ELECTROCOMPONENTS PLC

Electrocomponents plc, the major international high service distributor, has today given a trading update at its Annual General Meeting.

Trading Update

We announced our results for the year ended 31 March 2005 on 25 May 2005 and provided a review of current trading as part of that announcement.

Since the year end, sales have continued to grow strongly on last year in North America, Asia, Japan and the smaller European businesses. Our businesses in France, Germany and Italy have shown some recovery in sales growth, but the rate has been variable. Sales of the UK business have declined by 3.5% with continuing pressure on margins. Overall Group sales have grown by 2.5%. Sales growth rates are adjusted for exchange rates and trading days.

The implementation of the Enterprise Business Systems project in the UK is progressing well with the system build phase, a major milestone, now complete.

We continue to be cautious on the trading outlook given the uncertainties in our major markets.
