INFORME DE REVISIÓN DE LOS CONTADORES PUBLICOS INDEPENDIENTES

A la Junta Directiva de
Manufacturas de Papel, C.A. (MANPA) S.A.C.A.

Hemos efectuado una revisión del balance general preliminar adicional consolidado que se acompaña y sus correspondientes notas de **Manufacturas de Papel, C.A. (MANPA) S.A.C.A. y Filiales** al 31 de diciembre de 2004, presentando como información complementaria conforme con lo establecido en la Resolución N° 157-2004 emitida por la Comisión Nacional de Valores de fecha 2 de diciembre de 2004. La preparación de dicho balance general preliminar adicional consolidado con sus notas es responsabilidad de la gerencia de la Compañía. Nuestra responsabilidad es emitir un informe de revisión sobre el balance general preliminar adicional consolidado con base en nuestra revisión.

Efectuamos nuestra revisión de acuerdo con la Norma Internacional de Revisiones N° 2400 (ISRE 2400). Esta norma requiere que planifiquemos y realicemos la revisión para obtener una seguridad moderada de que el balance general preliminar adicional consolidado no incluya errores significativos. Una revisión bajo esta norma consiste principalmente en averiguaciones hechas con el personal de la Compañía y procedimientos analíticos aplicados a datos financieros, por lo tanto tiene un alcance sustancialmente menor que un examen efectuado de acuerdo con las normas internacionales de auditoría, cuyo objetivo es la expresión de una opinión sobre los estados financieros tomados en su conjunto. No hemos efectuado una auditoría, y por consiguiente, no expresamos tal opinión.

También hemos emitido nuestro informe de auditoría en fecha 14 de febrero de 2005, en donde opinamos sobre los estados financieros consolidados de **Manufacturas de Papel, C.A. (MANPA) S.A.C.A. y Filiales** al 31 de diciembre de 2004 y 2003, y los resultados de sus operaciones y sus flujos de efectivo por los años terminados en esas fechas, de conformidad con las normas para la elaboración de estados financieros de las entidades sometidas al control de la Comisión Nacional de Valores.

Tal como se indica en la Nota 3 al balance general preliminar adicional consolidado adjunto, la gerencia de la Compañía se encuentra aún en proceso de evaluación del impacto de la aplicación de las siguientes normas internacionales: Norma Internacional de Información Financiera N° 1 "Adopción por primera vez de las Normas Internacionales de Información Financiera", Norma Internacional de Contabilidad N° 12 "Impuestos a las Ganancias", Norma Internacional de Contabilidad N° 16 "Propiedades, planta y equipo", Norma Internacional de Contabilidad N° 19 "Retribuciones a empleados" y Norma Internacional de Contabilidad N° 39 "Instrumentos financieros", por lo que no estamos en capacidad de revisar los efectos que estos asuntos pudieran tener sobre el balance general preliminar adicional consolidado de la Compañía, de haber alguno.

COMISION NACIONAL
DE VALORES
2005 JUN 28 PM 3:09
ARCHIVO
RECIBIDO

Tal como se indica en las Notas 1 y 2 al balance general preliminar adicional consolidado, la gerencia de la Compañía, a los fines de la Norma Internacional de Contabilidad Nº 29 "Información Financiera en Economías Hiperinflacionarias", consideró que la economía venezolana dejó de ser hiperinflacionaria a partir del 01 de enero de 2002, todo esto con base en la interpretación del pronunciamiento emitido por el Internacional Practice Task Force (IPTF) del Comité del Instituto Americano de Contadores Públicos de los Estados Unidos de Norteamérica.

Con base en nuestra revisión, y excepto por los asuntos indicados en el párrafo cuarto, nada ha surgido que nos indique que el balance general preliminar adicional consolidado que se acompaña, no ha sido razonablemente presentado, en todos su aspectos importantes, de acuerdo con las bases de presentación indicadas en las Notas 1, 2 y 3, en las cuales se describen cómo se han aplicado las Normas Internacionales de Información Financiera (NIIF), incluyendo los supuestos hechos por la gerencia sobre las normas e interpretaciones que se espera estén vigentes, y las políticas que se espera adoptar, cuando la gerencia prepare y presente su primer juego de estados financieros de acuerdo con las NIIF.

En la Nota 1 al balance general preliminar adicional consolidado se explica la existencia de la posibilidad de que el balance general preliminar adicional consolidado adjunto, presentado como información complementaria, requiera de ajustes antes de constituir la versión final del balance general primario de apertura de acuerdo con las Normas Internacionales de Información Financiera (NIIF). Según las NIIF, los estados financieros lo conforman un balance general, estado de resultados, estado de cambios en el patrimonio y un estado de flujo de efectivo, junto con la información financiera comparativa y las correspondientes notas explicativas; sólo esos estados financieros y sus notas considerados en su conjunto, pueden proporcionar una presentación razonable de la posición financiera de la Compañía, los resultados de sus operaciones y los flujos de efectivo, de acuerdo con las NIIF.

Este informe se emite únicamente para uso e información de la Junta Directiva de la Compañía y de la Comisión Nacional de Valores, sólo para los efectos de cumplir con lo establecido en la Resolución Nº 157-2004 emitida por la Comisión Nacional de Valores. Este informe, no debe ser utilizado con otro fin o ser proporcionado a otras personas no indicadas en este párrafo.

NOTAS AL BALANCE GENERAL PRELIMINAR ADICIONAL CONSOLIDADO AL 31 DE DICIEMBRE DE 2004
(EXPRESADAS EN MILES DE BOLIVARES)

1. RESOLUCION DE LA COMISION NACIONAL DE VALORES (CNV)

a. ***Presentación de estados financieros*** – El balance general preliminar adicional consolidado adjunto ha sido preparado por la gerencia de Manufacturas de Papel, C.A. (MANPA) S.A.C.A. y Filiales únicamente para fines de cumplir con lo establecido en la Resolución N° 157-2004 emitida por la Comisión Nacional de Valores (CNV), con fecha 2 de diciembre de 2004, la cual hace referencia a las Normas Internacionales de Información Financiera (NIIF) en vigor al 1 de enero de 2005.

Existe la posibilidad de que el balance general preliminar adicional consolidado adjunto, presentado como información complementaria, requiera de ajustes antes de constituir la versión final del balance general consolidado primario de apertura de acuerdo con NIIF.

Según las NIIF, los estados financieros lo conforman un balance general, estado de resultados, estado de cambios en el patrimonio y un estado de flujos de efectivo, junto con la información financiera comparativa y las correspondientes notas explicativas; sólo esos estados financieros y sus notas considerados en conjunto, pueden proporcionar una presentación razonable de la posición financiera de la Compañía, los resultados de sus operaciones y los flujos de efectivo, de acuerdo con las NIIF.

Los estados financieros primarios de la Compañía al 31 de diciembre de 2004 fueron preparados de acuerdo con las normas para la elaboración de estados financieros de las entidades sometidas al control de la Comisión Nacional de Valores de Venezuela, a esa fecha. Las normas para la elaboración de estados financieros de las entidades sometidas al control de la Comisión Nacional de Valores de Venezuela, usadas en la preparación de esos estados financieros difieren de las Normas Internacionales de Información Financiera (NIIF) en ciertos aspectos importantes; tales estados financieros primarios fueron considerados como la información base para la preparación del balance general preliminar adicional consolidado, a esa misma fecha, el cual se presenta en este informe.

Al preparar este balance general preliminar adicional consolidado según las NIIF, la gerencia de la Compañía utilizó su mejor conocimiento de lo que estima serán las normas e interpretaciones, hechos y circunstancias, así como políticas contables que serían aplicadas cuando la Compañía prepare su primer juego completo de estados financieros primarios presentados de acuerdo con las NIIF y por ende establezca su fecha de adopción y transición de acuerdo con lo indicado en la NIIF N° 1.

b. ***Cambios en las políticas contables*** – La incorporación de dichas normas ha resultado en el cambio de las siguientes políticas contables:

COMISION NACIONAL
DE VALORES

Consolidación:

- El balance general consolidado al 31 de diciembre de 2004, presentado a la Comisión Nacional de Valores, mostraba en otros activos circulantes la inversión en Valores y Acciones 1003, C.A. poseída en un 100%, la cual se encontraba registrada bajo el método de participación patrimonial. Considerando que esa inversión no cumple con lo establecido en la NIIF N° 5, "Activos no Corrientes Mantenidos para la Venta y Actividades Interrumpidas", la Compañía decidió consolidar el balance general de esa subsidiaria, incorporando los activos y pasivos que mantenía esa compañía.
- De acuerdo con las normas de la Comisión Nacional de Valores, las compañías poseídas en un 50% o más deben ser consolidadas; esta norma difiere con lo establecido en las Normas Internacionales de Contabilidad N° 27, 28 y 31, en las cuales exige una evaluación del control que se posee en las inversiones que mantiene la Compañía. Al efectuar la revisión del control sobre Manufacturas de Papel de Centroamérica, C.A. (domiciliada en Costa Rica), se concluyó que la misma es un negocio conjunto, y dado que la NIC 31, permite el registro de esta inversión por el método de participación patrimonial, se consideró presentarla por el método antes mencionado, desincorporando los activos, pasivos e intereses minoritarios de Bs. 10.271 millones, Bs. 8.558 millones y Bs. 1.712 millones, respectivamente, que esa compañía aportó al consolidado.
- Los estados financieros de las filiales del exterior fueron traducidos a bolívares mediante la conversión de las partidas monetarias y no monetarias del balance general a la tasa de cambio corriente, y para las cuentas de resultados el promedio de tasas de cambio del año correspondiente, en lugar de utilizar para las partidas no monetarias las tasas de cambio históricas tal como lo establecen los principios de contabilidad locales.

Inflación:

- Se consideró que la economía venezolana no es hiperinflacionaria, por lo que el monto de los activos y pasivos no monetarios al 31 de diciembre de 2001, en moneda constante a esa fecha, fueron considerados como la nueva base contable de estas partidas.

Presentación:

- La Compañía consideró apropiado utilizar la presentación sugerida del balance general establecida en la NIC 1.
- Adicionalmente, reclasificar ciertos activos y pasivos con la finalidad de presentarlos de acuerdo con las NIIF.

2. POLITICAS CONTABLES SIGNIFICATIVAS

Las principales políticas contables utilizadas por la Compañía para la preparación de su balance general preliminar adicional consolidado se resumen a continuación:

a. ***Consolidación*** – El balance general preliminar adicional consolidado adjunto al 31 de diciembre de 2004, incluye las cuentas de Manufacturas de Papel, C.A. (MANPA) S.A.C.A. y sus filiales totalmente poseídas: Vencaribbean Paper Products, Ltd. (domiciliada en Trinidad y Tobago), Valores y Acciones 1003, C.A. y Filiales, y Transporte Alpes, C.A.

Todas las transacciones significativas entre compañías han sido eliminadas en la consolidación.

Las compañías Manufacturas de Papel de Centroamérica, C.A. (domiciliada en Costa Rica) y Simco Recycling, Inc. (domiciliada en Estados Unidos de Norteamérica), ambas poseídas en un 50%, fueron consideradas negocios conjuntos de acuerdo con la NIC 31, y se registraron a través del método de participación patrimonial.

COMISION NACIONAL
DE VALORES
2011 JUN 29 PM 3:09
RECIBIDO

b. ***Efectos de la inflación*** – En fecha noviembre de 2001 el International Practice Task Force (IPTF) del Comité del Instituto Americano de Contadores Públicos de los Estados Unidos de Norteamérica, concluyó que Venezuela, por mostrar un índice acumulado de inflación en los últimos tres años menor de 100%, debería ser considerada como un país no inflacionario a partir del 1 de enero de 2002. Asimismo, con fecha septiembre 2004, el IPTF, ratificó su conclusión de que Venezuela siga siendo considerada como un país no inflacionario. Con base en esta conclusión, la gerencia de la Compañía a los fines de la Norma Internacional de Contabilidad N° 29 "Información Financiera en Economías Hiperinflacionarias", consideró que la economía venezolana dejó de ser hiperinflacionaria a partir del 01 de enero de 2002.

Producto de lo anterior, el monto de los activos y pasivos no monetarios al 31 de diciembre de 2001, en moneda constante a esa fecha, fueron considerados como la nueva base contable de estas partidas.

c. ***Traducción de los estados financieros de las filiales en el exterior*** – La Compañía determinó la moneda funcional de las filiales del exterior, de acuerdo con la NIC N° 21"Efecto de las Variaciones en los Tipos de Cambios de la Moneda Extranjera". En consecuencia, para su incorporación en el balance general preliminar adicional consolidado de la Compañía, los estados financieros de dichas filiales fueron traducidos a bolívares mediante la conversión de las partidas monetarias y no monetarias del balance general a la tasa de cambio corriente, y para las cuentas de resultados el promedio de tasas de cambio del año correspondiente. El efecto acumulado por traducción hasta el 31 de diciembre de 2004 se revirtió, tal como se indica en la Nota 3.

d. ***Propiedades, planta y equipos*** – Las propiedades, planta y equipos (excluyendo el mobiliario y equipo) se presentan a los valores de avalúos efectuados en agosto de 2002, por tasadores independientes especializados en la industria, actualizados hasta el 31 de diciembre de 2004 a través de la utilización de índices de devaluación para las maquinarias y equipos e índices de inflación para el resto de los activos.

La depreciación se calculará sobre la vida útil que estime la gerencia para los distintos componentes de los activos.

e. ***Inversiones*** – Las inversiones en compañías donde se tiene una participación menor del 20% y no se ejerce influencia significativa, son presentadas al costo, y los dividendos en efectivo son tratados como ingresos en el año en que se reciben. Las inversiones donde se posee una participación menor al 50% y mayor al 20%, y se ejerce influencia significativa, son presentadas por el método de participación patrimonial.

La Compañía evalúa el valor de las inversiones y aprovisiona aquellas inversiones que estima no obtendrán beneficios futuros.

f. ***Inventarios*** – Los inventarios han sido presentados al costo, determinado por el método de costo promedio, el cual no excede su valor de recuperación.

g. ***Efectivo y equivalentes de efectivo*** – La Compañía considera como equivalentes de efectivo las inversiones en depósitos a plazo con vencimientos inferiores a tres (3) meses.

h. ***Apartado para cuentas de cobro dudoso*** – La Compañía mantiene un apartado para cuentas de cobro dudoso sobre las cuentas por cobrar al nivel que la gerencia considera adecuado de acuerdo con el riesgo potencial de cuentas incobrables. La gerencia evalúa los niveles de incobrabilidad con base en los factores que podrían afectar la cobrabilidad de los montos facturados. La antigüedad de

COMISION NACIONAL DE VALORES
2005 JUN 29 PM 3:09
RECIBIDO

las cuentas por cobrar y la situación de los clientes son constantemente monitoreados para asegurar lo adecuado de la provisión en el balance general adicional preliminar consolidado.

i. ***Apartado para prestaciones de antigüedad*** – El apartado para prestaciones de antigüedad comprende el 100% del pasivo relacionado con los derechos adquiridos según la Ley Orgánica del Trabajo.

j. ***Transacciones en moneda extranjera*** – Las transacciones en moneda extranjera son registradas en bolívares usando los tipos de cambios aplicables vigentes en las fechas en que las mismas son realizadas. Los saldos en moneda extranjera al cierre del ejercicio son expresados en bolívares usando los tipos de cambios aplicables vigentes a esa fecha; las diferencias en cambio resultantes se llevan a resultados.

k. ***Valor razonable del efectivo y equivalentes de efectivo, efectos y cuentas por cobrar y por pagar*** – Los valores en libros reportados en el balance general preliminar adicional consolidado para efectivo y equivalentes de efectivo, efectos y cuentas por cobrar y por pagar, se aproximan a sus valores razonables debido a los vencimientos a corto plazo de dichos instrumentos financieros.

l. ***Uso de estimaciones en la preparación del balance general preliminar adicional consolidado*** – La preparación del balance general preliminar adicional consolidado de conformidad con las NIIF requiere el uso de estimaciones por parte de la gerencia, las cuales afectan las cifras de activos y pasivos, su divulgación, y los montos de ingresos y gastos. Los resultados finales podrían variar de las citadas estimaciones.

3. PRIMERA ADOPCIÓN DE LAS NORMAS INTERNACIONALES DE INFORMACION FINANCIERA (NIIF) DE ACUERDO CON LA RESOLUCIÓN Nº 157-2004

Normas en proceso de evaluación:

Al 31 de diciembre de 2004, aún se encuentra en proceso de evaluación del impacto de las siguientes NIIF:

a) Norma Internacional de Información Financiera Nº 1: "Adopción por primera vez de las Normas Internacionales de Información Financiera".
b) Norma Internacional Nº 39: "Instrumentos financieros".
c) Norma Internacional Nº 16 y Norma Internacional Nº 36: "Propiedades, planta y equipos" y "Deterioro de valor", respectivamente.
d) Norma Internacional Nº 19: "Retribuciones de empleados".
e) Norma Internacional Nº 12: "Impuestos a las Ganancias".

Exenciones utilizadas por la Compañía en la aplicación de las Normas Internacionales de Información Financiera, de acuerdo con lo establecido en la NIIF Nº1:

La NIIF Nº 1 "Adopción por primera vez de las Normas Internacionales de Información Financiera", permite a las compañías que adopten por primera vez las NIIF, la elección de usar ciertas exenciones en la aplicación de las mismas. La Compañía evaluó los tratamientos contables permitidos y para el balance general preliminar adicional consolidado solo ha elegido utilizar la exención indicada abajo, sin embargo se encuentra en proceso de evaluar la posibilidad de incorporar otras exenciones, de acuerdo con lo permitido en dicha norma.

COMISION NACIONAL DE VALORES

2005 JUL 14 PM 3:38

ARCHIVO RECIBIDO

Caracas 14 de julio de 2005.

Señores
COMISION NACIONAL DE VALORES
Ciudad.-

Atención: REGISTRO NACIONAL DE VALORES

El presente tiene como finalidad informarles que no pudimos cumplir con lo establecido en la resolución No 68-2005 de fecha 08 de junio de 2005 y publicada en la Gaceta Oficial No 38.218 del 29 de junio de 2005, la cual reforma la Resolución No 157-2004 de fecha 02 de diciembre de 2004 al incluir el Estado de Resultados con sus notas explicativas por el ejercicio 2004 de conformidad con las Normas Internacionales de Información Financiera (NIIFs) que debía presentarse el 30 de junio de 2005 conjuntamente con el Balance General.

La razón de nuestro incumplimiento se debió al escaso tiempo existente entre el momento en que apareció publicada en Gaceta Oficial la Resolución No 68-2005 (29 de junio de 2005) y la fecha de entrega de la nueva información solicitada (30 de junio de 2005) . No obstante, hemos estado trabajando en la preparación de la misma y para el miércoles 27 de julio podremos entregarles el Balance de Resultados del año 2004 de conformidad con las Normas Internacionales de Información Financiera (NIIFs) con establece la Resolución No 68-2005.

[Letterhead of Deloitte]

REVISION REPORT BY THE INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors of

Manufacturas de Papel, C.A. (MANPA) S.A.C.A.

We have carried out a revision of the preliminary additional consolidated balance sheet attached hereto together with its corresponding notes of **Manufacturas de Papel, C.A. (MANPA) S.A.C.A.** at December 31, 2004 submitted as supplementary information pursuant to the provisions of Resolution No.157-2004 issued by the National Securities and Exchange Commission as of December 2, 2004. Preparation of such preliminary additional consolidated balance sheet together with its corresponding notes is the

responsibility of Company management. Our responsibility is to issue a revision report on said preliminary additional consolidated balance sheet based on our review.

We have carried out our review pursuant to the International Standards for Revisions No.2400 (ISRE2400). These standards require us to plan and carry out the review to obtain a reasonable assurance that the preliminary additional consolidated balance sheet is exempted from material mistakes. A review under this standard mainly consists of researches made to the Company personnel and analytical procedures applied to financial data; therefore, it has a significantly lesser scope than an assessment made according to international audit standards, which objective is to give an opinion about the financial statements considered as a whole. We have not carried out an audit, and therefore, we do not state such opinion.

We have also issued our audit report as of February 14, 2005 in which we give our opinion about the consolidated financial statements of **Manufacturas de Papel, C.A. (Manpa) S.A.C.A. and Affiliates** at December 31, 2004 and 2003 and the results from their operations and their cash flows for the years ended on those dates, pursuant to the standards to prepare financial statements of organizations subject to control by the National Securities and Exchange Commission.

As indicated in Note 3 to the preliminary additional consolidated balance sheet attached hereto, the Company management is still in the process of evaluating the impact of applying the following international standards: International Standard for Financial Information No. 1 "First-Time Use of International Standard for Financial Information"; International Accounting Standard No. 12 "Tax on Earnings"; International Accounting Standard No. 16 "Property, plant and equipment", International Accounting Standard No. 19 "Employee salaries" and International Accounting Standard No. 39 "Financial instruments". Therefore, we are unable to review the effects these matters may have on the financial information, if any.

As indicated in Notes 1 and 2 to the preliminary additional consolidated balance sheet, the Company management considered, for the purposes of the International Accounting Standards No. 29 "Financial Information for Hyper-Inflationary Economies", that the Venezuelan economy stopped being inflationary from January 1, 2002. All of this was

based on an interpretation of the statement by the International Practice Task Force (IPTF) of the Committee of the American Institute of Public Accountants of the United States.

Based on our review, and except for the matters indicated in the fourth paragraph, nothing has occurred that indicates that the preliminary additional consolidated balance sheet attached hereto, have not been reasonably presented, in all their material matters, pursuant to the presentation basis indicated in Notes 1, 2 and 3 which describe how the International Standards for Financial Information (NIIF) have been applied, including the alleged facts by the management in regard to the standards and interpretations expected to be in effect, and the policies expected to be enforced when the management prepares and presents its first set of financial statements according to the NIIFs.

Note 1 of the preliminary additional consolidated balance sheet explains the possibility that the attached preliminary additional consolidated balance sheet attached hereto, presented as additional information requires adjustments before becoming a final version of the primary balance sheet of opening pursuant to the International Standards for Financial Information (NIIF). As stated by the NIIFs, the financial statements include a balance sheet, an income statement, a statement of changes in the shareholders' equity and a cash flow statement, together with the comparative financial information and the corresponding explanatory notes. Only those financial statements and their notes considered as a group can be a reasonable presentation of the financial position of the Company, the results of its operations and the cash flows, according to the NIIFs.

This report is only issued for the use and information of the Board of Directors of the Company and of the National Securities and Exchange Commission, for the sole purpose of complying with the provisions set forth in Resolution No. 157-2004 issued by the National Securities and Exchange Commission. This report should not be used with other purpose or be given to people not mentioned in this paragraph.

LARA MARAMBIO & ASOCIADOS

MANUFACTURAS DE PAPEL, C.A. (MANPA) S.A.C.A. AND SUBSIDIARIES

NOTES TO THE PRELIMINARY ADDITIONAL CONSOLIDATED BALANCE SHEET AT DECEMBER 31, 2004

(STATED IN THOUSAND BOLIVARS)

1. **RESOLUTION BY THE NATIONAL SECURITIES AND EXCHANGE COMMISSION (CNV)**

   a. ***Presentation of financial statements*** – The preliminary additional consolidated balance sheet attached hereto have been prepared by the management of Manufacturas de Papel, C.A. (Manpa) S.A.C.A. and Affiliates for the sole purposes of complying with the provisions of Resolution No. 157-2004 issued by the National Securities and Exchange Commission (CNV) as of December 2, 2004 which refers to the International Standards for Financial Information (NIIF) in effect at January 1, 2005.

It is possible that the preliminary additional consolidated balance sheet attached hereto, presented as supplementary information, requires adjustments before being the final version of the primary consolidated balance sheet of the opening agreement with the NIIFs.

According the NIIFs, the financial statements include a balance sheet, an income statement, a statement of changes in the shareholders' equity and a cash flow statement, together with the comparative financial information and the corresponding explanatory notes. Only those financial statements and their notes as a whole may provide a reasonable presentation of the financial position of the Company, the results from their operations and the cash flows, as stated by the NIIFs.

The primary financial statements of the Company at December 31, 2004 were prepared according to the standards to prepare financial statements for organizations subject to control by the National Securities and Exchange Commission of Venezuela at that date. The standards to prepare financial statements of organizations subject to the control of the National Securities and Exchange Commission of Venezuela used when preparing these financial statements differ from the International Standards for Financial Information (NIIF) in certain significant matters; such financial statements were considered as core information to prepare the preliminary additional consolidated balance sheet at that same date, which is presented herein.

When preparing the preliminary additional consolidated balance sheet according to the NIIFs, the Company management used its best knowledge of what it estimates it would be the standards and interpretations, facts and circumstances, as well as accounting policies that would apply when the Company prepares its first complete set of primary financial statements presented in compliance with the NIIFs, and therefore sets forth its date of enforcement and transition according to the provisions set forth in the NIIF 1.

b. ***Changes in the accounting policies*** – Incorporation of such standards have resulted in the change of the following accounting policies:

Consolidation:

- The consolidated balance sheet at December 31, 2004 presented to the National Securities and Exchange Commission indicated in Other current assets the investment in "Valores y Acciones 1003, C.A." 100% owned, which was registered under the method of shareholders' equity participation. Considering that that investment does not comply with the provisions of NIF No.5, "Current Assets Kept for Sale and Uninterrupted Activities", the Company decided to

consolidate the balance sheet and the income statement of that affiliate, incorporating the accounts that company held.

- According to the standards by the National Securities and Exchange Commission, the companies 50% owned or more have to be consolidated; this standard differs from the provisions of the International Accounting Standards (NIC) No. 27, 28 and 31 which demand an assessment of the control owned on the investments the Company keeps. When making the control review on Manufacturas de Centroamérica, C.A. (domiciled in Costa Rica), it was concluded that it is a joint business, and provided that the NIC 31 allows for registering this investment using the method of equity participation, it was considered to present it using the abovementioned method, disposing assets, liabilities, minority interests, sales and sale costs amounting to Bs.10,271 million, Bs.8,558 million, Bs.1,712 million, respectively, that such company provided to the consolidated.
- Financial statements of affiliates abroad were translated into bolivars by converting monetary and non-monetary entries of the balance sheet at the current exchange rate, and by using the average exchange rates of the corresponding year for the income statement instead of using the historical exchange rates for non-monetary entries as set forth by the local accounting principles.

Inflation:

- It was considered that the Venezuelan economy is not hyper-inflationary; therefore, the amount of non-monetary assets and liabilities at December 31, 2001 in constant currency at that date were considered as the new accounting base of these entries.

Presentation:

- The Company considered appropriate to use the presentation suggested in the balance sheet and the income statement as set forth in NIC 1.
- In addition, certain assets, liabilities and income items were reclassified in order to present them according to the NIIF.

2. SIGNIFICANT ACCOUNTING POLICIES

The main accounting policies used by the Company to prepare the attached preliminary additional consolidated balance sheet are summarized herein bellow:

a. ***Consolidation*** – The attached preliminary additional consolidated balance sheet at December 31, 2004 include the accounts of Manufacturas de Papel, C.A. (MANPA) S.A.C.A. and its affiliates fully owned: Vencaribbean Paper Products, Ltd (domiciled in Trinidad and Tobago), Valores y Acciones 1003, C.A. and Affiliates, and Transporte Alpes, C.A.

All the significant transactions among companies have been eliminated during the consolidation.

The companies Manufacturas de Papel de Centroamérica, C.A. (domiciled in Costa Rica) and Simco Recycling, Inc. (domiciled in the United States of America), both 50% owned, were considered joint business according to the NIC 31, and they were registered by using the method of shareholders' equity participation.

b. ***Effects for Inflation*** – As of November 2001 the International Practice Task Force (IPTF) of the Committee of the American Institute of Public Accountants of the United States concluded that Venezuela, for it indicated an accumulated inflation index during the last three years of less than 100% should be considered as a non-inflationary country from January 1, 2002. Likewise, as of September 2004 the IPTF ratified its conclusion that Venezuela keeps being considered a non-inflationary country. Based on this conclusion, the Company management as for the purposes of the International Accounting Standard No.29 "Financial Information in Hyper-Inflationary Economies" considered that the Venezuelan economy stopped being hyperinflationary from January 1, 2002.

Therefore, the amount of non-monetary assets and liabilities at December 31, 2001 in constant currency at that date was considered the new accounting base of these entries.

c. ***Translation of financial statements from affiliates abroad*** – The Company determined the operating currency of foreign affiliates pursuant to the provisions of the NIC No.21 "Effect of Variations in the Types of Exchange of Foreign Currency". Consequently, in order to be incorporated

to the attached financial information, the financial statements of such affiliates were translated into bolivars by converting the monetary and non-monetary entries of the balance sheet to the current exchange rate whereas the average of the exchange rates of the corresponding year was used in the case of the income account. The accumulated effect for translation until December 31, 2004 was reverted as indicated in Note 3.

d. ***Property, plant and equipment*** - Property, plant and equipment (except for furniture and equipment) were presented at the value of appraisals made in August 2002, by independent appraisers specialized in the industry, updated at December 31, 2004 by using devaluation indexes for machinery and equipment and inflation indexes for the rest of assets.

Depreciation will be calculated based on the useful life used for the different components of assets.

e. ***Investments*** – Investments in companies where participation is less than 20% and does not significantly mean any influence are presented at cost and cash dividends are treated as income in the year they are paid. Investments where participation is less than 50% and higher than 20% and which exert a significant influence are presented by the method of equity participation.

The Company assesses the value of investments and provisions those investments which future benefits are not considered.

f. ***Inventories*** – Inventories have been presented at cost, determined by the average cost method which does not exceed its recovery value.

g. ***Cash and cash equivalents*** – The Company considers as cash equivalents the investments in term deposits with maturity of less than three (3) months.

h. ***Provision for doubtful accounts*** – The Company has a provision for doubtful accounts on accounts receivable at the level the management deems appropriate according to the potential risk of uncollectible accounts. The management assesses the levels of uncolletability based on the

factors that may impact collectability of the amounts invoiced. Seniority of accounts receivable and the situation of clients are constantly monitored to assure the appropriateness of the provision in the preliminary additional consolidated balance sheet.

i. ***Provision for seniority payments*** – The provision for seniority payment includes 100% of the liabilities related to the rights acquired as per the Organic Labor Law.

j. ***Transactions in foreign currency*** – Transactions in foreign currency are registered in bolivars using the applicable exchange rates in effect on the dates transactions are made. Balances in foreign currency at closure of the fiscal year are stated in bolivars using the applicable exchange rates in effect at that date; the resulting exchange differences are carried forward to results.

k. ***Reasonable value of cash and cash equivalents, bills and accounts receivable or payable*** – The book values reported in the preliminary additional consolidated balance sheet for cash and cash equivalents, bills and accounts receivable and payable are approximate to their reasonable values due to the short-term maturities of such financial instruments.

l. ***Use of estimations to prepare the attached preliminary additional consolidated balance sheet***– Preparing the attached preliminary additional consolidated balance sheet pursuant to the NIF requires using estimations by the management, which impact the figures of assets and liabilities, their disclosure and the amounts of income and expenses. The final results of the aforementioned estimations may vary.

3. FIRST USE OF INTERNATIONAL STANDARDS FOR FINANCIAL INFORMATION (NIF) PURSUANT TO RESOLUTION No. 157-2004

Standards under evaluation:

At December 31, 2004 the management is still in process of evaluating the impact of the following NIIF:

a) International Standard for Financial Information No.1: "First-Time Use of International Standard for Financial Information."
b) International Standard No. 39: "Financial Instruments."
c) International Standard No. 16 and International Standard No. 36: "Property, plant and equipment" and "Deterioration of value", respectively.
d) International Standard No. 19: "Employee Salaries."
e) International Standard No. 12: "Tax on Earnings."

Exemptions used by the Company when applying the International Standards for Financial Information, pursuant to the provisions set forth by NIIF 1:

The NIIF 1 "First-Time Use of International Standard for Financial Information" allows a company for first-time using the NIIFs, choosing certain exemptions to apply them. The Company evaluated the accounting treatments allowed and, in the case of the attached information, only the exemption indicated herein bellow was used. However, the possibility to incorporate other exemptions, pursuant to the provisions of such standard, is being considered.

- Accumulated effect for translation of foreign affiliates – the Company decided to revert the registered accumulated effects for translating all its affiliates abroad.

Impact of the transition on the preliminary additional consolidated shareholders' equity:

Shareholders' equity pursuant to the CNV standards	560,670,334
Reverse of the effect from translating foreign affiliates	3,733,881
Reverse of net effect for adjustments for inflation up to December 31, 2001	(1,278,749)
Others, net	(50,765)
Shareholders' equity as per additional preliminary balance	563,074,701

Translator's note:

At the upper right margin of the original pages there is a wet seal that reads as follows: "National Securities and Exchange Commission. 2005 June 29 PM 3:09. FILE.

RECEIVED." ----------

The foregoing is the true and exact translation of the attached document IN WITNESS WHEREOF I have hereunto set my hand and affixed my seal in Caracas, today, July 12th, 2005.

Notes	5-9

[Letterhead of Deloitte]

REVISION REPORT BY THE INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Directors of

Manufacturas de Papel, C.A. (MANPA) S.A.C.A.

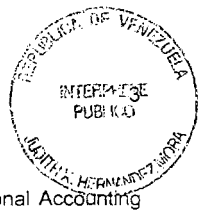

We have carried out a revision of the preliminary additional consolidated balance sheet at December 31, 2004 and of the preliminary additional consolidated income statement for the year ended at December 31, 2004 attached hereto together with the corresponding notes of **Manufacturas de Papel, C.A. (Manpa) S.A.C.A. and Affiliates** submitted as supplementary information pursuant to the provisions of Resolution No.68-2005 issued by the National Securities and Exchange Commission and published in Official Gazette of the Bolivarian Republic of Venezuela as of June 29, 2005. Preparation of such financial information is the responsibility of Company management. Our responsibility is to issue a revision report on said financial information based on our review.

We have carried out our review pursuant to the International Standards for Revisions No.2400 (ISRE2400). These standards require us to plan and carry out the review to obtain a reasonable assurance that the preliminary additional consolidated balance sheet and the preliminary additional consolidated income statement are exempted from material mistakes. A review under this standard mainly consists of researches made to the Company personnel and analytical procedures applied to financial data; therefore, it has a significantly lesser scope than an assessment made according to international audit standards, which objective is to give an opinion about the financial statements considered as a whole. We have not carried out an audit, and therefore, we do not state such opinion.

We have also issued our audit report as of February 14, 2005 in which we give our opinion about the consolidated financial statements of **Manufacturas de Papel, C.A. (Manpa) S.A.C.A. and Affiliates** at December 31, 2004 and 2003 and the results from their operations and their cash flows for the years ended on those dates, pursuant to the standards to prepare financial statements of organizations subject to control by the National Securities and Exchange Commission.

As indicated in Note 3, the Company management is still in the process of evaluating the impact of applying the following international standards: International Standard for Financial Information No. 1 "First-Time Use of International Standard for Financial Information"; International Accounting Standard No. 12 "Tax on Earnings"; International

Accounting Standard No. 16 "Property, plant and equipment", International Accounting Standard No. 19 "Employee salaries" and International Accounting Standard No. 39 "Financial instruments". Therefore, we are unable to review the effects these matters may have on the financial information, if any.

Pursuant to Resolution No. 68-2005 issued by the National Securities and Exchange Commission, the Company has to prepare and present a preliminary additional consolidated balance sheet and the income statement at the date of closure of the fiscal year 2004, which includes all the adjustments necessary to comply with the International Standards for Financial Information (NIIF). However, such financial information does not constitute an opening balance sheet, as the NIIF1 sets forth.

As indicated in Notes 1 and 2, the Company management considered, for the purposes of the International Accounting Standards No. 29 "Financial Information for Hyper-Inflationary Economies", that the Venezuelan economy stopped being inflationary from January 1, 2002. All of this was based on an interpretation of the statement by the International Practice Task Force (IPTF) of the Committee of the American Institute of Public Accountants of the United States.

Based on our review, and except for the matters indicated in the fourth and fifth paragraphs, nothing has occurred that indicates that the preliminary additional consolidated balance sheet and the preliminary additional consolidated income statement hereto, have not been reasonably presented, in all their material matters, pursuant to the presentation basis indicated in Notes 1, 2 and 3 which describe how the International Standards for Financial Information (NIIF) have been applied, including the alleged facts by the management in regard to the standards and interpretations expected to be in effect, and the policies expected to be enforced when the management prepares and presents its first set of financial statements according to the NIIFs.

Note 1 of the preliminary additional consolidated balance sheet and of the preliminary additional consolidated income statement explains the possibility that the attached financial information, presented as additional information, requires adjustments before becoming a final version of the primary balance sheet of opening pursuant to the

International Standards for Financial Information (NIIF). As stated by the NIIFs, the financial statements include a balance sheet, an income statement, a statement of changes in the shareholders' equity and a cash flow statement. Only those financial statements and their notes considered as a group can be a reasonable presentation of the financial position of the Company, the results of its operations and the cash flows, according to the NIIFs.

This report is only issued for the use and information of the Board of Directors of the Company and of the National Securities and Exchange Commission, for the sole purpose of complying with the provisions set forth in Resolution No. 68-2005 issued by the National Securities and Exchange Commission. This report should not be used with other purpose or be given to people not mentioned in this paragraph.

MANUFACTURAS DE PAPEL, C.A. (MANPA) S.A.C.A. AND SUBSIDIARIES

NOTES TO THE PRELIMINARY ADDITIONAL CONSOLIDATED BALANCE SHEET AND TO THE PRELIMINARY ADDITIONAL CONSOLIDATED INCOME STATEMENT (STATED IN THOUSAND BOLIVARS)

1. **RESOLUTION BY THE NATIONAL SECURITIES AND EXCHANGE COMMISSION (CNV)**

   a. ***Presentation of financial statements*** – The preliminary additional consolidated balance sheet and the preliminary additional consolidated income statement attached hereto have been prepared by the management of Manufacturas de Papel, C.A. (Manpa) S.A.C.A. and Affiliates for the sole purposes of complying with the provisions of Resolution No. 68-2005 issued by the National Securities and Exchange Commission (CNV) and published in Official Gazette of the Bolivarian Republic of Venezuela as of June 29, 2005 which refers to the International Standards for Financial Information (NIIF)in effect at January 1, 2005.

It is possible that the attached financial information, presented as supplementary information, requires adjustments before being the final version of the primary consolidated balance sheet of the opening agreement with the NIIFs.

According the NIIFs, the financial statements include a balance sheet, an income statement, a statement of changes in the shareholders' equity and a cash flow statement, together with the comparative financial information and the corresponding explanatory notes. Only those financial statements and their notes as a whole may provide a reasonable presentation of the financial position of the Company, the results from their operations and the cash flows, as stated by the NIIFs.

The primary financial statements of the Company at December 31, 2004 were prepared according to the standards to prepare financial statements for organizations subject to control by the National Securities and Exchange Commission of Venezuela at that date. The standards to prepare financial statements of organizations subject to the control of the National Securities and Exchange Commission of Venezuela used when preparing these financial statements differ from the International Standards for Financial

Information (NIIF) in certain significant matters; such financial statements were considered as core information to prepare the enclosed financial information at that same date.

When preparing the preliminary additional consolidated balance sheet and the preliminary additional consolidated income statement according to the NIIFs, the Company management used its best knowledge of what it estimates it would be the standards and interpretations, facts and circumstances, as well as accounting policies that would apply when the Company prepares its first complete set of primary financial statements presented in compliance with the NIIFs, and therefore sets forth its date of enforcement and transition according to the provisions set forth in the NIIF 1.

b. ***Changes in the accounting policies*** – Incorporation of such standards have resulted in the change of the following accounting policies:

Consolidation:

- The consolidated balance sheet at December 31, 2004 presented to the National Securities and Exchange Commission indicated in Other current assets the investment in "Valores y Acciones 1003, C.A." 100% owned, which was registered under the method of shareholders' equity participation. Considering that that investment does not comply with the provisions of NIF No.5, "Current Assets Kept for Sale and Uninterrupted Activities", the Company decided to consolidate the balance sheet and the income statement of that affiliate, incorporating the accounts that company held.
- According to the standards by the National Securities and Exchange Commission, the companies 50% owned or more have to be consolidated; this standard differs from the provisions of the International Accounting Standards (NIC) No. 27, 28 and 31 which demand an assessment of the control owned on the investments the Company keeps. When making the control review on Manufacturas de Centroamérica, C.A. (domiciled in Costa Rica), it was concluded that it is a joint business, and provided that the NIC 31 allows for registering this investment using the method of equity participation, it was considered to present it using the abovementioned method, disposing assets, liabilities, minority

interests, sales and sale costs amounting to Bs.10,271 million, Bs.8,558 million, Bs.1,712 million, Bs.6,299 million and Bs.4,994 million, respectively, that such company provided to the consolidated.

- Financial statements of affiliates abroad were translated into bolivars by converting monetary and non-monetary entries of the balance sheet at the current exchange rate, and by using the average exchange rates of the corresponding year for the income statement instead of using the historical exchange rates for non-monetary entries as set forth by the local accounting principles. The registry of investments in affiliates abroad generated a reduction in the net income amounting to Bs.248 million.

Inflation:

- It was considered that the Venezuelan economy is not hyper-inflationary; therefore, the amount of non-monetary assets and liabilities at December 31, 2001 in constant currency at that date were considered as the new accounting base of these entries. The reversal of the effect for inflation on entries of the preliminary additional consolidated income statement originated a reduction in the net income amounting to Bs.1,037 million.

Presentation:

- The Company considered appropriate to use the presentation suggested in the balance sheet and the income statement as set forth in NIC 1.
- In addition, certain assets, liabilities and income items were reclassified in order to present them according to the NIIF.

2. SIGNIFICANT ACCOUNTING POLICIES

The main accounting policies used by the Company to prepare the attached financial information are summarized herein bellow:

a. ***Consolidation*** – The attached preliminary additional consolidated balance sheet and the preliminary additional consolidated income statement at December 31, 2004 include the accounts of Manufacturas de Papel, C.A. (MANPA) S.A.C.A. and its affiliates fully owned: Vencaribbean paper

Products, Ltd (domiciled in Trinidad and Tobago), Valores y Acciones 1003, C.A. and Affiliates, and Transporte Alpes, C.A.

All the significant transactions among companies have been eliminated during the consolidation.

The companies Manufacturas de Papel de Centroamérica, C.A. (domiciled in Costa Rica) and Simco Recycling, Inc. (domiciled in the United States of America), both 50% owned, were considered joint business according to the NIC 31, and they were registered by using the method of shareholders' equity participation.

b. ***Effects for Inflation*** – As of November 2001 the International Practice Task Force (IPTF) of the Committee of the American Institute of Public Accountants of the United States concluded that Venezuela, for it indicated an accumulated inflation index during the last three years of less than 100 should be considered as a non-inflationary country from January 1, 2002. Likewise, as of September 2004 the IPTF ratified its conclusion that Venezuela keeps being considered a non-inflationary country. Based on this conclusion, the Company management as for the purposes of the International Accounting Standard No.29 "Financial Information in Hyper-Inflationary Economies" considered that the Venezuelan economy stopped being hyperinflationary from January 1, 2002.

Therefore, the amount of non-monetary assets and liabilities at December 31, 2001 in constant currency at that date was considered the new accounting base of these entries.

c. ***Translation of financial statements from affiliates abroad*** – The Company determined the operating currency of foreign affiliates pursuant to the provisions of the NIC No.21 "Effect of Variations in the Types of Exchange of Foreign Currency". Consequently, in order to be incorporated to the attached financial information, the financial statements of such affiliates were translated into bolivars by converting the monetary and non-monetary entries of the balance sheet to the current exchange rate whereas the average of the exchange rates of the corresponding year was

11
INTERPRETE
PUBLICO

used in the case of the income account. The accumulated effect for translation until December 31, 2004 was reverted as indicated in Note 3.

d. ***Property, plant and equipment*** - Property, plant and equipment (except for furniture and equipment) were presented at the value of appraisals made in August 2002, by independent appraisers specialized in the industry, updated at December 31, 2004 by using devaluation indexes for machinery and equipment and inflation indexes for the rest of assets.

Depreciation of the year was calculated based on the straight-line method on the useful life used by the Company.

e. ***Investments*** – Investments in companies where participation is less than 20% and does not significantly mean any influence are presented at cost and cash dividends are treated as income in the year they are paid. Investments where participation is less than 50% and higher than 20% and which exert a significant influence are presented by the method of equity participation.

The Company assesses the value of investments and provisions those investments which future benefits are not considered.

f. ***Inventories*** – Inventories have been presented at cost, determined by the average cost method which does not exceed its recovery value.

g. ***Cash and cash equivalents*** – The Company considers as cash equivalents the investments in term deposits with maturity of less than three (3) months.

h. ***Provision for doubtful accounts*** – The Company has a provision for doubtful accounts on accounts receivable at the level the management deems appropriate according to the potential risk of uncollectible accounts. The management assesses the levels of uncolletability based on the factors that may impact collectability of the amounts invoiced. Seniority of accounts receivable and the situation of clients are constantly monitored to assure the appropriateness of the provision in the preliminary additional consolidated balance sheet.

a) International Standard for Financial Information No.1: "First-Time Use of International Standard for Financial Information."
b) International Standard No. 39: "Financial Instruments."
c) International Standard No. 16 and International Standard No. 36: "Property, plant and equipment" and "Deterioration of value", respectively.
d) International Standard No. 19: "Employee Salaries."
e) International Standard No. 12: "Tax on Earnings."

Exemptions used by the Company when applying the International Standards for Financial Information, pursuant to the provisions set forth by NIIF 1:

The NIIF 1 "First-Time Use of International Standard for Financial Information" allows a company for first-time using the NIIFs, choosing certain exemptions to apply them. The Company evaluated the accounting treatments allowed and, in the case of the attached information, only the exemption indicated herein bellow was used. However, the possibility to incorporate other exemptions, pursuant to the provisions of such standard, is being considered.

- Accumulated effect for translation of foreign affiliates – the Company decided to revert the registered accumulated effects for translating all its affiliates abroad.

Impact of the transition on the preliminary additional consolidated shareholders' equity:

Shareholders' equity pursuant to the CNV standards	560,670,334
Reverse of the effect from translating foreign affiliates	3,733,881
Reverse of net effect for adjustments for inflation up to December 31, 2001	(1,278,749)
Others, net	(50,765)
Shareholders' equity as per additional preliminary balance	563,074,701

Impact of the transition on the preliminary additional consolidated income statement:

Net income pursuant to the CNV standards	47,148,066
Reverse of the effect from translating foreign affiliates	(248,987)

Reverse of net effect for adjustments for inflation up to December 31, 2001	(1,037,638)
Others, net	200,000
Net income as per additional preliminary results	46,061,441

Caracas, July 14, 2005.

Messrs.

NATIONAL SECURITIES AND EXCHANGE COMMISSION

City.-

Attention: NATIONAL REGISTRY OF SECURITIES

This is to inform you that we were unable to comply with the provisions of Resolution No.68-2005 as of June 8, 2005 and published in Official Gazette No.38218 as of June 29, 2005 which amends Resolution No.157-2004 as of December 2, 2004 when including the Income Statement together with its explanatory notes for the fiscal year 2004 pursuant to the International Standards for Financial Information (NIIFs) that should have been submitted as of June 30, 2005 together with the Balance Sheet.

The reason for our noncompliance was the little time from the moment Resolution No.68-2005 was published in Official Gazette (June 29, 2005) and the date of delivering the new information requested (June 30, 2005). However, we have been working on the preparation of such information and for Wednesday, July 27 we will be able to give you the Income Statement of the year 2004 pursuant to the International Standards for Financial Information (NIIFs) as provided for by Resolution No.68-2005.

Having no further matter to discuss,

The undersigned, JUDITH XIOMARA HERNANDEZ MORA, a Venezuelan citizen, of legal age and domiciled in Caracas, bearer of Identity Card No. 6508588, Public Translator in the English Language in and for the Republic of Venezuela, pursuant to License granted by the Ministry of Justice, dated April 29, 1996, published in Official Gazette of the Republic of Venezuela No. 35896, dated June 21, Nineteen Hundred and Ninety- Six, and duly registered with the Principal Public Registry Office of the Federal District on April 30, 1996, under No. 233, folio 233, Volume 6, and with the Sixth Court of First Instance for Civil, Commercial and Traffic Matters for the Judicial Circuit of the Metropolitan Area of Caracas on May 28, 1996, File No. 96873, DO HEREBY CERTIFY: A document in the Spanish Language has been submitted to me whose faithful translation into the English Language reads as follows:----------
