Media release

Semiconductor-related business activities to remain at Unaxis

Pfäffikon SZ, July 6, 2005 – At its meeting today, the new Unaxis Board of Directors resolved to keep the company's semiconductor-related business activities, regardless of the purchase offers that have been received. The related negotiations with potentially interested buyers have been discontinued.

The Board of Directors is convinced that, given the existing product portfolio, an independent development of the Semiconductor Equipment segment within the Unaxis Group represents the best possible option for benefiting from the anticipated upswing in the market. The Semiconductor Equipment segment, which consists of the Wafer Processing and Assembly & Packaging (ESEC) divisions, will be developed further after completion of the current restructuring measures. Kenneth T. Barry, Chief Operating Officer (COO) of Unaxis, will remain head of the Semiconductor Equipment segment.

Unaxis – a globally leading high-tech company

Unaxis (SWX: UNAX) is a globally leading provider of production systems, components, and services for high-technology products based on core competencies in thin film and vacuum technology. Unaxis' commercial activities center on high-growth sectors such as protective coatings for precision tools and components (Coating Services), systems for producing vacuum and conveying process gases (Vacuum Solutions), production systems for data storage devices (Data Storage Solutions), optical components (Optics), and aerospace technology (Space Technology). Unaxis also deploys its core competencies as a major provider of semiconductor technology (Semiconductor Equipment). Unaxis currently employs approximately 6,800 individuals and, in its 2004 financial year, achieved sales of CHF 1,850 million. The company, headquartered in Pfäffikon SZ, Switzerland, has a globe-spanning infrastructure that encompasses centers of competency for research, development, and production in Europe, Asia, and the USA, as well as approximately 80 subsidiaries in 24 countries.
