## **FRUTAROM CONTINUES TO ACHIEVE GROWTH FOR THE TWENTY- SECOND CONSECUTIVE QUARTER**

**NET PROFIT GREW BY 90.6% COMPARED WITH  
THE SAME QUARTER LAST YEAR REACHING US\$ 6.8 M**

**NET MARGIN ROSE TO 10.6% COMPARED WITH 8.2% FOR THE SAME QUARTER IN 2004**

**SALES GREW 47.3% COMPARED WITH THE FIRST QUARTER IN 2004 REACHING  
US\$ 64.7 M**

Haifa, Israel – March 24, 2005. Frutarom (LSE: FRUTq, TASE: FRUT) today presented its first quarter 2005 results.

During the first quarter of 2005, Frutarom continued its trend of increased sales, profitability and profits for the twenty-second consecutive quarter. This growth in Frutarom's financial results is the result of the successful implementation of Frutarom's rapid growth strategy. This combines organic growth of core activities, at rates above the industry average, with strategic acquisitions of activities and know-how in the Company's main fields of business and in strategic geographic regions.

*Ori Yehudai, Frutarom Group's President and Chief Executive Officer*, said, "The good results are due to both the above-industry-average organic growth in our core activities, the successful integration of Flachsmann's activity; and the successful completion of the first phase of the integration of the Food Systems activity. This was acquired from IFF during the second half of 2004, during which the operations, sales and marketing, and research and development activities were integrated within Frutarom's divisions. Following the completion of this first phase, Frutarom started the second phase of leveraging the many cross-selling opportunities between the new customers and products, and Frutarom's existing customers and products. We estimate that the full impact of the cross selling will materialize over the next two years."

The acquisition of the European Food Systems activity, significantly expanded Frutarom's customer base; geographic reach in Europe and its product portfolio, including new and unique products that integrate flavors and natural functional food ingredients. The acquisition strengthened Frutarom's savory flavor offering, which is a growing segment of the food industry, and an area which Frutarom focuses on strengthening. Frutarom expects that the acquired Food Systems activity will significantly leverage and strengthen its position as a leading supplier, offering comprehensive solutions – tasty, natural and with well-being qualities – to leading food manufacturers. In that respect, *Mr. Yehudai* mentioned the recent launch of Frutarom's functional ice cream product range. These products combine fruits, natural flavor extracts and natural functional ingredients that enhance and support well-being. Examples include ice cream with aloe vera, "to support inner beauty", or with green tea for "stress relief".

**Mr. Yehudai** added, "We have invested considerable efforts and resources in implementing our growth strategy in order to achieve our ambitious goals. We believe that this will significantly strengthen our position as a leading global company. We will continue to focus on both large multinational customers, and on mid-size and local customers by providing superior, high quality and tailor-made services. We will persevere in strengthening our presence in developed markets, Western Europe and the United States. In addition, we are intensifying our activities in the fast growing emerging markets where we currently operate, as well as entering new emerging markets where the growth rate is higher the global average. We will continue to invest in developing new products and offer our customers a broad product portfolio consisting largely of natural products and new innovative products such as functional food ingredients."

Frutarom's sales in the first quarter of 2005 totaled US\$ 64.7 million, a 47.3% increase compared with the same quarter of 2004. The integration of the Food Systems activity acquired from IFF in Switzerland, Germany and France with the Frutarom Group's global operation contributed to the growth in sales. Furthermore, the continued accelerated growth trend in the Flavors Division, which typically has higher margins compared to fine ingredients products (reaching 64.3% of total sales in the first quarter of 2005 compared with 31.0% in 2004, as well as the **growth in the Fine Ingredients Division's sales, to which new, innovative high margin products developed in Frutarom's R&D labs contributed.**

Gross profit for the period rose 47.1% to reach US\$ 25.0 million compared with US\$ 17.0 million in the same quarter last year. Operating profit grew by 80.3% to US\$ 9.3 million compared with US\$ 5.1 million in the same period 2004, while operating margin rose to 14.3% compared with 11.7% for the same period in 2004. Net profit grew sharply by 90.6% reaching US\$ 6.8 million compared with US\$ 3.6 million. Net margin also grew from 8.2% in the first quarter of 2004 to 10.6%. Earnings per share reached US\$ 0.13 compared with US\$0.08 in the first quarter of 2004.

During the first quarter of 2005, Frutarom achieved cash flow from operating activities of US\$ 5.5 million, compared with US\$ 3.7 million in the first quarter of 2004.

**Yehudai concluded**, "Frutarom continued to be focused on implementing its rapid growth strategy combining organic growth of core activities, at rates above-industry average, with strategic acquisitions of activities and knowhow in its main fields of business and in strategic geographic regions. To achieve our goal of executing strategic acquisitions in the future, during the first quarter of 2005, we completed a US\$ 75.8 million (net) offering and registration of shares on the London Stock Exchange Official List. The proceeds from the offering together with the successful completion of the integration of the acquired activities form a solid base for realizing our rapid growth strategy and for ensuring our future growth. We will continue to invest substantial resources in identifying and executing potential acquisitions, and in achieving rapid growth in our core activities and reaching our ambitious goals in order to create value for our shareholders."

2004 was the fifth consecutive year of record results for Frutarom. This year the Company continued its trend of increased sales, profitability and profits following the successful implementation of Frutarom's rapid growth strategy combining organic growth of core activities with strategic acquisitions of activities and knowhow in its main fields of business and in strategic geographic regions.

According to Ori Yehudai, the Frutarom Group's President and Chief Executive Officer, "In 2004 Frutarom made further significant progress in positioning itself as one of the world's leading flavors and fragrances companies. The excellent results that Frutarom achieved are due to the double digit organic growth in core activities (as achieved in previous years), the successful integration of the Flachsmann activities acquired by Frutarom in 2003; and our focus on leveraging the cross selling possibilities from the recent acquisition of the Food Systems activity from International Flavors & Fragrances, Inc. ("IFF"). The activities and achievements of recent years coupled with the many cross selling opportunities serve as a solid foundation for Frutarom's continued future growth and prosperity.

During the second half of 2004, Frutarom completed the acquisition of IFF's Food Systems activity in Europe. The Food Systems business develops, produces and markets unique compounds of fruit and other natural ingredients used in a wide variety of food products. This acquisition significantly expanded Frutarom's multinational food and beverage customer base; geographic reach in Europe, including entry to new countries; and its product portfolio, including new and unique products that integrate flavors, natural functional food ingredients and food systems. Additionally, the acquisition strengthened Frutarom's savory flavor offering, which is a growing segment of the food industry, and which Frutarom will focus on strengthening. Frutarom estimates that the acquisition will leverage and strengthen its position as a leading global supplier to the food industry, offering natural, comprehensive solutions to leading food manufacturers, including a broad and innovative range of products for the functional food industry.

During the fourth quarter of 2004 the first phase of the integration of the Food System activity with Frutarom's existing activities ended, including transferring the production activity previously conducted by IFF in France to Frutarom's Food Systems production sites in Switzerland and Germany, and the integration of Frutarom's existing Food Systems activity in England. In addition, the sales and marketing and research and development teams in Europe were fully integrated. Following the completion of this first phase, Frutarom started the second phase of leveraging the many cross selling opportunities between the new customers and products and Frutarom's existing customers and products.

According to Yehudai, "In 2004, Frutarom's management completed a strategic planning process so as to redefine the Company's vision, goals and strategy for

the coming years, which will materially strengthen our position as a leading global company. The Company's management has set a revenues target of US\$ 500 - 600 million for 2008. This goal will be achieved by continuing to implement our rapid growth strategy of recent years, which includes accelerated growth in core activities, above-industry average growth, and by executing strategic acquisitions. Frutarom will continue to focus on both large multinational customers and on mid size and local customers by providing superior, high quality tailor-made service. Frutarom will persevere in strengthening its presence in developed markets, Western Europe and the United States, and intensify its activities in fast growing emerging markets where it currently operates, as well as entering additional countries. The Company will continue to offer a broad product portfolio consisting largely of natural products and new innovative products such as functional food ingredients."

Frutarom's sales<sup>(1)</sup> in 2004 totaled US\$ 196.8 million, a 41.2% increase compared with 2003, when sales reached US\$ 139.3 million. Gross profit during the period rose by 49.1% to reach US\$ 74.3 million compared with US\$ 49.9 million last year. Gross margin grew from 35.8% to 37.8%. Operating profit grew sharply by 75.2% to US\$ 22 million compared with US\$ 12.6 million in 2003, while operating margin improved to 11.2% compared with 9.0% last year. Net profit grew significantly by 96.1% to US\$ 15.8 million compared with US\$ 8 million in 2003. Net margin also grew from 5.8% in 2003 to 8.0% in 2004.

Yehudai emphasized that the growth in sales is impressive, particularly in comparison to the industry's average annual growth rates, ranging from 2% to 4%. In 2004 the growth in the Flavors Division's sales, which typically generate higher margins than fine ingredients products, as a proportion of Frutarom's total sales reached 56.4% this year (compared with 42.1% in 2002). The Fine Ingredients Division grew through its continued focus on developing innovative value-added products with higher than average margin. The ongoing improvement in efficiencies and synergies also contributed to the growth.

-----  
(1) Prepared in accordance with the consolidated financial reports of Frutarom Industries Ltd. which were prepared in accordance with the IFRS, as required by the UKLA

In 2004, Frutarom achieved a cash flow from operations of US\$ 17.3 million compared with US\$ 10.1 million in 2003. The cash flow was used to reduce debt, finance investments and grow the Company's cash balances.

Frutarom's equity as at December 31, 2004 totaled US\$ 78.7 million, which is 36.8% of the balance sheet, compared with US\$ 59.6 million as at December 31, 2003, or 42.4% of the balance sheet. The growth comes largely from the profit for the period.

During the fourth quarter, Frutarom's sales totaled US\$ 56.9 million, up 51.0% compared with the fourth quarter of 2003, when sales reached US\$ 37.7 million. Gross profit for the quarter rose by 52.6% to reach US\$ 20.2 million. Operating profit rose sharply by 246% to total US\$ 4.3 million, with gross margin reaching 7.5% compared with 3.3% during the same quarter in 2003. The fourth quarter's net profit also grew significantly by 275.7%, to total US\$ 3.0 million compared with US\$ 0.8 million in 2003. Net margin also rose sharply to reach 5.3% compared with 2.1% last year.

Frutarom's activity is characterized by seasonal fluctuations, generally with higher sales and profitability during the first half of the year and lower sales and margin during the second half. The impact of seasonality on the Company's results has steadily decreased in recent years as the Company has increased its sales of products such as savory flavors, functional food ingredients and natural pharma/nutraceutical extracts, which generally have lower seasonality in demand. The especially cold and wet summer that hit Europe in 2004 harmed the

sales of some Frutarom customers (mainly in beverages and ice cream). Nevertheless, Frutarom was still able to succeed in growing all of its core activities during the second half of the year.

Yehudai concluded, "Frutarom's management invests considerable resources in identifying and executing potential acquisitions and in achieving rapid growth in core activities to ensure that value is created for our shareholders. During the first quarter of 2005, Frutarom completed a US\$ 75.8 million (net) offering and registration of shares on the London Stock Exchange Official List. This offering added leading international investors to the Frutarom shareholder portfolio and strengthened our global position. The proceeds will be used largely to finance future strategic acquisitions as part of the implementation of Frutarom's strategy".

Dear Madam / Sir,

Re: Immediate report regarding an event or matter deviating from the normal course of business

1. Further to the immediate reports dated December 2, 2004, January 13, 2005, January 19, 2005, January 20, 2005 and January 23, 2005 regarding the Company's intention to raise capital by issuing ordinary shares in the Company ("shares") and the register of Global Depository Receipts ("GDRs") on the London Official List ("capital raising"), Frutarom Industries Ltd. ("the Company" or "Frutarom") hereby advises of the successful completion of the costing stage:
  - 1.1 As part of the offering, 12,000,000 ordinary shares in the Company (as shares or GDRs with each GDR representing one share) will be offered. The shares will be sold at a price of NIS 33.50 per share and the GDRs will be sold at a price of US\$ 7.63 per GDR ("the Offering Price"). The Shares offered include 10,000,000 new shares that will be issued by the Company and 2,000,000 existing shares that will be sold by ICC Handels AG of the ICC Group, the controlling interest in the Company. The Shares offered represent about 25.5% of the Company's issued and paid equity prior to the issue.
  - 1.2 The net consideration for the offering that the Company will receive (less underwriting fees and other expenses related to the offering) totals about US\$ 71 million. The Company will not receive any consideration whatsoever for the Shares offered for sales by ICC Handels AG.
  - 1.3 In addition to the Shares offered, the Company and ICC Handels AG granted the underwriter an over allotment option for the sales of up to 1,200,000 additional shares at the Offering Price. The option is divided into 600,000 new Shares that will be issued by the Company and 600,000 existing Shares to be sold by ICC Handels AG. The option can be exercised wholly or in part by a notice that will be given by UBS to the Company within 30 days from the offering date. The Shares offered within the framework of the option represent about 2.5% of the Company's issued and paid equity prior to the issue. If the option is executed the net consideration for the Offering that the Company will receive (less underwriting fees and other expenses related to the offering) is expected to total about US\$ 76 million.
  - 1.4 The Offering will be completed on February 8. Conditional trade in GDRs on the London Exchange is expected to begin today. Unconditional trade in GDRs on the London Exchange will begin on February 8 at 8:00 (GMT).
2. Date the Company first became aware of the matter: February 2, 2005 at 22:00.
