THOMSON
FINANCIAL

With the agreement of the Supervisory Board, the Executive Board of the Prime Standard-listed consulting and software firm FJH AG (ISIN DE0005130108) has decided to implement part of the previously-announced capital increase as part of the company's overall financing concept. In the forthcoming week the company's equity capital, which currently stands at Euro 8,220,000, will be increased by just under 10 per cent based on the full exploitation of the powers granted from the approved Capital I and on the partial exploitation of the approved Capital II. Accordingly, 821,999 new individual shares will be issued without subscription rights at a price of Euro 2.07. The new shares will be offered to investors for subscription.

This capital-raising measure will flow some Euro 1.7 million into the company. The remaining part of the announced capital increase, worth a total of Euro 6-7 million, will be implemented over the course of the year. By staggering the capital-raising measures in this way, the company is ensuring a continuous inflow of capital, further strengthening the firm's capital base for restructuring activities and improving its equity capitalisation.
