance and international connection services in the North-West is 55%. There has been an increase of the long-distance and international connection by 10% as compared to the year 2002. In the years to come the growth of traffic (both long-distance and international) is expected to continue, with simultaneous reduction of the traffic growth rate by approximately 1-2% per year. The fall in the traffic growth rate has been partially caused by the intensive activities of alternative operators (including mobile communication operators) and by the increased use of IP-telephony.

The market of Internet services is characterized by a high level of competition. Of the market segments where OJSC North-West Telecom is represented, it is the above segment that is developing most rapidly. In 2003-2004 OJSC North-West Telecom held the leading position by dial-up access in such branches as: Artelecom of Arkhangelsk Oblast, Electrosvyaz of the Republic of Karelia and Electrosvyaz of Pskov Oblast. In the field of dedicated access to the Internet, services both to the business sector and to wealthy sections of the population must be actively promoted. An increase in the demand for dedicated lines by 30-40% is forecasted in connection with the introduction of the time-based billing system for local telephone calls and stricter requirements for data transmission speed.

Competitive position:

OJSC NWT has a sufficient set of competitive advantages to achieve the Company's strategic goals. Of these, the most essential are:

1. Low level of rates for services provided;
2. Developed infrastructure, and broad geographic coverage network;
3. A wide range of telecommunication services
4. Access to the IP telephony market

To maintain the competitive capacity, OJSC North-West Telecom is implementing a strategy of integrated growth aimed at the development and updating of the existing communication network and construction of new telecommunication networks for providing high technological level services – ISDN and xDSL. Besides, a project is being implemented to create a multiservice communication network that will facilitate the formation of a single information space of the region.

The above factors' influence degree:

| Factor | Factor importance rating |
|--|--------------------------|
| Considerable client base | 1 |
| Developed own infrastructure, and broad geographic coverage network; | 2 |
| Orientation toward clients | 3 |
| Intensive promotion of services | 4 |
| A wide range of telecommunication services | 5 |
| Availability of financial capacities to launch large-scale projects | 6 |

1 - a high importance rate
6 - a low importance rate

3.2.13. Extra requirements for issuers whose key activities consist in provision of communication services

License: *22791*
 Date of issue: *11.07.2002*
 Validity period: *till 11.07.2007*
 Authority issuing the license: *Ministry of RF for Communication and Informatization*
 Areas of activities: *provision of telematic services in the territory of the Republic of Karelia, Komi Republic, Arkhangelsk, Vologda, Kaliningrad, Leningrad, Murmansk, Novgorod and Pskov Oblasts, Nenets Autonomous Area, and Saint Petersburg*
 Basic conditions of activities:

1) *OJSC NWT (the Licensee) may provide telematic services of a public communication network (e-mail, informant resource access, facsimile messages, information/inquiry, message handling, speech information transmission, voice message, audio conference, and video conference) in the territory of the Republic of Karelia, Komi Republic, Arkhangelsk, Vologda, Kaliningrad, Leningrad, Murmansk, Novgorod and Pskov Oblasts, Nenets Autonomous District and Saint Petersburg.*

2) *The services shall be provided using the Licensee's telematic service engineering facilities. The Licensee's telematic service installed subscriber capacity shall provide for connection, by the end of the license term of validity, of at least 500,000 users (of which, at least 100,000 users by the end of 2003).*

The capacity of the Licensee's speech information transmission telematic service shall ensure provision of at least 5,000 simultaneous conversations by the end of the license term of validity. The number of users simultaneously participating in an audio or video conference session shall be at least 100 (of which, at least 10 by the end of 2003).

3) *The Licensee shall provide services in the licensed territory to any person requesting them, subject to appropriate engineering facilities.*

4) *The licensee may connect data transmission equipment to a public telephone communication network, to the portion of the Iskra network used for commercial purposes, and to the AT/Telex telegraph network, and use communication channels and physical circuits of a public communication network.*

The Licensee's data transmission equipment may only be connected to a public telephone communication network, to the portion of the Iskra network used for commercial purposes, and to the AT/Telex telegraph network as subscriber devices.

5) *Connection of the Licensee's speech information transmission telematic service to a public telephone communication network or to the portion of the Iskra network used for commercial purposes, and use of communication channels and physical circuits of a public communication network shall be based on an agreement with the operators of the respective public communication networks and at tariffs effective for the relevant category of users.*

6) *The capacity of the subscriber (connecting) multiple trunks used to connect the Licensee's equipment for speech information transmission telematic services to the switching stations of the public telephone communication network shall meet the effective requirements for the maximum load in busy hours (BH) per subscriber (connecting) time. Where a local telephone communication network has adequate facilities, the BH maximum load values may be updated by agreement between the local telephone communication network operator and the telematic service operator.*

7) *The Licensee may not provide its speech information transmission telematic service equipment for inter-exchange or inter-network connections on public telephone communication networks.*

development plan for the given community as agreed with the local administration.

5) TV (audio) programs may be broadcast subject to a license for TV and radio broadcasting.

Terms and feasibility of extension of the license term of validity:

The Issuer intends to extend the term of validity of the license

Factors that may have an adverse effect on the Issuer's performance of its commitments under the licenses, and possibilities of their occurrence:

There are no such factors

Issuer's commitments to create a subscriber base under the said license: **all obligations of creating the subscriber base and other terms of the license are fulfilled within the established time and in the full volume**

License: 14799

Date of issue: 21.04.2000

Validity period: till 21.04.2005

Authority issuing the license: **Ministry of RF for Communication and Informatization**

Areas of activities: **provision of cable network telecasting (with addenda Nos. 1-3) in the territory of the**

village of Lovozero, Murmansk Oblast

In the course of reorganization in the form of affiliation that was carried out on 31.10.02, this license was

transferred to the Issuer (Addendum No. 3, registered on 30/12/2002).

Basic conditions of activities:

- 1) Telecasting services shall be provided via a cable TV network having the following characteristics:
Network capacity - up to 2,000 subscribers
Frequency channels - 4/2, 3, SK-1, SK-5, 6,8,10,12, SK-11, SK-12

The borders of the Licensee's network service area may vary according to the cable TV development plan for the given community as agreed with the local administration.

2) **Should any interference occur interferences with mobile radio communication services for SK channels operation in the cable TV network due to the equipment used to provide services, the Licensee shall take actions to remove them as per instructions of the Gossvyaznadzor supervision service.**

The users shall be able to use any broadcast programs of Russian national TV and radio broadcasters and state-owned regional TV and radio companies.

3) **Communication equipment may be used subject to an issued certificate of compliance of the Electrosvyaz obligatory certification system.**

Terms and feasibility of extension of the license term of validity:

The Issuer intends to extend the term of validity of the license

Factors that may have an adverse effect on the Issuer's performance of its commitments under the licenses, and possibilities of their occurrence:

Areas of activities: **provision of services in telecasting and broadcasting of programmes and transmission of extra information (with addenda Nos. 1-4) in the territory of Murmansk Oblast)**

In the course of reorganization in the form of affiliation that was carried out on 31.10.02, this license was

transferred to the Issuer (Addendum No. 4, registered on 30/12/2002).

Basic conditions of activities:

- 1) **The borders of the licensed area are defined by the range of the rated level of the Licensee's transmitting stations signal.**
- 2) **Transmission of additional information is understood for the purposes of the license as transmission of teletext and personal radio calls with channel multiplexing via a VHF FM network.**

A special license shall be issued for the services of teletext and personal radio call.

In these cases, authorization to operate the transmitter used shall be issued specifying the additional parameters.

Provision of additional information services shall not affect the quality of the TV and radio broadcasting programmes.

3) **The engineering facilities shall be operated as per the applicable GOST standards, industry rules and regulations, and meeting the occupational safety and fire safety rules and the Building Codes (SNiP). A health certificate shall be issued for radio broadcasting stations with an overall transmitter capacity of 100W or higher, subject to the effective standards.**

Authority issuing the license: **Ministry of RF for Communication and Informatization**

Areas of activities: **provision of cellular radio telephone communication services in the range of 450 MHz (using the IMT-MC 450 technology) in the territory of Arkhangel'sk Oblast**
Basic conditions of activities:

1. *OJSC North-West Telecom (the Licensee) is authorized by this license to provide services of digital cellular radio telephone communication via a public communication network in the range of 450 MHz using the IMT-MC 450 technology in the territory of Arkhangel'sk Oblast.*
2. *The Licensee shall, apart from provision of services using the IMT-MC 450 technology, support the operability of its NMT-450 standard network (retain the coverage area without impairing the communication quality) till the decision of the RF Communications Administration concerning the closing of the federal NMT-450 standard cellular network.*
3. *In order to provide services by the IMT-MC 450 technology, the Licensee shall, at its own expense:*

- initiate development of frequency and rate standards; and on their basis, set the terms of joint use of IMT-MC 450 networks and radio electronic facilities (REF) for civil and military purposes, prior to the start of the services;

- ensure vacation of continuous sections of the spectrum within the band assigned by the State Radio Frequencies Commission for this technology (453,00-457,4 MHz/463,0-467,4 MHz) for a stage-by-stage introduction of the technology IMT-MC 450-1x,2x:

by the start of provision of the services: one carrier, including the guard spaces;

*1,25+2*0,26= 1,77 MHz;*

by the end of the second year of operation: 2 carriers

*2*1,25+2*0,26=3,02 MHz.*

4. *The installed network capacity in the area specified in paragraph 1 shall be, as of 31.12 of each year accordingly, at least:*

2007 - 30,000 lines;

2013 - 100,000 lines.

The Licensee shall ensure provision of the services to at least 50% of the residents of the territory specified in the license by the end of the year 2007. The resident's coverage percentage may be updated during the implementation of this license's requirements.

b) *Communication networks*
The telecommunication network of OJSC North-West Telecom includes the following basic constituents:
Local stationary telephone networks, including city and rural networks;
Elements of the long-distance and international telephone network;
Wireless communication networks, including cellular mobile communication networks, mobile radio telephone (trunking) communication, personal radio call, and subscriber radio access;
Document telecommunication networks, including traditional telegraph communication networks and data transmission and telematic services networks;

Wired-radio networks;
Primary networks:
local;
intra-zone.

The NMT-450 standard cellular mobile communication network is deployed in Arkhangelsk Oblast and operated by the Artelecom branch.

Trunking networks are organized on the basis of mobile radiotelephone communication systems Atay-3M in the frequency band of 300 MHz (15 base stations - BS - in St. Petersburg, 2 BS in Arkhangelsk, 3 BS in Kaliningrad and Leningrad Oblast, 2 BS in Novgorod and 2 BS in Vologda).

Subscriber radio access networks are built on the basis of Airspan-60, Airspan-4000 (St. Petersburg), DECT, KART-4 and Airlink-512S systems equipment.

The data on frequency assignments for wireless networks are given in Table 8.

Document telecommunication networks

Telex

Due to the decreased demand for traditional services of telegraph communication, there is an increase in the volumes of telegraph networks. Nevertheless, telegraph networks continue to operate, as maintained at the appropriate level and upgraded. A gradual replacement of telegraph sets by modern computer-based terminals and replacement of obsolete message switching centers by modern unite switching stations is taking place.

Wired-radio networks

Wired-radio networks are developed in compliance with the Programme of Wired-Radio Development for the period to the year 2010 for Entities of the Russian Federation. The level of wired-radio networks state differs significantly in cities and villages, which determines the areas of these networks development: in the cities (towns) and rural areas where wired-radio networks exist and are profitable, they

1.6. Primary networks

Local primary networks of OJSC North-West Telecom include interoffice city cable and radio-relay lines; cable, aerial and radio-relay connecting lines on rural telephone networks; subscriber access networks.

Interoffice city cable primary networks are developed on the basis of fibre-optic transmission lines only, using SDH transmission systems of the STM-1 – STM-4 levels, made by Siemens, Alcatel, ECI, NEC, Lucent Technologies, Ericsson.

In urban and rural areas where it is impossible or economically unreasonable to lay out fibre-optic cables, radio-relay lines are used with systems PDH (IKM-15, IKM-30, NXE1, E3 channels) and SDH (STM-1), as well as thin-route radio-relay lines (No of TCh channels).

Local primary networks in rural areas mainly use metal cables with the IKM-30 and IKM-15 transmission systems, as well as multiplexers and modems using the xDSL technology (NXE1, E3).

Subscriber access is organized via metallic circuits in metal or optic cables, via digital channels using the xDSL technology and using radio access technologies.

In 2004 the length of the transmission lines increased by 793.99 km, including fibre-optic transmission lines – by 567.69 km, and digital radio-relay transmission lines by 259.9 km.

Central-office primary networks use fibre-optic cables with SDH transmission systems of the STM-1 – STM-4 levels and optic linear terminals (NXE1); metal cables with digital PDH systems IKM-120, IKM-480, IKM-30, IKM-15 and analog transmission systems K-60P, K-120, K-300, K-1020S; aerial lines; as well as radio-relay lines with the PDH and SDH systems and thin-route radio-relay lines. The trunk line resource leased from OJSC Rostelecom and from other operators on a long-term basis is used for the central-office communication.

3.4. Plans of Issuer's Future Operation

The OJSC NWT's development strategy is aimed at winning the telecommunication services market throughout the North-Western region of Russia.

The key tasks to be tackled by the Issuer within the five years to come include:

- satisfying citizens' applications for installation of telephone lines;
- transition to the time-based call billing throughout the North-Western District of Russia;
- development of extra services (Internet, data transmission, set services to business clients);
- increasing the company's share in the markets of new services.

Solving these tasks will require much effort in developing the communication networks infrastructure.

The key areas of developing telecommunication networks of OJSC North-West Telecom are:

- telephone network digitalization;
- creating intelligent networks;
- creating multiservice networks for provision of integrated services;
- digitalization of primary public networks.

At the moment, besides the up-to date digital equipment of telephone centers, digital equipment of telephone exchanges and data transmission systems, OJSC NWT has a lot of obsolete equipment. The obsolete and worn out equipment does not make it possible to make a qualitatively new step in the development of OJSC NWT's network – transition to the digital network with a wide range of new services. In this connection, OJSC NWT's strategy will be aimed at restructuring the network topology and at replacing the obsolete equipment. To resolve this problem, it is planned to renovate and re-equip switching systems and linear facilities; to expand the operating telephone exchanges; to renovate technical premises; and to perform other works aimed at replacement and improvement of obsolete and worn equipment.

OJSC North-West Telecom's financial plans for the five years to come provide for:

- increasing receipts through increasing the volume of provided services;
- reducing the specific value of expenses;
- significantly reducing and liquidating the accounts receivable for communication services;
- pursuing a flexible rate policy;
- attracting new investment.

ST. PETERSBURG TELEPHONE NETWORK, a branch of the public joint-stock company North-West Telecom

Date of re-evaluation: 1.01.2000

Full balance value of fixed assets prior to re-evaluation: 6,880,458 thousand roubles

Residual (less wear) value of fixed assets prior to re-evaluation: 4,106,628 thousand roubles

Full balance value of fixed assets taking into account re-evaluation: 8,107,876 thousand roubles

Residual (less wear) value of fixed assets taking into account re-evaluation: 5,204,986 thousand roubles

Revaluation method: direct recalculation on the basis of the data confirmed by documents

Explanations to the re-valuation method (including the valuation technique):
Evaluation of buildings and facilities was mainly carried out by the index method - using the indices of rise in prices of construction and installation in industrial engineering in the region as of December 1999.

The basic information for using the indices of rise in prices normally consists in data on the estimate value of facilities or on actually incurred expenses for their construction as included in the inventory list of fixed assets during commissioning. In the case of absence of the said information valuation was performed based on the functional purpose, construction volume or area of the site, using the standard values of the comparison unit cost in basic prices.

To determine the complete replacement value of the produced equipment, as well as other fixed assets, information on market prices for valuation objects or their functional analogues in the region as of December 1999 was used. If and when necessary, such information was adjusted for the existing differences between the valuation object and its functional analogues.

On 31.10.2002, OJSC NWT was restructured in the form of takeover of the following companies:

NovgorodTelecom OJSC,
Electrosyaz of Pskov oblast OJSC,
Electrosyaz of the Republic of Karelia OJSC,
Electrosyaz of Kaliningrad Oblast OJSC,
OJSC Cherepovetsselectrosyaz,
Electrosyaz of Vologda Oblast OJSC,
OJSC Murmancelectrosyaz,
Arelcom of Arkhangelsk oblast OJSC.
All assets and liabilities of the above companies had been transferred to OJSC NWT by the date of takeover, i.e. 31.10.2002, as to the successor of the companies, under an assignment statement validated at their depreciated cost.
No fixed assets reassessment data for the merged companies is presented here due to the fact that the companies performed the reassessment before the takeover date when still functioning as independent legal entities. The Issuer has no reliable information as to the date of reassessment, or the full and depreciated cost of the fixed assets subject to the reassessment, as of the date of such reassessment.

Plans for acquisition, replacement, or withdrawal of fixed assets, the value of which is 10 and more per cent of the value of fixed assets of the Issuer and other fixed assets at the Issuer's discretion: none

The dynamics of the changes in the Company's business indices have been uneven, which is caused by the reorganization process that has been going on with the Company during the recent years. Thus, for the years 1999-2001 data for PTN are given, while for the years 2002, 2003, 2004 and the 1st quarter of 2005 consolidated data for the entire Company are presented (including the Petersburg Telephone Network and all affiliated branches). Besides, the structure of the Profit and Loss Report for the year 2000 was formed without taking into account the proceeds gained by OJSC MMT and OJSC Telegraph before the affiliation with OJSC PTN (the affiliation took place in the last days of December 2000), which entailed a drastic increase in the indices of the proceeds and gross profit (it more than doubled) in 2001 as compared to 2000. Starting from 1st October 2004, after the completion of the procedure of OJSC Lensvyaz and OJSC Svyaz of the Republic of Komi joining the Company, the profit and loss report has been made up taking into account the said communication operators.

In 2002 serious changes took place in the Company's accounting policy as compared to the accounting policy of the base and affiliated organizations that was applied in the year 2001. These changes were aimed at ensuring a more reliable presentation of the facts of business activities and at compliance of

the accounts and reports with the international standards. Among other things, these changes include the formation of the doubtful debt reserve in 2002, which influenced very much the formation of the financial result of Company's operation.

The summary amount of expenses for creating the reserve from current profit was 792 MIO roubles in 2002. 129 MIO roubles of accounts receivable were written off using the created reserve. 103 MIO roubles out of them were written off in respect of the debt of privileged categories of citizens.

Thus, the doubtful debt reserve as of 01.01.2003 was 663 million roubles.

It should be emphasized that the Company had to both create a reserve for the accounts receivable of the year 2002 and "to take upon itself the blow" of the doubtful debts that arose in 2001 and 2000. According to the accounting data, if the doubtful debt reserve was formed in 2000 and 2001 in respect of accounts receivable as of 01.01.2001 and 01.01.2002, the amount of expenses through the current profit 2002 for creating a doubtful debt reserve would be 144,000,000 roubles; not 792,000,000 roubles.

Thus, taking into account the analytical formation of the doubtful debt reserve, i.e. a breakdown expenses by the periods, in which the debts arose, the net profit of the company for 2002 would amount 975,000,000 roubles, not 327,000,000 roubles.

Besides the factor of the Company's structural reorganization, the growth of the Company's proceeds is mainly influenced by the stage-by-stage increase of the rates for regulated communication services during the recent years.

Factors of changes in the volume of proceeds by basic types of services, in %

| No. | Factors | Degree of influence on the change of the amount of proceeds from the principal business, % | | | |

|--|----------|----------|------------|------------|------------|--|
| Index | 2 000 | 2001 | 2 002 | 2003 | 2004 | 1 st quarter of the year 2005 |

| Rapid liquidity ratio | 1,76 | 1,16 | 0,70 | 0,38 | 0,27 | 0,59 |

Liquidity indicators show the ability of the company to fulfil its short-term liabilities and are based on the principle of the correspondence of the company to fulfil its short-term liabilities.

Own current assets are understood as the part of own capital allocated to current assets funding. The negative value of own circulating assets shows that capital investment of the Company is partially financed from borrowed funds.

The financial dependence factor shows the amount of attracted funds per rouble of own capital. The percentage of borrowed capital in the structure of Company's liabilities was constantly growing in 1999-2004. A considerable growth of liabilities in 2003 was caused by the flotation of the 3 years period bonded loan worth of 1.5 billion roubles, which made it possible for the Company to restructure the accrued debt and to increase the volume of investment in the fixed capital. In the 1st quarter of 2005 the trend of the company's debt growth continued and amounted to 76% of own capital, which is accounted for by the flotation of the 3rd bonded loan for 3.0 billion roubles in March 2005. It should be noted that the debt-and-own capital ratio remains lower than the critical value of 80%, which indicates that the Company's financial stability is quite high.

The asset equity ratio shows the equity share in the assets, its minimum rated value being 0.5 to 0.6. The ratio value complies the rated requirements, which describes the financial independence from creditors as high.

As the non-current assets of the company are partially financed from borrowed funds, the availability index of own circulating funds for reserves is negative.

The fixed assets index for the analyzed period is higher than the recommended value (0.9), while the value has been calculated for enterprises with medium capital coefficient. Communication enterprises are considered to be enterprises with a high capital coefficient.

The current liquidity ratio shows the general availability of circulating funds for the short-term debt of the enterprise, the recommended value for Russian enterprises being from 1 to 2. In 2001-2004 the liquidity level was decreasing. As of 01.01.2005 the level of the liquidity ratio decreased to 0.53, which is lower than recommended minimum value. The cause of the drop consists in the increase of the share of current liabilities with retaining of the share of circulating assets in the balance structure in 2003 and 2004.

The basic factors that influenced the growth of current liabilities in 2003 and 2004 include:
 - revaluation of the debt to Vneshekonombank (Foreign Economic Bank);
 - transfer of the debt under the first issue bonds from long-term liabilities to short-term liabilities;
 - growth of the debt to suppliers

In 2004 the Company introduced a treasury system for a centralized management of the enterprise's financial flows, using which it managed to improve the efficiency of using the monetary funds, to cut down the balances on the branches' accounts and to optimize the work with borrowings. Thus, the Company's liquidity is maintained not by balances on settlement accounts, but rather by availability of banks' opened quotas for current business funding, which is much more favorable for the Company. As of this day, the amount of confirmed quotas enables funding of the required monthly expenses.

It is planned to reduce the share of short-term liabilities in the balance sheet structure in 2005 and, as a consequence, to improve the liquidity ratios as a result of the policy of debt liabilities restructuring pursued by the Company and reducing the cost of servicing them through the following measures:
 - In the 1st quarter of 2005 the 3rd bonded loan with the total volume of 3.0 billion roubles was issued with the redemption period of 3 to 6 years.

obtaining credit resources from banks for long periods (3 to 5 years);
 - repayment of all short-term credits of trading banks through the funds obtained from the flotation of the bonded loan.
 In the 1st quarter of 2005 the liquidity ration increased by 55% amounting 0.82.

The development of the rapid liquidity ratio depends on the same factors that influence current liquidity.

The ratio analysis proves the Company's financial standing to be stable. The actions taken enabled a considerable improvement in liquidity in the 1st quarter of 2005. The Company's solvency is maintained at a high level, which is proved by the absence of overdue credit and loan debts and avoided delays of current payments.

For the five recent years, own capital of the Company was continuously growing. The average growth rate having made:

*4.1% - 4.6% in 2001 and 2003;
29,0% in 2004;
70% and 73% in 2000 and 2002.*

The considerable growth in 2000, 2002 and 2004 is accounted for by the affiliation of other fixed communication operators with the Company in the said years.

The share of own capital in the assets of the Company decreased in 2001-2004: from 78% as of 01.01.2001 to 58% as of the start of 2005, in the 1st quarter of 2005 it decreased to 57%. Therefore, the amount of the own capital is sufficient to ensure the required level of financial independence from creditors.

In the period under analysis, the portion of retained profit grew drastically in the structure of own capital: from 7.2% in 2000 to 39.0% as of 01.04.2005. This change is related to the fact that up to 80% of the Company's net profit is invested back in business - in the fixed assets and other assets.

The amount of the reserve as from 01.01.2004 complies with the level required by the Federal Law on Joint-Stock Companies, i.e. 5% of the authorized capital.

The dynamics of the Company's circulating assets in the period under analysis were determined by the organizational changes that took place and by the industry-specific business features. A noticeable increase in 2000 (136%) in 2002 (97%) and in 2004 (32%) is attributable to the takeover by the Company of other fixed communication operators in these years (OJSC MMT and OJSC SPT in 2000, the North-West Region operators, in 2002, and OJSC Lenskyaz and OJSC Svyaz of the Komi Republic in 2004).

The high capital coefficient of communication services being a specific feature of the industry, the share of circulating assets in the overall assets is insignificant: in 2000-2002 it fluctuated between 16% and 18%. In 2003 the amount of circulating assets decreased by 3%, while the portion in the aggregate assets decreased by 4%, amounting to 14%. In spite of the fact that in 2004 the amount of current assets increased by 32% their share decreased by another 1% to 13%. In the 1st quarter of 2005, the circulating assets increased by 34% against the beginning of the year, their portion in the overall assets increased by 4% making 17%.

Accounts receivable predominate in the circulating assets structure, which is also related to specific features of the industry. The Company's circulating assets policy is primarily aimed at lower accounts receivable and their higher quality (reduction of the overdue debt portion), and higher turnover rate. In the period under analysis the portion of accounts receivable in the circulating assets decreased from 81% as of 01.01.2000 to 44% as of 01.01.2005, the portion of long-term accounts receivable not exceeding 19%. The portion of stock in the current assets grew in 2001-2003 (from 7.1% to 17.1%), however, in the year 2004 and the 1st quarter of 2005 it has decreased by 1.5% and 4.5% respectively. The amount of monetary funds maintained at a level sufficient to fulfil the current liabilities of the Company, while the share of monetary funds in the current assets was within 8%-13%. In the year 2004 and the 1st quarter of 2005 this ratio was 7% and 6% respectively.

4.3.2. Issuer's capital and circulating assets adequacy

The Company's short-term liabilities as of 01.04.2005 were 5,440,803 thousand roubles amounting to 35.7% of the own capital, that is, the value of the own capital is sufficient for fulfilling short-term liabilities.

The amount of the Company's average daily operating debt service expenses (per cent of payment, line 0 of form 2) for the 1st quarter of 2005 was 3,823.09 thousand roubles. The amount of circulating assets (as of 01.04.2005 - 4,482,103 thousand roubles) is sufficient for covering expenses for payment for interest (185,151 thousand roubles), planned in the 2nd quarter.

4.3.3. Monetary funds

2nd quarter of the year 2005

The Company's monetary funds requirement as of the 2nd quarter of 2005 is 7,247,423 thousand roubles. Monetary funds are expected to be received from the following sources:

- receipt of funds from operating activities (provision of communication services) - 5,631,394 thousand roubles;
- receipt of funds from investment activities (use of non-current assets) - 111,772 thousand roubles;
- external funding (receipt of credits and loans) - 1,504,257 thousand roubles.

External borrowing is required for the funding of Company's investment programme and for re-payment earlier obtained bank loans.

Within the amount of external borrowing, receipt of short-term credits worth of 400,000 thousand rouble long-term borrowing worth of 1,160,000 thousand roubles is planned.

The Company's monetary funds requirement for the year 2005 is 31,311,411 thousand roubles. Monetary funds are expected to be received from the following sources:

- receipt of funds from operating activities (provision of communication services) – 23,325,114 thousand roubles;
- receipt of funds from investment activities (use of non-current assets) – 175,779 thousand roubles;
- external funding (receipt of credits and loans) – 7,807,893 thousand roubles.

Factors that may affect the Issuer's need for cash funds, and prospects of obtaining them:
To attract a sufficient scope of investment resources, the Issuer uses and intends to use bank credits (short-term and long-term), and a bonded debt.

Considering the Issuer's plans to expand its business (increased amount of capital investment), and, as a result, a higher amount of investment through borrowed funds, a setting of credit limits (risk limits for the Issuer) has currently been agreed with commercial banks. The amount of such set limits is equivalent to 4.48 billion roubles.

In addition to bank crediting, the Company's stable financial standing enables it to borrow necessary funds on financial markets both in and outside of Russia with the aid of other instruments, such as: Credit Linked Notes (CLN), promissory note programs, etc. The scope and instruments of fund borrowing by the Company are selected subject to the opportunities currently existing on any particular borrowing market segment.

As of the end of the reporting period, no balance of distrained bank accounts was recorded for the Issuer.
As of the end of the reporting period, the Issuer had no accounts payable as recorded on bank files.

4.5. Analysis of the development trends in the field of the Issuer's principal activity

For many years, the Russian communication industry has been showing positive business trends. Growing demand for communication services, and growing scopes of services provided have been recorded. Against the background of economic growth in all segments of the communication services market, the industry's investment activity is increasing.

In the 1st half of 2003, the process of restructuring of telecommunication operators affiliated with OJSC Svyazinvest was finalized. As a result, 7 interregional communication operators were established that are comparable to Eastern Europe's fixed communication operators by several parameters. The finalization of the legal procedure of OJSC Svyazinvest companies restructuring was the initial phase of the reform in the telecommunication sector. Currently, corporate restructuring of the united communication companies is underway. Main trends in the communication industry for the next few years:

- switchover to the time-based rating of local outgoing calls,
 - drastic improvement of the tariff policy,
 - enhancement of the technical level of public telephone networks.
- An important line of the industry's development in the years to come is radical improvement of the tariff policies of telecommunication companies by bringing the communication service charge rates to the level of economically feasible costs, and by minimizing the limits of communication services cross-subsidizing. Among other things, the communication services pricing reform implies higher rates for local telephone communication and avoidance of local communication service subsidizing at the expense of long-distance communication services. The OJSC Svyazinvest holding, RF Ministry of Information Technology and Communication, and the Federal Antitrust Service jointly work to revise the tariff policy.

The investment policy of interregional telecommunication companies shows a trend of saving large amounts of capital investment in public telephone and data transmission network expansion and updating, which is intended to reduce the telephone installation waiting lists and to improve the network digitization level.

According to analysts, on the average, Russian interregional communication companies cost 35 to 40 percent lower than similar companies on developing markets in terms of the company value-to-sales ratio (EV/S). Due to this, a leading growth of Russian telecommunication companies is forecast compared similar foreign operators, which is attributable to their lower current market valuation.

The Issuer's business development is in line with the industry's overall trends.

Forecast of a possible change of the situation

The communication industry development corresponds to the general positive trends in the Russian economy. Besides, the industry has been steadily growing over the recent several years: novel technologies and new services are emerging, and demand for communication services is growing. The Issuer's business is also aimed at providing the full range of telecommunication services to a broad group of users.

Factors and conditions influencing the Issuer's business and its results:

The main risk factors considered by the Company in pursuing its business are:

1) On January 1, 2004, the new Federal Law on Communication came into effect, which establishes the legal basis for Russian communication industry's activity, and determines the industrial status governmental bodies. The law may increase the extent of the Company business regulation, and until appropriate by-law regulations are adopted, a period of contradictions and uncertainty related interpretations of the law by regulatory bodies is inevitable.

According to the new law, the Company shall set equal conditions of telecommunication network connection and traffic passing for communication operators providing similar services, and shall provide connection and traffic passing services to such operators on the same terms and of the same quality as for its own structural units and affiliated persons.

Besides, in compliance with the new law "On Communication", local telephone connections shall be paid for at the (individual) subscriber's discretion, using either the subscription or time-based billing system.

The Management cannot predict the effect of the new law on the Company.

According to the new law, the Company shall set equal conditions of telecommunication network connection and traffic passing for communication operators providing similar services, and shall provide connection and traffic passing services to such operators on the same terms and of the same quality as for its own structural units and affiliated persons.

The Management cannot predict the effect of the new law on the Company.

2) The ongoing processes of alternative telecommunication companies integration into large international holdings.

Forecast for the duration of the above factors and conditions:

It is difficult to forecast the duration of the principal adverse factors, as it is impossible to forecast the lifetime of the basic law regulating the telecommunication business. The alternative operators integration process is very dynamic and will last for another several years.

Actions taken and intended to be taken by the Issuer in the future for efficient use of these factors are conditions:

The key competitive advantages will be used.

Material events/factors that may most adversely affect the Issuer's ability to achieve similar or higher results in the future as compared to the results obtained in the last reporting period.

In the future, the main adverse effects should be expected from aggravating competition, especially operators using the IP telephony technology enabling one to provide services at lower price rates, which reduces the traffic for traditional operators and, accordingly, has an adverse effect on their earning trends.

Probability of occurrence of such events (factors): The probability of serious competition on the side of operators using the IP-telephony technology is very high, since they are aggressively penetrating into all the regional markets.

Material events/factors that may improve the Issuer's business results: *The overall growth of Russia's economy and increase of the communication industry's segment in GDP are favorable for the Company's business.*

V. Detailed Data on the Persons Who are Members of the Issuer's Management Bodies, Issuer's Bodies for Control over its Financial and Economic Operation, and Brief Data on the Workers (Employees) of the Issuer

5.1. Data on the Structure and Terms of Reference of the Issuer's Management Bodies

Under articles 12, 13, 14 and 15 of the Articles of Association, the Issuer's management bodies are:

The general meeting of the shareholders is the supreme management body of the company;

The Board of Directors is the Company's collegiate management body providing general supervision of the Company's activities. The Company's Board of Directors is annually elected at the annual general meeting of shareholders by cumulative voting in the number of 11 persons.

The Management Board is the Company's collegiate executive body ensuring the execution of decisions taken by the General Meeting of the Shareholders and by the Board of Directors of the Company.

General Manager is the one-person executive body managing the current operation of the Company.

Terms of reference of the general meeting of the Issuer's shareholders according to its Articles of Association (paragraph 12.2 of article 12 of the Issuer's Articles of Association):

The terms of reference of the general meeting of the shareholders include the following issues that cannot be handed over for consideration to the Board of Directors, General Manager or Management Board of the Company:

7.3. Issuer's Summary Accounts for the Three Last Completed Fiscal Years or for Each Completed Fiscal Year

Grounds of not submitting:
 The duty of an organization to make up summary accounts is established by clause 91 of the Order of the Ministry of Finance of the RF No. 34n "On Approving the Provisions on Book-Keeping and Reporting in the Russian Federation" of 29.07.98.
 In compliance with the said order, if an organization has subsidiaries or dependent companies summary accounts are to be made up besides own accounting report, including the reporting indices

such companies situated in the territory of the Russian Federation and outside the Russian Federation, according to the procedure established by the Ministry of Finance of the Russian Federation.

Meanwhile, no procedure for making up summary (consolidated) reports has been established by the Ministry of Finance of the Russian Federation by today. The only document concerning making up such reports is the Order of the Ministry of Finance No. 112 of 30th December 1996 "On Methodological Recommendations for Making up and Submitting Summary Accounts". Meanwhile, this act is not a normative act (according to the resolution of the Ministry of Justice of the Russian Federation of 19th March 1997, No. 07-02-285-97, this order of the Ministry of Finance does not require state registration), is of purely methodological nature, and, besides, that document does not establish a procedure, but just determines the general approaches towards making up summary accounts. There are no explanations or instructions in respect of applying the order.

At the same time, according to clause 8 of the Order, a Group may abstain from making up summary accounts according to the rules provided for by the standard acts and methodological instructions on book-keeping of the Ministry of Finance of the Russian Federation, if the following conditions are simultaneously observed:

- the summary accounts have been made up on the basis of the International Accounting Standards (IAS) prepared by the International Accounting Standards Committee;
- the Group must ensure reliability of the summary accounts made up on the basis of IAS;
- the explanatory note to the summary accounts contains the list of applied accounting requirements, discloses the book-keeping methods, including evaluations differing from the rules provided for by the standard acts and methodological instructions on accounting of the Ministry of Finance of the Russian Federation.

Rights granted by shares to their holders (according to article 7 of the Issuer's Articles of Association):
Company's preferred shares of one type grant to the shareholders holding them equal volumes of rights and have equal face value.

The owners of type A preferred shares are entitled to receiving an annual fixed dividend, except for the cases provided for by the Company's Articles of Association. The total amount paid as dividend on each preferred type A share is established as 10 per cent of the Company's net profit based on the results of the last fiscal year, divided by the number of shares that make 25 per cent of the Company's authorized capital. If the total amount of the dividend paid by the Company on each common share in a certain year exceeds the amount to be paid as dividend on each type A preferred share, then the amount of the dividend paid on preferred shares must be increased to the amount of the dividend paid on common shares.

The owners of type A preferred shares are entitled to participate in the general meeting of the shareholders with the right of vote on all issues of re-organization and liquidation of the Company and also on the issues of introducing additions and amendments to the Company's Articles of Association in the case such amendments restrict the rights of the said shareholders.

The owners of type A preferred shares are entitled to participate in the general meeting of the shareholders with the right of vote on all issues of the agenda of the meeting in the case when the meeting of shareholders, irrespective of the reasons, did not take a decision on dividend payment or took a decision on incomplete payment of the dividend under A type preferred shares. The owners of type A preferred shares will acquire this right starting from the Meeting next to the Annual General Meeting of Shareholders that did not pass a resolution on payment of the dividend, and shall lose this right from the moment of the first payment of dividend on such shares in full.
The owners of type A preferred shares have the rights provided for by Clauses 7.2.3, 7.2.4, 7.2.5, 7.2.6, 7.2.7, 7.2.8, 7.2.10, 7.2.11 and 7.2.12 of the Company's Articles of Association for the owners of the Company's common shares. These rights are granted to shareholders – the owners of type A preferred shares in the case when such shares are not voting.

The owners of type A preferred shares have the rights provided for by Articles 7.3, 7.6, 7.7, 7.8 and on all issues within the terms of reference of the general meeting of the Company's shareholders.

The owners of type A preferred shares are entitled to demand redemption of all or a part of their shares by the Company in the cases and according to the procedure provided for by the active law of the Russian Federation.

The owners of type A preferred shares holding at least 1 percent of votes at the General Meeting of Shareholders may demand that the Company provide the list of those authorized to participate in the Meeting. In this case, the data of the documents and the mail addresses of the shareholders on the list may only be provided by their consent.

Shareholders holding preferred type A stock have other rights as provided for by the applicable laws of the Russian Federation, other statutory acts of the Russian Federation and by the Company's Articles of Association.

- 2) a decision on liquidation of the Issuer is taken by the Issuer's body authorized to take such a decision,
- 3) a court award on bankruptcy of the Warrantor takes effect,
- 4) a decision on liquidation of the Warrantor is taken by the Warrantor's body authorized to take such a decision;

c) the Issuer or the Warrantor does not fulfil its obligation to pay the coupon yield under the Bonds of this issue upon expiry of 10 (ten) working days from the date of payment of the respective coupon yield established in compliance with the Decision on the Bonds issue.

6) other cases expressly provided for by the legislation of the Russian Federation.

The Issuer undertakes to transfer in due time and in the full volume respective amounts required to fulfil the payment commitments in compliance with the Decision on the Bonds Issue to the Payment Agent under this Bond Issue.

Actions of a Bond Holder in the case of the Issuer's refusal to fulfil the commitments under the Bonds are shown in clause 8.6 of the Decision on the Issue and clause 56.11 of the Offering Circular.

A Bond holder is entitled to exercise other rights provided for by the laws of the Russian Federation.

Conditions and procedure of retirement:

The face value of Bonds shall be retired in parts on the following dates (hereinafter referred to as the "Dates of retiring a part of the face value of Bonds"):

1. 1092nd (one thousand ninety second) day from the day of the Bonds Issue flotation start – 30% (thirty per cent) of the face value of the Bonds;
2. 1274th (one thousand two hundred seventy fourth) day from the day of the Bonds Issue flotation start – 30% (thirty per cent) of the face value of the Bonds;
3. 1456th (one thousand four hundred fifty sixth) day from the day of the Bonds Issue flotation start – 40% (forty per cent) of the face value of the Bonds.

Retirement of a part of the Bonds face value is effected by the payment agent upon instructions of the Issuer (hereinafter referred to as Payment Agent), its duties being entrusted to:

Full official name of the organization: North-West Telecombank Closed Joint-Stock Company

Abbreviated official name: Telecombank CASC

Location: 12, Baskov per., St. Petersburg, Russia

Mailing address: 12, Baskov per., St. Petersburg, 191014

General license for banking operations: №168

Date of issue: 22.03.2000

Validity period: without limitation of the validity period

Authority issuing the license: Bank of Russia

The Issuer may appoint extra payment agents and cancel such appointments. Official announcement of the Issuer on the said actions is to be published by the Issuer within 10 (ten) working days before the date of such appointments or their cancellation in the newspapers *Investiya* and/or *Vedomosti* (the regional St.

Petersburg circulation).

A part of the Bonds face value is retired in the currency of the Russian Federation by a non-cash transaction to depositors of NDC (National Depository Centre) which deals with centralized care of the issued Bonds in favour of Bond Owners.

Retirement of a part of the Bonds face value is effected in favour of Bond Owners who are such Owners as of the end of NDC's operation day preceding the sixth day before the day of Bonds retirement (hereinafter referred to as the Date of Making up the List of Bond Holders for Retirement of a Part of the Bonds Face Value).

The above list of Bond Holders shall include:

- 1) NDC's depositors, if:
 - said parties are owners of the Bonds of the issue;
 - said parties are authorized by owners of the Bonds of the issue to receive monetary funds during retirement of a part of the issued Bonds face value;
- 2) Bond owners who are not NDC's depositors and who have not authorized NDC's depositors dealing with the accounting of the Bonds held by the owners to receive money when a part of the issued Bonds face value is retired.

It is presumed that nominal holders who are NDC's depositors are authorized to receive Bonds retirement money. Not later than on the 3rd (third) working day before the Date of Retirement of a Part of the Bonds Face Value, NDC's depositors, who are nominal holders and who are not authorized by their clients to receive Bonds retirement money, shall transfer to the NDC the list of Bond holders, that must contain all the details indicated below in the List of Bond Holders for Retirement of a Part of the Face Value.

A Bond Owner, if she/he is not a depositor of NDC, may authorize a Bond holder who is a depositor of NDC to receive amounts from yield payment and retirement of a part of the Bonds face value.

On the basis of the data available and/or submitted by depositors, NDC shall make up the List of Bond Holders for Retirement of a Part of the Face Value, which List shall be submitted to the Issuer and/or to the Payment Agent no later than on the 2nd (second) working day before the Date of retirement of a part of the Bonds face value. The List of Bond Holders for Retirement of a Part of the Face Value shall include the following details:

- a) full official name (official name for non-profit organizations, full personal name for an individual) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
 - b) the number of Bonds registered on the custody account of the Owner or on the inter-depository account of the nominal Bonds holder authorized by the Owner to receive the retirement amounts under the Bonds;
 - c) location and mailing address of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
 - d) bank account details of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds, viz:
 - No. of the bank account;
 - name of the bank, with which the account is opened;
 - correspondent account of the bank, with which the account is opened;
 - location and mailing address of the bank;
 - bank identification code of the bank, with which the account is opened;
 - e) tax-payer's identification No. (INN, or TIN) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
 - f) tax status of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)
- The Holder independently monitors the completeness and actuality of bank account details provided by it to NDC. Should the said details fail to be submitted, or fail to be submitted in due time to NDC by Bond Holders, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date the claim is submitted. In such a case the Issuer fulfils the obligations under the Bonds on the basis of NDC's data.
- Not later than on the 2nd (second) working day before the Date of Retirement of a Part of the Bonds Face Value, the Issuer shall transfer the required monetary funds to the Payment Agent's account. On the basis of the list of Bond Holders, provided by the NDC, the Payment Agent calculates the amounts of money to be paid to each of the Bond Holders authorized to receive Bond retirement amounts.
- On the date of Bonds face value partial retirement, the Payment Agent transfers the appropriate monies to accounts of Bond Holders in favour of Bond Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

Should the Date of Bonds Face Value Partial Retirement fall on a day off, irrespective of whether it is a national holiday or a day off for settlement operations, then payment of the due amount shall be effected on the first working day following the day off. The bondholder is not entitled to demand any interest or any other compensation for such a delay in payment.

Execution of the obligations under the Bonds in respect of a party included in the List of Bond Holders for Bonds Face Value Partial Retirement shall be considered as due and proper also in case of alienation of Bonds after the date on which the above List was made up.

The Bonds coupon yield for the first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh and twelfth coupon periods is calculated according to the following procedure:

$$K_i = C_i * N_i * (t_i - T_i) / 365 / 100\%$$

where i is the sequence number of the coupon, $i = 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12$,

K_i is the amount of coupon payment on each Bond

C_i is the coupon interest rate

N_i is the face value of one Bond

t_i is the expiry date of the i -th coupon period

T_i is the starting date of the i -th coupon period.

The Bonds coupon yield for the thirteenth and fourteenth coupon periods is calculated according to the following procedure:

$$K_i = C_i * 0.7 * N * (t_i - T_i) / 365 / 100\%$$

The Bonds coupon yield for the fifteenth and sixteenth coupon periods is calculated according to the following procedure:

$$K_i = C_i * 0.4 * N * (t_i - T_i) / 365 / 100\%$$

The amount of yield on the coupon is calculated accurate to one kopeck (the second decimal place being rounded off according to the mathematical rounding-off rules, viz.: if the third decimal place is greater than or equal to 5, the second decimal place is increased by one, and if the third decimal place is less than 5, the second decimal place is not changed).

Note:

According to the results of the auction held among potential buyers of Bonds on the first day of the primary floatation of the Bonds of the issue at the Moscow Interbank Currency Exchange, the coupon rate from the first to the fourth amounted to 14.2% per annum in compliance with the Decision on the Bonds Issue. According to the procedure for determining the coupons, described above, the coupon rate from the fifth to the eighth will amount to 13.2% per annum. The procedure of determining the 9th to 16th coupon rate is described above.

Procedure and conditions of coupon yield payment:

Payment of the Bond yield is effected in the currency of the Russian Federation by transfer in favour of Bond Owners who are such Owners as of the end of NDC's working day preceding the sixth day before the day of the issued bonds yield payment (hereinafter referred to as the Date of Making up the List of Bond Holders for Coupon Yield Payment).

The above list of Bond Holders shall include:

1) NDC's depositors, i.e.:

- said parties are owners of the Bonds of the issue;
- said parties are authorized by owners of the Bonds of the issue to receive money when the coupon yield under the issued Bonds is paid;
- 2) Bond owners who are not NDC's depositors and who have not authorized NDC's depositors dealing with the accounting of the Bonds held by the owners to receive money when the coupon yield under the issued Bonds is paid.

It is presumed that nominal holders who are NDC's depositors – are authorized to receive money when the coupon yield under the Bonds is paid. Not later than on the 3rd (third) working day before the date of

payment of the coupon yield under the Bonds, NDC's depositors, who are nominal holders and who are not authorized by their clients to receive Bonds coupon yield payment money, shall transfer to the NDC the list of Bond owners, that must contain all the details indicated below in the List of Bond Holders for coupon yield payment.

A Bond Owner, if it/she is not a depositor of NDC may authorize a Bond holder who is a depositor of NDC to receive amounts from the Bond yield payment and Bond retirement.

On the basis of the data available and/or submitted by depositors, NDC shall make up the List of Bond Holders for coupon yield payment, which List shall be submitted to the Issuer and/or to the Payment Agent not later than on the 2nd (second) working day before the Date of the Bonds Yield Payment. The List of Bond Holders for coupon yield payment shall include the following details:

a) full official name (official name for non-profit organizations, full personal name for an individual) of the Owner or nominal holder authorized by the Owner to receive the yield amounts under the Bonds;

b) number of Bonds registered on the custody account of the Owner or on the inter-depository account of the nominal Bonds holder authorized by the Owner to receive the yield amounts under the Bonds;

c) location and mailing address of the Owner or nominal holder authorized by the Owner to receive the yield amounts under the Bonds;

d) bank account details of the Owner or nominal holder authorized by the Owner to receive the yield amounts under the Bonds, viz:

- No. of the bank account;

- name of the bank, with which the account is opened;

- correspondent account of the bank, with which the account is opened;

- location and mailing address of the bank;

- bank identification code of the bank, with which the account is opened;

- tax-payer's identification No. (INN, or TIN) of the Owner or nominal holder authorized by the Owner to receive the yield payment amounts under the Bonds;

f) tax status of the Owner or nominal holder authorized by the Owner to receive the amounts of Bonds yield payment (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.).

The Holder independently monitors the completeness and actuality of bank account details provided by it to NDC. Should the said details fail to be submitted, or fail to be submitted in due time to NDC, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim. In such a case the Issuer fulfils the obligations under the Bonds on the basis of NDC's data.

Within 2 (two) working days before the date of Bond Yield payment, the Issuer transfers the appropriate money to the Payment Agent's account.

On the basis of the list of Bond Holders for coupon yield payment, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each of the Bond Holders authorized to receive Bond Yields.

On the date of Bond Yield payment, the Payment Agent transfers the appropriate monies to the accounts of Bond Holders in favour of Bond Owners.

If one person is authorized to receive Bond Yields for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

No coupon yield on unfloats Bonds shall be accrued or paid.

Issuer's obligations to pay the respective coupon yield under the Bonds shall be considered as executed and fulfilled from the moment the money is written off from the Issuer's account and/or from the correspondent account of the Payment Agent for payment of the coupon yield in favour of the Bond Holders.

Execution of the obligations under the Bonds in respect of a party included in the List of Bond Holders for coupon yield payment shall be considered as due and proper also in case of alienation of Bonds after the date on which the above List was made up.

Security for bonds of the issue: The acquisition of Bonds means that the acquirer of Bonds makes a contract, under which a security of the Bonds issue is provided. With the passage of the title to the Bond, the acquirer also receives the rights under the said Contract in the same scope and on the same conditions that exist as of the moment of the passage of the title to the Bond.

An Offer of Providing a Security in the form of a surety for the purposes of the Bonds issue by OJSC North-West Telecom shall serve as the document confirming the provision by the limited liability company Trubsnab of a security for the purposes of the Bonds issue.

Rights granted by each of the securities of the issue:

A Bond holder is entitled to get the face value according to the procedure and within the time determined in Clause 9.2. of the Decision on the securities issue and in Clause 9.1.2. of the securities Offering Circular.

A Bond holder is entitled to get the coupon yield, the procedure of its determining being described in Clause 9.3. of the Decision on the securities issue and in Clause 9.1.2. of the securities Offering Circular.

The Bond Holders are entitled to demand that the Issuer acquire Bonds within the period established by it in the Decision on the securities issue, which is at least 5 (five) last days of the 12 (Twelfth) coupon period.

In case of Issuer's failure to fulfil or to duly fulfil the obligations of payment of the face value and yield payment under the Bonds of the issue, the Bond Owner shall be entitled to apply to the party providing security for the Bonds issue (the Warrantor) with the appropriate demand.

The Limited Liability Company "NWT-Finance" is the party providing security for the Bonds issue.

The Bond with the security in the form of a surety of NWT-Finance LLC provides to its owner all the rights ensuing from such security according to the security conditions determined in Clause 12.2. of the Decision on the securities issue and in Clause 9.1.2. of the securities Offering Circular. With the passage of the title to the secured Bond, the new Owner (acquirer) also receives the rights ensuing from such security. Any transfer of rights accrued from the surety provided is invalid without transfer of the rights to the Bond.

Possible actions of a Bond owner in the case of the default and / or technical default under the Bonds are shown in Clause 9.7 of the Decision on the securities issue and clause 9.1.2 of the securities Offering Circular.

A Bond owner is entitled to get the outstanding part of the face value of the Bond in case of liquidation of the Issuer in the sequence established by article 64 of the Civil Code of the Russian Federation. The outstanding part of the Bond's face value means above and hereinafter the difference between the face value of a Bond of the issue and the part of the face value of the Bond, that has been paid off to the Holders in compliance with the Decision on the securities issue and the securities Offering Circular.

A Bond owner is entitled to freely sell or otherwise alienate the Bond. Bond owners who bought Bonds during the floatation shall not be entitled to make transactions with Bonds prior to registration of the report on the results of the securities issue in compliance with the legislation of the Russian Federation.

The Bond owners are entitled to exercise other rights provided for by the laws of the Russian Federation.

Conditions and procedure of retirement:

1. Bonds Retirement Form:

The Bonds shall be repaid in the Russian Federation currency using non-cash instruments.

No possibility of choosing the form of Bonds retirement by their owners is provided for.

2. Procedure and Terms of Bonds Retirement including Retirement period:

Bonds retirement timing or procedure of determining it:

The face value of Bonds shall be retired in parts on the following dates (hereinafter referred to as the "Dates of retiring a respective part of the face value of Bonds"):

The 1820th (One thousand eight hundred twentieth) day from the starting date of Bonds floatation - retirement of the first part - 30 (thirty) per cent of the face value of the Bonds. The starting and completion dates of retirement of the first part of face value coincide;

The 2002nd (two thousand second) day from the starting date of Bonds of the issue floatation - retirement of the second part - 30 (thirty) per cent of the face value of the Bonds. The starting and completion dates of retirement of the second part of face value coincide;

The 2184th (Two thousand one hundred eighty fourth) day from the starting date of Bonds of the issue floatation - retirement of the last part -40 (Forty) per cent of the face value of the Bonds. The starting and completion dates of retirement of the last part of face value coincide;

The dates (procedure of fixing the dates) as of which the lists of Bonds Holders are made up for the purpose of their retirement:

Retirement of the appropriate part of the Bonds face value is effected in favour of Bond Owners who are such Owners as of the end of Depository's operation day preceding the third day before the day of the retirement of the appropriate part of the Bonds' face value (hereinafter referred to as the Date of Making up the List of Bond Holders for Retirement of a Part of the Bonds' Face Value).

If the owner's title to the Bonds are taken into account by the nominal holder of the Bonds and the nominal holder of the Bonds is authorized to receive the money from retirement of Bonds, the person authorized to receive the money from retirement of Bonds shall mean the nominal holder of the Bonds.

If the owner's title to the Bonds are not taken into account by the nominal holder of the Bonds or the nominal holder of the Bonds is not authorized by the owner to receive the money from retirement of Bonds, the person authorized to receive the money from retirement of Bonds shall mean the owner of the Bonds.

It is presumed that nominal holders, who are the depositors of the Depository, are authorized to receive Bonds retirement money. Not later than at 2.00 p.m. Moscow time on the 3rd (third) working day before the Date of Retirement of a Part of the Bonds Face Value, the depositors of the Depository, who are nominal holders and who are not authorized by their clients to receive Bonds retirement money, shall transfer to the Depository the list of Bond holders, that must contain all the details indicated below in the List of Bond Holders for Retirement of a Part of the Face Value.

A Bond Owner, if *it/else* is not a depositor of the Depository, may authorize a Bond holder who is a depositor of the Depository to receive amounts from yield payment and retirement of a part of the Bonds face value.

On the basis of the data available and/or submitted by depositors, the Depository shall make up the List of Bond Holders for Retirement of a Part of the Face Value, which List shall be submitted to the Issuer and/or to the Payment Agent no later than on the 2nd (second) working day before the Date of retirement of a part

of the Bonds face value. The List of Bond Holders for Retirement of a Part of the Face Value shall include the following details:

- a) full official name (official name for non-profit organizations, full personal name for an individual) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- b) the number of Bonds registered on the custody account of the Owner or on the inter-depository account of the nominal Bonds holder authorized by the Owner to receive the retirement amounts under the Bonds;
- c) location and mailing address of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- d) bank account details of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds, viz:
 - No. of the bank account;
 - name of the bank, with which the account is opened;
 - correspondent account of the bank, with which the account is opened;
 - location and mailing address of the bank;
- e) tax-payer's identification No. (INN, or TIN) of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds;
- f) tax status of the Owner or nominal holder authorized by the Owner to receive the retirement amounts under the Bonds (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)

Owners of the Bonds, their authorized representatives, including Depository's depositors, shall independently monitor whether the details of the bank account presented to the Depository are complete and up-to-date. Should the said details fail to be submitted, or fail to be submitted in due time to the Depository, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim.

In such a case the Issuer fulfils the obligations under the Bonds on the basis of Depository's data and the Issuer's obligations shall be considered as fulfilled duly and in full. Should the bank account details and the other data provided by the Owner or the nominal holder or available in the Depository, which are necessary for the Issuer to perform its obligations under the Bonds, do not make it possible for the Payment Agent to effect money transfer in due time, then such a delay shall not be considered as a delinquency in commitment of obligations under the Bonds. Then the Bond Owner is not entitled to demand any interest or any other compensation for such a delay in payment.

Other terms and the procedure of Bonds retirement:

Bonds are retired in the currency of the Russian Federation by transfer to the Bond Owners.

Not later than on the 2nd (second) working day before the Date of Retirement of a Part of the Bonds Face Value, the Issuer shall transfer the required monetary funds to the Payment Agent's account. On the basis of the list of Bond Holders, provided by the Depository, the Payment Agent calculates the amounts of money to be paid to each of the Bond Holders authorized to receive Bond retirement amounts.

On the date of Bonds face value partial retirement, the Payment Agent transfers the appropriate monies to accounts of Bond Holders in favour of Bond Owners.

If one person is authorized to receive Bond retirement amounts for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

Should the Date of Bonds Face Value Partial Retirement fall on a day off, irrespective of whether it is a national holiday or a day off for settlement operations, then payment of the due amount shall be effected on the first working day following the day off. The bondholder is not entitled to demand any interest or any other compensation for such a delay in payment.

Execution of the obligations under the Bonds in respect of a party included in the List of Bond Holders for Bonds Face Value Partial Retirement shall be considered as due and proper also in case of alienation of Bonds after the date on which the above List was made up.

Procedure and conditions of coupon yield payment:

 - account No.;
 - name of the bank, with which the account is opened;
 - correspondent account of the bank, with which the account is opened;
 - bank identification code of the bank, with which the account is opened;
 - tax-payer's identification No. (INN, or TIN) of the party authorized to receive the yield amounts under the Bonds;
 - tax status of the party authorized to receive the yield amounts under the Bonds (resident, non-resident with a permanent representative office in the Russian Federation, non-resident without a permanent representative office in the Russian Federation, etc.)

Owners of the Bonds, their authorized representatives, including Depository's depositors, shall independently monitor whether the details of the bank account presented to the Depository are complete and up-to-date. Should the said details fail to be submitted, or fail to be submitted in due time to the Depository, execution of such obligations shall be effected in favour of a person submitting the claim to obligations execution and being the owner of Bonds as of the date of submitting the claim.

In such a case the Issuer fulfils the obligations under the Bonds on the basis of Depository's data and the Issuer's obligations shall be considered as fulfilled duly and in full. Should the bank account details and the other data provided by the Owner or the nominal holder or available in the Depository, which are necessary for the Issuer to perform its obligations under the Bonds, do not make it possible for the Payment Agent to effect money transfer in due time, then such a delay shall not be considered as a delinquency in commitment of obligations under the Bonds. Then the Bond Owner is not entitled to demand any interest or any other compensation for such a delay in payment.

Within 2 (two) working days before the date of Coupon Yield payment under the Bonds, the Issuer transfers the appropriate money to the Payment Agent's account.

On the basis of the List of Owners and/or Nominal Holders of the Bonds provided by the Depository, the Payment Agent shall calculate the amounts of money to be paid to each of the persons included in the List of Owners and/or Nominal Holders of the Bonds.

On the date of payment of the coupon yield under the Bonds, the Payment Agent shall transfer the required monies to the accounts of the persons authorized to receive the yield under the Bonds, who are included in the List of Owners and/or Nominal Holders of the Bonds.

If one person is authorized to receive Bond Coupon Yields for several Bond Owners, then the entire amount is transferred to such a person without breakdown for each Bond Owner.

If the date of payment of the coupon yield under the Bonds falls on a day off, irrespective of whether this is a public holiday or a day off for settlement transactions, payment of the relevant amount of money shall be effected on the first working day following the day off. The owner of the Bond shall not be entitled to claim any interest or any other compensation for such a delay in payment.

8.8. Description of the Taxation Procedure for Income under Issuer's Securities That have been Floated and are to be Floated

The active law provides for the following taxation procedure for income on shares depending on the category of the share holder:

Taxation of earnings of individuals (RF tax residents, or non-residents receiving earnings from sources in the RF).

As per Article 208 of the RF Tax Code, dividends and interest received from a Russian organization, and earnings from sales of the Issuer's securities in and outside the RF are earnings subject to the individual income tax.

If a Russian organization is the source of the income gained in the form of dividend, such organization is considered the fiscal agent and establishes the amount of tax separately for each taxpayer in respect of each payment of the said income at a rate of 9 per cent according to the procedure provided for by article 275 of the RF Tax Code.

The tax amount is calculated on the basis of the total tax amount and each taxpayer's share in the total amount of the dividend. The total tax amount is defined as the product of the tax rate and the difference of the dividend amount to be distributed among the shareholders in the current tax period less the dividend amounts payable by the tax agent to a foreign organization and/or an individual non-resident of the RF in the current tax period, and the dividend amount received by the tax agent itself in the current reporting (tax) period.

Where a Russian organization as a tax agent pays dividends to an individual non-resident of the RF, a 30% tax rate is applicable to such payments as per paragraph 3 of Article 224 of the RF Tax Code.

In compliance with Article 214 of the RF Tax Code, the taxable base for each securities transaction or transaction involving futures contract financial instruments, where the basic asset is securities (futures and option stock exchange deals), shall be assessed separately. In this case, earnings received from the following transactions are included:

- purchase and sale of securities circulating in the organized securities market;
- purchase and sale of securities that are not circulating in the organized securities market.
- involving futures contract financial instruments, where the basic asset is securities;
- purchase and sale of investment shares of unit investment trusts, including their retirement;
- involving futures contract securities and financial instruments, where the basic asset is securities, made by the asset manager in favour of an individual founder of asset management.

Under paragraph 3 of article 214 of the RF Tax Code, the tax base – income (loss) from operations of sale and purchase of securities – is determined as the sum total of income from the aggregate of transactions with securities of the respective category, made during the taxation period, less the total amount of losses. The income (loss) is determined as the difference between the amounts gained from the sale of securities and the expenses for acquisition, sale and storage of securities, or property deduction assumed to reduce the earnings from the securities purchase and sale transaction.

The income from a transaction of sale and purchase of securities circulating in the organized securities market is reduced by the amount of interest paid for the use of attracted monetary funds, within the amounts calculated proceeding from the effective re-financing rate of the Central Bank of the Russian Federation. The loss from such a transaction is determined taking into account the limit of securities market price fluctuation. Securities circulating in the organized securities market include securities permitted for circulation among trade organizers having a license of the federal authority dealing with the securities market regulation.

When expenses cannot be included directly in expenses for acquisition, sale and storage of particular securities, the said expenses shall be distributed in proportion to the value estimate of the securities, to which the said expenses are related. If expenses cannot be proven by documents, the tax-payer is entitled to exercise the property tax deduction provided for by paragraph 1 of sub-clause 1, clause 1, article 220 of the RF Tax Code.

The property tax deduction, or the deduction in the amount of actually incurred expenses proven by respective documents shall be provided to the tax-payer when the tax is calculated and paid to the budget at the income payment source or upon expiry of the tax period when the tax return is submitted to the taxation authority. If there are several income payment sources, the property tax deduction shall be provided only a one income payment source at tax-payer's discretion.

When the taxation base for operations of purchase and sale of the securities is determined, it should be taken into account that the loss from operations with securities circulating in the organized securities market reduces the taxation base for operations of purchase and sale of the securities of the category Income from operations of purchase and sale of the securities that are not circulating in the organized securities market and that, as of the moment of their acquisition, were meeting the requirements established for securities circulating in the organized securities market, may be reduced by the amount of loss from operations of purchase and sale of the securities circulating in the organized securities market.

The taxation base for transactions involving futures contract financial instruments is defined as the difference of the positive and negative results obtained upon reassessment of liabilities and legal claims for the transactions executed and execution of futures contract financial instruments, allowing for the compensation for the services of stock exchange intermediaries and the stock exchange in opening the positions and keeping the accounts of the individual. In such cases, the taxation base will be increased by the amount of option money received for option transactions, and reduced by the amount of premiums paid under the said transactions.

When assessing the taxation base for securities transactions made by an asset manager, the taxpayer's costs shall also include sums paid to the asset manager as compensation and reimbursement for its costs incurred in the securities transactions.

Where transactions involving different categories of securities are made during asset management, or where other kinds of earnings appear (such as dividend or interest), the taxation base will be assessed separately for each securities category and each kind of earnings. Any costs that cannot be directly classified as reduction of earnings from transactions in securities of the appropriate category or a reduction of the appropriate kind of earnings shall be distributed in proportion to the share of each kind of earnings.

The taxation base for securities purchase and sale transactions and transactions involving futures contract financial instruments shall be assessed upon expiry of the tax period (i.e. year). Calculation of the tax payment of the tax is effected by the fiscal agent upon expiry of the tax period or when it pays money to the tax-payer before the expiry of the respective tax period. In such a case, the tax shall be paid from the share of earnings corresponding to the actual amount of the moneys paid. When payments are effected more than once in a tax period, the tax amount is calculated as a progressive total allowing for the previously paid tax amounts.

The asset manager shall be recognized as tax agent for earnings from securities transactions executed by such a manager. The taxation base for such transactions is assessed as of the tax period expiry date, as of the date of payment of the moneys before the tax period expiry. In such a case, the tax shall be payable within one month from the tax period expiry date or from the date of payment of the moneys (or transfer of securities). Where payments are made from assets under asset management before the expiry of the assets

management agreement, or before the tax period expiry, the tax will be paid from the portion of the earnings corresponding to the actual amount of monies paid to the founder of such asset management.

If it is impossible for the income payment source to deduct the calculated amount of tax from the taxpayer, the fiscal agent shall, within a month's time from the moment such a circumstance arises, notify in writing the taxation authority in the location where it is registered on the impossibility to effect the deduction and on the amount of the tax-payers debt. The tax in this case will be paid in two installments in equal proportions: the 1st installment payable within 30 days from the date of the tax payment notice served by the tax authority, and the 2nd installment, within 30 days from the 1st installment date.

The procedure of tax assessment for earnings from securities transactions is described in paragraph 1 of Article 225 of the RF Tax Code, according to which, the tax amount shall be assessed as a taxable basis percentage corresponding to the tax rate (30% or 9%).

Taxation of legal entities (both Russian and non-Russian organizations pursuing their business in the RF through permanent offices, and/or receiving earnings from sources in the RF).

In compliance with paragraph 1 of Article 250 of the RF Tax Code, earnings from interests in other organizations (as dividends), and earnings received from transactions involving futures contract financial instruments shall be considered as taxable non-sale earnings. In such cases, the date of the monies' receipt to the account (by the cash office) of the taxpayer shall be considered as the date of earnings receipt.

In compliance with paragraph 1 of Article 265 of the RF Tax Code, costs in the form of interest on debentures of any kind (including that on securities and other liabilities issued by the taxpayer), expenses of management of its own securities issue, servicing of its own securities, information supplied to the shareholders, and costs related to servicing of securities purchased by the taxpayer shall be considered as non-sale costs reducing the taxable base of the profit tax. The date of incurring non-sale costs related to the purchase of securities shall be the date of sale or other disposal of such securities.

The specific features of taxable base assessment for earnings received from interest in other organizations (dividends) are set forth in Article 275 of the RF Tax Code.

If a Russian organization is the source of income, such organization is considered the fiscal agent and establishes the amount of tax. In such cases, the tax amount deductible from the dividend recipient's earnings shall be assessed by the tax agent based on the total tax amount and the share of each taxpayer in the total dividend amount. The total tax amount is defined as the product of the 9% tax rate and the difference of the dividend amount to be distributed among the shareholders in the current tax period less the dividend amounts payable by the tax agent to foreign organizations and/or an individual non-resident of the RF in the current tax period, and the dividend amount received by the tax agent itself in the current tax period. When the difference is negative, no tax payment obligation occurs, and no compensation is made from the budget.

Where a Russian organization as a tax agent pays dividends to a non-Russian organization and/or an individual non-resident of the RF, the taxation base of the dividend recipient taxpayer shall be defined as the sum of dividends paid, with the rate of 15% or 30%, respectively, applicable hereto.

The specific details of taxation base assessment for securities transactions are set forth in Article 280 of the RF Tax Code.

The taxpayer's earnings from transactions of sale or other disposal of securities (retirement included) are assessed based on the price of sale or other disposal of the securities, and the sum of accumulated interest (coupon) income paid by the buyer to the taxpayer, and the sum of interest (coupon) income paid by the Issuer (maker) to the taxpayer. In this case, the income does not include the amounts of interest (coupon) income previously considered in the taxation.

Expenses related to the sale/other withdrawal of securities are determined proceeding from the securities acquisition price, sale costs, and the amount of the accrued interest (coupon) yield, paid by the taxpayer to the securities seller. In this case, the income does not include the amounts of interest (coupon) income previously considered in the taxation.

The actual price of sale or other disposal of the securities within the interval between the maximum and minimum price of transactions with the said securities registered by the trade administrator on the securities market as of the date of execution of the appropriate transaction, shall be deemed the market price for the taxation purposes. Where any securities traded on the securities market are sold below the minimum price on an established securities market, the minimum transaction price on an established securities market shall be assumed in the assessment of the financial result.

In respect of securities not traded on an established securities market, the actual price of sale or other disposal of the securities shall be assumed for taxation purposes, subject to meeting at least one of the following conditions:

1. if the actual price of the respective transaction is within the price interval for a similar security registered by the trade administrator on the securities market as of the date of execution of the respective transaction, if the trading in these securities was held by the trade administrator at least once in the last 12 months;

2. if the deviation of the actual price of the respective transaction is within 20% up or down from the weighted average price of similar securities calculated by the trade administrator according to the rules set by him, based on the trade results as of the date of execution of such transaction, or as of the date of the nearest trading completed before the day of execution of the respective transaction, if the trading in these securities was held by the trade administrator at least once in the last 12 months;

The taxation base for securities transactions shall be assessed by the taxpayer separately. The taxation base for operations with securities circulating in the organized securities market is determined separately from the taxation base for operations with securities that are not circulating in the organized securities market.

In case of sales or other disposal of securities, the taxpayer shall, independently and in accordance with the accounting policy adopted for taxation purposes, select one of the following methods of writing off the cost of the disposed-of securities to expenses:

1. according to the cost of the earliest acquisitions;
2. according to the cost of the latest acquisitions;
3. according to the cost of a unit.

Taxpayers having losses from securities transactions in the preceding tax period(s) may reduce the taxation base obtained in securities transactions in the reporting (tax) period. In this case, losses from transactions in securities not traded on an established securities market, which were incurred in the preceding tax period, may be used to reduce the taxation base from transactions in such securities, such base having been assessed in the reporting (tax) period. Losses from transactions in securities traded on an established securities market, which were incurred in the preceding tax period, may be used to reduce the taxable base from transactions of sale of this category of securities.

Income gained from operations with securities circulating in the organized securities market may not be lessened by expenses or losses from operations with securities that are not circulating in the organized securities market. Income gained from operations with securities that are not circulating in the organized securities market may not be lessened by expenses or losses from operations with securities circulating in the organized securities market.

As per Article 286 of the RF Tax Code, the tax is defined as the percentage of the taxation base corresponding to the tax rate. The tax amount for the tax period results shall be named by the taxpayer independently.

Based on the results of each reporting (tax) period, tax-payers calculate the amount of advance payment, proceeding from the tax rate and the taxable profit calculated as progressive total from the start of the taxation period till the end of the reporting (taxation) period. During the reporting period, taxpayers shall calculate the amount of the monthly advance payment.

If the taxpayer is a foreign organization receiving earnings from sources in the RF not related to a permanent office in the RF, the responsibility of assessing the tax amount, deducting such amount from the taxpayer's earnings and transferring the tax to the budget shall rest with the Russian organization paying the said earnings to the taxpayer. The tax agent assesses the tax amount for each payment (transfer) of monies or other receipt of earnings. If the source of the taxpayer's earnings in the form of dividend is a Russian organization, the responsibility of deducting the tax from the taxpayer's earnings and transferring it to the budget shall rest with such source of earnings. Furthermore, the tax advance payments shall be deducted from the taxpayer's earnings at each payment of such earnings. For earnings paid to taxpayers in the form of dividend, the tax deducted at the payment of such earnings shall be transferred to the budget by the tax agent effecting the payment within 10 days from such payment.

The tax on earnings received from securities transactions shall be paid upon expiry of the tax period within the time set for submitting tax returns for the respective tax period (not later than the 28th of March of the year following the expired tax period). Advance payments based on the results of the reporting period shall be paid within the time set for submitting tax returns for the respective period under report (within 28 days from the day of expiry of the respective tax period).

Monthly advance payments payable within the reporting period shall be paid no later than on the 28th day of each month of such a reporting period. Taxpayers calculating their monthly advance payments on the basis of actually received earnings shall pay such advance payments no later than on the 28th day of the month following the month, by the results of which the tax is calculated.

Part I. Adherence to the Corporate Governance Principles

1. Definition and Principles

The Company defines corporate governance as structures and processes in the field of Company management and its activities supervision, embracing the complex of relations between shareholders, the Board of Directors and the executive bodies of the Company and functioning for the purposes of ensuring a long-term growth of the shares value. It considers corporate governance as a means of improving the accessibility and reducing the value of attracted capital, enhancing operation efficiency and strengthening the reputation of the Company.

This Code contains provisions regulating the Company's corporate governance standards and is based on the Russian laws, including the Code of the Federal Commission for the Securities Market, and the principles of corporate governance recognized in the international practice, such as the Corporate Governance Principles in the OECD countries.

The Company's corporate governance is based on the following principles:

- **Reporting:** The Code provides for the accountability of the Company's Board of Directors to its shareholders and shall serve as guidelines for the Board of Directors in developing a strategy and in exercising the management and supervision of the activities of the Company's executive bodies.
 - **Equality:** The Company undertakes to protect shareholders' rights and to ensure equal attitude towards all shareholders. The Board of Directors shall enable all shareholders to get efficient protection in case of any infringement of their rights.
 - **Transparency:** The Company shall ensure a timely and reliable disclosure of information on all essential facts concerning Company's activities, including its financial position, results of the operation, structure of the ownership and management of the Company, as well as free access to such information for all interested parties.
 - **Liability:** The Company shall acknowledge the rights of other interested parties under the requirements of the laws.
 - **Ethical Conduct:** The Company undertakes to observe the generally accepted standards of business ethics in the corporate governance and business activities.
- The Company, its officials and all employees shall be guided in their activities by the requirements of the active law and by the ethic principles adopted in the business community.

2. Company's Bylaws

The structures, processes and practice of corporate governance shall be governed by the Articles of Association and the bylaws of the Company, including:

- Provisions on the General Meeting of Shareholders,
- Provisions on the Board of Directors,
- Provisions on the Auditing Committee,
- Provisions on the Managing Board,
- Provisions on Dividends on Shares,
- Provisions on Committees of the Board of Directors,

216

- Provisions on the procedure of large transactions, related party transactions, and transactions requiring approval by the Board of Directors according to the Articles of Association of the Company,
- Provisions on the procedure of issue of documents to shareholders.

The above bylaws of the Company have been prepared in compliance with the provisions of the active law and taking into account the basic provisions of the Code of the Federal Commission for the Securities Market and the corporate governance principles recognized in the international practice. All the above listed bylaws can be freely accessed on the Company's Internet site www.nytelecom.ru.

3. General Structure of Corporate Governance and Control

The structure of corporate governance shall ensure the strategic management of and efficient control over the executive bodies by the Board of Directors, as well as accountability of the Company's Board of Directors to the general meeting of the shareholders.

The general structure of Company's corporate governance and control includes:

- **General Meeting of Shareholders** – the supreme controlling body of the Company ensuring participation of shareholders in management of the Company and in its profit distribution.
- **Board of Directors** – the Company's controlling body responsible for development of the Company's strategy and providing supervision and control over the executive bodies' activities. The Company's Board of Directors shall form Committees implementing the functions of corporate governance, strategic development, reporting, auditing, remuneration, etc.
- **General Manager and Managing Board** – the Company's executive bodies responsible for management of the Company's routine operation and implementation of the strategy formulated by the Board of Directors.
- **Auditing Committee** - the Company's inspecting body monitoring the Company's business and reporting directly to the General Meeting of Shareholders.
- **Corporate secretary** - the Company's executive ensuring compliance by the controlling bodies with the requirements of internal provisions and external regulation, promoting efficient information exchange between the controlling bodies and executive bodies, and performing consultant functions for members of the Board of Directors and the top management. The Company's Articles of Association provide for the position of the Corporate Secretary.
- **Internal Audit Department** - the Company's division responsible for development and verification of efficiency of the Company's internal business control systems. The Department reports to the General Manager, and submits reports on audit results to the General Manager, Auditing Committee, and Board of Directors of the Company. The Provisions on the Internal Audit Department shall be approved by the Board of Directors; the Board of Directors shall also approve the appointment of its head.

4. Observing the Standards and Adhering to the Principles of Corporate Governance

Adherence to the corporate governance principles is an integral constituent of Company's business and business relations ethics, one of the most important conditions of improving the capitalization of the Company and, consequently, of the growth of its shareholders and employees' income.

The Company shall have a good image and exercise a deserved respect among both the Russian and international community, which is impossible without a conscientious adherence to the corporate governance principles, which establish a balance of the interests for shareholders, managers, the working team, contractors, creditors and state authorities.

The Company aspires at observing the high standards of corporate governance, taking into account the international and Russian advanced practices. The Company understands the importance of the corporate governance level both for improving the goodwill and for strengthening the economic position.

Development, control over the observance and periodic revision of the corporate governance policy and practice shall be ensured by the respective Committee of the Company's Board of Directors.

Part II. Proper Practice of the Operation of the Board of Directors and Executive Bodies

The Company considers the availability of an efficient, professional and independent Board of Directors an important element of good corporate governance. The Board of Directors cannot be substituted for talented managers or change the economic environment, in which the Company operates. However, it can influence the efficiency of operation through the general strategic management and control over the work of the executive bodies in the interests of the Company and its shareholders. The executive bodies responsible for the management of the Company's current activities play an important role in the management processes. In the opinion of the Company, efficient interaction between the management bodies and the executive bodies and a clear division of powers between them are the key factor in ensuring the proper corporate governance practice.

I. Board of Directors

- Authority.** The terms of reference of the Board of Directors shall be defined in the Company's Articles of Association in compliance with the active law and the recommendations of the Code of the Federal Commission for the Securities Market. The issues included in the terms of reference of the Board of Directors cannot be handed over to the collective or one-person executive body of the Company.
- Number.** The number of the members of the Board of Directors is established by the Company's Articles of Association. The number of the members may be changed, if appropriate changes are made in the Articles of Association. When determining the number of the members of the Board of Directors, the Company shall be guided by the fact that the professional level and a lucky combination of directors' business quantities are more important than their total number in the Board.
- Membership Criteria.** In accordance with the principles recognized in the corporate governance practice, the Board of Directors shall develop, approve and then revise annually a list of Board members qualification requirements (upon recommendation of the respective Committee of the Board of Directors).
- Election, Term of Office, and Termination of Office.** Members of the Board of Directors shall be elected by the annual general meeting of the shareholders by cumulative voting for a period of one year.

The Company considers that the same member of the Board of Directors may be elected an unlimited number of times, if this is in line with the interests of the Company and its shareholders. Experienced members of the Board, who thoroughly know how the Company operates, play an important role in ensuring proper management.

The general meeting of the shareholders may terminate the powers of only the entire Board of Directors.

- Names and Independence.** The composition of the Board of Directors shall ensure representation of various groups of shareholders, including minority shareholders.

The skills, experience and personal qualities of the members of the Board of Directors shall ensure their proper discharge of the duties by the Board in exercising control and developing the basic areas of the Company's activities and strategy. Each member of the Board of Directors shall have the necessary experience, knowledge, skills and a stainless reputation required to discharge the duties of a member of the Board and to organize efficient work of the entire Board in the interests of the Company and its shareholder. The composition of the Board shall ensure the representation of a wide range of knowledge and experience in the field of the Company's basic activities, the industry and the geographic regions of the activities. The Company shall do its best to include in the Board of Directors also specialists in the field of finance, who would be independent directors, not executives.

The Company considers that the Board of Directors shall be managed by a director who is not a executive.

The Board of Directors shall include no more than 20% of chief executives.

To ensure objectivity of decisions taken and to keep the balance of the interests of different groups of shareholders, the Board of Directors shall include several independent directors. The Code of the Federal Commission for the Securities Market shall serve as the basis for establishing independence of a director.

The Company shall consider a member of the Board of Directors as independent, if:

- he/she has not been an executive or employee of the Company for the last three years,
- he/she is not an executive of another company where any of the Company's executives is a member of the Human Resources and Compensation Committee of the Board of Directors,
- he/she is not an affiliated party of a Company executive,

- he/she is not an affiliated party of the Company, or an affiliated party of such affiliated parties,
 - he/she is not a party to any liabilities with the Company, under which he/she may acquire property (receivable moneys), the value of which is 10 or more percent of the total annual income of the said Director, apart from the compensation for participation in the activity of the Board of Directors,
 - he/she is not a large partner of the Company (a partner whose total amount of transactions with the Company over one year is 10 or more percent of the Company's assets book value),
 - he/she is not a representative of the government.
- The Company acknowledges that upon expiry of 7 years of acting as a member of the Company's Board of Directors an independent director can no longer be considered as independent.
- f. Committees** The Company establishes Committees of the Board of Directors implementing functions of corporate governance, strategic development, reporting, audit, compensations, etc.
- The activities of each Committee shall be governed by the respective Provisions on such a Committee, to be approved by the Board of Directors.

The Chairperson of the Committee shall be appointed by the Board of Directors at one of the meetings following the election of the new Board.

Each Committee shall present preliminary recommendations on the most important issues in the terms of reference of the Board of Directors. After each meeting, the Committees shall present minutes of the meeting to the secretariat of the Board of Directors.

g. Working Procedure. The Board of Directors shall hold meetings in compliance with the established work plan to be adopted at the start of the new Board's term of office, which shall ensure that its duties will be properly discharged. The Board of Directors shall hold meetings at least 12 times a year without restricting the maximum number of meetings.

Meetings of the Company's Board of Directors may be held in the form of joint attendance or correspondence voting. The form of holding a meeting shall be determined taking into account the importance of the issues of the agenda to be considered. Issues requiring a detailed discussion, such as approving the budget, approving the annual report on the preliminary basis, approving the priority areas of operation and strategies of the Company, the issues of convoking the general meeting of the shareholders, electing or re-electing the chairperson of the Board of Directors and a number of other issues shall be decided at meetings to be held in the form of joint attendance.

The procedure of convoking and holding meetings of the Board of Directors shall be governed by the Provisions on the Board of Directors. The Secretary of the Board of Directors shall see to it that all directors get exhaustive information in due time simultaneously with receiving a notice that a meeting of the Board of Directors is going to be held, however, 14 days before holding each meeting at the latest. The said period shall be reduced, if the law provides for shorter periods of holding a meeting of the Board of Directors. Such a period may also be reduced, if it is necessary to urgently solve any issues, provided neither member of the Board of Directors objects. The appropriate set of documents shall include the agenda proposed by the chairperson of the Board of Directors, detailed materials on each issue of the agenda required to take a grounded decision, as well as clear recommendations in respect of the necessary actions.

The Board of Directors shall keep minutes of its meetings, properly recording there the discussion of all issues; the minutes shall be signed by the chairperson of the Board and by the Secretary of the Board of Directors and shall include the results of voting for each name. The Company shall store all minutes of the meetings of the Board of Directors.

h. Self-appraisal. The Board of Directors attaches serious importance to appraisal of its work, and shall do its best for annual performance of such appraisal. In the course of the appraisal, both the work of the Board on the whole and the contribution of each individual member of the Board of Directors shall be evaluated, as well as the influence of such work on the results of the Company's activities. The appraisal process shall be organized by the respective Committee of the Board of Directors, while its results are to be discussed at a meeting of the Board of Directors. The Board of Directors may invite independent counsellors to render assistance in carrying out such an appraisal.

i. Instating and Inviting Consultants. The Company shall offer to newly elected members of the Board of Directors a programme of installing them in order to enable them to get familiarized with the Company's activities, areas of its business, etc., so that it could help new members of the Board of Directors in discharging the duties vested in them. The Board of Directors and its Committees shall have resources to engage independent consultants in legal, financial, etc. matters advising the Board as necessary.

j. Compensation. The remuneration of the members of the Board of Directors depends on personal participation of each member in the work of the Board of Directors and on the long-term development of the Company, and the remuneration mechanism shall not infringe upon the independence of directors. Upon recommendation of the respective Committee of the Board of Directors, the Board of Directors shall put forward for consideration by the general meeting of the shareholders the issue of the amount of remuneration to be paid to directors. All members of the Board of Directors shall have a contract with the Company. The Company shall disclose information on the remuneration of each member of the Board of Directors to the public.

The Company shall not give any loans, grants or credits to members of the Board of Directors.

k. Duties and Responsibility. Members of the Board of Directors shall act in good faith and with due care in the interests of the Company and all its shareholders on the basis of all the required information. Each director must participate in all meetings of the Board of Directors and Committees, in which he/she is a member.

Members of the Board of Directors undertake to abstain from any actions that will or may cause a conflict between the interests of such a member of the Board of Directors and the Company. If such a conflict takes place, the member of the Board of Directors undertakes to disclose the information on the conflict of interests to other members of the Board and to abstain from voting on such issues.

Members of the Board of Directors shall be provided with all necessary information on issues proposed for discussion by them. Any extra information shall be provided to members of the Board of Directors upon request within the shortest time possible.

The Company shall not prohibit members of its Board of Directors from being members of the Board of Directors (Supervisory Boards) of other companies, provided the discharge of other duties by directors does not prevent them from discharging their duties for the Company.

2. Executive Bodies

The Company acknowledges that the management of the Company's current activities requires a strong leader who shall act as the General Manager. It also acknowledges all challenges and tasks of management and the need to have a collective, not individual, approach in tackling such tasks. Therefore, the Company shall form a Management Board, which is to be chaired, according to the Articles of Association, by the General Manager.

a. Authority. The General Manager and the Management Board shall manage the current activities of the Company aimed at fulfilling the goals and tasks of the Company and implementing the strategy adopted by the Board of Directors, in compliance with the provisions of the Company's bylaws.
