ALTAGAS ACQUIRES NATURAL GAS MIDSTREAM FACILITIES FROM GIBSON ENERGY

Calgary, Alberta (February 10, 2004) -- AltaGas Services Inc. ("AltaGas") announced today that it has closed the previously announced acquisition of a 40.78 percent interest in the Mica Pouce Coupe sweet gas processing facility from Gibson Energy Ltd. ("Gibson"). The Mica Pouce Coupe gathering and processing system is located on the Alberta / British Columbia border near the town of Dawson Creek.

AltaGas moves energy from its source to the end user, adding value through the process. The Company has almost $900 million of assets and a market capitalization of over $600 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and will distribute gas in Nova Scotia through its interest in Heritage Gas Ltd. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Canadian Smallcap Index and the S&P/TSX Canadian Energy Index.

When used in this press release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. NEWS RELEASE

ALTAGAS TO CONSIDER CONVERSION TO AN INCOME TRUST

Calgary, Alberta (February 18, 2004) - AltaGas Services Inc. ("AltaGas") announced today that a Special Committee of Independent Directors is undertaking a review of whether to reorganize the business of AltaGas into an income trust. The Board of Directors formed the Special Committee to ensure that any reorganization that might be proposed will be in the best interests of AltaGas. AltaGas has engaged RBC Capital Markets, Stikeman Elliott LLP and Felesky Flynn LLP to advise it regarding the potential reorganization.

The Special Committee expects to make a recommendation to the Board of Directors in the next few weeks with respect to the results of its review.

AltaGas moves energy from its source to the end user, adding value through the process. The Company has over $900 million of assets and a market capitalization of over $600 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and will distribute gas in Nova Scotia through its interest in Heritage Gas Ltd. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Canadian Smallcap Index and the S&P/TSX Canadian Energy Index.

2004 MAR 10 P 3:07

ALTAGAS DELIVERS RECORD ANNUAL EARNINGS OF $38.3 MILLION

CALGARY, Alberta – March 2, 2004 - TSX: ALA

YEAR-END and FOURTH QUARTER 2003 HIGHLIGHTS

(All financial figures are in Canadian dollars unless otherwise stated.)

- AltaGas Services Inc.'s successful business strategy delivered its tenth consecutive year of record consolidated net income. Net income was $38.3 million or $0.84 per share for the year ended December 31, 2003 compared to net income of $29.4 million or $0.70 per share for the same period of 2002. This 30 percent increase in net income and 20 percent increase in net income per share is based on shares outstanding for the year ended December 31, 2003 of 45.5 million compared to 42.3 million for 2002.

- The strength in AltaGas' base business and the substantial year over year volume increases in the transmission, extraction and power components related to late 2002 and 2003 business development drove the growth in net income for the year. In 2003, one time future income tax liability adjustments made to reflect federal legislative changes in taxation of resource income and large corporations tax reduced income by $2.0 million or $0.04 per share. In 2002, net income includes net gains on the sale of investments of $0.6 million or $0.02 per share.

- AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the Corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. Concurrently, the Company adjusted its accumulated depreciation accounts to include the impact of including salvage values in the determination of its annual depreciation expense. Adoption resulted in a favorable impact on 2003 net income of $0.8 million and $0.02 per share.

- Fourth quarter 2003 net income was $12.0 million, 7 percent higher than fourth quarter 2002 net income of $11.2 million. Net income per share rose to $0.26 in the fourth quarter of 2003 up from $0.25 per share in the fourth quarter of 2002. The increase in net income in the fourth quarter of 2003 compared to the same period in 2002 was substantially due to the late December 2002 Suffield pipelines acquisition and the Joffre ethane extraction plant commissioning. In 2003, a one time charge associated with phasing out of the large corporations tax by 2007 was applied to AltaGas' estimated future income taxes payable, reducing income in the fourth quarter by $1.2 million or $0.03 per share.

- Funds generated from operations increased 27 percent to $90.2 million for the twelve months ended December 31, 2003 up from $70.8 million for the same period in 2002. Funds generated from operations for the fourth quarter of 2003 were $26.7 million, an increase of 19 percent when compared to $22.4 million for the fourth quarter of 2002. These record cash flows were used to fund investment of $60.7 million, dividends of $17.3 million and reduce AltaGas' total debt by $22.6 million in 2003. As a result of the debt reduction the Company's debt to total capitalization ratio decreased to 52 percent from 55 percent at December 31, 2002.

- AltaGas' share price closed at $15.87 on December 31, 2003 up from $9.59 at December 31, 2002. Including dividends of $0.38 per share, the total return to shareholders for 2003 was 69.45 percent.

- The Board of Directors declared a dividend of $0.11 per common and participating share to be paid on March 31, 2004 to shareholders of record as at March 19, 2004. The share price at closing on March 1, 2004 was $19.90.

- On February 18, 2004 AltaGas announced that a Special Committee of Independent Directors was undertaking a

review of whether to reorganize the business of AltaGas into an income trust.

"2003 was a strong year for AltaGas and marked the milestone of ten years of extraordinary growth", said Chairman and Chief Executive Officer David Cornhill. "We delivered record earnings and cash flow and grew our return on equity and return on investment. During the year, strategic investments continued to be made and partnerships forged that will provide growth in the future. Today, AltaGas is a strong company with high quality assets, a great track record, a proven strategy and a vast array of opportunities."

Mr. Cornhill, commenting on the undertaking to review whether to reorganize the business of AltaGas into an income trust, said, "At AltaGas we create value by investing in and being operationally excellent managers of energy infrastructure-based assets. The review that has been undertaken and any decision ultimately made regarding a reorganization of our business will not change that. The Board of Directors formed the Special Committee to ensure that any reorganization that might be proposed will be in the best interests of AltaGas and its shareholders, and will provide the best vehicle to further AltaGas' growth. The Special Committee expects to make a recommendation to the Board of Directors in the next few weeks with respect to the results of its review. Looking forward, I am confident that under any structure our next ten years will build on the strength of our first ten years."

During 2003, AltaGas captured several opportunities to augment cash flows and earnings. Net additions to capital assets for the twelve months ended December 31, 2003 were $52.6 million, bringing AltaGas' total assets to $919.3 million. AltaGas expanded its power business through the signing of the 100 megawatt Genesee energy strip contract that required no capital outlay but instead requires AltaGas to pay a competitively priced fixed monthly capacity charge. The Company advanced its natural gas distribution business with Heritage Gas, a Nova Scotia project in which AltaGas will invest approximately $32.0 million over the next six years. AltaGas grew its Gathering and Processing segment with the acquisition of 19.2 percent of Taylor Natural Gas Liquids Partnership and continued its program of acquisition, construction and expansion projects. In the field gathering and processing component, net additions to capital assets were $31.6 million in 2003. With capital assets of $351.6 million in this component, AltaGas is well positioned to meet existing and future processing needs in the areas it serves through its existing capacity and with expansions of existing facilities. AltaGas continues to pursue opportunities for new area development in the field gathering and processing component and to expand its market position in all components of the midstream market place.

Net revenue for the Gathering and Processing segment was $140.2 million for the year ended December 31, 2003 compared to $99.6 million for the year ended December 31, 2002. Net revenue for the fourth quarter of 2003 was $38.7 million compared to $26.7 million for the same period in 2002. During the year growth was achieved in the transmission component primarily due to the December 2002 Suffield pipelines acquisition. In the field gathering and processing component, higher net revenue in 2003 was attributable to the Wabasca acquisition in December 2002 which included the addition of seven gathering and processing systems, expansions at existing facilities and strong natural gas throughput in the base business. In the extraction component, results grew substantially due to the commissioning of the Joffre ethane extraction plant in December 2002, and the completion of modifications to increase ethane production at the EnCana-operated extraction plant late in the third quarter of 2003.

In late 2002, AltaGas significantly expanded its transmission business with the acquisition of the Suffield system, adding 400 Mmcf/d of capacity. The successful integration of the Suffield system increased net revenue in this component 258 percent to $26.1 million for the year ended December 31, 2003 from $7.3 million in 2002. During the fourth quarter of 2003, net revenue in AltaGas' transmission component increased 189 percent to $6.7 million from $2.3 million during the same period in 2002. Total average transmission volumes increased to 348 Mmcf/d in 2003 from 70 Mmcf/d in 2002 and total average transmission volumes for the fourth quarter of 2003 were 403 Mmcf/d compared to 106 Mmcf/d for the fourth quarter of 2002.

In the field gathering and processing component, net revenue for 2003 reached $105.4 million, a 22 percent increase over 2002 net revenue of $86.1 million. In this component, AltaGas achieved capacity and throughput growth for the tenth consecutive year. During the fourth quarter of 2003, net revenue increased to $29.0 million, a 28 percent increase over net revenue of $22.6 million during the same period in 2002. On December 18, 2003, AltaGas announced its intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce

Coupe, for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition closed on December 22, 2003, and included a 100 percent interest in a 40 Mmcf/d sour natural gas processing facility and 130 kilometres of gathering pipelines located near the town of Rainbow Lake in northwestern Alberta. The facility is supported by extensive land dedications in an area with strong producer activity. The Mica Pouce Coupe acquisition which closed on January 30, 2004 included a 40.78 percent interest in a 43 Mmcf/d sweet gas processing facility and approximately 70 kilometres of gathering pipeline located along the Alberta/BC border near the town of Dawson Creek.

Gross processing capacity at field gathering and processing facilities increased to 861 Mmcf/d at December 31, 2003 from 842 Mmcf/d at the end of 2002. Increases in capacity from acquisitions, construction projects and expansions at existing facilities throughout the year were partially offset by facility rationalizations. AltaGas typically acquires skid-mounted processing facilities that can be integrated with existing facilities. These mobile assets allow AltaGas to match quickly and efficiently the size of plant processing requirements to anticipated production volumes in an area. The ability to redeploy major equipment allows AltaGas to reduce operating costs and maximize return on capital invested.

Strong industry drilling activity in many of AltaGas' operating areas resulted in 324 new natural gas wells tied into AltaGas' field gathering and processing facilities in 2003 compared to 188 new wells tied-in during 2002. Volume additions from well tie-ins, in combination with throughput from facility acquisitions and expansions, more than offset normal natural gas production declines in 2003. Natural gas gathering and processing gross average throughput for the year ended December 31, 2003 increased to 520 Mmcf/d from 492 Mmcf/d for the year ended December 31, 2002. During the fourth quarter of 2003, natural gas gathering and processing gross average throughput was 523 Mmcf/d compared to 532 Mmcf/d for the fourth quarter of 2002. At some of AltaGas' field gathering and processing facilities where there is lower producer activity, the company continues to benefit from take-or-pay and capital and operating cost recovery contract provisions designed to minimize financial exposure to fluctuating throughput.

In AltaGas' extraction component, 2003 processed volumes almost doubled with average net production of 6,560 Bbls/d of ethane and natural gas liquids ("NGLs") compared to an average of 3,399 Bbls/d in 2002. As a result of the higher volumes, net revenue for the extraction component grew 74 percent in 2003, reaching $10.8 million. The higher average production for 2003 is a result of the commissioning of the Joffre ethane extraction plant in December 2002, partially offset by the eight week shut-in of the EnCana-operated Empress extraction facility during the third quarter of 2003 to complete modifications to increase ethane production at that facility. Net revenue for the fourth quarter of 2003 was $3.5 million, a 96 percent increase from $1.8 million for the same period during 2002, as a result of both higher volumes and higher NGLs frac spreads. As a result of the modifications on the EnCana-operated Empress facility and the full quarter impact of the Joffre plant production, AltaGas' total average extraction volumes for the fourth quarter of 2003 increased to 8,182 Bbls/d from 3,802 Bbls/d for the same period in 2002.

During 2003, AltaGas delivered another year of solid performance in its Energy Services segment through disciplined management of the Company's power purchase arrangements. AltaGas reduces its exposure to electricity price volatility by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. AltaGas' hedging strategy targets balance between operating margin certainty and operational flexibility. In the Energy Services segment, net revenue for the year ended December 31, 2003 was $49.6 million compared to $44.2 million for the same period in 2002. Net revenue for the fourth quarter of 2003 was $13.2 million compared to fourth quarter 2002 net revenue of $14.6 million. During 2003, higher power volumes sold were partially offset by higher expenses in the power and gas services components, lower produced volumes from AltaGas' oil and gas properties and lower marketed volumes in the gas services component. In the fourth quarter of 2003, the impact of increased power volumes from Genesee sales were offset by higher transmission and interconnection charges from Sundance B as well as Alberta Electrical Services Administrator Rate Rider C charges in the fourth quarter of 2003 instead of Rate Rider C credits as in the fourth quarter of 2002.

The average price AltaGas received from power sales in 2003 was $47.03 per MWh, up 14 percent from the $41.27 per MWh received in 2002. These prices compare to average Alberta Power Pool spot prices of $62.98 per MWh and $43.85 per MWh in 2003 and 2002, respectively. The average price AltaGas received from power sales in the fourth quarter of 2003 was $46.97 per MWh up from $46.45 per MWh in the fourth quarter of 2002. These prices compare to

average Alberta Power Pool spot prices of $54.78 per MWh and $61.43 per MWh in the fourth quarters of 2003 and 2002, respectively. Adhering to its hedging strategy, AltaGas has sold a substantial portion of its power forward for 2004.

In the Natural Gas Distribution segment, net revenue for the year ended December 31, 2003 was $30.5 million compared to $28.9 million for the same period in 2002. Sales and transportation volumes for 2003 increased to 23.5 Bcf compared to 21.8 Bcf for 2002 despite slightly warmer weather during 2003. Higher volumes transported for producers and industrial end use customers contributed to the positive results for the year. During the fourth quarter of 2003, net revenue in the natural gas distribution segment was $9.2 million compared to fourth quarter 2002 net revenue of $8.5 million.

Heritage Gas Limited, of which AltaGas owns 24.9 percent, accepted on June 3, 2003 the natural gas distribution franchise to serve six counties in Nova Scotia for a period of 25 years. Later in the year, Heritage Gas acquired and constructed natural gas distribution facilities and took steps to begin operations as a natural gas distribution utility. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. In its first four years of development Heritage Gas expects to bring natural gas access to approximately 8,000 residential and business customers in Nova Scotia.

CONSOLIDATED FINANCIAL HIGHLIGHTS

AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the Corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. Concurrently, the Company adjusted its accumulated depreciation accounts to include the impact of including salvage values in the determination of its annual depreciation expense. Adoption resulted in a favorable impact on 2003 net income of $0.8 million and $0.02 per share.

	Three months ended December 31		Year ended December 31

Certain comparative figures have been reclassified and restated to conform to the current financial presentation.

(1) Net revenue is gross revenue less the costs to purchase natural gas for resale and the costs to purchase power under power purchase based arrangements.
(2) Earnings before interest expense, income taxes, and amortization. EBITDA is provided to assist investors in determining the ability of AltaGas to generate funds from operations. This measure does not have any standardized meaning prescribed by generally accepted accounting principles and may not be comparable to similar measures presented by other companies.
(3) Based on the weighted average number of shares outstanding for the period.
(4) 2002 includes a first quarter pre-tax gain of $2.4 million from the sale of investments and a fourth quarter pre-tax loss of $1.4 million.

CONFERENCE CALL

AltaGas Services Inc. will hold a conference call on Wednesday March 3, 2004 at 9:00 a.m. (ET) to comment on its 2003 fourth quarter and year-end results. The discussion will be followed by a question and answer period.

To participate in the conference call, you may dial 416-640-4127 or 800-814-4860 toll-free. Shortly after the conclusion of the live call, the replay will be available by dialing 416-640-1917 or 877-289-8525. The pass code is 21037184 followed by the pound key. The replay will expire at midnight (ET) on Wednesday, March 10, 2004.

ABOUT ALTAGAS

AltaGas moves energy from its source to the end user, adding value through the process. The Company has over $900 million in assets and a market capitalization of approximately $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas in Alberta through AltaGas Utilities Inc., in the Northwest Territories through the Ikhil Gas Project and in Nova Scotia through its interest in Heritage Gas Limited. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Canadian Smallcap Index and the S&P/TSX Canadian Energy Index.

INTERIM REPORT TO SHAREHOLDERS
FOR YEAR ENDED DECEMBER 31, 2003

RESULTS AT A GLANCE	Three Months Ended December 31		Year Ended December 31	
	2003	2002	**2003**	2002
Net income (millions of dollars)	**12.0**	11.2	**38.3**	29.4
Net income excluding net gains from sale of investments (millions of dollars)	**12.0**	12.4	**38.3**	28.8
Net income per share	**0.26**	0.25	**0.84**	0.70
Net income per share excluding net gains (losses) from sale of investments	**0.26**	0.27	**0.84**	0.68

Note: Per share amounts are based on the weighted average number of shares outstanding for the period or basic shares.
Net income excluding gains is provided to assist in determining normal income for ongoing operations.
Net income excluding net gains (losses) does not have a standardized meaning prescribed by Canadian generally accepted accounting principles.
Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

MANAGEMENT'S DISCUSSION & ANALYSIS

The following discussion and analysis should be read in conjunction with the accompanying unaudited consolidated financial statements and in conjunction with the audited consolidated financial statements and the Management's Discussion and Analysis contained in the Company's annual report for the year ended December 31, 2002.

RESULTS OF OPERATIONS

CONSOLIDATED OPERATIONS ($ millions)	Three Months Ended December 31		Year Ended December 31	
	2003	2002	**2003**	2002[1]
Revenue	179.0	150.3	708.9	492.7
Net revenue [2]	61.0	48.8	219.9	169.9
EBITDA [3]	34.7	27.8	121.9	94.8
Operating income	25.9	19.1	83.6	61.0

(1) 2002 includes a first quarter pre-tax net gain of $2.4 million from the sale of investments and a fourth quarter pre-tax loss of $1.4 million
(2) Net revenue is gross revenue less the costs to purchase natural gas for resale and the costs to purchase power under power purchase based arrangements.
(3) EBITDA (operating income plus amortization) is provided to assist in determining the ability of AltaGas to generate cash from operations. This measure does not have any standardized meaning prescribed by Canadian generally accepted accounting principles and may not be comparable to similar measures presented by other companies.

AltaGas' substantial growth continued to generate very strong operating and financial results in the fourth quarter and for the full year of 2003. The growth is primarily driven by the late December 2002 acquisition of two natural gas transmission pipelines at Suffield, Alberta, higher contributions from the power component due to increased power prices and additional power sales associated with AltaGas' 100 megawatt Genesee energy contract, and to the start-up of the Joffre ethane extraction plant in late December 2002.

Revenue for the year ended December 31, 2003 rose 44 percent compared to the same period in 2002. For the three months ended December 31, 2003, revenue increased 19 percent compared to the three months ended December 31, 2002. The increases in revenue are primarily due to the higher prices received for natural gas and power sold in the Energy Services and Natural Gas Distribution segments and to the new volumes sold in the power component.

Net revenue increased 29 percent for full year 2003 and 25 percent for the fourth quarter of 2003 when compared to the same periods of 2002. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the year and three months ended

December 31, 2003 rose 29 percent and 25 percent respectively compared to the same periods of 2002. The increases in EBITDA are less than those reported for net revenue on the basis of increased operating and general and administrative costs. Operating cost increases were driven by new costs related to the Wabasca and Suffield acquisitions as well as by higher repairs and maintenance and property tax costs in the current year and quarter. General and administrative costs are higher in the year and in the fourth quarter compared to the same periods in the prior year primarily due to increased staffing required to support the corporation's growth.

AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is accreted over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. The Company adjusted its accumulated depreciation accounts for the impact of including salvage values in the determination of its annual depreciation expense. Historically, the Company had excluded salvage values in the determination of an asset's depreciable value, effectively providing for any future estimated reclamation costs.

Amortization increased for the full year and fourth quarter of 2003 over the comparative periods of the prior year as a result of the increases in the capital base related to the Suffield and Wabasca acquisitions and the commissioning of the Joffre ethane extraction plant.

The net impact of these changes year over year and fourth quarter resulted in growth in operating income in 2003 over 2002 of 37 percent and 36 percent respectively. This growth was partially offset by higher interest costs, due to higher average debt levels and by higher income taxes in fourth quarter 2003 compared to fourth quarter 2002. The higher comparative income taxes in 2003 were driven by the Corporation's improved earnings, the impact on future income taxes of legislative changes related to large corporations tax and to favorable tax adjustments recorded in 2002.

Net income for the year ended December 31, 2003 was $38.3 million or $0.84 per share compared to $29.4 million or $0.70 per share for the year ended December 31, 2002. After tax net gains on the sale of investments included in 2002 were $0.6 million or $0.02 per share.

RESULTS BY OPERATING SEGMENT

AltaGas reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution. Gathering and Processing includes natural gas field gathering and processing facilities, ethane and natural gas liquids extraction plant interests and natural gas transmission pipelines. Energy Services includes power services, gas services, and oil and natural gas production. Natural Gas Distribution includes AltaGas' wholly-owned subsidiary AltaGas Utilities Inc., the Company's one-third interest in Inuvik Gas Ltd., a company that distributes natural gas within the Town of Inuvik and the Company's 24.9 percent ownership in Heritage Gas Limited, a company that commenced distribution of natural gas in Nova Scotia near the end of 2003.

GATHERING AND PROCESSING

FINANCIAL RESULTS	Three Months Ended December 31		Year Ended December 31	
($ millions)	**2003**	2002	**2003**	2002
Revenue	**42.6**	29.2	**156.7**	106.1[1]
Net revenue	**38.7**	26.7	**140.2**	99.6[1]
Operating and administrative expenses	**20.2**	15.7	**74.5**	52.2
Amortization expense	**5.1**	5.1	**23.6**	19.2
Operating income	**13.4**	5.9	**42.1**	28.2[1]

(1) 2002 includes a first quarter pre-tax gain of $2.4 million and a fourth quarter pre-tax loss of $1.4 million on the sale of investments.

Growth in the Gathering and Processing segment for the year ended December 31, 2003 compared to the same period in 2002 was primarily due to the late December 2002 acquisitions of the Suffield transmission pipelines and the Wabasca field gathering and processing facilities. The commissioning of the Joffre ethane extraction plant in late 2002, the increase in well tie-in activity over 2002 and a modification to increase ethane production capability at the EnCana operated extraction plant also contributed to the growth.

Revenue in this segment for the year and three months ended December 31, 2003 increased by 48 percent and 46 percent respectively when compared to the same periods in 2002. Net revenue, revenue minus the costs associated with the purchase of shrinkage gas at extraction facilities, increased by 41 percent for the year ended December 31, 2003 and 45 percent for the fourth quarter of 2003 compared to the same periods of 2002. The extraction component purchases natural gas to make up the heating value of natural gas liquids extracted (shrinkage).

Operating and administrative expenses increased 43 percent in 2003 and 29 percent for the fourth quarter of 2003 compared to the same periods of 2002 primarily due to operating costs associated with the Wabasca acquisition and expansions in the field gathering and processing component. For the full year 2003, increases in repairs and maintenance and increases in property taxes also contributed to higher operating and administrative expenses.

Amortization expense was higher for the year ended December 31, 2003 compared to the same period in 2002 primarily due to the late 2002 acquisitions and start up of the Joffre ethane extraction plant. In the fourth quarter of 2003, the Company's adoption of the new accounting standard for asset retirement obligations resulted in adjustments to depreciation expense. The impact of the change is accounted for as a retroactive restatement of prior periods and as such full year 2002 and fourth quarter 2002 information has been restated to conform to the reporting requirements.

OPERATING STATISTICS	Three Months Ended December 31		Year Ended December 31	
	2003	2002	**2003**	2002
Field gathering and processing				
Capacity (gross Mmcf/d)[1]	**861**	842	**861**	842
Throughput (gross Mmcf/d)[2]	**523**	532	**523**	532
Throughput (gross average annual Mmcf/d)	**520**	492	**520**	492

Inlet capacity (Mmcf/d)[1]	**349**	349	**349**	349
Production (Bbls/d)[3]	**8,182**	3,802	**6,560**	3,399
Transmission volumes (Mmcf/d)[2][4]	**403**	106	**403**	106

(1) As at December 31
(2) Fourth quarter average
(3) Average for the period
(4) Excludes condensate pipeline volumes

Average field gathering and processing throughput volumes decreased by two percent in the fourth quarter of 2003 compared to the fourth quarter of 2002. Increases from the acquisition of the Wabasca field gathering and processing facilities were offset by sharper declines at the Central Border operating area and reduced throughput associated with disposition of non-core processing assets. Increased well tie-in activity was partially offset by natural production declines and the impact of normal down time for repairs and maintenance on facilities. Processed volumes are expected to rise with the Rainbow Lake and Mica Pouce Coupe gathering and processing facility acquisitions completed at the end of the fourth quarter of 2003 and in the first quarter of 2004 respectively, combined with new well tie-ins and exploitation opportunities the Company is currently pursuing..

In the extraction component, average production was higher for the year and three month periods ending December 31, 2003 compared to the same periods of 2002 due to the start up of the Joffre ethane extraction plant in December 2002. Increased volumes resulting from the modifications made at the Empress EnCana extraction facility to increase ethane capability also contributed to the period over period increases.

Contract arrangements at AltaGas' extraction facilities provide for both fee for service and margin based revenue. A significant amount the of inlet volumes processed capture a fee for service and bear no commodity price risk. AltaGas monitors the price differential between the price received for the natural gas liquids (NGLs) extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs. If commodity prices make NGL extraction uneconomic, the NGLs may be reinjected or the facilities shut in.

Transmission volumes increased during the full year and three months ended December 31, 2003 compared to the full year and three months ended December 31, 2002 primarily due to the acquisition of the Suffield transmission pipeline in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d.

Net additions to capital assets in the Gathering and Processing segment were $33.3 million during the full year 2003, down from $159.8 million in 2002. In 2003 $24.1 million was invested in acquisitions and expansions, including approximately $17.0 million for the Rainbow Lake and Mica Pouce Coupe facilities, $2.9 million in the modifications at the Empress EnCana extraction plant and $4.2 million for field gathering and processing expansions. The balance of $9.2 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines. In 2002, the Suffield and Wabasca investment of $118.1 million accounted for the majority of the acquisition capital investment. The balance comprises the $22.8 million invested at Joffre and the $11.3million spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

ENERGY SERVICES

FINANCIAL RESULTS	**Three Months Ended December 31**		**Year Ended December 31**	
($ millions)	**2003**	2002	**2003**	2002
Revenue	**128.0**	112.4	**521.6**	355.9
Net revenue	**13.2**	14.6	**49.6**	44.2
Operating and administrative expenses	**2.3**	2.6	**8.3**	11.3
Amortization expense	**2.1**	2.2	**8.5**	8.9
Operating income	**8.8**	9.8	**32.8**	24.0

Revenue in the Energy Services segment increased 47 percent in full year 2003 and 14 percent in the fourth quarter of 2003 when compared to the same periods of 2002. The increases are driven by higher natural gas prices received in the gas services component and higher power prices received in the power services component in combination with the higher power sales volumes associated with the Genesee energy contract.

AltaGas reduces volatility in earnings associated with fluctuating power prices by locking in margins with forward sales using financial instruments. The Company entered the power business in late 2001 and started its program of hedging its power sales late in the first quarter of 2002.

Net revenue, gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase based arrangements, was twelve percent higher for the full year 2003 compared to 2002 due to higher average power prices realized and the additional volumes sold as a result of the Genesee energy contract, offset by lower produced volumes in the oil and gas production component. Segment net revenue was down $1.4 million in the fourth quarter of 2003 compared to the same quarter the prior year driven by lower produced volumes in the oil and gas component due to declines and lower marketed volumes in the gas services component based on lower contracted volumes. Power services net revenue for fourth quarter 2003 is $0.1 million higher than fourth quarter 2002. The impact of increased volumes from Genesee sales was offset by higher transmission and interconnection charges for Sundance B as well as Alberta Electrical Services Administrator Rate Rider C charges in fourth quarter 2003 instead of Rate Rider C credits as in fourth quarter 2002.

The decrease in operating and administrative expenses and amortization in the segment for the full year and fourth quarter of 2003 compared to the full year and fourth quarter 2002 due to lower costs related to oil and gas production.

OPERATING STATISTICS	**Three Months Ended December 31**		**Year Ended December 31**	
	2003	2002	**2003**	2002
Volume of power sold (thousands of MWh)	**873**	672	**3,266**	2,669
Average price received on the sale of power ($/MWh)[1]	**46.97**	46.45	**47.03**	41.27
Alberta Power Pool average spot price ($/MWh)[1]	**54.78**	61.43	**62.98**	43.85

[1] Average for the period

Net additions to capital assets in the Energy Services segment were $2.5 million during 2003 compared to $1.5 million during 2002. The net additions to capital assets are largely development costs in the oil and natural gas production component.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AUI), AltaGas' one-third interest in Inuvik Gas Ltd. and the Company's 24.9 percent ownership in Heritage Gas Limited (Heritage Gas).

FINANCIAL RESULTS ($ millions)	**Three Months Ended December 31**		**Year Ended December 31**	
	2003	2002	**2003**	2002
Revenue	**34.7**	34.0	**129.4**	94.3
Net revenue	**9.2**	8.5	**30.5**	28.9
Operating and administrative expenses	**3.9**	3.7	**15.6**	14.4
Amortization expense	**1.6**	1.4	**6.2**	5.7
Operating income	**3.7**	3.4	**8.7**	8.8

Higher natural gas prices in 2003 resulted in Natural Gas Distribution revenue increases in 2003 compared to 2002. Net revenue for the year ended December 31, 2003 increased compared to 2002 due to an increase in the number of service customers and increases in the cost of service. These increases were partially offset by warmer weather in 2003. AUI generates the majority of Natural Gas Distribution net revenue. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board, to be passed through to the distribution customers.

Higher operating and administrative expenses in this segment in 2003 were related to increases in the cost of insurance and routine operating and maintenance activities.

On June 27, 2003 AUI filed a 2003/2004 General Rate Application with the AEUB proposing a negotiated settlement process for Phase 1 of this proceeding. In Phase 1 proceedings, the revenue requirements of the company are determined, while Phase 2 proceedings determine the rates that will be charged to each customer class. On July 29,

2003, the AEUB approved the commencement of negotiations with respect to all components of the Phase 1 portion except the 2004 rate of return on common equity and capital structure which will be determined in the Province of Alberta through a Generic Cost of Capital Proceeding. The negotiated settlement process will continue in the first half of 2004.

The public hearing portion of the Generic Cost of Capital proceeding was completed on January 16, 2004, reply argument from all parties is scheduled to be filed by April 5, 2004 and a decision is expected by the end of June 2004.

Heritage Gas was issued a license to operate and interim approval of a Schedule of Rates, Tolls and Charges by the Nova Scotia Utility and Review Board on December 19, 2003. A full General Tariff application for test years 2004 to 2008 will be filed in early 2004.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-fourths of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and fourth quarters that show either small profits or losses.

OPERATING STATISTICS[1]	**Three Months Ended December 31**		**Year Ended December 31**	
	2003	2002	**2003**	2002
Volume of natural gas distributed

Net additions to capital assets in the Natural Gas Distribution segment were $16.8 million during the year ended December 31, 2003 compared to $3.7 million for the same period in 2002. Of the additions in 2003, $4.3 million were related to costs associated with AUI's routine system betterment projects, new business development and construction of a pipeline in the Rainbow Lake area of Northern Alberta and $2.3 million were for AltaGas' share of costs related to obtaining the franchise, acquiring pipeline and other assets for Heritage Gas. Included in 2003 net additions is a charge of $10.2 million related to prior years' capital in aid of construction received for the replacement of defective piping. Net additions in 2002 of $3.7 million were related to costs associated with AUI's routine system betterment projects and new business development.

In the second quarter of 2003, Heritage Gas accepted the distribution franchise to deliver natural gas to six counties in Nova Scotia. Heritage Gas distributed its first natural gas at the end of December, 2003. There was no material impact on operating results for 2003.

CONSOLIDATED EXPENSES	**Three Months Ended December 31**		**Year Ended December 31**	
($ millions)	**2003**	2002	**2003**	2002
Interest	**5.3**	4.4	**22.1**	18.1
Income taxes	**8.6**	3.5	**23.2**	13.5

AltaGas' interest expense for the year ended December 31, 2003 increased 22 percent from the same period in 2002. The increase in interest in 2003 is primarily due to higher average debt balances during the year. The higher debt levels were primarily attributable to the debt of $114.7 million incurred to fund the Wabasca field gathering and processing facilities and Suffield transmission pipeline acquisitions on December 19, 2002, offset by debt repayments from operating cash flows over the year.

Income tax expense for the year and fourth quarter ended December 31, 2003 increased from the same period in 2002 for a number of reasons, including higher net income before taxes, the effect of changes in federal income tax legislation of resource income and large corporations tax, the impact on future income taxes resulting from the adoption of new CICA Handbook requirements for asset retirement obligation accounting and the changes in the mix in the Company's income stream period over period and the associated tax rates attracted.

Higher income in the year accounts for sixty percent of the total increase in income tax expense for 2003 versus the prior year. A further twenty percent relates to regulatory changes wherein the resource allowance deduction and the large corporations tax are being phased out through 2007. The impacts of adopting the asset retirement obligation accounting accounted for seven percent of the difference. The remainder of the increase relates to the different businesses of the Corporation attracting different tax treatment, timing and rates.

The resource allowance deduction provided oil and gas industry participants a credit in calculating taxable income in place of non-deductible royalties paid on hydrocarbon production. Since 1997 AltaGas has benefited from the resource allowance deduction on its field gathering and processing business, a significant portion of its income, but pays no material royalties. Under the legislative changes, announced in June 2003, resource allowance is replaced by the deductibility of provincial or crown royalties and a reduction in the tax rates applicable to resource income. The federal income tax legislation changes also phase out large corporations tax (LCT) by 2007. AltaGas has credited large corporations tax payable against the federal surtax amounts otherwise payable. Based on anticipated future income levels and timing of reversal of temporary differences going forward, the effect on AltaGas was an increase in the Corporation's future income tax liability and a charge to future income tax expense in the current period.

Under asset retirement obligation accounting, AltaGas recorded an asset and a liability on its balance sheet, as well as adjusted accumulated depreciation to include salvage values in the depreciation calculation. The latter change increased the differential between the corporation's accounting and tax balance sheets, increasing the estimated future income tax liability and resulted in an increase in income tax expense in the current period.

The income of the Company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. AltaGas recorded in fourth quarter 2002 favorable one time adjustments to tax expense related to recording the full years impact of the anticipated timing.

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the year ended December 31, 2003 increased to $90.2 million from $70.8 million for the year ended December 31, 2002. The increases in 2003 are from the late 2002 gathering and processing acquisitions and the higher contribution from increased power sales in the Energy Services segment.

At December 31, 2003 AltaGas had total debt outstanding of $396.9 million compared to $419.5 million at December 31, 2002. The Company's debt to total capitalization ratio as at December 31, 2003 decreased to 52 percent from 55 percent at December 31, 2002. The improvement in the capitalization ratio from December 31, 2002 is due to the increase in cash generated from operations after net capital additions and payment of dividends being applied to debt repayment.

AltaGas had a working capital surplus of $9.1 million at December 31, 2003 compared to working capital deficit of $27.2 million at December 31, 2002. The change in working capital is primarily due to the repayment of AltaGas' $50.0 million non-revolving bridge credit facility with a Canadian chartered bank during the second quarter of 2003.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at December 31, 2003 was $180.0 million. At December 31, 2003 interest rates had been fixed on approximately 71 percent of the Company's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

AltaGas paid a quarterly dividend of $0.11 per common share and participating share in the capital stock of the Company on December 31, 2003. Dividends of $0.38 were paid during the year ended December 31, 2003 compared to $0.28 paid during the year ended December 31, 2002. This increase in dividends is reflective of the strength and sustainability of AltaGas' earnings.

AltaGas implemented a Normal Course Issuer Bid through the facilities of The Toronto Stock Exchange on December 1, 2000, and renewed the bid in December 2001 and again on December 2, 2002 for an additional 12 months. From April 25, 2001 through December 31, 2003 no shares were purchased. The Normal Course Issuer Bid was not renewed in December 2003..

RISK MANAGEMENT

With respect to continuing operations, the nature of AltaGas' risk exposure and the methods of managing risk remain substantially unchanged since December 31, 2002. AltaGas manages market and credit risk exposures in accordance with its corporate risk policies and position limits. The policies and limits are designed to mitigate the risk of significant loss. For further information on risks, refer to Management's Discussion and Analysis contained in AltaGas' 2002 Annual Report.

SELECTED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited except for December 31, 2002)
(tabular amounts are in thousands of dollars except per share amounts and otherwise noted)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Company's annual consolidated financial statements for the fiscal year ended December 31, 2002. These consolidated financial statements for the year ending December 31, 2002 do not include all disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in AltaGas' 2002 Annual Report.

Asset retirement obligations

Effective January 1, 2003, AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is increased due to the passage of time, with an offsetting charge to accretion expense in the income statement, over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. Consequently with the adoption of this standard, the Company adjusted its accumulated amortization accounts for the impact of including salvage values in the determination of its annual amortization expense. Historically, the Company had excluded salvage values in the determination of an asset's amortizable value, effectively offsetting future estimated reclamation costs.

During 2003, AltaGas undertook to identify assets impacted by the new standard in each of its business segments.

In the Gathering and Processing and Energy Services segments, certain facilities must be dismantled and the sites reclaimed to meet Alberta Environmental Protection and Enhancement Act and regulations. The asset retirement liabilities are recognized when the obligations are measurable.

In the Natural Gas Distribution segment, AltaGas identified that assets have an indeterminate life and thus a future retirement obligation is not determinable.

The effect of this change in accounting policy was recorded retroactively with restatement of the prior periods. The effect of the adoption is presented below as increases (decreases) in the specific line items of the Consolidated Balance Sheet and the Consolidated Statement of Income.

Consolidated Balance Sheet	2002
Capital assets	$ 9,553
Accumulated amortization	(6,113)
Asset retirement obligations	12,925
Previously recognized future site restoration costs	(807)
Future income taxes	1,262
Opening retained earnings	1,530

Consolidated Statement of Income	Three months ended December 31, 2002	Twelve months ended December 31, 2002
Operating and administrative	$ 224	$ 831
Amortization	(541)	(1,987)
Income taxes	106	400

A reconciliation between the opening and closing asset retirement obligation balances is provided below:

December 31, 2001	$ 9,855
New obligations in the period	1,979
Accretion	831
Other	260
December 31, 2002	$ 12,925
New obligations in the period	127
Accretion	920
Other	(10)
December 31, 2003	$ 13,962

AltaGas estimates the undiscounted amount of cash required to settle the asset retirement obligations is $45.0 million (2002 - $44.8 million). The asset retirement obligations have been recorded in the financial statements at estimated values discounted at rates between 8 percent and 8.5 percent and are expected to be incurred between 2010 and 2040. The majority of the costs are expected to be incurred between 2025 and 2035. No assets have been legally restricted for settlement of the liability.

2. RELATED PARTY TRANSACTIONS

On April 23, 2003, AltaGas acquired 19.2 percent of the outstanding limited partnership units of Taylor NGL Limited Partnership ("Taylor") for $9.4 million.

On September 4, 2003, the Company loaned $29.0 million to the general partner of Taylor. The loan bears interest at prime plus one percent and was repaid on October 17, 2003.

On October 17, 2003, AltaGas purchased an additional 1,592,250 limited partnership units of Taylor for $8.7 million. The purchase preserved AltaGas' 19.2 percent ownership of Taylor.

3. SHARE CAPITAL

Authorized:

- an unlimited number of common shares without nominal or par value.
- an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:

	Number of Shares	Amount
December 31, 2002	36,237,092	$ 175,326
Issued for cash on exercise of options	471,752	3,652
Issued for compensation	8,000	98
December 31, 2003	**36,716,844**	**179,076**

Preferred Participating Shares Issued:

	Number of Shares	Amount
December 31, 2002 and 2003	**9,000,000**	**$ 88,964**
Total shares issued	**45,716,844**	**268,040**

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At December 31, 2003 3,800,000 common shares were reserved for issuance under the plan. To December 31, 2003 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. Options outstanding under the plan have a weighted average exercise price of $8.74 and a weighted average remaining contractual life of 7.21 years.

	Number of Options	Weighted Average Exercise Price
Stock options outstanding, December 31, 2002	1,670,676	$ 7.66
Granted	400,638	11.76
Exercised	(471,752)	7.74
Cancelled	(93,200)	7.47
Stock options outstanding, December 31, 2003	**1,506,362**	**$ 8.74**
Exercisable at December 31, 2003	**622,974**	**$ 9.57**

On June 7, 2002 AltaGas closed a public offering for 6,325,000 common shares at $9.30 per share. Proceeds net of share issue costs were $56.4 million.

The basic number of shares outstanding for the year ended December 31, 2003 was 45.5 million (December 31, 2002 - 42.3 million) and the diluted number of shares outstanding for the year ended December 31, 2003 was 45.9 million (December 31, 2002 - 42.6 million).

4. SEGMENTED INFORMATION

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

For the three months ended December 31, 2003	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total

5. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the adoption of CICA Handbook Section on accounting for asset retirement obligations.

6. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses

(1) Q4 2002 results include a loss of $1.4 million on sale of investments.

(2) Q2 and Q3 2003 financial results and natural gas distributed (Bcf) reflect the normal lower seasonal demand for natural gas in the Natural Gas Distribution segment.

Notes: Certain comparative figures have been reclassified to conform to the current financial statement presentation.
AltaGas adopted CICA Handbook guidelines on asset retirement obligations in 2003. Prior year information has been restated for the effect of this adoption.

DIVIDENDS

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. No dividends were paid on any shares of AltaGas from the date of its incorporation to the end of December 2000. Dividend levels will be reviewed periodically by the Board of Directors giving consideration to AltaGas' growth-related initiatives, financial position, financing requirements, cash flow and other relevant factors. The following table summarizes AltaGas' dividend history.

(dollars)	**2004**	2003	2002	2001
First quarter	**$ 0.11**	$ 0.08	$ 0.06	$ 0.03
Second quarter	not declared	0.08	0.06	0.03
Third quarter	not declared	0.11	0.08	0.06
Fourth quarter	not declared	0.11	0.08	0.06
	$ 0.11	$ 0.38	$ 0.28	$ 0.18

EARNINGS COVERAGE RATIO

The following table sets forth AltaGas Services Inc.'s earnings coverage ratio which is provided in connection with its continuous offering of Medium Term Notes. The financial ratio has been calculated based on Canadian generally accepted accounting principles.

	Twelve months ended	
	December 31 2003	December 31 2002
Earnings coverage on short and long term debt	**3.8x**	3.4x

DEFINITIONS

Bbls/d	barrels per day
Bcf	billion cubic feet
Mmcf/d	million cubic feet per day
MW	megawatt
MWh	megawatt-hour
Net revenue	gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements

FORM 45-102F2

Certificate under Subsection 2.7(2) or (3) of Multilateral Instrument 45-102 Resale of Securities

1. **AltaGas Services Inc.** has distributed securities under a provision listed in Appendix D or E to Multilateral Instrument 45-102 or a provision of securities legislation that specifies that the first trade of the securities is subject to section 2.5 or 2.6 of Multilateral Instrument 45-102 and hereby certifies that in respect of a distribution on February 26, 2004 of 2,000 common shares of AltaGas Services Inc., AltaGas Services Inc. was a qualifying issuer within the meaning of Multilateral Instrument 45-102 Resale of Securities at the distribution date.

DATED at Calgary, Alberta, this 27th day of February, 2004.

ALTAGAS SERVICES INC.

By: *"Dennis A. Dawson"*
Dennis A. Dawson
Vice-President, General Counsel and Corporate Secretary

INSTRUCTIONS:

1. If the distribution date is on or after the effective date of Multilateral Instrument 45-102 and the issuer or selling security holder has completed 1. above, file this form on or before the tenth day after the distribution date with the securities regulatory authority in each jurisdiction in which a purchaser of the securities is located and section 2.7 of Multilateral Instrument 45-102 has been implemented. Section 2.7 has been implemented in Alberta, British Columbia, Newfoundland, Northwest Territories, Nova Scotia, Nunavut, Ontario and Saskatchewan.

2. If the issuer has completed 2. above, file this form with the securities regulatory authority in each jurisdiction in which a purchaser of the securities is located and section 2.7 of Multilateral Instrument 45-102 has been implemented.

Dear Sirs:

Subject: AltaGas Services Inc.

We confirm that the following material was sent by pre-paid mail on March 5, 2004 to the registered shareholders of the common shares of the subject Corporation:

1. Year-end and Fourth quarter 2003 Highlights dated March 2, 2004

In compliance with security regulations, we are providing this material to you in our capacity as agent for the subject Corporation.

We also confirm that a copy of the above was mailed to all non-registered shareholders of the subject Corporation whose names appear on the Corporation's Supplemental Mailing List as defined in the Canadian Securities Administrators' National Instrument 54-102.

Yours truly,

ALTAGAS DELIVERS RECORD ANNUAL EARNINGS OF $38.3 MILLION

CALGARY, Alberta - March 2, 2004 - TSX: ALA

Year-end and Fourth Quarter 2003 Highlights

(All financial figures are in Canadian dollars unless otherwise stated.)

- AltaGas Services Inc.'s successful business strategy delivered its tenth consecutive year of record consolidated net income. Net income was $38.3 million or $0.84 per share for the year ended December 31, 2003 compared to net income of $29.4 million or $0.70 per share for the same period of 2002. This 30 percent increase in net income and 20 percent increase in net income per share is based on shares outstanding for the year ended December 31, 2003 of 45.5 million compared to 42.3 million for 2002.

- The strength in AltaGas' base business and the substantial year over year volume increases in the transmission, extraction and power components related to late 2002 and 2003 business development drove the growth in net income for the year. In 2003, one time future income tax liability adjustments made to reflect federal legislative changes in taxation of resource income and large corporations tax reduced income by $2.0 million or $0.04 per share. In 2002, net income includes net gains on the sale of investments of $0.6 million or $0.02 per share.

- AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the Corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. Concurrently, the Company adjusted its accumulated depreciation accounts to include the impact of including salvage values in the determination of its annual depreciation expense. Adoption resulted in a favorable impact on 2003 net income of $0.8 million and $0.02 per share.

- Fourth quarter 2003 net income was $12.0 million, 7 percent higher than fourth quarter 2002 net income of $11.2 million. Net income per share rose to $0.26 in the fourth quarter of 2003 up from $0.25 per share in the fourth quarter of 2002. The increase in net income in the fourth quarter of 2003 compared to the same period in 2002 was substantially due to the late December 2002 Suffield pipelines acquisition and the Joffre ethane extraction plant commissioning. In 2003, a one time charge associated with phasing out of the large corporations tax by 2007 was applied to AltaGas' estimated future income taxes payable, reducing income in the fourth quarter by $1.2 million or $0.03 per share.

- Funds generated from operations increased 27 percent to $90.2 million for the twelve months ended December 31, 2003 up from $70.8 million for the same period in 2002. Funds generated from operations for the fourth quarter of 2003 were $26.7 million, an increase of 19 percent when compared to $22.4 million for the fourth quarter of 2002. These record cash flows were used to fund investment of $60.7 million, dividends of $17.3 million and reduce AltaGas' total debt by $22.6 million in 2003. As a result of the debt reduction the Company's debt to total capitalization ratio decreased to 52 percent from 55 percent at December 31, 2002.

- AltaGas' share price closed at $15.87 on December 31, 2003 up from $9.59 at December 31, 2002. Including dividends of $0.38 per share, the total return to shareholders for 2003 was 69.45 percent.

- The Board of Directors declared a dividend of $0.11 per common and participating share to be paid on March 31, 2004 to shareholders of record as at March 19, 2004. The share price at closing on March 1, 2004 was $19.90.

- On February 18, 2004 AltaGas announced that a Special Committee of Independent Directors was undertaking a review of whether to reorganize the business of AltaGas into an income trust.

"2003 was a strong year for AltaGas and marked the milestone of ten years of extraordinary growth", said Chairman and Chief Executive Officer David Cornhill. "We delivered record earnings and cash flow and grew our return on equity and return on investment. During the year, strategic investments continued to be made and partnerships forged that will provide growth in the future. Today, AltaGas is a strong company with high quality assets, a great track record, a proven strategy and a vast array of opportunities."

Mr. Cornhill, commenting on the undertaking to review whether to reorganize the business of AltaGas into an income trust, said, "At AltaGas we create value by investing in and being operationally excellent managers of energy infrastructure-based assets. The review that has been undertaken and any decision ultimately made regarding a reorganization of our business will not change that. The Board of Directors formed the Special Committee to ensure that any reorganization that might be proposed will be in the best interests of AltaGas and its shareholders, and will provide the best vehicle to further AltaGas' growth. The Special Committee expects to make a recommendation to the Board of Directors in the next few weeks with respect to the results of its review. Looking forward, I am confident that under any structure our next ten years will build on the strength of our first ten years."

During 2003, AltaGas captured several opportunities to augment cash flows and earnings. Net additions to capital assets for the twelve months ended December 31, 2003 were $52.6 million, bringing AltaGas' total assets to $919.3 million. AltaGas expanded its power business through the signing of the 100 megawatt Genesee energy strip contract that required no capital outlay but instead requires AltaGas to pay a competitively priced fixed monthly capacity charge. The Company advanced its natural gas distribution business with Heritage Gas, a Nova Scotia project in which AltaGas will invest approximately $32.0 million over the next six years. AltaGas grew its Gathering and Processing segment with the acquisition of 19.2 percent of Taylor Natural Gas Liquids Partnership and continued its program of acquisition, construction and expansion projects. In the field gathering and processing component, net additions to capital assets were $31.6 million in 2003. With capital assets of $351.6 million in this component, AltaGas is well positioned to meet existing and future processing needs in the areas it serves through its existing capacity and with expansions of existing facilities. AltaGas continues to pursue opportunities for new area development in the field gathering and processing component and to expand its market position in all components of the midstream market place.

Net revenue for the Gathering and Processing segment was $140.2 million for the year ended December 31, 2003 compared to $99.6 million for the year ended December 31, 2002. Net revenue for the fourth quarter of 2003 was $38.7 million compared to $26.7 million for the same period in 2002. During the year growth was achieved in the transmission component primarily due to the December 2002 Suffield pipelines acquisition. In the field gathering and processing component, higher net revenue in 2003 was attributable to the Wabasca acquisition in December 2002 which included the addition of seven gathering and processing systems, expansions at existing facilities and strong natural gas throughput in the base business. In the extraction component, results grew substantially due to the commissioning of the Joffre ethane extraction plant in December 2002, and the completion of modifications to increase ethane production at the EnCana-operated extraction plant late in the third quarter of 2003.

In late 2002, AltaGas significantly expanded its transmission business with the acquisition of the Suffield system, adding 400 Mmcf/d of capacity. The successful integration of the Suffield system increased net revenue in this component 258 percent to $26.1 million for the year ended December 31, 2003 from $7.3 million in 2002. During the fourth quarter of 2003, net revenue in AltaGas' transmission component increased 189 percent to $6.7 million from $2.3 million during the same period in 2002. Total average transmission volumes increased to 348 Mmcf/d in 2003 from 70 Mmcf/d in 2002 and total average transmission volumes for the fourth quarter of 2003 were 403 Mmcf/d compared to 106 Mmcf/d for the fourth quarter of 2002.

In the field gathering and processing component, net revenue for 2003 reached $105.4 million, a 22 percent increase over 2002 net revenue of $86.1 million. In this component, AltaGas achieved capacity and throughput growth for the tenth consecutive year. During the fourth quarter of 2003, net revenue increased to $29.0 million, a 28 percent increase over net revenue of $22.6 million during the same period in 2002. On December 18, 2003, AltaGas announced its intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe, for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition closed on December 22, 2003, and included a 100 percent interest in a 40 Mmcf/d sour natural gas processing facility and 130 kilometres of gathering pipelines located near the town of Rainbow Lake in northwestern Alberta. The facility is supported by extensive land dedications in an area with strong producer activity. The Mica Pouce Coupe acquisition which closed on January 30, 2004 included a 40.78 percent interest in

a 43 Mmcf/d sweet gas processing facility and approximately 70 kilometres of gathering pipeline located along the Alberta/BC border near the town of Dawson Creek.

Gross processing capacity at field gathering and processing facilities increased to 861 Mmcf/d at December 31, 2003 from 842 Mmcf/d at the end of 2002. Increases in capacity from acquisitions, construction projects and expansions at existing facilities throughout the year were partially offset by facility rationalizations. AltaGas typically acquires skid-mounted processing facilities that can be integrated with existing facilities. These mobile assets allow AltaGas to match quickly and efficiently the size of plant processing requirements to anticipated production volumes in an area. The ability to redeploy major equipment allows AltaGas to reduce operating costs and maximize return on capital invested.

Strong industry drilling activity in many of AltaGas' operating areas resulted in 324 new natural gas wells tied into AltaGas' field gathering and processing facilities in 2003 compared to 188 new wells tied-in during 2002. Volume additions from well tie-ins, in combination with throughput from facility acquisitions and expansions, more than offset normal natural gas production declines in 2003. Natural gas gathering and processing gross average throughput for the year ended December 31, 2003 increased to 520 Mmcf/d from 492 Mmcf/d for the year ended December 31, 2002. During the fourth quarter of 2003, natural gas gathering and processing gross average throughput was 523 Mmcf/d compared to 532 Mmcf/d for the fourth quarter of 2002. At some of AltaGas' field gathering and processing facilities where there is lower producer activity, the company continues to benefit from take-or-pay and capital and operating cost recovery contract provisions designed to minimize financial exposure to fluctuating throughput.

In AltaGas' extraction component, 2003 processed volumes almost doubled with average net production of 6,560 Bbls/d of ethane and natural gas liquids ("NGLs") compared to an average of 3,399 Bbls/d in 2002. As a result of the higher volumes, net revenue for the extraction component grew 74 percent in 2003, reaching $10.8 million. The higher average production for 2003 is a result of the commissioning of the Joffre ethane extraction plant in December 2002, partially offset by the eight week shut-in of the EnCana-operated Empress extraction facility during the third quarter of 2003 to complete modifications to increase ethane production at that facility. Net revenue for the fourth quarter of 2003 was $3.5 million, a 96 percent increase from $1.8 million for the same period during 2002, as a result of both higher volumes and higher NGLs frac spreads. As a result of the modifications on the EnCana-operated Empress facility and the full quarter impact of the Joffre plant production, AltaGas' total average extraction volumes for the fourth quarter of 2003 increased to 8,182 Bbls/d from 3,802 Bbls/d for the same period in 2002.

During 2003, AltaGas delivered another year of solid performance in its Energy Services segment through disciplined management of the Company's power purchase arrangements. AltaGas reduces its exposure to electricity price volatility by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. AltaGas' hedging strategy targets balance between operating margin certainty and operational flexibility. In the Energy Services segment, net revenue for the year ended December 31, 2003 was $49.6 million compared to $44.2 million for the same period in 2002. Net revenue for the fourth quarter of 2003 was $13.2 million compared to fourth quarter 2002 net revenue of $14.6 million. During 2003, higher power volumes sold were partially offset by higher expenses in the power and gas services components, lower produced volumes from AltaGas' oil and gas properties and lower marketed volumes in the gas services component. In the fourth quarter of 2003, the impact of increased power volumes from Genesee sales were offset by higher transmission and interconnection charges from Sundance B as well as Alberta Electrical Service Administration Rate Rider C charges in the fourth quarter of 2003 instead of Rate Rider C credits as in the fourth quarter of 2002.

The average price AltaGas received from power sales in 2003 was $47.03 per MWh, up 14 percent from the $41.27 per MWh received in 2002. These prices compare to average Alberta Power Pool spot prices of $62.98 per MWh and $43.85 per MWh in 2003 and 2002, respectively. The average price AltaGas received from power sales in the fourth quarter of 2003 was $46.97 per MWh up from $46.45 per MWh in the fourth quarter of 2002. These prices compare to average Alberta Power Pool spot prices of $54.78 per MWh and $61.43 per MWh in the fourth quarters of 2003 and 2002, respectively. Adhering to its hedging strategy, AltaGas has sold a substantial portion of its power forward for 2004.

In the Natural Gas Distribution segment, net revenue for the year ended December 31, 2003 was $30.5 million compared to $28.9 million for the same period in 2002. Sales and transportation volumes for 2003 increased to 23.5 Bcf compared to 21.8 Bcf for 2002 despite slightly warmer weather during 2003. Higher volumes transported for producers and industrial end use customers contributed to the positive results for the year. During the fourth quarter of 2003, net revenue in the natural gas distribution segment was $9.2 million compared to fourth quarter 2002 net revenue of $8.5 million.

Heritage Gas Limited, of which AltaGas owns 24.9 percent, accepted on June 3, 2003 the natural gas distribution franchise to serve six counties in Nova Scotia for a period of 25 years. Later in the year, Heritage Gas acquired and constructed natural gas distribution facilities and took steps to begin operations as a natural gas distribution utility. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. In its first four years of development Heritage Gas expects to bring natural gas access to approximately 8,000 residential and business customers in Nova Scotia.

Consolidated Financial Highlights

AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the Corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. Concurrently, the Company adjusted its accumulated depreciation accounts to include the impact of including salvage values in the determination of its annual depreciation expense. Adoption resulted in a favorable impact on 2003 net income of $0.8 million and $0.02 per share.

	Three months ended December 31		Year Ended December 31	
($ millions)	2003	2002	2003	2002

Certain comparative figures have been reclassified and restated to conform to the current financial presentation.

(1) Net revenue is gross revenue less the costs to purchase natural gas for resale and the costs to purchase power under power purchase based arrangements.
(2) Earnings before interest expense, income taxes, and amortization. EBITDA is provided to assist investors in determining the ability of AltaGas to generate funds from operations. This measure does not have any standardized meaning prescribed by generally accepted accounting principles and may not be comparable to similar measures presented by other companies.
(3) Based on the weighted average number of shares outstanding for the period.
(4) 2002 includes a first quarter pre-tax gain of $2.4 million from the sale of investments and a fourth quarter pre-tax loss of $1.4 million.

About AltaGas

AltaGas moves energy from its source to the end user, adding value through the process. The Company has over $900 million in assets and a market capitalization of approximately $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas in Alberta through AltaGas Utilities Inc., in the Northwest Territories through the Ikhil Gas Project and in Nova Scotia through its interest in Heritage Gas Limited. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Smallcap Index and the S&P/TSX Capped Energy Index.

FOURTH QUARTER REPORT

INTERIM REPORT TO SHAREHOLDERS FOR THE YEAR ENDED DECEMBER 31, 2003

RESULTS AT A GLANCE

	Three months ended December 31		Year ended December 31	
	2003	2002	**2003**	2002
Net income (millions of dollars)	**12.0**	11.2	**38.3**	29.4
Net income excluding net gains from sale of investments (millions of dollars)	**12.0**	12.4	**38.3**	28.8
Net income per share	**0.26**	0.25	**0.84**	0.70
Net income per share excluding net gains (losses) from sale of investments	**0.26**	0.27	**0.84**	0.68

Note: Per share amounts are based on the weighted average number of shares outstanding for the period or basic shares.
Net income excluding gains is provided to assist in determining normal income for ongoing operations.
Net income excluding net gains (losses) does not have any standardized meaning prescribed by Canadian generally accepted accounting principles.
Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

MANAGEMENT'S DISCUSSION & ANALYSIS

The following discussion and analysis should be read in conjunction with the accompanying unaudited consolidated financial statements and in conjunction with the audited consolidated financial statements and the Management's Discussion and Analysis contained in the Company's annual report for the year ended December 31, 2002.

RESULTS OF OPERATIONS

Consolidated Operations

	Three months ended December 31		Year ended December 31	
($ millions)	**2003**	2002	**2003**	2002[1]
Revenue	**179.0**	150.3	**708.9**	492.7
Net revenue [2]	**61.0**	48.8	**219.9**	169.9
EBITDA [3]	**34.7**	27.8	**121.9**	94.8
Operating income	**25.9**	19.1	**83.6**	61.0

([1] 2002 includes a first quarter pre-tax net gain of $2.4 million from the sale of investments and a fourth quarter pre-tax loss of $1.4 million

(2) Net revenue is gross revenue less the costs to purchase natural gas for resale and the costs to purchase power under power purchase based arrangements.

(3) EBITDA (operating income plus amortization) is provided to assist in determining the ability of AltaGas to generate cash from operations. This measure does not have any standardized meaning prescribed by Canadian generally accepted accounting principles and may not be comparable to similar measures presented by other companies.

AltaGas' substantial growth continued to generate very strong operating and financial results in the fourth quarter and for the full year 2003. The growth is primarily driven by the late December 2002 acquisition of two natural gas transmission pipelines at Suffield, Alberta, higher contributions from the power component due to increased power prices and additional power sales associated with AltaGas' 100 megawatt Genesee energy contract, and to the start-up of the Joffre ethane extraction plant in late December 2002.

Revenue for the year ended December 31, 2003 rose 44 percent compared to the same period in 2002. For the three months ended December 31, 2003, revenue increased 19 percent compared to the three months ended December 31, 2002. The increases in revenue are primarily due to the higher prices received for natural gas and power sold in the Energy Services and Natural Gas Distribution segments and to the new volumes sold in the power component.

Net revenue increased 29 percent for full year 2003 and 25 percent for the fourth quarter of 2003 when compared to the same periods of 2002. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the year and three months ended December 31, 2003 rose 29 percent and 25 percent respectively compared to the same periods of 2002. The increases in EBITDA are less than those reported for net revenue on the basis of increased operating and general and administrative costs. Operating cost increases were driven by new costs related to the Wabasca and Suffield acquisitions as well as by higher repairs and maintenance and property tax costs in the current year and quarter. General and administrative costs are higher in the year and in the fourth quarter compared to the same periods in the prior year primarily due to increased staffing required to support the Corporation's growth.

AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred, if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is accreted over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. The Company adjusted its accumulated depreciation accounts for the impact of including salvage values in the determination of its annual depreciation expense. Historically, the Company had excluded salvage values in the determination of an asset's depreciable value, effectively providing for any future estimated reclamation costs.

Amortization increased for the full year and fourth quarter of 2003 over the comparative periods of the prior year as a result of the increases in the capital base related to the Suffield and Wabasca acquisitions and the commissioning of the Joffre ethane extraction plant.

The net impact of these changes year over year and fourth quarter resulted in growth in operating income in 2003 over 2002 of 37 percent and 36 percent respectively. This growth was partially offset by higher interest costs, due to higher average debt levels and by higher income taxes in fourth quarter 2003 compared to fourth quarter 2002. The higher comparative income taxes in 2003 were driven by the Corporation's improved earnings, the impact on future income taxes of legislative changes related to large corporations tax and to favorable tax adjustments recorded in 2002.

Net income for the year ended December 31, 2003 was $38.3 million or $0.84 per share compared to $29.4 million or $0.70 per share for the year ended December 31, 2002. After tax net gains on the sale of investments included in 2002 were $0.6 million or $0.02 per share.

Results by Operating Segment

AltaGas reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution. Gathering and Processing includes natural gas field gathering and processing facilities, ethane and natural gas liquids extraction plant interests and natural gas transmission pipelines. Energy Services includes power services, gas services, and oil and natural gas production. Natural Gas Distribution includes AltaGas' wholly-owned subsidiary AltaGas Utilities Inc., the Company's one-third interest in Inuvik Gas Ltd., a company that distributes natural gas within the Town of Inuvik and the Company's 24.9 percent ownership in Heritage Gas Limited, a company that commenced distribution of natural gas in Nova Scotia near the end of 2003.

Gathering and Processing

FINANCIAL RESULTS

($ millions)	Three months ended December 31 2003	2002	Year ended December 31 2003	2002
Revenue	**42.6**	29.2	**156.7**	106.1[1]
Net revenue	**38.7**	26.7	**140.2**	99.6[1]
Operating and administrative expenses	**20.2**	15.7	**74.5**	52.2
Amortization expense	**5.1**	5.1	**23.6**	19.2
Operating income	**13.4**	5.9	**42.1**	28.2[1]

(1) 2002 includes a first quarter pre-tax gain of $2.4 million and a fourth quarter pre-tax loss of $1.4 million on the sale of investments.

Growth in the Gathering and Processing segment for the year ended December 31, 2003 compared to the same period in 2002 was primarily due to the late December 2002 acquisitions of the Suffield transmission pipelines and the Wabasca field gathering and processing facilities. The commissioning of the Joffre ethane extraction plant in late 2002, the increase in well tie-in activity over 2002 and a modification to increase ethane production capability at the EnCana operated extraction plant also contributed to the growth.

Revenue in this segment for the year and three months ended December 31, 2003 increased by 48 percent and 46 percent respectively when compared to the same periods in 2002. Net revenue, revenue minus the costs associated with the purchase of shrinkage gas at extraction facilities, increased by 41 percent for the year ended December 31, 2003 and 45 percent for the fourth quarter of 2003 compared to the same periods of 2002. The extraction component purchases natural gas to make up the heating value of natural gas liquids extracted (shrinkage).

Operating and administrative expenses increased 43 percent in 2003 and 29 percent for the fourth quarter of 2003 compared to the same periods of 2002 primarily due to operating costs associated with the Wabasca acquisition and expansions in the field gathering and processing component. For the full year 2003, increases in repairs and maintenance and increases in property taxes also contributed to higher operating and administrative expenses.

Amortization expense was higher for the year ended December 31, 2003 compared to the same period in 2002 primarily due to the late 2002 acquisitions and start up of the Joffre ethane extraction plant. In the fourth quarter of 2003, the Company's adoption of the new accounting standard for asset retirement obligations resulted in adjustments to depreciation expense. The impact of the change is accounted for as a retroactive restatement of prior periods and as such full year 2002 and fourth quarter 2002 information has been restated to conform to the reporting requirements.

OPERATING STATISTICS

	Three months ended December 31 2003	2002	Year ended December 31 2003	2002
Field gathering and processing				
Capacity (gross Mmcf/d) [1]	**861**	842	**861**	842
Throughput (gross Mmcf/d) [2]	**523**	532	**523**	532
Throughput (gross average annual Mmcf/d)	**520**	492	**520**	492
Capacity utilization at quarter end (percent)	**61**	63	**61**	63
Average working interest (percent) [1]	**90**	88	**90**	88
Extraction				
Inlet capacity (Mmcf/d) [1]	**349**	349	**349**	349
Production (Bbls/d) [3]	**8,182**	3,802	**6,560**	3,399
Transmission volumes (Mmcf/d) [2] [4]	**403**	106	**403**	106

(1) As at December 31.

(2) Fourth quarter average.

(3) Average for the period.

(4) Excludes condensate pipeline volumes.

Average field gathering and processing throughput volumes decreased by two percent in the fourth quarter of 2003 compared to the fourth quarter of 2002. Increases from the acquisition of the Wabasca field gathering and processing facilities were offset by sharper declines at the Central Border operating area and reduced throughput associated with disposition of non-core processing assets. Increased well tie-in activity was partially offset by natural production declines and the impact of normal down time for repairs and maintenance on facilities. Processed volumes are expected to rise with the Rainbow Lake and Mica Pouce Coupe gathering and processing facility acquisitions completed at the end of the fourth quarter of 2003 and in the first quarter of 2004 respectively, combined with new well tie-ins and exploitation opportunities the Company is currently pursuing.

In the extraction component, average production was higher for the year and three month periods ending December 31, 2003 compared to the same periods of 2002 due to the start up of the Joffre ethane extraction plant in December 2002. Increased volumes resulting from the modifications made at the Empress EnCana extraction facility to increase ethane capability also contributed to the period over period increases.

Contract arrangements at AltaGas' extraction facilities provide for both fee for service and margin based revenue. A significant amount of the inlet volumes processed capture a fee for service and bear no commodity price risk. AltaGas monitors the price differential between the price received for the natural gas liquids (NGLs) extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs. If commodity prices make NGL extraction uneconomic, the NGLs may be reinjected or the facilities shut in.

Transmission volumes increased during the full year and three months ended December 31, 2003 compared to the full year and three months ended December 31, 2002 primarily due to the acquisition of the Suffield transmission pipeline in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d.

Net additions to capital assets in the Gathering and Processing segment were $33.3 million during the full year 2003, down from $159.8 million in 2002. In 2003 $24.1 million was invested in acquisitions and expansions, including approximately $17.0 million for the Rainbow Lake and Mica Pouce Coupe facilities, $2.9 million in the modifications at the Empress EnCana extraction plant and $4.2 million for field gathering and processing expansions. The balance of $9.2 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines. In 2002, the Suffield and Wabasca investment of $118.1 million accounted for the majority of the acquisition capital investment. The balance comprises the $22.8 million invested at Joffre and the $11.3 million spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

Energy Services

FINANCIAL RESULTS

	Three months ended December 31		Year ended December 31	
($ millions)	2003	2002	2003	2002
Revenue	**128.0**	112.4	**521.6**	355.9
Net revenue	**13.2**	14.6	**49.6**	44.2
Operating and administrative expenses	**2.3**	2.6	**8.3**	11.3
Amortization expense	**2.1**	2.2	**8.5**	8.9
Operating income	**8.8**	9.8	**32.8**	24.0

Revenue in the Energy Services segment increased 47 percent in full year 2003 and 14 percent in the fourth quarter of 2003 when compared to the same periods of 2002. The increases are driven by higher natural gas prices received in the gas services component and higher power prices received in the power services component in combination with the higher power sales volumes associated with the Genesee energy contract.

AltaGas reduces volatility in earnings associated with fluctuating power prices by locking in margins with forward sales using financial instruments. The Company entered the power business in late 2001 and started its program of hedging its power sales late in the first quarter of 2002.

Net revenue, gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase based arrangements, was twelve percent higher for the full year 2003 compared to 2002 due to higher average power prices realized and the additional volumes sold as a result of the Genesee energy contract, offset by lower produced volumes in the oil and gas production component. Segment net revenue was down $1.4 million in the fourth quarter of 2003 compared to the same quarter the prior year driven by lower produced volumes in the oil and gas component due to declines and lower marketed volumes in the gas services component based on lower contracted volumes. Power services net revenue for fourth quarter 2003 is $0.1 million higher than fourth quarter 2002. The impact of increased volumes from Genesee sales was offset by higher transmission and interconnection charges for Sundance B as well as Alberta Electrical Services Administrator Rate Rider C charges in fourth quarter 2003 instead of Rate Rider C credits as in fourth quarter 2002.

The decrease in operating and administrative expenses and amortization in the segment for the full year and fourth quarter of 2003 compared to the full year and fourth quarter 2002 due to lower costs related to oil and gas production.

OPERATING STATISTICS

	Three months ended December 31		Year ended December 31	
	2003	2002	**2003**	2002
Volume of power sold (thousands of MWh)	**873**	672	**3,266**	2,669
Average price received on the sale of power ($/MWh) [1]	**46.97**	46.45	**47.03**	41.27
Alberta Power Pool average spot price ($/MWh) [1]	**54.78**	61.43	**62.98**	43.85

(1) Average for the period.

Net additions to capital assets in the Energy Services segment were $2.5 million during 2003 compared to $1.5 million during 2002. The net additions to capital assets are largely development costs in the oil and natural gas production component.

Natural Gas Distribution

The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AUI), AltaGas' one-third interest in Inuvik Gas Ltd. and the Company's 24.9 percent ownership in Heritage Gas Limited (Heritage Gas).

FINANCIAL RESULTS

	Three months ended December 31		Year ended December 31	
($ millions)	**2003**	2002	**2003**	2002
Revenue	**34.7**	34.0	**129.4**	94.3
Net revenue	**9.2**	8.5	**30.5**	28.9
Operating and administrative expenses	**3.9**	3.7	**15.6**	14.4
Amortization expense	**1.6**	1.4	**6.2**	5.7
Operating income	**3.7**	3.4	**8.7**	8.8

Higher natural gas prices in 2003 resulted in Natural Gas Distribution revenue increases in 2003 compared to 2002. Net revenue for the year ended December 31, 2003 increased compared to 2002 due to an increase in the number of service customers and increases in the cost of service. These increases were partially offset by warmer weather in 2003. AUI generates the majority of Natural Gas Distribution net revenue. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board, to be passed through to the distribution customers.

Higher operating and administrative expenses in this segment in 2003 were related to increases in the cost of insurance and routine operating and maintenance activities.

On June 27, 2003 AUI filed a 2003/2004 General Rate Application with the AEUB proposing a negotiated settlement process for Phase 1 of this proceeding. In Phase 1 proceedings, the revenue requirements of the company are determined, while Phase 2 proceedings determine the rates that will be charged to each customer class. On July 29, 2003, the AEUB approved the commencement of negotiations with respect to all components of the Phase 1 portion except the 2004 rate of return on common equity and capital structure which will be determined in the Province of Alberta through a Generic Cost of Capital Proceeding. The negotiated settlement process will continue in the first half of 2004.

The public hearing portion of the Generic Cost of Capital proceeding was completed on January 16, 2004, reply argument from all parties is scheduled to be filed by April 5, 2004 and a decision is expected by the end of June 2004.

Heritage Gas was issued a license to operate and interim approval of a Schedule of Rates, Tolls and Charges by the Nova Scotia Utility and Review Board on December 19, 2003. A full General Tariff application for test years 2004 to 2008 will be filed in early 2004.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-fourths of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and fourth quarters that show either small profits or losses.

OPERATING STATISTICS[1]

	Three months ended December 31		Year ended December 31	
	2003	2002	**2003**	2002
Volume of natural gas distributed				
Sales (Bcf)	**4.5**	4.5	**13.8**	14.2
Transportation (Bcf)	**3.0**	2.0	**9.7**	7.6
Number of customers [2]	**59,543**	58,499	**59,543**	58,499

(1) AUI only.

(2) At December 31.

(3) Variance from 20-year average. Positive variances are favourable.

Net additions to capital assets in the Natural Gas Distribution segment were $16.8 million during the year ended December 31, 2003 compared to $3.7 million for the same period in 2002. Of the additions in 2003, $4.3 million were related to costs associated with AUI's routine system betterment projects, new business development and construction of a pipeline in the Rainbow Lake area of Northern Alberta and $2.3 million were for AltaGas' share of costs related to obtaining the franchise, acquiring pipeline and other assets for Heritage Gas. Included in 2003 net additions is a charge of $10.2 million related to prior years' capital in aid of construction received for the replacement of defective piping. Net additions in 2002 of $3.7 million were related to costs associated with AUI's routine system betterment projects and new business development.

In the second quarter of 2003, Heritage Gas accepted the distribution franchise to deliver natural gas to six counties in Nova Scotia. Heritage Gas distributed its first natural gas at the end of December, 2003. There was no material impact on operating results for 2003.

CONSOLIDATED EXPENSES

	Three months ended December 31		Year ended December 31	
($ millions)	**2003**	2002	**2003**	2002
Interest	**5.3**	4.4	**22.1**	18.1
Income taxes	**8.6**	3.5	**23.2**	13.5

AltaGas' interest expense for the year ended December 31, 2003 increased 22 percent from the same period in 2002. The increase in interest in 2003 is primarily due to higher average debt balances during the year. The higher debt levels were primarily attributable to the debt of $114.7 million incurred to fund the Wabasca field gathering and processing facilities and Suffield transmission pipeline acquisitions on December 19, 2002, offset by debt repayments from operating cash flows over the year.

Income tax expense for the year and fourth quarter ended December 31, 2003 increased from the same period in 2002 for a number of reasons, including higher net income before taxes, the effect of changes in federal income tax legislation of resource income and large corporations tax, the impact on future income taxes resulting from the adoption of new CICA Handbook requirements for asset retirement obligation accounting and the changes in the mix in the Company's income stream period over period and the associated tax rates attracted.

Higher income in the year accounts for sixty percent of the total increase in income tax expense for 2003 versus the prior year. A further twenty percent relates to regulatory changes wherein the resource allowance deduction and the large corporations tax are being phased out through 2007. The impacts of adopting the asset retirement obligation accounting accounted for seven percent of the difference. The remainder of the increase relates to the different businesses of the Corporation attracting different tax treatment, timing and rates.

The resource allowance deduction provided oil and gas industry participants a credit in calculating taxable income in place of non-deductible royalties paid on hydrocarbon production. Since 1997 AltaGas has benefited from the resource allowance deduction on its field gathering and processing business, a significant portion of its income, but pays no material royalties. Under the legislative changes, announced in June 2003, resource allowance is replaced by the deductibility of provincial or crown royalties and a reduction in the tax rates applicable to resource income. The federal income tax legislation changes also phase out large corporations tax (LCT) by 2007. AltaGas has credited large corporations tax payable against the federal surtax amounts otherwise payable. Based on anticipated future income levels and timing of reversal of temporary differences going forward, the effect on AltaGas was an increase in the Corporation's future income tax liability and a charge to future income tax expense in the current period.

Under asset retirement obligation accounting, AltaGas recorded an asset and a liability on its balance sheet, as well as adjusted accumulated depreciation to include salvage values in the depreciation calculation. The latter change increased the differential between the corporation's accounting and tax balance sheets, increasing the estimated future income tax liability and resulted in an increase in income tax expense in the current period.

The income of the Company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. AltaGas recorded in fourth quarter 2002 favorable one time adjustments to tax expense related to recording the full years impact of the anticipated timing.

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the year ended December 31, 2003 increased to $90.2 million from $70.8 million for the year ended December 31, 2002. The increases in 2003 are from the late 2002 gathering and processing acquisitions and the higher contribution from increased power sales in the Energy Services segment.

At December 31, 2003 AltaGas had total debt outstanding of $396.9 million compared to $419.5 million at December 31, 2002. The Company's debt to total capitalization ratio as at December 31, 2003 decreased to 52 percent from 55 percent at December 31, 2002. The improvement in the capitalization ratio from December 31, 2002 is due to the increase in cash generated from operations after net capital additions and payment of dividends being applied to debt repayment.

AltaGas had a working capital surplus of $9.1 million at December 31, 2003 compared to working capital deficit of $27.2 million at December 31, 2002. The change in working capital is primarily due to the repayment of AltaGas' $50.0 million non-revolving bridge credit facility with a Canadian chartered bank during the second quarter of 2003.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at December 31, 2003 was $180.0 million. At December 31, 2003 interest rates had been fixed on approximately 71 percent of the Company's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

AltaGas paid a quarterly dividend of $0.11 per common share and participating share in the capital stock of the Company on December 31, 2003. Dividends of $0.38 were paid during the year ended December 31, 2003 compared to $0.28 paid during the year ended December 31, 2002. This increase in dividends is reflective of the strength and sustainability of AltaGas' earnings.

AltaGas implemented a Normal Course Issuer Bid through the facilities of The Toronto Stock Exchange on December 1, 2000, and renewed the bid in December 2001 and again on December 2, 2002 for an additional 12 months. From April 25, 2001 through December 31, 2003 no shares were purchased. The Normal Course Issuer Bid was not renewed in December 2003.

RISK MANAGEMENT

With respect to continuing operations, the nature of AltaGas' risk exposure and the methods of managing risk remain substantially unchanged since December 31, 2002. AltaGas manages market and credit risk exposures in accordance with its corporate risk policies and position limits. The policies and limits are designed to mitigate the risk of significant loss. For further information on risks, refer to Management's Discussion and Analysis contained in AltaGas' 2002 Annual Report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited except for December 31, 2002)

(tabular amounts are in thousands of dollars except per share amounts and otherwise noted)

NOTE 1. Summary of Significant Accounting Policies

The interim consolidated financial statements of the Company have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Company's annual consolidated financial statements for the fiscal year ended December 31, 2002. These consolidated financial statements for the year ending December 31, 2002 do not include all disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in AltaGas' 2002 Annual Report.

Asset retirement obligations

Effective January 1, 2003, AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is increased due to the passage of time, with an offsetting charge to accretion expense in the income statement, over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. Consequently with the adoption of this standard, the Company adjusted its accumulated amortization accounts for the impact of including salvage values in the determination of its annual amortization expense. Historically, the Company had excluded salvage values in the determination of an asset's amortizable value, effectively offsetting future estimated reclamation costs.

During 2003, AltaGas undertook to identify assets impacted by the new standard in each of its business segments.

In the Gathering and Processing and Energy Services segments, certain facilities must be dismantled and the sites reclaimed to meet Alberta Environmental Protection and Enhancement Act and regulations. The asset retirement liabilities are recognized when the obligations are measurable.

In the Natural Gas Distribution segment, AltaGas identified that assets have an indeterminate life and thus a future retirement obligation is not determinable.

The effect of this change in accounting policy was recorded retroactively with restatement of the prior periods. The effect of the adoption is presented below as increases (decreases) in the specific line items of the Consolidated Balance Sheet and the Consolidated Statement of Income.

Consolidated Balance Sheet	2002
Capital assets	$ 9,553
Accumulated amortization	(6,113)
Asset retirement obligations	12,925
Previously recognized future site restoration costs	(807)
Future income taxes	1,262
Opening retained earnings	1,530

Consolidated Statement of Income	Three months ended December 31, 2002	Twelve months ended December 31, 2002
Opening and administrative	$ 224	$ 831
Amortization	(541)	(1,987)
Income Taxes	106	400

A reconciliation between the opening and closing asset retirement obligation balances is provided below:

December 31, 2001	$ 9,855
New obligations in the period	1,979
Accretion	831
Other	260
December 31, 2002	$ 12,925
New obligations in the period	127
Accretion	920
Other	(10)
December 31, 2003	$ 13,962

AltaGas estimates the undiscounted amount of cash required to settle the asset retirement obligations is $45.0 million (2002 - $44.8 million). The asset retirement obligations have been recorded in the financial statements at estimated values discounted at rates between 8 percent and 8.5 percent and are expected to be incurred between 2010 and 2040. The majority of the costs are expected to be incurred between 2025 and 2035. No assets have been legally restricted for settlement of the liability.

NOTE 2. Related Party Transactions

On April 23, 2003, AltaGas acquired 19.2 percent of the outstanding limited partnership units of Taylor NGL Limited Partnership ("Taylor") for $9.4 million.

On September 4, 2003, the Company loaned $29.0 million to the general partner of Taylor. The loan bears interest at prime plus one percent and was repaid on October 17, 2003.

On October 17, 2003, AltaGas purchased an additional 1,592,250 limited partnership units of Taylor for $8.7 million. The purchase preserved AltaGas' 19.2 percent ownership of Taylor.

NOTE 3. Share Capital

Authorized:

- an unlimited number of common shares without nominal or par value.
- an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:

	Number of Shares	Amount
December 31, 2002	36,237,092	$ 175,326
Issued for cash on exercise of options	471,752	3,652
Issued for compensation	8,000	98
December 31, 2003	**36,716,844**	**$ 179,076**

Preferred Participating Shares Issued:

	Number of Shares	Amount
December 31, 2002 and December 31, 2003	**9,000,000**	**$ 88,964**
Total shares issued	**45,716,844**	**$ 268,040**

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At December 31, 2003 3,800,000 common shares were reserved for issuance under the plan. To December 31, 2003 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. Options outstanding under the plan have a weighted average exercise price of $8.74 and a weighted average remaining contractual life of 7.21 years.

	Number of Options	Weighted Average Exercise Price
Stock options outstanding, December 31, 2002	1,670,676	$ 7.66
Granted	400,638	11.76
Exercised	(471,752)	7.74
Cancelled	(93,200)	7.47
Stock options outstanding, December 31, 2003	**1,506,362**	**$ 8.74**
Exercisable December 31, 2003	**622,974**	**$ 9.57**

On June 7, 2002 AltaGas closed a public offering for 6,325,000 common shares at $9.30 per share. Proceeds net of share issue costs were $56.4 million.

The basic number of shares outstanding for the year ended December 31, 2003 was 45.5 million (December 31, 2002 - 42.3 million) and the diluted number of shares outstanding for the year ended December 31, 2003 was 45.9 million (December 31, 2002 - 42.6 million).

NOTE 4. Segmented Information

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

For the three months ended December 31, 2003	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total

NOTE 5. Comparative Figures

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the adoption of CICA Handbook Section on accounting for asset retirement obligations.

NOTE 6. Seasonality

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

DIVIDENDS

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. No dividends were paid on any shares of AltaGas from the date of its incorporation to the end of December 2000. Dividend levels will be reviewed periodically by the Board of Directors giving consideration to AltaGas' growth-related initiatives, financial position, financing requirements, cash flow and other relevant factors. The following table summarizes AltaGas' dividend history.

(dollars)	2004	2003	2002	2001
First quarter	**$ 0.11**	$ 0.08	$ 0.06	$ 0.03
Second quarter	not declared	0.08	0.06	0.03
Third quarter	not declared	0.11	0.08	0.06
Fourth quarter	not declared	0.11	0.08	0.06
	$ 0.11	$ 0.38	$ 0.28	$ 0.18

EARNINGS COVERAGE RATIO

The following table sets forth AltaGas Services Inc.'s earnings coverage ratio which is provided in connection with its continuous offering of Medium Term Notes. The financial ratio has been calculated based on Canadian generally accepted accounting principles.

	Twelve months ended December 31 2003	December 31 2002
Earnings coverage on short and long term debt	**3.8 x**	3.4x

DEFINITIONS

Bbls/d	barrels per day
Bcf	billion cubic feet
Mmcf/d	million cubic feet per day
MW	megawatt
MWh	megawatt-hour
Net revenue	gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements

NEWS RELEASE

RECEIVED
2004 MAR 10 P 3:10
OFFICE OF INTERNATIONAL
CORPORATE FINANCE

ALTAGAS SERVICES INC. ANNOUNCES PROPOSAL FOR INCOME TRUST REORGANIZATION

Calgary, Alberta (March 10, 2004) - AltaGas Services Inc. ("AltaGas") announced today that its Board of Directors has approved a proposal to reorganize the business of AltaGas into an income trust to be called the AltaGas Income Trust (the "Trust").

The reorganization will be accomplished by way of a plan of arrangement under the *Canada Business Corporations Act* (the "Plan of Arrangement"). The Plan of Arrangement will be subject to the approval of the holders of AltaGas' Common Shares, Participating Shares and Options, voting at a special meeting to be held on April 29, 2004. In addition to securityholder approval, the Plan of Arrangement will be subject to receipt of regulatory and court approvals.

The proposed reorganization is the foundation of a plan to enhance securityholder value and for continued prudent growth. Cash flow generated by the business of AltaGas will be distributed to AltaGas securityholders as the holders of the units ("Units") of the Trust. The Trust will retain sufficient cash flow to fund maintenance capital and capital committed in the Natural Gas Distribution segment.

The current business and operations of AltaGas will be unaffected by the proposed reorganization.

Reasons for Recommending the Proposed Reorganization

AltaGas reported record cash flow and earnings for fiscal 2003 and is positioned to deliver continued strong financial performance and growth in the future. AltaGas' Board of Directors and management have always considered the options available to AltaGas to ensure that its capital structure is efficient and that securityholder value is being maximized. In this regard a Special Committee of independent directors of AltaGas was appointed to undertake a review of whether to reorganize the business of AltaGas. The Board of Directors formed the Special Committee to ensure that any reorganization that might be proposed would be in the best interests of AltaGas. The Special Committee completed its review with the assistance of AltaGas senior management and its professional advisors. The Special Committee concluded that the proposed reorganization would be in the best interests of AltaGas and recommended to the Board of Directors that AltaGas should proceed with the proposed reorganization. The Special Committee based its recommendations on a number of factors including an opinion from RBC Dominion Securities Inc. ("RBC") that the consideration under the Plan of Arrangement is fair from a financial point of view to the holders of the AltaGas Common Shares. Other factors that were considered included:

- That AltaGas' network of high quality energy infrastructure assets deliver predictable long-life operating cash flows from a diverse portfolio of businesses. Funds generated from operations for the year ended December 31, 2003 were $90.2 million, or $1.98 per Common Share.
- Capital spent in 2003 to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines and to maintain rate base at AltaGas Utilities was approximately $14.0 million.
- The income trust structure will allow AltaGas to reduce future cash tax liability at the corporate level thereby increasing the amount of cash available for distribution to Unit holders.
- The Trust will continue to operate on the same fundamentals that contributed to AltaGas' success, being:
    - Focusing on a portfolio of energy infrastructure based assets
    - Growing through internal expansion and strategic acquisitions
    - Providing stable cash flows through diverse energy businesses
    - Managing operational risk, contractually and geographically

- Striving for operational excellence
- Maintaining financial strength and flexibility

- AltaGas will continue to be managed by its existing management and employees, who have demonstrated their capability in delivering accretive growth by acquisitions, effective operations and expansions and prudent financial management.

- It is anticipated that the reorganization of AltaGas' business in an income trust structure will attract new investors and provide, in the aggregate, a more active and liquid market for the Units than currently exists for the Common Shares of AltaGas.

- AltaGas will continue to make accretive acquisitions and expand AltaGas' business, further enhancing values for the Unit holders.

- Cash distributions to Unit holders are anticipated to provide an attractive return without impairing the ability of the Trust to sustain its existing assets.

- It is anticipated that the combined value of distributions plus the market value of the Units, will be greater on both a pre-tax and after-tax basis than the combined value of dividends that could otherwise be paid on the AltaGas Common Shares plus the market value of the Common Shares.

- As part of the Plan of Arrangement the Participating Shares owned by Enbridge Inc. ("Enbridge"), AltaGas' principal shareholder, will be converted into Common Shares and Enbridge will participate in the Plan of Arrangement on substantially the same terms as the other securityholders. The rights and obligations that Enbridge would have under the Shareholder and Registration Rights Agreements with AltaGas will continue with the Trust.

- The mechanics, structure and timing of implementation of the Plan, including in particular, the availability of rights to the Securityholders to dissent to the Plan.

The Board of Directors accepted the recommendations of the Special Committee and approved the proposed reorganization. In reaching its conclusions the Board of Directors considered various factors including:

- The report and recommendations of the Special Committee, including the factors considered by the Special Committee in arriving at its conclusions; and

- The opinion provided by RBC.

Based on these and other factors, the Board of Directors of AltaGas has determined that the proposed reorganization is in the best interests of AltaGas and accordingly intends to recommend the approval of the Plan of Arrangement by the securityholders of AltaGas.

Confirmations of Support

Enbridge, as holder of 25% of the Common Shares and all of the Participating Shares of AltaGas, representing 38.5% of the AltaGas Common Shares on a fully-diluted basis, has confirmed its support for the proposed reorganization. Directors and senior officers of AltaGas, who control approximately 8.4% of the Common Shares of AltaGas on a fully-diluted basis, have also indicated to the Board of Directors that they intend to vote in favour of the proposed reorganization at the securityholder meeting.

AltaGas Income Trust

The AltaGas Income Trust will pay stable monthly cash distributions to the Unit holders. These monthly distributions will be funded by AltaGas' existing operations. AltaGas' mandate will continue to be to focus on operational excellence, growing its business and distributing cash flow net of reserves for capital expenditures. AltaGas Income Trust will continue to prudently finance its acquisition and growth capital expenditures by appropriately accessing both debt and equity capital markets. In addition, the Trust will consider financing growth through reserves of cash and selling assets less suited to being held in an income trust structure including investments in shares of corporations. Management will monitor AltaGas' portfolio of assets on an ongoing basis to maximize securityholder value in this new Trust structure.

The executive team of AltaGas is expected to be continued to be led by David Cornhill, Chairman and Chief Executive Officer, Gary Holden, President and Chief Operating Officer, and Patricia Newson, Senior Vice President Finance and Chief Financial Officer. Mr. Cornhill, Mr. Holden and Ms. Newson, along with the existing AltaGas management team, bring a successful track record of executing asset and corporate acquisitions, and sound financial management that the Trust will rely on for future growth. The board of directors that will effectively govern the Trust is expected to be comprised of the existing Board of Directors of AltaGas, with the majority of directors being independent of management. Certain management and directors may divest part of their current holdings for personal tax and structural reasons. It is anticipated that the management and directors of AltaGas Income Trust will however own Units in accordance with guidelines established by the Board of Directors, thus aligning their interests with those of other Unit holders.

A compensation program will be put in place that will further align both Unitholder and management interests. Management and employees will receive annual performance bonuses administered by the Board of Directors. A Mid-Term Incentive Plan will be implemented for all executive employees. There will be no fixed percent bonus plan for management or employees of AltaGas; or fees payable to management or employees on acquisitions or dispositions.

Plan of Arrangement

Pursuant to the Plan of Arrangement AltaGas securityholders will effectively receive one Unit of the Trust that will own AltaGas for each AltaGas Common Share held. For taxable AltaGas securityholders resident in Canada, the exchange of AltaGas Common Shares for Units will generally result in a disposition giving rise to a gain or loss for tax purposes (other than securityholders who hold their securities inside a tax deferred plan such as a registered retirement savings plan). Taxable Canadian securityholders will be able to elect to exchange part of their Common Shares for their pro rata entitlement to certain limited partnership units that will be exchangeable into Units to facilitate the tax free rollovers of those Common Shares. There will be a maximum number of exchangeable partnership units issued under the Plan of Arrangement. At present AltaGas estimates that approximately half of the securities will be exchangeable into partnership units. If requests for exchangeable partnership units exceed the maximum available, the exchangeable partnership units will be prorated among those electing and those securityholders will receive Units in place of any pro-rated exchangeable partnership units. Non-resident and tax exempt securityholders will be eligible only for Units.

AltaGas expects that the Units will be eligible for inclusion in RRSPs, RRIFs and other registered plans.

An information circular which will describe the proposed reorganization and detail the Plan of Arrangement is anticipated to be mailed to securityholders in late March. The information circular will also be available on the Internet on the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) website at www.sedar.com and on AltaGas' website at www.altagas.ca. The Plan of Arrangement will require approval by the holders of the Common Shares, Participating Shares and Options of AltaGas voting at the meeting, the approval of the Court of Queen's Bench of Alberta and other regulatory agencies.

Financial Advisors

RBC is acting as exclusive financial advisors to AltaGas with respect to the proposed transaction. RBC has advised the Board of Directors of AltaGas that it is of the opinion, subject to its review of the final form of the documents effecting the reorganization, that the consideration under the Plan of Arrangement is fair from a financial point of view to the holders of the Common Shares of AltaGas.

Conference Call

AltaGas will discuss the proposed reorganization in a conference call to be held on March 11, 2004. The conference call will begin at 12:00 pm Mountain Standard Time (2:00 p.m. Eastern Standard Time). To participate, please call (416) 640-4127 (Toronto area) or 1-800-796-7558 for all other participants. The conference call will also be available on replay by calling (416) 640-1917 (Toronto area) or (403) 1- 877-289-8525 for all other parties, using pass code 21042192 followed by the pound (#) key. The replay will be available two hours after the conclusion of the live broadcast until midnight Eastern Standard Time, on March 18, 2004.

AltaGas moves energy from its source to the end user, adding value through the process. The Company has over $900 million in assets and a market capitalization of over $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas in Alberta through AltaGas Utilities Inc., in the

Northwest Territories through the Ikhil Gas Project and in Nova Scotia through its interest in Heritage Gas Limited. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Smallcap Index and the S&P/TSX Capped Energy Index.

When used in this press release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward-looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as result of new information or future events.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

Management recognizes that it is responsible for the preparation of the consolidated financial statements and is satisfied that these statements have been prepared using Canadian generally accepted accounting principles and are within reasonable limits of materiality. Further, management is satisfied that the financial information contained in this annual report is consistent with that presented in the consolidated financial statements. The Company's internal controls and systems are designed to provide reasonable assurance that its assets are safeguarded and to facilitate the preparation of relevant, reliable and timely information.

External auditors have been engaged by the Company to examine the consolidated financial statements. The Audit Committee of the Board of Directors has reviewed these statements with the external auditors and management and has reported its findings to the Board. The Board of Directors, on the recommendation of the Audit Committee, has approved the consolidated financial statements contained in this report.

David W. Cornhill
Chairman of the Board and
Chief Executive Officer
February 13, 2004

Patricia M. Newson
Senior Vice President Finance and
Chief Financial Officer

AUDITORS' REPORT

To the Shareholders of AltaGas Services Inc.

We have audited the consolidated balance sheets of AltaGas Services Inc. as at December 31, 2003 and 2002 and the consolidated statements of income and retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2003 and 2002 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies are summarized below:

Basis of Presentation

These consolidated financial statements include the accounts of AltaGas Services Inc. (AltaGas or the Company) and all of its wholly-owned subsidiaries, and its proportionate interests in the ASTC Power Partnership, Heritage Gas Limited and Inuvik Gas Ltd.

The Company's subsidiary, AltaGas Utilities Inc. is engaged in the distribution and sale of natural gas in various communities located within the Province of Alberta and is regulated by the Alberta Energy and Utilities Board (AEUB). These regulations cover such matters as tariffs, rates, construction, operations, financing and accounting. AltaGas Utilities Inc.'s accounting policies conform to generally accepted accounting principles in the utility industry and reflect the policies established from time to time by the AEUB.

The Company has entered into joint venture arrangements, and accordingly the accounts reflect only the Company's proportionate interest in these activities.

Inventory

Materials and supplies are valued at the lower of average cost and replacement cost. Natural gas inventories are valued at the lower of cost or market.

Capital Assets and Amortization

Capital assets are recorded at cost, except for regulated natural gas distribution assets which are recorded at cost plus an allowance, at rates authorized by the regulatory authorities in Alberta and Nova Scotia, for interest during construction. Contributions in aid of construction of natural gas distribution assets are deducted from the cost of acquiring property, plant, and equipment, with subsequent amortization calculated on the net cost. Interest incurred to finance long term construction projects is capitalized during the construction period.

The Company has changed its accounting policy with respect to amortization in its non-regulated business retroactively with restatement of prior periods. Effective January 1, 2003, AltaGas adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to asset retirement obligations. The corporation now calculates amortization based on original cost, net of salvage value, except for regulated natural gas distribution assets, where amortization is calculated on a straight-line basis at rates approved by the AEUB:

Gathering and Processing	
Gathering and processing assets	15 – 40 years
Other assets	1 – 5 years
Natural Gas Distribution	
Natural gas distribution assets	2 – 3 percent
Other assets	7 percent

AltaGas follows the full cost method of accounting for oil and gas exploration and development activities. Capitalized costs are accumulated in a single cost centre and amortized to income over the production life of proved reserves.

Energy Services Arrangements and Contracts

Energy services arrangements and contracts are recorded at cost and amortized on a straight-line basis over their term. The Sundance B Power Purchase Arrangement (PPA) has a twenty year term.

The Sundance B PPA is the right to the committed generating capacity of two regulated Alberta generating units and required a capital outlay. The Company is obligated to make payments to the owners of the underlying generating units over the remaining term of the PPA to December 31, 2020. Such amounts are recorded as cost of sales as incurred. Revenue from the sale of the committed electricity is recorded when delivered.

The Genesee energy contract is the right to generating capacity at a regulated Alberta generating unit for a three year period which required no capital outlay but includes monthly capacity charges, which amounts are recorded as cost of sales. Revenue from the sale of the committed electricity is recorded when delivered.

Goodwill

Goodwill represents the excess purchase price of the Suffield natural gas pipeline system which is in excess of the fair value of the net assets acquired. Goodwill is tested at least annually for impairment by comparing the fair value of the associated reporting unit with its book value.

Long-term Investments

Investments in companies in which AltaGas has the ability to exercise significant influence are accounted for by the equity method. Other long term investments are recorded at cost. Any other than temporary impairment in value of an investment is charged against income when determined.

Derivative Instruments

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates. These contracts are designated as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction. If financial derivative contracts cease to be effective as hedges, any cumulative gains or losses arising prior to such time continue to be deferred over the period of the original hedged transaction. Changes in the fair value of the derivative contracts arising subsequent to where they are no longer effective as hedges are recognized as adjustments to income.

AltaGas also enters into commodity derivative contracts which require the future delivery of commodities at fixed prices. These contracts are not recognized in the financial statements until they are settled.

Revenue Recognition

Revenue for gathering and processing services is recorded as the services are rendered. Energy marketing revenue is recognized at the time the product is delivered.

Stock Based Compensation Plan

The Company follows the intrinsic value method of accounting for stock based compensation plans whereby no compensation expense is recognized for stock options granted to employees or directors unless the market value of the stock exceeds the options exercise price at the date of grant. Consideration paid by employees or directors on the exercise of stock options is credited to share capital. Options are issued at current market value, consequently no compensation expense is recorded.

Effective January 1, 2002 the Company prospectively adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to stock based compensation. This new recommendation requires pro forma disclosure of the effect of fair value accounting for stock options where the fair value method is not applied.

Pension Plans and Retirement Benefits

The cost of defined benefit pension and other retirement benefits is actuarially determined using the projected benefit method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and expected health care costs. For purposes of calculating the expected return on plan assets, those assets are valued at fair value. The net actuarial gain or loss in excess of 10 percent of the greater of the accrued benefit obligation and the fair value of plan assets is amortized over the average remaining service life of the active employees. Transitional obligations are being amortized over the remaining service life of active employees.

Income Taxes

Except for rate-regulated natural gas distribution subsidiaries, income taxes are calculated using the liability method of tax accounting. Under this method, future income tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the substantively enacted tax rates and laws that are anticipated to be in effect in the periods in which the differences are expected to be settled or realized.

Natural gas distribution income taxes are provided using the taxes payable method approved by the AEUB. In accordance with an AEUB decision, provision is made only for those income taxes currently payable and no future tax is recorded on the timing differences between accounting income and taxable income.

Per Share Information

Basic net income per share is calculated on the basis of the weighted average number of common and preferred participating shares outstanding during the year. Diluted net income per share is calculated as if the proceeds obtained upon exercise of options were used to purchase common shares at the average market price during the year.

Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amounts of revenue and expenses during the period. By their nature, these estimates are subject to measurement uncertainty and may impact the financial statements of future periods.

2. CHANGES IN ACCOUNTING POLICY

Effective January 1, 2003, AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is increased due to the passage of time, with an offsetting charge to accretion expense in the income statement, over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. Concurrently with the adoption of this standard, the Company adjusted its accumulated amortization accounts for the impact of including salvage values in the

determination of its annual amortization expense. Historically, the Company excluded salvage values in the determination of an asset's amortizable value, effectively offsetting future estimated reclamation costs.

During 2003, AltaGas undertook to identify assets impacted by the new standard in each of its business segments.

In the Gathering and Processing and Energy Services segments, certain facilities must be dismantled and the sites reclaimed to meet provisions of the Alberta Environmental Protection and Enhancement Act and regulations. The asset retirement liabilities are recognized when the obligations are measurable.

In the Natural Gas Distribution segment, AltaGas identified that assets have an indeterminate life and thus a future retirement obligation is not determinable.

The effect of this change in accounting policy was recorded retroactively with restatement of all prior periods. The effect of the adoption is presented below as increases (decreases) in the affected categories of the Consolidated Balance Sheet, Consolidated Statements of Income and Retained Earnings.

	2003	2002
Consolidated Balance Sheet		
Capital Assets	$ 9,680	$ 9,553
Accumulated amortization	(8,245)	(6,113)
Asset retirement obligations	13,962	12,925
Previously recognized future site restoration costs	(797)	(807)
Future income taxes	1,681	1,262
Opening retained earnings	2,280	1,530
Consolidated Statement of Income		
Operating and administrative	$ 920	$ 831
Amortization	(2,132)	(1,987)
Income taxes	419	400

A reconciliation between the opening and closing asset retirement obligation balances is provided below:

December 31, 2001	$ 9,855
New obligations in the period	1,979
Accretion	831
Other	260
December 31, 2002	12,925
New obligations in the period	127
Accretion	920
Other	(10)
December 31, 2003	$ 13,962

AltaGas estimates the undiscounted amount of cash flow required to settle the asset retirement obligations is $45.0 million (2002 – $44.8 million). The asset retirement obligations have been recorded in the financial statements at estimated values discounted at rates between 8.0 percent and 8.5 percent and are expected to be incurred between 2010 and 2040. The majority of the costs are expected to be incurred between 2025 and 2035. No assets have been legally restricted for settlement of the liability.

3. CAPITAL ASSETS

	2003			2002		
	Cost	Accumulated Amortization	Net Book Value	Cost	Accumulated Amortization	Net Book Value
Gathering and Processing						
Gathering and processing assets	$ 621,719	$ 88,609	$ 533,110	$ 587,893	$ 64,686	$ 523,207
Other assets	7,550	1,480	6,070	8,061	2,053	6,008
Energy Services						
Energy services assets	28,008	7,847	20,161	25,950	5,824	20,126
Other assets	2,515	1,101	1,414	2,059	1,173	886
Natural Gas Distribution						
Natural gas distribution assets	157,062	54,606	102,456	141,448	42,823	98,625
Other assets	25,515	10,815	14,700	24,333	9,816	14,517
	$ 842,369	$ 164,458	$ 677,911	$ 789,744	$ 126,375	$ 663,369

Interest capitalized on long term capital construction in projects for the year ended December 31, 2003 was $156 thousand (2002 – $746 thousand).

At December 31, 2003, the Company had approximately $13.4 million (2002 – $24.2 million) related to projects under construction that were not subject to amortization.

4. ENERGY SERVICES ARRANGEMENTS AND CONTRACTS

	2003	2002
Cost	$ 113,367	$ 113,342
Accumulated amortization	12,332	6,312
Net book value	$ 101,035	$ 107,030

AltaGas owns the Sundance B PPA through its 50 percent interest in the ASTC Power Partnership (ASTC). ASTC is committed to purchase all of the power from the 706 megawatt capacity generating units. The investment in the PPA and its revenue and expenses thereunder are recorded on a proportionate basis.

5. GOODWILL

	2003	2002
Carrying value	$ 18,860	$ 18,860

On December 19, 2002 AltaGas acquired all of the shares of Encana Suffield Pipeline Inc., comprising of two natural gas transmission pipelines at Suffield, Alberta, and purchased seven natural gas gathering and processing systems in northeastern Alberta for a total of $118.1 million. This acquisition is accounted for as a business combination. The purchase price of the business was allocated to the individual

assets and liabilities acquired based on their estimated fair value, with the exception of future income taxes which were recorded on an undiscounted basis. The excess of the recorded value of the future income tax liability over its fair value was offset through the recognition of goodwill. The results of operations were included in the consolidated statement of income and retained earnings from the date of acquisition.

	2002
Net Assets Acquired	
Capital assets	$ 122,690
Working capital	2,034
Goodwill	18,045
Future income taxes	(24,662)
	$ 118,107
Purchase Price	
Cash	$ 114,658
Transaction costs	3,449
	$ 118,107

6. INVESTMENTS AND OTHER ASSETS

	2003	2002
Common shares of public companies	$ 825	$ 1,877
Common shares of private companies	841	436
Equity accounted investments in units of public partnerships	17,925	–
Equity accounted investments in common shares of private companies	654	298
Advances (note 15)	2,335	2,259
Other	2,518	2,580
	$ 25,098	$ 7,450

At December 31, 2003 the quoted market value of the common shares and units of public entities was approximately $22.1 million (2002 – $1.5 million). The fair market value of investments in private companies is not reasonably determinable.

Advances at December 31, 2003 consist of a $2.3 million demand loan bearing interest at prime plus 3.5 percent. At December 31, 2003 the Company had no intention of demanding repayment of the loan.

On April 23, 2003, AltaGas acquired 19.2 percent of the outstanding units of Taylor NGL Limited Partnership ("Taylor") for $9.4 million. On October 17, 2003 AltaGas purchased an additional 1,592,250 limited partnership units of Taylor for $8.7 million, preserving AltaGas' 19.2 percent ownership of Taylor. The investment is accounted for by the equity method. The excess of AltaGas' interest in the underlying net book value of the assets over the purchase price of $4.7 million is being amortized over the economic life of the assets and is treated as an adjustment to AltaGas' equity income.

7. SHORT TERM DEBT

At December 31, 2003 the Company had a $50.0 million demand operating credit facility with a Canadian chartered bank. Draws on the facility bear interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. At December 31, 2003 the Company had drawn debt of $4.4 million and letters of credit of $14.6 million (2002 – $0.6 million and $8.8 million respectively) were outstanding against the demand operating credit facility.

At December 31, 2003 the Company had a $75.0 million 364 day extendible revolving term letter of credit facility with a Canadian chartered bank which was established on June 30, 2003. The facility which has a maturity date of June 28, 2004 can be extended for a further 364 days from the current maturity date. AltaGas may borrow up to $25.0 million by way of prime borrowings or bankers' acceptances on the letter of credit facility. Borrowings on the facility bear fees and interest at market rates. At December 31, 2003 the Company had drawn debt of $0.1 million and letters of credit of $11.9 million outstanding against the extendible revolving term letter of credit facility.

On June 30, 2003 the Company repaid and cancelled a $50.0 million non-revolving bridge credit facility with a syndicate of Canadian chartered banks. The facility was fully drawn on December 31, 2002.

On December 11, 2003 the Company's $10.1 million extendible letter of credit facility with a chartered bank expired and was not renewed. The facility was fully drawn on December 31, 2002.

The prime lending rate at December 31, 2003 was 4.50 percent (2002 – 4.50 percent). The average rate on the Company's outstanding bankers' acceptances at December 31, 2003 was 4.00 percent (2002 – 4.09 percent).

8. LONG TERM DEBT

	2003	2002
Operating loans	$ 292,358	$ 268,943
Medium term notes	100,000	100,000
	$ 392,358	$ 368,943

Operating Loans

At December 31, 2003, the Company had a $300.0 million (2002 – $270.0 million) extendible revolving term credit facility with a syndicate of Canadian chartered banks. Draws on the facility bear interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. On March 5, 2003 the facility was increased by $30.0 million and a Canadian financial institution was added to the syndicate. Effective October 12, 2003 the facility was extended for an additional 364 days. The facility can be extended for an additional 364 days on October 10, 2004 or can be converted by the Company on that date to a two year term loan. The term loan is repayable over the two year period or at the end of the two year term, depending on the bond rating category of the long term unsecured senior indebtedness of the Company.

Medium Term Notes

On January 10, 2003 the Company filed a short form shelf prospectus to renew its medium term note program initiated on September 27, 2000. On October 4, 2000 the Company issued $100.0 million of 7.28 percent medium term notes pursuant to the program. Interest is payable semi-annually and the principal is due on October 4, 2005. Medium term notes may be issued in an aggregate principal amount of up to $250.0 million at prices and terms determined at the time of issue.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

In the course of its normal operations the Company issues short and long term debt, and purchases and sells natural gas and power commodities. These activities result in exposures to fluctuations in interest rates and commodity prices. The Company uses financial derivative instruments that result in cash settlements to manage the price or cash flow risk that results from these activities. The Company does not make use of derivative instruments for speculative purposes.

The fair values of financial derivatives have been estimated using year-end market rates. These fair values approximate the amount that the Company would receive or pay if the instruments were closed out at these dates.

Commodity Price Risk Management

a) Natural gas prices

The Company used swap agreements to fix the price received on certain natural gas sales in 2002. No such contracts were outstanding at December 31, 2003.

At December 31, 2002, the Company had the following contracts outstanding:

	Fixed Price (per Mcf)	Period (months)	Notional Volume (Mmcf/day)	Fair Value (thousands)
Swaps				
2002	$ 5.43	10	1.9	$ 7

b) Power prices

Under power purchase arrangements AltaGas has an obligation to buy power at agreed terms and prices to December 31, 2020. The Company sells the power to the Power Pool of Alberta at spot prices and uses swaps and collars to fix the prices over time on a portion of the volumes. AltaGas' strategy is to lock in margins to provide predictable earnings. At December 31, 2003 the Company has no intention to terminate any contracts prior to maturity.

At December 31 the Company had the following contracts outstanding:

	Fixed Price (per MWh)	Period (months)	Notional Volume Sales	(MWh) Purchases	Fair Value (thousands)
Derivative instruments					
2003					
Swaps and collars	$41.50 to $52.00	12 to 15	2,531,176	–	$ (17,834)
Swap	$56.43	168	–	368,064	(3,394)
2002					
Swaps and collars	$40.32 to $64.00	12 to 27	3,556,563	–	$ (29,260)
Swap	$61.40	180	–	394,416	(1,908)

Interest Rate Risk Management

To hedge against the effect of future interest movements, the Company enters into interest rate swap agreements to fix a portion of its bankers' acceptances issued under credit facilities. The Company has no intention of terminating any swap agreements prior to maturity.

At December 31 the Company had the following contracts outstanding:

	Period (months)	Principal (thousands)	Weighted Average Interest Rate	Fair Value (thousands)
2003	3 to 60	$ 180,000	4.21%	$ (1,576)
2002	15 to 28	$ 70,000	4.75%	$ (1,948)

Credit Risk on Financial Instruments

Credit risk results from the possibility that a counterparty to a derivative in which the Company has an unrealized gain fails to perform according to the terms of the contract.

Credit exposure is minimized by entering into transactions with credit worthy counterparties in accordance with established credit policies and practices. At December 31, 2003 AltaGas did not have a significant concentration of credit risk with any single counterparty to financial contracts.

10. SHARE CAPITAL

Authorized:

– an unlimited number of common shares without nominal or par value.
– an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:

	Number of Shares	Amount
December 31, 2001	29,495,877	$ 116,082
Issued for cash on exercise of options	407,715	1,868
Issued for cash pursuant to public placement	6,325,000	58,823
Issued for compensation	8,500	79
Less issue costs, net of tax	–	(1,526)
December 31, 2002	36,237,092	$ 175,326
Issued for cash on exercise of options	471,752	3,652
Issued for compensation	8,000	98
December 31, 2003	36,716,844	$ 179,076

Preferred Participating Shares Issued:

	Number of Shares	Amount
December 31, 2003 and 2002	9,000,000	$ 88,964
Total shares issued	45,716,844	$ 268,040

On September 30, 1999 the Company closed a private placement of 9,000,000 non-voting, preferred participating shares at $10.00 per share for gross proceeds of $90.0 million. These shares are convertible at the holder's option into common shares, one for one, any time prior to September 30, 2004. After that date, and no later than September 30, 2009, AltaGas may either redeem the participating shares or convert them to common shares. These shares share rateably with common shares in any dividend declared on or before September 30, 2002 and to a maximum of $1.00 per share per year thereafter. On conversion or redemption, or in the event of a liquidation, dissolution or winding-up of the Company, the participating shareholders are entitled to $10.00 per share and their share of the cumulative retained net income of AltaGas since September 30, 1999 with the annual earnings included per participating share being limited to $1.00 following September 30, 2002.

AltaGas implemented a Normal Course Issuer Bid through the facilities of The Toronto Stock Exchange on December 1, 2000, and renewed the bid in December 2001 and again on December 2, 2002 for an additional 12 months. From April 25, 2001 through December 31, 2003 no shares were purchased. The Normal Course Issuer Bid was not renewed.

On June 7, 2002 AltaGas closed a public offering for 6,325,000 common shares at $9.30 per share. Proceeds net of share issue costs were $56.4 million.

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At December 31, 2003, 3,800,000 common shares are reserved for issuance under the plan. To December 31, 2003 options granted under the plan generally had a term of 10 years to expiry and vested no longer than over a four year period. Currently, outstanding options are exercisable at various dates to the year 2013. Options outstanding under the plan have a weighted average exercise price of $8.74 and a weighted average remaining contractual life of 7.21 years.

Number of Options	Exercise Price	Expiry Date
196,849	$8.75 – $10.00	2004
73,250	$7.00 – $10.00	2009
99,375	$4.80 – $ 6.25	2010
523,000	$5.10 – $ 7.25	2011
233,750	$6.50 – $ 9.75	2012
380,138	$9.55 – $15.05	2013
1,506,362		

	2003		2002	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of year	1,670,676	$ 7.66	1,896,916	$ 6.83
Granted	400,638	11.76	262,000	8.76
Exercised	(471,752)	7.74	(407,715)	4.58
Cancelled	(93,200)	7.47	(80,525)	7.26
Stock options outstanding, end of year	1,506,362	$ 8.74	1,670,676	$ 7.66
Exercisable at year end	622,974	$ 7.75	847,246	$ 7.85

Based on the number and fair value of options granted during 2003 and 2002, the effect on net income of following the fair value method of accounting instead of the intrinsic value method for stock options would not be significant and there would be no effect on net income per share.

The average basic number of shares outstanding for the year ended December 31, 2003 was 45.5 million (2002 – 42.3 million) and the diluted number of shares outstanding for the year ended December 31, 2003 was 45.9 million (2002 – 42.6 million). During the years presented, outstanding stock options are the only dilutive instrument.

11. COMMITMENTS

Future minimum lease payments under operating leases for office space, office equipment, and automotive equipment are estimated as follows:

2004	$ 2,357
2005	2,365
2006	2,410
2007	2,287
2008	–
	$ 9,419

Under the terms of a 1997 long-term gas supply contract AltaGas is committed to supply natural gas for prices ranging from $1.93/Mcf in 2003 to $2.15/Mcf by contract expiry in 2009. AltaGas contracted with several producers to provide the volumes for the term of the 10 year contract. One of those producers defaulted in 1999 on its obligation under its gas supply contract, resulting in the delivery commitment for 2,845 Mmcf/d reverting to the Company. AltaGas owns natural gas reserves as a hedge against the obligation under this reverted supply contract. The natural gas produced from these reserves is in excess of the commitment under the reverted contract.

In addition to the production from its own reserves, in 1999 the Company acquired a right to purchase natural gas from specific reserves for $0.05/Mmcf for the life of the reserves. The production from these reserves was 1,512 Mmcf/d in 2003 (2002 – 1,857 Mmcf/d) and also serves as a hedge against the commitment under the reverted contract.

AltaGas was a successful bidder for 100 MW of power capacity in the Alberta government's third phase of the Market Achievement Plan auction. As a result, the Company entered into an energy contract ("Genesee Energy Contract") with the Balancing Pool Administrator for the right and obligation to purchase power from 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee power plant for a three year term commencing April 1, 2003. The Company has an obligation to pay a competitively priced fixed monthly capacity charge for the power capacity under this power purchase arrangement.

12. INCOME TAXES

The income tax provision differs from the amounts which would be obtained by applying the combined Canadian base federal and provincial income tax rate to income before income taxes. These differences result from the following items:

	2003	2002
Income before income taxes	$ 61,482	$ 42,904
Statutory income tax rate (percent)	40.75	42.12
Computed income tax provision	$ 25,054	$ 18,071
Increase (decrease) in income taxes resulting from:		
Resource allowance	(2,351)	(3,043)
Manufacturing and processing credit	(426)	(168)
Large corporations tax	1,179	973
Permanent differences between accounting and tax bases of assets and liabilities	(358)	269
Rate reductions applied to future income tax liabilities	(628)	(1,246)
Other	689	(1,394)
Income tax provision		
Current	10,587	6,222
Future	12,572	7,240
	$ 23,159	$ 13,462
Effective income tax rate (percent)	37.67	31.38

The tax effects of the significant components of temporary differences that give rise to future income tax assets and liabilities as at December 31, 2003 are as follows:

	2003		2002	
	Assets	Liabilities	Assets	Liabilities
Capital assets	$ –	$ 40,189	$ –	$ 36,170
Net operating losses unused for tax purposes	208	(6,002)	208	–
Deferred debt charges	–	85	–	91
Share issue costs	–	(511)	–	(812)
Partnerships	–	28,426	–	16,377
Other	–	350	–	(2,494)
	$ 208	$ 62,537	$ 208	$ 49,332

Future income tax expense and future income tax assets and liabilities have not been recognized for the Company's rate-regulated natural gas distribution subsidiary. Unrecognized future income tax expense for the year ended December 31, 2003 was $156 thousand (2002 – $451 thousand). The unrecognized future income tax liability at December 31, 2003 was $6.5 million (2002 – $6.7 million).

13. CHANGE IN NON-CASH WORKING CAPITAL

	2003	2002
Accounts receivable	$ 10,533	$ (34,851)
Inventory	1,891	(609)
Other current assets	(626)	6,704
Accounts payable and accrued liabilities	(2,439)	33,822
Other current liabilities	460	5,283
Other	–	(195)
	9,819	10,154
Less decrease (increase) in capital costs payable	(3,527)	(4,065)
Net change in non-cash working capital from operations	$ 6,292	$ 6,089

The following cash payments have been included in the determination of earnings:

	2003	2002
Interest paid	$ 22,065	$ 18,856
Income taxes paid	$ 9,113	$ 1,837

14. PENSION PLANS AND RETIREMENT BENEFITS

Substantially all full-time employees of the Company's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

	2003		2002	
	Pension Plans	Other Benefit Plans	Pension Plans	Other Benefit Plans
Accrued benefit obligation				
Balance, beginning of year	$ 9,300	$ 814	$ 8,069	$ 759
Experience loss (gain)	1,133	115	(57)	(12)
Current service cost	668	40	734	33
Interest cost	684	59	653	53
Benefits paid	(129)	(8)	(99)	(19)
Balance, end of year	11,656	1,020	9,300	814
Plan assets				
Fair value, beginning of year	8,241	–	8,093	–
Actual return on plan assets	871	–	(880)	–
Employer contributions	809	–	1,163	–
Benefits and expenses paid	(129)	–	(135)	–
Fair value, end of year	9,792	–	8,241	–
Funding deficit	(1,864)	(1,020)	(1,059)	(814)
Unamortized transitional obligation	467	361	515	391
Unamortized past service costs	171	–	204	–
Unamortized experience loss (gain)	1,491	247	592	136
Accrued benefit asset (liability)	$ 265	$ (412)	$ 252	$ (287)

Included in the accrued benefit obligation and fair value of plan assets at year end are the following in respect of plans that are not fully funded:

	2003		2002	
	Pension Plans	Other Benefit Plans	Pension Plans	Other Benefit Plans
Accrued benefit obligation	$ 11,656	$ 1,020	$ 9,300	$ 814
Fair value of plan asset	9,792	–	8,241	–
Funding deficit	$ (1,864)	$ (1,020)	$ (1,059)	$ (814)
Significant actuarial assumptions used as at December 31				
Discount rate (percent)	6.25	6.25	6.90	7.00
Expected long-term rate of return on plan assets (percent)	6.75	n/a	7.40	n/a
Rate of compensation increase (percent)	5.00	5.00	5.00	5.00
Average remaining service life of active employees (years)	13 – 15	16	13 – 15	16
Net benefit plan expense for the year				
Current service cost and expenses	$ 668	$ 40	$ 770	$ 33
Interest cost	684	59	653	53
Expected return on plan assets	(639)	–	(571)	–
Amortization of transitional obligation	81	30	81	30
Amortization of experience losses	2	3	27	–
	$ 796	$ 132	$ 960	$ 116

15. RELATED PARTY TRANSACTIONS

During 2003 AltaGas purchased maintenance services totaling $137 thousand (2002 – $80 thousand) from an equity accounted investee. These transactions have been recorded at their exchange amounts. At December 31, 2003 $2.3 million (2002 – $2.3 million) was owed to AltaGas by this investee.

AltaGas has contracted with a significant shareholder to purchase a fixed volume of power for a fixed price. During 2003 the Company purchased 26,280 MWh (2002 – 26,280 MWh) of power for $1.8 million (2002 – $1.8 million).

AltaGas loaned $30.5 million to Taylor NGL Limited Partnership in August 2003. This amount was fully repaid by October 17, 2003. Market rates were used to calculate interest on this loan.

16. JOINT VENTURES

The Company's proportionate interest in its joint venture arrangements is summarized as follows:

	2003	2002
Proportionate share of operating income		
Revenue	$ 162,649	$ 123,438
Expenses	117,030	89,028
	$ 45,619	$ 34,410
Proportionate share of net assets		
Current assets	$ 17,027	$ 22,602
Capital assets	53,076	47,686
Energy services arrangements and contracts	98,666	104,458
Investments and other assets	114	165
Current liabilities	(18,156)	(21,768)
	$ 150,727	$ 153,143
Proportionate share of change in cash		
Operating activities	$ 54,961	$ 48,716
Investing activities	(5,140)	(24,767)
Financing activities	(49,821)	(23,949)
	$ –	$ –

17. SEGMENTED INFORMATION

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

December 31, 2003	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 156,711	$ 521,590	$ 129,434	$ (98,851)	$ 708,884
Cost of sales	(16,504)	(472,075)	(98,866)	98,418	(489,027)
Operating and administrative expenses	(74,598)	(8,189)	(15,637)	433	(97,991)
Amortization	(23,555)	(8,513)	(6,244)	–	(38,312)
Operating income	$ 42,054	$ 32,813	$ 8,687	$ –	$ 83,554
Net additions to capital assets	$ 33,316	$ 2,514	$ 16,796		$ 52,626
Segment assets	$ 614,401	$ 165,759	$ 139,100		$ 919,260

December 31, 2002	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 106,031	$ 355,882	$ 94,316	$ (63,573)	$ 492,656
Cost of sales	(6,460)	(311,664)	(65,463)	60,805	(322,782)
Operating and administrative expenses	(52,136)	(11,284)	(14,358)	2,768	(75,010)
Amortization	(19,187)	(8,914)	(5,711)	–	(33,812)
Operating income	$ 28,248	$ 24,020	$ 8,784	$ –	$ 61,052
Net additions to capital assets	$ 159,785	$ 1,546	$ 3,659		$ 164,990
Segment assets	$ 589,284	$ 181,990	$ 133,589		$ 904,863

18. SUBSEQUENT EVENTS

On February 18, 2004 AltaGas announced that a Special Committee of Independent Directors was undertaking a review regarding the reorganization of the business of AltaGas into an income trust. On March 10, 2004 AltaGas announced that its Board of Directors has approved a proposal to reorganize the business of AltaGas into an income trust to be called AltaGas Income Trust (the "Trust").

The reorganization will be accomplished by way of a plan of arrangement under the Canada Business Corporation Act (the "Plan of Arrangement"). The Plan of Arrangement will be subject to the approval of the holders of AltaGas' Common Shares, Participating Shares and Options, voting at a special meeting to be held on April 29, 2004. In addition to securityholder approval, the Plan of Arrangement will be subject to receipt of regulatory and court approvals.

The proposed reorganization is the foundation of a plan to enhance sucurityholder value and for continued prudent growth. Cash flow generated by the business of AltaGas will be distributed to AltaGas securityholders as the holders of the units ("Units") of the Trust. The Trust will retain sufficient cash flow to fund maintenance capital and capital committed in the Natural Gas Distribution segment. The current business and operations of AltaGas will be unaffected by the proposed reorganization.

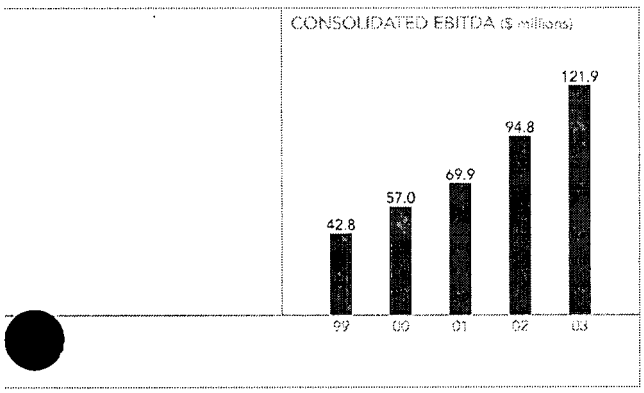
19. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the adoption of the CICA Handbook Section on accounting for asset retirement obligations.

RECEIVED
2005 JUN 10 P 2:12
OFFICE OF INTERNATIONAL CORPORATE FINANCE

Funds Generated From Operations

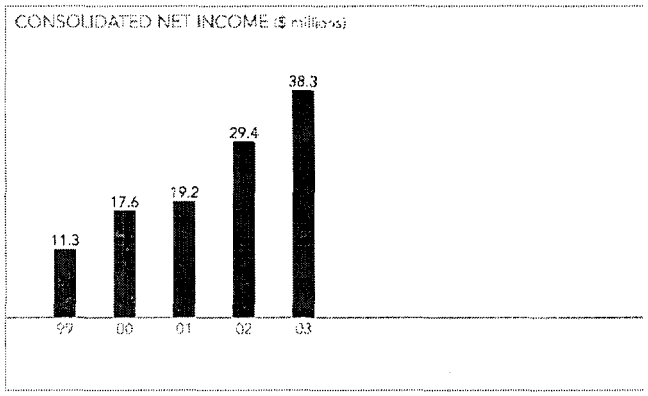
	2003	2002	2001
Non-GAAP financial measure	$ 90.2	$ 70.8	$ 50.2
Add (deduct): Decrease in deferred revenue and other	–	(1.2)	0.1
Net change in non-cash working capital	6.3	5.6	(4.9)
Cash from operations (GAAP financial measure)	$ 96.5	$ 75.3	$ 45.4



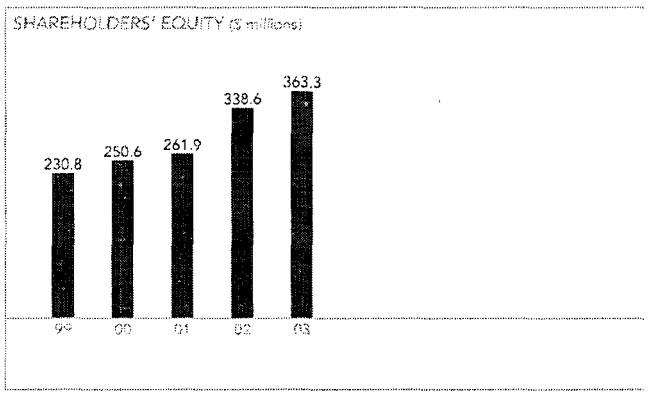
Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash after interest and taxes from operations without regard to changes in the Corporation's working capital in the year.

Net Revenue

	2003	2002	% Change
Non-GAAP financial measure	$ 140.2	$ 99.6	41
Add: Cost of goods sold	26.5	6.5	308
Revenue (GAAP Financial measure)	$ 156.7	$ 106.1	48



This reconciliation shows the difference between revenue and net revenue amounts in the table for Financial and Operating Results for the Gathering and Processing segment. Net revenue is provided in the extraction component and the Natural Gas Distribution and Energy Services segments as net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold.



Revenue increased 44 percent for the year ended December 31, 2003 compared to the year ended December 31, 2002 due to the higher prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments, increased volumes processed through the Corporation's gathering and processing facilities and higher power volumes sold in the Energy Services segment. Volume increases resulted from the Corporation's activities in the field gathering and processing component including the acquisition of seven natural gas gathering and processing systems in northeastern Alberta (Wabasca) in late 2002 and the expansion of the Empress EnCana facility completed in September 2003, the acquisition of two natural gas pipelines (Suffield) in December 2002, the commissioning of the Joffre ethane extraction facility in late 2002, and the addition of 100 MW of power capacity associated with the Genesee energy contract in the Energy Services segment in April 2003.

Net revenue, increased 29 percent for the year ended December 31, 2003 when compared to 2002.

Volumes processed in the field gathering and processing component rose to 520 Mmcf/d in 2003 from 492 Mmcf/d in 2002. The increase stems in large part from the Wabasca facilities acquisition in December 2002. Extraction production increased for 2003 to 6,560 Bbls/d from 3,399 Bbls/d due to the commissioning of the Joffre ethane extraction plant, also in December 2002 and due to

increased ethane production resulting from modifications made at the Encana ethane extraction plant in late 2003. Transmission volumes rose to 348 Mmcf/d in 2003 from 70 Mmcf/d in 2002 due to the Suffield acquisition late in 2002. The volume of power sold rose to 373 MW in 2003 from 353 MW in 2002 due to the addition on April 1, 2003 of volumes from the Genesee energy contract. Prices AltaGas realized on average per MW hour sold in 2003 were $47.03, up from the $41.27 realized per MWh sold in 2002.

Natural Gas Distribution volumes at AltaGas Utilities Inc. (AUI) increased slightly year over year due to higher transportation volumes and an increase in AUI's customer base offset by warmer average weather in 2003 versus 2002 and reduced customer usage associated with technological improvements. Heritage Gas Limited (Heritage Gas), a Nova Scotia company of which AltaGas owns 24.9 percent, accepted, on June 2, 2003, the natural gas distribution franchise to service six counties in Nova Scotia for a period of 25 years. Late in the year, Heritage Gas acquired and constructed natural gas distribution facilities and took steps to be an operating natural gas distribution utility. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. In its first four years of development, Heritage Gas expects to bring natural gas access to approximately 8,000 residential and business customers in Nova Scotia.

AltaGas' EBITDA increased 29 percent for the year ended December 31, 2003 compared to 2002. While net revenues were up 29 percent, increased operating costs in the Gathering and Processing segment and higher general and administrative costs partially eroded the gains. Operating costs were up year over year due to the inclusion of operating costs associated with the Suffield and Wabasca acquisitions, the Joffre ethane extraction facility operations and increases in repairs and maintenance and property tax. General and administrative costs increased year over year to support the Corporation's growth and to ensure that the organizational capability is in place to facilitate the effective integration of future business opportunities. Amortization expense was up 13 percent, the increase due to Gathering and Processing segment acquisitions and commissioning of the Joffre facility.

Net income increased 30 percent for the year ended December 31, 2003 compared to the same period of 2002. After tax net gains from the sale of investments included in December 31, 2002 were $0.6 million. Higher comparative interest expense and income taxes partially eroded the favorable results in EBITDA.

While interest rates were favourable year over year, interest expense was higher due to increased average debt outstanding compared to 2002, largely resulting from the debt financing required for the late 2002 Wabasca and Suffield acquisitions.

Income tax expense for the year ended December 31, 2003 increased from the same period in 2002 for a number of reasons, including higher net income before taxes, the effect of changes in federal income taxation of resource income and Large Corporations Tax, the impact on future income taxes resulting from the adoption of asset retirement obligation accounting and changes in the mix of the Corporation's income stream period over period and the associated tax rates attracted.

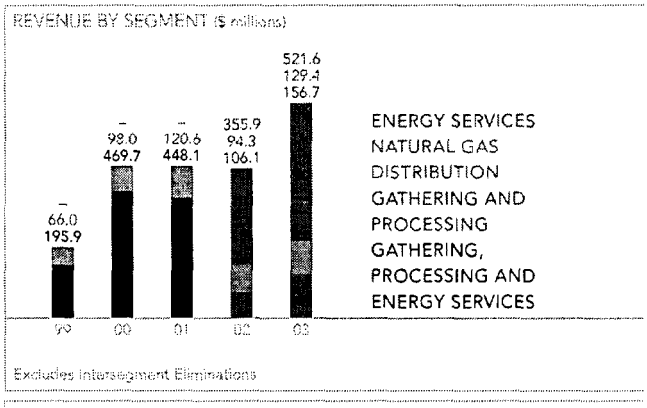
Higher income in the year accounted for 60 percent of the total increase in income tax expense for 2003 versus the prior year. A further 20 percent related to regulatory changes wherein the resource allowance deduction and the Large Corporations Tax are being phased out through 2007. The impacts of adopting the asset retirement obligation accounting accounted for seven percent of the difference. The remainder of the increase related to the different businesses of the Corporation attracting different tax treatment, timing and rates.

The resource allowance deduction provided oil and gas industry participants a credit in calculating taxable income in place of non-deductible royalties paid on hydrocarbon production. Since 1997 AltaGas has benefited from the resource allowance deduction on its field gathering and processing business, a significant portion of its income, but pays no material royalties. Under the legislative changes announced in June 2003, resource allowance is replaced by the deductibility of provincial or crown royalties and a reduction in the tax rates applicable to resource income.

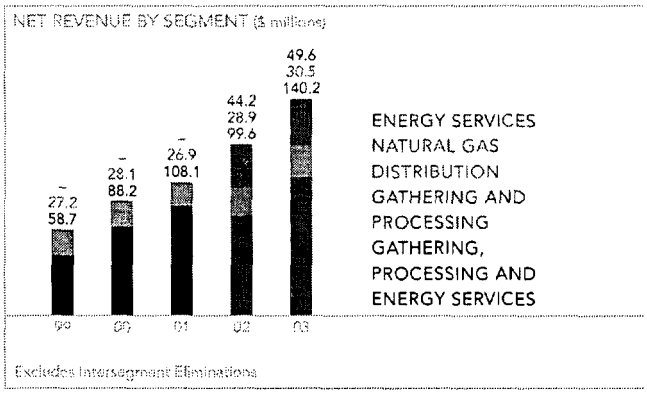
The federal income tax legislation changes also phase out Large Corporations Tax (LCT) by 2007. AltaGas has credited Large Corporations Tax payable against the federal surtax amounts otherwise payable. Based on anticipated future income levels and timing of reversal of temporary differences going forward, the effect on AltaGas was an increase in the Corporation's future income tax liability and a charge to future income tax expense.

Under asset retirement obligation accounting, AltaGas recorded an asset and a liability on its balance sheet, as well as adjusted accumulated depreciation to include salvage values in the depreciation calculation. The latter change increased the differential between the Corporation's accounting and tax balance sheets, increasing the estimated future income tax liability and resulted in an increase in income tax expense in the current year.

The income of the Company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. In the fourth quarter of 2002 AltaGas recorded favorable one time adjustments to tax expense related to the full year impact of this anticipated timing on income from the power component.



Earnings for 2004 are expected to increase in the Gathering and Processing segment. Drilling activity in the majority of the Corporation's catchment areas is expected to remain strong given the favorable commodity pricing environment. In addition, the pursuit of exploitation opportunities in



existing businesses and processes are expected to increase processed volumes in the Gathering and Processing segment, when compared to 2003. In the Natural Gas Distribution segment, new revenues from the Corporation's 24.9 percent interest in Heritage Gas will contribute to improved performance when comparing 2004 to 2003.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

Operating income performance in the Gathering and Processing and Energy Services segments in 2003 showed significant improvement when compared to 2002, while the Natural Gas Distribution segment reported consistent performance over the same period. Key drivers for the business results of each segment are discussed at the component level in the information that follows. This information should be read in conjunction with Note 17 to the Consolidated Financial Statements – Segmented Information.

Prior to January 1, 2002 the Company had two business segments

Operating Income[1]

($ millions, unless otherwise noted)	2003	2002	% Change
Gathering and Processing	42.1	28.2	49
Energy Services	32.8	24.0	37
Natural Gas Distribution	8.7	8.8	-1

[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

Gathering and Processing

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components. Assets include more than 6,000 kilometers of gathering lines, 67 field processing facilities, interests in three extraction facilities and six transmission pipelines. AltaGas is one of the top 10 Canadian processors of natural gas and one of the top four largest Canadian midstream companies in terms of natural gas field processing capacity. Assets in this segment are long life and are used to provide service to a geographically diverse customer base under arrangements which include a significant portion of cost of service, fixed fee and recovery of operating cost contracts. Commodity price exposure is minimal and revenues are a function of volumes processed or transported. Future opportunities derive from the ongoing requirement that all natural gas must be processed to meet downstream pipeline specifications en route to the end user.

AltaGas' investments in companies engaged directly in activities in the gathering and processing business or ancillary services is also included in this segment under "Other". The Corporation reports component results to the level of operating income, defined as gross revenue less cost of sales, operating and general and administrative costs, and amortization.

Financial and Operating Results[1]

($ millions, unless otherwise noted)	2003	2002	% Change
Revenue	156.7	106.1	48
Net revenue	140.2	99.6	41
Operating income	42.1	28.2	49

[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

Operating Statistics

	2003	2002	% Change
Field gathering and processing			
Processing capacity (Mmcf/d)[1]	861	842	2

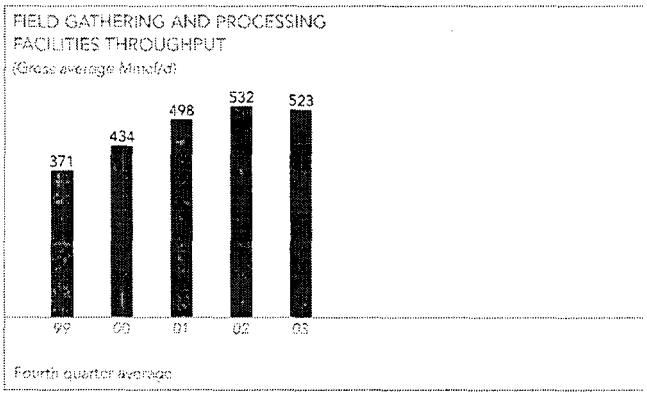
[4] *Excludes condensate pipeline volumes*

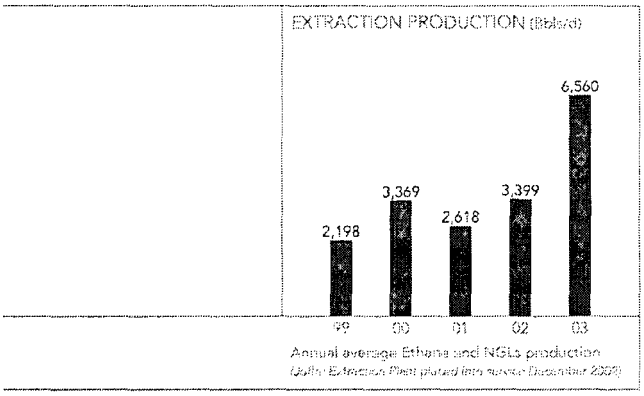


The field gathering and processing component's extensive gathering infrastructure and ability to quickly redeploy assets due to the mobile nature of its plants, positions AltaGas to offer producers quick access to markets for their natural gas. The increase in the field gathering and processing component's operating income for 2003 when compared with 2002 was the net result of higher gross average annual throughput and improved cost recovery at some facilities offset by higher operating and general and administrative costs in other areas. Volume increases are the net result of the late December 2002 acquisition of the seven Wabasca facilities, expansion at AltaGas' Namaka facility and well tie-in activity at various operating areas, offset by declines at the Central Border operating area. Volume changes at the Corporation's gathering and processing facilities are dependent on producer drilling activity and success in its particular catchment areas. The Corporation assesses activity in each area as part of its capital investment process and relies on the mobile nature of its processing assets to match throughput and capacity.

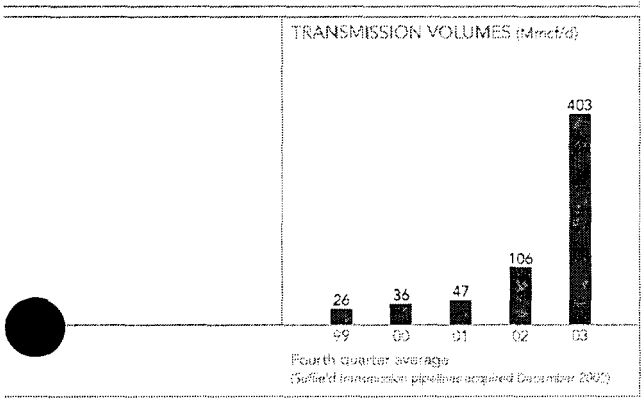
Operating cost increases were a result of an aggressive preventative maintenance program

started in 2003 as part of the Corporation's operational excellence initiative. The program, which will be a focus over the next four years, will standardize the operating condition of AltaGas' processing assets to achieve the highest availability possible and increase predictability in operating and financial results.

In the extraction component, ownership interests in three extraction facilities drive the results. AltaGas' average net extraction production volumes were 93 percent higher for the year compared to 2002 due mainly to the start up of the Joffre ethane extraction plant at the end of 2002. That plant, with its first full year of operation in 2003, is owned 50 percent each by AltaGas and Taylor NGL Limited Partnership (Taylor). Taylor is the operator of the plant. AltaGas' share of inlet processing capacity at Joffre is 125 Mmcf/d of natural gas with ethane and NGLs production capacity of 5,200 Bbls/d. The ethane production from the plant is sold to NOVA Chemicals under a long term cost of service type contract. AltaGas sells its net share of NGLs under a one year evergreen marketing agreement.



Transmission volumes for the fourth quarter increased 280 percent in 2003 compared to 2002 due to the acquisition of the Suffield transmission pipelines in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d. These pipelines transport natural gas produced in the Suffield area of southeastern Alberta to the TransCanada transmission Canadian mainline at Burstall, Saskatchewan. The system is regulated by the National Energy Board and rates on the system are provided for on a market-based tolling methodology. The majority of the Suffield system capacity is contracted by EnCana Corporation through transport or pay volume commitments expiring in 2022, renewable for one year periods after that.



The other component reports results for AltaGas' investments in industry service companies, which the Corporation makes when it considers it to be prudent and if there is an opportunity to enhance AltaGas' existing business activities. On April 23, 2003 the Corporation acquired 19.2 percent of the outstanding limited partnership units of Taylor and to preserve its ownership interest invested in further units in October of 2003 under a public offering by Taylor. AltaGas' total investment in Taylor is $18.1 million.

Net additions to capital assets in the Gathering and Processing segment were

$33.3 million during the full year 2003, down from $159.8 million in 2002. In 2003, $24.1 million was invested in acquisitions and expansions, including approximately $17.0 million for the Rainbow Lake and Mica Pouce Coupe gathering and processing facilities, $2.9 million in modifications at the Empress EnCana extraction plant and $4.2 million for field gathering and processing expansions. The balance of $9.2 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines. In 2002, $118.1 million was invested in the Suffield and Wabasca acquisitions, $22.8 million at the Joffre extraction facility and $7.6 million in expansions of field gathering and processing facilities. In addition, $11.3 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

On December 18, 2003 AltaGas announced its intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition closed on December 23, 2003 and included a 100 percent interest in a 40 Mmcf/d sour natural gas processing facility and 130 kilometres of gathering pipelines located near the town of Rainbow Lake in northwestern Alberta. The facility is supported by extensive land dedications in an area with strong producer activity. The Mica Pouce Coupe acquisition, which closed on January 30, 2004, is a 40.8 percent interest in a 43 Mmcf/d sweet gas processing facility and approximately 70 kilometres of gathering pipeline located along the Alberta/British Columbia border near the town of Dawson Creek.

Energy Services

The Energy Services segment is comprised of the power services, gas services and oil and gas production components. The financial results of the power services component account for approximately 95 percent of the overall segment financial results and as such the commentary in this section will be restricted to the contributions from power services. AltaGas supplies 453 MW of power to markets through power purchase based arrangements which include a 50 percent ownership interest in the Sundance B power purchase arrangement and the Genesee energy contract. AltaGas' 453 MW of power represents approximately four percent of Alberta's power capacity at December 31, 2003. Power purchase arrangements were established in 1999 under Alberta's program of power industry deregulation. Alberta is currently the only province providing this opportunity. Power purchase arrangements, which in form resemble contracts, were created to separate ownership of the physical power generation assets from ownership of their output.

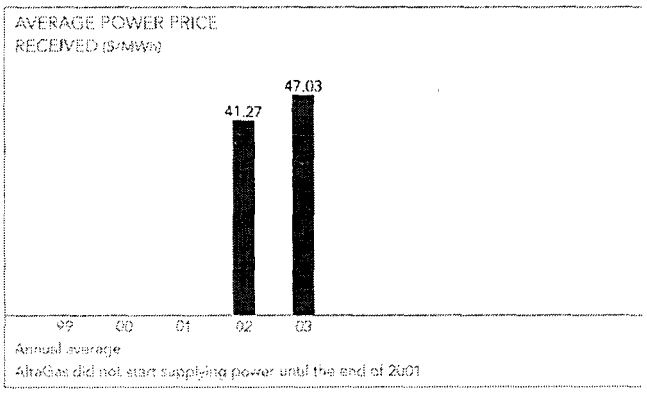
Financial and Operating Results[1]

($ millions, unless otherwise noted)	2003	2002	% Change
Revenue	521.6	355.9	47
Net revenue	49.6	44.2	12
Operating income	32.8	24.0	37

[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

Operating statistics

	2003	2002	% Change
Volume of power sold (thousands of MWh)	3,266	2,669	22
Average price received on the sale of power ($/MWh)[1]	47.03	41.27	14
Average Alberta Power Pool price ($/MWh)[1]	62.98	43.85	44



[1] *Average for the year*

Volume of power sold increased 22 percent in 2003 compared to 2002 due to the inclusion of 100 MW of power associated with the Genesee energy contract AltaGas entered into on April 1, 2003. The energy contract required no capital by AltaGas but instead requires the Corporation to pay a competitively priced fix monthly capacity charge for the power capacity.

AltaGas does not engage in speculative trading of power but reduces its exposure to power price volatility by using a balanced portfolio of contracts to lock in power margins. The average price AltaGas received from power sales during 2003 was $47.03 per MWh compared to $41.27 per MWh for 2002. The increase in the average price AltaGas received from power sales in 2003 is due to the impact of higher market prices in 2003. Average Alberta Power Pool prices were $62.98 and $43.85 per MWh for 2003 and 2002 respectively.

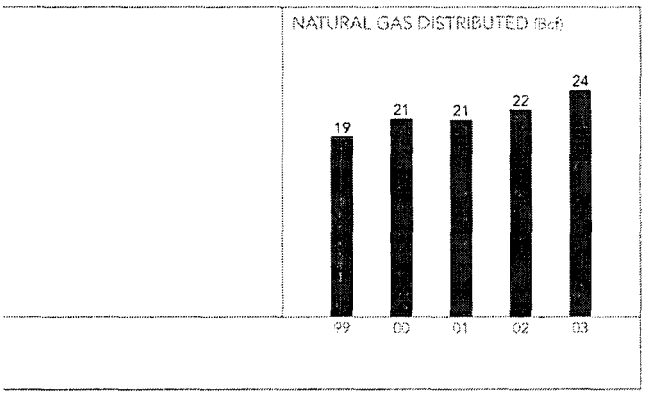
In this segment, the Corporation also reports the results of the oil and gas production component and the gas services component. AltaGas is not in the business of exploration and development of natural gas reserves. However, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

Natural Gas Distribution

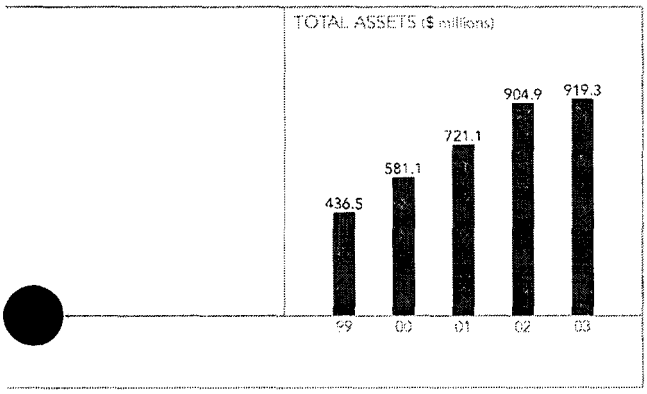
The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AUI), AltaGas' one-third interest in Inuvik Gas Ltd. (Inuvik Gas) and a 24.9 percent interest in Heritage Gas Limited (Heritage Gas). AltaGas Utilities operates as a provincially

regulated natural gas distribution utility in its areas of service in the Province of Alberta. Inuvik Gas distributes gas to the Town of Inuvik in the Northwest Territories and Heritage Gas has the distribution franchise to deliver natural gas to six counties in Nova Scotia.

Financial and Operating Results[1]



($ millions, unless otherwise noted)	2003	2002	% Change
Revenue	129.4	94.3	37
Net revenue	30.5	28.9	6
Operating income	8.7	8.8	-1



[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

Operating Statistics[1]

	2003	2002	% Change
Volume of natural gas distributed			
Sales (Bcf)	13.8	14.2	-3
Transportation (Bcf)	9.7	7.6	28
Number of customers[2]	59,543	58,499	2
Degree day variance (percent)[3]	6.9	7.8	N/A

[1] *Excludes Inuvik Gas and Heritage Gas statistics*
[2] *At December 31*
[3] *Variance from 20 year average. Positive variances are favorable*

Higher natural gas prices in 2003 resulted in revenue increases in 2003 compared to 2002 in the Natural Gas Distribution segment. AUI generates the majority of Natural Gas Distribution net revenues. Net revenue for 2003 increased compared to 2002 due to higher cost of service and increased transportation volumes. These increases were partially offset by warmer weather during 2003. AUI's net revenue is unaffected by changes in the cost of natural gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board (AEUB), to be passed through to the distribution customers.

Higher operating and administrative expenses in this segment in 2003 were related to increases in the cost of insurance and routine operating and maintenance activities.

AUI and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated costs of service and an allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual Natural Gas Distribution segment net revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

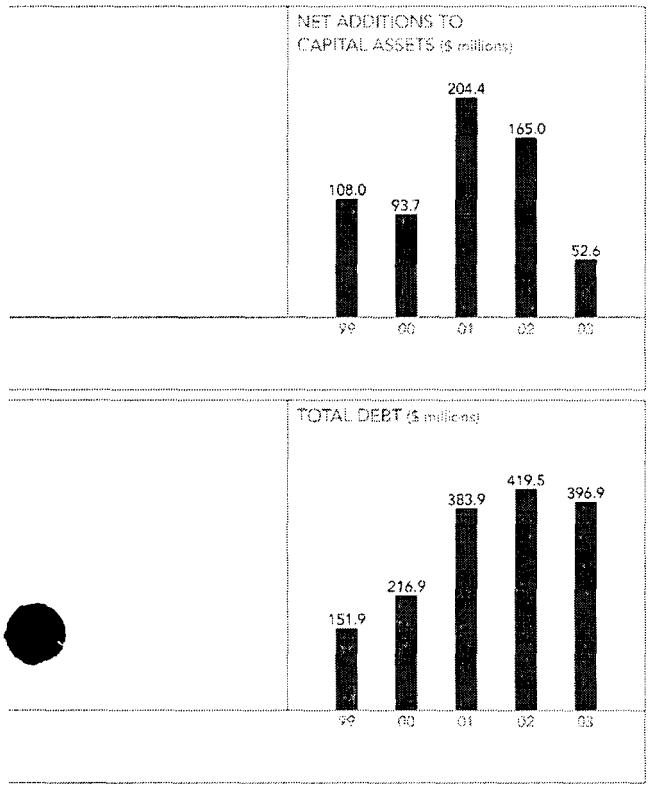
Net additions to capital assets in the Natural Gas Distribution segment were $16.8 million during the year ended December 31, 2003 compared to $3.7 million for the same period in 2002. Of the additions in 2003, $4.3 million were related to costs associated with AUI's routine system betterment projects, new business development and construction of a pipeline in the Rainbow Lake area of Northern Alberta and $2.3 million were for AltaGas' share of costs related to obtaining the franchise, acquiring pipeline and other assets for Heritage Gas. Included in 2003 net additions is an amount of $10.2 million related to the retirement of prior years' capital contributions in aid of construction. There is an equal and offsetting amount charged to accumulated amortization. Net additions in 2002 of $3.7 million were related to costs associated with AUI's routine system betterment projects and new business development.

Liquidity

Funds generated from operations increased to $90.2 million from $70.8 million on the strength of the improvement in AltaGas' operations and improved accounts receivable collection in the field gathering and processing component during the year through focus on the accuracy and completeness in the Corporation's invoicing processes for the component. In 2003 the Company utilized $44.2 million of the cash generated to acquire and expand facilities, down from $158.8 million in 2002 due to the timing and availability of investment opportunities between the periods and to opportunities not requiring significant capital. AltaGas invested $18.6 million in industry related companies, substantially all of which was for the Taylor units. Dividend payments increased in 2003 to $17.3 million from $11.9 million in 2002. The increase in funds generated from operations resulted in debt repayment of $22.6 million in 2003.

AltaGas had a working capital surplus of $9.1 million at December 31, 2003 compared to working capital deficit of $27.2 million at December 31, 2002. The change in working capital was primarily due to the repayment of AltaGas' $50.0 million non-revolving bridge credit facility with a Canadian chartered bank during the second quarter of 2003.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at December 31, 2003 was $180.0 million. At December 31, 2003 interest rates had been fixed on approximately 71 percent of the Corporation's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.



AltaGas' obligations for the next five years and for periods thereafter are illustrated in the table below:

Contractual Obligations[1]

		Payments Due by Period			
($ million)	Total	Less than 1 year	1 – 3 years	4 – 5 years	After 5 years
Long term debt	396.9	4.5	392.4[2]	-	-
Operating leases	9.4	2.4	4.8	2.3	-
Total contractual obligations	406.3	6.9	397.2	2.3	-

[1] *The Company has no capital lease, purchase or other obligations at December 31, 2003.*

[2] *Includes AltaGas' $100.0 million medium term notes maturing October 4, 2005. The balance funded through the $300.0 million extendible revolving term credit facility which can be extended beyond the current term date of October 10, 2004 for a further 364 days or can be converted by the Company on that date to a two year term loan.*

Capital Resources

AltaGas believes that its access to debt and equity markets, unutilized bank credit facilities and cash generated from operations will provide the Corporation with sufficient capital resources and liquidity to fund existing operations, dividends, and acquisition and expansion opportunities in 2004. A description of the Corporation's credit facilities can be found in Notes 7 and 8 to the Consolidated Financial Statements.

The use of debt or equity funding is determined on the basis of capital structure. AltaGas' capital structure is determined by considering the norms and risks associated with each of its business components and segments. The Corporation funds all subsidiary borrowings. AltaGas' long-term goal has been to maintain debt at approximately 50 to 55 percent of total capital, which reflects the stability of AltaGas' earnings from its diversified portfolio of assets. AltaGas' credit facility agreements and the Corporation's trust indenture allow for a debt to total capitalization ratio of 65 percent.

Off Balance Sheet Arrangements

The Corporation is not party to any contractual arrangement to which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Corporation has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

Related Parties

On April 23, 2003 AltaGas acquired a 19.2 percent interest in Taylor NGL Limited Partnership for $9.4 million and in October 2003 invested a further $8.7 million to acquire additional limited partnership units to maintain its ownership interest. Taylor's business is the ownership and operatorship of facilities in the midstream sector of the Western Canadian natural gas industry including the Joffre ethane extraction plant in which AltaGas has a 50 percent interest. There were no other material transactions with related parties during the year.

Proposed Transactions

On February 18, 2004 AltaGas announced that a Special Committee of Independent Directors was undertaking a review of whether to reorganize the business of AltaGas into an income trust. On March 10, 2004 AltaGas announced that its Board of Directors has approved a proposal to reorganize the business of AltaGas into an income trust to be called AltaGas Income Trust (the "Trust").

The reorganization will be accomplished by way of a plan of arrangement under the Canada Business Corporation Act (the "Plan of Arrangement"). The Plan of Arrangement will be subject to the approval of the holders of AltaGas' Common Shares, Participating Shares and Options, voting at a special meeting to be held on April 29, 2004. In addition to securityholder approval, the Plan of Arrangement will be subject to receipt of regulatory and court approvals.

The proposed reorganization is the foundation of a plan to enhance sucurityholder value and for continued prudent growth. Cash flow generated by the business of AltaGas will be distributed to AltaGas securityholders as the holders of the units ("Units") of the Trust. The Trust will retain sufficient cash flow to fund maintenance capital and capital committed in the Natural Gas Distribution segment. The current business and operations of AltaGas will be unaffected by the proposed reorganization.

Changes in Accounting Policy

AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the Corporation recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is accreted over the estimated time period until settlement of the obligation and the asset is amortized over the estimated useful life of the asset.

Historically, AltaGas excluded salvage values in the determination of an asset's depreciable value, the intent being to provide for future estimated reclamation costs. The Corporation adjusted its accumulated amortization accounts for the impact of including salvage values in the determination of its annual amortization expense concurrently with the changes to account for asset retirement obligations.

The effect of these changes in accounting policy was recorded retroactively with restatement of prior periods. The impacts are disclosed in Note 2 to the Consolidated Financial Statements.

Critical Accounting Estimates

AltaGas' major use of estimates in accounting relates to amortization and depreciation of capital assets, asset impairment assessment and with the adoption of asset retirement obligation (ARO) accounting in 2003 ARO estimates and salvage values.

AltaGas' accounting policy has been to record amortization of capital assets on the basis of original cost and estimated useful lives without regard to salvage values. Salvage value estimates were, however, reviewed annually and compared to estimated future site removal and site restoration costs to determine if there was a need to record a liability in the financial statements for any excess of such costs over expected recoveries from salvage.

In 2003, concurrent with the adoption of asset retirement obligation accounting, management reviewed salvage value estimates and determined that they are consistent with prior periods. Asset retirement costs are under continual assessment by AltaGas' Environment and Safety committee and reviewed annually with management. These asset retirement costs and salvage value estimates formed the basis for the restatement of prior periods' information incorporating salvage values into retroactive calculation of amortization expense and asset retirement costs into the asset retirement obligation asset and liability accounts.

With respect to impairment assessment, management has made fair value determinations related to goodwill, estimating future cash flows as well as appropriate discount rates. The estimates have been applied consistently with prior periods. Management has determined no impairment is currently required.

Financial Instruments

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power component and related to corporate debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2003 business was to provide earnings predictability in the power component. With Alberta Power Pool monthly average spot prices ranging in the year from $43.63 per MWh to $89.80 per MWh, through the use of financial hedges, AltaGas moderated the impact of this volatility on the portion of its portfolio deemed optimal by management.

Outstanding Share Data

AltaGas' common and preferred shares outstanding at December 31, 2003 were 45,716,844 up from 45,237,092 at December 31, 2002. The change during the year was related to the issue of shares for cash on the exercise of options.

Sensitivity Analysis

The following table illustrates the anticipated effects of economic and operational changes on AltaGas' 2004 net income.

Factor	Increase or Decrease	Increase or Decrease Net Income Per Diluted Share
Field gathering and processing volumes at existing facilities	Five Mmcf/d	$ 0.016
Field gathering and processing operating margin per mcf	One cent	$ 0.026
Power prices	$1 per Mwh	$ 0.008
Natural gas prices	$0.50/mcf	$ 0.003
Natural gas liquids fractionation spread	$1 per Bbl	$ 0.006
Interest rates	25 basis points	$ 0.006
Degree days	Ten percent	$ 0.017
Change in allowed ROE[1]	One percent	$ 0.008

[1] *The change in allowed ROE pertains to AltaGas Utilities*

4TH QUARTER DISCUSSION

Consolidated Results of Operations[1]

Three Months Ended December 31

($ millions)	2003	2002[1][2]	% Change
Revenue	179.0	150.3	19
Net revenue	61.0	48.8	25
Net income	12.0	11.2	7

[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

[2] *Fourth quarter 2002 includes a pre-tax loss of $1.4 million from the sale of investments*

Revenue for the three months ended December 31, 2003 increased 19 percent compared to the three months ended December 31, 2002. The increases in revenue are primarily due to the higher prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments.

Net revenue increased 25 percent for the fourth quarter of 2003 when compared to the same quarter of 2002. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

Average field gathering and processing throughput volumes decreased by two percent in the fourth quarter of 2003 compared to the fourth quarter of 2002. Increases from the acquisition of the Wabasca field gathering and processing facilities were offset by declines at AltaGas' Central Border operating area and the reduced throughput associated with the disposition of non-core processing assets. Increased well tie-in activity was partially offset by natural production declines and the impact of normal down time for repairs and maintenance on facilities. With the Rainbow Lake gathering and processing facilities acquisition completed at the end of the fourth quarter, the Mica Pouce Coupe acquisition completed in the first quarter of 2004 and certain exploitation opportunities the Corporation is currently pursuing, processed volumes are expected to rise.

In the extraction component, average production was higher for three months ended December 31, 2003 compared to the same period of 2002 due to the start up of the Joffre ethane extraction plant in December 2002 as well as increased volumes resulting from modifications made at the Empress EnCana extraction facility to increase ethane production capability.

Transmission volumes increased during the three months ended December 31, 2003 compared to three months ended December 31, 2002 primarily due to the acquisition of the Suffield transmission pipelines in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d.

Revenue in the Energy Services segment increased 14 percent in the fourth quarter of 2003 when compared to the same period of 2002. The increases were driven by higher natural gas prices received in the gas services component and higher power prices received in the power services component in combination with the higher power sales volumes associated with the Genesee energy contract.

Energy Services segment net revenue was down $1.4 million in the fourth quarter of 2003 compared to the same quarter of 2002 due to lower produced volumes in the oil and gas production component due to declines, and lower marketed volumes in the gas services component based on lower contracted volumes. Power services net revenue for the fourth quarter of 2003 is $0.1 million higher than fourth quarter 2002. The impact of increased volumes from Genesee power sales were offset by higher transmission and interconnection charges related to the Sundance B PPA as well as Alberta Electrical Services Administrator Rate Rider C charges in fourth quarter 2003 instead of Rate Rider C credits as in fourth quarter 2002.

Higher natural gas prices in 2003 resulted in revenue increases in 2003 compared to 2002 in the Natural Gas Distribution segment. Net revenue for the fourth quarter of 2003 increased compared to the same period of 2002 due to an increase in the number of customers and increases in the cost of service. These increases were partially offset by warmer weather in 2003. AUI generates the majority of Natural Gas Distribution net revenue. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board, to be passed through to the distribution customers. Heritage Gas delivered its first gas to customers in late December 2003 with only a very small contribution to earnings in the quarter.

Favorable operating results from all segments were partially offset by increased interest costs in the fourth quarter of 2003 versus the same quarter in the prior year and by increased income taxes due to higher income associated with AltaGas' growth and to the impact of regulatory changes related to the Large Corporations Tax.

AltaGas' interest expense for the year ended December 31, 2003 increased 22 percent from the same period in 2002. The increase in interest expense in 2003 is primarily due to higher average debt balances during the year. The higher debt levels were primarily attributable to the debt of $118.1 million incurred to fund the Wabasca field gathering and processing facilities and Suffield transmission pipelines acquisitions on December 19, 2002, offset by debt repayments from operating cash flows over the year.

Federal income tax legislation changes announced in June 2003 phase out Large Corporations Tax (LCT) by 2007. In the past, AltaGas has credited Large Corporations Tax payable against the federal surtax amounts otherwise payable. In assessing anticipated future income levels and timing of reversal of temporary differences going forward, an increase in AltaGas future income tax liability was required and a charge to future income tax expense was made in the fourth quarter of 2003. The impact of the change amounted to a charge to net income in the quarter of $1.2 million or $0.03 per share.

AltaGas paid a quarterly dividend of $0.11 per fully paid common share and participating share in the capital stock of the Corporation on December 31, 2003. Dividends of $0.38 per share were paid during the year ended December 31, 2003 compared to dividends of $0.28 per share paid during the year ended December 31, 2002. This increase in dividends is reflective of the strength and sustainability of AltaGas' earnings.

SUMMARY OF EIGHT MOST RECENTLY COMPLETED CONSOLIDATED QUARTERLY RESULTS[1]

($ millions, except per share amounts)	Q4 03	Q3 03	Q2 03	Q1 03	Q4 02[2]	Q3 02	Q2 02	Q1 02[3]
Net revenue	61.0	53.3	51.2	54.4	48.8	41.4	38.9	40.8
Net income	12.0	9.3	6.8	10.2	11.2	5.7	4.9	7.6
Earnings per share								
Basic	$ 0.26	$ 0.20	$ 0.15	$ 0.23	$ 0.25	$ 0.13	$ 0.12	$ 0.20
Diluted	$ 0.26	$ 0.20	$ 0.15	$ 0.22	$ 0.25	$ 0.13	$ 0.12	$ 0.20
Dividends per share	$ 0.11	$ 0.11	$ 0.08	$ 0.08	$ 0.08	$ 0.08	$ 0.06	$ 0.06

[1] *Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

[2] *Includes a pre-tax loss of $1.4 million*

[3] *Includes a pre-tax net gain of $2.4 million from the sale of investments*

Identifiable trends in AltaGas' business across the past eight quarters reflect the Corporation's growth, a favorable business environment, and seasonality in the business. The first and last quarters each year are AltaGas' most profitable on the basis of the contribution from the Natural Gas Distribution segment which, as a distributor of natural gas for heating purposes, reports higher earnings in colder periods than in warmer periods.

First quarter of 2002 results were driven by increases in volumes processed at gathering and processing facilities, higher average processing fees, the addition of power sales to the Corporation's portfolio and by an increased customer base in the Natural Gas Distribution segment. Offsetting these increases were weaker gas prices and margins which affected the performance of gas services and oil and gas production components of the business. AltaGas also reported a $2.4 million before tax gain on the sale of investments in the first quarter of 2002. The Corporation, as a 50 percent owner, invested in the construction of the Joffre ethane extraction facility throughout 2002, and participated in modifications to the Empress EnCana extraction facility in which the Corporation has a ten percent joint venture interest. The modifications at the Empress facility were completed in third quarter 2003 increasing ethane recovery capability by 1,200 Bbls/d.

Second quarter 2002 net income was lower in comparison to the first quarter of 2002 due to the expected reduced contribution from the Natural Gas Distribution segment, however compared to prior years, AltaGas' strong record of increases in net income and earnings per share continued based on power sales combined with favorable results from higher average processing fees received in the Gathering and Processing segment. The Corporation also closed a public offering of 6,325,000 common shares raising net proceeds of $56.6 million which were applied to debt, reducing the Corporation's debt to total capitalization ratio to 49 percent at the close of the quarter.

In the third quarter of 2002 AltaGas' approach to managing fluctuations in the price of power by locking in margins through forward sales improved financial results. Increased extraction production driven by stronger business fundamentals allowing the Corporation to utilize more of its available extraction capacity also had a positive impact on results. The Gathering and Processing segment continued to maintain throughput at levels processed in prior periods even though producer activity slowed generally due to continued uncertainty over the strength of near term oil and gas prices. The Board of Directors increased the Corporation's quarterly dividend to $0.08 per share from the $0.06 paid for the previous four quarters.

The fourth quarter ended December 31, 2002 was the strongest quarter experienced to that date for the Corporation. The quarter compared favorably to the prior years on the basis of the addition of power sales and due to a higher seasonal contribution from the Natural Gas Distribution segment. The Suffield pipelines and Wabasca field gathering and processing facilities were acquired and construction of the Joffre ethane extraction plant was commissioned late in the quarter.

In the first quarter of 2003 net income of $10.2 million set a new first quarter high for the Corporation. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of the stronger performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity as a record 85 wells were tied-in during the first quarter. The Joffre ethane extraction plant provided volume increases in the extraction component and the transmission component volumes were up from the Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs due to changes in process at the Transmission Authority, partially offset the gains made in the other segments. AltaGas commenced selling power on April 1, 2003 from the Genesee energy contract which provides for 100 MW of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39 percent higher than the same quarter of 2002, a result of stronger contributions from the transmission, power and extraction components. Increases in the transmission component related to the Suffield pipelines acquisition at the end of 2002. In the power component, increases in net revenue were driven by higher average prices received on power sales and by the increased volumes sold related to the Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in second quarter 2003 when compared to the same quarter the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power, extraction and transmission were again the key contributors to a 63 percent increase in net income in third quarter 2003 when compared to the third quarter of 2002, the business drivers being the same as for the increases in each of the previous two quarters of 2003 compared to the prior periods.

In the third quarter of 2003 the Corporation paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings. Late in the quarter modifications were completed to the Empress EnCana extraction facility, increasing AltaGas' net production capability by an estimated 1,400 Bbls/d.

Fourth quarter 2003 results are discussed in detail in an earlier section of this Management's Discussion and Analysis.

ANNUAL PARTICIPATION FEE FOR REPORTING ISSUERS

RECEIVED
2005 JUN 10 P 3:10
OFFICE OF INTERNATIONAL
CORPORATE FINANCE

(12)

Reporting Issuer Name: AltaGas Services Inc.

Participation Fee for the Financial Year Ending used in calculating the participation fee: December 31, 2003

Complete Only One of 1, 2 or 3:

1. Class 1 Reporting Issuers (Canadian Issuers – Listed in Canada and/or the U.S.)

Market value of equity securities:				
Total number of equity securities of a class or series outstanding at the end of the issuer's most recent financial year		36,716,844		
Simple average of the closing price of that class or series as of the last trading day of each of the months of the financial year (under paragraph 2.5(a)(ii)(A) or (B) of the Rule)	X	12.02		
Market value of class or series	=	441,336,465		
			441,336,465	(A)
(Repeat the above calculation for each class or series of equity securities of the reporting issuer that are listed and posted for trading, or quoted on a marketplace in Canada or the United States of America at the end of the financial year)			n/a	(A)
Market value of corporate debt or preferred shares of Reporting Issuer or Subsidiary Entity referred to in Paragraph 2.5(b)(ii): **[Provide details of how determination was made.]**			104,525,000	(B)
(Repeat for each class or series of corporate debt or preferred shares)			n/a	(B)
Total Capitalization (add market value of all classes and series of equity securities and market value of debt and preferred shares) (A) + (B) =			545,861,465	
Total fee payable in accordance with Appendix A of the Rule			**35,000**	
Reduced fee for new Reporting Issuers (see section 2.8 of the Rule)				
Total Fee Payable x Number of entire months remaining in the issuer's financial year / 12				
Late Fee, if applicable (please include the calculation pursuant to section 2.9 of the Rule)

NEWS RELEASE

ALTAGAS TO ACQUIRE ETHANE EXTRACTION PLANT FROM BP CANADA FOR APPROXIMATELY $46 MILLION

Calgary, Alberta (March 18, 2004) -- AltaGas Services Inc. ("AltaGas") announced today that it has entered into a purchase and sale agreement with BP Canada Energy Resources Company ("BP") to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant (EEEP) located at Edmonton, Alberta for approximately $46 million.

The plant has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids (NGLs) production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. EEEP straddles the ATCO Pipelines Ltd. system which transports natural gas into the City of Edmonton and the Ft. Saskatchewan area. EEEP is directly connected to the Alberta Ethane Gathering System, and to BP's Co-Ed NGL pipeline, providing safe and reliable outlets for the plant's products. The acquisition is expected to close in the second quarter of 2004, subject to license transfer, customary closing conditions, third party and regulatory approvals.

AltaGas' share of plant products including ethane and propane-plus will be sold under long term contracts. A long term gas supply contract provides a secure feedstock supply to EEEP.

David Cornhill, Chairman and Chief Executive Officer said, "EEEP is one of the most efficient straddle plants in Alberta and is expected to be an exciting addition to our extraction assets." Mr Cornhill added, "Since our first investment in an extraction facility at Empress, Alberta in 1994, ethane and NGLs extraction has been an important part of AltaGas' midstream asset portfolio. The addition of EEEP will nearly double our extraction processing capability, bringing total net inlet extraction capacity to 517 Mmcf/d."

AltaGas moves energy from its source to the end user, adding value through the process. The Company has over $900 million of assets and a market capitalization of over $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Company provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

AltaGas' common shares are listed on the Toronto Stock Exchange under the symbol ALA. The Company is included in the S&P/TSX Composite Index, S&P/TSX Smallcap Index and the S&P/TSX Capped Energy Index.

When used in this press release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as a result of new information or future event.

ABBREVIATIONS AND CONVERSIONS

The following abbreviations shall have the respective meanings set out below when used in this Annual Information Form:

"Bbls" means stock tank barrels of NGLs, with NGLs volumes expressed in standard 42 US gallon barrels or 34.972 Imperial gallon barrels; **"MBbls"** means 1,000 Bbls; **"Bbls/d"** means Bbls per day.

"Bcf" means 1,000,000 Mcf of natural gas; **"Bcf/d"** means 1,000,000 Mcf of natural gas per day.

"BTU" means one British thermal unit; **"MMBTU"** means 1,000,000 BTU.

"GJ" means gigajoule or one billion (1,000,000,000) joules.

"Km" means kilometres.

"M" or "m" means thousands.

"M^3" means cubic metre.

"Mcf" means 1,000 cubic feet of natural gas measured at a pressure of 14.65 pounds per square inch and temperature of 60 degrees Fahrenheit and deemed to have a gross heating value of 1,000,000 BTU; **"Mmcf"** means 1,000 Mcf; **"Mcf/d"** means Mcf per day; **"Mmcf/d"** means 1,000 Mcf per day.

"MM" or **"Mm"** means millions.

"MW" means megawatt. One MW is 1,000,000 watts; **"MWh"** means megawatt hour or 1,000,000 watt hours. The watt is the basic electrical unit of power. The watt hour is equal to one watt of power flowing steadily for one hour.

"NGLs" means natural gas liquids which includes primarily propane, butane and pentanes plus.

"Tcf" means 1,000,000,000 Mcf.

The following table sets forth certain standard conversions between Standard Imperial Units and the International System of Units (or metric units).

To Convert From	To	Multiply by
Mcf	cubic metres	28.174
cubic metres	cubic feet	35.494
Bbls	cubic metres	0.159

miles	kilometres	1.609
kilometres	miles	0.621
acres	hectares	0.405
hectares	*acres*	2.471
gigajoule	mmcf	0.9482

FORWARD LOOKING INFORMATION

Certain information contained in this Annual Information Form, and in certain documents incorporated by reference herein, constitute forward-looking information and relates to, among other things, anticipated financial performance, business prospects, strategies, new services, market forces, commitments and technological developments. Forward-looking information typically contains statements with words such as "anticipate", "believe", "continue", "estimate", "expect", "may", "plan", "project", "should", "target" and similar words or expressions suggesting future outcomes are intended to identify forward looking statements. The forward-looking information is subject to various risks, uncertainties and assumptions pertaining to, among other things, availability and price of energy commodities; the regulatory environment; competitive factors in the natural gas and power industries; weather; economic conditions and the ability to obtain financing. If one or more of these risks or uncertainties materialize or if the underlying assumptions prove incorrect the Corporation's actual results may differ materially from the anticipated results or other expectations expressed. AltaGas undertakes no obligation to publicly update or revise any forward-looking information, whether as a result of new information, future events or otherwise.

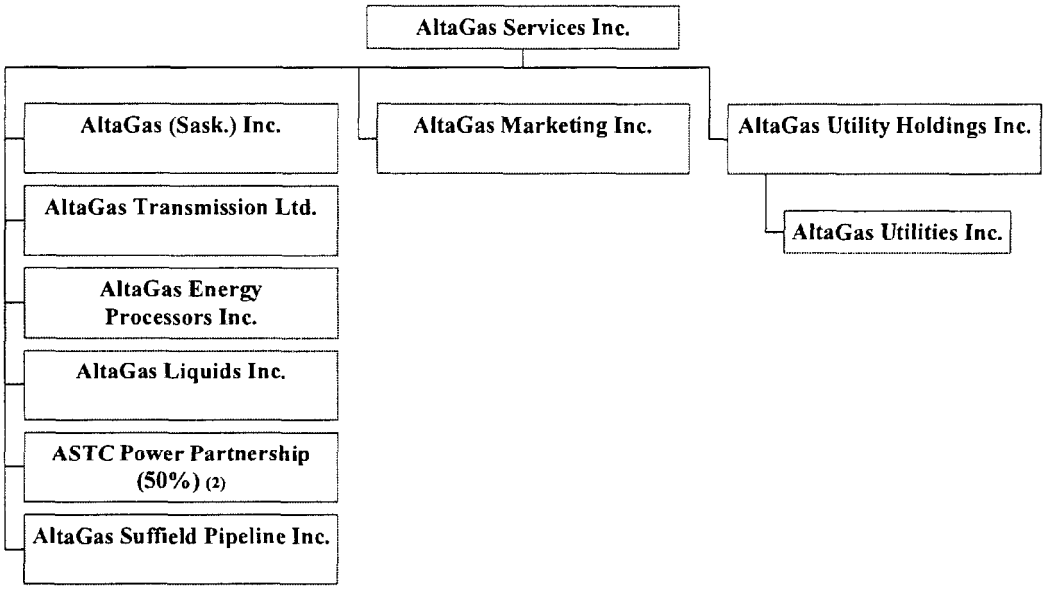
CORPORATE STRUCTURE

Name and Incorporation

AltaGas Services Inc. ("AltaGas" or the "Corporation" or the "Company") was incorporated on August 30, 1993 under the *Canada Business Corporations Act* ("CBCA") as 2950341 Canada Ltd. The Corporation commenced operations on April 1, 1994. The Corporation's Articles were amended on April 5, 1994 pursuant to Articles of Amendment to remove the private company provisions and to change its name to AltaGas Services Inc. The Corporation's Articles were further amended on May 17, 1999 pursuant to Articles of Amendment to authorize the creation of participating shares.

AltaGas' common shares are listed on the Toronto Stock Exchange under the trading symbol "ALA".

The Corporation's fiscal year end is December 31 and references in this document to particular years mean the Corporation's fiscal years unless otherwise indicated.



AltaGas leases its head office and principal office space in Calgary, Alberta. AltaGas Utilities Inc. ("AltaGas Utilities") owns its Leduc, Alberta head office and local offices in major operating areas.

The head, principal and registered office of the Corporation is located at 1700, 355 - 4th Ave. SW Calgary, Alberta, T2P 0J1. The Corporation's communication addresses are: telephone (403) 691-7575; fax (403) 691-7576. The Corporation's website is located at www.altagas.ca but the Corporation's website is not incorporated by reference into this Annual Information Form.

INTERCORPORATE RELATIONSHIPS

AltaGas' corporate structure and its direct and indirect subsidiaries are shown in the following chart. Excluded from the chart are certain of AltaGas' subsidiaries whose total assets individually do not constitute more than 10 percent of the consolidated assets of AltaGas at December 31, 2003 and whose total revenues individually do not exceed 10 percent of AltaGas' consolidated revenues for the year ended December 31, 2003. These excluded subsidiaries, in the aggregate, represent less than 20 percent of the consolidated assets of AltaGas as at December 31, 2003, and less than 20 percent of the consolidated revenues of AltaGas for the year ended December 31, 2003.

AltaGas is an operating company which generated approximately 62 percent of the Company's consolidated revenues, and 25 percent of the Company's consolidated net revenues for the year ended December 31, 2003 and held approximately 73 percent of the Company's consolidated assets at December 31, 2003. AltaGas Utilities is an operating company which generated approximately 18 percent of AltaGas' consolidated revenues, and 14 percent of AltaGas' consolidated net revenues for the year ended December 31, 2003 and held approximately five percent of AltaGas' consolidated assets at December 31, 2003.

Notes:

(1) All companies and partnerships shown are owned 100 percent, directly or indirectly, by AltaGas Services Inc. except as noted.
(2) 50 percent of the partnership interest in ASTC Power Partnership is held by TransCanada Energy Ltd.

AltaGas Marketing Inc., AltaGas (Sask.) Inc., AltaGas Utility Holdings Inc., AltaGas Utilities Inc., AltaGas Transmission Ltd., AltaGas Liquids Inc. and AltaGas Suffield Pipeline Inc. are corporations incorporated or continued under the CBCA. AltaGas Energy Processors Inc. is a corporation incorporated under the *Business Corporations Act* (Alberta) ("ABCA"). The ASTC Power Partnership is a general partnership formed pursuant to the provisions of the *Partnership Act* (Alberta).

AltaGas Energy Processors Inc. owns three natural gas field gathering and processing facilities in central Alberta. The total capacity of the three facilities, which are operated by AltaGas, is 33 Mmcf/d.

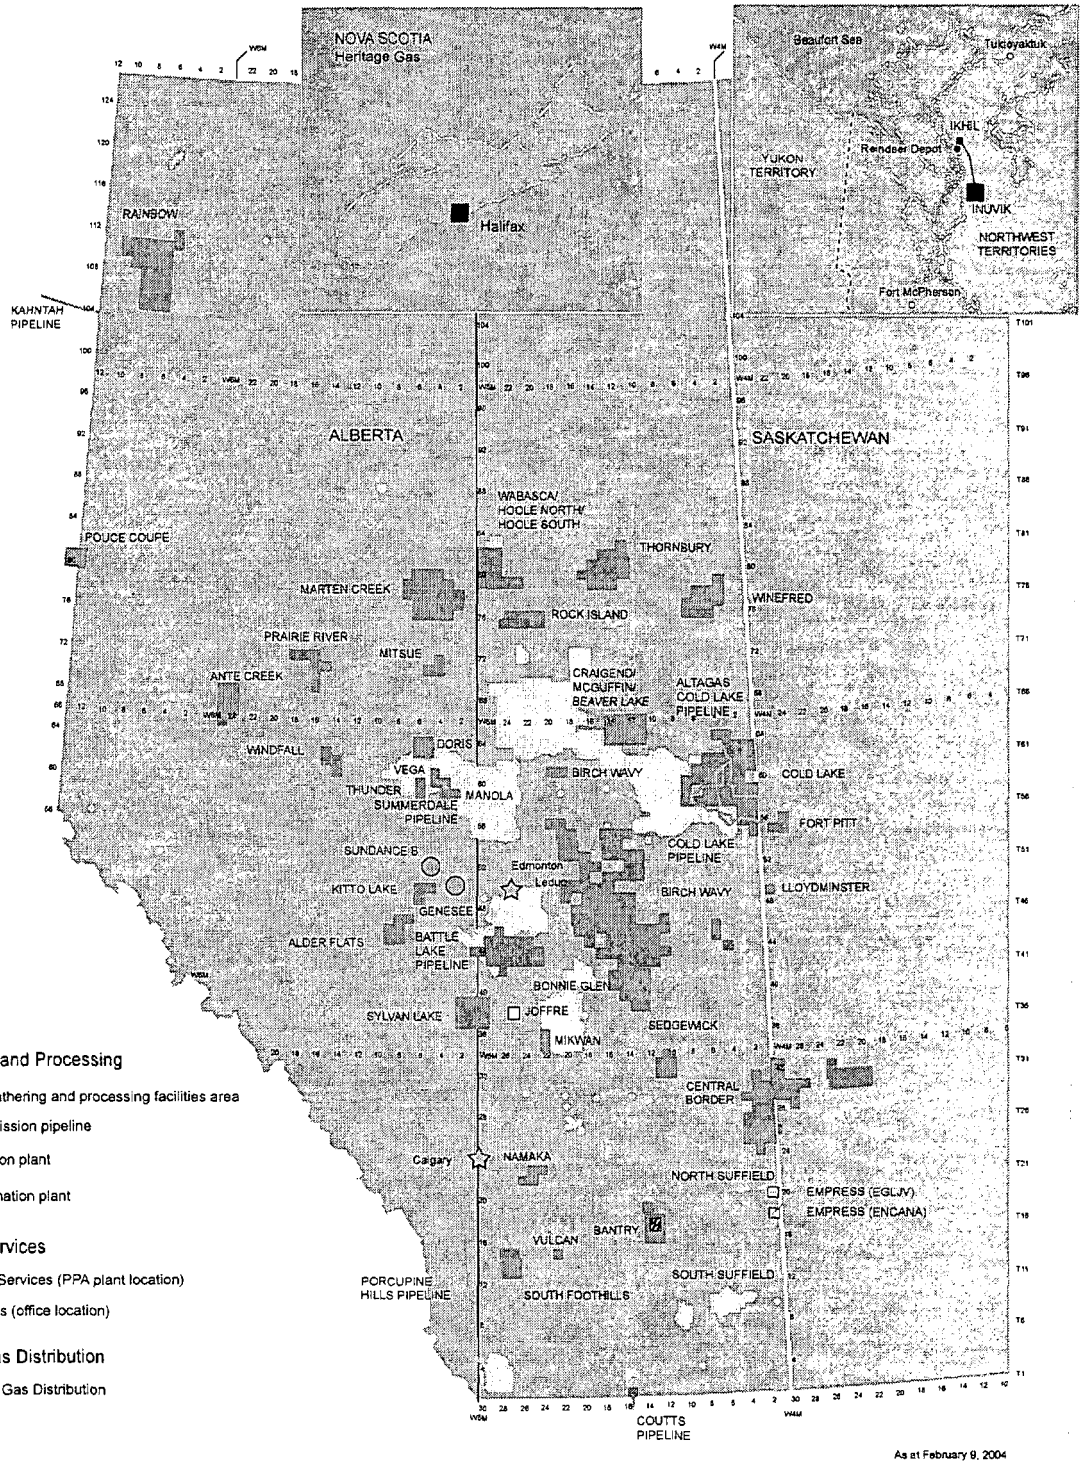
AltaGas Liquids Inc. owns the assets associated with the ten percent interest in the Empress EnCana extraction facility, and the approximate seven percent interest in the Empress ATCO extraction facility.

AltaGas Marketing Inc. holds an assortment of natural gas facility assets in Alberta and the one-third interest in the gathering, processing and transportation facilities associated with the Ikhil Gas Project joint venture (reserves, gathering, processing, sales line) in the Northwest Territories.

AltaGas (Sask.) Inc. holds the gathering and processing assets in Saskatchewan.

AltaGas Services Inc. holds the majority of AltaGas' field gathering and processing facilities, the 50 percent interest in the Joffre extraction facility and conducts the bulk of AltaGas' power and gas services business.

AltaGas Suffield Pipeline Inc. owns two natural gas transmission pipelines in south eastern Alberta.



AltaGas Transmission Ltd. owns certain transmission pipelines in Alberta, British Columbia and Saskatchewan.

AltaGas Utility Holdings Inc. holds the corporation that holds the assets associated with natural gas distribution.

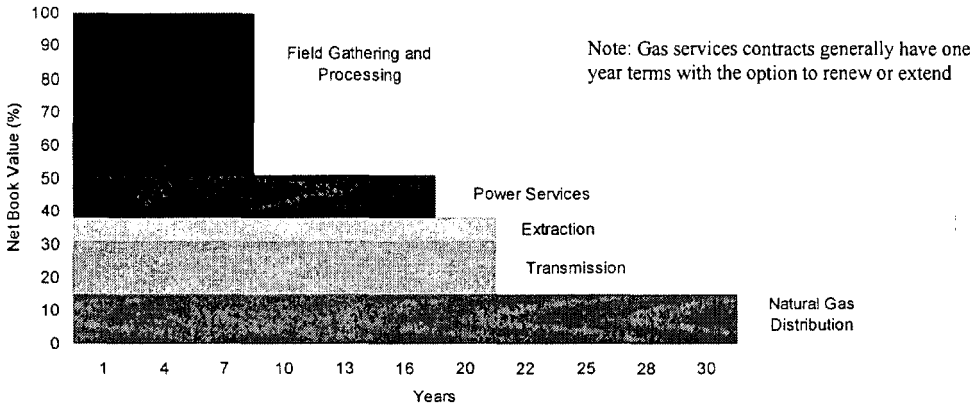
AltaGas Utilities Inc. is a natural gas distribution company and public utility, which provides distribution services to approximately 90 communities in Alberta.

ASTC Power Partnership is a general partnership in which AltaGas has a 50 percent partnership interest and which holds the Sundance B power purchase arrangement (the "Sundance B PPA").

MAP OF ALTAGAS OPERATIONAL AREAS

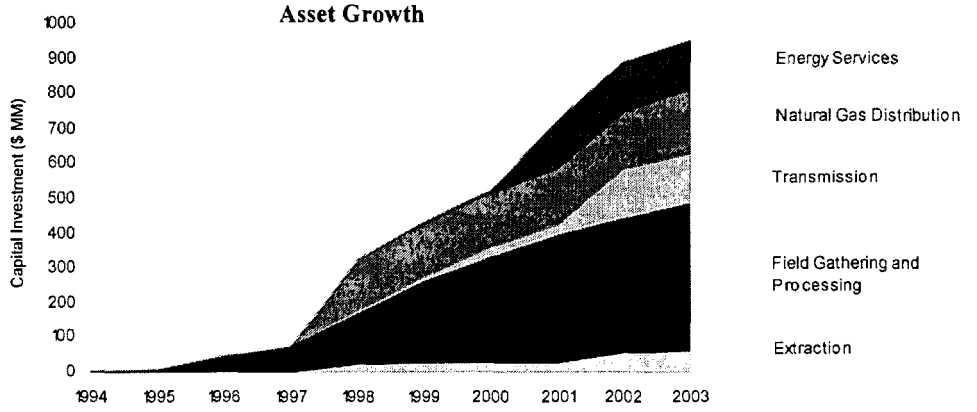
GENERAL DEVELOPMENT OF THE CORPORATION'S BUSINESS

Overview - The Midstream Industry



AltaGas, one of Canada's first midstream companies, is defining Canada's midstream business. A participant in the midstream natural gas business since its inception in 1994, AltaGas moved into the diversified energy services business with the acquisition of the Sundance B power purchase arrangement in December 2001. AltaGas moves, processes and uses energy to create value. AltaGas:

- physically gathers, processes, extracts and transports natural gas,
- contractually markets and transports natural gas and electrical power,
- converts energy across and along the energy value chain to create higher value-added products, and
- consumes natural gas and electrical power to operate its facilities.



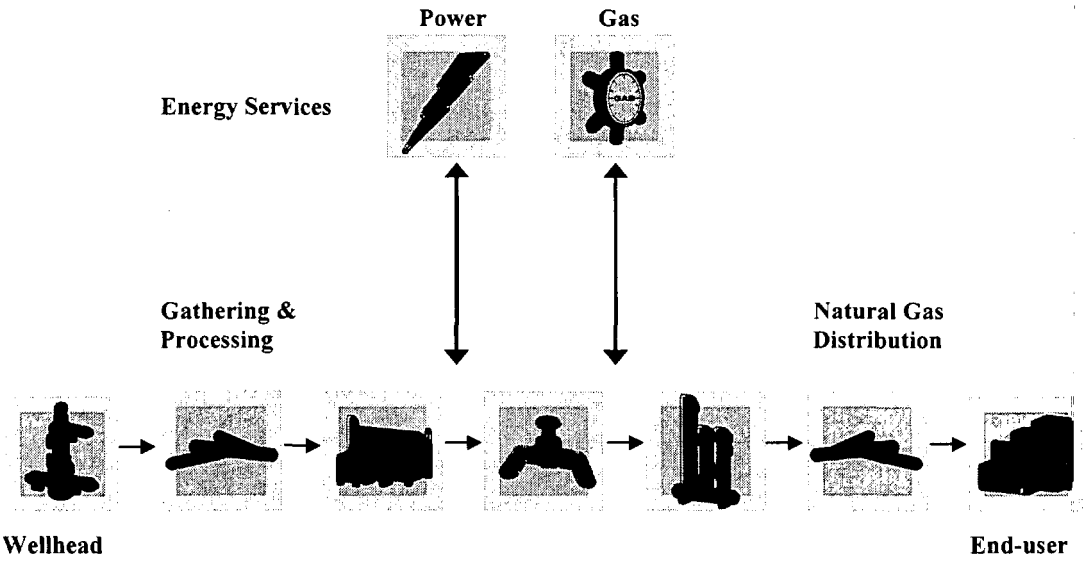
AltaGas is an energy infrastructure based company. The Company expects to continue to develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and the northern United States.

From inception, AltaGas' objective has been to build a portfolio of energy assets that are capable of generating long term, stable cash flow. To provide this stability, AltaGas focuses on assets that are diversified in terms of their revenue source, contractual terms, exposure to industry cycles and geographic location. Today the Company's mix of assets provides AltaGas with a combination of regulated cost of service, guaranteed income and fee for service revenue. These revenue streams are relatively predictable, with minimal or managed exposure to commodity prices and have a cash flow horizon extending out as far as 30 years. Going forward, while investing in a larger asset base, the Company intends to grow each of its business components to ensure concentrations of risk are minimized.

Cash Flow Horizon at December 31, 2003

Asset Growth

Strategy



AltaGas uses its midstream assets and services to move energy from its source to the end-user. AltaGas adds shareholder value by increasing the operating efficiency and utilization of its assets and linking the components of its midstream energy business.

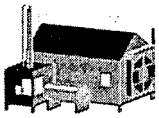
Energy Value Chain Integration

Value chain integration is the partial or full integration of the natural gas, electric power and petroleum market and industries, at several points along the energy value chain. The natural gas and electricity industries have become interdependent as a result of events such as natural gas and electrical deregulation, the continuing development of natural gas as the fuel of choice for new power generation, and ongoing fluctuations in energy pricing.

With both natural gas and power assets, AltaGas can capture value more effectively and efficiently. With control of the physical assets the Corporation has better leverage of the assets, the energy relationships, and the arbitrage opportunities that exist across these commodities.

Midstream Energy Value Chain

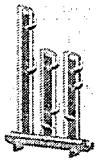
Reporting Segments



AltaGas conducts its business and reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

- Gathering and Processing includes natural gas field gathering and processing; transmission pipelines; ethane and NGL extraction.
- Energy Services includes power services, natural gas services and oil and natural gas production.
- Natural Gas Distribution consists of the distribution of natural gas and is conducted through AltaGas Utilities, AltaGas' one-third interest in Inuvik Gas Ltd. ("Inuvik Gas") and a 24.9 percent interest in Heritage Gas Limited ("Heritage Gas"). AltaGas Utilities operates as a provincially regulated natural gas distribution utility in its areas of service in the Province of Alberta. Inuvik Gas distributes natural gas to the Town of Inuvik in the Northwest Territories and Heritage Gas has the distribution franchise to deliver natural gas to six counties in Nova Scotia.

AltaGas' assets and services are described below.



Gathering — Gathering systems or gathering lines move natural gas from producing wells to processing facilities.

Processing — Processing facilities remove certain hydrocarbon components and impurities from natural gas in addition to compressing the gas to meet downstream pipelines' operating specifications for transportation.

Transmission — Transmission pipelines provide natural gas and condensate transportation services to distribution systems, end-users or other downstream pipelines.

Extraction — Extraction plants reprocess natural gas from field plants to extract and recover additional ethane and other NGLs such as propane and butane.

Natural Gas Distribution — Distribution companies deliver natural gas to end-users for heating and other purposes.

Gas Services — AltaGas' focus is to efficiently manage and, whenever possible, to market natural gas processed through its field gathering and processing, transmission and extraction facilities. AltaGas also markets gas for a supply pool of producers, and purchases natural gas for AltaGas Utilities and a select group of industrial users.

Power Services — AltaGas supplies 453 MW of wholesale electrical power from ownership of the Sundance B PPA and the Genesee energy contract.

Historical Development to Date

The general development of AltaGas' business and the significant events or conditions which have had an influence on that development are summarized below.

AltaGas commenced operations on April 1, 1994 with a team of 20 people with experience in the natural gas industry. The founding vision was to grow a major Canadian natural gas midstream company combining a portfolio of natural gas-related services with long-life assets to grow net income. The concept of a distinct, full-service midstream business was unique in Canada at the time. AltaGas commenced operations with two major contracts to provide transportation, regulatory and gas management services. The revenue generated from these contracts during 1994 and 1995, together with private placement equity financings, provided the funds for AltaGas to establish its midstream asset base and make the transition from a consulting services company to a midstream operating company.

The nature of AltaGas' participation in the midstream industry has evolved from holding primarily service contracts and non-operated return on investment-based assets to include investments in fully-operated natural gas facility assets of which the Corporation owns 100 percent or in which it has a controlling interest. In AltaGas' 10 year history in the Canadian midstream industry the Company has, with a rational assessment of acquisition opportunities, acquired or constructed over $954 million in midstream infrastructure based assets.

Developments - Gathering and Processing

In late 2001, AltaGas entered into a fifty-fifty joint venture with Taylor NGL Limited Partnership ("Taylor") to construct the Joffre ethane extraction plant. The plant, which was commissioned in late December 2002 has an inlet capacity of approximately 125 Mmcf/d (net) and is capable of producing 10,400 Bbl/d (5,200 Bbls/d net) of ethane and NGLs. AltaGas' net share of construction costs was $24.8 million.

On December 19, 2002 AltaGas acquired 100 percent of the shares of the EnCana Suffield Gas Pipeline Inc. (now AltaGas Suffield Pipeline Inc.) which holds an interest in two natural gas pipelines at Suffield, Alberta ("Suffield System") and also acquired seven natural gas gathering and processing systems in northeastern Alberta ("Wabasca System"). The total acquisition costs for the Suffield System and the Wabasca System, which were acquired from subsidiaries of EnCana Corporation ("EnCana"), was approximately $118.1 million. EnCana has entered into long term transmission and gathering and processing agreements with AltaGas in respect of the Suffield System and the Wabasca System.

On December 18, 2003 AltaGas announced its intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe, for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition, which closed on December 22, 2003 included a 100 percent interest in a 40 Mmcf/d sour natural gas processing facility and 130 kms of gathering lines located near the town of Rainbow Lake in northwestern Alberta. The Pouce Coupe gathering and processing system acquisition, which closed on January 30, 2004 included a 40.78 percent interest in a sweet gas processing facility with gross capacity of 43 Mmcf/d and 68 kms of gathering lines located along the Alberta/BC border.

Developments - Natural Gas Distribution

AltaGas entered the natural gas distribution business on June 30, 1998 with its acquisition of AltaGas Utilities, then called Centra Gas Alberta Inc. Natural gas distribution companies provide natural gas to residential, farm, commercial and industrial users for heating and other purposes. In 1999, AltaGas expanded its natural gas distribution business with a one-third interest in Inuvik Gas, the distribution arm of the Ikhil Gas Project.

On August 16, 2002 Heritage Gas, a Nova Scotia company owned by AltaGas (24.9 percent), SaskEnergy International Inc., a subsidiary of SaskEnergy Inc. (50.1 percent), and Scotia Investments Limited, a private investment holding company (25.0 percent), filed an application for the right to distribute natural gas to certain counties in Nova Scotia. On February 7, 2003 a decision was rendered by the Nova Scotia Utility and Review Board granting Heritage Gas a full regulation class franchise for a period of 25 years. Heritage Gas accepted the distribution franchise on June 3, 2003 and activated the initial portion of its natural gas distribution system on December 20, 2003.

Developments - Energy Services

AltaGas entered the power business in December 2001 with the purchase of a 50 percent interest in the Sundance B PPA. The Sundance B PPA provides for the purchase of power output from two units of the Sundance B power plant ("Sundance B plant"). The Corporation's 50 percent interest in the Sundance B PPA provides AltaGas with the rights to manage approximately 353 MW of power generation capacity from the Sundance B plant until December 31, 2020 (see "Power Services"). The acquisition of the Sundance B PPA was consistent with the Company's proven strategy of diversifying its energy management portfolio through prudent acquisitions. Operationally, AltaGas manages its power in much the same way as its natural gas business is managed. Strategically, power added another long term cash flow stream to AltaGas' energy portfolio.

On March 18, 2003 AltaGas announced that it was a successful bidder for 100 MW of power capacity in the Alberta government's third phase of the MAP II ("Market Achievement Plan") auction. Accordingly, the Company entered into an energy contract ("Genesee Energy Contract") with the Balancing Pool Administrator ("BPA") for the right to 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee power plant ("Genesee plant") located southwest of Edmonton, Alberta for a three year term commencing April 1, 2003. The 100 MW of power capacity is a portion of the capacity at the Genesee plant to which the BPA has rights pursuant to a power purchase arrangement.

Developments - Corporate

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. On August 13, 2003 the Board of Directors increased the company's dividend to $0.11 per share from $0.08 per share paid for the previous four quarters.

On April 23, 2003 the Company acquired 1,872,735 or 19.2 percent of the outstanding limited partnership units of Taylor for $9.4 million. On October 17, 2003 AltaGas purchased under a public offering by Taylor an additional 1,592,250 limited partnership units for approximately $8.7 million. The purchase maintained AltaGas' 19.2 percent ownership of Taylor. AltaGas and Taylor each own a 50 percent interest in the Joffre ethane extraction plant.

On February 18, 2004 AltaGas announced that a Special Committee of Independent Directors was undertaking a review of whether to reorganize the business of AltaGas into an income trust. On March 10, 2004 AltaGas announced that its Board of Directors had approved a proposal to reorganize the business of AltaGas into an income trust to be called the AltaGas Income Trust (the "Trust"). The reorganization will be accomplished by way of a plan of arrangement under the *Canada Business Corporations Act* (the "Plan of Arrangement"). The Plan of Arrangement will be subject to the approval of the holders of AltaGas' Common Shares, Participating Shares and Options, voting at a special meeting to be held on April 29, 2004. In addition to securityholder approval, the Plan of Arrangement will be subject to receipt of regulatory and court approvals. The proposed reorganization is the foundation of a plan to enhance securityholder value and for continued prudent growth. Cash flow generated by the business of AltaGas will be distributed to AltaGas securityholders as the holders of the units ("Units") of the Trust. The Trust will retain sufficient cash flow to fund maintenance capital and capital committed in the Natural Gas Distribution segment. The current business and operations of AltaGas will be unaffected by the proposed reorganization.

Opportunities

AltaGas is continually evaluating growth opportunities along the midstream energy value chain. Only opportunities that offer AltaGas a competitive advantage, acceptable financial returns and future growth potential will be pursued. In the last two years AltaGas has captured several opportunities to expand its midstream business and has added $217.6 million in net additions to capital assets.

Net Additions to Capital Assets ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
(Year ended December 31)				
2002	$ 159.8	$ 1.5	$ 3.7	$ 165.0
2003	$ 33.3	$ 2.5	$ 16.8	$ 52.6
Total segment capital assets at December 31, 2003	$ 614.4	$ 165.8	$ 139.1	$ 919.3

Opportunities - Gathering and Processing

Management of the Company believes that significant drilling activity will continue in the Western Canadian Sedimentary Basin. In the field gathering and processing component with its extensive network of approximately 6,000 kilometers of gathering lines, substantial processing capacity, expansion potential and access to downstream transportation pipelines, which offer customers diverse marketing opportunities, AltaGas is well positioned to take advantage of existing and future gathering and processing needs.

Existing field gathering and processing areas are generally surrounded by adjoining or overlapping gathering and processing systems. As AltaGas has grown, opportunities to expand by tying in new wells and purchasing adjoining facilities and systems have increased. New area development comes in large part from AltaGas' existing and expanding customer base and active drilling programs by producers. At present, most gathering and processing infrastructure in western Canada is still owned by oil and gas producers. AltaGas believes that its operational skills and market coverage make it an excellent business partner for many exploration and production companies. In an environment where capital will always be carefully rationed, AltaGas provides an attractive option for those asset owners who wish to channel capital to exploration and production purposes.

Transmission pipeline opportunities arise when AltaGas is able to capture additional market share through the construction or acquisition of transmission pipelines, often combined with natural gas marketing and transportation brokerage services. In previously unserved areas, AltaGas works with customers to create mutually beneficial transmission solutions.

Extraction opportunities may result from modifications to increase product recoveries at a plant in which AltaGas already has an ownership interest, the acquisition of an interest in an existing extraction plant or new facilities construction. Extraction plant opportunities typically reflect a low-risk, long term, cost of service ethane processing arrangement contracted with an Alberta ethylene producer, low-risk, long term NGLs fixed processing fee arrangements or short term sales of NGLs based on an Edmonton or U.S. index to provide upside potential when NGLs prices are strong.

Opportunities - Energy Services

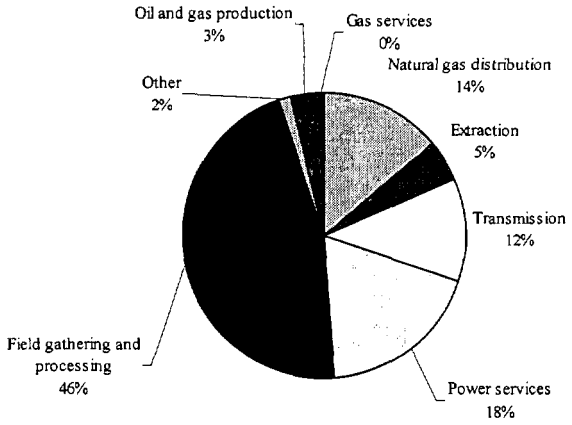
AltaGas enhances the overall value of its power business by supplying internal electrical demand requirements and by reducing its exposure to floating power prices. To reduce exposure to power prices AltaGas uses a balanced portfolio of contracts to lock in margins on a substantial portion of its power at prices that ensure a consistent operating margin and a reasonable return on invested capital. AltaGas will continue to invest in the power industry if the opportunities meet the Company's investment guidelines and strategies. AltaGas is assessing asset acquisition and development and transmission opportunities and the viability of distributed power generation projects at its field gathering and processing sites.

Gas services opportunities are linked to growth in AltaGas' field gathering and processing component and to clients with natural gas supply unassociated with AltaGas facilities. The recent exit of many United States mega marketers provided opportunities for gas services to expand its customer base.

Opportunities - Natural Gas Distribution

The Natural Gas Distribution segment includes AltaGas Utilities, AltaGas' one-third interest in Inuvik Gas and AltaGas' 24.9 percent interest in Heritage Gas.

AltaGas Utilities' primary function and responsibility as a reliable public utility is to maintain high operating standards to ensure a dependable, secure natural gas supply for its customers. AltaGas Utilities is focussed on growing its business in conjunction with the growth of the Alberta communities that it serves, through expansion into new subdivisions and servicing of commercial developments. Future opportunities are expected to come from increases in the number of customers in existing franchise areas and new franchise additions. AltaGas Utilities is well positioned in the northeastern Alberta oil sands corridor to potentially capture increased volumes by virtue of its extensive small delivery systems. AltaGas Utilities has experience in providing service to First Nations and Métis settlements and is exploring opportunities, over the longer term, to expand services to several other such communities.



Inuvik Gas is the distribution arm of the Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle. This project distributes natural gas to the Northwest Territories Power Corporation and the Town of Inuvik and is viewed by AltaGas as an important first step in establishing a presence leading to future natural gas projects in the North. The definition phase of the project to connect Mackenzie Delta natural gas to the North American pipeline grid is progressing. AltaGas has not concluded any other projects in the North to date but continues to assess opportunities and is confident that, once an application to construct a pipeline and all ancillary facilities is filed, AltaGas will be in a better position to consider complementary projects.

Heritage Gas has the franchise to distribute natural gas in the Province of Nova Scotia to all or part of six counties including the Halifax Regional Municipality. Heritage Gas provides AltaGas with the rare opportunity to apply its knowledge and experience in building a greenfield utility. It expands AltaGas' geographic footprint beyond western Canada while complementing AltaGas' strategy to invest in infrastructure-based assets that provide long term cash flows.

NARRATIVE DESCRIPTION OF THE CORPORATION'S BUSINESS

AltaGas has successfully grown its net revenue from $6.0 million in 1995, the Company's first full year of operation to $219.9 million for the twelve month period ended December 31, 2003 representing a compound annual growth rate of 49 percent over this period

2003 Net Revenue by Component

Note: Net revenue is gross revenue less the costs and the purchase of natural gas for resale, and costs to purchase power under power purchased based arrangements. Excludes intersegment eliminations.

GATHERING AND PROCESSING

The Gathering and Processing segment includes three inter-related components: (i) field gathering and processing facilities; (ii) extraction plants; and (iii) transmission pipelines. AltaGas' Gathering and Processing segment contributed net revenues of $140.2 million for the year ended December 31, 2003 which was approximately 63.8 percent of the Corporation's total net revenues before intersegment eliminations.

In the field gathering and processing component AltaGas has interests in 67 gathering and processing facilities in 29 operating areas located in Western Canada and the Northwest Territories at December 31, 2003. AltaGas operates 65 of these facilities. Aggregate gross processing capacity of the plants is 861 Mmcf/d including 208 Mmcf/d of sour gas capacity. In addition, the Company has approximately 6,000 km of gathering lines delivering sales gas into nine downstream pipeline systems.

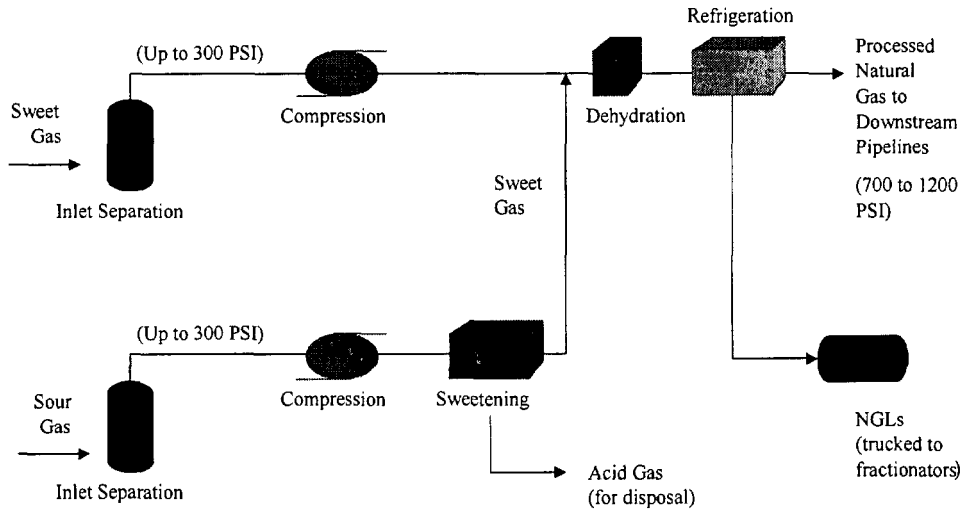
AltaGas' extraction assets include interests in three of the 10 NGLs extraction plants in Canada, two at Empress, Alberta and one at Joffre, Alberta. AltaGas also owns the Bantry fractionation facility. AltaGas' net raw gas inlet capacity at these plants is 349 Mmcf/d.

AltaGas' transmission pipelines include the ASI Cold Lake, Battle Lake, Suffield and Summerdale natural gas transmission pipelines in Alberta, the Kahntah natural gas transmission pipeline in British Columbia and the Porcupine Hills condensate pipeline in Alberta.

Field Gathering and Processing

Field Gathering and Processing - Business Strategy

Field gathering and processing facilities are critical to the delivery of natural gas from the wellhead to the end-use market. AltaGas has grown rapidly based on a field gathering and processing facilities acquisition and development strategy unique in the Canadian midstream market. AltaGas' strategy is to:



- Focus on under-utilised assets which offer upside through increased throughput;
- Maintain flexibility by investing in moveable assets that can be easily relocated;
- Create large facility operating complexes by pursuing extensive gathering systems and interconnecting facilities;
- Offer customers diverse marketing opportunities by focusing on assets that have good access to downstream transportation pipelines;
- Control operations and maximize efficiency by acquiring and maintaining large working interests in assets; and
- Minimize overall corporate risk through geographic and customer diversity.

The Company adds value through increasing the utilization of its facilities by:

- Aggressively pursuing new natural gas supplies by working closely with producers in the development of new and existing natural gas fields;
- Offering flexible contractual terms for access to all producers in the areas in which AltaGas operates;
- Enhancing operational efficiencies through consolidation and plant upgrades; and
- Expanding facilities and constructing or acquiring and connecting complementary facilities to create large facility complexes.

AltaGas complements its field gathering and processing assets with infrastructure investments in transmission pipelines, extraction plants and natural gas distribution systems. The Company enhances the value of its capital infrastructure by offering the other services along the midstream value chain.

Field Gathering and Processing - Typical Field Gas Processing Plant

Raw natural gas produced at the wellhead is a mixture of methane and other hydrocarbon components and impurities, including water vapour, carbon dioxide (CO2) and hydrogen sulphide (H2S). Gas that has hydrogen sulphide present in amounts in excess of downstream pipeline specifications is considered "sour gas". All other gas is considered "sweet gas". All natural gas must be processed through a natural gas plant to remove the various hydrocarbon components and impurities before the natural gas is delivered via downstream pipelines for ultimate sale and consumption. The amount and complexity of processing required before the raw gas is of saleable quality is a function of the quantity of the NGLs and other impurities present in the raw gas stream.

The raw natural gas is first gathered from the wellhead through natural gas gathering systems, and then delivered to and processed through a natural gas processing plant. The design of a natural gas plant is determined by the composition of the raw gas that it is intended to process. Natural gas which contains minimal or no amounts of NGLs or other elements will bypass certain processes within a typical natural gas plant configuration.

Raw natural gas entering the natural gas plant is subject to inlet separation where free water and any free NGLs are separated from the natural gas stream. If the natural gas is sour, it is sweetened by the removal of hydrogen sulphide. The natural gas is then usually dehydrated to remove any remaining water. If significant NGLs are still present in the sweet gas they are removed to meet downstream pipeline specifications. NGLs generally have greater value if extracted in liquid form and additional NGLs recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field gas plants or at large scale extraction plants (see "Extraction"). AltaGas has NGL extraction capability at 20 of its 67 natural gas field processing plants.

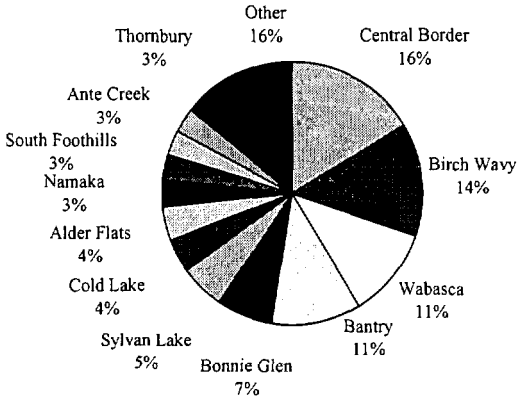
The remaining processed gas exiting the natural gas plant is delivered to the downstream transportation pipeline for eventual distribution to end-use markets. NGLs must be further processed ("fractionated") into their individual components, propane, butane and condensate. The NGLs may be fractionated on site as is the case at AltaGas' Bantry plant, or trucked or pipelined to fractionation facilities.

Field Gathering and Processing - Facilities

AltaGas' field gathering and processing component generates revenues from fees for volumes of natural gas processed at a processing facility or gathered through a gathering system and from natural gas well operations.

AltaGas' target utilization rate is 70 percent for facilities over which the Corporation has operational control. Volume additions at facilities come from new well tie-ins and from reactivations, recompletions and well optimizations performed by producers. The historical utilization rate for all of AltaGas' combined facilities remains lower than the targeted rate due to its ongoing facilities acquisition strategy.

Field Gathering and Processing Facility Capacity and Throughput			
	2003	2002	2001
Processing capacity (gross Mmcf/d)[1][3]	861	842	768
Capacity growth (percent year over year)	2	10	8
Processed throughput (gross Mmcf/d)[2][3]	523	532	498
Processed throughput (gross annual average Mmcf/d)[3]	520	492	491
Capacity utilization (percent)[1]	61	63	65



Notes:
(1) As at December 31.
(2) Fourth quarter average.
(3) Gross numbers are before the Corporation's working interest.

Drilling activity, particularly shallow gas drilling, was high in the oil and gas sector, with industry estimates of 18,800 to 19,500 wells drilled in the WCSB in 2003. Strong industry drilling activity in many of AltaGas' operating areas resulted in 324 new natural gas wells tied into AltaGas' field gathering and processing facilities in 2003 compared to 188 new wells tied-in during 2002. Volume additions from well tie-ins in combination with throughput from facility acquisitions and expansions offset normal natural gas production declines at AltaGas' combined facilities in 2003. Natural gas gathering and processing gross average throughput for the year ended December 31, 2003 increased to 520 Mmcf/d from 492 Mmcf/d for the year ended December 31, 2002. With expectations of continued strong oil and gas prices, AltaGas anticipates another strong year in the field gathering and processing component in 2004.

Field Gathering and Processing - Significant Operating Areas

AltaGas has historically focussed on smaller, moveable midstream facilities in western Canada with processing capacity of under 50 Mmcf/d, which the Corporation has identified as its niche in the midstream industry and which AltaGas believes has distinguished it from most of its competitors. AltaGas' facilities are often physically linked, creating facility complexes that offer delivery options and revenue continuity in the event that one of the plants in a complex shuts down.

With 67 processing facilities in 29 operating areas, AltaGas field gathering and processing component is not dependent on any one facility or operating area. Field gathering and processing operating margin represented approximately 35.3 percent of AltaGas' consolidated 2003 operating margin. The following chart provides a breakout of field gathering and processing operating margin by significant operating area for the year ended December 31, 2003.

The following table provides a summary of AltaGas' most significant field gathering and processing operating areas as at December 31, 2003:

Operating Area	Ownership (Percent)[1]	Facility Type	Facility Count	Gross Capacity (Mmcf/d)[2]	Gross Throughput (Mmcf/d)[2][3]	Number of Compressors (includes boosters)	Operated or Non-Operated
Western Canada							
Alder Flats	100.0	sweet	1	40	25	5	Operated
Ante Creek	100.0	sweet	1	36	26	6	Operated
Bantry	100.0	sour	1	25	21	8	Operated
Birch Wavy	83.2	sweet	12	101	80	37	Operated / Non-Operated
Bonnie Glen	100.0	sweet	2	41	45	11	Operated
Central Border	100.0	sweet/sour	6	92	55	27	Operated
Cold Lake	81.4	sweet	4	43	37	33	Operated
Namaka	79.0	sweet	2	25	15	4	Operated
Rainbow Lake[4]	100.0	sour	1	40	8	2	Operated
Sylvan Lake	100.0	sweet	1	30	23	8	Operated
South Foothills	68.4	sweet	3	78	41	9	Operated / Non-Operated
Thornbury	100.0	sweet	6	35	16	17	Operated
Wabasca	94.7	sweet/sour	7	75	51	19	Operated
Other	78.6	sweet/sour	18	187	77	46	Operated / Non-Operated
Sub Total			65	848	520	232	
Northwest Territories							
Ikhil [5]	33.3	sweet	1	8	2	-	Operated
Montana, USA							
Coutts	100	sweet	1	5	1	-	Operated
Total			67	861	523	232	

Notes:

(1) Weighted average ownership based on gross capacity.
(2) Gross numbers and not adjusted to AltaGas' working interest.
(3) Represents 2003 fourth quarter average.
(4) Processed throughput includes the Rainbow Lake assets effective November 1, 2003.
(5) AltaGas, Gyrfalcon Holdings Ltd. and Enbridge Inc. (collectively, the "Owners"), each participate as to a one-third interest in all phases of the Ikhil Gas Project to supply natural gas to the Northwest Territories Power Corporation ("NWTPC") and the Town of Inuvik. The Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle, has three components: development and production of reserves, a 50 km pipeline and a processing facility, and a natural gas retail distribution system (see "Natural Gas Distribution"). AltaGas Marketing Inc. is the operator of the entire upstream portion of the Ikhil Gas Project.

Field Gathering and Processing - Customers

AltaGas conducts business with over 300 customers in its 29 operating areas, with no customer representing more than seven percent of consolidated revenues during 2003 or 2002.

Field Gathering and Processing - Contracts

AltaGas gathers and processes natural gas under contracts with natural gas producers. There are approximately 700 active gathering and processing contracts. These contracts are, in general, designed to:

- set the prices for the gathering and processing services offered by AltaGas;
- define the producers' access rights to gathering and processing services;
- where capital investment is required by AltaGas, establish minimum throughput commitments with producers;
- where capital investment is required, use appropriate fee structures to recover invested capital early in the life of the contract; and
- define the terms and conditions under which future production is processed at an AltaGas facility.

The amount of capital which AltaGas commits to a gathering and processing facility, either by acquisition or tie-in, is linked to AltaGas' assessment of production available to be processed at the facility, reserves in the area, the extent of the reserve dedication and the processing fees to be paid by producers for its services. When a facility is acquired, AltaGas conducts an independent review of the natural gas reserves and production in the area surrounding each facility using, among other sources, Alberta Energy Utilities Board production data and reserve estimates and producers' reserve reports for the area. AltaGas also conducts a review of the physical plant and equipment and the operating and maintenance costs for each facility.

Fee Structure

AltaGas, in determining appropriate contractual provisions, including a reasonable payback period on its invested capital, attempts to align its interests with the financial and business objectives of its producer customers.

The vast majority of AltaGas' gathering and processing contracts are volumetric service fee structures, based on a rate per Mcf of throughput. Approximately 70 percent of contracts in place at December 31, 2003 were subject to annual price escalation related to changes in the Alberta Consumer Price Index. This "toll for service" structure (as opposed to the commodity spread-based price structures predominantly used by midstream companies in the U.S.) does not create exposure to commodity price risk as revenues are a function of volumes processed. AltaGas' investment is generally protected by the life of reserves behind the facility since producing wells typically remain connected to a gathering and processing system for their entire productive lives.

AltaGas may seek additional contract support to underpin capital commitments through the addition of one or more of the following provisions:

Take or Pay: Take or pay arrangements are designed to ensure AltaGas recovers its invested capital in a relatively short period of time. This is achieved by producers providing minimum volume or capital recovery commitments to AltaGas. With minimum volume commitments the producer must process a specified volume at a rate per Mcf over a specified period of time or pay any revenue shortfall. With capital recovery commitments the sum of the processing revenues must provide AltaGas with a return on and of capital within a specified period or the producer pays the shortfall.

Capital and Operating Cost Recovery: The producer pays two distinct fees to AltaGas, one to provide a return of and on capital and the other to cover AltaGas' operating costs.

Area of Mutual Interest: These contract terms ensure any production brought on stream in a specified area must flow to an AltaGas facility. When AltaGas acquires or expands a new or existing facility, it generally secures projected future natural gas throughput by contractually committing the vendor of the facility to dedicate any production from specified reserves or future areas of development surrounding the facility. When AltaGas acquires a facility the vendor is typically the largest producer utilizing that facility. As a result, AltaGas is usually entitled to gather and process the majority of the natural gas production associated with the facilities it acquires as a result of its reserve dedication contracts.

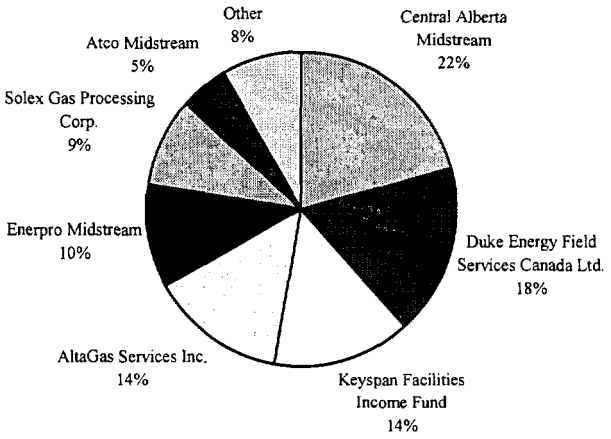
Geographic Franchise with Economic Out: Contract provisions allow AltaGas to terminate or renegotiate a contract if it is not economical to continue processing.

Length of Term

Where natural gas reserves have been dedicated under contract, the contract normally extends beyond one year and up to the life of the reserves depending on the amount of capital invested by AltaGas in the facility. Where reserves have not been dedicated under contract or AltaGas has not made a significant capital investment, the contracts are normally subject to termination by either party upon one to three months notice. Typically producing wells remain connected to a gathering and processing system for their entire productive lives, as the additional economic investment required to direct production elsewhere is usually not economical.

Type of Service

In general, producers have access to either firm service or interruptible service. Firm service offers producers priority to have their natural gas processed at the applicable AltaGas facility subject to normal course maintenance and force majeure. Interruptible service is available only if the applicable facility has capacity available after all firm service commitments with respect to such facility have been satisfied. Firm service is normally provided to a producer when the producer's natural gas reserves have been dedicated to an AltaGas facility.



Field Gathering and Processing - Operating and Maintenance Expenses

Operating and maintenance costs for gathering and processing facilities generally include: (i) labour costs for operators; (ii) materials consumed in processing or maintenance, including chemicals and lubricants; (iii) land lease costs; (iv) property taxes; (v) fuel and power costs and (vi) other overhead costs. For the plants operated by AltaGas, the most significant costs are labour, utilities, property taxes and repair and maintenance.

Field Gathering and Processing - Competition

Midstream companies currently provide a small portion of the midstream field processing function in Canada. AltaGas estimates that on a net capacity basis, approximately 15 percent to 20 percent of the total estimated field processing capacity in western Canada is owned by midstream companies. AltaGas competes with other midstream companies operating in the Western Canadian Sedimentary Basin, including Central Alberta Midstream, Duke Energy Field Services, Keyspan Facilities Income Fund, Enerpro Midstream, Solex Gas Processing Corp, and ATCO Midstream. The remaining gathering and processing generally continues to be provided by the upstream natural gas exploration and production companies.

Field Gathering and Processing Competition

Note: Based on net processing capacity in the Western Canadian Sedimentary Basin as of December 31, 2003, and excludes National Energy Board regulated plants.

The midstream industry continues to evolve and the competitive environment also continues to change. AltaGas believes that with its proven field gathering and processing strategies and business attributes it will continue to effectively compete in the midstream market place. AltaGas also believes that its operational skills and market coverage make it an excellent business partner for many exploration and production companies

Field Gathering and Processing – Third Party Facility Operations

AltaGas provides well operating and common stream operator services to producers on a contract basis. Well operating services are offered to owners of wells connected to AltaGas' operated facilities on a fee-for-service basis. At December 31, 2003 AltaGas operated 1,051 producing wells, up from 975 producing wells operated at December 31, 2002. The primary responsibility of a common stream operator is to balance the daily combined flow of natural gas through a particular common carrier pipeline receipt station by allocating the producer's production among the various shippers of natural gas. AltaGas believes that additional opportunities to provide these services will arise as AltaGas completes new tie-ins and expands and acquires facilities.

Extraction

AltaGas owns extraction plant capacity through its interests in the ATCO and EnCana operated extraction plants at Empress, Alberta and the Taylor operated extraction plant at Joffre, Alberta. AltaGas' working interest in these extraction assets provide stable fixed fee or cost of service type revenues and margin based revenues. Also included in extraction is AltaGas' Bantry field fractionation facility. Fractionation services at Bantry are provided on a rate per M^3 of product processed. Investment in extraction and field fractionation plants as at December 31, 2003 was approximately $53.0 million.

Extraction - Business Description

NGLs generally have greater value if extracted in liquid form and additional NGLs recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field gas plants or at large extraction plants where economies of scale are realized. Although there are in excess of 700 field plants in western Canada which recover NGLs, 10 extraction plants currently extract approximately 40 percent of all of the propane and butane and approximately 70 percent of ethane produced within the region. Nine of the plants are located in Alberta and process the vast majority of the natural gas exported from Alberta. Large extraction plants are located along major high volume pipeline transmission systems which transport natural gas to end-markets. Extraction plants "straddle" these transmission systems so that sufficient volumes of residual ethane and NGLs in the

natural gas stream can be recovered to provide an acceptable rate of return on capital.

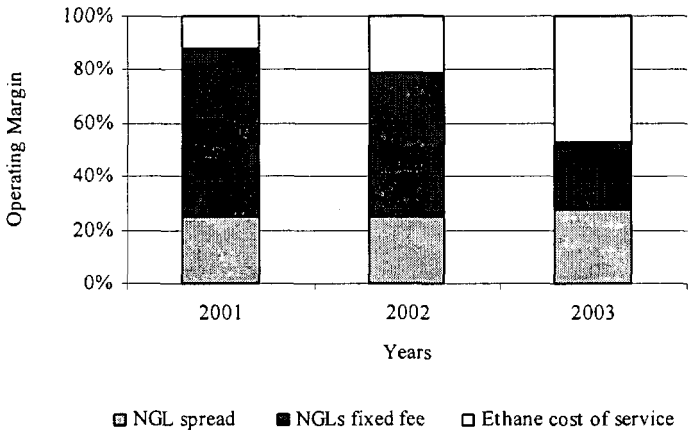
After extraction, NGLs must be fractionated into their constituent components of propane, butane and pentanes-plus. Some NGLs are fractionated at Empress, Alberta, or in the field, such as at AltaGas' Bantry facility. However, most NGLs from field and extraction plants are shipped to Fort Saskatchewan, Alberta; Sarnia, Ontario; or Marysville, Michigan for fractionation. Propane, butane and pentanes-plus are used directly as energy products and as feedstock for the petrochemical and crude oil refining industries.

The economics of NGLs extraction are a function of the difference between the premium value of the ethane, propane, butane and condensate as separate marketable commodities compared to their value as constituents of the natural gas stream. If the components are not extracted, they are sold as natural gas for their heating value at the prevailing natural gas price. As NGLs, the components are sold at higher prices that reflect the premium value of each of the individual commodities.

When an extraction plant has more than one owner, the operator manages the facility according to the terms and conditions of an agreement that covers the construction, ownership and operation of the plant ("CO&O agreement"). CO&O agreements describe, among other things, the voting procedures and other mechanisms governing operating and capital expenditure decisions, processing rights, supply obligations and other aspects of facility operations. A CO&O agreement may also empower the operator to negotiate extraction rights and enter into ethane and NGLs sales arrangements on behalf of all co-owners in the facilities. AltaGas has directly negotiated extraction rights and ethane and NGLs sales arrangements for the majority of its net processing capacity and net production. AltaGas also regularly attends the operating committee meetings for those extraction plants where it owns a working interest.

Extraction assets are long life assets. AltaGas estimates that the average remaining life of its extraction facilities is in excess of 20 years which is based on large regional natural gas supply and demand.

Extraction - Plant Fee Structures



Extraction facility owners have the right to extract liquids from the natural gas stream, either directly as the owner of the gas, or through gas extraction agreements. The typical commercial arrangement involves the ethane and NGLs extraction plant owner contracting with shippers on a gas transmission system for the right to extract the ethane and NGLs from the shipper's natural gas. By removing ethane and NGLs, the extraction plant is, in effect, extracting or shrinking a portion of the energy contained in the shipper's natural gas. The extraction plant owner pays the shipper for the extracted energy or alternatively purchases a sufficient volume of natural gas from the market to replace the extracted energy thereby keeping the shipper whole. This purchased gas is referred to as shrinkage make-up. Extraction contract terms may be for firm or interruptible processing, and may vary from monthly to multi-year in length. Currently the majority of AltaGas' extraction agreements are multi-year term arrangements.

All of AltaGas' net share of ethane production is sold through long term cost of service or fixed fee arrangements. The sales price received under these contracts provides for a return on and of capital and the recovery of certain operating costs, including shrinkage make-up attributable to that production. AltaGas' share of ethane production is sold at the outlet of the plants, with the purchaser responsible for all downstream transportation and handling.

NGLs can be sold under a variety of arrangements. Approximately 50 percent of AltaGas' net NGLs production is sold under long term fixed fee arrangements. These volumes do not bear any commodity price risk. The revenue from these NGLs sales and the ethane sales provides a stable, predictable cash flow base.

Approximately 40 percent of AltaGas' NGLs production is sold under short term contracts. The margins received on these volumes are subject to the spread between the price received for the NGLs extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs. The remaining 10 percent is sold under a profit and loss arrangement. If commodity prices or operating costs make NGLs extraction uneconomic, the NGLs may be reinjected or the facilities may be turned down or shut in. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGLs prices and crude oil prices. As crude prices fall, NGLs prices will generally decrease subject to other factors that influence supply and demand.

The following diagram shows the operating margin based on type of extraction contract.

Extraction - Plant Production

Extraction production is a function of natural gas volume processed, natural gas composition, recovery efficiency of the extraction plant and plant on line time. The following table represents a summary of the net capacity and production associated with extraction and fractionation plants in which AltaGas holds an interest.

Extraction or Fractionation Plant	Interest (percent)	Net Inlet Processing Capacity at Dec 31, 2003 (Mmcf/d)	Liquids Production 2003 (Bbls/d)[1]		Liquids Production 2002 (Bbls/d)[1]	
Empress ATCO	7.2	79	NGLs mix	611	NGLs mix	592
			Ethane	668	Ethane	620
Empress EnCana	10	120	NGLs mix	1,162	NGLs mix	1,190
			Ethane	2,105	Ethane	926
Joffre [2]	50	125	NGLs	634	NGLs mix	75
			Ethane	2,609	Ethane	0
Bantry	100	25	NGLs	393	NGLs	399
Total		349	NGLs mix	2,800	NGLs mix	2,256
			Ethane	5,382	Ethane	1,546

Note: (1) Average volumes for the fourth quarter.
(2) Joffre became operational on December 18, 2002.

AltaGas' net extraction and field fractionation plant annual average production since 2001 is as follows:

	2003	2002	2001
NGLs (Bbls/d)	2,504	1,974	1,555
Ethane (Bbls/d)	4,056	1,425	1,063
Total	6,560	3,399	2,618

Extraction - Empress ATCO Extraction Plant

At December 31, 2003 AltaGas' ownership interest in the Empress ATCO extraction plant located in southeast Alberta on the Alberta Saskatchewan border was approximately 7.2 percent. The remaining interest in the facility is held by nine other owners with varying interests. AltaGas' ownership corresponds to a 79 Mmcf/d share of the plant's 1,100 Mmcf/d inlet capacity. AltaGas has contracted approximately 60 Mmcf/d of supply to fill its portion of the plant's capacity under long term contracts, of which 35 Mmcf/d expires mid-2004, with the remainder being supplied through short term arrangements. AltaGas is currently pursuing alternatives to replace the expiring supply contract. The terms and conditions of any replacement agreement may be more or less favourable than those of the expiring contract. As there are five other extraction plants in the Empress area, there is considerable competition for these extraction rights. If AltaGas is not successful in replacing this supply contract, the Empress ATCO plant may be turned down to reduce fixed operating costs, minimizing the downside associated with this risk.

The five-year ethane sales contract for AltaGas' share of Empress ATCO ethane production expired December 31, 2003. Until negotiations for the replacement supply contract are finalized, AltaGas' net ethane production is being sold under a month-to-month cost plus sales arrangement.

Approximately 65 percent of AltaGas' share of NGLs production at Empress ATCO is sold under one-year evergreen marketing arrangements at the monthly market price for NGLs. The remaining 35 percent of AltaGas' share of NGL production is sold under a long term profit and loss arrangement where revenues vary with product pricing.

Extraction - Empress EnCana Extraction Plant

Effective April 1, 1998 AltaGas acquired a 10 percent interest in the Empress EnCana extraction plant. The other owners are EnCana (70 percent), Devon Canada Corporation (10 percent) and Husky Oil Operations Limited (10 percent). The Empress EnCana extraction plant is located two kms southeast of the Empress ATCO extraction plant and began operations in September 1996. The plant is licensed to process 1,200 Mmcf/d of natural gas of which 120 Mmcf/d is AltaGas' net share. Ethane recovery capability was added to the Empress EnCana extraction plant in the first quarter of 1999 and in the third quarter of 2003 modifications were completed to increase the ethane production capability. AltaGas invested $5.5 million, plus interest during construction, in its net share of the expansion and has seen net ethane production increase by approximately 1,200 Bbls/d.

The Company has managed its gas supply risk at this facility by securing up to 120 Mmcf/d of natural gas throughput on a long term basis.

Prior to completion of the 2003 modifications made to increase the ethane production capability, AltaGas' net share of ethane production was sold under a long term cost plus arrangement. This agreement was re-negotiated in conjunction with the expansion and AltaGas currently sells its share of Empress EnCana ethane production under a cost of service type contract which also provides for the recovery of certain operating costs.

Approximately 90 percent of AltaGas' net share of NGLs production generates fixed fee revenue plus reimbursement of associated operating costs, under a long term processing arrangement. The remainder is sold under a one-year evergreen marketing arrangement at the monthly market price for NGLs.

Extraction - Joffre Ethane Extraction Plant

AltaGas and Taylor each own 50 percent of the ethane extraction plant at Joffre, Alberta. The plant, which was constructed during 2002 at a net cost to AltaGas of $24.8 million, started operations in December 2002. AltaGas' share of processing capacity is 125 Mmcf/d of natural gas and is capable of producing up to 5,200 barrels per day of ethane and NGLs. Taylor is operator of the facility.

The Joffre Plant is adjacent to NOVA Chemicals Corporation's ("Nova") Joffre petrochemical complex and recovers ethane and NGLs from the fuel gas used at the complex. All ethane production from the Joffre Plant is sold under a cost of service type contract with Nova which expires in 2031. Under this ethane sales agreement, a portion of the operating cost risk is borne by AltaGas and Taylor. This portion is a function of the ratio of NGLs production to total plant production. If operating costs increase or the ratio of ethane to total NGLs production falls, then the cost to AltaGas and Taylor increase. AltaGas and Taylor each market their respective 50 percent share of the NGLs production from the facility. AltaGas sells its net share of NGLs production under a one-year evergreen marketing agreement at the monthly average market price for NGLs.

The Joffre Plant is physically configured such that NGLs production can easily be matched to market demand. This ability to step in and out of the NGLs market depending on NGLs pricing allows AltaGas and Taylor to fully participate in the market when NGLs prices are strong, while minimizing exposure during times of unfavorable pricing.

Extraction - Bantry Field Fractionation Facility

AltaGas purchased the Bantry natural gas processing plant in May 2000 and expanded it in 2001 (see "Field Gathering and Processing Facilities"). The plant is equipped with fractionation facilities capable of producing up to 400 Bbls/d of specification propane, butane and pentanes-plus for sale to local markets.

Extraction - Competition

Currently there are six extraction plants in the Empress area. This results in significant competition for natural gas supply. In December 2000 the Alliance Pipeline was placed into service which resulted in the reduction of gas flows past the Empress extraction complex by as much as 15 percent. AltaGas is largely insulated from this natural gas supply competition through its long term natural gas supply contracts. Although there is the potential that a "richer" stream of gas supply could be directed to the Alliance Pipeline, which may result in a lower percentage of ethane and NGLs in the gas stream delivered to Empress, this has not been the case to date.

Transmission

Transmission pipelines represent a growing opportunity for AltaGas. Transmission pipelines create footholds in new areas and market opportunities with exploration and production companies. AltaGas entered the transmission business in 1998 and has acquired or constructed several transmission pipelines since that time.

The Suffield System, which consists of two natural gas pipelines at Suffield, Alberta, is the largest contributor to AltaGas' transmission revenues. AltaGas, through its 100 percent owned subsidiary AltaGas Suffield Pipeline Inc., acquired the Suffield System from subsidiaries of EnCana Corporation ("EnCana") for approximately $95.0 million on December 19, 2002. The Suffield System, located in southeastern Alberta, transports natural gas produced on and around the Suffield military block to the TransCanada Transmission Canadian mainline at Burstall, Saskatchewan. Constructed by EnCana between 1998 and 2001, the Suffield System is regulated by the National Energy Board and rates on the system are based on a market-based tolling methodology. The two pipelines each have 200 Mmcf/d of transmission capacity. The south Suffield pipeline is a 147 km pipeline of 6 to 16 inch diameter pipe. The north Suffield pipeline is 96 km of 16 inch diameter pipe. The majority of the Suffield System's capacity is currently contracted by EnCana through transport or pay and volume commitments which will expire in 2022 and be renewable for one year periods thereafter. Volume commitments will increase annually from approximately 340,000 GJ/d in 2004 to approximately 400,000 GJ/day in 2010 and declining thereafter. AltaGas sees an expanded transportation role for the Suffield System and will work with potential shippers to develop transportation opportunities to maximize the system's capabilities.

In June 2002, AltaGas reclassified certain pipeline segments in the Cold Lake operating area in northeastern Alberta from gathering to transmission pipelines to align with the Alberta Department of Energy's new petroleum registry system

implemented on November 1, 2002.The reclassified pipeline segments were combined with the Whitney Lake pipeline to create the ASI Cold Lake natural gas transmission system. AltaGas owns and operates the ASI Cold Lake natural gas transmission system which interconnects with TransCanada's Nova Gas Transmission Limited system and the TransGas Limited system, and consists of 36 receipt points and 39 delivery points (including five pipeline interconnects).

The ASI Cold Lake and Summerdale pipelines provide AltaGas' gas services team with marketing and exchange opportunities as the pipelines are connected to major downstream pipeline systems that allow AltaGas' customers to access Alberta and Saskatchewan markets.

The Kahntah pipeline is regulated by the National Energy Board on a complaints basis. The entire capacity of that system is contracted until 2005. The Porcupine pipeline is a single shipper pipeline with contract expiry in 2006. Both systems are integral in the delivery of their respective products to market and new contracts are expected to be negotiated prior to expiration.

AltaGas provides transportation on its transmission lines through cost of service type fee structures with the exception of the Suffield and Kahntah pipelines which are take or pay arrangements.

The following table provides a summary of the gross capacity of AltaGas' transmission pipelines at December 31, 2003.

Transmission Pipeline	Product	Area	Design Capacity	Operating Capacity	Throughput[1]	Length (km)
Kahntah	Natural Gas	NE BC	95 Mmcf/d	35 Mmcf/d	3 Mmcf/d	55
Suffield	Natural Gas	SE Alta	400 Mmcf/d	400 Mmcf/d	324 Mmcf/d	243
Summerdale	Natural Gas	Central Alta	24 Mmcf/d	24 Mmcf/d	18 Mmcf/d	18
ASI Cold Lake	Natural Gas	East Central Alta	80 Mmcf/d	80 Mmcf/d	56 Mmcf/d	253
Battle Lake	Natural Gas	Central Alta	15 Mmcf/d	15 Mmcf/d	2 Mmcf/d	16
Porcupine Hills	Condensate	SW Alta	11,600 Bbls/d	11,600 Bbls/d	3,947 Bbls/d	164

Note: (1) Represents 2003 fourth quarter average.

Other

AltaGas makes modest investments in industry service companies when the Corporation considers it to be prudent and if there is an opportunity to enhance AltaGas' existing business activities. At December 31, 2003 AltaGas' investment in public and private companies was $20.2 million.

During 2003, AltaGas acquired 19.2 percent of Taylor whose business is the ownership and operatorship of facilities in the midstream sector of the western Canadian natural gas industry. On April 23, 2003, the Company acquired 1,872,735 of Taylor's outstanding limited partnership units for $9.4 million and on October 17, 2003 AltaGas purchased an additional 1,592,250 limited partnership units for approximately $8.7 million. AltaGas and Taylor, which each own a 50 percent interest in the Joffre ethane extraction plant, expect to benefit over the longer term from this relationship by capturing mutually beneficial growth opportunities.

ENERGY SERVICES

Energy Services includes power services, natural gas services and oil and natural gas production.

Power Services

AltaGas supplies 453 MW of power to markets through power purchase based arrangements including a 50 percent ownership interest in the Sundance B power purchase arrangement and the Genesee energy contract. AltaGas' 453 MW of power represents approximately four percent of Alberta's power capacity at December 31, 2003.

Power purchase arrangements ("PPA") were established in 1999 under Alberta's program of power industry deregulation. Alberta is currently the only province providing this opportunity. Power purchase arrangements, which in form resemble contracts, were created to separate ownership of the physical power generation assets from ownership of their output.

Power Services - Sundance B Power Purchase Arrangement

On December 28, 2001 AltaGas acquired a 50 percent interest in the Sundance B PPA through the Partnership. The 50 percent interest in the PPA provides AltaGas with the rights to 353 MW of power generation capacity, energy and ancillary services from the coal fired Sundance B plant until December 31, 2020.

The ASTC Power Partnership

AltaGas and TransCanada Energy form the Partnership. Each partner owns a 50 percent share and contributed 50 percent of the approximately $220.0 million Canadian required to purchase the PPA from Enron Canada Power Corporation ("ECPC"). ECPC originally purchased the Sundance B PPA for $294.8 million Canadian at an auction arranged by the government of the Province of Alberta on August 24, 2000.

The Partnership started dispatching power effective December 29, 2001. AltaGas maintains the books and records of the Partnership, including providing accounting services. TransCanada, an experienced PPA owner and manager, having purchased the Sundance A power purchase arrangement in August 2000, manages daily Sundance B PPA operations including the dispatch of power into the Power Pool. Each of the partners is responsible for managing its own market risk associated with its acquired power generation capacity.

The Sundance B Plant

TransAlta Corporation owns the Sundance B plant which is located approximately 70 kms west of Edmonton, Alberta, and has been operating since 1976 (Unit 3) and 1977 (Unit 4). The Sundance complex consists of Units 1 through 6. An auction conducted on August 24, 2000 grouped the Units into three plants:

- Sundance A Plant - Units 1 and 2
- Sundance B Plant - Units 3 and 4
- Sundance C Plant - Units 5 and 6

A separate PPA was created and auctioned for each of the above plants. TransCanada owns the PPA for Sundance A, and EPCOR Utilities Inc., owned by the City of Edmonton, owns the Sundance C PPA. The Sundance complex is connected to the Alberta Interconnected Electric System, allowing access to markets in Alberta, B.C., Saskatchewan and the United States.

The Sundance B PPA is divided into two PPAs, Unit 3 and Unit 4, one for each of the two units comprising the Sundance B plant. The Partnership holds the Sundance B PPA as partnership property, with both partners having an equal interest in each PPA.

The Sundance B Plant - Power Sales

Revenue from the sale of power is largely driven by megawatt hours of production and by Alberta Power Pool prices ("Pool prices"). The relationship between production, Pool prices, and cost of sales is complex.

All of the power produced in Alberta is currently sold into the Power Pool of Alberta (the "Pool"). The Pool operates an open market for the exchange of electricity. The Pool establishes the power price based on power offers from Pool participants utilizing a uniform pricing model whereby the marginal unit establishes the price for all generators. Pool schedulers sort the offers, by price, into a stacked merit order beginning with the lowest cost producer thereby defining a supply curve for each hour. By matching energy supply with demand, the Pool establishes a uniform hourly market price, which is published on the Pool's website. In Alberta, coal fired electrical generation is generally produced at a lower cost than gas fired electrical generation.

Under the Sundance B PPA, the Partnership holds the rights to the power capacity, energy and ancillary services from Units 3 and 4 of the Sundance B plant. Day to day operation of the Sundance B PPA requires the Partnership to communicate the volume of power available and the price of the power to TransAlta and to sell that power as it becomes available. The Partnership is obligated to pay TransAlta a price which covers TransAlta's capital and operating costs as determined by mechanisms in the Sundance B PPA and provides TransAlta with a reasonable profit. The majority of the Partnership's cost of sales are the relatively fixed costs paid to TransAlta and the variable costs of transmission and Pool trading charges.

Each of Units 3 and 4 has a nameplate capacity of 353 MWs. The Sundance B PPA recognizes that the plant will not produce at 100 percent capacity all of the time. TransAlta is obligated to provide AltaGas financial compensation to a stated target availability level regardless of actual generation of electricity from the Sundance B units. This is accomplished by a financial payment based on the difference of the actual availability below the target availability level multiplied by the Rolling 30-Day Average Pool Price ("RAPP"). During these under-generation periods AltaGas has financial exposure on the difference between the Alberta spot price and RAPP on its fixed for floating swap position. The exposure is minimized through the diversification offered by the two units at each of the Sundance B and Genesee plants, unit contingent hedges, basis swaps, and or replacement power purchases.

TransAlta is an experienced operator of coal-fired electrical generation facilities and has financial incentives to operate the Sundance B plant efficiently and at high levels of electricity generation. The plant uses coal from the adjacent Highvale Mine which has sufficient reserves for the expected fuel requirements of the Sundance B plant beyond the life of the Sundance B PPA.

Power Services - Genesee Energy Contract

On March 18, 2003 AltaGas announced it was a successful bidder for 100 MW of power capacity in the Alberta government's third phase of the Market Achievement Plan II auction. Accordingly, the Company entered into an energy contract with the Balancing Pool Administrator (BPA) for the right to 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee power plant located southwest of Edmonton, Alberta for a three year term commencing April 1, 2003. The 100 MW of power capacity is a portion of the capacity at the Genesee plant to which the BPA has rights pursuant to a PPA. The Genesee plant is a coal fired facility consisting of two independent units.

The energy contract required no capital outlay by AltaGas, but instead requires AltaGas to pay a competitively priced fixed monthly capacity charge for the power capacity. Other costs associated with the contract include a monthly energy payment and incentive payment, transmission and Pool trading charges. Power from the Genesee energy contract is sold in the same manner as the Sundance B PPA to provide stable and predictable earnings and cash flow.

Power Services - Risk Mitigation

The main risk faced by AltaGas in the power business is the fluctuations in the margin between power revenues and the cost for power. This is generally created through changes in power prices, increases in operating costs, changes in transmission rates, and reductions in power available for sale, mainly due to outage and force majeure events.

AltaGas does not engage in speculative trading of power. The Company manages its acquired power capacity to provide stable, predictable earnings and cash flow over time. AltaGas reduces its exposure to floating electricity prices by supplying AltaGas' internal electrical demand requirements and by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. AltaGas' hedging strategy targets the optimal balance between operating margin certainty and operational flexibility.

During 2003, the average monthly Pool price ranged from a low of $43.63 per MWh in September to a high of $89.80 per MWh in March. The average all hours Pool price for 2003 was $62.98/MWh compared to $43.85 per MWh for 2002. The average sales price received by AltaGas for 2003 was $47.03 per MWh compared to $41.27 per MW during 2002. AltaGas has sold a substantial portion of its power forward for 2004. Pool prices are primarily driven by industrial and residential demand and a changing portfolio of supply.

The following chart provides a summary of power prices and volumes for the two years AltaGas has been in the power business.

	Year ended December 31, 2003	Year ended December 31, 2002
Volume of power sold (thousands of MWh)	3,266	2,669
Average price received on the sale of power ($/MWh) [1]	47.03	41.27
Alberta Power Pool average spot price ($/MWh) [1]	62.98	43.85

[1] Average for the period.

Both the Sundance B and Genesee plants are made up of two units that are physically independent of each other. AltaGas' supply portfolio is enhanced with its four independent supply sources as it is unusual that all units would experience reduction in production or would be shut down at the same time whether for planned maintenance or otherwise.

In the event of any force majeure related to the Sundance B PPA, AltaGas is entitled to a termination payment from the balancing pool equal to its portion of the net present value of the amortized Sundance B PPA purchase price to that date. With respect to a force majeure event on the Genesee contract, AltaGas may elect to terminate the contract upon paying three monthly capacity charges or alternatively can continue to suspend payment and revenues from the specific Genesee unit. AltaGas has further minimized the risk of a force majeure event to a particular unit by diversifying its supply over four units, entering into unit contingent hedges, and executing independent backstopping arrangements to supply electricity in the event of a force majeure.

Power Services - Competition

AltaGas does not sell retail power and targets customers with a minimum baseload requirement of two MWh. The Sundance B PPA and Genesee plants are two of the lowest-cost power producers in their market and lowest in the dispatch merit order. AltaGas expects most new supply to come from natural gas-generated power, which is not expected to be less costly than power generated through its power purchase based arrangements.

Gas Services

AltaGas' focus is to efficiently manage and market natural gas processed through its field gathering and processing, transmission and extraction facilities. AltaGas also markets gas for a supply pool of producers, and purchases gas for AltaGas Utilities and a select group of industrial users.

There is minimal capital required to operate AltaGas' gas services business. AltaGas generally does not take on commodity price risk in connection with its marketing business and has implemented rigorous risk management processes and systems to carefully monitor and manage its Gas Services business.

Gas Services - Natural Gas Marketing and Supply Management

AltaGas markets natural gas from a supply from deliveries of natural gas processed at AltaGas' facilities and from other clients with natural gas supply unassociated with AltaGas' facilities. AltaGas markets natural gas under both short term and long term contracts, with the principal objective of providing a diversified portfolio of market contracts to both producers and end-users.

Natural gas marketing services are primarily fee or margin based, with revenue increases closely tracked by increases in costs to purchase the commodity. As a result, commodity price swings have minimal impact on AltaGas' natural gas marketing operating cash flows. Marketing sales are generally made on a "netback" basis where AltaGas earns a fee based on the gross sales less amounts paid by AltaGas, including pipeline tariffs and fuel costs. AltaGas does not speculate on the commodity price of natural gas on its own behalf or on behalf of its customers.

Inherent in normal marketing activities is the risk that a purchaser does not pay for the commodity delivered or a supplier does not deliver volumes contracted for purchase by AltaGas. AltaGas minimizes this risk by conducting credit reviews on clients and by structuring contracts to provide for either set-offs of monies owing against other payables or by putting in place other security arrangements when required in accordance with its risk management policies.

In 1999, AltaGas assumed the gas management responsibilities for AltaGas Utilities. This contract, which provides for a monthly fee-for-service plus the reimbursement of all third party costs and extraordinary costs incurred by AltaGas, establishes AltaGas as the exclusive supply manager in respect of all matters relating to AltaGas Utilities' natural gas supply requirements. In 2002, AltaGas took on gas management responsibilities for the Joffre ethane extraction plant.

AltaGas also markets or exchanges all of the volumes that flow through its ASI Cold Lake and Summerdale pipeline systems. In a gas exchange transaction AltaGas buys natural gas on the TransCanada system to "pay back" clients whose natural gas the Company has physically delivered to customers on an AltaGas system. By purchasing or exchanging gas on these pipeline systems and at other facilities, AltaGas has been successful in achieving positive margins for the Company while providing improved netbacks for its producers. Net revenues from such marketing and gas exchange opportunities are derived from low-risk opportunities based on transportation cost differentials between pipeline systems.

AltaGas has also historically provided pipeline transportation capacity mitigation services whereby it saved customers money by conducting transactions that mitigate the cost associated with excess pipeline transportation commitments. While AltaGas no longer derives a material amount of margin from transportation capacity mitigation, it does often manage the third party pipeline transportation requirements of its gas marketing customers under contractual arrangements whereby it is indemnified for all risks and obligations relating to the customer's transportation contracts. In addition, AltaGas has contracted for a nominal amount of firm receipt capacity on TransCanada's Alberta system with terms varying between one and five years which it is uses to offset producer client deliveries using higher-priced interruptible service. These differentials are retained by AltaGas.

Gas Services - Customers

AltaGas buys natural gas from approximately 90 customers and sells natural gas to approximately 45 customers, with no customer representing 10 percent or more of consolidated revenues during 2003 or 2002. In 2003, AltaGas marketed 180 Mmcf/d on average of natural gas.

Gas Services - Competition

In the natural gas marketing business, AltaGas' competitors range from single-person operations to large marketing and aggregation companies. Prior to 2002, many large energy marketers competed for very thin margins with success achieved by providing a wide range of "value-added" energy services and by trading large volumes. As a result of recent
changes in the industry, the primary source of competition is now the marketing arms of large oil and gas producers as well as a few creditworthy energy utilities.

AltaGas competes in this environment by focussing on marketing natural gas produced at its gathering and processing facilities, as well as the gas of smaller natural gas producers whose needs cannot be met by larger marketers who have difficulty providing personal service to smaller clients.

AltaGas' gathering and processing and gas services operations are highly inter-related. Past experience indicates that AltaGas' facilities assets and the areas in which they are located provide considerable opportunity to increase AltaGas' gas services client base. AltaGas also expects that additional opportunities to provide services will arise as AltaGas completes new tie-ins and expands and acquires facilities.

Oil and Natural Gas Production

AltaGas is not in the business of exploration and development of natural gas reserves as the Corporation does not want to compete with producers flowing natural gas through AltaGas' gathering and processing systems. However, in connection with larger acquisition transactions that included gathering and processing facilities, AltaGas has accumulated a portfolio of oil and natural gas production and shares of small oil and gas production companies. AltaGas continues to hold and produce some of the production to act as natural hedges to business activities such as shrinkage make-up at extraction plants, and natural gas marketing related risks including credit risk. At December 31, 2003 AltaGas' capital investment in oil and natural gas production was $28.0 million. Oil and natural gas production represented less than three percent of AltaGas' total operating margin in 2003.

NATURAL GAS DISTRIBUTION

AltaGas operates a natural gas distribution business through its indirect wholly owned subsidiary, AltaGas Utilities, its one-third interest in Inuvik Gas and its 24.9 percent interest in Heritage Gas. AltaGas' Natural Gas Distribution business segment contributed net revenues of $30.5 million for the year ended December 31, 2003 which was approximately 13.9 percent of total net revenues.

Natural Gas Distribution - AltaGas Utilities Inc.

The AltaGas Utilities Inc. acquisition effective June 30, 1998 included the purchase of AltaGas Utilities for $62.5 million plus $45.3 million of assumed AltaGas Utilities debt. At December 31, 2003 AltaGas Utilities served approximately 59,500 customers, representing approximately six percent of the Alberta natural gas distribution market.

AltaGas Utilities' head office is located in Leduc, Alberta. Operating since 1947, AltaGas Utilities delivers natural gas to residential, farm and small commercial customers in more than 90 communities and surrounding rural areas throughout Alberta including Athabasca, Barrhead, Bonnyville, Drumheller, Elk Point, Grande Cache, Hanna, High Level, Leduc, Morinville, Pincher Creek, St. Paul, Stettler, Three Hills and Westlock. During 2003, AltaGas Utilities delivered approximately 23.5 Bcf through its system.

AltaGas Utilities, like all Canadian natural gas distribution companies, is provincially regulated as to natural gas tariffs for sales and transportation. AltaGas Utilities is regulated by the Alberta Energy Utilities Board ("AEUB") which exercises statutory authority over matters such as rate base, rate of return on common equity, the common equity component of the rate base and natural gas cost recovery rates. Rate base generally consists of the aggregate of a utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Net rate base excludes "no-cost capital," which are unamortized contributions and grants from governments and certain customers. AltaGas Utilities' gross rate base was $140.4 million in 2003 compared to $137.1 million in 2002 and net rate base was $88.2 million for 2003 compared to $85.7 million in 2002. The increase in rate base is due to an increase in net plant in service offset, in part, by a decline in required working capital.

On June 27, 2003 AltaGas Utilities filed a 2003/2004 general rate application with the AEUB proposing a negotiated settlement process for Phase 1 of this proceeding. In Phase 1 proceedings the revenue requirements of the company are determined, while Phase 2 proceedings determine the rates that will be charged to each customer class. On July 29, 2003 the AEUB approved the commencement of negotiations with respect to all components of revenue requirement except the 2004 capital structure and rate of return on common equity which will be determined through a Generic Cost of Capital Proceeding. The negotiated settlement process was concluded in early 2004 with an agreement with the customer representatives and, subject to AEUB approval, AUI will be allowed to recover a return on equity of 9.5 percent on an equity component of 41 percent for the year 2003. The public hearing portion of the Generic Cost of Capital Proceeding was completed on January 16, 2004.The reply argument from all parties is scheduled to be filed by April 5, 2004 and a decision is expected by the end of June 2004.

On April 12, 2002 the AEUB issued a decision on AltaGas Utilities' general rate application for 2000/2002. The AEUB set AltaGas Utilities' allowed rate of return on common equity for 2002 at 9.7 percent. The proportion of the net rate base and the gross rate base deemed to be financed by common equity was left unchanged at 41 percent and 25 percent respectively. In the Generic Cost of Capital proceeding the company has requested a rate of return on common equity of 11.5 percent and a capital structure comprised of 45 percent equity and 55 percent debt. In November 2002 AltaGas Utilities filed Phase 2 of its 2000/2002 general rate application with the AEUB. In 2003 this proceeding was discontinued on the basis that all Phase 2 matters would be carried forward to the 2003/2004 proceedings.

The natural gas distribution business is highly seasonal with the majority of natural gas demand occurring during the winter heating season which extends from mid-October to mid-April. Natural gas sales during the winter typically account for approximately two-thirds of annual natural gas distribution revenue resulting in strong first and fourth quarter results and second and third quarter results that show either small profits or losses.

AltaGas Utilities Inc. - Transmission and Distribution System

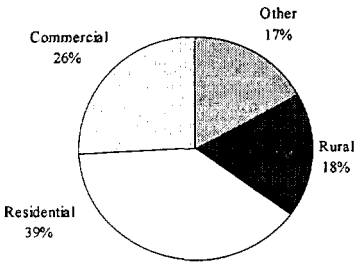
AltaGas Utilities' distribution system consists of approximately 19,300 kms of pipe, operating at pressures from 200 kilopascals to 8,755 kilopascals. AltaGas Utilities uses steel and aluminium pipe to transport natural gas at higher pressures while natural gas at lower pressures is transported primarily by plastic pipe. There are approximately 740 small and mid-sized metering and pressure regulating stations throughout AltaGas Utilities' distribution network. AltaGas Utilities' distribution system does not require any compressors.

Substantially all of AltaGas Utilities' transmission pipelines and laterals are constructed on rights-of-way granted by the Government of Alberta or the owners of privately-held lands. The duration of these grants may be either in perpetuity, for as long as the rights-of-way are used for a pipeline or for fixed terms negotiated by AltaGas Utilities. Crossings under or over highways, railways and bridges have been constructed pursuant to orders or permits from the appropriate authorities or owners. Distribution pipelines are constructed, for the most part, under highways and streets pursuant to permits or orders from the appropriate authorities, franchise agreements entered into with municipalities and rights-of-way held directly. Major transmission and distribution related buildings of AltaGas Utilities, such as the administration, storage and maintenance buildings throughout its franchise areas, are located on freehold land owned by AltaGas Utilities.

AltaGas Utilities Inc. - Natural Gas Supply and Transportation Arrangements

AltaGas assumed the management of AltaGas Utilities' natural gas supply arrangements on November 1, 1999. The majority of AltaGas Utilities' natural gas supply is purchased from natural gas producers and marketing companies. AltaGas Utilities currently buys the majority of its natural gas under monthly and peaking arrangements. AltaGas Utilities has a deferred natural gas accounting process in place whereby the customers pay the forecast cost of natural gas and differences between forecast and actual costs are either refunded to or collected from customers in a subsequent period.

AltaGas Utilities purchases the majority of its natural gas off TransCanada's Alberta system. Deliveries are made at various Alberta delivery points into the AltaGas Utilities system for delivery to its various customers. AltaGas Utilities' natural gas supply arrangements provide that TransCanada transportation charges are paid by natural gas suppliers.



AltaGas Utilities Inc. - Franchises

As of December 31, 2003 AltaGas Utilities held 72 franchises; 51 distribution franchise agreements under the *Municipal Government Act* (Alberta) one permit granted by Indian and Northern Affairs Canada ("INAC") and 20 rural franchise approvals under the *Gas Distribution Act* (Alberta). The distribution franchise agreements under the *Municipal Government Act* (Alberta) can have terms of up to 20 years with, as at December 31, 2003, an average remaining term of 2.1 years. The majority of the distribution franchise agreements contain a provision to the effect that if the municipality chooses not to renew the franchise, the municipality must purchase AltaGas Utilities' distribution system within the municipality. The purchase price may be set by the AEUB should the parties fail to agree. Precedents based on Supreme Court decisions indicate that the price would be the full reproduction value less loss in value of the system. While such franchise or operating agreements are in effect, some municipalities receive fees based on a percentage of either the gross or net revenue from natural gas sales in the municipality. Franchise fees are collected directly from customers as a separate item similar to a sales tax and are not included in revenues. The permit granted by INAC and a related operating agreement are currently under renegotiation. The rural franchise approvals under the *Gas Distribution Act* (Alberta) continue in perpetuity or until revoked by the Government of Alberta. Four rural franchises, covering Métis Settlements, are also subject to the terms of operating agreements which contain provisions for the settlements to acquire the distribution systems. Two Métis Settlements are currently evaluating the feasibility of acquiring the distribution systems serving their areas. These systems serve approximately 350 customers representing 0.6 percent of the customer base. In 2003, AltaGas Utilities was involved in negotiations with the Alberta Urban Municipalities Association to establish a standard franchise agreement. It is expected that most municipalities in the Alberta will use this standard agreement when renewing franchises with natural gas distributors. AltaGas Utilities filed an application to renew the franchise for the Town of Bonnyville using the new standard agreement. A public hearing before the AEUB that was held to review the application resulted in the AEUB approving the application. Several municipalities had not renewed their franchises pending the drafting and approval of the standard franchise agreement. With the approval of the standard franchise agreement AltaGas Utilities anticipates that renewals will be negotiated. At December 31, 2003 seven franchise renewal applications had been filed for approval with the AEUB. Each of these renewals are for 10 year periods.

AltaGas Utilities Inc. - Customers

AltaGas Utilities' market consists primarily of residential and small commercial customers located in smaller population centres or rural areas. Within AltaGas Utilities' current franchise areas, AltaGas Utilities has nearly achieved market saturation. Growth opportunities in these areas are tied to the general strength and growth of the local economy. New customers are added primarily as new subdivisions are developed. AltaGas Utilities expects customer growth of approximately 1.5 percent annually in these existing areas. New customer installations totaled 1119 in 2003, 1511 in 2002, 886 in 2001, 889 in 2000 and 913 in 1999.

Percent of Revenue by Customer Type

AltaGas Utilities had three franchise areas as shown below that each accounted for 3.9 percent or more of AltaGas Utilities' revenues and distribution volumes at December 31, 2003.

Area	Percentage of AltaGas Utilities' Revenues	Percentage of AltaGas Utilities' Distribution Volumes
City of Leduc	9.9	9.6
Town of Drumheller	4.5	4.3
Town of Bonnyville	4.2	3.9

AltaGas Utilities Inc. - Capital Expenditures

Approximate capital expenditures, net of customer contributions, government grants and asset disposal proceeds by AltaGas Utilities during the past five years ended December 31 are set out below:

Year	Capital Expenditures
2003	$7.5 million
2002	$8.2 million
2001	$7.0 million
2000	$4.4 million
1999	$0.8 million

AltaGas Utilities Inc. - Competition

AltaGas Utilities is a regulated natural gas distribution monopoly within its current franchise areas, but competes with distributors of other forms of energy including electricity, heating oil and heavy fuel oil. Natural gas has proven to be an economical and environmentally preferred fuel choice in recent years. Natural gas is the predominant energy form in the residential heating market throughout AltaGas Utilities' franchise areas. In 2003, the majority of AltaGas Utilities'

revenues resulted from natural gas sales to the residential and commercial heating market. The primary competition to natural gas in the heating market has historically been from domestic fuel oil, propane and electricity.

AltaGas expects that natural gas will continue to hold a price and environmental advantage over alternative energy sources.

Natural Gas Distribution - Inuvik Gas Ltd.

Inuvik Gas is the distribution arm of the Ikhil Gas Project. This project provides the Town of Inuvik with an economical alternative energy source for power generation and commercial and residential heating. Previously, diesel brought in from Edmonton was the primary energy source for Inuvik.

Inuvik Gas obtained an exclusive franchise agreement from the Town of Inuvik to distribute and sell natural gas within the Town of Inuvik. Several of the government buildings (including public housing, schools, hospital and college) were converted to natural gas service during the initial start-up of the distribution system in the fall of 1999. Other commercial and residential buildings have subsequently been converted bringing the total number of buildings using natural gas service at December 31, 2003 to 648 from 616 December 31, 2002. The annual average volume of natural gas distributed in 2003 was 0.8 Mmcf/d. Any future volume growth is dependent on customer conversions to natural gas and new construction projects in the Inuvik area.

Inuvik Gas is regulated by the Northwest Territories Public Utilities Board ("NWTPUB") and is presently exempt from full regulation as a public utility, but is subject to light-handed regulation on a complaint basis and is required to file its rates and terms and conditions of service with the NWTPUB as and when revised from time-to-time.

Enbridge Inc. and AltaGas Utilities provide engineering and administrative support respectively for Inuvik Gas Ltd.

Natural Gas Distribution - Heritage Gas Limited

AltaGas is embarking on an opportunity to take advantage of its knowledge and experience in the natural gas distribution business and to diversify the Company's geographic operating area. On August 16, 2002 Heritage Gas, a Nova Scotia company owned by AltaGas (24.9 percent), SaskEnergy International Inc., a subsidiary of SaskEnergy Inc. (50.1 percent), and Scotia Investments Limited, a private investment holding company (25.0 percent) filed an application for the right to distribute natural gas to certain counties in Nova Scotia. A decision was rendered by the Nova Scotia Utility and Review Board ("NSURB") on February 7, 2003 which granted Heritage Gas a full regulation class franchise for a period of 25 years.

In its decision the NSUARB granted Heritage Gas a regulated rate of return of 13 percent on a 45 percent equity component and an 8.75 percent cost of debt on a 55 percent debt component of its capital structure. Heritage Gas accepted the distribution franchise on June 3, 2003 and since has acquired and constructed gas distribution facilities and undertaken those activities necessary to establish an operational natural gas distribution utility. On December 19, 2003 the NSUARB issued to Heritage Gas an interim approval of a schedule of rates, tolls and charges and a license to operate. A full general tariff application for test years 2004 to 2008 will be filed in 2004. Heritage Gas activated its natural gas distribution system on December 20, 2003.

Subject to NSUARB approval, during the first five years of operation, the weather normalized under or over recovery of the annual revenue requirement will be accumulated and either recovered from or refunded to customers through adjustments to future rates. There was no material impact on AltaGas' 2003 earnings from Heritage Gas.

RISK FACTORS

A number of factors, including but not limited to those discussed in this section, could cause AltaGas' results to differ materially from AltaGas' current expectations.

Operating Risk

As AltaGas continues to grow and diversify its midstream energy business the risk profile of the Company may change. AltaGas may enter into or expand business components where there is greater economic exposure and more "at risk" capital. The Company's expectation of higher returns from these businesses justifies the level of risk. In addition, AltaGas enters into these businesses on the basis that these risks can be actively managed.

AltaGas' current operations are subject to the risks normally associated with the operation and development of natural gas and power facilities, including mechanical failure, physical degradation, operator error, manufacturer defects, sabotage, terrorism, failure of supply, catastrophic events and natural disasters. The occurrence or continuation of these events could increase AltaGas' costs and reduce its ability to process or transport natural gas or deliver power.

The Company believes that operational risk is best managed by maintaining control over the timing of capital expenditures, operational decisions and costs by becoming the operator of the facilities in which it invests. At the end of 2003, AltaGas operated 65 of its 67 field gathering and processing facilities, all of its transmission facilities and all of AltaGas Utilities distribution assets. AltaGas does not operate its extraction plant interests or the assets underlying its power purchase based arrangements. Failure by the operators of these facilities to operate at the cost or in the manner projected by AltaGas could negatively affect AltaGas' results.

Facility Throughput

The majority of AltaGas' gathering and processing facilities process or transport natural gas from the Western Canadian Sedimentary Basin. Continuing use of these systems is dependent on a number of factors including the level of exploration and development within the basin, the longer term price of natural gas, the ability of natural gas producers to deliver natural gas to the various pipeline systems and the regulatory environment for producers, transporters and consumers of natural gas.

Throughput at AltaGas' gathering and processing facilities is influenced by production of natural gas in the areas serviced by AltaGas. At all its field gathering and processing facilities, AltaGas actively pursues opportunities to maintain or increase throughput and has been successful in offsetting production declines. AltaGas' contract provisions mitigate the impact of volume declines, generate additional volumes for gathering and processing at its facilities, encourage expansion into areas where AltaGas' facilities are located and allow AltaGas to recover its invested capital in a relatively short period of time. (See "Field gathering and Processing - Contracts"). The majority of AltaGas' field processing facilities are skid-mounted and can be moved to areas with favourable production potential should a particular area's production decline significantly.

Market Risk

AltaGas is exposed to market risks resulting from movements in commodity prices and interest rates. The Company manages its exposure to these risks through the use of various physical and financial instruments.

The Company's Commodity Risk Management Policy details the parameters used to measure, monitor and report commodity price risks. It also includes risk management guidelines and objectives, risk tolerance and approved products. This policy prohibits the use of physical and financial instruments for speculative purposes.

Electricity Prices

AltaGas' revenue from sales related to PPAs are subject to Alberta electricity market factors such as fluctuating supply and demand, which may be affected by weather, customer usage, economic activity and growth. AltaGas reduces its exposure to floating electricity prices by supplying internal electrical demand requirements and locking in margins with financial instruments.

Natural Gas Liquids Fractionation Price

AltaGas' extraction business depends in part on the level of demand for and pricing of NGLs. AltaGas cannot predict the impact of future economic conditions, fuel conservation measures, alternative fuel requirements, governmental regulation or technological advances in fuel economy and energy generation devices, all of which could reduce the demand for natural gas and NGLs. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGLs prices and crude oil prices. As crude oil prices fall, NGLs prices will generally decrease subject to other factors that influence the supply and demand. All of AltaGas' net share of the ethane production and approximately 50 percent of AltaGas' share of NGLs bear no commodity price risk. The remaining NGLs are subject to the spread between the price received for the NGLs extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs.

Interest Rate Risk

AltaGas is exposed to interest rate fluctuations on variable rate debt. The Company monitors its level of fixed to floating and variable rate debt instruments and from time to time interest rate swaps are used to help maintain balances of each commensurate with the Company's target to have 70 to 75 percent of its debt at fixed interest rates. At December 31, 2003 the Company had fixed interest rates on $180.0 million or 61 percent of its floating rate debt through interest rate swaps. At year end approximately $280.0 million or 71 percent of the Company's total debt, including its Medium Term Notes and swaps, was at fixed interest rates.

Weather

The AEUB sets rates based upon a deemed capital structure, an allowed rate of return on common equity, an approved rate base and costs expected to be incurred by the utility assuming normal weather conditions. As customers are billed on an actual volume basis, the utility's ability to recover the allowed rate of return depends upon achieving the forecast distribution volumes under "normal weather" conditions. Degree days are used to measure coldness in a franchise area. Degree day deficiency is a measure of coldness. It is calculated by accumulating for each day in the fiscal period the total number of degrees by which the daily mean temperature falls below 18 degrees celcius.

Regulatory

AltaGas' businesses are subject to regulation in the jurisdictions in which they carry on business. Pipeline and facilities can be subject to common carrier and common processor applications and to rate setting by the regulatory authorities in the event an agreement on fees or tariffs cannot be reached with producers. To the extent that producers believe processing fees or tariffs respecting pipelines and facilities are too high, they may seek relief through regulator intervention. In the natural gas distribution business under return on rate base regulation, rates are set which allow the regulated entity the opportunity to cover its costs and earn a reasonable return. However there is no guarantee that the entity will earn its fair return because rates are set to cover future estimated costs based on future estimated demand and "normal weather" conditions and the entity's actual revenues may be more or less than the actual costs. In addition, warmer than normal weather may result in lower than expected demand.

Credit Risk

AltaGas is exposed to credit-related losses in the event that counterparties to contracts fail to fulfill their present or future financial obligations to AltaGas. The Company minimizes counterparty risk by conducting credit reviews on clients prior to providing services, by participating in contract negotiations to include credit mitigation clauses and by obtaining financial or performance assurances from clients. AltaGas provides an allowance for doubtful accounts in the normal course of its business.

ENVIRONMENTAL REGULATION

The natural gas gathering and processing industry and the power generation industry are subject to environmental regulation pursuant to local, provincial, territorial and federal legislation. Environmental legislation provides for restrictions and prohibitions on releases or emissions of various substances produced in association with certain oil and natural gas industry operations. Due to the highly toxic and corrosive nature of sour gas, numerous extra regulatory precautions are applied to sour gas wells, processing facilities and pipelines. Environmental legislation can affect the operation of facilities and limit the extent to which facility expansion is permitted. In addition, provincial, territorial and federal legislation requires that facility sites and pipelines be abandoned and reclaimed to the satisfaction of provincial authorities and local landowners. A breach of such legislation may result in the imposition of fines, the issuance of clean-up orders or the shutting down of facilities and pipelines.

AltaGas takes its responsibility to protect the environment in which it operates very seriously. Its mandate is to fully comply with all environmental laws and regulations and to immediately and efficiently deal with any environmental incidences. AltaGas believes that the cost of complying with current environmental laws and regulations has not had and will not have a material effect on the Company's financial position.

With respect to the Kyoto Protocol on Climate Change (Kyoto), although federal and provincial implementing legislation and related regulations are not currently available, AltaGas is embarking on a program to quantify its current level of greenhouse gas emissions. In that way, the Company will be in a position to proactively develop a strategy to reduce greenhouse gas emissions consistent with federal and provincial legislation and regulations. At this point in time, AltaGas cannot determine definitively whether the impacts of Kyoto will have a material affect on its financial position.

HUMAN RESOURCES

At December 31, 2003 AltaGas and its subsidiaries employed a total of 517 individuals. Approximately 269 individuals were directly employed in the Gathering and Processing segment, 19 were directly employed in the Energy Services segment and 159 were directly employed in Natural Gas Distribution segment with corporate support of 70 employees.

None of AltaGas' employees, other than certain employees of AltaGas Utilities, is currently a member of a collective bargaining unit. Approximately 85 employees of AltaGas Utilities are members of a bargaining unit, the *Communications, Energy and Paperworkers Union of Canada*, Local 1947. A collective agreement was in place until December 31, 2003 and is under renegotiation. AltaGas Utilities' management expects that a mutually beneficial extension of the collective agreement will be reached with the bargaining unit in the first quarter of 2004. Over the 22-year history of its relationship with the bargaining unit, AltaGas Utilities has not experienced any labour disruption due to the collective bargaining process. AltaGas Utilities and members of the bargaining unit participate in a Labour Management Committee that meets quarterly to review and take action on important issues in a timely manner.

ENBRIDGE INC.

Pursuant to certain agreements dated May 12, 1999 AltaGas and Enbridge Inc. ("Enbridge") agreed to establish a strategic alliance to provide midstream natural gas services to natural gas producers in the Western Canadian Sedimentary Basin. The shareholder agreement dated May 12, 1999 between the Corporation and Enbridge (the "Shareholder Agreement") sets forth certain corporate governance matters relating to the composition of the Corporation's board of directors (the "Board" or the "Board of Directors"), Enbridge's entitlement to maintain its ownership interest in AltaGas shares (being common shares, participating shares and common shares issuable upon exercise of warrants or options (including stock options granted under the Corporation's Stock Option Plan) or issuable pursuant to the exercise of conversion rights under any securities convertible into, exchangeable for or exercisable for AltaGas shares); restrictions on resale of AltaGas shares by Enbridge and restrictions on voting of AltaGas shares by Enbridge.

The Shareholder Agreement provides that until May 12, 2004 and while Enbridge continues to beneficially own at least 9.9 percent of the AltaGas shares, Enbridge will be entitled to maintain its ownership interest by participating in any future issuances of AltaGas shares whether such issuances are made on a private placement or public basis, upon exercise of options or as consideration for the purchase of assets. However, until May 12, 2004, Enbridge is not entitled to increase its direct or indirect beneficial ownership of AltaGas shares to greater than 40 percent of the issued and outstanding AltaGas shares, except that this restriction does not apply to the purchase of AltaGas shares by Enbridge from certain insiders of AltaGas or where any person commences certain business combination transactions involving AltaGas.

At December 31, 2003 Enbridge held 9,197,500 common shares or 25.05 percent of the issued and outstanding AltaGas common shares. Enbridge also holds 9,000,000 participating shares or 100 percent of the issued and outstanding participating shares. The non-voting participating shares are convertible at the holder's option into common shares, one for one (subject to adjustment), any time prior to September 30, 2004. AltaGas may at any time after September 30, 2004, and shall by September 30, 2009, either: (i) redeem the participating shares for a specified sum in cash; or (ii) convert all of the participating shares in exchange for a specified number of common shares based on the weighted average trading price per common share for the 20 trading days immediately preceding the date of the determination thereof.

Enbridge has the right pursuant to the terms of a Registration Rights Agreement dated May 12, 1999 to request that AltaGas file and obtain a receipt for a prospectus to allow Enbridge, at its expense, to complete a secondary offering of common shares, or securities convertible or exchangeable into common shares (except for participating shares), beneficially owned by Enbridge.

DIVIDENDS

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. No dividends were paid on any shares of AltaGas from the date of its incorporation to the end of December 2000.

Dividend levels will be reviewed periodically by the Board of Directors giving consideration to AltaGas' growth-related initiatives, financial position, financing requirements, cash flow and other relevant factors. The following table summarizes the dividends paid by AltaGas in 2003, 2002 and 2001.

	2003	2002	2001
First quarter	$0.08	$0.06	$0.03
Second quarter	$0.08	$0.06	$0.03
Third quarter	$0.11	$0.08	$0.06
Forth quarter	$0.11	$0.08	$0.06
Total	$0.38	$0.28	$0.18

MARKET FOR SECURITIES

The Corporation's common shares are listed on the Toronto Stock Exchange under the symbol "ALA". The following chart provides the reported high and low trading prices and volume of trading of AltaGas' common shares by month during 2003.

Month	High	Low	Volume
January	$10.25	$9.21	592,000
February	$10.92	$9.95	632,800
March	$10.69	$9.50	428,800
April	$10.17	$9.37	573,600
May	$10.75	$9.80	908,800
June	$11.39	$10.20	1,187,200
July	$11.50	$10.50	1,361,300
August	$13.50	$11.26	1,005,800
September	$13.21	$12.15	1,031,000
October	$14.32	$12.40	1,726,700
November	$14.99	$13.95	1,247,600
December	$16.25	$14.02	1,389,000

CREDIT RATINGS

Credit ratings are intended to provide investors with an independent measure of credit quality of an issue of securities. Standard & Poor's ("S&P") and Dominion Bond Rating Service Limited ("DBRS") are rating agencies that provide credit ratings ("Rating Agencies"). The Rating Agencies' ratings for debt instruments range from a high of AAA to a low of D.

DBRS rates AltaGas' medium term notes ("Notes") at BBB (low) with a stable trend. S&P rates AltaGas' senior unsecured debt at BBB- and the long term Company credit at BBB- with a negative outlook.

According to the DBRS rating system, debt securities rated BBB are of adequate credit quality. Protection of interest and principal is considered adequate, but the entity is more susceptible to adverse changes in financial and economic conditions, or there may be other adversities present which reduce the strength of the entity and its rated securities. "High" or "low" grades are used to indicate the relative standing within a particular rating category.

According to the S&P rating system, an obligor rated BBB has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

AltaGas' DBRS rating reflects the increase in the Company's risk profile as a result of the expansion into the non-regulated electricity market. The rating remains supported by the Company's track record of managing rapid growth while maintaining key debt and coverage ratios at acceptable levels, and the favourable outlook for the gathering and processing business. On March 11, 2004 DBRS placed AltaGas' medium term notes under review with developing implications in response to AltaGas' proposal to be reorganized into an Income Trust. The developing nature of the review reflects DBRS' preliminary expectation that the conversion to a Trust is unlikely to cause any change in the current medium term note rating. DBRS will provide a rating update following a review of the final structure of the Trust.

S&P states AltaGas' BBB- rating benefits from the stability of AltaGas' gathering and processing, and natural gas distribution businesses. The negative outlook reflects S&P's concern regarding AltaGas' acquisition-related growth strategy, and the Company's ability to maintain its financial profile as it continues to grow. On March 12, 2004, S&P affirmed AltaGas BBB- corporate credit and senior unsecured debt ratings following the Company's announcement of a proposed corporate reorganization into an income trust, AltaGas Income Trust (AIT). The outlook is negative. S&P stated, "AltaGas' average business profile reflects the stability and predictability of the Company's fee-for-service and cost-of-service businesses. The company's business strategy focuses on owning and operating integrated components of the energy midstream industry, which S&P expects will remain unchanged. AIT's below-average financial profile reflects

the limited financial flexibility inherent in the Trust's pro forma capital structure, which could be exacerbated by future acquisitions. S&P expects AIT will distribute substantially all of its cash flow (after financing costs and maintenance capital expenditures); therefore future growth and acquisitions would require external financing. The negative outlook reflects the operating risks and commodity price exposure associated with AltaGas' energy services segment. The negative outlook also reflects S&P concerns regarding the execution risks associated with future acquisitions".

The credit ratings accorded to the securities by the Rating Agencies are not recommendations to purchase, hold or sell the securities inasmuch as such ratings do not comment as to market price or suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a Rating Agency in the future if, in its judgment, circumstances so warrant.

CONSOLIDATED CAPITALIZATION

The following table sets forth AltaGas' bank indebtedness and consolidated capitalization at December 31, 2003.

(in thousands)		
Short term debt:		
Operating loans[1][3]	$	4,493
Long term debt:		
Operating loan[2]	$	292,358
Medium Term Notes[4]	$	100,000
Total long term debt	$	392,358
Shareholders' equity[5][6]		
Common Shares	$	179,076
Participating Shares	$	88,964
Retained Earnings	$	95,287
Total shareholders' equity	$	363,327
Total capitalization	$	760,178

Notes:

1. At December 31, 2003 AltaGas had a $50.0 million demand operating credit facility with a Canadian chartered bank. At December 31, 2003 AltaGas had drawn debt of $4.4 million on the demand operating credit facility which bears interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee.

2. At December 31, 2003 AltaGas had a $300.0 million extendible revolving term credit facility with a syndicate of Canadian chartered banks. Effective October 12, 2003 the facility was extended for an additional 364 days. At December 31, 2003 $289.0 million was drawn on the revolving term credit facility which bears interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee.

3. At December 31, 2003 AltaGas had a $75.0 million 364 day extendible revolving letter of credit facility with a Canadian chartered bank. The facility bears fees and interest at market rates. AltaGas may borrow up to $25.0 million by way of prime borrowings or banker's acceptances on the letter of credit facility. At December 31, 2003 $0.1 million in bank debt was drawn on facility. The extendible revolving term credit facility matures on June 28, 2004 but can be extended on AltaGas' request and acceptance by the bank.

4. On October 4, 2000 AltaGas issued $100.0 million of 7.28 percent medium term notes pursuant to its $250.0 million medium term note program. Interest is payable semi-annually and the principal is due on October 4, 2005.

5. AltaGas' authorized share capital consists of an unlimited number of common shares and an unlimited number of preferred shares, issuable in series. As at December 31, 2003 there were 36,716,844 common shares and 9,000,000 participating shares issued the only series of preferred shares issued. On September 30, 1999 AltaGas issued 9,000,000 participating shares by way of a private placement. The participating shares are convertible at the holder's option and are redeemable or convertible at AltaGas' option.

6. As at December 31, 2003 there were options outstanding to purchase an aggregate of 1,506,362 common shares.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

As of January 1, 2002 AltaGas began reporting consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

- Gathering and Processing includes natural gas field gathering and processing, transmission pipelines, ethane and NGLs extraction; and third party facility operations.
- Energy Services includes power services, natural gas services and oil and natural gas production.
- Natural Gas Distribution consists of the distribution of natural gas and is conducted through AltaGas Utilities, AltaGas' one-third interest in Inuvik Gas and the Company's 24.9 percent interest in Heritage Gas.

The following table summarizes selected financial information for the Corporation for the last five financial years.

	Year ended and as at December 31				
($ millions, except per share amounts)	**2003**	**2002**	**2001**	**2000**	**1999**
Revenue					
Gathering and Processing	$ 156.7	$ 106.1	$ -	$ -	$ -
Energy Services	521.6	355.9	-	-	-
Gathering, Processing and Services	-	-	448.1	469.7	195.9
Natural Gas Distribution	129.4	94.3	120.6	98.0	66.0
Intersegment elimination	(98.8)	(63.6)	(78.9)	(61.0)	(4.1)
	$ 708.9	$ 492.7	$ 489.8	$ 506.7	$ 257.8
Net revenue					
Gathering and Processing	$ 140.2	$ 99.6	$ -	$ -	$ -
Energy Services	49.6	44.2	-	-	-
Gathering, Processing and Services	-	-	108.1	88.2	58.7
Natural Gas Distribution	30.5	28.9	26.9	28.1	27.2
Intersegment elimination	(0.4)	(2.8)	-	-	-
	$ 219.9	$ 169.9	$ 135.0	$ 116.3	$ 85.9

As at December 31, 2003 the directors and executive officers of the Corporation as a group owned beneficially, directly or indirectly, or exercised control or direction over 2,918,429 of the common shares of the Corporation, or approximately 7.95 percent of the outstanding common shares. As at December 31, 2003 certain of the directors and officers also had been granted stock options to acquire an aggregate of 1,071,863 common shares.

CONFLICTS OF INTEREST

There are potential conflicts of interest to which the directors and officers of the Corporation and its subsidiaries may be subject in connection with the operations of the Corporation or its subsidiaries. Some of the directors and officers of the Corporation are currently engaged and will continue to be engaged in the midstream industry, and situations may arise where directors and officers will be in direct conflict with the Corporation or its subsidiaries. Conflicts, if any, will be subject to and dealt within in accordance with the procedures and remedies under the CBCA or the relevant corporate statute.

INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

The management of the Corporation is not aware of any material interest, direct or indirect, of any director or officer of the Corporation, any director or officer of a corporation that is an insider or subsidiary of the Corporation, or any other insider of the Corporation, or any associate or affiliate of any such person, in any transaction since the commencement of the Corporation's last completed financial year, or in any proposed transaction, that has materially affected or would materially affect the Corporation or any of its subsidiaries. See also the discussion of the Shareholder Agreement and the Registration Rights Agreement with Enbridge Inc. under the heading *Enbridge Inc.*

MANAGEMENT'S DISCUSSION AND ANALYSIS

The information, which is found under the heading "management's discussion and analysis" contained on pages 21 to 38 of the Corporation's 2003 annual report, is incorporated herein by reference.

ADDITIONAL INFORMATION

Additional information, including directors and officers remuneration and indebtedness, principal holders of the Corporation's securities, options to purchase the Corporation's securities, and interests of insiders in material transactions, where applicable, is contained in the Corporation's Information Circular dated March 14, 2003 in connection with the Annual and Special Meeting of shareholders held April 22, 2003 (the "2003 Information Circular") and the Corporation's 2004 Information Circular which is expected to be filed on or about April 1, 2004 in connection with the Special Meeting of shareholders to be held April 29, 2004 (the "2004 Information Circular").

Additional financial information is contained in AltaGas' consolidated financial statements for the year ended December 31, 2003 (the "Annual Financial Statements') and management's discussion and analysis contained in the 2003 Annual Report of the Corporation.

The Corporation will provide to any person, upon request to the Secretary of the Corporation at 1700, 355 - 4th Ave. SW, Calgary, Alberta, T2P 0J1:

(a) this Annual Information Form together with any document or the pertinent pages of any document incorporated by reference herein;

(b) the Annual Financial Statements together with the auditors' report thereon and any interim financial statements of the Corporation subsequent to the date of the Annual Financial Statements that have been filed with the relevant regulatory authorities; and

(c) the 2003 and the 2004 Information Circulars,

provided that the Corporation may charge a reasonable fee for providing the documents listed in paragraphs (a), (b) and (c) to any person who is not a security holder of the Corporation who requests such documents at a time when the Corporation is not in the course of a distribution of its securities pursuant to a short-form prospectus. When the Corporation is in the course of a distribution pursuant to a short-form prospectus, it will also provide a copy of any other documents that are incorporated by reference into the short-form prospectus.

The Company routinely files all required documents through the SEDAR system and on its own website. Internet users may retrieve such material through the SEDAR website www.sedar.com, or from the Company's website at www.altagas.ca.

MATERIAL CHANGE REPORT

**Under Section 146(1) of the *Securities Act* (Alberta)
And Equivalent Provisions of Securities Legislation in
Other Provinces of Canada**

15

1. Reporting Issuer

The name and address of the reporting issuer is:

AltaGas Services Inc.
1700, 355 – 4th Street S.W.
Calgary, Alberta T2P 0J1

2. Date of Material Change

The material change occurred on March 10, 2004.

3. Press Release

A press release reporting the material change was issued on March 10, 2004 at Calgary, Alberta.

4. Summary of Material Change

AltaGas Services Inc. ("AltaGas") announced that its Board of Directors has approved a proposal to reorganize the business of AltaGas into an income trust to be called the AltaGas Income Trust (the "Trust").

5. Full Description of Material Change

AltaGas Services Inc. ("AltaGas") announced that its Board of Directors has approved a proposal to reorganize the business of AltaGas into an income trust to be called the AltaGas Income Trust (the "Trust").

The reorganization will be accomplished by way of a plan of arrangement under the Canada Business Corporations Act (the "Plan of Arrangement"). The Plan of Arrangement will be subject to the approval of the holders of AltaGas' Common Shares, Participating Shares and Options, voting at a special meeting to be held on April 29, 2004. In addition to securityholder approval, the Plan of Arrangement will be subject to receipt of regulatory and court approvals.

The proposed reorganization is the foundation of a plan to enhance securityholder value and for continued prudent growth. Cash flow generated by the business of AltaGas will be distributed to AltaGas securityholders as the holders of the units

("Units") of the Trust. The Trust will retain sufficient cash flow to fund maintenance capital and capital committed in the Natural Gas Distribution segment.

The current business and operations of AltaGas will be unaffected by the proposed reorganization. The executive team of AltaGas is expected to be continued to be led by David Cornhill, Chairman and Chief Executive Officer, Gary Holden, President and Chief Operating Officer, and Patricia Newson, Senior Vice President Finance and Chief Financial Officer.

Pursuant to the Plan of Arrangement AltaGas securityholders will effectively receive one Unit of the Trust that will own AltaGas for each AltaGas Common Share held. For taxable AltaGas securityholders resident in Canada, the exchange of AltaGas Common Shares for Units will generally result in a disposition giving rise to a gain or loss for tax purposes (other than securityholders who hold their securities inside a tax deferred plan such as a registered retirement savings plan). Certain management and directors may divest part of their current holdings for personal tax and structural reasons.

Taxable Canadian securityholders will be able to elect to exchange part of their Common Shares for their pro rata entitlement to certain limited partnership units that will be exchangeable into Units to facilitate the tax free rollovers of those Common Shares. There will be a maximum number of exchangeable partnership units issued under the Plan of Arrangement. At present AltaGas estimates that approximately half of the securities will be exchangeable into partnership units. If requests for exchangeable partnership units exceed the maximum available, the exchangeable partnership units will be prorated among those electing and those securityholders will receive Units in place of any pro-rated exchangeable partnership units. Non-resident and tax exempt securityholders will be eligible only for Units.

AltaGas expects that the Units will be eligible for inclusion in RRSPs, RRIFs and other registered plans.

An information circular which will describe the proposed reorganization and detail the Plan of Arrangement is anticipated to be mailed to securityholders in late March. The information circular will also be available on the Internet on the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) website at www.sedar.com and on AltaGas' website at www.altagas.ca.

ALTAGAS SERVICES INC.

INSTRUMENT OF PROXY
(COMMON SHAREHOLDERS)

FOR THE SPECIAL MEETING OF COMMON SHAREHOLDERS, PARTICIPATING SHAREHOLDERS AND OPTIONHOLDERS

TO BE HELD ON APRIL 29, 2004

The undersigned holder of Common Shares of AltaGas Services Inc. ("**AltaGas**") hereby appoints David W. Cornhill, Chairman, President and Chief Executive Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or, failing him, Patricia M. Newson, Senior Vice-President, Finance and Chief Financial Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or instead of either of the foregoing, _____ _____, as proxyholder of the undersigned, with full power of substitution, to attend, act and vote for and on behalf of the undersigned at the special meeting (the "**Meeting**") of Common Shareholders, Participating Shareholders and Optionholders ("**Securityholders**") to be held on Thursday, April 29, 2004 at 3:00 p.m. (Calgary time) at the Metropolitan Centre, 333 - 4th Avenue S.W., Calgary, Alberta and at any adjournment thereof, and on every ballot that may take place in consequence thereof to the same extent and with the same powers as if the undersigned were personally present at the Meeting with authority to vote at the said proxyholder's discretion, except as otherwise specified below.

Without limiting the general powers hereby conferred, the undersigned directs the said proxyholder to vote the Common Shares represented by this Instrument of Proxy in the following manner (check (√) the appropriate box):

1. **FOR** ☐ or **AGAINST** ☐ (and, if no specification is made, FOR) passing a special resolution, the full text of which is set forth as Appendix A to the Information Circular and Proxy Statement of AltaGas dated March 26, 2004 (the "**Information Circular**"), approving an arrangement under Section 192 of the *Canada Business Corporations Act*, all as more particularly set forth and described in the Information Circular;

2. **FOR** ☐ or **AGAINST** ☐ (and, if no specification is made, FOR) passing an ordinary resolution, the full text of which is set forth in the Information Circular, approving a trust unit option plan, all as more particularly set forth and described in the Information Circular; and

3. At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine.

This Instrument of Proxy is solicited on behalf of the management of AltaGas. The Common Shares represented by this Instrument of Proxy will be voted and, where the Securityholder has specified a choice with respect to the above matters, will be voted as directed above or, if no direction is given, will be voted in favour of the above matters.

Each Securityholder has the right to appoint a proxyholder other than the persons designated above, who need not be a Securityholder, to attend and to act for and on behalf of such Securityholder at the Meeting. To exercise such right, the names of the nominees of management should be crossed out and the name of the Securityholder's appointee should be legibly printed in the blank space provided.

THE UNDERSIGNED HEREBY REVOKES ANY PROXIES HERETOFORE GIVEN.

DATED this _____ day of _____, 2004

_____

(signature of Securityholder)

_____

(name of Securityholder - please print)

NOTES:

1. **If the Securityholder is a corporation, its corporate seal must be affixed or it must be signed by an officer or attorney thereof duly authorized.**

2. This instrument of proxy must be dated and the signature hereon should be exactly the same as the name in which the Common Shares are registered. If the Instrument of Proxy is not dated in the above space, it is deemed to bear the date on which it is mailed by the person making the solicitation.

3. Persons signing as executors, administrators, trustees, etc., should so indicate and give their full title as such.

4. This Instrument of Proxy will not be valid and not be acted upon or voted unless it is completed as outlined herein and delivered to the attention of Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1 Attention: Proxy Department, at least 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting or any adjournment thereof. A proxy is valid only at the Meeting in respect of which it is given or any adjournment of that Meeting.

ALTAGAS SERVICES INC.

INSTRUMENT OF PROXY
(PARTICIPATING SHAREHOLDER)

FOR THE SPECIAL MEETING OF COMMON SHAREHOLDERS, PARTICIPATING SHAREHOLDERS AND OPTIONHOLDERS

TO BE HELD ON APRIL 29, 2004

The undersigned holder of Participating Shares of AltaGas Services Inc. ("**AltaGas**") hereby appoints David W. Cornhill, Chairman, President and Chief Executive Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or, failing him, Patricia M. Newson, Senior Vice-President, Finance and Chief Financial Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or instead of either of the foregoing, _____, as proxyholder of the undersigned, with full power of substitution, to attend, act and vote for and on behalf of the undersigned at the special meeting (the "**Meeting**") of Common Shareholders, Participating Shareholders and Optionholders ("**Securityholders**") to be held on Thursday, April 29, 2004 at 3:00 p.m. (Calgary time) at the Metropolitan Centre, 333 - 4th Avenue S.W., Calgary, Alberta and at any adjournment thereof, and on every ballot that may take place in consequence thereof to the same extent and with the same powers as if the undersigned were personally present at the Meeting with authority to vote at the said proxyholder's discretion, except as otherwise specified below.

Without limiting the general powers hereby conferred, the undersigned directs the said proxyholder to vote the Participating Shares represented by this Instrument of Proxy in the following manner (check (√) the appropriate box):

1. FOR ☐ or AGAINST ☐ (and, if no specification is made, FOR) passing a special resolution, the full text of which is set forth as Appendix A to the Information Circular and Proxy Statement of AltaGas dated March 26, 2004 (the "**Information Circular**"), approving an arrangement under Section 192 of the *Canada Business Corporations Act*, all as more particularly set forth and described in the Information Circular;

2. FOR ☐ or AGAINST ☐ (and, if no specification is made, FOR) passing an ordinary resolution, the full text of which is set forth in the Information Circular, approving a trust unit option plan, all as more particularly set forth and described in the Information Circular; and

3. At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine.

This Instrument of Proxy is solicited on behalf of the management of AltaGas. The Participating Shares represented by this Instrument of Proxy will be voted and, where the Securityholder has specified a choice with respect to the above matters, will be voted as directed above or, if no direction is given, will be voted in favour of the above matters.

Each Securityholder has the right to appoint a proxyholder other than the persons designated above, who need not be a Securityholder, to attend and to act for and on behalf of such Securityholder at the Meeting. To exercise such right, the names of the nominees of management should be crossed out and the name of the Securityholder's appointee should be legibly printed in the blank space provided.

THE UNDERSIGNED HEREBY REVOKES ANY PROXIES HERETOFORE GIVEN.

INSTRUMENT OF PROXY
(OPTIONHOLDERS)

20

FOR THE SPECIAL MEETING OF COMMON SHAREHOLDERS, PARTICIPATING SHAREHOLDERS AND OPTIONHOLDERS

TO BE HELD ON APRIL 29, 2004

The undersigned holder of Options of AltaGas Services Inc. ("**AltaGas**") hereby appoints David W. Cornhill, Chairman, President and Chief Executive Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or, failing him, Patricia M. Newson, Senior Vice-President, Finance and Chief Financial Officer of AltaGas, of the City of Calgary, in the Province of Alberta, or instead of either of the foregoing, _____ _____, as proxyholder of the undersigned, with full power of substitution, to attend, act and vote for and on behalf of the undersigned at the special meeting (the "**Meeting**") of Common Shareholders, Participating Shareholders and Optionholders ("**Securityholders**") to be held on Thursday, April 29, 2004 at 3:00 p.m. (Calgary time) at the Metropolitan Centre, 333 - 4th Avenue S.W., Calgary, Alberta and at any adjournment thereof, and on every ballot that may take place in consequence thereof to the same extent and with the same powers as if the undersigned were personally present at the Meeting with authority to vote at the said proxyholder's discretion, except as otherwise specified below.

Without limiting the general powers hereby conferred, the undersigned directs the said proxyholder to vote the Options represented by this Instrument of Proxy in the following manner (check (v) the appropriate box):

1. **FOR** ☐ or **AGAINST** ☐ (and, if no specification is made, FOR) passing a special resolution, the full text of which is set forth as Appendix A to the Information Circular and Proxy Statement of AltaGas dated March 26, 2004 (the "**Information Circular**"), approving an arrangement under Section 192 of the *Canada Business Corporations Act*, all as more particularly set forth and described in the Information Circular;

2. **FOR** ☐ or **AGAINST** ☐ (and, if no specification is made, FOR) passing an ordinary resolution, the full text of which is set forth in the Information Circular, approving a trust unit option plan, all as more particularly set forth and described in the Information Circular; and

3. At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine.

This Instrument of Proxy is solicited on behalf of the management of AltaGas. The Options represented by this Instrument of Proxy will be voted and, where the Securityholder has specified a choice with respect to the above matters, will be voted as directed above or, if no direction is given, will be voted in favour of the above matters.

Each Securityholder has the right to appoint a proxyholder other than the persons designated above, who need not be a Securityholder, to attend and to act for and on behalf of such Securityholder at the Meeting. To exercise such right, the names of the nominees of management should be crossed out and the name of the Securityholder's appointee should be legibly printed in the blank space provided.

THE UNDERSIGNED HEREBY REVOKES ANY PROXIES HERETOFORE GIVEN.

DATED this _____ day of _____, 2004

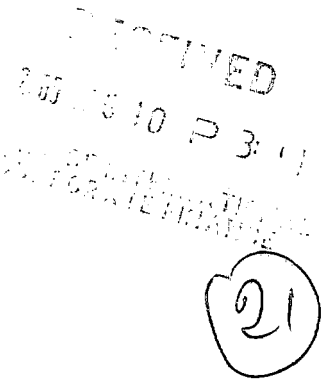
_____

(signature of Securityholder)

_____

(name of Securityholder - please print)

NOTES:



1. **If the Securityholder is a corporation, its corporate seal must be affixed or it must be signed by an officer or attorney thereof duly authorized.**

2. This instrument of proxy must be dated and the signature hereon should be exactly the same as the name in which the Options are registered. If the Instrument of Proxy is not dated in the above space, it is deemed to bear the date on which it is mailed by the person making the solicitation.

3. Persons signing as executors, administrators, trustees, etc., should so indicate and give their full title as such.

4. This Instrument of Proxy will not be valid and not be acted upon or voted unless it is completed as outlined herein and delivered to the attention of Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1 Attention: Proxy Department, at least 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting or any adjournment thereof. A proxy is valid only at the Meeting in respect of which it is given or any adjournment of that Meeting.

March 26, 2004

Dear Securityholders:

You are invited to attend a special meeting (the "**Meeting**") of the holders of common shares ("**Common Shares**"), the holders of participating shares ("**Participating Shares**") and the holders of options ("**Options**") to acquire Common Shares (collectively, the "**Securityholders**") of AltaGas Services Inc. ("**AltaGas**") to be held at the Metropolitan Centre, 333 – 4th Avenue S.W., Calgary, Alberta on Thursday, April 29, 2004 at 3:00 p.m. (Calgary time). At the Meeting, you will be asked to consider and, if thought advisable, approve a proposed plan of arrangement pursuant to the *Canada Business Corporations Act* (the "**Arrangement**") involving AltaGas, its Securityholders and certain other entities, and a related matter.

If approved, the proposed Arrangement will result in a new open-ended investment trust called AltaGas Income Trust (the "**Trust**"), that will own AltaGas' existing business and will make regular monthly distributions of cash to holders of the units of the Trust ("**Trust Units**"). The Trust will be efficiently managed by the same qualified team of professionals that presently manages AltaGas. These professionals have demonstrated their capabilities in delivering on financial and other objectives previously established at AltaGas and are committed to the future success of the Trust.

Pursuant to the Arrangement, Securityholders will be entitled to receive Trust Units for their Common Shares, on a one-for-one basis. Taxable Securityholders resident in Canada will alternatively be entitled to elect to receive a combination of Trust Units and certain limited partnership units ("**Exchangeable Securities**") that will be exchangeable into Trust Units on a one-for-one basis, for their Common Shares. There will, however, be a maximum number of Exchangeable Securities issued under the Arrangement and, if requests for Exchangeable Securities exceed the maximum, the Exchangeable Securities will be prorated among those electing.

The Exchangeable Securities are intended to be, to the greatest extent practicable, the economic and voting equivalent of Trust Units, being entitled to the same monthly cash distributions as a Trust Unit and being entitled to vote on Trust matters with holders of Trust Units through a special voting unit. **The election by a Securityholder to acquire Exchangeable Securities may have income tax or other consequences to that Securityholder which are not described in the enclosed materials and AltaGas provides no representation as to the tax consequences of such election. Any Securityholder considering the use of this election is urged to consult his or her own legal and tax advisors with respect to the consequences (tax or otherwise) associated with electing this alternative.**

Non-resident and tax-exempt Securityholders will be eligible to receive only Trust Units in exchange for their Common Shares.

Option holders may participate in the Arrangement by exercising their vested Options and receiving the same consideration as holders of Common Shares. All unvested Options, together with previously vested but unexercised Options, will become options to acquire Trust Units following the Arrangement.

Securityholders should deposit with Computershare Trust Company of Canada a duly completed Letter of Transmittal and Election Form, a copy of which is enclosed with these materials, on or before 4:30 p.m. (Calgary time) on April 23, 2004. Securityholders who do not deposit those documents by that time and who do not otherwise fully comply with the requirements of the Letter of Transmittal and Election Form and the instructions therein will be deemed to have elected to receive one Trust Unit per Common Share. An alternative Letter of Transmittal and Election Form is available for those Securityholders who transfer their securities to a newly incorporated corporation and who wish to deposit the securities of that corporation rather than depositing the

securities themselves. Instructions for obtaining that Letter of Transmittal and Election Form are provided in the attached materials.

The resolutions regarding the Arrangement must be approved by two-thirds of the votes cast by Common Shareholders, Participating Shareholders and Optionholders, voting together as a single class, in person or by proxy at the Meeting. The Arrangement is also subject to the approval of the Court of Queen's Bench of Alberta and the receipt of all regulatory approvals.

As announced on February 18, 2004, the Board of Directors of AltaGas appointed a special committee of independent directors (the "**Special Committee**") to consider the Arrangement. The Special Committee received an opinion from AltaGas' financial advisor, RBC Dominion Securities Inc., that the consideration under the Arrangement is fair, from a financial point of view, to the Common Shareholders. **The Board of Directors, on the recommendation of the Special Committee and based on its own investigations, including its consideration of the fairness opinion of RBC Dominion Securities Inc., has concluded that the Arrangement is in the best interests of AltaGas and recommends that Securityholders vote in favour of the Arrangement.** Enbridge Inc., as holder of approximately 24.91% of the currently outstanding Common Shares and all of the Participating Shares, has confirmed its support for the Arrangement, including its agreement that its Participating Shares will be converted into Common Shares as part of the Arrangement. In addition, the management and directors of AltaGas, who own approximately 8.27% of the currently outstanding Common Shares, have indicated that they intend to vote in favour of the Arrangement.

The attached Information Circular and Proxy Statement and related materials contain a detailed description of the Arrangement, as well as detailed information regarding AltaGas and the Trust. Please give this material your careful consideration and, if you require assistance, consult your financial, tax or other professional advisors. If you are unable to attend the Meeting in person, please complete and deliver the applicable form of proxy which is enclosed in order to ensure your representation at the Meeting.

On behalf of the Board of Directors of AltaGas, I would like to express our gratitude for the support our Securityholders have demonstrated with respect to our decision to take the proposed Arrangement forward. We would also like to thank our employees, who have worked very hard assisting us with this task and for providing their support for the proposed Arrangement. We can assure you that the same high level of dedication demonstrated by the directors, management and employees of AltaGas in the past will continue in respect of the Trust should a favourable vote be obtained. We look forward to seeing you at the Meeting.

Yours very truly,

"David W. Cornhill"

David W. Cornhill
Chairman and Chief Executive Officer

ALTAGAS SERVICES INC.
NOTICE OF SPECIAL MEETING

to be held April 29, 2004

NOTICE IS HEREBY GIVEN that, pursuant to an order (the "**Interim Order**") of the Court of Queen's Bench of Alberta dated March 23, 2004, a special meeting (the "**Meeting**") of the holders of common shares ("**Common Shares**"), the holders of participating shares (the "**Participating Shares**") and the holders of options to purchase Common Shares ("**Options**") (collectively, the "**Securityholders**") of AltaGas Services Inc. ("**AltaGas**") will be held at the Metropolitan Centre, 333 – 4th Avenue S.W., Calgary, Alberta on Thursday, April 29, 2004, at 3:00 p.m. (Calgary time) for the following purposes:

(a) to consider pursuant to the Interim Order and, if thought advisable, to pass, with or without variation, a special resolution, the full text of which is set forth in Appendix A to the accompanying Information Circular and Proxy Statement dated March 26, 2004 (the "**Information Circular**") to approve a plan of arrangement (the "**Arrangement**") under section 192 of the *Canada Business Corporations Act* (the "**CBCA**");

(b) to consider and, if thought advisable, to pass, with or without variation, an ordinary resolution, the full text of which is set forth in the Information Circular, to approve a trust unit option plan, all as more particularly described in the Information Circular; and

(c) to transact such further and other business as may properly be brought before the Meeting or any adjournment thereof.

Specific details of the matters to be put before the Meeting are set forth in the Information Circular. A copy of the Arrangement Agreement in respect of the Arrangement is attached as Appendix C to the Information Circular.

The record date for determination of Securityholders entitled to receive notice of and to vote at the Meeting is March 25, 2004. Only Securityholders whose names have been entered in the register of the Securityholders on the close of business on that date and holders of Common Shares, Participating Shares or Options (collectively "**Securities**") issued by AltaGas after the record date and prior to the Meeting, will be entitled to receive notice of and to vote at the Meeting.

Registered Securityholders have the right to dissent with respect to the Arrangement and to be paid the fair value of their Securities in accordance with the provisions of section 190 of the CBCA and the Interim Order. A Securityholder's right to dissent is more particularly described in the Information Circular. **Failure to strictly comply with the requirements set forth in section 190 of the CBCA, as modified by the Interim Order, may result in the loss of any right of dissent.**

A Securityholder may attend the Meeting in person or may be represented by proxy. Securityholders who are unable to attend the Meeting or any adjournment thereof in person are requested to date, sign and return the accompanying form of proxy (GREEN for holders of Common Shares, BLUE for holders of Participating Shares and WHITE for holders of Options) for use at the Meeting or any adjournment thereof. To be effective, the enclosed proxy must be received by Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1 Attention: Proxy Department not less than 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting or any adjournment thereof.

DATED at Calgary, Alberta, this 26th day of March, 2004.

BY ORDER OF THE BOARD OF DIRECTORS OF ALTAGAS SERVICES INC.

"Dennis A. Dawson"

Dennis A. Dawson
Vice-President, General Counsel
and Corporate Secretary

IN THE COURT OF QUEEN'S BENCH OF ALBERTA
JUDICIAL DISTRICT OF CALGARY

IN THE MATTER OF SECTION 192 OF THE *CANADA BUSINESS CORPORATIONS ACT*, R.S.C. 1985, c C-44

AND IN THE MATTER OF A PROPOSED ARRANGEMENT INVOLVING ALTAGAS SERVICES INC., ALTAGAS INCOME TRUST, ALTAGAS HOLDING TRUST, ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 1, ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 2, ALTAGAS SUBSIDIARY CORPORATION, ALTAGAS GENERAL PARTNER INC., CERTAIN DIRECT AND INDIRECT WHOLLY-OWNED SUBSIDIARIES OF ALTAGAS SERVICES INC., CERTAIN OTHER CORPORATIONS AND THE SECURITYHOLDERS OF ALTAGAS SERVICES INC.

NOTICE OF PETITION

NOTICE IS HEREBY GIVEN that a petition (the "**Petition**") has been filed with the Court of Queen's Bench of Alberta, Judicial District of Calgary (the "**Court**") on behalf of AltaGas Services Inc. ("**AltaGas**") with respect to a proposed arrangement (the "**Arrangement**") under section 192 of the *Canada Business Corporations Act*, R.S.C.1985, c. C-44, as amended (the "**CBCA**"), pursuant to the terms of a plan of arrangement (the "**Plan of Arrangement**") affecting and involving: (i) AltaGas, AltaGas Income Trust, AltaGas Holding Trust, AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2, AltaGas Subsidiary Corporation, AltaGas General Partner Inc.; (ii) certain wholly-owned direct and indirect subsidiaries of AltaGas to be identified and referred to in the Plan of Arrangement as the "**Amalgamating Subsidiaries**"; (iii) certain corporations that in connection with and pursuant to the Plan of Arrangement will become wholly-owned subsidiaries of AltaGas Subsidiary Corporation (in the Plan of Arrangement referred to as "**Holdcos**"); and (iv) the holders of common shares ("**Common Shares**"), the holders of participating shares ("**Participating Shares**") and the holders of options to acquire Common Shares ("**Options**") of AltaGas (collectively, the "**Securityholders**"), which Arrangement is described in greater detail in the Information Circular and Proxy Statement of AltaGas dated March 26, 2004 (the "**Information Circular**") accompanying this Notice of Petition. At the hearing of the Petition, AltaGas intends to seek:

(a) a declaration that the terms and conditions of the Arrangement are fair to Securityholders;

(b) an order approving the Arrangement pursuant to the provisions of section 192(4) of the CBCA;

(c) a declaration that the Arrangement will, on the filing of the Articles of Arrangement pursuant to the provisions of section 192 of the CBCA, become effective in accordance with its terms and will be binding on and after the Effective Date (as defined in the Arrangement Agreement attached as Appendix C to the Information Circular); and

(d) such other and further orders, declarations and directions as the Court may deem just.

The Court has been advised that its order approving the Arrangement, if granted, will constitute the basis for an exemption from the registration requirements of the *Securities Act of 1933*, as amended, of the United States of America with respect to the securities to be issued pursuant to the Arrangement.

AND NOTICE IS FURTHER GIVEN that the said Petition was directed to be heard at the Court of Queen's Bench of Alberta, 611 – 4th Street S.W., Calgary, Alberta, on the 30th day of April, 2004 at 9:00 a.m. (Calgary time), or as soon thereafter as counsel may be heard. Any Securityholder or any other interested party desiring to support or oppose the Petition may appear at the time of hearing in person or by counsel for that purpose. **Any Securityholder or any other interested party desiring to appear at the hearing is required to file with the Court of Queen's Bench of Alberta, Judicial District of Calgary, and serve on AltaGas on or before 12:00**

noon (Calgary time) on April 23, 2004, a notice of intention to appear, including an address for service in Alberta together with any evidence or materials which are to be presented to the Court. Service on AltaGas is to be effected by delivery to the solicitors for AltaGas at the address below. If any Securityholder or any other interested party does not attend, either in person or by counsel, at that time, the Court may approve the Arrangement as presented, or may approve the Arrangement subject to such terms and conditions as the Court shall deem fit, without any further notice.

AND NOTICE IS FURTHER GIVEN that no further notice of the Petition will be given by AltaGas and that in the event the hearing of the Petition is adjourned only those persons who have appeared before the Court for the application at the hearing shall be served with notice of the adjourned date.

AND NOTICE IS FURTHER GIVEN that the Court, by Order dated March 23, 2004, has given directions as to the calling of a meeting of Securityholders for the purpose of those Securityholders voting on resolutions to approve the Arrangement and has directed that for registered holders of Common Shares and Participating Shares of AltaGas the right to dissent with respect to the Arrangement under the provisions of section 190 of the CBCA, as amended by that Order, shall be applicable, and analogous rights of dissent shall apply to the holders of Options of AltaGas.

AND NOTICE IS FURTHER GIVEN that a copy of the said Petition and other documents in the proceedings will be furnished to any Securityholder or other interested party requesting the same by the undermentioned solicitors for AltaGas on written request delivered to those solicitors as follows:

Stikeman Elliott LLP
4300, 888 – 3rd Street S.W.
Calgary, Alberta T2P 5C5

Attention: Luigi A. Cusano

DATED at Calgary, Alberta, this 26th day of March, 2004.

BY ORDER OF THE BOARD OF DIRECTORS OF ALTAGAS SERVICES INC.

"Dennis A. Dawson"

Dennis A. Dawson
Vice-President, General Counsel
and Corporate Secretary

INFORMATION CIRCULAR

Introduction

This Information Circular is furnished in connection with the solicitation of proxies by and on behalf of the management of AltaGas for use at the Meeting and any adjournments thereof. No person has been authorized to give any information or make any representation in connection with the Arrangement or any other matters to be considered at the Meeting other than those contained in this Information Circular and, if given or made, any such information or representation must not be relied on as having been authorized.

All summaries of, and references to, the Arrangement in this Information Circular are qualified in their entirety by reference to the complete text of the Plan, a copy of which is attached as Schedule A to the Arrangement Agreement attached as Appendix C to this Information Circular. **You are urged to carefully read this Information Circular and the full text of the Plan.**

All capitalized terms used in this Information Circular but not otherwise defined herein have the meanings set forth under "*Glossary of Terms*". Information contained in this Information Circular is given as of March 26, 2004 unless otherwise specifically stated.

Currency and Exchange Rates

All dollar references in this Information Circular are in Canadian dollars, unless otherwise indicated. On March 26, 2004, the rate of exchange for the Canadian dollar, expressed in United States dollars, based on the noon rate as provided by the Bank of Canada was Canadian $1.00 = United States $0.7576.

Forward-Looking Statements

This Information Circular, including documents incorporated by reference herein, contains forward-looking statements. All statements other than statements of historical fact contained in this Information Circular are forward-looking statements, including, without limitation, statements regarding the future financial position, business strategy, proposed acquisition, budgets, projected costs and plans and objectives of or involving AltaGas, the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, LP Subco, AmalgamationCo, the General Partner or the Amalgamating Subsidiaries. Securityholders can identify many of these statements by looking for words such as "believe", "expects", "will", "intends", "projects", "anticipates", "estimates", "continues" or similar words or the negative thereof. These forward-looking statements include statements with respect to: amounts to be retained by AmalgamationCo for growth capital expenditures; the amount and timing of the payment of Distributions by the Trust, AltaGas LP #1 or AltaGas LP #2; the timing of the Final Order and the Effective Date of the Arrangement; and the satisfaction of listing conditions. There can be no assurance that the plans, intentions or expectations on which these forward-looking statements are based will occur. Forward-looking statements are subject to risks, uncertainties and assumptions, including those discussed elsewhere in this Information Circular. Although AltaGas believes that the expectations represented in these forward-looking statements are reasonable, there can be no assurance that those expectations will prove to be correct. Some of the risks which could affect future results and could cause results to differ materially from those expressed in the forward-looking statements contained herein include: the impact of general economic conditions, industry conditions, governmental regulations, volatility of commodity prices, currency fluctuations, environmental risks, competition from other industry participants, the lack of availability of qualified personnel or management, stock market volatility, the ability to access sufficient capital from internal and external sources and the risk that actual results will vary from the results forecasted and that those variations may be material.

The information contained in this Information Circular, including documents incorporated by reference herein, identifies additional factors that could affect the operating results and performance of AltaGas, the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, LP Subco, AmalgamationCo, the General Partner or the Amalgamating Subsidiaries. We urge you to carefully consider those factors.

The forward-looking statements contained herein are expressly qualified in their entirety by this cautionary statement. The forward-looking statements included in this Information Circular are made as of the date of this Information Circular and AltaGas undertakes no obligation to publicly update such forward-looking statements to reflect new information, subsequent events or otherwise.

Supplemental Disclosure

Distributable cash, cash available for distribution and cash-on-cash yield are not recognized Canadian generally accepted accounting principles financial measures. Management believes that in addition to net income and net income per Trust Unit, Distributable Cash is a useful supplemental measure as it provides Securityholders with information on Distributions. Cash-on-cash yield is a useful and widely used supplemental measure that provides investors with information on cash actually distributed relative to trading price of the applicable security. Securityholders are cautioned that Distributable Cash and cash-on-cash yield should not be construed as an alternate to net income as determined by Canadian generally accepted accounting principles. **Securityholders are also cautioned that cash-on-cash yield on Trust Units represents a blend of return of a Securityholder's initial investment and a return on a Securityholder's initial investment and is not comparable to traditional yield on debt instruments where investors are entitled to full return of the principal amount of debt on maturity in addition to a return on investment through interest payments.**

Information for United States Securityholders

The Trust Units to be issued under the Arrangement have not been registered under the 1933 Act, and are being issued to Securityholders in the United States in reliance on the exemption from registration set forth in section 3(a)(10) thereof. The solicitation of proxies for the Meeting is not subject to the requirements of section 14(a) of the 1934 Act. The Trust Units will not be listed for trading on any United States stock exchange. Accordingly, this Information Circular has been prepared solely in accordance with disclosure requirements applicable in Canada. Securityholders in the United States should be aware that those requirements are different from those of the United States applicable to registration statements under the 1933 Act and proxy statements under the 1934 Act. Specifically, information concerning the operations of AltaGas and the Trust contained herein has been prepared in accordance with Canadian disclosure standards, which are not comparable in all respects to United States disclosure standards. The unaudited pro forma financial statements of the Trust and the audited historical consolidated financial statements of AltaGas included in this Information Circular have been prepared in accordance with Canadian generally accepted accounting principles and are subject to Canadian auditing and auditor independence standards, and thus are not comparable in all respects to financial statements prepared in accordance with United States generally accepted accounting principles.

Tax considerations generally applicable to United States Securityholders have been included in this Information Circular under the heading "*Certain United States Federal Income Tax Considerations*". Nonetheless, United States Securityholders are advised to consult their tax advisors to determine the particular tax consequences to them of the Arrangement.

The enforcement by Securityholders of civil liabilities under United States' securities laws may be affected adversely by the fact that AltaGas, the Trust and the General Partner are organized or settled, as applicable, under the federal laws of Canada and the provincial laws of Alberta, Canada, respectively, that their officers, the Trustee and a majority of their directors, as applicable, are residents of countries other than the United States, that the experts named in this Information Circular, with the exception of Mayer, Brown, Rowe & Mawe LLP, United States securities and tax counsel to AltaGas, are residents of countries other than the United States, and that all or substantially all of the assets of AltaGas, the Trust and the General Partner and those officers, directors and the Trustee are located outside the United States.

THE TRUST UNITS HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION OR THE SECURITIES REGULATORY AUTHORITY IN ANY STATE OF THE UNITED STATES, NOR HAS THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION OR ANY SUCH SECURITIES REGULATORY AUTHORITY PASSED ON THE ADEQUACY OR ACCURACY OF THIS INFORMATION CIRCULAR. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE.

GLOSSARY OF TERMS

The following is a glossary of certain terms used in this Information Circular, including the Summary hereof:

"**ACB**" means adjusted cost base within the meaning of the Tax Act;

"**Administration Agreement**" means the agreement to be entered into on the Effective Date among the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2 and AmalgamationCo pursuant to which AmalgamationCo will provide certain administrative and support services to the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2, as from time to time amended, supplemented or restated;

"**AEUB**" means the Alberta Energy and Utilities Board;

"**affiliate**" or "**associate**" when used to indicate a relationship with a person, has the same meaning as set forth in the Securities Act;

"**Aggregate Permitted Debt Amount**" means the amount designated as such as of the Effective Date by AltaGas, expected to be approximately $650 million;

"**Aggregate Permitted Exchange Amount**" means the amount designated as such as of the Effective Date by AltaGas, expected to be approximately $450 million;

"**AltaGas**" means AltaGas Services Inc., a corporation incorporated pursuant to the CBCA;

"**AltaGas Directors**" means the board of directors of AltaGas;

"**AltaGas LP #1**" means AltaGas Holding Limited Partnership No. 1, a limited partnership created pursuant to the laws of Alberta pursuant to the AltaGas LP #1 Limited Partnership Agreement;

"**AltaGas LP #1 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, Holding Trust and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**AltaGas LP #2**" means AltaGas Holding Limited Partnership No. 2, a limited partnership created pursuant to the laws of Alberta pursuant to the AltaGas LP #2 Limited Partnership Agreement;

"**AltaGas LP #2 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, AltaGas LP #1 and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**AltaGas Pipeline Partnership**" means AltaGas Pipeline Partnership, a general partnership to be formed under the laws of Alberta with Newco, AltaGas Transmission Ltd., AltaGas and AltaGas Suffield Pipeline Inc. as its initial partners;

"**AltaGas Power Holdings Partnership**" means AltaGas Power Holdings Partnership, a general partnership formed under the laws of Alberta, with Newco, AltaGas Power Partnership and AltaGas as its initial partners;

"**AltaGas Power Partnership**" means AltaGas Power Partnership, a general partnership formed under the laws of Alberta of which AltaGas presently holds a 1% partnership interest, and two of AltaGas' wholly-

owned subsidiaries, Cedar Energy Inc. and AltaGas Liquids Inc., presently hold a 50% and a 49% partnership interest, respectively;

"**AltaGas Utilities**" means AltaGas Utilities Inc., a corporation incorporated pursuant to the CBCA;

"**Amalgamating Subsidiaries**" means AltaGas Suffield Pipeline Inc., AltaGas Liquids Inc., AltaGas (Sask.) Inc., Cedar Energy Inc., AltaGas Transmission Ltd., AltaGas Marketing Inc., Alberta Compression Rental Services Inc. and AltaGas Energy Processors Inc.;

"**Amalgamation**" means the amalgamation of AltaGas, each of the Holdcos, LP Subco and each of the Amalgamating Subsidiaries pursuant to the Arrangement;

"**AmalgamationCo**" means AltaGas Ltd., the corporation resulting from the Amalgamation;

"**applicable law**" means any applicable law, including any statute, regulation, by-law, treaty, guideline, directive, rule, standard, requirement, policy, order, judgment, decision, injunction, award, decree or resolution of any governmental authority, whether or not having the force of law;

"**Arrangement**" means the proposed arrangement, under the provisions of section 192 of the CBCA, on the terms and conditions set forth in the Plan;

"**Arrangement Agreement**" means the arrangement agreement dated as of March 26, 2004, among AltaGas, the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2, LP Subco and the Amalgamating Subsidiaries pursuant to which the parties thereto have proposed to implement the Arrangement, a copy of which agreement is attached as Appendix C to this Information Circular, as from time to time amended, supplemented or restated;

"**Arrangement Resolution**" means the special resolution in respect of the Arrangement in substantially the form attached as Appendix A to this Information Circular, which special resolution will be voted on by Securityholders at the Meeting;

"**Articles of Arrangement**" means the articles of arrangement in respect of the Arrangement required under subsection 192(6) of the CBCA to be filed with the Director after the Final Order has been made giving effect to the Arrangement;

"**ASTC Power Partnership**" means ASTC Power Partnership, a general partnership formed under the laws of Alberta of which AltaGas and TransCanada Energy Ltd. are each the holders of a 50% partnership interest;

"**Automatic Exchange Right**" means the automatic exchange of all Exchangeable Securities for Trust Units immediately prior to the effective time of a Liquidation Event in order to enable the holders of Exchangeable Securities to participate on a *pro rata* basis with the holders of Trust Units in the distribution of the Trust's assets in connection with a Liquidation Event;

"**Automatic Redemption**" means a redemption by AltaGas LP #1 or AltaGas LP #2, as the case may be, of all but not less than all of a holder's LP #1 B Units or LP #2 B Units, as the case may be, on the fifth Business Day prior to the Change of Residency Date for the Automatic Redemption Price per Exchangeable Security redeemed;

"**Automatic Redemption Price**" means the amount per Exchangeable Security equal to the Exchangeable Security Price applicable on the last Business Day prior to the Change of Residency Date;

"**Board of Directors**" means the board of directors of the General Partner;

"**Business Day**" means a day, other than a Saturday, Sunday or statutory holiday, when banks are generally open in Calgary, Alberta, for the transaction of banking business;

"**Cash Flow of the Trust**" means for, or in respect of, any Distribution Period: (i) all cash amounts which are received by the Trust for, or in respect of, the Distribution Period, including, without limitation, interest, dividends, distributions, proceeds from the disposition of securities, returns of capital and repayments of indebtedness; plus (ii) the proceeds of any issuance of Trust Units or any other securities of the Trust, net of the expenses of distribution, and, if applicable, the use of proceeds of any such issuance for the intended purpose; less the sum of (iii) all amounts which relate to the redemption of Trust Units and which have become payable in cash by the Trust in the Distribution Period and any expenses of the Trust in the Distribution Period; and (iv) any other amounts (including taxes) required by law or the Declaration of Trust to be deducted, withheld or paid by or in respect of the Trust in such Distribution Period;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Cedar Energy Partnership**" means Cedar Energy Partnership, a general partnership formed under the laws of Alberta of which AltaGas presently holds a 71% partnership interest, and two of AltaGas' wholly-owned subsidiaries, Cedar Energy Inc. and AltaGas Marketing Inc., presently hold a 19.5% and a 9.5% partnership interest, respectively;

"**Certificate**" means the certificate of arrangement to be issued by the Director pursuant to subsection 192(7) of the CBCA, giving effect to the Arrangement;

"**Change of Law**" means any amendment to the Tax Act and other applicable provincial income tax laws that permits holders of Exchangeable Securities who are resident in Canada, hold the Exchangeable Securities as capital property and deal at arm's length with the Trust (all for the purposes of the Tax Act and other applicable provincial income tax laws) to exchange their Exchangeable Securities for Trust Units on a basis that will not require such holders to recognize any gain or loss in respect of such exchange for the purposes of the Tax Act or applicable provincial income tax laws;

"**Change of Residency Date**" means the date on which a holder of Exchangeable Securities will become or be deemed to become a Non-Resident;

"**Closing**" means the completion of the transactions contemplated by the Arrangement Agreement;

"**Closing Market Price**" means: (i) an amount equal to the closing price of the Trust Units if there was a trade on the date on which Trust Units were tendered for redemption and the exchange or market provides a closing price; (ii) an amount equal to the average of the highest and lowest prices of the Trust Units on the date on which the Trust Units were tendered for redemption if there was trading and the exchange or other market provides only the highest and lowest prices of Trust Units traded on a particular day; or (iii) the average of the last bid and last ask prices if there was no trading on the date;

"**Common Shareholders**" means the holders of Common Shares;

"**Common Share Fair Market Value**" means the weighted average trading price of a Common Share on the TSX for the five trading days preceding the Effective Date, provided that if the Common Shares are not then listed on the TSX or if in the opinion of the AltaGas Directors, acting reasonably and in good faith, the public distribution or trading activity of Common Shares for that period does not result in a weighted average trading price which reflects the fair market value of the Common Shares, then the Common Share Fair Market Value shall be determined by the AltaGas Directors, in good faith and in their sole discretion;

"**Common Shares**" means Common shares in the capital of AltaGas;

"**Control**" means: (i) with respect to control of a body corporate by a person, the holding (other than by way of security) by or for the benefit of that person of securities of that body corporate to which are attached more than 50% of the votes that may be cast to elect directors of the body corporate (whether or not securities of any other class or classes shall or might be entitled to vote on the happening of any event or contingency) provided that those votes, if exercised, are sufficient to elect a majority of the board of directors of the body corporate; and (ii) with respect to control of any other person by a person, the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of another person, whether through the ownership of voting securities, by contract or otherwise;

"**Control Transaction**" means (i) any merger or similar transaction involving the Trust as a result of which all of the outstanding Trust Units are to be sold to or exchanged for securities and/or cash of another entity; (ii) any offer to acquire securities of the Trust to which are attached more than 50% of the voting rights attached to all outstanding securities of the Trust; (iii) any sale of all or substantially all of the assets and investments of the Trust or of all or substantially all of the business and undertaking of any of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 or AmalgamationCo; or (iv) any publicly announced proposal to do any of the foregoing;

"**Court**" means the Court of Queen's Bench of Alberta;

"**CRA**" means the Canada Customs and Revenue Agency;

"**Current Market Price**" means, in respect of a Trust Unit on any date, the per Trust Unit average of the closing sale price of a board lot of Trust Units on each trading day on which there was a closing sale price (and, in the event that there was no closing sale price on a given trading day, the closing sale price for that trading day shall be deemed to be the simple average of the highest bid price and the lowest ask price on that trading day), during a period of 20 consecutive trading days ending not more than three trading days before that date on the TSX, or, if Trust Units are not then quoted on the TSX, on such other stock exchange or automated quotation system on which Trust Units are listed or quoted, as the case may be, as may be selected by the General Partner, acting reasonably, for that purpose; provided, however, that if Trust Units are not quoted on any stock exchange or automated quotation system, then the Current Market Price of a Trust Unit shall be determined by the General Partner, acting reasonably, in good faith and in its sole discretion, and provided further that any such selection or determination by the General Partner shall be conclusive and binding;

"**Declaration of Trust**" means the declaration of trust dated as of March 26, 2004, between the settlor and the Trustee, as from time to time amended, supplemented or restated;

"**Delegation Agreement**" means the delegation agreement to be entered into on the Effective Date among the Trust, the Trustee and the General Partner, as from time to time amended, supplemented or restated, pursuant to which the Trustee will delegate certain of its powers and duties to the General Partner;

"**Demand Registration**" means the preparation and filing of a prospectus by AltaGas to qualify for distribution any of the Common Shares, or following the Arrangement the Trust Units, owned by Enbridge, pursuant to a request of Enbridge;

"**Depository**" means Computershare Trust Company of Canada at its offices referred to in the Letter of Transmittal and Election Form;

"**Director**" means the Director appointed under section 260 of the CBCA;

"**Dissent Rights**" means the right of a registered Securityholder to dissent to the Arrangement Resolution and to be paid the fair value of the Securities in respect of which the Securityholder dissents, pursuant to and in accordance with section 190 of the CBCA and the Interim Order;

"**Dissenting Securityholders**" means registered Securityholders who validly exercise the Dissent Rights;

"**Distributable Cash**" means all amounts available for distribution in respect of any applicable period to holders of Trust Units and Exchangeable Securities;

"**Distribution**" means a distribution paid by the Trust in respect of the Trust Units or by AltaGas LP #1 or AltaGas LP #2 in respect of the Exchangeable Securities, expressed as an amount per Trust Unit or Exchangeable Security, as the case may be;

"**Distribution Payment Date**" in respect of a Distribution Period means on or about the date that is 15 days immediately following the end of the Distribution Period or, if that day is not a Business Day, the next following Business Day, or such other date determined from time to time by the General Partner on behalf of the Trustee;

"**Distribution Period**" means each calendar month, or such other periods as may be hereafter determined from time to time by the General Partner on behalf of the Trustee from and including the first day thereof and to and including the last day thereof;

"**Distribution Record Date**" means on or about the 25th day of each Distribution Period, or, if that day is not a Business Day, the next following Business Day, or such other date determined from time to time by the General Partner on behalf of the Trustee;

"**Distribution Reinvestment Plan**" or "**DRIP**" means the distribution reinvestment plan intended to be adopted by the Trust, subject to regulatory approval;

"**Effective Date**" means the date the Arrangement is effective under the CBCA;

"**Effective Time**" means 12:01 a.m. (Calgary time) on the Effective Date;

"**Electing Eligible Securityholders**" means Eligible Securityholders who elect in a Filed Letter of Transmittal and Election Form to receive a specified number of Exchangeable Securities under the Arrangement;

"**Election Deadline**" means 4:30 p.m. (Calgary time) on April 26, 2004;

"**Eligible Institution**" means a Canadian schedule 1 chartered bank, a major trust company in Canada, a member of the Securities Transfer Agent Medallion Program (STAMP), a member of the Stock Exchanges Medallion Program (SEMP) or a member of the New York Stock Exchange, Inc. Medallion Signature Program (MSP). Members of these programs are usually members of a recognized stock exchange in Canada or the United States, members of the Investment Dealers Association of Canada, members of the National Association of Securities Dealers or banks and trust companies in the United States;

"**Eligible Securityholder**" means a Securityholder that is not a Non-Resident or Tax-Exempt from and as of the Election Deadline to and including the Effective Time;

"**Eligible Transferee**" means, in relation to a holder of Exchangeable Securities, a person who is not a Non-Resident or Tax Exempt and that does not deal at arms' length with such holder, within the meaning of the Tax Act, and is approved as an "Eligible Transferee" by the General Partner, which approval shall not be unreasonably withheld;

"**Enbridge**" means Enbridge Inc., a corporation continued pursuant to the CBCA;

"**Enbridge Common Shares**" means the Common Shares owned of record by Enbridge or an affiliate of Enbridge, including, where applicable, the Participating Shares that are converted to Common Shares as part of the Arrangement;

"**Exchange Right**" means the right of the Voting and Exchange Trustee, pursuant to the Voting and Exchange Trust Agreement, to require the Trust to purchase from a holder all or any of the Exchangeable Securities held by such holder and the Automatic Exchange Rights, on a one-for-one basis for Trust Units, in accordance with the provisions of the Voting and Exchange Trust Agreement;

"**Exchangeable Securities**" means, collectively, the LP #1 B Units and the LP #2 B Units;

"**Exchangeable Securities Provisions**" means the rights, privileges, restrictions and conditions attaching to the Exchangeable Securities as set forth in Appendix D – Exchangeable Securities Provisions, substantially as described under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities*";

"**Exchangeable Security Consideration**" applicable on any date means, with respect to each Exchangeable Security, for any acquisition, redemption or distribution of assets of AltaGas LP #1 or AltaGas LP #2, as the case may be, in respect of, or purchase pursuant to, the Exchangeable Securities Provisions, the Support Agreement or the Voting and Exchange Trust Agreement, of such Exchangeable Security: (i) one Trust Unit; plus (ii) a cheque or cheques payable at par at any branch of the payor's bankers in an amount of all cash distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding cash loan was not made in respect of the Exchangeable Security; plus (iii) all Trust Units (or fraction thereof) constituting distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding Subdivision of the Exchangeable Security was required to be but not made; plus (iv) such other property constituting distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding non-cash loan was not made in respect of the Exchangeable Security; provided that (a) the part of the consideration which represents (i) and (iii) above shall be fully paid and satisfied by the delivery of the applicable number of Trust Units, such Trust Units to be duly issued, fully paid and non-assessable; (b) the part of the consideration which represents (iv) above shall be fully made and satisfied by delivery of such non-cash items; (c) any such consideration shall be delivered free and clear of any lien, claim, encumbrance, security interest or adverse claim or interest; and (d) any such consideration shall be made by way of loan less any tax required to be deducted and withheld therefrom without interest;

"**Exchangeable Security Limit**" means that number of Exchangeable Securities equal to the result of dividing the Aggregate Permitted Exchange Amount by the Common Share Fair Market Value;

"**Exchangeable Security Price**" applicable on any date means, for each Exchangeable Security, an amount equal to the aggregate of: (i) the Current Market Price on such date of one Trust Unit; plus (ii) an amount equal to all cash distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding cash loan was not made in respect of such Exchangeable Security; plus (iii) the Current Market Price on such date of all Trust Units (or fraction thereof) constituting distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding Subdivision of the Exchangeable Securities was required to be but not made; plus (iv) the full value of such other property constituting distributions declared and paid or (where the record date for determining the holder of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding non-cash loan was not made in respect of the Exchangeable Security; and such Exchangeable Security Price shall be satisfied by the delivery of the Exchangeable Security Consideration;

"**Exchangeable Security Voting Event**" means any matter in respect of which holders of LP #1 B Units or LP #2 B Units, as the case may be, are entitled to vote as unitholders of AltaGas LP #1 or AltaGas LP #2, respectively, other than an Exempt Exchangeable Security Voting Event, and, for greater certainty, excluding any matter in respect of which holders of LP #1 B Units or LP #2 B Units, as the case may be,

are entitled to vote (or instruct the Voting and Exchange Trustee to vote) in their capacity as beneficiaries under the Voting and Exchange Trust Agreement;

"**Exempt Exchangeable Security Voting Event**" means any matter in respect of which holders of LP #1 B Units or LP #2 B Units, as the case may be, are entitled to vote as unitholders of AltaGas LP #1 or AltaGas LP #2, respectively, in order to approve or disapprove, as applicable, any change to, or in the rights of the holders of, the LP #1 B Units or LP #2 B Units, as the case may be, where the approval or disapproval, as applicable, of that change would be required to maintain the equivalence of the LP #1 B Units or LP #2 B Units, as the case may be, and the Trust Units;

"**Exempt Plans**" means, collectively, trusts governed by registered retirement savings plans, registered retirement income funds and deferred profit sharing plans, each as defined in the Tax Act;

"Extraordinary LP Resolution" means a written resolution in one or more counterparts consented to in writing by the General Partner and by all the holders of the LP #1 A Units or LP #2 A Units, as the case may be, and approved by resolution in writing executed by all holders of LP #1 B Units or LP #2 B Units, as the case may be, entitled to vote on that resolution or passed by the affirmative vote of at least two-thirds of the votes cast on such resolution by holders of LP #1 B Units or LP #2 B Units (other than the Trust and its affiliates), as the case may be, represented in person or by proxy at a meeting of holders of LP #1 B Units or LP #2 B Units, as the case may be, duly called for such purpose;

"**Fairness Opinion**" means the opinion of RBC dated March 26, 2004, a copy of which is attached as Appendix G to this Information Circular;

"**Filed Letter of Transmittal and Election Form**" means, with respect to any Securityholder or Holdco Shareholder, a duly completed Letter of Transmittal and Election Form deposited with that Securityholder's certificate(s) representing the Securityholder's Common Shares and Participating Shares, if applicable, or such Holdco Shareholder's certificate(s) representing Holdco Shares, as the case may be, to which the form relates with the Depository on or before the Election Deadline;

"**Final Order**" means the order of the Court approving the Arrangement to be applied for following the approval of the Arrangement pursuant to the provisions of subsection 192(4) of the CBCA, as such order may be affirmed, amended or modified by any court of competent jurisdiction;

"**FMV**" means fair market value;

"**Gain Amount**" means: (i) in respect of Common Shares of an Eligible Securityholder, other than a Holdco, deposited with a Filed Letter of Transmittal and Election Form, the difference between the product of the number of such Common Shares and the Common Share Fair Market Value and the ACB of such Common Shares (or the mean average of ACBs); and (ii) in respect of a Holdco Shareholder, the difference between the product of the number of Common Shares held by such Holdco Shareholder's Holdco and the Common Share Fair Market Value and the ACB of such Holdco Shareholder's Holdco Shares (or the mean average of ACBs); in each case after giving effect to the conversion of issued and outstanding Participating Shares into Common Shares on a one for one basis;

"**General Partner**" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust and the general partner of AltaGas LP #1 and AltaGas LP #2;

"**governmental authority**" includes any court (including a court of equity); any multinational, federal, provincial, state, regional, municipal or other government or governmental department, ministry, commission, board, bureau, agency or instrumentality; any securities commission, stock exchange or other regulatory or self-regulatory body; and arbitrator or arbitration authority; or any other governmental authority;

"**Heritage Gas**" means Heritage Gas Limited, a company formed under the laws of the Nova Scotia;

"**Holdco**" has the meaning ascribed thereto under the heading "*The Arrangement – Alternative Election Procedure for Certain Securityholders*";

"**Holdco Shareholder**" means a holder at the relevant time of the Holdco Shares;

"**Holdco Shares**" means all issued and outstanding shares of any particular Holdco;

"**Holder**" means a registered holder of Securities immediately prior to the Effective Date or any person who surrenders to the Depository certificates representing Securities duly endorsed for transfer to that person;

"**Holding Declaration of Trust**" means the declaration of trust of Holding Trust dated as of March 26, 2004, between the Holding Trust Trustee and the Trust, as settlor and initial unitholder, as from time to time amended, supplemented or restated;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta, all of the beneficial interests of which are owned by the Trust;

"**Holding Trust Note Indenture**" means the agreement entered into between Holding Trust and Computershare Trust Company of Canada, as note trustee, pursuant to which, among others, Holding Trust Notes may be issued by Holding Trust, as from time to time amended, supplemented or restated;

"**Holding Trust Notes**" means the unsecured subordinated notes of Holding Trust to be issued as Series 1 Notes, Series 2 Notes and Series 3 Notes pursuant to the Holding Trust Note Indenture;

"**Holding Trust Trustee**" means AltaGas Holding Trust Corp., as initial trustee of Holding Trust, or such other person as becomes the trustee of Holding Trust in accordance with the Holding Declaration of Trust;

"**Income Tax Act**" or "**Tax Act**" means the *Income Tax Act*, R.S.C. 1985, c. 1. (5th Supp), as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Information Circular**" means this Information Circular and Proxy Statement dated March 26, 2004, together with all Appendices hereto, distributed by AltaGas in connection with the Meeting;

"**Insolvency Event**" means, in respect of AltaGas LP #1 or AltaGas LP #2, as applicable: (i) the institution by it of any proceeding to be adjudicated a bankrupt or insolvent or to be dissolved or wound up or its consent to the institution of bankruptcy, insolvency, dissolution or winding-up proceedings against it; or (ii) the filing of a petition or other proceeding to adjudicate it a bankrupt or insolvent seeking dissolution or winding-up under any bankruptcy, insolvency or analogous laws, and its failure to contest in good faith any such proceedings commenced in respect of it within 30 days of becoming aware thereof, or its consent to the appointment of a receiver; or (iii) its making of a general assignment for the benefit of creditors, or its admission in writing of its inability to pay its debts generally as they become due; or (iv) it not being permitted, pursuant to solvency requirements of applicable laws, to redeem any retracted Exchangeable Securities pursuant to the Exchangeable Securities Provisions;

"**Interim Order**" means the Interim Order of the Court dated March 23, 2004 pursuant to subsection 192(4) of the CBCA containing declarations and directions with respect to the Arrangement and the Meeting and issued pursuant to the petition of AltaGas therefor, a copy of which order is attached as Appendix B to this Information Circular;

"**Inuvik Gas**" means Inuvik Gas Ltd., a corporation incorporated pursuant to the CBCA;

"**Letter of Transmittal and Election Form**" means either the Letter of Transmittal and Election Form enclosed with this Information Circular or the Letter of Transmittal and Election Form available from the Depository for those Securityholders who hold their Securities through a Holdco, pursuant to which a Securityholder is required to deliver certificates representing Common Shares and, if applicable, Participating Shares, or alternatively the Holdco Shares of the Holdco which holds those Securities, and make certain elections, if desired and, in the case of a Holdco Shareholder, the agreement referred to under paragraph (l) under the heading "*The Arrangement – Alternative Election Procedure for Certain Securityholders*";

"**Liquidation Amount**" means the amount per Exchangeable Security equal to the Exchangeable Security Price applicable on the last Business Day prior to the Liquidation Date;

"**Liquidation Call Right**" means the overriding right of Holding Trust in the event of and notwithstanding the proposed liquidation, dissolution or winding up of AltaGas LP #1 or AltaGas LP #2, as the case may be, or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2, as the case may be, among its partners for the purpose of winding up its affairs, to purchase from all but not less than all of the holders of LP #1 B Units or LP #2 B Units, as the case may be, on the Liquidation Date all but not less than all of the LP #1 B Units or LP #2 B Units, as the case may be, held by those holders, on payment to each such holder of the Liquidation Amount per Exchangeable Security purchased;

"**Liquidation Date**" means the effective date of the liquidation, dissolution or winding-up, of AltaGas LP #1 or AltaGas LP #2, as the case may be, or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2, as the case may be, to its partners for the purpose of winding up its affairs;

"**Liquidation Event**" means the voluntary or involuntary liquidation, dissolution or winding-up of the Trust, or any other distribution of the Trust's assets among Trust Unitholders for the purpose of winding up its affairs;

"**LP A Units**" means, collectively, the LP #1 A Units and the LP #2 A Units;

"**LP #1 A Units**" means the Class A limited partnership units of AltaGas LP #1;

"**LP #1 B Units**" means the Class B limited partnership units of AltaGas LP #1, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #1 X Note**" means a non-interest bearing unsecured demand note of AltaGas LP #1 in principal amount equal to the Common Share Fair Market Value;

"**LP #2 A Units**" means the Class A limited partnership units of AltaGas LP #2;

"**LP #2 B Units**" means the Class B limited partnership units of AltaGas LP #2, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #2 X Note**" means a non-interest bearing unsecured demand note of AltaGas LP #2 in principal amount equal to the Common Share Fair Market Value;

"**LP Subco**" means AltaGas Subsidiary Corporation, a corporation incorporated pursuant to the CBCA as a wholly-owned subsidiary of AltaGas LP #2;

"**LP Subco Debt**" means, before the Amalgamation, unsecured subordinated interest-bearing indebtedness owed by LP Subco to AltaGas LP #2; and after the Amalgamation means the unsecured subordinated interest-bearing indebtedness owed by AmalgamationCo to AltaGas LP #2;

"**Market Price**" means an amount equal to the simple average of the closing price of the Trust Units for each of the trading days on which there was a closing price; provided that if the applicable exchange or

market does not provide a closing price but only provides the highest and lowest prices of the Trust Units traded on a particular day, the market price shall be an amount equal to the simple average of the highest and lowest prices for that trading day if there was a trade; and provided further that if there was trading on the applicable exchange or market for fewer than five of the ten trading days, the market price shall be the simple average of the following prices established for each of the ten trading days: the average of the bid and ask prices for each day on which there was no trading; the weighted average trading price of the Trust Units for each day that there was trading if the exchange or market provides a weighted average trading price; and the average of the highest and lowest prices of the Trust Units for each day that there was trading, if the market provides only the highest and lowest prices of Trust Units traded on a particular day;

"**Meeting**" means the special meeting of the Common Shareholders, the Participating Shareholder and the Optionholders to be held on April 29, 2004 and any adjournment(s) thereof to, *inter alia*, consider and to vote on the Arrangement Resolution and the matters referred to in the Notice of Meeting;

"**Newco**" means AltaGas Holdings Inc., a corporation incorporated pursuant to the CBCA as a wholly-owned subsidiary of AltaGas;

"**Non-Resident**" means: (i) a person (within the meaning of the Tax Act but, for greater certainty, not including a partnership) who is not resident in Canada for the purposes of the Tax Act; or (ii) a partnership that is not a "Canadian partnership" as defined in the Tax Act;

"**Note Trustee**" means Computershare Trust Company of Canada or its successor(s) as trustee under the Holding Trust Note Indenture;

"**Notice of Guaranteed Delivery**" means the Notice of Guaranteed Delivery which accompanies this Information Circular;

"**Notice of Meeting**" means the Notice of Special Meeting which accompanies this Information Circular;

"**Notice of Petition**" means the Notice of Petition by AltaGas to the Court for the Final Order which accompanies this Information Circular;

"**Offering**" means any issuance or offering of Trust Units or any rights, warrants or other securities to purchase, to convert into or exchange into Trust Units on a public or private basis in Canada or elsewhere;

"**Offering Document**" means any one or more of a prospectus, information memorandum, private placement memorandum and similar public or private offering document or any understanding, commitment or agreement relating to an Offering;

"**Option**" means an option, or "**Options**" means, collectively, all outstanding options, to purchase Common Shares pursuant to AltaGas' existing stock option plan;

"**Optionholders**" means the holders of Options;

"Ordinary LP Resolution" means a written resolution in one or more counterparts consented to in writing by the General Partner and by limited partners holding a simple majority of the number of LP #1 A Units or LP #2 A Units, as the case may be, outstanding in AltaGas LP #1 or AltaGas LP #2, respectively;

"**Ordinary Resolution**" means a resolution proposed to be passed at a meeting of Unitholders duly convened and held in accordance with the Declaration of Trust and passed by more than 50% of the votes cast on such resolution by Unitholders represented at the meeting;

"**Participating Shares**" means participating shares in the capital of AltaGas, all of which are presently owned, beneficially and of record, by Enbridge;

"**Participating Shareholder**" means the holder of Participating Shares;

"**Partner**" means a person who owns one or more LP A Units or one or more Exchangeable Securities;

"**Partnership Loan Indebtedness**" has the meaning ascribed thereto in the Voting and Exchange Trust Agreement;

"**Partnerships**" means, collectively, AltaGas LP #1 and AltaGas LP #2; and "**Partnership**" means either AltaGas LP #1 or AltaGas LP #2;

"**person**" includes any individual, body corporate, partnership, association, joint venture, other organization or entity (whether or not a legal entity) or governmental authority;

"**Plan**" means the plan of arrangement attached as Schedule A to Appendix C to this Information Circular, as from time to time amended, supplemented or restated;

"**Policy 61-501**" means, collectively, Ontario Securities Commission Rule 61-501 – *Insider Bids, Issuer Bids, Going Private Transactions and Related Party Transactions* and Policy Statement Q-27 of the Autorité des Marches Capitaux (Quebec);

"**PPA**" means a power purchase arrangement;

"**Principal Shareholder Agreement**" means the agreement between AltaGas and Enbridge dated March 10, 2004 pursuant to which Enbridge has agreed to vote the Common Shares and Participating Shares beneficially owned, directly or indirectly, or over which it exercises control or direction, in favour of the Arrangement Resolution, subject to the terms and conditions set out therein, as from time to time amended, supplemented or restated;

"**RBC**" means RBC Dominion Securities Inc., in its capacity as financial advisor to AltaGas;

"**Record Date**" means the close of business on March 25, 2004;

"**Regulation S**" means Regulation S under the 1933 Act;

"**Redemption Date**" has the meaning ascribed thereto under the heading "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Redemption Right*";

"**Redemption Price**" means the amount per Exchangeable Security equal to the Exchangeable Security Price applicable on the last Business Day prior to the Redemption Date;

"**Redemption Right**" means the right of AltaGas LP #1 or AltaGas LP #2, as the case may be, to redeem all but not less than all of the then outstanding LP #1 B Units or LP #2 B Units, respectively, for the Redemption Price per Exchangeable Security redeemed;

"**Registration Rights Agreement**" means the registration rights agreement dated May 12, 1999 between AltaGas and Enbridge setting forth certain rights of Enbridge in respect of the registration of the Common Shares owned by it in certain circumstances, as from time to time amended, supplemented or restated;

"**Related**" means, with respect to a member of the Board of Directors, that such person is not Unrelated;

"**Resident**" means a person who is resident in Canada for purposes of the Tax Act;

"**RESPs**" means trusts governed by registered education savings plans as defined in the Tax Act;

"**Retraction Date**" means the Business Day on which a holder of Exchangeable Securities desires to have AltaGas LP #1 or AltaGas LP #2, as the case may be, redeem the Exchangeable Securities for which it has requested redemption; provided that such date cannot be less than 3 Business Days nor more than 5 Business Days after the date on which the Retraction Request is provided to the General Partner;

"**Retraction Price**" means the amount per Exchangeable Security equal to the Exchangeable Security Price applicable on the last Business Day prior to the Retraction Date;

"**Retraction Request**" means a duly executed statement in the form required by the General Partner, specifying the number of Exchangeable Securities for which redemption has been requested and stating the Retraction Date;

"**Retraction Right**" means the right of a holder of Exchangeable Securities to require AltaGas LP #1 or AltaGas LP #2, as the case may be, to redeem any or all of the Exchangeable Securities registered in the name of that holder for the Retraction Price per each Exchangeable Security redeemed;

"**Securities**" means the Common Shares, Participating Shares and Options;

"**Securities Act**" means the *Securities Act* (Alberta) and the rules, regulations and policies made thereunder, as now in effect and as they may be amended from time to time;

"**Securityholders**" means the Common Shareholders, Participating Shareholder and Optionholders;

"**Series 1 Notes**" means the non-interest bearing demand unsecured subordinated notes of Holding Trust issuable pursuant to the Holding Declaration of Trust;

"**Series 2 Notes**" means the interest bearing unsecured subordinated notes of Holding Trust issuable pursuant to the Holding Declaration of Trust;

"**Series 3 Notes**" means the interest bearing unsecured subordinated notes of Holding Trust issuable pursuant to the Holding Declaration of Trust;

"**Shareholder Agreement**" means the shareholder agreement dated May 12, 1999 between AltaGas and Enbridge setting forth certain rights and obligations of AltaGas and Enbridge with respect to Enbridge's holdings of Common Shares and Participating Shares, as from time to time amended, supplemented or restated;

"**Special Committee**" means the special committee of the AltaGas Directors constituted on November 12, 2003 and consisting of John B. Breen, Denis C. Fonteyne, Daryl H. Gilbert, Myron F. Kanik and David F. Mackie;

"**Special Resolution**" means a resolution proposed to be passed as a special resolution at a meeting of Unitholders or unitholders of Holding Trust (including an adjourned meeting), as the case may be, duly convened for that purpose and held in accordance with the provisions of the Declaration of Trust or Holding Declaration of Trust, as applicable, and passed by more than $66^2/_3\%$ of votes cast on such resolution by Unitholders or holders of units of Holding Trust, as the case may be, represented at the meeting;

"**Special Voting Unit**" means the special voting unit of the Trust to be issued by the Trust and deposited with the Voting and Exchange Trustee to which will be attached that number of voting rights (each such voting right to be equal to the voting rights attached to one Trust Unit) equal to the number of outstanding Exchangeable Securities held by registered holders, other than the Trust and its affiliates;

"**Specified Gain Amount**" means: (i) with respect to Common Shares or Participating Shares of an Eligible Securityholder, other than a Holdco, deposited with a Filed Letter of Transmittal and Election

Form, the lesser of: (a) the amount specified by the Eligible Securityholder in the Eligible Securityholder's Filed Letter of Transmittal and Election Form intended to be exchanged for Exchangeable Securities; and (b) the Gain Amount determined from the information provided by the Eligible Securityholder in the Eligible Securityholder's Filed Letter of Transmittal and Election Form with respect to the Common Shares or Participating Shares deposited therewith; and (ii) with respect to a Holdco Shareholder, the lesser of: (a) the amount specified by the Holdco Shareholder in the Holdco Shareholder's Filed Letter of Transmittal and Election Form intended to be exchanged for Exchangeable Securities; and (b) the Gain Amount specified by the Holdco Shareholder in the Holdco Shareholder's Filed Letter of Transmittal and Election Form; (in each case as adjusted by AltaGas in good faith to correct any error apparent on the face of that form) rounded upward to the nearest whole multiple of the Common Share Fair Market Value; provided that, if the aggregate of all Eligible Securityholders' and Holdco Shareholders' Specified Gain Amounts calculated apart from this proviso is greater than the Aggregate Permitted Exchange Amount, the Specified Gain Amount shall be such lesser amount as is calculated through a pro-rationing methodology determined in good faith by the AltaGas Directors to be appropriate in the circumstances and in compliance with all applicable laws rounded upward to the nearest whole multiple of the Common Share Fair Market Value;

"**Strategic Alliance Arrangement**" means the strategic alliance arrangement created by the letter dated May 12, 1999 from Enbridge to AltaGas, as from time to time amended, supplemented or restated;

"**Subdivision**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**subsidiary**" means, in relation to any person, any body corporate, partnership, joint venture, association or other entity of which more than 50% of the total voting power of shares or units of ownership or beneficial interest entitled to vote in the election of directors (or members of a comparable governing body) is owned or controlled, directly or indirectly, by such person;

"**Sundance B PPA**" means the Sundance B PPA held by ASTC Power Partnership and providing for the purchase of power output from units 3 and 4 of the Sundance power plant located near Wabamun, Alberta;

"**Support Agreement**" means the support agreement to be entered into on the Effective Date among the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and AltaGas substantially in the form attached as Appendix E to this Information Circular, as from time to time amended, supplemented or restated;

"**Tax-Exempt**" means a holder of Securities that is exempt from tax under Part I of the Tax Act;

"**Taylor**" means Taylor NGL Limited Partnership;

"**Trust**" means AltaGas Income Trust, an unincorporated open-ended investment trust established under the laws of Alberta pursuant to the Declaration of Trust;

"**Trustee**" means Computershare Trust Company of Canada, as the initial trustee of the Trust, or such other person as becomes the trustee of the Trust in accordance with the Declaration of Trust;

"**Trust Option**" means an option entitling the holder thereof to purchase one Trust Unit;

"**Trust Unit Option Plan**" means the Trust Unit Option Plan to be approved at the Meeting, a copy of which is attached as Appendix K to this Information Circular;

"**Trust Unit**" means a trust unit, other than the Special Voting Unit of the Trust, each such Trust Unit representing an equal undivided beneficial interest therein;

"**Trust Units diluted**" means at any given time all of the outstanding Trust Units and all of the Trust Units issuable on exercise of outstanding Trust Options and on exchange of outstanding Exchangeable Securities;

"**Trust Unitholders**" means the holders from time to time of Trust Units;

"**TSX**" means the Toronto Stock Exchange;

"**Unanimous Shareholder Agreement**" means the agreement to be entered into on the Effective Date among the General Partner, AltaGas LP #1, AltaGas LP #2 and AmalgamationCo pursuant to which AmalgamationCo will grant to the General Partner the powers of the directors of AmalgamationCo to manage, or supervise the management of, the business and affairs of AmalgamationCo, as from time to time amended, supplemented or restated;

"**Underwriting Agreement**" means any underwriting, agency or similar agreement entered into by or on behalf of the Trust and investment dealers and such other persons relating to an Offering;

"**Unitholders**" means the holders from time to time of Units;

"**Units**" means the Trust Units and the special voting units of the Trust (including the Special Voting Unit);

"**United States**" or "**U.S.**" means the United States, as defined in Rule 902(l) under Regulation S;

"**Unrelated**" means, with respect to a member of the Board of Directors, that such person is independent of each of the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2 and AmalgamationCo and free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the General Partner (and indirectly, the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and AmalgamationCo), other than interests and relationships arising from his or her personal holding of Trust Units;

"**Voting and Exchange Trust Agreement**" means the voting and exchange trust agreement to be entered into on the Effective Date among the Trust, AltaGas LP #1, AltaGas LP #2 and the Voting and Exchange Trustee substantially in the form attached as Appendix F to this Information Circular, as from time to time amended, supplemented or restated;

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement;

"**X Notes**" means, collectively, the LP #1 X Notes and the LP #2 X Notes;

"**1933 Act**" means the *United States Securities Act of 1933*, as from time to time amended, supplemented or restated; and

"**1934 Act**" means the *United States Securities Exchange Act of 1934*, as from time to time amended, supplemented or restated.

Conventions

Certain terms used herein are defined in the "*Glossary of Terms*". Unless otherwise indicated, references herein to "$" or "dollars" are to Canadian dollars. All financial information herein has been presented in Canadian dollars in accordance with generally accepted accounting principles in Canada.

Abbreviations

The following abbreviations shall have the respective meanings set out below when used in this Information Circular:

"**Bbls**" means stock tank barrels of NGLs, with NGL volumes expressed in standard 42 US gallon barrels or 34.972 Imperial gallon barrels; "**MBbls**" means 1,000 Bbls; "**Bbls/d**" means Bbls per day.

"**Bcf**" means 1,000,000 Mcf of natural gas; "**Bcf/d**" means 1,000,000 Mcf of natural gas per day.

"**BTU**" means one British thermal unit; "**MMBTU**" means 1,000,000 BTU.

"**GJ**" means gigajoule or one billion (1,000,000,000) joules.

"**Km**" means kilometres.

"**M**" or "**m**" means thousands.

"**M^3**" means cubic metre.

"**Mcf**" means 1,000 cubic feet of natural gas measured at a pressure of 14.65 pounds per square inch and temperature of 60 degrees Fahrenheit and deemed to have a gross heating value of 1,000,000 BTU; "**Mmcf**" means 1,000 Mcf; "**Mcf/d**" means Mcf per day; "**Mmcf/d**" means 1,000 Mcf per day.

"**MM**" or "**Mm**" means millions.

"**MW**" means megawatt. One MW is 1,000,000 watts; "**MWh**" means megawatt hour or 1,000,000 watt hours. The watt is the basic electrical unit of power. The watt hour is equal to one watt of power flowing steadily for one hour.

"**NGLs**" means natural gas liquids which includes primarily propane, butane and pentanes plus.

"**Tcf**" means 1,000,000,000 Mcf.

Conversions

The following table sets forth certain standard conversions between Standard Imperial Units and the International System of Units (or metric units).

To Convert From	To	Multiply by
Mcf	cubic metres	28.174
cubic metres	cubic feet	35.494
Bbls	cubic metres	0.159
cubic metres	Bbls	6.290
tonnes	long tons	0.984
feet	metres	0.305

To Convert From	To	Multiply By
metres	feet	3.281
miles	kilometres	1.609
kilometres	miles	0.621
acres	hectares	0.405
hectares	acres	2.471
gigajoule	mmcf	0.9482

SUMMARY INFORMATION

The following is a summary of certain information contained elsewhere in this Information Circular, including the Appendices hereto, and is qualified in its entirety by reference to the more detailed information contained or referred to elsewhere in this Information Circular or in the Appendices hereto. Terms with initial capital letters used in this summary are defined in the "Glossary of Terms".

The Meeting

The Meeting will be held at the Metropolitan Centre, 333 – 4th Avenue S.W., Calgary, Alberta, on Thursday, April 29, 2004, at 3:00 p.m. (Calgary time) for the purposes set forth in the accompanying Notice of Meeting. The business of the Meeting will be to consider and vote on the Arrangement. See *"The Arrangement"*.

The Arrangement

The proposed Arrangement will result in the Trust indirectly owning all of AltaGas' existing business and making regular monthly distributions of cash to Trust Unitholders. The Trust will be efficiently managed by the same qualified team of professionals that presently manages AltaGas. These professionals have demonstrated their capabilities in delivering on financial and other objectives previously established at AltaGas and are committed to the future success of the Trust.

Pre-Arrangement Steps

Prior to the Effective Date, a number of pre-Arrangement steps will occur in the following sequence:

(a) Newco will contribute cash to each of Cedar Energy Partnership and AltaGas Power Partnership in exchange for partnership interests in each partnership;

(b) AltaGas, Newco and AltaGas Power Partnership will form AltaGas Power Holdings Partnership on a cash contribution by Newco, the contribution by AltaGas Power Partnership of all of its business interests and the contribution by AltaGas of its interest in ASTC Power Partnership to AltaGas Power Holdings Partnership in exchange for partnership interests in AltaGas Power Holdings Partnership;

(c) AltaGas Power Partnership will be wound up and the partners thereto will receive their proportionate undivided share of AltaGas Power Partnership's assets, consisting entirely of its interest in AltaGas Power Holdings Partnership; and

(d) Newco, AltaGas Suffield Pipeline Inc, AltaGas and AltaGas Transmission Ltd. will form AltaGas Pipeline Partnership on a cash contribution by Newco, the contribution by AltaGas Suffield Pipeline Inc. of all of its assets, the contribution by AltaGas of certain of its assets and the contribution by AltaGas Transmission Ltd. of certain of its assets.

See *"The Arrangement – Details of the Arrangement – Pre-Arrangement Steps"*.

Arrangement Steps

On the Effective Date, each of the events set out below shall occur and shall be deemed to occur in the following order without any further act or formality:

(a) the issued and outstanding Participating Shares, if any, shall be converted into Common Shares on a one for one basis;

(b) the Trust shall issue to Holding Trust that number of Trust Units to be exchanged by Holding Trust pursuant to (e)(i) below in exchange for the issue to the Trust by Holding Trust of that

principal amount of Series 1 Notes equal to the product of that number of Trust Units multiplied by the Common Share Fair Market Value;

(c) at the same time:

(i) Common Shares (other than Enbridge Common Shares, Common Shares held by Holdcos to which (c)(ii) or (c)(iv) applies and Common Shares held by a Securityholder who has exercised Dissent Rights and is ultimately entitled to be paid the fair value of such Securityholder's Securities) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Common Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Eligible Shareholder's Specified Gain Amount with respect to such Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of such Common Shares and the number of LP #1 B Units determined pursuant to (A) above; and

the names of the holders of those Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of those Common Shares on the register of holders of Common Shares;

(ii) Holdco Shares (other than Holdco Shares of Holdcos holding Enbridge Common Shares) held by each Holdco Shareholder that is an Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of the Holdco's Common Shares and the number of LP #1 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of such Holdco Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(iii) Enbridge Common Shares (other than Common Shares held by Holdcos to which (c)(iv) applies) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Enbridge Common Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Eligible Securityholder's Specified Gain Amount with respect to such Enbridge Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of such Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Enbridge Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #2 B Units and LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Enbridge Common Shares on the register of holders of Common Shares; and

(iv) Holdco Shares of Holdcos holding Enbridge Common Shares held by each Holdco Shareholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of the Holdco's Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of Holdco Shares and added to the registers of holders of LP #2 B Units and LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(d) at the same time:

(i) LP #1 X Notes acquired pursuant to (c)(i) or (c)(ii) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to the holders thereof by AltaGas LP #1 of LP #1 A Units on a one for one basis and the names of the holders of such LP #1 X Notes shall be removed from the register of holders of LP #1 X Notes and added to the register of holders of LP #1 A Units and the LP #1 X Notes so transferred to AltaGas LP #1 shall be cancelled; and

(ii) LP #2 X Notes acquired pursuant to (c)(iii) or (c)(iv) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to the holders thereof by AltaGas LP #2 of LP #2 A Units on a one for one basis and the names of the holders of such LP# 2 X Notes shall be removed from the register of holders of LP #2 X Notes and added to the register of holders of LP #2 A Units and the LP #2 X Notes so transferred to AltaGas LP #2 shall be cancelled;

(e) at the same time:

(i) LP #1 A Units and LP #2 A Units acquired pursuant to (d)(i) and (d)(ii) above, respectively, shall be transferred to, and acquired by, Holding Trust in exchange for Trust Units on a one for one basis and the names of the holders of such LP #1 A Units and LP #2 A Units shall be removed from the registers of holders thereof and added to the

register of holders of Trust Units and Holding Trust shall be recorded as the holder of such LP #1 A Units and LP #2 A Units on the registers of holders thereof; and

(ii) Common Shares in respect of each Securityholder to which (c) above does not apply (other than Common Shares held by a Securityholder who has exercised Dissent Rights and is ultimately entitled to be paid the fair value of such Securityholder's Common Shares) shall be transferred to, and acquired by, the Trust free and clear of all liens, claims and encumbrances on the basis that each such Common Share shall be exchanged with the Trust for Trust Units on a one for one basis and the names of the holders of such Common Shares shall be removed from the register of holders of Common Shares and added to the register of holders of Trust Units and the Trust shall be recorded as the holder of such Common Shares on the register of holders of Common Shares;

(f) the issued and outstanding Options shall be transferred to, acquired and cancelled by, AltaGas free and clear of all liens, claims and encumbrances on the basis that each such Option shall be exchanged with AltaGas for Trust Options on a one for one basis, with the terms of each such Trust Option being the same as the Option exchanged therefore other than the substitution of a Trust Unit for each Common Share purchasable pursuant to the Option prior to the Effective Time;

(g) all of the Common Shares acquired by the Trust pursuant to (e)(ii) above shall be transferred to, and acquired by, Holding Trust in exchange for the issue to the Trust by Holding Trust of that principal amount of Series 1 Notes equal to the number of such Common Shares multiplied by the Common Share Fair Market Value;

(h) all of the LP #2 A Units acquired by Holding Trust pursuant to (e)(i) above and all of the Common Shares acquired by Holding Trust pursuant to (g) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to Holding Trust by AltaGas LP #1 of LP #1 A Units on a one for one basis;

(i) all of the Common Shares and Holdco Shares acquired by AltaGas LP #1 pursuant to (c)(i), (c)(ii) and (h) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to AltaGas LP #1 by AltaGas LP #2 of LP #2 A Units on the basis of one LP #2 A Unit for each of such Common Shares and each of the Common Shares held by such Holdcos;

(j) all of the Common Shares and Holdco Shares acquired by AltaGas LP #2 pursuant to (c)(iii), (c)(iv) and (i) above shall be transferred to, and acquired by, LP Subco in exchange for the issue to AltaGas LP #2 by LP Subco of common shares of LP Subco (in respect of which there shall be added to the stated capital an amount equal to the maximum amount of "paid-up capital" under the Tax Act that may be added in respect of such issue) and that principal amount of LP Subco Debt equal to the lesser of (A) the result obtained when the aggregate number of Trust Units issued pursuant to (e)(i) and (e)(ii) above is multiplied by the Common Share Fair Market Value; and (B) the Aggregate Permitted Debt Amount;

(k) the stated capital of each class of outstanding shares of each of AltaGas, the Holdcos and the Amalgamating Subsidiaries shall be reduced, without any distribution by the respective corporation, to one dollar;

(l) LP Subco, each of the Holdcos, AltaGas and each of the Amalgamating Subsidiaries shall amalgamate and continue as one corporation, AmalgamationCo; and

(m) the Trust shall issue the Special Voting Unit;

provided that if any of the foregoing steps in (a) through (m) fails to occur or complete then all of such steps will be deemed not to have occurred.

As indicated above, the maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a FMV equal to the Aggregate Permitted Exchange Amount. If Eligible Securityholders (including Enbridge) elect to receive such number of Exchangeable Securities as would result in greater than the maximum number of Exchangeable Securities being issued, the Exchangeable Securities will be prorated in the manner provided in the definition of Specified Gain Amount and Eligible Securityholders will receive Trust Units in lieu of Exchangeable Securities. Each Exchangeable Security will be exchangeable for one Trust Unit and be entitled to the same monthly cash Distributions as a Trust Unit. Securityholders who are not Eligible Securityholders will only be eligible to receive, in exchange for each of their Common Shares, one Trust Unit.

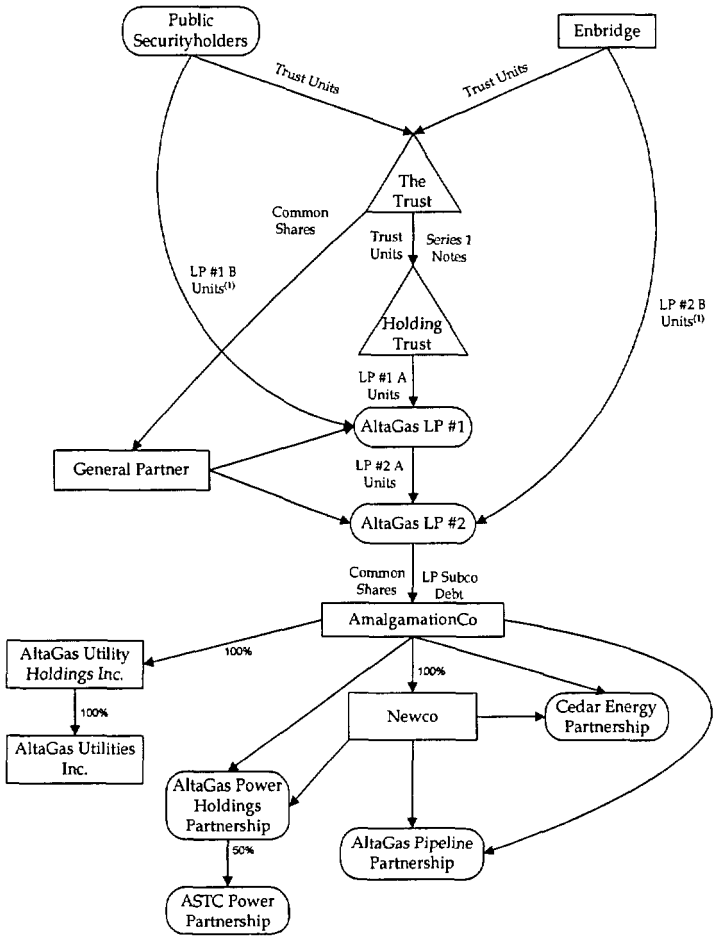
Post Arrangement Structure

Following the pre-Arrangement steps and the Arrangement steps:

(a) Securityholders (including Enbridge) will own all of the issued and outstanding Trust Units of the Trust;

(b) Securityholders (other than Enbridge and non-Eligible Securityholders) will own all of the issued and outstanding LP #1 B Units;

(c) Enbridge or Enbridge and its affiliates will own all of the issued and outstanding LP #2 B Units;



(d) the Trust, through Holding Trust, will own all of the issued and outstanding LP #1 A Units;

(e) AltaGas LP #1 will own all of the issued and outstanding LP #2 A Units;

(f) AltaGas LP #2 will own all of the issued and outstanding common shares and subordinated debt of AmalgamationCo; and

(g) ASTC Power Partnership will be held by AmalgamationCo through its direct and indirect interests in AltaGas Power Holdings Partnership and the assets of AltaGas Suffield Pipeline Inc. and certain of the assets of AltaGas and AltaGas Transmission Ltd. will be held by AmalgamationCo through its direct and indirect interests in AltaGas Pipeline Partnership.

The following diagram sets out the simplified organizational structure of the Trust, AmalgamationCo and the other entities participating in the Arrangement following the Effective Time:

Note:
(1) LP #1 B Units and LP #2 B Units will be exchangeable for Trust Units at the option of the holder on a one-for-one basis, will be entitled to vote with Trust Unitholders pursuant to the Special Voting Unit and will be entitled to the same distributions of cash per unit as made on a Trust Unit.

Upon the completion of the Arrangement, an aggregate of approximately 25,473,248 Trust Units will be issued and outstanding, assuming that the Common Share Fair Market Value is equal to $22.00, no Securityholders exercise their Dissent Rights, that the Exchangeable Security Limit of Exchangeable Securities is issued pursuant to the Arrangement which results in approximately 20,454,545 Exchangeable Securities being issued and outstanding and that all of the outstanding Options are exchanged for Trust Options on the Effective Date. Following completion of the Arrangement, AmalgamationCo may transfer its assets to a partnership to be formed by it and a subsidiary. See "*The Arrangement - Effect of the Arrangement*", "*Information Concerning the Trust*" and "*Information Concerning AmalgamationCo*".

Letter of Transmittal and Election Form

Eligible Securityholders will be required to make an election whether to receive on completion of the Arrangement either Trust Units or a combination of Trust Units and Exchangeable Securities. Only Canadian

residents who are not Tax-Exempt may elect to receive Exchangeable Securities. **Securityholders who do not deposit with the Depository, at one of the addresses noted in the relevant form, a duly completed Letter of Transmittal and Election Form on or before the Election Deadline or who do not otherwise fully comply with the requirements of the Letter of Transmittal and Election Form and the instructions therein in respect of the election to receive Exchangeable Securities, will be deemed to have elected to receive only Trust Units for their Common Shares. A copy of the Letter of Transmittal and Election Form is enclosed with this Information Circular.** See "*The Arrangement – Exchangeable Securities Election*".

Each Securityholder will also be entitled to transfer such Securityholder's Common Shares or Participating Shares, as the case may be, to a newly-incorporated holding corporation in exchange for all of the issued shares of such corporation and then transfer such shares to AltaGas LP #1 or, in the case of Holdcos holding Enbridge Common Shares or Participating Shares, AltaGas LP #2, accompanied by a duly completed Letter of Transmittal and Election Form electing to receive on completion of the Arrangement a combination of Trust Units and Exchangeable Securities in exchange for all of their Holdco Shares. This alternative may have favourable Canadian federal income tax consequences for certain Securityholders. Securityholders wishing to avail themselves of this alternative should consult their own financial, tax and legal advisors. See "*The Arrangement – Alternative Election Procedure for Certain Securityholders*".

Notice of Guaranteed Delivery

If a Common Shareholder wishes to elect to receive Trust Units and AltaGas LP #1 B Units in exchange for its Common Shares pursuant to the Arrangement and: (a) the certificate(s) representing the Common Shares are not immediately available, or (b) such Common Shareholder is not able to deliver such certificate(s) and all other required documents to the Depository at or prior to 4:30 p.m. (Calgary time) on the Election Deadline, such Common Shares may nevertheless be deposited pursuant to the Arrangement provided that all of the following conditions are met:

(i) such deposit is made by or through an Eligible Institution;

(ii) a properly completed and duly executed copy of the Notice of Guaranteed Delivery, or a manually signed facsimile hereof, is received at the office of the Depository in Calgary listed in the Notice of Guaranteed Delivery, at or prior to the Election Deadline; and

(iii) the certificate(s) representing deposited Common Shares in proper form for transfer, together with a properly completed and duly executed Letter of Transmittal and Election Form, or a manually signed facsimile thereof, covering the Common Shares and all other documents required by the Letter of Transmittal and Election Form, are received by the Depository at the same office at or before 4:30 p.m. (Calgary time) on the fifth trading day on the TSX after the Election Deadline.

The Notice of Guaranteed Delivery may be delivered by hand, transmitted by facsimile transmission or mailed to the Calgary office listed in the Notice of Guaranteed Delivery at or prior to the Election Deadline and must be guaranteed by an Eligible Institution in the manner set forth in the Notice of Guaranteed Delivery. See "*The Arrangement – Procedure for Exchange of Securities – Notice of Guaranteed Delivery*".

Distributions

The Trust currently intends to make cash distributions to Trust Unitholders on each monthly Distribution Payment Date equal to the Cash Flow of the Trust. The Cash Flow of the Trust will be determined giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements and the consolidated debt repayment requirements of the Trust. The intent is to maximize the Cash Flow of the Trust giving consideration to these consolidated financial requirements and long term Trust Unitholder value.

Immediately following the Effective Date, Trust Unitholders and holders of Exchangeable Securities will receive monthly Distributions of the cash flow generated by AmalgamationCo, and in the future will receive

Distributions of the cash flow generated both by AmalgamationCo and any other operating entities owned, directly or indirectly, by the Trust. The Trust will employ a strategy to: (a) provide Trust Unitholders and holders of Exchangeable Securities with a competitive annual cash-on-cash yield by making monthly cash Distributions to Trust Unitholders and holders of Exchangeable Securities; (b) maintain AmalgamationCo's existing assets, and any additional assets acquired either by AmalgamationCo or any other operating entities owned, directly or indirectly, by the Trust, in a manner that provides predictable cash flow; and (c) enable AmalgamationCo, and any other operating entities owned, directly or indirectly, by the Trust, to continue to expand its business through development, expansion and acquisition opportunities that will provide long-term stable cash flows and be accretive to Trust Unitholders.

As the cash flow available for distribution to Trust Unitholders is a function of numerous factors, including AmalgamationCo's financial performance, the impact of interest rates, electricity prices, gas and natural gas liquids prices, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of Trust Units and Exchangeable Securities outstanding, depending on the operations of AmalgamationCo and the performance of its assets, Distributions may be reduced or suspended entirely. The market value of the Trust Units may deteriorate if the Trust is unable to meet its cash distribution targets in the future, and that deterioration may be material. See "*Risk Factors*".

It is currently intended that the Trust will make cash Distributions to Trust Unitholders from distributions on the trust units of Holding Trust. In addition, Trust Unitholders may, at the discretion of AmalgamationCo, as the administrator of Holding Trust pursuant to the Administration Agreement, receive distributions in respect of prepayments of principal on the Series 1 Notes made by Holding Trust before the maturity of the Series 1 Notes. See "*The Arrangement – Effect of the Arrangement*" and "*Management of the Trust – Administration Agreement*".

Background to and Reasons for the Arrangement

AltaGas has continually reviewed all options available to it to ensure that its capital structure is efficient and that Securityholder value is being maximized. In this regard, in mid-2003, at the request of the AltaGas Directors, certain senior management of AltaGas conducted a preliminary review of how the business of AltaGas could be reorganized into an income trust structure, including how Enbridge as owner of 9,197,500 Common Shares and all of the Participating Shares and as party to the Shareholder Agreement and Registration Rights Agreement might participate in that potential reorganization.

For purposes of this review, AltaGas' senior management retained RBC as financial advisors. Part of the work undertaken by senior management during this period included discussions and other communications with Enbridge regarding the potential reorganization.

Senior management reported the results of its preliminary review to the AltaGas Directors at a meeting on November 12, 2003. At this meeting the AltaGas Directors considered the possibility that for purposes of Policy 61-501, Enbridge is a "related party" to AltaGas.

Accordingly, to ensure that:

(a) any negotiations with Enbridge regarding the potential reorganization occurred free from any perception of conflict of interest; and

(b) the AltaGas Directors discharged their duties as directors and complied with the requirements of applicable laws in respect of any such negotiations, including Policy 61-501;

on November 12, 2003 the Board of Directors established the Special Committee with the mandate to, among other things:

(a) supervise the continued development of the potential reorganization by certain of AltaGas' senior management;

(b) conduct and/or supervise all negotiations with Enbridge to determine the manner in which Enbridge may participate in the potential reorganization; and

(c) determine whether any potential reorganization, including the terms of Enbridge's participation therein, is in the best interests of AltaGas.

The Special Committee's first meeting was on December 10, 2003, following which senior management and its advisors formed a working group that undertook an extensive review of the merits of a proposed reorganization of AltaGas, including a review of the current environment for, and trading levels of, comparable income funds, AltaGas' business prospects, the suitability of AltaGas' assets for an income trust structure, and AltaGas' requirements for equity capital to fund its future growth.

Senior management also met with Enbridge representatives to determine whether Enbridge would be prepared to support the potential reorganization of AltaGas. Enbridge retained Scotia Capital Inc. to provide it with financial advice in respect of the potential reorganization being proposed by senior management. On February 11, 2004 senior management and RBC met with representatives from Enbridge and Scotia Capital Inc. to provide them with financial information regarding the proposed reorganization.

During this period senior management, with the assistance of its advisors, developed a plan for the potential reorganization of the business of AltaGas into an income trust structure. Under senior management's plan all Securityholders (including Enbridge) would participate in the potential reorganization on substantially the same terms. In addition, during this period senior management reported to the Chairman of the Special Committee on a regular basis regarding the status of the review being conducted including the results of negotiations with Enbridge.

The results of senior management's review supported the conclusion that AltaGas should undertake a reorganization of its business into an income trust structure. This conclusion was reinforced by Enbridge who delivered a letter to the Special Committee on February 17, 2004 confirming that Enbridge would support a reorganization of AltaGas in the manner being proposed by senior management (which proposal was substantially the same as the Arrangement set forth in the Plan).

At a meeting on February 18, 2004 the AltaGas Directors, on the recommendation of the Special Committee, authorized AltaGas to issue a press release announcing that the Special Committee was conducting its review and confirming that the Special Committee would make its recommendation with respect to its review to the AltaGas Directors in the next few weeks.

Recommendations of the Special Committee

At a Special Committee meeting on March 10, 2004 RBC verbally advised the Special Committee that in the opinion of RBC the consideration under the Arrangement would be fair from a financial point of view to the Common Shareholders. At this time, senior management reported to the Special Committee that Enbridge continued to support the reorganization of AltaGas in accordance with the proposed Plan and had agreed to sign the Principal Shareholder Agreement in confirmation of that support. See "*The Arrangement – Confirmation of Support – Principal Shareholder Agreement*" for a description of the terms of the Principal Shareholder Agreement. The Special Committee unanimously concluded that the reorganization of AltaGas in the manner described in the proposed Plan would be in the best interests of AltaGas. At a meeting on March 10, 2004 the Special Committee recommended to the AltaGas Directors that the AltaGas Directors should:

(a) authorize AltaGas to enter into the Principal Shareholder Agreement with Enbridge;

(b) authorize AltaGas to enter into the Arrangement Agreement and proceed with the proposed reorganization in the manner provided in the Plan;

(c) submit the Plan and the Arrangement Resolution to a vote of the Securityholders at the Meeting; and

(d) recommend to the Securityholders that they vote in favour of the Arrangement Resolution at the Meeting.

The Special Committee based its recommendations on a number of factors. See "*The Arrangement – Recommendations of the Special Committee*" for a comprehensive list of those factors.

Approvals

Implementation of the Arrangement requires the satisfaction of several conditions and approval by Securityholders and the Court. See "*The Arrangement – Conditions to the Arrangement Becoming Effective*".

Securityholder Approval

Pursuant to the Interim Order, the majority required to pass the Arrangement Resolution shall be not less than two-thirds of the votes cast by Common Shareholders, Participating Shareholders and Optionholders, voting together as a class, either in person or by proxy, at the Meeting. See "*General Proxy Matters – Solicitation of Proxies*" and "*General Proxy Matters – Procedure and Votes Required*".

Court Approvals

An application for the Final Order approving the Arrangement is expected to be made on April 30, 2004 at 9:00 a.m. (Calgary time) at the Court House, 611 - 4th Street S.W., Calgary, Alberta. On the application, the Court will consider the fairness of the Arrangement.

Fairness Opinion

AltaGas senior management retained RBC to address the fairness, from a financial point of view, of the Arrangement to Common Shareholders. In connection with this mandate, RBC has prepared and delivered the Fairness Opinion. The Fairness Opinion states that, in RBC's opinion, as of March 26, 2004, the consideration under the Arrangement is fair, from a financial point of view, to Common Shareholders. The Fairness Opinion is subject to the assumptions and limitations contained therein and should be read in its entirety. See "*The Arrangement – Fairness Opinion*" and Appendix G, "*Fairness Opinion of RBC Dominion Securities Inc.*"

Recommendation of the AltaGas Directors

The AltaGas Directors have concluded that the Arrangement, in their opinion, is in the best interests of AltaGas and recommend that Securityholders vote in favour of the Arrangement Resolution.

The AltaGas Directors accepted the recommendations of the Special Committee and approved the proposed Arrangement, authorized AltaGas to enter into the Principal Shareholder Agreement and the Arrangement Agreement, authorized the application to the Court for the Interim Order and authorized the submission of the Arrangement Resolution to the Securityholders for consideration at the Meeting and to the Court for approval.

See "*The Arrangement – Recommendation of the AltaGas Directors*" for the factors considered by the AltaGas Directors in coming to their conclusions regarding the report of the Special Committee.

Confirmation of Support

Collectively, holders of an aggregate of 12,250,691 Common Shares, 9,000,000 Participating Shares and 913,488 Options (including Enbridge and all of the directors and officers of AltaGas) representing 48.26% of the outstanding Common Shares on a diluted basis, have agreed to vote all of the Securities beneficially owned by them in favour of the Arrangement Resolution.

Enbridge has confirmed its support for the Arrangement by entering into the Principal Shareholder Agreement. See "*The Arrangement – Confirmation of Support – Principal Shareholder Agreement*". The directors

and senior officers of AltaGas, who control approximately 10.74% of the Common Shares of AltaGas (assuming the exercise of Options held by them), have also indicated to the AltaGas Directors that they intend to vote in favour of the proposed Arrangement Resolution at the Meeting.

The Trust

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta pursuant to the Declaration of Trust. The Trust was established principally for the purposes of investing in the securities of Holding Trust, the General Partner, AltaGas or any associate or affiliate thereof in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses.

The Trust Unitholders will be the sole beneficiaries of the Trust. The Trust will be the sole shareholder of the General Partner.

The Trust will initially permit Trust Unitholders to participate in the cash flow from AmalgamationCo's business to the extent such cash flow is distributed by the Trust and in the future will permit Trust Unitholders to participate both in the cash flow from AmalgamationCo's business and the business of any other operating entity thereafter owned, directly or indirectly, by the Trust. Each Trust Unit will entitle the holder thereof to receive monthly cash Distributions. Pursuant to the Declaration of Trust, the Board of Directors of the General Partner will be elected by the Trust at the direction of the Unitholders. See "*Declaration of Trust and Description of Units – Meetings of Unitholders*".

Computershare Trust Company of Canada is the initial Trustee of the Trust. Pursuant to the Delegation Agreement, certain of the powers and duties of the Trustee will be delegated to the General Partner. Pursuant to the Administration Agreement, the management and administration of the Trust will be delegated to AmalgamationCo. See "*Information Concerning the Trust*", "*Management of the Trust – Administration Agreement*" and "*Management of the Trust – Delegation Agreement*".

Holding Trust

Holding Trust is an unincorporated investment trust created under the laws of Alberta pursuant to the Holding Declaration of Trust whose activities will initially be limited to holding securities of AltaGas LP #1. All of the outstanding securities of Holding Trust will be owned by the Trust. AltaGas Holding Trust Corp. is the initial Holding Trust Trustee. See "*Information Concerning Holding Trust*".

The Partnerships

AltaGas LP #1 is a limited partnership formed under the laws of the Alberta. Following completion of the Arrangement, all of the LP #1 A Units will be held by Holding Trust and all of the LP #1 B Units will be held by those Eligible Securityholders (other than Enbridge) electing pursuant to the Arrangement to receive, and who do receive, LP #1 B Units and Trust Units in exchange for their Common Shares.

AltaGas LP #2 is a limited partnership formed under the laws of Alberta. Following completion of the Arrangement, all of the LP #2 A Units will be held by AltaGas LP #1 and all of the LP #2 B Units will be held by Enbridge or Enbridge and its affiliates.

See "*Information Concerning the Partnerships*".

The General Partner

The General Partner is a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust. The General Partner is the general partner of both AltaGas LP #1 and AltaGas LP #2.

Pursuant to: (i) the Declaration of Trust, the Board of Directors of the General Partner will be elected by the Trust at the direction of the Unitholders; (ii) the Delegation Agreement, the General Partner will be delegated certain of the Trustee's powers and duties in respect of the business and affairs of the Trust; and (iii) the Unanimous Shareholder Agreement, the General Partner will be entitled to exercise the powers of the directors of AmalgamationCo to manage, or supervise the management of, the business and affairs of AmalgamationCo. See "*Management of the Trust – Delegation Agreement*", "*Information Concerning the General Partner – Unanimous Shareholder Agreement*" and "*Declaration of Trust and Description of Units – Meetings of Unitholders*".

AmalgamationCo

AmalgamationCo will be the continuing entity resulting from the amalgamation of AltaGas, each of the Holdcos, LP Subco and each of the Amalgamating Subsidiaries under the Arrangement. AmalgamationCo will hold legal title to the assets of AltaGas. Under the Arrangement, AmalgamationCo will become an indirect subsidiary of the Trust through Holding Trust, AltaGas LP #1 and AltaGas LP #2.

AmalgamationCo will provide all of the management, administrative and operating services to the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 pursuant to the Administration Agreement. See "*Information Concerning AmalgamationCo*" and "*Management of the Trust – Administration Agreement*".

Stock Exchange Listing Approval

It is a condition to the completion of the Arrangement that the TSX shall have approved the listing of the Trust Units, subject only to the filing of required documents which cannot be filed prior to the Effective Date. See "*The Arrangement - Stock Exchange Listing Approval*".

Certain Canadian Federal Income Tax Considerations

This Information Circular contains a summary of certain Canadian federal income tax considerations generally applicable to Common Shareholders under the Arrangement, Partners holding Exchangeable Securities and Trust Unitholders holding Trust Units. The following comments are qualified in their entirety by that summary in the Information Circular. See "*Certain Canadian Federal Income Tax Considerations*".

The combined Canadian federal income tax consequences of the transactions comprising the Arrangement generally will result in a Common Shareholder realizing a capital gain (or a capital loss) equal to the amount by which the aggregate FMV of the Trust Units and Exchangeable Securities received on completion of the Arrangement exceeds (or is less than) the aggregate ACB of such Common Shareholder's Common Shares and any reasonable costs of disposition. There is a limited opportunity for Electing Eligible Securityholders to receive Trust Units and Exchangeable Securities on a wholly or partially tax-deferred basis if an election is filed under subsection 97(2) of the Tax Act.

A holder who is not a Resident generally will not be subject to tax in respect of any capital gain realized on a disposition of a Common Share or Trust Unit (whether on sale, redemption, by virtue of capital distributions in excess of a Trust Unitholder's ACB or otherwise) unless such property constitutes "taxable Canadian property" for purposes of the Tax Act of the holder and no relief is available to the holder under the provisions of an income tax convention between Canada and the holder's jurisdiction of residence.

A Trust Unitholder who is a Resident generally will be required to include in income for a particular taxation year the portion of the net income of the Trust for a taxation year, including net realized taxable capital gains, that is paid or is payable to the Trust Unitholder in the Trust Unitholder's particular taxation year whether such portion is received in cash, additional Trust Units or otherwise. All amounts that the Trust pays or credits, or is deemed to pay or credit, to a Trust Unitholder who is not a Resident, which otherwise would be included in the income of such Unitholder (determined in accordance with the Tax Act) will be subject to Canadian withholding tax at a rate of 25% of the gross amount thereof, unless such rate is reduced under an applicable income tax convention.

A Partner generally will be required to include in computing such Partner's income for a particular taxation year the Partner's share of the income or loss, as the case may be, of the particular Partnership of which the Partner is a member at any time in the fiscal year of the Partnership ending on or before the Partner's taxation year end, whether or not any of that income is distributed to the Partner in the taxation year.

The Trust Units will be qualified investments for Exempt Plans and RESPs provided that the Trust is a mutual fund trust under the Tax Act. The Exchangeable Securities will not be qualified investments for Exempt Plans or RESPs.

Based in part on representations of the Trust, Holding Trust, AltaGas and the General Partner as to certain factual matters and proposed activities, the Trust Units, if issued on the Effective Date, will not constitute foreign property for purposes of Part XI of the Tax Act for Exempt Plans. RESPs are not subject to the foreign property rules.

The Notice of Ways and Means Motion released as an annex to the March 23, 2004 Federal Budget (the "**Budget**") proposes to introduce changes to the Tax Act which imposes a tax on a registered pension plan's investment in trust units above certain limits unless 90% or more of the fair market value of the particular trust's property is attributable to, *inter alia*, real property. Further, the Budget proposes to introduce changes to the Tax Act that subject persons who are not Residents to tax in respect of certain distributions made by mutual fund trusts that otherwise would not be subject to taxation in Canada. It is not clear whether these proposals will result in tax consequences to Trust Unitholders that are materially different from those disclosed in this Information Circular. Prospective Trust Unitholders that are registered pension plans or who are not Residents should consult their own tax advisors regarding the income tax considerations applicable to them in their particular circumstances.

Certain United States Federal Income Tax Considerations

This Information Circular also contains a summary of certain United States federal income tax considerations generally applicable to Common Shareholders that are United States persons and that acquire Trust Units as part of the Arrangement. The following comments are qualified in their entirety by that summary. See "*Certain United States Federal Income Tax Considerations*".

As part of the Arrangement, United States Common Shareholders will exchange their Common Shares for Trust Units. Based in part on certain representations of AltaGas, the exchange should not result in United States federal income tax to those United States Common Shareholders that will hold less than 5% (directly and by attribution) of the total Trust Units issued in the Arrangement.

For United States federal income tax purposes, the Trust Units will represent equity interest in a corporation. The gross amount of any distribution paid to a United States Trust Unitholder with respect to a Trust Unit will generally be a taxable as a dividend to such holder to the extent of the current or accumulated earnings and profits of the Trust. To the extent Canadian income tax is withheld on such distributions, a United States Trust Unitholder may, subject to certain limitations, claim a tax credit against such holder's United States federal income tax liability for the Canadian income taxes withheld.

A United States Trust Unitholder who sells Trust Units generally will recognize gain or loss on the sale based on the difference between the amount realized and the holder's adjusted gross basis in the Trust Units. Generally, any gain or loss will be long-term or short-term capital gain or loss (depending on the length of time the United States holder is treated as owning the Trust Units).

The United States tax consequences to a United States Common Shareholder of acquiring, holding and disposing of Trust Units will depend on the particular circumstances of such shareholder. United States Common Shareholders are urged to consult with their own tax advisors to determine the particular tax consequences to them of the Arrangement.

Non-Canadian Income Tax Considerations

This Information Circular does not contain a summary of the non-Canadian income tax consequences of the Arrangement for Securityholders, Trust Unitholders and Partners who are subject to income tax outside of Canada, other than United States federal income tax consequences. Such holders should consult their tax advisors with respect to the tax implications of the Arrangement, including any associated filing requirements, in such jurisdictions. See "*Non-Canadian Income Tax Considerations*".

Selected Pro Forma Financial Information for the Trust

The following is a summary of selected pro forma financial information for the assets owned, directly or indirectly, on a consolidated basis by the Trust following the completion of the Arrangement, for the period indicated. The following should be read in conjunction with the pro forma financial statements of the Trust and the notes thereto attached as Appendix H to the Information Circular. See "*Selected Pro Forma Financial Information for the Trust*".

		Year ended December 31, 2003 (unaudited) (000's)
Total revenues	$	708,884
Cost of sales		489,027
Operating income		83,554
Net income		59,004
Total assets		918,617
Total debt		396,851

Pro Forma Distributable Cash

The following is a summary of selected pro forma financial information for the Trust. It reflects funds generated from the assets owned, directly or indirectly, by AmalgamationCo following the completion of the Arrangement, for the periods indicated. See "*Distribution Policy - Pro Forma Distributable Cash*".

Management of the Trust and AltaGas have provided the following analysis to assist Securityholders in analyzing the income of the Trust and the amounts of Distributable Cash that would have been available to the Trust for distribution to Trust Unitholders and holders of Exchangeable Securities had the Trust been in existence for the year ended December 31, 2003. This analysis was prepared on the assumption that the Arrangement had been completed, that AmalgamationCo had retained all of AltaGas' business and that the other transactions contemplated by the Arrangement had all been completed at the beginning of such period. Although firm commitments do not exist for all of the administrative expenses and, accordingly, the financial effect of the inclusion of all necessary administrative expenses is not at present determinable, management of AltaGas has, based on its review of the amounts of these expenses in similar circumstances, estimated that these expenses would not deviate materially from the amounts shown below.

The pro forma information is not a forecast or a projection of future results. The actual results of operations of the Trust for any period following the Effective Date will vary from the amounts set forth in the following analysis, and these variations may be material.

AltaGas Income Trust

	Pro Forma Year Ended December 31, 2003
	(000's except per unit amounts)
Funds generated from operations[2]	$ 90,176
Add (deduct):	
Capital expenditures[3]	(60,181)
Pro forma adjustment to current income taxes	7,439
Funds drawn from long-term debt and working capital	33,884
Distributable Cash[1]	$ 71,318
Weighted average number of Trust Units and Exchangeable Securities	45,717
Distributable Cash per Trust Unit and Exchangeable Security for the period	$ 1.56
Distributable Cash per Trust Unit and Exchangeable Security per month (simple average)	$ 0.13

Notes:

(1) Distributable Cash available for Distribution is not recognized by Canadian generally accepted accounting principles and is not necessarily comparable to the measurement of distributable cash available for distribution in other similar trust entities.
(2) Funds generated from operations has been calculated by adding back to net income items not involving cash.
(3) Capital expenditures represent AltaGas' investing activities for 2003.

THE ARRANGEMENT

Background to and Reasons for the Arrangement

AltaGas has continually reviewed all options available to it to ensure that its capital structure is efficient and that Securityholder value is being maximized. In this regard, in mid-2003, at the request of the AltaGas Directors, certain senior management of AltaGas conducted a preliminary review of how the business of AltaGas could be reorganized into an income trust structure, including how Enbridge as owner of 9,197,500 Common Shares and all of the Participating Shares and as party to the Shareholder Agreement and Registration Rights Agreement might participate in that potential reorganization.

For purposes of this review, AltaGas senior management retained RBC as financial advisors, Stikeman Elliott LLP as Canadian corporate and securities law advisors, Felesky Flynn LLP as Canadian tax advisors, Mayer, Brown, Rowe & Maw LLP as United States securities and tax advisors and McCarthy Tétrault LLP to review the terms of certain of AltaGas' debt obligations.

Part of the work undertaken by senior management during this period included discussions and other communications with Enbridge regarding the potential reorganization. Information provided to Enbridge regarding the potential reorganization was subject to the provisions of a confidentiality agreement that was entered into between AltaGas and Enbridge on October 29, 2003.

Senior management reported the results of its preliminary review to the AltaGas Directors at a meeting on November 12, 2003. At this meeting the AltaGas Directors considered the possibility that for the purposes of Policy 61-501, Enbridge is a "related party" to AltaGas.

Accordingly to ensure that:

(a) any negotiations with Enbridge regarding the potential reorganization occurred free from any perception of conflict of interest; and

(b) the AltaGas Directors discharged their duties as directors and complied with the requirements of applicable laws in respect of any such negotiations, including Policy 61-501;

on November 12, 2003 the Board of Directors established the Special Committee consisting of John B. Breen, Denis C. Fonteyne, Daryl H. Gilbert, Myron F. Kanik and David F. Mackie, which individuals would be considered "independent directors" for purposes of Policy 61-501.

The AltaGas Directors determined that the mandate of the Special Committee would be to:

(a) supervise the continued development of the potential reorganization by certain of AltaGas' senior management;

(b) conduct and/or supervise all negotiations with Enbridge to determine the manner in which Enbridge may participate in the potential reorganization;

(c) determine whether any potential reorganization, including the terms of Enbridge's participation therein, are in the best interests of AltaGas;

(d) retain one or more independent financial advisors for the purpose of assisting the Special Committee in the discharge of its mandate, including (if determined by the Special Committee to be necessary or advisable) at the expense of Enbridge, an independent financial advisor for the purpose of obtaining a formal valuation, within the meaning of Policy 61-501, any such financial advisor to be selected, retained, instructed and supervised by the Special Committee; and

(e) report its findings to the AltaGas Directors and make such recommendations to the AltaGas Directors as the Special Committee considers appropriate.

The AltaGas Directors granted the Special Committee all such powers as may be required to discharge its mandate.

The Special Committee's first meeting was on December 10, 2003. At that meeting Myron F. Kanik was appointed Chairman of the Special Committee and AltaGas senior management and its advisors were directed to continue their review of whether to reorganize the business of AltaGas into an income trust structure, including how Enbridge might participate in any such reorganization.

Following the Special Committee meeting on December 10, 2003, senior management and its advisors formed a working group that undertook an extensive review of the merits of a proposed reorganization of AltaGas, including a review of the current environment for, and trading levels of, comparable income funds, AltaGas' business prospects, the suitability of AltaGas' assets for an income trust structure, and AltaGas' requirements for equity capital to fund its future growth. The working group met frequently during the period following December 10, 2003 in connection with this review and other matters. The Special Committee, senior management and its advisors also actively considered several other alternatives that may be available to AltaGas to maximize Securityholder value before concluding that the potential reorganization would be the best alternative available to AltaGas.

Accordingly, senior management, with the assistance of its advisors, developed a plan for the potential reorganization of the business of AltaGas into an income fund trust structure. Under this plan, all Securityholders (including Enbridge) would participate in the potential reorganization on substantially the same terms.

A reorganization into an income trust structure in the manner contemplated by the plan developed by senior management is generally designed to achieve commercial and tax efficiencies not available to a corporation. These tax efficiencies result from the fact that under Canadian income tax law a Canadian resident trust, although it is a taxable entity, is generally entitled to deduct, in computing its taxable income for a taxation year, the portion thereof that is paid or becomes payable in that year to beneficiaries. Therefore, a trust that distributes all or substantially all of its income to beneficiaries generally will not be liable for any material amount of Canadian tax. By comparison, corporations cannot deduct dividends paid to their shareholders. Therefore, under a corporate structure there is an element of double taxation, with the income being subject to tax in the corporation and dividends generally being taxable to shareholders.

Senior management also met with Enbridge representatives to determine whether Enbridge would be prepared to support the potential reorganization of AltaGas. Several meetings in this regard occurred between AltaGas and Enbridge representatives.

Enbridge retained Scotia Capital Inc. to provide it with financial advice in respect of the potential reorganization being proposed by senior management. On February 11, 2004 senior management and RBC met with representatives of Enbridge and Scotia Capital Inc. to provide them with financial information regarding the proposed reorganization.

During the period from November 12, 2003 to February 17, 2004 senior management reported to the Chairman of the Special Committee on a regular basis regarding the status of the review being conducted including the results of negotiations with Enbridge. In addition the Chairman of the Special Committee regularly consulted and held discussions with the AltaGas Directors, Enbridge representatives and other parties to the extent necessary for the Special Committee to perform its mandate.

The Special Committee met to consider senior management's reports and other matters on December 10, 2003, December 22, 2003, January 13, 2004, January 20, 2004, February 6, 2004, February 18, 2004, March 1, 2004 and March 10, 2004. At these meetings, the members of the Special Committee reviewed and discussed the terms of and reasons for the potential reorganization and for these purposes met with senior management and the advisors and received reports from RBC regarding market conditions for income fund offerings.

The results of senior management's review during this period supported the conclusion that AltaGas should undertake a reorganization of its business into an income trust structure. This conclusion was reinforced by Enbridge who delivered a letter to the Special Committee on February 17, 2004 confirming that Enbridge would support a reorganization of AltaGas in the manner being proposed by senior management (which proposal was substantially the same as the Arrangement set forth in the Plan).

Accordingly, at the Special Committee meeting on February 18, 2004 senior management recommended that AltaGas issue a press release announcing that the Special Committee was conducting its review and confirming that the Special Committee would make its recommendation with respect to its review to the AltaGas Directors in the following few weeks.

At a meeting on February 18, 2004 the AltaGas Directors received the Special Committee's report, accepted its recommendation and authorized the press release to be issued on February 18, 2004.

Recommendations of the Special Committee

During the period from February 18, 2004 to March 10, 2004 the Special Committee completed its review with the assistance of senior management and its advisors. At a Special Committee meeting on March 10, 2004 RBC provided the Special Committee with advice on the current market for income fund units. RBC also verbally advised the Special Committee that in the opinion of RBC the consideration under the Arrangement would be fair from a financial point of view to Common Shareholders. At this meeting, RBC described the material factors on which its assessment of fairness is based and the methodologies and procedures followed by it in carrying out its work. RBC also indicated to the Special Committee that it would confirm the verbal opinion in writing to the AltaGas Directors. The Special Committee assumed for purposes of its conclusions and for its recommendations to the AltaGas Directors that RBC would provide the Fairness Opinion, and that the Fairness Opinion would be consistent with the verbal opinion provided to the Special Committee at the March 10, 2004 meeting and would be based on acceptable assumptions and qualifications.

Although the Special Committee was authorized to retain its own advisors, it determined throughout its process that separate advisors would not be necessary given that under the Plan proposed by the Special Committee and agreed to by Enbridge, all Securityholders (including Enbridge) would participate in the potential reorganization on substantially the same terms.

Also at the March 10, 2004 meeting, senior management reported to the Special Committee that Enbridge continued to support the reorganization of AltaGas in accordance with the proposed Plan and had agreed to sign the Principal Shareholder Agreement in confirmation of that support. See "*The Arrangement – Confirmation of Support – Principal Shareholder Agreement*".

On the basis of the reviews conducted by senior management and its advisors and the foregoing considerations, the verbal opinion of RBC, the advice of the legal advisors and its knowledge of the affairs and present financial conditions of and prospects for AltaGas, the Special Committee unanimously concluded that the reorganization of AltaGas in the manner described in the proposed Plan would be in the best interests of AltaGas.

Accordingly, at a meeting on March 10, 2004, the Special Committee unanimously recommended to the AltaGas Directors that, subject to obtaining all necessary third party consents, the negotiation of all applicable documents and the receipt by the AltaGas Directors of the Fairness Opinion, the AltaGas Directors should:

(a) authorize AltaGas to enter into the Principal Shareholder Agreement with Enbridge;

(b) authorize AltaGas to enter into the Arrangement Agreement and proceed with the proposed reorganization in the manner provided in the Plan;

(c) submit the Plan and the Arrangement Resolution to a vote of the Securityholders at the Meeting; and

(d) recommend to the Securityholders that they vote in favour of the Arrangement Resolution at the Meeting.

The Special Committee based its recommendation on a number of factors including:

(a) AltaGas' network of high quality energy infrastructure assets delivers predictable long-life operating cash flows from a diverse portfolio of businesses. Funds generated from operations for the year ended December 31, 2003 were $90.2 million, or $1.98 per Common Share;

(b) capital spent in 2003 to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines and to maintain rate base at AltaGas Utilities was approximately $14.0 million;

(c) the income trust structure will allow AltaGas to reduce future cash tax liability at the corporate level thereby increasing the amount of cash available for distribution to Trust Unitholders;

(d) the Trust will continue to operate on the same fundamentals that contributed to AltaGas' success, being:

(i) focusing on a portfolio of energy infrastructure based assets;

(ii) growing through internal expansion and strategic acquisitions;

(iii) providing stable cash flows through diverse energy businesses;

(iv) managing operational risk, contractually and geographically;

(v) striving for operational excellence; and

(vi) maintaining financial strength and flexibility;

(e) AltaGas will continue to be managed by its existing management and employees, who have demonstrated their capability in delivering accretive growth by acquisitions, effective operations and expansions and prudent financial management;

(f) it is anticipated that the reorganization of AltaGas' business into an income trust structure will attract new investors and provide, in the aggregate, a more active and liquid market for the Trust Units than currently exists for the Common Shares;

(g) AltaGas will continue to make accretive acquisitions and expand AltaGas' business, further enhancing values for the Trust Unitholders;

(h) cash Distributions to Trust Unitholders are anticipated to provide an attractive return without impairing the ability of the Trust to sustain its existing assets;

(i) it is anticipated that the combined value of distributions plus the market value of the Trust Units will be greater on both a pre-tax and after-tax basis than the combined value of dividends that could otherwise be paid on the Common Shares plus the market value of the Common Shares;

(j) as part of the Plan, the Participating Shares owned by Enbridge will be converted into Common Shares and Enbridge will participate in the Plan on substantially the same terms as the other Securityholders. The rights and obligations that Enbridge would have under the Shareholder Agreement and Registration Rights Agreement will continue with the Trust;

(k) the verbal opinion of RBC that the consideration under the Arrangement would be fair from a financial point of view to the Common Shareholders; and

(l) the mechanics, structure and timing of implementation of the Arrangement, including in particular the availability of rights to the Securityholders to dissent to the Arrangement in accordance with Section 190 of the CBCA.

A wide variety of information and numerous factors were considered by the Special Committee in connection with its analysis of whether to reorganize the business of AltaGas into an income trust structure in the manner provided in the Plan. In reaching its conclusions and in formulating its recommendations to the AltaGas Directors, the Special Committee placed greater emphasis on the verbal opinion of RBC than any other factor.

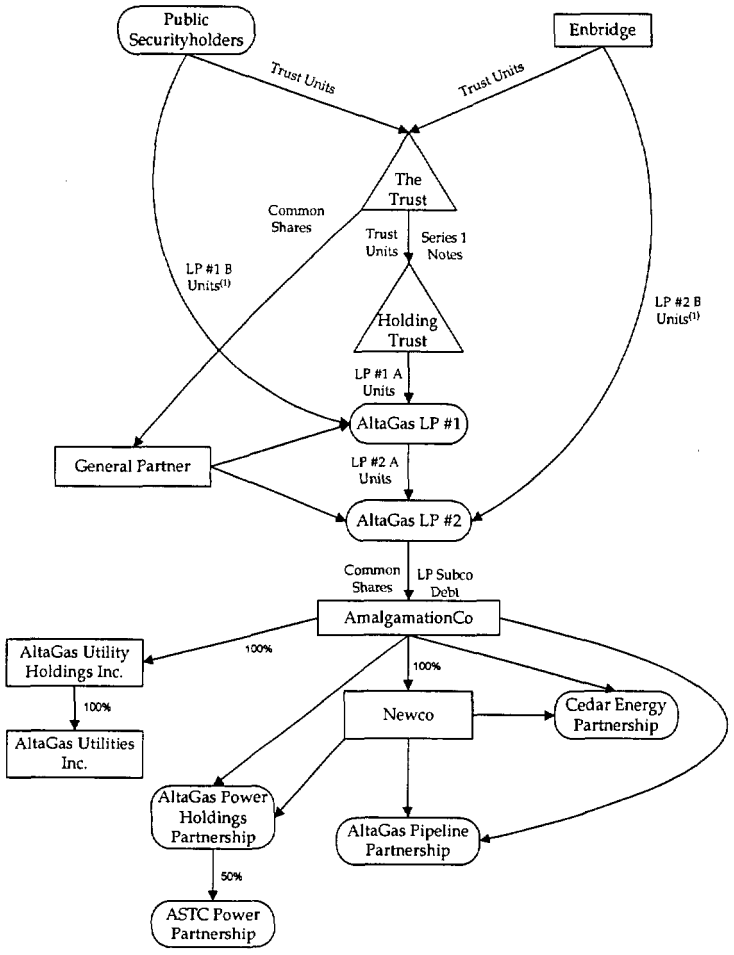
Effect of the Arrangement

On March 26, 2004 there were 36,927,793 Common Shares and 9,000,000 Participating Shares of AltaGas outstanding. In addition, 1,384,488 Common Shares were issuable pursuant to outstanding Options.

The Arrangement will result in Securityholders (excluding Dissenting Securityholders) effectively having exchanged their Common Shares (including any Common Shares resulting from the conversion of Participating Shares pursuant to the Plan) held on the Effective Date, in the case of Eligible Securityholders, for Trust Units or a combination of Trust Units and Exchangeable Securities, and in the case of non-Eligible Securityholders, for Trust Units.

In addition, AltaGas will have amalgamated with LP Subco, each of the Holdcos and the Amalgamating Subsidiaries to form AmalgamationCo, after which all of the common shares of AmalgamationCo and the LP Subco Debt will be owned directly by AltaGas LP #2, and indirectly by the Trust. The Exchangeable Securities are intended to be, to the extent possible, the economic and voting equivalent of Trust Units and will be exchangeable for Trust Units on a one-for-one basis. The maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a FMV equal to the Aggregate Permitted Exchange Amount. If Securityholders (including Enbridge) elect to receive such number of Exchangeable Securities as would result in greater than the maximum number of Exchangeable Securities being issued, the Exchangeable Securities will be prorated in the manner provided in the definition of Specified Gain Amount and Eligible Securityholders will receive Trust Units in lieu of Exchangeable Securities for any amounts elected by them in excess of their *pro rata* share. Each Exchangeable Security will be exchangeable for one Trust Unit and be entitled to the same monthly cash Distributions as a Trust Unit. Securityholders who are not Eligible Securityholders will only be eligible to receive, in exchange for each of their Common Shares, one Trust Unit. Any non-Eligible Securityholder who elects to receive Exchangeable Securities will be deemed to have elected to receive only Trust Units on completion of the Arrangement. For details regarding the Trust Units, see "*Declaration of Trust and Description of Units*". For details regarding the Exchangeable Securities, see "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities*".

Optionholders may participate in the Arrangement by exercising their vested Options and receiving the same consideration as Common Shareholders. All unvested Options, together with previously vested but unexercised Options, will become Trust Options following the Arrangement.



As a result of a Securityholder's Common Shares being exchanged for Trust Units or a combination of Trust Units and Exchangeable Securities pursuant to the Arrangement, the nature of a Securityholder's investment will be changed. See "*Information Concerning the Trust*" and "*Information Concerning AmalgamationCo*".

The Trust will employ a strategy to: (a) provide Trust Unitholders and holders of Exchangeable Securities with a competitive annual cash-on-cash yield by making monthly cash Distributions to Trust Unitholders and holders of Exchangeable Securities; (b) maintain AmalgamationCo's existing assets, and any additional assets acquired either by AmalgamationCo or any other operating entities owned, directly or indirectly, by the Trust, in a manner that provides predictable cash flow; and (c) enable AmalgamationCo, and any other operating entities owned, directly or indirectly, by the Trust, to continue to expand its business through development, expansion and

acquisition opportunities that will provide long-term stable cash flows and be accretive to Trust Unitholders. The senior management of AltaGas will effectively manage the business of the Trust following the completion of the Arrangement in their capacities as the senior management of AmalgamationCo. See "*Information Concerning AmalgamationCo*".

It is currently intended that the Trust will make cash Distributions to Trust Unitholders from distributions on the trust units of Holding Trust. In addition, Trust Unitholders may, at the discretion of AmalgamationCo, as the administrator of Holding Trust pursuant to the Administration Agreement, receive distributions in respect of prepayments of principal on the Series 1 Notes made by Holding Trust before the maturity of the Series 1 Notes.

The following diagram sets out the simplified organizational structure of the Trust, AmalgamationCo and the other entities participating in the Arrangement following the Effective Time:

Note:
(1) LP #1 B Units and LP #2 B Units will be exchangeable for Trust Units at the option of the holder on a one-for-one basis, will be entitled to vote with Trust Unitholders pursuant to the Special Voting Unit and will be entitled to the same distributions of cash per unit as made on a Trust Unit.

For further information regarding the Trust, AmalgamationCo, AltaGas LP #1 and AltaGas LP #2 and the General Partner, please refer to "*Information Concerning the Trust*", "*Information Concerning AmalgamationCo*", "*Information Concerning the Partnerships*" and "*Information Concerning the General Partner*".

Management Arrangements

The Trust will not be managed by a third party manager. Following completion of the Arrangement, the Trust will be managed by AmalgamationCo pursuant to the Administration Agreement, pursuant to which AmalgamationCo will also provide certain administrative services and facilities to AltaGas LP#1, AltaGas LP#2, the General Partner and Holding Trust. See also "*Management of the Trust – Administration Agreement*" and "*Information Concerning AmalgamationCo – Material Contracts*".

The Trustee of the Trust will also delegate certain of its powers and duties to the General Partner pursuant to the Delegation Agreement, including without limitation in respect of the governance of the Trust. See "*Management of the Trust – Delegation Agreement*".

Details of the Arrangement

The proposed Arrangement will result in the Trust indirectly owning all of AltaGas' existing business and making regular monthly distributions of cash to Trust Unitholders. The Trust will be efficiently managed by the same qualified team of professionals that presently manages AltaGas. These professionals have demonstrated their capabilities in delivering on financial and other objectives previously established at AltaGas and are committed to the future success of the Trust.

Pre-Arrangement Steps

Prior to the Effective Date, a number of pre-Arrangement steps will occur in the following sequence:

(a) Newco will contribute cash to each of Cedar Energy Partnership and AltaGas Power Partnership in exchange for partnership interests in each partnership;

(b) AltaGas, Newco and AltaGas Power Partnership will form AltaGas Power Holdings Partnership on a cash contribution by Newco, the contribution by AltaGas Power Partnership of all of its business interests and the contribution by AltaGas of its interest in ASTC Power Partnership to AltaGas Power Holdings Partnership in exchange for partnership interests in AltaGas Power Holdings Partnership;

(c) AltaGas Power Partnership will be wound up and the partners thereto will receive their proportionate undivided share of AltaGas Power Partnership's assets, consisting entirely of its interest in AltaGas Power Holdings Partnership; and

(d) Newco, AltaGas Suffield Pipeline Inc, AltaGas and AltaGas Transmission Ltd. will form AltaGas Pipeline Partnership on a cash contribution by Newco, the contribution by AltaGas Suffield Pipeline Inc. of all of its assets, the contribution by AltaGas of certain of its assets and the contribution by AltaGas Transmission Ltd. of certain of its assets.

Arrangement Steps

On the Effective Date, each of the events set out below shall occur and shall be deemed to occur in the following order without any further act or formality:

(a) the issued and outstanding Participating Shares, if any, shall be converted into Common Shares on a one for one basis;

(b) the Trust shall issue to Holding Trust that number of Trust Units to be exchanged by Holding Trust pursuant to (e)(i) below in exchange for the issue to the Trust by Holding Trust of that principal amount of Series 1 Notes equal to the product of that number of Trust Units multiplied by the Common Share Fair Market Value;

(c) at the same time:

(i) Common Shares (other than Enbridge Common Shares, Common Shares held by Holdcos to which (c)(ii) or (c)(iv) applies and Common Shares held by a Securityholder who has exercised Dissent Rights and is ultimately entitled to be paid the fair value of such Securityholder's Securities) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Common Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Eligible Shareholder's Specified Gain Amount with respect to such Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of such Common Shares and the number of LP #1 B Units determined pursuant to (A) above; and

the names of the holders of those Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of those Common Shares on the register of holders of Common Shares;

(ii) Holdco Shares (other than Holdco Shares of Holdcos holding Enbridge Common Shares) held by each Holdco Shareholder that is an Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of the Holdco's Common Shares and the number of LP #1 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of such Holdco Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(iii) Enbridge Common Shares (other than Common Shares held by Holdcos to which (c)(iv) applies) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Enbridge Common Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Eligible Securityholder's Specified Gain Amount with respect to such Enbridge Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of such Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Enbridge Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #2 B Units and LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Enbridge Common Shares on the register of holders of Common Shares; and

(iv) Holdco Shares of Holdcos holding Enbridge Common Shares held by each Holdco Shareholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of the Holdco's Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of Holdco Shares and added to the registers of holders of LP #2 B Units and LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(d) at the same time:

(i) LP #1 X Notes acquired pursuant to (c)(i) or (c)(ii) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to the holders thereof by AltaGas LP #1 of LP #1 A Units on a one for one basis and the names of the holders of such LP #1 X Notes shall be removed from the register of holders of LP #1 X Notes and added to the register of holders of LP #1 A Units and the LP #1 X Notes so transferred to AltaGas LP #1 shall be cancelled; and

(ii) LP #2 X Notes acquired pursuant to (c)(iii) or (c)(iv) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to the holders thereof by AltaGas LP #2 of LP #2 A Units on a one for one basis and the names of the holders of such LP# 2 X Notes shall be removed from the register of holders of LP #2 X Notes and added to the register of holders of LP #2 A Units and the LP #2 X Notes so transferred to AltaGas LP #2 shall be cancelled;

(e) at the same time:

(i) LP #1 A Units and LP #2 A Units acquired pursuant to (d)(i) and (d)(ii) above, respectively, shall be transferred to, and acquired by, Holding Trust in exchange for Trust Units on a one for one basis and the names of the holders of such LP #1 A Units and LP #2 A Units shall be removed from the registers of holders thereof and added to the register of holders of Trust Units and Holding Trust shall be recorded as the holder of such LP #1 A Units and LP #2 A Units on the registers of holders thereof; and

(ii) Common Shares in respect of each Securityholder to which (c) above does not apply (other than Common Shares held by a Securityholder who has exercised Dissent Rights

and is ultimately entitled to be paid the fair value of such Securityholder's Common Shares) shall be transferred to, and acquired by, the Trust free and clear of all liens, claims and encumbrances on the basis that each such Common Share shall be exchanged with the Trust for Trust Units on a one for one basis and the names of the holders of such Common Shares shall be removed from the register of holders of Common Shares and added to the register of holders of Trust Units and the Trust shall be recorded as the holder of such Common Shares on the register of holders of Common Shares;

(f) the issued and outstanding Options shall be transferred to, acquired and cancelled by, AltaGas free and clear of all liens, claims and encumbrances on the basis that each such Option shall be exchanged with AltaGas for Trust Options on a one for one basis, with the terms of each such Trust Option being the same as the Option exchanged therefore other than the substitution of a Trust Unit for each Common Share purchasable pursuant to the Option prior to the Effective Time;

(g) all of the Common Shares acquired by the Trust pursuant to (e)(ii) above shall be transferred to, and acquired by, Holding Trust in exchange for the issue to the Trust by Holding Trust of that principal amount of Series 1 Notes equal to the number of such Common Shares multiplied by the Common Share Fair Market Value;

(h) all of the LP #2 A Units acquired by Holding Trust pursuant to (e)(i) above and all of the Common Shares acquired by Holding Trust pursuant to (g) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to Holding Trust by AltaGas LP #1 of LP #1 A Units on a one for one basis;

(i) all of the Common Shares and Holdco Shares acquired by AltaGas LP #1 pursuant to (c)(i), (c)(ii) and (h) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to AltaGas LP #1 by AltaGas LP #2 of LP #2 A Units on the basis of one LP #2 A Unit for each of such Common Shares and each of the Common Shares held by such Holdcos;

(j) all of the Common Shares and Holdco Shares acquired by AltaGas LP #2 pursuant to (c)(iii), (c)(iv) and (i) above shall be transferred to, and acquired by, LP Subco in exchange for the issue to AltaGas LP #2 by LP Subco of common shares of LP Subco (in respect of which there shall be added to the stated capital an amount equal to the maximum amount of "paid-up capital" under the Tax Act that may be added in respect of such issue) and that principal amount of LP Subco Debt equal to the lesser of (A) the result obtained when the aggregate number of Trust Units issued pursuant to (e)(i) and (e)(ii) above is multiplied by the Common Share Fair Market Value; and (B) the Aggregate Permitted Debt Amount;

(k) the stated capital of each class of outstanding shares of each of AltaGas, the Holdcos and the Amalgamating Subsidiaries shall be reduced, without any distribution by respective corporation, to one dollar;

(l) LP Subco, each of the Holdcos, AltaGas and each of the Amalgamating Subsidiaries shall amalgamate and continue as one corporation, AmalgamationCo; and

(m) the Trust shall issue the Special Voting Unit;

provided that if any of the foregoing steps in (a) through (m) fails to occur or complete then all of such steps will be deemed not to have occurred.

As indicated above, the maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a FMV equal to the Aggregate Permitted Exchange Amount. If Eligible Securityholders (including Enbridge) elect to receive such number of Exchangeable Securities as would result in greater than the maximum number of Exchangeable Securities being issued, the Exchangeable Securities will be

prorated in the manner provided in the definition of Specified Gain Amount and Eligible Securityholders will receive Trust Units in lieu of Exchangeable Securities. Each Exchangeable Security will be exchangeable for one Trust Unit and be entitled to the same monthly cash Distributions as a Trust Unit. Securityholders who are not Eligible Securityholders will only be eligible to receive, in exchange for each of their Common Shares, one Trust Unit.

Post Arrangement Structure

Following the pre-Arrangement steps and the Arrangement steps:

(a) Securityholders (including Enbridge) will own all of the issued and outstanding Trust Units of the Trust;

(b) Securityholders (other than Enbridge and non-Eligible Securityholders) will own all of the issued and outstanding LP #1 B Units;

(c) Enbridge or Enbridge and its affiliates will own all of the issued and outstanding LP #2 B Units;

(d) the Trust, through Holding Trust, will own all of the issued and outstanding LP #1 A Units;

(e) AltaGas LP #1 will own all of the issued and outstanding LP #2 A Units;

(f) AltaGas LP #2 will own all of the issued and outstanding common shares and subordinated debt of AmalgamationCo; and

(g) ASTC Power Partnership will be held by AmalgamationCo through its direct and indirect interests in AltaGas Power Holdings Partnership and the assets of AltaGas Suffield Pipeline Inc. and certain of the assets of AltaGas and AltaGas Transmission Ltd. will be held by AmalgamationCo through its direct and indirect interests in AltaGas Pipeline Partnership.

Upon the completion of the Arrangement, an aggregate of approximately 25,473,248 Trust Units will be issued and outstanding, assuming that the Common Share Fair Market Value is equal to $22.00, no Securityholders exercise their Dissent Rights, that the Exchangeable Security Limit of Exchangeable Securities is issued pursuant to the Arrangement which results in approximately 20,454,545 Exchangeable Securities being issued and outstanding and that all of the outstanding Options are exchanged for Trust Options on the Effective Date. Following completion of the Arrangement, AmalgamationCo may transfer its assets to a partnership to be formed by it and a subsidiary. See "*The Arrangement – Effect of the Arrangement*", "*Information Concerning the Trust*" and "*Information Concerning AmalgamationCo*".

Arrangement Agreement

The Arrangement is being effected pursuant to the Arrangement Agreement. The Arrangement Agreement contains covenants, representations and warranties of and from each of AltaGas, the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2, LP Subco and the Amalgamating Subsidiaries and various conditions precedent, both mutual and with respect to each corporation, partnership and trust.

The Arrangement Agreement is attached as Appendix C to this Information Circular and reference is made to that Appendix for the full text thereof.

Conditions to the Arrangement Becoming Effective

The Arrangement is proposed to be carried out pursuant to section 192 of the CBCA. The following procedural steps must be taken for the Arrangement to become effective:

(a) the Arrangement must be approved by the Securityholders of AltaGas voting at the Meeting;

(b) the Arrangement must be approved by the Court pursuant to the Final Order;

(c) all conditions precedent to the Arrangement, including those set forth in the Arrangement Agreement, must be satisfied or waived by the appropriate parties; and

(d) the Final Order, Articles of Arrangement and related documents, in the form prescribed by the CBCA, must be filed with the Director and the Certificate must be issued by the Director.

Approvals

Securityholder Approval

Pursuant to the Interim Order, the Arrangement Resolution must be approved by at least two-thirds of the votes cast by Common Shareholders, Participating Shareholders and Optionholders, voting together as a class, who vote in respect of the Arrangement Resolution, in person or by proxy, at the Meeting.

Court Approvals

Interim Order

On March 23, 2004 the Court granted the Interim Order facilitating the calling of the Meeting and prescribing the conduct of the Meeting and other matters. The Interim Order is attached as Appendix B to this Information Circular.

Final Order

The CBCA provides that an arrangement requires Court approval. Subject to the terms of the Arrangement Agreement, and if the Arrangement is approved by Securityholders at the Meeting in the manner required by the Interim Order, AltaGas will make application to the Court for the Final Order.

The application for the Final Order approving the Arrangement is scheduled to be heard on April 30, 2004 at 9:00 a.m. (Calgary time), or as soon thereafter as counsel may be heard, at The Court House, 611 – 4th Street S.W., Calgary, Alberta. At the hearing, any Securityholder and any other interested party who wishes to participate or to be represented or to present evidence or argument may do so, subject to filing with the Court and serving on AltaGas a Notice of Intention to Appear together with any evidence or materials which such party intends to present to the Court on or before noon (Calgary time) on April 23, 2004. Service of a Notice of Intention to Appear and related materials to AltaGas shall be effected by sending them to the solicitors for AltaGas: Stikeman Elliott LLP, 4300 Bankers Hall West, 888 - 3rd Street S.W., Calgary, Alberta, T2P 5C5, Attention: Luigi A Cusano. See "*Notice of Petition*".

The securities to be issued pursuant to the Arrangement will not be registered under the 1933 Act, in reliance on the exemption from registration provided by section 3(a)(10) thereof. The Court will be advised at the hearing of the application for the Final Order that if the terms and conditions of the Arrangement are approved by the Court, the Final Order will constitute the basis for an exemption from the registration requirements of the 1933 Act and accordingly the securities issued pursuant to the Arrangement will not require registration under the 1933 Act.

AltaGas has been advised by its counsel, Stikeman Elliott LLP, that the Court has broad discretion under the CBCA when making orders with respect to the Arrangement and that the Court will consider, among other things, the fairness and reasonableness of the Arrangement, both from a substantive and a procedural point of view. The Court may approve the Arrangement either as proposed or as amended in any manner the Court may direct, subject to compliance with such terms and conditions, if any, as the Court thinks fit. Depending upon the nature of any required amendments, or the terms and conditions imposed by the Court, AltaGas or the Trust may determine not to proceed with the Arrangement.

Conditions Precedent to the Arrangement

The respective obligations of the parties to the Arrangement Agreement to complete the transactions contemplated by the Arrangement Agreement are subject to the fulfilment or satisfaction, on or before the Effective Date, of a number of conditions. These conditions include, without limitation:

(a) the Arrangement Resolution shall have been approved at the Meeting by not less than two-thirds of the votes by the Securityholders in accordance with the provisions of the Interim Order and any applicable laws;

(b) the Final Order shall have been obtained in form and substance satisfactory to each of the parties to the Arrangement Agreement acting reasonably and shall not have been set aside or modified in a manner unacceptable to the parties acting reasonably, on appeal or otherwise;

(c) all necessary documents filed with the Director in accordance with the Plan shall be in form and substance satisfactory to each of the parties to the Arrangement Agreement acting reasonably and shall have been accepted for filing by the Director together with the Articles of Arrangement in accordance with Section 192 of the CBCA;

(d) there shall have been no action taken under any applicable law and there shall not be in force any order or decree of any governmental authority that:

(i) makes illegal or otherwise directly or indirectly restrains, enjoins or prohibits the Arrangement or any other transactions contemplated herein;

(ii) results in any judgment or assessment of material damages directly or indirectly relating to the transactions contemplated herein; or

(iii) imposes or confirms material limitations on the ability of: (A) the Trust effectively to exercise full rights of ownership of the securities of the General Partner or Holding Trust including, without limitation, the right to vote any such securities; (B) the Holding Trust to exercise full rights of ownership of the securities of AltaGas LP #1, including, without limitation, the right to vote and such securities; (C) AltaGas LP #1 to exercise full rights of ownership of securities of AltaGas LP #2, including, without limitation, the right to vote any such securities; or (D) AltaGas LP #2 to exercise full rights of ownership of securities of LP Subco (and after giving effect to the Arrangement, AmalgamationCo), including, without limitation, the right to vote such securities;

(e) there shall have been no material change with respect to the income tax laws or policies of Canada or any province thereof which would have a material adverse effect on the reorganization of AltaGas as contemplated by the Plan, including the manner in which distributions that are made to holders of Trust Units or Exchangeable Securities are taxed;

(f) all necessary third party and other consents, approvals and authorizations with respect to the transactions contemplated by the Arrangement Agreement (including, without limitation, orders of applicable governmental authorities for the issuance of Exchangeable Securities and the exchange of Exchangeable Securities for Trust Units) shall have been completed or obtained;

(g) the AltaGas Directors shall not have determined to terminate the Arrangement Agreement in accordance with the Arrangement Resolution as a result of the number of Securityholders, if any, who exercise Dissent Rights or otherwise; and

(h) the approval of the TSX to the conditional listing of the Trust Units shall have been obtained, subject only to the filing of required documents and fees.

On the conditions being fulfilled or waived, AltaGas intends to file a copy of the Final Order and the Articles of Arrangement with the Director under the CBCA, together with such other materials as may be required by the Director, in order to give effect to the Arrangement.

Notwithstanding the foregoing, the Arrangement Resolution proposed for consideration by the Securityholders authorizes the AltaGas Directors, without further notice to or approval of such Securityholders, subject to the terms of the Arrangement, to amend the Arrangement, to decide not to proceed with the Arrangement and to revoke the Arrangement Resolution at any time prior to the Arrangement becoming effective pursuant to the provisions of the CBCA. See Appendix A for the text of the Arrangement Resolution.

Depending on how AmalgamationCo is structured and capitalized following the completion of the Arrangement, it may not satisfy certain covenants in the indenture for AltaGas' existing medium term note program and the agreements regarding the bank facilities described under "*Pro Forma Capitalization of the Trust*". In that event, AmalgamationCo may obtain waivers of those covenants or may satisfy or avoid the application of those covenants in some other manner, including the reorganization of its assets or, if it considers it appropriate in the circumstances, the defeasance of the applicable covenants.

Fairness Opinion

On March 10, 2004, the AltaGas Directors received a verbal opinion from RBC, its independent financial advisor, stating that, in the opinion of RBC, as of March 10, 2004, the consideration under the Arrangement is fair, from a financial point of view, to Common Shareholders. RBC confirmed its verbal opinion to the AltaGas Directors on March 17, 2004 and again on March 26, 2004 when RBC delivered the Fairness Opinion to AltaGas.

A copy of the Fairness Opinion is attached as Appendix G to this Information Circular. The Fairness Opinion is subject to the assumptions and limitations contained therein and should be read in its entirety.

The AltaGas Directors concur with the views of RBC. Those views were an important consideration in the decision of the AltaGas Directors to proceed with the Arrangement.

Recommendation of the AltaGas Directors

The AltaGas Directors have concluded that the Arrangement, in their opinion, is in the best interests of AltaGas and recommend that Securityholders vote in favour of the Arrangement Resolution.

On March 10, 2004, the AltaGas Directors accepted the recommendations of the Special Committee and approved the proposed Arrangement, authorized AltaGas to enter into the Principal Shareholder Agreement and the Arrangement Agreement, authorized the application to the Court for the Interim Order and authorized the submission of the Arrangement Resolution to the Securityholders for consideration at the Meeting pursuant to that Interim Order and to the Court for approval. In reaching their conclusions the AltaGas Directors considered the advice of management regarding the desirable features of the income trust structure and the advice of professional advisors regarding the tax efficiencies of trusts under Canadian tax law.

Other factors considered by the AltaGas Directors included:

(a) *The report and recommendations of the Special Committee to the AltaGas Directors, including the factors relied on by the Special Committee in making their recommendations and receipt by the Special Committee of the verbal fairness opinion from RBC.*

The AltaGas Directors were strongly influenced as to the fairness of the Arrangement by the fact that an independent investment banking firm reviewed the Arrangement and provided an opinion that the consideration under the Arrangement was fair, from a financial point of view, to the Common Shareholders.

(b) *Advice received from the AltaGas' tax and financial advisors.*

Both the Special Committee and the Board of Directors were influenced by advice from tax advisors that trust structures are currently better suited to distribute cash to unitholders than corporations, since under current Canadian tax law trust structures, when they make distributions to unitholders, avoid an element of double taxation that occurs when corporations pay dividends to shareholders. However, there can be no assurance that this preference will continue in the future.

Similarly, the financial advisors to AltaGas have expressed the view that publicly traded trusts generally enjoy a lower cost of capital than publicly traded corporations. However, there can be no assurance that this preference will continue in the future.

(c) *Consideration of alternative transactions designed to achieve an increase in Securityholder value.*

In determining to proceed with the Arrangement the AltaGas Directors considered alternative transactions to maximize Securityholder value. Among the alternatives considered were the sale of AltaGas as a corporate entity to a third party, the sale of corporate assets to a third party and maintaining the current corporate structure.

Although the mandate of the Special Committee did not specifically include consideration of all possible alternative transactions, both the AltaGas Directors and the Special Committee considered the fact that AltaGas has not received any unsolicited offers to acquire AltaGas. Although third party sales often realize a premium, both the AltaGas Directors and the Special Committee concluded that, if the Arrangement is consummated, the Trust Unitholders would have materially the same opportunity to benefit from any such premium as they presently have as Securityholders, and that therefore the possibility of an unsolicited offer from a third party does not diminish the fairness of the Arrangement to the Securityholders. In addition, the Declaration of Trust contains provisions which afford, to any bidder who obtains tenders of at least 90% of the Trust Units, substantially the same rights as a bidder who obtains tenders of at least 90% of the equity of a corporation under corporate law.

(d) *The current and expected market prices of the Common Shares following announcement of the review being undertaken by the Special Committee.*

Immediately following the press release announcing that the Special Committee was reviewing whether AltaGas should be reorganized into an income trust structure the Common Shares of AltaGas began trading at prices more than 25% higher than prior to the announcement. Based on an analysis of the trading prices of comparable trusts both the AltaGas Directors and the Special Committee felt that this new price level was appropriate following completion of the reorganization. Although no assurance as to future trading prices of the Trust Units can be given, both the Special Committee and the Board of Directors were encouraged by the increase in the prevailing share price and accordingly assigned expected market price some weight in their deliberations.

(e) *Enbridge has confirmed its support for the Arrangement in the Principal Shareholder Agreement.*

Mr. Cornhill abstained from voting on the recommendations on several bases including that he has an employment contract with AltaGas which contains change of control provisions which may be perceived as a conflict of interest.

Based on these and other factors, the AltaGas Directors have determined that the proposed reorganization is in the best interests of AltaGas and accordingly recommend that the Securityholders of AltaGas vote in favour of the Arrangement Resolution.

Confirmation of Support

Collectively, holders of an aggregate of 12,250,691 Common Shares, 9,000,000 Participating Shares and 913,488 Options (including Enbridge and all of the directors and officers of AltaGas) representing 48.26% of the outstanding Common Shares on a diluted basis, have agreed to vote all of the Securities beneficially owned by them in favour of the Arrangement Resolution.

Principal Shareholder Agreement

As at the date hereof, Enbridge holds 9,197,500 Common Shares and 9,000,000 Participating Shares, representing 24.91% of the issued and outstanding Common Shares and all of the issued and outstanding Participating Shares. Enbridge holds approximately 38.46% of the outstanding Common Shares on a diluted basis (assuming all Options are exercised and the Participating Shares are converted on a one-for-one basis to Common Shares). To the knowledge of the directors and officers of AltaGas, Enbridge is the only person beneficially owning, directly or indirectly, or exercising control or direction over, more than 10% of the outstanding Common Shares.

As the principal shareholder of AltaGas, Enbridge has agreed pursuant to the Principal Shareholder Agreement to vote the Common Shares and Participating Shares beneficially owned by it, directly or indirectly, or over which it exercises control or direction, in favour of the Arrangement Resolution, subject to the terms and conditions of that agreement.

The terms of the Principal Shareholder Agreement include:

(a) Enbridge will vote its Common Shares and Participating Shares at the Meeting to approve the Arrangement Resolution in that respect;

(b) Enbridge will be entitled to elect to receive Trust Units and Exchangeable Securities and its share of AltaGas' safe income in accordance with the Arrangement;

(c) the Shareholder Agreement will continue on substantially the same terms except any provisions of the Shareholder Agreement that are scheduled to expire on May 12, 2004 will not be retained following the effective date of the reorganization;

(d) the Registration Rights Agreement will continue on substantially the same terms except that it will apply in respect of Trust Units (rather than Common Shares) beneficially owned by Enbridge and Enbridge will be permitted up to two Demand Registrations in any twelve month period following the Effective Date;

(e) the Strategic Alliance Arrangement will be terminated;

(f) in respect of any determination by Enbridge from time to time to dispose of Trust Units beneficially owned by Enbridge, the Trust will use reasonable commercial efforts to assist Enbridge in the disposition of those Trust Units; and

(g) Enbridge will not participate in any public offering of Trust Units that may occur immediately following completion of the Arrangement, but has the right, subject to certain restrictions, to dispose of Trust Units then held by Enbridge by way of concurrent secondary offering as part of such public offering of Trust Units by the Trust.

Directors and Officers

The directors and senior officers of AltaGas, who control approximately 10.74% of the currently outstanding Common Shares of AltaGas (assuming the exercise of Options held by them), have also indicated to the AltaGas Directors that they intend to vote in favour of the proposed Arrangement Resolution at the Meeting.

Timing

If the Meeting is held as scheduled and is not adjourned and the other necessary conditions at that point in time are satisfied or waived, AltaGas will apply for the Final Order approving the Arrangement. If the Final Order is obtained on April 30, 2004 in form and substance satisfactory to AltaGas and the Trust, and all other conditions set forth in the Arrangement Agreement are satisfied or waived, AltaGas expects the Effective Date will be on or about May 1, 2004. It is not possible, however, to state with certainty when the Effective Date will occur.

The Arrangement will become effective on the filing with the Director of the Articles of Arrangement and a copy of the Final Order, together with such other materials as may be required by the Director.

AltaGas' objective is to have the Effective Date occur as soon as practicable after the Meeting. The Effective Date could be delayed, however, for a number of reasons, including an objection before the Court at the hearing of the application for the Final Order on April 30, 2004.

Exchangeable Securities Election

Eligible Securityholders will be entitled to elect to receive either Trust Units or a combination of Trust Units and Exchangeable Securities, in consideration for their Common Shares, including the Common Shares issued on conversion of Participating Shares. For certain Securityholders, electing to receive Exchangeable Securities may, based on their particular circumstances, provide for certain tax efficiencies. Any Eligible Securityholder considering making such an election is urged to consult his or her own legal and tax advisors with respect to the consequences (tax or otherwise) and risks associated with that election. **Non-Eligible Securityholders may receive only Trust Units in exchange for their Common Shares.**

The value of the LP #1 B Units or LP #2 B Units, as the case may be, that an Eligible Securityholder is entitled to receive cannot in any event exceed that Eligible Securityholder's Gain Amount. In addition, the maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a FMV equal to the Aggregate Permitted Exchange Amount. If Eligible Securityholders (including Enbridge) elect to receive such number of Exchangeable Securities as would result in greater than the maximum number of Exchangeable Securities being issued, the Exchangeable Securities will be prorated in the manner provided in the definition of Specified Gain Amount and Eligible Securityholders will receive Trust Units in lieu of Exchangeable Securities to the extent that Exchangeable Securities are requested but not provided due to that pro-rationing.

Holders of Exchangeable Securities will be entitled to exchange their Exchangeable Securities for Trust Units at any time on a one-for-one basis. The LP #1 B Units may be redeemed by AltaGas LP #1 for Trust Units at any time following the tenth anniversary of the Effective Date and the LP #2 B Units may be redeemed by AltaGas LP #2 for Trust Units at any time following the fifth anniversary of the Effective Date, in either case at the discretion of the Board of Directors. In certain circumstances, AltaGas LP #1 or AltaGas LP #2, as the case may be, has the right to require a redemption of the Exchangeable Securities and the right to require the exchange of Exchangeable Securities for Trust Units prior to such applicable anniversary. See "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities*".

The Exchangeable Securities are intended to be, to the greatest extent practicable, the economic and voting equivalent of Trust Units, being entitled to the same monthly cash Distributions as a Trust Unit and being entitled to vote on Trust matters with holders of Trust Units through the Special Voting Unit. However, such economic equivalency may not be achieved in all circumstances. See "*Risk Factors – The Partnerships – Risks Associated with Exchangeable Securities*".

Alternative Election Procedure for Certain Securityholders

Each Securityholder will be entitled to transfer such Securityholder's Common Shares or Participating Shares, as the case may be, to a newly-incorporated corporation in exchange for all of the issued and outstanding Holdco Shares and to transfer the Holdco Shares to AltaGas LP #1 or, in the case of Holdcos holding Enbridge Common Shares or Participating Shares, AltaGas LP #2, provided that each of the following conditions are satisfied

on or prior to and as of the Effective Time (each of the corporations as so described and in respect of which such conditions are so satisfied being a "**Holdco**"):

(a) the Securityholder is an Eligible Securityholder;

(b) Holdco is incorporated under the CBCA no earlier than March 1, 2004;

(c) the Securityholder transfers its Common Shares or Participating Shares, as the case may be, to Holdco solely in consideration for the Holdco Shares;

(d) Holdco has no indebtedness or liabilities and owns no assets other than the Common Shares or Participating Shares, as the case may be;

(e) the Securityholder indemnifies the Trust, Holding Trust, AltaGas, AltaGas LP #1 and, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 for any and all liabilities of Holdco (other than tax liabilities of Holdco that would arise if Holdco disposed of any of its property after the Effective Date or that arise solely as a result of the tax status of the Trust, Holding Trust, AltaGas, AltaGas LP #1 and, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 as a "financial institution" for purposes of the Tax Act) in a form satisfactory to the General Partner in its sole discretion, and such Securityholder either has net assets as reflected on its audited financial statements for its most recently ended fiscal year which are satisfactory to the General Partner or provides the General Partner with security satisfactory to the General Partner in respect of such Securityholder's indemnification obligations as set out above;

(f) prior to the Effective Time, Holdco: (i) declares one or more stock dividends which may be in the form of preferred shares of Holdco that are converted into common shares of Holdco prior to the Effective Time; (ii) increases the stated capital of the Holdco Shares; or (iii) declares one or more cash dividends, provided that such cash is used to subscribe, directly or indirectly, for shares of Holdco;

(g) at the Effective Time, but prior to giving effect to the Plan, Holdco has no issued shares outstanding other than the Holdco Shares and all such Holdco Shares are owned by only the Securityholder;

(h) prior to the Effective Time, Holdco has never entered into any transaction (or conducted any business or operations or engaged in any activity) other than those described herein or such other transactions as are necessary to facilitate those transactions described herein with the General Partner's consent, acting reasonably;

(i) other than as provided in (f) above, Holdco will not declare or pay any dividends or other distributions;

(j) the Securityholder shall prepare and file all income tax returns of its Holdco in respect of the taxation year-end of such Holdco ending immediately prior to the acquisition of such Holdco Shares by AltaGas LP #1 or, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 subject to the General Partner's right to approve all such tax returns as to form and substance;

(k) the Securityholder provides AltaGas and the General Partner with copies of all documents necessary to effect the transactions contemplated hereby at least ten days prior to the Effective Date, which documents must be approved by both AltaGas and the General Partner in their sole discretion; and

(l) the Securityholder and its Holdco execute a share purchase agreement in the form required by the General Partner, acting reasonably, providing for, among other things, the sale of the Holdco Shares to AltaGas LP #1 or, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 and containing the terms and conditions, among others, set forth above.

A Securityholder electing to follow this alternative election procedure will be entitled to receive in consideration for the Holdco Shares a combination of Trust Units and Exchangeable Securities. Choosing the holding company alternative will require a Securityholder to implement the complex corporate structure discussed above through which to hold the Common Shares. The holding company alternative may have favourable Canadian federal income tax consequences for certain Securityholders, but those consequences are not described in this Information Circular. Securityholders wishing to avail themselves of the holding company alternative should consult their own financial, tax and legal advisors. Securityholders wishing further information with respect to the holding company alternative should contact the Depository to obtain the holding company Letter of Transmittal and Election Form to be used in such circumstances. Depository contact details are provided in the Form of Letter of Transmittal and Election Form included with this Information Circular.

Procedure for Exchange of Securities

On or before the Election Deadline, Securityholders must complete and return the enclosed Letter of Transmittal and Election Form, together with the certificate(s) representing their Common Shares and Participating Shares, if applicable, to the Depository at one of the offices specified in the Letter of Transmittal and Election Form. **Where no election is made, where the election is not properly made or where the Letter of Transmittal and Election Form or the certificate(s) representing the Common Shares, Participating Shares, if applicable, and Holdco Shares are received after the Election Deadline, the depositing Securityholder will be deemed to have elected to receive only Trust Units for all of their Common Shares and, if applicable, Participating Shares on completion of the Arrangement.**

Securityholders wishing to utilize the holding company alternative discussed above under "*The Arrangement – Alternative Election Procedure for Certain Securityholders*" must meet the requirements set out under that heading. Such Securityholders should contact the Depository to obtain the holding company Letter of Transmittal and Election Form to be used in such circumstances. **The Letter of Transmittal and Election Form for the holding company alternative must be completed and returned in accordance with the instructions contained therein and must be received on or before the Election Deadline to be effective.**

Securityholders whose Common Shares are registered in the name of a broker, dealer, bank, trust company or other nominee must contact their nominee to deposit their Common Shares.

The use of the mail to transmit certificates representing Common Shares and, if applicable, Participating Shares, and the Letter of Transmittal and Election Form, is at each holder's risk. AltaGas recommends that such certificates and documents be delivered by hand to the Depository and a receipt therefor be obtained or that registered mail be used.

All signatures on: (i) the Letter of Transmittal and Election Form; and (ii) certificates representing Common Shares and, if applicable, Participating Shares, must be guaranteed by an Eligible Institution, unless otherwise provided. In order to receive Trust Units or Exchangeable Securities after the Effective Date, Securityholders must submit the certificate(s) for their Securities to the Depository.

Notice of Guaranteed Delivery

If a Common Shareholder wishes to elect to receive Trust Units and AltaGas LP #1 B Units in exchange for its Common Shares pursuant to the Arrangement and: (a) the certificate(s) representing the Common Shares are not immediately available, or (b) such Common Shareholder is not able to deliver such certificate(s) and all other required documents to the Depository at or prior to 4:30 p.m. (Calgary time) on the Election Deadline, such Common Shares may nevertheless be deposited pursuant to the Arrangement provided that all of the following conditions are met:

(i) such deposit is made by or through an Eligible Institution;

(ii) a properly completed and duly executed copy of the Notice of Guaranteed Delivery, or a manually signed facsimile hereof, is received at the office of the Depository in Calgary listed in the Notice of Guaranteed Delivery, at or prior to the Election Deadline; and

(iii) the certificate(s) representing deposited Common Shares in proper form for transfer, together with a properly completed and duly executed Letter of Transmittal and Election Form, or a manually signed facsimile thereof, covering the Common Shares and all other documents required by the Letter of Transmittal and Election Form, are received by the Depository at the same office at or before 4:30 p.m. (Calgary time) on the fifth trading day on the TSX after the Election Deadline.

The Notice of Guaranteed Delivery may be delivered by hand, transmitted by facsimile transmission or mailed to the Calgary office listed in the Notice of Guaranteed Delivery at or prior to the Election Deadline and must be guaranteed by an Eligible Institution in the manner set forth in the Notice of Guaranteed Delivery.

Treatment of Options

Pursuant to AltaGas' existing stock option plan there are presently outstanding Options to purchase an aggregate of 1,384,488 Common Shares at a weighted average exercise price of $9.31. Based on the closing market price of the Common Shares on the TSX on February 17, 2004, the last trading day prior to the announcement that the Special Committee was reviewing whether to convert the business of AltaGas into an income trust structure, all of the Options were "in-the-money" (that is, had an exercise price lower than the market price of the Common Shares). The Options are held by various directors, officers and employees of AltaGas. Options exercised at or prior to the Effective Time may be exercised only for the number of Common Shares which are then vested.

To the extent that an Optionholder has not exercised its vested Options, in which case the Optionholder would have received the same consideration as a Common Shareholder, all remaining vested and unexercised Options, together with unvested Options, will become Trust Options entitling the holder to acquire Trust Units following the Arrangement. It is presently anticipated that the Board of Directors will accelerate the vesting of those Trust Options following the Arrangement to provide for immediate vesting.

Rights of Dissent

The following description of the rights of Dissenting Securityholders is not a comprehensive statement of the procedures to be followed by a Dissenting Securityholder who seeks payment of the fair value of such Securityholder's Securities and is qualified in its entirety by the reference to the full text of the Interim Order which is attached to this Information Circular as Appendix B and the text of section 190 of the CBCA which is attached to this Information Circular as Appendix I. Pursuant to the Interim Order, dissenting Optionholders are given rights analogous to rights of dissenting Common Shareholders and Participating Shareholders under the CBCA. A Securityholder who intends to exercise his right of dissent and appraisal should carefully consider and comply with the provisions of section 190 of the CBCA, as modified by the Interim Order. Failure to comply with the provisions of that section, as modified by the Interim Order, and to adhere to the procedures established therein may result in the loss of all rights thereunder.

The Court hearing the application for the Final Order has the discretion to alter the rights of dissent described herein based on the evidence presented at that hearing.

Under the Interim Order, a registered Securityholder is entitled, in addition to any other rights he may have, to dissent and to be paid by AltaGas the fair value of the Securities held by him in respect of which he dissents, determined as of the close of business on the last Business Day before the Meeting. A Securityholder may dissent only with respect to all of the Securities held by him or on behalf of any one beneficial owner and registered in the Dissenting Securityholder's name. **Persons who are beneficial owners of Securities registered in the name of a broker, custodian, nominee or other intermediary who wish to dissent, should be aware that only the registered owner of such securities is entitled to dissent. Accordingly, a beneficial owner of Securities**

desiring to exercise their right of dissent must make arrangements for the Securities they beneficially own to be registered in their name prior to the time the written objection to the Arrangement Resolution is required to be received by AltaGas or, alternatively, make arrangements for the registered holder of such Securities to dissent on their behalf.

A Dissenting Securityholder must send to AltaGas a written objection to the Arrangement Resolution, which written objection must be received by AltaGas, c/o Stikeman Elliott LLP, 4300 Bankers Hall West, 888 - 3rd Street S.W., Calgary, Alberta T2P 5C5, Attention: Luigi A. Cusano, not later than 5:00 p.m. (Calgary time) on the Business Day prior to the Meeting. No Securityholder who has voted in favour of the Arrangement shall be entitled to dissent with respect to the Arrangement. An application may be made to the Court by AltaGas or by a Dissenting Securityholder to fix the fair value of the Dissenting Securityholder's Securities. If such an application to the Court is made by either AltaGas or a Dissenting Securityholder, AltaGas must, unless the Court otherwise orders, send to each Dissenting Securityholder a written offer to pay him an amount considered by the AltaGas Directors to be the fair value of the Securities held by the Dissenting Securityholders. The offer, unless the Court otherwise orders, will be sent to each Dissenting Securityholder at least 10 days before the date on which the application is returnable, if AltaGas is the applicant, or within 10 days after AltaGas is served with notice of the application, if a Dissenting Securityholder is the applicant. The offer will be made on the same terms to each Dissenting Securityholder and will be accompanied by a statement showing how the fair value was determined.

A Dissenting Securityholder may make an agreement with AltaGas for the purchase of his Securities by AltaGas in the amount of AltaGas' offer (or otherwise) at any time before the Court pronounces an order fixing the fair value of the Securities.

A Dissenting Securityholder is not required to give security for costs in respect of an application and, except in special circumstances, will not be required to pay the costs of the application and appraisal. On the application, the Court will make an order fixing the fair value of the Securities of all Dissenting Securityholders who are parties to the application, giving judgment in that amount against AltaGas and in favour of each of those Dissenting Securityholders, and fixing the time within which AltaGas must pay that amount payable to the Dissenting Securityholders. The Court may in its discretion allow a reasonable rate of interest on the amount payable to each Dissenting Securityholder calculated from the date on which the Dissenting Securityholder ceases to have any rights as a Securityholder until the date of payment.

As part of the Arrangement, the Common Shares held by Dissenting Securityholders will be cancelled prior to the Amalgamation and such Dissenting Securityholder will cease to have any rights as a Securityholder other than the right to be paid the fair value of such Securityholder's Securities in the amount agreed to between AltaGas and the Securityholder or in the amount of the judgment, as the case may be. Until one of these events occurs, the Securityholder may withdraw his dissent, or AltaGas may rescind the Arrangement Resolution, and in either event the dissent and appraisal proceedings in respect of that Securityholder will be discontinued.

AltaGas shall not make a payment to a Dissenting Securityholder under section 190 of the CBCA if there are reasonable grounds for believing that AltaGas is or would after the payment be unable to pay its liabilities as they become due, or that the realizable value of the assets of AltaGas would thereby be less than the aggregate of its liabilities. In such event, AltaGas shall notify each Dissenting Securityholder that it is lawfully unable to pay Dissenting Securityholders for their Securities in which case the Dissenting Securityholder may, by written notice to AltaGas within 30 days after receipt of such notice, withdraw his written objection, in which case such Securityholder shall, in accordance with the Interim Order, be deemed to have participated in the Arrangement as a Securityholder. If the Dissenting Securityholder does not withdraw his written objection he retains his status as a claimant against AltaGas to be paid as soon as AltaGas is lawfully entitled to do so or, in a liquidation, to be ranked subordinate to creditors but prior to Securityholders of AltaGas.

All Securities held by Securityholders who exercise their right of dissent will, if the Holders are ultimately entitled to be paid the fair value thereof, be deemed to be transferred to LP Subco for cancellation in exchange for such fair value as of the Effective Date. If such Securityholders ultimately are not so entitled to be paid the fair value therefor, such Securities will be changed into Trust Units and such Securityholders will be issued Trust Units on the same basis as all other Securityholders pursuant to the Arrangement.

The Arrangement Agreement provides that, unless otherwise waived, it is a condition to the obligations of the parties to the Arrangement Agreement that the AltaGas Board shall not have determined to terminate the Arrangement Agreement as a result of the number of Securityholders who exercise Dissent Rights.

Interests of Certain Persons in the Arrangement

The directors and officers of AltaGas own beneficially, directly or indirectly, or exercise control or direction over, an aggregate of 3,053,191 Common Shares and 913,488 Options, representing 8.27% of the outstanding Common Shares and 65.98% of the outstanding Options, respectively. The management of AltaGas understands that each of the directors and officers intend to vote the Securities owned or controlled by them in favour of the Arrangement Resolution proposed to be considered at the Meeting. See "*The Arrangement – Confirmation of Support*".

In addition, Enbridge owns beneficially, directly or indirectly, or exercises control or direction over, an aggregate of 9,197,500 Common Shares and 9,000,000 Participating Shares, representing 24.91% of the outstanding Common Shares and all of the Participating Shares, respectively. Enbridge has agreed pursuant to the Principal Shareholder Agreement to vote the Common Shares and Participating Shares beneficially owned by it, directly or indirectly, or over which it exercises control or direction, in favour of the Arrangement Resolution proposed to be considered at the Meeting, subject to the terms and conditions of that agreement. For further information see "*The Arrangement – Background to and Reasons for the Arrangement*", "*The Arrangement Agreement – Confirmation of Support – Principal Shareholder Agreement*" and "*Relationship Between Enbridge and the Trust*".

AltaGas has retained RBC to be financial advisors to AltaGas and the AltaGas Directors with respect to the Arrangement. The advisor has received and will receive fees from AltaGas for services rendered.

Expenses of the Arrangement

The estimated costs to be incurred by AltaGas relating to the Arrangement including, without limitation, financial advisory, accounting and legal fees and the preparation and printing of this Information Circular are expected to aggregate approximately $7.0 million. Additional amounts totalling approximately $5.0 million are anticipated to be paid to management and employees for performance bonuses and with respect to employment contracts.

Stock Exchange Listing Approval

It is a condition to the completion of the Arrangement that the TSX shall have approved the listing of the Trust Units, subject only to the filing of required documents which cannot be filed prior to the Effective Date and the payment of fees.

Securities Law Matters

The Trust Units, LP #1 A Units, LP #2 A Units, LP #1 B Units, LP #2 B Units, Holding Trust Notes and the LP Subco Debt to be issued in exchange for Securities pursuant to the Arrangement will be issued in reliance on exemptions from prospectus and registration requirements of applicable laws or on discretionary exemptions from such requirements to be obtained from applicable securities regulatory authorities in Canada and the Trust Units will generally be "freely tradable" (other than as a result of any "control block" restrictions which may arise by virtue of the ownership thereof) under applicable laws of the provinces of Canada.

Applications will also be made so as to relieve the Trust's subsidiary corporations, trusts and partnerships from some of the continuous disclosure requirements normally associated with being a "reporting issuer" under applicable laws.

The securities to be issued pursuant to the Arrangement will not be registered under the 1933 Act in reliance on the exemption from registration provided by section 3(a)(10) of the 1933 Act. Securities issued to a former Securityholder who is not an "affiliate" of AltaGas immediately before the Arrangement, and is not an

"affiliate" of the Trust or AmalgamationCo at the time of resale, may be resold in the United States without restriction under the 1933 Act to the same extent as the Common Shares were before the Arrangement. Former Securityholders who are "affiliates" of AltaGas prior to the Arrangement, or "affiliates" of AmalgamationCo or the Trust after the Arrangement may not re-sell their Trust Units in the United States without an exemption from registration under the 1933 Act. For the purposes of the 1933 Act, an "affiliate" of AltaGas, AmalgamationCo or the Trust is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, AltaGas, AmalgamationCo or the Trust, as the case may be. Securityholders are urged to consult their legal advisors prior to disposing of Trust Units outside Canada to determine the extent of all applicable resale provisions.

Legal Matters

Certain legal matters relating to the Arrangement are to be passed on at the Closing by Stikeman Elliott LLP, on behalf of AltaGas. As at March 26, 2004, the partners and associates of Stikeman Elliott LLP beneficially owned, directly or indirectly, less than 1% of the outstanding Common Shares.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Felesky Flynn LLP, Canadian tax counsel for AltaGas and the Trust ("**Tax Counsel**"), the following summary fairly describes the principal Canadian federal income tax considerations generally applicable under the Tax Act to Common Shareholders who dispose of their Common Shares pursuant to the Arrangement and ultimately receive Trust Units or Trust Units and Exchangeable Securities, as the case may be. This summary is applicable to a Common Shareholder, Trust Unitholder or Partner who, for purposes of the Tax Act, deals at arm's length with and is not affiliated with AltaGas or the Trust and holds Common Shares and will hold X Notes, LP A Units, Trust Units or Exchangeable Securities, as the case may be, as capital property. Generally, the Common Shares, the X Notes, the LP A Units, the Trust Units and the Exchangeable Securities will be considered to be capital property to a holder provided that the holder does not hold the Common Shares, the X Notes, the LP A Units, the Trust Units, or the Exchangeable Securities, as the case may be, in the course of carrying on a business of buying or selling securities and did not acquire them in one or more transactions considered to be an adventure in the nature of trade. Certain holders who are Residents and who might not otherwise be considered to hold their Common Shares or Trust Units as capital property may, in certain circumstances, be entitled to make an irrevocable election in accordance with subsection 39(4) of the Tax Act to have them, and any other "Canadian security" (as defined in the Tax Act), deemed to be capital property. Holders contemplating making such an election should first consult their own tax advisors.

This summary is not applicable to Participating Shareholders, Optionholders or to a Trust Unitholder or Partner that is a "*specified financial institution*" as defined in the Tax Act or a "*financial institution*" as defined in the Tax Act for purposes of the mark-to-market rules, nor is it applicable to Trust Unitholders or Partners an interest in which would be a "tax shelter investment" under the Tax Act.

This summary is based on the facts set out in the Information Circular, representations from AltaGas, the Trust and RBC as to certain factual matters and proposed activities, the provisions of the Tax Act in force as of the date hereof, all specific proposals to amend the Tax Act publicly announced by the Minister of Finance (Canada) prior to the date hereof (the "**Proposed Amendments**"), and Tax Counsel's understanding of the current published administrative and assessing practices of the CRA. This summary is not exhaustive of all possible Canadian federal income tax considerations, and except for the Proposed Amendments, does not take into account or anticipate any changes in law or administrative or assessing practices, whether by legislative, governmental or judicial action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations which may differ significantly from the Canadian federal income tax considerations discussed herein. No assurance can be given that the Proposed Amendments will be enacted as currently proposed or at all.

The Budget proposes to introduce changes to the Tax Act which imposes a tax on a registered pension plan's investment in trust units above certain limits unless 90% or more of the fair market value of the particular trust's property is attributable to, *inter alia*, real property. Further, the Budget proposes to introduce changes to the Tax Act that subject persons who are not Residents to tax in respect of certain distributions made by mutual fund trusts that otherwise would not be subject to taxation in Canada. It is not clear whether these proposals will result in

tax consequences to Trust Unitholders that are materially different from those disclosed in this Information Circular. Prospective Trust Unitholders that are registered pension plans or who are not Residents should consult their own tax advisors regarding the income tax considerations applicable to them in their particular circumstances.

This summary is of a general nature only and is not intended to be nor should it be construed to be, legal, business or tax advice to any particular Securityholder, Trust Unitholder or Partner. Securityholders and prospective Trust Unitholders or Partners should consult their own tax advisors regarding the income tax considerations applicable to them in their particular circumstances.

The Arrangement

Exchange of Common Shares for Exchangeable Securities and X Notes

Pursuant to the Arrangement, Common Shares (other than Common Shares held by Dissenting Securityholders) held by Electing Eligible Securityholders will be transferred to the particular Partnership prescribed in the Arrangement, in exchange for the number of Exchangeable Securities and X Notes issued by the particular Partnership as determined by the formula set out in the Arrangement. Electing Eligible Securityholders will be required to specify an amount in the tax election form pursuant to subsection 97(2) of the Tax Act ("**Elected Amount**"). The Elected Amount may not:

(a) be less than the lesser of (i) the Electing Eligible Securityholder's aggregate ACB of the Common Shares transferred to the particular Partnership; and (ii) the FMV of the Common Shares at the time of the exchange;

(b) be less than the FMV of the X Notes received by the Electing Eligible Securityholder; or

(c) be greater than the FMV of the Electing Eligible Securityholder's Common Shares transferred to the particular Partnership.

Provided that a valid tax election is filed in a timely manner, the Electing Eligible Securityholder will realize a capital gain (or a capital loss) equal to the amount by which the Elected Amount exceeds (or is less than) the aggregate ACB of the Common Shares of the Electing Eligible Securityholder transferred to the particular Partnership and any reasonable costs of disposition. For this purpose, an Electing Eligible Securityholder will be required to determine the FMV of an X Note on a reasonable basis. Each of AltaGas and the Trust has advised that, in its opinion, an X Note will have a FMV equal to the Common Share Fair Market Value. Such determination of FMV is not binding on the CRA. The taxation of capital gains and capital losses is described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*".

In such circumstances, the cost to a holder of the X Notes acquired will be the FMV thereof and the cost of the Exchangeable Securities will be the excess, if any, of the Elected Amount over the cost of the X Notes.

Exchange of X Notes for LP A Units

Pursuant to the Arrangement, all holders of X Notes will transfer their X Notes to the particular Partnership prescribed in the Arrangement in exchange for LP A Units on a one for one basis. A holder of an X Note will realize a capital gain only if, and to the extent that, the FMV of the LP A Unit received exceeds the ACB of the holder's X Note and any reasonable costs of disposition. If the aggregate of the ACB of the exchanged X Note and reasonable costs of disposition exceeds the FMV of the LP A Unit received therefor, the holder will realize a capital loss on the exchange. The taxation of capital gains and capital losses is described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*" and "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Capital Gains*".

The cost of an LP A Unit will be equal to the FMV of the LP A Unit at the time of the exchange. For this purpose, a holder of an X Note will be required to determine the FMV of the LP A Unit on a reasonable basis. Each

of AltaGas and the Trust has advised that, in its opinion, an LP A Unit will have a FMV equal to the Common Share Fair Market Value. Such determination of FMV is not binding on the CRA.

Exchange of LP A Units for Trust Units

Pursuant to the Arrangement, all holders of LP A Units, except Holding Trust and AltaGas LP #1, will transfer their LP A Units to Holding Trust in exchange for Trust Units on a one for one basis. A holder of an LP A Unit will realize a capital gain only if, and to the extent that, the FMV of the Trust Unit received exceeds the ACB of the holder's LP A Unit and any reasonable costs of disposition. If the aggregate of the ACB of the exchanged LP A Unit and any reasonable costs of disposition exceeds the FMV of the Trust Unit received therefor, the holder will realize a capital loss on the exchange. The taxation of capital gains and capital losses is described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*" and "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Capital Gains*".

The cost of a Trust Unit will be equal to the FMV of the Trust Unit at the time of the exchange. For this purpose, a holder of an LP A Unit will be required to determine the FMV of the Trust Unit on a reasonable basis. Each of AltaGas and the Trust has advised that, in its opinion, a Trust Unit will have a FMV equal to the Common Share Fair Market Value. Such determination of FMV is not binding on the CRA.

Exchange of Common Shares for Trust Units

Pursuant to the Arrangement, Common Shares held by Common Shareholders (other than Common Shares held by Dissenting Securityholders and Electing Eligible Securityholders) will be transferred to the Trust, in exchange for Trust Units on a one for one basis. Such a Common Shareholder will realize a capital gain (or a capital loss) equal to the amount by which the FMV of the Trust Units received in exchange for the Common Shares exceeds (or is less than) the aggregate of the ACB of the Common Shares of the Common Shareholder transferred to the Trust and any reasonable costs of disposition. The taxation of capital gains and capital losses is described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*" and "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Capital Gains*".

The cost of the Trust Units acquired will be the FMV thereof. For this purpose, a Common Shareholder will be required to determine the FMV of a Trust Unit on a reasonable basis. Each of AltaGas and the Trust has advised that, in its opinion, a Trust Unit will have a FMV equal to the Common Share Fair Market Value. Such determination of FMV is not binding on the CRA.

Dissenting Securityholders

Securityholders are permitted to dissent from the Arrangement pursuant to the provisions of section 190 of the CBCA. A Dissenting Shareholder will be entitled, in the event the Arrangement becomes effective, to be paid by LP Subco the fair value of the Securities held by such Securityholder determined as of the appropriate date. See "*The Arrangement – Rights of Dissent*". A Dissenting Securityholder who is a Common Shareholder will realize a capital gain (or a capital loss) equal to the amount by which the FMV of the consideration received in exchange for the Common Shares exceeds (or is less than) the aggregate of the ACB of such Common Shares and the reasonable costs of disposition. For purposes of determining the Dissenting Securityholder's capital gain (or a capital loss), the proceeds of disposition will be equal to the amount received as consideration for the Common Shares less the amount of any interest awarded by the Court. The taxation of capital gains and capital losses is described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*" and "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Capital Gains*". Interest awarded by the Court to a Dissenting Securityholder who is a Resident will be included in the Securityholder's income for the purposes of the Tax Act. The taxation of interest awarded by the Court to a Dissenting Securityholder who is not a Resident is described below under "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Dissenting Securityholders*". Additional income tax considerations may be relevant to Dissenting Securityholders who fail to perfect or withdraw their claims pursuant to the right of dissent. **Dissenting Securityholders are urged to consult their own tax advisors.**

Status of the Trust

This summary assumes that the Trust will qualify as a "mutual fund trust" within the meaning of the Tax Act on the Effective Date and continuously thereafter at all relevant times. This summary also assumes that the Trust will elect to be deemed to be a mutual fund trust from the date it was established.

In the event that the Trust were not to qualify as a mutual fund trust, the Canadian federal income tax considerations described below would, in some respects, be materially different.

Taxation of the Trust

In each taxation year, the Trust will be subject to tax under Part I of the Tax Act on such amount of income of Holding Trust that was paid or became payable in the year to the Trust and was deducted by Holding Trust in computing its income under the Tax Act (including amounts of net taxable capital gains or taxable dividends designated by Holding Trust in respect of the Trust) and net realized taxable capital gains, less the portion thereof that the Trust deducts in respect of amounts paid or payable by the Trust in the year to Trust Unitholders. An amount will be considered to be payable to a Trust Unitholder in a taxation year if it is paid to the Trust Unitholder in the year by the Trust or if the Trust Unitholder is entitled in that year to enforce payment of the amount. The Trust's taxation year will end on December 31 of each year.

In computing its income, the Trust generally may deduct reasonable amounts on account of administrative costs, management and other expenses incurred by it in the course of carrying on its investment undertaking and for the purpose of earning income, provided such amounts are not reimbursed to it and are otherwise deductible under the Tax Act.

Under the Declaration of Trust, an amount equal to all of the income of the Trust for each year (determined in accordance with the provisions of the Tax Act without reference to paragraph 82(1)(b) and subsection 104(6) thereof), including net realized capital gains, but excluding income which is designated by the Trust to a redeeming Trust Unitholder and capital gains the tax on which may be offset by capital losses carried forward from prior years or is recoverable by the Trust, generally will be payable in the year to Trust Unitholders by way of cash distributions, subject to the following exceptions. Income of the Trust which is applied to finance cash redemptions of Trust Units or is otherwise unavailable for cash distributions will be distributed to Trust Unitholders in the form of additional Trust Units. Income of the Trust payable to the Trust Unitholders, whether in cash, additional Trust Units, or otherwise generally will be deductible by the Trust in computing its income under the Tax Act.

Capital gains of the Trust realized in connection with an *in specie* redemption of Trust Units and certain income of the Trust may be designated to the redeeming Trust Unitholder, with the result that the taxable portion of such gains and such income generally should be taxable to the redeeming Trust Unitholder and not the Trust.

Tax Counsel has been advised that the Trust intends to make sufficient distributions in each year (in cash or by way of additional Trust Units) of its net income for tax purposes and any net realized taxable capital gains so that the Trust generally will not be liable in such year for income tax under Part I of the Tax Act, however, no assurance can be given in this regard. The Trust generally is expected to designate to the Trust Unitholders any taxable dividends or net taxable capital gains received or realized by it or designated to it by Holding Trust so that such amounts retain their character when received by Trust Unitholders.

Taxation of Holding Trust

Holding Trust will be taxable on its income determined under the Tax Act for each year, which will include its allocated share of income of AltaGas LP #1. The amount of income allocated to Holding Trust from AltaGas LP #1 may exceed or be less than the amount of cash distributed by AltaGas LP #1 to Holding Trust. The taxation year of Holding Trust will end on December 31.

In computing its income, Holding Trust generally may deduct reasonable amounts on account of interest, administrative and other expenses incurred by it for the purpose of earning income, provided such amounts are otherwise deductible under the Tax Act.

Under the Holding Declaration of Trust, an amount equal to all of the income of Holding Trust (determined in accordance with the provisions of the Tax Act without reference to paragraph 82(1)(b) and subsection 104(6) thereof), including net realized capital gains, generally will be payable to the Trust. Such amounts generally will be deductible by Holding Trust in computing income under the Tax Act.

Tax Counsel has been advised that Holding Trust intends to make sufficient distributions in each year of its net income for tax purposes and any net realized taxable capital gains so that Holding Trust generally will not be liable in such year for income tax under Part I of the Tax Act, however, no assurance can be given in this regard. Holding Trust generally is expected to designate to the Trust any taxable dividends or net taxable capital gains received by it so that such amounts retain their character when received by the Trust.

Taxation of the Partnerships

The Partnerships are not subject to tax under the Tax Act. Each Partner of each of the Partnerships, including Holding Trust, is required to include in computing the Partner's income for a particular taxation year the Partner's share of the income or loss, including capital gains and capital losses, as the case may be, of the particular Partnership of which the Partner is a member at any time in the fiscal year of the Partnership ending on or before the Partner's taxation year end, whether or not any of that income is distributed to the Partner in the taxation year. For this purpose, the income or loss of the particular Partnership will be computed for each fiscal year as if the Partnership were a separate person resident in Canada. In computing the income or loss of the Partnerships, deductions will be claimed in respect of its respective operating, administrative and other expenses, as permitted by the Tax Act. The income or loss of the Partnerships for a fiscal year will be allocated to the Partners of the Partnerships, including Holding Trust, on the basis of their respective share of that income or loss as provided in the Limited Partnership Agreements subject to the detailed rules in the Tax Act in that regard. The fiscal period of the Partnerships will end on December 31.

Residents

The following portion of this summary generally is applicable to a holder who at all relevant times is a Resident. The taxation of holders who are not Residents is described below under "*Persons other than Residents*".

Taxation of Trust Unitholders

Trust Distributions

A Trust Unitholder generally will be required to include in computing income for a particular taxation year of the Trust Unitholder such portion of the net income of the Trust for a taxation year, including net realized taxable capital gains, as is paid or becomes payable to the Trust Unitholder in that particular taxation year, whether received in cash, additional Trust Units or otherwise. Provided that appropriate designations are made by the Trust and Holding Trust, such portion of taxable dividends received from taxable Canadian corporations and net taxable capital gains as is paid or payable to a Trust Unitholder will effectively retain its character and be treated as such in the hands of the Trust Unitholder for the purposes of the Tax Act. Accordingly, in the case of a Trust Unitholder who is an individual, such amounts in respect of such dividends will be included in determining the Trust Unitholder's entitlement to the dividend tax credit. Such amounts designated as dividends in respect of Trust Unitholders that are corporations will be included in income, but an equal amount generally may be deducted in computing taxable income, subject to the limitations in the Tax Act. In addition, such amounts designated as dividends will be subject to the 33⅓% refundable tax under Part IV of the Tax Act in respect of Trust Unitholders that are "private corporations" and "subject corporations" within the meaning of the Tax Act. All other income of the Trust that is paid or becomes payable to a Trust Unitholder generally will be considered income from property, irrespective of its source. Any loss of the Trust or Holding Trust for the purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, a Trust Unitholder.

The non-taxable portion of any net realized capital gains of the Trust paid or payable to a Trust Unitholder in a taxation year will not be included in computing the Trust Unitholder's income for the year. Any other amount in excess of the net income of the Trust that is paid or payable to a Trust Unitholder in such year (otherwise than as proceeds of disposition of the Trust Units) generally will not be included in the Trust Unitholder's income for the year. However, such other amount will reduce the ACB of the Trust Units held by the Trust Unitholder. To the extent that the ACB of a Trust Unit to a Trust Unitholder otherwise would be less than zero, the negative amount will be deemed to be a capital gain of the Trust Unitholder from the disposition of the Trust Unit in the year in which the negative amount arises, and the ACB of the Trust Unit to the Trust Unitholder will then be nil.

The cost to a Trust Unitholder of a Trust Unit will include all amounts paid or payable by the Trust Unitholder for the Trust Unit with certain adjustments. The cost to a Trust Unitholder of additional Trust Units received in lieu of a cash distribution of income (including net capital gains) will be the amount of such income paid in additional Trust Units. The cost to a Trust Unitholder of the Trust Units to the extent that each is held as capital property will be averaged to determine the ACB of each Trust Unit held by the Trust Unitholder.

Acquisitions of Trust Units

Since the net income of the Trust will be distributed on a monthly basis, a purchaser of a Trust Unit may become taxable on a portion of the net income of the Trust accrued or realized by the Trust in a month before the time the Trust Unit was purchased but which was not paid or made payable to Trust Unitholders until the end of the month and after the time the Trust Unit was purchased. A similar result may apply on an annual basis in respect of a portion of net taxable capital gains accrued or realized by the Trust in a year before the time the Trust Unit was purchased but which is paid or made payable to Trust Unitholders at year end and after the time the Trust Unit was purchased.

Dispositions of Trust Units

The disposition or deemed disposition by a Trust Unitholder of a Trust Unit, whether on redemption or otherwise, generally will result in the Trust Unitholder realizing a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition exceed (or are less than) the aggregate of the Trust Unitholder's ACB of the Trust Unit and any reasonable costs of disposition. Proceeds of disposition will not include an amount payable by the Trust that is otherwise required to be included in the Trust Unitholder's income. The treatment of capital gains and losses are generally described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*".

Where Trust Units are redeemed by the distribution of Holding Trust Notes to the Trust Unitholder, the proceeds of disposition to the Trust Unitholder of the Trust Units will be equal to the FMV of the Holding Trust Notes so distributed less any amount designated by the Trust to be an income distribution from the Trust. The Declaration of Trust provides that the Trustees have the discretion to designate certain income and any capital gain realized by the Trust as a result of the redemption of Trust Units to the Trust Unitholder redeeming Trust Units, as is reasonable in the circumstances. The Trust Unitholder will be required to include in income any such income so designated.

The cost of any Holding Trust Notes distributed by the Trust to a Trust Unitholder upon a redemption of Trust Units will be equal to the FMV of the Holding Trust Notes at the time of the distribution. For this purpose, the Trust Unitholder will be required to determine the FMV of the Holding Trust Notes on a reasonable basis. A Trust Unitholder who is a Resident will thereafter be required to include in income, in accordance with the provisions of the Tax Act, interest on any such note so distributed.

Taxation of Partners

Allocation of Income

The Partnerships are not subject to tax under the Tax Act. Each Partner of each of the Partnerships, including Holding Trust, is required to include in computing the Partner's income for a particular taxation year the

Partner's share of the income or loss, including capital gains and capital losses, as the case may be, of the particular Partnership of which the Partner is a member at any time in the fiscal year of the Partnership ending on or before the Partner's taxation year end. See "*Certain Canadian Federal Income Tax Considerations – Taxation of the Partnerships*".

The Limited Partnership Agreements provide for the allocation of income or loss of the Partnerships for any fiscal year whether or not any of that income is distributed to a Partner in the taxation year. Generally, income of a particular Partnership for a particular fiscal year will be allocated among the Partners of the particular Partnership according to the particular Limited Partnership Agreement. The Limited Partnership Agreements provide that if an Exchangeable Security is transferred prior to the end of a particular Partnership fiscal year, the Partner will be allocated a proportionate share of the income for that fiscal year for the period in that fiscal year during which the Partner held the Exchangeable Security.

Acquisition of Exchangeable Securities

The ACB to a Partner of an Exchangeable Security will be the cost of the Exchangeable Security acquired under the Arrangement, plus or minus adjustments required under the Tax Act. The adjustments required include additions to the ACB for income and capital gains allocated to a Partner and reductions to the ACB for distributions received by, and losses and capital losses allocated to a Partner. If, at the end of a fiscal year of a particular Partnership, these reductions exceed the cost plus the additions to the ACB of a Partner's Exchangeable Securities, the Partner will realize an immediate capital gain to the extent of the excess.

Disposition of Exchangeable Securities

Generally, the disposition or deemed disposition by a Partner of an Exchangeable Security, will result in the Partner realizing a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition exceed (or are less than) the aggregate of the Partner's ACB of the Exchangeable Security and any reasonable costs of disposition. The amount by which a Partner's ACB is negative at the time of the disposition or deemed disposition will be included in computing the Partner's capital gain. The treatment of capital gains and losses are generally described below under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*".

Taxation of Capital Gains and Capital Losses

Under the Tax Act, one-half of any capital gain realized by a Common Shareholder, Trust Unitholder or Partner who is a Resident, the amount of any net taxable capital gains designated by the Trust in respect of a Trust Unitholder who is a Resident and one-half of any capital gain allocated to a Partner who is a Resident will be included in such holder's income as a taxable capital gain. Subject to certain specific rules in the Tax Act, one-half of any capital loss realized by such a Common Shareholder, Trust Unitholder or Partner or one-half of any capital loss allocated to such a Partner in a taxation year may be deducted from any taxable capital gains realized by the Common Shareholder, Trust Unitholder or Partner in the year of disposition or allocation, in the three preceding taxation years or in any subsequent taxation year.

A Common Shareholder, Trust Unitholder or Partner that throughout the relevant taxation year is a "Canadian-controlled private corporation", as defined in the Tax Act, may be liable to pay an additional refundable tax of $6^2/_3\%$ on certain investment income, including taxable capital gains.

A capital loss realized on the disposition of a Common Share by a Common Shareholder that is a corporation may be reduced by the amount of dividends received or deemed to be received by the Common Shareholder to the extent and under the circumstances prescribed by the Tax Act. Similar rules may apply where the corporation is a member of a partnership or a beneficiary of a trust that owns Common Shares or where a trust or partnership, of which a corporation is a beneficiary or a member, is a member of a partnership or a beneficiary of a trust that owns Common Shares. A capital loss realized on the disposition of a Trust Unit by a Trust Unitholder that is a corporation or trust (other than a mutual fund trust), whether directly or as a member of a partnership, may be reduced in respect of certain distributions to the Trust Unitholder out of dividends received by the Trust directly or

through Holding Trust or the Partnerships and designated by the Trust in respect of the Trust Unitholder to the extent and under the circumstances described in the Tax Act. A capital loss realized on the disposition of an Exchangeable Security by a Partner that is a corporation, whether directly or as a member of another partnership, may be reduced in respect of the amount of dividends received or deemed to be received by the Partner to the extent and under the circumstances prescribed by the Tax Act. Holders to whom these rules may be relevant should consult their own tax advisors.

Minimum Tax

Net income of the Trust that is paid or payable to a Trust Unitholder that is designated as taxable dividends or as net taxable capital gains, capital gains realized on the disposition of Common Shares, Trust Units or Exchangeable Securities and capital gains or taxable dividends allocated to a Partner may increase the holder's liability for minimum tax if the holder is an individual. A Partner's share of losses allocated under a Limited Partnership Agreement may increase the holder's liability for minimum tax if the holder is an individual.

Qualified Investment Status

Trust Units will be qualified investments for Exempt Plans and RESPs (subject to the specific provisions of any particular Exempt Plan or RESP) provided that the Trust qualifies as a mutual fund trust for purposes of the Tax Act. If the Trust ceases to qualify as a mutual fund trust, the Trust Units will cease to be qualified investments for such Exempt Plans and RESPs.

Holding Trust Notes received as a result of an *in specie* redemption of Trust Units by the Trust will not be qualified investments for Exempt Plans or RESPs, which could give rise to adverse consequences to the Exempt Plans or RESPs or the annuitant thereunder. Accordingly, Exempt Plans or RESPs that own Trust Units should consult their own tax advisors before deciding to exercise the redemption right attached to the Trust Units.

Registered Pension Plans

The Budget proposes to introduce an additional 1% per month tax for months that end after 2004 on, *inter alia*, a registered pension plan if such plan's aggregate cost amount of trust units acquired after March 22, 2004 exceeds 1% of the aggregate cost amounts of all property held by the plan and/or if such plan holds more than 5% of the units of a particular class of trust units. This additional tax does not apply to a trust where 90% or more of the fair market value of the property of which is attributable to, *inter alia*, real property.

Foreign Property

Based in part on representations of the Trust, Holding Trust, AltaGas and the General Partner as to certain factual matters and proposed activities, the Trust Units at the Effective Date will not constitute foreign property for purposes of the tax imposed under Part XI of the Tax Act for Exempt Plans, registered investments, registered pension plans or other persons subject to tax under Part XI of the Tax Act. RESPs are not subject to the foreign property rules.

If the Trust ceases to qualify as a mutual fund trust or if the Trust does not restrict its holding of foreign property within the limits provided under the Tax Act, the Trust Units may become foreign property.

Persons other than Residents

The following portion of this summary generally is applicable to a holder who at all relevant times is not a Resident and who does not use or hold, and is not deemed to use or hold Common Shares or Trust Units, as the case may be, in connection with carrying on a business in Canada. Special rules, which are not discussed herein, may apply to a person other than a Resident that is an insurer carrying on business in Canada and elsewhere.

The Budget proposes to introduce changes to the Tax Act that subject persons who are not Residents to tax in respect of certain distributions made by mutual fund trusts that otherwise would not be subject to taxation in

Canada. It is not clear whether these proposals will result in tax consequences to Trust Unitholders that are materially different from those disclosed in this Information Circular. See below under "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Trust Distributions*".

Taxation of Capital Gains

A holder who is not a Resident generally will not be subject to tax under the Tax Act in respect of any capital gain realized on a disposition or deemed disposition of a Common Share or Trust Unit (whether the disposition of such Trust Unit is on sale, redemption, by virtue of capital distributions in excess of a Trust Unitholder's ACB or otherwise) unless such property constitutes "taxable Canadian property" for purposes of the Tax Act of the person who is not a Resident and no relief is available to the holder under an applicable income tax convention.

Taxable Canadian Property

A Common Share generally will not be considered to be taxable Canadian property of a holder unless, at any time during the 60 month period that ends at the time of the disposition of such share, 25% or more of the issued shares of any class or series of shares of AltaGas were owned by (or the subject of an option or interest held by) the holder, by persons with whom the holder did not deal at arm's length or by any combination thereof. Under certain circumstances, a Common Share may be deemed to be taxable Canadian property under the Tax Act.

A Trust Unit generally will not be considered to be taxable Canadian property of a Trust Unitholder unless either: (i) at any time during the 60 month period that ends at the time of the disposition of such Trust Unit, 25% or more of the issued Trust Units were owned by the Trust Unitholder, by persons with whom the Trust Unitholder did not deal at arm's length or by any combination thereof; or (ii) at the time of disposition, the Trust is not a "mutual fund trust" as defined in the Tax Act.

If a holder's Common Share or Trust Unit is considered to be taxable Canadian property, on the disposition or deemed disposition thereof, the capital gain (or capital loss) generally will be treated in the manner described above under "*Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses*". However, an applicable income tax convention may provide relief from Canadian tax on any such capital gain realized by the holder.

Trust Distributions

All amounts that the Trust pays or credits, or is deemed to pay or credit, to a Trust Unitholder who is not a Resident, other than amounts designated by the Trust to be net taxable capital gains, and any amount that can reasonably be considered to be a distribution of or derived from a dividend received by the Trust from a corporation that is a Resident other than a taxable dividend, which otherwise would be included in the income of such Trust Unitholder (determined in accordance with the Tax Act) will be subject to Canadian withholding tax at a rate of 25% of the gross amount thereof, unless such rate is reduced under an applicable income tax convention. The rate of withholding tax is reduced to 15% where such distributions are paid or credited, or deemed to be paid or credited, to those Trust Unitholders who are not Residents and are residents of the United States under the *Canada-United States Income Tax Convention*, 1980, as amended.

It is expected that a portion of the distributions from the Trust will not constitute income determined in accordance with the Tax Act. Such distributions generally will not be subject to Canadian withholding tax, but generally will reduce the ACB (as defined in the Tax Act) of the Trust Units.

Where the Trust makes a designation under the Tax Act of net taxable capital gains, such taxable capital gain will be deemed to be a taxable capital gain of the holder of a Trust Unit from the disposition of capital property. However, the Tax Act does not deem such taxable capital gain to be a disposition of taxable Canadian property. While not without uncertainty, such deemed taxable capital gain may not be subject to tax under the Tax Act to a Trust Unitholder who is not a Resident. Trust Unitholders are strongly urged to consult with their own tax advisors with respect to the taxability under the Tax Act of any such designated net taxable capital gains.

The Budget proposes to introduce changes to the Tax Act that will deem certain amounts designated by a trust to be net taxable capital gains to be a distribution from the trust which is not excepted from withholding tax in certain circumstances. The Budget further proposes that, at any time after 2004, amounts paid or made payable by a trust as a distribution on units listed on a prescribed stock exchange, the value of which is primarily attributable to, *inter alia*, real property in Canada, to a holder who is a non-resident person, within the meaning of the Tax Act, will be subject to 15% withholding tax. To the extent that such person is not otherwise subject to tax under the Tax Act, the non-resident person will be deemed to have disposed of taxable Canadian property and will realize a gain equal to the amount of the distribution. A non-resident person will be entitled to apply a loss realized on the disposition of a unit to reduce any distributions upon which this tax was imposed. Any remaining loss, to the extent of such distributions, may be carried back three years or carried forward indefinitely. It is not clear whether this proposal will result in tax consequences to Trust Unitholders that are materially different from those disclosed in this Information Circular.

Taxation of Dissenting Securityholders

A Dissenting Securityholder who is a Common Shareholder will realize a capital gain (or a capital loss) equal to the amount by which the FMV of the consideration received in exchange for the Common Shares exceeds (or is less than) the aggregate of the ACB of such Common Shares and any reasonable cost of disposition. For purposes of determining the Dissenting Securityholder's capital gain (or capital loss), the proceeds of disposition will be equal to the amount received as consideration for the Common Shares less the amount of any interest awarded by the Court. The taxation of capital gains and capital losses is described above under "*Certain Canadian Federal Income Tax Considerations – Persons other than Residents – Taxation of Capital Gains*".

Any interest paid or credited to a Dissenting Securityholder who is not a Resident pursuant to a Court award will be subject to withholding tax. Under the Tax Act, interest paid or credited to a person who is not a Resident is subject to withholding tax at the rate of 25% of the gross amount of the interest, unless such rate is reduced under an applicable income tax convention.

CERTAIN UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

In this section we summarize certain material anticipated United States federal income tax considerations relevant to the acquisition, ownership and disposition of Trust Units by Trust Unitholders that are United States persons. This discussion is intended to be a general description of certain United States federal income tax considerations relevant to an investment in the Trust Units. It does not address all possible tax consequences to a U.S. holder, defined below, and does not take into account the tax consequences to U.S. holders that are subject to special provisions of the United States income tax law. A U.S. holder should consult its own tax advisor regarding the particular tax consequences which may result from an acquisition of a Trust Unit pursuant to the Arrangement.

This discussion is based on the provisions of the Internal Revenue Code of 1986, as amended (the "**Code**"), its legislative history and regulations under the Code, the administrative policies published by the United States Internal Revenue Service, and judicial decisions, all of which are subject to change, possibly with retroactive effect. This discussion does not take into account the tax laws of any state and local jurisdictions of the United States or any foreign jurisdictions.

The following discussion assumes that the Trust Units are held has a capital asset (as defined in Section 1221 of the Code). This discussion applies only to a holder of Trust Units that acquire such Trust Units as part of the Arrangement and that is: (i) a citizen or resident of the United States, (ii) a corporation (or other entity taxable as a corporation), created or organized in or under the laws of the United States, any State of the United States or the District of Columbia, (iii) an estate the income of which is subject to federal income taxation regardless of its source or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of such trust and one or more United States persons as described in Section 7701(a)(30) of the Code has the authority to control all substantial decisions of such trust (a "**U.S. holder**"). Holders other than U.S. holders are advised to consult their own tax advisors regarding the tax considerations incident to the acquisition, ownership and disposition of the Trust Units. In addition, this discussion does not purport to deal with all aspects of United States federal income taxation that might be relevant to particular U.S. holders in light of their personal investment circumstances or status, nor does it discuss the United States federal income tax consequences to certain types of U.S. holders that

may be subject to special rules under the United States federal income tax laws, such as financial institutions, persons owning 10% or more (by vote or value) of the Trust Units of the Trust, or persons that hold Trust Units that are a hedge against, or that are hedged against, currency risk or that are part of a straddle or conversion transaction, or persons whose functional currency is not the United States dollar.

Certain U.S. Federal Income Tax Consequences to U.S. Shareholders

As part of the Arrangement, United States Common Shareholders will transfer their Common Shares in exchange for solely Trust Units (the "**Exchange**"). Based on certain representations provided by AltaGas and certain assumptions, it is the opinion of Mayer, Brown, Rowe & Maw, U.S. tax counsel to AltaGas, that the Exchange should not result in United States federal income tax to those United States Common Shareholders that will hold less than 5%, directly and by attribution, of the total Trust Units issued in the Arrangement. All United States Common Shareholders, however, are urged to consult their own tax advisors regarding the particular tax consequences to them of the Exchange.

Trust

The Trust will be treated as a corporation for United States federal income tax purposes.

Trust Units

Distributions

A U.S. holder that receives a distribution with respect to the Trust Units generally will be required to include the gross amount of such distribution (without reduction for any Canadian tax withheld) in gross income as a taxable dividend to the extent such distribution is paid from the Trust's current or accumulated earnings and profits as determined under United States federal income tax principles. A U.S. holder must include in income an amount equal to the United States dollar value of such distributions on the date of receipt based on the exchange rate on such date. A U.S. holder generally will be entitled to a foreign tax credit, or deduction for United States federal income tax purposes, in an amount equal to any Canadian tax withheld. To the extent that distributions received by a U.S. holder with respect to the Trust Units exceed the Trust's current or accumulated earnings and profits, they will be treated first as a return of capital up to such U.S. holder's adjusted tax basis in the Trust Units, and then as gain from the sale or exchange of the Trust Units. In the case of a distribution paid in Canadian dollars that is not converted by the U.S. holder into U.S. dollars on the date of receipt, the U.S. holder will have a tax basis in the Canadian dollars equal to their U.S. dollar value on the date of receipt. Any gain or loss recognized on a subsequent sale or other disposition of such Canadian dollars, including an exchange for U.S. dollars, will be ordinary income or loss.

Distributions described above generally will constitute ordinary income that is a foreign source "passive income" for foreign tax credit purposes, which could reduce the amount of foreign tax credit that a U.S. holder may claim. The United States Internal Revenue Code applies various limitations on the amount of foreign tax credit that may be claimed by a United States taxpayer. Because of the complexity of those limitations, a U.S. holder should consult its own tax advisor with respect to the amount of the foreign taxes that may be claimed as a credit. Distributions paid by the Trust on the Trust Units will not generally be eligible for the "dividends received" deduction. To the extent a distribution is taxable as a dividend, a US holder that is an individual should be eligible for the reduced maximum rate of tax on the dividend of generally 15% (5% for individuals in lower tax brackets), provided certain holding period and other requirements are met.

Sale or Exchange of Trust Units

A U.S. holder who sells Trust Units generally will recognize gain or loss in an amount equal to the difference, if any between the amount realized on the sale (or its U.S. dollar equivalent, determined by reference to the spot rate of exchange on the date of disposition, if the amount realized is denominated in Canadian dollars) and such U.S. holder's adjusted tax basis in the Trust Units. Subject to the following discussion regarding "anti-deferral" provisions, any gain or loss recognized by a U.S. holder on the sale of Trust Units held as capital assets will be long-term or short-term capital gain or loss, depending on whether the U.S. holder is treated as owning such

Trust Units for more than one year. Such gain or loss generally will be treated as United States source income or loss for United States foreign tax credit purposes.

Anti-Deferral Provisions

Various "anti-deferral" provisions of the Code (the "Subpart F," the "passive foreign investment company," and the "foreign personal holding company" provisions) are not expected to apply to a U.S. holder's investment in a Trust Unit. However, if such a provision applied, it may cause a U.S. holder to (i) recognize taxable income prior to receiving an actual distribution, (ii) pay an interest charge on receipts that are deemed as having been deferred, or (iii) recognize ordinary income that, but for the "anti-deferral" provisions, would have been treated as short-term or long-term capital gain.

U.S. Backup Withholding Tax and Information Reporting

United States backup withholding tax and information reporting requirements apply to certain payments to certain noncorporate U.S. holders. Information reporting generally will apply to payments of distributions on and proceeds from the sale or redemption of Trust Units made within the United States to a holder (other than an "exempt recipient", including a corporation, a payee that is not a United States person who provides appropriate certification and certain other persons). The payor will be required to withhold backup withholding tax on any payments within the United States on a Trust Unit to a holder of a Trust Unit that is a United States person, other than an exempt recipient, such as a corporation, if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States of distributions on a Trust Unit or proceeds from a sale, exchange or redemption to a holder of a Trust Unit, that is not a United States person will not be subject to backup withholding tax and information reporting requirements if an appropriate certification is provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect. The backup withholding tax rate is 28% through year 2010.

NON-CANADIAN INCOME TAX CONSIDERATIONS

This Information Circular does not contain a summary of the non-Canadian income tax consequences of the Arrangement for Securityholders, Trust Unitholders and Limited Partners who are subject to income tax outside of Canada, other than United States federal income tax consequences. Such holders should consult their tax advisors with respect to the tax implications of the Arrangement, including any associated filing requirements, in such jurisdictions.

INFORMATION CONCERNING THE RELATIONSHIP BETWEEN ENBRIDGE AND THE TRUST

Pursuant to certain agreements dated May 12, 1999, AltaGas and Enbridge agreed to establish a strategic alliance to provide midstream natural gas services to natural gas producers in the Western Canadian Sedimentary Basin.

The Shareholder Agreement sets forth certain rights and obligations of AltaGas and Enbridge reflective of the strategic alliance between them and Enbridge's influence over, but not control of, AltaGas. The principal rights and restrictions pursuant to the Shareholder Agreement are as follows:

(a) Provided Enbridge owns in excess of 9.9% of the Common Shares (diluted), it has:

(i) the ability to appoint two (2) of the AltaGas Directors (or, to the extent the board size is increased beyond 10 directors, such number as exceeds 22% of the total number of directors);

(ii) the right to representation on board committees; and

(iii) the right to maintain its proportionate ownership interest of AltaGas;

(b) Until May 12, 2004, Enbridge is restricted, subject to certain terms and conditions, from:

(i) owning in excess of 40% of the Common Shares (diluted);

(ii) soliciting, initiating, encouraging or participating in any discussions or negotiations or otherwise assisting any person interested in acquiring Enbridge's Common Shares or from entering into certain business combination transactions;

(iii) transferring any of its Common Shares;

(iv) voting on special resolution matters contrary to the majority of Common Shareholders; and

(c) Enbridge is restricted from selling, in any six month period, on a private placement basis, a number of Common Shares greater than 5% of the outstanding Common Shares and Participating Shares, and in completing any one or more of those sales will not knowingly sell more than 5% of the outstanding Common Shares and Participating Shares to a single person or its affiliates or persons acting jointly or in concert with that person.

AltaGas agreed in the Principal Shareholder Agreement that the rights and restrictions contained therein which are to expire on May 12, 2004 will not be continued following the Arrangement. Otherwise, the Shareholder Agreement will continue on substantially the same terms, including Enbridge's rights to appoint directors and have representation on committees of the board of directors described above, except that such rights to appoint directors and to have representation on committees will be in respect of the appointment of directors of the General Partner and representation on committees thereof. The maintenance of these rights will be consistent with existing arrangements with Enbridge.

The Registration Rights Agreement sets forth certain rights of Enbridge in respect of the registration of the Common Shares owned by it in certain circumstances. The principal rights set forth in the Registration Rights Agreement, subject to the terms and conditions contained therein, are as follows:

(a) Enbridge is entitled to Demand Registrations, provided that only one such Demand Registration may be made every 12 months and that such request must be for in excess of 5% of the outstanding Common Shares (diluted); and

(b) Enbridge may require AltaGas to include Common Shares held by it in any offering of treasury securities by AltaGas, provided that such request must be for in excess of 2.5% of the outstanding Common Shares (diluted).

AltaGas has also agreed in the Principal Shareholder Agreement that the rights accruing to Enbridge by virtue of the Registration Rights Agreement will continue on substantially similar terms following the Arrangement, except that such rights will be in respect of the Trust Units that Enbridge will receive in exchange for the Common Shares (including those obtained on the conversion of Participating Shares) held by it pursuant to the Arrangement. In addition, AltaGas agreed that Enbridge will be entitled to two Demand Registrations every 12 months in respect of the Trust Units held by it as compared to its previous entitlement to one Demand Registration every 12 months in respect of the Common Shares held by it, on substantially the same terms and conditions as those contained in the Registration Rights Agreement. These rights will expire upon Enbridge ceasing to hold any Trust Units.

Enbridge's continuing rights and obligations in respect of the Shareholder Agreement and Registration Rights Agreement will be set forth in agreements with Enbridge, the Trust and other applicable entities that will be entered into and effective as and from the Effective Time.

On the Closing of the Arrangement and related transactions the Strategic Alliance Arrangement will be terminated.

INFORMATION CONCERNING THE TRUST

Overview

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust. The head and principal office of the Trust is located at 1700, 355 - 4th Avenue S.W., Calgary, Alberta T2P 0J1. The Trust was established for the purposes of acquiring or investing in the securities of Holding Trust, the General Partner, AltaGas or any associate or affiliate thereof or any other entity involved in the business of, or the ownership, lease or operation of assets or property in connection with gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses and such other investments as the Trustee may determine.

Trust Unitholders will be the sole beneficiaries of the Trust. Computershare Trust Company of Canada is the initial Trustee of the Trust. The Trust will be the sole shareholder of the General Partner.

The Trust will not be managed by a third party manager. Pursuant to the Delegation Agreement, certain of the powers and duties of the Trustee will be delegated to the General Partner. Pursuant to the Administration Agreement, the management and administration of the Trust will be delegated to AmalgamationCo. See "*Management of the Trust – Administration Agreement*", "*Management of the Trust – Delegation Agreement*" and "*Information Concerning the General Partner*".

The Trust will become a reporting issuer in certain Canadian jurisdictions and will become subject to the informational reporting requirements under the securities laws of those jurisdictions as a result of the Arrangement.

The Trust's operations and activities are restricted to:

(a) acquiring, investing in, holding, transferring, disposing of and otherwise dealing with securities of whatever nature or kind of, or issued by, Holding Trust, the General Partner, AmalgamationCo or any associate or affiliate of any thereof, or of, or issued by, any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses and such other investments as the Trustee may determine, and to borrow funds and issue debt securities, directly or indirectly, for that purpose and enter into hedging arrangements in relation thereto;

(b) acquiring, holding, maintaining, improving, leasing or managing any real property (or interest in real property) that is capital property of the Trust for purposes of the Tax Act, and borrowing funds and issuing debt securities for those purposes, directly or indirectly, and enter into hedging arrangements in relation thereto;

(c) temporarily holding cash and other short term investments in connection with and for the purposes of the Trust's activities, including paying administration and trust expenses, paying any amounts required in connection with the redemption of Trust Units and making distributions to holders of Trust Units;

(d) issuing Trust Units and other securities of the Trust (including exchangeable securities, or warrants, options, subscription receipts or other rights to acquire Trust Units or other securities of the Trust), for the purposes of:

  (i) obtaining funds to conduct the activities described above, including raising funds for further acquisitions;

  (ii) repaying any indebtedness or borrowings of the Trust;

(iii) establishing and implementing unitholder rights plans, distribution reinvestment plans, Trust Unit purchase plans, incentive option plans or other compensation plans, if any, established by the Trust; and

(iv) making non-cash distributions to holders of Trust Units as contemplated by the Declaration of Trust including in specie redemptions and distributions pursuant to distribution reinvestment plans, if any, established by the Trust;

(e) guaranteeing the obligations of its affiliates pursuant to any good faith debt for borrowed money or any other obligation incurred by such entity in good faith for the purpose of carrying on its business, and pledging securities and other property owned by the Trust as security for any obligations of the Trust, including obligations under any such guarantee;

(f) granting security in any form, over any or all of the Trust's assets to secure any or all of the obligations of the Trust;

(g) repurchasing or redeeming securities of the Trust, including Trust Units, subject to the provisions of the Declaration of Trust and applicable law;

(h) carrying out any of the transactions, and entering into and performing any of the obligations of the Trust under any agreements contemplated by the Declaration of Trust;

(i) engaging in all activities ancillary or incidental to any of these activities; and

(j) undertaking such other activities or taking such actions including investing in securities as shall be approved by the Trustee from time to time,

provided that the Trust shall not, in any event, undertake any activity, take any action, or make any investment which would result in the Trust not being considered a "unit trust" or a "mutual fund trust" for purposes of the Tax Act or the Trust Units being considered "foreign property" for the purposes of the Tax Act or the Trust itself being liable for any tax under Part XI of the Tax Act.

Pursuant to the Delegation Agreement, the General Partner on behalf of the Trustee may declare payable to the Trust Unitholders on a particular Distribution Record Date all or any part of the Cash Flow of the Trust for the Distribution Period including that Distribution Record Date. It is currently anticipated that the only income to be received by the Trust will be from distributions on the units of Holding Trust. The Trust expects to make monthly cash distributions to Trust Unitholders (commencing June 15, 2004, assuming the Effective Date is May 1, 2004 and assuming a Distribution Record Date of May 25, 2004) of distributions received on the units of Holding Trust, after expenses, if any, and any cash redemptions of Trust Units. See "*Distribution Policy*".

Objectives of the Trust

The objectives of the Trust are to: (a) provide Trust Unitholders with stable and growing cash distributions, payable monthly and, to the maximum extent reasonably possible, tax deferred, from investments in the energy business; and (b) maximize Trust Unit value through the effective management of the AmalgamationCo assets and the acquisition of additional midstream assets. The Trust will develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and the northern United States.

An experienced and capable management team, led by a core group of professionals with an average of over 23 years of experience in the diversified energy services business, are expected to manage and provide strategic direction to the Trust. See "*Management of the Trust – Administration Agreement*" and "*Information Concerning the General Partner*".

STRATEGY OF THE TRUST

In order to provide the stability necessary to achieve the Trust's objective of delivering stable and growing cash distributions, the Trust focuses on assets that are diversified in terms of their revenue source, contractual terms, exposure to industry cycles and geographic location. On completion of the Arrangement, AmalgamationCo's mix of assets will provide the Trust with a combination of regulated cost of service, fixed fee and margin based service revenue. These revenue streams are relatively predictable, with minimal or managed exposure to commodity prices and have a cash flow horizon extending out as long as 30 years. Going forward, while investing in a larger asset base, the Trust intends to grow each of AmalgamationCo's business components to ensure concentrations of risk are minimized. See "*Information Concerning AmalgamationCo – Description of the Business*".

The Trust will employ a strategy to: (a) provide Trust Unitholders and holders of Exchangeable Securities with a competitive annual cash-on-cash yield by making monthly cash Distributions to Trust Unitholders and holders of Exchangeable Securities; (b) maintain AmalgamationCo's existing assets, and any additional assets acquired either by AmalgamationCo or any other operating entities owned, directly or indirectly, by the Trust, in a manner that provides predictable cash flow; and (c) enable AmalgamationCo, and any other operating entities owned, directly or indirectly, by the Trust, to continue to expand its business through development, expansion and acquisition opportunities that will provide long-term stable cash flows and be accretive to Trust Unitholders.

MANAGEMENT OF THE TRUST

The Trustee

The Declaration of Trust provides that the assets and affairs of the Trust are subject to the power, control and authority of the Trustee. The Trustee must be a corporation incorporated under the laws of Canada or of a province thereof and not be a Non-Resident and be registered under the laws of Alberta to carry on the business of a trust corporation, among other things.

The initial term of the Trustee's appointment is until the third annual meeting of Unitholders. The Unitholders shall, at the third annual meeting of the Unitholders, re-appoint, or appoint a successor to the Trustee for an additional three year term, and thereafter, the Unitholders shall reappoint or appoint a successor to the Trustee at the annual meeting of Unitholders three years following the reappointment or appointment of the successor to the Trustee.

The Trustee may be removed by notice in writing delivered by AmalgamationCo or the General Partner to the Trustee in the event that, at any time: (a) the Trustee no longer qualifies as such; (b) the Trustee is declared bankrupt or insolvent or enters into liquidation, whether compulsory or voluntary, to wind-up its affairs; (c) if the assets of the Trustee, or a substantial part thereof, otherwise become subject to seizure or confiscation; (d) if the Trustee otherwise becomes incapable of performing its responsibilities under the Declaration of Trust; or (e) as a result of a material increase in the fees charged by the Trustee. In such case, the removal is not effective until approved by an Ordinary Resolution of the Unitholders and upon the acceptance or appointment of a successor Trustee. The Trustee may also be removed by Ordinary Resolution of the Unitholders with or without cause.

The Trustee is required to act honestly and in good faith with a view to the best interests of the Trust and in connection therewith to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Powers of the Trustee

Without in any way limiting the general power and authority over the assets and affairs of the Trust granted to the Trustee, the Trustee has the specific powers and authorities to do the following or to cause the same to be done, among other things: (a) supervise the activities and manage the investments and conduct the affairs of the Trust; (b) maintain records and provide reports to Unitholders; (c) effect payment of Distributions to Trust Unitholders; (d) invest funds of the Trust as provided above under the heading "*Information Concerning the Trust – Overview*"; (e) where reasonably required, engage or employ on behalf of the Trust any persons as agents,

representatives, administrators, employees or independent contractors (including, without limitation, investment advisors, registrars, transfer agents, underwriters, accountants, lawyers, appraisers, brokers or otherwise) in one or more capacities; (f) arrange for the procedures regarding the limitations on Non-Resident ownership as described below under the heading "*Declaration of Trust and Description of Units – Limitation on Non-Resident Ownership*" (g) except as prohibited by applicable law, delegate any of the powers and duties of the Trustee in relation to the Trust as provided in the Declaration of Trust or otherwise to any one or more agents, representatives, administrators, officers, employees, independent contractors or other persons (including but not limited to the General Partner or AmalgamationCo) without liability to the Trustee, except as provided in the Declaration of Trust, and may, from time to time, with the consent of the General Partner, change the administrator of the Trust; (h) enter into or perform the obligations of the Trust under and in respect of any and all agreements to which the Trust becomes a party including, but not limited to, the Administration Agreement, the Delegation Agreement, the Support Agreement and the Voting and Exchange Trust Agreement; (i) without limit as to amount, issue any type of debt securities or convertible debt securities and borrow money or incur any other form of indebtedness for the purpose of carrying out the purposes of the Trust or for other expenses incurred in connection with the Trust and enter into hedging arrangements with respect thereto and for such purposes may draw, make, execute and issue promissory notes and other negotiable and non-negotiable instruments or securities and evidences of indebtedness, secure the payment of sums so borrowed or indebtedness incurred and mortgage, pledge, assign or grant a security interest in any money owing to the Trust or in the Trust's assets or engage in any other means of financing the Trust; (j) guarantee the obligations of any of Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2, AmalgamationCo or any other person controlled, directly or indirectly, by the Trust and any subsidiary of any of them and any other subsidiary of the Trust pursuant to any debt for borrowed money or other obligation incurred by such entity in good faith for the purpose of carrying on its business, and pledging securities and other property owned by the Trust as security for such guarantee as directed by the General Partner; (k) grant security, in any form, over any or all of the Trust's assets to secure any or all of the obligations of the Trust including its obligations under any guarantee as directed by the General Partner; and (l) do all such other acts and things as are incidental to or related to the foregoing, and exercise all powers which are necessary or useful to carry on the purpose and activities of the Trust, to promote any of the purposes for which the Trust is formed and to carry out the provisions of the Declaration of Trust.

The Trustee has covenanted to vote in favour of the Trust's nominees to act as members of the Board of Directors.

Notwithstanding the foregoing, the Trustee has delegated to AmalgamationCo pursuant to the Administration Agreement the power, authority and responsibility of the Trustee in respect of those matters referred to in the Administration Agreement. See below under "*Management of the Trust – Administration Agreement*". In addition, the Trustee has delegated to the General Partner, pursuant to the Delegation Agreement, the power, authority and responsibility of the Trustee in respect of those matters referred to in the Delegation Agreement. See below under "*Management of the Trust – Delegation Agreement*".

Restrictions on Trustee's Powers

Notwithstanding any of the Trustee's power and authority, the Trustee may not under any circumstances: vote the Holding Trust units, the Trust's securities of the General Partner or, where applicable, the Holding Trust Notes; or vote the Trust's securities of, or permit Holding Trust or the General Partner to vote their interests in, AltaGas LP #1 or AltaGas LP #2; or AltaGas LP #1 to vote its interests in AltaGas LP #2; or AltaGas LP #2 to vote its securities of AmalgamationCo, to authorize:

(a) any sale, lease or other disposition of all or substantially all of the assets of the General Partner, Holding Trust, AltaGas LP #1, AltaGas LP #2 or AmalgamationCo, except in conjunction with an internal reorganization or a pledge to secure indebtedness incurred in carrying out the purposes of the Trust;

(b) any merger, amalgamation, arrangement, reorganization, recapitalization, business combination or similar transaction involving Holding Trust, AltaGas LP #1, AltaGas LP #2 or AmalgamationCo, except in conjunction with an internal reorganization;

(c) any material amendment to the Holding Trust Note Indenture, other than an amendment which is not prejudicial to the Trust;

(d) the winding-up, liquidation or dissolution of the General Partner, Holding Trust, AmalgamationCo or (unless all of such limited partnership interests therein are owned directly or indirectly by the Trust) AltaGas LP #1 or AltaGas LP #2 prior to the end of the term of the Trust; or

(e) any material amendment to the Holding Declaration of Trust, the AltaGas LP #1 Limited Partnership Agreement, the AltaGas LP #2 Limited Partnership Agreement, or the articles of the Holding Trust Trustee, the General Partner or AmalgamationCo, in a manner prejudicial to the Trust,

without the approval of the Unitholders by Special Resolution at a meeting of Unitholders called for that purpose. In addition, except as part of an internal reorganization of the direct or indirect assets of the Trust as a result of which the Trust has the same interest, whether direct or indirect, in the assets as the interest, whether direct or indirect, that it had prior to the reorganization, the Trustees have no power to:

(a) sell or otherwise dispose of any securities of the General Partner, Holding Trust units or Holding Trust Notes, except pursuant to a pledge pursuant to the Declaration of Trust or an in specie redemption; or

(b) sell all or substantially all of the Trust's assets or cause Holding Trust to sell all or substantially all of its assets, or cause Holding Trust to cause any subsidiary thereof to sell all or substantially all of the direct or indirect assets of the Trust, in each case in a single transaction or a series of related transactions, without the approval of the Unitholders by Special Resolution.

Compensation of the Trustee

The Trustee shall be paid by the Trust such fees as may be agreed upon in writing from time to time by the General Partner and the Trustee, and if any such fees are not paid by the Trust within 30 days of the date of any invoice in respect thereof, the Trustee shall be entitled to have such fees paid out of the Trust's assets. As part of the expenses of the Trust, the Trustee may pay or cause to be paid all reasonable fees, costs and expenses incurred in connection with the discharge of any of the duties in the Declaration of Trust, including, without limitation, fees, costs and expenses of AmalgamationCo pursuant to the Administration Agreement, auditors, accountants, lawyers, appraisers and other agents, consultants, professional advisors employed by or on behalf of the Trust and the cost of reporting or giving notices to Unitholders, including remuneration of the Trustee for services rendered to the Trust in any other capacity (including as transfer agent or Depository).

Delegation of Authority, Administration and Trust Governance

Delegation to the General Partner

Without limiting the generality of the foregoing, pursuant to the Declaration of Trust and the Delegation Agreement the Trustee is authorized to, and may, delegate to the General Partner the power, authority and responsibility to make all decisions required to be made by the Trustee from time to time in relation to the Trust including, without limitation the power, authority and responsibility for any and all matters referred to in the Delegation Agreement. See "*Management of the Trust – Delegation Agreement*".

The Trustee may also delegate to the General Partner the powers and authorities of the Trust that are necessary or desirable to enable the General Partner to fully implement each decision made by the General Partner within the scope of the power, authority and responsibility delegated to it under the Delegation Agreement including, without limitation, the power to further delegate from time to time, such powers and authorities, or any of them, to such person or persons the General Partner determines appropriate and qualified to exercise such power and authorities.

The General Partner may, and if directed by the General Partner in writing, the Trustee shall, execute any agreements on behalf of the Trust as the General Partner shall have authorized within the scope of any authority delegated to it under the Delegation Agreement. Without limiting the generality of the foregoing, the Trustee will irrevocably delegate to the General Partner from time to time the full power and authority, and irrevocably constitute the General Partner its true and lawful attorney in fact, to sign on behalf of the Trust all prospectuses, annual information forms, management proxy circulars, other offering documents and any other documents ancillary or similar thereto or to complete the transactions contemplated thereby that are required to be signed by the Trust from time to time.

In the event that the General Partner is unable or unwilling to perform its obligations under the Delegation Agreement, the Trustee shall either perform all obligations of the General Partner thereunder or shall be entitled to engage another person that is duly qualified to perform such obligations.

In accepting the delegation, the General Partner will have agreed that, in respect of such matters, it will carry out its functions honestly, in good faith and in the best interests of the Trust and the Unitholders and, in connection therewith, will exercise that degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances. For further information see below under "*Management of the Trust – Delegation Agreement*".

Delegation to AmalgamationCo

Except as otherwise provided in the Declaration of Trust or as expressly prohibited by applicable law, the Trustee has the power to grant or delegate to an administrator such authority as the Trustee may in its sole discretion deem necessary or desirable to effect the actual administration of the duties of the Trustee under the Declaration of Trust, without regard to whether such authority is normally granted or delegated by trustees. The Trustee may grant broad discretion to such administrator to administer and manage the day-to-day operations of the Trust, to act as agent for the Trust, to execute documents on behalf of the Trust and to make decisions which conform to general policies and general principles set forth in the Declaration of Trust or established by the Trustee.

Pursuant to that authority, AmalgamationCo has been given the powers and duties expressly provided for in the Declaration of Trust and in the Administration Agreement, including the power to further delegate administration of the Trust, provided that no further delegation shall be effective until AmalgamationCo shall have notified the Trustee of the name of the person or persons to whom such further delegation is made and the terms and conditions thereof. For further information see below under "*Management of the Trust – Administration Agreement*".

Liability of Trustee

Except in the event of a breach of the standard of care, diligence and skill required of the Trustee, the Trustee shall not be liable to any Unitholder for any action taken in good faith in reliance on any documents that are, *prima facie*, properly executed; for any depreciation of, or loss to, the Trust incurred by reason of the sale of any security; for the loss or disposition of monies or securities; or for any other action or failure to act including, without limitation, the failure to compel in any way any former trustee to redress any breach of trust or any failure by Holding Trust to perform obligations or pay monies owed to the Trust. If the Trustee has retained an appropriate expert or advisor with respect to any matter connected with its duties under the Declaration of Trust, the Trustee may act or refuse to act based on the advice of such expert or advisor and, notwithstanding any provision of the Declaration of Trust, including, without limitation, the standard of care, diligence and skill required of the Trust, the Trustee shall not be liable for any action or refusal to act based on the advice of any such expert or advisor which it is reasonable to conclude is within the expertise of such expert or advisor to give.

Subject to the standard of care required of the Trustee, none of the Trustee nor any officer, director, employee or agent thereof shall be subject to any liability whatsoever in tort, contract or otherwise, in connection with the Trust assets or the affairs of the Trust, including, without limitation, in respect of any loss or diminution in value of any Trust assets to the Trust or to the Unitholders or to any other person for anything done or permitted to be done by the Trustee. The Trustee shall not be subject to any personal liability for any debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses against or with respect to the Trust arising out

of anything done or permitted or omitted to be done in respect of the execution of the duties of the office of Trustee for or in respect of the affairs of the Trust. No property or assets of the Trustee, owned in its personal capacity or otherwise, will be subject to any levy, execution or other enforcement procedure with regard to any obligations under the Declaration of Trust or under any other related agreements. No recourse may be had or taken, directly or indirectly, against the Trustee in its personal capacity. The Trust shall be solely liable therefor and resort shall be had solely to the Trust assets for payment or performance thereof.

Administration Agreement

Generally, AmalgamationCo will provide administrative and support services to, and be responsible for the management and general administration of, the affairs of the Trust, pursuant to the Administration Agreement, including without limitation the following:

(a) undertake any matters required by the terms of the Declaration of Trust to be performed by the Trustee, which are not otherwise delegated therein, pursuant to the Delegation Agreement or the Administration Agreement and generally provide all other services as may be necessary or as requested by the Trustee for the administration of the Trust;

(b) prepare all returns, filings and documents and make all determinations necessary for the discharge of the Trustee's obligations under the Declaration of Trust;

(c) the retention and monitoring, on behalf of the Trustee, of the transfer agent and other organizations serving the Trust;

(d) the authorization and payment on behalf of the Trust of operation expenses incurred on behalf of the Trust and the negotiation of contracts with third party providers of services (including, but not limited to, transfer agents, legal counsel, auditors and printers);

(e) the provision of office space, telephone, office equipment, facilities, supplies and executive, secretarial and clerical services;

(f) subject to the direction and approval of the General Partner, dealing with banks and other institutional lenders, including in respect of the maintenance of bank records and the negotiation and securing of bank financing or refinancing of one or more credit or debt facilities, hedging or swap facilities or other ancillary facilities in respect of the Trust or any entity in which the Trust holds any direct or indirect interest;

(g) subject to the approval of the General Partner, prepare and provide to the Unitholders annual audited and interim unaudited financial statements of the Trust, as well as relevant tax information;

(h) submit all income tax returns and filings to the Trustee in sufficient time prior to the dates upon which they must be filed so that the Trustee has a reasonable opportunity to review them, execute them and return them to AmalgamationCo, and arrange for their filing within the time required by applicable tax law;

(i) subject to the approval of the General Partner, compute, determine and make on the Trust's behalf distributions to Trust Unitholders of distributions properly payable by the Trust and administer on behalf of the Trust such distribution reinvestment plans and other similar plans as the Trust may establish from time to time;

(j) ensure compliance by the Trust with, and enforcing all rights of the Trust under, all agreements entered into by the Trust, including the Support Agreement and the Voting and Exchange Trust Agreement;

(k) ensure compliance by the Trust with all applicable securities legislation including without limitation, continuous disclosure obligations;

(l) subject to the approval of the General Partner, prepare on behalf of the Trust any circular or other disclosure document required under applicable securities legislation with respect to an offer to acquire securities of another person or in response to an offer to purchase Trust Units;

(m) provide investor relations services to the Trust;

(n) call and hold all annual and/or special meetings of Unitholders pursuant to the Declaration of Trust and subject to the approval of the General Partner, prepare and arrange for the distribution of all materials (including notices of meetings and information circulars) in respect thereof;

(o) subject to the approval of the General Partner, prepare and provide or cause to be provided to Unitholders on a timely basis all information to which Unitholders are entitled under the Declaration of Trust and under applicable laws, including information or proxy circulars, annual information forms, prospectuses, quarterly and annual reports, notices, financial reports and tax information relating to the Trust;

(p) take all steps necessary to complete the issuance of securities of the Trust as directed by the General Partner;

(q) attend to all administrative and other matters arising in connection with any redemptions of Trust Units;

(r) obtain and maintain appropriate liability insurance for the benefit of the directors and officers of the Holding Trust Trustee, the General Partner and AmalgamationCo and its subsidiaries;

(s) ensure that the Trust elects in the prescribed manner and within the prescribed time under subsection 132(6.1) of the Tax Act to be a "mutual fund trust" within the meaning of that act since inception, and assuming the requirements for such election are met, monitor on behalf of the General Partner the Trust's status as such a mutual fund trust and provide the Trustee and the General Partner with written notice when the Trust ceases or is at risk of ceasing to be such a mutual fund trust;

(t) monitor the investments of the Trust to ensure that the aggregate cost amount of the "foreign property" of the Trust does not exceed the limits prescribed in the Tax Act, the result of which would be to expose the Trust to Part XI tax under such act;

(u) under the direction of the General Partner, undertake, manage and prosecute any and all proceedings from time to time before or in respect of governmental authorities on behalf of the Trust;

(v) subject to the approval of the General Partner, prepare any prospectus or comparable documents of the Trust to qualify the sale of securities of the Trust from time to time; and

(w) promptly notify the Trust of any event that might reasonably be expected to have a material adverse effect on the affairs of the Trust.

AmalgamationCo will provide similar administrative services to the foregoing to each of Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 pursuant to the Administration Agreement, modified as necessary to take into account the nature of the entity and the terms, conditions and limitations of the Holding Declaration of Trust, the constating documents of the General Partner, AltaGas LP #1 Limited Partnership Agreement and AltaGas #2 Limited Partnership Agreement, respectively.

In the conduct of its duties pursuant to the Administration Agreement, AmalgamationCo has full right, power and authority to execute and deliver all contracts, leases, licenses and other documents and agreements, to make applications and filings with governmental authorities and take such other actions as it considers appropriate in connection with the business of the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2, respectively.

AmalgamationCo must exercise the powers and discharge the duties conferred under the Administration Agreement honestly, in good faith and in the best interests of the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 and exercise the degree of care, diligence and skill that a reasonably prudent administrator in Canada having responsibilities of a similar nature would exercise in comparable circumstances.

Expenses

Pursuant to the Administration Agreement, AmalgamationCo will be reimbursed by each of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the General Partner, without duplication, for such of the expenses (including, without limitation, salary, wages and other forms of compensation paid to employees engaged in rendering services under the Administration Agreement, and out-of-pocket expenses) incurred by AmalgamationCo as are, in the opinion of AmalgamationCo, acting reasonably, reasonably allocable respectively thereto.

The Administrator shall calculate the expenses and allocation thereof for each month and periodically shall invoice each of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the General Partner, without duplication, in respect thereof by setting out the details of the services provided by AmalgamationCo and the expenses and taxes incurred by AmalgamationCo in connection therewith. Such amounts shall be payable by each of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the General Partner, without duplication, not later than 30 days after such month. Notwithstanding the foregoing, each of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the General Partner, without duplication, shall have the right from time to time on written notice to AmalgamationCo to assign the obligation to reimburse AmalgamationCo, whereupon the assignee shall be responsible for such reimbursements until further notice and shall be invoiced for such.

Notwithstanding the foregoing, in respect of expenses allocable to the Trust, Holding Trust, AltaGas LP#1, AltaGas LP#2 or the General Partner that are not, in accordance with the Tax Act properly deductible against the respective income in the fiscal year in which the expense is incurred, AmalgamationCo has agreed to waive reimbursement in that fiscal year of that portion of the expense which is not deductible in that fiscal year and to provide AltaGas LP #2 (or, if AltaGas LP #2 has been wound-up or otherwise no longer exists, AltaGas LP #1) with the funds necessary to pay the non-deductible portion of the expenses of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 or the General Partner by repayment of loan, return of capital or otherwise. AltaGas LP #2 (or, if AltaGas LP #2 has been wound-up or otherwise no longer exists, AltaGas LP #1) will lend an amount equal to that non-deductible portion to the applicable entity. The amount loaned will be non-interest bearing and repayable at the end of the first calendar quarter of each subsequent fiscal year of that entity as to the amount then deductible in accordance with the Tax Act in such fiscal year, until fully repaid.

Delegation Agreement

In addition to the delegation of duties to AmalgamationCo pursuant to the Administration Agreement, the Trustee also intends to delegate certain of its other powers and duties to the General Partner pursuant to the terms of the Delegation Agreement.

Pursuant to the terms of the Delegation Agreement, the Trustee will delegate to the General Partner the responsibility for:

(a) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the determination of distributions (including the designation of any capital gain) to Trust Unitholders and including, without limitation, the determination from time to time of the record dates for, and payment dates of, such distributions;

(b) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the redemption of Trust Units;

(c) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to ensuring compliance with the restrictions contained in the Declaration of Trust with respect to Non-Resident ownership of Trust Units;

(d) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to the direct or indirect acquisition of Trust assets by the Trust and the negotiation of agreements in respect thereof;

(e) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to any Offering including:

(i) the listing and maintaining of the listing on the TSX of the Trust Units;

(ii) the filing of documents or obtaining of permission from any governmental authority or the taking of any other step under federal or provincial law to enable securities which a Trust Unitholder is entitled to receive to be properly and legally delivered and thereafter traded;

(iii) ensuring compliance with all applicable laws;

(iv) the content of any Offering Documents, the accuracy of the disclosure contained therein, and the certification thereof; and

(v) all matters concerning the terms of the sale or issuance of Trust Units or rights to Trust Units including without limitation all matters concerning any Underwriting Agreement;

(f) undertaking responsibility to make all directions and approve the negotiation and securing of bank financing or refinancing of one or more credit or debt facilities, hedging or swap facilities or other ancillary facilities in respect of the Trust or any entity in which the Trust holds any direct or indirect interest;

(g) approving on behalf of the Trust the annual audited and interim unaudited financial statements of the Trust, as well as relevant tax information;

(h) approving on behalf of the Trust all information to which Unitholders are entitled under the Declaration of Trust and under applicable laws, including information or proxy circulars, annual information forms, prospectuses, quarterly and annual reports, notices, financial reports and tax information relating to the Trust;

(i) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to any and all proceedings from time to time before or in respect of governmental authorities on behalf of the Trust;

(j) approving on behalf of the Trust, any prospectus or comparable documents of the Trust to qualify the sale of securities of the Trust from time to time;

(k) undertaking and performing, by and through the audit committee of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf or in relation to the Trust, as is required by applicable law or desirable of an audit committee of the Trust;

(l) undertaking and performing, by and through committees of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf of or in relation to the Trust, as is

required by applicable law or desirable of the applicable committee of the governing body of the Trust;

(m) undertaking responsibility to make all decisions and take, or cause to be taken, all such actions relating to all matters pertaining to the Trust in respect of which the Administrator has a conflict of interest;

(n) determining the timing and terms of any offer by the Trust for, and repurchase by the Trust of, previously issued Trust Units;

(o) determining whether to make any amendments to the Declaration of Trust, as in the opinion of the Board of Directors may be necessary or appropriate, in order to provide Unitholders with the benefit of any legislation limiting their liability (including, if appropriate, amendments to effect a change in the *situs* of the Trust or the laws governing the Trust); and

(p) undertaking all matters in connection with any take-over bid, merger, amalgamation, arrangement, reorganization, recapitalization, purchase or repurchase of any securities or assets of any person, any business combination, or any other similar transaction involving the Trust (the foregoing individually referred to as a "**Transaction**" and collectively as the "**Transactions**"), including, without limiting the generality of the foregoing, the right, power and authority to:

(i) establish, implement and amend (when and as required, once established) any Unitholder rights plan as the General Partner may determine to be desirable for the Trust to establish;

(ii) issue news releases and ensure compliance by the Trust with its continuous disclosure obligations under all applicable securities legislation;

(iii) provide, or arrange for the provision of, investor relations services to the Trust;

(iv) approve, prepare or cause to be prepared, and send or cause to be sent to Unitholders, any circular or other disclosure documents (and all amendments thereto) required under applicable securities legislation in response to any offer for the Trust Units; and

(v) call and hold, as well as prepare or cause to be prepared all materials (including notices of meetings and information circulars) in respect of, all special meetings of Unitholders required in connection with any Transaction;

(q) making all determinations, enter all agreements, prepare all documents and take all other actions with respect to any Transaction which the General Partner may determine to be necessary, expedient, desirable or advisable for the best interests of the Trust and its Unitholders, and so as to comply with all applicable laws; and

(r) doing all such other acts and things whatsoever as may be incidental to or required in connection with the foregoing.

Expenses

Pursuant to the Delegation Agreement, all costs, charges and expenses reasonably incurred by the General Partner and the Board of Directors in carrying out the General Partner's obligations and duties under the Delegation Agreement in connection with the provision and performance of the services delegated thereunder (including, without limitation, salary, wages, and other forms of compensation paid to employees engaged in rendering the services to be provided thereunder and/or management fees paid to management entities which might be engaged to provide such services) shall be payable by the Trust out of the Trust's assets.

Notwithstanding the foregoing, in respect of any expenses that are not, in accordance with the Tax Act, properly deductible against the respective income in the fiscal year thereof in which the expense is incurred, the General Partner will agree to waive reimbursement in such year of such portion of the expense which is not so expensable in such fiscal year. AmalgamationCo will provide AltaGas LP #2 (or, if AltaGas LP #2 has been wound-up or otherwise no longer exists, AltaGas LP #1) with the funds necessary to pay the non-deductible portion of expenses by repayment of loan, return of capital or otherwise. AltaGas LP #2 (or, if AltaGas LP #2 has been wound-up or otherwise no longer exists, AltaGas LP #1) shall lend the amount not deductible to the Trust. Any amount so loaned will be non-interest bearing and repayable at the end of the first calendar quarter of each subsequent fiscal year of the Trust as to the amount then deductible in accordance with the Tax Act by the Trust in such fiscal year, until fully repaid.

The Delegation Agreement will continue in full force and effect until such time as the first of the following occurs: (a) the Trust or the General Partner terminates the Delegation Agreement by notice to the other parties to the Delegation Agreement, with termination to become effective 30 days after the receipt of such notice by the last of the parties; (b) the parties mutually agree in writing to terminate the Delegation Agreement; or (c) the Trust is terminated pursuant to the Declaration of Trust.

DECLARATION OF TRUST AND DESCRIPTION OF UNITS

The Trust was created pursuant to the Declaration of Trust. The following is a summary which does not purport to be complete of the material attributes and characteristics of the Trust Units and special voting units and certain provisions of the Declaration of Trust. Reference is made to the Declaration of Trust for the full text of its provisions and a complete description of the Trust Units and special voting units.

Trust Units and Special Voting Units

Trust Units

An unlimited number of Trust Units may be created and issued pursuant to the Declaration of Trust. Each Trust Unit shall entitle the holder thereof to one vote at any meeting of the Unitholders or in respect of any written resolution of Unitholders and represents an equal undivided beneficial interest in any distribution from the Trust (whether of income, net realized capital gains or other amounts) and in any net assets of the Trust in the event of termination or winding-up of the Trust. All Trust Units shall rank among themselves equally and rateably without discrimination, preference or priority, whatever may be the actual date or terms of issue thereof. Each Trust Unit is transferable, is not subject to any conversion or pre-emptive rights and entitles the holder thereof to require the Trust to redeem any or all of the Trust Units held by such holder. See below under "*Declaration of Trust and Description of Units – Trust Unit Redemption Right*".

The Trust Units do not represent a traditional investment and should not be viewed by investors as "shares" in either AmalgamationCo or the Trust. As holders of Trust Units in the Trust, the Trust Unitholders will not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions. The price per Trust Unit will be a function of anticipated distributable income from AmalgamationCo and the ability of AmalgamationCo to effect long term growth in the value of the Trust. The market price of the Trust Units will be sensitive to a variety of market conditions including, but not limited to, interest rates, commodity prices and the ability of the Trust to acquire additional assets. Changes in market conditions may adversely affect the trading price of the Trust Units. See "*Risk Factors*".

The Trust Units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that act or any other legislation. Furthermore, the Trust is not a trust company and, accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

Limited Liability

The Declaration of Trust provides that no Unitholder, in its capacity as such, shall incur or be subject to any liability, direct or indirect, absolute or contingent, in contract or in tort or of any other kind to any person, and no resort will be had to, nor will recourse or satisfaction be sought from, the private property of any Unitholder for any liability whatsoever in connection with the Trust's assets, the obligations or the activities or affairs of the Trust, any actual or alleged act or omission of the Trustee, any transaction entered into by the Trustee or any taxes, levies, imposts or charges or fines, penalties or interest in respect thereof payable by the Trust. In the event that a court determines Unitholders are subject to any such liabilities, the liabilities will be enforceable only against, and will be satisfied only out of the Unitholder's share of the Trust's assets represented by its Trust Units.

The Declaration of Trust provides that the Trustee, the General Partner or AmalgamationCo, on behalf of the Trust, and the Trust must make all reasonable efforts to include as a specific term of any obligations or liabilities being incurred by the Trust or the Trustee, the General Partner or AmalgamationCo on behalf of the Trust, a contractual provision to the effect that none of the Unitholders, the Trustee, the General Partner or AmalgamationCo shall have any personal liability or obligations in respect thereof. The omission of any such statement shall not render any of such parties liable to any person for such omission.

Notwithstanding the terms of the Declaration of Trust, Unitholders may not be protected from liabilities of the Trust to the same extent a shareholder is protected from the liabilities of a corporation. Personal liability may also arise in respect of claims against the Trust (to the extent that claims are not satisfied by the Trust) that do not arise under contracts, including claims in tort, claims for taxes and possibly certain other statutory liabilities. The possibility of any personal liability to Unitholders of this nature arising is considered unlikely in view of the fact that the sole activity of the Trust is to hold securities, and all of the business operations currently carried on by AltaGas will be carried on by AmalgamationCo, either directly or indirectly. See "*Risk Factors – Unitholder Limited Liability*".

The activities of the Trust and its indirect wholly-owned subsidiary, AmalgamationCo, will be conducted, upon the advice of counsel, in such a way and in such jurisdictions as to avoid as far as possible any material risk of liability to the Unitholders for claims against the Trust, including by obtaining appropriate insurance, where available and to the extent commercially feasible, for the operations of AmalgamationCo and having contracts signed by or on behalf of the Trust include a provision that such obligations are not binding upon Unitholders personally.

Special Voting Units

In order to allow the Trust flexibility in pursuing corporate acquisitions, and for purposes of the Arrangement, the Declaration of Trust allows for the creation of special voting units which will enable the Trust to provide voting rights to holders of exchangeable securities. As a result, the Special Voting Unit to be issued pursuant to the Plan will enable the holders of Exchangeable Securities to be issued by AltaGas LP #1 and AltaGas LP #2 to vote at meetings of Unitholders.

Special voting units may be created and issued pursuant to the Declaration of Trust to a voting and exchange trustee. The Special Voting Unit to be created and issued pursuant to the Arrangement will be issued to the Voting and Exchange Trustee. The holder of a special voting unit, including in respect of the Special Voting Unit, the Voting and Exchange Trustee, shall not be entitled to any interest or share in the distributions or net assets of the Trust and shall only be entitled to such number of votes at meetings of Unitholders as is equal to the number of Trust Units into which the exchangeable securities to which such special voting unit relates are exchangeable or convertible.

Under the terms of the Voting and Exchange Trust Agreement, the Trust will issue the Special Voting Unit to the Voting and Exchange Trustee for the benefit of every person who receives Exchangeable Securities pursuant to the Arrangement. The Voting and Exchange Trustee will be obligated to vote the Special Voting Unit at meetings of Unitholders pursuant to the instructions of the holders of Exchangeable Securities. However, if no instructions are provided by the holders of Exchangeable Securities, the votes associated therewith in the Special Voting Unit will be withheld from voting.

The Special Voting Unit will be subject to such other rights and limitations as may be determined by the Trustee at the time of issuance of the Special Voting Unit. The Declaration of Trust provides that upon the exchange of Exchangeable Securities for Trust Units, the entitlement to vote pursuant to the Special Voting Unit will be eliminated in respect of those Exchangeable Securities.

Issuance of Units

The Declaration of Trust provides that Units, including exchangeable securities, rights, warrants, options or other securities convertible into or exchangeable for Trust Units, may be created, issued, sold and delivered on such terms and conditions and at such times as the Trustee may determine. The Declaration of Trust also provides that the Trustee may authorize the creation and issuance of any type of debt securities or convertible debt securities of the Trust from time to time on such terms and conditions to such persons and for such consideration as the Trustee may determine.

Purchase of Units

The Trust may from time to time purchase for cancellation some or all of the Units (or other securities of the Trust which may be issued and outstanding from time to time) in the market, by private agreement or upon any recognized stock exchange on which such Units are traded or pursuant to tenders received by the Trust upon request for tenders addressed to all holders of record of Units, provided in each case that the Trustee has determined that such purchases are in the best interests of the Trust. Any such purchases may constitute an "issuer bid" under Canadian provincial securities legislation and must be conducted in accordance with the applicable requirements thereof. A Unitholder will not have the right at any time to require the Trust to purchase such Unitholder's Units.

Trust Unit Redemption Right

Trust Units are redeemable at any time on demand by the holders thereof upon delivery to the Trust of a duly completed and properly executed notice requesting the Trust to redeem Trust Units. Upon receipt of the notice to redeem Trust Units by the Trust, the holder thereof shall thereafter cease to have any rights with respect to the Trust Units tendered for redemption (other than to receive the redemption payment therefor unless the redemption payment is not made as required) including the right to receive any distributions thereon which are declared payable on a date subsequent to the day of receipt by the Trust of the notice requesting redemption.

Cash Redemption

Upon receipt by the Trust of the notice to redeem Trust Units, the tendering Trust Unitholder will thereafter be entitled to receive a price per Trust Unit (the "**Market Redemption Price**") equal to the lesser of: (a) 90% of the Market Price per Trust Unit on the principal stock exchange on which the Trust Units are listed (or, if the Trust Units are not listed on any such exchange, on the principal market on which the Trust Units are quoted for trading) during the period of the last 10 trading days immediately prior to the date on which the Trust Units were tendered for redemption; and (b) 100% of the Closing Market Price on the principal stock exchange on which the Trust Units are listed (or, if the Trust Units are not listed on any such exchange, on the principal market on which the Trust Units are quoted for trading) on the date that the Trust Units were tendered for redemption.

The aggregate Market Redemption Price payable by the Trust in respect of the Trust Units surrendered for redemption during any calendar month shall be satisfied by way of a cash payment within five Business Days after the end of the calendar month in which the Trust Units were tendered for redemption.

Trust Unitholders will not receive cash upon the redemption of their Trust Units if:

(a) the total amount payable by the Trust in respect of such Trust Units and all other Trust Units tendered for redemption in the same calendar month exceeds $50,000; provided that the Trustee may, in its sole discretion, waive such limitation in respect of all Trust Units tendered for redemption in any calendar month. If this limitation is not so waived, the Trust Units tendered for redemption in such calendar month shall be redeemed for cash based on the Market Redemption

Price and, unless any applicable regulatory approvals are required, by a distribution *in specie* of the Trust's assets, based on the "in specie Redemption Price" (as defined below), which may include Series 3 Notes or other assets held by the Trust, on a *pro rata* basis;

(b) at the time such Trust Units are tendered for redemption, the outstanding Trust Units are not listed for trading on the TSX or traded or quoted on any stock exchange or market which the Trustee considers, in its sole opinion, provides representative fair market value prices for the Trust Units;

(c) the normal trading of the Trust Units is suspended or halted on any stock exchange on which the Trust Units are listed for trading or, if not so listed, on any market on which the Trust Units are quoted for trading, on the date that such Trust Units tendered for redemption were tendered to the Trust for redemption or for more than five trading days during the 10-day trading period prior to the date on which such Trust Units were tendered for redemption; or

(d) the redemption of Trust Units will result in the delisting of the Trust Units on the principal stock exchange on which the Trust Units are listed.

In Specie Redemption

If a cash redemption is not available for Trust Units tendered for redemption by a Trust Unitholder, then such Trust Unitholder will, instead of the Market Redemption Price per Trust Unit, be entitled to receive a price per Trust Unit (the "**in specie Redemption Price**") equal to the FMV of a Trust Unit as determined by the Trustee in its sole discretion. The in specie Redemption Price will, subject to all necessary regulatory approvals, be paid and satisfied by way of a distribution *in specie* of Trust assets, which may include Series 3 Notes or other assets held by the Trust (other than Holding Trust units), as determined in the sole discretion of the Trustee.

The aggregate in specie Redemption Price payable by the Trust in respect of the Trust Units surrendered for redemption during any calendar month shall be paid by the transfer, to or to the order of the Trust Unitholder who exercised the right of redemption, within five Business Days after the end of the calendar month in which the Trust Units were tendered for redemption, of Trust assets.

It is anticipated that this redemption right will not be the primary mechanism for holders of Trust Units to dispose of their Trust Units. Series 3 Notes which may be distributed in specie to Trust Unitholders in connection with a redemption will not be listed on any stock exchange and no market is expected to develop in such Series 3 Notes. Series 3 Notes will not be qualified investments for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans.

Meetings of Unitholders

The Declaration of Trust provides that meetings of Unitholders must be called and held for, among other matters, the election of the Board of Directors of the General Partner, subject, as applicable, to the provisions of the Shareholder Agreement, the appointment or removal of the auditors of the Trust, the approval of amendments to the Declaration of Trust (except as described below under "*Declaration of Trust and Description of Units – Amendments to the Declaration of Trust*"), the sale of all or substantially all of the Trust's assets, the dissolution or termination of the Trust and the appointment or removal of the Holding Trust Trustee. Meetings of Unitholders will be called and held annually for, among other things, the election of the Board of Directors and the appointment of the auditors of the Trust. For a description of the Board of Directors and the committees thereof, see "*Information Concerning the General Partner*".

A meeting of Unitholders may be convened at any time and for any purpose by the Trustee and must be convened, except in certain circumstances, if requisitioned by the holders of not less than 5% of all votes entitled to be voted at a meeting of Unitholders (including the votes attached to Exchangeable Securities by virtue of the Special Voting Unit) by a written requisition. A requisition must, among other things, state in reasonable detail the business purpose for which the meeting is to be called.

Subject to the Voting and Exchange Trust Agreement, only Unitholders of record may attend and vote at all meetings of Unitholders either in person or by proxy and a proxyholder need not be a Unitholder. Two persons present in person or represented by proxy and representing in the aggregate at least 5% of the votes attaching to all outstanding Units shall constitute a quorum for the transaction of business at all such meetings. For the purposes of determining such quorum, the Special Voting Unit shall be regarded as representing outstanding Trust Units equivalent in number to the number of Exchangeable Securities represented by proxy by the Voting and Exchange Trustee at such meeting.

The Declaration of Trust contains provisions as to the notice required and other procedures with respect to the calling and holding of meetings of Unitholders in accordance with the requirements of applicable laws.

Limitation on Non-Resident Ownership

It is in the best interest of Unitholders that the Trust qualify as a "mutual fund trust" under the Tax Act and in order to ensure the maintenance of such status the Declaration of Trust provides, in part, that:

(a) the General Partner shall: (i) prior to the consummation of any transaction involving the acquisition by the Trust of any properties or assets other than securities of the General Partner or Holding Trust; (ii) prior to any material modification to the Trust other than as contemplated by (i); (iii) promptly following any proposed amendment to paragraph 132(7)(a) of the Tax Act or the publication of any administrative bulletin or other notice of interpretation relating to the interpretation or application of such section; or (iv) otherwise at any time when requested by the Trustee, obtain an opinion of counsel confirming whether the Trust is, at the date thereof and following such transaction or event (which in the case of (iii) shall mean the coming into effect of the amendment or change of interpretation), entitled to rely on paragraph 132(7)(a) of the Tax Act (or any successor provision thereto) for purposes of qualifying as a "mutual fund trust" under the Tax Act;

(b) if at any time the Board of Directors determines, in its sole discretion, or becomes aware, pursuant to (a) above or otherwise, that the Trust's ability to continue to rely on paragraph 132(7)(a) of the Tax Act (or any successor provision thereto) for purposes of qualifying as a "mutual fund trust" thereunder is in jeopardy, then forthwith after such determination:

(i) the Trust shall not be maintained primarily for the benefit of Non-Residents and it shall be the sole responsibility of the General Partner to monitor the holdings by Non-Residents; and

(ii) the General Partner shall take such steps as are necessary or desirable to ensure that the Trust is not maintained primarily for the benefit of Non-Residents;

(c) the General Partner may, at any time and from time to time, in its sole discretion, request that the Trustee make reasonable efforts, as practicable in the circumstances, to obtain declarations as to beneficial ownership of Trust Units, perform residency searches of Trust Unitholders and holders of Exchangeable Securities and beneficial Trust Unitholders and holders of Exchangeable Securities mailing address lists and take such other steps specified by the General Partner, at the cost of the Trust, to determine or estimate as best possible the residence of the beneficial owners of Trust Units; and

(d) if at any time the Board of Directors, in its sole discretion, determines that it is in the best interest of the Trust, the General Partner, notwithstanding the ability of the Trust to continue to rely on subsection 132(7)(a) of the Tax Act for the purpose of qualifying as a "mutual fund trust" under the Tax Act or otherwise, may:

(i) require the Trustee to refuse to accept a subscription for Trust Units from, or issue or register a transfer of Trust Units to, a person unless the person provides a declaration to

the Trust that the Trust Units to be issued or transferred to such person will not when issued or transferred be beneficially owned by a Non-Resident;

(ii) to the extent practicable in the circumstances, send a notice to registered holders of Trust Units which are beneficially owned by Non-Residents, chosen in inverse order to the order of acquisition or registration of such Trust Units beneficially owned by Non-Residents or in such other manner as the General Partner may consider equitable and practicable, requiring them to sell their Trust Units which are beneficially owned by Non-Residents or a specified portion thereof within a specified period of not less than 60 days. If the Trust Unitholders receiving such notice have not sold the specified number of such Trust Units or provided the General Partner with satisfactory evidence that such Trust Units are not beneficially owned by Non-Residents within such period, the General Partner may, on behalf of such registered Trust Unitholder, sell such Trust Units and, in the interim, suspend the voting and distribution rights attached to such Trust Units and make any distribution in respect of such Trust Units by depositing such amount in a separate bank account in a Canadian chartered bank (net of any applicable taxes). Any sale shall be made on any stock exchange on which the Trust Units are then listed and, upon such sale, the affected holders shall cease to be holders of Trust Units so deposited of and their rights shall be limited to receiving the net proceeds of sale, and any distribution in respect thereof deposited as aforesaid, net of applicable taxes and costs of sale, upon surrender of the Trust Certificates representing such Trust Units;

(iii) delist the Trust Units from non-Canadian stock exchanges; and/or

(iv) take such other actions as the Board of Directors determines, in its sole discretion, are appropriate in the circumstances that will reduce or limit the number of Trust Units held by Non-Resident Trust Unitholders to ensure that the Trust is not maintained primarily for the benefit of Non-Residents.

Amendments to the Declaration of Trust

On or before the Effective Date, the Trustee will execute and deliver such indentures or instruments supplemental to the Declaration of Trust or in restatement thereof, which may add to, delete, amend, vary or change any of the provisions of the Declaration of the Trust as the General Partner may direct in writing and as may be necessary to give proper effect to the intent and purpose of the Arrangement.

The Trustee may, without the consent, approval or ratification of any of the Unitholders, amend the Declaration of Trust at any time:

(a) for the purpose of ensuring the Trust's continuing compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the Trustee or the Trust;

(b) in a manner which, in the opinion of the Trustee, provide additional protection for the Unitholders;

(c) in a manner which, in the opinion of the Trustee, is necessary or desirable as a result of changes in Canadian tax laws;

(d) to remove any conflicts or inconsistencies in the Declaration of Trust or to make minor corrections which are, in the opinion of the Trustee, necessary or desirable and not prejudicial to the Unitholders; or

(e) to change the *situs* of, or the laws governing, the Trust which, in the opinion of the Trustee is desirable in order to provide Unitholders with the benefit of any legislation limiting their liability.

Term of the Trust

The Unitholders may vote by Special Resolution to terminate the Trust at any meeting of the Unitholders duly called for that purpose, following which the Trustee shall commence to wind-up the affairs of the Trust (and shall thereafter be restricted to only such activities).

Unless the Trust is earlier terminated or extended by vote of the Unitholders, the Trustee shall commence to wind-up the affairs of the Trust on such date as may be determined by the Trustee, being not more than two years prior to the earlier of March 24, 2104 and the date which is one day prior to the date, if any, the Trust would otherwise be void by virtue of any applicable rule against perpetuities then in force in Alberta. In the event that the Trust is wound-up, the Trustee will sell and convert into money the assets of the Trust in one transaction or in a series of transactions at public or private sales and do all other acts appropriate to liquidate the property of the Trust, and shall in all respects act in accordance with the directions, if any, of the Unitholders (in respect of termination authorized pursuant to a Special Resolution). After paying, retiring or discharging or making provision for the payment, retirement or discharge of all known liabilities and obligations of the Trust and providing for indemnity against any other outstanding liabilities and obligations, the Trustee shall, subject to obtaining all necessary regulatory approvals, distribute the remaining part of the proceeds of the sale of the assets together with any cash forming part of Trust's assets *pro rata* among the Trust Unitholders.

Take-Over Bids

The Declaration of Trust contains provisions to the effect that if a take-over bid, as defined under the Securities Act, is made for the Trust Units and not less than 90% of the Trust Units (including Trust Units issuable upon the conversion, exercise or exchange of any securities exchangeable into Trust Units but not including any Trust Units held at the date of the take-over bid by or on behalf of, or issuable to, the offeror or an affiliate or associate of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Trust Units and exchangeable securities held by Trust Unitholders who did not accept the take-over bid on the terms offered by the offeror.

Information and Reports

The financial statements of the Trust will be audited annually by an independent recognized firm of chartered accountants. The audited financial statements of the Trust, together with the report of such chartered accountants, will be mailed by the Trustee to Unitholders and the unaudited interim financial statements of the Trust will be mailed to Unitholders within the periods prescribed by securities legislation. The year end of the Trust shall be December 31.

The Trust will be subject to the continuous disclosure obligations under all applicable securities legislation.

Auditors, Transfer Agent and Registrar

The auditors of the Trust are Ernst & Young LLP, Chartered Accountants, 1000, 440 – 2nd Avenue S.W., Calgary, Alberta T2P 5E9.

The transfer agent and registrar for the Trust Units is Computershare Trust Company of Canada, at its principal offices in Calgary, Alberta and Toronto, Ontario where transfers of securities may be recorded.

DISTRIBUTION POLICY

General

The Trust currently intends to make cash distributions to Trust Unitholders on each monthly Distribution Payment Date equal to the Cash Flow of the Trust. The Cash Flow of the Trust will be determined giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements and the consolidated debt repayment requirements of the Trust. The intent is to maximize the Cash

Flow of the Trust giving consideration to these consolidated financial requirements and long term Trust Unitholder value.

Distributions in respect of a month will be paid to Trust Unitholders of record as at the close of business on each Distribution Record Date. The distribution for any month will be paid on the Distribution Payment Date. In addition, the Declaration of Trust provides that, if necessary, on December 31 of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year.

The initial cash distribution payable to Trust Unitholders of record on May 25, 2004 is expected to be made on or before June 15, 2004. It is expected that substantially all of the cash distributions to Trust Unitholders will be taxed as ordinary income.

Distribution Reinvestment Plan

On Closing, subject to regulatory approval, the Trust intends to adopt the Distribution Reinvestment Plan, pursuant to which Trust Unitholders will be entitled to elect to have all distributions of the Trust automatically reinvested in additional Trust Units at a price per Trust Unit calculated by reference to a weighted average of the trading prices for Trust Units on the TSX. No brokerage commissions will be payable in connection with the purchase of Trust Units under the Distribution Reinvestment Plan and all administrative costs will be borne by the Trust. Proceeds received by the Trust upon the issuance of additional Trust Units under the Distribution Reinvestment Plan will be used by the Trust for future acquisitions, capital improvements and working capital. Trust Unitholders resident outside of Canada will not be entitled to participate in the Distribution Reinvestment Plan. Upon ceasing to be a resident of Canada, Trust Unitholders will be required to terminate their participation in the Distribution Reinvestment Plan.

Pro Forma Distributable Cash

The following is a summary of selected pro forma financial information for the Trust. It reflects funds generated from the assets owned, directly or indirectly, by AmalgamationCo following the completion of the Arrangement, for the periods indicated.

Management of the Trust and AltaGas have provided the following analysis to assist Securityholders in analyzing the income of the Trust and the amounts of Distributable Cash that would have been available to the Trust for distribution to Trust Unitholders and holders of Exchangeable Securities had the Trust been in existence for the year ended December 31, 2003. This analysis was prepared on the assumption that the Arrangement had been completed, that AmalgamationCo had retained all of AltaGas' business and that the other transactions contemplated by the Arrangement had all been completed at the beginning of such period. Although firm commitments do not exist for all of the administrative expenses and, accordingly, the financial effect of the inclusion of all necessary administrative expenses is not at present determinable, management of AltaGas has, based on its review of the amounts of these expenses in similar circumstances, estimated that these expenses would not deviate materially from the amounts shown below.

The pro forma information is not a forecast or a projection of future results. The actual results of operations of the Trust for any period following the Effective Date will vary from the amounts set forth in the following analysis, and these variations may be material.

AltaGas Income Trust

	Pro Forma Year Ended December 31, 2003
	(000's except per unit amounts)
Funds generated from operations[2]	$ 90,176
Add (deduct):	
Capital expenditures[3]	(60,181)
Pro forma adjustment to current income taxes	7,439
Funds drawn from long-term debt and working capital	33,884
Distributable Cash[1]	$ 71,318
Weighted average number of Trust Units and Exchangeable Securities	45,717
Distributable Cash per Trust Unit and Exchangeable Security for the period	$ 1.56
Distributable Cash per Trust Unit and Exchangeable Security per month (simple average)	$ 0.13

Notes:

(1) Distributable Cash available for Distribution is not recognized by Canadian generally accepted accounting principles and is not necessarily comparable to the measurement of distributable cash available for distribution in other similar trust entities.
(2) Funds generated from operations has been calculated by adding back to net income items not involving cash.
(3) Capital expenditures represent AltaGas' investing activities for 2003.

PRO FORMA CAPITALIZATION OF THE TRUST

The following table sets forth the pro forma capitalization of the Trust as at December 31, 2003, both before and after giving effect to the Arrangement (all amounts in $ thousands).

Designation	Authorized	Outstanding as at December 31, 2003 prior to giving effect to the Arrangement (1)(4)	Outstanding as at December 31, 2003 after to giving effect to the Arrangement (2)(3)(4)
Short term debt:			
Operating loans		4,493	4,493
Long term debt:			
Operating loans		292,358	292,358
Medium Term Notes		100,000	100,000
Total long term debt		392,358	392,358
Shareholders' / Unitholders' equity:			
Common Shares	Unlimited	179,076	-
Participating Shares	Unlimited	88,964	-
Exchangeable Securities	Unlimited	-	131,738
Trust Units	Unlimited	-	131,739
Retained earnings		95,287	95,287
Total shareholders' / unitholders' equity		363,327	358,764
Total capitalization		760,178	755,615

Notes:

(1) Pro forma number of Trust Units and Exchangeable Securities for the year ended December 31, 2003 has been calculated assuming the conversion of all issued and outstanding AltaGas Participating Shares as at December 31, 2003 into AltaGas Common Shares on a one-for-one basis and the subsequent exchange of all issued and outstanding AltaGas Common Shares as at December 31, 2003 into Trust Units and Exchangeable Securities on a one-for-one basis. The number of Participating Shares and Common Shares outstanding at December 31, 2003 are 9,000,000 and 36,716,844, respectively.

(2) No options have been assumed to be either exercised or issued during the period.

(3) As at December 31, 2003 there were options outstanding to purchase an aggregate of 1,506,362 Trust Units. See "*Information Concerning AmalgamationCo – Trust Unit Option Plan*".

(4) See Appendix H "*Pro Forma Financial Statements*" and "*Balance Sheet*" of AltaGas Income Trust.

At December 31, 2003 AltaGas had the following bank credit facilities:

(a) $50.0 million demand operating credit facility with a Canadian chartered bank. At December 31, 2003 AltaGas had drawn debt of $4.4 million on the demand operating credit facility which bears interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee;

(b) $300.0 million extendible revolving term credit facility with a syndicate of Canadian chartered banks. Effective October 10, 2004 the facility can be extended for an additional 364 days or can be converted by AltaGas on that date to a two year term loan. The term loan is repayable over the two year period or at the end of the two year term, depending on the bondrating category of the long term senior unsecured indebtedness of AltaGas. At December 31, 2003 $289.0 million was drawn on the revolving term credit facility which bears interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee; and

(c) $75.0 million 364 day extendible revolving letter of credit facility with a Canadian chartered bank. The facility bears fees and interest at market rates. AltaGas may borrow up to $25.0 million by way of prime borrowings or banker's acceptances on the letter of credit facility. At December 31, 2003 $0.1 million in bank debt was drawn on facility. The extendible revolving term credit facility matures on June 28, 2004 and can be extended on AltaGas' request and on acceptance by the bank.

Following the Effective Date, AmalgamationCo will assume responsibility for the credit facilities.

The credit facilities are unsecured and subject to customary covenants and financial tests which may in certain circumstances restrict AmalgamationCo's ability to make distributions to AltaGas LP #1 and ultimately to Trust Unitholders.

On October 4, 2000 AltaGas issued $100.0 million of 7.28% medium term notes pursuant to its $250.0 million medium term note program. Interest is payable semi-annually and the principal is due on October 4, 2005. The medium term notes are unsecured. The medium term notes are subject to customary covenants and financial tests and may in certain circumstances restrict AmalgamationCo's ability to make distributions to AltaGas LP #1 and ultimately to Trust Unitholders. Following the Effective Date, AmalgamationCo will assume responsibility for the medium term notes.

Depending on how AmalgamationCo is structured and capitalized following the completion of the Arrangement, it may not satisfy certain covenants in the indenture for AltaGas' existing medium term note program and the agreements regarding the bank facilities described above. In that event, AmalgamationCo may obtain waivers of those covenants or may satisfy or avoid the application of those covenants in some other manner, including the reorganization of its assets or, if it considers it appropriate in the circumstances, the defeasance of the applicable covenants.

SELECTED PRO FORMA FINANCIAL INFORMATION FOR THE TRUST

The following is a summary of selected pro forma financial information for the assets owned, directly or indirectly, on a consolidated basis by the Trust following the completion of the Arrangement, for the period

indicated. The following should be read in conjunction with the pro forma financial statements of the Trust and the notes thereto attached as Appendix H to the Information Circular.

	Year ended December 31, 2003 (unaudited) (000's)
Total revenues	$ 708,884
Cost of sales	489,027
Operating income	83,554
Net income	59,004
Total assets	918,617
Total debt	396,851

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides a comparison of AltaGas' performance and financial position for the years ended December 31, 2003 and 2002, including discussion on AltaGas' affairs up to March 4, 2004. This discussion and analysis should be read in conjunction with the consolidated financial statements and accompanying notes for the years ended December 31, 2003, 2002 and 2001 provided in Appendix H to this Information Circular.

Prospective data, comments and analysis are also provided wherever appropriate to assist existing and new investors to see the business from a corporate management viewpoint. Such disclosure is subject to reasonable constraints of maintaining the confidentiality of certain information which, if published would probably have an adverse impact on the competitive position of AltaGas. The results or events predicted in this prospective information may differ from actual results or events. Factors which could cause actual results or events to differ materially include among other things the ability of AltaGas to successfully implement its strategic initiatives and whether such strategic initiatives will yield the expected benefits, the availability and price of energy commodities, regulatory decisions, competitive factors in the gathering and processing, extraction, transmission, power and natural gas distribution sectors and the prevailing economic conditions in North America.

AltaGas files through the SEDAR system an Annual Information Form that provides further insight into AltaGas' businesses and associated risks.

Consolidated Results

($ millions, unless otherwise noted, except per share amounts)	2003	2002[1]
Net income	**38.3**	29.4
Net income per share[2]	$ **0.84**	$ 0.70

Notes:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations. See Note 2 to the Consolidated Financial Statements attached as Appendix H to this Information Circular.

(2) Per share amounts are based on the weighted average number of shares outstanding during the period.

2003 was an exceptional year for AltaGas with net income up 30% when compared to 2002, earnings per share higher by 20% at $0.84 per share, return on equity at 10.9% and debt as a percentage of total capitalization down to 52.2%.

AltaGas' 2003 record results continued a trend achieved throughout AltaGas' 10 year history, predicated on its operational effectiveness, the impact of its business development during the year and late in the previous year and a favourable business environment.

Selected Annual Information

($ millions, unless otherwise noted, except per share amounts)[1]	**2003**	2002[2]	2001
Revenue	**708.9**	492.7	489.8
Cost of sales	**489.0**	322.8	354.8
Net revenue[4]	**219.9**	169.9	135.0
EBITDA[4]	**121.9**	94.8	69.9
Net income[3]	**38.3**	29.4	19.2
Net income per share	**$0.84**	$0.70	$0.50
Funds generated from operations[4]	**90.2**	70.8	50.2
Total Assets	**919.3**	904.9	721.1
Long term liabilities	**468.9**	431.2	313.7
Shareholders' equity	**363.3**	338.6	261.9
Cash dividends	**17.3**	11.9	6.9

Notes:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.
(2) 2002 includes a pre-tax net gain of $1.0 million from the sale of investments.
(3) 2003 net income includes the impact of legislative changes to federal income taxation, the impact of which reduced EPS by $0.04 per share.
(4) Non-GAAP financial measure. See discussion that follows.

Ratios

(percent)	**2003**	2002	2001
Return on average equity[1]	**10.9**	9.8	7.3
Debt as a percent of total capitalization[2]	**52.2**	55.3	58.5

Notes:

(1) Return on average equity is calculated as net income for the year divided by the average shareholders' equity determined on a monthly weighted average basis.
(2) Debt as a percent of total capitalization is calculated as total debt divided by total debt plus equity.

Non-GAAP Financial Measures

AltaGas provides certain non-GAAP financial measures in tables of consolidated financial information in this Management's Discussion and Analysis. These measures do not have any standardized meaning prescribed by Canadian generally accepted accounting principles and may not be comparable to similar measures presented by other companies. All of the measures have been calculated in accordance with previous disclosures by AltaGas.

The purpose of these financial measures and their reconciliation to GAAP financial measures for their first use in the discussion is shown below. All amounts are in millions of dollars unless otherwise noted.

EBITDA	**2003**	2002	2001
Non-GAAP financial measure	**$121.9**	$94.8	$69.9
Add (deduct) Income taxes	**(23.2)**	(13.5)	(9.2)
Interest expense	**(22.1)**	(18.1)	(15.9)
Amortization	**(38.3)**	(33.8)	(25.6)
Net Income (GAAP financial measure)	**$ 38.3**	$29.4	$19.2

EBITDA is provided to assist in determining the ability of AltaGas to generate cash from its operations.

Funds Generated From Operations	**2003**	2002	2001
Non-GAAP financial measure	**$90.2**	$70.8	$50.2
Add (deduct): Decrease in deferred revenue and other	**-**	(1.6)	0.1
Net change in non-cash working capital	**6.3**	6.1	(4.9)
Cash from operations (GAAP financial measure)	**$96.5**	$75.3	$45.4

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash after interest and taxes from operations without regard to changes in AltaGas' working capital in the year.

Net Revenue	**2003**	2002	% Change
Non-GAAP financial measure	**$140.2**	$99.6	41
Add: Cost of goods sold	**16.5**	6.5	154
Revenue (GAAP Financial measure)	**$156.7**	$106.1	48

This reconciliation shows the difference between revenue and net revenue amounts in the table for Financial and Operating Results for the Gathering and Processing segment. Net revenue is provided in the extraction component and the Natural Gas Distribution and Energy Services segments as net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold.

Revenue increased 44% for the year ended December 31, 2003 compared to the year ended December 31, 2002 due to the higher prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments, increased volumes processed through AltaGas' gathering and processing facilities and higher power volumes sold in the Energy Services segment. Volume increases resulted from AltaGas' activities in the field gathering and processing component including the acquisition of seven natural gas gathering and processing systems in northeastern Alberta (Wabasca) in late 2002 and the expansion of the Empress EnCana facility completed in September 2003, the acquisition of two natural gas pipelines (Suffield) in December 2002, the commissioning of the Joffre ethane extraction facility in late 2002, and the addition of 100 MW of power capacity associated with the Genesee energy contract in the Energy Services segment in April 2003.

Net revenue increased 29% for the year ended December 31, 2003 when compared to 2002.

Volumes processed in the field gathering and processing component rose to 520 Mmcf/d in 2003 from 492 Mmcf/d in 2002. The increase stems in large part from the Wabasca facilities acquisition in December 2002. Extraction production increased for 2003 to 6,560 Bbls/d from 3,399 Bbls/d due to the commissioning of the Joffre ethane extraction plant, also in December 2002 and due to increased ethane production resulting from modifications made at the EnCana ethane extraction plant in late 2003. Transmission volumes rose to 348 Mmcf/d in 2003 from 70 Mmcf/d in 2002 due to the Suffield acquisition late in 2002. The volume of power sold rose to 373 MW in 2003 from 353 MW in 2002 due to the addition on April 1, 2003 of volumes from the Genesee energy contract. Prices AltaGas realized on average per MW hour sold in 2003 were $47.03, up from the $41.27 realized per MWh sold in 2002.

Natural Gas Distribution volumes at AltaGas Utilities increased slightly year over year due to higher transportation volumes and an increase in AltaGas Utilities' customer base offset by warmer average weather in 2003 versus 2002 and reduced customer usage associated with technological improvements. Heritage Gas, a Nova Scotia company of which AltaGas owns 24.9%, accepted, on June 2, 2003, the natural gas distribution franchise to service six counties in Nova Scotia for a period of 25 years. Late in the year, Heritage Gas acquired and constructed natural gas distribution facilities and took steps to be an operating natural gas distribution utility. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. In its first four years of development, Heritage Gas expects to bring natural gas access to approximately 8,000 residential and business customers in Nova Scotia.

AltaGas' EBITDA increased 29% for the year ended December 31, 2003 compared to 2002. While net revenues were up 29%, increased operating costs in the Gathering and Processing segment and higher general and administrative costs partially eroded the gains. Operating costs were up year over year due to the inclusion of operating costs associated with the Suffield and Wabasca acquisitions, the Joffre ethane extraction facility operations and increases in repairs and maintenance and property tax. General and administrative costs increased year over year to support AltaGas' growth and to ensure that the organizational capability is in place to facilitate the effective integration of future business opportunities. Amortization expense was up 13%, the increase due to Gathering and Processing segment acquisitions and commissioning of the Joffre facility.

Net income increased 30% for the year ended December 31, 2003 compared to the same period of 2002. After tax net gains from the sale of investments included in December 31, 2002 were $0.6 million. Higher comparative interest expense and income taxes partially eroded the favourable results in EBITDA.

While interest rates were favourable year over year, interest expense was higher due to increased average debt outstanding compared to 2002, largely resulting from the debt financing required for the late 2002 Wabasca and Suffield acquisitions.

Income tax expense for the year ended December 31, 2003 increased from the same period in 2002 for a number of reasons, including higher net income before taxes, the effect of changes in federal income taxation of resource income and Large Corporations Tax, the impact on future income taxes resulting from the adoption of asset retirement obligation accounting and changes in the mix of AltaGas' income stream period over period and the associated tax rates attracted.

Higher income in the year accounted for 60% of the total increase in income tax expense for 2003 versus the prior year. A further 20% related to regulatory changes wherein the resource allowance deduction and the Large Corporations Tax are being phased out through 2007. The impacts of adopting the asset retirement obligation accounting accounted for seven percent of the difference. The remainder of the increase related to the different businesses of AltaGas attracting different tax treatment, timing and rates.

The resource allowance deduction provided oil and gas industry participants a credit in calculating taxable income in place of non-deductible royalties paid on hydrocarbon production. Since 1997 AltaGas has benefited from the resource allowance deduction on its field gathering and processing business, a significant portion of its income, but pays no material royalties. Under the legislative changes announced in June 2003, resource allowance is replaced by the deductibility of provincial or crown royalties and a reduction in the tax rates applicable to resource income.

The federal income tax legislation changes also phase out Large Corporations Tax (LCT) by 2007. AltaGas has credited Large Corporations Tax payable against the federal surtax amounts otherwise payable. Based on anticipated future income levels and timing of reversal of temporary differences going forward, the effect on AltaGas was an increase in AltaGas' future income tax liability and a charge to future income tax expense.

Under asset retirement obligation accounting, AltaGas recorded an asset and a liability on its balance sheet, as well as adjusted accumulated depreciation to include salvage values in the depreciation calculation. The latter change increased the differential between AltaGas' accounting and tax balance sheets, increasing the estimated future income tax liability and resulted in an increase in income tax expense in the current period.

The income of AltaGas is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. In the fourth quarter of 2002 AltaGas recorded favourable one time adjustments to tax expense related to the full year impact of this anticipated timing on income from the power component.

Earnings for 2004 are expected to increase in the Gathering and Processing segment. Drilling activity in the majority of AltaGas' catchment areas is expected to remain strong given the favourable commodity pricing environment. In addition, the pursuit of exploitation opportunities in existing businesses and processes are expected

to increase processed volumes in the Gathering and Processing segment, when compared to 2003. In the Natural Gas Distribution segment, new revenues from AltaGas' 24.9% interest in Heritage Gas will contribute to improved performance when comparing 2004 to 2003.

Results of Operations by Segment

AltaGas reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

Operating income performance in the Gathering and Processing and Energy Services segments in 2003 showed significant improvement when compared to 2002, while the Natural Gas Distribution segment reported consistent performance over the same period. Key drivers for the business results of each segment are discussed at the component level in the information that follows. This information should be read in conjunction with Note 17 to the Consolidated Financial Statements – Segmented Information in Appendix H to this Information Circular.

Operating Income [1]

($ millions, unless otherwise noted)	**2003**	2002	% Change
Gathering and Processing	**42.1**	28.2	49
Energy Services	**32.8**	24.0	37
Natural Gas Distribution	**8.7**	8.8	-1

Note:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

Gathering and Processing

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components. Assets include more than 6,000 kilometers of gathering lines, 67 field processing facilities, interests in three extraction facilities and six transmission pipelines. AltaGas is one of the top 10 Canadian processors of natural gas and one of the top four largest Canadian midstream companies in terms of natural gas field processing capacity. Assets in this segment are long life and are used to provide service to a geographically diverse customer base under arrangements which include a significant portion of cost of service, fixed fee and recovery of operating cost contracts. Commodity price exposure is minimal and revenues are a function of volumes processed or transported. Future opportunities derive from the ongoing requirement that all natural gas must be processed to meet downstream pipeline specifications en route to the end user.

AltaGas' investments in companies engaged directly in activities in the gathering and processing business or ancillary services is also included in this segment under "Other". AltaGas reports component results to the level of operating income, defined as gross revenue less cost of sales, operating and general and administrative costs, and amortization.

Financial and Operating Results [1]

($ millions, unless otherwise noted)	**2003**	2002	% Change
Revenue	**156.7**	106.1	48
Net revenue	**140.2**	99.6	41
Operating income	**42.1**	28.2	49

Note:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

Operating Statistics

	2003	2002	% Change
Field gathering and processing			
Processing capacity (Mmcf/d) [1]	**861**	842	2
Processed throughput (gross Mmcf/d) [2]	**523**	532	-2
Processed throughput (gross average annual Mmcf/d)	**520**	492	6
Capacity utilization (percent) [1]	**61**	63	-3
Average working interest (percent) [1]	**90**	88	2
Extraction			
Inlet capacity (Mmcf/d) [1]	**349**	349	-
Production (Bbls/d) [3]	**6,560**	3,399	93
Transmission volumes (Mmcf/d) [2][4]	**403**	106	280

Notes:

(2) Fourth quarter average.
(3) Average for the period.
(4) Excludes condensate pipeline volumes.

The field gathering and processing component's extensive gathering infrastructure and ability to quickly redeploy assets due to the mobile nature of its plants, positions AltaGas to offer producers quick access to markets for their natural gas. The increase in the field gathering and processing component's operating income for 2003 when compared with 2002 was the net result of higher gross average annual throughput and improved cost recovery at some facilities offset by higher operating and general and administrative costs in other areas. Volume increases are the net result of the late December 2002 acquisition of the seven Wabasca facilities, expansion at AltaGas' Namaka facility and well tie-in activity at various operating areas, offset by declines at the Central Border operating area. Volume changes at AltaGas' gathering and processing facilities are dependent on producer drilling activity and success in its particular catchment areas. AltaGas assesses activity in each area as part of its capital investment process and relies on the mobile nature of its processing assets to match throughput and capacity.

Operating cost increases were a result of an aggressive preventative maintenance program started in 2003 as part of AltaGas' operational excellence initiative. The program, which will be a focus over the next four years, will standardize the operating condition of AltaGas' processing assets to achieve the highest availability possible and increase predictability in operating and financial results.

In the extraction component, ownership interests in three extraction facilities drive the results. AltaGas' average net extraction production volumes were 93% higher for the year compared to 2002 due mainly to the start up of the Joffre ethane extraction plant at the end of 2002. That plant, with its first full year of operations in 2003, is owned 50% each by AltaGas and Taylor. Taylor is the operator of the plant. AltaGas' share of inlet processing capacity at Joffre is 125 Mmcf/d of natural gas with ethane and NGLs production capacity of 5,200 Bbls/d. The ethane production from the plant is sold to NOVA Chemicals Corporation under a long term cost of service type contract. AltaGas sells its net share of NGLs under a one year evergreen marketing agreement.

Transmission volumes for the fourth quarter increased 280% in 2003 compared to 2002 due to the acquisition of the Suffield transmission pipelines in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d. These pipelines transport natural gas produced in the Suffield area of southeastern Alberta to the TransCanada transmission Canadian mainline at Burstall, Saskatchewan. The system is regulated by the National Energy Board and rates on the system are provided for on a market-based tolling methodology. The majority of the Suffield system capacity is contracted by EnCana Corporation through transport or pay volume commitments expiring in 2022, renewable for one year periods after that.

The other component reports results for AltaGas' investments in industry service companies, which AltaGas makes when it considers it to be prudent and if there is an opportunity to enhance AltaGas' existing business activities. On April 23, 2003 AltaGas acquired 19.2% of the outstanding limited partnership units of Taylor and to preserve its ownership interest invested in further units in October of 2003 under a public offering by Taylor. AltaGas' total investment in Taylor is $18.1 million.

Net additions to capital assets in the Gathering and Processing segment were $33.3 million during the full year 2003, down from $159.8 million in 2002. In 2003, $24.1 million was invested in acquisitions and expansions, including approximately $17.0 million for the Rainbow Lake and Mica Pouce Coupe gathering and processing facilities, $2.9 million in the modifications at the Empress EnCana extraction plant and $4.2 million for field gathering and processing expansions. The balance of $9.2 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines. In 2002, $118.1 million was invested in the Suffield and Wabasca acquisitions, $22.8 million at the Joffre extraction facility and $7.6 million in expansions of field gathering and processing facilities. In addition, $11.3 million was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

On December 18, 2003 AltaGas announced its intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition closed on December 23, 2003 and included a 100% interest in a 40 Mmcf/d sour natural gas processing facility and 130 kilometres of gathering pipelines located near the town of Rainbow Lake in northwestern Alberta. The facility is supported by extensive land dedications in an area with strong producer activity. The Mica Pouce Coupe acquisition, which closed on January 30, 2004, is a 40.8% interest in a 43 Mmcf/d sweet gas processing facility and approximately 70 kilometres of gathering pipeline located along the Alberta/British Columbia border near the town of Dawson Creek.

Energy Services

The Energy Services segment is comprised of the power services, gas services and oil and gas production components. The financial results of the power services component account for approximately 95% of the overall segment financial results and as such the commentary in this section will be restricted to the contributions from power services. AltaGas supplies 453 MW of power to markets through power purchase based arrangements which include a 50% ownership interest in the Sundance B PPA and the Genesee energy contract. AltaGas' 453 MW of power represents approximately 4% of Alberta's power capacity at December 31, 2003. PPAs were established in 1999 under Alberta's program of power industry deregulation. Alberta is currently the only province providing this opportunity. PPAs, which in form resemble contracts, were created to separate ownership of the physical power generation assets from ownership of their output.

Financial and Operating Results [1]

($ millions, unless otherwise noted)	**2003**	2002	% Change
Revenue	**521.6**	355.9	47
Net revenue	**49.6**	44.2	12
Operating income	**32.8**	24.0	37

Note:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on account for asset retirement obligations.

Operating Statistics

	2003	2002	% Change
Volume of power sold (thousands of MWh)	**3,266**	2,669	22
Average price received on the sale of power ($/MWh) [1]	**47.03**	41.27	14
Alberta Power Pool average spot price ($/MWh) [1]	**62.98**	43.85	44

Note:

(1) Average for the year.

Volume of power sold increased 22% in 2003 compared to 2002 due to the inclusion of 100 MW of power associated with the Genesee energy contract AltaGas entered into on April 1, 2003. The energy contract required no capital by AltaGas but instead requires AltaGas to pay a competitively priced fix monthly capacity charge for the power capacity.

AltaGas does not engage in speculative trading of power but reduces its exposure to power price volatility by using a balanced portfolio of contracts to lock in power margins. The average price AltaGas received from

power sales during 2003 was $47.03 per MWh compared to $41.27 per MWh for 2002. The increase in the average price AltaGas received from power sales in 2003 is due to the impact of higher market prices in 2003. Average Alberta Power Pool prices were $62.98 and $43.85 per MWh for 2003 and 2002 respectively.

In this segment, AltaGas also reports the results of the oil and gas production component and the gas services component. AltaGas is not in the business of exploration and development of natural gas reserves. However, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

Natural Gas Distribution

The Natural Gas Distribution segment includes AltaGas Utilities, AltaGas' one-third interest in Inuvik Gas and a 24.9% interest in Heritage Gas. AltaGas Utilities operates as a provincially regulated natural gas distribution utility in its areas of service in the Province of Alberta. Inuvik Gas distributes gas to the Town of Inuvik in the Northwest Territories and Heritage Gas has the distribution franchise to deliver natural gas to six counties in Nova Scotia.

Financial and Operating Results [1]

($ millions, unless otherwise noted)	**2003**	2002	% Change
Revenue	**129.4**	94.3	37
Net revenue	**30.5**	28.9	6
Operating income	**8.7**	8.8	-1

Note:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

Operating Statistics[1]

	2003	2002	% Change
Volume of natural gas distributed Sales (Bcf)	**13.8**	14.2	-3
Transportation (Bcf)	**9.7**	7.6	28
Number of customers [2]	**59,543**	58,499	2
Degree day variance (percent) [3]	**6.9**	7.8	N/A

Notes:

(1) Excludes Inuvik Gas and Heritage Gas statistics.
(2) At December 31.
(3) Variance from 20 year average. Positive variances are favourable.

Higher natural gas prices in 2003 resulted in revenue increases in 2003 compared to 2002 in the Natural Gas Distribution segment. AltaGas Utilities generates the majority of Natural Gas Distribution net revenues. Net revenue for 2003 increased compared to 2002 due to higher cost of service and increased transportation volumes. These increases were partially offset by warmer weather during 2003. AltaGas Utilities' net revenue is unaffected by changes in the cost of natural gas as the actual cost is permitted, subject to approval by the AEUB, to be passed through to the distribution customers.

Higher operating and administrative expenses in this segment in 2003 were related to increases in the cost of insurance and routine operating and maintenance activities.

AltaGas Utilities and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated costs of service and an allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual Natural Gas Distribution segment net revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

Net additions to capital assets in the Natural Gas Distribution segment were $16.8 million during the year ended December 31, 2003 compared to $3.7 million for the same period in 2002. Of the additions in 2003, $4.3 million were related to costs associated with AltaGas Utilities' routine system betterment projects, new business development and construction of a pipeline in the Rainbow Lake area of Northern Alberta and $2.3 million were for AltaGas' share of costs related to obtaining the franchise, acquiring pipeline and other assets for Heritage Gas. Included in 2003 net additions is an amount of $10.2 million related to the retirement of prior years' capital contributions in aid of construction. There is an equal and offsetting amount charged to accumulated amortization. Net additions in 2002 of $3.7 million were related to costs associated with AltaGas Utilities' routine system betterment projects and new business development.

Liquidity

Funds generated from operations increased to $90.2 million from $70.8 million on the strength of the improvement in AltaGas' operations and improved accounts receivable collection in the field gathering and processing component during the year through focus on the accuracy and completeness in AltaGas' invoicing processes for the component. In 2003 AltaGas utilized $44.2 million of the cash generated to acquire and expand facilities, down from $158.8 million in 2002 due to the timing and availability of investment opportunities between the periods and to opportunities not requiring significant capital. AltaGas invested $18.6 million in industry related companies, substantially all of which was for the Taylor units. Dividend payments increased in 2003 to $17.3 million from $11.9 million in 2002. The increase in funds generated from operations resulted in debt repayment of $22.6 million in 2003.

AltaGas had a working capital surplus of $9.1 million at December 31, 2003 compared to working capital deficit of $27.2 million at December 31, 2002. The change in working capital was primarily due to the repayment of AltaGas' $50.0 million non-revolving bridge credit facility with a Canadian chartered bank during the second quarter of 2003.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at December 31, 2003 was $180.0 million. At December 31, 2003 interest rates had been fixed on approximately 71% of AltaGas' total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

AltaGas' obligations for the next five years and for periods thereafter are illustrated in the table below:

Contractual Obligations [1]

Payments Due by Period

($ millions)	Total	Less than 1 year	1 – 3 years	4 – 5 years	After 5 years
Long term debt	396.9	4.5	392.4 [2]	-	-
Operating leases	9.4	2.4	4.8	2.3	-
Total contractual obligations	406.3	6.9	397.2	2.3	-

Notes:

(1) AltaGas has no capital lease, purchase or other obligations at December 31, 2003.

(2) Includes AltaGas' $100.0 million medium term notes maturing October 4, 2005. The balance funded through the $300.0 million extendible revolving term credit facility which can be extended beyond the current term date of October 10, 2004 for a further 364 days or can be converted by AltaGas on that date to a two year term loan.

Capital Resources

AltaGas believes that its access to debt and equity markets, unutilized bank credit facilities and cash generated from operations will provide AltaGas with sufficient capital resources and liquidity to fund existing operations, dividends, and acquisition and expansion opportunities in 2004. A description of AltaGas' credit facilities can be found in Notes 7 and 8 to the Consolidated Financial Statements attached as Appendix H to this Information Circular.

The use of debt or equity funding is determined on the basis of capital structure. AltaGas' capital structure is determined by considering the norms and risks associated with each of its business components and segments. AltaGas funds all subsidiary borrowings. AltaGas' long-term goal has been to maintain debt at approximately 50 to 55% of total capital, which reflects the stability of AltaGas' earnings from its diversified portfolio of assets. AltaGas' credit facility agreements and AltaGas' trust indenture allow for a debt to total capitalization ratio of 65%.

Off Balance Sheet Arrangements

AltaGas is not party to any contractual arrangement to which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. AltaGas has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

Related Parties

On April 23, 2003 AltaGas acquired a 19.2% interest in Taylor for $9.4 million and in October 2003 invested a further $8.7 million to acquire additional limited partnership units to maintain its ownership interest. Taylor's business is the ownership and operatorship of facilities in the midstream sector of the Western Canadian natural gas industry including the Joffre ethane extraction plant in which AltaGas has a 50% interest. There were no other material transactions with related parties during the year.

Changes in Accounting Policy

AltaGas early adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, AltaGas recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is accreted over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset.

Historically, AltaGas excluded salvage values in the determination of an asset's depreciable value, the intent being to provide for future estimated reclamation costs. AltaGas adjusted its accumulated amortization accounts for the impact of including salvage values in the determination of its annual amortization expense concurrently with the changes to account for asset retirement obligations.

The effect of these changes in accounting policy was recorded retroactively with restatement of prior periods. The impacts are disclosed in Note 2 to the Consolidated Financial Statements attached as Appendix H to this Information Circular.

Critical Accounting Estimates

AltaGas' major use of estimates in accounting relates to amortization and depreciation of capital assets, asset impairment assessment and with the adoption of asset retirement obligation (ARO) accounting in 2003 ARO estimates and salvage values.

AltaGas' accounting policy has been to record amortization of capital assets on the basis of original cost and estimated useful lives without regard to salvage values. Salvage value estimates were, however, reviewed annually and compared to estimated future site removal and site restoration costs to determine if there was a need to record a liability in the financial statements for any excess of such costs over expected recoveries from salvage.

In 2003, concurrent with the adoption of asset retirement obligation accounting, management reviewed salvage value estimates and determined that they are consistent with prior periods. Asset retirement costs are under continual assessment by AltaGas' Environment and Safety committee and reviewed annually with management. These asset retirement costs and salvage value estimates formed the basis for the restatement of prior periods' information incorporating salvage values into retroactive calculation of amortization expense and asset retirement costs into the ARO asset and liability accounts.

With respect to impairment assessment, management has made fair value determinations related to goodwill, estimating future cash flows as well as appropriate discount rates. The estimates have been applied consistently with prior periods. Management has determined no impairment is currently required.

Financial Instruments

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power component and related to corporate debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2003 business was to provide earnings predictability in the power component. With Alberta Power Pool monthly average spot prices ranging in the year from $43.63 per MWh to $89.80 per MWh, through the use of financial hedges, AltaGas moderated the impact of this volatility on the portion of its portfolio deemed optimal by management.

Outstanding Share Data

AltaGas' Common and Participating Shares outstanding at December 31, 2003 were 45,716,844 up from 45,237,092 at December 31, 2002. The change during the year was related to the issue of Common Shares for cash on the exercise of Options.

Sensitivity Analysis

The following table illustrates the anticipated effects of economic and operational changes on AltaGas' 2004 net income.

Factor	Increase or Decrease	Increase or Decrease Net Income Per Diluted Share
Field gathering and processing volumes at existing facilities	Five Mmcf/d	$ 0.016
Field gathering and processing operating margin per mcf	One cent	$ 0.026
Power prices	$1 per Mwh	$ 0.008
Natural gas prices	$0.50/mcf	$ 0.003
Natural gas liquids fractionation spread	$1 per Bbl	$ 0.006
Interest rates	25 basis points	$ 0.006
Degree days [1]	Ten percent	$ 0.017
Change in allowed ROE [2]	One percent	$ 0.008

Notes:

(1) Degree day – The cumulative extent to which the daily mean temperature falls below 18 degrees Celsius. Normal degree days are based on a 20 year rolling average. The 10% is relative to the 20 year rolling average.

(2) The change in allowed ROE pertains to AltaGas Utilities.

4th Quarter Discussion

Consolidated Results of Operations [1]

Three Months Ended December 31

($ millions)	**2003**	2002[2]	% Change
Revenue	**179.0**	150.3	19
Net revenue	**61.0**	48.8	25
Net income	**12.0**	11.2	7

Notes:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

(2) Fourth quarter 2002 includes a pre-tax loss of $1.4 million from the sale of investments.

Revenue for the three months ended December 31, 2003, increased 19% compared to the three months ended December 31, 2002. The increases in revenue are primarily due to the higher prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments.

Net revenue increased 25% for the fourth quarter of 2003 when compared to the same quarter of 2002. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

Average field gathering and processing throughput volumes decreased by 2% in the fourth quarter of 2003 compared to the fourth quarter of 2002. Increases from the acquisition of the Wabasca field gathering and processing facilities were offset by declines at AltaGas' Central Border operating area and the reduced throughput associated with the disposition of non-core processing assets. Increased well tie-in activity was partially offset by natural production declines and the impact of normal down time for repairs and maintenance on facilities. Along with the Rainbow Lake gathering and processing facilities acquisition completed at the end of the fourth quarter, the Mica Pouce Coupe acquisition completed in the first quarter of 2004 and certain exploitation opportunities AltaGas is currently pursuing, processed volumes are expected to rise.

In the extraction component, average production was higher for three months ended December 31, 2003 compared to the same period of 2002 due to the start up of the Joffre ethane extraction plant in December 2002 as well as increased volumes resulting from modifications made at the Empress EnCana extraction facility to increase ethane production capability.

Transmission volumes increased during the three months ended December 31, 2003 compared to three months ended December 31, 2002 primarily due to the acquisition of the two Suffield transmission pipelines in December 2002 which increased AltaGas' transmission capacity by 400 Mmcf/d.

Revenue in the Energy Services segment increased 14% in the fourth quarter of 2003 when compared to the same period of 2002. The increases were driven by higher natural gas prices received in the gas services component and higher power prices received in the power services component in combination with the higher power sales volumes associated with the Genesee energy contract.

Energy Services segment net revenue was down $1.4 million in the fourth quarter of 2003 compared to the same quarter of 2002 due to lower produced volumes in the oil and gas production component due to declines, and lower marketed volumes in the gas services component based on lower contracted volumes. Power services net revenue for the fourth quarter 2003 is $0.1 million higher than fourth quarter 2002. The impact of increased volumes from Genesee power sales were offset by higher transmission and interconnection charges related to the Sundance B PPA as well as Alberta Electrical Services Administrator Rate Rider C charges in fourth quarter 2003 instead of Rate Rider C credits as in fourth quarter 2002.

Higher natural gas prices in 2003 resulted in revenue increases in 2003 compared to 2002 in the Natural Gas Distribution segment. Net revenue for the fourth quarter of 2003 increased compared to the same period of 2002 due to an increase in the number of customers and increases in the cost of service. These increases were partially offset by warmer weather in 2003. AltaGas Utilities generates the majority of Natural Gas Distribution net revenue. AltaGas Utilities' net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the AEUB, to be passed through to the distribution customers. Heritage Gas delivered its first gas to customers in late December 2003 with only a very small contribution to earnings in the quarter.

Favourable operating results from the segments were partially offset by increased interest costs in the fourth quarter of 2003 versus the same quarter in the prior year and by increased income taxes due to higher income associated with AltaGas' growth and to the impact of regulatory changes related to the Large Corporations Tax.

AltaGas' interest expense for the year ended December 31, 2003 increased 22% from the same period in 2002. The increase in interest in 2003 is primarily due to higher average debt balances during the year. The higher debt levels were primarily attributable to the debt of $118.1 million incurred to fund the Wabasca field gathering and processing facilities and Suffield transmission pipelines acquisitions on December 19, 2002, offset by debt repayments from operating cash flows over the year.

Federal income tax legislation changes announced in June 2003 phase out Large Corporations Tax (LCT) by 2007. In the past, AltaGas has credited Large Corporations Tax payable against the federal surtax amounts otherwise payable. In assessing anticipated future income levels and timing of reversal of temporary differences going forward, an increase in AltaGas future income tax liability was required and a charge to future income tax expense was made in the fourth quarter of 2003. The impact of the change amounted to a charge to net income in the quarter of $1.2 million or $0.03 per share.

AltaGas paid a quarterly dividend of $0.11 per fully paid common share and participating share in the capital stock of AltaGas on December 31, 2003. Dividends of $0.38 per share were paid during the year ended December 31, 2003 compared to dividends of $0.28 per share paid during the year ended December 31, 2002. This increase in dividends is reflective of the strength and sustainability of AltaGas' earnings.

Summary of Eight Most Recently Completed Consolidated Quarterly Results

($ millions, except per share amounts)	**Q4 03**	**Q3 03**	**Q2 03**	**Q1 03**	Q4 02[2]	Q3 02	Q2 02	Q1 02[3]
Net revenue	**61.0**	**53.3**	**51.2**	**54.4**	48.8	41.4	38.9	40.8
Net income	**12.0**	**9.3**	**6.8**	**10.2**	11.2	5.7	4.9	7.6
Earnings per share								
Basic	**$ 0.26**	**$ 0.20**	**$ 0.15**	**$ 0.23**	$ 0.25	$ 0.13	$ 0.12	$ 0.20
Diluted	**$ 0.26**	**$ 0.20**	**$ 0.15**	**$ 0.22**	$ 0.25	$ 0.13	$ 0.12	$ 0.20
Dividends per share	**$ 0.11**	**$ 0.11**	**$ 0.08**	**$ 0.08**	$ 0.08	$ 0.08	$ 0.06	$ 0.06

Notes:

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations.

(2) Includes a pre-tax loss of $1.4 million.

(3) Includes a pre-tax net gain of $2.4 million from the sale of investments.

Identifiable trends in AltaGas' business across the past eight quarters reflect AltaGas' growth, a favourable business environment, and seasonality in the business. The first and last quarters each year are AltaGas' most profitable on the basis of the contribution from the Natural Gas Distribution segment which, as a distributor of natural gas for heating purposes, reports higher earnings in colder periods than in warmer periods.

First quarter of 2002 results were driven by increases in volumes processed at gathering and processing facilities, higher average processing fees, the addition of power sales to AltaGas' portfolio and by an increased customer base in the Natural Gas Distribution segment. Offsetting these increases were weaker gas prices and margins which affected the performance of gas services and oil and gas production components of the business. AltaGas also reported a $2.4 million before tax gain on the sale of investments in the first quarter of 2002. AltaGas,

as a 50% owner, invested in the construction of the Joffre ethane extraction facility throughout 2002, and participated in modifications to the Empress EnCana extraction facility in which AltaGas has a 10% joint venture interest. The modifications at the Empress facility were completed in third quarter 2003 increasing ethane recovery capability by 1,200 Bbls/d.

Second quarter 2002 net income was lower in comparison to the first quarter of the year due to the expected reduced contribution from the Natural Gas Distribution segment, however compared to prior years, AltaGas' strong record of increases in net income and earnings per share continued based on power sales volumes combined with favourable results from higher average processing fees received in the Gathering and Processing segment. AltaGas also closed a public offering of 6,325,000 Common Shares raising net proceeds of $56.6 million which were applied to debt, reducing AltaGas' debt to total capitalization ratio to 49% at the close of the quarter.

In the third quarter of 2002 AltaGas' approach to managing fluctuations in the price of power by locking in margins through forward sales improved financial results. Increased extraction production driven by stronger business fundamentals allowing AltaGas to utilize more of its available extraction capacity also had a positive impact on results. The Gathering and Processing segment continued to maintain throughput at levels processed in prior periods even though producer activity slowed generally due to continued uncertainty over the strength of near term oil and gas prices. In addition, the Board of Directors increased AltaGas' quarterly dividend to $0.08 per share from the $0.06 paid for the previous four quarters.

The fourth quarter ended December 31, 2002 was the strongest quarter experienced to that date for AltaGas. The quarter compared favourably to the prior years on the basis of the addition of power sales and due to a higher seasonal contribution from the Natural Gas Distribution segment. The Suffield pipeline and Wabasca field gathering and processing facilities were acquired and construction of the Joffre ethane extraction plant was commissioned late in the quarter.

In the first quarter of 2003 net income of $10.2 million set a new first quarter high for AltaGas. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of the stronger performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity as a record 85 wells were tied-in during the first quarter. The Joffre ethane extraction plant provided volume increases in the extraction component and the transmission component volumes were up from the Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs due to changes in process at the Transmission Authority, partially offset the gains made in the other segments. AltaGas commenced selling power on April 1, 2003 from the Genesee energy contract which provides for 100 megawatts of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39% higher than the same quarter 2002, a result of stronger contributions from the transmission, power and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power component, increases in net revenue were driven by higher average prices received on power sales and by the increased volumes sold related to the Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in second quarter 2003 when compared to the same quarter the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power, extraction and transmission were again the key contributors to a 63% increase in net income in third quarter 2003 when compared to the third quarter of 2002, the business drivers being the same as for the increases in each of the previous two quarters of 2003 compared to the prior periods.

In the third quarter of 2003 AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings. Late in the quarter modifications were completed to the Empress EnCana extraction facility, increasing AltaGas' net production capability by an estimated 1,400 Bbls/d.

Fourth quarter 2003 results are discussed in detail above.

INFORMATION CONCERNING HOLDING TRUST

The Holding Declaration of Trust contains provisions substantially similar to those of the Declaration of Trust relating to the Trust. The principal differences between the Holding Declaration of Trust and the Declaration of Trust for the Trust are those described below. The description below is a summary only and is qualified in its entirety by reference to the text of the Holding Declaration of Trust and the Declaration of Trust.

General

Holding Trust is an unincorporated investment trust established under the laws of Alberta pursuant to the Holding Declaration of Trust. Its activities are restricted to, among other things:

(a) acquiring, investing in, holding, transferring, disposing of and otherwise dealing with securities of whatever nature or kind of, or issued by, AltaGas LP #1, AltaGas LP #2, AltaGas or any associate or affiliate of any thereof, or of, or issued by, any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, extracting, transporting, buying, storing or selling of petroleum, natural gas, natural gas liquids, and other related products, power or other forms of energy, and related businesses, and such other investments as the Holding Trust Trustee may determine, and borrowing funds and issuing debt securities for such purposes and entering into hedging arrangements in relation thereto;

(b) issuing trust units, Holding Trust Notes and other securities of Holding Trust, for the purposes of: (i) obtaining funds to conduct the activities described in paragraph (a) above, including raising funds for further acquisitions; (ii) making non-cash distributions to holders of trust units as contemplated by the Holding Declaration of Trust; and (iii) repaying any indebtedness or borrowings of Holding Trust;

(c) guaranteeing the obligations of any of its affiliates pursuant to any good faith debt for borrowed money or any other obligation incurred by such entity in good faith for the purpose of carrying on its business, and pledging securities issued by such entity and other property owned by Holding Trust as security for such guarantee;

(d) granting security in any form, over any or all of Holding Trust's assets to secure any or all of the obligations of Holding Trust;

(e) repurchasing or redeeming securities of Holding Trust;

(f) carrying out any of the transactions, and entering into and performing any of the obligations of Holding Trust under any agreements contemplated by the Holding Declaration of Trust; and

(g) engaging in all activities ancillary or incidental to any of the foregoing activities and undertaking such other activities or taking such actions including investing in securities as shall be approved by the Holding Trust Trustee from time to time.

As at the date of this Information Circular, Holding Trust does not intend to hold securities of any entities other than AltaGas LP #1.

Restrictions on Holding Trust Trustee's Powers

Notwithstanding any of the Holding Trust Trustee's power and authority, the Holding Trust Trustee may not under any circumstances vote its securities of AltaGas LP #1; or permit AltaGas LP #1 to vote its interests in AltaGas LP #2; or AltaGas LP #2 to vote its securities of AmalgamationCo, to authorize:

(a) any sale, lease or other disposition of all or substantially all of the assets of AltaGas LP #1, AltaGas LP #2 or AmalgamationCo, except in conjunction with an internal reorganization or a pledge to secure indebtedness incurred in carrying out the purposes of Holding Trust;

(b) any merger, amalgamation, arrangement, reorganization, recapitalization, business combination or similar transaction involving AltaGas LP #1, AltaGas LP #2 or AmalgamationCo, except in conjunction with an internal reorganization;

(c) the winding-up, liquidation or dissolution of AmalgamationCo, or (unless all of such limited partnership interests therein are owned directly or indirectly by the Trust) AltaGas LP #1 or AltaGas LP #2 prior to the end of the term of Holding Trust or the Trust; or

(d) any material amendment to the AltaGas LP #1 Limited Partnership Agreement, the AltaGas LP #2 Limited Partnership Agreement, or the constating documents of AmalgamationCo, in a manner prejudicial to Holding Trust or the Trust,

without the approval of the unitholders of Holding Trust by Special Resolution at a meeting of such unitholders called for that purpose. In addition, except as part of an internal reorganization of the direct or indirect assets of Holding Trust as a result of which Holding Trust has the same interest, whether direct or indirect, in the assets as the interest, whether direct or indirect, that it had prior to the reorganization, the Holding Trust Trustee shall have no power to sell all or substantially all of its assets or cause any subsidiary to sell all or substantially all of the direct or indirect assets of the Trust, in each case in a single transaction or a series of related transactions, without the approval of the unitholders of Holding Trust by Special Resolution.

Redemption Right

The right of redemption conferred upon a holder of trust units of Holding Trust by the Holding Declaration of Trust and discussed below may only be exercised after the holder of trust units of Holding Trust has received written notice from the Holding Trust Trustee that it may exercise that right, such that holders of Holding Trust trust units will not be entitled to redeem their Holding Trust trust units on demand.

Subject to the foregoing limitation, the Holding Trust trust units will be redeemable, upon meeting the terms and conditions to exercise such right (including time period(s)) specified in the written notice by the Holding Trust Trustee, upon delivery to Holding Trust of a duly completed and properly executed notice requiring Holding Trust to redeem Holding Trust trust units, in a form reasonably acceptable to the Holding Trust Trustee, together with the certificates for Holding Trust trust units representing Holding Trust trust units to be redeemed and written instructions as to the number of Holding Trust trust units to be redeemed. Upon tender of Holding Trust trust units by a holder thereof for redemption, the holder of Holding Trust trust units tendered for redemption will no longer have any rights with respect to such Holding Trust trust units, including the right to receive any distributions thereon which are declared payable to the holders of Holding Trust trust units of record on a date which is subsequent to the day of receipt by Holding Trust of such notice, other than the right to receive the redemption price for such Holding Trust trust units. The redemption price for each Holding Trust trust unit tendered for redemption will be equal to (the "**Holding Redemption Price**"):

$$\frac{(A \times B) - C}{D}$$

Where:

A = the cash redemption price per Trust Unit calculated as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder of Holding Trust trust units;

B = the aggregate number of Trust Units outstanding as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof;

C = the aggregate unpaid principal amount and accrued interest thereon of any indebtedness held by or owed to the Trust (including the Holding Trust Notes) and the FMV of any other assets or investments held by the Trust (other than Holding Trust trust units) as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof; and

D = the aggregate number of Holding Trust trust units outstanding as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof.

The aggregate Holding Redemption Price payable by Holding Trust in respect of any Holding Trust trust unit tendered for redemption by the holders thereof during any month will be satisfied, at the option of the Holding Trust Trustee: (a) in immediately available funds, by cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable to or to the order of the unitholder whose trust units are to be redeemed; (b) by the issuance to or to the order of the unitholder whose trust units are to be redeemed of such aggregate amount of Series 2 Notes as is equal to the aggregate Holding Redemption Price payable to such unitholder rounded down to the nearest $10, with the balance of any such aggregate Holding Redemption Price not paid in Series 2 Notes to be paid in immediately available funds by cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable to or to the order of such unitholder; or (c) by any combination of payment in immediately available funds, drawn on a Canadian chartered bank or trust company in lawful money of Canada, and Series 2 Notes as the Holding Trust Trustee shall determine in its discretion, in each such case payable or issuable on the last day of the calendar month following the calendar month in which the trust units were so tendered for redemption; provided, however, that a unitholder whose trust units are to be redeemed may elect, at any time prior to the payment of the Holding Redemption Price, to receive Series 2 Notes, pursuant to clause (b) above in the place of all or part of a payment pursuant to clause (a) or (b) above of the cash otherwise payable, the amount of such Series 2 Notes payable to be equal to the amount of cash otherwise payable, rounded down to the nearest $10, in each such case payable or issuable on the last day of the calendar month following the calendar month in which the Holding Trust trust units were so tendered for redemption.

Cash Distributions

Holding Trust intends to make monthly cash distributions to the Trust of its net monthly cash flow, after satisfaction of its interest obligations on the Holding Trust Notes, if any, and less any estimated cash amounts required for expenses, costs and other obligations of Holding Trust. Such distributions will be paid on the day which is the same as the Trust's Distribution Payment Date to enable the Trust to pay its distributions.

If the Holding Trust Trustee determines that Holding Trust does not have cash in an amount sufficient to make payment of the full amount of any distribution, the payment may include the issuance of additional Holding Trust trust units or Holding Trust Notes having a value equal to the difference between the amount of such distribution and the amount of cash which has been determined by the Holding Trust Trustee to be available for the payment of such distribution. The value of each Holding Trust trust unit so issued will be the Holding Redemption Price thereof and the value of each Holding Trust Note so issued will be the redemption amount thereof as determined pursuant to the Holding Trust Note Indenture.

Any Holding Trust trust units transferred to Unitholders pursuant to a distribution *in specie* may be subject to resale and transfer restrictions and cannot be resold or transferred except as permitted by applicable securities law.

Limitation on Non-Resident Ownership

Notwithstanding any other provision of the Holding Declaration of Trust, no Holding Trust trust unit may be issued to, held by or transferred to a Non-Resident.

Restrictions on Transfer of Holding Trust Trust Units

Notwithstanding any other provision of the Holding Declaration of Trust, no transfer of any Holding Trust trust unit will be made without the consent of the Holding Trust Trustee, which consent may be withheld by the Holding Trust Trustee for any reason.

Holding Trust Notes

The Holding Trust Note Indenture authorizes the creation and issuance of Series 1 Notes, Series 2 Notes and Series 3 Notes (collectively the "**Holding Trust Notes**") in Canadian currency. Each series of Holding Trust Notes consists of an unlimited aggregate principal amount, is issuable in denominations of $10 and integral multiples of $10, represents an unsecured debt obligation of Holding Trust and is redeemable pursuant to the provisions of the Holding Trust Note Indenture. In addition, the specific characteristics unique to each series of Holding Trust Note are as follows:

(a) Series 1 Notes:

(i) payable on demand and, in any event, mature on the 25th anniversary of the date of issuance;

(ii) non-interest bearing until maturity and thereafter bear interest;

(b) Series 2 Notes:

(i) may be issued only to holders of Holding Trust trust units in payment of, and for an aggregate principal amount equal to, the redemption price of such trust units;

(ii) mature on a date determined by Holding Trust Trustee, not to exceed five years from issuance; and

(iii) bear interest from and including the date of issuance at a market rate determined at the time of issuance by the Holding Trust Trustee; and

(c) Series 3 Notes:

(i) may be issued only to holders of Series 1 Notes in payment of, and for an aggregate principal amount equal to, the redemption price of such Series 1 Notes;

(ii) mature on the 25th anniversary of the date of issuance; and

(iii) bear interest from and including the date of issuance at a market rate determined at the time of issuance by the Holding Trust Trustee.

Payment upon Maturity

On maturity, Holding Trust will repay the Holding Trust Notes by paying to the Note Trustee under the Holding Trust Note Indenture in cash an amount equal to the principal amount of the outstanding Holding Trust Notes which have then matured, together with accrued and unpaid interest thereon.

Redemption

The Holding Trust Notes will be redeemable at the option of Holding Trust prior to maturity.

Subordination/Security

The Holding Trust Notes rank *pari passu* with one another, however the payment of the principal amount and interest on any of the Holding Trust Notes is expressly subordinated in right of payment to the prior payment in full of all senior indebtedness, being all indebtedness, liabilities and obligations of Holding Trust which, by the terms of the instrument creating or evidencing the same, is not expressed to rank in right of payment in subordination to or *pari passu* with the indebtedness evidenced by the Holding Trust Note Indenture. In addition, any liens held by the Note Trustee or holders of Holding Trust Notes, as well as the rights, remedies and recourses granted to the Note Trustee or holders of Holding Trust Notes, are completely subordinated to any and all liens held presently or in the future by the holders of senior indebtedness notwithstanding any ranking that might otherwise be established by law.

The Holding Trust Note Indenture provides that upon any distribution of the assets of Holding Trust in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization or other similar proceedings relative to Holding Trust, or in the event of any proceedings for voluntary liquidation or termination or other winding-up of Holding Trust, the holders of all such senior indebtedness will be entitled to receive payment in full (of principal, premium or penalty, if any, and interest) before the holders of the Holding Trust Notes are entitled to receive any payment.

Default

The Holding Trust Note Indenture provides that any of the following shall constitute an event of default:

(a) if default is made in the payment of any principal due on any of the Holding Trust Notes of any series when the same becomes due under any provision hereof or of the Holding Trust Notes as required hereunder and such default shall have continued for a period of 10 Business Days; or

(b) if default is made in the payment of any interest due on any of the Holding Trust Notes and such default shall have continued for a period of 15 Business Days; or

(c) if default is made in the performance or breach by Holding Trust of any other covenant or agreement under the provisions of the Holding Trust Notes or the Holding Trust Note Indenture which shall continue for 30 days after written notice specifying such default and requiring such default to be remedied shall have been given to Holding Trust by the Note Trustee; or

(d) if there occurs with respect to any issue or issues of indebtedness of Holding Trust having an outstanding principal amount of $100 million or more an event of default that has caused the holder thereof to declare such indebtedness to be due and payable prior to its maturity and such indebtedness has not been discharged in full or such acceleration has not been rescinded or annulled within 30 days of such acceleration; or

(e) if a proceeding or action shall be commenced against Holding Trust, except in certain circumstances, in any court of competent jurisdiction, seeking (i) its reorganization, liquidation, termination or winding-up, or the composition or readjustment of its debts, (ii) the appointment of a receiver, custodian, liquidator or the like of Holding Trust or all or any substantial part of its property, or (iii) similar relief in respect of Holding Trust under any law relating to bankruptcy, insolvency, reorganization, winding-up or composition or adjustment of debts, and such proceeding or action shall continue undismissed, or an order, judgment or decree approving or ordering any of the foregoing shall be entered and continue unstayed and in effect, for a period of 60 or more days, or an order for relief against Holding Trust shall be entered in an involuntary case under the *Bankruptcy and Insolvency Act* (Canada) (the "**Bankruptcy Act**"); or

(f) if Holding Trust shall (i) apply for or consent to the appointment of, or the taking of possession by, a receiver, custodian, examiner, liquidator or the like of itself or of all or any substantial part of its property, (ii) make a general assignment for the benefit of its creditors, (iii) commence a

voluntary case under the Bankruptcy Act or any other similar foreign statute, (iv) institute any proceeding or file a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, liquidation, termination, winding-up or composition or readjustment of debts, (v) fail to contest in a timely and appropriate manner, or acquiesce in writing to, any petition filed against it in an involuntary case under the Bankruptcy Act or any other similar foreign statute, or (vi) take any action for the purpose of effecting any of the foregoing; or

(g) if a creditor shall have taken possession of all or substantially all of the assets of Holding Trust.

Holding Trust Unit Certificates

As Holding Trust trust units are not intended to be issued or held by any person other than the Trust, registration of interests in, and transfers of, the Holding Trust trust units will not be made through the Book-Entry System administered by Canadian Depository for Securities Inc. Rather, holders of Holding Trust trust units will be entitled to receive certificates therefor.

Meetings of Holding Trust Unitholders

An annual meeting of holders of Holding Trust trust units shall be called on a day on or before June 30 in each year, at such time and place as shall be prescribed for the purpose of presenting the audited financial statements of Holding Trust, appointing the auditors of Holding Trust for the ensuing year and transacting such other business as the Holding Trust Trustee may determine or as may properly be brought before the meeting. Notwithstanding the foregoing, a resolution in writing executed by holders of Holding Trust trust units holding more than $66^2/_3\%$ of the votes attached to Holding Trust trust units at any time will be valid and binding for all purposes.

INFORMATION CONCERNING THE PARTNERSHIPS

General

Each of AltaGas LP #1 and AltaGas LP #2 is a limited partnership formed under the laws of Alberta. Following the completion of the Arrangement, AltaGas LP #1 will hold all of the LP #2 A Units of AltaGas LP #2. AltaGas LP #2 will hold all of the common shares of LP Subco (and following the Amalgamation, the common shares of AmalgamationCo and certain indebtedness owed to LP Subco by AmalgamationCo).

The business of the Partnerships will consist of conducting, and acquiring, investing in, holding, transferring, disposing of and otherwise dealing with securities of whatever nature and kind of, or issued by, LP Subco, AltaGas, and in the case of AltaGas LP #1, AltaGas LP #2, or any associate or affiliate of any thereof or of, or issued by any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses, and such other businesses as the Board of Directors may determine, and activities ancillary and incidental thereto, whether carried on directly or indirectly or through another person. In respect of AltaGas LP #1, for so long as it is the holder of LP #2 A Units, the business of AltaGas LP #1 will be conducted solely through its investment in AltaGas LP #2 and/or other investments in one or more affiliates of the Trust, Holding Trust or AmalgamationCo.

All partners of AltaGas LP #1 and AltaGas LP #2 must at all times not be Non-Residents.

The General Partner is the general partner of both AltaGas LP #1 and AltaGas LP #2 and will not otherwise initially own any other assets or carry on any other business. The General Partner is wholly-owned by the Trust. See "*Information Concerning the General Partner*".

The General Partner shall be entitled to receive, and the General Partner will, subject to applicable law, pay itself from the assets of the Partnerships a distribution in each fiscal year equal to .001% of the net income of each of

the Partnerships. Such distributions will be paid out of money, assets or property of the respective Partnership properly applicable to the payment of distributions.

Partnership Units

AltaGas LP #1 is initially authorized to issue an unlimited number of LP #1 A Units and LP #1 B Units. Similarly, AltaGas LP #2 is initially authorized to issue an unlimited number of LP #2 A Units and LP #2 B Units. The General Partner may, in respect of AltaGas LP #1 and AltaGas LP #2, also issue at any time units of any class or series or secured and unsecured debt obligations, debt obligations convertible into any class or series of units, or options, warrants, rights, appreciation rights or subscription rights relating to any class or series of units, to the General Partner, to limited partners (which shall initially be Holding Trust in respect of AltaGas LP #1 and AltaGas LP #1 in respect of AltaGas LP #2) or any other person that is a Resident and is not Tax-Exempt. Each unit ranks equally with each other unit of the same class or series and entitles the holder thereof to the same rights and obligations as the holder of any other unit of the same class or series and no limited partner is entitled to any privilege, priority or preference in relation to any other limited partner holding units of the same class or series. Certificates for LP A Units and Exchangeable Securities shall be deposited with the transfer agent for the applicable Partnership and may only be released on the direction of the General Partner.

In addition, on a distribution of assets in the event of the liquidation, dissolution or winding-up of the respective Partnership, whether voluntary or involuntary, or any other distribution of the assets of the respective Partnership among its Partners for the purpose of winding-up its affairs: (a) the holders of LP #1 A Units or LP #2 A Units, as the case may be, will be distributed an amount equal to the aggregate of all of the liabilities of the Trust and Holding Trust, in the case of AltaGas LP #1, and the Trust, Holding Trust and AltaGas LP #1, in the case of AltaGas LP #2; and (b) the balance of the assets of the applicable Partnership will be distributed: (i) as to that proportion of such assets equal to the result obtained by dividing the amount of such assets by the sum of the number of LP #1 B Units or LP #2 B Units, as the case may be, and the number of Trust Units, in each case as outstanding on the date of such distribution, in respect of each LP #1 B Unit or LP #2 B Unit, as the case may be, outstanding; and (ii) as to the remaining portion of such assets, to the holders of LP #1 A Units or LP #2 A Units, as the case may be, rateably in accordance with the number of LP #1 A Units or LP #2 A Units, as the case may be, held thereby.

The characteristics of the class A units and class B units of both Partnerships are materially identical and are therefore discussed together below.

LP #1 A Units and LP #2 A Units

Initially, AltaGas LP #1 will have outstanding only LP #1 A Units, all of which will be issued to and held by Holding Trust and which are only permitted to be issued to, and held by, Holding Trust or an affiliate thereof. Holders of LP #1 A Units will be entitled to one vote for each LP #1 A Unit on any Ordinary LP Resolution or Extraordinary LP Resolution of AltaGas LP #1. A holder of LP #1 A Units is entitled to receive, and the General Partner shall, subject to applicable law, from time to time pay distributions on each LP #1 A Unit as the General Partner determines. Such distributions will be paid out of money, assets or property of AltaGas LP #1 properly applicable to the payment of distributions or out of authorized but unissued LP #1 A Units, as applicable.

Initially, AltaGas LP #2 will have outstanding LP #2 A Units, all of which will be issued to and held by AltaGas LP #1 and are only permitted to be issued to, and held by, AltaGas LP #1 or an affiliate thereof. Holders of LP #2 A Units will be entitled to one vote for each LP #2 A Unit on any Ordinary LP Resolution or Extraordinary LP Resolution of AltaGas LP #2. A holder of LP #2 A Units is entitled to receive, and the General Partner shall, subject to applicable law, from time to time pay distributions on each LP #2 A Unit as the General Partner determines. Such distributions will be paid out of money, assets or property of AltaGas LP #2 properly applicable to the payment of distributions or out of authorized but unissued LP #2 A Units, as applicable.

Exchangeable Securities

AltaGas LP #1 will issue LP #1 B Units to Eligible Securityholders (other than Enbridge) who elect to receive and are entitled to receive LP #1 B Units instead of Trust Units in consideration for their Common Shares or Holdco Shares pursuant to the Arrangement. AltaGas LP #2 will issue LP #2 B Units to Enbridge in such number as Enbridge elects to receive and is entitled to receive in consideration for its Common Shares (including those obtained on the conversion of Participating Shares) or Holdco Shares pursuant to the Arrangement.

The Exchangeable Securities, or any other exchangeable securities that either AltaGas LP #1 and AltaGas LP #2 may be entitled to issue, may also be issued in respect of other acquisitions made by AltaGas LP #1 or AltaGas LP #2 from time to time. The General Partner shall ensure, in good faith and in its sole discretion, the economic equivalence of the Exchangeable Securities (including any such other exchangeable securities) to the Trust Units of the Trust.

The principal terms of the Exchangeable Securities are:

(a) the Exchangeable Securities will be exchangeable for Trust Units on a one-for-one basis at any time at the option of the holder in accordance with the terms and conditions of the AltaGas LP #1 Limited Partnership Agreement or the AltaGas LP #2 Limited Partnership Agreement, as the case may be, the Support Agreement and the Voting and Exchange Trust Agreement. See below under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Exchange Right*";

(b) each Exchangeable Security will entitle the holder thereof to receive non-interest bearing loans from AltaGas LP #1 or AltaGas LP #2, as the case may be, equal to cash distributions made by the Trust on a Trust Unit. See below under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Distribution Rights*";

(c) the holder of each Exchangeable Security will be entitled to direct the Voting and Exchange Trustee to vote the Special Voting Unit at all meetings of Unitholders. See "*Declaration of Trust and Description of Units – Trust Units and Special Voting Unit – Special Voting Unit*";

(d) the holders of Exchangeable Securities will not be entitled as such to receive notice of or to attend any meeting of the partners of AltaGas LP #1 or AltaGas LP #2, as the case may be, or to vote at any such meeting. However, holders of Exchangeable Securities will be entitled to vote separately as a class in respect of proposals to add to, change or remove any right, privilege, restriction or condition attaching to the Exchangeable Securities or in respect of any other amendment to the applicable partnership agreement which will have an adverse impact on the holders of such Exchangeable Securities. See below under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Voting Rights*";

(e) the Exchangeable Securities will not be transferable except as set out below under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Transfer of Exchangeable Securities*"; and

(f) AltaGas LP #1 or AltaGas LP #2, as the case may be, will be entitled to acquire all of the Exchangeable Securities in exchange for Trust Units in certain specified circumstances, including there being outstanding fewer than 750,000 LP #1 B Units or 1,000,000 LP #2 B Units or in the event of certain transactions which may involve a change of control of the Trust. See below under "*Information Concerning the Partnerships – Partnership Units – Exchangeable Securities – Redemption Right*".

The exchange, voting and distribution rights associated with Exchangeable Securities and the associated Special Voting Unit as described below in greater detail will be subject to standard anti-dilution provisions.

Distribution Rights

Holders of Exchangeable Securities will be entitled to receive, and the applicable Partnership will, subject to applicable law, on each date on which the Trustee declares a distribution on the Trust Units, make a loan in respect of each Exchangeable Security:

(a) in the case of a cash distribution declared on the Trust Units, in an amount in cash for each Exchangeable Security equal to the cash distribution declared on each Trust Unit; or

(b) in the case of a distribution declared on the Trust Units in securities or property other than cash or Trust Units, by a distribution in such type and amount of securities or property as is the same as, or economically equivalent to, the type and amount of property declared as a distribution on each Trust Unit.

Any amount or property loaned in respect of Exchangeable Securities pursuant to these distribution entitlements will not constitute a distribution of profits or other compensation by way of income in respect of such Exchangeable Securities but rather will constitute a non-interest bearing loan of the amount thereof, or in the case of property, the fair market value thereof as determined in good faith by the Board of Directors as of the date of such loan, to the holder of the Exchangeable Securities receiving the same, which loan will be repayable by such holder, without interest, to the respective Partnership on the earlier of: (a) January 1 of the calendar year next following the loan; (b) the 5th Business Day preceding any Insolvency Event; (c) the Business Day prior to the redemption of the Exchangeable Securities in respect of which the loans were made (pursuant to the Retraction Right or any redemption by AltaGas LP #1 or AltaGas LP #2, as the case may be); (d) the Business Day prior to the purchase of the Exchangeable Securities in respect of which the loan was made pursuant to the Liquidation Call Right; and (e) the Business Day prior to any other transfer of the Exchangeable Securities in respect of which the loan was made. On the date on which the loan is repayable as determined in the immediately preceding sentence, the applicable Partnership will make a distribution in respect of each Exchangeable Security equal to the amount of the loan outstanding in respect thereof. The applicable Partnership will set off and apply the amount of any such distribution against the obligations of any holder of Exchangeable Securities under any loan outstanding in respect thereof and each holder of Exchangeable Securities will have the right to set off and apply any amount owed by such holder of Exchangeable Securities under any loan outstanding in respect thereof against the amount of any such distribution.

See also "*Distribution Policy*".

Transfer of Exchangeable Securities

Exchangeable Securities may only be transferred in accordance with the AltaGas LP #1 Limited Partnership Agreement or the AltaGas LP #2 Limited Partnership Agreement, as the case may be, and applicable provincial securities laws. The limited partnership agreements provide, among other things, that the Exchangeable Securities may not be transferred by a holder thereof:

(a) unless the General Partner has been provided with evidence acceptable to it in its sole discretion that the prospective transferee (the "**Transferee**"), and all persons acting jointly or in concert with the Transferee, are Eligible Transferees; or

(b) except pursuant to an offer in accordance with applicable securities legislation to purchase Exchangeable Securities which offer is made by the Transferee on identical terms to all Trust Unitholders and all holders of Exchangeable Securities.

The General Partner may refuse to recognize any transfer of Exchangeable Securities if such transfer fails to comply with the transferability requirements imposed by the applicable limited partnership agreement or if, in the opinion of the General Partner, such transfer might result in the termination of the applicable partnership, a lien or charge on the properties of the partnership or a breach of applicable securities legislation or if the Transferee is a Non-Resident; and provided further that if any holder proposes a transfer of all the Exchangeable Securities held by that holder then, unless the General Partner otherwise agrees, the holder will only be permitted to transfer all but one

LP B Unit and such LP B Unit shall continue to be held by that holder until the first day of the fiscal year immediately following the fiscal year in which such transfer occurs.

In addition, trades may only be effected under a prospectus and registration exemption under applicable securities laws. Any holder of Exchangeable Securities who wishes to transfer any Exchangeable Securities should consult with his or her own legal advisors to determine the availability of prospectus and registration exemptions under applicable securities laws.

Nothing contained in the limited partnership agreements shall prohibit or prevent: (a) a holder of Exchangeable Securities from transferring such Exchangeable Securities to the respective Partnership, Holding Trust or the Trust pursuant to the rights, privileges, restrictions and conditions attaching to the Exchangeable Securities, including under the Voting and Exchange Trust Agreement; (b) a partner of a Partnership from mortgaging, charging, assigning, pledging, hypothecating or granting a security interest in or otherwise encumbering any or all of its general partnership interest (in the case of the General Partner), LP A Units or Exchangeable Securities as security for any one or more *bona fide* loans to, guarantees given by or any other present and future indebtedness, liabilities or other obligations of such partner to another person provided the General Partner has directed the release of the LP A Units or Exchangeable Securities, as the case may be, which are the subject of such security; (c) the holder of any mortgage, charge, assignment, pledge, hypothecation, security interest or other encumbrance permitted by (b) above from taking all such steps as may be necessary or desirable to exercise or enforce its rights and remedies under and realize upon the security of any such mortgage, charge, assignment, pledge, hypothecation, security interest or other encumbrance; or (d) the completion of any sale or transfer of any or all of the general partnership interest (in the case of the General Partner), LP A Units or Exchangeable Securities of a partner to any person pursuant to any enforcement or realization of security contemplated by (b) above provided such transferee provides the General Partner with an acknowledgment in writing whereby such transferee agrees to be bound by the applicable limited partnership agreement and to assume all of the obligations of the transferor under the applicable limited partnership agreement pertaining to the securities being transferred.

Retraction Right

Pursuant to the Retraction Right, holders of Exchangeable Securities will be entitled at any time following the Effective Time to require AltaGas LP #1 or AltaGas LP #2, as the case may be, to redeem any or all of the Exchangeable Securities held by such holder for the Retraction Price, which shall be satisfied by AltaGas LP #1 or AltaGas LP #2, as the case may be, causing to be delivered to such holder the Exchangeable Security Consideration representing the Retraction Price.

Holders of Exchangeable Securities may effect such exchange by presenting a certificate or certificates to the General Partner or the transfer agent as may be specified by AltaGas LP #1 or AltaGas LP #2, as the case may be, representing the number of Exchangeable Securities the holder desires to have AltaGas LP #1 or AltaGas LP #2, as the case may be, redeem, together with such other documents as may be required to effect the transfer of Exchangeable Securities, such additional documents and instruments as the transfer agent for the Exchangeable Securities and the General Partner may reasonably require to effect the exchange and a duly completed Retraction Request.

AltaGas LP #1 or AltaGas LP #2, as the case may be, will thereafter cause to be delivered to the holder the Exchangeable Security Consideration representing the Retraction Price, including one Trust Unit for each Exchangeable Security redeemed.

Liquidation Right

Subject to the Liquidation Call Right of Holding Trust described below, in the event of the liquidation, dissolution or winding-up of AltaGas LP#1 or AltaGas LP #2, as the case may be, whether voluntary or involuntary, or any other distribution of the assets of AltaGas LP#1 or AltaGas LP #2, as the case may be, among its partners for the purpose of winding up its affairs, a holder of Exchangeable Securities of such Partnership will be entitled, subject to applicable law, to receive from the assets of AltaGas LP#1 or AltaGas LP #2, as the case may be, in respect of each such Exchangeable Security held on the Liquidation Date, the Liquidation Amount, which shall be satisfied by AltaGas LP #1 or AltaGas LP #2, as the case may be, causing to be delivered to such holder the

Exchangeable Security Consideration representing the Liquidation Amount. For greater clarity, the Exchangeable Security Consideration will consist, in part, of one Trust Unit for each Exchangeable Security subject to the Liquidation Right.

Liquidation Call Right

Upon the occurrence of an event as described above under "*Liquidation Right*", pursuant to the Liquidation Call Right, Holding Trust will have the overriding right to purchase from all but not less than all of the holders of LP #1 B Units or LP #2 B Units, as the case may be, on the Liquidation Date all but not less than all of such holders' LP #1 B Units or LP #2 B Units, as the case may be, for the Liquidation Amount and, upon the exercise of this right, the holders thereof will be obligated to sell such Exchangeable Securities to Holding Trust. For the purposes of completing the purchase of LP #1 B Units or LP #2 B Units, as the case may be, pursuant to the Liquidation Call Right, Holding Trust will deposit or cause to be deposited with the transfer agent for such Exchangeable Securities, on or before the Liquidation Date, the Exchangeable Security Consideration representing the Liquidation Amount. Upon the surrender to the transfer agent by a holder of such Exchangeable Securities of its certificate(s) representing the Exchangeable Securities, together with such other documents and instruments as may be required to effect a transfer of Exchangeable Securities pursuant to the applicable limited partnership agreement, the transfer agent will deliver the Exchangeable Security Consideration to which such holder is entitled. For greater clarity, the Exchangeable Security Consideration will consist, in part, of one Trust Unit for each Exchangeable Security subject to the Liquidation Call Right.

Redemption Right

Subject to applicable law, AltaGas LP #1 or AltaGas LP #2, as the case may be, shall on the Redemption Date redeem all but not less than all of the then outstanding LP #1 B Units or LP #2 B Units, as the case may be, for the Redemption Price. Payment of the total Redemption Price shall be made by delivery to each holder of the Exchangeable Security Consideration representing the total Redemption Price for the holder's LP #1 B Units or LP #2 B Units, as the case may be. For greater clarity, the Exchangeable Security Consideration will consist, in part, of one Trust Unit for each Exchangeable Security redeemed.

For the purposes of the Exchangeable Securities Provisions, "**Redemption Date**" means the date, if any, established by the Board of Directors for the redemption by AltaGas LP #1 or AltaGas LP #2, as the case may be, of all but not less than all of the outstanding LP #1 B Units or LP #2 B Units, as the case may be (other than LP #1 B Units or LP #2 B Units, as the case may be, held by the Trust or its affiliates), pursuant to the Redemption Right, which date shall be no earlier than the 10th anniversary of the Effective Date in respect of the LP #1 B Units and the 5th anniversary of the Effective Date in respect of the LP #2 B Units, unless:

(a) there are less than, in the case of AltaGas LP #1, 750,000 LP #1 B Units outstanding (other than LP #1 B Units held by the Trust or its affiliates), and in the case of AltaGas LP #2, 1,000,000 LP #2 B Units outstanding (other than LP #1 B Units held by the Trust or its affiliates), such numbers to be adjusted as determined by the Board of Directors, in good faith and in its sole discretion, to give effect to any subdivision, consolidation or distribution in specie of the LP #1 B Units or LP #2 B Units, as the case may be, any issue or distribution of rights, options or warrants to acquire LP #1 B Units or LP #2 B Units, as the case may be (or securities exchangeable for or convertible into or carrying rights to acquire LP #1 B Units or LP #2 B Units, as the case may be), any issue or distribution of other securities or rights or evidences of indebtedness or assets, or any other capital reorganization or other transaction affecting the LP #1 B Units or LP #2 B Units, as the case may be, in which case the Redemption Date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of LP #1 B Units or LP #2 B Units, as the case may be, and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(b) a Control Transaction occurs in respect of a Partnership, in which case, provided that the Board of Directors determines, in good faith and in its sole discretion, that it is not reasonably practicable to substantially replicate the terms and conditions of the LP #1 B Units or LP #2 B Units, as the case

may be, in connection with such a Control Transaction and that the redemption of all but not less than all of the outstanding LP #1 B Units or LP #2 B Units, as the case may be, is necessary to enable the completion of such Control Transaction in accordance with its terms, the redemption date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of the LP #1 B Units or LP #2 B Units, as the case may be, and to the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(c) a Change of Law occurs, in which case the redemption date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of the LP #1 B Units or LP #2 B Units, as the case may be, and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(d) an Exchangeable Security Voting Event is proposed in respect of a Partnership, in which case, provided that the Board of Directors has determined, in good faith and in its sole discretion, that it is not reasonably practicable to accomplish the business purpose intended by the Exchangeable Security Voting Event, which business purpose must be *bona fide* and not for the primary purpose of causing the occurrence of a Redemption Date, the redemption date shall be the Business Day prior to the record date for any meeting or vote of the holders of the LP #1 B Units or LP #2 B Units, as the case may be, to consider the Exchangeable Security Voting Event and the Board of Directors shall give such number of days' prior written notice of such redemption to the registered holders of the LP #1 B Units or LP #2 B Units, as the case may be, and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances; or

(e) an Exempt Exchangeable Security Voting Event is proposed and the holders of the LP #1 B Units or LP #2 B Units, as the case may be, fail to take the necessary action at a meeting or other vote of holders of LP #1 B Units or LP #2 B Units, as the case may be, to approve or disapprove, as applicable, the Exempt Exchangeable Security Voting Event, in which case the redemption date shall be the Business Day following the day on which the holders of the LP #1 B Units or LP #2 B Units, as the case may be, fail to take such action,

provided, however, that the accidental failure or omission to give any notice of redemption under clauses (a), (b) or (c) above to any of such holders of Exchangeable Securities shall not affect the validity of any such redemption.

In the case of paragraph (a) above, AltaGas LP #1 or AltaGas LP #2, as the case may be, will, at least 30 days before any such Redemption Date, send or cause to be sent to each holder of LP #1 B Units or LP #2 B Units, as the case may be, a notice in writing of the redemption by AltaGas LP #1 or AltaGas LP #2, as the case may be, of the LP #1 B Units or LP #2 B Units, as the case may be, held by such holder.

Automatic Redemption

Holders of Exchangeable Securities are obligated to notify AltaGas LP #1 or AltaGas LP #2, as the case may be, of any event or circumstance which would result in such holder becoming or being deemed to become a Non-Resident, as soon as practicable and, in any event, at least 30 days prior to the anticipated Change of Residency Date. On and as of the fifth Business Day prior to the Change of Residency Date in respect of a holder of Exchangeable Securities, all but not less than all of such holder's Exchangeable Securities will be and be deemed to be transferred to the applicable Partnership for the Automatic Redemption Price per Exchangeable Security, which shall be satisfied by AltaGas LP #1 or AltaGas LP #2, as the case may be, depositing or causing to be deposited with the transfer agent for such Exchangeable Securities the Exchangeable Security Consideration representing the Automatic Redemption Price. Upon the surrender to the transfer agent by a holder of such Exchangeable Securities of its certificate(s) representing the Exchangeable Securities, together with such other documents and instruments as may be required to effect a transfer of Exchangeable Securities pursuant to the applicable limited partnership agreement, the transfer agent will deliver the Exchangeable Security Consideration to which such holder is entitled.

For greater clarity, the Exchangeable Security Consideration will consist, in part, of one Trust Unit for each Exchangeable Security subject to the Automatic Redemption.

Voting Rights

The holders of Exchangeable Securities will not be entitled as such to receive notice of or to attend any meeting of the partners of AltaGas LP #1 or AltaGas LP #2, as the case may be, or to vote at any such meeting. Notwithstanding the foregoing, holders of Exchangeable Securities will be entitled to vote separately as a class in respect of proposals to add to, change or remove any right, privilege, restriction or condition attaching to the Exchangeable Securities or proposals to amend the respective partnership agreements in a manner adverse to holders of Exchangeable Securities. On every vote taken at every such meeting each holder of Exchangeable Securities shall be entitled to one vote in respect of each Exchangeable Security held by such holder.

The holders of Exchangeable Securities are entitled to receive notice of or to attend any meeting of the Unitholders of the Trust and to vote at any such meeting. Pursuant to the Voting and Exchange Trust Agreement, each of the holders of Exchangeable Securities will be entitled to instruct the Voting and Exchange Trustee to vote the Special Voting Unit in respect of the number of Trust Units into which its Exchangeable Securities are exchangeable. The Special Voting Unit issued to the Voting and Exchange Trustee by the Trust entitles the holders of Exchangeable Securities to one vote at meetings of Unitholders for each Exchangeable Security, but will have none of the other rights attached to Trust Units. See "*Information Concerning the Partnerships – Voting and Exchange Trust Agreement – Voting Rights*".

Amendment and Approval

The General Partner may amend the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement at any time or times prior to the Effective Time in such manner as may be necessary to give proper effect to the intent and purpose of the Arrangement.

Amendments to the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement may also be proposed by the General Partner and, subject to the following limitations, will be deemed to be effective if approved by the General Partner:

(a) the amendment provisions themselves may not be amended without the unanimous consent of the holders of the limited partnership units of AltaGas LP #1 or AltaGas LP #2, as the case may be;

(b) no amendment shall be made to the respective limited partnership agreements which would have the effect of, among other things: (i) preventing the loans or distributions to the holders of Exchangeable Securities or adversely affecting the rights of the holders of Exchangeable Securities under the Support Agreement; (ii) changing the provision in the respective limited partnership agreement requiring that the business of AltaGas LP #1 be conducted solely through its investment in AltaGas LP #2, or that the business of AltaGas LP #2 be conducted solely through its investment in LP Subco, as the case may be, and/or other investments in one or more of the Trust, Holding Trust, AltaGas or affiliates thereof; (iii) changing the liability of a limited partner; (iv) allowing any limited partner to exercise control over the business of AltaGas LP #1 or AltaGas LP #2, as the case may be; (v) changing the right of a limited partner to vote on resolutions; or (vi) changing the Partnership from a limited partnership to a general partnership, without such amendment being passed by an Extraordinary LP Resolution;

(c) no amendment shall be made to the respective limited partnership agreements which would have the effect of adding, changing or removing any right, privilege, restriction or condition attaching to the Exchangeable Securities, or which would have an adverse impact on the holders of Exchangeable Securities of the applicable Partnership unless such amendment is approved by class vote of $66^2/_3\%$ of the holders of Exchangeable Securities in respect of such applicable Partnership; and

(d) no amendment shall be made which would have the effect of adversely affecting the rights and obligations of the General Partner becoming effective before 45 days after the resolution approving such amendment.

Partners must be notified of the full details of any amendments after the Effective Time to the AltaGas LP #1 Limited Partnership Agreement or the AltaGas LP #2 Limited Partnership Agreement, as the case may be, within 30 days of the effective date of the amendment.

Actions by the General Partner under the Support Agreement and the Voting and Exchange Trust Agreement

The General Partner, on behalf of AltaGas LP #1 and AltaGas LP #2, respectively, will agree to take all such actions and do all such things as are necessary or advisable to perform and comply with all provisions of the Support Agreement and the Voting and Exchange Trust Agreement applicable to AltaGas LP #1 and AltaGas LP #2, respectively.

Non-Resident and Tax-Exempt Holders

Exchangeable Securities will not be issued or transferable to persons who are Non-Residents or who are Tax-Exempt. To the extent a holder of Exchangeable Securities changes residence and becomes a Non-Resident, Holding Trust will be entitled to require the exchange of such Exchangeable Securities for Trust Units. See above under "*– Exchangeable Securities – Automatic Redemption*". The obligation of Holding Trust to deliver Trust Units to a Non-Resident holder in respect of the exchange of such holder's Exchangeable Securities may in certain circumstances be satisfied by delivering such Trust Units to the transfer agent who shall sell such Trust Units on the stock exchange on which they are listed and deliver the proceeds of sale to the Non-Resident holder.

Voting and Exchange Trust Agreement

Voting Rights

In accordance with the Voting and Exchange Trust Agreement, the Trust will have issued a Special Voting Unit to the Voting and Exchange Trustee, for the benefit of the holders (other than the Trust) of the Exchangeable Securities. The Special Voting Unit will carry a number of votes, exercisable at any meeting at which Unitholders are entitled to vote, equal to the number of Trust Units into which the Exchangeable Securities are then exchangeable multiplied by the number of votes to which the holder of one Trust Unit is then entitled. With respect to any written consent sought from the Unitholders, each vote attached to the Special Voting Unit will be exercisable in the same manner as set forth above.

Each holder of Exchangeable Securities on the record date for any meeting at which Unitholders are entitled to vote will be entitled to instruct the Voting and Exchange Trustee to exercise that number of votes attached to the Special Voting Unit which relate to the Exchangeable Securities held by such holder. The Voting and Exchange Trustee will exercise each vote attached to the Special Voting Unit only as directed by the relevant holder and, in the absence of instructions from a holder as to voting, will not exercise such votes.

The Voting and Exchange Trustee will send to the holders of the Exchangeable Securities the notice of each meeting at which the Unitholders are entitled to vote, together with the related meeting materials and a statement as to the manner in which the holder may instruct the Voting and Exchange Trustee to exercise the votes attaching to the Special Voting Unit, at the same time as the Trust sends such notice and materials to the Trust Unitholders. The Voting and Exchange Trustee will also send to the Unitholders copies of all information statements, interim and annual financial statements, reports and other materials sent by the Trust to the Trust Unitholders at the same time as such materials are sent to the Trust Unitholders. To the extent such materials are provided to the Voting and Exchange Trustee by the Trust, the Voting and Exchange Trustee will also send to the Unitholders all materials sent by third parties to Trust Unitholders, including dissident proxy circulars and tender and exchange offer circulars, as soon as possible after such materials are first sent to Trust Unitholders.

All rights of a holder of Exchangeable Securities to exercise votes attached to the Special Voting Unit will cease and be terminated immediately upon: (a) the delivery to the Voting and Exchange Trustee of the certificates representing such Exchangeable Securities in connection with the exercise by that holder of the Exchange Right (unless the Trust shall not have delivered the Exchangeable Security Consideration in exchange therefore); (b) the occurrence of the automatic exchange of Exchangeable Securities for Trust Units pursuant to the Automatic Exchange Right; (c) the redemption of the Exchangeable Securities pursuant to the Exchangeable Securities Provisions or upon the effective date of the liquidation, dissolution or winding-up of whichever Partnership issued the Exchangeable Securities held by the holder pursuant the Exchangeable Securities Provisions; (d) the automatic redemption of Exchangeable Securities pursuant to the Exchangeable Securities Provisions; (e) the purchase of Exchangeable Securities from the holder by whichever Partnership issued the Exchangeable Securities; or (f) the purchase of Exchangeable Securities from the holder by Holding Trust pursuant to the Liquidation Call Right pursuant to the Exchangeable Securities Provisions.

With the exception of administrative changes for the purpose of adding covenants for the protection of the holders of the Exchangeable Securities, making necessary amendments or curing ambiguities or clerical errors (in each case provided that the General Partner, on behalf of AltaGas LP #1 and AltaGas LP #2, is of the opinion that such amendments are not prejudicial to the interests of the holders of the Exchangeable Securities), the Voting and Exchange Trust Agreement may not be amended without the approval of the holders of the Exchangeable Securities.

Exchange Right

Pursuant to the Exchange Right granted in the Voting and Exchange Trust Agreement, upon the occurrence and during the continuance of an Insolvency Event, the Voting and Exchange Trustee on behalf of the holders of the Exchangeable Securities of the applicable Partnership for which an Insolvency Event has occurred, has the right to require the Trust to purchase any or all of the applicable Exchangeable Securities held by such holders and the Automatic Exchange Rights for: (a) an amount per Exchangeable Security equal to the Exchangeable Security Price on the last Business Day prior to the day of closing of the purchase and sale of such Exchangeable Securities pursuant to the Exchange Right; and (b) the assumption by AltaGas Trust of any Partnership Loan Indebtedness in respect of such Exchangeable Security. The Exchangeable Security Price may be satisfied only by the Trust delivering to the Voting and Exchange Trustee, on behalf of the holders of Exchangeable Securities, the Exchangeable Security Consideration representing the Exchangeable Security Price. For greater clarity, the Exchangeable Security Consideration will consist, in part, of one Trust Unit for each Exchangeable Security subject to the Exchange Right.

Exchange Right Subsequent to Retraction

Where a holder of Exchangeable Securities has elected to exercise its Retraction Right in respect of any or all of its Exchangeable Securities, and AltaGas LP #1 or AltaGas LP #2, as the case may be, notifies such holder that it is unable to redeem all such securities as a result of applicable law, the Retraction Request will be deemed to constitute notice from the holder to the Voting and Exchange Trustee instructing the Voting and Exchange Trustee to exercise the Exchange Right. See above under "*Information Concerning the Partnerships – Voting and Exchange Trust Agreement – Exchange Right*".

Automatic Exchange Right

Pursuant to the Automatic Exchange Right granted in the Voting and Exchange Trust Agreement, the Trust must give the Voting and Exchange Trustee written notice of a Liquidation Event in the following manner:

(a) in the event of any determination by the Trustee of the Trust to institute voluntary liquidation, dissolution or winding-up proceedings with respect to the Trust or to effect any other distribution of assets of the Trust among the Trust Unitholders for the purpose of winding up its affairs, at least 60 days prior to the proposed effective date of such liquidation, dissolution, winding-up or other distribution, the Voting and Exchange Trustee will be provided notice of such proposed Liquidation Event; and

(b) promptly following the earlier of (i) receipt by the Trust of notice of, and (ii) the Trust otherwise becoming aware of, any threatened or instituted claim, suit, petition or other proceedings with respect to the involuntary liquidation, dissolution or winding-up of the Trust or to effect any other distribution of assets of the Trust among the Trust Unitholders for the purpose of winding up its affairs, in each case where the Trust has failed to contest in good faith any such proceeding commenced in respect of the Trust within 30 days of becoming aware thereof.

Following receipt of such notice of a Liquidation Event, the Voting and Exchange Trustee will give notice, in the form provided by the Trust, to the holders of Exchangeable Securities describing the Automatic Exchange Right. Immediately prior to the effective time of the Liquidation Event, and in order to enable the holders of Exchangeable Securities to participate on a *pro rata* basis with the holders of Trust Units in the distribution of the Trust's assets in connection with a Liquidation Event, the Trust will exchange the Exchangeable Securities for Trust Units based upon the Exchangeable Security Price applicable at that time, which for greater certainty will be on a one-for-one basis.

Support Agreement

The Trust Support Obligation

AltaGas LP #1 and AltaGas LP #2

Under the Support Agreement, so long as any Exchangeable Securities not owned by the Trust or its affiliates are outstanding, the Trust will, among other things:

(a) take all such actions and do all such things as are reasonably necessary or desirable to enable and permit AltaGas LP #1 and AltaGas LP #2, in accordance with applicable law, to pay and otherwise perform its obligations with respect to the satisfaction of the Liquidation Amount, the Retraction Price, the Redemption Price or the Automatic Redemption Price in respect of each of its issued and outstanding Exchangeable Securities (other than Exchangeable Securities owned by the Trust or its affiliates) upon its liquidation, dissolution or winding-up or any other distribution of its assets among its Partners for the purpose of winding-up its affairs, the delivery of a Retraction Request by a holder of LP #1 B Units or LP #2 B Units, as the case may be, or a redemption of LP #1 B Units or LP #2 B Units, as the case may be, by AltaGas LP #1 or AltaGas LP #2, as the case may be; and

(b) not (and will ensure that each of Holding Trust and its affiliates does not) exercise its vote as a Partner to initiate the voluntary liquidation, dissolution or winding-up of AltaGas LP #1 or AltaGas LP #2, as the case may be, or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2, as the case may be, among its Partners for the purpose of winding-up its affairs nor take any action or omit to take any action that is designed to result in the liquidation, dissolution or winding up of AltaGas LP #1 or AltaGas LP #2, as the case may be, or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2, as the case may be, among its respective Partners for the purpose of winding-up its affairs.

The Support Agreement will also provide that so long as any Exchangeable Securities not owned by the Trust or its affiliates are outstanding, the Trust will not, without prior approval of AltaGas LP #1, AltaGas LP #2 and the holders of Exchangeable Securities:

(a) issue or distribute Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to the holders of all or substantially all of the then outstanding Trust Units by way of distribution, other than an issue of Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to holders of Trust Units who exercise an option to receive distributions in Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) in lieu of receiving cash distributions, or pursuant to any distribution reinvestment plan; or

(b) issue or distribute rights, options or warrants to the holders of all or substantially all of the then outstanding Trust Units entitling them to subscribe for or to purchase Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units); or

(c) issue or distribute to the holders of all or substantially all of the then outstanding Trust Units: (i) securities of the Trust of any class other than Trust Units (other than securities exchangeable for or convertible into or carrying rights to acquire Trust Units); (ii) rights, options or warrants other than those referred to above; (iii) evidences of indebtedness of the Trust; or (iv) other assets of the Trust,

unless the economic equivalent on a per Exchangeable Security basis of such rights, options, warrants, securities, shares, evidences of indebtedness or other assets is issued or loaned simultaneously to holders of the Exchangeable Securities.

In addition, the Trust may not without the prior approval of AltaGas LP #1 or AltaGas LP #2, as the case may be, and the prior approval of the holders of Exchangeable Securities, subdivide, redivide or change the then outstanding Trust Units into a greater number of Trust Units, reduce, combine, consolidate or change the then outstanding Trust Units into a lesser number of Trust Units or reclassify or otherwise change Trust Units or effect a merger, reorganization or other transaction affecting the Trust Units unless the same or an economically equivalent change is made simultaneously to, or in the rights of the holders of, the Exchangeable Securities.

In the event that a tender offer, share exchange offer, issuer bid, take-over bid or similar transaction with respect to Trust Units is proposed by the Trust or is proposed to the Trust or the Trust Unitholders and is recommended by the Trustee, or the Board of Directors on its behalf, or is otherwise effected or to be effected with the consent or approval of the Trustee, or the Board of Directors on its behalf, and the Exchangeable Securities are not redeemed by AltaGas LP #1 or AltaGas LP #2, as applicable, the Trust will use its reasonable best efforts expeditiously and in good faith to take all such actions and do all such things as are necessary or desirable to enable and permit holders of Exchangeable Securities (other than the Trust or its affiliates) to participate in such transaction to the same extent and on an economically equivalent basis as the Trust Unitholders.

The Support Agreement will also provide that, as long as any outstanding Exchangeable Securities are owned by any person other than the Trust or any of its affiliates, the Trust will, unless approval to do otherwise is obtained from AltaGas LP #1 and AltaGas LP #2 and from the holders of Exchangeable Securities pursuant to the Exchangeable Securities Provisions, remain the direct or indirect beneficial owner of all issued and outstanding voting interests in the capital of AltaGas LP #1, AltaGas LP #2, the General Partner and Holding Trust, provided that the Trust will not be in violation of this obligation if any person or group of persons acquires all or substantially all of the assets of the Trust or the Trust Units pursuant to any merger of the Trust pursuant to which the Trust is not the surviving entity. With the exception of administrative changes for the purpose of adding covenants for the protection of the holders of the Exchangeable Securities, making certain necessary amendments or curing ambiguities or clerical errors (in each case provided that the Board of Directors of the General Partner is of the opinion that such amendments are not prejudicial to the interests of the holders of the Exchangeable Securities), the Support Agreement may not be amended or modified except by an agreement in writing executed by AltaGas LP #1, AltaGas LP #2, AltaGas, Holding Trust and the Trust and approved by the holders of the Exchangeable Securities pursuant to the Exchangeable Securities Provisions.

Under the Support Agreement, each of the Trust, Holding Trust and, in respect of the Exchangeable Securities of AltaGas LP #2, AltaGas LP #1, will covenant and agree to not, and will cause its affiliates not to, exercise any voting rights attached to the Exchangeable Securities held by it or by its affiliates on any matter considered at meetings of holders of Exchangeable Securities (including any approval sought from such holders in respect of matters arising under the Support Agreement).

Upon notice from AltaGas LP #1, AltaGas LP #2 or Holding Trust of any event that requires AltaGas LP #1, AltaGas LP #2 or Holding Trust to cause to be delivered Trust Units to any holder of Exchangeable Securities, the Trust shall forthwith issue and deliver the requisite number of Trust Units to be received by, and issued to or to the order of, the former holder of the surrendered Exchangeable Securities as AltaGas LP #1, AltaGas LP #2 or

Holding Trust shall direct. All such Trust Units shall be duly authorized, validly issued and fully paid and non-assessable and shall be free and clear of any lien, claim or encumbrance.

AmalgamationCo

Pursuant to the Support Agreement, so long as any Trust Options are outstanding, the Trust will covenant to take all such actions and do all such things as are reasonably necessary or desirable to enable and permit AmalgamationCo, in accordance with applicable law, to perform its obligations arising upon the exercise of any Trust Option, including all such actions and all such things as are necessary or desirable to enable and permit AmalgamationCo to cause to be delivered Trust Units upon the exercise of the rights to purchase Trust Units pursuant to the Trust Options in accordance with the provisions of the Trust Options to the holders thereof exercising the Trust Options.

In addition, upon notice from AmalgamationCo of any exercise of Trust Options in accordance with the terms thereof, the Trust will issue and deliver the requisite number of Trust Units to be received by, and issue to or to the order of, the holder of the Trust Options so exercised, as AmalgamationCo directs. All such Trust Options will be duly authorized, validly issued and fully paid and non-assessable and free and clear of any lien, claim or encumbrance.

In consideration of the issuance and delivery of such Trust Units, AltaGas LP #1, AltaGas LP #2, Holding Trust or AmalgamationCo, as the case may be, will pay to the Trust the purchase price equal to the fair market value of those Trust Units as at each applicable date of issuance and delivery.

Qualification of Trust Units

The Trust will agree to make such filings and seek such regulatory consents and approvals as are necessary so that the Trust Units issuable upon the exchange of Exchangeable Securities or upon the exercise of Trust Options will be issued in compliance with applicable laws in Canada and may be traded freely on the TSX or such other exchange on which the Trust Units may be listed, quoted or posted for trading from time to time.

Management

The management of AltaGas LP #1 and AltaGas LP #2 will be subject to the terms of the Administration Agreement. See "*Management of the Trust – Administration Agreement*".

INFORMATION CONCERNING THE GENERAL PARTNER

The General Partner is a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust. The General Partner is the general partner of both AltaGas LP #1 and AltaGas LP #2.

Pursuant to the Declaration of Trust, the Board of Directors of the General Partner will be elected by the Trust at the direction of the Unitholders. Pursuant to the Delegation Agreement the General Partner will be delegated certain of the Trustee's powers and duties in respect of the business and affairs of the Trust and pursuant to the Unanimous Shareholder Agreement the General Partner will be entitled to exercise the powers of the directors of AmalgamationCo to manage, or supervise the management of, the business and affairs of AmalgamationCo. See below under "– *Board of Directors*" and "– *Unanimous Shareholder Agreement*" and "*Management of the Trust – Delegation Agreement*". See also "*Declaration of Trust and Description of Units – Meetings of Unitholders*".

The General Partner is also a party to the Administration Agreement pursuant to which AmalgamationCo will provide certain administrative services to the General Partner. See "*Management of the Trust – Administration Agreement*".

Board of Directors

Immediately after Closing, the Board of Directors will be required to have not fewer than 1 and not more than 15 directors, a majority of whom will not be Non-Resident. The number of directors shall be determined from time to time by resolution of the Board of Directors. From and after the Closing, the number of directors will be

fixed at eight (seven of which will be Unrelated directors) until such time as the Board of Directors passes a resolution to fix the number of directors at a new number.

The term of office of any director continues until the annual meeting of Unitholders next following the director's election or appointment or (if an election or appointment of a director is not held at such meeting or if such meeting does not occur) until the date on which the director's successor is elected or appointed, or earlier if the director dies or resigns or is removed or disqualified, or until the director's term of office is terminated for any other reason in accordance with the constating documents of the General Partner. Pursuant to the Declaration of Trust, the Unitholders will annually be entitled to direct the Trust as to the election of the Board of Directors of the General Partner.

The Shareholder Agreement, as continued in the manner discussed under "*Information Concerning the Relationship Between Enbridge and the Trust*" following the Arrangement, will provide that until such time as Enbridge beneficially owns less than 9.9% of the Trust Units diluted, Enbridge will continue to be entitled to designate at least 22% of the aggregate number of the directors on the Board of Directors.

The Board of Directors of the General Partner will initially consist of David W. Cornhill, John B. Breen, Bonnie D. DuPont, Denis C. Fonteyne, Daryl H. Gilbert, Myron F. Kanik, Stephen J.J. Letwin and David F. Mackie. Ms. DuPont and Mr. Letwin are the directors designated by Enbridge.

The names, municipalities of residence and principal occupations of the initial Board of Directors are as set out below:

Name and Municipality of Residence	Position with the General Partner	Principal Occupation during the Past Five Years
John B. Breen[(1)(5)] ..... Toronto, Ontario	Director	Managing Partner of MWI & Partners (Merchant Banking Fund).
David W. Cornhill[(3)] ..... Calgary, Alberta	Chairman of the Board of Directors and Chief Executive Officer	President and Chief Executive Officer of AltaGas.
Bonnie D. DuPont[(2)(4)(5)] ..... Calgary, Alberta	Director	Group Vice President, Corporate Resources of Enbridge since 2000. Senior Vice President, Human Resources and Public Affairs of Enbridge from 1998 to 2000.
Denis C. Fonteyne[(2)(3)(4)(5)] ..... Calgary, Alberta	Director	Natural Gas Industry Consultant since 1997.
Daryl H. Gilbert[(1)(5)] ..... Calgary, Alberta	Director	President and Chief Executive Officer of Gilbert Laustsen Jung Associates Ltd. (an energy industry consulting firm).
Myron F. Kanik[(2)(3)(4)(5)] ..... Calgary, Alberta	Director	President Kanik and Associates Ltd., an energy industry consulting company, since 1999. President of the Canadian Energy Pipeline Association from 1993 to 1999.

Name and Municipality of Residence	Position with the General Partner	Principal Occupation during the Past Five Years
Stephen J.J. Letwin[1][5] ..... Calgary, Alberta	Director	Group Vice President Gas Strategy and Corporate Development of Enbridge since April 2003; Group Vice President Distribution and Service of Enbridge from September 2000 to April 2003.
David F. Mackie[2][4][5] ..... Houston, Texas	Director	Energy Industry Consultant and Investor.

Notes:

(1) Member of the Audit Committee.
(2) Member of the Governance Committee.
(3) Member of the Environment and Safety Committee.
(4) Member of the Human Resources and Compensation Committee.
(5) Unrelated director.

The biographies for each of the members of the initial Board of Directors are as set out below:

John B. Breen

John Breen was appointed as a director of AltaGas on May 27, 1999. Mr. Breen is the Managing Partner of MWI & Partners, a merchant banking fund. Prior to 1997, Mr. Breen was Managing Director of CIBC Wood Gundy Capital and Vice President of CIBC.

David W. Cornhill

David Cornhill was a founding member of AltaGas. He served as President and Chief Executive Officer from AltaGas' inception on April 1, 1994 to 2003 and was in 2003 named Chairman and Chief Executive Officer. Prior to forming AltaGas, Mr. Cornhill served in the capacities of Vice President, Finance and Administration, and Treasurer at Alberta & Southern Gas Co. Ltd. from 1991 to 1993 and as President and Chief Executive Officer until March 31, 1994. Mr. Cornhill brings to the Trust extensive oil and gas expertise in the natural gas processing and transportation industries. In 2000, he was named "Entrepreneur of the Year". He currently sits on several private and public boards.

Bonnie D. DuPont

Bonnie DuPont was appointed a director of AltaGas on July 16, 1999. Ms. DuPont is the Group Vice President, Corporate Resources of Enbridge. Before joining Enbridge in 1998, Ms. DuPont served as Director, Human Resources and Administrative Services Division for the Alberta Wheat Pool (now Agricore).

Denis C. Fonteyne

Denis Fonteyne was appointed a director of AltaGas on September 1, 1998. Mr. Fonteyne is an independent natural gas consultant who brings over 40 years of industry experience to the Board of Directors. Mr. Fonteyne has held a number of senior executive positions in the oil and gas industry, most recently as Executive Vice-President with CanStates Gas Marketing.

Daryl H. Gilbert

Daryl Gilbert was appointed a director of AltaGas on May 4, 2000. Mr. Gilbert is President and Chief Executive Officer of Gilbert Laustsen Jung Associates Ltd., an energy industry consulting firm.

Myron F. Kanik

Myron Kanik was appointed a director of AltaGas on June 1, 2001. Mr. Kanik has extensive natural gas industry experience, which includes serving as Deputy Minister for the Alberta Department of Energy and President of the Canadian Energy Pipelines Association. He currently consults to the energy industry.

Stephen J.J. Letwin

Stephen Letwin was appointed a director of AltaGas on July 1, 2003. Mr. Letwin is the Group Vice President of Gas Strategy and Corporate Development at Enbridge Inc. (an energy, transportation, distribution and services company) since April 2003. Prior to that, he was Group Vice President Distribution and Service of Enbridge from September 2000 to April 2003. Prior to joining Enbridge in 1999, Mr. Letwin held senior executive positions with a number of companies in the energy transmission, exploration and production sectors.

David F. Mackie

David Mackie was appointed a director of AltaGas on January 12, 1995. Mr. Mackie is a U.S. based natural gas industry executive, consultant and venture capital investor. Mr. Mackie brings a broad range of experience to the Board of Directors having spent over 32 years in various executive capacities with El Paso Natural Gas Co. and Transco Energy Co. He also has extensive consulting experience with many senior energy companies and the Maritimes and Northeast Pipeline Project.

Governance

Executive Officers

The General Partner will have only a Chief Executive Officer and a Chief Financial Officer. The initial Chief Executive Officer will be David W. Cornhill and the initial Chief Financial Officer will be Patricia M. Newson. Pursuant to the Unanimous Shareholder Agreement as discussed below, the General Partner will have the power, among other things, to appoint the executive officers of AmalgamationCo. See below under "*– Unanimous Shareholder Agreement*".

Relationship between the Board of Directors and Management

Following the Arrangement, a majority of the members of the Board of Directors of the General Partner will be Unrelated directors. The proposed Board of Directors initially will be composed of seven Unrelated directors and one Related director.

The Board of Directors of the General Partner has in place appropriate structures and procedures to ensure that it can function independently of management (which, for greater certainty, shall include management of both the General Partner and AmalgamationCo). In addition, the Governance and Compensation Committee will provide an oversight role and monitor its effectiveness.

The limits of management's responsibilities are clearly defined by the Board of Directors of the General Partner. This is accomplished both by specifically identifying the roles and responsibilities of the Chief Executive Officer and Chief Financial Officer of the General Partner and specifying that all material decisions relating to the business and operations of the General Partner are to be made by the Board of Directors or a committee thereof.

Committees

The Board of Directors will establish four committees: the Audit Committee, the Governance Committee, the Environment and Safety Committee and the Human Resources and Compensation Committee. All of the members of the Audit Committee, the Governance Committee and the Human Resources and Compensation Committee will be Unrelated directors. A majority of the members of the Environment and Safety Committee will be Unrelated directors.

The Shareholder Agreement, as continued in the manner discussed under "*Information Concerning the Relationship Between Enbridge and the Trust*" following the Arrangement will provide that, until such time as Enbridge beneficially owns less than 9.9% of the Trust Units diluted, Enbridge will continue to be entitled to have representation on the committees of the Board of Directors.

Pursuant to the Unanimous Shareholder Agreement, the committees of the Board of Directors of the General Partner will have authority over both the General Partner and AmalgamationCo on those matters covered by their respective mandates.

Audit Committee

The Board of Directors will develop written terms of reference outlining the audit committee's roles and responsibilities and providing appropriate guidance to audit committee members as to their duties. These terms of reference will be reviewed annually by the Board of Directors. The audit committee will review the annual and interim financial statements of AmalgamationCo and make recommendations to the Board of Directors with respect to such statements. The audit committee will also review the nature and scope of the annual audit as proposed by the auditors and management, and the adequacy of the internal accounting control procedures and systems within AmalgamationCo. The audit committee is responsible for ensuring that management has implemented an effective system of internal control and has oversight responsibility for management reporting on internal control.

The audit committee will meet with AmalgamationCo's auditors regularly, independent of management, and will have direct communication channels with AmalgamationCo's external auditors to discuss and review specific issues as appropriate.

The audit committee will initially be comprised of John B. Breen, Daryl H. Gilbert and Stephen J.J. Letwin, all of whom are Unrelated directors. Stephen J.J. Letwin is anticipated to be the chair of the audit committee.

Governance Committee

The governance committee will be responsible for the development of the overall governance of AmalgamationCo; a continuing assessment of corporate governance matters; and to make recommendations to the Board of Directors regarding AmalgamationCo's approach to corporate governance.

The governance committee will initially be comprised of Bonnie DuPont, Denis Fonteyne, Myron Kanik and David Mackie, all of whom are Unrelated directors. Myron Kanik is anticipated to be the chair of the committee.

Environment and Safety Committee

The environment and safety committee will monitor and make recommendations with respect to the environment, health and safety policies, practices and procedures of AmalgamationCo. The committee will establish an environmental risk management system and monitor its operation through regular reports.

The environment and safety committee will initially be comprised of David Cornhill, Denis Fonteyne and Myron Kanik, of whom Messrs. Fonteyne and Kanik are Unrelated directors. Denis Fonteyne is anticipated to be the chair of the committee.

Human Resources and Compensation Committee

The mandate of the human resources and compensation committee will include developing appropriate compensation policies for the senior management of AmalgamationCo and evaluating senior management performance. These responsibilities will include reporting and making recommendations to the Board of Directors for their consideration and approval.

The human resources and compensation committee will initially be comprised of Bonnie DuPont, Denis Fonteyne, Myron Kanik and David Mackie, all of whom are Unrelated directors. Bonnie DuPont is anticipated to be the chair of the committee.

Compensation of Directors and Officers

The Board of Directors is entitled to compensation for their services as directors of the General Partner. The initial compensation for the directors, other than the directors who are also executive officers or employees of the General Partner or AmalgamationCo, is a retainer of $27,000 per year plus a meeting fee of $1,000 per meeting after the fifth meeting of the Board of Directors in the calendar year and reimbursement for their out-of-pocket expenses incurred in acting as a director. The Chairman of the Board of Directors is an executive officer of AmalgamationCo and receives no additional fees for service on the Board of Directors. The lead director receives an annual fee of $60,000 for the increased workload associated with the role of lead director. Each director who is a chair of one of the General Partner's committees is compensated, with the chair of the audit committee receiving an additional annual retainer of $6,000 and the chair of each of the other committees receiving an additional annual retainer of $3,000. No additional meeting fees are paid for attendance at committee meetings.

The Chief Executive Officer and Chief Financial Officer of the General Partner will not be entitled to compensation for services rendered to the General Partner in their capacities as such. The executive officers will instead receive compensation in their respective capacities with AmalgamationCo.

Unanimous Shareholder Agreement

Pursuant to the Unanimous Shareholder Agreement, and subject to the terms and conditions thereof, the General Partner will be granted the powers of the directors of AmalgamationCo to manage, or supervise the management of, the business and affairs of AmalgamationCo, including without limitation in respect of the following matters:

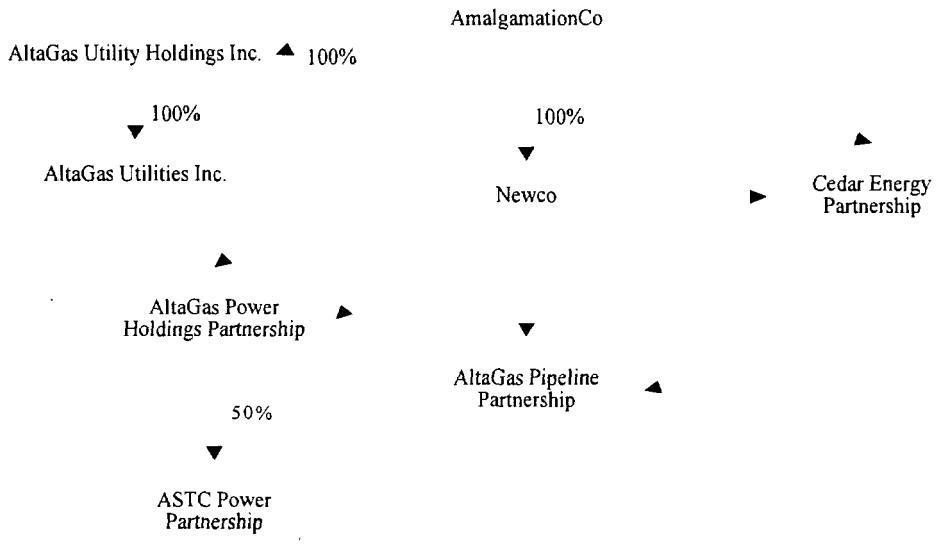
(a) the appointment of the board of directors of AmalgamationCo, as determined by the Board of Directors in its sole discretion; and

(b) the appointment, mandates and compensation of the executive officers of AmalgamationCo.

INFORMATION CONCERNING AMALGAMATIONCO

General

AmalgamationCo will be the resultant corporation from the amalgamation of AltaGas, LP Subco, the Amalgamating Subsidiaries and the Holdcos pursuant to the provisions of the CBCA. As a result, AmalgamationCo will own, directly or indirectly, all of the assets that AltaGas owned, directly or indirectly, prior to the Arrangement. AmalgamationCo will also retain all of the liabilities of AltaGas, including liabilities relating to corporate and income tax matters.



THE DISCLOSURE WHICH FOLLOWS HAS BEEN PREPARED ASSUMING THAT THE ARRANGEMENT HAS BECOME EFFECTIVE.

The head and principal office of AmalgamationCo will be located at 1700, 355 – 4th Avenue S.W., Calgary, Alberta T2P 0J1 and its registered office will be located at 1700, 355 – 4th Avenue S.W., Calgary, Alberta, T2P 0J1. AmalgamationCo will be an indirect wholly-owned subsidiary of the Trust.

AmalgamationCo will become a reporting issuer in certain Canadian jurisdictions and will become subject to the informational reporting requirements under the securities laws of such jurisdictions as a result of the Arrangement. Application will be made to the securities regulatory authorities for exemptions from those reporting requirements. Instead of complying with those reporting requirements (which would include filing separate financial statements for AmalgamationCo), the holders of Exchangeable Securities will be provided with the documents filed by the Trust pursuant to the information reporting requirements to which the Trust is subject under applicable Canadian securities laws.

Inter-Corporate Relationships

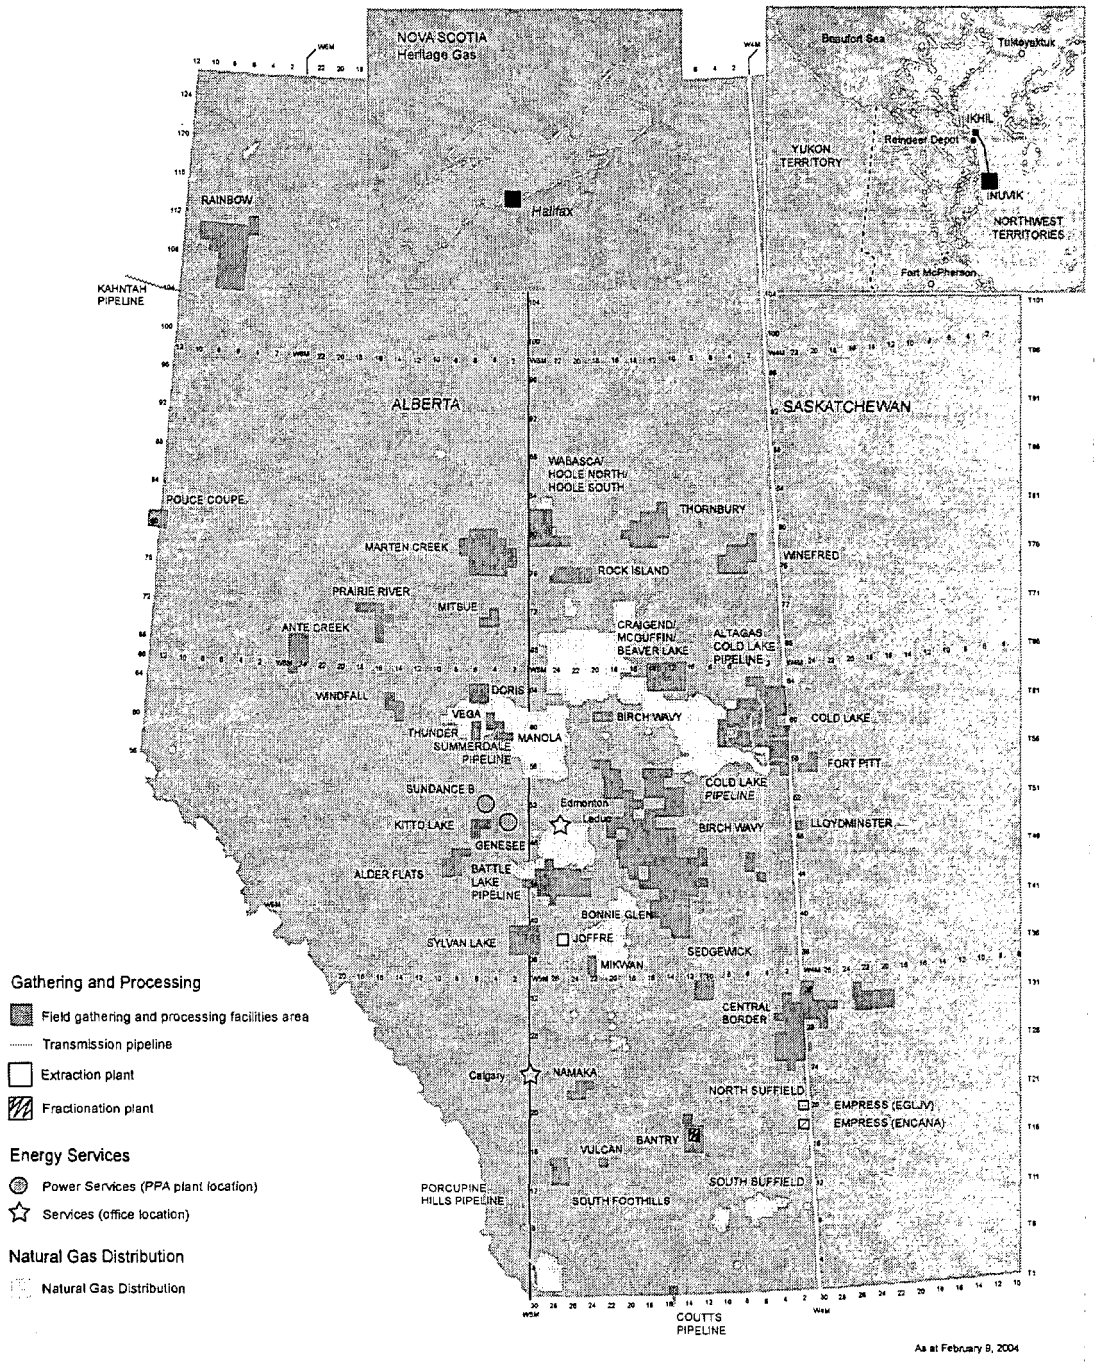
AmalgamationCo's corporate structure and its direct and indirect subsidiaries are shown in the following chart.

Prior to the Amalgamation, AltaGas was an operating company which generated approximately 62% of AltaGas' consolidated revenues and 25% of AltaGas' consolidated net revenues for the year ended December 31, 2003 and held approximately 73% of AltaGas' consolidated assets at December 31, 2003. AltaGas Utilities is an operating company which generated approximately 18% of AltaGas' consolidated revenues and 14% of AltaGas' consolidated net revenues for the year ended December 31, 2003 and held approximately 5% of AltaGas' consolidated assets at December 31, 2003.

The following is a description of each of the former significant subsidiaries of AltaGas and their principal business, each of which amalgamated with AltaGas and LP Subco to become AmalgamationCo pursuant to the Arrangement. The assets and operating activities are owned and carried out, directly and indirectly, by AmalgamationCo following the Arrangement.

- **AltaGas Energy Processors Inc.** owns three natural gas field gathering and processing facilities in central Alberta. The total capacity of the three facilities, which are operated by AmalgamationCo, is 33 Mmcf/d.
- **AltaGas Liquids Inc.** owns the assets associated with the 10% interest in the Empress EnCana extraction facility and an approximate 7% interest in the Empress ATCO extraction facility.
- **AltaGas Marketing Inc.** holds an assortment of natural gas facility assets in Alberta and the one-third interest in the gathering, processing and transportation facilities associated with the Ikhil Gas Project joint venture (reserves, gathering, processing, sales line) in the Northwest Territories.
- **AltaGas Suffield Pipeline Inc.** owns two natural gas transmission pipelines in southeastern Alberta.
- **AltaGas (Sask.) Inc.** holds gathering and processing assets in Saskatchewan.

- **AltaGas Transmission Ltd.** owns certain transmission pipelines in Alberta, British Columbia and Saskatchewan.



The following is a description of each of the significant subsidiaries of AltaGas and their principal business, each of which will remain a subsidiary of AmalgamationCo, either directly or indirectly, following the Arrangement.

- **AltaGas Utility Holdings Inc.** holds the corporation that holds the assets associated with natural gas distribution.

- **AltaGas Utilities** is a natural gas distribution company and public utility, which provides distribution services to approximately 90 communities in Alberta.

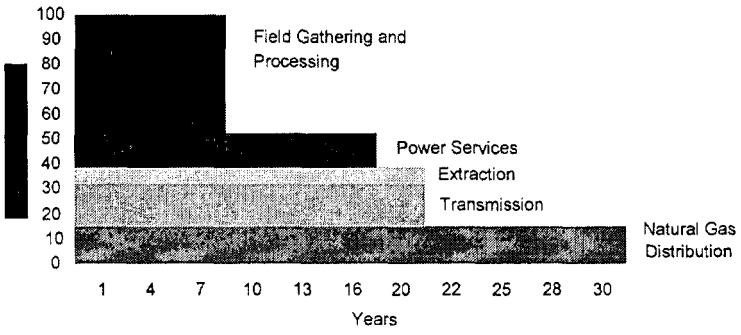
- **ASTC Power Partnership** is a general partnership in which AmalgamationCo has an indirect 50% partnership interest and which holds the Sundance B PPA.

Map of AmalgamationCo Operational Areas

General Development of the Business

Overview of AmalgamationCo and the Midstream Industry

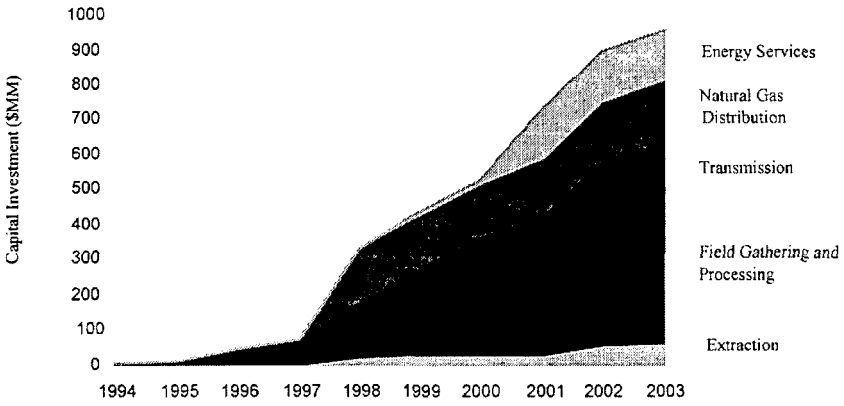
AmalgamationCo, one of Canada's first midstream companies, is defining Canada's midstream business. A participant in the midstream natural gas business since its inception in 1994, AmalgamationCo moved into the



diversified energy services business with the acquisition of the Sundance B PPA in December 2001. AmalgamationCo moves, processes and uses energy to create value. AmalgamationCo:

- physically gathers, processes, extracts and transports natural gas;
- contractually markets and transports natural gas and electrical power;
- converts energy across and along the energy value chain to create higher value-added products; and
- consumes natural gas and electrical power to operate its facilities.

AmalgamationCo is an energy infrastructure based company. AmalgamationCo expects to continue to develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and the northern United States.



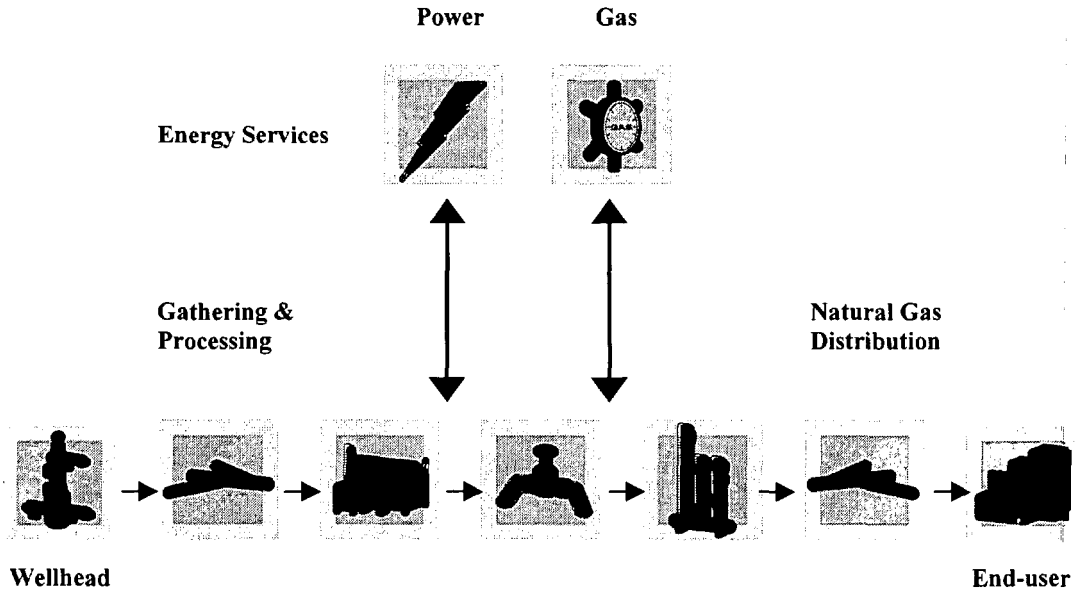
From inception, AmalgamationCo's objective has been to build a portfolio of energy assets that are capable of generating long term, stable cash flow. To provide this stability, AmalgamationCo focuses on assets that are diversified in terms of their revenue source, contractual terms, exposure to industry cycles and geographic location. Today AmalgamationCo's mix of assets provides AmalgamationCo with a combination of regulated cost of service, guaranteed income and fee for service revenue. These revenue streams are relatively predictable, with minimal or managed exposure to commodity prices and have a cash flow horizon extending out as far as 30 years. Going forward, while investing in a larger asset base, AmalgamationCo intends to grow each of its business components to ensure concentrations of risk are minimized.

Cash Flow Horizon at December 31, 2003

Note: Gas services contracts generally have one-year terms, with the option to renew or extend.

Asset Growth

Strategy



AmalgamationCo uses its midstream assets and services to move energy from its source to the end-user. AmalgamationCo adds shareholder value by increasing the operating efficiency and utilization of its assets and linking the components of its midstream energy business.

Energy Value Chain Integration

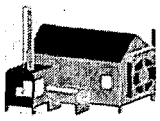
Value chain integration is the partial or full integration of the natural gas, electric power and petroleum market and industries, at several points along the energy value chain. The natural gas and electricity industries have become interdependent as a result of events such as natural gas and electrical deregulation, the continuing development of natural gas as the fuel of choice for new power generation and ongoing fluctuations in energy pricing.

With both natural gas and power assets, AmalgamationCo can capture value more effectively and efficiently. With control of the physical assets AmalgamationCo has better leverage of the assets, the energy relationships, and the arbitrage opportunities that exist across these commodities.

Midstream Energy Value Chain

Reporting Segments

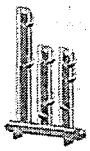
AmalgamationCo conducts its business and reports consolidated financial and operating results on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.



- Gathering and Processing includes natural gas field gathering and processing; transmission pipelines; ethane and NGL extraction.
- Energy Services includes power services, natural gas services and oil and natural gas production.

Natural Gas Distribution consists of the distribution of natural gas and is conducted through AltaGas Utilities, AmalgamationCo's one-third interest in Inuvik Gas and a 24.9% interest in Heritage Gas. AltaGas Utilities operates as a provincially regulated natural gas distribution utility in its areas of service in the Province of Alberta. Inuvik Gas distributes natural gas to the Town of Inuvik in the Northwest Territories and Heritage Gas has the distribution franchise to deliver natural gas to six counties in Nova Scotia.

AmalgamationCo's assets and services are described below.



Gathering Gathering systems or gathering lines move natural gas from producing wells to processing facilities.

Processing Processing facilities remove certain hydrocarbon components and impurities from natural gas in addition to compressing the gas to meet downstream pipelines' operating specifications for transportation.

Transmission Transmission pipelines provide natural gas and condensate transportation services to distribution systems, end-users or other downstream pipelines.

Extraction Extraction plants reprocess natural gas from field plants to extract and recover additional ethane and other NGLs such as propane and butane.

Natural Gas Distribution Distribution companies deliver natural gas to end-users for heating and other purposes.

Gas Services AmalgamationCo's focus is to efficiently manage and, whenever possible, to market natural gas processed through its field gathering and processing, transmission and extraction facilities. AmalgamationCo also markets gas for a supply pool of producers, and purchases natural gas for AltaGas Utilities and a select group of industrial users.

Power Services AmalgamationCo supplies 453 MW of wholesale electrical power from ownership of the Sundance B PPA and the Genesee energy contract.

Historical Development to Date

The general development of AmalgamationCo's business and the significant events or conditions which have been an influence on that development are summarized below.

AmalgamationCo commenced operations on April 1, 1994 with a team of 20 people with experience in the natural gas industry. The founding vision was to grow a major Canadian natural gas midstream company combining a portfolio of natural gas-related services with long-life assets to grow net income. The concept of a distinct, full-service midstream business was unique in Canada at the time. AmalgamationCo commenced operations with two major contracts to provide transportation, regulatory and gas management services. The revenue generated from these contracts during 1994 and 1995, together with private placement equity financings, provided the funds for AmalgamationCo to establish its midstream asset base and make the transition from a consulting services company to a midstream operating company.

The nature of AmalgamationCo's participation in the midstream industry has evolved from holding primarily service contracts and non-operated return on investment-based assets to include investments in fully-operated natural gas facility assets of which AmalgamationCo owns 100% or in which it has a controlling interest. In AmalgamationCo's ten-year history in the Canadian midstream industry AmalgamationCo has, with a rational assessment of acquisition opportunities, acquired or constructed almost $954 million in midstream infrastructure based assets.

Developments - Gathering and Processing

In late 2001, AmalgamationCo entered into a fifty-fifty joint venture with Taylor to construct the Joffre ethane extraction plant. The plant, which was commissioned in late December 2002 has an inlet capacity of approximately 125 Mmcf/d (net) and is capable of producing 10,400 Bbls/d (5,200 Bbls/d net) of ethane and NGLs. AmalgamationCo's net share of construction costs was $24.8 million.

On December 19, 2002, AmalgamationCo acquired 100% of the shares of EnCana Suffield Gas Pipeline Inc. which holds an interest in two natural gas pipelines at Suffield, Alberta ("**Suffield System**") and also acquired seven natural gas gathering and processing systems in northeastern Alberta ("**Wabasca System**"). The total acquisition costs for the Suffield System and the Wabasca System, which were acquired from subsidiaries of EnCana Corporation ("**EnCana**"), was approximately $118.1 million. EnCana has entered into long-term transmission and gathering and processing agreements with AmalgamationCo in respect of the Suffield System and the Wabasca System.

On December 8, 2003, AmalgamationCo announced it intention to acquire interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe, for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition which closed on December 22, 2003, included a 100% interest in a 40 Mmcf/d sour natural gas processing facility and 130 kms of gathering pipelines located near the town of Rainbow Lake in northwestern Alberta. The Pouce Coupe gathering and processing system acquisition, which closed on January 30, 2004, included a 40.78% interest in a sweet gas processing facility with gross capacity of 43 Mmcf/d and 68 kms of gathering lines located along the Alberta/BC border.

On March 18, 2004, AmalgamationCo announced that it has entered into a purchase and sale agreement with BP Canada Energy Resources Company ("**BP**") to acquire BP's 48 2/3% interest in the Edmonton Ethane Extraction Plant ("**EEEP**") located at Edmonton, Alberta for approximately $46 million. EEEP has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross NGLs production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. EEEP straddles the ATCO Pipelines Ltd. system which transports natural gas into the City of Edmonton and the Ft. Saskatchewan area. EEEP is directly connected to the Alberta Ethane Gathering System, and to BP's Co-Ed NGL pipeline, providing safe and reliable outlets for EEEP's products. AmalgamationCo's share of plant products including ethane and propane-plus will be sold under long term contracts. A long term gas supply contract provides a secure feedstock supply to EEEP. The acquisition is expected to close in the second quarter of 2004, subject to license transfer, customary closing conditions, third party and regulatory approvals.

Developments - Natural Gas Distribution

AmalgamationCo entered the natural gas distribution business on June 30, 1998 with its acquisition of AltaGas Utilities, then called Centra Gas Alberta Inc. Natural gas distribution companies provide natural gas to residential, farm, commercial and industrial users for heating and other purposes. In 1999, AmalgamationCo advanced its natural gas distribution business with a one-third interest in Inuvik Gas, the distribution arm of the Ikhil Gas Project.

On August 16, 2002 Heritage Gas, a Nova Scotia company owned by AmalgamationCo (24.9%), SaskEnergy International Inc., a subsidiary of SaskEnergy Inc. (50.1%), and Scotia Investments Limited, a private investment holding company (25.0%), filed an application for the right to distribute natural gas to certain counties in Nova Scotia. On February 7, 2003 a decision was rendered by the Nova Scotia Utility and Review Board granting Heritage Gas a full regulation class franchise for a period of 25 years. Heritage Gas accepted the distribution franchise on June 3, 2003 and activated the initial portion of its natural gas distribution system on December 20, 2003.

Developments - Energy Services

AmalgamationCo entered the power business in December 2001 with the purchase of a 50% interest in the Sundance B PPA. The Sundance B PPA provides for the purchase of power output from two units of the Sundance B power plant ("**Sundance B plant**"). AmalgamationCo's 50% interest in the Sundance B PPA provides AmalgamationCo with the rights to manage approximately 353 MW of power generation capacity from the Sundance B plant until December 31, 2020 (see "*Information Concerning AmalgamationCo – Description of the Business – Energy Services*"). The acquisition of the Sundance B PPA was consistent with AmalgamationCo's proven strategy of diversifying its energy management portfolio through prudent acquisitions. Operationally, AmalgamationCo manages its power in much the same way as its natural gas business is managed. Strategically, power added another long term cash flow stream to AmalgamationCo's energy portfolio.

On March 18, 2003 AmalgamationCo announced that it was a successful bidder for 100 MW of power capacity in the Alberta government's third phase of the MAP II ("**Market Achievement Plan**") auction. Accordingly, AmalgamationCo entered into an energy contract ("**Genesee Energy Contract**") with the Balancing Pool Administrator ("**BPA**") for the right to 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee power plant ("**Genesee plant**") located southwest of Edmonton, Alberta for a three year term commencing April 1, 2003. The 100 MW of power capacity is a portion of the capacity at the Genesee plant to which the BPA has rights pursuant to a PPA.

Developments - Corporate

On January 11, 2001 AmalgamationCo declared its first quarterly cash dividend per fully paid Common Share and Participating Share in the capital stock of AmalgamationCo, which was paid on March 31, 2001. On August 13, 2003 the AltaGas Directors increased AmalgamationCo's dividend to $0.11 per share from $0.08 per share paid for the previous four quarters.

On April 23, 2003 AmalgamationCo acquired 1,872,735 or 19.2% of the outstanding limited partnership units of Taylor for $9.4 million. On October 17, 2003, AmalgamationCo purchased under a public offering by Taylor an additional 1,592,250 limited partnership units for approximately $8.7 million. The purchase maintained AmalgamationCo's 19.2% ownership of Taylor. AmalgamationCo and Taylor each own a 50% interest in the Joffre ethane extraction plant.

Opportunities

AmalgamationCo is continually evaluating growth opportunities along the midstream energy value chain. Only opportunities that offer AmalgamationCo a competitive advantage, acceptable financial returns and future growth potential will be pursued. In the last two years AmalgamationCo has captured several opportunities to expand its midstream business and has added $217.6 million in net addition to capital assets.

Net Additions to Capital Assets ($ millions) (Year ended December 31)	*Gathering and Processing*	*Energy Services*	*Natural Gas Distribution*	*Total*
2002	159.8	1.5	3.7	165.0
2003	33.3	2.5	16.8	52.6
Total Segment Assets at December 31, 2003	614.4	165.8	139.1	919.3

Opportunities - Gathering and Processing

Management of AmalgamationCo believes that significant drilling activity will continue in the Western Canadian Sedimentary Basin. In the field gathering and processing component with its extensive network of approximately 6,000 kms of gathering lines, substantial processing capacity, expansion potential and access to downstream transportation pipelines, which offer customers diverse marketing opportunities, AmalgamationCo is well positioned to take advantage of existing and future gathering and processing needs.

Existing field gathering and processing areas are generally surrounded by adjoining or overlapping gathering and processing systems. As AmalgamationCo has grown, opportunities to expand by tying in new wells and purchasing adjoining facilities and systems have increased. New area development comes in large part from AmalgamationCo's existing and expanding customer base and active drilling programs by producers. At present, most gathering and processing infrastructure in western Canada is still owned by oil and gas producers. AmalgamationCo believes that its operational skills and market coverage make it an excellent business partner for many exploration and production companies. In an environment where capital will always be carefully rationed, AmalgamationCo provides an attractive option for those asset owners who wish to channel capital to exploration and production purposes.

Transmission pipeline opportunities arise when AmalgamationCo is able to capture additional market share through the construction or acquisition of transmission pipelines, often combined with natural gas marketing and transportation brokerage services. In previously unserved areas, AmalgamationCo works with customers to create mutually beneficial transmission solutions.

Extraction opportunities may result from modifications to increase product recoveries at a plant in which AmalgamationCo already has an ownership interest, the acquisition of an interest in an existing extraction plant or new facilities construction. Extraction plant opportunities typically reflect a low-risk, long term cost of service ethane processing arrangement contracted with an Alberta ethylene producer, and either a low-risk NGLs processing fee or sales of NGLs based on an Edmonton or U.S. index to provide upside potential when NGL prices are strong.

Opportunities - Energy Services

AmalgamationCo enhances the overall value of its power business by supplying internal electrical demand requirements and by reducing its exposure to floating power prices. To reduce exposure to power prices AmalgamationCo uses a balanced portfolio of contracts to lock in margins on a substantial portion of its power at prices that ensure a consistent operating margin and a reasonable return on invested capital. AmalgamationCo will continue to invest in the power industry if the opportunities meet AmalgamationCo's investment guidelines and strategies. AmalgamationCo is assessing asset acquisition and development and transmission opportunities and the viability of distributed power generation projects at its field gathering and processing sites.

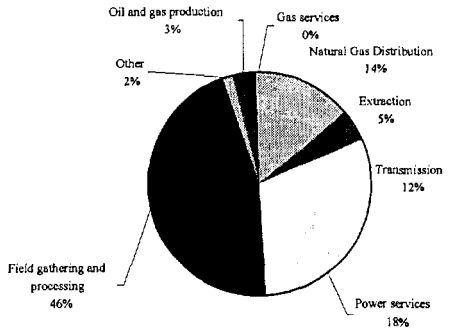
Gas services opportunities are linked to growth in AmalgamationCo's field gathering and processing component and to clients with natural gas supply unassociated with AmalgamationCo's facilities. The recent exit of many United States mega marketers provided opportunities for gas services to expand its customer base.

Opportunities - Natural Gas Distribution

The Natural Gas Distribution Segment includes AltaGas Utilities, AmalgamationCo's one-third interest in Inuvik Gas and AmalgamationCo's 24.9% interest in Heritage Gas.

AltaGas Utilities' primary function and responsibility as a reliable public utility is to maintain high operating standards to ensure a dependable, secure natural gas supply for its customers. AltaGas Utilities is focussed on growing its business in conjunction with the growth of the Alberta communities that it serves, through expansion into new subdivisions and servicing of commercial developments. Future opportunities are expected to come from increases in the number of customers in existing franchise areas and new franchise additions. AltaGas Utilities is well positioned in the northeastern Alberta oil sands corridor to potentially capture increased volumes by virtue of its extensive small delivery systems. AltaGas Utilities has experience in providing service to First Nations and Métis settlements and is exploring opportunities, over the longer term, to expand services to several other such communities.

Inuvik Gas is the distribution arm of the Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle. This project distributes natural gas to the Northwest Territories Power Corporation ("**NWTPC**") and the Town of Inuvik and is viewed by AmalgamationCo as an important first step in establishing a presence leading to future natural gas projects in the North.



The definition phase of the project to connect Mackenzie Delta natural gas to the North American pipeline grid is progressing. AmalgamationCo has not concluded any other projects in the North to date but continues to assess opportunities and is confident that, once an application to construct a pipeline and all ancillary facilities is filed, AmalgamationCo will be in a better position to consider complementary projects.

Heritage Gas has the franchise to distribute natural gas in the Province of Nova Scotia to all or part of six counties including the Halifax Regional Municipality. Heritage Gas provides AmalgamationCo with the rare opportunity to apply its knowledge and experience in building a greenfield utility. It expands AmalgamationCo's geographic footprint beyond western Canada while complementing AmalgamationCo's strategy to invest in infrastructure-based assets that provide long-term cash flows.

Description of the Business

AmalgamationCo has successfully grown its net revenue from $6.0 million in 1995, AmalgamationCo's first full year of operation to $219.9 million for the twelve month period ended December 31, 2003 representing a compound annual growth rate of 49% over this period.

2003 Net Revenue by Component

Note: Net revenue is gross revenue less the costs and the purchase of natural gas for resale, and costs to purchase power under the power purchase based arrangements. Excludes intersegment eliminations.

Gathering and Processing

The Gathering and Processing segment includes three inter-related components: (i) field gathering and processing facilities; (ii) extraction plants; and (iii) transmission pipelines. AmalgamationCo's Gathering and Processing segment contributed net revenues of $140.2 million for the year ended December 31, 2003 which was approximately 63.8% of AmalgamationCo's total net revenues before intersegment eliminations.

In the field gathering and processing component AmalgamationCo had interests in 67 gathering and processing facilities in 29 operating areas located in Western Canada and the Northwest Territories at December 31, 2003. AmalgamationCo operates 65 of these facilities. Aggregate gross processing capacity of the plants is 861 Mmcf/d including 208 Mmcf/d of sour gas capacity. In addition, AmalgamationCo has approximately 6,000 km of gathering lines delivering sales gas into 9 downstream pipeline systems.

AmalgamationCo's extraction assets include interests in three of the ten NGL extraction plants in Canada, two at Empress, Alberta and one at Joffre, Alberta. AmalgamationCo also owns the Bantry fractionation facility. AmalgamationCo's net raw gas inlet capacity at these plants is 349 Mmcf/d.

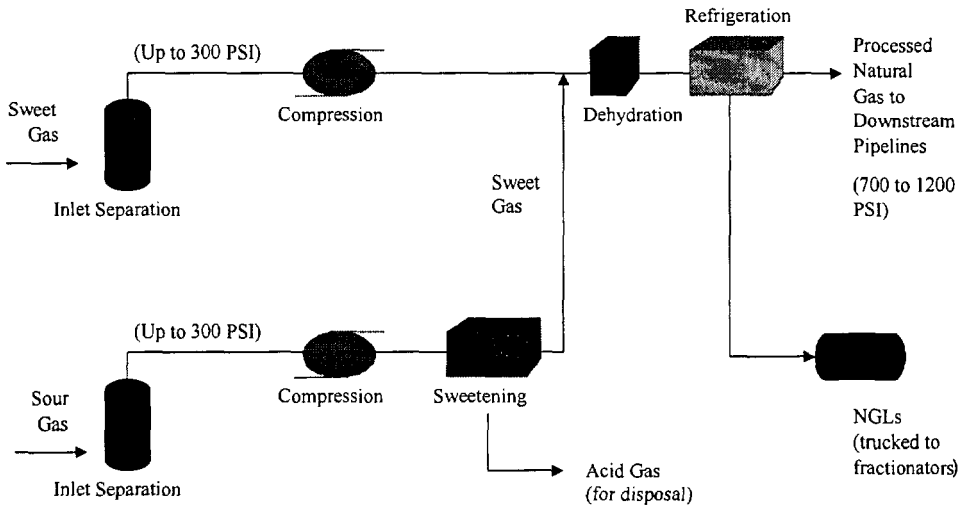
AmalgamationCo's transmission pipelines include the ASI Cold Lake, Battle Lake, Suffield and Summerdale natural gas transmission pipelines in Alberta, the Kahntah natural gas transmission pipeline in British Columbia and the Porcupine Hills condensate pipeline in Alberta.

Field Gathering and Processing

Field Gathering and Processing – Business Strategy

Field gathering and processing facilities are critical to the delivery of natural gas from the wellhead to the end-use market. AmalgamationCo has grown rapidly based on a field gathering and processing facilities acquisition and development strategy unique in the Canadian midstream market. AmalgamationCo's strategy is to:

- Focus on under-utilised assets which offer upside through increased throughput;
- Maintain flexibility by investing in moveable assets that can be easily relocated;
- Create large facility operating complexes by pursuing extensive gathering systems and interconnecting facilities;



- Offer customers diverse marketing opportunities by focusing on assets that have good access to downstream transportation pipelines;
- Control operations and maximize efficiency by acquiring and maintaining large working interests in assets; and
- Minimize overall corporate risk through geographic and customer diversity.

AmalgamationCo adds value through increasing the utilization of its facilities by:

- Aggressively pursuing new natural gas supplies by working closely with producers in the development of new and existing natural gas fields;
- Offering flexible contractual terms for access to all producers in the areas in which AmalgamationCo operates;
- Enhancing operational efficiencies through consolidation and plant upgrades; and
- Expanding facilities and constructing or acquiring and connecting complementary facilities to create large facility complexes.

AmalgamationCo complements its field gathering and processing assets with infrastructure investments in transmission pipelines, extraction plants and natural gas distribution systems. AmalgamationCo enhances the value of its capital infrastructure by offering the other services along the midstream value chain.

Field Gathering and Processing Typical Field Gas Processing Plant

Raw natural gas produced at the wellhead is a mixture of methane and other hydrocarbon components and impurities, including water vapour, carbon dioxide (CO_2) and hydrogen sulphide (H_2S). Gas that has hydrogen sulphide present in amounts in excess of downstream pipeline specifications is considered "sour gas". All other gas is considered "sweet gas". All natural gas must be processed through a natural gas plant to remove the various hydrocarbon components and impurities before the natural gas is delivered via downstream pipelines for ultimate sale and consumption. The amount and complexity of processing required before the raw gas is of saleable quality is a function of the quantity of the NGLs and other impurities present in the raw gas stream.

The raw natural gas is first gathered from the wellhead through natural gas gathering systems, and then delivered to and processed through a natural gas processing plant. The design of a natural gas plant is determined by the composition of the raw gas that it is intended to process. Natural gas which contains minimal or no amounts of NGLs or other elements will bypass certain processes within a typical natural gas plant configuration.

Raw natural gas entering the natural gas plant is subject to inlet separation where free water and any free NGLs are separated from the natural gas stream. If the natural gas is sour, it is sweetened by the removal of hydrogen sulphide. The natural gas is then usually dehydrated to remove any remaining water. If significant NGLs are still present in the sweet gas they are removed to meet downstream pipeline specifications. NGLs generally have greater value if extracted in liquid form and additional NGL recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field gas plants or at large scale extraction plants (see "*Information Concerning AmalgamationCo – Description of the Business – Extraction*"). AmalgamationCo has NGL extraction capability at 20 of its 67 natural gas field processing plants.

The remaining processed gas exiting the natural gas plant is delivered to the downstream transportation pipeline for eventual distribution to end-use markets. NGLs must be further processed ("**fractionated**") into their individual components, propane, butane and condensate. The NGLs may be fractionated on site as is the case at AmalgamationCo's Bantry plant, or trucked or pipelined to fractionation facilities.

Field Gathering and Processing - Facilities

AmalgamationCo's field gathering and processing component generates revenues from fees for volumes of natural gas processed at a processing facility or gathered through a gathering system and from natural gas well operations.

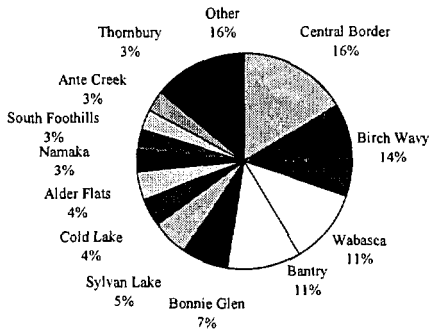
AmalgamationCo's target utilization rate is 70% for facilities over which AmalgamationCo has operational control. Volume additions at facilities came from new well tie-ins and from reactivations, recompletions and well optimizations performed by producers. The historical utilization rate for all of AmalgamationCo's combined facilities remains lower than the targeted rate due to its ongoing facilities acquisition strategy.

Field Gathering and Processing Facility Capacity and Throughput

	2003	2002	2001
Processing capacity (gross Mmcf/d)[1][3]	861	842	768
Capacity growth (percent year over year)	2	10	8
Processed throughput (gross Mmcf/d)[2][3]	523	532	498
Processed throughput (gross annual average Mmcf/d)[3]	520	492	491
Capacity utilization (percent)[1]	61	63	65

Notes:

(1) As at December 31.
(2) Fourth quarter average.
(3) Gross numbers are before AmalgamationCo's working interest.



Drilling activity was high in the oil and gas sector, with industry estimates of 18,800 to 19,500 wells drilled in the WCSB in 2003. Strong industry drilling activity in many of AmalgamationCo's operating areas resulted in 324 new natural gas wells tied into AmalgamationCo's field gathering and processing facilities in 2003 compared to 188 new wells tied-in during 2002. Volume additions from well tie-ins in combination with throughput from facility acquisitions and expansions offset normal natural gas production declines at AmalgamationCo's combined facilities in 2003. Natural gas gathering and processing gross average throughput for the year ended December 31, 2003 increased to 520 Mmcf/d from 492 Mmcf/d for the year ended December 31, 2002. With expectations of continued strong oil and gas prices, AmalgamationCo anticipates another strong year in the field gathering and processing component in 2004.

Field Gathering and Processing - Significant Operating Areas

AmalgamationCo has historically focussed on smaller, moveable midstream facilities in western Canada with processing capacity of under 50 Mmcf/d, which AmalgamationCo has identified as its niche in the midstream industry and which AmalgamationCo believes has distinguished it from most of its competitors. AmalgamationCo's facilities are often physically linked, creating facility complexes that offer delivery options and revenue continuity in the event that one of the plants in a complex shuts down.

With 67 processing facilities in 29 operating areas, AmalgamationCo's field gathering and processing component is not dependent on any one facility or operating area. Field gathering and processing operating margin represented approximately 35.3% of AmalgamationCo's consolidated 2003 operating margin.

The following chart provides a breakout of field gathering and processing operating margin by significant operating area for the year ended December 31, 2003.

The following table provides a summary of AmalgamationCo's most significant field gathering and processing operating areas as at December 31, 2003:

Operating Area	Ownership (Percent)[1]	Facility Type	Facility Count	Gross Capacity (Mmcf/d)[2]	Gross Throughput (Mmcf/d)[2][3]	Number of Compressors (includes boosters)	Operated or Non-Operated
Western Canada							
Alder Flats	100.0	sweet	1	40	25	5	Operated
Ante Creek	100.0	sweet	1	36	26	6	Operated
Bantry	100.0	sour	1	25	21	8	Operated
Birch Wavy	83.2	sweet	12	101	80	37	Operated / Non-Operated
Bonnie Glen	100.0	sweet	2	41	45	11	Operated
Central Border	100.0	sweet/sour	6	92	55	27	Operated
Cold Lake	81.4	sweet	4	43	37	33	Operated
Namaka	79.0	sweet	2	25	15	4	Operated
Rainbow Lake[4]	100.0	sour	1	40	8	2	Operated

Operating Area	Ownership (Percent)[1]	Facility Type	Facility Count	Gross Capacity (Mmcf/d)[2]	Gross Throughput (Mmcf/d)[2][3]	Number of Compressors (includes boosters)	Operated or Non-Operated
Sylvan Lake	100.0	sweet	1	30	23	8	Operated
South Foothills	68.4	sweet	3	78	41	9	Operated / Non-Operated
Thornbury	100.0	sweet	6	35	16	17	Operated
Wabasca	94.7	sweet/sour	7	75	51	19	Operated
Other	78.6	sweet/sour	18	187	77	46	Operated / Non-Operated
Sub Total			65	848	520	232	
Northwest Territories							
Ikhil[5]	33.3	sweet	1	8	2	-	Operated
Montana, USA							
Coutts	100.0	sweet	1	5	1	-	Operated
Total			67	861	523	232	

Notes:

(1) Weighted average ownership based on gross capacity.
(2) Gross numbers and not adjusted to AmalgamationCo's working interest.
(3) Represents 2003 fourth quarter average.
(4) Processed throughput includes the Rainbow Lake assets effective November 1, 2003.
(5) AmalgamationCo, GyrFalcon Holdings Ltd. and Enbridge Inc. (collectively, the "**Owners**"), each participate as to a one-third interest in all phases of the Ikhil Gas Project to supply natural gas to NWTPC and the Town of Inuvik. The Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle, has three components: development and production of reserves, a 50 km pipeline and a processing facility, and a natural gas retail distribution system (see "*Information Concerning AmalgamationCo – Description of the Business – Natural Gas Distribution*"). AmalgamationCo is the operator of the entire upstream portion of the Ikhil Gas Project.

Field Gathering and Processing - Customers

AmalgamationCo conducts business with over 300 customers in its 29 operating areas, with no customer representing more than 7% of consolidated revenues during 2003 or 2002.

Field Gathering and Processing - Contracts

AmalgamationCo gathers and processes natural gas under contracts with natural gas producers. There are approximately 700 active gathering and processing contracts. These contracts are, in general, designed to:

- set the prices for the gathering and processing services offered by AmalgamationCo;
- define the producers' rights of access to gathering and processing services;
- where capital investment is required by AmalgamationCo, establish minimum throughput commitments with producers;
- where capital investment is required, use appropriate fee structures to recover invested capital early in the life of the contract; and
- define the terms and conditions under which future production is processed at an AmalgamationCo facility.

The amount of capital which AmalgamationCo commits to a gathering and processing facility, either by acquisition or tie-in, is linked to AmalgamationCo's assessment of production available to be processed at the

facility, reserves in the area, the extent of the reserve dedication and the processing fees to be paid by producers for its services. When a facility is acquired, AmalgamationCo conducts an independent review of the natural gas reserves and production in the area, surrounding each facility using, among other sources, AEUB production data and reserve estimates and producers reserve reports for the area. AmalgamationCo also conducts a review of the physical plant and equipment and the operating and maintenance costs for each facility.

Fee Structure

AmalgamationCo, in determining appropriate contractual provisions, including a reasonable payback period on its invested capital, attempts to align its interests with the financial and business objectives of its producer customers.

The vast majority of AmalgamationCo's gathering and processing contracts are volumetric service fee structures, based on a rate per Mcf of throughput. Approximately 70% of contracts in place at December 31, 2003 were subject to annual price escalation related to changes in the Alberta Consumer Price Index. This "toll for service" structure (as opposed to the commodity spread-based price structures predominantly used by midstream companies in the U.S.) does not create exposure to commodity price risk as revenues are a function of volumes processed. AmalgamationCo's investment is generally protected by the life of reserves behind the facility since producing wells typically remain connected to a gathering and processing system for their entire productive lives.

AmalgamationCo may seek additional contract support to underpin capital commitments through the addition of one or more of the following provisions:

Take or Pay: Take or pay arrangements are designed to ensure AmalgamationCo recovers its invested capital in a relatively short period of time. This is achieved by producers providing minimum volume or capital recovery commitments to AmalgamationCo. With minimum volume commitments the producer must process a specified volume at a rate per mcf over a specified period of time or pay any revenue shortfall. With capital recovery commitments the sum of the processing revenues must provide AmalgamationCo with a return on and of capital within a specified period or the producer pays the shortfall.

Capital and Operating Cost Recovery: The producer pays two distinct fees to AmalgamationCo, one to provide a return of and on capital and the other to cover AmalgamationCo's operating costs.

Area of Mutual Interest: These contract terms ensure any production brought on stream in a specified area must flow to an AmalgamationCo facility. When AmalgamationCo acquires or expands a new or existing facility, it generally secures projected future natural gas throughput by contractually committing the vendor of the facility to dedicate any production from specified reserves or future areas of development surrounding the facility. When AmalgamationCo acquires a facility the vendor is typically the largest producer utilizing that facility. As a result, AmalgamationCo is usually entitled to gather and process the majority of the natural gas production associated with the facilities it acquires as a result of its reserve dedication contracts.

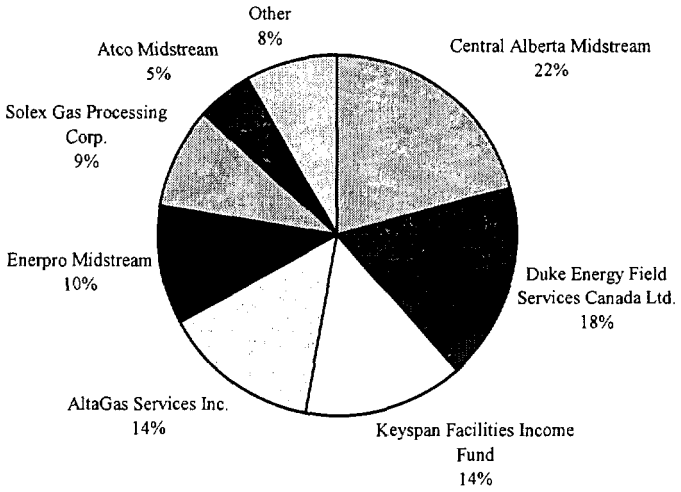
Geographic Franchise with Economic Out: Contract provisions allow AmalgamationCo to terminate or renegotiate a contract if it is not economical to continue processing.

Length of Term

Where natural gas reserves have been dedicated under contract, the contract normally extends beyond one year and up to the life of the reserves depending on the amount of capital invested by AmalgamationCo in the facility. Where reserves have not been dedicated under contract or AmalgamationCo has not made a significant capital investment, the contracts are normally subject to termination by either party upon one to three months notice. Typically producing wells remain connected to a gathering and processing system for their entire productive lives, as the additional economic investment required to direct production elsewhere is usually not economical.

Type of Service

In general, producers have access to either firm service or interruptible service. Firm service offers producers priority to have their natural gas processed at the applicable AmalgamationCo facility subject to normal course maintenance and force majeure. Interruptible service is available only if the applicable facility has capacity available after all firm service commitments with respect to such facility have been satisfied. Firm service is normally provided to a producer when the producer's natural gas reserves have been dedicated to an AmalgamationCo facility.



Field Gathering and Processing - Operating and Maintenance Expenses

Operating and maintenance costs for gathering and processing facilities generally include: (i) labour costs for operators; (ii) materials consumed in processing or maintenance, including chemicals and lubricants; (iii) land lease costs; (iv) property taxes; (v) fuel and power costs; and (vi) other overhead costs. For the plants operated by AmalgamationCo, the most significant costs are labour, utilities, property taxes and repair and maintenance.

Field Gathering and Processing – Competition

Midstream companies currently provide a small portion of the midstream field processing function in Canada. AmalgamationCo estimates that on a net capacity basis, approximately 15% to 20% of the total estimated field processing capacity in western Canada is owned by midstream companies. AmalgamationCo competes with other midstream companies operating in the Western Canadian Sedimentary Basin, including Central Alberta Midstream, Duke Energy Field Services Canada Ltd., Keyspan Facilities Income Fund, EnerPro Midstream, Solex Gas Processing Corp. and ATCO Midstream. The remaining gathering and processing generally continues to be provided by the upstream natural gas exploration and production companies.

Field Gathering and Processing Competition

Note: Based on net processing capacity in the Western Canadian Sedimentary Basin as of December 31, 2003, and excludes National Energy Board regulated plants.

The midstream industry continues to evolve and the competitive environment also continues to change. AmalgamationCo believes that with its proven field gathering and processing strategies and business attributes it will continue to effectively compete in the midstream market place. AmalgamationCo also believes that its operational skills and market coverage make it an excellent business partner for many exploration and production companies.

Field Gathering and Processing - Third-Party Facility Operations

AmalgamationCo provides well operating and common stream operator services to producers on a contract basis. Well operating services are offered to owners of wells connected to AmalgamationCo operated facilities on a fee-for-service basis. At December 31, 2003 AmalgamationCo operated 1,051 producing wells, up from 975 producing wells operated at December 31, 2002. The primary responsibility of a common stream operator is to balance the daily combined flow of natural gas through a particular common carrier pipeline receipt station by allocating the producer's production among the various shippers of natural gas. AmalgamationCo believes that additional opportunities to provide these services will arise as AmalgamationCo completes new tie-ins and expands and acquires facilities.

Extraction

AmalgamationCo owns extraction plant capacity through its interests in the ATCO and EnCana operated extraction plants at Empress, Alberta and the Taylor operated extraction plant at Joffre, Alberta. AmalgamationCo's working interest in these extraction assets provide stable fixed fee or cost of service type revenues and margin-based revenues. Also included in extraction is AmalgamationCo's Bantry field fractionation facility. Fractionation services at Bantry are provided on a rate per M^3 of product processed. Investment in extraction and field fractionation plants as at December 31, 2003 was approximately $53.0 million.

Extraction – Business Description

NGLs generally have greater value if extracted in liquid form and additional NGL recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field plants or at large extraction plants where economies of scale are realized. Although there are in excess of 700 field plants in western Canada which recover NGLs, ten extraction plants currently extract approximately 40% of all of the propane and butane and approximately 70% of ethane produced within the region. Nine of the plants are located in Alberta and process the vast majority of the natural gas exported from Alberta. Large extraction plants are located along major high volume pipeline transmission systems which transport natural gas to end-markets. Extraction plants "straddle" these transmission systems so that sufficient volumes of residual ethane and NGLs in the natural gas stream can be recovered to provide an acceptable rate of return on capital.

After extraction, NGLs must be fractionated into their constituent components of propane, butane and pentanes-plus. Some NGLs are fractionated at Empress, Alberta, or in the field, such as at AmalgamationCo's Bantry facility. However, most NGLs from field and extraction plants are shipped to Fort Saskatchewan, Alberta; Sarnia, Ontario; or Marysville, Michigan for fractionation. Propane, butane and pentanes-plus are used directly as energy products and as feedstocks for the petrochemical and crude oil refining industries.

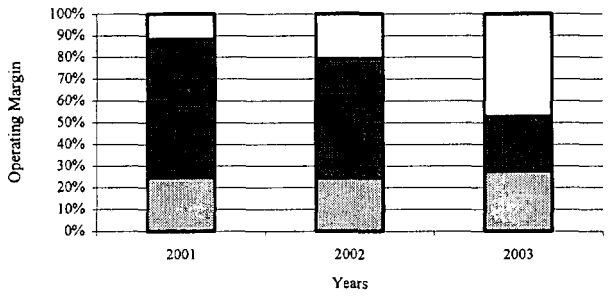
The economics of NGL extraction are a function of the difference between the premium value of the ethane, propane, butane and condensate as separate marketable commodities compared to their value as constituents of the natural gas stream. If the components are not extracted, they are sold as natural gas for their heating value at the prevailing natural gas price. As NGLs, the components are sold at higher prices that reflect the premium value of each of the individual commodities.

When an extraction plant has more than one owner, the operator manages the facility according to the terms and conditions of an agreement that covers the construction, ownership and operation of the plant ("**CO&O Agreement**"). CO&O Agreements describe, among other things, the voting procedures and other mechanisms governing operating and capital expenditure decisions, processing rights, supply obligations and other aspects of

facility operations. A CO&O Agreement may also empower the operator to negotiate extraction rights and enter into ethane and NGL sales arrangements on behalf of all co-owners in the facilities. AmalgamationCo has directly negotiated extraction rights and ethane and NGL sales arrangements for the majority of its net processing capacity and net production. AmalgamationCo also regularly attends the operating committee meetings for those extraction plants where it owns a working interest.

Extraction assets are long life assets. AmalgamationCo estimates that the average remaining life of its extraction facilities is in excess of 20 years, which is based on large regional natural gas supply and demand.

Extraction - Plant Fee Structures



Extraction facility owners have the right to extract liquids from the natural gas stream, either directly as the owner of the gas, or through gas extraction agreements. The typical commercial arrangement involves the ethane and NGL extraction plant owner contracting with shippers on a gas transmission system for the right to extract the ethane and NGLs from the shipper's natural gas. By removing ethane and NGLs, the extraction plant is, in effect, extracting or shrinking a portion of the energy contained in the shipper's natural gas. The extraction plant owner pays the shipper for the extracted energy or alternatively purchases a sufficient volume of natural gas from the market to replace the extracted energy thereby keeping the shipper whole. This purchased gas is referred to as shrinkage make-up. Extraction contract terms may be for firm or interruptible processing, and may vary from monthly to multi-year in length. Currently the majority of AmalgamationCo's extraction agreements are multi-year term arrangements.

All of AmalgamationCo's net share of ethane production is sold through long term cost of service or fixed fee arrangements. The sales price received under these contracts provides for a return on and of capital and the recovery of certain operating costs, including shrinkage make-up attributable to that production. AmalgamationCo's share of ethane production is sold at the outlet of the plants, with the purchaser responsible for all downstream transportation and handling.

NGLs can be sold under a variety of arrangements. Approximately 50% of AmalgamationCo's net NGLs production is sold under long term fixed fee arrangements. These volumes do not bear any commodity price risk. The revenue from these NGL sales and the ethane sales provides a stable, predictable cash flow base.

Approximately 40% of AmalgamationCo's NGLs production is sold under short term contracts. The margins received on these volumes are subject to the spread between the price received for the NGLs extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs. The remaining 10% is sold under a profit and loss arrangement. If commodity prices or operating costs make NGLs extraction uneconomic, the NGLs may be reinjected or the facilities may be turned down or shut in. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGL prices and crude oil prices. As crude prices fall, NGL prices will generally decrease subject to other factors that influence supply and demand.

The following diagram shows the operating margin based on type of extraction contract.

Extraction – Plant – Production

Extraction production is a function of natural gas volume processed, natural gas composition, recovery efficiency of the extraction plant and plant on line time. The following table represents a summary of the net capacity and production associated with extraction and fractionation plants in which AmalgamationCo holds an interest.

Extraction or Fractionation Plant	Interest (percent)	Net Inlet Processing Capacity at Dec 31, 2003 (Mmcf/d)		Liquids Production 2003 (Bbls/d)[1]	Liquids Production 2002 (Bbls/d)[1]
Empress ATCO	7.2	79	NGLs mix	611	592
			Ethane	668	620
Empress EnCana	10	120	NGLs mix	1,162	1,190
			Ethane	2,105	926
Joffre[2]	50	125	NGLs mix	634	75
			Ethane	2,609	0
Bantry	100	25	NGLs	393	399
Total		349	NGLs mix	2,800	2,256
			Ethane	5,382	1,546

Notes:

(1) Average volumes for the fourth quarter.
(2) Joffre became operational on December 18, 2002.

AmalgamationCo's net extraction and field fractionation plant annual average production since 2001 is as follows:

	2003	2002	2001
NGLs (Bbls/d)	2,504	1,974	1,555
Ethane (Bbls/d)	4,056	1,425	1,063
Total	6,560	3,399	2,618

Extraction - Empress ATCO Extraction Plant

At December 31, 2003 AmalgamationCo's ownership interest in the Empress ATCO extraction plant located in southeast Alberta on the Alberta Saskatchewan border was approximately 7.2%. The remaining interest in the facility is held by nine other owners with varying interests. AmalgamationCo's ownership corresponds to a 79 Mmcf/d share of the plant's 1,100 Mmcf/d inlet capacity. AmalgamationCo has contracted approximately 60 Mmcf/d of supply to fill its portion of the plant's capacity under long term contracts, of which 35 Mmcf/d expires mid-2004, with the remainder being supplied through short term arrangements. AmalgamationCo is currently pursuing alternatives to replace the expiring supply contract. The terms and conditions of any replacement agreement may be more or less favourable than those of the expiring contract. As there are five other extraction plants in the Empress area, there is considerable competition for these extraction rights. If AmalgamationCo is not successful in replacing this supply, the Empress ATCO plant may be turned down to reduce fixed operating costs, minimizing the downside associated with this risk.

The five-year ethane sales contract for AmalgamationCo's share of Empress ATCO ethane production expired December 31, 2003. Until negotiations for the replacement supply contract are finalized, AmalgamationCo's net ethane production is being sold under a month-to-month cost plus sales arrangement.

Approximately 65% of AmalgamationCo's share of NGLs production at Empress ATCO is sold under one-year evergreen marketing arrangements at the monthly market price for NGLs. The remaining 35% of AmalgamationCo's share of NGL production is sold under a long term profit and loss arrangement where revenues vary with product pricing.

Extraction - Empress EnCana Extraction Plant

Effective April 1, 1998 AmalgamationCo acquired a 10% interest in the Empress EnCana extraction plant. The other owners are EnCana (70%) and Devon Canada Corporation (10%) and Husky Oil Operations Limited (10%). The Empress EnCana extraction plant is located two kms southeast of the Empress ATCO extraction plant and began operations in September 1996. The plant was licensed to process 1,200 Mmcf/d of natural gas of which 120 Mmcf/d is AmalgamationCo's net share. Ethane recovery capability was added to the Empress EnCana extraction plant in the first quarter of 1999 and in the third quarter of 2003 modifications were completed to increase ethane production capability. AmalgamationCo invested $5.5 million, plus interest during construction, in its net share of the expansion and has seen net ethane production increase by approximately 1,200 Bbls/d.

AmalgamationCo has managed its gas supply risk at this facility by securing up to 120 Mmcf/d of natural gas throughput on a long term basis.

Prior to completion of the 2003 modifications made to increase the ethane production capability, AmalgamationCo's net share of ethane production was sold under a long term cost plus arrangement. This agreement was re-negotiated in conjunction with the expansion and AmalgamationCo currently sells its share of Empress EnCana ethane production under a cost of service type contract which also provides for the recovery of certain operating costs.

Approximately 90% of AmalgamationCo's net share of NGLs production generates fixed fee revenue plus reimbursement of associated operating costs, under a long term processing arrangement. The remainder is sold under a one-year evergreen marketing arrangement at the monthly market price for NGLs.

Extraction - Joffre Ethane Extraction Plant

AmalgamationCo and Taylor each own 50% of the ethane extraction plant at Joffre, Alberta. The plant, which was constructed during 2002 at a net cost to AmalgamationCo of $24.8 million, started operations in December 2002. AmalgamationCo's share of processing capacity is 125 Mmcf/d of natural gas and is capable of producing up to 5,200 barrels per day of ethane and NGLs. Taylor is operator of the facility.

The Joffre Plant is adjacent to NOVA Chemicals Corporation's ("**Nova**") Joffre petrochemical complex and recovers ethane and NGLs from the fuel gas used at the complex. All ethane production from the Joffre Plant is sold under a cost of service type contract with Nova which expires in 2031. Under this ethane sales agreement, a portion of the operating cost risk is borne by AmalgamationCo and Taylor. This portion is a function of the ratio of NGL production to total plant production. If operating costs increase or the ratio of ethane to total NGLs production falls, then the cost to AmalgamationCo and Taylor increase. AmalgamationCo and Taylor each market their respective 50% share of the NGLs production from the facility. AmalgamationCo sells its net share of NGLs production under a one-year evergreen marketing agreement at the monthly average market price for NGLs.

The Joffre Plant is physically configured such that NGLs production can easily be matched to market demand. This ability to step in and out of the NGLs market depending on NGLs pricing allows AmalgamationCo and Taylor to fully participate in the market when NGL prices are strong, while minimizing exposure during times of unfavourable pricing.

Extraction - Bantry Field Fractionation Facility

AmalgamationCo purchased the Bantry natural gas processing plant in May 2000 and expanded it in 2001 (see "*Information Concerning AmalgamationCo – Description of the Business – Gathering and Processing – Field Gathering and Processing – Facilities*"). The plant is equipped with fractionation facilities capable of producing up to 400 Bbls/d of specification propane, butane and pentanes-plus for sale to local markets.

Extraction - Competition

Currently there are six extraction plants in the Empress area. This results in significant competition for natural gas supply. In December, 2000 the Alliance Pipeline was placed into service which resulted in the reduction of gas flows past the Empress extraction complex by as much as 15%. AmalgamationCo is largely insulated from this natural gas supply competition through its long term natural gas supply contracts. Although there is the potential that a "richer" stream of gas supply could be directed to the Alliance Pipeline, which may result in a lower percentage of ethane and NGLs in the gas stream delivered to Empress, this has not been the case to date.

Transmission

Transmission pipelines represent a growing opportunity for AmalgamationCo. Transmission pipelines create footholds in new areas and market opportunities with exploration and production companies. AmalgamationCo entered the transmission business in 1998 and has acquired or constructed several transmission pipelines since that time.

The Suffield System which consists of two natural gas pipelines at Suffield, Alberta, is the largest contributor to AmalgamationCo's transmission revenues. AmalgamationCo acquired the Suffield System from subsidiaries of EnCana for approximately $95.0 million on December 19, 2002. The Suffield System, located in southeastern Alberta, transports natural gas produced on and around the Suffield military block to the TransCanada Transmission Canadian mainline at Burstall, Saskatchewan. Constructed by EnCana between 1998 and 2001, the Suffield System is regulated by the National Energy Board and rates on the system are based on a market-based tolling methodology. The two pipelines each have 200 Mmcf/d of transmission capacity. The south Suffield pipeline is a 147 km pipeline of 6 to 16 inch diameter pipe. The north Suffield pipeline is 96 km of 16-inch diameter pipe. The majority of the Suffield System's capacity is currently contracted by EnCana through transport or pay and volume commitments which will expire in 2022 and be renewable for one year periods thereafter. Volume commitments will increase annually from approximately 340,000 GJ/d in 2004 to approximately 400,000 GJ/d in 2010 and declining thereafter. AmalgamationCo sees an expanded transportation role for the Suffield System and will work with potential shippers to develop transportation opportunities to maximize the system's capabilities.

In June 2002, AmalgamationCo reclassified certain pipeline segments in the Cold Lake operating area in northeastern Alberta from gathering to transmission pipelines to align with the Alberta Department of Energy's new petroleum registry system implemented on November 1, 2002. The reclassified pipeline segments were combined with the Whitney Lake pipeline to create the ASI Cold Lake natural gas transmission system. AmalgamationCo

owns and operates the ASI Cold Lake natural gas transmission system which interconnects with TransCanada's Nova Gas Transmission Limited system and the TransGas Limited system, and consists of 36 receipt points and 39 delivery points (including five pipeline interconnects).

The ASI Cold Lake and Summerdale pipelines provide AmalgamationCo's gas services team with marketing and exchange opportunities as the pipelines are connected to major downstream pipeline systems that allow AmalgamationCo's customers to access Alberta and Saskatchewan markets.

The Kahntah pipeline is regulated by the National Energy Board on a complaints basis. The entire capacity of that system is contracted until 2005. The Porcupine pipeline is a single shipper pipeline with contract expiry in 2006. Both systems are integral in the delivery of their respective products to market and new contracts are expected to be negotiated prior to expiration.

AmalgamationCo provides transportation on its transmission lines through cost of service type fee structures with the exception of the Suffield and Kahntah pipelines which are take or pay arrangements.

The following table provides a summary of the gross capacity of AmalgamationCo's transmission pipelines at December 31, 2003:

Transmission Pipeline	Product	Area	Design Capacity	Operating Capacity	Throughput[1]	Length (km)
Kahntah	Natural Gas	NE BC	95 Mmcf/d	35 Mmcf/d	3 Mmcf/d	55
Suffield	Natural Gas	SE Alta	400 Mmcf/d	400 Mmcf/d	324 Mmcf/d	243
Summerdale	Natural Gas	Central Alta	24 Mmcf/d	24 Mmcf/d	18 Mmcf/d	18
ASI Cold Lake	Natural Gas	East Central Alta	80 Mmcf/d	80 Mmcf/d	56 Mmcf/d	253
Battle Lake	Natural Gas	Central Alta	15 Mmcf/d	15 Mmcf/d	2 Mmcf/d	16
Porcupine Hills	Condensate	SW Alta	11,600 Bbls/d	11,600 Bbls/d	3,947 Bbls/d	164

Note:

(1) Represents 2003 fourth quarter average.

Other

AmalgamationCo makes modest investments in industry service companies when AmalgamationCo considers it to be prudent and if there is an opportunity to enhance AmalgamationCo's existing business activities. At December 31, 2003, AmalgamationCo's investment in public and private companies was $20.2 million.

During 2003, AmalgamationCo acquired 19.2% of Taylor, whose business is the ownership and operatorship of facilities in the midstream sector of the western Canadian natural gas industry. On April 23, 2003 AmalgamationCo acquired 1,872,735 of Taylor's outstanding limited partnership units for $9.4 million and on October 17, 2003, AmalgamationCo purchased an additional 1,592,250 limited partnership units for approximately $8.7 million. AmalgamationCo and Taylor, which each own a 50% interest in the Joffre ethane extraction plant, expect to benefit over the longer term from this relationship by capturing mutually beneficial growth opportunities.

Energy Services

Energy Services includes power services, natural gas services and oil and natural gas production.

Power Services

AmalgamationCo supplies 453 MW of power to markets through power purchase based arrangements including a 50% ownership interest in the Sundance B PPA and the Genesee Energy Contract. AmalgamationCo's 453 MW of power represents approximately 4% of Alberta's power capacity at December 31, 2003.

PPAs were established in 1999 under Alberta's program of power industry deregulation. Alberta is currently the only province providing this opportunity. PPAs, which in form resemble contracts, were created to separate ownership of the physical power generation assets from ownership of their output.

Power Services - Sundance B Power Purchase Arrangement

On December 28, 2001 AmalgamationCo acquired a 50% interest in the Sundance B PPA through the ASTC Power Partnership. The 50% interest in the Sundance B PPA provides AmalgamationCo with the rights to 353 MW of power generation capacity, energy and ancillary services from the coal fired Sundance B plant until December 31, 2020.

The ASTC Power Partnership

AmalgamationCo and TransCanada Energy form the ASTC Power Partnership. Each partner owns a 50% share and contributed 50% of the approximately $220.0 million Canadian required to purchase the Sundance B PPA from Enron Canada Power Corporation ("**ECPC**"). ECPC originally purchased the Sundance B PPA for $294.8 million Canadian at an auction arranged by the government of the Province of Alberta on August 24, 2000.

ASTC Power Partnership started dispatching power effective December 29, 2001. AmalgamationCo maintains the books and records of the partnership, including providing the accounting services. TransCanada, an experienced PPA owner and manager, having purchased the Sundance A PPA in August 2000, manages the Sundance B PPA daily operations including the dispatch of power into the Power Pool. Each of the partners is responsible for managing its own market risk associated with its acquired power generation capacity.

The Sundance B Plant

TransAlta Corporation owns the Sundance B plant which is located approximately 70 kms west of Edmonton, Alberta, and has been operating since 1976 (Unit 3) and 1977 (Unit 4). The Sundance complex consists of Units 1 through 6. An auction conducted on August 24, 2000 grouped the Units into three plants:

- Sundance A Plant - Units 1 and 2
- Sundance B Plant - Units 3 and 4
- Sundance C Plant - Units 5 and 6

A separate PPA was created and auctioned for each of the above plants. TransCanada owns the PPA for Sundance A, and EPCOR Utilities Inc., owned by the City of Edmonton, owns the Sundance C PPA. The Sundance complex is connected to the Alberta Interconnected Electric System, allowing access to markets in Alberta, B.C., Saskatchewan and the United States.

The Sundance B PPA is divided into two PPAs, Unit 3 and Unit 4, one for each of the two units, comprising the Sundance B plant. ASTC Power Partnership holds the Sundance B PPA as partnership property, with both partners having an equal interest in each PPA.

The Sundance B Plant – Power Sales

Revenue from the sale of power is largely driven by megawatt hours of production and by Alberta Power Pool prices ("**Pool prices**"). The relationship between production, Pool prices, and cost of sales is complex.

All of the power produced in Alberta is currently sold into the Power Pool of Alberta (the "**Pool**"). The Pool operates an open market for the exchange of electricity. The Pool establishes the power price based on power offers from Pool participants utilizing a uniform pricing model whereby the marginal unit establishes the price for all generators. Pool schedulers sort the offers, by price, into a stacked merit order beginning with the lowest cost producer thereby defining a supply curve for each hour. By matching energy supply with demand, the Pool establishes a uniform hourly market price, which is published on the Pool's website. In Alberta, coal fired electrical generation is generally produced at a lower cost than gas fired electrical generation.

Under the Sundance B PPA, ASTC Power Partnership holds the rights to the power capacity, energy and ancillary services from Units 3 and 4 of the Sundance B plant. Day to day operation of the Sundance B PPA requires ASTC Power Partnership to communicate the volume of power available and the price of the power to TransAlta and to sell that power as it becomes available. ASTC Power Partnership is obligated to pay TransAlta a price which covers TransAlta's capital and operating costs as determined by mechanisms in the Sundance B PPA and provides TransAlta with a reasonable profit. The majority of ASTC Power Partnership's cost of sales are the relatively fixed costs paid to TransAlta and the variable costs of transmission and Pool trading charges.

Each of Units 3 and 4 has a nameplate capacity of 353 MWs. The Sundance B PPA recognizes that the plant will not produce at 100% capacity all of the time. TransAlta is obligated to provide AmalgamationCo financial compensation to a stated target availability level regardless of actual generation of electricity from the Sundance B plant. This is accomplished by a financial payment based on the difference of the actual availability below the target availability level multiplied by the Rolling 30-Day Average Pool Price ("**RAPP**"). During these under-generation periods AmalgamationCo has financial exposure on the difference between the Alberta spot price and RAPP on its fixed for floating swap position. The exposure is minimized through the diversification offered by the two units at each of the Sundance B and Genesee plants, unit contingent hedges, basis swaps, and replacement power purchases.

TransAlta is an experienced operator of coal-fired electrical generation facilities and has financial incentives to operate the Sundance B plant efficiently and at high levels of electricity generation. The plant uses coal from the adjacent Highvale Mine which has sufficient reserves for the expected fuel requirements of the Sundance B plant beyond the life of the Sundance B PPA.

Power Services - Genesee Energy Contract

On March 18, 2003 AmalgamationCo announced it was a successful bidder for 100 MW of power capacity in the Alberta government's third phase of the Market Achievement Plan II auction. Accordingly, AmalgamationCo entered into the Genesee Energy Contract with the BPA for the right to 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee plant located southwest of Edmonton, Alberta for a three year term commencing April 1, 2003. The 100 MW of power capacity is a portion of the capacity at the Genesee plant to which the BPA has rights pursuant to a PPA. The Genesee plant is a coal fired facility consisting of two independent units.

The Genesee Energy Contract required no capital outlay by AmalgamationCo, but instead requires AmalgamationCo to pay a competitively priced fixed monthly capacity charge for the power capacity. Other costs associated with the contract include a monthly energy payment and incentive payment, transmission and Pool trading charges. Power from the Genesee Energy Contract is sold in the same manner as the Sundance B PPA to provide stable and predictable earnings and cash flow.

Power Services - Risk Mitigation

The main risk faced by AmalgamationCo in the power business is the fluctuations in the margin between power revenues and the cost for power. This is generally created through changes in power prices, increases in operating costs, changes in transmission rates and reductions in power available for sale, mainly due to outage and force majeure events.

AmalgamationCo does not engage in speculative trading of power. AmalgamationCo manages its acquired power capacity to provide stable, predictable earnings and cash flow over time. AmalgamationCo reduces its exposure to floating electricity prices by supplying AmalgamationCo's internal electrical demand requirements and

by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. AmalgamationCo's hedging strategy targets the optimal balance between operating margin certainty and operational flexibility.

During 2003, the average monthly Pool price ranged from a low of $43.63 per MWh in September to a high of $89.80 per MWh in March. The average all hours Pool price for 2003 was $62.98/MWh compared to $43.85 per MWh for 2002. The average sales price received by AmalgamationCo for 2003 was $47.03 per MWh compared to $41.27 per MW during 2002. AmalgamationCo has sold a substantial portion of its power forward for 2004. Pool prices are primarily driven by industrial and residential demand and a changing portfolio of supply.

The following chart provides a summary of power prices and volumes for the two years AmalgamationCo has been in the power business.

	Year ended December 31, 2003	Year ended December 31, 2002
Volume of power sold (thousands of MWh)	3,266	2,669
Average price received on the sale of power ($/MWh) [1]	47.03	41.27
Alberta Power Pool average spot price ($/MWh) [1]	62.98	43.85

[1] Average for the period.

Both the Sundance B and Genesee plants are made up of two units that are physically independent of each other. AmalgamationCo's supply portfolio is enhanced with its four independent supply sources as it is unusual that all units would experience reduction in production or would be shut down at the same time whether for planned maintenance or otherwise.

In the event of any force majeure related to the Sundance B PPA, AmalgamationCo is entitled to a termination payment from the BPA equal to its portion of the net present value of the amortized Sundance B PPA purchase price to that date. With respect to a force majeure event on the Genesee Energy Contract, AmalgamationCo may elect to terminate the contract upon paying three monthly capacity charges or alternatively can continue to suspend payment and revenues from the specific Genesee unit. AmalgamationCo has further minimized the risk of a force majeure event to a particular unit by diversifying its supply over four units, entering into unit contingent hedges, and executing independent backstopping arrangements to supply electricity in the event of a force majeure.

Power Services - Competition

AmalgamationCo does not sell retail power and targets customers with a minimum baseload requirement of two MWh. The Sundance B PPA and Genesee plants are two of the lowest-cost power producers in their market and lowest in the dispatch merit order. AmalgamationCo expects most new supply to come from natural gas-generated power, which is not expected to be less costly than power generated through its PPA based arrangements.

Gas Services

AmalgamationCo's focus is to efficiently manage and market natural gas processed through its field gathering and processing, transmission and extraction facilities. AmalgamationCo also markets gas for a supply pool of producers, and purchases gas for AltaGas Utilities and a select group of industrial users.

There is minimal capital required to operate AmalgamationCo's gas services business. AmalgamationCo generally does not take on commodity price risk in connection with its marketing business and has implemented rigorous risk management processes and systems to carefully monitor and manage its Gas Services business.

Gas Services - Natural Gas Marketing and Supply Management

AmalgamationCo markets natural gas from a supply from deliveries of natural gas processed at AmalgamationCo's facilities and from other clients with natural gas supply unassociated with AmalgamationCo's

facilities. AmalgamationCo markets natural gas under both short term and long term contracts, with the principal objective of providing a diversified portfolio of market contracts to both producers and end-users.

Natural gas marketing services are primarily fee or margin based, with revenue increases closely tracked by increases in costs to purchase the commodity. As a result, commodity price swings have minimal impact on AmalgamationCo's natural gas marketing operating cash flows. Marketing sales are generally made on a "netback" basis where AmalgamationCo earns a fee based on the gross sales less amounts paid by AmalgamationCo, including pipeline tariffs and fuel costs. AmalgamationCo does not speculate on the commodity price of natural gas on its own behalf or on behalf of its customers.

Inherent in normal marketing activities is the risk that a purchaser does not pay for the commodity delivered or a supplier does not deliver volumes contracted for purchase by AmalgamationCo. AmalgamationCo minimizes this risk by conducting credit reviews on clients and by structuring contracts to provide for either set-offs of monies owing against other payables or by putting in place other security arrangements when required in accordance with its risk management policies.

In 1999, AmalgamationCo assumed the gas management responsibilities for AltaGas Utilities. This contract, which provides for a monthly fee-for-service plus the reimbursement of all third party costs and extraordinary costs incurred by AmalgamationCo, establishes AmalgamationCo as the exclusive supply manager in respect of all matters relating to AltaGas Utilities' natural gas supply requirements. In 2002, AmalgamationCo took on gas management responsibilities for the Joffre ethane extraction plant.

AmalgamationCo also markets or exchanges all of the volumes that flow through its ASI Cold Lake and Summerdale pipeline systems. In a gas exchange transaction AmalgamationCo buys natural gas on the TransCanada system to "pay back" clients whose natural gas AmalgamationCo has physically delivered to customers on an AmalgamationCo system. By purchasing or exchanging gas on these pipeline systems and at other facilities, AmalgamationCo has been successful in achieving positive margins for AmalgamationCo while providing improved netbacks for its producers. Net revenues from such marketing and gas exchange opportunities are derived from low-risk opportunities based on transportation cost differentials between pipeline systems.

AmalgamationCo has also historically provided pipeline transportation capacity mitigation services whereby it saved customers money by conducting transactions that mitigate the cost associated with excess pipeline transportation commitments. While AmalgamationCo no longer derives a material amount of margin from transportation capacity mitigation, it does often manage the third party pipeline transportation requirements of its gas marketing customers under contractual arrangements whereby it is indemnified for all risks and obligations relating to the customer's transportation contracts. In addition, AmalgamationCo has contracted for a nominal amount of firm receipt capacity on TransCanada's Alberta system with terms varying between one and five years which it uses to offset producer client deliveries using higher-priced interruptible service. These differentials are retained by AmalgamationCo.

Gas Services - Customers

AmalgamationCo buys natural gas from approximately 90 customers and sells natural gas to approximately 45 customers, with no customer representing 10% or more of consolidated revenues during 2003 or 2002. In 2003, AmalgamationCo marketed 180 Mmcf/d on average of natural gas.

Gas Services - Competition

In the natural gas marketing business, AmalgamationCo's competitors range from single-person operations to large marketing and aggregation companies. Prior to 2002, many large energy marketers competed for very thin margins with success achieved by providing a wide range of "value-added" energy services and by trading large volumes. As a result of recent changes in the industry, the primary source of competition is now the marketing arms of large oil and gas producers as well as a few creditworthy energy utilities.

AmalgamationCo competes in this environment by focussing on marketing natural gas produced at its gathering and processing facilities, as well as the gas of smaller natural gas producers whose needs cannot be met by larger marketers who have difficulty providing personal service to smaller clients.

AmalgamationCo's gathering and processing and gas services operations are highly inter-related. Past experience indicates that AmalgamationCo's facilities assets and the areas in which they are located provide considerable opportunity to increase AmalgamationCo's gas services client base. AmalgamationCo also expects that additional opportunities to provide services will arise as AmalgamationCo completes new tie-ins and expands and acquires facilities.

Oil and Natural Gas Production

AmalgamationCo is not in the business of exploration and development of natural gas reserves as AmalgamationCo does not want to compete with producers flowing natural gas through AmalgamationCo's gathering and processing systems. However, in connection with larger acquisition transactions that included gathering and processing facilities, AmalgamationCo has accumulated a portfolio of oil and natural gas production and shares of small oil and gas production companies. AmalgamationCo continues to hold and produce some of the production to act as natural hedges to business activities such as shrinkage make-up at extraction plants, and natural gas marketing related risks including credit risk. At December 31, 2003 AmalgamationCo's capital investment in oil and natural gas production was $28.0 million. Oil and natural gas production represented less than 3% of AmalgationCo's total operating margin in 2003.

Natural Gas Distribution

AmalgamationCo operates a natural gas distribution business through its indirect wholly-owned subsidiary, AltaGas Utilities, its one-third interest in Inuvik Gas and its 24.9% interest in Heritage Gas. AmalgamationCo's Natural Gas Distribution business segment contributed net revenues of $30.5 million for the year ended December 31, 2003 which was approximately 13.9% of total net revenues.

Natural Gas Distribution - AltaGas Utilities Inc.

The AltaGas Utilities acquisition, effective June 30, 1998 included the purchase of AltaGas Utilities for $62.5 million plus $45.3 million of assumed AltaGas Utilities debt. At December 31, 2003 AltaGas Utilities served approximately 59,500 customers, representing approximately 6% of the Alberta natural gas distribution market.

AltaGas Utilities' head office is located in Leduc, Alberta. Operating since 1947, AltaGas Utilities delivers natural gas to residential, farm and small commercial customers in more than 90 communities and surrounding rural areas throughout Alberta including Athabasca, Barrhead, Bonnyville, Drumheller, Elk Point, Grande Cache, Hanna, High Level, Leduc, Morinville, Pincher Creek, St. Paul, Stettler, Three Hills and Westlock. During 2003, AltaGas Utilities delivered approximately 23.5 Bcf through its system.

AltaGas Utilities, like all Canadian natural gas distribution companies, is provincially regulated as to natural gas tariffs for sales and transportation. AltaGas Utilities is regulated by the AEUB which exercises statutory authority over matters such as rate base, rate of return on common equity, the common equity component of the rate base and natural gas cost recovery rates. Rate base generally consists of the aggregate of a utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Net rate base excludes "no-cost capital", which are unamortized contributions and grants from governments and certain customers. AltaGas Utilities' gross rate base was $140.4 million in 2003 compared to $137.1 million in 2002 and net rate base was $88.2 million for 2003 compared to $85.7 million in 2002. The increase in rate base is due to an increase in net plant in service offset, in part, by a decline in required working capital.

On June 27, 2003 AltaGas Utilities filed a 2003/2004 General Rate Application with the AEUB proposing a negotiated settlement process for Phase 1 of this proceeding. In Phase 1 proceedings the revenue requirements of the company are determined, while Phase 2 proceedings determine the rates that will be charged to each customer class. On July 29, 2003 the AEUB approved the commencement of negotiations with respect to all components of

revenue requirement except the 2004 capital structure and rate of return on common equity which will be determined through a Generic Cost of Capital Proceeding. The negotiated settlement process was concluded in early 2004 with an agreement with the customer representatives and, subject to AEUB approval, AltaGas Utilities will be allowed to recover a return on equity of 9.5% on an equity component of 41% for the year 2003. The public hearing portion of the Generic Cost of Capital Proceeding was completed on January 16, 2004, reply argument from all parties is scheduled to be filed by April 5, 2004 and a decision is expected by the end of June 2004.

On April 12, 2002 the AEUB issued a decision on AltaGas Utilities' general rate application for 2000/2002. The AEUB set AltaGas Utilities' allowed rate of return on common equity for 2002 at 9.7%. The proportion of the net rate base and the gross rate base deemed to be financed by common equity was left unchanged at 41% and 25% respectively. In the Generic Cost of Capital proceeding AltaGas Utilities has requested a rate of return on common equity of 11.5% and a capital structure comprised of 45% equity and 55% debt. In November 2002 AltaGas Utilities filed the Phase 2 of its 2000/2002 general rate application with the AEUB. In 2003 this proceeding was discontinued on the basis that all Phase 2 matters would be carried forward to the 2003/2004 proceedings.

The natural gas distribution business is highly seasonal with the majority of natural gas demand occurring during the winter heating season which extends from mid-October to mid-April. Natural gas sales during the winter typically account for approximately two-thirds of annual natural gas distribution revenue resulting in strong first and fourth quarter results and second and third quarter results that show either small profits or losses.

AltaGas Utilities Inc. - Transmission and Distribution System

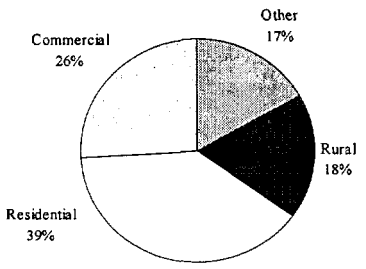
AltaGas Utilities' distribution system consists of approximately 19,300 kms of pipe, operating at pressures from 200 kilopascals to 8,755 kilopascals. AltaGas Utilities uses steel and aluminium pipe to transport natural gas at higher pressures while natural gas at lower pressures is transported primarily by plastic pipe. There are approximately 740 small and mid-sized metering and pressure regulating stations throughout AltaGas Utilities' distribution network. AltaGas Utilities' distribution system does not require any compressors.

Substantially all of AltaGas Utilities' transmission pipelines and laterals are constructed on rights-of-way granted by the Government of Alberta or the owners of privately-held lands. The duration of these grants may be either in perpetuity, for as long as the rights-of-way are used for a pipeline or for fixed terms negotiated by AltaGas Utilities. Crossings under or over highways, railways and bridges have been constructed pursuant to orders or permits from the appropriate authorities or owners. Distribution pipelines are constructed, for the most part, under highways and streets pursuant to permits or orders from the appropriate authorities, franchise agreements entered into with municipalities and rights-of-way held directly. Major transmission and distribution related buildings of AltaGas Utilities, such as the administration, storage and maintenance buildings throughout its franchise areas, are located on freehold land owned by AltaGas Utilities.

AltaGas Utilities Inc. - Natural Gas Supply and Transportation Arrangements

AmalgamationCo assumed the management of AltaGas Utilities' natural gas supply arrangements on November 1, 1999. The majority of AltaGas Utilities' natural gas supply is purchased from natural gas producers and marketing companies. AltaGas Utilities currently buys the majority of its natural gas under monthly and peaking arrangements. AltaGas Utilities has a deferred natural gas accounting process in place whereby the customers pay the forecast cost of natural gas and differences between forecast and actual costs are either refunded to or collected from customers in a subsequent period.

AltaGas Utilities purchases the majority of its natural gas off TransCanada's Alberta system. Deliveries are made at various Alberta delivery points into the AltaGas Utilities system for delivery to its various customers. AltaGas Utilities' natural gas supply arrangements provide that TransCanada transportation charges are paid by natural gas suppliers.



AltaGas Utilities Inc. - Franchises

As of December 31, 2003 AltaGas Utilities held 72 franchises; 51 distribution franchise agreements under the *Municipal Government Act* (Alberta); one permit granted by Indian and Northern Affairs Canada ("**INAC**") and 21 rural franchise approvals under the *Gas Distribution Act* (Alberta). The distribution franchise agreements under the *Municipal Government Act* (Alberta) have terms of up to 20 years with, as at December 31, 2003, an average remaining term of 2.1 years. The majority of the distribution franchise agreements contain a provision to the effect that if the municipality chooses not to renew the franchise, the municipality must purchase AltaGas Utilities' distribution system within the municipality. The purchase price may be set by the AEUB should the parties fail to agree. Precedents based on Supreme Court decisions indicate that the price would be the full reproduction value less loss in value of the system. While such franchise or operating agreements are in effect, some municipalities receive fees based on a percentage of either the gross or net revenue from natural gas sales in the municipality. Franchise fees are collected directly from customers as a separate item similar to a sales tax and are not included in revenues. The permit granted by INAC and a related operating agreement are currently under renegotiation. The rural franchise approvals under the *Gas Distribution Act* (Alberta) continue in perpetuity or until revoked by the Government of Alberta. Four rural franchises, covering Métis Settlements, are also subject to the terms of operating agreements which contain provisions for the settlements to acquire the distribution systems. Two Métis Settlements are currently evaluating the feasibility of acquiring the distribution systems serving their areas. These systems serve approximately 350 customers representing 0.6% of the customer base. In 2003, AltaGas Utilities was involved in negotiations with the Alberta Urban Municipalities Association to establish a standard franchise agreement. It is expected that most municipalities in Alberta will use this standard agreement when renewing franchises with natural gas distributors. AltaGas Utilities filed an application to renew the franchise for the Town of Bonnyville using the new standard agreement. A public hearing before the AEUB that was held to review the application resulted in the AEUB approving the application. Several municipalities had not renewed their franchises pending the drafting and approval of the standard franchise agreement. With the approval of the standard franchise agreement AltaGas Utilities anticipates that renewals will be negotiated. At December 31, 2003 seven franchise renewal applications had been filed for approval with the AEUB. Each of these renewals is for a ten year period.

AltaGas Utilities Inc. - Customers

AltaGas Utilities' market consists primarily of residential and small commercial customers located in smaller population centres or rural areas. Within AltaGas Utilities' current franchise areas, AltaGas Utilities has nearly achieved market saturation. Growth opportunities in these areas are tied to the general strength and growth of the local economy. New customers are added primarily as new subdivisions are developed. AltaGas Utilities expects customer growth of approximately 1.5% annually in these existing areas. New customer installations totalled 1,119 in 2003, 1,511 in 2002, 886 in 2001, 889 in 2000 and 913 in 1999.

Percent of Revenue by Customer Type

AltaGas Utilities had 3 franchise areas as shown below that each accounted for 3.9% or more of AltaGas Utilities' revenues and distribution volumes at December 31, 2003.

Area	Percentage of AltaGas Utilities' Revenues	Percentage of AltaGas Utilities' Distribution Volumes
City of Leduc	9.9	9.6
Town of Drumheller	4.5	4.3
Town of Bonnyville	4.2	3.9

AltaGas Utilities Inc. - Capital Expenditures

Approximate capital expenditures, net of customer contributions, government grants and asset disposal proceeds by AltaGas Utilities during the past five years ended December 31 are set out below:

Year	Capital Expenditures
2003	$7.5 million
2002	$8.2 million
2001	$7.0 million
2000	$4.4 million
1999	$0.8 million

AltaGas Utilities Inc. - Competition

AltaGas Utilities is a regulated natural gas distribution monopoly within its current franchise areas, but competes with distributors of other forms of energy including electricity, heating oil and heavy fuel oil. Natural gas has proven to be an economical and environmentally preferred fuel choice in recent years. Natural gas is the predominant energy form in the residential heating market throughout AltaGas Utilities' franchise areas. In 2003, the majority of AltaGas Utilities' revenues resulted from natural gas sales to the residential and commercial heating market. The primary competition to natural gas in the heating market has historically been from domestic fuel oil, propane and electricity.

AmalgamationCo expects that natural gas will continue to hold a price and environmental advantage over alternative energy sources.

Natural Gas Distribution - Inuvik Gas

Inuvik Gas is the distribution arm of the Ikhil Gas Project. This project provides the Town of Inuvik with an economical alternative energy source for power generation and commercial and residential heating. Previously, diesel brought in from Edmonton was the primary energy source for Inuvik.

Inuvik Gas obtained an exclusive franchise agreement from the Town of Inuvik to distribute and sell natural gas within the Town of Inuvik. Several of the government buildings (including public housing, schools, hospital and college) were converted to natural gas service during the initial start-up of the distribution system in the fall of 1999. Other commercial and residential buildings have subsequently been converted bringing the total number of buildings using natural gas service at December 31, 2003 to 648 from 616 at December 31, 2002. The annual average volume of natural gas distributed in 2003 was 0.8 Mmcf/d. Any future volume growth is dependent on customer conversions to natural gas and new construction projects in the Inuvik area.

Inuvik Gas is regulated by the Northwest Territories Public Utilities Board ("**NWTPUB**") and is presently exempt from full regulation as a public utility, but is subject to light-handed regulation on a complaint basis and is required to file its rates and terms and conditions of service with the NWTPUB as and when revised from time-to-time.

Enbridge and AltaGas Utilities provide engineering and administrative support respectively for Inuvik Gas.

Natural Gas Distribution - Heritage Gas

AmalgamationCo is embarking on an opportunity to take advantage of its knowledge and experience in the natural gas distribution business and to diversify AmalgamationCo's geographic operating area. On August 16, 2002, Heritage Gas, a Nova Scotia company owned by AmalgamationCo (24.9%), SaskEnergy International Inc., a subsidiary of SaskEnergy Inc. (50.1%), and Scotia Investments Limited, a private investment holding company (25.0%) filed an application for the right to distribute natural gas to certain counties in Nova Scotia. A decision was rendered by the Nova Scotia Utility and Review Board ("**NSURB**") on February 7, 2003 which granted Heritage Gas a full regulation class franchise for a period of 25 years.

In its decision the NSURB granted Heritage Gas a regulated rate of return of 13% on a 45% equity component and an 8.75% cost of debt on a 55% debt component of its capital structure. Heritage Gas accepted the distribution franchise on June 3, 2003 and since has acquired and constructed gas distribution facilities and undertaken those activities necessary to establish an operational natural gas distribution utility. On December 19, 2003 the NSURB issued to Heritage Gas an interim approval of a schedule of rates, tolls and charges and a license to operate. A full general tariff application for test years 2004 to 2008 will be filed in 2004. Heritage Gas activated its natural gas distribution system on December 20, 2003.

Subject to NSURB approval, during the first five years of operation, the weather normalized under or over recovery of the annual revenue requirement will be accumulated and either recovered from or refunded to customers through adjustments to future rates. There was no material impact on AmalgamationCo's 2003 earnings from Heritage Gas.

Environmental Regulation

The natural gas gathering and processing industry and the power generation industry are subject to environmental regulation pursuant to local, provincial, territorial and federal legislation. Environmental legislation provides for restrictions and prohibitions on releases or emissions of various substances produced in association with certain oil and natural gas industry operations. Due to the highly toxic and corrosive nature of sour gas, numerous extra regulatory precautions are applied to sour gas wells, processing facilities and pipelines. Environmental legislation can affect the operation of facilities and limit the extent to which facility expansion is permitted. In addition, provincial, territorial and federal legislation requires that facility sites and pipelines be abandoned and reclaimed to the satisfaction of provincial authorities and local landowners. A breach of such legislation may result in the imposition of fines, the issuance of cleanup orders or the shutting down of facilities and pipelines.

AmalgamationCo takes its responsibility to protect the environment in which it operates very seriously. Its mandate is to fully comply with all environmental laws and regulations and to immediately and efficiently deal with any environmental incidences. AmalgamationCo believes that the cost of complying with current environmental laws and regulations has not had and will not have a material effect on AmalgamationCo's financial position.

With respect to the Kyoto Protocol on Climate Change (the "**Kyoto Protocol**"), although federal and provincial implementing legislation and related regulations are not currently available, AmalgamationCo is embarking on a program to quantify its current level of greenhouse gas emissions. In that way, AmalgamationCo will be in a position to proactively develop a strategy to reduce greenhouse gas emissions consistent with federal and provincial legislation and regulations. At this point in time, AmalgamationCo cannot determine definitively whether the impacts of the Kyoto Protocol will have a material affect on its financial position.

Human Resources

At December 31, 2003 AmalgamationCo and its subsidiaries employed a total of 517 individuals. Approximately 269 individuals were directly employed in the Gathering and Processing segment, 19 were directly employed in the Energy Services segment and 159 were directly employed in Natural Gas Distribution segment with corporate support of 70 employees.

None of AmalgamationCo's employees, other than certain employees of AltaGas Utilities, is currently a member of a collective bargaining unit. Approximately 85 employees of AltaGas Utilities are members of a bargaining unit, the Communications, Energy and Paperworkers Union of Canada, Local 1947. A collective agreement was in place until December 31, 2003 and is under renegotiation. AltaGas Utilities' management expects that a mutually beneficial extension of the collective agreement will be reached with the bargaining unit in the first quarter of 2004. Over the 22-year history of its relationship with the bargaining unit, AltaGas Utilities has not experienced any labour disruption due to the collective bargaining process. AltaGas Utilities and members of the bargaining unit participate in a Labour Management Committee that meets quarterly to review and take action on important issues in a timely manner.

Directors and Officers

The name, municipality of residence and proposed position of each of the initial directors and officers of AmalgamationCo are as follows, as selected by the General Partner pursuant to the Unanimous Shareholder Agreement. It is anticipated that the principal occupation of each of the initial directors and officers of AmalgamationCo will be acting as an officer of AmalgamationCo.

Name and Municipality of Residence	Proposed Position with AmalgamationCo
David W. Cornhill Calgary, Alberta	Chairman of the Board of Directors and Chief Executive Officer
Dennis A. Dawson Calgary, Alberta	Vice President, General Counsel and Corporate Secretary and Director
Gary R. Holden Calgary, Alberta	President and Chief Operating Officer and Director
Kim R. Hubick Calgary, Alberta	Corporate Controller
Denise M. Kitagawa Calgary, Alberta	Divisional Vice President Extraction and Transmission
Gerry M. Malin Calgary, Alberta	Vice President Regulatory and Northern Development
Patricia M. Newson Calgary, Alberta	Senior Vice President Finance and Chief Financial Officer and Director
Marilyn A. Pfaefflin Calgary, Alberta	Treasurer
Kent E. Stout Airdrie, Alberta	Vice President Corporate Resources
Marshal L. Thompson Calgary, Alberta	Segment Vice President Gathering and Processing

The biographies for each of the initial directors and officers of AmalgamationCo are as set out below to the extent any such individual is not also a member of the Board of Directors of the General Partner, in which case please see above under "*Information Concerning the General Partner – Board of Directors*":

Dennis A. Dawson
Vice President, General Counsel and Corporate Secretary

Dennis Dawson joined AltaGas as Associate General Counsel on August 15, 1997 after consulting with AltaGas from July 1996. Effective July 1, 1998 he became AltaGas' General Counsel and Corporate Secretary and effective December 17, 1998 Mr. Dawson became Vice President, General Counsel and Corporate Secretary. Mr. Dawson has 20 years of oil and natural gas experience including nine years as General Counsel for Pan-Alberta Gas Ltd., a major Canadian natural gas marketing company.

Gary R. Holden
President and Chief Operating Officer

Gary Holden was appointed AltaGas' President and Chief Operating Officer on April 1, 2003. Mr. Holden brought to AltaGas extensive energy industry experience, both in the electrical and oil and gas markets. Prior to joining AltaGas, Mr. Holden held the position of Chairman, CEO and President of EnSource Energy Services Inc. Prior to that Mr. Holden spent 18 years with TransAlta Corporation where he held various positions including Executive Vice President of Generation and Chief Executive Officer and Managing Director of TransAlta New Zealand Ltd. He currently sits on several private and public boards.

Kim R. Hubick
Corporate Controller

Kim Hubick joined AltaGas as Corporate Controller on June 1, 2003. Prior to joining AltaGas, Mr. Hubick held the position of Vice President, Finance and Business Services with Central Alberta Midstream. Prior to that, Mr. Hubick held senior level finance related roles in the transportation and the exploration and production industries.

Denise M. Kitagawa
Divisional Vice President Extraction and Transmission

Denise Kitagawa was a Vice President with AltaGas since its inception on April 1, 1994. Her previous responsibilities at AltaGas included finance and administration, corporate development, business integration, business analysis, common stream operations, contracts analysis and business systems and processes. Prior to joining AltaGas, Mrs. Kitagawa was Treasurer of Alberta & Southern Gas Co. Ltd. Mrs. Kitagawa has over 18 years of financial, management and project experience related to the oil and natural gas sector.

Gerry M. Malin
Vice President Regulatory and Northern Development

Gerry Malin was appointed Vice President, Gas Services when AltaGas began operations on April 1, 1994. Effective September 1, 2000, Mr. Malin became Vice President Extraction, Transmission and Special Projects and on April 1, 2001 was appointed Vice President Regulatory and Northern Development of AltaGas. Prior to joining AltaGas, Mr. Malin was Vice President, Sales and Marketing of Alberta & Southern Gas Co. Ltd. During his 21 years with Alberta & Southern Gas Co. Ltd, Mr. Malin played an integral part in procuring and managing the natural gas supply pool serving Pacific Gas and Electric Corporation of San Francisco. He also played a significant role in the restructuring of those arrangements that culminated in the wind-up of Alberta & Southern Gas Co. Ltd.

Patricia M. Newson
Senior Vice President Finance and Chief Financial Officer

Patricia Newson joined AltaGas as Vice President Finance and Chief Financial Officer on June 24, 1996. Effective December 17, 1998 Ms. Newson became Senior Vice President Finance and Chief Financial Officer. From September 1995 until joining AltaGas, Ms. Newson acted as Manager Strategic Planning at B.C. Hydro and Power Authority. Prior to this position, she worked for five years as an independent consultant to several businesses including B.C. Hydro and B.C. Gas Ltd. Her 25 years of energy industry experience includes corporate reporting and regulatory filings during several restructurings with Gulf Canada, GW Utilities and Olympia and York Enterprises.

Marilyn A. Pfaefflin
Treasurer

Marilyn Pfaefflin joined AltaGas as Treasurer on August 1, 1998 after consulting to AltaGas from May 1996. In addition to performing all treasury functions, Ms. Pfaefflin provides expertise to AmalgamationCo's communication requirements including Investor Relations, advertising, marketing and communication regarding debt issues. Prior to joining AltaGas, Ms. Pfaefflin was Manager of Finance and Assistant Treasurer for Alberta Natural Gas Company Ltd. from 1992 to 1996. Ms. Pfaefflin has more than 30 years of natural gas industry experience primarily related to natural gas processing and transportation.

Kent E. Stout
Vice President Corporate Resources

Kent Stout was appointed AltaGas' Vice President Corporate Resources effective September 5, 2002. Mr. Stout joined AltaGas as Manager Human Resources on December 1, 1998 and became Director Human Resources effective December 1, 1999. He has approximately 15 years experience in human resource management and administration in the energy sector. Prior to joining AltaGas, Mr. Stout was employed for more than 10 years with Manalta Coal Ltd., then Canada's largest coal producer, where he held various positions, most recently as Manager Human Resources and Administration.

Marshal L. Thompson
Segment Vice President Gathering and Processing

Marshal Thompson was appointed AltaGas' Segment Vice President, Gathering and Processing in the fall of 2002. Since joining AltaGas on August 15, 2000, Mr. Thompson held the positions of Director Extraction and Transmission, Director Extraction and Natural Gas Liquids and most recently Director Marketing and Extraction. Mr. Thompson has been in the industry for over 20 years, including two years as Vice President Employee Relations with TransCanada Pipelines Ltd. and nine years with Alberta Natural Gas Company Ltd. in various senior positions, the last of which was Vice President Customer Services, Gathering and Processing.

Compensation of Directors

The board of directors of AmalgamationCo will not be entitled to compensation for services rendered to AmalgamationCo in their capacities as such. The members of the board of directors will instead receive compensation in their capacities as executives of AmalgamationCo. See "*Information Concerning the General Partner – Compensation of Directors and Officers*".

Mid-Term Incentive Plan

Following completion of the Arrangement, AmalgamationCo intends to adopt a mid-term incentive plan for directors, officers and employees. The purpose of the mid-term incentive plan is to link a portion of the at-risk compensation to the achievement of AmalgamationCo's and the Trust's performance targets and to thereby promote the attraction, motivation and retention of highly qualified individuals.

The incentive bonus compensation contemplated under the mid-term incentive plan will be granted in the form of both time-vested restricted units ("**RUs**") and performance-restricted units ("**PUs**"). Unless otherwise determined by the Human Resources and Compensation Committee, the RUs will vest as to one-third per year over a three year period commencing with the year of grant, contingent upon AmalgamationCo and the Trust achieving a threshold level of performance during each year of the vesting period. The PUs will vest at the end of a three-year period commencing with the year of grant, contingent upon AmalgamationCo and the Trust achieving a threshold level of performance during the three-year vesting period.

The Human Resources and Compensation Committee of the Board of Directors of the General Partner will determine in its sole discretion the appropriate performance vesting criteria for the purpose of the RU and PU aspects of the plan. Such authority has been delegated to the General Partner pursuant to the Unanimous Shareholder Agreement. See "*Information Concerning the General Partner – Unanimous Shareholder Agreement*".

The mid-term incentive plan will function as follows:

(a) the Board of Directors will approve individual grants under the mid-term incentive plan that are a function of the extent to which individual performance targets were achieved and the level of total compensation provided to similarly placed and qualified individuals in AmalgamationCo and comparable-sized companies;

(b) following the determination of an individual's grant, the cash value of the grant will be converted to phantom whole units (split evenly between RUs and PUs unless the Board of Directors determines otherwise) equal to the number of whole Trust Units that such individual's grant would have been able to acquire at the date of grant, based on the FMV of the Trust Units. For such purpose, the FMV of the Trust Units will be equal to the average of the closing prices of the Trust Units on the TSX (or if the Trust Units are not then listed on the TSX then such other exchange upon which the Trust Units are listed) for the immediately preceding 20 trading days prior to the date of grant;

(c) the RUs and PUs will be tracked during the applicable vesting period and Distributions on a Trust Unit during such period will also be deemed to be paid on the dates of Distribution on each PU and RU and reinvested to acquire more phantom whole units and will accrue to the benefit of such individual in the accounts maintained for such individual, to be paid to the individual if and to the extent vesting occurs; and

(d) upon the vesting of RUs or PUs, and contingent upon the applicable performance criteria being achieved, AmalgamationCo will have the option to pay out the RUs or PUs (including the additional units acquired on reinvestment of the accrued Distributions in respect thereof), as the case may be, in cash or in Trust Units equivalent in value acquired by the plan administrator in the open market.

Trust Unit Option Plan

Subject to the approval of Securityholders at the Meeting and to approval by the TSX, immediately prior to the Arrangement AltaGas intends to adopt a Trust Unit Option Plan as a continuing form of long-term variable compensation incentive for directors, officers, employees, consultants and other personnel of the Trust and any of its subsidiaries, including, following the completion of the Arrangement, AmalgamationCo. As part of the Arrangement, Optionholders will exchange existing vested and unexercised Options and existing unvested Options for Trust Options issued under the Trust Unit Option Plan. It is presently anticipated that the Board of Directors will accelerate the vesting of those Trust Units following the Arrangement to provide for immediate vesting. With the introduction of the mid-term incentive plan, it is not intended that the Trust Unit Option Plan be the primary form of long-term variable compensation for AmalgamationCo. Should any grants be made under the Trust Unit Option Plan, the quantum and granting of any additional Trust Options will be related to individual performance and used as incentives to attract, retain and motivate a highly qualified staff. Factors considered in granting new Trust Options and the terms of those Trust Options will include the extent to which individual performance targets were achieved

and the level of Trust Options granted to similarly placed and qualified individuals in AmalgamationCo and comparable corporations. See "*Other Matters To Be Brought Before the Meeting*".

Description of Share Capital

AmalgamationCo is authorized to issue an unlimited number of common shares. Upon completion of the Arrangement, AltaGas LP #2 will be the sole holder of all of the issued and outstanding common shares of AmalgamationCo.

Common Shares

Each common share will entitle its holder to receive notice of and to attend all meetings of the shareholders of AmalgamationCo and to one vote at such meetings. The holders of common shares will be, at the discretion of the board of directors of AmalgamationCo and subject to applicable legal restrictions, entitled to receive any dividends declared by the board of directors on the common shares to the exclusion of the holders of preferred shares. The holders of common shares will be entitled to share equally in any distribution of the assets of AmalgamationCo upon the liquidation, dissolution, bankruptcy or winding-up of AmalgamationCo or other distribution of its assets among its shareholders for the purpose of winding-up its affairs.

Dividend Record

Any decision to pay dividends on its shares will be made by the board of directors of AmalgamationCo on the basis of AmalgamationCo's earnings, financial requirements and other conditions existing at such future time.

Principal Shareholders

Following the implementation of the Arrangement, the Trust will indirectly own 100% of the outstanding common shares of AmalgamationCo.

Conflicts of Interest

There are potential conflicts of interest to which the directors and officers of AmalgamationCo and its subsidiaries may be subject in connection with the operations of AmalgamationCo or its subsidiaries. Some of the directors and officers of AmalgamationCo are currently engaged and will continue to be engaged in the midstream industry, and situations may arise where directors and officers will be in direct conflict with AmalgamationCo or its subsidiaries. Conflicts, if any, will be subject to and dealt within in accordance with the procedures and remedies under the CBCA or the relevant corporate statute.

Indebtedness of Officers and Directors

There exists no indebtedness of the directors or executive officers of AmalgamationCo, or any of their associates, to AmalgamationCo, nor is any indebtedness of the directors or executive officers to another entity the subject of a guarantee, support agreement, letter of credit or other similar arrangement or understanding provided by AmalgamationCo.

Interest of Management and Others in Material Transactions

Except as disclosed elsewhere in this Information Circular, none of the directors, officers or principal shareholders of AmalgamationCo and no associate or affiliate of any of them, has or has had any material interest in any transaction or any proposed transaction which materially affects AmalgamationCo or any of its affiliates.

Material Contracts

Set out below are agreements that may be considered material to AmalgamationCo:

(a) the Administration Agreement (see "Management of the Trust – Administration Agreement"); and

(b) the Unanimous Shareholder Agreement (see "Information Concerning the General Partner – Unanimous Shareholder Agreement").

Auditors

The auditors of AmalgamationCo are Ernst & Young LLP, Chartered Accountants, 1000, 440 – 2nd Avenue S.W., Calgary, Alberta T2P 5E9.

Legal Proceedings

AmalgamationCo is not involved in any legal proceeding known to management to be material, either individually or in the aggregate, to AmalgamationCo.

INFORMATION CONCERNING ALTAGAS

AltaGas is a corporation incorporated and subsisting pursuant to the provisions of the CBCA. AltaGas is an energy infrastructure based company that actively moves, processes and uses diversified energies to create value. AltaGas is a reporting issuer or the equivalent thereof in all of the provinces of Canada and its Common Shares are listed and posted for trading on the TSX.

AltaGas' registered office is at 1700, 355 – 4th Avenue S.W., Calgary, Alberta, T2P 0J1, and its head and principal office is at 1700, 355 – 4th Avenue S.W., Calgary, Alberta T2P 0J1.

Information has been incorporated by reference in this information circular from documents filed with securities commissions or similar authorities in Canada. Copies of the documents incorporated herein by reference may be obtained on request without charge from the Treasurer of AltaGas, 1700, 355 – 4th Avenue S.W., Calgary, Alberta T2P 0J1, phone (403) 691-7575 or by accessing the disclosure documents available through the Internet on the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) web site at www.sedar.com. For the purpose of the Province of Québec, this information circular contains information to be completed by consulting the permanent information record. A copy of the permanent information record may be obtained from the Treasurer of AltaGas at the above-mentioned address and telephone number.

The following documents of AltaGas, filed with the various securities commissions or similar authorities in the provinces of Canada, are specifically incorporated by reference into and form an integral part of this information circular:

(a) AltaGas' Annual Information Form dated March 18, 2004, which includes the management's discussion and analysis of the financial condition and operations of AltaGas for the year ended December 31, 2003; and

(b) AltaGas' material change report dated March 22, 2004 regarding the Arrangement.

Any material change reports (excluding confidential reports), comparative interim financial statements and information circulars (excluding those portions that are not required pursuant to National Instrument 44-101 of the Canadian Securities Administrators to be incorporated by reference herein) filed by AltaGas with the securities commissions or similar authorities in the provinces of Canada subsequent to the date of this Information Circular and prior to the date of the Meeting shall be deemed to be incorporated by reference in this Information Circular.

Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this Information Circular to the extent that a statement contained herein or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Information Circular.

Interest of Certain Persons and Companies in Matters to be Acted Upon

Other than as set forth herein, the management of AltaGas is not aware of any material interest, direct or indirect, of any director or officer of AltaGas at any time since the beginning of AltaGas' last completed financial year or proposed nominee for election as a director, or any associate or affiliate of any of the foregoing persons, in any matter to be acted upon other than the election of directors or the appointment of auditors.

Interest of Insiders in Material Transactions

Other than as set forth herein, the management of AltaGas is not aware of any material interest, direct or indirect, of any director or officer of AltaGas, any director or officer of a corporation that is an insider or subsidiary of AltaGas, any proposed nominee for election as a director of AltaGas or any other insider of AltaGas, or any associate or affiliate of any such person, in any transaction since the commencement of AltaGas' last completed financial year, or in any proposed transaction, that has materially affected or would materially affect AltaGas or any of its subsidiaries.

Indebtedness of Directors and Senior Officers

No director, senior officer or proposed nominee for election as a director, nor any of their respective associates or affiliates, is or has been at any time since the beginning of the last completed financial year of AltaGas, indebted to AltaGas or any of its subsidiaries.

Principal Shareholders

To the knowledge of the directors and senior officers of AltaGas, the only persons who beneficially own or control, directly or indirectly, Common Shares carrying more than 10 percent of the voting rights of the outstanding Common Shares of AltaGas are:

Name and Municipality of Residence	Designation of Class	Type of Ownership	Number of Common Shares	% of Class
Enbridge Inc. [1] Calgary, Alberta	Common	Direct	9,197,500	24.91%

Note:

(1) Enbridge holds 9,000,000 Participating Shares of AltaGas, being 100% of the issued and outstanding Participating Shares. For further information see "*Relationship Between Enbridge and the Trust*".

Prior Sales

In the twelve months prior to the date hereof, AltaGas has not issued any additional Common Shares except 588,951 Common Shares pursuant to the exercise of an aggregate of 588,951 Options. The strike price of those Options ranged from $5.00 to $10.00 per Option.

Price Range and Trading Volume of Common Shares

The Common Shares are listed and posted for trading on the TSX under the trading symbol "ALA". The following table sets forth the reported high and low sale prices and the trading volumes as reported by the TSX for the periods indicated.

	Price Range		
	High	Low	Trading Volume
	$	$	
2002			
First Quarter	7.95	6.40	1,746,550
Second Quarter	11.00	7.85	3,198,222
Third Quarter	10.94	7.92	1,560,528
Fourth Quarter	9.90	8.53	1,428,696
2003			
First Quarter	10.92	9.21	1,662,978
Second Quarter	11.39	9.37	2,668,774
Third Quarter	13.50	10.36	3,418,741
October	14.32	12.40	1,726,700
November	14.99	13.95	1,247,600
December	16.25	14.02	1,389,000
2004			
January	15.95	14.66	3,149,929
February	20.16	15.15	4,690,140
March 1 – 24	22.99	19.00	2,915,659

Corporate Governance

General

The AltaGas Directors believe that good corporate governance improves corporate performance and benefits all Securityholders, and is committed to the highest standards of corporate governance. Since the Common Shares are listed on the TSX, AltaGas is subject to the policies of the TSX's Company Manual, which includes guidelines for effective corporate governance (the "**TSX Guidelines**"). The TSX Guidelines deal with matters such as the constitution and independence of corporate boards, the functioning of corporate boards, and the effectiveness and education of board members. AltaGas is required under the TSX Guidelines to disclose its corporate governance system on an annual basis with reference to each of the TSX Guidelines. This disclosure is presented in "*Appendix J - Statement of Corporate Governance Practices*" to this Information Circular. The AltaGas Directors believe that AltaGas' corporate governance policies and practices fully comply with the recommendations set forth in the TSX Guidelines.

Board Activities

The AltaGas Directors discharge their responsibilities directly and through committees. At regularly scheduled meetings, the AltaGas Directors and management discuss the issues relevant to AltaGas' strategy and business.

There were 12 meetings of AltaGas Directors during the financial year ended December 31, 2003. Five (5) regularly scheduled meetings of the AltaGas Directors are generally held in each fiscal year, with additional meetings called as the need arises. The nature of the business discussed and conducted by the AltaGas Directors at any particular meeting is dependent upon the then-current state of AltaGas' business and the opportunities or risks which AltaGas faces at that time. However, every meeting of the AltaGas Directors includes a review of AltaGas' financial and operational status and performance and a report from any committees of the AltaGas Directors that have met since the last meeting of the AltaGas Directors.

Board Committees

Under the CBCA and the by-laws of AltaGas, the AltaGas Directors may appoint a committee of directors and delegate to such committee any of the powers of the directors, subject to the CBCA. The AltaGas Directors have four (4) standing committees: the audit committee; the governance committee; the human resources and compensation committee; and the environment and safety committee. The AltaGas Directors do not have an executive committee.

The AltaGas Directors have developed the mandate of each committee and reviews such mandates periodically. The AltaGas Directors review the recommendations of all committees, and decide on whether and how to implement such recommendations.

The TSX Guidelines recommend that all committees of the board of directors generally be composed of outside directors (being directors who are not members of management), a majority of whom are unrelated directors, and that the audit committee be composed entirely of unrelated directors. The CBCA, the corporate statute governing AltaGas, requires that the audit committee of AltaGas be composed of not less than three (3) directors, a majority of whom are not officers or employees of AltaGas or any of its affiliates. All of the committees of the AltaGas Directors comply with these guidelines or requirements. David Cornhill, AltaGas' Chairman and Chief Executive Officer, is a member of the environment and safety committee.

Audit Committee

In accordance with the TSX Guidelines, the AltaGas Directors have developed written terms of reference outlining the audit committee's roles and responsibilities and which provide appropriate guidance to audit committee members as to their duties. These terms of reference are reviewed annually by the AltaGas Directors. The audit committee reviews the annual and interim financial statements of AltaGas and makes recommendations to the AltaGas Directors with respect to such statements. The audit committee also reviews the nature and scope of the annual audit as proposed by the auditors and management, and the adequacy of the internal accounting control procedures and systems within AltaGas. In accordance with the TSX Guidelines, the audit committee is responsible to ensure that management has implemented an effective system of internal control and has oversight responsibility for management reporting on internal control.

The audit committee met five (5) times in 2003 to fulfill its mandate. In accordance with the TSX Guidelines, the audit committee meets with AltaGas' auditors regularly, independent of management, and has direct communication channels with AltaGas' external auditors to discuss and review specific issues as appropriate.

The audit committee is currently comprised of Stephen Letwin, John Breen and Daryl Gilbert, all of whom are Unrelated directors. Stephen Letwin is chair of the audit committee.

Governance Committee

The governance committee is responsible for the development of the overall governance of AltaGas; a continuing assessment of corporate governance matters; and to make recommendations to the AltaGas Directors regarding AltaGas' approach to corporate governance. Other elements of the mandate of this committee are described in "*Appendix J - Statement of Corporate Governance Practices*". The governance committee met four (4) times in 2003 to fulfill its mandate.

The governance committee is currently comprised of Bonnie DuPont, Denis Fonteyne, Myron Kanik and David Mackie, all of whom are Unrelated directors in accordance with the TSX Guidelines. Myron Kanik is chair of the committee.

Environment and Safety Committee

The environment and safety committee monitors and makes recommendations with respect to the environment, health and safety policies, practices and procedures of AltaGas. The committee has established an environmental risk management system and monitors its operation through regular reports. The environment and safety committee met three (3) times in 2003 to fulfill its mandate.

The environment and safety committee is currently comprised of David Cornhill, Denis Fonteyne and Myron Kanik, of whom Messrs. Fonteyne and Kanik are Unrelated directors. Denis Fonteyne is chair of the committee.

Human Resources and Compensation Committee

The mandate of the human resources and compensation committee includes developing appropriate compensation policies for the senior management of AltaGas, including AltaGas' Stock Option Plan, and evaluating senior management performance. These responsibilities include reporting and making recommendations to the AltaGas Directors for their consideration and approval. The human resources and compensation committee meets at least quarterly to fulfill its mandate, and met eight (8) times in 2003.

The human resources and compensation committee is currently comprised of Bonnie DuPont, Denis Fonteyne, Myron Kanik and David Mackie, all of whom are Unrelated directors. Bonnie DuPont is chair of the committee. None of the members of the committee was an officer or employee of AltaGas or any of its subsidiaries in the most recently completed financial year; was formerly an officer of AltaGas or any of its subsidiaries; or had or has any relationship that requires disclosure under the above headings "*Indebtedness of Directors and Senior Officers*" or "*Interest of Insiders in Material Transactions*" in this Information Circular.

Management Contracts

Management functions of AltaGas are performed by the directors and senior officers of AltaGas and are not to any substantial degree performed by any other person or corporation.

Executive Compensation

The following provides information on compensation paid to AltaGas' executive officers. As described below under "*Report on Executive Compensation*", compensation of AltaGas' executive officers includes short and long-term compensation with fixed and variable components designed to recognize and reward individual performance and provide an industry-competitive level of compensation.

For the purposes of this section, "**executive officer**" means the chair and any vice-chair of the Board of Directors of AltaGas, where that person performs the functions of that office on a full-time basis; the president; any vice president in charge of a principal business unit, division or function such as sales, finance or production; and any officer of AltaGas or of a subsidiary of AltaGas or any other person who performs a policy-making function for AltaGas, whether or not such person is also a director of AltaGas or any of its subsidiaries. A "**Named Executive Officer**" means, collectively:

(a) the Chief Executive Officer of AltaGas;

(b) the Chief Financial Officer of AltaGas;

(c) AltaGas' three (3) most highly compensated executive officers other than the Chief Executive Officer and Chief Financial Officer who were serving as executive officers at the end of the most recently completed financial year and whose total salary and bonus exceeded $150,000; and

(d) any additional individuals for whom disclosure would have been provided under (c) except that the individual was not serving as an officer of AltaGas at the end of the most recently completed financial year.

The following table sets forth information concerning the compensation paid by AltaGas to its Named Executive Officers for the three (3) most recently completed financial years:

		Annual Compensation			Long Term Compensation			
Name and Principal Position	**Year Ended Dec 31**	**Salary ($)**	**Bonus ($)**	**Other Annual Compensation[1] ($)**	**Securities Under Options/SARs Granted[2] (#)**	**Restricted Shares or Restricted Share Units ($)**	**Long Term Incentive Plan Payouts ($)**	**All Other Compensation[3] ($)**
David W. Cornhill Chairman of the Board and CEO	2003	392,500	180,000	-	-	N/A	N/A	38,465
	2002	305,000	194,878	-	50,000	N/A	N/A	29,890
	2001	275,600	60,287	-	99,500	N/A	N/A	27,009
Gary R. Holden, President and Chief Operating Officer[4]	2003	187,500	-	-	100,000	N/A	N/A	-
	2002	N/A	N/A	N/A	N/A	N/A	N/A	N/A
	2001	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Patricia M. Newson Senior VP Finance and CFO	2003	229,999	90,700	-	-	N/A	N/A	22,540
	2002	208,000	121,651	-	30,000	N/A	N/A	19,192
	2001	190,646	41,179	-	53,800	N/A	N/A	16,300
John W.A. McDonald VP	2003	173,000	42,000	-	-	N/A	N/A	16,954
	2002	173,000	31,092	-	-	N/A	N/A	16,954
	2001	145,462	19,325	-	38,800	N/A	N/A	12,437
Dennis A. Dawson VP, General Counsel and Corporate Secretary	2003	175,000	56,400	-	-	N/A	N/A	-
	2002	161,000	78,909	-	16,000	N/A	N/A	-
	2001	141,622	23,592	-	41,800	N/A	N/A	-
Marshal L. Thompson[5], Segment Vice President Gathering & Processing	2003	169,999	34,000	-	25,349	N/A	N/A	12,720
	2002	128,500	34,072	-	25,000	N/A	N/A	9,380
	2001	-	-	-	-	N/A	N/A	-

Notes:

(1) Other than as indicated above, the value of other annual compensation was no greater than the lesser of $50,000 and 10 percent of the total annual salary and bonus of each Named Executive Officer in each financial year.

(2) Common Shares under stock options; no Common Shares are reserved under SARs.

(3) AltaGas makes contributions under the Employee Share Purchase Savings Plan and the Group RRSP. These plans are described in more detail below under "*Executive Compensation - Employee Share Purchase Savings Plan*" and "*Executive Compensation - Pension Plan*", respectively.

(4) Mr. Gary Holden was appointed President and Chief Operating Officer effective April 1, 2003.

(5) Mr. Marshal Thompson was appointed Segment Vice President, Gathering and Processing effective December 5, 2002.

Employment Agreements

AltaGas is a party to an employment agreement with each of David W. Cornhill, AltaGas' Chairman and Chief Executive Officer; Gary R. Holden, AltaGas' President and Chief Operating Officer; Patricia M. Newson, AltaGas' Senior Vice-President, Finance and Chief Financial Officer; John W. A. McDonald, AltaGas' Vice-President; and Dennis A. Dawson, AltaGas' Vice-President, General Counsel and Corporate Secretary (collectively, the "**Employment Agreements**").

The Employment Agreement with Mr. Cornhill commenced on March 31, 2003 and supercedes and replaces an earlier Employment Agreement dated May 12, 1999. The Employment Agreement with Mr. Holden commenced on April 1, 2003. Mr. Cornhill's and Mr. Holden's Employment Agreements continue indefinitely unless terminated in accordance with the Employment Agreement. The Employment Agreement with each of Ms. Newson, Mr. McDonald and Mr. Dawson commenced on September 1, 1999 and continues indefinitely thereafter unless terminated in accordance with the respective Employment Agreement.

The Employment Agreements do not set a salary; rather, the salary for each of these executive officers is set by the Board after consideration of the recommendation of the human resources and compensation committee.

The Employment Agreements with Mr. Cornhill and Mr. Holden may be terminated by AltaGas for just cause or in the event of the permanent disability of the officer, and terminates automatically in the event of the death of the officer. The Employment Agreements may also be terminated by AltaGas upon the giving of notice and the payment by AltaGas of an amount (the "**Retirement Allowance**") equal to the sum of (i) 24 times the gross monthly base salary paid to the officer in the last full month of employment; (ii) two times the annual base salary multiplied by the annual target bonus percentage; and (iii) a cash amount equal to the value of the benefit entitlements for a two (2) year period.

If at any time during the term of the Employment Agreements with Mr. Cornhill and Mr. Holden there is a change of control (as defined below), the officer may, at any time after 6 months but before 12 months, in the case of Mr. Cornhill or 9 months in the case of Mr. Holden, after the effective date of such change of control, terminate his employment with AltaGas by the giving of 60 days notice to that effect. In this event, the officer shall be entitled to the Retirement Allowance, provided that the first element of Mr. Cornhill's Retirement Allowance will increase to 30 months of compensation calculated using the gross monthly base salary paid to Mr. Cornhill in the last full month of employment plus this amount multiplied by the annual target bonus percentage plus a cash amount equal to the value of benefit entitlements for a 30 month period. "Change of control" includes the acquisition of control by any means and "control" means the power to direct or cause the direction of the management and policies of AltaGas; provided that a reverse take-over of AltaGas shall not constitute a change of control so long as more than one-half of the members of the AltaGas Directors immediately prior to the reverse take-over constitute more than one-half of the board of directors of the other company involved in the reverse take-over of AltaGas following the reverse take-over.

Mr. Cornhill may terminate his employment with AltaGas by giving 6 months notice to that effect. In this event, Mr. Cornhill will be entitled to receive the Retirement Allowance.

The Employment Agreements with Ms. Newson, Mr. McDonald and Mr. Dawson may be terminated by AltaGas for just cause or in the event of the permanent disability of the executive officer, and terminates

automatically in the event of the death of the executive officer. The Employment Agreements may also be terminated by AltaGas upon the giving of one (1) day's notice and the payment by AltaGas of an amount (the "**Retirement Allowance**") equal to two times the sum of (i) 12 times the gross monthly base salary paid to the executive officer in the last full month of employment; (ii) the gross amount of any bonuses accrued in the last full year of employment; and (iii) a cash amount equal to the value of the benefit entitlements for a one (1) year period.

If at any time during the term of the Employment Agreements with Ms. Newson, Mr. McDonald and Mr. Dawson there is a change of control (as defined below), the executive officer may, at any time within 180 days after the effective date of such change of control, terminate his or her employment with AltaGas by the giving of 60 days notice to that effect. In this event, the executive officer shall be entitled to the Retirement Allowance. "Change of control" includes the acquisition of control by any means and "control" means the power to direct or cause the direction of the management and policies of AltaGas; provided that a reverse take-over of AltaGas shall not constitute a change of control so long as more than one-half of the members of the AltaGas Directors immediately prior to the reverse take-over constitute more than one-half of the board of directors of the other company involved in the reverse take-over of AltaGas following the reverse take-over.

Termination of Employment on Change of Control

The reorganization of AltaGas under the Plan constitutes a change of control under the Employment Agreements.

Other than pursuant to the Employment Agreements, there is no plan or arrangement in respect of compensation received or that may be received by executive officers in the most recently completed financial year with a view to compensating those officers in the event of termination of their employment or a change of responsibilities following a change in control.

AltaGas expects to enter into retention agreements with Mr. Cornhill, Mr. Holden, Ms. Newson and Mr. Dawson to confirm the waiver of any rights they may respectively have under their Employment Agreements on implementation of the Arrangement and to confirm their continued employment with AmalgamationCo.

AltaGas may also enter into negotiations to revise Ms. Newson's and Mr. Dawson's Employment Agreements.

Short Term Incentive Plan

All executive officers and employees of AltaGas participate in the Short Term Incentive Plan. Under the Short Term Incentive Plan, AltaGas pays bonuses annually following the fiscal year end. In order to reward individual performance, eligibility for compensation under the Short Term Incentive Plan is linked to individual, team and corporate performance. The more senior the position in the organization, the greater the weighting towards corporate measures.

Team and individual performance for each employee are assessed annually against objectives set at the beginning of each year. Team performance objectives include, for example, business segment results such as return on investment or operating income. Individual performance objectives include, for example, pre-determined individual targets.

Corporate performance is measured based on consolidated financial results weighted 50% on return on equity and 50% on earnings per share against a predetermined target for each set at the beginning of each year.

Mid-Term Incentive Plan

The AltaGas Directors have established the Mid-Term Incentive Plan for directors, officers and employees of the Corporation and its subsidiaries effective January 1, 2004. The Mid-Term Incentive Plan is intended to augment the existing stock option plan. See below under "*Report on Employee and Executive Compensation*".

The Mid-Term Incentive Plan will use whole units, including both time-vested restricted units ("**RUs**") and performance-restricted units ("**PUs**"). RUs will vest as to one-third per year over a three-year period, contingent upon achieving a threshold level of performance during the vesting period. PUs will vest at the end of a three-year period, contingent upon achieving a threshold level of corporate performance during the vesting period. The human resources and compensation committee will determine the performance vesting criteria for the RU and PU plan.

Unless specified by the AltaGas Board, each grant of units will be split equally between RUs and PUs. The grant will be a dollar amount converted into RUs and PUs which will have an initial value equal to the FMV of AltaGas' Common Shares at the date of grant. The FMV will be equal to the average of the closing price of AltaGas' Common Shares over the twenty trading days prior to the grant. The RUs and PUs will track the value of the Corporation's Common Shares during the vesting period and will earn dividends or other distributions during that period. Upon vesting of the RUs and PUs, AltaGas will have the option to pay out the RUs and PUs in cash or in an equivalent number of AltaGas' Common Shares, which AltaGas will acquire in the market.

Equity Compensation Plan Information

The AltaGas Directors have established the Stock Option Plan for directors, officers, employees, consultants and other personnel of AltaGas and its subsidiaries. The number of authorized but unissued Common Shares that may be subject to Options at any time, plus the number of Common Shares that have been issued on exercise after January 17, 2000 of Options granted under the Stock Option Plan, may not exceed 3,800,000. In addition, the Options granted under the Stock Option Plan together with all of AltaGas' other previously established or proposed share compensation arrangements, shall not result at any time in:

(a) the number of Common Shares reserved for issuance pursuant to Options granted to insiders exceeding 10 percent of the outstanding issue;

(b) the issuance to insiders within a one (1) year period, of a number of Common Shares exceeding 10 percent of the outstanding issue; or

(c) the issuance to any one (1) insider and such insider's associates, within a one (1) year period, of a number of Common Shares exceeding 5 percent of the outstanding issue.

The number of Common Shares reserved for issuance for Options granted to any one (1) individual may not exceed five percent (5%) of the issued and outstanding Common Shares of AltaGas. The Stock Option Plan provides that the terms of the Options granted and the option prices shall be fixed by the AltaGas Directors subject to the price and other restrictions imposed by the relevant regulatory authorities. The Stock Option Plan also provides that no Option shall be granted to any person except upon recommendation of the Board. Options granted under the Stock Option Plan may not be for a period longer than ten (10) years and the exercise price must be paid in full upon exercise of the Option. The administration and operation of the Stock Option Plan may be delegated by the AltaGas Directors to the Chairman and Chief Executive Officer or to the Human Resources and Compensation Committee of AltaGas.

The following table sets forth information related to AltaGas' Stock Option Plan for the financial year ended December 31, 2003:

Plan Category	Number of Securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by securityholders	1,506,362	8.74	458,306
Equity Compensation plans not approved by securityholders	N/A	N/A	N/A
Total	1,506,362	8.74	458,306

The following table sets forth the stock Options granted to Named Executive Officers in the financial year ended December 31, 2003:

Name	Securities Under Options Granted (#)[1]	% of Total Options Granted to Employees in Financial Year	Exercise Price ($/Security)	Market Value of Securities Underlying Options on the Date of Grant ($/Security)[2]	Expiration Date[3]
Gary Holden	100,000	24.90%	10.25	10.25	April 1, 2013
Marshal Thompson	25,349	6.31%	$15.05	$15.05	December 19, 2013

Notes:

(1) Common Shares.

(2) Closing price on the TSX on the last trading day prior to the grant, being the price at which options are granted under the Stock Option Plan.

(3) The Options vest as to one-quarter on each the first, second, third and fourth anniversaries of the date of grant.

The following table shows the aggregate number of Common Shares acquired on exercise of Options during the financial year ended December 31, 2003, the value realized upon exercise of the Options, the number of unexercised Options held at year-end and the year-end value of the unexercised Options, for Options held by Named Executive Officers.

Name	Securities Acquired on Exercise (#)	Aggregate Value Realized[1] ($)	Unexercised Options at Fiscal Year-End Exercisable / Unexercisable (#/#)	Value of Unexercised in-the-Money Options at Fiscal Year-End[2] Exercisable / Unexercisable ($/$)
David Cornhill	45,000	141,250	88,250 / 87,250	662,805 / 680,905
Patricia Newson	21,000	69,350	84,400 / 49,400	631,532 / 384,332
John McDonald	30,706	117,217	6,250 / 19,400	53,875 / 175,232

Name	Securities Acquired on Exercise (#)	Aggregate Value Realized[1] ($)	Unexercised Options at Fiscal Year-End Exercisable / Unexercisable (#/#)	Value of Unexercised in-the-Money Options at Fiscal Year-End[2] Exercisable / Unexercisable ($/$)
Dennis Dawson	12,025	32,858	48,250 / 32,900	362,045 / 264,042
Gary Holden	–	–	– / 100,000	– / 562,000
Marshal Thompson	–	–	15,750 / 50,599	133,040 / 200,866

Notes:

(1) For the purpose of calculating the aggregate value realized, the exercise price of each stock Option exercised was subtracted from the closing trading price for AltaGas' Common Shares on the TSX on the day on which the stock Options were exercised, and the resulting value was multiplied by the number of Common Shares obtained on exercise of stock Options. Note that all Common Shares obtained on exercise of stock Options may not have been sold, so that these values may not have been actually realized by the optionees.

(2) For the purpose of calculating the in-the-money values of the Options, the exercise price of each stock Option was subtracted from the closing price of the Common Shares on the TSX on December 31, 2003, the last trading day in the AltaGas' financial year ended December 31, 2003, which was $15.87.

Employee Share Purchase Savings Plan

AltaGas implemented an Employee Share Purchase Savings Plan effective in 2000. All employees of AltaGas are eligible to participate. Employees can contribute up to ten percent (10%) of their base pay into the savings plan. AltaGas will match employee contributions up to a maximum of two and one-half percent (2.5%) of base pay for those employees with up to three (3) years of service; three and three-quarters percent (3.75%) of base salary for those employees with three (3) to six (6) years of service; and five percent (5%) of base pay for those employees with more than six (6) years of service. Employee contributions can be invested in Common Shares, a short-term investment fund or a combination of such investments. AltaGas' contributions are invested in AltaGas stock.

Pension Plan

AltaGas does not have a pension plan for executive officers or employees other than those at AltaGas Utilities described below. AltaGas coordinates a group (the "**Group RRSP**") registered retirement savings plan ("**RRSP**") whereby employee contributions into their self-directed RRSPs will be matched by AltaGas at a rate of 80% of the employee's contribution, to a maximum of 4.8% of base pay. Substantially all full-time employees at AltaGas Utilities are members of one of two defined benefit non-contributory pension plans.

Long Term Incentive Plans

Other than the Mid-Term Incentive Plan, the Stock Option Plan, the Short Term Incentive Plan, the Employee Share Purchase Savings Plan and the Group RRSP, AltaGas does not have any plans which provide compensation intended to serve as an incentive to Named Executive Officers for performance to occur over a period longer than one (1) financial year.

Other Compensation

Other than as herein set forth, AltaGas did not pay any additional compensation to its Executive Officers in the financial year ended December 31, 2003.

Share Ownership Guideline for Officers

In recognition of the importance of ensuring an alignment of financial interests of officers with those of shareholders, AltaGas has adopted share ownership guidelines for officers of AltaGas effective January 1, 2004.

Under the guidelines, incumbents in the following officer positions will be expected to make reasonable efforts to achieve targeted share ownership levels within a five-year period commencing on the later of January 1, 2004 or upon the date of formal appointment as an officer of AltaGas.

Officer	Targeted Ownership (# of Shares)	Actual Shares held as at Fiscal Year-End (held directly and indirectly)
David Cornhill, Chairman of the Board of Directors and Chief Executive Officer	120,000	978,858
Gary Holden, President and Chief Operating Officer	50,000	–
Patricia Newson, Senior Vice President Finance and Chief Financial Officer	50,000	172,080
Marshal Thompson, Segment Vice President Gathering and Processing	25,000	436
Dennis Dawson, Vice President General Counsel and Corporate Secretary	20,000	43,420
Kent Stout Vice President, Corporate Resources	20,000	2,912

Other officers of AltaGas have a targeted share ownership level of 15,000 Common Shares.

The human resources and compensation committee will periodically review share holding levels to monitor the progress individual officers are making towards their targeted ownership levels and to encourage officers to meet and maintain those levels.

Report on Employee and Executive Compensation

The Human Resources and Compensation Committee

The human resources and compensation committee (the "**HR Committee**") was established in 1994. The mandate of the HR Committee includes developing appropriate compensation policies for the senior management of AltaGas, including AltaGas' Mid-Term Incentive Plan and Stock Option Plan, and evaluating senior management performance. Following review of data and discussion by members of the HR Committee, recommendations are made by the HR Committee to the Board for their consideration and approval. In all cases, the Board of Directors has acted upon Committee recommendations without modification in any material way. The HR Committee meets at least quarterly to fulfill its mandate.

The HR Committee is currently comprised of Bonnie DuPont, Denis Fonteyne, Myron Kanik and David Mackie, all of whom are Unrelated directors. Bonnie DuPont is chair of the committee. None of the members of the committee was an officer or employee of AltaGas or any of its subsidiaries in the most recently completed financial year; was formerly an officer of AltaGas or any of its subsidiaries; or had or has any relationship that requires disclosure under the headings "*Indebtedness of Directors and Senior Officers*" or "*Interest of Insiders in Material Transactions*" in this Information Circular; was an executive officer of AltaGas and also served as a member of the compensation committee (or equivalent) of another issuer, one of whose executive officers served on the HR Committee; was an executive officer of AltaGas and also served as a director of another issuer, one of whose executive officers served on the HR Committee; or was an executive officer of AltaGas and also served as a member of the compensation committee (or equivalent) of another issuer, one of whose executive officers served as a director of AltaGas.

Compensation Policy

Overview

The philosophy of the AltaGas Directors is that if AltaGas does well, the employees will also do well and will be rewarded through cash bonuses, increases in long-term variable compensation, such as Option and mid-term incentive awards, additional long-term variable compensation awards or combinations of any or all of the foregoing. The goal of the HR Committee in making compensation recommendations is to recognize and reward individual performance as well as to provide a competitive industry level of compensation, taking into consideration the individual's experience and performance and the financial performance of AltaGas.

AltaGas' human resources department reviews industry compensation information provided by consultants and compares its level of overall compensation with those of comparably-sized companies. A summary of this information is provided to the HR Committee to assist in approving AltaGas' overall compensation policy and the compensation to be paid, especially to the senior officers. The HR Committee also periodically independently retains external consultants to review compensation matters. Comparable corporations are chosen based on their being in the oil and gas industry. Comparable positions are identified based on publicly available information on such corporations.

The HR Committee views total compensation as a linked strategy towards achieving overall performance targets and has designed a total compensation package of short-term and long-term compensation with fixed and variable compensation components. Currently the compensation program for employees of AltaGas is comprised of salary, benefits and the Short Term Incentive Plan by way of short-term compensation; and the Stock Option Plan, the Mid-Term Incentive Plan, the Employee Share Purchase Savings Plan and the Group RRSP by way of long-term compensation.

AltaGas emphasizes fair annual fixed and variable compensation to provide an immediate incentive for short-term performance. A lesser emphasis is placed on longer-term compensation, the focus of which is longer-term commitment by AltaGas' officers and employees.

Annual Salary

Annual salary is intended to provide a competitive rate of compensation and recognize the skills, competencies and level of responsibility of employees. Generally, the HR Committee targets base salaries at levels approximating those holding similar positions in comparably-sized companies in the industry (as outlined above) and hopes to achieve targeted total compensation levels through other fixed and variable compensation components.

Short Term Incentive Plan

AltaGas implemented a Short Term Incentive Plan for permanently employed executive officers and employees of AltaGas to provide annual cash bonuses based on individual, team and corporate performance. The operation of this plan is outlined under "*Executive Compensation - Short Term Incentive Plan*".

The corporate performance indicators under the Short Term Incentive Plan in the financial year ended December 31, 2003 were AltaGas' return on equity of 10.98 % and its earnings per share on a diluted basis of $0.83, which compared favourably with the 9.6% return on equity and earnings per share of $0.67 on a diluted basis in the financial year ended December 31, 2002. See also "*Report on Employee and Executive Compensation - Performance Graph*" for changes in the cumulative shareholder return of AltaGas over time and as compared with key industry indicators.

No awards were made to any Named Executive Officer under the Short Term Incentive Plan in cases where the Named Executive Officer did not meet any specific performance criteria.

Mid-Term Incentive Plan

AltaGas intends that the Mid-Term Incentive Plan, effective January 1, 2004, will be an additional form of long-term variable compensation incentive. The quantum and granting of units under the plan will be related to individual performance and will be used to attract and retain and motivate a highly qualified staff. Factors considered in granting units include the extent to which individual performance targets are achieved and the level of units granted to similarly placed and qualified individuals in AltaGas.

Options

AltaGas historically used Options as a form of long-term variable compensation incentive. The quantum and granting of Options were related to individual performance and were used as incentives to attract, retain and motivate a highly qualified staff. Factors considered in granting new Options and the terms of those Options included the extent to which individual performance targets were achieved and the level of Options granted to similarly placed and qualified individuals in AltaGas and the comparative corporations discussed above. Outstanding Options are not considered in granting new options.

Employee Share Purchase Savings Plan

The Employee Share Purchase Savings Plan was implemented by AltaGas in 2000 to encourage share ownership by employees, as a long-term incentive and to ensure AltaGas' compensation was competitive in the oil and gas industry. All employees of AltaGas are eligible to participate.

Group RRSP

The Group RRSP was implemented by AltaGas as the primary long-term retirement savings plan. All employees of AltaGas are eligible to participate.

Chief Executive Officer Compensation

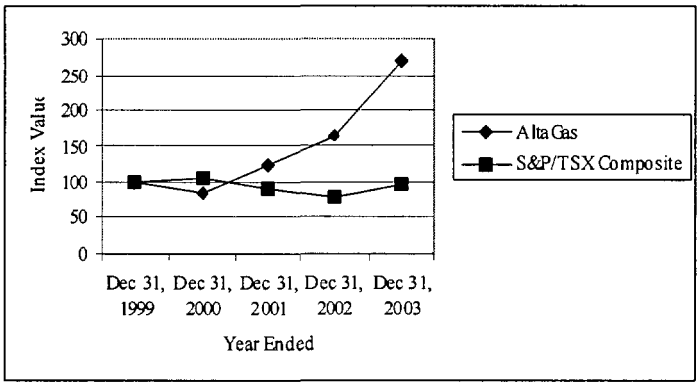
The HR Committee has the responsibility for reviewing AltaGas' compensation policies. The HR Committee makes recommendations to the AltaGas Directors as to remuneration for the Chief Executive Officer.

The policy of the HR Committee with respect to compensation for the Chief Executive Officer is to set his base salary, total cash compensation (which includes short term-incentives) and total direct compensation (which includes long-term incentives) at approximately the median among public companies in the Canadian oil and gas industry of comparable size and complexity. A comparator group of peer companies was initially developed in 2001 based on those industry compensation survey participants whose revenues or assets were within 50% and 200% of those of AltaGas. The peer group composition is reviewed annually to ensure that it continues to provide a reasonable basis for comparison.

The HR Committee considers among other things, data from industry compensation surveys and the overall performance of AltaGas, including return on equity ("**ROE**"), earnings per share ("**EPS**"), successful acquisitions and the successful implementation of AltaGas' strategy.

The Chief Executive Officer's salary, short-term incentives and share option awards are determined based on AltaGas' overall success. The Chief Executive Officer's entitlement under AltaGas' Short Term Incentive Plan is based on a combination of corporate performance (70%) and team-individual performance (30%). Corporate performance is measured relative to preset targets for ROE and EPS.

Options are granted dependent on the number of Options available for grant, competitive conditions determined as outlined above and individual performance.



Mr. Cornhill, the Chief Executive Officer and a director of AltaGas, does not vote with respect to compensation matters affecting him.

Performance Graph

The Common Shares were listed on The Alberta Stock Exchange (the "**ASE**"), a predecessor to the Canadian Venture Exchange Inc. ("**CDNX**") on July 22, 1999. The Common Shares were subsequently listed on the TSX on January 17, 2000. On January 31, 2000, the Common Shares were automatically delisted from CDNX pursuant to CDNX's policy not to continue the inter-listing of issuers also listed on the TSX.

The following table and graph compare the yearly percentage change in the cumulative shareholder return over the last four (4) years on the Common Shares (assuming a $100 investment was made on January 1, 2000) with the cumulative total return of the S&P/TSX Composite Index. While the values assume the reinvestment of any declared dividends, no dividends were paid by AltaGas prior to 2002.

	Dec 31, 1999	**Dec 31, 2000**	**Dec 31, 2001**	**Dec 31, 2002**	**Dec 31, 2003**
AltaGas	100	85	125	165	271
S&P/TSX Composite	100	106	91	79	98

Compensation of Directors

Directors Fees

For the financial year ended December 31, 2003, each director (other than Stephen Letwin and Bonnie DuPont) who was not an executive officer or employee of AltaGas was paid cash compensation of $2,000 per calendar quarter by AltaGas and (other than Stephen Letwin and Bonnie DuPont) received a payment of 500 Common Shares per calendar quarter for their services as directors of AltaGas, including committee participation and any special assignments. In addition, during the financial year ended December 31, 2003, the Lead Director, Myron Kanik, received cash compensation of $5,000 per month for the increased workload associated with the role of Lead Director.

Certain of the directors have also been granted Options to purchase Common Shares. See "*Compensation of Directors – Directors' Options*".

Information regarding the compensation received, including Options, from AltaGas by David Cornhill who was a director and also an executive officer of AltaGas during the financial year ended December 31, 2003, may be found under the heading "*Executive Compensation*".

Directors Options

No directors were granted options pursuant to the Stock Option Plan during the most recently completed financial year of AltaGas. See "*Executive Compensation – Equity Compensation Plan Information*" for details of the Stock Option Plan.

Other Compensation

Other than as herein set forth, AltaGas did not pay any additional compensation to its directors in the financial year ended December 31, 2003.

Directors and Officers Liability Insurance

Directors and officers insurance has been obtained for the directors and officers of AltaGas and its subsidiaries with a policy limit of $40,000,000 aggregate per policy year. Under this insurance coverage, AltaGas would be reimbursed for indemnity payments made on behalf of its directors and officers subject to a deductible of $100,000 per occurrence, which would be paid by AltaGas. The total premium paid by AltaGas for directors and officers' liability insurance during the financial year ended December 31, 2003 was $50,000.00.

Material Contracts

For the two year period ended December 31, 2003, AltaGas does not regard any individual contract as capable of being reasonably regarded as material to the business and affairs of AltaGas taken as a whole.

Auditors

The auditors of AltaGas are Ernst & Young LLP, Chartered Accountants, 1000, 440 – 2nd Avenue S.W., Calgary, Alberta T2P 5E9.

Legal Proceedings

AltaGas is not involved in any legal proceeding known to management to be material, either individually or in the aggregate, to AltaGas.

RISK FACTORS

The Trust

An investment in the Trust should be considered highly speculative due to the nature of the Trust's activities and the present stage of its development. The following is a summary of certain risk factors relating to the activities of the Trust and the ownership of Trust Units which Securityholders should carefully consider before making a decision relating to the Arrangement Resolution. A Securityholder should consider carefully all such risk factors.

Nature of Trust Units

The Trust Units do not represent a traditional investment in the diversified energy services business and should not be viewed by Securityholders as shares in AmalgamationCo. The Trust Units represent a fractional interest in the Trust. As holders of Trust Units, Trust Unitholders will not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions. The Trust's sole assets will be the shares of the General Partner, the units of the Holding Trust, Holding Trust Notes and other investments in securities. The price per Trust Unit is a function of anticipated Distributable Cash, the underlying assets of the Trust and management's ability to effect long-term growth in the value of AmalgamationCo and other entities now or hereafter owned directly or indirectly by the Trust. The market price of the Trust Units will be sensitive to a variety of market conditions including, but not limited to, interest rates,

electricity prices and natural gas and NGLs prices. Changes in market conditions may adversely affect the trading price of the Trust Units.

The Trust Units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that Act or any other legislation. Furthermore, the Trust is not a trust company and, accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

Potential Sales of Additional Trust Units

The Trust may issue additional Trust Units in the future to directly or indirectly fund capital expenditure requirements of AmalgamationCo and other entities now or hereafter owned directly or indirectly by the Trust, including to finance acquisitions by those entities. Such additional Trust Units may be issued without the approval of Unitholders. Unitholders will have no pre-emptive rights in connection with such additional issues. The Board of Directors has discretion in connection with the price and the other terms of the issue of such additional Trust Units.

Absence of Prior Public Market

Prior to the Effective Date of the Arrangement, there will have been no public market for the Trust Units. The market price of the Trust Units will be sensitive to a variety of market conditions. Changes in market conditions may adversely affect the trading price of the Trust Units.

Nature of Distributions

Unlike interest payments on an interest-bearing security, cash distributions by income trusts on trust units (including those of the Trust) are, for Canadian tax purposes, composed of different types of payments (portions of which may be fully or partially taxable or may constitute non-taxable "returns of capital"). The composition for tax purposes of those cash distributions may change over time, thus affecting the after-tax return to Trust Unitholders. Therefore, a Trust Unitholder's rate of return over a defined period may not be comparable to the rate of return on a fixed-income security that provides a return on capital over the same period. This is because a Trust Unitholder may receive cash distributions that constitute a return of capital (rather than a return on capital) to some extent during the relevant period. Returns on capital are generally taxed as ordinary income or as dividends in the hands of a Trust Unitholder while returns of capital are generally non-taxable to a Trust Unitholder (but reduce a Trust Unitholder's cost base in the Trust Unit for tax purposes). Trust Unitholders are advised to consult their own tax advisors with respect to the implications of the distinction discussed above in their own circumstances.

Variability of Distributions

As the cash flow available for distribution to Trust Unitholders is a function of numerous factors, including AmalgamationCo's financial performance, the impact of interest rates, electricity prices, gas and NGLs prices, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of Trust Units and Exchangeable Securities outstanding, depending on the operations of AmalgamationCo and the performance of its assets, Distributions may be reduced or suspended entirely.

The market value of the Trust Units may deteriorate if the Trust is unable to meet its cash distribution targets in the future, and that deterioration may be material.

Changes in Legislation

There can be no assurance that income tax laws, such as the status of mutual fund trusts, will not be changed in a manner which adversely affects Trust Unitholders.

Environmental and applicable operating legislation may be changed in a manner which adversely affects Trust Unitholders.

Investment Eligibility

If the Trust ceases to qualify as a mutual fund trust, the Trust Units will cease to be qualified investments for Exempt Plans which will have adverse tax consequences to Exempt Plans or their annuitants or beneficiaries.

Distribution of Trust Units or Holding Trust Notes on Redemption or Termination of the Trust

It is anticipated that the redemption right will not be the primary mechanism for Trust Unitholders to liquidate their investment. Securities which may be received as a result of a redemption of Trust Units will not be listed on any stock exchange and no market for such securities is expected to develop. The securities so distributed may not be qualified investments for Exempt Plans, depending upon the circumstances existing at that time. On termination of the Trust, the Trustee may distribute the securities directly to Trust Unitholders, subject to obtaining all of the necessary regulatory approvals. In addition, there may be resale restrictions imposed by applicable law upon the recipients of securities pursuant to the redemption right. The Holding Trust Notes will not be guaranteed by any other party, and the provisions of the Holding Trust Note Indenture governing events of default and the remedies available thereunder will not provide protection to the holders of Holding Trust Notes which would be comparable to the provisions generally found in debt securities issued to the public.

Debt Service

AmalgamationCo may, from time to time, finance a significant portion of its operations through debt. Amounts paid in respect of interest and principal on debt incurred by AmalgamationCo may impair AmalgamationCo's ability to satisfy its obligations under the LP Subco Debt. Variations in interest rates and scheduled principal repayments could result in significant changes in the amount required to be applied to debt service before payment by AmalgamationCo of its obligations under the LP Subco Debt. Ultimately, this may result in lower levels of Distributable Cash for the Trust.

Dependence on AmalgamationCo

The Trust will be entirely dependent upon the success of the operations of AmalgamationCo through its indirect ownership of AmalgamationCo. Accordingly, the distributions to the Trust Unitholders will be dependent on the ability of AmalgamationCo to generate cash flow.

Taxation of AmalgamationCo

There can be no assurance that Canadian federal income tax laws and administrative policies respecting the treatment of mutual fund trusts will not be changed in a manner which adversely affects the holders of the Trust Units. For example, if the Trust ceases to qualify as a "mutual fund trust" under the Tax Act, the income tax considerations described under the heading "*Certain Canadian Federal Income Tax Considerations*" would be materially and adversely different in certain respects.

Income fund structures often involve significant amounts of inter-entity debt, generating substantial interest expense, which serves to reduce earnings and therefore income tax payable. The Board of Directors expects this to be the case in respect of AmalgamationCo and its interest expense on the LP Subco Debt. There can be no assurance that taxation authorities will not seek to challenge the amount of interest expense deducted. If such a challenge were to succeed against AmalgamationCo, it could have a materially adverse affect on the amount of distributable cash available.

Net Asset Value

The net asset value of the assets of the Trust from time to time will vary dependent upon a number of factors beyond the control of management, including commodity prices. The trading prices of the Trust Units from time to time is also determined by a number of factors which are beyond the control of management and such trading prices may be greater than the net asset value of the Trust's assets.

Residual Liabilities of AltaGas

Pursuant to the Arrangement, AmalgamationCo will be the corporation resulting from the amalgamation of AltaGas, LP Subco, the Holdcos and the Amalgamating Subsidiaries. As a result, AmalgamationCo will own, directly or indirectly, all of the assets of AltaGas. As the successor entity to AltaGas, AmalgamationCo will retain all liabilities of AltaGas, including liabilities relating to corporate and income tax matters.

Unitholder Limited Liability

The Declaration of Trust provides that no Unitholder will be subject to any liability in connection with the Trust or its obligations and affairs and, in the event that a court determines Unitholders are subject to any such liabilities, the liabilities will be enforceable only against, and will be satisfied only out of the Trust's assets. Pursuant to the Declaration of Trust, the Trust will indemnify and hold harmless each Unitholder from any costs, damages, liabilities, expenses, charges and losses suffered by a Unitholder resulting from or arising out of such Unitholder not having such limited liability.

The Declaration of Trust provides that all written instruments signed by or on behalf of the Trust must contain a provision to the effect that obligations under those instruments will not be binding upon Unitholders personally. Personal liability may however arise in respect of claims against the Trust that do not arise under contracts, including claims in tort, claims for taxes and possibly certain other statutory liabilities. The possibility of any personal liability of this nature arising is considered unlikely.

The operations of the Trust will be conducted, upon the advice of counsel, in such a way and in such jurisdictions as to avoid as far as possible any material risk of liability to the Unitholders for claims against the Trust, including by obtaining appropriate insurance, where available and to the extent commercially feasible.

Deductibility of Expenses

Although the General Partner is of the view that all expenses to be claimed by the Trust, Holding Trust, AltaGas LP #1 and AltaGas LP #2 will be reasonable and deductible, there can be no assurance that CRA will agree. If CRA successfully challenges the deductibility of any such expenses, the return to Trust Unitholders may be adversely affected.

The Partnerships

As the Exchangeable Securities are intended to be the voting and economic equivalent of Trust Units, for a discussion of the risk factors associated with holding, and the ownership of, Exchangeable Securities, in addition to the risk factor disclosed under this heading, please refer to the discussion of the risk factors above under the heading "*Risk Factors – The Trust*". A prospective investor should consider carefully all such risk factors.

Risks Associated with Exchangeable Securities

Certain risks are associated with a Securityholder electing to receive Exchangeable Securities under the Arrangement, including: restrictions on the ability of a holder to transfer Exchangeable Securities; the fact that no opinion has been requested or obtained by AltaGas or the Trust as to the tax consequences of such election to a particular Securityholder and that neither AltaGas nor the Trust is providing any representation as to the tax consequences of any such election.

Indemnity of Limited Partners

While the General Partner has agreed pursuant to both the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement to indemnify the limited partners of AltaGas LP #1 and AltaGas LP #2, including without limitation holders of LP #1 A Units, LP #2 A Units and Exchangeable Securities, the General Partner may not have sufficient assets to honour such indemnification.

AmalgamationCo

The following are the primary risks associated with the business and affairs of AmalgamationCo and should be considered carefully in light of the fact that the Trust will depend entirely on the operations and assets of AmalgamationCo for its income, and thereby its ability to pay distributions to Trust Unitholders.

These risks are applicable to AltaGas' current operations and AmalgamationCo's future operations. The Arrangement itself does not create any of these risks but simply reallocates those risks to AmalgamationCo, as the successor to the business and affairs currently conducted by AltaGas.

Operating Risk

As AmalgamationCo continues to grow and diversify its midstream energy business the risk profile of AmalgamationCo may change. AmalgamationCo may enter into or expand business components where there is greater economic exposure and more "at risk" capital. AmalgamationCo's expectation of higher returns from these businesses justifies the level of risk. In addition, AmalgamationCo enters into these businesses on the basis that these risks can be actively managed.

AmalgamationCo's current operations are subject to the risks normally associated with the operation and development of natural gas and power facilities, including mechanical failure, physical degradation, operator error, manufacturer defects, sabotage, terrorism, failure of supply, catastrophic events and natural disasters. The occurrence or continuation of these events could increase AmalgamationCo's costs and reduce its ability to process or transport natural gas or deliver power.

AmalgamationCo believes that operational risk is best managed by maintaining control over the timing of capital expenditures, operational decisions and costs by becoming the operator of the facilities in which it invests. At the end of 2003, AmalgamationCo operated 65 of its 67 field gathering and processing facilities, all of its transmission facilities and all of AltaGas Utilities' distribution assets. AmalgamationCo does not operate its extraction plant interests or the assets underlying its PPA based arrangements. Failure by the operators of these facilities to operate at the cost or in the manner projected by AmalgamationCo could negatively affect AmalgamationCo's results.

Facility Throughput

The majority of AmalgamationCo's gathering and processing facilities process or transport natural gas from the Western Canadian Sedimentary Basin. Continuing use of these systems is dependent on a number of factors including the level of exploration and development within the basin, the longer term price of natural gas, the ability of natural gas producers to deliver natural gas to the various pipeline systems and the regulatory environment for producers, transporters and consumers of natural gas.

Throughput at AmalgamationCo's gathering and processing facilities is influenced by production of natural gas in the areas serviced by AmalgamationCo. At all of its field gathering and processing facilities, AmalgamationCo actively pursues opportunities to maintain or increase throughput and has been successful in offsetting production declines. AmalgamationCo's contract provisions mitigate the impact of volume declines, generate additional volumes for gathering and processing at its facilities, encourage expansion into areas where AmalgamationCo's facilities are located and allow AmalgamationCo to recover its invested capital in a relatively short period of time. The majority of AmalgamationCo's field processing facilities are skid-mounted and can be moved to areas with favourable production potential should a particular area's production decline significantly.

Market Risk

AmalgamationCo is exposed to market risks resulting from movements in commodity prices and interest rates. AmalgamationCo manages its exposure to these risks through the use of various physical and financial instruments.

AmalgamationCo's Commodity Risk Management Policy details the parameters used to measure, monitor and report commodity price risks. It also includes risk management guidelines and objectives, risk tolerance and approved products. This policy prohibits the use of physical and financial instruments for speculative purposes.

Electricity Prices

AmalgamationCo's revenue from sales related to PPAs are subject to Alberta electricity market factors such as fluctuating supply and demand, which may be affected by weather, customer usage, economic activity and growth. AmalgamationCo reduces its exposure to floating electricity prices by supplying internal electrical demand requirements and locking in margins with financial instruments.

Natural Gas Liquids Fractionation Price

AmalgamationCo's extraction business depends in part on the level of demand for and pricing of NGLs. AmalgamationCo cannot predict the impact of future economic conditions, fuel conservation measures, alternative fuel requirements, governmental regulation or technological advances in fuel economy and energy generation devices, all of which could reduce the demand for natural gas and NGLs. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGLs prices and crude oil prices. As crude oil prices fall, NGLs prices will generally decrease subject to other factors that influence the supply and demand. All of AmalgamationCo's net share of the ethane production and approximately 50% of AmalgamationCo's share of NGLs bear no commodity price risk. The remaining NGLs are subject to the spread between the price received for the NGLs extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs.

Interest Rate

AmalgamationCo is exposed to interest rate fluctuations on variable rate debt. AmalgamationCo monitors its level of fixed to floating and variable rate debt instruments and from time to time interest rate swaps are used to help maintain balances of each commensurate with AmalgamationCo's target to have 70 to 75% of its debt at fixed interest rates. At December 31, 2003 AmalgamationCo had fixed interest rates on $180.0 million or 61% of its floating rate debt through interest rate swaps. At year end approximately $280.0 million or 71% of AmalgamationCo's total debt, including its Medium Term Notes and swaps, was at fixed interest rates.

Weather

The AEUB sets rates based upon a deemed capital structure, an allowed rate of return on common equity, an approved rate base and costs expected to be incurred by the utility assuming normal weather conditions. As customers are billed on an actual volume basis, the utility's ability to recover the allowed rate of return depends upon achieving the forecast distribution volumes under "normal weather" conditions. Degree days are used to measure coldness in a franchise area. Degree day deficiency is a measure of coldness. It is calculated by accumulating for each day in the fiscal period the total number of degrees by which the daily mean temperature falls below 18 degrees celcius.

Regulatory

AmalgamationCo's businesses are subject to regulation in the jurisdictions in which they carry on business. Pipeline and facilities can be subject to common carrier and common processor applications and to rate setting by the regulatory authorities in the event an agreement on fees or tariffs cannot be reached with producers. To the extent that producers believe processing fees or tariffs respecting pipelines and facilities are too high, they may seek relief through regulator intervention. In the natural gas distribution business under return on rate base regulation, rates are set which allow the regulated entity the opportunity to cover its costs and earn a reasonable return. However there is no guarantee that the entity will earn its fair return because rates are set to cover future estimated costs based on future estimated demand and "normal weather" conditions and the entity's actual revenues may be more or less than the actual costs. In addition, warmer than normal weather may result in lower than expected demand.

Credit Risk

AmalgamationCo is exposed to credit-related losses in the event that counterparties to contracts fail to fulfill their present or future financial obligations to AmalgamationCo. AmalgamationCo minimizes counterparty risk by conducting credit reviews on clients prior to providing services, by participating in contract negotiations to include credit mitigation clauses and by obtaining financial or performance assurances from clients. AmalgamationCo provides an allowance for doubtful accounts in the normal course of its business.

OTHER MATTERS TO BE BROUGHT BEFORE THE MEETING

Approval of Trust Unit Option Plan

At the Meeting, Securityholders will be asked to consider and, if deemed advisable, approve the adoption by AltaGas of a Trust Unit Option Plan which will authorize AltaGas to grant Trust Options to purchase Trust Units to directors, officers, employees, consultants and other personnel of AltaGas and its affiliates (and following the Effective Date of the Arrangement, AmalgamationCo and its affiliates). The number of authorized but unissued Trust Units that may be subject to Trust Options at any time, plus the number of Trust Units that have been issued on exercise of Trust Options granted under the Trust Unit Option Plan (including Trust Options granted to holders of Options not otherwise exercised prior to the Effective Date), may not exceed 1,750,000. In addition, the Trust Options granted under the Trust Unit Option Plan, together with all of AltaGas' other previously established or proposed Trust Unit compensation arrangements, shall not result at any time in:

(a) the number of Trust Units reserved for issuance pursuant to Trust Options granted to insiders exceeding 10% of the outstanding issue;

(b) the issuance to insiders within a one (1) year period, of a number of Trust Units exceeding 10% of the outstanding issue; or

(c) the issuance to any one (1) insider and such insider's associates, within a one (1) year period, of a number of Trust Units exceeding 5% of the outstanding issue.

The number of Trust Units reserved for issuance pursuant to Trust Options granted to any one (1) individual may not exceed 5% of the issued and outstanding Trust Units. The Trust Unit Option Plan provides that the terms of the Trust Options granted and the Trust Option prices shall be fixed by the Board of Directors subject to the price and other restrictions imposed by the relevant regulatory authorities. The Trust Unit Option Plan also provides that no Trust Option shall be granted to any person except upon recommendation of the Board of Directors. Trust Options granted under the Trust Unit Option Plan may not be for a period longer than ten (10) years and the exercise price must be paid in full upon exercise of the Trust Option. The administration and operation of the Trust Unit Option Plan may be delegated by the Board of Directors to the Human Resources and Compensation Committee.

The AltaGas Directors have authorized the acquisition of all the issued and outstanding unexercised (whether vested or unvested) Options from the Optionholders as part of the Arrangement in exchange for Trust Options under the Trust Unit Option Plan on a one-for-one basis, subject to each such Optionholder entering into a trust option agreement, with the terms of each such Trust Option being the same as the terms of the Option exchanged therefore (including, without limitation, the exercise price) and the terms of the applicable trust option agreement being substantially the same as the terms of the applicable agreement relating to the Options being exchanged other than the substitution of a Trust Unit for each Common Share purchasable pursuant to the Option prior to the Effective Time.

The Trust Unit Option Plan is subject to the approval of the TSX and no Trust Options which are granted prior to the receipt of such approval may be exercised until such approval has been received.

At the Meeting, Securityholders will be asked to consider and, if deemed advisable, to approve the following ordinary resolution to approve the adoption of the Trust Unit Option Plan for AltaGas:

"BE IT RESOLVED as an ordinary resolution of the unitholders of AltaGas Income Trust that the Trust Unit Option Plan, as more particularly described in AltaGas Services Inc.'s Information Circular and Proxy Statement dated March 26, 2004, be and the same is hereby approved and authorized."

Pursuant to the requirements of the TSX, the foregoing resolution must be approved by a simple majority of the votes cast at the Meeting by Securityholders voting in person or by proxy. The persons named in the enclosed form of proxy, if named as proxy, intend to vote for the approval of the adoption of the Trust Unit Option Plan.

GENERAL PROXY MATTERS

Solicitation of Proxies

This Information Circular is furnished in connection with the solicitation of proxies by the management of AltaGas to be used at the Meeting. Solicitations of proxies will be primarily by mail, but may also be by newspaper publication, in person or by telephone, fax or oral communication by directors, officers, employees or agents of AltaGas who will be specifically remunerated therefor. All costs of the solicitation will be borne by AltaGas. AltaGas has not made a decision to engage proxy solicitation agents to encourage the return of completed proxies by Securityholders and to solicit proxies in favour of the Arrangement Resolution. AltaGas may however do so, and if it does, the costs in respect of such services would be paid by AltaGas.

Appointment and Revocation of Proxies

Accompanying this Information Circular are, in the case of holders of Common Shares, a form of proxy printed on GREEN paper, in the case of holders of Participating Shares, a form of proxy printed on BLUE paper and in the case of holders of Options, a form of proxy printed on WHITE paper for use at the Meeting.

The persons named in the enclosed forms of proxy are directors or officers of AltaGas. **A Securityholder desiring to appoint a person (who need not be a Securityholder) to represent such Securityholder at a Meeting other than the persons designated in the accompanying forms of proxy may do so either by inserting such person's name in the blank space provided in the appropriate form of proxy or by completing another form of proxy and, in either case, sending or delivering the completed proxy to the offices of Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1 Attention: Proxy Department.** A form of proxy must be received by Computershare Trust Company of Canada not less than 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting or any adjournment thereof. Failure to so deposit a form of proxy shall result in its invalidation.

A Securityholder who has given a form of proxy may revoke it as to any matter on which a vote has not already been cast pursuant to its authority by an instrument in writing executed by such Securityholder or by his attorney duly authorized in writing or, if the Securityholder is a corporation, by an officer or attorney thereof duly authorized, and deposited either at the above mentioned office of Computershare Trust Company of Canada on or before the last Business Day preceding the day of the Meeting or any adjournment thereof or with the chairman of the Meeting on the day of the Meeting or any adjournment thereof.

The AltaGas Directors have fixed the record date for the Meeting as at the close of business on March 25, 2004. Securityholders of record as at the Record Date are entitled to receive notice of, to attend and to vote at the Meeting, except to the extent a holder of Common Shares transfers any Common Shares after the Record Date and the transferee of those Common Shares establishes ownership of the Common Shares and demands, not later than 10 days before the Meeting, that the transferee's name be included in the list of holders of Common Shares entitled to vote, in which case such transferee shall be entitled to vote such Common Shares at the Meeting.

Signature of Proxy

The form of proxy must be executed by the Securityholder or his attorney authorized in writing, or if the Securityholder is a corporation, the form of proxy should be signed in its corporate name under its corporate seal by

an authorized officer whose title should be indicated. A proxy signed by a person acting as attorney or in some other representative capacity should reflect such person's capacity following his signature and should be accompanied by the appropriate instrument evidencing qualification and authority to act (unless such instrument has been previously filed with AltaGas).

Voting of Proxies

The persons named in the accompanying forms of proxy will vote the Securities in respect of which they are appointed in accordance with the direction of the Securityholder appointing them. **In the absence of such direction, such Securities will be voted FOR the approval of the Arrangement Resolution.**

Exercise of Discretion of Proxy

The enclosed forms of proxy confer discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the accompanying Notice of Meeting and this Information Circular and with respect to other matters that may properly come before the Meeting. At the date of this Information Circular, management of AltaGas knows of no amendments, variations or other matters to come before the Meeting other than the matters referred to in the Notice of Meeting.

Voting Securities and Principal Holders Thereof

As at March 26, 2004 there were 36,927,793 Common Shares and 1,384,488 Options issued and outstanding. To the knowledge of the directors and officers of AltaGas, as at March 26, 2004 no person or company beneficially owned, directly or indirectly, or exercised control or direction, over more than 10% of the Common Shares other than:

Principal shareholders	Number of Common Shares	Percentage of class
Enbridge Inc.[(1)] Calgary, Alberta	9,197,500	24.91%

Note:

(1) This amount does not include the 9,000,000 Common Shares issuable upon the exchange of Participating Shares held by Enbridge. Assuming that such Participating Shares are converted into Common Shares and all issued and outstanding Options are exercised, Enbridge would hold 38.46% of the diluted Common Shares.

Procedure and Votes Required

Arrangement Resolution

The Interim Order provides that each holder of Securities at the close of business on the Record Date will be entitled to receive notice of, to attend and to vote at the Meeting. In addition, the Interim Order provides that each Holder of Securities issued by AltaGas after the Record Date and prior to the date of the Meeting will be entitled to receive notice of and to vote at the Meeting. Each such Securityholder will be entitled to vote in accordance with the provisions set out below, provided that, to the extent that a Common Shareholder transfers the ownership of any Common Shares after the Record Date and the transferee of those Common Shares establishes ownership of the Common Shares and demands, not later than 10 days before the Meeting, to be included in the list of Common Shareholders entitled to vote at the Meeting, such transferee will be entitled to vote those Common Shares at the Meeting.

Pursuant to the Interim Order:

(c) each Common Shareholder will be entitled to one vote for each Common Share held, each Participating Shareholder will be entitled to one vote for each Participating Share held and each

Optionholder will be entitled to one vote for each Common Share issuable upon the exercise of such Options;

(d) the majority required to pass the Arrangement Resolution, shall be, subject to further order of the Court, not less than two-thirds of the votes cast, either in person or by proxy, at the Meeting by the Securityholders, voting together as a class;

(e) the quorum at the Meeting of the Securityholders will be two persons present in person or by proxy and holding or representing not less than 10% of the Securities entitled to be voted at such Meeting; and

(f) if no quorum of Securityholders is present within 30 minutes of the appointed time of the Meeting, the Meeting shall stand adjourned to the same day in the next week if a Business Day and, if such day is a non-Business Day, the Meeting shall be adjourned to the next Business Day following one week after the day appointed for the Meeting at the same time and place, and if at such adjourned meeting a quorum is not present, the Securityholders present, if at least two, shall be a quorum for all purposes.

Other Business

In order to comply with the rules of the TSX, matters under the heading "*Other Matters To Be Brought Before the Meeting*" must be approved by a simple majority of Securityholders voting in person or by proxy at the Meeting except where otherwise stated.

APPROVAL OF DIRECTORS

The AltaGas Directors have approved the contents of this Information Circular and the sending thereof to Securityholders.

By Order of the Board

"David W. Cornhill"
David W. Cornhill
Chairman of the Board

March 26, 2004.

CERTIFICATE

The foregoing contains no untrue statement of a material fact and does not omit to state a material fact that is required to be stated or that is necessary to make a statement not misleading in the light of the circumstances in which it was made.

DATED at Calgary, Alberta this 26th day of March, 2004.

"David W. Cornhill"
David W. Cornhill
Chairman and Chief Executive Officer

"Patricia M. Newson"
Patricia M. Newson
Senior Vice-President Finance and Chief Financial Officer

APPENDIX A

ARRANGEMENT RESOLUTION

ARRANGEMENT RESOLUTION

BE IT RESOLVED THAT:

1. the arrangement under section 192 of the *Canada Business Corporations Act* (the "**Arrangement**") substantially as set forth in the plan of arrangement (the "**Plan of Arrangement**") attached as Exhibit 1 to Appendix C to the Information Circular and Proxy Statement dated March 26, 2004 (the "**Information Circular**") accompanying the notice of this meeting is hereby authorized, approved, ratified and confirmed;

2. the Arrangement Agreement dated March 26, 2004 among AltaGas Services Inc. ("**AltaGas**"), AltaGas Income Trust, AltaGas Holding Trust, AltaGas General Partner Inc., AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2, AltaGas Subsidiary Corporation, AltaGas Suffield Pipeline Inc., AltaGas Liquids Inc., AltaGas (Sask.) Inc., Cedar Energy Inc., AltaGas Marketing Inc., Alberta Compression Rental Services Inc. and AltaGas Energy Solutions Inc. (the "**Arrangement Agreement**"), a copy of which is attached as Appendix C to the Information Circular accompanying the notice of this meeting, with such amendments or variations thereto made in accordance with the terms of the Arrangement Agreement as may be approved by the persons referred to in paragraph 4 hereof, such approval to be evidenced conclusively by their execution and delivery of any such amendments or variations, is hereby authorized, approved, ratified and confirmed;

3. notwithstanding that this resolution has been duly passed and/or has received the approval of the Court of Queen's Bench of Alberta, the board of directors of AltaGas may, without further notice to or approval of the holders of Common shares, the holders of Participating shares or the holders of options of AltaGas, subject to the terms of the Arrangement, amend or terminate the Arrangement Agreement or the Plan of Arrangement or revoke this resolution at any time prior to the filing of Articles of Arrangement giving effect to the Arrangement; and

4. any director or officer of AltaGas is hereby authorized, for and on behalf of AltaGas, to execute and deliver Articles of Arrangement and to execute, with or without the corporate seal, and, if, appropriate, deliver all other documents and instruments and to do all other things as in the opinion of such director or officer may be necessary or desirable to implement this resolution and the matters authorized hereby, such determination to be conclusively evidenced by the execution and delivery of any such document or instrument, and the taking of any such action.

APPENDIX B

INTERIM ORDER

IN THE COURT OF QUEEN'S BENCH OF ALBERTA

JUDICIAL DISTRICT OF CALGARY

IN THE MATTER OF SECTION 192 OF THE *CANADA BUSINESS CORPORATIONS ACT*, R.S.C. 1985, c C-44

AND IN THE MATTER OF A PROPOSED ARRANGEMENT INVOLVING ALTAGAS SERVICES INC., ALTAGAS INCOME TRUST, ALTAGAS HOLDING TRUST, ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 1, ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 2, ALTAGAS SUBSIDIARY CORPORATION, ALTAGAS GENERAL PARTNER INC., CERTAIN DIRECT AND INDIRECT WHOLLY-OWNED SUBSIDIARIES OF ALTAGAS SERVICES INC., CERTAIN OTHER CORPORATIONS AND THE SECURITYHOLDERS OF ALTAGAS SERVICES INC.

BEFORE THE HONOURABLE	)	**AT THE COURT HOUSE, AT CALGARY, ALBERTA,**
MR. JUSTICE J.D. ROOKE	)	**ON THE 23RD DAY OF MARCH, 2004.**
IN CHAMBERS	)	

INTERIM ORDER

UPON the Petition of AltaGas Services Inc. ("**AltaGas**");

AND UPON reading the Petition and the Affidavit of Dennis A. Dawson, filed;

AND UPON hearing counsel for AltaGas; AND UPON noting the consent of counsel for AltaGas Income Trust, AltaGas Holding Trust, AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2, AltaGas Subsidiary Corporation ("**LP Subco**"), AltaGas General Partner Inc., certain direct and indirect wholly-owned subsidiaries of AltaGas and certain other corporations;

AND UPON noting that the Director appointed under Section 260 of the *Canada Business Corporations Act*, R.S.C. 1985, c.C-44 (the "**CBCA**") has been given notice of this application as required by Section 192(5) of the CBCA and has advised that he does not intend to appear in person or by counsel or make any representations;

FOR THE PURPOSES OF THIS ORDER:

(a) the capitalized terms not defined in this Order shall have the meanings attributed to them in the draft Information Circular and Proxy Statement of AltaGas (the "**Information Circular**"), which is attached as Exhibit "A" to the Affidavit of Dennis A. Dawson sworn March 23, 2004 (the "**Affidavit**"); and

(b) all references to "Arrangement" used herein mean the arrangement as described in the Affidavit and in the plan attached as Schedule A to the Arrangement Agreement, which is attached as Appendix C to the Information Circular.

IT IS ORDERED THAT:

The Meeting

1. The Meeting shall be a single meeting of holders of AltaGas' Common Shares ("**Common Shareholders**"), holders of its Participating Shares ("**Participating Shareholders**") and holders of Options to acquire its common shares ("**Optionholders**") (collectively the "**Securityholders**") who shall vote together as a single class.

2. AltaGas is authorized and directed to call, hold and conduct the Meeting in accordance with the Notice of Meeting, the CBCA and applicable securities laws, the articles and by-laws of AltaGas, this Order, and the rulings and directions of the Chairman of the Meeting, and in that connection to submit the Plan to the Meeting for the consideration of Securityholders.

Amendments

3. AltaGas is authorized to make such amendments, revisions and/or supplements to the Plan as it may determine, and the Plan as so amended, revised and/or supplemented shall be the Plan submitted to the Meeting and the subject of the Arrangement Resolution.

Adjournments and Postponements

4. AltaGas (acting through the Chairman of the Meeting), if it deems it advisable, is specifically authorized to adjourn or postpone the Meeting on one or more occasions without the necessity of first convening the Meeting or first obtaining any vote of Securityholders respecting the adjournment or postponement.

Record Date for Notice

5. The record date for determination of Securityholders entitled to receive the Notice of Meeting, Notice of Petition, Information Circular, proxy and Letter of Transmittal and Election Form shall be March 25, 2004.

Notice of Meeting

6. AltaGas shall give notice of the Meeting in the form of the Notice of Meeting. The Notice of Meeting shall be given, by one of the methods set out in paragraph 9 of this Order, not later than 21 days prior to the date established for the Meeting in the Notice of Meeting. Accidental failure or omission to give notice as a result of events beyond the reasonable control of AltaGas (including, without limitation, inability to utilize postal services or transmission interruptions) shall not constitute a breach of this Order or a defect in the calling of the Meeting, but if any such failure or omission is brought to the attention of AltaGas it shall be rectified by AltaGas by the method and in the time most reasonably practicable in the circumstances. The Notice of Meeting shall be deemed to have been received in accordance with paragraph 11 of this Order.

The Information Circular

7. AltaGas is authorized and directed to send the Information Circular to Securityholders and is specifically authorized to incorporate by reference the documents listed therein. The Information Circular shall be distributed or made available in accordance with paragraph 9 of this Order and shall be deemed to have been received in accordance with paragraph 11 of this Order.

Solicitation of Proxies

8. AltaGas is authorized to use the proxies enclosed with the Information Circular, subject to its ability to insert dates and other relevant information in the final forms of such proxies. AltaGas is authorized, at its expense, to solicit proxies, directly and through its officers, directors and employees, and through such agents or representatives as it may retain for that purpose, and by mail or such other forms of personal and electronic communication as it may determine.

Method of Dissemination

9. The Notice of Meeting, Notice of Petition, Information Circular, proxy, Letter of Transmittal and Election Form and any other communication(s) and/or documents relating to the Meeting as determined by AltaGas (including a copy of this Order) shall be disseminated, distributed, sent, served upon and given to Securityholders in one or more of the following methods:

(a) by first class prepaid mail, addressed to each Securityholder at the address of the Securityholder recorded on the registers of AltaGas;

(b) by delivery, in person or by recognized courier service, to the addresses specified in paragraph (a) above; or

(c) by facsimile transmission to any Securityholder who identifies itself to the satisfaction of AltaGas and the scrutineers, who requests such transmission and if required by AltaGas is prepared to pay the charges for such transmission;

and shall be sent by first class prepaid mail to the directors and auditors of AltaGas and the Director, and shall be electronically filed with the Toronto Stock Exchange via the system for electronic document analysis and retrieval; and substantial compliance with this paragraph shall constitute good and sufficient notice of the Meeting.

10. Notice of any amendments, updates, or supplements to any of the information provided pursuant to paragraph 9 of this Order may be communicated to Securityholders by press release, newspaper advertisement or by notice to Securityholders by one of the methods specified in paragraph 9 of this Order, as determined to be the most appropriate method of communication by the board of directors of AltaGas.

Deemed Receipt of Notice

11. The Notice of Meeting, Notice of Petition, Information Circular, proxy, Letter of Transmittal and Election Form and a copy of this Order shall be deemed, for the purposes of this Order, to have been received by Securityholders:

(a) in the case of mailing, 3 days after delivery thereof to the Post Office;

(b) in the case of personal delivery, upon receipt thereof by the intended addressee or, in the case of delivery by courier, 1 Business Day after receipt by the courier; and

(c) in the case of facsimile transmission, upon the transmission thereof.

Chairman

12. The Chairman of the Meeting shall be the person designated in the by-laws of AltaGas, or if so determined by the AltaGas Directors, a member of the AltaGas Directors present at the Meeting and selected for that purpose by the AltaGas Directors present. The duties and authorities of the Chairman shall extend in every respect to the conduct of the Meeting.

Scrutineers

13. Subject to its agreement, the scrutineers for the meeting shall be Computershare Trust Company of Canada (acting through its representatives for that purpose). The duties of the scrutineers shall be, *inter alia*, to monitor and report on attendance and to monitor and report on all ballots and motions taken at the Meeting. The duties of the scrutineers shall extend to:

(a) invigilating and reporting to the Chairman on the deposit and validity of proxies;

(b) reporting to the Chairman on the quorum of the Meeting;

(c) reporting to the Chairman on any polls taken or ballots cast at the Meeting; and

(d) providing to AltaGas and to the Chairman and to the Secretary of the Meeting (described below) written reports on matters related to their duties.

Secretary

14. The Secretary of the Meeting shall be the Corporate Secretary of AltaGas, or in his absence, a person (who need not be an officer or employee of AltaGas) selected for that purpose by the Chairman of the Meeting, provided that the Secretary shall be entitled to retain others to assist in the performance of his duties. The Secretary shall be responsible for maintaining, or causing to be maintained, the records and proceedings of the Meeting.

Deposit of Proxies

15. Proxies must be deposited with the scrutineers at the office of the scrutineers designated in the Notice of Meeting, or with persons appointed by the scrutineers for that purpose, not less than 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting, or any adjournment or postponement of the Meeting.

16. Proxies must be completed and executed in accordance with the instructions contained thereon. Proxies must be actually delivered to AltaGas or the scrutineers prior to or by the time prescribed in paragraph 15 above, provided that, in the discretion of the Chairman, proxies which are not physically deposited may be accepted by the Chairman if transmitted to AltaGas or the scrutineers or the Chairman in a form and/or by a person, prior to or by the above times, reasonably believed by the Chairman to be genuine.

17. The Chairman is authorized to, but need not, accept any form of proxy other than the form(s) prescribed herein which is reasonably believed by the Chairman to be in a lawful form, to be genuine, and to indicate the voting intention of the Securityholder or its proxy.

Revocation of Proxies

18. Proxies given by Securityholders for use at the Meeting may be revoked at any time prior to their use. A Securityholder giving a proxy may revoke the proxy: (a) by instrument in writing executed by the Securityholder or by his or her attorney authorized in writing, or, if the Securityholder is a corporation, under its corporate seal by an officer or attorney thereof duly authorized indicating the capacity under which such officer or attorney is signing, and deposited either with the scrutineers at the office of the scrutineers designated in the Notice of Meeting and/or Information Circular not later than 5:00 p.m. (Calgary time), on the last Business Day preceding the day of the Meeting (or any adjournment or postponement thereof) or with the Chairman on the day of the Meeting (or adjournment or postponement thereof); (b) by a duly executed and deposited proxy bearing a later date or time than the date or time of the proxy being revoked; (c) by voting in person at the Meeting (although attendance at the Meeting will not in and of itself constitute a revocation of proxy); or (d) in any other manner permitted by law.

19. The Chairman shall have the authority to determine whether any proxy and/or revocation of any proxy and/or reasonable facsimile thereof:

    (a) has been properly executed;

    (b) has been properly delivered;

    (c) is genuine; and/or

    (d) indicates the intention of the Securityholder submitting the same.

20. Any ruling of the Chairman shall be final and determinative, provided that: (a) that the Chairman shall be required to report to AltaGas the ruling thereon, and (b) that any person properly appearing before this Court who wishes to contest any such ruling may do so in proceedings in this Court.

21. The right is reserved to the Chairman to waive any timing or deposit requirement (individually in any particular case or collectively in any series of cases) prescribed above, provided that he instructs the scrutineers prior to the last time at which any proxy or revocation is to be used.

General Procedures

22. A poll and a ballot shall be taken on the Arrangement Resolution presented to the Meeting, and on any other matters properly coming before the Meeting as ruled upon by the Chairman. The result of any ballot taken shall be final and determinative of the question or resolution on which the ballot is taken (subject to any contest thereon brought in any proceedings before this Court).

Quorum and Voting

23. The quorum required at the Meeting will be two Securityholders present in person, or represented by proxy, at the opening of the Meeting, and holding or representing not less than 10% of the Securities entitled to be voted at such Meeting, provided that if a quorum is not so present within 30 minutes of the appointed time of the Meeting, the Meeting shall stand adjourned to the same day in the next week if a Business Day and, if such day is a non-Business Day, the Meeting shall be adjourned to the next Business Day following one week after the day appointed for the Meeting at the same time and place, and if at such adjourned meeting a quorum is not present, the Securityholders present, if at least two, shall be a quorum for all purposes.

24. The vote required to approve the Arrangement Resolution is 66⅔% of the votes actually cast (not counting for this purpose abstentions, spoiled votes, illegible votes and/or defective votes). For these purposes each of AltaGas' Common Shares and Participating Shares shall carry one vote and each Option of AltaGas shall carry one vote for each Common Share that would be issuable on the exercise of such Option.

Permitted Attendees

25. The persons entitled to be present at the Meeting are those entitled to be present pursuant to the CBCA or other applicable statute or the by-laws of AltaGas, including, or as well as, as the case may be, the following persons:

(a) the Chairman;

(b) the Securityholders or their proxies;

(c) the directors and officers of AltaGas;

(d) the scrutineers (and their representatives for that purpose);

(e) the Secretary (and his assistants);

(f) the auditors of AltaGas;

(g) the legal and financial advisors of AltaGas;

(h) the Director (and his representatives); and

(i) other persons with the permission of the Chairman.

26. Except for Securityholders or their proxies and the Director, who may address the Meeting as of right, the Chairman shall be entitled to determine which other persons may address the Meeting.

Dissent and Appraisal Rights

27. All Securityholders shall be entitled to exercise rights of dissent and appraisal, in accordance with and in compliance with Section 190 of the CBCA and the Plan, provided that: (a) notwithstanding subsection 190(5) of the CBCA, the objection to the Arrangement Resolution referred to in subsection 190(5) of the CBCA must be received by the Applicant not later than 5:00 p.m. (Calgary time) on the Business Day preceding the Meeting; and (b) notwithstanding Section 190 of the CBCA, Securityholders who are ultimately determined to be entitled to be paid fair value for their AltaGas securities shall be deemed to have transferred those securities to LP Subco for cancellation on the Effective Date in consideration of the payment of the fair value thereof from LP Subco.

Variance

28. AltaGas is entitled at any time to seek leave to vary this Order.

Service of Notice on Sanction Hearing

29. The persons entitled to be served with or given notice of any further proceedings herein, including any hearing to sanction and approve the Plan, and to appear and to be heard thereat, shall be only (a) the Director and (b) the persons who have delivered Notice of Intention to Appear in accordance with the notice provisions set out in paragraph 33 below.

30. Delivery of a copy of this Order and the Notice of Petition in the Information Circular in the manner prescribed above shall constitute good and sufficient service and notice of the hearing to approve the Plan.

31. Upon compliance with paragraphs 29 and 30 above no further or other notice of the hearing to approve the Plan shall be required.

Final Application

32. Subject to further Order of this Court and provided that Securityholders have approved the Arrangement and the directors of AltaGas have not revoked that approval, AltaGas may proceed with an application for approval of the Arrangement and the Final Order on April 30, 2004 at 9:00 a.m. (Calgary time) or so soon thereafter as counsel may be heard at the Court House, 611 – 4th Street S.W., Calgary, Alberta. Subject to the Final Order, and to the issuance of the Certificate, all Securityholders, all Holdco Shareholders, AltaGas, the Trust, AltaGas Holding Trust, AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2, AltaGas Subsidiary Corporation, AltaGas General Partner Inc., the Amalgamating Subsidiaries and the Holders will be bound by the Arrangement in accordance with its terms.

Interested Persons

33. Any Securityholder and any other interested person may appear on, and make submissions at, the application for the Final Order, provided that such securityholder or other interested person shall file with this Court and serve on AltaGas, by service on AltaGas' counsel, on or before 12:00 noon (Calgary time) on April 23, 2004, a Notice of Intention to Appear, together with any evidence or materials which are to be presented to the Court, setting out each Securityholder's or other interested person's address for service by ordinary mail and indicating whether such Securityholder or other interested person intends to support or oppose the application or make submissions thereat, such Notice of Intention to Appear to be effected by delivery to the counsel for AltaGas at the address set forth below:

Stikeman Elliott LLP
4300 Bankers Hall West
888 – 3rd Street S.W.
Calgary, Alberta T2P 4J7
Attention: Luigi A Cusano

34. If the application for the Final Order is adjourned, only those holders or persons who have filed a Notice of Intention to Appear in accordance with paragraph 33 above need be served with notice of the adjourned date.

Precedence

35. To the extent of any inconsistency or discrepancy with respect to the matters determined in the Order, between this Order and the terms of any instrument creating or governing or collateral to the securities of AltaGas or to which the securities of AltaGas are collateral, or to the articles and/or by-laws of AltaGas, this Order shall govern.

THIS ARRANGEMENT AGREEMENT is dated as of March 26, 2004.

AMONG:

ALTAGAS SERVICES INC., a corporation incorporated pursuant to the laws of Canada (the "**AltaGas**")

- and -

ALTAGAS INCOME TRUST, an unincorporated open-ended investment trust established under the laws of Alberta (the "**Trust**")

- and -

ALTAGAS HOLDING TRUST, an unincorporated investment trust established under the laws of Alberta ("**Holding Trust**")

- and -

ALTAGAS GENERAL PARTNER INC., a corporation incorporated under the laws of Canada (the "**General Partner**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 1, a limited partnership established under the laws of Alberta ("**AltaGas LP #1**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 2, a limited partnership established under the laws of Alberta ("**AltaGas LP #2**")

- and -

ALTAGAS SUBSIDIARY CORPORATION, a corporation incorporated pursuant to the laws of Canada ("**LP Subco**")

- and -

Each of the **AMALGAMATING SUBSIDIARIES** (as hereinafter defined), each a corporation incorporated under or to be continued under the laws of Canada.

WHEREAS AltaGas wishes to pursue a reorganization of its affairs pursuant to a Plan (as hereinafter defined) under the CBCA (as hereinafter defined);

NOW THEREFORE IN CONSIDERATION of the covenants and agreements herein contained and other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the parties hereto covenant and agree as follows:

ARTICLE 1
INTERPRETATION

1.1 Definitions

In this Agreement, unless the context otherwise requires:

"**Agreement**", "**herein**", "**hereof**", "**hereto**", "**hereunder**" and similar expressions mean and refer to this Arrangement Agreement (including the Schedule hereto) as from time to time amended, supplemented or restated and not to any particular article, section, schedule or other portion hereof;

"**AltaGas LP #1 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, Holding Trust and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**AltaGas LP #2 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, AltaGas LP #1 and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**Acquisition Proposal**" means a proposal or offer by any third party, whether or not subject to conditions and whether or not in writing, to acquire in any manner, directly or indirectly, beneficial ownership of all or a material part of the assets of AltaGas (taken as a whole) or to acquire in any manner, directly or indirectly, beneficial ownership of or control or direction over all or substantially all of the outstanding voting shares of AltaGas, whether by means of an arrangement or amalgamation, a merger, consolidation or other business combination, a sale of shares or assets, a take-over bid, tender offer or exchange offer, reorganization into an income fund or any other transaction involving AltaGas, including, without limitation, any single or multi-step transaction or series of related transactions.

"**Amalgamating Subsidiaries**" means Alberta Compression Rental Services Inc., AltaGas Energy Processors Inc., AltaGas Liquids Inc., AltaGas Marketing Inc., AltaGas (Sask.) Inc., AltaGas Suffield Pipeline Inc., AltaGas Transmission Ltd. and Cedar Energy Inc.;

"**applicable law**" means any applicable law including any statute, regulation, by-law, treaty, guideline, directive, rule, standard, requirement, policy, order, judgement, decision, injunction, award, decree or resolution of any governmental authority, whether or not having the force of law;

"**Arrangement**" means the arrangement, under section 192 of the CBCA, on the terms and conditions set forth in the Plan;

"**Arrangement Resolution**" means the special resolution in respect of the Arrangement in substantially the form attached to the Information Circular, which special resolution will be voted on by Securityholders at the Meeting;

"**Articles of Arrangement**" means the articles of arrangement in respect of the Arrangement required under subsection 192(6) of the CBCA to be filed with the Director after the Final Order has been made giving effect to the Arrangement;

"**Business Day**" means a day, other than a Saturday, Sunday or statutory holiday, when banks are generally open in Calgary, Alberta, for the transaction of banking business;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Certificate**" means the certificate of arrangement to be issued by the Director pursuant to subsection 192(7) of the CBCA, giving effect to the Arrangement;

"**Common Shareholders**" means the holders of Common Shares;

"**Common Shares**" means Common shares in the capital of AltaGas;

"**Court**" means the Court of Queen's Bench of Alberta;

"**Declaration of Trust**" means the declaration of trust of the Trust dated as of March 26, 2004, between the settlor and the Trustee, as from time to time amended, supplemented or restated;

"**Depository**" means Computershare Trust Company of Canada, as depository under the Plan;

"**Director**" means the Director appointed under section 260 of the CBCA;

"**Dissent Rights**" means the right of a registered holder of Securities to dissent to the Arrangement Resolution and to be paid the fair value of the Securities in respect of which the Securityholder dissents, pursuant to and in accordance with section 190 of the CBCA and the Interim Order;

"**Dissenting Securityholders**" means registered holders of Securities who validly exercise Dissent Rights;

"**Effective Date**" means the date the Arrangement is effective under the CBCA;

"**Effective Time**" means 12:01 a.m. (Calgary time) on the Effective Date;

"**Enbridge**" means Enbridge Inc., a corporation incorporated pursuant to the CBCA;

"**Exchangeable Securities**" means, collectively, the LP #1 B Units and the LP #2 B Units;

"**Final Order**" means the order of the Court approving the Arrangement to be applied for following approval of the Arrangement pursuant to the provisions of Section 193 of the CBCA, as such order may be affirmed, amended or modified by any court of competent jurisdiction;

"**governmental authority**" includes any court (including a court of equity); any multinational, federal, provincial, state, regional, municipal or other government or governmental department, ministry, commission, board, bureau, agency or instrumentality; any securities commission, stock exchange or other regulatory or self-regulatory body; any arbitrator or arbitration authority; or any other governmental authority;

"**Holding Declaration of Trust**" means the declaration of trust of Holding Trust dated as of March 26, 2004, between the Holding Trust Trustee and the Trust, as from time to time amended, supplemented or restated;

"**Holding Trust Trustee**" means AltaGas Holding Trust Corp., as initial trustee of the Holding Trust, or such other person as becomes the trustee of the Holding Trust in accordance with the Holding Declaration of Trust;

"**Income Tax Act**" or "**Tax Act**" means the *Income Tax Act*, R.S.C. 1985, c. 1. (5th Supp), as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Information Circular**" means the information circular and proxy statement, together with all appendices thereto, to be distributed by AltaGas in connection with the Meeting;

"**Interim Order**" means the Interim Order of the Court pursuant to subsection 192(4) of the CBCA containing declarations and directions with respect to the Arrangement and the Meeting and issued pursuant to the application of AltaGas therefor;

"**Limited Partnership Agreements**" means, collectively, the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement;

"**LP #1 A Units**" means the Class A limited partnership units of AltaGas LP #1;

"**LP #1 B Units**" means the Class B limited partnership units of AltaGas LP #1, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #2 A Units**" means the Class A limited partnership units of AltaGas LP #2;

"**LP #2 B Units**" means the Class B limited partnership units of AltaGas LP #2, which are exchangeable into Trust Units on a one-for-one basis;

"**Meeting**" means the special meeting of Common Shareholders, the Participating Shareholder and Optionholders, and any adjournment(s) thereof, to consider and to vote on the Arrangement Resolution and such other matters as are set forth in the Notice of Meeting;

"**Notice of Meeting**" means the Notice of Special Meeting to accompany the Information Circular;

"**Non-Amalgamating Subsidiaries**" means, collectively, the subsidiaries of AltaGas other than the Amalgamating Subsidiaries;

"**Option**" means an option, or "**Options**" means, collectively, all outstanding options, to purchase Common Shares pursuant to AltaGas' existing stock option plan;

"**Optionholders**" means the holders of Options;

"**Participating Shares**" means Participating shares in the capital of AltaGas, all of which are presently owned, beneficially and of record, by Enbridge;

"**Participating Shareholder**" means the holder of Participating Shares;

"**person**" includes any individual, body corporate, partnership, association, joint venture, trust, other organization or entity (whether or not a legal entity) or governmental authority;

"**Plan**" means the Plan of Arrangement attached as Schedule A to this Agreement, as from time to time amended, supplemented or restated;

"**Securities**" means, collectively, the Common Shares, Participating Shares and Options;

"**Securityholders**" means, collectively, the Common Shareholders, the Participating Shareholder and Optionholders;

"**Shareholder Agreement**" means the shareholder agreement dated May 12, 1999 between AltaGas and Enbridge setting forth certain rights and obligations of AltaGas and Enbridge with respect to Enbridge's holdings of Common Shares and Participating Shares, as from time to time amended, supplemented or restated;

"**Special Voting Unit**" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee which entitles the holders of Exchangeable Securities to such number of votes at meetings of Unitholders as equals the number of Trust Units issuable from time to time on the redemption, retraction or exchange of those Exchangeable Securities;

"**subsidiary**" means, in relation to any person, any body corporate, partnership, joint venture, association or other entity of which more than 50% of the total voting power of shares or units of ownership or beneficial interest entitled to vote in the election of directors (or members of a comparable governing body) is owned or controlled, directly or indirectly, by such person;

"**Support Agreement**" means the support agreement to be entered into on the Effective Date among the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and AltaGas substantially in the form to be attached to the Information Circular, as from time to time amended, supplemented or restated;

"**Trust Options**" means options to purchase Trust Units;

"**Trust Unit**" or "**Unit**" means a trust unit, other than a Special Voting Unit, of the Trust, each such unit representing an equal undivided beneficial interest therein;

"**Trustee**" means Computershare Trust Company of Canada, as the initial trustee of the Trust, or such other person as becomes the trustee of the Trust pursuant to the Declaration of Trust;

"**TSX**" means the Toronto Stock Exchange;

"**Unitholders**" means the holders from time to time of Units;

"**Voting and Exchange Trust Agreement**" means the voting and exchange trust agreement to be entered into on the Effective Date among the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the Voting and Exchange Trustee substantially in the form to be attached to the Information Circular, as from time to time amended, supplemented or restated; and

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

1.2 Interpretation Not Affected by Headings, etc.

The division of this Agreement into sections and other portions and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation hereof. Unless otherwise indicated, all references in this Agreement to an "Article" or "Section" followed by a number and/or a letter refer to the specified article or section of this Agreement, and all references in this Agreement to a "Schedule" followed by a letter refer to the specified schedule to this Agreement.

1.3 Currency

Unless otherwise indicated, all sums of money referred to in this Agreement are expressed in lawful money of Canada.

1.4 Number, etc.

Unless the context otherwise requires, words importing the singular shall include the plural and vice versa and words importing any gender shall include all genders.

1.5 Date For Any Action

In the event that any date on which any action is required to be taken hereunder by any of the parties hereto is not a Business Day, such action shall be required to be taken on the next succeeding day which is a Business Day.

1.6 Entire Agreement

This Agreement and the agreements and other documents referred to herein constitute the entire agreement between the parties with respect to the Arrangement and other transactions contemplated hereby and supersede all other prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties with respect thereto.

1.7 Accounting Matters

Unless otherwise indicated, all accounting terms used in this Agreement shall have the meanings attributable thereto under Canadian generally accepted accounting principles and all determinations of an accounting nature required to be made shall be made in a manner consistent with Canadian generally accepted accounting principles and past practice.

1.8 Construction

In this Agreement, unless otherwise indicated:

(a) the words "include", "including" or "in particular", when following any general term or statement, shall not be construed as limiting the general term or statement to the specific items or matters set forth or to similar items or matters, but rather as permitting the general term or statement to refer to all other items or matters that could reasonably fall within the broadest possible scope of the general term or statement;

(b) a reference to a statute means that statute, as amended and in effect as of the date of this Agreement, and includes each and every regulation and rule made thereunder and in effect as of the date hereof;

(c) a reference to an "approval", "authorization", "consent", "designation", "notice" or "agreement" means an approval, authorization, consent, designation, notice or agreement, as the case may be, in writing, signed by an authorized representative of the party or parties thereto;

(d) the phrase "ordinary course of business", or any variation thereof, of any person refers to the business of such person, carried on in the regular and ordinary course including commercially reasonable and businesslike actions that are in the regular and ordinary course of business for a company operating in the industry in which such business is conducted;

(e) where a word, term or phrase is defined, its derivatives or other grammatical forms have a corresponding meaning;

(f) time is of the essence; and

(g) references to a "party" or "parties" are references to a party or parties to this Agreement.

1.9 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of Alberta and the federal laws of Canada applicable therein.

1.10Schedule

The following Schedule is annexed to this Agreement and is hereby incorporated by reference into this Agreement and forms an integral part hereof:

Schedule A – Plan of Arrangement

ARTICLE 2
THE ARRANGEMENT

2.1 Implementation Steps by AltaGas

AltaGas covenants in favour of each of the other parties that AltaGas shall:

(a) as soon as reasonably practicable, apply to the Court in a manner acceptable to the Trust, acting reasonably, under Section 192 of the CBCA and diligently prosecute an application for the Interim Order;

(b) subject to Section 2.3, convene and hold the Meeting as promptly as practicable in accordance with the Interim Order or otherwise as required by applicable laws for the purpose of considering and, if deemed advisable, approving the Arrangement and the transactions contemplated thereby (and for any other proper purpose as may be set out in the Notice of Meeting);

(c) subject to obtaining the approval(s) as are required by the Interim Order and as may be directed by the Court in the Interim Order, take all steps necessary or desirable to submit the Arrangement to the Court and apply for the Final Order; and

(d) subject to obtaining the Final Order and the satisfaction or waiver of the other conditions herein contained in favour of each party, send to the Director, for endorsement and filing by the Director, the Articles of Arrangement and such other documents as may be required in connection therewith under the CBCA to give effect to the Arrangement. Notwithstanding the foregoing, AltaGas shall be entitled, if it reasonably considers it appropriate to do so having regard, among other things, to the percentage of Common Shares, Participating Shares and Options that were voted in favour of the Arrangement and whether, and to what extent, Securityholders appear or are represented at the Court application in respect of the Interim Order or the Final Order expressing opposition to the Arrangement, to require that the filing of the Articles of Arrangement be delayed until the earlier of the termination date of this Agreement in accordance with Section 7.2 and the date three Business Days after all appeal periods applicable to the Interim Order and the Final Order have expired, and any such appeals, if any, made during such periods have been denied or withdrawn.

2.2 Interim Order

The application referred to in Section 2.1(a) shall include a request that the Interim Order provide for, among other things, the calling and holding of the Meeting for the purpose of considering and, if deemed advisable, approving the Arrangement and for the grant of the Dissent Rights.

2.3 Information Circular

As promptly as practicable, the parties shall cooperate in the preparation of the Information Circular, together with any and all other documents required by the CBCA or other applicable laws in connection with the Arrangement. As promptly as practicable after the completion of the Information Circular, AltaGas shall cause the Information Circular and all other documentation required in connection with the Meeting to be sent to each Securityholder and each other person as required by the Interim Order and applicable laws.

2.4 Securities Compliance

The parties shall use all reasonable commercial efforts to obtain all orders required from the applicable Canadian securities authorities to permit the issuance of the Trust Units and Exchangeable Securities pursuant to the Arrangement and to permit the issuance and first resale of:

(a) the Units to be issued pursuant to the Arrangement;

(b) the Units to be issued upon exchange of the Exchangeable Securities from time to time; and

(c) the Units to be issued upon exercise of Trust Options issued pursuant to the Arrangement;

in each case without qualification with or approval of or the filing of any document, including any prospectus or similar document, or the taking of any proceeding with, or the obtaining of any further order, ruling or consent from, any regulatory authority under any applicable Canadian securities or other laws or pursuant to the rules and regulations of any regulatory authority administering such laws, or the fulfilment of any other legal requirement in any such jurisdiction (other than, with respect to such first resales, any restrictions on transfer by reason of, among other things, a holder being a "control person" for the purposes of Canadian securities laws).

2.5 Preparation of Filings

(a) The parties shall cooperate in:

(i) the applications for the orders described in Section 2.4 and the preparation of such other documents reasonably deemed by the parties to be necessary to discharge, in the manner contemplated by Section 2.4, their respective obligations under applicable Canadian securities laws in connection with the Arrangement and the other transactions contemplated hereby;

(ii) the taking of all such actions as may be required under any applicable Canadian securities laws in connection with the issuance of and transfer of Securities, including the Units, Exchangeable Securities and Trust Options, in connection with the Arrangement; and

(iii) the taking of all such actions as may be required under the CBCA in connection with the transactions contemplated by this Agreement and the Plan.

(b) Each of the parties shall, on a timely basis, furnish to the others all such information concerning it and its respective securityholders as may be required (and, in the case of its securityholders, available to it) to effect the foregoing actions and each covenants that no information furnished by it (to its knowledge in the case of information concerning its securityholders) in connection with such actions or otherwise in connection with the consummation of the Arrangement and the other transactions contemplated by this Agreement will contain any untrue statement of a material fact or omit to state a material fact required to be stated in any such document or necessary in order to make any information so furnished for use in any such document not misleading in the light of the circumstances in which it is furnished or to be used.

(c) Each of the parties shall promptly notify the other if at any time before or after the Effective Time it becomes aware that the Information Circular or an application for an order described in Section 2.4 contains any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements contained therein not misleading in light of the circumstances in which they are made, or that otherwise requires an amendment or supplement to the Information Circular or such application or registration statement. In any such event, the parties shall cooperate in the preparation of a supplement or amendment to the Information Circular or such other document, as required and as the case may be, and, if required, shall cause the same to be distributed to the Securityholders and/or filed with the relevant securities regulatory authorities.

(d) AltaGas shall ensure that the Information Circular complies with all applicable laws and, without limiting the generality of the foregoing, shall ensure that the Information Circular does not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein or necessary to make the statements contained therein not misleading in light of the circumstances in which they are made and shall ensure that the Information Circular provides Securityholders with information in sufficient detail to permit them to form a reasoned judgment concerning the matters to be placed before them and voted on at the Meeting.

ARTICLE 3
REPRESENTATIONS AND WARRANTIES

3.1 Representations and Warranties of AltaGas

AltaGas represents and warrants to and in favour of each of the parties as follows, and acknowledges that such parties are relying upon such representations and warranties:

(a) AltaGas is a company duly incorporated and validly existing under the laws of Canada and has the corporate power and capacity to own or lease its property and assets, to carry on its business as now conducted by it, to enter into this Agreement, and to perform its obligations hereunder;

(b) the authorized capital of AltaGas consists of an unlimited number of Common Shares and an unlimited number of preferred shares, issuable in series, of which 36,927,793 Common Shares (and no more) and 9,000,000 Participating Shares (and no more) are issued and outstanding as at the date of this Agreement and all of such issued and outstanding Common Shares and Participating Shares are fully paid and non-assessable;

(c) other than Options to purchase an aggregate of 1,384,480 Common Shares (and no more and the applicable provisions of the Shareholder Agreement), there are no options, warrants, conversion or

exchange privileges or other rights, agreements or commitments obligating AltaGas, whether or not on condition, to issue any securities of AltaGas;

(d) AltaGas, directly or indirectly, beneficially owns all of the issued and outstanding shares, units of ownership or beneficial interests, as the case may be, of each of the Amalgamating Subsidiaries and Non-Amalgamating Subsidiaries;

(e) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, the constating documents of AltaGas;

(ii) (except as referred to in the Information Circular) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which AltaGas or any of its subsidiaries is a party or by which it or any of its subsidiaries is bound and which is material to AltaGas and its subsidiaries (taken as a whole) or to which any material property of AltaGas or any of its subsidiaries (taken as a whole) is subject (except under the Heritage Gas Limited Unanimous Shareholder Agreement and certain employment contracts with change of control provisions) or result in the creation of any encumbrance upon any material assets of AltaGas or any of its subsidiaries under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) other than such approvals as may be required under the *Competition Act* (Canada), do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable to AltaGas or any of its subsidiaries, the breach of which would have a material adverse effect on AltaGas and its subsidiaries (taken as a whole);

(f) there are no actions, suits, proceedings, claims or investigations commenced or, to the knowledge of AltaGas, contemplated or threatened against or affecting AltaGas or any of its subsidiaries in law or in equity before or by any domestic or foreign government department, commission, board, bureau, court, agency, arbitrator, or instrumentality of any kind, nor, to the knowledge of AltaGas, are there any facts which may reasonably be expected to be a proper basis for any actions, suits, proceedings or investigations (other than in connection with the exercise of Dissent Rights) which in any case would prevent or hinder the completion of the transactions contemplated by this Agreement or which can reasonably be expected to have a material adverse effect on the business, operations, properties, assets or affairs, financial or otherwise, of AltaGas and its subsidiaries (taken as a whole);

(g) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by the board of directors of AltaGas and this Agreement constitutes a valid and binding obligation of AltaGas enforceable against it in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(h) the minute books of AltaGas are true and correct and contain the minutes of all meetings and all resolutions of the directors and Securityholders thereof;

(i) the books of account and other records of AltaGas and its subsidiaries, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices;

(j) AltaGas is a reporting issuer or equivalent in each of the provinces of Canada and, to the knowledge or AltaGas, is not in default of any requirement of securities and corporate laws, regulations, rules, orders, notices, instruments, and policies; and

(k) each of its subsidiaries is duly incorporated or organized, as the case may be, and validly existing under the laws of its jurisdiction of incorporation or organization and has the corporate power and capacity to own or lease its property and assets, and to carry on its business as now conducted by it.

3.2 Representations and Warranties of General Partner and LP Subco

Each of the General Partner and LP Subco represents and warrants to and in favour of the other parties as follows, and acknowledges that such parties are relying upon such representations and warranties:

(a) it is a body corporate incorporated and validly existing under the laws of Canada and has the corporate power and capacity to own or lease its property and assets, to carry on its business as now conducted by it, to enter into this Agreement, and to perform its obligations hereunder;

(b) in the case of the General Partner, the authorized capital of the General Partner consists of an unlimited number of common shares of which, as at the date hereof, one common share is issued and outstanding, which share is owned legally and beneficially by the Trust and is fully paid and non-assessable;

(c) in the case of LP Subco, the authorized capital of LP Subco consists of an unlimited number of common shares of which, as at the date hereof, one common share is issued and outstanding, which share is owned legally and beneficially by AltaGas LP #2 and is fully paid and non-assessable;

(d) except as contemplated by this Agreement, there are no options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating it, whether or not on conditions, to issue any securities;

(e) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, its constating documents;

(ii) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which it is a party or by which it is bound and which is material to it or to which any of its material property is subject, or result in the creation of any encumbrance upon any of its assets under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable and known to it, the breach of which would have a material adverse effect on it;

(f) there are no actions, suits, proceedings, claims or investigations commenced or, to its knowledge, contemplated or threatened against or affecting it in law or in equity before or by any domestic or foreign government department, commission, board, bureau, court, agency, arbitrator, or instrumentality of any kind, nor, to its knowledge, are there any facts which may reasonably be expected to be a proper basis for any actions, suits, proceedings or investigations;

(g) it has no subsidiaries;

(h) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by its board of directors and this Agreement constitutes a valid and binding obligation of it enforceable in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(i) its minute books are true and correct and contain the minutes of all meetings and all resolutions of the directors and securityholders thereof;

(j) its books of account and other records, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices; and

(k) it has not carried on any business since its incorporation other than as provided for herein or as contemplated in the Information Circular.

3.3 Representations and Warranties of AltaGas LP #1 and AltaGas LP #2

Each of AltaGas LP #1 and AltaGas LP #2 represents and warrants to and in favour of the other parties and acknowledges that the other parties are relying upon such representations and warranties:

(a) it is limited partnership established under the laws of Alberta with the General Partner as the sole general partner and, in the case of AltaGas LP #1, Holding Trust and, in the case of AltaGas LP #2, AltaGas LP #1 as the sole initial limited partner and has the power and capacity to enter into this Agreement and to perform its obligations hereunder;

(b) it presently has five outstanding Class A limited partnership units, which units are legally and beneficially owned by, in the case of AltaGas LP #1, Holding Trust and, in the case of AltaGas LP #2, AltaGas LP #1 as the initial limited partner;

(c) except as contemplated by this Agreement or the Information Circular, there are no options, warrants, conversion or exchange privileges or other rights agreements or commitments obligating it, whether or not on condition, to issue any limited partnership units or other securities;

(d) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, its governing documents;

(ii) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which it is a party or by which it is bound and which is material to it or to which any of its material property is subject, or result in the creation of any encumbrance upon any of its assets under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable to it, the breach of which would have a material adverse effect on it;

(e) there are no actions, suits, proceedings, claims or investigations commenced or, to its knowledge, contemplated or threatened against or affecting it in law or in equity before or by any domestic or foreign government department, commission, board, bureau, court, agency, arbitrator or

instrumentality of any kind, nor, to its knowledge, are there any facts which may reasonably be expected to be a proper basis for any actions, suits, proceedings or investigations;

(f) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by the General Partner on its behalf and this Agreement constitutes a valid and binding obligation of it enforceable in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(g) its books of account and other records, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices; and

(h) it has not carried on any business since it was established other than as provided for herein or as contemplated in the Information Circular.

3.4 Representations and Warranties of the Trust

The Trust represents and warrants to and in favour of the other parties as follows, and acknowledges that the other parties are relying upon such representations and warranties:

(a) the Trust is an unincorporated open-ended investment trust duly established, settled and validly existing under the laws of Alberta and has the power and capacity to enter into this Agreement and to perform its obligations hereunder;

(b) the Trust presently has one outstanding Unit which is held by the initial unitholder of the Trust;

(c) except as contemplated by this Agreement or the Information Circular, there are no options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating it, whether or not on condition, to issue any Units or other securities;

(d) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, the governing documents of the Trust;

(ii) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which the Trust is a party or by which it is bound and which is material to the Trust or to which any material property of the Trust is subject, or result in the creation of any encumbrance upon any of the assets of the Trust under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable to the Trust, the breach of which would have a material adverse effect on the Trust;

(e) there are no actions, suits, proceedings, claims or investigations commenced or, to the knowledge of the Trust, contemplated or threatened against or affecting the Trust in law or in equity before or by any domestic or foreign government department, commission, board, bureau, court, agency, arbitrator or instrumentality of any kind, nor, to the knowledge of the Trust, are there any facts which may reasonably be expected to be a proper basis for any actions, suits, proceedings or investigations;

(f) the Trust has no subsidiaries other than the General Partner and Holding Trust and Holding Trust's subsidiaries;

(g) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by the Trustee and this Agreement constitutes a valid and binding obligation of the Trust enforceable in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(h) the copy of the Declaration of Trust presented to the other parties is a true and complete copy of such trust indenture and remains in full force and effect;

(i) the books of account and other records of the Trust, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices; and

(j) the Trust has not carried on any business since it was settled other than as provided for herein or as contemplated in the Information Circular.

3.5 Representations and Warranties of Holding Trust

The Trust represents and warrants to and in favour of the other parties as follows, and acknowledges that the other parties are relying upon such representations and warranties:

(a) Holding Trust is an unincorporated investment trust duly established, settled and validly existing under the laws of Alberta and has the power and capacity to enter into this Agreement and to perform its obligations hereunder;

(b) Holding Trust presently has one outstanding Unit which is held by the Trust;

(c) except as contemplated by this Agreement or the Information Circular, there are no options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating it, whether or not on condition, to issue any of its units or other securities;

(d) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, the governing documents of Holding Trust;

(ii) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which Holding Trust is a party or by which it is bound and which is material to Holding Trust or to which any material property of Holding Trust is subject, or result in the creation of any encumbrance upon any of the assets of Holding Trust under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable to Holding Trust, the breach of which would have a material adverse effect on Holding Trust;

(e) there are no actions, suits, proceedings, claims or investigations commenced or, to the knowledge of Holding Trust, contemplated or threatened against or affecting Holding Trust in law or in equity before or by any domestic or foreign government department, commission, board, bureau, court, agency, arbitrator or instrumentality of any kind, nor, to the knowledge of Holding Trust, are there

any facts which may reasonably be expected to be a proper basis for any actions, suits, proceedings, claims or investigations;

(f) Holding Trust has no subsidiaries other than AltaGas LP #1 and its subsidiaries;

(g) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by the trustees of Holding Trust and this Agreement constitutes a valid and binding obligation of Holding Trust enforceable in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(h) the copy of the Holding Declaration of Trust presented to the other parties is a true and complete copy of such trust indenture and remains in full force and effect;

(i) the books of account and other records of Holding Trust, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices; and

(j) Holding Trust has not carried on any business since it was settled other than as provided for herein or as contemplated in the Information Circular.

3.6 Representations and Warranties of the Amalgamating Subsidiaries

Each of the Amalgamating Subsidiaries represents and warrants to and in favour of the parties as follows, and acknowledges that they are relying upon such representations and warranties:

(a) it is a body corporate incorporated and validly existing under the laws of Alberta or Canada and has the corporate power and capacity to own or lease its property and assets, to carry on its business as now conducted by it, to enter into this Agreement, and to perform its obligations hereunder;

(b) all of its issued and outstanding capital is owned legally and beneficially by AltaGas or another Amalgamating Subsidiary and is fully paid and non-assessable;

(c) there are no options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating it, whether or not on condition, to issue any of its shares or other securities;

(d) the execution and delivery of this Agreement and all documents to be delivered pursuant hereto and the completion of the transactions contemplated hereby:

(i) do not and will not result in the breach of, or violate any term or provision of, the constating documents of the Amalgamating Subsidiary;

(ii) do not, and will not as of the Effective Date, conflict with, result in the breach of, constitute a default under, or accelerate or permit the acceleration of the performance required by, any agreement, instrument, license, permit or authority to which it is a party or by which it is bound and which is material to it or to which any of its material property is subject, or result in the creation of any encumbrance upon any of its assets under any such agreement, instrument, license, permit or authority, or give to any person any interest or right, including rights of purchase, termination, cancellation or acceleration, under any such agreement, instrument, license, permit or authority; and

(iii) do not, and will not as of the Effective Date, violate any provision of law or administrative regulation or any judicial or administrative order, award, judgment or decree applicable to it, the breach of which would have a material adverse effect on it;

(e) it has no subsidiaries, other than other Amalgamating Subsidiaries and: (i) in the case of Cedar Energy Inc., AltaGas and AltaGas Liquids Inc.: Cedar Energy Partnership and AltaGas Power Partnership; (ii) in the case of AltaGas: Cedar Energy Inc., AltaGas (Sask.) Inc., ASTC Power Partnership and AltaGas Services (U.S.) Inc. (and its subsidiaries AltaGas Facilities (U.S.) Inc. and AltaGas Marketing (U.S.) Inc.); and (iii) in the case of AltaGas Energy Solutions Inc., AOT Services Partnership;

(f) the execution and delivery of this Agreement and the completion of the transactions contemplated hereby have been duly approved by its board of directors and this Agreement constitutes a valid and binding obligation of it enforceable in accordance with its terms, subject to the availability of equitable remedies and limitations on the enforcement of creditors' rights generally;

(g) its minute books are true and correct and contain the minutes of all meetings and all resolutions of the directors and securityholders thereof; and

(h) its books of account and other records, whether of a financial or accounting nature or otherwise, have been maintained in accordance with prudent business practices.

ARTICLE 4
COVENANTS

4.1 Covenants of AltaGas

AltaGas covenants and agrees that it will, and will ensure that each of its subsidiaries will, perform all obligations required or desirable to be performed by AltaGas and its subsidiaries under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will:

(a) apply for and use all reasonable efforts to obtain all necessary consents, assignments, waivers and amendments to or terminations of any instruments and take such measures as may be appropriate to fulfil its obligations hereunder and to carry out the transactions contemplated hereby;

(b) solicit, or cause to be solicited, proxies to be voted at the Meeting in favour of the Arrangement Resolution and prepare, in consultation and cooperation with the other parties and in form and substance satisfactory to each of them, acting reasonably, proxy solicitation materials (including the Information Circular) and any amendments or supplements thereto as required by, and in compliance with, the Interim Order, and applicable corporate and securities laws, and file and distribute such proxy solicitation materials to the Securityholders in a timely and expeditious manner in all jurisdictions where they are required to be filed and distributed;

(c) until the Effective Date, allow each of the other parties and their representatives and agents full access during normal business hours, and upon reasonable notice after normal business hours, to all of the assets, properties, book, records, agreements and commitments of AltaGas and its subsidiaries and provide all such information concerning AltaGas and its subsidiaries as the other parties may reasonably request;

(d) until the Effective Date, conduct its operations and those of its subsidiaries in the ordinary and normal course of business and in accordance with applicable laws except as contemplated herein;

(e) use all reasonable efforts to cause each of the conditions set forth in Article 5 which are within its control to be satisfied on or before the Effective Date;

(f) carry out the terms of the Interim Order and Final Order applicable to it and use its reasonable commercial efforts to comply promptly with all requirements of applicable laws with respect to the transactions contemplated hereby (including the Arrangement);

(g) defend all lawsuits or other legal, regulatory or other proceedings challenging or affecting this Agreement or the consummation of the transactions contemplated hereby (including the Arrangement);

(h) use all reasonable efforts to have lifted or rescinded any injunction or restraining order or other order relating to AltaGas or any of its subsidiaries which may adversely affect the ability of the parties to consummate the transactions contemplated hereby (including the Arrangement);

(i) on or before the Effective Date, effect all necessary registrations, filings and submissions of information required by governmental authorities from AltaGas relating to the transactions contemplated hereby (including the Arrangement);

(j) until the Effective Date, (except pursuant to the exercise of outstanding Options in accordance with their respective terms, pursuant to the exercise of rights of conversion attaching to the Participating Shares or as otherwise contemplated herein) not issue any additional Common Shares, Participating Shares or any other securities (including any options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating AltaGas, whether or not on condition, to issue any securities of AltaGas);

(k) until the Effective Date and except in connection with the Plan, not allow any of its subsidiaries to issue any securities (including any options, warrants, conversion or exchange privileges or other rights, agreements or commitments obligating any subsidiary, whether or not on condition to issue any securities of any subsidiary);

(l) until the Effective Date and except in connection with the Plan, not enter into, or allow any of its subsidiaries to enter into, any agreement or agreements to sell, transfer, assign or lease any assets or properties except in the ordinary course of business, as disclosed in or contemplated by the Information Circular or as part of an internal reorganization;

(m) until the Effective Date, in all material respects, conduct itself so as to keep the other parties fully informed as to the business and affairs of AltaGas and its subsidiaries;

(n) until the Effective Date, not incur, or allow any of its subsidiaries to incur, any additional material indebtedness or create any encumbrance on any of its properties or assets or those of any of its subsidiaries, except in the ordinary course of business and not merge into or with, or consolidate with, any other person except a subsidiary or, except in the ordinary course of business, perform any act or enter into any transaction or negotiation which might interfere or be inconsistent with the consummation of the transactions contemplated by this Agreement;

(o) until the Effective Date, not declare or pay any dividends or make any distribution of its properties or assets or those of its subsidiaries to any of its security holders or to others or retire or redeem any Securities without the prior written consent of the other parties, not to be unreasonably withheld;

(p) until the Effective Date, except as specifically provided for hereunder, not alter or amend its constating documents or the constating documents of any of its subsidiaries as the same exist at the date of this Agreement;

(q) in connection with the consummation of the transactions contemplated hereby (including the Arrangement), use its reasonable efforts to obtain, before the Effective Date, all necessary waivers, consents and approvals required to be obtained by it or its subsidiaries from other persons;

(r) advise the other parties immediately after the Meeting of the number of Securities in respect of which AltaGas has received, pursuant to the Interim Order, written objection to the Arrangement Resolution and provide the other parties with copies of such written objections;

(s) prior to the Effective Date, make application to list the Units on the TSX; and

(t) on the Effective Date, take the steps prescribed for it under the Plan.

4.2 Covenants of General Partner and LP Subco

Each of the General Partner and LP Subco covenants and agrees that it will perform all obligations required or desirable to be performed by it under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will:

(a) apply for and use all reasonable efforts to obtain all necessary consents, assignments, waivers and amendments to or terminations of any instruments and take such measures as may be appropriate to fulfil its obligations hereunder and to carry out the transactions contemplated hereby;

(b) apply to the Court, in conjunction with the other parties, for the Interim Order;

(c) until the Effective Date, allow the other parties and their representatives and agents full access during normal business hours, and upon reasonable notice after normal business hours, to all of its assets, properties, books, records, agreements and commitments and provide all such information concerning it as AltaGas may reasonably request;

(d) until the Effective Date, not carry on any business, enter into any transaction or effect any corporate act whatsoever other than as contemplated herein or in the Information Circular;

(e) use all reasonable efforts to cause each of the conditions set forth in Article 5 which are within its control to be satisfied on or before the Effective Date;

(f) submit the Arrangement to the Court; apply, in conjunction with the other parties, for the Final Order; and diligently prosecute such application and any appeal of the Final Order;

(g) carry out the terms of the Interim Order and Final Order applicable to it and use its reasonable efforts to comply promptly with all requirements which applicable laws may impose on it or its subsidiaries with respect to the transactions contemplated hereby (including the Arrangement);

(h) defend all lawsuits or other legal, regulatory or other proceedings to which it is a party challenging or affecting this Agreement or the consummation of the transactions contemplated hereby;

(i) use all reasonable efforts to have lifted or rescinded any injunction or restraining order or other order relating to it or its subsidiaries which may adversely affect the ability of the parties to consummate the transactions contemplated hereby (including the Arrangement);

(j) in connection with the consummation of the transactions contemplated hereby (including the Arrangement), use its reasonable efforts to obtain, before the Effective Date, all necessary waivers, consents and approvals required to be obtained by it or its subsidiaries from other persons;

(k) until the Effective Date, in all material respects, conduct itself so as to keep the other parties fully informed as to its business and affairs;

(l) until the Effective Date, not disclose to any person, other than its officers, directors and key employees and professional advisors any confidential information relating to AltaGas or its subsidiaries except information disclosed in the Information Circular, required to be disclosed by law, or otherwise publicly known; and

(m) on the Effective Date, take the steps prescribed for it under the Plan.

4.3 Covenants of AltaGas LP #1 and AltaGas LP #2

Each of AltaGas LP #1 and AltaGas LP #2 covenants and agrees that it will perform all obligations required or desirable to be performed by it under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will:

(a) apply for and use all reasonable efforts to obtain all necessary consents, assignments, waivers and amendments to or terminations of any instruments and take such measures as may be appropriate to fulfil its obligations hereunder and to carry out the transactions contemplated hereby;

(b) apply to the Court, in conjunction with the other parties, for the Interim Order;

(c) until the Effective Date, allow the other parties and their representatives and agents full access during normal business hours, and upon reasonable notice after normal business hours, to all of its assets, properties, books, records, agreements and commitments and provide all such information concerning it as the other parties may reasonably request;

(d) until the Effective Date, not carry on any business, enter into any transaction or effect any partnership act whatsoever other than as contemplated herein or in the Information Circular;

(e) use all reasonable efforts to cause each of the conditions set forth in Article 5 which are within its control to be satisfied on or before the Effective Date;

(f) submit the Arrangement to the Court; apply, in conjunction with the other parties, for the Final Order; and diligently prosecute such application and any appeal of the Final Order;

(g) defend all lawsuits or other legal, regulatory or other proceedings to which it is a party challenging or affecting this Agreement or the consummation of the transactions contemplated hereby;

(h) use all reasonable efforts to have lifted or rescinded any injunction or restraining order or other order relating to it or its subsidiaries which may adversely affect the ability of the parties to consummate the transactions contemplated hereby (including the Arrangement);

(i) carry out the terms of the Interim Order and Final Order applicable to it and use its reasonable efforts to comply promptly with all requirements which applicable laws may impose on it or its subsidiaries with respect to the transactions contemplated hereby (including the Arrangement);

(j) in connection with the consummation of the transactions contemplated hereby (including the Arrangement), use its reasonable efforts to obtain, before the Effective Date, all necessary waivers, consents and approvals required to be obtained by it or its subsidiaries from other persons;

(k) until the Effective Date, in all material respects, conduct itself so as to keep the other parties fully informed as to its business and affairs;

(l) until the Effective Date, not disclose to any person, other than its officers, directors and key employees and professional advisors any confidential information relating to AltaGas or its subsidiaries except information disclosed in the Information Circular, required to be disclosed by law, or otherwise publicly known;

(m) prior to the Effective Date, create the Exchangeable Securities;

(n) prior to the Effective Date, enter into the Support Agreement, the Voting and Exchange Trust Agreement and such other agreements as are necessary to give effect to the exchange rights to be attached to the Exchangeable Securities as described in the Information Circular on terms and conditions satisfactory to the Trust, acting reasonably; and

(o) on the Effective Date, take the steps prescribed for it under the Plan.

4.4 Covenants of the Trust

The Trust covenants and agrees that it will perform all obligations required or desirable to be performed by it under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will:

(a) apply for and use all reasonable efforts to obtain all necessary consents, assignments, waivers and amendments to or terminations of any instruments and take such measures as may be appropriate to fulfil its obligations hereunder and to carry out the transactions contemplated hereby;

(b) apply to the Court, in conjunction with the other parties for the Interim Order;

(c) until the Effective Date, allow the other parties and their representatives and agents full access during normal business hours, and upon reasonable notice after normal business hours, to all of the assets, properties, books, records, agreements and commitments of the Trust and provide all such information concerning the Trust as the other parties may reasonably request;

(d) until the Effective Date, not carry on any business, enter into any transaction or effect any act whatsoever other than as contemplated herein or in the Information Circular;

(e) use all reasonable efforts to cause each of the conditions set forth in Article 5 which are within its control to be satisfied on or before the Effective Date;

(f) submit the Arrangement to the Court; apply, in conjunction with the other parties, for the Final Order; and diligently prosecute such application and any appeal of the Final Order;

(g) defend all lawsuits or other legal, regulatory or other proceedings to which it is a party challenging or affecting this Agreement or the consummation of the transactions contemplated hereby;

(h) use all reasonable efforts to have lifted or rescinded any injunction or restraining order or other order relating to the Trust or its subsidiaries which may adversely affect the ability of the parties to consummate the transactions contemplated hereby (including the Arrangement);

(i) carry out the terms of the Interim Order and Final Order applicable to it and use its reasonable efforts to comply promptly with all requirements which applicable laws may impose on the Trust or its subsidiaries with respect to the transactions contemplated hereby (including the Arrangement);

(j) in connection with the consummation of the transactions contemplated hereby (including the Arrangement), use its reasonable efforts to obtain, before the Effective Date, all necessary waivers, consents and approvals required to be obtained by the Trust or its subsidiaries from other persons;

(k) until the Effective Date, in all material respects, conduct itself so as to keep the other parties fully informed as to its business and affairs;

(l) until the Effective Date, not disclose to any person, other than the Trustee and professional advisors, any confidential information relating to AltaGas or its subsidiaries except information disclosed in the Information Circular, required to be disclosed by law, or otherwise publicly known;

(m) until the Effective Date, except as specifically provided for hereunder, not alter or amend its governing trust documents as the same exist at the date of this Agreement without the prior consent of AltaGas, not to be unreasonably withheld;

(n) prior to the Effective Date, cooperate with AltaGas in making application to list the Units on the TSX;

(o) reserve a sufficient number of Units for issuance upon exercise, from time to time, of: (i) the exchange rights attached to the Exchangeable Securities and (ii) the Trust Units issued pursuant to the Arrangement;

(p) on the Effective Date, issue the Special Voting Unit in accordance with the Plan;

(q) prior to the Effective Date, enter into the Support Agreement, the Voting and Exchange Trust Agreement and such other agreements as are necessary to give effect to the exchange rights to be attached to the Exchangeable Securities as described in the Information Circular on terms and conditions satisfactory to the Trust, acting reasonably; and

(r) on the Effective Date, take the steps prescribed for the Trust under the Plan (including issuing the Units in accordance with the Plan).

4.5 *Covenants of Holding Trust*

Holding Trust covenants and agrees that it will perform all obligations required or desirable to be performed by it under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will:

(a) apply for and use all reasonable efforts to obtain all necessary consents, assignments, waivers and amendments to or terminations of any instruments and take such measures as may be appropriate to fulfil its obligations hereunder and to carry out the transactions contemplated hereby;

(b) apply to the Court, in conjunction with the other parties, for the Interim Order;

(c) until the Effective Date, allow the other parties and their representatives and agents full access during normal business hours, and upon reasonable notice after normal business hours, to all of the assets, properties, books, records, agreements and commitments of Holding Trust and provide all such information concerning Holding Trust as AltaGas may reasonably request;

(d) until the Effective Date, not carry on any business, enter into any transaction or effect any act whatsoever other than as contemplated herein or in the Information Circular;

(e) use all reasonable efforts to cause each of the conditions set forth in Article 5 which are within its control to be satisfied on or before the Effective Date;

(f) submit the Arrangement to the Court; apply, in conjunction with the other parties, for the Final Order; and diligently prosecute such application and any appeal of the Final Order;

(g) defend all lawsuits or other legal, regulatory or other proceedings to which it is a party challenging or affecting this Agreement or the consummation of the transactions contemplated hereby (including the Arrangement);

(h) use all reasonable efforts to have lifted or rescinded any injunction or restraining order or other order relating to the Holding Trust or its subsidiaries which may adversely affect the ability of the parties to consummate the transactions contemplated hereby (including the Arrangement);

(i) carry out the terms of the Interim Order and Final Order applicable to it and use its reasonable efforts to comply promptly with all requirements which applicable laws may impose on the Holding Trust or its subsidiaries with respect to the transactions contemplated hereby (including the Arrangement);

(j) in connection with the consummation of the transactions contemplated hereby (including the Arrangement), use its reasonable efforts to obtain, before the Effective Date, all necessary waivers, consents and approvals required to be obtained by the Holding Trust or its subsidiaries from other persons;

(k) until the Effective Date, in all material respects, conduct itself so as to keep the other parties fully informed as to its business and affairs;

(l) until the Effective Date, not disclose to any person, other than its trustee and professional advisors any confidential information relating to AltaGas or its subsidiaries except information disclosed in the Information Circular, required to be disclosed by law, or otherwise publicly known;

(m) until the Effective Date, except as specifically provided for hereunder, not alter or amend its governing trust documents as the same exist at the date of this Agreement without the prior consent of AltaGas, not to be unreasonably withheld; and

(n) on the Effective Date, take the steps prescribed for Holding Trust under the Plan.

4.6 Covenants of Amalgamating Subsidiaries

Each of the Amalgamating Subsidiaries covenants and agrees that it will perform all obligations required or desirable to be performed by it under this Agreement and shall do all such other acts and things as may be necessary or desirable in order to consummate and make effective, as soon as reasonably practicable, the transactions contemplated in this Agreement and, without limiting the generality of the foregoing, it will, if it is not governed by the CBCA, take all such steps as are necessary or desirable to continue such corporation under the CBCA prior to the Effective Date and it will, on the Effective Date, take the steps prescribed for it under the Plan.

ARTICLE 5
CONDITIONS PRECEDENT

5.1 Mutual Conditions Precedent

The respective obligations of the parties to complete the transactions contemplated by this Agreement shall be subject to the fulfilment or satisfaction, on or before the Effective Date, of each of the following conditions, any of which may be waived collectively by them without prejudice to their right to rely on any other condition:

(a) the Arrangement Resolution shall have been approved at the Meeting by not less than two-thirds of the votes by the Securityholders in accordance with the provisions of the Interim Order and any applicable laws;

(b) the Final Order shall have been obtained in form and substance satisfactory to each of the parties acting reasonably and shall not have been set aside or modified in a manner unacceptable to the parties acting reasonably, on appeal or otherwise;

(c) all necessary documents filed with the Director in accordance with the Plan shall be in form and substance satisfactory to each of the parties acting reasonably and shall have been accepted for filing by the Director together with the Articles of Arrangement in accordance with Section 192 of the CBCA;

(d) there shall have been no action taken under any Applicable Law and there shall not be in force any order or decree of any governmental authority that:

(i) makes illegal or otherwise directly or indirectly restrains, enjoins or prohibits the Arrangement or any other transactions contemplated herein;

(ii) results in any judgment or assessment of material damages directly or indirectly relating to the transactions contemplated herein; or

(iii) imposes or confirms material limitations on the ability of: the Trust effectively to exercise full rights of ownership of the securities of the General Partner or Holding Trust including, without limitation, the right to vote any such securities; the Holding Trust to exercise full rights of ownership of the securities of AltaGas LP #1, including, without limitation, the right to vote any such securities; AltaGas LP #1 to exercise full rights of ownership of securities of AltaGas LP #2, including, without limitation, the right to vote any such securities; or AltaGas LP #2 to exercise full rights of ownership of securities of LP Subco (and after giving effect to the Arrangement, AmalgamationCo), including, without limitation, the right to vote such securities;

(e) there shall have been no material change with respect to the income tax laws or policies of Canada or any province thereof which would have a material adverse effect on the reorganization of AltaGas as contemplated by the Plan, including the manner in which distributions that are made to holders of Trust Units or Exchangeable Securities are taxed;

(f) all necessary third party and other consents, approvals and authorizations with respect to the transactions contemplated hereby (including, without limitation, orders of applicable governmental authorities for the issuance of Exchangeable Securities and the exchange of Exchangeable Securities for Units) shall have been completed or obtained;

(g) the board of directors of AltaGas shall not have determined to terminate this Agreement in accordance with the Arrangement Resolution as a result of the number of Securityholders, if any, who exercise Dissent Rights or otherwise; and

(h) the approval of the TSX to the conditional listing of the Units shall have been obtained, subject only to the filing of required documents and fees.

5.2 Additional Conditions to Obligations of AltaGas

In addition to the conditions contained in Section 5.1, the obligation of AltaGas to complete the transactions contemplated by this Agreement is subject to the fulfilment or satisfaction, on or before the Effective Date, of each of the following conditions, any of which may be waived by AltaGas without prejudice to its right to rely on any other condition:

(a) each of the covenants, acts and undertakings of the other parties to be performed or complied with on or before the Effective Date pursuant to the terms of this Agreement shall have been duly performed or complied with;

(b) except as affected by the transactions contemplated by this Agreement, the representations and warranties of each of the other parties contained in Article 3 shall be true in all material respects with the same effect as if made at and as of the Effective Date, and AltaGas shall have received a certificate of a senior officer of each of the Trustee of the Trust, the General Partner, LP Subco, AltaGas LP #1 and AltaGas LP #2, the trustee of Holding Trust and each of the Amalgamating Subsidiaries to that effect dated the Effective Date, and AltaGas shall have no knowledge to the contrary; and

(c) the board of directors of AltaGas shall have determined in its sole and absolute discretion that the Arrangement is in the best interests of AltaGas and not withdrawn such determination.

5.3 Additional Conditions to Obligations of the Other Parties

In addition to the conditions contained in Section 5.1, the obligations of the parties other than AltaGas to complete the transactions contemplated by this Agreement are subject to the fulfilment or satisfaction, on or before the Effective Date, of the following conditions, any of which may be waived by any other party without prejudice to such other party's right to rely on any other condition:

(a) each of the covenants, acts and undertakings of the other parties to be performed or complied with on or before the Effective Date pursuant to the terms of this Agreement shall have been duly performed or complied with;

(b) except as affected by the transactions contemplated by this Agreement, the representations and warranties of the other parties contained in Article 3 shall be true in all material respects on the Effective Date, with the same effect as if made at and as of such date, and each of the other parties shall have received a certificate of a senior officer of AltaGas to that effect dated the Effective Date, and the other parties shall have no knowledge to the contrary;

(c) the board of directors of AltaGas shall have made, and shall not have modified or amended, in any respect, an affirmative recommendation that the Securityholders approve the Arrangement; and

(d) prior to the Effective Date, there shall have been no material adverse change in the business, operations, properties, assets or affairs, financial or otherwise, of AltaGas and its subsidiaries (taken as a whole) from that reflected in the Information Circular.

As used in paragraphs (a) and (b) above, "other parties" means, in relation to any party, the parties (including AltaGas) other than that party.

5.4 Closing Matters

Each of the parties shall deliver, at the closing of the Arrangement and other transactions contemplated hereby, such customary certificates, resolutions, opinions and other closing documents as may be required by the other party, acting reasonably. The closing of the Arrangement and the transactions contemplated hereby will take place on the Business Day prior to the Effective Time at the offices of Stikeman Elliott LLP, Suite 4300 Bankers Hall West, 888 – 3rd Street S.W., Calgary, Alberta, T2P 5C5.

ARTICLE 6
NOTICES

6.1 Notices

Any notice, consent, waiver, direction or other communication required or permitted to be given under this Agreement by a party to any other party shall be in writing and shall be delivered by hand delivery, facsimile transmission or (provided that the mailing party does not know and should not reasonably have known of any disruption or anticipated disruption of postal service which might affect delivery of the mail) by registered mail (postage prepaid), addressed to the party to whom the notice is to be given, at its specified address herein. Any notice, consent, waiver, direction or other communication aforesaid shall, if hand delivered or delivered by facsimile transmission, be deemed to have been given and received on the date on which it was hand delivered or delivered (based on facsimile confirmation) by facsimile transmission (if prior to 4:30 pm (local time at the place of receipt) on a Business Day and, if not, the next succeeding Business Day) and if sent by registered mail be deemed to have been given and received on the fourth Business Day at the point of delivery following the date on which it was so sent. The specified address herein shall be, in the case of:

(a) AltaGas or any of the Amalgamating Subsidiaries, addressed to:

Facsimile: (403) 508-7258

or such other address as may be designated by any of the parties by notice to the other parties given in accordance with this Section.

ARTICLE 7
AMENDMENT AND TERMINATION

7.1 Amendments

This Agreement may, at any time and from time to time before or after the Meeting but not later than the Effective Date, be amended by written agreement of the parties hereto without further notice to or authorization on the part of their respective security holders, and any such amendment may, without limitation:

(a) change the time for performance of any of the obligations or acts of the parties hereto;

(b) waive any inaccuracies or modify any representation contained herein or in any document delivered pursuant hereto;

(c) waive compliance with or modify any of the covenants or conditions herein contained and waive or modify performance of any of the obligations of the parties hereto; and

(d) waive compliance with or modify any conditions precedent herein contained,

provided, however, that any such change, waiver or modification does not invalidate any required approval of the Securityholders to the Arrangement.

7.2 Termination

This Agreement shall be terminated at any time prior to the Effective Date:

(a) if the Interim Order has been refused or has been granted in a form or substance not satisfactory to the parties, acting reasonably, or has not been granted by May 15, 2004 or, if issued, has been set aside or modified in a manner unacceptable to the parties, acting reasonably, on appeal or otherwise;

(b) if the Arrangement has not been approved by the Securityholders in accordance with the Interim Order and all applicable corporate and securities law requirements on or before June 20, 2004;

(c) if the Final Order has not been granted in form and substance satisfactory to the parties, acting reasonably, on or before June 20, 2004 or if issued, has been set aside or modified in a manner unacceptable to the parties, acting reasonably, on appeal or otherwise;

(d) if the Effective Date has not occurred prior to June 30, 2004;

(e) if AltaGas has determined to accept or proceed with an Acquisition Proposal; or

(f) if a written agreement to terminate this Agreement is executed and delivered by all parties hereto.

7.3 Acquisition Proposal

Nothing contained in this Agreement shall prevent the board of directors of AltaGas from considering, negotiating, approving, recommending to its Securityholders or entering into an agreement in respect of an unsolicited, bona fide Acquisition Proposal in respect of which the board of directors of AltaGas determines in good faith that the board of directors is required to do so in order to properly discharge its fiduciary duties.

ARTICLE 8
GENERAL

8.1 Binding Effect

This Agreement shall be binding upon and enure to the benefit of the parties hereto and their respective successors and permitted assigns.

8.2 Expenses

Each of the parties hereto shall pay its expenses in connection with the preparation and execution of this Agreement and the completion of the transactions contemplated hereby or incidental hereto.

8.3 No Assignment

No party may assign its rights or obligations under this Agreement.

8.4 Equitable Remedies

All covenants herein and opinions to be given hereunder as to enforceability in accordance with the terms of any covenant, agreement or document shall be qualified as to applicable bankruptcy and other laws affecting the enforcement of creditors' rights generally and to the effect that specific performance, being an equitable remedy, may not be ordered.

8.5 Survival of Representations and Warranties

The representations and warranties contained herein shall survive until the Effective Date and shall expire and be terminated and extinguished at and from the Effective Time and no party shall have any liability or further obligations to any party hereunder in respect of such representations or warranties thereafter.

8.6 Severability

If any one or more of the provisions or parts thereof contained in this Agreement should be or become invalid, illegal or unenforceable in any respect in any jurisdiction, the remaining provisions or parts thereof contained herein shall be and shall be conclusively deemed to be, as to such jurisdiction, severable therefrom and:

(a) the validity, legality or enforceability of such remaining provisions or parts thereof shall not in any way be affected or impaired by the severance of the provisions or parts thereof severed; and

(b) the invalidity, illegality or unenforceability of any provision or part thereof contained in this Agreement in any jurisdiction shall not affect or impair such provision or part thereof or any other provisions of this Agreement in any other jurisdiction.

8.7 Further Assurances

Each party hereto shall, from time to time, and at all times hereafter, at the request of any other party hereto, but without further consideration, do all such further acts and execute and deliver all such further documents and instruments as shall be reasonably required in order to fully perform and carry out the terms and intent hereof.

8.8 Execution in Counterparts

This Agreement may be executed in counterparts, each of which is and is hereby conclusively deemed to be an original and counterparts collectively are to be conclusively deemed one instrument. Delivery of counterparts may be effected by facsimile transmission.

8.9 Waiver

No waiver by, any party hereto shall be effective unless such waiver is in writing and any waiver shall affect only the matter, and the occurrence thereof, specifically identified and shall not extend to any other matter or occurrence.

8.10 Limitations on Liability

The parties hereto acknowledge that:

(a) the Trustee is entering into this Agreement solely in its capacity as Trustee on behalf of the Trust and the obligations of the Trust hereunder shall not be personally binding upon the Trustee or any of the Unitholders and that any recourse against the Trust, the Trustee or any Unitholder in any manner in respect of any indebtedness, obligation or liability of the Trust arising hereunder or arising in connection herewith or from the matters to which this Agreement relates, if any, including without limitation claims based on negligence or otherwise tortious behaviour, shall be limited to, and satisfied only out of, the Trust Assets as defined in the Declaration of Trust;

(b) the Holding Trust Trustee is entering into this Agreement solely in its capacity as trustee on behalf of the Holding Trust and the obligations of the Holding Trust hereunder shall not be personally binding upon the Holding Trust Trustee or any of the unitholders of the Holding Trust and that any recourse against the Holding Trust, the Holding Trust Trustee, or any unitholder of the Holding Trust in any manner in respect of any indebtedness, obligation or liability of the Holding Trust arising hereunder or arising in connection herewith or from the matters to which this Agreement relates, if any, including without limitation claims based on negligence or otherwise tortious behaviour, shall be limited to, and satisfied only out of, the Trust Assets as defined in the Holding Declaration of Trust;

(c) AltaGas Holding Limited Partnership No. 1 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that such limited partner has contributed or agreed to contribute to the limited partnership's capital and such limited partner's pro rata share of any undistributed income; and

(d) AltaGas Holding Limited Partnership No. 2 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that such limited partner has contributed or agreed to contribute to the limited partnership's capital and such limited partner's pro rata share of any undistributed income.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

SCHEDULE A

PLAN OF ARRANGEMENT PURSUANT TO SECTION 192

OF THE *CANADA BUSINESS CORPORATIONS ACT*

ARTICLE 1
INTERPRETATION

1.1 Definitions

In this Plan and the Appendices hereto, unless there is something in the subject matter or context inconsistent therewith, the following terms shall have the respective meanings set out below and grammatical variations of such terms shall have corresponding meanings:

"**Aggregate Permitted Debt Amount**" means the amount designated as such as of the Effective Date by AltaGas, expected to be approximately $650 million;

"**Aggregate Permitted Exchange Amount**" means the amount designated as such as of the Effective Date by AltaGas, expected to be approximately $450 million;

"**AltaGas**" means AltaGas Services Inc., a corporation incorporated pursuant to the CBCA;

"**AltaGas LP #1**" means AltaGas Holding Limited Partnership No. 1, a limited partnership established under the laws of Alberta pursuant to the AltaGas LP #1 Limited Partnership Agreement;

"**AltaGas LP #1 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, Holding Trust and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**AltaGas LP #2**" means AltaGas Holding Limited Partnership No. 2, a limited partnership established under the laws of Alberta pursuant to the AltaGas LP #2 Limited Partnership Agreement;

"**AltaGas LP #2 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, AltaGas LP #1 and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**Amalgamating Subsidiaries**" means Alberta Compression Rental Services Inc., AltaGas Energy Processors Inc., AltaGas Liquids Inc., AltaGas Marketing Inc., AltaGas (Sask.) Inc., AltaGas Suffield Pipeline Inc., AltaGas Transmission Ltd. and Cedar Energy Inc.;

"**Amalgamation**" means the amalgamation of AltaGas, each of the Holdcos, LP Subco and each of the Amalgamating Subsidiaries pursuant to the Arrangement;

"**AmalgamationCo**" means AltaGas Ltd., the corporation resulting from the Amalgamation;

"**applicable law**" means any applicable law including any statute, regulation, by-law, treaty, guideline, directive, rule, standard, requirement, policy, order, judgement, decision, injunction, award, decree or resolution of any governmental authority, whether or not having the force of law;

"**Arrangement**", "**herein**", "**hereof**" "**hereto**", "**hereunder**" and similar expressions mean and refer to the arrangement pursuant to Section 192 of the CBCA set forth in this Plan as from time to time supplemented, modified or amended, and not to any particular article, section or other portion hereof;

"**Arrangement Agreement**" means the arrangement agreement dated as of March 26, 2004, among AltaGas, the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2, LP Subco and the Amalgamating Subsidiaries providing for the implementation of the Arrangement, as from time to time amended, supplemented or restated;

"**Arrangement Resolution**" means the special resolution in respect of the Arrangement in substantially the form attached to the Information Circular, which special resolution will be voted on by Securityholders at the Meeting;

"**Articles of Arrangement**" means the articles of arrangement in respect of the Arrangement required under subsection 192(6) of the CBCA to be filed with the Director after the Final Order has been made giving effect to the Arrangement;

"**Business Day**" means a day, other than a Saturday, Sunday or statutory holiday, when banks are generally open in Calgary, Alberta, for the transaction of banking business;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Certificate**" means the certificate of arrangement to be issued by the Director pursuant to subsection 192(7) of the CBCA, giving effect to the Arrangement;

"**Common Share Fair Market Value**" means the weighted average trading price of a Common Share on the TSX for the five trading days preceding the Effective Date, provided that if the Common Shares are not then listed on the TSX or if in the opinion of the board of directors of AltaGas, acting reasonably and in good faith, the public distribution or trading activity of Common Shares for that period does not result in a weighted average trading price which reflects the fair market value of the Common Shares, then the Common Share Fair Market Value shall be determined by the board of directors of AltaGas, in good faith and in its sole discretion;

"**Common Shares**" means Common shares in the capital of AltaGas;

"**Common Shareholders**" means the holders of Common Shares;

"**Court**" means the Court of Queen's Bench of Alberta;

"**Declaration of Trust**" means the declaration of trust of the Trust dated as of March 26, 2004, between the settlor and the Trustee, as from time to time amended, supplemented or restated;

"**Depository**" means Computershare Trust Company of Canada, as depository under this Plan;

"**Director**" means the Director appointed under section 260 of the CBCA;

"**Dissent Rights**" means the right of a registered holder of Securities to dissent in respect of the Arrangement Resolution and to be paid the fair value of the Securities in respect of which the Securityholder dissents, pursuant to and in accordance with section 190 of the CBCA and the Interim Order;

"**Effective Date**" means the date the Arrangement is effective under the CBCA;

"**Effective Time**" means 12:01 a.m. (Calgary time) on the Effective Date;

"**Election Deadline**" means 4:30 p.m. (Calgary time) on April 26, 2004;

"**Eligible Securityholder**" means a Securityholder that is not a Non-Resident or a Tax-Exempt from and as of the Election Time to and including the Effective Time;

"**Enbridge**" means Enbridge Inc., a corporation incorporated pursuant to the CBCA;

"**Enbridge Common Shares**" means the Common Shares owned of record by Enbridge or an affiliate of Enbridge, including (after giving effect to Section 2.2(a)) the Common Shares into which the Participating Shares are exchanged;

"**Exchangeable Securities**" means, collectively, the LP #1 B Units and the LP #2 B Units;

"**Exchangeable Security Limit**" means that number of Exchangeable Securities equal to the result of dividing the Aggregate Permitted Exchange Amount by the Common Share Fair Market Value;

"**Filed Letter of Transmittal and Election Form**" means, with respect to any Eligible Securityholder or Holdco Shareholder, a duly completed Letter of Transmittal and Election Form deposited (with such Eligible Securityholder's certificate(s) representing the Eligible Securityholder's Common Shares and, if applicable, Participating Shares or such Holdco Shareholder's certificate(s) representing Holdco Shares, as the case may be, to which the form relates) with the Depository on or before the Election Deadline;

"**Final Order**" means the order of the Court approving the Arrangement to be applied for following the Meeting pursuant to the provisions of Section 192(4) of the CBCA as such order may be affirmed, amended or modified by any court of competent jurisdiction;

"**Gain Amount**" means:

(a) in respect of Common Shares of an Eligible Securityholder, other than a Holdco, deposited with a Filed Letter of Transmittal and Election Form, the difference between the product of the number of such Common Shares and the Common Share Fair Market Value and the adjusted cost base for the purposes of the Tax Act of such Common Shares (or the mean average of adjusted cost bases), in each case, after giving effect to Section 2.2(a); and

(b) in respect of a Holdco Shareholder, the difference between the product of the number of Common Shares held by such Holdco Shareholder's Holdco and the Common Share Fair Market Value and the adjusted cost base for the purposes of the Tax Act of such Holdco Shareholder's Holdco Shares (or the mean average of adjusted cost bases), in each case, after giving effect to Section 2.2(a);

"**General Partner**" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA;

"**governmental authority**" means any court (including a court of equity); any multinational, federal, provincial, state, regional, municipal or other government or governmental department, ministry, commission, board, bureau, agency or instrumentality; any securities commission, stock exchange or other regulatory or self-regulatory body; any arbitrator or arbitration authority; or any other governmental authority;

"**Holdco**" has the meaning ascribed in Section 2.3;

"**Holdco Shareholder**" means the holder at the relevant time of the Holdco Shares;

"**Holdco Shares**" means all issued and outstanding shares of any particular Holdco;

"**Holding Declaration of Trust**" means the declaration of trust of Holding Trust dated as of March 26, 2004, between the Holding Trust Trustee and the Trust, as from time to time amended, supplemented or restated;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta, all of the beneficial interests of which are owned by the Trust;

"**Holding Trust Note Indenture**" means the agreement entered into between Holding Trust and Computershare Trust Company of Canada, as Note trustee, pursuant to which, among others, Series 1 Notes may be issued by Holding Trust;

"**Holding Trust Trustee**" means AltaGas Holding Trust Corp., as initial trustee of the Holding Trust, or such other person as becomes the trustee of the Holding Trust in accordance with the Holding Declaration of Trust;

"**Information Circular**" means the information circular and proxy statement, together with all appendices thereto to be distributed by AltaGas in connection with the Meeting;

"**Interim Order**" means the Interim Order of the Court pursuant to subsection 192(4) of the CBCA containing declarations and directions with respect to the Arrangement and the Meeting and issued pursuant to the application of AltaGas therefor;

"**Letter of Transmittal and Election Form**" means the Letter of Transmittal and Election Form enclosed with the Information Circular pursuant to which a Securityholder is required to deliver such holder's certificate(s) representing Common Shares and, if applicable, Participating Shares and make certain elections, if desired and, in the case of a Holdco Shareholder, the agreement referred to in Section 2.3(l);

"**Limited Partnership Agreements**" means, collectively, the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement;

"**LP #1 A Units**" means the Class A limited partnership units of AltaGas LP #1;

"**LP #1 B Units**" means the Class B limited partnership units of AltaGas LP #1, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #1 X Note**" means a non-interest bearing unsecured demand note of AltaGas LP #1 in principal amount equal to the Common Share Fair Market Value;

"**LP #2 A Units**" means the Class A limited partnership units of AltaGas LP #2;

"**LP #2 B Units**" means the Class B limited partnership units of AltaGas LP #2, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #2 X Note**" means a non-interest bearing unsecured demand note of AltaGas LP #2 in principal amount equal to the Common Share Fair Market Value;

"**LP Subco**" means AltaGas Subsidiary Corporation, a corporation to be incorporated pursuant to the CBCA as a wholly-owned subsidiary of AltaGas LP #2;

"**LP Subco Debt**" means unsecured subordinated interest-bearing indebtedness of Subco;

"**Meeting**" means the special meeting of Common Shareholders, the Participating Shareholder and Optionholders at which the Arrangement Resolution is approved;

"**Non-Resident**" means: (i) a person (within the meaning of the Tax Act but, for greater certainty, not including a partnership) who is not resident in Canada for the purposes of the Tax Act; or (ii) a partnership that is not a "Canadian partnership" as defined in the Tax Act;

"**Option**" means an option, or "**Options**" means, collectively, all outstanding options, to purchase Common Shares pursuant to AltaGas' existing stock option plan;

"**Optionholders**" means the holders of Options;

"**Participating Shares**" means Participating shares in the capital of AltaGas;

"**Participating Shareholder**" means the holder of Participating Shares;

"**person**" includes any individual, partnership, association, body corporate, trust, other organization or entity (whether or not a legal entity) or governmental authority;

"**Plan**" means this Plan of Arrangement, as from time to time amended, supplemented or restated in accordance with the terms hereof;

"Series 1 Notes" means the non-interest bearing Series 1 unsecured subordinated demand notes of Holding Trust issuable under the Holding Trust Note Indenture;

"**Securities**" means, collectively, the Common Shares, Participating Shares and Options;

"**Securityholders**" means, collectively, the Common Shareholders, Participating Shareholder and Optionholders;

"Special Voting Unit" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee which entitles the holders of Exchangeable Securities to such number of votes at meetings of Unitholders as equals the number of Trust Units issuable from time to time upon the redemption, retraction or exchange of those Exchangeable Securities;

"**Specified Gain Amount**" means:

(a) with respect to Common Shares or Participating Shares of an Eligible Securityholder, other than a Holdco, deposited with a Filed Letter of Transmittal and Election Form, the lesser of: (i) the amount specified by the Eligible Securityholder in the Eligible Securityholder's Filed Letter of Transmittal and Election Form intended to be exchanged for Exchangeable Securities; and (ii) the Gain Amount determined from the information provided by the Eligible Securityholder in the Eligible Securityholder's Filed Letter of Transmittal and Election Form with respect to the Common Shares or Participating Shares deposited therewith; and

(c) with respect to a Holdco Shareholder, the lesser of: (i) the amount specified by the Holdco Shareholder in the Holdco Shareholder's Filed Letter of Transmittal and Election Form intended to be exchanged for Exchangeable Securities; and (ii) the Gain Amount specified by the Holdco Shareholder in the Holdco Shareholder's Filed Letter of Transmittal and Election Form with respect to the Holdco Shares deposited therewith;

(in each case, as adjusted by AltaGas in good faith to correct any error apparent on the face of that form) rounded upward to the nearest whole multiple of the Common Share Fair Market Value; provided that, if the aggregate of all Eligible Securityholders' and Holdco Shareholders' Specified Gain Amounts calculated apart from this proviso is greater than the Aggregate Permitted Exchange Amount, the Specified Gain Amount shall be such lesser amount as is calculated through a pro-rationing methodology determined in good faith by the Board of Directors of AltaGas to be appropriate in the circumstances and in compliance with all applicable laws, rounded upward to the nearest whole multiple of the Common Share Fair Market Value;

"**Tax Act**" means the *Income Tax Act* (Canada), R.S.C. 1985, c. 1. (5th Supp), as amended from time to time, including the regulations, from time to time, promulgated thereunder;

"**Tax-Exempt**" means a holder of Securities that is exempt from tax under Part I of the Tax Act;

"**Trust**" means AltaGas Income Trust, an unincorporated open-ended investment trust established under the laws of Alberta pursuant to the Declaration of Trust;

"**Trust Option**" means an option entitling the holder thereof to purchase one Trust Unit;

"**Trust Unit**" or "**Unit**" means a trust unit, other than a Special Voting Unit, of the Trust, each such unit representing an equal undivided beneficial interest therein;

"**Trustee**" means Computershare Trust Company of Canada, as the initial trustee of the Trust, or such other person as becomes the trustee of the Trust in accordance with the Declaration of Trust;

"**TSX**" means the Toronto Stock Exchange;

"**Unitholders**" means the holders from time to time of Units;

"**Voting and Exchange Trust Agreement**" means the voting and exchange trust agreement to be entered into on the Effective Date among the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

1.2 Sections and Headings

The division of this Plan into articles and sections and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation of this Plan. Unless reference is specifically made to some other document or instrument, all references herein to articles and sections are to articles and sections of this Plan.

1.3 Number and Gender

Unless the context otherwise requires, words importing the singular number shall include the plural and vice versa and words importing any gender shall include all genders.

1.4 Date for Any Action

In the event that the date on which any action is required to be taken hereunder by any of the parties is not a Business Day, such action shall be required to be taken on the next succeeding day which is a Business Day.

1.5 Statutory References

References in this Plan to any statute or sections thereof shall include such statute as amended or substituted and any regulations or rules promulgated thereunder from time to time in effect.

1.6 Currency

Unless otherwise stated all references in this Plan to sums of money are expressed in lawful money of Canada.

1.7 Appendices

The following appendix to this Plan is incorporated by reference herein and form part of this Plan:

Appendix A - Articles of Amalgamation of AmalgamationCo

1.8 Governing Law

This Plan shall be governed by and construed in accordance with the laws of Alberta and the laws of Canada applicable therein.

ARTICLE 2
ARRANGEMENT

2.1 Binding Effect

This Plan shall become effective at, and be binding from and after, the Effective Time upon AltaGas, the Securityholders, the Holdco Shareholders, the Holdcos, the Trust, Holding Trust, the General Partner, AltaGas LP #1, AltaGas LP #2, LP Subco and the Amalgamating Subsidiaries.

2.2 Arrangement

On the Effective Date, each of the events set out below shall occur and shall be deemed to occur in the following order without any further act or formality:

(a) the issued and outstanding Participating Shares, if any, shall be converted into Common Shares on a one for one basis;

(b) the Trust shall issue to Holding Trust that number of Trust Units to be exchanged by Holding Trust pursuant to (e)(i) below in exchange for the issue to the Trust by Holding Trust of that principal amount of Series 1 Notes equal to the product of that number of Trust Units multiplied by the Common Share Fair Market Value;

(c) at the same time:

(i) Common Shares (other than Enbridge Common Shares, Common Shares held by Holdcos to which (c)(ii) or (c)(iv) applies and Common Shares held by a Securityholder who has exercised Dissent Rights and is ultimately entitled to be paid the fair value of such Securityholder's Securities) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Common Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Eligible Securityholder's Specified Gain Amount with respect to such Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of such Common Shares and the number of LP #1 B Units determined pursuant to (A) above;

and the names of the holders of such Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of such Common Shares on the register of holders of Common Shares;

(ii) Holdco Shares (other than Holdco Shares of Holdcos holding Enbridge Common Shares) held by each Holdco Shareholder that is an Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #1 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #1 of:

(A) that number of LP #1 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #1 X Notes equal to the difference between the number of the Holdco's Common Shares and the number of LP #1 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of such Holdco Shares and added to the registers of holders of LP #1 B Units and LP #1 X Notes and AltaGas LP #1 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(iii) Enbridge Common Shares (other than Common Shares held by Holdcos to which (c)(iv) applies) held by each Eligible Securityholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Enbridge Common Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Eligible Securityholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Eligible Securityholder's Specified Gain Amount with respect to such Enbridge Common Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of such Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Enbridge Common Shares shall be removed from the register of holders of Common Shares and added to the registers of holders of LP #2 B Units and LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Enbridge Common Shares on the register of holders of Common Shares; and

(iv) Holdco Shares of Holdcos holding Enbridge Common Shares held by each Holdco Shareholder who so elects in a Filed Letter of Transmittal and Election Form with respect to such Holdco Shares shall be transferred to, and acquired by, AltaGas LP #2 free and clear of all liens, claims and encumbrances in exchange for the issue to the Holdco Shareholder by AltaGas LP #2 of:

(A) that number of LP #2 B Units equal to the result obtained by dividing the Holdco Shareholder's Specified Gain Amount with respect to such Holdco Shares by the Common Share Fair Market Value; and

(B) that number of LP #2 X Notes equal to the difference between the number of the Holdco's Enbridge Common Shares and the number of LP #2 B Units determined pursuant to (A) above;

and the names of the holders of such Holdco Shares shall be removed from the registers of holders of Holdco Shares and added to the registers of holders of LP #2 B Units and

LP #2 X Notes and AltaGas LP #2 shall be recorded as the holder of such Holdco Shares on the registers of holders of such Holdco Shares;

(d) at the same time:

(i) LP #1 X Notes acquired pursuant to (c)(i) or (c)(ii) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to the holders thereof by AltaGas LP #1 of LP #1 A Units on a one for one basis and the names of the holders of such LP #1 X Notes shall be removed from the register of holders of LP #1 X Notes and added to the register of holders of LP #1 A Units and the LP #1 X Notes so transferred to AltaGas LP #1 shall be cancelled; and

(ii) LP #2 X Notes acquired pursuant to (c)(iii) or (c)(iv) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to the holders thereof by AltaGas LP #2 of LP #2 A Units on a one for one basis and the names of the holders of such LP# 2 X Notes shall be removed from the register of holders of LP #2 X Notes and added to the register of holders of LP #2 A Units and the LP #2 X Notes so transferred to AltaGas LP #2 shall be cancelled;

(e) at the same time:

(i) LP #1 A Units and LP #2 A Units acquired pursuant to (d)(i) and (d)(ii) above, respectively, shall be transferred to, and acquired by, Holding Trust in exchange for Trust Units on a one for one basis and the names of the holders of such LP #1 A Units and LP #2 A Units shall be removed from the registers of holders thereof and added to the register of holders of Trust Units and Holding Trust shall be recorded as the holder of such LP #1 A Units and LP #2 A Units on the registers of holders thereof; and

(ii) Common Shares in respect of each Securityholder to which (c) above does not apply (other than Common Shares held by a Securityholder who has exercised Dissent Rights and is ultimately entitled to be paid the fair value of such Securityholder's Common Shares) shall be transferred to, and acquired by, the Trust free and clear of all liens, claims and encumbrances on the basis that each such Common Share shall be exchanged with the Trust for Trust Units on a one for one basis and the names of the holders of such Common Shares shall be removed from the register of holders of Common Shares and added to the register of holders of Trust Units and the Trust shall be recorded as the holder of such Common Shares on the register of holders of Common Shares;

(f) the issued and outstanding Options shall be transferred to, and acquired and cancelled by, AltaGas free and clear of all liens, claims and encumbrances on the basis that each such Option shall be exchanged with AltaGas for Trust Options on a one for one basis, with the terms of each such Trust Option being the same as the Option exchanged therefore other than the substitution of a Trust Unit for each Common Share purchasable pursuant to the Option prior to the Effective Time;

(g) all of the Common Shares acquired by the Trust pursuant to (e)(ii) above shall be transferred to, and acquired by, Holding Trust in exchange for the issue to the Trust by Holding Trust of that principal amount of Series 1 Notes equal to the number of such Common Shares multiplied by the Common Share Fair Market Value;

(h) all of the LP #2 A Units acquired by Holding Trust pursuant to (e)(i) above and all of the Common Shares acquired by Holding Trust pursuant to (g) above shall be transferred to, and acquired by, AltaGas LP #1 in exchange for the issue to Holding Trust by AltaGas LP #1 of LP #1 A Units on a one for one basis;

(i) all of the Common Shares and Holdco Shares acquired by AltaGas LP #1 pursuant to (c)(i), (c)(ii) and (h) above shall be transferred to, and acquired by, AltaGas LP #2 in exchange for the issue to AltaGas LP #1 by AltaGas LP #2 of LP #2 A Units on the basis of one LP #2 A Unit for each of such Common Shares and each of the Common Shares held by such Holdcos;

(j) all of the Common Shares and Holdco Shares acquired by AltaGas LP #2 pursuant to (c)(iii), (c)(iv) and (i) above shall be transferred to, and acquired by, LP Subco in exchange for the issue to AltaGas LP #2 by LP Subco of common shares of LP Subco (in respect of which there shall be added to the stated capital an amount equal to the maximum amount of "paid-up capital" under the Tax Act that may be added in respect of such issue) and that principal amount of LP Subco Debt equal to the lesser of: (A) the result obtained when the aggregate number of Trust Units issued pursuant to (e)(i) and (e)(ii) above is multiplied by the Common Share Fair Market Value; and (B) the Aggregate Permitted Debt Amount;

(k) the stated capital of each class of outstanding shares of each of AltaGas, the Holdcos and the Amalgamating Subsidiaries shall be reduced, without any distribution by the respective corporation, to one dollar;

(l) LP Subco, each of the Holdcos, AltaGas and each of the Amalgamating Subsidiaries shall amalgamate and continue as one corporation, AmalgamationCo, upon the following terms and conditions:

(i) the name of AmalgamationCo shall be AltaGas Ltd.;

(ii) the registered office of AmalgamationCo shall be located at the registered office of AltaGas at the Effective Date;

(iii) there shall be no restrictions on the business AmalgamationCo may carry on or on the powers it may exercise;

(iv) AmalgamationCo shall be authorized to issue an unlimited number of voting common shares ("**AmalgamationCo Common Shares**");

(v) the minimum number of directors of AmalgamationCo shall be one and the maximum number of directors shall be 15, the number of directors from time to time being determined by resolution of the directors of AmalgamationCo;

(vi) on the Effective Date, the number of directors of AmalgamationCo shall be two. The first directors of AmalgamationCo, who shall hold office until the first annual general meeting of the shareholders of AmalgamationCo or until their successors are duly appointed, shall be the persons whose names and addresses appear below:

Name	Address	Resident Canadian
David W. Cornhill	Calgary, Alberta	Yes
Patricia M. Newson	Calgary, Alberta	Yes

(vii) the by-laws of AmalgamationCo shall be the by-laws of LP Subco until repealed, amended or altered;

(viii) the Articles of Amalgamation of AmalgamationCo shall otherwise be as set out in Appendix A;

(ix) the issued and outstanding shares in the capital of each of LP Subco, the Holdcos, AltaGas and the Amalgamating Subsidiaries shall be exchanged or cancelled as follows:

(A) each issued common share of LP Subco shall be exchanged for one AmalgamationCo Common Share; and

(B) each issued share of AltaGas, of a Holdco or of an Amalgamating Subsidiary shall be cancelled without any repayment of capital in respect thereof; and

(x) the amount added to the stated capital for the AmalgamationCo Common Shares shall be equal to the stated capital of the common shares of LP Subco immediately prior to the Amalgamation; and

(m) the Trust shall issue the Special Voting Unit;

provided that if any of the foregoing steps in (a) through (m) fails to occur or complete then all of such steps will be deemed not to have occurred.

2.3 Holdco Alternative

Each Common Shareholder or the Participating Shareholder shall be entitled to transfer its Common Shares or Participating Shares, as the case may be, to a newly-incorporated corporation and transfer the Holdco Shares to AltaGas LP #1 or, in the case of Holdcos holding Enbridge Common Shares or Participating Shares, AltaGas LP #2 as provided in Section 2.2(c)(ii) or (iv), respectively, provided that each of the following conditions are satisfied on or prior to and as of the Effective Time (each of the corporations as so described and in respect of which such conditions are so satisfied being a "**Holdco**"):

(a) the Common Shareholder or the Participating Shareholder is an Eligible Securityholder;

(b) Holdco is incorporated under the CBCA no earlier than March 1, 2004;

(c) the Common Shareholder or the Participating Shareholder transfers its Common Shares or Participating Shares, as the case may be, to Holdco solely in consideration for the Holdco Shares;

(d) Holdco has no indebtedness or liabilities and owns no assets other than the Common Shares or Participating Shares, as the case may be;

(e) the Common Shareholder or the Participating Shareholder, as the case may be indemnifies the Trust, Holding Trust, AltaGas, AltaGas LP #1 and, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 for any and all liabilities of Holdco (other than tax liabilities of Holdco that would arise if Holdco disposed of any of its property after the Effective Date or that arise solely as a result of the tax status of the Trust, Holding Trust, AltaGas, AltaGas LP #1 and, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 as a "financial institution" for purposes of the Tax Act) in a form satisfactory to the General Partner in its sole discretion, and such Common Shareholder or the Participating Shareholder either has net assets as reflected on its audited financial statements for its most recently ended fiscal year which are satisfactory to the General Partner or provides the General Partner with security satisfactory to the General Partner in respect of such Common Shareholder's or the Participating Shareholder's, as the case may be, indemnification obligations as set out above;

(f) prior to the Effective Time, Holdco: (i) declares one or more stock dividends which may be in the form of preferred shares of Holdco that are converted into common shares of Holdco prior to the Effective Time; (ii) increases the stated capital of the Holdco Shares; or (iii) declares one or more cash dividends, provided that such cash is used to subscribe, directly or indirectly, for shares of Holdco;

(g) at the Effective Time but prior to giving effect to this Plan, Holdco has no issued shares outstanding other than the Holdco Shares and all such Holdco Shares are owned by only the Common Shareholder or the Participating Shareholder, as the case may be;

(h) prior to the Effective Time, Holdco has never entered into any transaction (or conducted any business or operations or engaged in any activity) other than those described herein or such other transactions as are necessary to facilitate those transactions described herein with the General Partner's consent, acting reasonably;

(i) other than as provided in (f) above, Holdco will not declare or pay any dividends or other distributions;

(j) the Common Shareholder or the Participating Shareholder, as the case may be, shall prepare and file all income tax returns of its Holdco in respect of the taxation year-end of such Holdco ending immediately prior to the acquisition of such Holdco Shares by AltaGas LP #1 or, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 subject to the General Partner's right to approve all such tax returns as to form and substance;

(k) the Common Shareholder or the Participating Shareholder, as the case may be, provides AltaGas and the General Partner with copies of all documents necessary to effect the transactions contemplated in this Section 2.3 at least ten days prior to the Effective Date, which documents must be approved by both AltaGas and the General Partner in their sole discretion; and

(l) the Common Shareholder or the Participating Shareholder, as the case may be, and its Holdco execute a share purchase agreement in the form required by the General Partner, acting reasonably, providing for, among other things, the sale of the Holdco Shares to AltaGas LP #1 or, in the case of Enbridge Common Shares or Participating Shares, AltaGas LP #2 and containing the terms and conditions, among others, set out in this Section 2.3.

2.4 Elections

Eligible Securityholders and Holdco Shareholders who elect to receive Exchangeable Securities shall be entitled to make an income tax election pursuant to subsection 97(2) of the Tax Act (and the analogous provisions of applicable provincial income tax law) with respect to the transfer of their Common Shares or Holdco Shares, as the case may be, to AltaGas LP #1 or AltaGas LP #2, as applicable, by providing two signed copies of the necessary election forms to the Depository, within 90 days of the Effective Date, duly completed with the details of the number of shares transferred, the adjusted cost base (or adjusted cost bases) within the meaning of the Tax Act of such shares and the applicable agreed amounts for the purpose of such elections. Thereafter, subject to the election forms complying with the provisions of the Tax Act (and applicable provincial income tax law), the forms shall be signed by AltaGas LP #1 or AltaGas LP #2, as applicable, and filed with Canada Revenue Agency (or the applicable provincial taxing authority) within 120 days of the Effective Date.

ARTICLE 3
DISSENTING SECURITYHOLDERS

3.1 Rights of Dissent

Registered holders of Securities may exercise Dissent Rights with respect to such Securities in the manner set forth in Section 190 of the CBCA and the Interim Order. Securityholders who duly exercise such rights of dissent and who:

(a) are ultimately determined to be entitled to be paid fair value for their Securities shall be deemed to have transferred such Securities to LP Subco at the same time as the transfer referred to in Section 2.2(e)(ii) without any further act or formality and free and clear of all liens, claims and encumbrances for a payment of cash from LP Subco equal to such fair value; or

(b) are ultimately determined not to be entitled, for any reason, to be paid fair value for their Securities shall be deemed to have participated in the Arrangement on the same basis as a Securityholder who did not make an election and shall, if a former Common Shareholder, receive Trust Units on the basis set forth in Section 2.2(e);

but in no case shall the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, LP Subco, AltaGas or any other person be required to recognize such holders as holders of Securities from and after the Effective Time and the names of the holders of such Securities shall be deleted from the register of members of AltaGas in respect of such Securities as of the Effective Time.

ARTICLE 4
CERTIFICATES

4.1 Securities Certificates

Subject to Section 3.1, after the Effective Time, certificates formerly representing Securities or Holdco Shares shall represent only the right to receive upon surrender as contemplated by Section 4.2: (a) the certificates representing Trust Units, LP #1 B Units or LP #2 B Units which the former holder of such Securities or Holdco Shares, as the case may be, is, subject to this Article 4, entitled to receive pursuant to Article 2; and (b) distributions with respect thereto pursuant to Section 4.3, subject to compliance with the requirements set forth in this Article 4.

4.2 Exchange of Certificates

Each of the Trust, AltaGas LP #1 and AltaGas LP #2 shall, as soon as practicable following the later of the Effective Date and the surrender to the Depository for cancellation of certificates formerly representing any person's Securities or Holdco Shares, together with such other documents and instruments as would have been required to effect the transfer of the Securities or Holdco Shares, as the case may be, formerly represented by such certificates under the CBCA and such additional documents and instruments as the Depository may reasonably require, cause the Depository to deliver to such person certificate(s) representing the number of Trust Units, LP #1 B Units or LP #2 B Units, as applicable, which such person has the right to receive (together with any distributions with respect thereto pursuant to Section 4.3) and the certificates so surrendered shall forthwith be cancelled. In the event of a transfer of ownership of Securities which is not registered in the transfer records of AltaGas, certificate(s) representing the appropriate number of the Trust Units, LP #1 B Units or LP #2 B Units, as applicable, may be issued to the transferee if the certificate(s) representing such Securities is presented to the Depository, accompanied by all documents required to evidence and effect such transfer to the transferee.

4.3 Distributions

All distributions made with respect to any Trust Units, LP #1 B Units or LP #2 B Units with a record date after the Effective Time but for which a certificate has not been issued shall be paid or delivered to the Depository to be held by the Depository in trust for the registered holder of such Trust Units, LP #1 B Units or LP #2 B Units, as the case may be. All monies received by the Depository shall be invested by it in interest bearing trust accounts upon such terms as the Depository may reasonably deem appropriate. The Depository shall pay and deliver to any such registered holder such distributions and any interest thereon to which such holder is entitled, net of applicable withholding and other taxes, upon delivery of the certificate representing the Trust Units, LP #1 B Units or LP #2 B Units issued to such holder in accordance with Section 4.2.

4.4 No Fractional Units

No fractional Trust Units, LP #1 B Units or LP #2 B Units shall be issued pursuant to the Arrangement. In the event that any exchange ratio referred to herein would in any case result in a former holder of Securities or Holdco Shares being entitled to a fractional Trust Unit, LP #1 B Unit or LP #2 B Unit, such Trust Units, LP #1 B Units or LP #2 B Units, as the case may be, shall be rounded up to the next highest whole number, provided that each beneficial former holder of Securities or Holdco Shares, as the case may be, shall be entitled to the benefit of only one adjustment in respect of each of such holder's Trust Units, LP #1 B Units or LP #2 B Units.

4.5 Extinction of Rights

Any certificate formerly representing Securities or Holdco Shares that is not deposited with all other documents as provided in Section 4.2 on or before the sixth anniversary of the Effective Date shall cease to represent a right or claim of any kind or nature and the right of the holder of the certificate formerly representing such Securities or Holdco Shares, as the case may be, to receive Trust Units, LP #1 B Units or LP #2 B Units, as applicable, and any distributions with respect thereto pursuant to Section 4.3 shall be deemed to be surrendered to the Holding Trust, together with all dividends or distributions thereon held for such holder.

4.6 Withholding Rights

The Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, and the Depository shall be entitled to deduct and withhold from any consideration or distribution otherwise payable to any former holder of Securities or Holdco Shares or any holder of Trust Units, LP #1 B Units or LP #2 B Units such amounts as the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, and the Depository is required to deduct and withhold with respect to such payment under the Tax Act or any provision of federal, provincial, territorial, state, local or foreign tax law. To the extent that amounts are so withheld, such withheld amounts shall be treated for all purposes hereof as having been paid to the holder of the securities in respect of which such deduction and withholding was made, provided that such withheld amounts are actually remitted to the appropriate taxing authority. To the extent that the amount so required to be deducted or withheld from any payment to a holder exceeds the cash portion of the consideration otherwise payable to the holder, the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, and the Depository are hereby authorized to sell or otherwise dispose of such portion of the consideration as is necessary to provide sufficient funds to the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, and the Depository, as the case may be, to enable it to comply with such deduction or withholding requirement and the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, and the Depository shall notify the holder thereof and remit any unapplied balance of the net proceeds of such sale.

ARTICLE 5
AMENDMENTS

5.1 Right to Amend

AltaGas reserves the right to amend, modify and/or supplement this Plan from time to time at any time prior to the Effective Time provided that any such amendment, modification or supplement must be contained in a written document that is:

(a) agreed to by each of the Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and LP Subco;

(b) filed with the Court and, if made following the Meeting, approved by the Court; and

(c) communicated to Securityholders in the manner required by the Court (if so required).

5.2 Amendment Before Meeting

Any amendment, modification or supplement to this Plan may be proposed by AltaGas at any time prior to or at the Meeting provided that the Trust, the General Partner, Holding Trust, AltaGas LP #1, AltaGas LP #2 and LP Subco, shall have consented thereto with or without any other prior notice or communication, and if so proposed and accepted by the persons voting at the Meeting (other than as may be required under the Interim Order), shall become part of this Plan for all purposes.

5.3 Amendment After Meeting

Any amendment, modification or supplement to this Plan which is approved by the Court following the Meeting shall be effective only:

(a) if it is consented to by AltaGas;

(b) if it is consented to by the General Partner, LP Subco, Holding Trust, AltaGas LP #1, AltaGas LP #2 and the Trust; and

(c) if required by the Court or applicable law, it is consented to by the Securityholders.

APPENDIX A

ARTICLES OF AMALGAMATION OF AMALGAMATIONCO

2. Name of amalgamated corporation

ALTAGAS LTD.

3. The place in Canada where the registered office is to be situated

City of Calgary, in the Province of Alberta.

4. The classes and any maximum number of shares that the corporation is authorized to issue

The annexed Schedule 1 is incorporated in this form.

5. Restrictions, if any, on share transfers

None.

6. Number (or minimum and maximum number) of directors

A minimum of 1 and a maximum of 15.

7. Restrictions, if any, on business the corporation may carry on

There are no restrictions.

8. Other provisions, if any

The actual number of directors within the minimum and maximum number set out in paragraph 6 may be determined from time to time by resolution of the directors. Any vacancy among the directors resulting from an increase in the number of directors as so determined may be filled by resolution of the directors.

9. The amalgamation has been approved as if pursuant to subsection 184(1) of the Act:

10. Name of the amalgamating corporations

Alberta Compression Rental Services Inc.
AltaGas Energy Processors Inc.
AltaGas Liquids Inc.
AltaGas Marketing Inc.
AltaGas (Sask.) Inc.
AltaGas Services Inc.
AltaGas Subsidiary Corporation
AltaGas Suffield Pipeline Inc.
AltaGas Transmission Ltd.
Cedar Energy Inc.
The names of Holdcos are to be added

SCHEDULE 1 TO APPENDIX A

The authorized capital of the Corporation shall consist of an unlimited number of Common Shares, an unlimited number of First Preferred Shares and an unlimited number of Second Preferred Shares. The rights, privileges, restrictions and conditions attached to the Common Shares, the First Preferred Shares and the Second Preferred Shares of the Corporation shall be as follows:

A. COMMON SHARES

The unlimited number of Common Shares shall have attached thereto the following rights, privileges, restrictions and conditions:

1. The holders of Common Shares shall be entitled to notice of, to attend and to one vote per share held at any meeting of the shareholders of the Corporation (other than meetings of a class or series of shares of the Corporation other than the Common Shares as such).

2. The holders of Common Shares shall be entitled to receive dividends as and when declared by Board of Directors of the Corporation on the Common Shares as a class, subject to prior satisfaction of all preferential rights to dividends attached to shares of other classes of shares of the Corporation ranking in priority to the Common Shares in respect of dividends.

3. The holders of Common Shares shall be entitled in the event of any liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs, and subject to prior satisfaction of all preferential rights to return of capital on dissolution attached to all shares of other classes of shares of the Corporation ranking in priority to the Common Shares in respect of return of capital on dissolution, to share rateably, together with the holders of shares of any other class of shares of the Corporation ranking equally with the Common Shares in respect of return of capital on dissolution, in such assets of the Corporation as are available for distribution.

B. FIRST PREFERRED SHARES

The unlimited number of First Preferred Shares shall have attached thereto the following rights, privileges, restrictions and conditions:

1. The First Preferred Shares may at any time or from time to time be issued in one or more series. Before any shares of a particular series are issued, the Board of Directors of the Corporation shall, by resolution, fix the number of shares that will form such series and shall, subject to the limitations set out herein, by resolution fix the designation, rights, privileges, restrictions and conditions to be attached to the First Preferred Shares of such series, including, but without in any way limiting or restricting the generality of the foregoing, the rate, amount or method of calculation of dividends thereon, the time and place of payment of dividends, the consideration for and the terms and conditions of any purchase for cancellation, retraction or redemption thereof, conversion or exchange rights (if any), and whether into or for securities of the Corporation or otherwise, voting rights attached thereto (if any), the terms and conditions of any share purchase or retirement plan or sinking fund, and restrictions on the payment of dividends on any shares other than First Preferred Shares or payment in respect of capital on any shares in the capital of the Corporation or creation or issue of debt or equity securities; the whole subject to filing with the Director (as defined in the *Canada Business Corporations Act* or successor legislation thereto) of Articles of Amendment setting forth a description of such series including the designation, rights, privileges, restrictions and conditions attached to the shares of such series.

2. Notwithstanding paragraph 1, the Board of Directors of the Corporation may at any time or from time to time change the rights, privileges, restrictions and conditions attached to unissued shares of any series of First Preferred Shares.

3. The First Preferred Shares of each series shall rank on a parity with the First Preferred Shares of every other series with respect to accumulated dividends and return of capital. The First Preferred Shares shall be entitled to a preference over the Second Preferred Shares, the Common Shares and over any other shares of the Corporation ranking junior to the First Preferred Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs. If any cumulative dividends or amounts payable on a return of capital are not paid in full, the First Preferred Shares of all series shall participate rateably in respect of such dividends, including accumulations, if any, in accordance with the sums that would be payable on such shares if all such dividends were declared and paid in full, and in respect of any repayment of capital in accordance with the sums that would be payable on such repayment of capital if all sums so payable were paid in full; provided, however, that in the event of there being insufficient assets to satisfy in full all such claims as aforesaid, the claims of the holders of the First Preferred Shares with respect to repayment of capital shall first be paid and satisfied and any assets remaining thereafter shall be applied towards the payment in satisfaction of claims in respect of dividends. The First Preferred Shares of any series may also be given such other preferences not inconsistent with paragraphs 1 through 5 hereof over the Second Preferred Shares, the Common Shares and any other shares ranking junior to the First Preferred Shares as may be determined in the case of each such series of First Preferred Shares.

4. The rights, privileges, restrictions and conditions attaching to the First Preferred Shares as a class may be added to, changed or removed but only with the approval of the holders of the First Preferred Shares given as herein specified.

5. The rights, privileges, restrictions and conditions attaching to the First Preferred Shares as a class as provided herein and as may be provided from time to time may be repealed, altered, modified, amended or amplified or otherwise varied only with the sanction of the holders of the First Preferred Shares given in such manner as may then be required by law, subject to a minimum requirement that such approval be given by resolution in writing executed by all holders of the First Preferred Shares entitled to vote on that resolution or passed by the affirmative vote of a least two-thirds of the votes cast at a meeting of holders of First Preferred Shares duly called for such purpose and held upon at least 21 days' notice at which a quorum is present comprising at least two persons present, holding or representing by proxy at least 20% per cent of the outstanding First Preferred Shares. If any such quorum is not present within half an hour after the time appointed for the meeting, then the meeting shall be adjourned to a date being not less than 15 days later and at such time and place as may be appointed by the chairman and at such meeting a quorum will consist of that number of shareholders present in person or represented by proxy. The formalities to be observed with respect to the giving of notice of any such meeting or adjourned meeting and the conduct thereof shall be those which may from time to time be prescribed in the by-laws of the Corporation with respect to meetings of shareholders. On every vote taken at every such meeting or adjourned meeting each holder of a First Preferred Share shall be entitled to one vote in respect of each one dollar of stated value of First Preferred Shares held.

C. SECOND PREFERRED SHARES

The unlimited number of Second Preferred Shares shall have attached thereto the following rights, privileges, restrictions and conditions:

1. The Second Preferred Shares may at any time or from time to time be issued in one or more series. Before any shares of a particular series are issued, the Board of Directors of the Corporation shall, by resolution, fix the number of shares that will form such series and shall, subject to the limitations set out herein, by resolution fix the designation, rights, privileges, restrictions and conditions to be attached to the Second Preferred Shares of such series, including, but without in any way limiting or restricting the generality of the foregoing, the rate, amount or method of calculation of dividends thereon, the time and place of payment of dividends, the consideration for and the terms and conditions of any purchase for cancellation, retraction or redemption thereof, conversion or exchange rights (if any), and whether into or for securities of the Corporation or otherwise, voting rights attached thereto (if any), the terms and conditions of any share purchase or retirement plan or sinking fund, and restrictions on the payment of dividends on any

shares other than Second Preferred Shares or payment in respect of capital on any shares in the capital of the Corporation or creation or issue of debt or equity securities; the whole subject to filing with the Director (as defined in the *Canada Business Corporations Act* or successor legislation thereto) of Articles of Amendment setting forth a description of such series including the designation, rights, privileges, restrictions and conditions attached to the shares of such series.

2. Notwithstanding paragraph 1, the Board of Directors of the Corporation may at any time or from time to time change the rights, privileges, restrictions and conditions attached to unissued shares of any series of Second Preferred Shares.

3. The Second Preferred Shares of each series shall rank on a parity with the Second Preferred Shares of every other series with respect to accumulated dividends and return of capital. The Second Preferred Shares shall be entitled to a preference over the Common Shares and over any other shares of the Corporation ranking junior to the Second Preferred Shares with respect to priority in the payment of dividends and in the distribution of assets in the event of the liquidation, dissolution or winding-up of the Corporation, whether voluntary or involuntary, or any other distribution of the assets of the Corporation among its shareholders for the purpose of winding-up its affairs. If any cumulative dividends or amounts payable on a return of capital are not paid in full, the Second Preferred Shares of all series shall participate rateably in respect of such dividends, including accumulations, if any, in accordance with the sums that would be payable on such shares if all such dividends were declared and paid in full, and in respect of any repayment of capital in accordance with the sums that would be payable on such repayment of capital if all sums so payable were paid in full; provided, however, that in the event of there being insufficient assets to satisfy in full all such claims as aforesaid, the claims of the holders of the Second Preferred Shares with respect to repayment of capital shall first be paid and satisfied and any assets remaining thereafter shall be applied towards the payment in satisfaction of claims in respect of dividends. The Second Preferred Shares of any series may also be given such other preferences not inconsistent with paragraphs 1 through 5 hereof over the Common Shares and any other shares ranking junior to the Second Preferred Shares as may be determined in the case of each such series of Second Preferred Shares.

4. The rights, privileges, restrictions and conditions attaching to the Second Preferred Shares as a class may be added to, changed or removed but only with the approval of the holders of the Second Preferred Shares given as herein specified.

5. The rights, privileges, restrictions and conditions attaching to the Second Preferred Shares as a class as provided herein and as may be provided from time to time may be repealed, altered, modified, amended or amplified or otherwise varied only with the sanction of the holders of the Second Preferred Shares given in such a manner as may then be required by law, subject to a minimum requirement that such approval be given by resolution in writing executed by all holders of the Second Preferred Shares entitled to vote on that resolution or passed by the affirmative vote of at least two-thirds of the votes cast at a meeting of holders of Second Preferred Shares duly called for such purpose and held upon at least 21 days' notice at which a quorum is present comprising at least two persons present, holding or representing by proxy at least 20% per cent of the outstanding Second Preferred Shares. If any such quorum is not present within half an hour after the time appointed for the meeting, then the meeting shall be adjourned to a date being not less than 15 days later and at such time and place as may be appointed by the chairman and at such meeting a quorum will consist of that number of shareholders present in person or represented by proxy. The formalities to be observed with respect to the giving of notice of any such meeting or adjourned meeting and the conduct thereof shall be those which may from time to time be prescribed in the by-laws of the Corporation with respect to meetings of shareholders. On every vote taken at every such meeting or adjourned meeting each holder of a Second Preferred Share shall be entitled to one vote in respect of each one dollar of stated value of Second Preferred Shares held.

APPENDIX D

EXCHANGEABLE SECURITIES PROVISIONS

The following are the Exchangeable Securities Provisions relating to the Class B Units of AltaGas LP #1. The Exchangeable Securities Provisions relating to the Class B Units of AltaGas LP #2 are substantially similar except for the minimum term of Class B Units of AltaGas LP #2 (5 years rather than 10 years) and the minimum number of Class B Units of AltaGas LP #2 that can be outstanding (1,000,000 rather than 750,000), in each case as provided in the opening paragraph of the definition of "Redemption Date".

PROVISIONS ATTACHING TO THE CLASS B UNITS

The Class B Units shall have the following rights, privileges, restrictions and conditions:

ARTICLE 1 INTERPRETATION

For the purposes of these provisions:

"**affiliate**" or "**associate**" when used to indicate a relationship with a person or company, has the same meaning as set forth in the *Securities Act* (Alberta);

"**applicable law**" means any applicable law including any statute, regulation, by-law, treaty, guideline, directive, rule, standard, requirement, policy, order, judgement, decision, injunction, award, decree or resolution of any governmental authority, whether or not having the force of law;

"**AltaGas**" means AltaGas Services Inc., a corporation incorporated pursuant to the CBCA, its successor by amalgamation pursuant to the Plan and its successor's successors;

"**AltaGas LP #2**" means AltaGas Holding Limited Partnership No. 2, a limited partnership created pursuant to the laws of Alberta pursuant to the AltaGas LP #2 Limited Partnership Agreement;

"**AltaGas LP #2 Limited Partnership Agreement**" means the limited partnership agreement to be dated as of March 26, 2004 among the General Partner, the Partnership and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**Arrangement**" means the proposed arrangement, under section 192 of the CBCA, on the terms and conditions set forth in the Plan;

"**Arrangement Agreement**" means the arrangement agreement to be dated as of March 26, 2004 among, inter alia, AltaGas, the Trust, Holding Trust, the Partnership and AltaGas LP #2, as from time to time amended, supplemented or restated;

"**Automatic Redemption**" has the meaning ascribed thereto in Section 8.1(b);

"**Automatic Redemption Price**" has the meaning ascribed thereto in Section 8.1(b);

"**Board of Directors**" means the board of directors of the General Partner;

"**Business Day**" means a day, other than a Saturday, Sunday or statutory holiday, when banks are generally open in Calgary, Alberta, for the transaction of banking business;

"**Canadian Dollar Equivalent**" means in respect of an amount expressed in a currency other than Canadian dollars (the "**Foreign Currency Amount**") at any date the product obtained by multiplying the Foreign Currency Amount by the noon spot exchange rate on such date for such foreign currency expressed in Canadian dollars as reported by the Bank of Canada or, in the event such spot exchange

rate is not available, such spot exchange rate on such date for such foreign currency expressed in Canadian dollars as may be deemed by the Board of Directors to be appropriate for such purpose;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as from time to time amended, including the regulations from time to time promulgated thereunder;

"**Change of Law**" means any amendment to the Tax Act and other applicable provincial income tax laws that permits holders of Class B Units who are resident in Canada, hold the Class B Units as capital property and deal at arm's length with the Trust (all for the purposes of the Tax Act and other applicable provincial income tax laws) to exchange their Class B Units for Trust Units on a basis that will not require such holders to recognize any gain or loss in respect of such exchange for the purposes of the Tax Act or applicable provincial income tax laws;

"**Change of Residency Date**" has the meaning ascribed thereto in Section 8.1(a);

"**Class A Units**" means the Class A limited partnership units in the Partnership having the rights, privileges, restrictions and conditions set forth in the Limited Partnership Agreement;

"**Class B Units**" means the Class B limited partnership units in the Partnership having the rights, privileges, restrictions and conditions set forth in the Limited Partnership Agreement and these provisions;

"**Class B Unit Consideration**" applicable on any date means, with respect to each Class B Unit, for any acquisition of, redemption of or distribution of assets of the Partnership in respect of, or purchase pursuant to, these provisions, the Support Agreement or the Voting and Exchange Trust Agreement, of such Class B Unit:

(a) one Trust Unit; plus

(b) a cheque or cheques payable at par at any branch of the payor's bankers in the amount of all cash distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding cash loan was not made in respect of the Class B Unit; plus

(c) all Trust Units (or fraction thereof) constituting distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding Subdivision of the Class B Unit was required to be but not made; plus

(d) such other property constituting distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding non-cash loan was not made in respect of the Class B Unit;

provided that: (i) the part of the consideration which represents (a) and (c) above shall be fully paid and satisfied by the delivery of the applicable number of Trust Units, such Trust Units to be duly issued, fully paid and non-assessable; (ii) the part of the consideration which represents (d) above shall be fully made and satisfied by delivery of such non-cash items; (iii) any such consideration shall be delivered free and clear of any lien, claim, encumbrance, security interest or adverse claim or interest; and (iv) any such consideration shall be made less any tax required to be deducted and withheld therefrom and without interest;

"**Class B Unit Price**" applicable on any date means, for each Class B Unit, an amount equal to the aggregate of:

(a) the Current Market Price on such date of one Trust Unit; plus

(b) an amount equal to all cash distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding cash loan was not made in respect of the Class B Unit; plus

(c) the Current Market Price on such date of all Trust Units (or fraction thereof) constituting distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding Subdivision of the Class B Unit was required to be but not made; plus

(d) the full value of such other property constituting distributions declared and paid or (where the record date for determining the holders of Trust Units entitled to receive such distribution has occurred) declared and unpaid on a Trust Unit in respect of which a corresponding non-cash loan was not made in respect of the Class B Unit;

"**Class B Unit Voting Event**" means any matter in respect of which holders of Class B Units are entitled to vote as unitholders of the Partnership, other than an Exempt Class B Unit Voting Event, and, for greater certainty, excluding any matter in respect of which holders of Class B Units are entitled to vote (or instruct the Voting and Exchange Trustee to vote) in their capacity as Beneficiaries under, and as that term is defined in, the Voting and Exchange Trust Agreement;

"**Court**" means the Court of Queen's Bench of Alberta;

"**Current Market Price**" means, in respect of a Trust Unit on any date, the per Trust Unit average of the closing sale price of a board lot of Trust Units on each trading day on which there was a closing sale price (and, in the event that there was no closing sale price on a given trading day, the closing sale price for such trading day shall be deemed to be the simple average of the highest bid price and the lowest ask price on such trading day), during a period of 20 consecutive trading days ending not more than three trading days before such date on the TSX, or, if Trust Units are not then quoted on the TSX, on such other stock exchange or automated quotation system on which Trust Units are listed or quoted, as the case may be, as may be selected by General Partner, acting reasonably, for such purpose; provided, however, that if Trust Units are not quoted on any stock exchange or automated quotation system, then the Current Market Price of a Trust Unit shall be determined by General Partner, acting reasonably, in good faith and in its sole discretion, and provided further that any such selection or determination by General Partner shall be conclusive and binding;

"**Declaration of Trust**" means the declaration of trust of the Trust dated as of March 26, 2004, as from time to time amended, supplemented or restated;

"**Distribution Payment Date**" has the meaning ascribed thereto in the Declaration of Trust;

"**Effective Date**" means the date the Arrangement is effective under the CBCA;

"**Effective Time**" means 12:01 a.m. (Calgary time) on the Effective Date;

"**Exempt Class B Unit Voting Event**" means any matter in respect of which holders of Class B Units are entitled to vote as unitholders of the Partnership in order to approve or disapprove, as applicable, any change to, or in the rights of the holders of, the Class B Units, where the approval or disapproval, as applicable, of such change would be required to maintain the equivalence of the Class B Units and the Trust Units;

"**General Partner**" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA, and each other person who becomes an additional or substituted General Partner pursuant to the terms and conditions of the Limited Partnership Agreement;

"**governmental authority**" includes any court (including a court of equity); any multinational, federal, provincial, state, regional, municipal or other government or governmental department, ministry, commission, board, bureau, agency or instrumentality; any securities commission, stock exchange or other regulatory or self-regulatory body; any arbitrator or arbitration authority; or any other governmental authority;

"**holder**" means, when used with reference to the Class B Units, a holder of Class B Units shown from time to time in the register maintained by or on behalf of the Partnership in respect of the Class B Units;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta;

"**Insolvency Event**" means any admission in writing of the General Partner of the inability of the Partnership to pay its debts as they become due in the ordinary course of business;

"**Limited Partners**" means the persons who from time to time hold Class A Units or Class B Units;

"**Limited Partnership Agreement**" means the AltaGas Holding Limited Partnership No. 1 Limited Partnership Agreement dated as of March 26, 2004 among the General Partner, Holding Trust and each person who from time to time is accepted as and becomes a limited partner pursuant thereto, to which these provisions are attached as a Schedule, as from time to time amended, supplemented or restated;

"**Liquidation Amount**" has the meaning ascribed thereto in Section 5.1;

"**Liquidation Call Right**" has the meaning ascribed thereto in Section 10.1;

"**Liquidation Date**" has the meaning ascribed thereto in Section 5.1;

"**Non-Resident**" means: (i) a person (within the meaning of the Tax Act but, for greater certainty, not including a partnership) who is not resident in Canada for the purposes of the Tax Act; or (ii) a partnership that is not a "Canadian partnership" as defined in the Tax Act;

"**Partners**" means, collectively, the Limited Partners and the General Partner, and "**Partner**" means any one of the Partners;

"**Partnership**" means the limited partnership formed pursuant to the Limited Partnership Agreement;

"**person**" includes any individual, body corporate, partnership, association, joint venture, trust, other organization or entity (whether or not a legal entity) or governmental authority;

"**Plan**" means the plan of arrangement under Section 192 of the CBCA as set forth in the Arrangement Agreement, as from time to time amended, supplemented or restated in accordance with the terms thereof;

"**Redemption Date**" means the date, if any, established by the Board of Directors for the redemption by the Partnership of all but not less than all of the outstanding Class B Units (other than Class B Units held by the Trust or its affiliates) pursuant to Article 7, which date shall be no earlier than the 10th anniversary of the Effective Date, unless:

(a) there are less than 750,000 Class B Units outstanding (other than Class B Units held by the Trust or its affiliates), such number to be adjusted as determined by the Board of Directors, in good faith and in its sole discretion, to give effect to any subdivision, consolidation or distribution in specie of the Class B Units, any issue or distribution of rights, options or warrants to acquire Class B Units (or securities exchangeable for or convertible into or carrying rights to acquire Class B Units), any issue or distribution of other securities or rights or evidences of indebtedness or assets, or any other capital reorganization or other transaction affecting the Class B Units, in which case the redemption date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of the Class B Units and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(b) a Trust Control Transaction occurs, in which case, provided that the Board of Directors determines, in good faith and in its sole discretion, that it is not reasonably practicable to substantially replicate the terms and conditions of the Class B Units in connection with such a Trust Control Transaction and that the redemption of all but not less than all of the outstanding Class B Units is necessary to enable the completion of such Trust Control Transaction in accordance with its terms, the redemption date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of the Class B Units and to the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(c) a Change of Law occurs, in which case the redemption date shall be the Business Day determined by the Board of Directors and the Board of Directors shall give such number of days' prior written notice to the registered holders of the Class B Units and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances;

(d) a Class B Unit Voting Event is proposed, in which case, provided that the Board of Directors has determined, in good faith and in its sole discretion, that it is not reasonably practicable to accomplish the business purpose intended by the Class B Unit Voting Event, which business purpose must be bona fide and not for the primary purpose of causing the occurrence of a Redemption Date, the redemption date shall be the Business Day prior to the record date for any meeting or vote of the holders of the Class B Units to consider the Class B Unit Voting Event and the Board of Directors shall give such number of days' prior written notice of such redemption to the registered holders of the Class B Units and the Voting and Exchange Trustee as the Board of Directors may determine to be reasonably practicable in such circumstances; or

(e) an Exempt Class B Unit Voting Event is proposed and the holders of the Class B Units fail to take the necessary action at a meeting or other vote of holders of Class B Units, to approve or disapprove, as applicable, the Exempt Class B Unit Voting Event, in which case the redemption date shall be the Business Day following the day on which the holders of the Class B Units fail to take such action,

provided, however, that the accidental failure or omission to give any notice of redemption under clauses (a), (b) or (c) above to any of such holders of Class B Units shall not affect the validity of any such redemption;

"**Redemption Price**" has the meaning ascribed thereto in Section 7.1;

"**Retracted Units**" has the meaning ascribed thereto in Section 6.1(a)(i);

"**Retraction Date**" has the meaning ascribed thereto in Section 6.1(a)(ii);

"**Retraction Price**" has the meaning ascribed thereto in Section 6.1;

"**Retraction Request**" has the meaning ascribed thereto in Section 6.1;

"**Securities Act**" means the *Securities Act* (Alberta) and the rules, regulations and policies made thereunder, as now in effect and as they may be amended from time to time;

"**Special Voting Unit** " means a special voting unit of the Trust to be issued by the Trust and deposited with the Voting and Exchange Trustee, which shall entitle, inter alia, the holders of Class B Units to such number of votes at meetings of holders of Trust Units as equals the number of Trust Units issuable from time to time on the redemption, retraction or exchange of those Class B Units;

"**Subdivision**" has the meaning ascribed thereto in Section 3.2;

"**Support Agreement**" means the support agreement to be entered into on the Effective Date among the Trust, Holding Trust, the General Partner, AltaGas LP #2 and AltaGas, as from time to time amended, supplemented or restated;

"**Tax Act**" means the Tax Act, R.S.C. 1985, c. 1. (5th Supp), as from time to time amended, including the regulations promulgated from time to time thereunder;

"**Transfer Agent**" means Computershare Trust Company of Canada or such other person as may from time to time be appointed by the Partnership as the registrar and transfer agent for the Class B Units;

"**Trust**" means AltaGas Income Trust, an unincorporated open-ended investment trust established under the laws of Alberta pursuant to the Declaration of Trust;

"**Trust Control Transaction**" means (i) any merger or similar transaction involving the Trust as a result of which all of the outstanding Trust Units are to be sold to or exchanged for securities and/or cash of another entity; (ii) any offer to acquire securities of the Trust to which are attached 50% or more of the voting rights attached to all outstanding securities of the Trust; (iii) any sale of all or substantially all of the assets and investments of the Trust or of all or substantially all of the business and undertaking of any of the Trust, Holding Trust, the Partnership, AltaGas LP #2 or AltaGas; or (iv) any publicly announced proposal to do any of the foregoing;

"**Trust Units**" means a unit, other than a Special Voting Unit, of the Trust, each such unit representing an equal undivided beneficial interest therein;

"**TSX**" means the Toronto Stock Exchange;

"**Voting and Exchange Trust Agreement**" means the voting and exchange trust agreement to be entered into on the Effective Date among the Trust, the Partnership, AltaGas LP #2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

ARTICLE 2
RANKING OF CLASS B UNITS

2.1 Subject to Article 5, on a distribution of assets in the event of the liquidation, dissolution or winding-up of the Partnership, whether voluntary or involuntary, or any other distribution of the assets of the Partnership among its Partners for the purpose of winding-up its affairs:

(a) the holders of Class A Units shall be distributed an amount equal to the aggregate of all liabilities of the Trust and Holding Trust (other than those due among them); and

(b) the balance of the assets of the Partnership shall be distributed:

(i) as to that proportion of such assets equal to the result obtained by dividing the amount of such assets by the sum of the number of Class B Units and the number of Trust Units, in each case as outstanding on the date of such distribution, in respect of each Class B Unit outstanding; and

(ii) as to the remaining portion of such assets, to the holders of Class A Units rateably in accordance with the number of Class A Units held thereby.

ARTICLE 3
LOANS AND DISTRIBUTIONS

3.1 A holder of a Class B Unit shall be entitled to receive and the Partnership shall, subject to applicable law, on each Distribution Payment Date, make a loan in respect of each Class B Unit:

(a) in the case of a cash distribution declared on the Trust Units, in an amount in cash for each Class B Unit equal to the cash distribution (or Canadian Dollar Equivalent thereof in the case of a cash distribution declared in other than Canadian dollars) declared on each Trust Unit; or

(b) in the case of a distribution declared on the Trust Units in property other than cash or Trust Units, in such type and amount of property for each Class B Unit as is the same as or economically equivalent to (to be determined by the Board of Directors as contemplated by Section 3.6) the type and amount of property declared as a distribution on each Trust Unit.

3.2 In the case of a distribution declared on the Trust Units to be paid in Trust Units, the Board of Directors shall subdivide, redivide or change (the "**Subdivision**") each issued and unissued Class B Unit on the basis that each Class B Unit before the subdivision becomes a number of Class B Units equal to the sum of (i) one Trust Unit and (ii) the number of Trust Units to be paid as a unit distribution on each Trust Unit. In making such Subdivision, the Board of Directors shall consider the effect thereof upon the then outstanding Class B Units and the general taxation consequences of the Subdivision to the holders of the Class B Units. In such instance, and notwithstanding any other provision hereof, such Subdivision shall become effective on the effective date specified in Section 3.4 without any further act or formality on the part of the Board of Directors, the Partnership or of the holders of Class B Units. For greater certainty, subject to applicable law, no approval of the holders to an amendment to the Limited Partnership Agreement shall be required to give effect to such Subdivision. Notwithstanding the foregoing, no such Subdivision shall be made if the distribution of Trust Units by the Trust is immediately followed by an automatic consolidation of the outstanding Trust Units in accordance with Section 3.6 of the Declaration of Trust and such consolidation is effective.

3.3 Cheques of the Partnership payable at par at any branch of the bankers of the Partnership shall be issued in respect of any cash loans contemplated by Section 3.1(a) and the sending of such a cheque to each holder of a Class B Unit shall satisfy the Partnership's obligation to make the cash loan represented thereby unless the cheque is not paid on presentation. Subject to applicable law, certificates registered in the name of the registered holder of Class B Units shall be issued or transferred in respect of any Subdivision contemplated by Section 3.2 and the sending of such certificates to each holder of a Class B Unit shall satisfy the unit distribution represented thereby. Such other type and amount of property in respect of the Partnership's obligation to make the loans contemplated by Section 3.1(b) shall be issued, distributed or transferred by the Partnership in such manner as it shall determine and the issuance, distribution or transfer thereof by the Partnership to each holder of a Class B Unit shall satisfy the Partnership's obligation to make the loan represented thereby.

No holder of a Class B Unit shall be entitled to recover by action or other legal process against the Partnership any loan advance that is represented by a cheque that has not been duly presented to the Partnership's bankers for payment or that otherwise remains unclaimed for a period of six years from the date on which such loan advance was first payable.

3.4 The record date for the determination of the holders of Class B Units entitled to receive and the date for making any loan in respect of the Class B Units under Section 3.1 shall be the same dates as the record date and payment date, respectively, for the corresponding distribution declared on the Trust Units. The record date for the determination of the holders of Class B Units entitled to receive additional Class B Units in connection with any Subdivision of the Class B Units under Section 3.2 and the effective date of such Subdivision shall be the same dates as the record date and payment date, respectively, for the corresponding distribution declared on the Trust Units.

3.5 If on any date any loan on the Class B Units under Section 3.1 is required to be made, the loan is not made in full in respect of all of the Class B Units then outstanding, any such loan that remains unadvanced shall be made on the earliest subsequent date or dates determined by the Board of Directors on which the Partnership shall have sufficient moneys, assets or property properly applicable to the making of such loan.

3.6 The Board of Directors shall determine, in good faith and in its sole discretion, economic equivalence for the purposes of Sections 3.1 and 3.2 and Article 12, and each such determination shall be conclusive and binding on the Partnership and all Partners. In making each such determination, the following factors shall, without excluding other factors determined by the Board of Directors to be relevant, be considered by the Board of Directors:

(a) in the case of the distribution of any rights, options or warrants to subscribe for or purchase Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units), the relationship between the exercise price of each such right, option or warrant and the Current Market Price, the volatility of the Trust Units and the term of any such instrument;

(b) in the case of the distribution of any other form of property (including any securities of the Trust of any class other than Trust Units, any rights, options or warrants other than those referred to in Section 3.6(a) above, any evidences of indebtedness of the Trust or any assets of the Trust) the relationship between the fair market value (as determined by the Board of Directors in the manner above contemplated) of such property to be issued or distributed with respect to each outstanding Trust Unit and the Current Market Price;

(c) in the case of any subdivision, redivision or change of the then outstanding Trust Units into a greater number of Trust Units or the reduction, combination, consolidation or change of the then outstanding Trust Units into a lesser number of Trust Units or any merger, reorganization or other transaction affecting Trust Units, the effect thereof upon the then outstanding Trust Units; and

(d) in all such cases, the general taxation consequences of the relevant event to holders of Class B Units to the extent that such consequences may differ from the taxation consequences to holders of Trust Units (except for any differing consequences arising as a result of differing marginal taxation rates and without regard to the individual circumstances of holders of Class B Units).

3.7 Notwithstanding anything set forth in Sections 3.1 to 3.6, inclusive, any amount or property loaned in respect of Class B Units pursuant to Section 3.1:

(a) shall not constitute a distribution of profits or other compensation by way of income in respect of such Class B Units or a distribution of Partnership capital; and

(b) shall constitute a loan of the amount thereof or, in the case of property, the fair market value thereof as determined in good faith by the Board of Directors as of the date of such loan, to the holder of the Class B Units receiving the same, which loan shall be repayable, without interest, by such holder to the Partnership on the earlier of:

(i) January 1 of the calendar year next following the making thereof;

(ii) the 5th Business Day preceding any Insolvency Event;

(iii) the Business Day prior to the redemption pursuant to Article 6, 7 or 8 of the Class B Unit in respect of which the loan was made;

(iv) the Business Day prior to the purchase pursuant to Article 10 of the Class B Unit in respect of which the loan was made; and

(v) the Business Day prior to any other transfer of the Class B Unit in respect of which the loan was made.

3.8 The Partnership shall make (and be deemed to make) a distribution in respect of each Class B Unit equal to the amount of the loans outstanding in respect thereof as provided in Section 3.7 on the date such loans are repayable to the Partnership pursuant to Section 3.7.

3.9 The Partnership shall set off and apply the amount of any distribution made (or deemed to have been made) pursuant to Section 3.8 against the obligations of any holder of Class B Units under any loan outstanding in respect thereof as provided in Section 3.7. Each holder of Class B Units shall have the right to set off and apply any amount owed by such holder of Class B Units under any loan outstanding in respect thereof as provided in Section 3.7 against the amount of any distribution made pursuant to Section 3.8.

3.10 Except as provided in Article 2, this Article 3 and Article 5, the holders of Class B Units shall not be entitled to receive distributions in respect thereof.

ARTICLE 4
CERTAIN RESTRICTIONS

4.1 So long as any of the Class B Units are outstanding, the Partnership shall not at any time without, but may at any time with, the approval of the holders of the Class B Units given as specified in Section 12.2:

(a) pay any distributions on the Class A Units other than distributions payable in Class A Units;

(b) redeem or purchase or make any capital distribution in respect of Class A Units; or

(c) issue any Class B Units or any other units of the Partnership ranking superior to the Class B Units other than by way of distributions to the holders of Class B Units;

provided that such restrictions shall not apply if (i) all loans on the outstanding Class B Units corresponding to distributions declared and paid to date on the Trust Units shall have been made in respect of the Class B Units; or (ii) the amount or property to be loaned has been set aside for loan in respect of the Class B Units on a forthcoming Distribution Payment Date corresponding with the payment of a distribution on the Trust Units reflected by such loan.

ARTICLE 5
DISTRIBUTION ON LIQUIDATION

5.1 In the event of the liquidation, dissolution or winding-up of the Partnership, whether voluntary or involuntary, or any other distribution of the assets of the Partnership among its Partners for the purpose of winding up its affairs, a holder of Class B Units shall be entitled, subject to applicable law and to the exercise by Holding Trust of the Liquidation Call Right, to receive from the assets of the Partnership in respect of each Class B Unit held by such holder on the effective date (the "**Liquidation Date**") of such liquidation, dissolution, winding-up or distribution of assets an amount per Class B Unit equal to the Class B Unit Price applicable on the last Business Day prior to the Liquidation Date (the "**Liquidation Amount**") payable as provided in Section 5.2.

5.2 On or promptly after the Liquidation Date, and subject to the exercise by Holding Trust of the Liquidation Call Right, the Partnership shall cause to be delivered to the holders of the Class B Units the Liquidation Amount for each such Class B Unit upon presentation and surrender of the certificates representing such Class B Units, together with such other documents and instruments as may be required to effect a transfer of Class B Units under the Limited Partnership Agreement and such additional documents and instruments as the Transfer Agent and the Partnership may reasonably require, at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership by notice to the holders of the Class B Units. Payment of the total Liquidation Amount for such Class B Units shall be made by delivery to each holder, at the address of the holder recorded in the register of the Partnership for the Class B Units or by holding for pick-up by the holder at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership by notice to the holders of Class B Units, on behalf of the Partnership of the Class B Unit Consideration representing the total Liquidation Amount (less any amount withheld pursuant to Article 14).

5.3 On and after the Liquidation Date, the holders of the Class B Units shall cease to be holders of such Class B Units and shall not be entitled to exercise any of the rights of holders in respect thereof (including any rights under the Voting and Exchange Trust Agreement), other than the right to receive their proportionate part of the total Liquidation Amount (less any amount withheld pursuant to Article 14), unless upon presentation and surrender of certificates in accordance with the foregoing provisions payment of the total Liquidation Amount (less any amount withheld pursuant to Article 14) for such Class B Units shall not be made, in which case the rights of the holders shall remain unaffected until the total Liquidation Amount (less any amount withheld pursuant to Article 14) to which such holders are entitled shall have been paid to such holders in the manner hereinbefore provided.

5.4 The Partnership shall have the right at any time on or before the Liquidation Date to deposit or cause to be deposited the Class B Unit Consideration representing the Liquidation Amount (less any amount withheld pursuant to Article 14) in respect of the Class B Units represented by certificates that have not at the Liquidation Date been surrendered by the holders thereof in a custodial account with any chartered bank or trust company in Canada. Upon such deposit being made, the rights of the holders of Class B Units, after such deposit, shall be limited to receiving their proportionate part of the total Liquidation Amount for such Class B Units so deposited (less any amount withheld pursuant to Article 14), against presentation and surrender of the said certificates held by them, respectively, in accordance with the foregoing provisions. Upon such payment or deposit of such Class B Unit Consideration, the holders of the Class B Units shall thereafter be considered and deemed for all purposes to be holders of the Trust Units delivered to them or the custodian on their behalf.

5.5 After the Partnership has satisfied its obligations to pay the holders of the Class B Units the Liquidation Amount per Class B Unit pursuant to Section 5.1, such holders shall not be entitled to share in any further distribution of the assets of the Partnership.

ARTICLE 6
RETRACTION OF CLASS B UNITS BY HOLDER

6.1 A holder of Class B Units shall be entitled at any time, upon compliance with the provisions of this Article 6, to require the Partnership to redeem any or all of the Class B Units registered in the name of such holder for an amount per Class B Unit equal to the Class B Unit Price applicable on the last Business Day prior to the Retraction Date (the "**Retraction Price**"), which shall be satisfied in full by the Partnership causing to be delivered to such holder the Class B Unit Consideration representing the Retraction Price. To effect such redemption, the holder shall present and surrender at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership by notice to the holders of Class B Units, the certificate or certificates representing the Class B Units which the holder desires to have the Partnership redeem, together with such other documents and instruments as may be required to effect a transfer of Class B Units under the Limited Partnership Agreement and such additional documents and instruments as the Transfer Agent and the General Partner may reasonably require, and together with:

(a) a duly executed statement (the "**Retraction Request**") in the form of Schedule A hereto or in such other form as may be acceptable to the General Partner:

(i) specifying that the holder desires to have all or any number specified therein of the Class B Units represented by such certificate or certificates (the "**Retracted Units**") redeemed by the Partnership; and

(ii) stating the Business Day on which the holder desires to have the Partnership redeem the Retracted Units (the "**Retraction Date**"), provided that the Retraction Date shall be not less than 3 Business Days nor more than 5 Business Days after the date on which the Retraction Request is received by the General Partner and further provided that, in the event that no such Business Day is specified by the holder in the Retraction Request, the Retraction Date shall be deemed to be the 5th Business Day after the date on which the Retraction Request is received by the General Partner; and

(b) payment (or evidence satisfactory to the General Partner of payment) of the taxes (if any) payable as contemplated by Section 14.4.

6.2 Upon receipt by the General Partner or the Transfer Agent in the manner specified in Section 6.1 of a certificate or certificates representing the number of Retracted Units, together with a Retraction Request and such additional documents and instruments as the Transfer Agent and the General Partner may reasonably require, and provided that the Retraction Request is not revoked by the holder in the manner specified in Section 6.6, the Partnership shall redeem the Retracted Units effective at the close of business on the Retraction Date and shall cause to be delivered to such holder the total Retraction Price with respect to such Class B Units in accordance with Section 6.3. If only a part of the Class B Units represented by any certificate is redeemed, a new certificate for the balance of such Class B Units shall be issued to the holder at the expense of the Partnership.

6.3 The Partnership shall deliver or cause the Transfer Agent to deliver to the relevant holder, at the address of the holder recorded in the register of the Partnership for the Class B Units or at the address specified in the holder's Retraction Request or, if specified in such Retraction Request, by holding for pick-up by the holder at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership by notice to such holder of Class B Units, the Class B Unit Consideration representing the total Retraction Price (less any amount withheld pursuant to Article 14) and such delivery to the Transfer Agent shall be deemed to be payment of and shall satisfy and discharge all liability for the total Retraction Price to the extent that the same is represented by such Class B Unit Consideration.

6.4 On and after the close of business on the Retraction Date, the holder of the Retracted Units shall cease to be a holder of such Retracted Units and shall not be entitled to exercise any of the rights of a holder in respect thereof, other than the right to receive the total Retraction Price (less any amount withheld pursuant to Article 14) unless upon presentation and surrender of certificates in accordance with the

foregoing provisions, payment of the total Retraction Price (less any amount withheld pursuant to Article 14) shall not be made as provided in Section 6.3, in which case the rights of such holder shall remain unaffected until the total Retraction Price (less any amount withheld pursuant to Article 14) has been paid in the manner hereinbefore provided. On and after the close of business on the Retraction Date, provided that presentation and surrender of certificates and payment of the total Retraction Price (less any amount withheld pursuant to Article 14) has been made in accordance with the foregoing provisions, the holder of the Retracted Units so redeemed by the Partnership shall thereafter be considered and deemed for all purposes to be the holder of the Trust Units delivered to it.

6.5 Notwithstanding any other provision of this Article 6, the Partnership shall not be obligated to redeem Retracted Units specified by a holder in a Retraction Request to the extent that such redemption of Retracted Units would be contrary to provisions of applicable law. If the Partnership believes, acting reasonably, that on any Retraction Date it would not be permitted by any of such provisions to redeem the Retracted Units tendered for redemption on such date, the Partnership shall only be obligated to redeem Retracted Units specified by a holder in a Retraction Request to the extent of the maximum number that may be so redeemed (rounded down to a whole number of Class B Units) as would not be contrary to such provisions and shall notify the holder at least one Business Day prior to the Retraction Date as to the number of Retracted Units which will not be redeemed by the Partnership. In any case in which the redemption by the Partnership of Retracted Units would be contrary to applicable law, the Partnership shall redeem the maximum number of Class B Units which the Board of Directors determines the Partnership is permitted to redeem as of the Retraction Date on a pro rata basis and shall issue to each holder of Retracted Units a new certificate, at the expense of the Partnership, representing the Retracted Units not redeemed by the Partnership pursuant to Section 6.2. Provided that the Retraction Request is not revoked by the holder in the manner specified in Section 6.6, the holder of any such Retracted Units not redeemed by the Partnership pursuant to Section 6.2 as a result of applicable law shall be deemed by giving the Retraction Request to have instructed the Voting and Exchange Trustee to require the Trust to purchase such Retracted Units from such holder on the Retraction Date or as soon as practicable thereafter on payment by the Trust to such holder of the Retraction Price for each such Retracted Unit, all as more specifically provided in Section 5.7 of the Voting and Exchange Trust Agreement.

6.6 A holder of Retracted Units may, by notice in writing given by the holder to the Partnership before the close of business on the Business Day immediately preceding the Retraction Date, withdraw its Retraction Request, in which event such Retraction Request shall be null and void.

ARTICLE 7
REDEMPTION OF CLASS B UNITS BY THE PARTNERSHIP

7.1 Subject to applicable law, the Partnership shall on the Redemption Date redeem all but not less than all of the then outstanding Class B Units for an amount per Class B Unit equal to the Class B Unit Price applicable on the last Business Day prior to the Redemption Date (the "**Redemption Price**"), which shall be satisfied in full by the Partnership causing to be delivered to such holder the Class B Unit Consideration representing the Redemption Price.

7.2 In any case of a redemption of Class B Units under this Article 7, the Partnership shall, at least 30 days before the Redemption Date (other than a Redemption Date established in connection with a Trust Control Transaction, a Change of Law, a Class B Unit Voting Event or an Exempt Class B Unit Voting Event), send or cause to be sent to each holder of Class B Units a notice in writing of the redemption by the Partnership of the Class B Units held by such holder. In the case of a Redemption Date established in connection with a Trust Control Transaction, a Change of Law, a Class B Unit Voting Event or an Exempt Class B Unit Voting Event, the written notice of redemption by the Partnership will be sent on or before the Redemption Date, on as many days prior written notice as may be determined by the Board of Directors to be reasonably practicable in the circumstances. In any such case, such notice shall set out the formula for determining the Redemption Price and the Redemption Date. In the case of any notice given in connection with a possible Redemption Date, such notice will be given contingently and will be withdrawn if the contingency does not occur.

7.3 On or after the Redemption Date, the Partnership shall cause to be delivered to the holders of the Class B Units to be redeemed the Redemption Price (less any amount withheld pursuant to Article 14) for each such Class B Unit upon presentation and surrender at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership in the notice described in Section 7.2 of the certificates representing such Class B Units, together with such other documents and instruments as may be required to effect a transfer of Class B Units under the Limited Partnership Agreement and such additional documents and instruments as the Transfer Agent and the General Partner may reasonably require. Payment of the total Redemption Price for such Class B Units shall be made by delivery to each holder, at the address of the holder recorded in the securities register of the Partnership or by holding for pick-up by the holder at the registered office of the General Partner or at any office of the Transfer Agent as may be specified by the Partnership in such notice, on behalf of the Partnership of the Class B Unit Consideration representing the total Redemption Price (less any amount withheld pursuant to Article 14) for the holder's Class B Units.

7.4 On and after the Redemption Date, the holders of the Class B Units called for redemption shall cease to be holders of such Class B Units and shall not be entitled to exercise any of the rights of holders in respect thereof, other than the right to receive their proportionate part of the total Redemption Price (less any amount withheld pursuant to Article 14), unless payment of the total Redemption Price for such Class B Units shall not be made upon presentation and surrender of certificates in accordance with the foregoing provisions, in which case the rights of the holders shall remain unaffected until the total Redemption Price (less any amount withheld pursuant to Article 14) has been paid in the manner hereinbefore provided.

7.5 The Partnership shall have the right at any time after the sending of notice of its intention to redeem the Class B Units as aforesaid to deposit or cause to be deposited the Class B Unit Consideration with respect to the Class B Units so called for redemption, or of such of the said Class B Units represented by certificates that have not at the date of such deposit been surrendered by the holders thereof in connection with such redemption, in a custodial account with any chartered bank or trust company in Canada named in such notice. Upon the later of such deposit being made and the Redemption Date, the Class B Units in respect whereof such deposit shall have been made shall be redeemed and the rights of the holders thereof after such deposit or Redemption Date, as the case may be, shall be limited to receiving their proportionate part of the total Redemption Price for such Class B Units so deposited (less any amount withheld pursuant to Article 14), against presentation and surrender of the said certificates held by them, respectively, in accordance with the foregoing provisions. Upon such payment or deposit of such Class B Unit Consideration, the holders of the Class B Units shall thereafter be considered and deemed for all purposes to be holders of Trust Units delivered to them or the custodian on their behalf.

ARTICLE 8
AUTOMATIC REDEMPTION

8.1 (a) Each holder of Class B Units shall notify the Partnership of any event or circumstance which would result in such holder becoming or being deemed to become a Non-Resident, as soon as practicable and, in any event, at least 30 days prior to the anticipated effective date of such change (the "**Change of Residency Date**").

(b) On and as of the fifth Business Day prior to the Change of Residency Date, all but not less than all of such holder's Class B Units shall be and be deemed to be transferred to the Partnership for the Class B Unit Price applicable on the last Business Day prior to the Change of Residency Date (the "**Automatic Redemption Price**") in accordance with Section 8.1(c) (the "**Automatic Redemption**").

(c) For the purposes of completing the purchase of the Class B Units pursuant to the Automatic Redemption, the Partnership shall deposit or cause to be deposited with the Transfer Agent, as soon as practicable after the Change of Residency Date, the Class B Unit Consideration representing the total Automatic Redemption Price. From and after the fifth Business Day

prior to the Change of Residency Date, the holder of the Class B Units referred to in Section 9.2(a) shall cease and be deemed to cease to be a holder of the Class B Units and shall not be entitled to exercise any of the rights of holders in respect thereof (including any rights under the Voting and Exchange Trust Agreement), other than the right to receive the total Automatic Redemption Price payable by the Partnership to such holder (less any amount withheld pursuant to Article 14), without interest, upon presentation and surrender by the holder of certificates representing the Class B Units held by such holder and the holder shall on and after the Change of Residency Date be considered and deemed for all purposes to be the holder of the Trust Units to which such holder is entitled. Upon surrender to the Transfer Agent of a certificate or certificates representing Class B Units, together with such other documents and instruments as may be required to effect a transfer of Class B Units under the Limited Partnership Agreement and such additional documents and instruments as the Transfer Agent may reasonably require, the holder of such surrendered certificate or certificates shall be entitled to receive in exchange therefor, and the Transfer Agent on behalf of the Partnership shall deliver to such holder, the Class B Unit Consideration (less any amount withheld pursuant to Article 14) to which such holder is entitled.

ARTICLE 9
PURCHASE FOR CANCELLATION

9.1 Subject to applicable law and the Limited Partnership Agreement and notwithstanding Section 9.2, the Partnership may at any time and from time to time purchase for cancellation all or any part of the Class B Units by private agreement with any holder of Class B Units.

9.2 Subject to applicable law and the Limited Partnership Agreement, the Partnership may at any time and from time to time purchase for cancellation all or any part of the outstanding Class B Units by invitation to tender made to all the holders of record of Class B Units then outstanding at any price per Class B Unit. If in response to an invitation for tenders under the provisions of this Section 9.2, more Class B Units are tendered at a price or prices acceptable to the Partnership than the Partnership is prepared to purchase, the Class B Units to be purchased by the Partnership shall be purchased as nearly as may be pro rata according to the number of Class B Units tendered by each holder who submits a tender to the Partnership, provided that when Class B Units are tendered at different prices, the pro rating shall be effected (disregarding fractions) only with respect to the Class B Units tendered at the price at which more Class B Units were tendered than the Partnership is prepared to purchase after the Partnership has purchased all the Class B Units tendered at lower prices. If only part of the Class B Units represented by any certificate shall be purchased, a new certificate for the balance of such Class B Units shall be issued at the expense of the Partnership.

ARTICLE 10
CERTAIN RIGHTS TO ACQUIRE CLASS B UNITS

10.1 (a) Holding Trust shall have the overriding right (the "**Liquidation Call Right**"), in the event of and notwithstanding the proposed liquidation, dissolution or winding-up of the Partnership or any other distribution of the assets of the Partnership among its Partners for the purpose of winding-up its affairs, pursuant to Section 20.1 of the Limited Partnership Agreement, to purchase from all but not less than all of the holders (other than the Trust and its affiliates) of Class B Units on the Liquidation Date all but not less than all of the Class B Units held by each such holder upon payment by Holding Trust to each such holder of the Liquidation Amount for each of such holder's Class B Units in accordance with Section 10.1(c). In the event of the exercise of the Liquidation Call Right by Holding Trust, each holder shall be obligated to sell all the Class B Units held by such holder to Holding Trust on the Liquidation Date upon payment by Holding Trust to such holder of the Liquidation Amount for each such Class B Unit, whereupon the Partnership shall have no obligation to pay any Liquidation Amount to the holders of such Class B Units so purchased by Holding Trust.

(b) To exercise the Liquidation Call Right, Holding Trust must notify the Partnership and the Transfer Agent of Holding Trust's intention to exercise such right at least 15 days before the Liquidation Date, in the case of a voluntary liquidation, dissolution or winding-up of the Partnership or any other voluntary distribution of the assets of the Partnership among its Partners for the purpose of winding-up its affairs, and at least five Business Days before the Liquidation Date, in the case of an involuntary liquidation, dissolution or winding-up of the Partnership or any other involuntary distribution of the assets of the Partnership among its Partners for the purpose of winding up its affairs. The Transfer Agent will notify the holders of Class B Units as to whether Holding Trust has exercised the Liquidation Call Right forthwith after the expiry of the period during which the same may be exercised by Holding Trust. If Holding Trust exercises the Liquidation Call Right, then on the Liquidation Date, Holding Trust will purchase and the holders of Class B Units will sell all of the Class B Units then outstanding for a price per Class B Unit equal to the Liquidation Amount.

(c) For the purposes of completing the purchase of the Class B Units pursuant to the Liquidation Call Right, Holding Trust shall deposit or cause to be deposited with the Transfer Agent, on or before the Liquidation Date, the Class B Unit Consideration representing the total Liquidation Amount. Provided that such Class B Unit Consideration has been so deposited with the Transfer Agent, on and after the Liquidation Date, the holders of the Class B Units shall cease to be holders of the Class B Units and shall not be entitled to exercise any of the rights of holders in respect thereof (including any rights under the Voting and Exchange Trust Agreement), other than the right to receive their proportionate part of the total Liquidation Amount payable by Holding Trust (less any amount withheld pursuant to Article 14), without interest, upon presentation and surrender by the holder of certificates representing the Class B Units held by such holder and the holder shall on and after the Liquidation Date be considered and deemed for all purposes to be the holder of the Trust Units to which such holder is entitled. Upon surrender to the Transfer Agent of a certificate or certificates representing Class B Units, together with such other documents and instruments as may be required to effect a transfer of Class B Units under the Limited Partnership Agreement and such additional documents and instruments as the Transfer Agent may reasonably require, the holder of such surrendered certificate or certificates shall be entitled to receive in exchange therefor, and the Transfer Agent on behalf of Holding Trust shall deliver to such holder, the Class B Unit Consideration (less any amount withheld pursuant to Article 14) to which such holder is entitled. If Holding Trust does not exercise the Liquidation Call Right in the manner described above, on the Liquidation Date the holders of the Class B Units will be entitled to receive in exchange therefor the Liquidation Amount otherwise payable by the Partnership in connection with the liquidation, dissolution or winding-up of the Partnership pursuant to Section 5.2.

ARTICLE 11
AMENDMENT AND APPROVAL

11.1 Any approval given by the holders of the Class B Units to add to, change or remove any right, privilege, restriction or condition attaching to the Class B Units or any other matter requiring the approval or consent of the holders of Class B Units shall be deemed to have been sufficiently given if it shall have been given in accordance with applicable law subject to a minimum requirement that such approval be given by resolution in writing executed by all holders of Class B Units entitled to vote on that resolution or passed by the affirmative vote of at least two-thirds of the votes cast on such resolution by holders of Class B Units (other than the Trust and its affiliates) represented in person or by proxy at a meeting of holders of Class B Units duly called for such purpose and held upon at least 21 days' notice at which the holders of at least 25% of the outstanding Class B Units (other than Class B Units held by the Trust and its affiliates) at that time are present or represented by proxy; provided that if at any such meeting the holders of at least 25% of the outstanding Class B Units at that time are not present or represented by proxy within half an hour after the time appointed for such meeting, then the meeting shall be adjourned to such date not less than five days thereafter and to such time and place as may be designated by the Chair of such meeting. At such adjourned meeting, the

holders of Class B Units (other than the Trust and its affiliates) present or represented by proxy thereat may transact the business for which the meeting was originally called and a resolution passed thereat by the affirmative vote of at least two-thirds of the votes cast on such resolution by holders (other than the Trust and its affiliates) represented in person or by proxy at such meeting shall constitute the approval or consent of the holders of the Class B Units. For purposes of this section, any spoiled votes, illegible votes, defective votes and abstentions shall be deemed to be votes not cast. On every vote taken at every such meeting or adjoumed meeting each holder of Class B Units shall be entitled to one vote in respect of each Class B Unit held by such holder.

ARTICLE 12
RECIPROCAL CHANGES, ETC. IN RESPECT OF TRUST UNITS

12.1 Each holder of a Class B Unit acknowledges that the Support Agreement provides, in part, that the Trust will not, without the prior approval of the Partnership and the prior approval of the holders of the Class B Units given in accordance with Section 11.1:

(a) issue or distribute Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to the holders of all or substantially all of the then outstanding Trust Units by way of a distribution, other than an issue of Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to holders of Trust Units (i) who exercise an option to receive distributions in Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) in lieu of receiving cash distributions, or (ii) pursuant to any distribution reinvestment plan;

(b) issue or distribute rights, options or warrants to the holders of all or substantially all of the then outstanding Trust Units entitling them to subscribe for or to purchase Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units); or

(c) issue or distribute to the holders of all or substantially all of the then outstanding Trust Units:

(i) securities of the Trust of any class other than Trust Units (other than securities exchangeable for or convertible into or carrying rights to acquire Trust Units);

(ii) rights, options or warrants other than those referred to in Section 12.1(b);

(iii) evidences of indebtedness of the Trust; or

(iv) assets of the Trust,

unless the economic equivalent on a per Class B Unit basis of such rights, options, warrants, securities, shares, evidences of indebtedness or other assets is issued or loaned simultaneously to holders of the Class B Units; provided that, for greater certainty, the above restrictions shall not apply to any securities issued or distributed by the Trust in order to give effect to and to consummate the transactions contemplated by, and in accordance with, the Arrangement Agreement or to give effect to a redemption by the Trust of Trust Units in accordance with the Declaration of Trust.

12.2 Each holder of a Class B Unit acknowledges that the Support Agreement further provides, in part, that the Trust will not without the prior approval of the Partnership and the prior approval of the holders of the Class B Units given in accordance with Section 11.1:

(a) subdivide, redivide or change the then outstanding Trust Units into a greater number of Trust Units;

(b) reduce, combine, consolidate or change the then outstanding Trust Units into a lesser number of Trust Units; or

(c) reclassify or otherwise change the Trust Units or effect a merger, reorganization or other transaction affecting the Trust Units;

unless the same or an economically equivalent change shall simultaneously be made to, or in the rights of the holders of, the Class B Units; provided that, for greater certainty, the above restrictions shall not apply to any securities issued or distributed by the Trust in order to give effect to and to consummate the transactions contemplated by, and in accordance with, the Arrangement Agreement.

12.3 Notwithstanding the foregoing provisions of this Article 12, in the event of a Trust Control Transaction:

(a) which does not result in an acceleration of the Redemption Date in accordance with paragraph (b) of the definition of "Redemption Date"; and

(b) in which all or substantially all of the then outstanding Trust Units are converted into or exchanged for securities or rights to receive such securities (the "**Other Securities**") of another person (the "**Other Entity**") that, immediately after such Trust Control Transaction, owns or controls, directly or indirectly, the Trust;

then all references herein to "the Trust" shall thereafter be and be deemed to be references to the "Other Entity" and all references herein to "Trust Units" shall thereafter be and be deemed to be references to "Other Securities" (with appropriate adjustments, if any, as are required to result in a holder of Class B Units on the exchange, redemption or retraction of such securities pursuant to these provisions or exchange of such securities pursuant to the Voting and Exchange Trust Agreement immediately subsequent to the Trust Control Transaction being entitled to receive that number of Other Securities equal to the number of Other Securities such holder of Class B Units would have received if the exchange, redemption or retraction of such securities pursuant to these provisions or exchange of such securities pursuant to the Voting and Exchange Trust Agreement had occurred immediately prior to the Trust Control Transaction and the Trust Control Transaction was completed) without any need to amend the terms and conditions of the Class B Units and without any further action required.

ARTICLE 13
ACTIONS BY THE PARTNERSHIP UNDER SUPPORT AGREEMENT

13.1 The Partnership shall not propose, agree to or otherwise give effect to any amendment to, or waiver or forgiveness of its rights or obligations under, the Support Agreement or the Voting and Exchange Trust Agreement without the approval of the holders of the Class B Units given in accordance with Section 11.1 other than such amendments, waivers and/or forgiveness as may be necessary or advisable for the purposes of:

(a) adding to the covenants of the other parties to such agreement for the protection of the Partnership or the holders of the Class B Units thereunder;

(b) making such provisions or modifications not inconsistent with such agreement as may be necessary or desirable with respect to matters or questions arising thereunder which, in the good faith opinion of the Board of Directors, it may be expedient to make, provided that the Board of Directors shall be of the good faith opinion, after consultation with counsel, that such provisions and modifications will not be prejudicial to the interests of the holders of the Class B Units; or

(c) making such changes in or corrections to such agreement which, on the advice of counsel to the Partnership, are required for the purpose of curing or correcting any ambiguity or defect or inconsistent provision or clerical omission or mistake or manifest error contained therein, provided that the Board of Directors shall be of the good faith opinion, after consultation with

counsel, that such changes or corrections will not be prejudicial to the interests of the holders of the Class B Units.

ARTICLE 14
LEGEND; CALL RIGHTS; WITHHOLDING RIGHTS

14.1 The certificates evidencing the Class B Units shall contain or have affixed thereto a legend in form and on terms approved by the Board of Directors, with respect to the Support Agreement, the provisions relating to the Liquidation Call Right, Automatic Redemption, and the Voting and Exchange Trust Agreement (including the provisions with respect to the voting rights, exchange right and automatic exchange thereunder).

14.2 Each holder of a Class B Unit, whether of record or beneficial, by virtue of becoming and being such a holder shall be deemed to acknowledge the Automatic Redemption in favour of the Partnership, and the Liquidation Call Right in favour of Holding Trust and the overriding nature thereof in connection with the liquidation, dissolution or winding-up of the Partnership or any other distribution of the assets of the Partnership among its Partners for the purpose of winding-up its affairs, or a change of residency, as the case may be, and to be bound thereby as therein provided.

14.3 The Partnership, Holding Trust, the Trust and the Transfer Agent shall be entitled to deduct and withhold from any loan, distribution or consideration otherwise payable to any holder of Class B Units such amounts as the Partnership, Holding Trust, the Trust or the Transfer Agent is required to deduct and withhold with respect to such payment under the Tax Act or any provision of provincial, territorial, local or foreign tax law, in each case, as amended. To the extent that amounts are so withheld, such withheld amounts shall be treated for all purposes hereof as having been paid to the holder of the Class B Units in respect of which such deduction and withholding was made, provided that such withheld amounts are actually remitted to the appropriate taxing authority. To the extent that the amount so required or permitted to be deducted or withheld from any payment to a holder exceeds the cash portion of the consideration otherwise payable to the holder, the Partnership, Holding Trust, the Trust and the Transfer Agent are hereby authorized to sell or otherwise dispose of such portion of the consideration as is necessary to provide sufficient funds to the Partnership, Holding Trust, the Trust or the Transfer Agent, as the case may be, to enable it to comply with such deduction or withholding requirement and the Partnership, Holding Trust, the Trust or the Transfer Agent shall notify the holder thereof and remit any unapplied balance of the net proceeds of such sale.

14.4 Upon any transfer or redemption of Class B Units, the certificate or certificates representing Trust Units to be delivered in connection with the payment of the total Redemption Price, Liquidation Amount, Retraction Price or Automatic Redemption Price, as the case may be, therefore shall be made without charge to the holder of the Class B Units so transferred or redeemed subject to these provisions and provided, however that such holder:

(a) shall pay (and none of the Trust, Holding Trust or the Partnership shall be required to pay) on an after-tax basis any documentary, stamp, transfer or other taxes that may be payable in respect of any transfer or redemption, including, without limitation, any sales or land transfer taxes payable in any jurisdiction as a result of such transfer or redemption; or

(b) shall have provided evidence to the satisfaction of the Partnership that such taxes, if any, have been paid in full.

SCHEDULE A

RETRACTION REQUEST

[TO BE PRINTED ON CLASS B UNIT CERTIFICATES]

To: AltaGas Holding Limited Partnership No. 1 (the "**Partnership**") and AltaGas Income Trust ("**Trust**")

This notice is given pursuant to Article 6 of the rights, privileges, restrictions and conditions (the "**Exchangeable Securities Provisions**") attaching to the Class B Units of the Partnership represented by this certificate and all capitalized words and expressions used in this notice that are defined in the Exchangeable Securities Provisions have the meanings ascribed to such words and expressions in such Exchangeable Securities Provisions.

The undersigned hereby notifies the Partnership that the undersigned desires to have the Partnership redeem in accordance with Article 6 of the Exchangeable Securities Provisions:

[ ] all Class B Unit (s) represented by this certificate; or

[ ] _____ Class B Unit (s) (only) represented by this certificate.

The undersigned hereby notifies the Partnership that the Retraction Date shall be _____.

NOTE: The Retraction Date must be a Business Day and must not be less than [3] Business Days nor more than [5] Business Days after the date upon which this notice is received by the Partnership. If no such Business Day is specified above, the Retraction Date shall be deemed to be the [5] Business Day after the date on which this notice is received by the General Partner.

This Retraction Request may be revoked and withdrawn by the undersigned only by notice in writing given to the Partnership at any time before the close of business on the Business Day immediately preceding the Retraction Date.

The undersigned acknowledges that if, as a result of applicable law, the Partnership is unable to redeem all Retracted Units, the undersigned will be deemed to have exercised the Exchange Right (as defined in the Voting and Exchange Trust Agreement) so as to require the Trust to purchase the unredeemed Retracted Units.

The undersigned hereby represents and warrants to the Partnership and the Trust that the undersigned has good title to, and owns, the Class B Unit(s) represented by this certificate to be acquired by the Partnership or the Trust, as the case may be, free and clear of all liens, claims and encumbrances.

_____	_____	_____
(Date)	(Signature of Class B Unitholder)	(Guarantee of Signature)

[ ] Please check box if the securities and any cheque(s) resulting from the retraction or purchase of the Retracted Units are to be held for pick-up by the Class B Unitholder from the Transfer Agent, failing which the securities and any cheque(s) will be mailed to the last address of the Class B Unitholder as it appears on the register.

NOTE: This panel must be completed and this certificate, together with such additional documents as the Transfer Agent may require, must be deposited with the Transfer Agent. The securities and any cheque(s) resulting from the retraction or purchase of the Retracted Units will be

issued and registered in, and made payable to, respectively, the name of the Class B Unitholder as it appears on the register of the Partnership and the securities and any cheque(s) resulting from such retraction or purchase will be delivered to such Class B Unitholder as indicated above, unless the form appearing immediately below is duly completed.

Date: _____

Name of person in Whose Name Securities or Cheque(s) Are to be Registered, Issued or Delivered (please print): _____

Street Address or P.O. Box: _____

Signature of Class B Unitholder: _____

City, Province and Postal Code: _____

Signature Guaranteed by: _____

NOTE: If this Retraction Request is for less than all of the Class B Unit(s) represented by this certificate, a certificate representing the remaining Class B Unit(s) of the Partnership represented by this certificate will be issued and registered in the name of the Class B Unitholder as it appears on the register of the Partnership, unless the Class B Unit Transfer Power on the Class B Unit(s) certificate is duly completed in respect of such Class B Unit(s).

AMONG:

ALTAGAS INCOME TRUST, an unincorporated open-ended investment trust established under the laws of Alberta (the "**Trust**")

- and -

ALTAGAS HOLDING TRUST, an unincorporated investment trust established under the laws of Alberta ("**Holding Trust**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 1, a limited partnership established under the laws of Alberta (the "**AltaGas LP #1**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 2, a limited partnership established under the laws of Alberta (the "**AltaGas LP #2**")

- and -

ALTAGAS SERVICES INC., a corporation incorporated pursuant to the laws of Canada (the "**AltaGas**")

WHEREAS in connection with an arrangement agreement dated as of March 26, 2003 among, *inter alia*, AltaGas, the Trust, Holding Trust, AltaGas LP #1 and AltaGas LP #2, as from time to time amended, supplemented or restated (the "**Arrangement Agreement**") and pursuant to the Plan, (a) each of AltaGas LP #1 and AltaGas LP #2 may issue Exchangeable Securities to certain holders of Common Shares and/or Participating Shares in the capital of AltaGas or Holdco Shares and (b) AltaGas may issue Trust Options to certain holders of options to purchase Common Shares in the capital of AltaGas (all as defined in and contemplated by the Plan); and

AND WHEREAS pursuant to the Arrangement Agreement, each of the parties hereto has agreed to execute a support agreement substantially in the form of this Agreement on the Effective Date (as defined in the Arrangement Agreement);

NOW THEREFORE in consideration of the respective covenants and agreements provided in this Agreement and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the parties hereto covenant and agree as follows:

ARTICLE 1
INTERPRETATION

1.1 Defined Terms

Each term denoted herein by initial capital letters and not otherwise defined herein shall have the meaning ascribed thereto in the rights, privileges, restrictions and conditions (collectively, the "**Exchangeable Securities Provisions**") attaching to the Exchangeable Securities; "**Trust Options**" means options to purchase Trust Units issued by AltaGas from time to time (including without limitation those issued pursuant to the Plan); and "**Agreement**", "**herein**", "**hereof**", "**hereto**", "**hereunder**" and similar expressions mean and refer to this Support Agreement, as from time to time amended, supplemented or restated and not to any particular article, section, schedule or other portion hereof.

1.2 Interpretation Not Affected by Headings, etc.

The division of this Agreement into sections and other portions and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation hereof. Unless otherwise indicated, all references in this Agreement to an "Article" or "Section" followed by a number and/or a letter refer to the specified article or section of this Agreement, and all references in this Agreement to a "Schedule" followed by a letter refer to the specified schedule to this Agreement.

1.3 Currency

Unless otherwise indicated, all sums of money referred to in this Agreement are expressed in lawful money of Canada.

1.4 Number, etc.

Unless the context otherwise requires, words importing the singular shall include the plural and vice versa and words importing any gender shall include all genders.

1.5 Date For Any Action

In the event that any date on which any action is required to be taken hereunder by any of the parties hereto is not a Business Day, such action shall be required to be taken on the next succeeding day which is a Business Day.

1.6 Entire Agreement

This Agreement and the agreements and other documents referred to herein constitute the entire agreement between the parties with respect to the Arrangement and other transactions contemplated hereby and supersede all other prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties with respect thereto.

1.7 Accounting Matters

Unless otherwise indicated, all accounting terms used in this Agreement shall have the meanings attributable thereto under Canadian generally accepted accounting principles and all determinations of an accounting nature required to be made shall be made in a manner consistent with Canadian generally accepted accounting principles and past practice.

1.8 Construction

In this Agreement, unless otherwise indicated:

(a) the words "include", "including" or "in particular", when following any general term or statement, shall not be construed as limiting the general term or statement to the specific items or matters set forth or to similar items or matters, but rather as permitting the general term or statement to refer to all other items or matters that could reasonably fall within the broadest possible scope of the general term or statement;

(b) a reference to a statute means that statute, as amended and in effect as of the date of his Agreement, and includes each and every regulation and rule made thereunder and in effect as of the date hereof;

(c) a reference to an "approval", "authorization", "consent", "designation", "notice" or "agreement" means an approval, authorization, consent, designation, notice or agreement, as the case may be, in writing, signed by an authorized representative of the party or parties thereto;

(d) the phrase "ordinary course of business", or any variation thereof, of any person refers to the business of such person, carried on in the regular and ordinary course including commercially reasonable and businesslike actions that are in the regular and ordinary course of business for a company operating in the industry in which such business is conducted;

(e) where a word, term or phrase is defined, its derivatives or other grammatical forms have a corresponding meaning;

(f) time is of the essence; and

(g) references to a "party" or "parties" are references to a party or parties to this Agreement.

1.9 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of Alberta and the federal laws of Canada applicable therein.

ARTICLE 2
COVENANTS OF TRUST, ALTAGAS LP #1 AND ALTAGAS LP #2

2.1 Covenants Regarding Exchangeable Securities

So long as any Exchangeable Securities not owned by the Trust or its affiliates are outstanding, the Trust shall:

(a) not pay any distribution on the Trust Units unless (i) each of AltaGas LP #1 and AltaGas LP #2 shall (w) simultaneously make a loan equal or economically equivalent to each such distribution per Trust Unit (as provided for in the Exchangeable Securities Provisions) on each Exchangeable Security (an "**Equivalent Loan**") and (x) have sufficient money or other assets available to enable the due and punctual advance of such loan in accordance with applicable law and the terms of the Exchangeable Securities Provisions or, if the distribution is a distribution of Trust Units, (ii) each of AltaGas LP #1 and AltaGas LP #2 shall (y) effect a corresponding, contemporaneous and economically equivalent subdivision of the Exchangeable Securities (as provided for in the Exchangeable Securities Provisions) (an "**Equivalent Securities Subdivision**"), and (z) have sufficient authorized but unissued securities available to enable the Equivalent Securities Subdivision;

(b) advise each of AltaGas LP #1 and AltaGas LP #2 sufficiently in advance of the declaration by the Trust of any distribution on Trust Units and take all such other actions as are reasonably necessary, in cooperation with each of AltaGas LP #1 and AltaGas LP #2, to ensure that (i) the respective record date and loan advance date for an Equivalent Loan on the Exchangeable Securities shall be the same as the record date and payment date, for the corresponding distribution on the Trust Units, or (ii) the record date and effective date for an Equivalent Securities Subdivision shall be the same as the record date and payment date for the distribution of Trust Units;

(c) ensure that the record date for any distribution declared on Trust Units is not less than ten (10) Business Days after the declaration date of such distribution;

(d) take all such actions and do all such things as are reasonably necessary or desirable to enable and permit each of AltaGas LP #1 and AltaGas LP #2, in accordance with applicable law, to pay and otherwise perform its obligations with respect to the satisfaction of the Liquidation Amount, the Retraction Price, the Redemption Price or Automatic Redemption Price in respect of each of its issued and outstanding Exchangeable Securities (other than Exchangeable Securities owned by the Trust or its affiliates) upon its liquidation, dissolution or winding-up or any other distribution of its assets among its Partners for the purpose of winding-up its affairs, the delivery of a Retraction Request by a holder of Exchangeable Securities issued by it or a redemption of Exchangeable Securities by it, as the case may be, including all such actions and all such things as are necessary or desirable to enable and permit it to cause to be delivered to the holders of Exchangeable Securities the requisite Trust Units, cash and other property in accordance with the provisions of Article 5, 6, 7 or 8, as the case may be, of the Exchangeable Securities Provisions;

(e) take all such actions and do all such things as are reasonably necessary or desirable to enable and permit Holding Trust, in accordance with applicable law, to perform its obligations arising upon the exercise by it of the Liquidation Call Right, including all such actions and all such things as are necessary or desirable to enable and permit Holding Trust to cause to be delivered to the holders of Exchangeable Securities the requisite Trust Units, cash and other property in accordance with the provisions of the Liquidation Call Right, as the case may be; and

(f) (unless all of the limited partnership interests therein are owned directly or indirectly by the Trust) not (and will ensure that each of Holding Trust and its affiliates does not) exercise its vote as a Partner to initiate the voluntary liquidation, dissolution or winding-up of AltaGas LP #1 or AltaGas LP #2 or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2 among its Partners for the purpose of winding up its affairs nor take any action or omit to take any action (and the Trust will not permit Holding Trust or any of its affiliates to take any action or omit to take any action) that is designed to result in the liquidation, dissolution or winding up of AltaGas LP #1 or AltaGas LP #2 or any other distribution of the assets of AltaGas LP #1 or AltaGas LP #2 among its respective Partners for the purpose of winding up its affairs;

and so long as any Trust Options are outstanding take all such actions and do all such things as are reasonably necessary or desirable to enable and permit AltaGas, in accordance with applicable law, to perform its obligations arising upon the exercise of any Trust Option by the holder thereof, including all such actions and all such things as are necessary or desirable to enable and permit AltaGas to cause to be delivered Trust Units upon the exercise of the rights to purchase Trust Units pursuant to the Trust Options in accordance with the provisions of the Trust Options to the holders thereof so exercising the Trust Options.

2.2 Segregation of Funds

(a) The Trust will cause each of AltaGas LP #1 and AltaGas LP #2 to deposit a sufficient amount of funds in a separate account of each of AltaGas LP #1 and AltaGas LP #2 and segregate a sufficient amount of such other assets and property as is necessary to enable each of AltaGas LP #1 and AltaGas LP #2 to make the loans when required and to pay or otherwise satisfy its respective obligations under Article 5, 6, 7 or 8 of the Exchangeable Securities Provisions or, if required, to pay the purchase price for Trust Units as contemplated by Section 2.5, as applicable.

(b) The Trust will cause Holding Trust to deposit a sufficient amount of funds in a separate account of Holding Trust and segregate a sufficient amount of such other assets and property as is necessary to enable Holding Trust to pay the purchase price for Trust Units as contemplated by Section 2.5.

2.3 Reservation of Trust Units

The Trust hereby represents, warrants and covenants in favour of each of AltaGas LP #1, AltaGas LP #2, Holding Trust and AltaGas that the Trust has reserved for issuance and will, at all times while any Exchangeable Securities (other than Exchangeable Securities held by the Trust or its affiliates) or Trust Options are outstanding, keep available, free from preemptive and other rights, that number of Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7):

(a) as is equal to the sum of:

(i) the number of Exchangeable Securities issued and outstanding from time to time; and

(ii) the number of Exchangeable Securities issuable upon the exercise of all rights to acquire Exchangeable Securities outstanding from time to time;

(b) as are now or may hereafter be required to enable and permit the Trust to meet its obligations under the Voting and Exchange Trust Agreement and under any other security or commitment with respect to which the Trust may now or may hereafter be required to issue Trust Units, to enable and permit Holding Trust to meet its obligations arising upon exercise by it of the Liquidation Call Right and to enable and permit each of AltaGas LP #1 and AltaGas LP #2 to meet its obligations hereunder and under the Exchangeable Securities Provisions; and

(c) as are now or may hereafter be required to enable and permit AltaGas to meet its obligations under the Trust Options issued and outstanding from time to time.

2.4 Notification of Certain Events

In order to assist the Trust in compliance with its obligations hereunder each of AltaGas LP #1 and AltaGas LP #2 shall notify the Trust and Holding Trust of each of the following events at the times set forth below:

(a) in the event of any proposed liquidation, dissolution or winding-up of it or any other distribution of its assets for the purpose of winding-up its affairs, at least 60 days prior to the proposed effective date of such liquidation, dissolution, winding-up or other distribution;

(b) promptly, upon the earlier of receipt by it of notice of or it otherwise becoming aware of any threatened or instituted claim, suit, petition or other proceeding with respect to its involuntary liquidation, dissolution or winding-up or to effect any other distribution of its assets among its unitholders for the purpose of winding up its affairs;

(c) promptly, upon its receipt of a Retraction Request;

(d) promptly following the date on which notice of redemption is given to holders of its Exchangeable Securities, upon the determination of a Redemption Date in accordance with the Exchangeable Securities Provisions;

(e) promptly upon its issuance of any Exchangeable Securities or rights to acquire Exchangeable Securities (other than the issuance of Exchangeable Securities and rights to acquire Exchangeable Securities pursuant to the Plan); and

(f) promptly upon receipt of notification of any event which would result in any holder of Exchangeable Securities becoming a Non-Resident;

and AltaGas shall notify the Trust promptly of its receipt of any notice of exercise of a Trust Option.

2.5 Delivery of Trust Units

(a) In furtherance of its obligations under Sections 2.1(d) and (e), upon notice from AltaGas LP #1, AltaGas LP #2 or Holding Trust of any event that requires AltaGas LP #1, AltaGas LP #2 or Holding Trust to cause to be delivered Trust Units to any holder of Exchangeable Securities, the Trust shall forthwith issue and deliver the requisite number of Trust Units to be received by, and issued to or to the order of, the former holder of the surrendered Exchangeable Securities, as AltaGas LP #1, AltaGas LP #2 or Holding Trust shall direct. All such Trust Units shall be duly authorized, validly issued and fully paid and non-assessable and shall be free and clear of any lien, claim or encumbrance.

(b) In furtherance of its obligations under Section 2.1, upon notice from AltaGas of any exercise of Trust Options in accordance with the terms thereof, the Trust shall forthwith issue and deliver the requisite number of Trust Units to be received by, and issued to or to the order of, the holder of the Trust Options so exercised, as AltaGas shall direct. All such Trust Units shall be duly authorized, validly issued and fully paid and non-assessable and shall be free and clear of any lien, claim or encumbrance.

2.6 Qualification of Trust Units

The Trust covenants that if any Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) to be issued and delivered hereunder (including for greater certainty, pursuant to the Exchangeable Securities Provisions, or pursuant to the Exchange Right or the Automatic Exchange Rights (each as defined in the Voting and Exchange Trust Agreement)) require registration or qualification with, or approval of, or the filing of any document, including any prospectus or similar document, the taking of any proceeding with, or the obtaining of any order, ruling or consent from, any governmental or regulatory authority under any Canadian federal, provincial or territorial securities or other law or regulation or pursuant to the rules and

regulations of any securities or other regulatory authority, or the fulfilment of any other Canadian legal requirement before such Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) may be issued and delivered by the Trust at the direction of AltaGas LP #1, AltaGas LP #2, Holding Trust or AltaGas if applicable, to the holder of surrendered Exchangeable Securities or the holder of Trust Options exercising such Trust Options in accordance with the terms thereof or in order that such Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) may be freely traded thereafter (other than any restrictions of general application on transfer by reason of a holder being a "control person" of the Trust for purposes of Canadian provincial securities law), the Trust will use its reasonable best efforts and in good faith expeditiously take all such actions and do all such things as are necessary or desirable and within its power to cause such Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) to be and remain duly registered, qualified or approved under Canadian provincial securities laws, as the case may be. The Trust will use its reasonable best efforts and in good faith expeditiously take all such actions and do all such things as are reasonably necessary or desirable to cause all Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) to be delivered hereunder to be listed, quoted or posted for trading on all stock exchanges and quotation systems on which outstanding Trust Units (or other securities into which Trust Units may be reclassified or changed as contemplated by Section 2.7) are listed and are quoted or posted for trading at such time.

2.7 Economic Equivalence

So long as any Exchangeable Securities not owned by the Trust or its affiliates are outstanding:

(a) the Trust will not, without prior approval of AltaGas LP #1, AltaGas LP #2 and the holders of the Exchangeable Securities given in accordance with Section 11.1 of the Exchangeable Securities Provisions:

(i) issue or distribute Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to the holders of all or substantially all of the then outstanding Trust Units by way of distribution, other than an issue of Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) to holders of Trust Units (A) who exercise an option to receive distributions in Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units) in lieu of receiving cash distributions, or (B) pursuant to any distribution reinvestment plan; or

(ii) issue or distribute rights, options or warrants to the holders of all or substantially all of the then outstanding Trust Units entitling them to subscribe for or to purchase Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units); or

(iii) issue or distribute to the holders of all or substantially all of the then outstanding Trust Units:

(A) securities of the Trust of any class other than Trust Units (other than securities exchangeable for or convertible into or carrying rights to acquire Trust Units);

(B) rights, options or warrants other than those referred to in Section 2.7(a)(ii);

(C) evidences of indebtedness of the Trust; or

(D) assets of the Trust,

unless the economic equivalent on a per Exchangeable Security basis of such rights, options, warrants, securities, evidences of indebtedness or other assets is issued or loaned simultaneously to holders of the Exchangeable Securities; provided that, for greater certainty, the above restrictions shall not apply to any securities issued or distributed by the Trust in order to give effect to and to consummate the transactions contemplated by, and in accordance with, the

Arrangement Agreement or to give effect to a redemption by the Trust of Trust Units in accordance with the Declaration of Trust;

(b) The Trust will not without the prior approval of AltaGas LP #1 and AltaGas LP #2 and the prior approval of the holders of the Exchangeable Securities given in accordance with Section 11.1 of the Exchangeable Securities Provisions:

(i) subdivide, redivide or change the then outstanding Trust Units into a greater number of Trust Units; or

(ii) reduce, combine, consolidate or change the then outstanding Trust Units into a lesser number of Trust Units; or

(iii) reclassify or otherwise change Trust Units or effect a merger, reorganization or other transaction affecting the Trust Units,

unless the same or an economically equivalent change shall simultaneously be made to, or in the rights of the holders of, the Exchangeable Securities; provided that, for greater certainty, the above restrictions shall not apply to any securities issued or distributed by the Trust in order to give effect to and to consummate the transactions contemplated by, and in accordance with, the Arrangement Agreement.

(c) The Trust will ensure that the record date for any event referred to in Section 2.7(a) or Section 2.7(b), or (if no record date is applicable for such event) the effective date for any such event, is not less than five Business Days after the date on which such event is declared or announced by the Trust (with contemporaneous notification thereof by the Trust to AltaGas LP #1 and AltaGas LP #2).

(d) The Board of Directors shall determine, in good faith and in its sole discretion, economic equivalence for the purposes of any event referred to in Section 2.7(a) or Section 2.7(b) and each such determination shall be conclusive and binding on the Trust and the holders of Exchangeable Securities. In making each such determination, the following factors shall, without excluding other factors determined by the Board of Directors to be relevant, be considered by the Board of Directors:

(i) in the case of the distribution of any rights, options or warrants to subscribe for or purchase Trust Units (or securities exchangeable for or convertible into or carrying rights to acquire Trust Units), the relationship between the exercise price of each such right, option or warrant and the Current Market Price, the volatility of the Trust Units and the term of any such instrument;

(ii) in the case of the distribution of any other form of property (including any securities of the Trust of any class other than Trust Units, any rights, options or warrants other than those referred to in Section 2.7(d)(i), any evidences of indebtedness of the Trust or any assets of the Trust), the relationship between the fair market value (as determined by the board of directors of General Partner in the manner above contemplated) of such property to be issued or distributed with respect to each outstanding Trust Unit and the Current Market Price;

(iii) in the case of any subdivision, redivision or change of the then outstanding Trust Units into a greater number of Trust Units or the reduction, combination, consolidation or change of the then outstanding Trust Units into a lesser number of Trust Units or any merger, reorganization or other transaction affecting Trust Units, the effect thereof upon the then outstanding Trust Units; and

(iv) in all such cases, the general taxation consequences of the relevant event to holders of Exchangeable Securities to the extent that such consequences may differ from the

taxation consequences to holders of Trust Units (except for any differing consequences arising as a result of differing marginal taxation rates and without regard to the individual circumstances of holders of Class B Units); and

(e) each of AltaGas LP #1 and AltaGas LP #2 agrees that, to the extent required, upon due notice from the Trust, each will use its best efforts to take or cause to be taken such steps as may be necessary for the purposes of ensuring that appropriate loans are made by it, or subdivisions, redivisions or changes are made to the Exchangeable Securities, in order to implement the required economic equivalent with respect to Trust Units and Exchangeable Securities as provided for in this Section 2.7.

2.8 Tender Offers

For so long as Exchangeable Securities remain outstanding (other than Exchangeable Securities held by the Trust or its affiliates), in the event that a tender offer, share exchange offer, issuer bid, take-over bid or similar transaction with respect to Trust Units (an "**Offer**") is proposed by the Trust or is proposed to the Trust or the Trust Unitholders and is recommended by the Trustee of the Trust, or the Board of Directors on its behalf, or is otherwise effected or to be effected with the consent or approval of the Trustee of the Trust, or the Board of Directors on its behalf, and the Exchangeable Securities are not redeemed by AltaGas LP #1 or AltaGas LP #2, as applicable, the Trust will use its reasonable best efforts expeditiously and in good faith to take all such actions and do all such things as are necessary or desirable to enable and permit holders of Exchangeable Securities (other than the Trust or its affiliates) to participate in such Offer to the same extent and on an economically equivalent basis as the holders of Trust Units, without discrimination. Without limiting the generality of the foregoing, the Trust will use its reasonable best efforts expeditiously and in good faith to ensure that holders of Exchangeable Securities may participate in each such Offer without being required to retract Exchangeable Securities as against AltaGas LP #1 or AltaGas LP #2, as applicable, (or, if so required, to ensure that any such retraction, shall be effective only upon, and shall be conditional upon, the closing of such Offer and only to the extent necessary to tender or deposit to the Offer). Nothing herein shall affect the rights of AltaGas LP #1 or AltaGas LP #2, as applicable, to redeem Exchangeable Securities, as applicable, in the event of a Trust Control Transaction.

2.9 Ownership of Outstanding Interests

Without the prior approval of AltaGas LP #1 and AltaGas LP #2 and the prior approval of the holders of the Exchangeable Securities given in accordance with Section 11.1 of the Exchangeable Securities Provisions, the Trust covenants and agrees in favour of AltaGas LP #1 and AltaGas LP #2 that, as long as any outstanding Exchangeable Securities are owned by any person other than the Trust or any of its affiliates, the Trust will be and remain the direct or indirect beneficial owner of all issued and outstanding voting interests in the capital of AltaGas LP #1, AltaGas LP #2, the General Partner and Holding Trust. Notwithstanding the foregoing, the Trust shall not be in violation of this section if any person or group of persons acting jointly or in concert acquires all or substantially all of the assets of the Trust or the Trust Units pursuant to any merger of the Trust pursuant to which the Trust is not the surviving entity.

2.10 The Trust and Affiliates Not to Vote Exchangeable Securities

Each of the Trust, Holding Trust and, in respect of Exchangeable Securities of AltaGas LP #2, AltaGas LP #1 covenants and agrees that it will not, and will cause its affiliates not to, exercise any voting rights which may be exercisable by holders of Exchangeable Securities from time to time pursuant to the Exchangeable Securities Provisions or the Limited Partnership Agreement with respect to AltaGas LP #1 or AltaGas LP #2, as applicable, with respect to any Exchangeable Security held by it or by its affiliates in respect of any matter considered at any meeting of holders of Exchangeable Securities.

2.11 Consideration For Trust Units

(a) In respect of each Trust Unit required to be delivered by Holding Trust pursuant to Article 10 of the Exchangeable Securities Provisions:

(i) Holding Trust agrees and shall be deemed to issue to the Trust, in exchange for such Trust Unit, that principal amount of Series 1 Notes of Holding Trust as is equal to the fair

market value of such Trust Unit on the date Holding Trust is required to deliver the Trust Unit pursuant to the Exchangeable Securities Provisions;

(ii) if the Exchangeable Security acquired by Holding Trust in respect of the delivery of such Trust Unit is a Class B Unit of AltaGas LP #1, Holding Trust agrees and shall be deemed to transfer such Class B Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1, whereupon the Class B Unit of AltaGas LP #1 shall be and be deemed to be cancelled; and

(iii) if the Exchangeable Security acquired by Holding Trust in respect of the delivery of such Trust Unit is a Class B Unit of AltaGas LP #2, Holding Trust agrees and shall be deemed to transfer such Class B Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1, and AltaGas LP #1 agrees and shall be deemed to transfer such Class B Unit to AltaGas LP #2 in exchange and as a subscription for, and AltaGas LP #2 agrees and shall be deemed to issue to AltaGas LP #1 in respect thereof, one Class A Unit of AltaGas LP #2, whereupon the Class B Unit of AltaGas LP #2 shall be and be deemed to be cancelled;

(b) In respect of each Trust Unit required to be delivered by AltaGas LP #1 pursuant to Article 5, 6, 7 or 8 of the Exchangeable Securities Provisions relating to AltaGas LP #1:

(i) Holding Trust agrees and shall be deemed to issue to the Trust, in exchange for such Trust Unit, that principal amount of Series 1 Notes of Holding Trust as is equal to the fair market value of such Trust Unit on the date AltaGas LP #1 is required to deliver the Trust Unit pursuant to the Exchangeable Securities Provisions; and

(ii) Holding Trust agrees and shall be deemed to transfer such Trust Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1;

(c) In respect of each Trust Unit required to be delivered by AltaGas LP #2 pursuant to Article 5, 6, 7 or 8 of the Exchangeable Securities Provisions relating to AltaGas LP #2:

(i) Holding Trust agrees and shall be deemed to issue to the Trust, in exchange for such Trust Unit, that principal amount of Series 1 Notes of Holding Trust as is equal to the fair market value of such Trust Unit on the date AltaGas LP #2 is required to deliver the Trust Unit pursuant to the Exchangeable Securities Provisions;

(ii) Holding Trust agrees and shall be deemed to transfer such Trust Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1; and

(iii) AltaGas LP #1 agrees and shall be deemed to transfer such Trust Unit to AltaGas LP #2 in exchange and as a subscription for, and AltaGas LP #2 agrees and shall be deemed to issue to AltaGas LP #1 in respect thereof, one Class A Unit of AltaGas LP #2.

(d) In respect of each Trust Unit required to be delivered by the Trust pursuant to the Voting and Exchange Trust Agreement:

(i) Holding Trust agrees and shall be deemed to issue to the Trust, in exchange for such Trust Unit, that principal amount of Series 1 Notes of Holding Trust as is equal to the fair market value of such Trust Unit on the date the Trust is required to deliver the Trust Unit pursuant to the Voting and Exchange Trust Agreement;

(ii) Holding Trust agrees and shall be deemed to transfer the Exchangeable Security acquired by Trust in respect of the delivery of such Trust Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1, whereupon, if the Exchangeable Security acquired by the Trust in respect of the delivery of such Trust Unit is a Class B Unit of AltaGas LP #1, the Class B Unit of AltaGas LP #1 shall be and be deemed to be cancelled; and

(iii) if the Exchangeable Security acquired by the Trust in respect of the delivery of such Trust Unit is a Class B Unit of AltaGas LP #2, AltaGas LP #1 agrees and shall be deemed to transfer such Class B Unit to AltaGas LP #2 in exchange and as a subscription for, and AltaGas LP #2 agrees and shall be deemed to issue to AltaGas LP #1 in respect thereof, one Class A Unit of AltaGas LP #2, whereupon the Class B Unit of AltaGas LP #2 shall be and be deemed to be cancelled.

(e) In respect of each Trust Unit required to be delivered by AltaGas pursuant to any Trust Option:

(i) Holding Trust agrees and shall be deemed to issue to the Trust, in exchange for such Trust Unit, that principal amount of Series 1 Notes of Holding Trust as is equal to the fair market value of such Trust Unit on the date AltaGas is required to deliver the Trust Unit pursuant to the Trust Option;

(ii) Holding Trust agrees and shall be deemed to transfer such Trust Unit to AltaGas LP #1 in exchange and as a subscription for, and AltaGas LP #1 agrees and shall be deemed to issue to Holding Trust in respect thereof, one Class A Unit of AltaGas LP #1;

(iii) AltaGas LP #1 agrees and shall be deemed to transfer such Trust Unit to AltaGas LP #2 in exchange and as a subscription for, and AltaGas LP #2 agrees and shall be deemed to issue to AltaGas LP #1 in respect thereof, one Class A Unit of AltaGas LP #2; and

(iv) AltaGas LP #2 agrees and shall be deemed to transfer such Trust Unit to AltaGas in exchange and as a subscription for, and AltaGas agrees and shall be deemed to issue to AltaGas LP #2 in respect thereof, that principal amount of LP Subco Debt as is equal to the fair market value of such Trust Unit on the date AltaGas is required to deliver the Trust Unit pursuant to the Trust Option.

ARTICLE 3
TRUST SUCCESSORS

3.1 Certain Requirements in Respect of Combination, etc.

Neither the Trust nor Holding Trust shall consummate any transaction (whether by way of reconstruction, reorganization, consolidation, merger, transfer, sale, lease or otherwise) whereby all or substantially all of its undertaking, property and assets would become the property of any other person or, in the case of a merger, of the continuing entity resulting therefrom unless, but may do so if:

(a) such other person (the "**Trust Successor**") by operation of law, becomes, without more, bound by the terms and provisions of this Agreement or, if not so bound, executes, prior to or contemporaneously with the consummation of such transaction, an agreement supplemental hereto and such other instruments (if any) as are reasonably necessary or advisable to evidence the assumption by the Trust Successor of liability for all moneys payable and property deliverable hereunder and the covenant of such Trust Successor to pay and deliver or cause to be delivered the same and its agreement to observe and perform all the covenants and obligations of the Trust or Holding Trust, as the case may be, under this Agreement;

(b) in the event that the Trust Units are reclassified or otherwise changed as part of such transaction, the same or an economically equivalent change is simultaneously made to, or in the rights of the holders of, the Exchangeable Securities; and

(c) such transaction shall be upon such terms and conditions as substantially to preserve and not to impair in any material respect any of the rights, duties, powers and authorities of the other parties hereunder or the holders of Exchangeable Securities.

3.2 Vesting of Powers in Successor

Whenever the conditions of Section 3.1 have been duly observed and performed, the parties, if required by Section 3.1, shall execute and deliver the supplemental agreement provided for in Section 3.1(a) and thereupon the Trust Successor shall possess and from time to time may exercise each and every right and power of the Trust or Holding Trust, as the case may be, under this Agreement in the name of the Trust or otherwise and any act or proceeding by any provision of this Agreement required to be done or performed by the Trustee of the Trust or any officers of the Trust or by the Board of Directors, on behalf of the Trust, may be done and performed with like force and effect by the directors or officers of such Trust Successor.

3.3 Wholly-Owned Subsidiaries

Nothing herein shall be construed as preventing the amalgamation or merger of any wholly-owned direct or indirect subsidiary of the Trust (other than AltaGas LP #1, AltaGas LP #2 or Holding Trust) with or into the Trust or the winding-up, liquidation or dissolution of any wholly-owned subsidiary of the Trust provided that all of the assets of such subsidiary are transferred to the Trust or another wholly-owned direct or indirect subsidiary of the Trust and any such transactions are expressly permitted by this Article 3.

3.4 Successorship Transaction

Notwithstanding Article 2 and the foregoing provisions of Article 3, in the event of a Trust Control Transaction:

(a) which does not result in an acceleration of the Redemption Date in accordance with paragraph (b) of the definition of "Redemption Date"; and

(b) in which all or substantially all of the then outstanding Trust Units are converted into or exchanged for securities or rights to receive such securities (the "**Other Securities**") of another person (the "**Other Entity**") that, immediately after such Trust Control Transaction, owns or controls, directly or indirectly, the Trust;

then all references herein to the "Trust" shall thereafter be and be deemed to be references to the "Other Entity" and all references herein to "Trust Units" shall thereafter be and be deemed to be references to the "Other Securities" (with appropriate adjustments, if any, as are required to result in a holder of Exchangeable Securities on the exchange, redemption or retraction of such securities pursuant to the Exchangeable Securities Provisions or exchange of such securities pursuant to the Voting and Exchange Trust Agreement immediately subsequent to the Trust Control Transaction being entitled to receive that number of Other Securities equal to the number of Other Securities such holder of Exchangeable Securities would have received if the exchange, redemption or retraction of such securities pursuant to the Exchangeable Securities Provisions or exchange of such securities pursuant to the Voting and Exchange Trust Agreement had occurred immediately prior to the Trust Control Transaction and the Trust Control Transaction was completed) without any need to amend the terms and conditions of the Exchangeable Securities and without any further action required.

ARTICLE 4
GENERAL

4.1 Term

This Agreement shall come into force and be effective as of the date hereof and shall terminate and be of no further force and effect at such time as no Exchangeable Securities (or securities or rights convertible into or

exchangeable for or carrying rights to acquire Exchangeable Securities) or Trust Options are held by any person other than the Trust and any of its affiliates.

4.2 Changes in Capital of the Trust, AltaGas LP #1 and AltaGas LP #2

At all times after the occurrence of any event contemplated pursuant to Sections 2.7 and 2.8 or otherwise as a result of which either Trust Units or the Exchangeable Securities or both are in any way changed, this Agreement shall forthwith be deemed amended and modified as necessary in order that it shall apply with full force and effect, *mutatis mutandis*, to all new securities into which Trust Units or the Exchangeable Securities or both are so changed and the parties hereto shall execute and deliver an agreement in writing giving effect to and evidencing such necessary amendments and modifications.

4.3 Notices to Parties

Any notice, consent, waiver, direction or other communication required or permitted to be given under this Agreement by a party to any other party shall be in writing and shall be delivered by hand delivery, facsimile transmission or (provided that the mailing party does not know and should not reasonably have known of any disruption or anticipated disruption of postal service which might affect delivery of the mail) by registered mail (postage prepaid), addressed to the party to whom the notice is to be given, at its specified address herein. Any notice, consent, waiver, direction or other communication aforesaid shall, if hand delivered or delivered by facsimile transmission, be deemed to have been given and received on the date on which it was hand delivered or delivered (based on facsimile confirmation) by facsimile transmission (if prior to 4:30 pm (local time at the place of receipt) on a Business Day and, if not, the next succeeding Business Day) and if sent by registered mail be deemed to have been given and received on the fourth Business Day at the point of delivery following the date on which it was so sent. The specified address herein shall be, in the case of:

(a) the Trust, addressed to:

AltaGas Income Trust
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

(b) Holding Trust, addressed to:

AltaGas Holding Trust
c/o AltaGas Holding Trust Corp.
4300, 888 – 3rd Street S.W.
Calgary, Alberta T2P 5C5

Attention: Managing Partner
Facsimile: (403) 266-9034

(c) AltaGas LP #1, addressed to:

AltaGas Holding Limited Partnership No. 1
c/o AltaGas General Partner Inc.
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

(d) AltaGas LP #2, addressed to:

AltaGas Holding Limited Partnership No. 2
c/o AltaGas General Partner Inc.
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

(e) AltaGas, addressed to:

AltaGas Services Inc.
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

or such other address as may be designated by any of the parties by notice to the other parties given in accordance with this Section.

4.4 Assignment

No party hereto may assign this Agreement or any of its rights, interests or obligations under this Agreement (whether by operation of law or otherwise) except that AltaGas LP #1 or AltaGas LP #2 may assign in its sole discretion, any or all of its rights, interests and obligations hereunder to any wholly-owned subsidiary of the Trust.

4.5 Binding Effect

Subject to Section 4.4, this Agreement and the Plan shall be binding upon, enure to the benefit of and be enforceable by the parties hereto and their respective successors and assigns.

4.6 Amendments, Modifications

Subject to Sections 4.2, 4.7 and 4.10, this Agreement may not be amended or modified except by an agreement in writing executed by AltaGas LP #1, AltaGas LP #2, AltaGas, Holding Trust and the Trust and approved by the holders of the Exchangeable Securities in accordance with Section 11.1 of the Exchangeable Securities Provisions.

4.7 Administrative Amendments

Notwithstanding the provisions of Section 4.6, the parties to this Agreement may in writing at any time and from time to time, without the approval of the holders of the Exchangeable Securities, amend or modify this Agreement for the purposes of:

(a) adding to the covenants of any or all parties provided that the Board of Directors shall be of the good faith opinion that such additions will not be prejudicial to the rights or interests of the holders of the Exchangeable Securities;

(b) making such amendments or modifications not inconsistent with this Agreement as may be necessary or desirable with respect to matters or questions which, in the good faith opinion of the Board of Directors, it may be expedient to make, provided that such board of directors shall be of the good faith opinion that such amendments or modifications will not be prejudicial to the rights or interests of the holders of the Exchangeable Securities; or

(c) making such changes or corrections which, on the advice of counsel to General Partner are required for the purpose of curing or correcting any ambiguity or defect or inconsistent provision or clerical omission or mistake or manifest error, provided that the Board of Directors shall be of

the good faith opinion that such changes or corrections will not be prejudicial to the rights or interests of the holders of the Exchangeable Securities.

4.8 Meeting to Consider Amendments

Each of AltaGas LP #1 and AltaGas LP #2, at the request of the Trust, agrees to call a meeting or meetings of the holders of its Exchangeable Securities for the purpose of considering any proposed amendment or modification requiring approval pursuant to Section 4.6; provided that any such meeting shall only be called for a bona fide business purpose and not for the principal purpose of causing a Redemption Date to occur or transpire. Any such meeting or meetings shall be called and held in accordance with the Limited Partnership Agreement of AltaGas LP #1 or AltaGas LP #2, as applicable, the Exchangeable Securities Provisions and all applicable laws.

4.9 Amendments Only in Writing

No amendment to or modification or waiver of any of the provisions of this Agreement otherwise permitted hereunder shall be effective unless made in writing and signed by all of the parties hereto.

4.10 Severability

If any one or more of the provisions or parts thereof contained in this Agreement should be or become invalid, illegal or unenforceable in any respect in any jurisdiction, the remaining provisions or parts thereof contained herein shall be and shall be conclusively deemed to be, as to such jurisdiction, severable therefrom and:

(a) the validity, legality or enforceability of such remaining provisions or parts thereof shall not in any way be affected or impaired by the severance of the provisions or parts thereof severed; and

(b) the invalidity, illegality or unenforceability of any provision or part thereof contained in this Agreement in any jurisdiction shall not affect or impair such provision or part thereof or any other provisions of this Agreement in any other jurisdiction.

4.11 Further Assurances

Each party hereto shall, from time to time, and at all times hereafter, at the request of any other party hereto, but without further consideration, do all such further acts and execute and deliver all such further documents and instruments as shall be reasonably required in order to fully perform and carry out the terms and intent hereof.

4.12 Execution in Counterparts

This Agreement may be executed in counterparts, each of which is and is hereby conclusively deemed to be an original and counterparts collectively are to be conclusively deemed one instrument. Delivery of counterparts may be effected by facsimile transmission.

4.13 Waiver

No waiver by, any party hereto shall be effective unless such waiver is in writing and any waiver shall affect only the matter, and the occurrence thereof, specifically identified and shall not extend to any other matter or occurrence.

4.14 Limitations on Liability

The parties hereto acknowledge that:

(a) Computershare Trust Company of Canada is entering into this Agreement solely in its capacity as Trustee on behalf of the Trust and the obligations of the Trust hereunder shall not be personally binding upon the Trustee or any of the Unitholders and that any recourse against the Trust, the Trustee or any Unitholder in any manner in respect of any indebtedness, obligation or liability of the Trust arising hereunder or arising in connection herewith or from the matters to which this Agreement relates, if any, including without limitation claims based on negligence or otherwise tortious behaviour, shall be limited to, and satisfied only out of, the Trust Assets as defined in the Declaration of Trust of AltaGas Income Trust dated as of March 26, 2004, as from time to time amended, supplemented or restated;

(b) AltaGas Holding Trust Corp. is entering into this Agreement solely in its capacity as trustee on behalf of the Holding Trust and the obligations of the Holding Trust hereunder shall not be personally binding upon such trustee or any of the unitholders of the Holding Trust and that any recourse against the Holding Trust, such trustee or any unitholder of the Holding Trust in any manner in respect of any indebtedness, obligation or liability of the Holding Trust arising hereunder or arising in connection herewith or from the matters to which this Agreement relates, if any, including without limitation claims based on negligence or otherwise tortious behaviour, shall be limited to, and satisfied only out of, the Trust Assets as defined in the Declaration of Trust of AltaGas Holding Trust dated as of March 26, 2004, as from time to time amended, supplemented or restated;

(c) AltaGas Holding Limited Partnership No. 1 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that the limited partner has contributed or agreed to contribute to the limited partnership's capital and the limited partner's pro rata share of any undistributed income; and

(d) AltaGas Holding Limited Partnership No. 2 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that the limited partner has contributed or agreed to contribute to the limited partnership's capital and the limited partner's pro rata share of any undistributed income.

THIS VOTING AND EXCHANGE TRUST AGREEMENT dated as of ●, 2004.

AMONG:

ALTAGAS INCOME TRUST, an unincorporated open-ended investment trust established under the laws of Alberta (the "**AltaGas Trust**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 1, a limited partnership established under the laws of Alberta (the "**AltaGas LP #1**")

- and -

ALTAGAS HOLDING LIMITED PARTNERSHIP NO. 2, a limited partnership established under the laws of Alberta (the "**AltaGas LP #2**")

- and -

COMPUTERSHARE TRUST COMPANY OF CANADA, a trust company incorporated under the laws of Canada (hereinafter referred to as the "**Trustee**")

WHEREAS in connection with the Arrangement Agreement, AltaGas LP #1 and AltaGas LP #2 may be required to issue Exchangeable Securities to certain holders of common shares of AltaGas pursuant to the Plan; and

AND WHEREAS pursuant to the Arrangement Agreement, the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 have agreed to execute a voting and exchange trust agreement substantially in the form of this Agreement;

NOW THEREFORE in consideration of the respective covenants and agreements provided in this Agreement and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the parties hereto covenant and agree as follows:

ARTICLE 1
INTERPRETATION

1.1 Definitions

In this Agreement, unless the context otherwise requires, the following terms shall have the following meanings respectively:

"**affiliate**" or "**associate**" when used to indicate a relationship with a person or company, has the same meaning as set forth in the *Securities Act* (Alberta);

"**Agreement**", "**herein**", "**hereof**", "**hereto**", "**hereunder**" and similar expressions mean and refer to this Voting and Exchange Trust Agreement, as from time to time amended, supplemented or restated and not to any particular article, section, schedule or other portion hereof;

"**AltaGas**" means AltaGas Services Inc., a corporation incorporated pursuant to the CBCA, its successor by amalgamation pursuant to the Plan and its successor's successors;

"**AltaGas LP #1 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, Holding Trust and each person who from time to time is accepted and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**AltaGas LP #2 Limited Partnership Agreement**" means the limited partnership agreement dated as of March 26, 2004 among the General Partner, AltaGas LP #1 and each person who from time to time is accepted and becomes a limited partner pursuant thereto, as from time to time amended, supplemented or restated;

"**applicable law**" means any applicable law including any statute, regulation, by-law, treaty, guideline, directive, rule, standard, requirement, policy, order, judgement, decision, injunction, award, decree or resolution of any governmental authority, whether or not having the force of law;

"**Arrangement**" means the arrangement under Section 192 of the CBCA on the terms and subject to the conditions set out in the Plan;

"**Arrangement Agreement**" means the arrangement agreement dated as of March 26, 2004 among the AltaGas Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2, AltaGas and others, as from time to time amended, supplemented or restated, providing for, among other things, the Arrangement;

"**Automatic Exchange Rights**" means the benefit of the obligation of the AltaGas Trust to effect the automatic exchange of Exchangeable Securities for Trust Units pursuant to Section 5.12;

"**Beneficiaries**" means the registered holders from time to time of Exchangeable Securities, other than the AltaGas Trust and its affiliates;

"**Beneficiary Votes**" has the meaning ascribed thereto in Section 4.2;

"**Business Day**" means a day, other than a Saturday, Sunday or statutory holiday, when banks are generally open in Calgary, Alberta, for the transaction of banking business;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Class B Unit Consideration**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**Class B Unit Price**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**Court**" means the Court of Queen's Bench of Alberta;

"**Equivalent Vote Amount**" means, with respect to any matter, proposition or question on which holders of Trust Units are entitled to vote, consent or otherwise act, the number of votes to which a holder of one Trust Unit is entitled with respect to such matter, proposition or question;

"**Exchange Right**" has the meaning ascribed thereto in Section 5.1;

"**Exchangeable Securities**" means, collectively, LP # 1 B Units and the LP #2 B Units;

"**Exchangeable Securities Provisions**" means the rights, privileges, restrictions and conditions attaching to the Exchangeable Securities;

"**General Partner**" means AltaGas General Partner Inc., a corporation incorporated pursuant to the laws of Canada;

"**governmental authority**" includes any court (including a court of equity); any multinational, federal, provincial, state, regional, municipal or other government or governmental department, ministry, commission, board, bureau, agency or instrumentality; any securities commission, stock exchange or other regulatory or self-regulatory body; any arbitrator or arbitration authority; or any other governmental authority;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta;

"**Indemnified Parties**" has the meaning ascribed thereto in Section 8.1;

"**Insolvency Event**" means, in respect of AltaGas LP #1 or AltaGas LP #2, as applicable, (i) the institution by it of any proceeding to be adjudicated a bankrupt or insolvent or to be wound up, or its consent to the institution of bankruptcy, insolvency or winding-up proceedings against it, or (ii) the filing of a petition or other proceeding to adjudicate it a bankrupt or insolvent seeking dissolution or winding-up under any bankruptcy, insolvency or analogous laws, and its failure to contest in good faith any such proceedings commenced in respect of it within 30 days of becoming aware thereof, or its consent to the appointment of a receiver, or (iii) its making of a general assignment for the benefit of creditors, or its admission in writing of its inability to pay its debts generally as they become due, or (iv) it not being permitted, pursuant to [solvency requirements of applicable law], to redeem any Retracted Securities pursuant to Section 6.5 of the Exchangeable Securities Provisions;

"**Limited Partnership Agreements**" means, collectively, the AltaGas LP #1 Limited Partnership Agreement and the AltaGas LP #2 Limited Partnership Agreement;

"**Liquidation Call Right**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**Liquidation Event**" has the meaning ascribed thereto in Section 5.12(b);

"**Liquidation Event Effective Time**" has the meaning ascribed thereto in Section 5.12(c);

"**List**" has the meaning ascribed thereto in Section 4.6;

"**LP #1 B Units**" means the Class B limited partnership units of AltaGas LP #1, which are exchangeable into Trust Units on a one-for-one basis;

"**LP #2 B Units**" means the Class B limited partnership units of AltaGas LP #2, which are exchangeable into Trust Units on a one-for-one basis;

"**LP Subco**" means AltaGas Subsidiary Corporation, a corporation incorporated pursuant to the CBCA;

"**Officer's Certificate**" means, with respect to the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2, as the case may be, a certificate signed by any one of the authorized signatories of the trustee of the AltaGas Trust on behalf of the AltaGas Trust or the General Partner on behalf of AltaGas LP #1 or AltaGas LP #2, as the case may be;

"**Partnership Loan Indebtedness**" means, in respect of any Exchangeable Security, the amount of all loans made under Article 3 of the Exchangeable Securities Provisions in respect of such Exchangeable Security that are not repaid or satisfied by set off as of the effective date of exercise of the Exchange Right in respect of such Exchangeable Security.

"**person**" includes any individual, body corporate, partnership, association, joint venture, trust, other organization or entity (whether or not a legal entity) or governmental authority;

"**Plan**" means the Plan of Arrangement attached as Schedule A to the Arrangement Agreement, as from time to time amended, supplemented or restated in accordance with the terms thereof;

"**Redemption Date**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**Retracted Securities**" has the meaning ascribed thereto in Section 5.7;

"**Special Voting Unit**" means the special voting unit of the AltaGas Trust to which is attached that number of voting rights (each such voting right to be equal to the voting rights attached to one Trust Unit) equal to the number of outstanding Exchangeable Securities held by Beneficiaries;

"**Support Agreement**" means the support agreement dated as of the date hereof among the AltaGas Trust, Holding Trust, AltaGas LP #1, AltaGas LP #2 and AltaGas, as from time to time amended, supplemented or restated;

"**Trust**" means the trust created by this Agreement;

"**Trust Consent**" has the meaning ascribed thereto in Section 4.2;

"**Trust Control Transaction**" has the meaning ascribed thereto in the Exchangeable Securities Provisions;

"**Trust Estate**" means the Special Voting Unit, any other securities, the Exchange Right, the Automatic Exchange Rights and any money or other property which may be held by the Trustee from time to time pursuant to this Agreement;

"**Trust Meeting**" has the meaning ascribed thereto in Section 4.2;

"**Trust Successor**" has the meaning ascribed thereto in Section 10.1(a);

"**Trust Unit**" means a trust unit, other than a Special Voting Unit, of the AltaGas Trust, each such unit representing an equal undivided beneficial interest therein;

"**Trust Unitholders**" means the holders from time to time of Trust Units;

"**Unitholders**" means the holders from time to time of Units;

"**Units**" means the Trust Units and the Special Voting Unit; and

"**Voting Rights**" means the voting rights of the Special Voting Unit held by the Trustee.

1.2 Interpretation Not Affected by Headings, etc.

The division of this Agreement into sections and other portions and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation hereof. Unless otherwise indicated, all references in this Agreement to an "Article" or "Section" followed by a number and/or a letter refer to the specified article or section of this Agreement.

1.3 Currency

Unless otherwise indicated, all sums of money referred to in this Agreement are expressed in lawful money of Canada.

1.4 Number, etc.

Unless the context otherwise requires, words importing the singular shall include the plural and vice versa and words importing any gender shall include all genders.

1.5 Date For Any Action

In the event that any date on which any action is required to be taken hereunder by any of the parties hereto is not a Business Day, such action shall be required to be taken on the next succeeding day which is a Business Day.

1.6 Entire Agreement

This Agreement and the agreements and other documents referred to herein constitute the entire agreement between the parties with respect to the Arrangement and other transactions contemplated hereby and supersede all other prior agreements, understandings, negotiations and discussions, whether oral or written, between the parties with respect thereto.

1.7 Accounting Matters

Unless otherwise indicated, all accounting terms used in this Agreement shall have the meanings attributable thereto under Canadian generally accepted accounting principles and all determinations of an accounting nature required to be made shall be made in a manner consistent with Canadian generally accepted accounting principles and past practice.

1.8 Construction

In this Agreement, unless otherwise indicated:

(a) the words "include", "including" or "in particular", when following any general term or statement, shall not be construed as limiting the general term or statement to the specific items or matters set forth or to similar items or matters, but rather as permitting the general term or statement to refer to all other items or matters that could reasonably fall within the broadest possible scope of the general term or statement;

(b) a reference to a statute means that statute, as amended and in effect as of the date of this Agreement, and includes each and every regulation and rule made thereunder and in effect as of the date hereof;

(c) a reference to an "approval", "authorization", "consent", "designation", "notice" or "agreement" means an approval, authorization, consent, designation, notice or agreement, as the case may be, in writing, signed by an authorized representative of the party or parties thereto;

(d) the phrase "ordinary course of business", or any variation thereof, of any person refers to the business of such person, carried on in the regular and ordinary course including commercially reasonable and businesslike actions that are in the regular and ordinary course of business for a company operating in the industry in which such business is conducted;

(e) where a word, term or phrase is defined, its derivatives or other grammatical forms have a corresponding meaning;

(f) time is of the essence; and

(g) references to a "party" or "parties" are references to a party or parties to this Agreement.

1.9 Governing Law

This Agreement shall be governed by and construed in accordance with the laws of Alberta and the federal laws of Canada applicable therein.

ARTICLE 2
PURPOSE OF AGREEMENT

2.1 Establishment of the Trust

The purpose of this Agreement is to create the Trust for the benefit of the Beneficiaries and the AltaGas Trust, as herein provided. The Trustee shall hold the Special Voting Unit in order to enable the Trustee to exercise the Voting Rights and will hold the Exchange Right and the Automatic Exchange Rights in order to enable the Trustee to exercise such rights, in each case as trustee for and on behalf of the Beneficiaries as provided in this Agreement. The Trustee shall hold the Special Voting Unit for and on behalf of the AltaGas Trust for all other rights associated with such Special Voting Unit other than the Voting Rights.

ARTICLE 3
SPECIAL VOTING UNIT

3.1 Issue and Ownership of the Special Voting Unit

The AltaGas Trust, concurrently with its execution of this Agreement, issues to, and deposits with, the Trustee the Special Voting Unit to be hereafter held of record by the Trustee as trustee for and on behalf of, and for the use and benefit of, the Beneficiaries and in accordance with the provisions of this Agreement. The AltaGas Trust hereby acknowledges receipt from the Trustee as trustee for and on behalf of the Beneficiaries of good and valuable consideration (and the adequacy thereof) for the issuance of the Special Voting Unit by the AltaGas Trust to the Trustee. During the term of the Trust and subject to the terms and conditions of this Agreement, the Trustee shall possess and be vested with full legal ownership of such Special Voting Unit and shall be entitled to exercise all of the rights and powers of an owner with respect to such Special Voting Unit provided that the Trustee shall:

(a) hold such Special Voting Unit and the legal title thereto as trustee solely for the use and benefit of the Beneficiaries in accordance with the provisions of this Agreement; and

(b) except as specifically authorized by this Agreement, have no power or authority to sell, transfer, vote or otherwise deal in or with such Special Voting Unit and such Special Voting Unit shall not be used or disposed of by the Trustee for any purpose other than the purposes for which this Trust is created pursuant to this Agreement.

3.2 Legended Share Certificates

Each of AltaGas LP #1 and AltaGas LP #2 will cause each certificate representing Exchangeable Securities issued by it to bear an appropriate legend notifying the Beneficiaries of their right to instruct the Trustee with respect to the exercise of the portion of the Voting Rights in respect of the Exchangeable Securities held by the Beneficiaries.

3.3 *Safe Keeping of Certificate*

The physical certificate representing the Special Voting Unit shall at all times be held in safe keeping by the Trustee or its duly authorized agent.

ARTICLE 4
EXERCISE OF VOTING RIGHTS

4.1 Voting Rights

The Trustee, as the holder of record of the Special Voting Unit forming part of the Trust Estate, shall be entitled to all of the Voting Rights, including the right to vote in person or by proxy the Special Voting Unit held by the Trustee on any matter, question, proposal or proposition whatsoever that may properly come before the Unitholders at a Trust Meeting or in connection with a Trust Consent. The Voting Rights shall be and remain vested in and exercised by the Trustee. Subject to Section 6.15, the Trustee shall exercise the Voting Rights only on the basis of instructions received pursuant to this Article 4 from Beneficiaries entitled to instruct the Trustee as to the voting thereof at the time at which the Trust Meeting is held or a Trust Consent is sought. To the extent that no instructions are received from a Beneficiary with respect to the Voting Rights to which such Beneficiary is entitled, the Trustee shall not exercise or permit the exercise of such Voting Rights.

4.2 Number of Votes

With respect to all meetings of Unitholders at which Unitholders are entitled to vote (each, a "**Trust Meeting**") and with respect to all written consents sought from the Unitholders (each, a "**Trust Consent**"), each Beneficiary shall be entitled to instruct the Trustee to cast and exercise, in the manner instructed, a number of votes equal to the Equivalent Vote Amount for each Exchangeable Security owned of record by such Beneficiary on the record date established by the AltaGas Trust or by applicable law for such Trust Meeting or Trust Consent, as the case may be, (collectively, the "**Beneficiary Votes**") in respect of each matter, question, proposal or proposition to be voted on at such Trust Meeting or consented to in connection with such Trust Consent.

4.3 Mailings to Unitholders

With respect to each Trust Meeting and Trust Consent, the Trustee will use its reasonable efforts promptly to mail or cause to be mailed (or otherwise communicate in the same manner as the AltaGas Trust utilizes in communications to holders of Trust Units subject to applicable regulatory requirements and provided such manner of communication is reasonably available to the Trustee) to each of the Beneficiaries named in the List, such mailing or communication to commence on the same day as the mailing or notice (or other communication) with respect thereto is commenced by the AltaGas Trust to its Trust Unitholders:

(a) a copy of such notice, together with any related materials, including any proxy or information statement, to be provided to Trust Unitholders of the AltaGas Trust;

(b) a statement that such Beneficiary is entitled to instruct the Trustee as to the exercise of the Beneficiary Votes with respect to such Trust Meeting or Trust Consent or, pursuant to Section 4.7, to attend such Trust Meeting and to exercise personally thereat the Beneficiary Votes of such Beneficiary;

(c) a statement as to the manner in which such instructions may be given to the Trustee, including an express indication that instructions may be given to the Trustee to give:

(i) a proxy to such Beneficiary or its designee to exercise personally the Beneficiary Votes; or

(ii) a proxy to a designated agent or other representative of the management of the AltaGas Trust to exercise such Beneficiary Votes;

(d) a statement that if no such instructions are received from the Beneficiary, the Beneficiary Votes to which such Beneficiary is entitled will not be exercised;

(e) a form of direction whereby the Beneficiary may so direct and instruct the Trustee as contemplated herein; and

(f) a statement of the time and date by which such instructions must be received by the Trustee in order to be binding upon it, which in the case of a Trust Meeting shall not be earlier than the close of business on the second Business Day prior to such meeting, and of the method for revoking or amending such instructions.

For the purpose of determining Beneficiary Votes to which a Beneficiary is entitled in respect of any Trust Meeting or Trust Consent, the number of Exchangeable Securities owned of record by the Beneficiary shall be determined at the close of business on the record date established by the AltaGas Trust or by applicable law for purposes of determining Unitholders entitled to vote at such Trust Meeting or to give written consent in connection with such Trust Consent. The AltaGas Trust shall notify the Trustee of any decision of the trustee of the AltaGas Trust with respect to the calling of any Trust Meeting or the seeking of any Trust Consent and shall provide all necessary information and materials to the Trustee in each case promptly and in any event in sufficient time to enable the Trustee to perform its obligations contemplated by this Section 4.3.

The materials referred to in this Section 4.3 are to be provided to the Trustee by the AltaGas Trust and the materials referred to in Sections 4.3(c), 4.3(e) and 4.3(f) shall be subject to reasonable comment by the Trustee in a timely manner. The AltaGas Trust shall ensure that the materials to be provided to the Trustee are provided in sufficient time to permit the Trustee to comment as aforesaid and to send all materials to each Beneficiary at the same time as such materials are first sent to holders of Trust Units. The AltaGas Trust agrees not to communicate with holders of Trust Units with respect to the materials referred to in this Section 4.3 otherwise than by mail unless such method of communication is also reasonably available to the Trustee for communication with the Beneficiaries. Notwithstanding the foregoing, the AltaGas Trust may at its option exercise the duties of the Trustee to deliver copies of all materials to each Beneficiary as required by this Section 4.3 so long as in each case the AltaGas Trust

delivers a certificate to the Trustee stating that the AltaGas Trust has undertaken to perform the obligations set forth in this Section 4.3.

4.4 Copies of Unitholder Information

The AltaGas Trust will deliver to the Trustee copies of all proxy materials (including notices of Trust Meetings but excluding proxies to vote Trust Units), information statements, reports (including all interim and annual financial statements) and other written communications that, in each case, are to be distributed from time to time to Unitholders in sufficient quantities and in sufficient time so as to enable the Trustee to send those materials to each Beneficiary, to the extent possible, at the same time as such materials are first sent to Unitholders. The Trustee will mail or otherwise send to each Beneficiary, at the expense of the AltaGas Trust, copies of all such materials (and all materials specifically directed to the Beneficiaries or to the Trustee for the benefit of the Beneficiaries by the AltaGas Trust) received by the Trustee from the AltaGas Trust, to the extent possible, at the same time as such materials are sent to Unitholders. The Trustee will make copies of all such materials available for inspection by any Beneficiary at the Trustee's principal office in Calgary, Alberta. Notwithstanding the foregoing, the AltaGas Trust at its option may exercise the duties of the Trustee to deliver copies of all materials to each Beneficiary as required by this Section 4.4 so long as in each case the AltaGas Trust delivers a certificate to the Trustee stating that the AltaGas Trust has undertaken to perform the obligations set forth in this Section 4.4.

4.5 Other Materials

As soon as reasonably practicable after receipt by the AltaGas Trust or holders of Trust Units (if such receipt is known by the AltaGas Trust) of any materials sent or given by or on behalf of a third party to holders of Trust Units generally, including dissident proxy and information circulars (and related information and material) and tender and exchange offer circulars (and related information and material), the AltaGas Trust shall use its reasonable best efforts to obtain and deliver to the Trustee copies thereof in sufficient quantities so as to enable the Trustee to forward such materials (unless the same has been provided directly to Beneficiaries by such third party) to each Beneficiary as soon as possible thereafter. As soon as reasonably practicable after receipt thereof, the Trustee will mail or otherwise send to each Beneficiary, at the expense of the AltaGas Trust, copies of all such materials received by the Trustee from the AltaGas Trust. The Trustee will also make available for inspection by any Beneficiary at the Trustee's principal office in Calgary, Alberta, copies of all such materials. Notwithstanding the foregoing, the AltaGas Trust at its option may exercise the duties of the Trustee to deliver copies of all such materials to each Beneficiary as required by this Section 4.5 so long as in each case the AltaGas Trust delivers a certificate to the Trustee stating that the AltaGas Trust has undertaken to perform the obligations set forth in this Section 4.5.

4.6 List of Persons Entitled to Vote

Each of AltaGas LP #1 and AltaGas LP #2 shall, (a) prior to each annual and special Trust Meeting or the seeking of any Trust Consent and (b) forthwith upon each request made at any time by the Trustee in writing, prepare or cause to be prepared a list (a "**List**") of the names and addresses of the Beneficiaries arranged in alphabetical order and showing the number of Exchangeable Securities issued by it held of record by each such Beneficiary, in each case at the close of business on the date specified by the Trustee in such request or, in the case of a List prepared in connection with a Trust Meeting or a Trust Consent, at the close of business on the record date established by the AltaGas Trust or pursuant to applicable law for determining the holders of Trust Units entitled to receive notice of and/or to vote at such Trust Meeting or to give consent in connection with such Trust Consent. Each such List shall be delivered to the Trustee promptly after receipt by AltaGas LP #1 or AltaGas LP #2, as the case may be, of such request or the record date for such meeting or seeking of consent, as the case may be, and in any event within sufficient time as to permit the Trustee to perform its obligations under this Agreement. The AltaGas Trust agrees to give each of AltaGas LP #1 and AltaGas LP #2 notice (with a copy to the Trustee) of the calling of any Trust Meeting or the seeking of any Trust Consent by the AltaGas Trust or its management, together with the record dates therefor, sufficiently prior to the date of the calling of such meeting or seeking of such consent so as to enable each of AltaGas LP #1 and AltaGas LP #2 to perform its obligations under this Section 4.6.

4.7 Entitlement to Direct Votes

Any Beneficiary named in a List prepared in connection with any Trust Meeting or Trust Consent will be entitled (a) to instruct the Trustee in the manner described in Section 4.2 with respect to the exercise of the Beneficiary Votes to which such Beneficiary is entitled or (b) to attend such meeting and personally exercise thereat

(or to personally exercise with respect to any Trust Consent), as the proxy of the Trustee, the Beneficiary Votes to which such Beneficiary is entitled.

4.8 Voting by the Trustee and Attendance of Trustee Representative at Meeting

(a) In connection with each Trust Meeting and Trust Consent, the Trustee shall exercise, either in person or by proxy, in accordance with the instructions received from a Beneficiary pursuant to Section 4.2, the Beneficiary Votes as to which such Beneficiary is entitled to direct the vote (or any lesser number thereof as may be set forth in the instructions); provided, however, that such written instructions are received by the Trustee from the Beneficiary prior to the time and date fixed by the Trustee for receipt of such instruction in the notice given by the Trustee to the Beneficiary pursuant to Section 4.3.

(b) Subject to receipt of instructions contemplated by 4.3(f), the Trustee shall cause a representative who is empowered by it to sign and deliver, on behalf of the Trustee, proxies for Voting Rights to attend each Trust Meeting. Upon submission by a Beneficiary (or its designee) of identification satisfactory to the Trustee's representative, and at the Beneficiary's request, such representative shall sign and deliver to such Beneficiary (or its designee) a proxy to exercise personally the Beneficiary Votes as to which such Beneficiary is otherwise entitled hereunder to direct the vote, if such Beneficiary either (i) has not previously given the Trustee instructions pursuant to Section 4.2 in respect of such meeting or (ii) submits to such representative written revocation of any such previous instructions. At such meeting, upon receipt of a proxy from the Trustee's representative, the Beneficiary exercising such Beneficiary Votes shall have the same rights as the Trustee to speak at the meeting in respect of any matter, question, proposal or proposition, to vote by way of ballot at the meeting in respect of any matter, question, proposal or proposition, and to vote at such meeting by way of a show of hands in respect of any matter, question or proposition.

4.9 Distribution of Written Materials

Any written materials distributed by or on behalf of the Trustee pursuant to this Agreement shall be sent by mail (or otherwise communicated in the same manner as the AltaGas Trust utilizes in communications to holders of Trust Units, subject to applicable regulatory requirements and provided such manner of communication is reasonably available to the Trustee) to each Beneficiary at its address as shown on the books of AltaGas LP #1 or AltaGas LP #2, as applicable. The AltaGas Trust agrees not to communicate with holders of Trust Units with respect to such written material otherwise than by mail unless such method of communication is also reasonably available to the Trustee for communication with the Beneficiaries. Each of AltaGas LP #1 and AltaGas LP #2 shall provide or cause to be provided to the Trustee for purposes of communication, on a timely basis and without charge or other expense:

(a) a current List; and

(b) upon the request of the Trustee, mailing labels to enable the Trustee to carry out its duties under this Agreement.

Each of AltaGas LP #1's and AltaGas LP #2's obligations under this Section 4.9 shall be deemed satisfied to the extent the AltaGas Trust exercises its option to perform the duties of the Trustee to deliver copies of materials to each Beneficiary and AltaGas LP #1 or AltaGas LP #2, as the case may be, provides the required information and materials to the AltaGas Trust.

4.10 Termination of Voting Rights

Except as otherwise provided herein or in the Exchangeable Securities Provisions, all of the rights of a Beneficiary with respect to the Beneficiary Votes exercisable in respect of the Exchangeable Securities held by such Beneficiary, including the right to instruct the Trustee as to the voting of or to vote personally such Beneficiary Votes, shall be deemed to be surrendered by the Beneficiary and such Beneficiary Votes and the Voting Rights represented thereby shall cease and be terminated immediately, upon:

(a) the delivery by such Beneficiary to the Trustee of the certificates representing such Exchangeable Securities in connection with the exercise by the Beneficiary of the Exchange Right (unless the AltaGas Trust shall not have delivered the Class B Unit Consideration deliverable in exchange therefor to the Trustee for delivery to the Beneficiaries);

(b) the occurrence of the automatic exchange of Exchangeable Securities for Trust Units, as specified in Article 5 (unless the AltaGas Trust shall not have delivered the Class B Unit Consideration deliverable in exchange therefor to the Trustee for delivery to the Beneficiary);

(c) the redemption of Exchangeable Securities pursuant to Article 6 or Article 7 of the Exchangeable Securities Provisions, or upon the effective date of the liquidation, dissolution or winding-up of whichever of AltaGas LP #1 or AltaGas LP #2 issued the Exchangeable Securities held by such Beneficiary pursuant to Article 5 of the Exchangeable Securities Provisions;

(d) the automatic redemption of Exchangeable Securities pursuant to Article 8 of the Exchangeable Securities Provisions;

(e) the purchase of Exchangeable Securities from the holder thereof by whichever of AltaGas LP #1 or AltaGas LP #2 issued the Exchangeable Securities held by such holder; or

(f) the purchase of Exchangeable Securities from the holder thereof by Holding Trust pursuant to the Liquidation Call Right pursuant to Article 10 of the Exchangeable Securities Provisions.

ARTICLE 5
EXCHANGE RIGHT AND AUTOMATIC EXCHANGE

5.1 Grant and Ownership of the Exchange Right

The AltaGas Trust hereby grants to the Trustee as trustee for and on behalf of, and for the use and benefit of, the Beneficiaries the right (the "**Exchange Right**"), upon the occurrence and during the continuance of an Insolvency Event, to require the AltaGas Trust to purchase from each or any Beneficiary all or any part of the Exchangeable Securities held by such Beneficiary and the Automatic Exchange Rights, all in accordance with the provisions of this Agreement. The AltaGas Trust hereby acknowledges receipt from the Trustee as trustee for and on behalf of the Beneficiaries of good and valuable consideration (and the adequacy thereof) for the grant of the Exchange Right and the Automatic Exchange Rights by the AltaGas Trust to the Trustee. During the term of the Trust and subject to the terms and conditions of this Agreement, the Trustee shall possess and be vested with full legal ownership of the Exchange Right and the Automatic Exchange Rights and shall be entitled to exercise all of the rights and powers of an owner with respect to the Exchange Right and the Automatic Exchange Rights, provided that the Trustee shall:

(a) hold the Exchange Right and the Automatic Exchange Rights and the legal title thereto as trustee solely for the use and benefit of the Beneficiaries in accordance with the provisions of this Agreement; and

(b) except as specifically authorized by this Agreement, have no power or authority to exercise or otherwise deal in or with the Exchange Right or the Automatic Exchange Rights, and the Trustee shall not exercise any such rights for any purpose other than the purposes for which the Trust is created pursuant to this Agreement.

5.2 Legended Share Certificates

Each of AltaGas LP #1 and AltaGas LP #2 shall cause each certificate representing Exchangeable Securities to bear an appropriate legend notifying the Beneficiaries of:

(a) their right to instruct the Trustee with respect to the exercise of the Exchange Right in respect of the Exchangeable Securities held by a Beneficiary; and

(b) the Automatic Exchange Rights.

5.3 General Exercise of Exchange Right

The Exchange Right shall be and remain vested in and exercisable by the Trustee. Subject to Section 6.15, the Trustee shall exercise the Exchange Right only on the basis of instructions received pursuant to this Article 5 from Beneficiaries entitled to instruct the Trustee as to the exercise thereof. To the extent that no instructions are received from a Beneficiary with respect to the Exchange Right, the Trustee shall not exercise or permit the exercise of the Exchange Right.

5.4 Purchase Price

The purchase price payable by the AltaGas Trust for each Exchangeable Security to be purchased by the AltaGas Trust under the Exchange Right shall be: an amount per Exchangeable Security equal to the Class B Unit Price on the last Business Day prior to the day of closing of the purchase and sale of such Exchangeable Securities under the Exchange Right; and the assumption by AltaGas Trust of any Partnership Loan Indebtedness in respect of such Exchangeable Security. In connection with each exercise of the Exchange Right, the AltaGas Trust shall provide to the Trustee an Officer's Certificate setting forth the calculation of the Class B Unit Price for each Exchangeable Security. The Class B Unit Price for each such Exchangeable Security so purchased may be satisfied only by the AltaGas Trust delivering or causing to be delivered to the Trustee, on behalf of the relevant Beneficiary, the Class B Unit Consideration representing the total Class B Unit Price. Upon payment by the AltaGas Trust of such purchase price to the Trustee for the benefit of the Beneficiary, the relevant Beneficiary shall cease to have any right to be paid any amount in respect of declared and unpaid loans or distributions on each such Exchangeable Security by AltaGas LP #1 or AltaGas LP #2, as the case may be.

5.5 Exercise Instructions

Subject to the terms and conditions herein set forth, a Beneficiary shall be entitled, upon the occurrence and during the continuance of an Insolvency Event, to instruct the Trustee to exercise the Exchange Right with respect to all or any part of the Exchangeable Securities registered in the name of such Beneficiary on the books of AltaGas LP #1 or AltaGas LP #2, as the case may be. To cause the exercise of the Exchange Right by the Trustee, the Beneficiary shall deliver to the Trustee, in person or by certified or registered mail, at its principal office in Calgary, Alberta or at such other places in Canada as the Trustee may from time to time designate by written notice to the Beneficiaries, the certificates representing the Exchangeable Securities which such Beneficiary desires the AltaGas Trust to purchase, duly endorsed in blank for transfer, and accompanied by such other documents and instruments as may be required to effect a transfer of Exchangeable Securities under the Limited Partnership Agreement of AltaGas LP #1 or AltaGas LP #2, as the case may be, and such additional documents and instruments as the Trustee, AltaGas LP #1 or AltaGas LP #2, as the case may be, and the AltaGas Trust may reasonably require together with (a) a duly completed form of notice of exercise of the Exchange Right, contained on the reverse of or attached to the Exchangeable Securities certificates, stating (i) that the Beneficiary thereby instructs the Trustee to exercise the Exchange Right so as to require the AltaGas Trust to purchase from the Beneficiary the number of Exchangeable Securities specified therein, (ii) that such Beneficiary has good title to and owns all such Exchangeable Securities to be acquired by the AltaGas Trust free and clear of all liens, claims, security interests and encumbrances, (iii) the names in which the certificates representing Trust Units issuable in connection with the exercise of the Exchange Right are to be issued and (iv) the names and addresses of the persons to whom such new certificates should be delivered, and (b) payment (or evidence satisfactory to the Trustee, AltaGas LP #1 or AltaGas LP #2, as the case may be, and the AltaGas Trust of payment) of the taxes (if any) payable as contemplated by Section 5.8. If only a part of the Exchangeable Securities represented by any certificate or certificates delivered to the Trustee are to be purchased by the AltaGas Trust under the Exchange Right, a new certificate for the balance of such Exchangeable Securities shall be issued to the holder at the expense of AltaGas LP #1 or AltaGas LP #2, as the case may be.

5.6 Delivery of Trust Units; Effect of Exercise

Promptly after the receipt by the Trustee of the certificates representing the Exchangeable Securities which the Beneficiary desires the AltaGas Trust to purchase under the Exchange Right, together with such documents and instruments of transfer and a duly completed form of notice of exercise of the Exchange Right (and payment of taxes, if any payable as contemplated by Section 5.8 or evidence thereof), duly endorsed for transfer to the AltaGas Trust, the Trustee shall notify the AltaGas Trust and AltaGas LP #1 or AltaGas LP #2, as applicable, of its receipt of

the same, which notice to the AltaGas Trust and AltaGas LP #1 or AltaGas LP #2, as applicable, shall constitute exercise of the Exchange Right by the Trustee on behalf of the Beneficiary in respect of such Exchangeable Securities, and the AltaGas Trust shall promptly thereafter deliver or cause to be delivered to the Trustee, for delivery to the Beneficiary in respect of such Exchangeable Securities (or to such other persons, if any, properly designated by such Beneficiary) the Class B Unit Consideration deliverable in connection with the exercise of the Exchange Right; provided, however, that no such delivery shall be made unless and until the Beneficiary requesting the same shall have paid (or provided evidence satisfactory to the Trustee, AltaGas LP #1 or AltaGas LP #2, as applicable, and the AltaGas Trust of the payment of) the taxes (if any) payable as contemplated by Section 5.8. Immediately upon the giving of notice by the Trustee to the AltaGas Trust and AltaGas LP #1 or AltaGas LP #2, as applicable, of the exercise of the Exchange Right, as provided in this Section 5.6, the closing of the transaction of purchase and sale contemplated by the Exchange Right shall be deemed to have occurred, and the Beneficiary of such Exchangeable Securities shall be deemed to have transferred to the AltaGas Trust all of such Beneficiary's right, title and interest in and to such Exchangeable Securities and in the related interest in the Trust Estate and shall cease to be a holder of such Exchangeable Securities and shall not be entitled to exercise any of the rights of a holder in respect thereof, other than the right to receive his proportionate part of the total purchase price therefor, unless such Class B Unit Consideration is not delivered by the AltaGas Trust to the Trustee for delivery to such Beneficiary (or to such other person, if any, properly designated by such Beneficiary) within five Business Days of the date of the giving of such notice by the Trustee, in which case the rights of the Beneficiary shall remain unaffected until such Class B Unit Consideration is delivered by the AltaGas Trust and any cheque included therein is paid. Upon delivery of such Class B Unit Consideration by the AltaGas Trust to the Trustee, the Trustee shall deliver such Class B Unit Consideration to such Beneficiary (or to such other person, if any, properly designated by such Beneficiary). Concurrently with such Beneficiary ceasing to be a holder of Exchangeable Securities, the Beneficiary (or such other person properly designated by such Beneficiary) shall be considered and deemed for all purposes to be the holder of the Trust Units delivered to it pursuant to the Exchange Right.

Notwithstanding anything contained in this Agreement or the Limited Partnership Agreements (including the Exchangeable Securities Provisions), upon the exercise of the Exchange Right by the Trustee on behalf of the Beneficiary, all obligations under or pertaining to Partnership Loan Indebtedness of the Beneficiary in respect of each Exchangeable Security in respect of which such Exchange Right is exercised shall be, and be deemed to be, assumed by AltaGas Trust, and AltaGas LP#1 or AltaGas LP#2, as the case may be, shall release, and be deemed to release, such Beneficiary from and in respect of all such obligations without further act or formality.

5.7 Exercise of Exchange Right Subsequent to Retraction

In the event that a Beneficiary has exercised its right under Article 6 of the Exchangeable Securities Provisions to require AltaGas LP #1 or AltaGas LP #2, as applicable, to redeem any or all of the Exchangeable Securities held by the Beneficiary (the "**Retracted Securities**") and is notified by AltaGas LP #1 or AltaGas LP #2, as applicable, pursuant to Section 6.5 of the Exchangeable Securities Provisions that AltaGas LP #1 or AltaGas LP #2, as applicable, will not be permitted as a result of applicable law to redeem all such Retracted Securities, and provided that the Beneficiary has not revoked the retraction request delivered by the Beneficiary to AltaGas LP #1 or AltaGas LP #2, as applicable, pursuant to Section 6.6 of the Exchangeable Securities Provisions, and provided further that the Trustee has received written notice of same from AltaGas LP #1 or AltaGas LP #2, as applicable, or the AltaGas Trust, the retraction request will constitute and will be deemed to constitute notice from the Beneficiary to the Trustee instructing the Trustee to exercise the Exchange Right with respect to those Retracted Securities that AltaGas LP #1 or AltaGas LP #2, as applicable, is unable to redeem. In any such event, AltaGas LP #1 or AltaGas LP #2, as applicable, hereby agrees with the Trustee and in favour of the Beneficiary promptly to forward or cause to be forwarded to the Trustee all relevant materials delivered by the Beneficiary to AltaGas LP #1 or AltaGas LP #2, as applicable, or to the transfer agent of the Exchangeable Securities (including a copy of the Retraction Request delivered pursuant to Section 6.1 of the Exchangeable Securities Provisions) in connection with such proposed redemption of the Retracted Securities and the Trustee will thereupon exercise the Exchange Right with respect to the Retracted Securities that AltaGas LP #1 or AltaGas LP #2, as applicable, is not permitted to redeem and will require the AltaGas Trust to purchase such Retracted Securities in accordance with the provisions of this Article 5.

5.8 Stamp or Other Transfer Taxes

Upon any sale of Exchangeable Securities to the AltaGas Trust pursuant to the Exchange Right or the Automatic Exchange Rights, the certificate or certificates representing Trust Units to be delivered in connection with the payment of the purchase price therefor shall be issued in the name of the Beneficiary in respect of the Exchangeable Securities so sold or in such names as such Beneficiary may otherwise direct in writing without charge to the holder of the Exchangeable Securities so sold; provided, however, that such Beneficiary shall pay (and none of the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2, as applicable, or the Trustee shall be required to pay) any documentary, stamp, transfer or other taxes that may be payable in respect of any transfer involved in the issuance or delivery of such shares to a person other than such Beneficiary or evidenced to the satisfaction of the AltaGas Trust and AltaGas LP #1 or AltaGas LP #2, as applicable, that such taxes, if any, have been paid.

5.9 Notice of Insolvency Event

As soon as practicable following the occurrence of an Insolvency Event or any event that with the giving of notice or the passage of time or both would be an Insolvency Event, AltaGas LP #1 or AltaGas LP #2, as applicable, and the AltaGas Trust shall give written notice thereof to the Trustee. As soon as practicable following the receipt of notice from AltaGas LP #1 or AltaGas LP #2, as applicable, or the AltaGas Trust of the occurrence of an Insolvency Event, or upon the Trustee becoming aware of an Insolvency Event, the Trustee will mail to each Beneficiary, at the expense of the AltaGas Trust (such funds to be received in advance), a notice of such Insolvency Event in the form provided by the AltaGas Trust, which notice shall contain a brief statement of the rights of the Beneficiaries with respect to the Exchange Right.

5.10 Qualification of Trust Units

The AltaGas Trust covenants that if any Trust Units issuable pursuant to the Exchange Right or the Automatic Exchange Rights require registration or qualification with or approval of or the filing of any document, including any registration statement, prospectus or similar document, or the taking of any proceeding with or the obtaining of any order, ruling or consent from any governmental authority or the fulfilment of any other Canadian federal, provincial or territorial legal requirement before such Trust Units may be issued and delivered by the AltaGas Trust to the initial holder thereof or in order that such Trust Units may be freely traded thereafter (other than any restrictions of general application on transfer by reason of a holder being a "control person" of the AltaGas Trust for purposes of Canadian provincial securities law), the AltaGas Trust will in good faith use its reasonable best efforts to take all such actions and do all such things as are necessary or desirable to cause such Trust Units to be and remain duly registered, qualified or approved under Canadian law. The AltaGas Trust will use its reasonable best efforts and in good faith expeditiously take all such actions and do all such things as are reasonably necessary or desirable to cause all the Trust Units to be delivered pursuant to the Exchange Right or the Automatic Exchange Rights to be listed, quoted or posted for trading on all stock exchanges and quotation systems on which outstanding Trust Units are listed, quoted or posted for trading at such time.

5.11 Trust Units

The AltaGas Trust hereby represents, warrants and covenants that the Trust Units issuable to Beneficiaries as described herein will be duly authorized and validly issued, fully paid and non-assessable and shall be free and clear of any lien, claim or encumbrance.

5.12 Automatic Exchange on Liquidation of the AltaGas Trust

(a) The AltaGas Trust will give the Trustee written notice of each of the following events at the time set forth below:

(i) in the event of any determination by the trustee of the AltaGas Trust to institute voluntary liquidation, dissolution or winding-up proceedings with respect to the AltaGas Trust or to effect any other distribution of assets of the AltaGas Trust among its Trust Unitholders for the purpose of winding up its affairs, at least 60 days prior to the proposed effective date of such liquidation, dissolution, winding-up or other distribution; and

(ii) promptly following the earlier of (A) receipt by the AltaGas Trust of notice of, and (B) the AltaGas Trust otherwise becoming aware of, any threatened or instituted claim,

suit, petition or other proceedings with respect to the involuntary liquidation, dissolution or winding-up of the AltaGas Trust or to effect any other distribution of assets of the AltaGas Trust among its Trust Unitholders for the purpose of winding up its affairs, in each case where the AltaGas Trust has failed to contest in good faith any such proceeding commenced in respect of the AltaGas Trust within 30 days of becoming aware thereof.

(b) Promptly following receipt by the Trustee from the AltaGas Trust of notice of any event (a "**Liquidation Event**") contemplated by Section 5.12(a) above, the Trustee will give notice thereof to the Beneficiaries. Such notice shall be provided to the Trustee by the AltaGas Trust and shall include a brief description of rights of the Beneficiaries with respect to the Automatic Exchange Rights provided for in Section 5.12(c).

(c) In order that the Beneficiaries will be able to participate on a pro rata basis with the holders of Trust Units in the distribution of assets of the AltaGas Trust in connection with a Liquidation Event, immediately prior to the effective time (the "**Liquidation Event Effective Time**") of a Liquidation Event all of the then outstanding Exchangeable Securities shall be automatically exchanged for Trust Units. To effect such automatic exchange, the AltaGas Trust shall purchase each Exchangeable Security outstanding immediately prior to the Liquidation Event Effective Time and held by Beneficiaries, and each Beneficiary shall sell the Exchangeable Securities held by such Beneficiary at such time, for a purchase price per Exchangeable Security equal to the Class B Unit Price applicable at that time. The AltaGas Trust shall provide the Trustee with an Officer's Certificate in connection with any automatic exchange setting forth the calculation of the Class B Unit Price for each Exchangeable Security.

(d) The closing of the transaction of purchase and sale contemplated by the automatic exchange of Exchangeable Securities for Trust Units shall be deemed to have occurred immediately prior to the Liquidation Event Effective Time, and each Beneficiary shall be deemed to have transferred to the AltaGas Trust all of the Beneficiary's right, title and interest in and to such Beneficiary's Exchangeable Securities and the related interest in the Trust Estate. Any right of each such Beneficiary to receive loans from AltaGas LP #1 or AltaGas LP #2, as the case may be, shall be deemed to be satisfied and discharged and each such Beneficiary shall cease to be a holder of such Exchangeable Securities and the AltaGas Trust shall deliver to the Beneficiary the Class B Unit Consideration deliverable upon the automatic exchange of Exchangeable Securities. Concurrently with such Beneficiary ceasing to be a holder of Exchangeable Securities, the Beneficiary shall be considered and deemed for all purposes to be the holder of the Trust Units issued pursuant to the automatic exchange of Exchangeable Securities for Trust Units and the certificates held by the Beneficiary previously representing the Exchangeable Securities exchanged by the Beneficiary with the AltaGas Trust pursuant to such automatic exchange shall thereafter be deemed to represent Trust Units issued to the Beneficiary by the AltaGas Trust pursuant to such automatic exchange. Upon the request of a Beneficiary and the surrender by the Beneficiary of Exchangeable Securities certificates deemed to represent Trust Units, duly endorsed in blank and accompanied by such instruments of transfer as the AltaGas Trust may reasonably require, the AltaGas Trust shall deliver or cause to be delivered to the Beneficiary certificates representing Trust Units of which the Beneficiary is the holder.

5.13 Withholding Rights

Each of the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 and the Trustee shall be entitled (without duplication) to deduct and withhold from any consideration otherwise payable under this Agreement to any holder of Exchangeable Securities or Trust Units such amounts as the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 or the Trustee is required to deduct and withhold with respect to such payment under the *Income Tax Act* (Canada) or any provision of federal, provincial, state, local or foreign tax law, in each case as amended or succeeded. The Trustee may act on the advice of counsel with respect to such matters. To the extent that amounts are so withheld, such withheld amounts shall be treated for all purposes as having been paid to the holder of the securities in respect of which such deduction and withholding was made, provided that such withheld amounts are actually remitted to the appropriate taxing authority. To the extent that the amount so required to be deducted or withheld from any payment

to a holder exceeds the cash portion of the consideration otherwise payable to the holder, the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 and the Trustee are hereby authorized to sell or otherwise dispose of such portion of the consideration as is necessary to provide sufficient funds to the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 or the Trustee, as the case may be, to enable it to comply with such deduction or withholding requirement and the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2, as the case may be, or the Trustee shall notify the holder thereof and remit to such holder any unapplied balance of the net proceeds of such sale.

ARTICLE 6
CONCERNING THE TRUSTEE

6.1 Powers and Duties of the Trustee

The rights, powers, duties and authorities of the Trustee under this Agreement, in its capacity as trustee of the Trust, shall include:

(a) receipt and deposit of the Special Voting Unit from the AltaGas Trust as trustee for and on behalf of the Beneficiaries in accordance with the provisions of this Agreement;

(b) granting proxies and distributing materials to Beneficiaries as provided in this Agreement;

(c) casting and exercising the Beneficiary Votes in accordance with the provisions of this Agreement;

(d) receiving the grant of the Exchange Right and the Automatic Exchange Rights from the AltaGas Trust as trustee for and on behalf of the Beneficiaries in accordance with the provisions of this Agreement;

(e) exercising the Exchange Right and enforcing the benefit of the Automatic Exchange Rights, in each case in accordance with the provisions of this Agreement, and in connection therewith receiving from Beneficiaries Exchangeable Securities and other requisite documents and distributing to such Beneficiaries Trust Units, cheques and other property, if any, to which such Beneficiaries are entitled upon the exercise of the Exchange Right or pursuant to the Automatic Exchange Rights, as the case may be;

(f) holding title to the Trust Estate;

(g) investing any moneys forming, from time to time, a part of the Trust Estate as provided in this Agreement;

(h) taking action on its own initiative or at the direction of a Beneficiary or Beneficiaries to enforce the obligations of the AltaGas Trust and AltaGas LP #1 or AltaGas LP #2, as the case may be, under this Agreement; and

(i) taking such other actions and doing such other things as are specifically provided in this Agreement.

In the exercise of such rights, powers, duties and authorities, the Trustee shall have (and is granted) such incidental and additional rights, powers, duties and authority not in conflict with any of the provisions of this Agreement as the Trustee, acting in good faith and in the reasonable exercise of its discretion, may deem necessary, appropriate or desirable to effect the purpose of the Trust. Any exercise of such discretionary rights, powers, duties and authorities by the Trustee shall be final, conclusive and binding upon all persons.

The Trustee in exercising its rights, powers, duties and authorities hereunder shall act honestly and in good faith and with a view to the best interests of the Beneficiaries and shall exercise the care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.

The Trustee shall not be bound to give notice or do or take any act, action or proceeding by virtue of the powers conferred on it hereby unless and until it shall be specifically required to do so under the terms hereof, nor shall the Trustee be required to take any notice of, or to do, or to take any act, action or proceeding as a result of any default or breach of any provision hereunder, unless and until notified in writing of such default or breach, which notices shall distinctly specify the default or breach desired to be brought to the attention of the Trustee, and in the absence of such notice the Trustee may for all purposes of this Agreement conclusively assume that no default or breach has been made in the observance or performance of any of the representations, warranties, covenants, agreements or conditions contained herein.

6.2 No Conflict of Interest

AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 acknowledge that the Trustee also serves as registrar and transfer agent for the AltaGas Trust, as trustee for the AltaGas. Medium Term Notes pursuant to a Trust Indenture dated September 27, 2000, as trustee of the AltaGas Trust pursuant to the Declaration of Trust and as trustee for the Holding Trust Notes pursuant to a Trust Indenture dated as of ●, 2004 (collectively, the "**Related Appointments**"). The Trustee represents to the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 that at the date of execution and delivery of this Agreement there exists no material conflict of interest in the role of the Trustee as a fiduciary hereunder and the role of the Trustee in any other capacity and is aware of no potential conflicts of interest other than those that may arise in connection with the Related Appointments. The Trustee shall, within 90 days after it becomes aware that any material conflict of interest exists, including in connection with any Related Appointments, either (a) eliminate such material conflict of interest, (b) resign from any of the Related Appointments so that a material conflict of interest no longer exists, or (c) resign in the manner and with the effect specified in Article 10. If, notwithstanding the foregoing provisions of this Section 6.2, the Trustee has such a material conflict of interest, the validity and enforceability of this Agreement shall not be affected in any manner whatsoever by reason only of the existence of such material conflict of interest. If the Trustee contravenes the foregoing provision of this Section 6.2, any interested party may apply to the Court for an order that the Trustee be replaced as the trustee hereunder.

6.3 Dealings with Transfer Agents, Registrars, etc.

Each of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 irrevocably authorize the Trustee, from time to time, to:

(a) consult, communicate and otherwise deal with the respective registrars and transfer agents, and with any such subsequent registrar or transfer agent, of the Exchangeable Securities and Trust Units; and

(b) requisition, from time to time, (i) from any such registrar or transfer agent any information readily available from the records maintained by it which the Trustee may reasonably require for the discharge of its duties and responsibilities under this Agreement and (ii) from the transfer agent of Trust Units, and any subsequent transfer agent of such shares, the share certificates issuable upon the exercise from time to time of the Exchange Right and pursuant to the Automatic Exchange Rights.

Each of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 irrevocably authorize their respective registrars and transfer agents to comply with all such requests. The AltaGas Trust covenants that it will supply its transfer agent with duly executed share certificates for the purpose of completing the exercise from time to time of the Exchange Right and the Automatic Exchange Rights.

6.4 Books and Records

The Trustee shall keep available for inspection by the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 at the Trustee's principal office in Calgary, Alberta correct and complete books and records of account relating to the Trust created by this Agreement, including all relevant data relating to mailings and instructions to and from Beneficiaries and all transactions pursuant to the Exchange Right and the Automatic Exchange Rights. On or before January 15 in every year, so long as any Special Voting Units are on deposit with the Trustee, the Trustee shall transmit to the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 a brief report, dated as of the preceding December 31, with respect to:

(a) the property and funds comprising the Trust Estate as of that date;

(b) the number of exercises of the Exchange Right, if any, and the aggregate number of Exchangeable Securities received by the Trustee on behalf of Beneficiaries in consideration of the issuance by the AltaGas Trust of Trust Units in connection with the Exchange Right, during the calendar year ended on such December 31; and

(c) any action taken by the Trustee in the performance of its duties under this Agreement which it had not previously reported and which, in the Trustee's opinion, materially affects the Trust Estate.

6.5 Income Tax Returns and Reports

The Trustee shall, to the extent necessary, prepare and file on behalf of the Trust appropriate Canadian income tax returns and any other returns or reports as may be required by applicable law or pursuant to the rules and regulations of any securities exchange or other trading system through which the Exchangeable Securities are traded. In connection therewith, the Trustee may obtain the advice and assistance of such experts or advisors as the Trustee reasonably considers necessary or advisable (who may be experts or advisors to the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2). If requested by the Trustee, the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 shall retain qualified experts or advisors for the purpose of providing such tax advice or assistance.

6.6 Indemnification Prior to Certain Actions by the Trustee

Subject to Section 6.15, the Trustee shall exercise any or all of the rights, duties, powers or authorities vested in it by this Agreement at the request, order or direction of any Beneficiary upon such Beneficiary furnishing to the Trustee reasonable funding, security or indemnity against the costs, expenses and liabilities which may be incurred by the Trustee therein or thereby, provided that no Beneficiary shall be obligated to furnish to the Trustee any such security or indemnity in connection with the exercise by the Trustee of any of its rights, duties, powers and authorities with respect to the Special Voting Unit held by the Trustee pursuant to Article 4, with respect to the Exchange Right pursuant to Article 5, and with respect to the Automatic Exchange Rights pursuant to Article 5.

None of the provisions contained in this Agreement shall require the Trustee to expend or risk its own funds or otherwise incur financial liability in the exercise of any of its rights, powers, duties, or authorities unless funded, given security or indemnified as aforesaid.

6.7 Action of Beneficiaries

No Beneficiary shall have the right to institute any action, suit or proceeding or to exercise any other remedy authorized by this Agreement for the purpose of enforcing any of its rights or for the execution of any trust or power hereunder unless the Beneficiary has requested the Trustee to take or institute such action, suit or proceeding and furnished the Trustee with the funding, security or indemnity required by Section 6.6 and the Trustee shall have failed to act within a reasonable time thereafter. In such case, but not otherwise, the Beneficiary shall be entitled to take proceedings in any court of competent jurisdiction such as the Trustee might have taken; it being understood and intended that no one or more Beneficiaries shall have any right in any manner whatsoever to affect, disturb or prejudice the rights hereby created by any such action, or to enforce any right hereunder or the Voting Rights, the Exchange Rights or the Automatic Exchange Rights except subject to the conditions and in the manner herein provided, and that all powers and trusts hereunder shall be exercised and all proceedings at law shall be instituted, had and maintained by the Trustee, except only as herein provided, and in any event for the equal benefit of all Beneficiaries.

6.8 Reliance Upon Declarations

The Trustee shall not be considered to be in contravention of any of its rights, powers, duties and authorities hereunder if, when required, it acts and relies in good faith upon statutory declarations, certificates, opinions, Lists, reports or other papers or documents furnished pursuant to the provisions hereof or required by the Trustee to be furnished to it in the exercise of its rights, powers, duties and authorities hereunder if such statutory declarations, certificates, opinions, Lists, reports or other papers or documents comply with the provisions of Section 6.9, if applicable, and with any other applicable provisions of this Agreement.

6.9 Evidence and Authority to the Trustee

The AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, shall furnish to the Trustee evidence of compliance with the conditions provided for in this Agreement relating to any action or step required or permitted to be taken by the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, or the Trustee under this Agreement or as a result of any obligation imposed under this Agreement, including in respect of the Voting Rights or the Exchange Right or the Automatic Exchange Rights and the taking of any other action to be taken by the Trustee at the request of or on the application of the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, promptly if and when:

(a) such evidence is required by any other section of this Agreement to be furnished to the Trustee in accordance with the terms of this Section 6.9; or

(b) the Trustee, in the exercise of its rights, powers, duties and authorities under this Agreement, gives the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, written notice requiring it to furnish such evidence in relation to any particular action or obligation specified in such notice.

Such evidence shall consist of an Officer's Certificate of the AltaGas Trust and/or of the General Partner on behalf of AltaGas LP #1 or AltaGas LP #2, as the case may be, or a statutory declaration or a certificate made by persons entitled to sign an Officer's Certificate stating that any such condition has been complied with in accordance with the terms of this Agreement.

Whenever such evidence relates to a matter other than the Voting Rights or the Exchange Right or the Automatic Exchange Rights or the taking of any other action to be taken by the Trustee at the request or on the application of the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, and except as otherwise specifically provided herein, such evidence may consist of a report or opinion of any solicitor, attorney, auditor, accountant, appraiser, valuer, engineer or other expert or any other person whose qualifications give authority to a statement made by him, provided that if such report or opinion is furnished by a director, officer or employee of the trustee of AltaGas Trust and/or of the General Partner on behalf of AltaGas LP #1 or AltaGas LP #2, as the case may be, it shall be in the form of an Officer's Certificate or a statutory declaration.

Each statutory declaration, Officer's Certificate, opinion or report furnished to the Trustee as evidence of compliance with a condition provided for in this Agreement shall include a statement by the person giving the evidence:

(c) declaring that such person has read and understands the provisions of this Agreement relating to the condition in question;

(d) describing the nature and scope of the examination or investigation upon which such person based the statutory declaration, certificate, statement or opinion; and

(e) declaring that such person has made such examination or investigation as such person believes is necessary to enable such person to make the statements or give the opinions contained or expressed therein.

6.10 Experts, Advisers and Agents

The Trustee may:

(a) in relation to these presents act and rely on the opinion or advice of or information obtained from any solicitor, attorney, auditor, accountant, appraiser, valuer, engineer or other expert, whether retained by the Trustee or by the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, or otherwise, and may retain or employ such assistants as may be necessary to the proper discharge of its powers and duties and determination of its rights hereunder and may pay proper and reasonable compensation for all such legal and other advice or assistance as aforesaid; and

(b) employ such agents and other assistants as it may reasonably require for the proper determination and discharge of its powers and duties hereunder, and may pay reasonable remuneration for all services performed for it (and shall be entitled to receive reasonable remuneration for all services performed by it) in the discharge of the trusts hereof and compensation for all disbursements, costs and expenses made or incurred by it in the discharge of its duties hereunder and in the management of the Trust.

6.11 Investment of Moneys Held by the Trustee

Unless otherwise provided in this Agreement, any moneys held by or on behalf of the Trustee which under the terms of this Agreement may or ought to be invested or which may be on deposit with the Trustee or which may be in the hands of the Trustee may be invested and reinvested in the name or under the control of the Trustee, in trust for AltaGas LP #1 or AltaGas LP #2, as the case may be, in securities in which, under the laws of Alberta, trustees are authorized to invest trust moneys, provided that such securities are stated to mature within two years after their purchase by the Trustee, and the Trustee shall so invest such moneys on the written direction of AltaGas LP #1 or AltaGas LP #2, as the case may be. Pending the investment of any moneys as hereinbefore provided, such moneys may be deposited in the name of the Trustee in any chartered bank in Canada or, with the consent of AltaGas LP #1 or AltaGas LP #2, as the case may be, in the deposit department of the Trustee or any other loan or trust company authorized to accept deposits under the laws of Canada or any province thereof at the rate of interest then current on similar deposits.

6.12 Trustee Not Required to Give Security

The Trustee shall not be required to give any bond or security in respect of the execution of the trusts, rights, duties, powers and authorities of this Agreement or otherwise in respect of the premises.

6.13 Trustee Not Bound to Act on Request

Except as in this Agreement otherwise specifically provided, the Trustee shall not be bound to act in accordance with any direction or request of the AltaGas Trust and/or AltaGas LP #1 or AltaGas LP #2, as the case may be, or of the directors thereof until a duly authenticated copy of the instrument or resolution containing such direction or request shall have been delivered to the Trustee, and the Trustee shall be empowered to act and rely upon any such copy purporting to be authenticated and believed by the Trustee to be genuine.

6.14 Authority to Carry on Business

The Trustee represents to the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 that at the date of execution and delivery by it of this Agreement it is authorized to carry on the business of a trust company in each of the provinces of Canada but if, notwithstanding the provisions of this Section 6.14, it ceases to be so authorized to carry on business, the validity and enforceability of this Agreement and the Voting Rights, the Exchange Right and the Automatic Exchange Rights shall not be affected in any manner whatsoever by reason only of such event but the Trustee shall, within 90 days after ceasing to be authorized to carry on the business of a trust company in any province of Canada, either become so authorized or resign in the manner and with the effect specified in Article 10.

6.15 Conflicting Claims

If conflicting claims or demands are made or asserted with respect to any interest of any Beneficiary in any Exchangeable Securities, including any disagreement between the heirs, representatives, successors or assigns succeeding to all or any part of the interest of any Beneficiary in any Exchangeable Securities, resulting in conflicting claims or demands being made in connection with such interest, then the Trustee shall be entitled, at its sole discretion, to refuse to recognize or to comply with any such claims or demands. In so refusing, the Trustee may elect not to exercise any Voting Rights, Exchange Right or Automatic Exchange Rights subject to such conflicting claims or demands and, in so doing, the Trustee shall not be or become liable to any person on account of such election or its failure or refusal to comply with any such conflicting claims or demands. The Trustee shall be entitled to continue to refrain from acting and to refuse to act until:

(a) the rights of all adverse claimants with respect to the Voting Rights, Exchange Right or Automatic Exchange Rights subject to such conflicting claims or demands have been adjudicated by a final judgment of a court of competent jurisdiction and all rights of appeal have expired; or

(b) all differences with respect to the Voting Rights, Exchange Right or Automatic Exchange Rights subject to such conflicting claims or demands have been conclusively settled by a valid written agreement binding on all such adverse claimants, and the Trustee shall have been furnished with an executed copy of such agreement certified to be in full force and effect.

If the Trustee elects to recognize any claim or comply with any demand made by any such adverse claimant, it may in its discretion require such claimant to furnish such surety bond or other security satisfactory to the Trustee as it shall deem appropriate to fully indemnify it as between all conflicting claims or demands.

6.16 Acceptance of the Trust

The Trustee hereby accepts the Trust created and provided for by and in this Agreement and agrees to perform the same upon the terms and conditions herein set forth and to hold all rights, privileges and benefits conferred hereby and by law in trust for the various persons who shall from time to time be Beneficiaries, subject to all the terms and conditions herein set forth.

6.17 Maintenance of Office or Agency

The AltaGas Trust will maintain in Calgary, Alberta an office or agency where certificates representing Exchangeable Securities may be presented or surrendered for exchange by Beneficiaries and where notices and demands to or upon the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 in respect of the Exchangeable Securities may be served. The AltaGas Trust will give prompt written notice to the Trustee of the location, and any change in the location, of such office or agency. If at any time the AltaGas Trust shall fail to maintain any such office or agency or shall fail to furnish the Trustee with the address thereof, such presentations, surrenders, notices and demands may be served at the Corporate Trust Office of the Trustee, and the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 hereby appoint the Trustee as their agent to receive all such presentations, surrenders, notices and demands. Furthermore, copies of all the AltaGas Trust proxy materials will be made available for inspection by any Beneficiary at such office or agency.

ARTICLE 7
COMPENSATION

7.1 Fees and Expenses of the Trustee

The AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 jointly and severally agree to pay the Trustee reasonable compensation for all of the services rendered by it under this Agreement and will reimburse the Trustee for all reasonable expenses (including taxes other than taxes based on the net income of the Trustee, fees paid to legal counsel and other experts and advisors and travel expenses) and disbursements, including the cost and expense of any suit or litigation of any character and any proceedings before any governmental agency reasonably incurred by the Trustee in connection with its duties under this Agreement; provided that the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall have no obligation to reimburse the Trustee for any expenses or disbursements paid, incurred or suffered by the Trustee in any suit or litigation in which the Trustee is determined to have acted fraudulently or in bad faith or with negligence, recklessness or wilful misconduct.

ARTICLE 8
INDEMNIFICATION AND LIMITATION OF LIABILITY

8.1 Indemnification of the Trustee

Each of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 jointly and severally agree to indemnify and hold harmless the Trustee and each of its directors, officers, employees and agents appointed and acting in accordance with this Agreement (collectively, the "**Indemnified Parties**") against all claims, losses, damages, reasonable costs, penalties, fines and reasonable expenses (including reasonable expenses of the Trustee's legal counsel) which, without fraud, gross negligence or wilful misconduct on the part of such Indemnified Party, may be paid, incurred or suffered by the Indemnified Party by reason or as a result of the Trustee's acceptance or administration of the Trust, its compliance with its duties set forth in this Agreement, or any written or oral instruction delivered to the Trustee by the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 pursuant hereto.

If any of the Indemnified Parties intends to seek indemnification under this indemnity from AltaGas Trust, AltaGas LP #1 or AltaGas LP #2, the Indemnified Party shall give AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 notice of such claim for indemnification promptly following the receipt of a written assertion of a claim, actual knowledge or information as to the factual and legal basis of any claim which is subject to indemnification and, where such claim results from the commencement of any claim or action by a third party, promptly following receipt of written notice of such third party claim or action. The failure of or delay by an Indemnified Party to so notify AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 (as set forth above) shall not relieve AltaGas Trust, AltaGas LP #1 or AltaGas LP #2, as the case may be, of its indemnification obligations hereunder to the Indemnified Party, however the liability which AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 have to the Indemnified Party pursuant to the terms of this indemnity (and for which AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 will be obligated to indemnify the Indemnified Party in respect of) shall be reduced to the extent that any such delay in or failure to give notice as herein required prejudices the defence of any such action, suit, proceeding, investigation or claim, or otherwise results in any increase in the liability which AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 has under this indemnity. Subject to (ii) below, the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall be entitled to participate at their own expense in the defense and, if the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 so elect at any time after receipt of such notice, either of them may assume the defense of any suit brought to enforce any such claim. The Trustee shall have the right to employ separate counsel in any such suit and participate in the defense thereof, but the fees and expenses of such counsel shall be at the expense of the Trustee unless: (i) the employment of such counsel has been authorized by the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2; or (ii) the named parties to any such suit include both the Trustee and the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 and the Trustee shall have been advised by counsel acceptable to the AltaGas Trust, AltaGas LP #1 or and AltaGas LP #2 that there may be one or more legal defenses available to the Trustee that are different from or in addition to those available to the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 and that, in the judgment of such counsel, would present a conflict of interest were a joint representation to be undertaken (in which case the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall not have the right to assume the defense of such suit on behalf of the Trustee but shall be liable to pay the reasonable fees and expenses of counsel for the Trustee). This indemnity shall survive the termination of this Agreement and the resignation or removal of the Trustee.

8.2 Limitation of Liability

The Trustee shall not be held liable for any loss which may occur by reason of depreciation of the value of any part of the Trust Estate or any loss incurred on any investment of funds pursuant to this Agreement, except to the extent that such loss is attributable to the fraud, negligence, recklessness, wilful misconduct or bad faith on the part of the Trustee.

ARTICLE 9
CHANGE OF TRUSTEE

9.1 Resignation

The Trustee, or any trustee hereafter appointed, may at any time resign by giving written notice of such resignation to the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 specifying the date on which it desires to resign, provided that such notice shall not be given less than 60 days before such desired resignation date unless the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 otherwise agree and provided further that such resignation shall not take effect until the date of the appointment of a successor trustee and the acceptance of such appointment by the successor trustee. Upon receiving such notice of resignation, the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall promptly appoint a successor trustee, which shall be a corporation organized and existing under the laws of Canada or any province thereof, by written instrument in duplicate, one copy of which shall be delivered to the resigning trustee and one copy to the successor trustee. Failing the appointment and acceptance of a successor trustee, a successor trustee may be appointed by order of a court of competent jurisdiction upon application of one or more of the parties to this Agreement. If the retiring trustee is the party initiating an application for the appointment of a successor trustee by order of a court of competent jurisdiction, the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall be jointly and severally liable to reimburse the retiring trustee for its legal costs and expenses in connection with same.

9.2 Removal

The Trustee, or any trustee hereafter appointed, may (provided a successor trustee is appointed) be removed at any time on not less than 30 days' prior notice by written instrument executed by the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2, in duplicate, one copy of which shall be delivered to the trustee so removed and one copy to the successor trustee.

9.3 Successor Trustee

Any successor trustee appointed as provided under this Agreement shall execute, acknowledge and deliver to the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 and to its predecessor trustee an instrument accepting such appointment. Thereupon the resignation or removal of the predecessor trustee shall become effective and such successor trustee, without any further act, deed or conveyance, shall become vested with all the rights, powers, duties and obligations of its predecessor under this Agreement, with the like effect as if originally named as trustee in this Agreement. However, on the written request of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 or of the successor trustee, the trustee ceasing to act shall, upon payment of any amounts then due it pursuant to the provisions of this Agreement, execute and deliver an instrument transferring to such successor trustee all the rights and powers of the trustee so ceasing to act. Upon the request of any such successor trustee, the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 and such predecessor trustee shall execute any and all instruments in writing for more fully and certainly vesting in and confirming to such successor trustee all such rights and powers.

9.4 Notice of Successor Trustee

Upon acceptance of appointment by a successor trustee as provided herein, the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 shall cause to be mailed notice of the succession of such trustee hereunder to each Beneficiary specified in a List. If the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2 shall fail to cause such notice to be mailed within 10 days after acceptance of appointment by the successor trustee, the successor trustee shall cause such notice to be mailed at the expense of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2.

ARTICLE 10
ALTAGAS TRUST SUCCESSORS

10.1 Certain Requirements in Respect of Combination, etc.

The AltaGas Trust shall not consummate any transaction (whether by way of reconstruction, reorganization, consolidation, merger, transfer, sale, lease or otherwise) whereby all or substantially all of its undertaking, property and assets would become the property of any other person or, in the case of a merger, of the continuing corporation resulting therefrom, but may do so if:

(a) such other person or continuing corporation (herein called the "**Trust Successor**"), by operation of law, becomes, without more, bound by the terms and provisions of this Agreement or, if not so bound, executes, prior to or contemporaneously with the consummation of such transaction, a trust agreement supplemental hereto and such other instruments (if any) as are satisfactory to the Trustee, acting reasonably, and in the opinion of legal counsel to the Trustee are reasonably necessary or advisable to evidence the assumption by the Trust Successor of liability for all moneys payable and property deliverable hereunder (including without limitation one or more voting securities of such Trust Successor to allow Beneficiaries to exercise voting rights in respect of the Trust Successor substantially similar to those provided for in this Agreement in respect of the AltaGas Trust) and the covenant of such Trust Successor to pay and deliver or cause to be delivered the same and its agreement to observe and perform all the covenants and obligations of the AltaGas Trust under this Agreement; and

(b) such transaction shall be upon such terms and conditions as substantially to preserve and not to impair in any material respect any of the rights, duties, powers and authorities of the Trustee or of the Beneficiaries hereunder.

10.2 Vesting of Powers in Successor

Whenever the conditions of Section 10.1 have been duly observed and performed, the Trustee, Trust Successor, AltaGas LP #1 and AltaGas LP #2 shall, if required by Section 10.1, execute and deliver the supplemental trust agreement provided for in Article 11 and thereupon Trust Successor shall possess and from time to time may exercise each and every right and power of the AltaGas Trust under this Agreement in the name of the AltaGas Trust or otherwise and any act or proceeding by any provision of this Agreement required to be done or performed by the trustee of the AltaGas Trust or any officers of the AltaGas Trust may be done and performed with like force and effect by the directors or officers of such Trust Successor.

10.3 Wholly-Owned Subsidiaries

Nothing herein shall be construed as preventing the merger of any wholly-owned direct or indirect subsidiary of the AltaGas Trust with or into the AltaGas Trust or the winding-up, liquidation or dissolution of any wholly-owned subsidiary of the AltaGas Trust provided that all of the assets of such subsidiary are transferred to the AltaGas Trust or another wholly-owned direct or indirect subsidiary of the AltaGas Trust and any such transactions are expressly permitted by this Article 10.

10.4 Successorship Transaction

Notwithstanding the foregoing provisions of this Article 10, in the event of a Trust Control Transaction:

(a) which does not result in an acceleration of the Redemption Date in accordance with paragraph (b) of the definition of "Redemption Date"; and

(b) in which all or substantially all of the then outstanding Trust Units are converted into or exchanged for securities or rights to receive such securities (the "**Other Securities**") of another entity (the "**Other Entity**") that, immediately after such Trust Control Transaction, owns or controls, directly or indirectly, the AltaGas Trust;

then (i) all references herein to the "**AltaGas Trust**" shall thereafter be and be deemed to be references to "**Other Entity**" and all references herein to "**Trust Units**" shall thereafter be and be deemed to be references to "**Other Securities**" (with appropriate adjustments, if any, as are required to result in a holder of Exchangeable Securities on the exchange, redemption or retraction of such Exchangeable Securities pursuant to the Exchangeable Securities Provisions or exchange of such Exchangeable Securities pursuant to this Agreement immediately subsequent to the Trust Control Transaction being entitled to receive that number of Other Securities equal to the number of Other Securities such holder of Exchangeable Securities would have received if the exchange, redemption or retraction of such Exchangeable Securities pursuant to the Exchangeable Securities Provisions, or exchange of such Exchangeable Securities pursuant to this Agreement had occurred immediately prior to the Trust Control Transaction and the Trust Control Transaction was completed) without any need to amend the terms and conditions of this Agreement and without any further action required; and (ii) the AltaGas Trust shall cause the Other Entity to deposit one or more voting securities of such Other Entity to allow Beneficiaries to exercise voting rights in respect of the Other Entity substantially similar to those provided for in this Agreement.

ARTICLE 11
AMENDMENTS AND SUPPLEMENTAL TRUST AGREEMENTS

11.1 Amendments, Modifications, etc.

This Agreement may not be amended or modified except by an agreement in writing executed by the AltaGas Trust, AltaGas LP #1, AltaGas LP #2 and the Trustee and approved by the Beneficiaries in accordance with Section 11.2 of the Exchangeable Securities Provisions.

11.2 Administrative Amendments

Notwithstanding the provisions of Section 11.1, the parties to this Agreement may in writing, at any time and from time to time, without the approval of the Beneficiaries, amend or modify this Agreement for the purposes of

(a) adding to the covenants of any or all parties hereto for the protection of the Beneficiaries hereunder provided that the General Partner shall be of the good faith opinion that such additions will not be prejudicial to the rights or interests of the Beneficiaries;

(b) making such amendments or modifications not inconsistent with this Agreement as may be necessary or desirable with respect to matters or questions which, in the good faith opinion of the General Partner and in the opinion of the Trustee, having in mind the best interests of the Beneficiaries it may be expedient to make, provided that the General Partner and the Trustee, acting on the advice of counsel, shall be of the opinion that such amendments and modifications will not be prejudicial to the interests of the Beneficiaries; or

(c) making such changes or corrections which, on the advice of counsel to the General Partner and the Trustee, are required for the purpose of curing or correcting any ambiguity or defect or inconsistent provision or clerical omission or mistake or manifest error, provided that the Trustee, acting on the advice of counsel, and the General Partner shall be of the opinion that such changes or corrections will not be prejudicial to the rights and interests of the Beneficiaries.

11.3 Meeting to Consider Amendments

Each of AltaGas LP #1 and AltaGas LP #2, at the request of the AltaGas Trust, agree to call a meeting or meetings of the Beneficiaries for the purpose of considering any proposed amendment or modification requiring approval pursuant hereto. Any such meeting or meetings shall be called and held in accordance with the limited partnership agreements of AltaGas LP #1 and AltaGas LP #2, the Exchangeable Securities Provisions and all applicable laws; provided that any such meeting shall only be called for a bona fide business purpose and not for the principal purpose of causing a Redemption Date (as defined in the Exchangeable Securities Provisions) to occur or transpire.

11.4 Changes in Capital of the AltaGas Trust, AltaGas LP #1 or AltaGas LP #2

At all times after the occurrence of any event contemplated pursuant to Section 2.7 or 2.8 of the Support Agreement or otherwise, as a result of which either Trust Units or the Exchangeable Securities or both are in any way changed, this Agreement shall forthwith be deemed amended and modified as necessary in order that it shall apply with full force and effect, *mutatis mutandis*, to all new securities into which Trust Units or the Exchangeable Securities or both are so changed.

11.5 Execution of Supplemental Trust Agreements

No amendment to or modification or waiver of any of the provisions of this Agreement otherwise permitted hereunder shall be effective unless made in writing and signed by all of the parties hereto. From time to time AltaGas LP #1, AltaGas LP #2, the AltaGas Trust and the Trustee may, subject to the provisions of these presents, and they shall, when so directed by these presents, execute and deliver by their proper officers, trust agreements or other instruments supplemental hereto, which thereafter shall form part hereof, for any one or more of the following purposes:

(a) evidencing the succession of Trust Successors and the covenants of and obligations assumed by each such Trust Successor in accordance with the provisions of Article 10 and the successors of any successor trustee in accordance with the provisions of Article 9;

(b) making any additions to, deletions from or alterations of the provisions of this Agreement or the Voting Rights, the Exchange Right or the Automatic Exchange Rights which, in the opinion of the Trustee, will not be prejudicial to the interests of the Beneficiaries or are, in the opinion of counsel to the Trustee, necessary or advisable in order to incorporate, reflect or comply with any legislation the provisions of which apply to the AltaGas Trust, AltaGas LP #1, AltaGas LP #2, the Trustee or this Agreement; and

(c) for any other purposes not inconsistent with the provisions of this Agreement, including to make or evidence any amendment or modification to this Agreement as contemplated hereby, provided

that, in the opinion of the Trustee, the rights of the Trustee and Beneficiaries will not be prejudiced thereby.

ARTICLE 12
TERMINATION

12.1 Term

The Trust created by this Agreement shall continue until the earliest to occur of the following events:

(a) no outstanding Exchangeable Securities are held by a Beneficiary;

(b) each of the AltaGas Trust, AltaGas LP #1 and AltaGas LP #2 elects in writing to terminate the Trust and such termination is approved by the Beneficiaries in accordance with Section 11.2 of the Exchangeable Securities Provisions; and

(c) March 24, 2024.

12.2 Survival of Agreement

This Agreement shall survive any termination of the AltaGas Trust and shall continue until there are no Exchangeable Securities outstanding held by a Beneficiary; provided, however, that the provisions of Article 7 and Article 8 shall survive any such termination of this Agreement.

ARTICLE 13
GENERAL

13.1 Assignment

No party hereto may assign this Agreement or any of its rights, interests or obligations under this Agreement (whether by operation of law or otherwise).

13.2 Binding Effect

Subject to Section 13.1, this Agreement and the Arrangement shall be binding upon, enure to the benefit of and be enforceable by the parties hereto and their respective successors and assigns and to the benefit of the Beneficiaries.

13.3 Notices to Parties

Any notice, consent, waiver, direction or other communication required or permitted to be given under this Agreement by a party to any other party shall be in writing and shall be delivered by hand delivery, facsimile transmission or (provided that the mailing party does not know and should not reasonably have known of any disruption or anticipated disruption of postal service which might affect delivery of the mail) by registered mail (postage prepaid), addressed to the party to whom the notice is to be given, at its specified address herein. Any notice, consent, waiver, direction or other communication aforesaid shall, if hand delivered or delivered by facsimile transmission, be deemed to have been given and received on the date on which it was hand delivered or delivered (based on facsimile confirmation) by facsimile transmission (if prior to 4:30 pm (local time at the place of receipt) on a Business Day and, if not, the next succeeding Business Day) and if sent by registered mail be deemed to have been given and received on the fourth Business Day at the point of delivery following the date on which it was so sent. The specified address herein shall be, in the case of:

(a) if to the AltaGas Trust, at:

AltaGas Income Trust
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

with copy to:

Computershare Trust Company of Canada
Suite 710, 530 - 8th Avenue S.W.

Calgary, Alberta T2P 3S8

Attention: Manager, Corporate Trust
Facsimile: (403) 267-6598

(b) if to AltaGas LP #1, at:

AltaGas Holding Limited Partnership No. 1
c/o AltaGas General Partner Inc.
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

(c) if to AltaGas LP #2, at:

AltaGas Holding Limited Partnership No. 2
c/o AltaGas General Partner Inc.
1700, 355 – 4th Avenue S.W.
Calgary, Alberta T2P 0J1

Attention: President
Facsimile: (403) 508-7258

(d) if to the Trustee, at:

Computershare Trust Company of Canada
710, 530 – 8th Avenue S.W.
Calgary, Alberta T2P 3S8

Attention: Manager, Client Services
Facsimile: (403) 267-6529

or such other address as may be designated by any of the parties by notice to the other parties given in accordance with this Section.

13.4 Notice to Beneficiaries

Any and all notices to be given and any documents to be sent to any Beneficiaries may be given or sent to the address of such Beneficiary shown on the register of holders of Exchangeable Securities in any manner permitted by the Limited Partnership Agreements, as applicable, from time to time in force in respect of notices to Limited Partners and shall be deemed to be received (if given or sent in such manner) at the time specified in such Limited Partnership Agreements, the provisions of which Limited Partnership Agreements shall apply mutatis mutandis to notices or documents as aforesaid sent to such Beneficiaries.

13.5 Severability

If any one or more of the provisions or parts thereof contained in this Agreement should be or become invalid, illegal or unenforceable in any respect in any jurisdiction, the remaining provisions or parts thereof contained herein shall be and shall be conclusively deemed to be, as to such jurisdiction, severable therefrom and:

(a) the validity, legality or enforceability of such remaining provisions or parts thereof shall not in any way be affected or impaired by the severance of the provisions or parts thereof severed; and

(b) the invalidity, illegality or unenforceability of any provision or part thereof contained in this Agreement in any jurisdiction shall not affect or impair such provision or part thereof or any other provisions of this Agreement in any other jurisdiction.

13.6 Further Assurances

Each party hereto shall, from time to time, and at all times hereafter, at the request of any other party hereto, but without further consideration, do all such further acts and execute and deliver all such further documents and instruments as shall be reasonably required in order to fully perform and carry out the terms and intent hereof.

13.7 Execution in Counterparts

This Agreement may be executed in counterparts, each of which is and is hereby conclusively deemed to be an original and counterparts collectively are to be conclusively deemed one instrument. Delivery of counterparts may be effected by facsimile transmission.

13.8 Waiver

No waiver by, any party hereto shall be effective unless such waiver is in writing and any waiver shall affect only the matter, and the occurrence thereof, specifically identified and shall not extend to any other matter or occurrence.

13.9 Limitations on Liability

(a) The parties hereto acknowledge that Computershare Trust Company of Canada, as trustee of the AltaGas Trust, is entering into this Agreement solely in its capacity as trustee on behalf of the AltaGas Trust and the obligations of the AltaGas Trust hereunder shall not be personally binding upon such trustee or any of the Unitholders and that any recourse against the AltaGas Trust, such trustee or any Unitholder in any manner in respect of any indebtedness, obligation or liability of the AltaGas Trust arising hereunder or arising in connection herewith or from the matters to which this Agreement relates, if any, including without limitation claims based on negligence or otherwise tortious behaviour, shall be limited to, and satisfied only out of, the Trust Assets as defined in the Declaration of Trust of the AltaGas Trust dated as of March 26, 2004, as from time to time amended, supplemented or restated.

(b) AltaGas Holding Limited Partnership No. 1 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that the limited partner has contributed or agreed to contribute to the limited partnership's capital and the limited partner's pro rata share of any undistributed income.

(c) AltaGas Holding Limited Partnership No. 2 is a limited partnership formed under the laws of Alberta, a limited partner of which is only liable for any of the limited partnership's liabilities or any of the limited partnership's losses to the extent of the amount that the limited partner has contributed or agreed to contribute to the limited partnership's capital and the limited partner's pro rata share of any undistributed income.

IN WITNESS WHEREOF the parties hereto have executed this Agreement.

APPENDIX G

FAIRNESS OPINION OF RBC DOMINION SECURITIES INC.

March 26, 2004

The Board of Directors
AltaGas Services Inc.
Suite 1700
355 – 4th Avenue, S.W.
Calgary, Alberta
T2P 0J1

To the Board of Directors:

RBC Dominion Securities Inc. ("RBC"), a member company of RBC Capital Markets, understands that AltaGas Services Inc. (the "Company") has proposed a reorganization whereby the business of the Company will be converted into a newly formed open-ended mutual fund trust ("AltaGas Income Trust") through a plan of arrangement (the "Arrangement") under the *Canada Business Corporations Act*. The Arrangement will result, through a series of transactions, in holders ("Common Shareholders") of common shares of the Company ("Common Shares") receiving for their Common Shares either:

(i) units ("Units") of AltaGas Income Trust on a one for one basis; or

(ii) at the election of taxable Common Shareholders who are residents of Canada for the purposes of the *Income Tax Act* (Canada), a combination of Units and units ("Exchangeable Securities") in a limited partnership, with the Exchangeable Securities being exchangeable at any time for Units on a one for one basis, subject to a maximum aggregate number of Exchangeable Securities being available to all Securityholders under this election of Exchangeable Securities.

The transactions to implement the Arrangement include the conversion of the participating shares of the Company (the "Participating Shares") into Common Shares on a one for one basis. Accordingly the holders of Participating Shares ("Participating Shareholders") will receive the same consideration under the Arrangement for their Participating Shares as the Common Shareholders receive for their Common Shares. RBC understands that the Exchangeable Securities are intended to be the economic and voting equivalent of the Units, being entitled to the same monthly cash distributions as Units and being entitled to vote on AltaGas Income Trust matters with holders of Units through the use of a special voting unit. The terms of, and conditions necessary to complete, the Arrangement are more fully set forth and described in an information circular dated March 26, 2004 (collectively, together with the related documents included therein, the "Circular") to be mailed to all Common Shareholders, Participating Shareholders and holders of options to acquire Common Shares ("Optionholders") (the Common Shareholders, Participating Shareholders and Optionholders being the "Securityholders").

The Company has retained RBC to provide advice and assistance to the management and Board of Directors (the "Board") of the Company in evaluating the Arrangement, including the preparation and delivery to the Board of RBC's opinion as to the fairness of the consideration under the Arrangement from a financial point of view to the Common Shareholders (the "Fairness Opinion"). The Fairness Opinion has been prepared in accordance with the guidelines of the Investment Dealers Association of Canada. RBC has not prepared a valuation of the Company or any of its securities or assets and the Fairness Opinion should not be construed as such.

Engagement

The Company initially contacted RBC regarding a potential advisory assignment in March 2003, and RBC was formally engaged through an agreement between the Company and RBC dated July 17, 2003. This agreement was replaced by a new agreement between the Company and RBC dated January 17, 2004 (the "Engagement Agreement"). The terms of the Engagement Agreement provide that RBC is to be paid a fee for its services as financial advisor, a portion of which is contingent on the successful completion of the Arrangement. In addition, RBC is to be reimbursed for its reasonable out-of-pocket expenses and to be indemnified by the Company in certain circumstances. RBC consents to the inclusion of the Fairness Opinion in its entirety and a summary thereof in the Circular to be mailed to Securityholders and to the filing thereof, as necessary, by the Company with the securities commissions or similar regulatory authorities in each province of Canada.

RBC acts as a trader and dealer, both as principal and agent, in major financial markets and, as such, may have had and may in the future have positions in the securities of the Company, or any of its associates or affiliates and, from time to time, may have executed or may execute transactions on behalf of such companies or clients for which it received or may receive compensation. As an investment dealer, RBC conducts research on securities and may, in the ordinary course of its business, provide research reports and investment advice to its clients on investment matters, including with respect to the Company or the Arrangement.

Credentials of RBC Dominion Securities

RBC is one of Canada's largest investment banking firms, with operations in all facets of corporate and government finance, corporate banking, mergers and acquisitions, equity and fixed income sales and trading and investment research. RBC Capital Markets also has significant operations in the United States and internationally. The Fairness Opinion expressed herein represents the opinion of RBC and the form and content herein have been approved for release by a committee of its directors, each of whom is experienced in merger, acquisition, divestiture and fairness opinion matters.

Scope of Review

In connection with our Fairness Opinion, we have reviewed and relied upon or carried out, among other things, the following:

1. the Circular;
2. the Plan of Arrangement in Schedule A to the Arrangement Agreement attached as Appendix C to the Circular;
3. the Declaration of Trust for AltaGas Income Trust dated March 26, 2004;
4. the Limited Partnership Agreements for AltaGas Holding Limited Partnership #1 and AltaGas Holding Limited Partnership #2 dated March 26, 2004;
5. the most recent draft of the Securityholder Agreement between AltaGas Income Trust, AltaGas General Partner Inc. and Enbridge Inc. containing revisions contemplated by the Support Agreement referred to below;
6. the most recent draft of the Registration Rights Agreement between AltaGas Income Trust and Enbridge Inc. containing revisions contemplated by the Support Agreement referred to below;
7. the Support Agreement between Enbridge Inc. and the Company dated March 10, 2004;
8. audited financial statements of the Company for each of the five years ended December 31, 2003;
9. annual reports of the Company for the years ended December 31, 2002 and December 31, 2003;
10. the Notice of Annual and Special Meeting of Shareholders and Management Information Circulars of the Company for the years ended December 31, 2002 and December 31, 2003;
11. annual information forms of the Company for the years ended December 31, 2002 and December 31, 2003;

12. historical segmented financial statements of the Company by business segment for each of the five years ended December 31, 2003;
13. unaudited projected financial statements for the Company on a consolidated basis and segmented by business segment prepared by management of the Company for the five years ending December 31, 2008;
14. discussions with senior management of the Company;
15. discussions with the Company's legal counsel;
16. discussions with Enbridge Inc., the principal shareholder of the Company, and its financial advisor;
17. public information relating to the business, operations, financial performance and stock trading history of the Company and other selected public entities considered by us to be relevant;
18. public information with respect to other transactions of a comparable nature considered by us to be relevant;
19. public information regarding the Canadian midstream oil and gas, electricity and utility industries;
20. the letter from Standard & Poor's regarding the Company's expected credit rating following the Arrangement dated March 8th, 2004;
21. representations contained in a certificate addressed to us, dated as of the date hereof, from senior officers of the Company as to the completeness and accuracy of the information upon which the Fairness Opinion is based; and
22. such other corporate, industry and financial market information, investigations and analyses as RBC considered necessary or appropriate in the circumstances.

RBC has not, to the best of its knowledge, been denied access by the Company to any information requested by RBC.

Assumptions and Limitations

With the Board's approval and as provided for in the Engagement Agreement, RBC has relied upon the completeness, accuracy and fair presentation of all of the financial and other information, data, advice, opinions or representations obtained by it from public sources, senior management of the Company, and their consultants and advisors (collectively, the "Information"). The Fairness Opinion is conditional upon such completeness, accuracy and fair presentation of such Information. Subject to the exercise of professional judgment and except as expressly described herein, we have not attempted to verify independently the completeness, accuracy or fair presentation of any of the Information.

Senior officers of the Company have represented to RBC in a certificate delivered as of the date hereof, among other things, that (i) the Information (as defined above) provided orally by, or in the presence of, an officer or employee of the Company or in writing by the Company or any of its subsidiaries or their respective agents to RBC relating to the Company, AltaGas Income Trust, their subsidiaries or the Arrangement for the purpose of preparing the Fairness Opinion was, at the date the Information was provided to RBC, and is complete, true and correct in all material respects, and did not and does not contain any untrue statement of a material fact in respect of the Company, AltaGas Income Trust, their subsidiaries or the Arrangement and did not and does not omit to state a material fact in respect of the Company, AltaGas Income Trust, their subsidiaries or the Arrangement necessary to make the Information or any statement contained therein not misleading in light of the circumstances under which the Information was made or provided or any statement was made; and that (ii) since the dates on which the Information was provided to RBC, except as disclosed in writing to RBC, there has been no material change, financial or otherwise, in the financial condition, assets, liabilities (contingent or otherwise), business, operations or prospects of the Company, AltaGas Income Trust or any of their subsidiaries and no material change has occurred in the Information or any part thereof which would have or which would reasonably be expected to have a material effect on the Fairness Opinion.

In preparing the Fairness Opinion, RBC has made several assumptions, including that all of the conditions required to implement the Arrangement will be met and that the disclosure provided or incorporated by reference in

the Circular with respect to the Company, its subsidiaries and affiliates, AltaGas Income Trust and the Arrangement is accurate in all material respects.

The Fairness Opinion is rendered on the basis of securities markets, economic, financial and general business conditions prevailing as at the date hereof and the condition and prospects, financial and otherwise, of the Company, AltaGas Income Trust and their subsidiaries and affiliates, as they were reflected in the Information and as they have been represented to RBC in discussions with management of the Company. In its analyses and in preparing the Fairness Opinion, RBC made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of RBC or any party involved in the Arrangement.

The Fairness Opinion has been provided for the use of the Board and may not be used by any other person or relied upon by any other person other than the Board without the express prior written consent of RBC. The Fairness Opinion is given as of the date hereof and RBC disclaims any undertaking or obligation to advise any person of any change in any fact or matter affecting the Fairness Opinion which may come or be brought to RBC's attention after the date hereof. Without limiting the foregoing, in the event that there is any material change in any fact or matter affecting the Fairness Opinion after the date hereof, RBC reserves the right to change, modify or withdraw the Fairness Opinion.

RBC believes that its analyses must be considered as a whole and that selecting portions of the analyses or the factors considered by it, without considering all factors and analyses together, could create a misleading view of the process underlying the Fairness Opinion. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis. The Fairness Opinion is not to be construed as a recommendation to any Securityholder as to whether to vote in favour of the Arrangement.

Fairness Analysis

Approach to Fairness

In considering the fairness of the consideration under the Arrangement, from a financial point of view, to Common Shareholders, RBC considered a number of factors including (i) the expected trading characteristics of the Units compared to the trading characteristics of the Common Shares prior to the February 18, 2004 announcement by the Company that a Special Committee of the Board was undertaking a review of whether to reorganize the business of the Company into an income trust, (ii) the financial attributes of AltaGas Income Trust compared to the Company, (iii) the potential short and long-term financial impact resulting from the Arrangement compared to the continuation of the status quo, and (iv) the financial attributes of the Units and the Exchangeable Securities.

Fairness Conclusion

Based upon and subject to the foregoing, RBC is of the opinion that, as of the date hereof, the consideration under the Arrangement is fair from a financial point of view to the Common Shareholders.

Yours very truly,

(signed) RBC Dominion Securities Inc.

RBC DOMINION SECURITIES INC.

APPENDIX H

FINANCIAL STATEMENTS

AUDITORS' CONSENT

We have read the Information Circular and Proxy Statement of AltaGas Services Inc. ("**AltaGas**") dated March 26, 2004 (the "**Information Circular**") relating to the proposed reorganization by way of plan of arrangement pursuant to Section 192 of the *Canada Business Corporations Act* of the business of AltaGas into AltaGas Income Trust (the "Trust"). We have complied with Canadian generally accepted standards for an auditor's involvement with offering documents.

We consent to the use in the above-mentioned Information Circular of our report to the directors of AltaGas on the consolidated balance sheets of AltaGas at December 31, 2003, 2002 and 2001 and the consolidated statements of earnings and retained earnings and cash flows for each of the years in the three-year period ended December 31, 2003. Our report is dated February 13, 2004 (except as to note 18, which is as of March 26, 2004).

We also consent to the use in the above-mentioned Information Circular of our compilation report dated March 26, 2004 on the unaudited pro forma balance sheet of the Trust as at December 31, 2003 and the unaudited pro forma statement of income for the year ended December 31, 2003.

We also consent to the use in the above-mentioned Information Circular of our report to the trustee of AltaGas Income Trust (the "**Trust**") on the balance sheet of the Trust as at March 26, 2004. Our report is dated March 26, 2004.

CONSOLIDATED FINANCIAL STATEMENTS

OF

ALTAGAS SERVICES INC.

AUDITORS' REPORT

To the Directors of
AltaGas Services Inc.

We have audited the consolidated balance sheets of AltaGas Services Inc. as at December 31, 2003, 2002 and 2001 and the consolidated statements of income and retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2003, 2002 and 2001 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of dollars)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles. Significant accounting policies are summarized below:

Basis of Presentation

These consolidated financial statements include the accounts of AltaGas Services Inc. (AltaGas or the Company) and all of its wholly-owned subsidiaries, and its proportionate interests in the ASTC Power Partnership, Heritage Gas Limited and Inuvik Gas Ltd.

The Company's subsidiary, AltaGas Utilities Inc. is engaged in the distribution and sale of natural gas in various communities located within the Province of Alberta and is regulated by the Alberta Energy and Utilities Board (AEUB). These regulations cover such matters as tariffs, rates, construction, operations, financing and accounting. AltaGas Utilities Inc.'s accounting policies conform to generally accepted accounting principles in the utility industry and reflect the policies established from time to time by the AEUB.

The Company has entered into joint venture arrangements, and accordingly the accounts reflect only the Company's proportionate interest in these activities.

Inventory

Materials and supplies are valued at the lower of average cost and replacement cost. Natural gas inventories are valued at the lower of cost or market.

Capital Assets and Amortization

Capital assets are recorded at cost, except for regulated natural gas distribution assets which are recorded at cost plus an allowance, at rates authorized by the regulatory authorities in Alberta and Nova Scotia, for interest during construction. Contributions in aid of construction of natural gas distribution assets are deducted from the cost of acquiring property, plant, and equipment, with subsequent amortization calculated on the net cost. Interest incurred to finance long-term construction projects is capitalized during the construction period.

The Company has changed its accounting policy with respect to amortization in its non-regulated business retroactively with restatement of prior periods. Effective January 1, 2003, AltaGas adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to asset retirement obligations. The corporation now calculates amortization based on original cost, net of salvage value, except for regulated natural gas distribution assets, where amortization is calculated on a straight-line basis at rates approved by the AEUB:

Gathering and Processing	
Gathering and processing assets	15 - 40 years
Other assets	1 - 5 years
Natural Gas Distribution	
Natural gas distribution assets	2 - 3 percent
Other assets	7 percent

AltaGas follows the full cost method of accounting for oil and gas exploration and development activities. Capitalized costs are accumulated in a single cost centre and amortized to income over the production life of proved reserves.

Energy Services Arrangements and Contracts

Energy services arrangements and contracts are recorded at cost and amortized on a straight-line basis over their term. The Sundance B PPA has a twenty year term.

The Sundance B PPA is the right to the committed generating capacity of two regulated Alberta generating units and required a capital outlay. The Company is obligated to make payments to the owners of the underlying generating units over the remaining term of the PPA to December 31, 2020. Such amounts are recorded as cost of sales as incurred. Revenue from the sale of the committed electricity is recorded when delivered.

The Genesee PPA is the right to generating capacity at a regulated Alberta generating unit for a three year period which required no capital outlay but includes monthly capacity charges, which amounts are recorded as cost of sales. Revenue from the sale of the committed electricity is recorded when delivered.

Goodwill

Effective January 1, 2002 the Company adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to goodwill. The recommendation requires that goodwill no longer be amortized but be tested for impairment at least annually. Any permanent impairment in the value of goodwill is charged to earnings. The new method has been applied prospectively. Previously goodwill was amortized over 30 years. The effect of adopting this accounting recommendation was a reduction in amortization during 2002 of $28 thousand and an increase in net income for the year of $18 thousand.

Goodwill represents the purchase price of the Suffield natural gas pipeline system which is in excess of the fair value of the net assets acquired. Goodwill is tested at least annually for impairment by comparing the fair value of the associated reporting unit with its book value.

Short-term Debt

Effective January 1, 2002 AltaGas prospectively adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to the classification of callable debt on the balance sheet. As a result, the Company's demand operating credit facility has been reclassified as current.

Long-term Investments

Investments in companies in which AltaGas has the ability to exercise significant influence are accounted for by the equity method. Other long-term investments are recorded at cost. An other than temporary impairment in value of an investment is charged against income when determined.

Derivative Instruments

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates. These contracts are designated as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction. If financial derivative contracts cease to be effective as hedges, any cumulative gains or losses arising prior to such time continue to be deferred over the period of the original hedged transaction. Changes in the fair value of the derivative contracts arising subsequent to where they are no longer effective as hedges are recognized as adjustments to income.

AltaGas also enters into commodity derivative contracts which require the future delivery of commodities at fixed prices. These contracts are not recognized in the financial statements until they are settled.

Revenue Recognition

Revenue for gathering and processing services is recorded as the services are rendered. Energy marketing revenue is recognized at the time the product is delivered.

Stock Based Compensation Plan

The Company follows the intrinsic value method of accounting for stock based compensation plans whereby no compensation expense is recognized for stock options granted to employees or directors unless the market value of the stock exceeds the options exercise price at the date of grant. Consideration paid by employees or directors on the exercise of stock options is credited to share capital. Options are issued at current market value, consequently no compensation expense is recorded.

Effective January 1, 2002 the Company prospectively adopted the new recommendation of the Canadian Institute of Chartered Accountants with respect to stock based compensation. This new recommendation requires pro forma disclosure of the effect of fair value accounting for stock options where the fair value method is not applied.

Pension Plans and Retirement Benefits

The cost of defined benefit pension and other retirement benefits is actuarially determined using the projected benefit method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and expected health care costs. For purposes of calculating the expected return on plan assets, those assets are valued at fair value. The net actuarial gain or loss in excess of 10 percent of the greater of the accrued benefit obligation and the fair value of plan assets is amortized over the average remaining service life of the active employees. Transitional obligations are being amortized over the remaining service life of active employees.

Income Taxes

Except for rate-regulated natural gas distribution subsidiaries, income taxes are calculated using the liability method of tax accounting. Under this method, future income tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities, and are measured using the substantively enacted tax rates and laws that are anticipated to be in effect in the periods in which the differences are expected to be settled or realized.

Natural gas distribution income taxes are provided using the taxes payable method approved by the AEUB. In accordance with an AEUB decision, provision is made only for those income taxes currently payable and no future tax is recorded on the timing differences between accounting income and taxable income.

Per Share Information

Basic net income per share is calculated on the basis of the weighted average number of common and preferred participating shares outstanding during the year. Diluted net income per share is calculated as if the proceeds obtained upon exercise of options were used to purchase common shares at the average market price during the year.

Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amounts of revenue and expenses during the period. By their nature, these estimates are subject to measurement uncertainty and may impact the financial statements of future periods.

2. CHANGES IN ACCOUNTING POLICY

Effective January 1, 2003, AltaGas adopted the new Canadian Institute of Chartered Accountants standard for accounting for asset retirement obligations. Under the new standard, the corporation recognizes asset retirement obligations in the period in which they are incurred if a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset. The liability is increased due to the passage of time, with an offsetting charge to accretion expense in the income statement, over the estimated time period until settlement of the obligation and the asset is depreciated over the estimated useful life of the asset. Concurrently with the adoption of this standard, the Company adjusted its accumulated amortization accounts for the impact of including salvage values in the determination of its annual amortization expense. Historically, the Company excluded salvage values in the determination of an asset's amortizable value, effectively offsetting future estimated reclamation costs.

During 2003, AltaGas undertook to identify assets impacted by the new standard in each of its business segments.

In the Gathering and Processing and Energy Services segments, certain facilities must be dismantled and the sites reclaimed to meet provisions of the Alberta Environmental Protection and Enhancement Act and regulations. The asset retirement liabilities are recognized when the obligations are measurable.

In the Natural Gas Distribution segment, AltaGas identified that assets have an indeterminate life and thus a future retirement obligation is not determinable.

The effect of this change in accounting policy was recorded retroactively with restatement of all prior periods. The effect of the adoption is presented below as increases (decreases) in the affected categories of the Consolidated Balance Sheet, Consolidated Statement of Income and Retained Earnings.

Consolidated Balance Sheet	**2003**	2002	2001

AltaGas estimates the undiscounted amount of cash required to settle the asset retirement obligations is $45.0 million (2002 - $44.8 million, 2001 - $34.1 million). The asset retirement obligations have been recorded in the financial statements at estimated values discounted at rates between 8 percent and 8.5 percent and are expected to be incurred between 2010 and 2040. The majority of the costs are expected to be incurred between 2025 and 2035. No assets have been legally restricted for settlement of the liability.

3. CAPITAL ASSETS

	2003			2002		
	Cost	Accumulated Amortization	Net Book Value	Cost	Accumulated Amortization	Net Book Value

	$ 624,754	$ 103,889	$ 520,865

Interest capitalized on long-term capital construction in projects for the year ended December 31, 2003 was $156 thousand (2002 - $746 thousand, 2001- $0).

At December 31, 2003, the Company had approximately $13.4 million (2002 - $24.2 million, 2001 - $7.7 million) related to projects under construction that were not subject to amortization.

4. ENERGY SERVICES ARRANGEMENTS AND CONTRACTS

	2003	2002	2001
Cost	$ **113,367**	$ 113,342	$ 112,615
Accumulated amortization	**12,332**	6,312	347
Net book value	$ **101,035**	$ 107,030	$ 112,268

AltaGas owns the Sundance B PPA through its 50 percent interest in the ASTC Power Partnership (ASTC). ASTC is committed to purchase all of the power from the 706 megawatt capacity generating units. The investment in the PPA and its revenue and expenses thereunder are recorded on a proportionate basis.

5. GOODWILL

	2003	2002	2001
Carrying value	$ **18,860**	$ 18,860	$ 815

On December 19, 2002 AltaGas acquired all of the shares of EnCana Suffield Pipeline Inc., comprising of two natural gas transmission pipelines at Suffield, Alberta, and purchased eight natural gas gathering and processing systems in northeastern Alberta for a total of $118.1 million. This acquisition is accounted for as a business combination. The purchase price of the business was allocated to the individual assets and liabilities acquired based on their estimated fair value, with the exception of future income taxes which were recorded on an undiscounted basis. The excess of the recorded value of the future income tax liability over its fair value was offset through the recognition of goodwill. The results of operations were included in the consolidated statement of income and retained earnings from the date of acquisition.

Net Assets Acquired	2002
Capital assets	$ 122,690
Working capital	2,034
Goodwill	18,045
Future income taxes	(24,662)
	$ 118,107

Purchase Price	
Cash	$ 114,658
Transaction costs	3,449
	$ 118,107

6. INVESTMENTS AND OTHER ASSETS

	2003	2002	2001
Common shares of public companies	$ **825**	$ 1,877	$ 2,663
Common shares of private companies	**841**	436	435
Equity accounted investments in units of public partnerships	**17,925**	-	-
Equity accounted investments in common shares of private companies	**654**	298	666
Advances (note 15)	**2,335**	2,259	1,315
Other	**2,518**	2,580	2,576
	$ **25,098**	$ 7,450	$ 7,655

At December 31, 2003 the quoted market value of the common shares and units of public entities was approximately $22.1 million (2002 - $1.5 million, 2001 - $3.1 million). The fair market value of investments in private companies is not reasonably determinable.

Advances at December 31, 2003 consist of a $2.3 million demand loan bearing interest at prime plus 3.5 percent. At December 31, 2003 the Company had no intention of demanding repayment of the loan.

On April 23, 2003, AltaGas acquired 19.2 percent of the outstanding units of Taylor NGL Limited Partnership ("Taylor") for $9.4 million. On October 17, 2003 AltaGas purchased an additional 1,592,250 limited partnership units of Taylor for $8.7 million, preserving AltaGas' 19.2 percent ownership of Taylor. The investment is accounted for by the equity method. The excess of AltaGas' interest in the underlying net book value of the assets over the purchase price of $4.7 million is being amortized over the economic life of the assets and is treated as an adjustment to AltaGas' equity income.

7. SHORT-TERM DEBT

At December 31, 2003 the Company had a $50.0 million demand operating credit facility with a Canadian chartered bank. Draws on the facility bear interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. At December 31, 2003 the Company had drawn debt of $4.4 million and letters of credit of $14.6 million (2002 - $0.6 million and $8.8 million respectively, 2001 – nil and $4.7 million respectively) were outstanding against the demand operating credit facility.

At December 31, 2003 the Company had a $75.0 million 364 day extendible revolving term letter of credit facility with a Canadian chartered bank which was established on June 30, 2003. The facility which has a maturity date of June 28, 2004 can be extended for a further 364 days from the current maturity date. AltaGas may borrow up to $25.0 million by way of prime borrowings or bankers' acceptances on the letter of credit facility. Borrowings

on the facility bear fees and interest at market rates. At December 31, 2003 the Company had drawn debt of $0.1 million and letters of credit of $11.9 million outstanding against the extendible revolving term letter of credit facility.

On June 30, 2003 the Company repaid and cancelled a $50.0 million non-revolving bridge credit facility with a syndicate of Canadian chartered banks. The facility was fully drawn on December 31, 2002.

On December 11, 2003 the Company's $10.1 million extendible letter of credit facility with a chartered bank expired and was not renewed. The facility was fully drawn on December 31, 2002 and December 31, 2001.

The prime lending rate at December 31, 2003 was 4.50 percent (2002 - 4.50 percent, 2001 - 4.00 percent). The average rate on the Company's outstanding bankers' acceptances at December 31, 2003 was 4.00 percent (2002 - 4.09 percent, 2001 - 3.31 percent).

8. LONG TERM DEBT

	2003	2002	2001
Operating loans	**$ 292,358**	$ 268,943	$ 183,866
Medium Term Notes	**100,000**	100,000	100,000
	$ 392,358	$ 368,943	$ 283,866

Operating Loans

At December 31, 2003, the Company had a $300.0 million (2002 - $270.0 million, 2001 – 220.0 million) extendible revolving term credit facility with a syndicate of Canadian chartered banks. Draws on the facility bear interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. On March 5, 2003 the facility was increased by $30.0 million and a Canadian financial institution was added to the syndicate. Effective October 12, 2003 the facility was extended for an additional 364 days. Effective October 13, 2002 the facility was increased by $50.0 million, extended for an additional 364 days and an Alberta financial institution was added to the syndicate. The facility can be extended for an additional year on October 10, 2004 or can be converted by the Company on that date to a two year term loan. The term loan is repayable over the two year period or at the end of the two year term, depending on the bond rating category of the long-term unsecured senior indebtedness of the Company.

Medium Term Notes

On January 10, 2003 the Company filed a short form shelf prospectus to renew its Medium Term Note program initiated on September 27, 2000. On October 4, 2000 the Company issued $100.0 million of 7.28 percent Medium Term Notes pursuant to the program. Interest is payable semi-annually and the principal is due on October 4, 2005. Medium Term Notes may be issued in an aggregate principal amount of up to $250.0 million at prices and terms determined at the time of issue.

9. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

In the course of its normal operations the Company issues short and long term debt, and purchases and sells natural gas and power commodities. These activities result in exposures to fluctuations in interest rates and commodity prices. The Company uses financial derivative instruments that result in cash settlements to manage the price or cash flow risk that results from these activities. The Company does not make use of derivative instruments for speculative purposes.

The fair values of financial derivatives have been estimated using year-end market rates. These fair values approximate the amount that the Company would receive or pay if the instruments were closed out at these dates.

Commodity Price Risk Management

a) *Natural Gas*

The Company used swap agreements to fix the price received on certain natural gas sales in 2002 and 2001. No such contracts were outstanding at December 31, 2003.

At December 31 the Company had the following contracts outstanding:

Swaps	Fixed Price (per Mcf)	Period (months)	Notional Volume (Mmcf/day)	Fair Value (thousands)
2002	$ 5.43	10	1.9	$ 7
2001	$ 4.12	10	1.3	$ 214

b) *Electricity prices*

Under Power Purchase Arrangements AltaGas has an obligation to buy power at agreed terms and prices to December 31, 2020. The Company sells the power to the Power Pool of Alberta at spot prices and uses swaps and collars to fix the prices over time on a portion of the volumes. AltaGas' strategy is to lock in margins to provide predictable earnings. At December 31, 2003 the Company has no intention to terminate any contracts prior to maturity.

At December 31 the Company had the following contracts outstanding:

Derivative instruments	Fixed Price (per MWh)	Period (months)	Notional Volume (MWh) Sales	Notional Volume (MWh) Purchases	Fair Value (thousands)
2003					
Swaps and collars	$ 41.50 to 52.00	12 to 15	2,531,176	-	$ (17,834)
Swap	$ 56.43	168	-	368,064	(3,394)
2002					
Swaps and collars	$ 40.32 to $64.00	12 to 27	3,556,563	-	$ (29,260)
Swap	$ 61.40	180	-	394,416	(1,908)
2001					
Swaps and collars	$ -	-	-	-	$ -
Swap	$ 63.80	192	-	420,696	(1,600)

Interest Rate Risk Management

To hedge against the effect of future interest movements, the Company enters into interest rate swap agreements to fix a portion of its bankers' acceptances issued under credit facilities. The Company has no intention of terminating any swap agreements prior to maturity.

At December 31 the Company had the following contracts outstanding:

Interest rate swaps	Period (months)	Principal (thousands)	Weighted Average Interest Rate	Fair Value (thousands)
2003	3 to 60	$ 180,000	4.21%	$ (1,576)
2002	15 to 28	$ 70,000	4.75%	$ (1,948)
2001	1 to 40	$ 102,000	4.46%	$ (2,300)

Credit Risk on Financial Instruments

Credit risk results from the possibility that a counterparty to a derivative in which the Company has an unrealized gain fails to perform according to the terms of the contract.

Credit exposure is minimized by entering into transactions with credit worthy counterparties in accordance with established credit policies and practices. At December 31, 2003 AltaGas did not have a significant concentration of credit risk with any single counterparty to financial contracts.

10. SHARE CAPITAL

Authorized:

- an unlimited number of common shares without nominal or par value.
- an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:

	Number of Shares	Amount
December 31, 2000	29,225,299	$ 116,449
Issued for cash on exercise of options	695,678	1,359
Issued for compensation	8,500	55
Repurchased under normal course bid and subsequently cancelled	(433,600)	(1,781)
December 31, 2001	29,495,877	$ 116,082
Issued for cash on exercise of options	407,715	1,868
Issued for cash pursuant to public placement	6,325,000	58,823
Issued for compensation	8,500	79
Less issue costs, net of tax	-	(1,526)
December 31, 2002	36,237,092	$ 175,326
Issued for cash on exercise of options	471,752	3,652
Issued for compensation	8,000	98
December 31, 2003	**36,716,844**	**$ 179,076**

Preferred Participating Shares Issued:

	Number of Shares	Amount
December 31, 2003, 2002 and 2001	**9,000,000**	**$ 88,964**
Total shares issued	**45,716,844**	**$ 268,040**

On September 30, 1999 the Company closed a private placement of 9,000,000 non-voting, preferred participating shares at $10.00 per share for gross proceeds of $90.0 million. These shares are convertible at the holder's option into common shares, one for one, any time prior to September 30, 2004. After that date, and no later than September 30, 2009, AltaGas may either redeem the participating shares or convert them to common shares.

These shares share rateably with common shares in any dividend declared on or before September 30, 2002 and to a maximum of $1.00 per share per year thereafter. On conversion or redemption, or in the event of a liquidation, dissolution or winding-up of the Company, the participating shareholders are entitled to $10.00 per share and their share of the cumulative retained net income of AltaGas since September 30, 1999 with the annual earnings included per participating share being limited to $1.00 following September 30, 2002.

During 2001, AltaGas purchased and cancelled 433,600 of its common shares at an average price of $5.22 per share under the first normal course issuer bid, under which the Company could acquire over a one year period up to five percent of its outstanding common shares through the facilities of the Toronto Stock Exchange.

AltaGas implemented a Normal Course Issuer Bid through the facilities of The Toronto Stock Exchange on December 1, 2000, and renewed the bid in December 2001 and again on December 2, 2002 for an additional 12 months. From April 25, 2001 through December 31, 2003 no shares were purchased. The Normal Course Issuer Bid was not renewed.

On June 7, 2002 AltaGas closed a public offering for 6,325,000 common shares at $9.30 per share. Proceeds net of share issue costs were $56.4 million.

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At December 31, 2003 3,800,000 common shares are reserved for issuance under the plan. To December 31, 2003 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. Currently, outstanding options are exercisable at various dates to the year 2013. Options outstanding under the plan have a weighted average exercise price of $8.74 and a weighted average remaining contractual life of 7.21 years.

Number of Options	**Exercise Price**	**Expiry Date**
196,849	$8.75 - $10.00	2004
73,250	$7.00 - $10.00	2009
99,375	$4.80 - $ 6.25	2010
523,000	$5.10 - $ 7.25	2011
233,750	$6.50 - $ 9.75	2012
380,138	$9.55 - $15.05	2013
1,506,362		

	2003		2002		2001	
	Number of Options	**Weighted Average Exercise Price**	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of year	**1,670,676**	**$ 7.66**	1,896,916	$ 6.83	2,022,694	$ 5.17
Granted	**400,638**	**11.76**	262,000	8.76	663,000	6.97
Exercised	**(471,752)**	**7.74**	(407,715)	4.58	(695,678)	1.96
Cancelled	**(93,200)**	**7.47**	(80,525)	7.26	(93,100)	8.10
Stock options outstanding, end of year	**1,506,362**	**$ 8.74**	1,670,676	$ 7.66	1,896,916	$ 6.83
Exercisable at year end	**622,974**	**$ 7.75**	847,246	$ 7.85	1,017,417	$ 6.81

Based on the number and fair value of options granted during the 2003 and 2002, the effect on net income of following the fair value method instead of the intrinsic value method of accounting for stock options would not be significant and there would be no effect on net income per share.

The basic number of shares outstanding for the year ended December 31, 2003 was 45.5 million (2002 - 42.3 million, 2001 – 38.2 million) and the diluted number of shares outstanding for the year ended December 31, 2003 was 45.9 million (2002 - 42.6 million, 2001 – 38.3 million). During the years presented, outstanding stock options are the only dilutive instrument.

11. COMMITMENTS

Future minimum lease payments under operating leases for office space, office equipment, and automotive equipment are estimated as follows:

2004	$	2,357
2005		2,365
2006		2,410
2007		2,287
2008		-
	$	9,419

Under the terms of a 1997 long-term gas supply contract AltaGas is committed to supply natural gas for prices ranging from $1.93/Mcf in 2003 to $2.15/Mcf by contract expiry in 2009. AltaGas contracted with several producers to provide the volumes for the term of the ten year contract. One of those producers defaulted in 1999 on its obligation under its gas supply contract, resulting in the delivery commitment for 2,845 Mmcf/d reverting to the Company. AltaGas owns natural gas reserves as a hedge against the obligation under this reverted supply contract. The natural gas produced from these reserves is in excess of the commitment under the reverted contract.

In addition to the production from its own reserves, in 1999 the Company acquired a right to purchase natural gas from specific reserves for $0.05 per Mmcf for the life of the reserves. The production from these reserves was 1,512 Mmcf/d in 2003 (2002 - 1,857 Mmcf/d) and also serves as a hedge against the commitment under the reverted contract.

AltaGas was a successful bidder for 100 megawatts of power capacity in the Alberta government's third phase of the Market Achievement Plan auction. As a result, the Company entered into an energy contract ("Genesee Energy Contract") with the Balancing Pool Administrator for the right and obligation to purchase power from 100 megawatts of power capacity at the EPCOR Generation Inc. operated Genesee power plant for a three year term commencing April 1, 2003. The Company has an obligation to pay a competitively priced fixed monthly capacity charge for the power capacity under this power purchase arrangement.

12. INCOME TAXES

The income tax provision differs from the amounts which would be obtained by applying the combined Canadian base federal and provincial income tax rate to income before income taxes. These differences result from the following items:

	2003	2002	2001
Income before income taxes	$ **61,482**	$ 42,904	$ 28,379
Statutory income tax rate (percent)	**40.75**	42.12	43.12
Computed income tax provision	$ **25,054**	$ 18,071	$ 12,237
Increase (decrease) in income taxes resulting from:			
Resource allowance	**(2,351)**	(3,043)	(3,322)
Manufacturing and processing credit	**(426)**	(168)	(154)
Large corporations tax	**1,179**	973	815
Permanent differences between accounting and assets and liabilities	**(358)**	269	100
Rate reductions applied to future income tax liabilities	**(628)**	(1,246)	(86)
Other	**689**	(1,394)	(382)
Income tax provision			
Current	**10,587**	6,222	2,669
Future	**12,572**	7,240	6,539
	$ **23,159**	$ 13,462	$ 9,208
Effective income tax rate (percent)	**37.67**	31.38	32.44

The tax effects of the significant components of temporary differences that give rise to future income tax assets and liabilities as at December 31, 2003 are as follows:

	2003		2002		2001	
	Assets	**Liabilities**	Assets	Liabilities	Assets	Liabilities
Capital assets	$ **-**	$ **40,189**	$ -	$ 36,170	$	$ 19,135
Net operating losses unused for tax purposes	**208**	**(6,002)**	208	-	209	-
Deferred debt charges	**-**	**85**	-	91	-	92
Share issue costs	**-**	**(511)**	-	(812)	-	(806)
Partnerships	**-**	**28,426**	-	16,377	-	-
Other	**-**	**350**	-	(2,494)	-	(46)
	$ **208**	$ **62,537**	$ 208	$ 49,332	$ 209	$ 18,375

Future income tax expense and future income tax assets and liabilities have not been recognized for the Company's rate-regulated natural gas distribution subsidiary. Unrecognized future income tax expense for the year ended December 31, 2003 was $156 thousand (2002 - $451 thousand, 2001 - $14 thousand). The unrecognized future income tax liability at December 31, 2003 was $6.5 million (2002 - $6.7 million, 2001 - $6.2 million).

13. CHANGE IN NON-CASH WORKING CAPITAL

	2003	2002	2001
Accounts receivable	**$ 10,533**	$ (34,851)	$ 42,727
Inventory	**1,891**	(609)	761
Other current assets	**(626)**	6,704	(7,776)
Accounts payable and accrued liabilities	**(2,439)**	33,822	(44,230)
Other current liabilities	**460**	5,283	(2,829)
Other	**-**	(195)	(5)
	9,819	10,154	(11,352)
Less decrease (increase) in capital costs payable	**(3,527)**	(4,065)	6,437
Net change in non-cash working capital from operations	**$ 6,292**	$ 6,089	$ (4,915)

The following cash payments have been included in the determination of earnings:

	2003	2002	2001
Interest paid	**$ 22,065**	$ 18,856	$ 15,466
Income taxes paid	**$ 9,113**	$ 1,837	$ 6,187

14. PENSION PLANS AND RETIREMENT BENEFITS

Substantially all full-time employees of the Company's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

	2003		2002		2001	
	Pension Plans	**Other Benefit Plans**	Pension Plans	Other Benefit Plans	Pension Plans	Other Benefit Plans
Accrued benefit obligation						
Balance, beginning of year	**$ 9,300**	**$ 814**	$ 8,069	$ 759	$ 7,044	$ 665
Experience loss (gain)	**1,133**	**115**	(57)	(12)	14	34
Current service cost	**668**	**40**	734	33	611	30

15. RELATED PARTY TRANSACTIONS

During 2003 AltaGas purchased maintenance services totalling $137 thousand (2002 - $80 thousand, 2001 - $117 thousand) and capital equipment totalling $nil (2002 - $nil, 2001 - $603 thousand) from an equity accounted investee. These transactions have been recorded at their exchange amounts. At December 31, 2003 $2.3 million (2002 - $2.3 million, 2001 - $1.0 million) was owed to AltaGas by this investee.

AltaGas has contracted with a significant shareholder to purchase a fixed volume of electricity for a fixed price. During 2003 the Company purchased 26,280 MWh (2002 and 2001 - 26,280 MWh) of electricity for $1.8 million (2002 - $1.8 million, 2001 - $2.1 million).

AltaGas loaned $30.5 million to Taylor NGL Limited Partnership. This amount was fully repaid by October 17, 2003. Market rates were used to calculate interest related to this transaction.

16. JOINT VENTURES

The Company's proportionate interest in its partnership and joint venture arrangements is summarized as follows:

Proportionate share of operating income	**2003**	2002	2001
Revenue	**$ 162,649**	$ 123,438	$ 11,921
Expenses	**117,030**	89,028	10,077
	$ 45,619	$ 34,410	$ 1,844

Proportionate share of net assets			
Current assets	**$ 17,027**	$ 22,602	$ 9,595
Capital assets	**53,076**	47,686	24,147
Energy services arrangements and contracts	**98,666**	104,458	110,066
Investments and other assets	**114**	165	222
Current liabilities	**(18,156)**	(21,768)	(1,252)
	$ 150,727	$ 153,143	$ 142,778

Proportionate share of change in cash			
Operating activities	**$ 54,961**	$ 48,716	$ 9,761
Investing activities	**(5,140)**	(24,767)	(110,232)
Financing activities	**(49,821)**	(23,949)	100,471
	$ -	$ -	$ -

17. SEGMENTED INFORMATION

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing - natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services - power services, gas services and oil and natural gas production.

Natural Gas Distribution - natural gas distribution to end users and related services.

December 31, 2003	Gathering and Processing	Energy Services	Gathering and Processing and Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 156,711	$ 521,590	$ 678,301	$ 129,434	$ (98,851)	$ 708,884
Cost of sales	(16,504)	(472,075)	(488,579)	(98,866)	98,418	(489,027)
Operating and administrative expenses	(74,598)	(8,189)	(82,787)	(15,637)	433	(97,991)
Amortization	(23,555)	(8,513)	(32,068)	(6,244)	-	(38,312)
Operating income	$ 42,054	$ 32,813	$ 74,867	$ 8,687	$ -	$ 83,554
Net additions to capital assets	$ 33,316	$ 2,514	$ 35,830	$ 16,796		$ 52,626
Segment assets	$ 614,401	$ 165,759	$ 780,160	$ 139,100		$ 919,260

December 31, 2002	Gathering and Processing	Energy Services	Gathering and Processing and Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 106,031	$ 355,882	$ 461,913	$ 94,316	$ (63,573)	$ 492,656
Cost of sales	(6,460)	(311,664)	(318,124)	(65,463)	60,805	(322,782)
Operating and administrative expenses	(52,136)	(11,284)	(63,420)	(14,358)	2,768	(75,010)
Amortization	(19,187)	(8,914)	(28,101)	(5,711)	-	(33,812)
Operating income	$ 28,248	$ 24,020	$ 52,268	$ 8,784	$ -	$ 61,052
Net additions to capital assets	$ 159,785	$ 1,546	$ 161,331	$ 3,659		$ 164,990
Segment assets	$ 589,284	$ 181,990	$ 771,274	$ 133,589		$ 904,863

The segment information for the year ended December 31, 2001 has not been restated to conform with current financial statement presentation as, due to the sharing of certain costs it is not practical to separate gas services and oil and gas production. Prior to January 1, 2002, AltaGas had two reportable segments:

Gathering and Processing - natural gas gathering and processing, natural gas transmission, natural gas liquids extraction, oil and gas production, gas services and third party facility operation.

Natural Gas Distribution - natural gas distribution to end users and related services.

December 31, 2001	Gathering[1] and Processing and Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 448,056	$ 120,623	$ (78,904)	$ 489,775
Cost of sales	(339,955)	(93,683)	78,904	(354,734)
Operating and administrative expenses	(51,651)	(13,506)	-	(65,157)
Amortization	(20,428)	(5,249)	-	(25,677)
Operating income	$ 36,022	$ 8,185	$ -	$ 44,207
Net additions to capital assets	$ 87,189	$ 5,403		$ 92,592
Segment assets	$ 481,013	$ 128,099		$ 609,112
Power purchase arrangement				$ 111,890
				$ 721,002

[1] Gathering and Processing and Energy Services segment have been combined for the years ended December 31, 2002 and 2003 to enable a comparison to the Gathering, Processing and Services segment for the year ended December 31, 2001

18. SUBSEQUENT EVENTS

On February 18, 2004 AltaGas announced that a special committee of independent directors was undertaking a review regarding the reorganization of the business of AltaGas into an income trust.

On March 18, 2004, AltaGas announced that it has entered into a purchase and sale agreement with BP Canada Energy Resources Company ("**BP**") to acquire BP's 48 2/3% interest in the Edmonton Ethane Extraction Plant ("**EEEP**") located at Edmonton, Alberta for approximately $46 million. EEEP has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross NGLs production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. EEEP straddles the ATCO Pipelines Ltd. system which transports natural gas into the City of Edmonton and the Ft. Saskatchewan area. EEEP is directly connected to the Alberta Ethane Gathering System, and to BP's Co-Ed NGL pipeline, providing safe and reliable outlets for EEEP's products. AltaGas' share of plant products including ethane and propane-plus will be sold under long term contracts. A long term gas supply contract provides a secure feedstock supply to EEEP. The acquisition is expected to close in the second quarter of 2004, subject to license transfer, customary closing conditions, third party and regulatory approvals.

19. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the adoption of CICA Handbook Section on accounting for asset retirement obligations.

PRO FORMA FINANCIAL STATEMENTS

OF

ALTAGAS INCOME TRUST

COMPILATION REPORT

To the Trustee of
AltaGas Income Trust

We have read the accompanying unaudited pro forma balance sheet of AltaGas Income Trust (the "Trust") as at December 31, 2003 and the unaudited pro forma statement of income for the year then ended, and have performed the following procedures:

1. Compared the figures in the column captioned "AltaGas Income Trust" to the audited consolidated balance sheet of the Trust as at March 26, 2004 and found them to be in agreement.

2. Compared the figures in the columns captioned "AltaGas Services Inc." to the audited consolidated financial statements of AltaGas Services Inc. as at December 31, 2003 and for the year then ended, and found them to be in agreement.

3. Made enquiries of certain officials of the Trust who have responsibility for financial and accounting matters about:

   (a) the basis for determination of the pro forma adjustments; and

   (b) whether the pro forma financial statements comply as to form in all material respects with the regulatory requirements of the Securities Act of the province of Alberta (the "Act").

   The officials:

   (a) described to us the basis for determination of the pro forma adjustments, and

   (b) stated that the pro forma financial statements comply as to form in all material respects with the regulatory requirements of the Act.

4. Read the notes to the unaudited pro forma financial statements, and found them to be consistent with the basis described to us for determination of the pro forma adjustments.

5. Recalculated the application of the pro forma adjustments to the aggregate of the amounts in the columns captioned "AltaGas Income Trust" and "AltaGas Services Inc." as at December 31, 2003 and for the year then ended, as appropriate, and found the amounts in the columns captioned "Pro Forma" to be arithmetically correct.

A pro forma financial statement is based on management assumptions and adjustments which are inherently subjective. The foregoing procedures are substantially less than either an audit or a review, the objective of which is the expression of assurance with respect to management's assumptions, the pro forma adjustments, and the application of the adjustments to the historical financial information. Accordingly, we express no such assurance. The foregoing procedures would not necessarily reveal matters of significance to the pro forma financial statements, and we therefore make no representation about the sufficiency of the procedures for the purposes of a reader of such statements.

ALTAGAS INCOME TRUST
NOTES TO THE PRO FORMA BALANCE SHEET AND STATEMENT OF INCOME
As at and for the year ended December 31, 2003
(unaudited)
($ thousands, except as otherwise noted)

1. BASIS OF PRESENTATION

The accompanying unaudited pro forma balance sheet and unaudited pro forma statement of income (the "unaudited pro forma financial statements") of AltaGas Income Trust (the "Trust") have been prepared to reflect the proposed Plan of Arrangement (the "Arrangement") wherein the business of AltaGas Services Inc. ("AltaGas") would be reorganized into an income trust.

Pursuant to the Arrangement, AltaGas' Common Shareholders and Participating Shareholders (the "Shareholders") will effectively receive one Trust Unit for each Share held. The issued and outstanding Participating Shares shall be converted into Common Shares on a one-for-one basis. Taxable Canadian Shareholders will be able to elect to exchange part of their Common Shares for certain limited partnership units ("Exchangeable Securities") that will be exchangeable into Trust Units on a one-for-one basis to facilitate the tax free rollovers of those Common Shares. The Exchangeable Securities are intended to be, to the greatest extent practicable, the economic and voting equivalent of Trust Units, being entitled to the same monthly cash distributions as a Trust Unit and being entitled to vote on Trust matters with holders of Trust Units through a Special Voting Unit.

As the former AltaGas Shareholders will continue to own AltaGas' existing business through their Trust Unit and Exchangeable Security holdings, no adjustment to the carrying values of the assets and liabilities of AltaGas is reflected for these transactions.

The resolutions regarding the Arrangement must be approved by AltaGas Shareholders and the Arrangement is subject to regulatory and court approval. The completion of the Plan of Arrangement and all other transactions reflected in these unaudited pro forma financial statements is conditional upon the completion of all transactions reflected herein.

The unaudited pro forma financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. The unaudited pro forma financial statements have been based upon the audited balance sheet of the Trust as at March 26, 2004, the audited consolidated financial statements of AltaGas as at and for the year ended December 31, 2003 and the adjustments and assumptions outlined in Note 2 below. Accounting policies used in the preparation of the unaudited pro forma financial statements are consistent with those used in the historical financial statements of AltaGas. The unaudited pro forma financial statements should be read in conjunction with the audited balance sheet and the notes thereto of the Trust as at March 26, 2004 and the historical financial statements of AltaGas as at and for the year ended December 31, 2003 (which are included elsewhere in this Information Circular). The Trust has had no operations to date and therefore the unaudited pro forma statement of income for the year ended December 31, 2003 does not reflect any operational results of the Trust. In the opinion of management, these unaudited pro forma financial statements include all adjustments necessary for fair presentation.

The unaudited pro forma financial statements may not be indicative of the financial position or results of operations that would have occurred if the events reflected therein had been in effect on the dates indicated or of the results that may be obtained in the future.

2. PRO FORMA ASSUMPTIONS AND ADJUSTMENTS

The unaudited pro forma balance sheet gives effect to the following assumptions and adjustments as if they had occurred as at December 31, 2003 and the unaudited pro forma statement of income gives effect to these assumptions and adjustments as if they had occurred at January 1, 2003:

(a) Costs related to the Arrangement of $7,000, net of tax recoveries of $2,437, are estimated to be $4,563. Of the $7,000 in costs, $643 was incurred and deferred in 2003 and the balance of $6,357 is assumed to be funded through payables. Of the $2,437 of tax recoveries, $568 is assumed to reduce the current taxes payable at December 31, 2003 with $1,869 available to reduce taxes in future periods.

(b) The conversion of all issued and outstanding AltaGas Participating Shares into AltaGas Common Shares on a one-for-one basis and the subsequent exchange of all issued and outstanding AltaGas Common Shares into Trust Units and Exchangeable Securities on a one-for-one basis (see note 3).

As the Exchangeable Securities are intended to be the economic and voting equivalent of Trust Units, the Exchangeable Securities are accounted for in these unaudited pro forma financial statements as equity instruments of the Trust. However, these securities may ultimately be presented as a non-controlling interest separate and distinct from the unitholders' equity of the Trust, depending on the resolution of issues raised with respect to an outstanding Emerging Issues Committee abstract by The Canadian Institute of Chartered Accountants on this topic.

Concurrent with the Arrangement, all unexercised Options will be transferred to a Unit Option Plan in substantially the same form as the current Stock Option Plan. No exercise of outstanding options has been assumed in the pro forma financial statements and no new options are assumed to be issued during the period.

(c) Current income taxes of $7,439 have been eliminated as the Trust is able to, and intends to claim a deduction for all amounts paid to Unitholders and then intends to allocate the remaining taxable income, if any, directly to the Unitholders. The remaining current income taxes of $3,148 represent the extent to which certain entities of the Trust are subject to income taxes and large corporations tax.

(d) Future income tax expense has been decreased by $13,242 to reflect the tax effect of the pro forma adjustments.

3. PER TRUST UNIT AND EXCHANGEABLE SECURITY AMOUNTS

Pro forma number of Trust Units and Exchangeable Securities for the year ended December 31, 2003 has been calculated assuming the conversion of all issued and outstanding AltaGas Participating Shares as at December 31, 2003 into AltaGas Common Shares on a one-for-one basis and the subsequent exchange of all issued and outstanding AltaGas Common Shares as at December 31, 2003 into Trust Units and Exchangeable Securities on a one-for-one basis. The number of Participating Shares and Common Shares outstanding at December 31, 2003 are 9,000,000 and 36,716,844, respectively.

No options have been assumed to be either exercised or issued during the period. The number of options outstanding as at December 31, 2003 is 1,506,362 at a weighted average exercise price of $8.74 per share.

Assuming the transactions noted above occurred on January 1, 2003, the estimated weighted average number of Trust Units and Exchangeable Securities outstanding for the year ended December 31, 2003 is 45,716,844 and 47,223,206 on a diluted basis.

AUDITORS' REPORT

To the Trustee of
AltaGas Income Trust:

We have audited the balance sheet of AltaGas Income Trust (the "Trust") as at March 26, 2004. This financial statement is the responsibility of the Trust's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the balance sheet is free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the balance sheet. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating overall balance sheet presentation.

In our opinion, the balance sheet referred to above presents fairly, in all material respects, the financial position of the Trust as at March 26, 2004 in accordance with Canadian generally accepted accounting principles.

ALTAGAS INCOME TRUST
NOTES TO THE BALANCE SHEET
As at March 26, 2004

1. FORMATION OF THE INCOME TRUST

AltaGas Income Trust (the "Trust") is an unincorporated open-ended investment trust governed by the laws of Alberta pursuant to the Declaration of Trust dated March 26, 2004. The Trust issued an initial Trust Unit on March 26, 2004 for cash proceeds of $20.

2. SUBSEQUENT EVENT

The Trust has entered into a plan of arrangement (the "Arrangement") whereby the Trust will effectively acquire the business of AltaGas Services Inc. through Holding Trust, AltaGas LP#1 and AltaGas LP #2 which, in turn, will own all of the issued and outstanding common shares of AmalgamationCo. AltaGas, LP Subco and the Amalgamating Subsidiaries shall amalgamate and continue as one corporation, AmalgamationCo.

APPENDIX I

SECTION 190 OF THE *CANADA BUSINESS CORPORATIONS ACT*

SECTION 190 OF THE *CANADA BUSINESS CORPORATIONS ACT*

Pursuant to the Interim Order, registered Securityholders have the right to dissent in respect of the Arrangement. Such right of dissent is described in the Information Circular. The full text of Section 192 of the CBCA is set forth below. Note that certain provisions of such section have been modified by the Interim Order which is attached to the Information Circular as Appendix B and pursuant to the Plan of Arrangement which is attached to the Information Circular as Schedule 1 to Appendix C.

"**190.** (1) Subject to Section 191 and 241, a holder of shares of any class of a corporation may dissent if the corporation is subject to an order under paragraph 192(4)(d) that affects the holder or if the corporation resolves to

(a) amend its articles under section 173 or 174 to add, change or remove any provisions restricting or constraining the issue, transfer or ownership of shares of that class;

(b) amend its articles under section 173 to add, change or remove any restriction on the business or businesses that the corporation may carry on;

(c) amalgamate otherwise than under section 184;

(d) be continued under section 188;

(e) sell, lease or exchange all or substantially all its property under subsection 189(3); or

(f) carry out a going-private transaction or a squeeze-out transaction.

(2) Further right -- s. 190(2)

(2) A holder of shares of any class or series of shares entitled to vote under Section 176 may dissent if the corporation resolves to amend its articles in a manner described in that section.

(2.1) If one class of shares -- s. 190(2.1)

(2.1) The right to dissent described in subsection (2) applies even if there is only one class of shares.

(3) Payment for shares -- s. 190(3)

(3) In addition to any other right the shareholder may have, but subject to subsection (26), a shareholder who complies with this section is entitled, when the action approved by the resolution from which the shareholder dissents or an order made under subsection 192(4) becomes effective, to be paid by the corporation the fair value of the shares in respect of which the shareholder dissents, determined as of the close of business on the day before the resolution was adopted or the order was made.

(4) No partial dissent -- s. 190(4)

(4) A dissenting shareholder may only claim under this section with respect to all the shares of a class held on behalf of any one beneficial owner and registered in the name of the dissenting shareholder.

(5) Objection -- s. 190(5)

(5) A dissenting shareholder shall send to the corporation, at or before any meeting of shareholders at which a resolution referred to in subsection (1) or (2) is to be voted on, a written objection to the resolution, unless the corporation did not give notice to the shareholder of the purpose of the meeting and of their right to dissent.

(6) Notice of resolution -- s. 190(6)

(6) The corporation shall, within ten days after the shareholders adopt the resolution, send to each shareholder who has filed the objection referred to in subsection (5) notice that the resolution has been adopted, but such notice is not required to be sent to any shareholder who voted for the resolution or who has withdrawn their objection.

(7) Demand for payment -- s. 190(7)

(7) A dissenting shareholder shall, within twenty days after receiving a notice under subsection (6) or, if the shareholder does not receive such notice, within twenty days after learning that the resolution has been adopted, send to the corporation a written notice containing

(a) the shareholder's name and address;

(b) the number and class of shares in respect of which the shareholder dissents; and

(c) a demand for payment of the fair value of such shares.

(8) Share certificate -- s. 190(8)

(8) A dissenting shareholder shall, within thirty days after sending a notice under subsection (7), send the certificates representing the shares in respect of which the shareholder dissents to the corporation or its transfer agent.

(9) Forfeiture -- s. 190(9)

(9) A dissenting shareholder who fails to comply with subsection (8) has no right to make a claim under this section.

(10) Endorsing certificate -- s. 190(10)

(10) A corporation or its transfer agent shall endorse on any share certificate received under subsection (8) a notice that the holder is a dissenting shareholder under this section and shall forthwith return the share certificates to the dissenting shareholder.

(11) Suspension of rights -- s. 190(11)

(11) On sending a notice under subsection (7), a dissenting shareholder ceases to have any rights as a shareholder other than to be paid the fair value of their shares as determined under this section except where

(a) the shareholder withdraws that notice before the corporation makes an offer under subsection (12),

(b) the corporation fails to make an offer in accordance with subsection (12) and the shareholder withdraws the notice, or

(c) the directors revoke a resolution to amend the articles under subsection 173(2) or 174(5), terminate an amalgamation agreement under subsection 183(6) or an application for continuance under subsection 188(6), or abandon a sale, lease or exchange under subsection 189(9),

in which case the shareholder's rights are reinstated as of the date the notice was sent.

(12) Offer to pay -- s. 190(12)

(12) A corporation shall, not later than seven days after the later of the day on which the action approved by the resolution is effective or the day the corporation received the notice referred to in subsection (7), send to each dissenting shareholder who has sent such notice

(a) a written offer to pay for their shares in an amount considered by the directors of the corporation to be the fair value, accompanied by a statement showing how the fair value was determined; or

(b) if subsection (26) applies, a notification that it is unable lawfully to pay dissenting shareholders for their shares.

(13) Same terms -- s. 190(13)

(13) Every offer made under subsection (12) for shares of the same class or series shall be on the same terms.

(14) Payment -- s. 190(14)

(14) Subject to subsection (26), a corporation shall pay for the shares of a dissenting shareholder within ten days after an offer made under subsection (12) has been accepted, but any such offer lapses if the corporation does not receive an acceptance thereof within thirty days after the offer has been made.

(15) Corporation may apply to court -- s. 190(15)

(15) Where a corporation fails to make an offer under subsection (12), or if a dissenting shareholder fails to accept an offer, the corporation may, within fifty days after the action approved by the resolution is effective or within such further period as a court may allow, apply to a court to fix a fair value for the shares of any dissenting shareholder.

(16) Shareholder application to court -- s. 190(16)

(16) If a corporation fails to apply to a court under subsection (15), a dissenting shareholder may apply to a court for the same purpose within a further period of twenty days or within such further period as a court may allow.

(17) Venue -- s. 190(17)

(17) An application under subsection (15) or (16) shall be made to a court having jurisdiction in the place where the corporation has its registered office or in the province where the dissenting shareholder resides if the corporation carries on business in that province.

(18) No security for costs -- s. 190(18)

(18) A dissenting shareholder is not required to give security for costs in an application made under subsection (15) or (16).

(19) Parties -- s. 190(19)

(19) On an application to a court under subsection (15) or (16),

(a) all dissenting shareholders whose shares have not been purchased by the corporation shall be joined as parties and are bound by the decision of the court; and

(b) the corporation shall notify each affected dissenting shareholder of the date, place and consequences of the application and of their right to appear and be heard in person or by counsel.

(20) Powers of court -- s. 190(20)

(20) On an application to a court under subsection (15) or (16), the court may determine whether any other person is a dissenting shareholder who should be joined as a party, and the court shall then fix a fair value for the shares of all dissenting shareholders.

(21) Appraisers -- s. 190(21)

(21) A court may in its discretion appoint one or more appraisers to assist the court to fix a fair value for the shares of the dissenting shareholders.

(22) Final order -- s. 190(22)

(22) The final order of a court shall be rendered against the corporation in favour of each dissenting shareholder and for the amount of the shares as fixed by the court.

(23) Interest -- s. 190(23)

(23) A court may in its discretion allow a reasonable rate of interest on the amount payable to each dissenting shareholder from the date the action approved by the resolution is effective until the date of payment.

(24) Notice that subsection (26) applies -- s. 190(24)

(24) If subsection (26) applies, the corporation shall, within ten days after the pronouncement of an order under subsection (22), notify each dissenting shareholder that it is unable lawfully to pay dissenting shareholders for their shares.

(25) Effect where subsection (26) applies -- s. 190(25)

(25) If subsection (26) applies, a dissenting shareholder, by written notice delivered to the corporation within thirty days after receiving a notice under subsection (24), may

(a) withdraw their notice of dissent, in which case the corporation is deemed to consent to the withdrawal and the shareholder is reinstated to their full rights as a shareholder; or

(b) retain a status as a claimant against the corporation, to be paid as soon as the corporation is lawfully able to do so or, in a liquidation, to be ranked subordinate to the rights of creditors of the corporation but in priority to its shareholders.

(26) Limitation -- s. 190(26)

(26) A corporation shall not make a payment to a dissenting shareholder under this section if there are reasonable grounds for believing that

(a) the corporation is or would after the payment be unable to pay its liabilities as they become due; or

(b) the realizable value of the corporation's assets would thereby be less than the aggregate of its liabilities."

APPENDIX J

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

STATEMENT OF CORPORATE GOVERNANCE PRACTICES

The following table sets forth the TSX guidelines for effective corporate governance (the "**TSX Guidelines**") together with AltaGas' corporate governance approach. The AltaGas Directors believe that AltaGas' corporate governance policies and practices fully comply with the recommendations set forth in the TSX Guidelines.

Mandate of the Board	
Guideline 1	**The board of directors of every corporation should explicitly assume responsibility for the stewardship of the corporation. The board should adopt a formal mandate that sets out its stewardship responsibilities.**
Does AltaGas Align?	Yes
Description of Approach	The mandate of the AltaGas Directors pursuant to the *Canada Business Corporations Act* (the "**CBCA**") is to manage or supervise the management of the business and affairs of AltaGas. The AltaGas Directors have adopted a formal mandate in accordance with the CBCA and have explicitly assumed the stewardship of AltaGas. Details regarding the AltaGas Directors' mandate are described below.
Guideline 1a	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the adoption of a strategic planning process and approval of a strategic plan which takes into account, among other things, opportunities and risks of the business.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors' responsibilities include developing and adopting AltaGas' strategic planning process and approving the strategic plan; AltaGas' major business development initiatives; and the general review of AltaGas' operating results, including the evaluation of the general and specific performance of management. The AltaGas Directors set one (1) meeting per year for a comprehensive review and approval of AltaGas' budget and plan for the following year. The AltaGas Directors have also established one (1) meeting per year for a comprehensive review and approval of the overall strategic plan of AltaGas. Management regularly provides the AltaGas Directors with operational reviews of AltaGas' activities. In conjunction with these reviews, the AltaGas Directors discuss various strategic planning matters and identify business and other risks associated with the activities of AltaGas, as it considers appropriate.
Guideline 1b	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors are responsible for understanding the principal risks associated with AltaGas' business on an ongoing basis and management is responsible to ensure that the AltaGas Directors and their committees are kept well informed of these changing risks on a timely basis. The audit committee of the AltaGas Directors reviews AltaGas' risk management policies and procedures and reports quarterly to the AltaGas Directors on these matters. The AltaGas Directors also receive and review reports from the environment and safety committee at least two (2) times per year.
Guideline 1c	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for succession planning, including appointing, training and monitoring senior management.**
Does AltaGas Align?	Yes

Description of Approach	The AltaGas Directors believe that succession planning and management development are important to the success of AltaGas. The Chairman and Chief Executive Officer provides a detailed report to the human resources and compensation committee and a summary presentation to the AltaGas Directors on these matters on an annual basis. The human resources and compensation committee annually reviews and reports to the AltaGas Directors on existing management resources and plans, including recruitment and training programs, for ensuring that qualified personnel will be available for succession to key officer positions in AltaGas. The human resources and compensation committee conducts an annual review and assessment of the performance of the Chairman and Chief Executive Officer and the officers of AltaGas. The governance committee's mandate includes monitoring the relationship between management and the AltaGas Directors.
Guideline 1d	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for a communication policy for the corporation.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors have put processes in place to ensure effective, timely and non-selective communications between AltaGas, its stakeholders and the public. The AltaGas Directors, or the appropriate committee thereof, review the content of AltaGas' major communications to shareholders and the investing public, including the quarterly and annual reports, and approves the information circular, the annual information form and any prospectuses that may be issued. The disclosed information is released through mailings to shareholders, news wire services, the general media and AltaGas' home page on the internet, as required. The AltaGas Directors believe that it is the function of management to speak for AltaGas in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. AltaGas has executives responsible for investor relations, who respond to analyst, institutional and individual shareholder inquiries and who are responsible for inquiries from media, government and the public. Individual queries can be made at any time by calling or writing directly to AltaGas' head office in Calgary, Alberta.
Guideline 1e	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the integrity of the corporation's internal control and management information systems.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors have appointed four (4) committees, each of which is responsible for reviewing and advising the AltaGas Directors on controls related to their specific area. The audit committee regularly reviews AltaGas' internal controls through management and AltaGas' external auditors.

Composition of the Board	
Guideline 2	**The board of directors of every corporation should be constituted with a majority of individuals who qualify as unrelated directors.[1] If the corporation has a significant shareholder,[2] in addition to a majority of unrelated directors, the board should include a number of directors who do not have interests in or relationships with either the corporation or the significant shareholder and which fairly reflects the investment in the corporation by shareholders other than the significant shareholder.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors, the governance committee and each director have reviewed the relevant provisions of the TSX Guidelines and determined that seven (7) of AltaGas' eight (8) directors are unrelated directors for the purposes of the TSX Guidelines, being Stephen Letwin, John Breen, Bonnie DuPont, Denis Fonteyne, Daryl Gilbert, Myron Kanik and David Mackie. One (1) of the directors, David Cornhill, is not an unrelated director by virtue of also being an officer of AltaGas. The AltaGas Directors and the governance committee have reviewed the relevant provisions of the TSX Guidelines and determined that, to their knowledge, AltaGas does not have a significant shareholder for the purposes of the TSX Guidelines.
Guideline 3	**The application of the definition of "unrelated director" to the circumstances of each individual director should be the responsibility of the board which will be required to disclose on an annual basis whether the board has a majority of unrelated directors or, in the case of a corporation with a significant shareholder, whether the board is constituted with the appropriate number of directors which are not related to either the corporation or the significant shareholder. The board will also be required to disclose on an annual basis the analysis of the application of the principles supporting this conclusion.**
Does AltaGas Align?	Yes
Description of Approach	Each of the directors individually, the governance committee and the AltaGas Directors as a whole, has reviewed the relevant provisions of the TSX Guidelines and considered such director's respective interests in and relationship with AltaGas. Only one (1) director, David Cornhill, is not independent of management. No director has an interest in AltaGas or the assets or business of AltaGas, other than as a result of shareholding in AltaGas. No director has a business or any other relationship, other than as a result of shareholding in AltaGas, that could or could reasonably be perceived to materially interfere with the director's ability to act with a view to the best interests of AltaGas. Based on this review, the AltaGas Directors made the determination set out in Guideline 2 above in respect of the number of unrelated directors.

---

1 The TSX Guidelines define an unrelated director as a director who is independent of management and is free from any interest and any business or other relationship which could, or could reasonably be perceived to, materially interfere with the director's ability to act with a view to the best interests of the Corporation, other than interests and relationships arising from shareholding. The TSX considers family relationships to be relationships that must be considered. In addition, the TSX considers "related" anyone who is or in the past three (3) years has been an officer or employee of or a material service provider to the Corporation or any of its subsidiaries or affiliates, and anyone who is a director, officer, employee or significant shareholder of an entity that has a material business relationship with the Corporation.

2 The TSX Guidelines define a "significant shareholder" to be a shareholder with the ability to exercise the majority of the votes for the election of the board of directors.

Evaluation and development of the Board	
Guideline 4	**The board of directors of every corporation should appoint a committee of directors composed exclusively of outside directors, a majority of whom are unrelated directors, with the responsibility for proposing to the full board new nominees to the board and for assessing directors on an ongoing basis.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee's mandate includes recommending directors to the AltaGas Directors, to fill vacancies of the AltaGas Directors or to be proposed for election by the shareholders. The qualifications of the new nominees are reviewed by the governance committee based on criteria set by the AltaGas Directors from time to time. The governance committee's mandate also includes establishing appropriate practices for measuring the performance and for the review of the performance of the AltaGas Directors, committees of the AltaGas Directors and individual directors. The governance committee is composed entirely of outside and unrelated directors.
Guideline 5	**Every board of directors should implement a process to be carried out by the nominating committee or other appropriate committee for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee is responsible for conducting an annual assessment of the AltaGas Directors and committee activities and performance. As part of the assessment, directors are asked for input as to areas where and how the AltaGas Directors' effectiveness could be improved, and areas where additional training or education may be beneficial.
Guideline 6	**Every corporation, as an integral element of the process for appointing new directors, should provide an orientation and education program for new recruits to the board.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee is responsible for establishing formal orientation, development and education programs and materials for new directors. Ongoing education of all directors is offered where a need is perceived or based on input obtained from individual directors as part of the assessment process.
Size of the Board	
Guideline 7	**Every board of directors should examine its size and undertake, where appropriate, a program to establish a board size which facilitates effective decision-making.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee's mandate includes reviewing and making recommendations as to the size of the AltaGas Directors and practices for measuring performance. Based on these recommendations, the AltaGas Directors considers its size each year when it considers the number of directors to recommend to the Shareholders for election at the annual meeting of Shareholders, taking into account the number required to carry out the AltaGas Directors' duties effectively and to maintain a diversity of view and experience.

Compensation of Directors	
Guideline 8	**The board of directors should review the adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being a director.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee's mandate includes reviewing and approving appropriate practices for determining and establishing compensation for the directors of AltaGas to ensure it reflects the responsibilities and risks of being a director of a public company.
Committees of the Board	
Guideline 9	**Subject to Guideline 13, committees of the board of directors should generally be composed of outside directors, a majority of whom are unrelated directors, although some board committees may include one or more inside directors.**
Does AltaGas Align?	Yes
Description of Approach	The audit committee, the governance committee and the human resources and compensation committee are composed entirely of unrelated directors. The environment and safety committee has a majority of unrelated directors.
Responsibility for Corporate Governance	
Guideline 10	**Every board of directors should expressly assume responsibility for, or assign to a committee of directors the general responsibility for, developing the corporation's approach to governance issues. The committee would, among other things, be responsible for the corporation's response to these governance guidelines.**
Does AltaGas Align?	Yes
Description of Approach	The governance committee is responsible for the development of the overall governance of AltaGas, a continuing assessment of corporate governance matters, and to make recommendations to the AltaGas Directors regarding AltaGas' approach to corporate governance.
Objectives for the Board and the CEO, and expectations of management	
Guideline 11	**The board of directors, together with the CEO, should develop position descriptions for the board and for the CEO, including the definition of the limits to management's responsibilities. In addition, the board should approve or develop the corporate objectives which the CEO is responsible for meeting and assess the CEO against these objectives.**
Does AltaGas Align?	Yes
Description of Approach	The AltaGas Directors, together with AltaGas' Chief Executive Officer, has developed and maintains position descriptions for the AltaGas Directors and the Chief Executive Officer (within the context of the requirements imposed by the CBCA and AltaGas' by-laws), which include the limits on management's responsibilities. The governance committee's mandate includes review of the description of the directors' duties and the division of duties between and among directors, the Chairman and Chief Executive Officer, the Lead Director, and management. The AltaGas Directors develop corporate objectives for which the Chief Executive Officer is responsible through its annual budget and strategic plan review, and otherwise as required. The human resources and compensation committee evaluates the Chief Executive Officer against those objectives and reports the results of the evaluation to the AltaGas Directors.

	The AltaGas Directors consider that certain decisions are sufficiently important that management should seek prior approval of the AltaGas Directors. Such decisions include: approval of the annual capital and operating budgets and any material changes to or deviations from these budgets; acquisition or sale of significant assets, including significant commitments with industry partners; significant debt or equity financing; changes in management; all matters as required under the CBCA; and significant changes in corporate policies, goals or objectives.
Independence of the Board	
Guideline 12	**Every board of directors should implement structures and procedures which ensure that the board can function independently of management. An appropriate structure would be to:** **(i) appoint a chair of the board who is not a member of management with responsibility to ensure the board discharges its responsibilities; or** **(ii) assign this responsibility to an outside director, sometimes referred to as the "lead director".** **The chair or lead director should ensure that the board carries out its responsibilities effectively which will involve the board meeting on a regular basis without management present and may involve assigning the responsibility for administering the board's relationship to management to a committee of the board.**
Does AltaGas Align?	Yes
Description of Approach	David Cornhill is the Chairman of the AltaGas Directors and also AltaGas' Chief Executive Officer. To ensure that the AltaGas Directors can function independently of management, the AltaGas Directors have appointed Myron Kanik, an outside director, as Lead Director. The AltaGas Directors meet in-camera and independently of management often and whenever appropriate. Mr. Kanik determines when such a meeting is appropriate and acts as chair of the AltaGas Directors at these times. In addition, responsibility for administering the AltaGas Directors' relationship to management has been assigned to the governance committee.
Audit Committee	
Guideline 13	**The audit committee of every board of directors should be composed only of unrelated directors.** **All of the members of the audit committee should be financially literate and at least one member should have accounting or related financial expertise. Each board shall determine the definition of and criteria for "financial literacy" and "accounting or related financial expertise".** **The board should adopt a charter for the audit committee which sets out the roles and responsibilities of the audit committee members as to their duties. The audit committee should have direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties should include oversight responsibility for management reporting on internal control. While it is management's responsibility to design and implement an effective system of internal control, it is the responsibility of the audit committee to ensure that management has done so.**
Does AltaGas Align?	Yes

Description of Approach	The CBCA, the corporate statute governing AltaGas, requires that the audit committee of AltaGas be composed of not less than three (3) directors, a majority of whom are not officers or employees of AltaGas or any of its affiliates. The audit committee complies with these requirements and the TSX Guidelines. All members of the audit committee are "financially literate" and Stephen Letwin has "accounting or related financial expertise", based on criteria established by the Board in accordance with the TSX Guidelines. The AltaGas Directors have adopted the TSX definitions of "financially literate" and "accounting or related financial expertise".[3] The AltaGas Directors have developed written terms of reference outlining the audit committee's roles and responsibilities and which provide appropriate guidance to audit committee members as to their duties. These terms of reference are reviewed annually by the AltaGas Directors. The audit committee reviews the annual and interim financial statements of AltaGas and makes recommendations to the AltaGas Directors with respect to such statements. The audit committee also reviews the nature and scope of the annual audit as proposed by the auditors and management, and the adequacy of the internal accounting control procedures and systems within AltaGas. The audit committee is responsible to ensure that management has implemented an effective system of internal control and has oversight responsibility for management reporting on internal control. The audit committee meets with AltaGas' auditors regularly, independent of management, and has direct communication channels with AltaGas' external auditors to discuss and review specific issues as appropriate.
Outside Advisors to Board Members	
Guideline 14	**The board of directors should implement a system which enables an individual director to engage an outside adviser at the expense of the company in appropriate circumstances. The engagement of the outside advisor should be subject to the approval of an appropriate committee of the board.**
Does AltaGas Align?	Yes
Description of Approach	In certain circumstances, it may be appropriate for a committee of the AltaGas Directors, an individual director or a group of directors to engage outside legal, financial or other services at the expense of AltaGas. The AltaGas Directors have implemented a system providing for this, pursuant to which the governance committee is responsible for establishing the circumstances in which such an outside advisor may be engaged, and approves the engagement of such an outside advisor.

[3] The TSX defines "financial literacy" as the ability to read and understand a balance sheet, an income statement and a cash flow statement, and "accounting or related financial expertise" as the ability to analyze and interpret a full set of financial statements, including the notes attached thereto, in accordance with Canadian generally accepted accounting principles.

APPENDIX K

TRUST UNIT OPTION PLAN

ALTAGAS SERVICES INC.

TRUST UNIT OPTION PLAN

May 1, 2004

1. Purpose

The purpose of the Plan is to provide an incentive to the directors, officers, employees, consultants and other personnel of AltaGas and its affiliates to achieve the longer term objectives of AltaGas and, after the Effective Time, the Trust, to give suitable recognition to the ability and industry of those individuals who contribute materially to the success of AltaGas and the Trust and to attract to and retain in the employ of AltaGas and its affiliates, persons of experience and ability, by providing them with the opportunity to acquire an increased proprietary interest in the Trust.

2. Definitions

When used in this Plan, unless there is something in the subject matter or context inconsistent therewith, the following words and terms shall have the respective meanings ascribed to them as follows:

"**affiliate**" means any Person that the Board of Directors or the Committee from time to time determines is an affiliate of AltaGas for the purposes of the Plan;

"**AltaGas**" means AltaGas Services Inc. and its successors and assigns; and any reference herein to action by AltaGas means action by or under the authority of the Board of Directors or the Committee;

"**Arrangement**" means the proposed arrangement of the business of AltaGas, under the provisions of section 192 of the CBCA;

"**Board of Directors**" means, until the Effective Time, the board of directors of AltaGas, and thereafter, the board of directors of the General Partner;

"**CBCA**" means the Canada Business Corporations Act, R.S.C. 1985, c.C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Committee**" means a duly empowered committee appointed by the Board of Directors for the purposes of making decisions with respect to this Plan and grants of Trust Options hereunder, which committee initially shall be the Human Resources and Compensation Committee of AltaGas, and after the Effective Time, of the General Partner;

"**Common Share**" means a Common share in the capital of AltaGas;

"**Effective Date**" means the date that the Arrangement is effective under the CBCA;

"**Effective Time**" means 2:30 p.m. (Calgary time) on the Effective Date;

"**Exchangeable Securities**" means securities which are exchangeable for Trust Units;

"**General Partner**" means AltaGas General Partner Inc.;

"**Insider**" means a director or senior officer of AltaGas or an affiliate or a holder of 10% or more of the issued and outstanding Trust Units and associates of those persons;

"**Market Value**" means the per unit closing price for the Trust Units on the stock exchange on which the greatest volume of Trust Units is traded on the Trading Day immediately preceding the date of grant of a Trust Option;

"**Options**" means options to purchase Common Shares granted by AltaGas to employees, officers and directors of AltaGas;

"**Option Period**" means that period as may be determined by the Board of Directors or the Committee during which an Optionee may exercise a Trust Option (subject to applicable vesting limitations), commencing on the date that Trust Option is granted to that Optionee and ending no later than the date ten years thereafter;

"**Optionee**" means a director, officer, employee, consultant or other personnel of AltaGas or an affiliate thereof or a director of the General Partner who is granted a Trust Option pursuant to this Plan;

"**Optionholders**" means holders of Options;

"**Person**" shall mean any natural person, corporation, limited or unlimited liability company, general or limited partnership, firm, association, joint venture, trust, or other similar entity whether acting in an individual, fiduciary or other capacity;

"**Plan**" shall mean the AltaGas Trust Unit Option Plan as embodied herein as from time to time amended;

"**Support Agreement**" means the support agreement to be entered into on the Effective Date among AltaGas, the Trust, AltaGas Holding Trust, AltaGas Holding Limited Partnership No. 1 and AltaGas Holding Limited Partnership No. 2;

"**Trading Day**" means a day on which at least a board lot of Trust Units shall have been sold through the facilities of the relevant stock exchange;

"**Trust**" means AltaGas Income Trust;

"**Trust Option**" means an option granted by AltaGas to an Optionee entitling that Optionee to acquire a designated number of Trust Units from the Trust at a price to be determined by the Board of Directors or the Committee, pursuant to an Option Agreement and the Support Agreement;

"**Trust Option Agreement**" means the written agreement between AltaGas and an Optionee governing the grant of Trust Options to the Optionee, which agreement shall contain terms and conditions not inconsistent with the Plan and which shall incorporate the Plan by reference, as more particularly described in Section 7; and

"**Trust Units**" means trust units of the Trust and any securities of the Trust into which those Trust Units are changed, converted, subdivided, consolidated or reclassified.

3. Administration

The Plan shall be administered by the Board of Directors. The Board of Directors shall have full and final discretion to interpret the provisions of the Plan and to prescribe, amend, rescind and waive rules and regulations to govern the administration and operation of the Plan, including without limitation rules as to vesting. All decisions and interpretations made by the Board of Directors shall be binding and conclusive on the Optionees and AltaGas, subject to shareholder approval if required by any relevant stock exchange. Notwithstanding the foregoing or any other provision contained herein, the

Board of Directors shall have the right to delegate the administration and operation of the Plan to the Committee.

4. Option Exchange

As authorized by the Board of Directors, all the issued and outstanding unexercised (whether vested or unvested) Options will be acquired from the Optionholders as part of the Arrangement solely in exchange for Trust Options under this Plan on a one for one basis, subject to each such Optionholder entering into a Trust Option Agreement, with the terms of each such Trust Option being the same as the terms of the Option exchanged therefor (including the exercise price) and the terms of the applicable Trust Option Agreement being substantially the same as the terms of the applicable agreement relating to the Options being exchanged other than the substitution of a Trust Unit for each Common Share purchasable pursuant to the Option prior to the Effective Time.

5. Eligibility

The Board of Directors may at any time and from time to time designate those individuals, in addition to the Optionholders referred to in Section 4, who are to be granted Trust Options pursuant to the Plan and grant Trust Options to those Optionees. The number of authorized but unissued Trust Units that may be issued on the exercise of Trust Options granted under the Plan at any time shall not exceed 1,750,000. The Trust Options granted under the Plan together with all of AltaGas' other proposed securities compensation arrangements for employees of AltaGas and the Board of Directors, shall not result at any time in:

(a) the number of Trust Units reserved for issuance pursuant to Trust Options granted to Insiders exceeding ten percent of the issued and outstanding Trust Units and Exchangeable Securities;

(b) the issuance to Insiders within a one year period, of a number of Trust Units exceeding ten percent of the outstanding Trust Units and Exchangeable Securities; or

(c) the issuance to any individual Insider and that Insider's associates, within a one year period, of a number of Trust Units exceeding five percent of the outstanding Trust Units and Exchangeable Securities.

Appropriate adjustments shall be made as set forth in Section 11 hereof, in both the number of Trust Units covered by individual grants and the total number of Trust Units authorized to be issued hereunder, to give effect to any relevant changes in the capitalization of the Trust. Trust Units in respect of which Trust Options are not exercised will be available for subsequent Trust Options.

6. Participation

(a) Participation in the Plan shall be entirely voluntary and any decision not to participate shall not affect an Optionee's relationship or employment with AltaGas or an affiliate.

(b) Notwithstanding any express or implied term of this Plan to the contrary, the granting of a Trust Option pursuant to the Plan shall in no way be construed as a guarantee to the Optionee of employment by or a contract for services with AltaGas or an affiliate.

(c) Trust Options shall not be affected by any change of employment of the Optionee or by the Optionee ceasing to be a director or officer of AltaGas or any of its affiliates or a director of the General Partner, where the Optionee continues to be employed on a full-

time basis by, or continues to be a director or officer of, AltaGas or any of its affiliates or the General Partner.

(d) No Optionee shall have any of the rights of a holder of Trust Units in respect to Trust Units under a Trust Option until those Trust Units shall have been paid for in full and issued on exercise of a Trust Option, pursuant to this Plan and to the applicable Option Agreement.

7. Option Agreement

A written agreement will be entered into between AltaGas and each Optionee to whom a Trust Option is granted hereunder, which agreement will set out the number of Trust Units subject to option, the exercise price, vesting dates and conditions, Option Periods and any other terms and conditions approved by the Board of Directors, all in accordance with the provisions of this Plan. The Option Agreement will be in such form as the Board of Directors may from time to time approve, and may contain such terms as may be considered necessary in order that the Trust Option will comply with any provisions respecting options in the income tax or other laws in force in any country or jurisdiction of which the Optionee may from time to time be a resident or citizen or the rules of any regulatory body having jurisdiction over AltaGas or the Trust.

8. Exercise of Trust Options

(a) An Optionee shall be entitled to exercise a Trust Option granted to him at any time prior to the expiry of the Option Period, subject to vesting limitations which may be imposed by the Board of Directors in the Option Agreement at the time that Trust Option is granted.

(b) Except for a Trust Option issued on an exchange for an Option as part of the Arrangement as referred to in Section 4, the exercise price of a Trust Option granted under the Plan shall be as determined by the Board of Directors when that Trust Option is granted subject to any limitations imposed by any relevant stock exchange or regulatory authority, and shall be an amount at least equal to the Market Value of the Trust Units.

9. Optionee's Rights Not Transferable

(a) No right or interest of any Optionee in or under the Plan is assignable or transferable, in whole or in part, either directly or by operation of law or otherwise in any manner except by bequeath or the laws of descent and distribution or if so provided in the Option Agreement with the Optionee, subject to the requirements of any stock exchange on which the Trust Units are listed, or as otherwise allowed by any stock exchange on which the Trust Units are listed for trading. Any such right or interest shall be exercisable:

(i) during the lifetime of an Optionee only by that Optionee or his legal representatives; or

(ii) after the death of an Optionee or on the Optionee ceasing to be a director, officer, employee, consultant or other personnel of AltaGas or an affiliate or the General Partner, only as specified in the Option Agreement with the Optionee.

(b) Subject to the foregoing, the terms of the Plan shall bind AltaGas and each Optionee and his heirs, executors, administrators and personal representatives.

10. Takeover or Change of Control

AltaGas shall have the power, in the event of:

(a) any disposition of all or substantially all of the assets of AltaGas or the Trust, on the dissolution, merger, amalgamation or consolidation of AltaGas or the Trust, with or into any other Person, or the merger, amalgamation or consolidation of any other Person into AltaGas or the Trust; or

(b) any change in control of AltaGas or the Trust;

to amend the Option Agreement to permit the exercise of any or all of the remaining Trust Options prior to the completion of any such transaction. If AltaGas shall exercise that power, the Trust Options shall be deemed to have been amended to permit the exercise thereof in whole or in part by the Optionee at any time or from time to time as determined by AltaGas prior to the completion of such transaction.

11. Anti-Dilution of the Trust Option

In the event of:

(a) any subdivision, redivision or change of the Trust Units at any time during any Option Period into a greater number of Trust Units, AltaGas shall deliver, at the time of any exercise thereafter of the Trust Option, that number of Trust Units as would have resulted from that subdivision, redivision or change if the exercise of the Trust Option had been made prior to the date of that subdivision, redivision or change;

(b) any consolidation or change of the Trust Units at any time during the term of the Trust Option into a lesser number of Trust Units, the number of Trust Units deliverable by AltaGas on any exercise thereafter of the Trust Option shall be reduced to that number of Trust Units as would have resulted from that consolidation or change if the exercise of the Trust Option had been made prior to the date of that consolidation or change;

(c) any reclassification of the Trust Units at any time outstanding or change of the Trust Units into other securities, or in case of any transfer of the undertaking or assets of the Trust or any affiliate as an entirety or substantially as an entirety to another corporation, at any time during the term of the Trust Option, the Optionee shall be entitled to receive, and shall accept, in lieu of the number of Trust Units to which he or she was theretofore entitled on exercise of the Trust Option, the kind and amount of shares and other securities or property which that holder would have been entitled to receive as a result of such reclassification, change, consolidation, amalgamation, merger or transfer if, on the effective date thereof, he or she had been the holder of the number of Trust Units to which he or she was entitled on exercise of the Trust Option.

Adjustments shall be made successively whenever any event referred to in this Section shall occur. For greater certainty, the Optionee shall pay for the number of shares, other securities or property as aforesaid, the amount the Optionee would have paid if the Optionee had exercised the Trust Option hereby granted prior to the effective date of that subdivision, redivision, consolidation or change of the Trust Units of or that reclassification, consolidation, amalgamation, merger or transfer, as the case may be.

12. Termination and Amendment

(a) The Board of Directors may amend or terminate this Plan or any outstanding Trust Option granted hereunder at any time without the approval of the Trust, the shareholders of AltaGas or any Optionee whose Trust Option is amended or terminated, in order to conform this Plan or such Trust Option, as the case may be, to applicable law or regulation or the requirements of any relevant stock exchange or regulatory authority, whether or not that amendment or termination would affect any accrued rights, subject to the approval of that stock exchange or regulatory authority.

(b) The Board of Directors may amend or terminate this Plan or any outstanding Trust Option granted hereunder for any reason other than the reasons set forth in Section 12(a) hereof, subject to the approval of the relevant stock exchange or regulatory authority and the approval of the Trust and the shareholders of AltaGas if required by such authority. No such amendment or termination will, without the consent of an Optionee, alter or impair any rights which have accrued to him or her prior to the effective date thereof.

(c) The Plan, and any amendments thereto, shall be subject to acceptance and approval by any stock exchange on which the Trust Units may be listed. Any Trust Options granted prior to that approval and acceptance shall be conditional on that approval and acceptance being given and no such Trust Options may be exercised unless and until that approval and acceptance are given.

13. Applicable Law

This Plan shall be governed by, administered and construed in accordance with the laws of the Province of Alberta and the laws of Canada applicable therein.

14. Gender

Wherever the singular or masculine or neuter is used in this Plan, the same shall be construed as meaning the plural or feminine or body corporate and vice versa, where the context or the parties so require.

15. Costs

AltaGas shall pay all costs of administering the Plan.

16. Effective Date

This Plan shall become effective as of and from May 1, 2004 and on all necessary shareholder and regulatory approvals being provided.

SCHEDULE "A"

The following table lists all of the documents that AltaGas Income Trust ("**AltaGas**") (the successor issuer to AltaGas Services Inc. (TSX: ALA.UN)) (a) made public pursuant to the laws of the Province of Alberta or the federal laws of Canada, (b) filed with the Toronto Stock Exchange (the "**TSX**") and which was made public by such exchange, or (c) distributed to its security holders, during the last fiscal year ended December 31, 2004 and all interim periods thereafter (as required by subparagraph (1)(i) of Regulation 12g3-2(b) under the Exchange Act).

RECEIVED

ALTAGAS SERVICES INC.
NOTICE OF SPECIAL MEETING

to be held April 29, 2004

NOTICE IS HEREBY GIVEN that, pursuant to an order (the "**Interim Order**") of the Court of Queen's Bench of Alberta dated March 23, 2004, a special meeting (the "**Meeting**") of the holders of common shares ("**Common Shares**"), the holders of participating shares (the "**Participating Shares**") and the holders of options to purchase Common Shares ("**Options**") (collectively, the "**Securityholders**") of AltaGas Services Inc. ("**AltaGas**") will be held at the Metropolitan Centre, 333 – 4th Avenue S.W., Calgary, Alberta on Thursday, April 29, 2004, at 3:00 p.m. (Calgary time) for the following purposes:

(a) to consider pursuant to the Interim Order and, if thought advisable, to pass, with or without variation, a special resolution, the full text of which is set forth in Appendix A to the accompanying Information Circular and Proxy Statement dated March 26, 2004 (the "**Information Circular**") to approve a plan of arrangement (the "**Arrangement**") under section 192 of the *Canada Business Corporations Act* (the "**CBCA**");

(b) to consider and, if thought advisable, to pass, with or without variation, an ordinary resolution, the full text of which is set forth in the Information Circular, to approve a trust unit option plan, all as more particularly described in the Information Circular; and

(c) to transact such further and other business as may properly be brought before the Meeting or any adjournment thereof.

Specific details of the matters to be put before the Meeting are set forth in the Information Circular. A copy of the Arrangement Agreement in respect of the Arrangement is attached as Appendix C to the Information Circular.

The record date for determination of Securityholders entitled to receive notice of and to vote at the Meeting is March 25, 2004. Only Securityholders whose names have been entered in the register of the Securityholders on the close of business on that date and holders of Common Shares, Participating Shares or Options (collectively "**Securities**") issued by AltaGas after the record date and prior to the Meeting, will be entitled to receive notice of and to vote at the Meeting.

Registered Securityholders have the right to dissent with respect to the Arrangement and to be paid the fair value of their Securities in accordance with the provisions of section 190 of the CBCA and the Interim Order. A Securityholder's right to dissent is more particularly described in the Information Circular. **Failure to strictly comply with the requirements set forth in section 190 of the CBCA, as modified by the Interim Order, may result in the loss of any right of dissent.**

A Securityholder may attend the Meeting in person or may be represented by proxy. Securityholders who are unable to attend the Meeting or any adjournment thereof in person are requested to date, sign and return the accompanying form of proxy (GREEN for holders of Common Shares, BLUE for holders of Participating Shares and WHITE for holders of Options) for use at the Meeting or any adjournment thereof. To be effective, the enclosed proxy must be received by Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1 Attention: Proxy Department not less than 48 hours (excluding Saturdays and holidays) prior to the time set for the Meeting or any adjournment thereof.

DATED at Calgary, Alberta, this 26th day of March, 2004.

BY ORDER OF THE BOARD OF DIRECTORS OF ALTAGAS SERVICES INC.

"Dennis A. Dawson"

Dennis A. Dawson
Vice-President, General Counsel
and Corporate Secretary

THIS LETTER OF TRANSMITTAL AND ELECTION FORM IS FOR USE ONLY IN CONJUNCTION WITH THE PLAN OF ARRANGEMENT INVOLVING ALTAGAS SERVICES INC., ALTAGAS INCOME TRUST, ALTAGAS HOLDING TRUST, ALTAGAS HOLDING LIMITED PARTNERSHIP NO.1, ALTAGAS HOLDING LIMITED PARTNERSHIP NO.2, ALTAGAS SUBSIDIARY CORPORATION, ALTAGAS GENERAL PARTNER INC., CERTAIN DIRECT AND INDIRECT WHOLLY-OWNED SUBSIDIARIES OF ALTAGAS SERVICES INC., CERTAIN OTHER CORPORATIONS AND THE SECURITYHOLDERS OF ALTAGAS SERVICES INC.

LETTER OF TRANSMITTAL AND ELECTION FORM

FOR HOLDERS OF COMMON SHARES OR PARTICIPATING SHARES
of
ALTAGAS SERVICES INC.

Please read the Instructions set out below carefully before completing this Letter of Transmittal and Election Form.

TO: ALTAGAS SERVICES INC.

AND TO: ALTAGAS INCOME TRUST

AND TO: ALTAGAS HOLDING LIMITED PARTNERSHIP NO.1

AND TO: ALTAGAS HOLDING LIMITED PARTNERSHIP NO.2

AND TO: COMPUTERSHARE TRUST COMPANY OF CANADA, AS DEPOSITORY

This Letter of Transmittal and Election Form (the "**Letter of Transmittal and Election Form**") is for use by holders of common shares ("**Common Shares**") and holders of participating shares ("**Participating Shares**") of AltaGas Services Inc. ("**AltaGas**") (collectively referred to herein as "**Shareholders**") in connection with the proposed arrangement ("**Arrangement**") involving AltaGas, AltaGas Income Trust, AltaGas Holding Trust, AltaGas Holding Limited Partnership No.1 ("**AltaGas LP #1**"), AltaGas Holding Limited Partnership No.2 ("**AltaGas LP #2**"), AltaGas Subsidiary Corporation, AltaGas General Partner Inc. (the "**General Partner**"), certain direct and indirect wholly-owned subsidiaries of AltaGas, certain other corporations and the Securityholders of AltaGas pursuant to an Arrangement Agreement dated as of March 26, 2004, a copy of which is attached as Appendix C to the Information Circular and Proxy Statement ("**Information Circular**") of AltaGas dated March 26, 2004.

Capitalized terms used but not defined in this Letter of Transmittal and Election Form shall have the meanings given to them in the Information Circular.

The undersigned delivers to you the enclosed certificate(s) representing Common Shares and Participating Shares of AltaGas, as applicable, to be exchanged pursuant to the within election in accordance with the Plan described in the Information Circular.

DESCRIPTION OF CERTIFICATES DEPOSITED		
Certificate Number(s)	**Name in which Common Shares and Participating Shares, as applicable, are Registered**	**Number of Common Shares and Participating Shares, as applicable**
	TOTAL:	

(If space is not sufficient, please attach a list in the above form)

ELECTION

Pursuant to the Arrangement, the undersigned holder of Common Shares and Participating Shares, as applicable, hereby elects to receive on completion of the Arrangement **(please check one of the following options, and, if you check Option A, please also select the amount of Trust Units you are electing to receive and provide the information required in Box E)**:

☐ ***Option A – Mixed Consideration*** **(Shareholders other than Enbridge)**

Provide $_____ in value of Trust Units (which amount must not be less than the ACB set forth in Box E) and the remainder in LP #1 B Units, OR

☐ ***Option A – Mixed Consideration*** **(Enbridge only)**

Provide $_____ in value of Trust Units (which amount must not be less than the ACB set forth in Box E) and the remainder in LP #2 B Units,

in exchange for the Common Shares and Participating Shares, as applicable, deposited by the undersigned hereunder, such that the aggregate number of Trust Units and LP #1 B Units or LP #2 B Units, as applicable, issued to the undersigned is equivalent to the number of Trust Units that would otherwise have been issued if the Shareholder had selected Option B;

OR

☐ ***Option B – Trust Unit Consideration*** **(All Shareholders)** – one Trust Unit for every Common Share and one Trust Unit for every Participating Share, as applicable, deposited by the undersigned hereunder.

If you select Option A you MUST complete Boxes D and E of this Letter of Transmittal and Election Form.

NON-RESIDENT AND TAX-EXEMPT SHAREHOLDERS MUST SELECT OPTION B.

Where no election is made or where the election is not properly made, the depositing Shareholder will be deemed to have elected to receive on completion of the Arrangement Option B (Trust Unit Consideration) for all of the Common Shares and Participating Shares, as applicable, deposited by the undersigned hereunder.

The election may have material income tax consequences and, as a result, holders of Common Shares and Participating Shares, as applicable, are urged to consult their tax advisor as to their election.

Maximum Limits of Exchangeable Securities

The value of the LP #1 B Units or LP #2 B Units, as the case may be, that an Eligible Securityholder is entitled to receive pursuant to the Arrangement cannot in any event exceed the Securityholder's Gain Amount. In addition, the maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a fair market value not to exceed a threshold to be specified by AltaGas which threshold is expected to be approximately $450 million (the "**Aggregate Permitted Exchange Amount**"). If Eligible Securityholders elect pursuant to Option A to receive such number of Exchangeable Securities as would result in the fair market value of Exchangeable Securities being issued being greater than the Aggregate Permitted Exchange Amount, a Securityholder's value of Exchangeable Securities issued to the Eligible Securityholder will be reduced to that lesser amount as is calculated through a pro-rationing methodology determined in good faith by the AltaGas Directors to be appropriate in the circumstances and in compliance with all applicable laws (as defined in the Information Circular), rounded upward to the nearest whole multiple of the Common Share Fair Market Value. Shareholders will receive Trust Units in lieu of LP #1 B Units or LP #2 B Units, as the case may be, to the extent their entitlement to LP #1 B Units or LP #2 B Units, as the case may be, has been reduced through such pro-rationing methodology.

Information for Shareholders who Elect to Receive Exchangeable Securities

By checking Box D under the heading "*Exchangeable Security Certification*" and completing Box E under the heading "*Adjusted Cost Base*", the undersigned: (i) represents that the undersigned is a Resident; (ii) represents that the undersigned is not Tax-Exempt; (iii) acknowledges that attached to this Letter of Transmittal and Election Form as Schedule "A" is the appropriate tax election under subsection 97(2) of the Tax Act; (iv) will send two (2) copies of the tax election attached as Schedule "A" to this Letter of Transmittal and Election Form, duly completed and executed in its capacity as the "transferor" thereunder, to the Depository so that they are received by the Depository no later than 90 days following the Effective Date; and (v) acknowledges that none of the addressees above (A) has made any representation as to the tax or other consequences of utilizing the Mixed Consideration Election, or (B) bears any responsibility for the completeness or accuracy of any form to be filed with any governmental authority in respect of this election or for the timely filing of such form (including any late filing penalties). With the exception of execution of the tax election by AltaGas LP #1 or AltaGas LP #2, as the case may be, and the filing of such tax election with the Canada Customs and Revenue Agency within 120 days of the Effective Date (provided that the undersigned otherwise complies with subparagraph (iv) above), compliance with the requirements for valid tax elections will be the sole responsibility of the Shareholder making the election. Accordingly, AltaGas LP #1 or AltaGas LP #2, as the case may be, AltaGas, the Trust and the Depository will not be responsible or liable for taxes, interest, penalties, damages or expenses resulting from the failure of anyone to properly complete any election or properly file it within the time prescribed and in the form prescribed under the Tax Act (or the corresponding provisions of any applicable provincial tax legislation).

Shareholders are cautioned that the use of such an election may not be appropriate for all Shareholders and that such an election may have income tax or other consequences to such person, including restrictions on the ability of the holder to transfer the Exchangeable Securities. No opinion has been obtained by AltaGas or the Trust as to the tax consequences of such election to a particular Shareholder and neither AltaGas nor the Trust is providing any representation as to the tax consequences of such an election. Shareholders are urged to consult their own legal and tax advisors with respect to the consequences (tax and otherwise) associated with electing this alternative.

Unless otherwise indicated under Special Registration Instructions or Special Delivery Instructions on page 6 (in which case payment or delivery should be made in accordance with those instructions), the certificate(s) for Trust Units, or Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, should be issued in the

name of the undersigned and forwarded to the undersigned at the address specified below the signature of the undersigned (or if no such address or delivery instructions are made, to the latest address of record on AltaGas' share register). If the Arrangement is not completed and the Arrangement Agreement is terminated or AltaGas terminates its obligations thereunder pursuant to its terms, the undersigned directs the Depository to return the enclosed certificate(s) in accordance with the instructions in the preceding sentence.

Non-registered holders of Common Shares should contact their nominee (i.e. broker, trust company, bank or other registered holder) which holds their Common Share certificates on their behalf to arrange for their exchange.

No fractions of Trust Units, LP #1 B Units or LP #2 B Units will be issued in exchange for Common Shares and Participating Shares pursuant to the Arrangement. In lieu of any fractional Trust Units, LP #1 B Units or LP #2 B Units, each Shareholder otherwise entitled to a fraction of a Trust Unit, LP #1 B Unit or LP #2 B Unit will have such entitlement rounded upward to the nearest whole number. If more than one certificate formerly representing Common Shares or Participating Shares, as the case may be, is surrendered for the account of the same holder, the number of Trust Units, or Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, for which such certificates have been surrendered shall be computed on the basis of the aggregate number of Common Shares and Participating Shares, as applicable, represented by the certificates surrendered.

The undersigned:

1. represents and warrants that the undersigned is the legal owner of the above listed Common Shares and Participating Shares, as applicable, has good title to the rights represented by the above mentioned certificates, free and clear of all liens, charges, encumbrances, claims and equities and together with all rights and benefits, and has full power and authority to deliver such certificates;

2. represents and warrants that the certificate(s) described below, together with any other certificates submitted with a separate Letter of Transmittal and Election Form as required by the attached instructions, represents all of the Common Shares and Participating Shares, as applicable, owned by the undersigned;

3. acknowledges receipt of the Information Circular dated March 26, 2004;

4. represents and warrants that the undersigned has full power and authority to make the elections herein and unless the undersigned shall have revoked this election by notice in writing given to the Depository not later than 4:30 p.m. (Calgary time) on the Election Deadline, as defined in Instruction 1, the undersigned will not, prior to such time, transfer or permit to be transferred any of such Common Shares and Participating Shares, as applicable;

5. directs the Depository to issue or cause to be issued the Trust Units, or the Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, to which the undersigned is entitled on completion of the Arrangement in the name indicated below, and to send the Trust Units, or the Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, to the address, or hold the same for pickup, as indicated in this Letter of Transmittal and Election Form, unless otherwise indicated under Special Registration Instructions or Special Delivery Instructions on page 6;

6. covenants and agrees to execute, upon request, any additional documents, transfers and other assurances as may be necessary or desirable to complete the exchange of certificate(s) representing Common Shares and Participating Shares, as applicable, for certificate(s) representing Trust Units, or Trust Units and LP #1 B Units or LP #2 B Units, as the case may be;

7. acknowledges that all authority conferred or agreed to be conferred by the undersigned herein may be exercised during any subsequent legal incapacity of the undersigned and shall survive the death or incapacity, bankruptcy or insolvency of the undersigned and all obligations of the undersigned herein

shall be binding upon the heirs, personal representatives, successors and assigns of the undersigned; and

8. if applicable, authorizes the General Partner, as general partner of AltaGas LP #1and AltaGas LP #2, as the case may be, to execute the appropriate tax election under subsection 97(2) of the Tax Act on behalf of each person who is a member of AltaGas LP #1 or AltaGas LP #2, as the case may be.

BOX D
EXCHANGEABLE SECURITY CERTIFICATION

The Shareholder certifies that the Shareholder:

☐ is a Resident; and

☐ is not exempt from tax under Part I of the Tax Act.

Any Shareholder failing to check both of the above boxes will be deemed to have elected to receive Option B (Trust Unit Consideration) pursuant to the Arrangement.

BOX E
ADJUSTED COST BASE

The adjusted cost base (or the mean average of the adjusted cost bases, as the case may be) of the Common Shares and Participating Shares, if applicable, deposited by the Shareholder hereunder is/are $ _____.

INSTRUCTIONS

1. Elections.

To receive the Mixed Consideration or the Trust Unit Consideration, holders of Common Shares and Participating Shares, as applicable, must deposit with the Depository (at the address specified on the last page hereof) on or before 4:30 p.m. (Calgary time) April 26, 2004 (the "**Election Deadline**"), a duly completed Letter of Transmittal and Election Form indicating the election to receive the Mixed Consideration or the Trust Unit Consideration for their Common Shares and Participating Shares, as applicable, together with the certificate(s) representing those Common Shares and Participating Shares.

Where no election is made or where the election is not properly made, the depositing holder of Common Shares and Participating Shares, as applicable, will be deemed to have elected to receive on completion of the Arrangement Option B (Trust Unit Consideration) for all of the Common Shares and Participating Shares, as applicable, deposited by the undersigned hereunder. The election may have material income tax consequences and, as a result, holders of Common Shares and Participating Shares, as applicable, are urged to consult their tax advisor as to their election.

The value of the LP #1 B Units or LP #2 B Units, as the case may be, that an Eligible Securityholder is entitled to receive pursuant to the Arrangement cannot in any event exceed the Securityholder's Gain Amount. In addition, the maximum number of Exchangeable Securities that may be issued will be that number which in the aggregate has a fair market value not to exceed the Aggregate Permitted Exchange Amount. If Eligible Securityholders elect pursuant to Option A to receive such number of Exchangeable Securities as would result in the fair market value of Exchangeable Securities being issued being greater than the Aggregate Permitted Exchange Amount, a Securityholder's value of Exchangeable Securities issued to the Eligible Securityholder will be reduced to that lesser amount as is calculated through a pro-rationing methodology determined in good faith by the AltaGas Directors to be appropriate in the circumstances and in compliance with all applicable laws (as defined in the Information Circular), rounded upward to the nearest whole multiple of the Common Share Fair Market Value. Shareholders will receive Trust Units in lieu of LP #1 B Units or LP #2 B Units, as the case may be, to the extent their entitlement to LP #1 B Units or LP #2 B Units, as the case may be, has been reduced through such pro-rationing methodology.

Holders of Common Shares or Participating Shares who do not deposit with the Depository a duly completed Letter of Transmittal and Election Form on or before the Election Deadline and otherwise fully comply with the requirements of the Letter of Transmittal and Election Form and these instructions in respect of an election to receive the Mixed Consideration or the Trust Unit Consideration will be deemed to have elected to receive on completion of the Arrangement the Trust Unit Consideration for their Common Shares and Participating Shares, as applicable.

2. Non-Resident or Tax Exempt Shareholders

Holders of Common Shares who are not resident in Canada for purposes of the Tax Act or who are exempt from tax under Part I of the Tax Act cannot elect to receive the Mixed Consideration. Those Shareholders may only receive the Trust Unit Consideration. Holders of Common Shares who are not resident in Canada for purposes of the Tax Act or who are exempt from tax under Part I of the Tax Act must complete the Letter of Transmittal and Election Form and enclose the certificate(s) representing their Common Shares in order to receive the Trust Unit Consideration.

3. Use of Letter of Transmittal and Election Form.

(a) This Letter of Transmittal and Election Form (or a manually executed copy hereof) properly completed and signed as required by the instructions set forth below, together with accompanying certificates representing the Common Shares and Participating Shares, as applicable, and all other documents required by the terms of the Plan and this Letter of Transmittal and Election Form must be received by the Depository at the office specified on the back page of this document.

(b) The method used to deliver this Letter of Transmittal and Election Form and any accompanying certificates representing Common Shares and Participating Shares, as applicable, and all other required documents is at the option and risk of the person depositing the same, and delivery will be deemed effective only when such documents are actually received. It is recommended that the necessary documentation be hand delivered to the Depository at any of their offices specified on the back page of this document, and a receipt obtained. However, if such documents are mailed, it is recommended that registered mail be used and that proper insurance be obtained. **Shareholders whose Common Shares and Participating Shares, as applicable, are registered in the name of a nominee should contact their stockbroker, investment dealer, bank, trust company or other nominee for assistance in depositing those Common Shares and Participating Shares, as applicable.**

4. **Special Registration and Delivery Instructions.** The boxes entitled "*Special Registration Instructions*", "*Special Delivery Instructions*" and "*Hold for Pickup*", as applicable, should be completed if the certificate(s) for the Trust Units, or Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, to be issued pursuant to the Arrangement is to be: (a) issued in the name of a person other than the person signing the Letter of Transmittal and Election Form; (b) sent to someone other than the person signing the Letter of Transmittal and Election Form or sent to the person signing the Letter of Transmittal and Election Form at an address other than that appearing below that person's signature; or (c) held by the Depository for pick-up. See also Instruction 6 below.

5. **Signatures.** This Letter of Transmittal and Election Form must be completed and signed by the holder of Common Shares and Participating Shares, as applicable, or by such holder's duly authorized representative (in accordance with Instruction 7 below).

(a) If this Letter of Transmittal and Election Form is signed by the registered owner(s) of the accompanying certificate(s), such signature(s) on this Letter of Transmittal and Election Form must correspond with the name(s) as registered or as written on the face of such certificate(s) without any change whatsoever, and the certificate(s) need not be endorsed. If such transmitted certificate(s) are owned of record by two or more joint owners, all such owners must sign the Letter of Transmittal and Election Form.

(b) If this Letter of Transmittal and Election Form is signed by a person other than the registered owner(s) of the Common Shares and Participating Shares, as applicable, or if Trust Units, or Trust Units and LP #1 B Units or LP #2 B Units, as the case may be, are to be issued to a person other than the registered holder(s):

(i) such deposited certificate(s) must be endorsed or be accompanied by an appropriate share transfer power of attorney duly and properly completed by the registered owner(s); and

(ii) the signature(s) on such endorsement or power of attorney must correspond exactly to the name(s) of the registered owner(s) as registered or as appearing on the certificate(s) and must be guaranteed as noted in Instruction 6 below.

6. **Guarantee of Signatures.** If this Letter of Transmittal and Election Form is executed by a person other than the registered owner(s) of the Common Shares or Participating Shares, such signature must be guaranteed by an Eligible Institution, or in some other manner satisfactory to the Depository (except that no guarantee is required if the signature is that of an Eligible Institution).

An "Eligible Institution" means a Canadian schedule 1 chartered bank, a major trust company in Canada, a member of the Securities Transfer Association Medallion Program (STAMP), a member of the Stock Exchanges Medallion Program (SEMP) or a member of the New York Stock Exchange Inc. Medallion Signature Program (MSP). Members of these programs are usually members of a recognized stock exchange in Canada or the United States, members of the Investment Dealers

Association of Canada, members of the National Association of Securities Dealers or banks and trust companies in the United States.

7. **Fiduciaries, Representatives and Authorizations.** Where this Letter of Transmittal and Election Form or any certificate or share transfer or power of attorney is executed by a person as an executor, administrator, trustee, guardian, attorney-in-fact or agent or on behalf of a corporation, partnership or association or is executed by any other person acting in a fiduciary or representative capacity, this Letter of Transmittal and Election Form must be accompanied by satisfactory evidence of the authority to act. The Depository, at its discretion, may require additional evidence of authority or additional documentation.

8. **Miscellaneous.**

   (a) If the space on this Letter of Transmittal and Election Form is insufficient to list all certificates for Common Shares and Participating Shares, as applicable, additional certificate numbers and number of Common Shares and Participating Shares, as applicable, may be included on a separate signed list affixed to this Letter of Transmittal and Election Form.

   (b) If Common Shares and Participating Shares, as applicable, are registered in different forms (e.g. "John Doe" and "J. Doe") a separate Letter of Transmittal and Election Form should be signed for each different registration.

   (c) No alternative, conditional or contingent deposits will be accepted. All depositing Shareholders by execution of this Letter of Transmittal and Election Form (or a copy thereof) waive any right to receive any notice by the Depository.

   (d) The holder of the Common Shares and Participating Shares, as applicable, covered by this Letter of Transmittal and Election Form hereby unconditionally and irrevocably attorns to the non-exclusive jurisdiction of the courts of the Province of Alberta and the courts of appeal therefrom.

   (e) Additional copies of the Letter of Transmittal and Election Form may be obtained on request and without charge from the Depository at any of their offices at the addresses listed on the back page of this document.

9. **Lost Certificates.** If a share certificate has been lost or destroyed, this Letter of Transmittal and Election Form should be completed as fully as possible and forwarded, together with a letter describing the loss, to the Depository. The Depository will respond with the replacement requirements, which must be properly completed and returned prior to effecting the exchange. If a share certificate has been lost or destroyed, please ensure that you provide your telephone number to the Depository so that they may contact you.

SCHEDULE "A"

[See Attached]

Canada Customs and Revenue Agency | Agence des douanes et du revenue du Canada

ELECTION ON DISPOSITION OF PROPERTY BY A TAXPAYER TO A CANADIAN PARTNERSHIP

- For use by a taxpayer and a Canadian partnership (where the taxpayer is a member of the partnership immediately after the transfer) to jointly elect under subsection 97(2).
- File one completed copy of the election and related schedules (if any) as follows:
  - by the taxpayer who is the sole transferor or, where the transferor is a partnership, by an authorized member of the partnership or, where the property being transferred is held in co-ownership, one copy by each co-owner;
  - a list containing the name, address, and social insurance number or Business Number of each transferor and of each transferee (including each member of a transferor partnership and each member of a partnership which is itself a member of either the transferor or the transferee partnership);
  - on or before the earlier date on which any party to the election has to file an income tax return for the taxation year in which the transaction occurred, taking into consideration any election under subsection 99(2) (due date);
  - at the tax centre where the transferor's income tax return is normally filed; and
  - separate from any tax returns. You may put it in the same envelope with a return, but do not insert it in or attach it to the return.
- Sections, subsections, and paragraphs on this form are from the *Income Tax Act*.

Do not use this area

Name of taxpayer (transferor) (print)									Social insurance number or Business Number
Address									Postal Code
Taxation year of taxpayer from	Year	Month	Day	to	Year	Month	Day	Tax services office	

Name of partnership (transferee) (print)									Business Number or Social insurance Number
Address									Postal Code
Taxation year of partnership from	Year	Month	Day	to	Year	Month	Day	Tax services office	
Name of person to contact for more information								Area code	Telephone number

Penalty for late-filed and amended elections

An election that is filed after its due date is subject to a late-filing penalty. Form T2059 can be filed within 3 years after its due date if an estimate of the penalty is paid at the time of filing. Form T2059 can be amended or filed after the 3-year period, but in these situations, attach both an estimate of the penalty and a written submission for consideration by the Minister, explaining the reason why the election is amended or late.

Do not use this area

Calculation of late-filing penalty:

Fair market value of property transferred ..... _____

Less: agreed amount ..... _____

Difference ..... _____ A

Amount A _____ x ¼ x 1% x N* ..... = _____ B

$100 x N* = ... = _____ C

N* represents the sum of each month or each part of a month in the period from the due date to the actual filing date. Amount C cannot exceed $8,000.

Late-filing penalty is the lesser of B and C above ..... _____

Make cheque or money order payable to the Receiver General. Specify "T2059" on the remittance, and indicate the name and social insurance number of the taxpayer or Business Number if a corporation, whose account will be created .....

Amount enclosed _____

Unpaid amounts, including late-filing penalties are subject to daily compound interest at a prescribed rate.

Information required

On the opposite page, list, describe and state the fair market value of properties transferred. The description and fair market value of the consideration received has to be shown opposite the related property transferred. Where the transferred property is a partnership interest, attach a schedule of the calculation of the adjusted cost base. If *space on the form is insufficient, attach schedules giving similar details. You have to designate the order of disposition of each depreciable property. With this election, you* do not have to file the following materials: schedules supporting this designation, documentation relating to the responses to the questions below, and a brief summary of the method of evaluating the fair market value of each property transferred. However, you have to keep them as Canada Customs and Revenue Agency may ask to see them at a later date.

Is there a written agreement relating to this transfer? ☐ yes ☐ no
Does a price adjustment clause involved apply to any of the properties? (See Interpretation Bulletin IT-169 for details.) ☐ yes ☐ no
Is the taxpayer a non-residents of Canada? ☐ yes ☐ no
Are any of the transferred properties capital properties? ☐ yes ☐ no
If "yes",
- have they been owned continuously since Valuation Day (V-Day)? ☐ yes ☐ no
- have they been acquired after V-Day in a transaction considered not to be at arm's length? ☐ yes ☐ no
- since V-Day, has the taxpayer or any person from whom shares were acquired in a non-arm' length transaction received any subsection 83(1) dividends for the transferred shares? (If yes, provide details of amounts and dates received, and attach a schedule.) ☐ yes ☐ no

Is the agreed amount of any of the transferred properties based on an estimate of the fair market value on V-Day? ☐ yes ☐ no
If "yes", does a formal documented V-Day value report exist? ☐ yes ☐ no
Has an election under subsection 26(7) of the *Income Tax Application Rules* (Form T2076) been filed by or on behalf of the taxpayer? ☐ yes ☐ no

Where shares of the capital stock of a private corporation are included in the property disposed of, provide the following:

Name of corporation (print)	Business Number	Paid-up capital of shares transferred

Informative notes

- The rules for subsection 97(2) elections are complex. Essential information is contained in Interpretation Bulletins IT-169, IT-291 and IT-413.
- For this election to be considered valid, you have to complete all information areas and answer all questions. If incomplete, Canada Customs and Revenue Agency will consider the election invalid, and subsequent submissions will be subject to a late-filing penalty.

Particulars of property disposed of and consideration received

Date of sale or transfer of all properties listed below:	Year	Month	Day	Note: For properties sold or transferred on different dates use separate Form T2059.

Property disposed of				Agreed amount B	Amount to be reported B-A (if greater than 0, see note 4)	Consideration received	
		Elected amount limits *					
	Description	Fair market value	A			Description	Fair market value
Capital property excluding depreciable property	(Brief legal)		(see note 1)				
Depreciable property	(Description and prescribed class)		(see note 2)				
Eligible capital property	(Kind)		(see note 3)				
Inventory	(Kind)		(cost amount)				
Resource property	(Brief legal)		nil				
			nil				
			nil				

Notes

1. Adjusted cost base (subject to adjustment per section 53).

2. The lesser of undepreciated capital cost of all property of the class and the cost of the property.

3. The lesser of 4/3 x cumulative eligible capital and the cost of the property. Use "2" instead of "4/3" for disposition in taxation years starting before July 1, 1988, in the case of a corporation or for dispositions in fiscal periods starting before January 1, 1988, in any other case.

4. This amount is to be reported either as a capital gain or as income, whichever applies. Also, in the case of depreciable property and eligible capital property, a portion of the amount may have to be reported as a capital gain while another portion of the amount may have to be reported as income.

* See Interpretation Bulletin IT-291 for an explanation of the limits.

Election and certification

The taxpayer and all members of the partnership hereby jointly elect under subsection 97(2) in respect of the property specified above and certify that the information given in this election, and in any documents attached, is true, correct, and complete to the best of their knowledge.

Date _____ Signature of transferor or authorized signing officer * _____ and Signature of authorized officer of transferee * _____

* Attach a copy of the authorized agreement.

THIS IS NOT A LETTER OF TRANSMITTAL

NOTICE OF GUARANTEED DELIVERY

for Common Shares
of
ALTAGAS SERVICES INC.

To be deposited pursuant to the Information Circular and Proxy Statement dated March 26, 2004

The terms and conditions of the arrangement agreement dated as of March 26, 2004, among AltaGas Services Inc. ("**AltaGas**"), AltaGas Income Trust, AltaGas Holding Trust, AltaGas General Partner Inc., AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2, AltaGas Subsidiary Corporation and each of AltaGas Suffield Pipeline Inc., AltaGas Liquids Inc., AltaGas (Sask.) Inc., Cedar Energy Inc., AltaGas Transmission Ltd., AltaGas Marketing Inc., Alberta Compression Rental Services Inc. and AltaGas Energy Processors Inc. pursuant to which the parties thereto have proposed to implement an arrangement under the provisions of Section 192 of the *Canada Business Corporations Act* (the "**Arrangement Agreement**"), a copy of which is attached as Appendix C to the Information Circular and Proxy Statement of AltaGas dated March 26, 2004 (the "**Information Circular**") are incorporated by reference in this Notice of Guaranteed Delivery. Capitalized terms used, but not defined in, this Notice of Guaranteed Delivery which are defined in the Arrangement Agreement, shall have the respective meanings set out in the Arrangement Agreement.

If a Common Shareholder wishes to elect to receive Trust Units and AltaGas LP #1 B Units in exchange for its Common Shares pursuant to the Arrangement and (i) the certificate(s) representing the Common Shares are not immediately available, or (ii) such Common Shareholder is not able to deliver such certificate(s) and all other required documents to the Depository at or prior to 4:30 p.m. (Calgary time) on April 26, 2004 (the "**Election Deadline**"), such Common Shares may nevertheless be deposited pursuant to the Arrangement by utilizing the procedures contemplated by this Notice of Guaranteed Delivery provided that all of the following conditions are met:

1. such deposit is made by or through an Eligible Institution;

2. a properly completed and duly executed copy of this Notice of Guaranteed Delivery, or a manually signed facsimile hereof, is received at the office in Calgary listed below, at or prior to the Election Deadline; and

3. the certificate(s) representing deposited Common Shares in proper form for transfer, together with a properly completed and duly executed Letter of Transmittal and Election Form, or a manually signed facsimile thereof, covering the Common Shares and all other documents required by the Letter of Transmittal and Election Form, are received at the office in Calgary listed below at or before 4:30 p.m. (Calgary time) on the fifth trading day on the TSX after the Election Deadline.

The Notice of Guaranteed Delivery may be delivered by hand, transmitted by facsimile transmission or mail to the Calgary office listed below at or prior to the Election Deadline and must be guaranteed by an Eligible Institution in the form set forth below.

AltaGas NEWS RELEASE

RECEIVED
2004 JUN 10 P 3:13

ALTAGAS ANNOUNCES FIRST MONTHLY DISTRIBUTION

Calgary, Alberta (April 29, 2004) -- AltaGas Services Inc. announced today that AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and partnership units that are exchangeable into Trust Units (Exchangeable Units) of record on May 25, 2004. The amount of the distribution will be $0.15 for each Trust Unit and each Exchangeable Unit.

The commencement of distributions is subject to court approval expected to occur on April 30, 2004 to effect the reorganization of the business of AltaGas Services Inc. into AltaGas Income Trust. The reorganization is pursuant to a Plan of Arrangement expected to be effective May 1, 2004.

Subject to receipt of approvals from the Toronto Stock Exchange (TSX) and the fulfillment of certain requirements of that exchange, AltaGas Trust Units will trade on the TSX under the symbol of "ALA.UN". It is anticipated that trading under the new symbol will begin on or about May 5, 2004. Prior to the commencement of trading of the Trust Units, the Common Shares of AltaGas will continue to trade on the TSX under the symbol of "ALA." AltaGas Income Trust will have approximately 34.1 million Trust Units issued and outstanding. In addition, under the Plan of Arrangement there will be approximately 11.8 million Exchangeable Units that are exchangeable into Trust Units on a one-for-one basis. On April 29, 2004, AltaGas Services Inc.'s closing share price on the TSX was $21.00 per share.

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has over $900 million of assets and a market capitalization of over $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

When used in this press release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. AltaGas NEWS RELEASE

(26)

AltaGas Services Inc. Announces Completion of Reorganization into an Income Trust

CALGARY, Alberta, (May 1, 2004) – AltaGas Services Inc. ("AltaGas") announced today the successful completion of the reorganization of its business into AltaGas Income Trust. AltaGas securityholders voted 99.9% in favour of the resolution approving the Plan of Arrangement to effect the reorganization at a special meeting of securityholders on April 29, 2004. The reorganization was approved by the Court of Queen's Bench of Alberta on April 30, 2004. The reorganization pursuant to the Plan of Arrangement was effected on May 1, 2004.

Pursuant to the Plan of Arrangement, AltaGas Income Trust currently has approximately 33.7 million Trust Units issued and outstanding. In addition, under the Plan of Arrangement eligible AltaGas securityholders also received a total of 12.2 million limited partnership units ("Exchangeable Securities") that are exchangeable into Trust Units on a one-for-one basis. Elections by eligible securityholders for Exchangeable Securities were for less than the maximum number that were available under the Plan of Arrangement. Accordingly no pro rating of Exchangeable Securities was required.

AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units of record on May 25, 2004. The amount of the distribution on that date will be $0.15 for each Trust Unit and each Exchangeable Security. Subject to receipt of approvals from the Toronto Stock Exchange and the fulfillment of certain requirements of that exchange, the Trust Units will trade on the Toronto Stock Exchange under the symbol of "ALA.UN". It is anticipated that trading under the new symbol will begin on or about May 5, 2004. Prior to the commencement of trading of the Trust Units, the Common Shares of AltaGas will continue to trade on the Toronto Stock Exchange under the symbol ALA.

AltaGas moves energy from its source to the end user, adding value through the process. AltaGas has over $900 million of assets and a market capitalization of over $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and is distributing natural gas in Nova Scotia through its interest in Heritage Gas Limited. AltaGas provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas **NEWS RELEASE**

AltaGas Services Inc. Announces Completion of Reorganization into an Income Trust

CALGARY, Alberta, (May 1, 2004) – AltaGas Services Inc. ("AltaGas") announced today the successful completion of the reorganization of its business into AltaGas Income Trust. AltaGas securityholders voted 99.9% in favour of the resolution approving the Plan of Arrangement to effect the reorganization at a special meeting of securityholders on April 29, 2004. The reorganization was approved by the Court of Queen's Bench of Alberta on April 30, 2004. The reorganization pursuant to the Plan of Arrangement was effected on May 1, 2004.

Pursuant to the Plan of Arrangement, AltaGas Income Trust currently has approximately 33.7 million Trust Units issued and outstanding. In addition, under the Plan of Arrangement eligible AltaGas securityholders also received a total of 12.2 million limited partnership units ("Exchangeable Securities") that are exchangeable into Trust Units on a one-for-one basis. Elections by eligible securityholders for Exchangeable Securities were for less than the maximum number that were available under the Plan of Arrangement. Accordingly no pro rating of Exchangeable Securities was required.

AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units of record on May 25, 2004. The amount of the distribution on that date will be $0.15 for each Trust Unit and each Exchangeable Security. Subject to receipt of approvals from the Toronto Stock Exchange and the fulfillment of certain requirements of that exchange, the Trust Units will trade on the Toronto Stock Exchange under the symbol of "ALA.UN". It is anticipated that trading under the new symbol will begin on or about May 5, 2004. Prior to the commencement of trading of the Trust Units, the Common Shares of AltaGas will continue to trade on the Toronto Stock Exchange under the symbol ALA.

AltaGas moves energy from its source to the end user, adding value through the process. AltaGas has over $900 million of assets and a market capitalization of over $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and is distributing natural gas in Nova Scotia through its interest in Heritage Gas Limited. AltaGas provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase arrangements.

AltaGas - News Release

AltaGas Generates Record First Quarter Earnings of $11.0 million

CALGARY, Alberta – May 12, 2004 - TSX: ALA.UN

FIRST QUARTER 2004 HIGHLIGHTS

(All financial figures are in Canadian dollars unless otherwise stated.)

- AltaGas Services Inc. delivered record first quarter net income of $11.0 million or $0.24 per share, compared to $10.2 million or $0.23 per share for the same period of 2003. Net income growth for the first quarter of 2004 reflects increased throughput in the Gathering and Processing and Energy Services segments, partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

- Funds generated from operations for the first quarter of 2004 were $21.6 million compared to $21.9 million the first quarter of 2003. These cash flows were used to fund investment of $18.4 million, dividends of $5.1 million and reduce AltaGas Services Inc.'s total debt by $2.6 million during the quarter. As a result of the debt reduction, AltaGas Services Inc.'s debt to total capitalization ratio decreased to 51.5 percent from 52.2 percent at December 31, 2003.

- Commenting on the quarter, David Cornhill, Chairman and Chief Executive Officer, said "We had a very solid first quarter in all of our businesses. Producers have been extremely active in many of AltaGas' operating areas and we have seen the result of this activity in record tie-in rates for the quarter." Mr. Cornhill added, "We expect pricing and operations to improve in all of our segments and that, looking forward, every quarter this year will surpass last year."

- On April 29, 2004, the securityholders of AltaGas Services Inc. voted 99.9 percent in favour of a plan of arrangement to reorganize the business of AltaGas Services Inc. into an income trust called AltaGas Income Trust (Trust). The plan of arrangement was approved by the Court of Queen's Bench of Alberta on April 30, 2004, and was effected on May 1, 2004. The Plan of Arrangement allowed for securityholders to receive either Trust Units or limited partnership units (Exchangeable Units) that are exchangeable into Trust Units on a one-for-one basis. The Trust currently has approximately 33.7 million Trust Units and 12.2 million Exchangeable Units issued and outstanding. The income trust structure will allow the Trust to reduce future cash tax liability at the corporate level thereby increasing the amount of cash available for distribution to unitholders.

- The Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and Exchangeable Units of record on May 25, 2004. The amount of the distribution on that date will be $0.15 for each Trust Unit and each Exchangeable Unit. The Trust's Units began trading on May 5, 2004 on the Toronto Stock Exchange (TSX) under the trading symbol ALA.UN. The Exchangeable Units do not trade on the TSX.

- Commenting on the re-organization, David Cornhill, Chairman and Chief Executive Officer, said, "On April 1, 2004, AltaGas Services Inc. celebrated its tenth anniversary as an operating company. We are very proud of the value we have created over the past ten years and we are confident that our change in structure will enhance the value creation opportunities that AltaGas is pursuing. As AltaGas Income Trust, our discipline will continue and our fundamental business strategy will remain the same, based on the acquisition and expansion of infrastructure-based midstream assets. We expect to continue to be efficiently managed by the same qualified team of professionals that has grown AltaGas into a leader in the Canadian midstream industry. We will remain financially conservative, focused on operational excellence, and we will continue to grow our business."

- On March 18, 2004, AltaGas Services Inc. announced that it has entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The acquisition, expected to close during the second quarter of 2004, will increase AltaGas' net extraction processing capacity to 539 Mmcf/d.

CONSOLIDATED FINANCIAL HIGHLIGHTS

	Three Months Ended March 31	
($ millions)	**2004**	2003[4]
Revenue	**193.5**	203.4
Net revenue [1]	**57.2**	54.4
EBITDA [2]	**31.2**	30.7
Net income	**11.0**	10.2
Funds generated from operations	**21.6**	21.9

	Three Months Ended March 31	
Results per share (dollars except number of shares)	**2004**	2003[4]
EBITDA [2]	**0.68**	0.68
Net income	**0.24**	0.23
Funds generated from operations	**0.47**	0.48
Dividends paid per share	**0.11**	0.08
Basic shares outstanding for the period (millions) [3]	**45.9**	45.3
Shares outstanding at period end (millions)	**45.9**	45.3

Certain comparative figures have been reclassified to conform to the current financial presentation.

(1) Net revenue is gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements.

(2) Earnings before interest expense, income taxes, and amortization. EBITDA is provided to assist investors in determining the ability of AltaGas to generate cash from operations. This measure does not have any standardized meaning prescribed by generally accepted accounting principles and may not be comparable to similar measures presented by other companies.

(3) Based on the weighted average number of shares outstanding for the period.

(4) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirement for accounting for asset retirement obligations

CONFERENCE CALL

AltaGas will hold a conference call on May 13, 2004 at 9:00 a.m. (ET) to comment on its 2004 first quarter results. The discussion will be followed by a question and answer period.

To participate in the conference call, you may dial 416-913-8746 or 1-800-814-4860 toll-free. Shortly after the conclusion of the live call, the replay will be available by dialing 416-640-1917 or 1-877-289-8525. The pass code is 21047496 followed by the pound key. The replay will expire at midnight (ET) on May 20, 2004.

ABOUT ALTAGAS

AltaGas moves energy from its source to the end user, adding value through the process. AltaGas has over $900 million of assets and a market capitalization of approximately $950 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. AltaGas provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

REPORT TO SHAREHOLDERS
FOR THE THREE MONTHS ENDED MARCH 31, 2004

MANAGEMENT'S DISCUSSION & ANALYSIS

The following discussion and analysis dated May 12, 2004 should be read in conjunction with the accompanying unaudited consolidated financial statements of AltaGas Services Inc. (AltaGas or the Company) for the three months ended March 31, 2004 and the notes thereto and with the Management's Discussion and Analysis contained in the Company's annual report for the year ended December 31, 2003.

Prospective data, comments and analysis are also provided wherever appropriate to assist existing and new investors to see the business from a corporate management viewpoint. Such disclosure is subject to the reasonable constraints of maintaining the confidentiality of certain information which, if published would probably have an adverse impact on the competitive position of the Corporation.

On April 29, 2004, AltaGas' shareholders voted in favor of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust (the Trust) began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN.

CONSOLIDATED FINANCIAL RESULTS

CONSOLIDATED OPERATING RESULTS	Three months ended March 31	
($ millions)	**2004**	2003[1]
Revenue	**193.5**	203.4
Net revenue[2]	**57.2**	54.4
Net income	**11.0**	10.2
Funds generated from operations[2]	**21.6**	21.9
Net additions to capital assets	**14.3**	7.5

[1] Prior periods have been restated for the impacts of the adoption of CICA Handbook requirement for accounting for asset retirement obligations
[2] Non-GAAP financial measure. See discussion below

COMMON SHARE STATISTICS	Three months ended March 31	
(dollars except number of shares)	**2004**	2003
Net income per share[1]	**$ 0.24**	$ 0.23
Dividends per share[1]	**$ 0.11**	$ 0.08
Common and preferred shares outstanding (millions)		
Basic	**45.9**	45.3
End of period	**45.9**	45.3

[1] Per share amounts are based on the basic number of shares outstanding during the period.

AltaGas' first quarter 2004 net income is the highest the Company has earned in a first quarter of a year since formation and continues the growth trend achieved throughout the Corporation's 10 year history.

Revenue for the first quarter of 2004 is 5 percent lower than the same period last year due mainly to the lower average prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments.

Net revenue, which is gross revenue less cost of sales, increased 5 percent for the first quarter 2004 compared to first quarter 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold.

Volumes in the Gathering and Processing segment increased in all operating components. In the Energy Services segment, power component volumes were higher quarter over quarter, due to the addition on April 1, 2003 of volumes from the Genesee energy contract. Natural Gas Distribution volumes at AltaGas Utilities Inc. declined slightly year over year due to warmer average weather in 2004 versus 2003, offsetting an increase in the customer base. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. AltaGas' 24.9 percent share of Heritage Gas' net earnings did not have a material impact on the consolidated results in the first quarter of 2004.

AltaGas' earnings before, interest, taxes and amortization increased 2 percent for the quarter ended March 31, 2004 compared to the same quarter of 2003. Amortization expense was up 2 percent due mainly to Gathering and Processing segment acquisitions and expansions during 2003 and the first quarter of 2004.

Lower average debt levels and higher interest rates resulted in effectively flat interest expense when compared to the same period in 2003.

Income tax expense for the first quarter of 2004 is less than reported for the same period of 2003 even though income before tax was higher. The income of the company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. The lower first quarter 2004 income tax rate is a result of federal reductions mid-year 2003, a provincial rate reduction arising out of the March 19, 2004 Alberta Budget and a higher relative proportion of income arising from the Gathering and Processing segment, which attracts a lower current rate.

Financial results for the balance of 2004 are expected to continue to strengthen in the Gathering and Processing segment. Drilling activity in the majority of the company's operating areas is expected to remain strong given the favorable commodity pricing environment. In addition, the pursuit of exploitation opportunities in existing operating areas and improved processes are all expected to increase processed volumes. In the Energy Services segment, power prices are expected to be higher providing improved results on the unhedged portion of the company's power portfolio.

NON-GAAP FINANCIAL MEASURES

The company provides certain financial measures in this Management Discussion and Analysis that do not have any standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other companies.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated in accordance with previous disclosures by the Company. All amounts are in millions of dollars unless otherwise noted.

	Three months ended March 31		
FUNDS GENERATED FROM OPERATIONS	**2004**	2003	% Change
Non-GAAP financial measure	**21.6**	21.9	(1)
Add (deduct): Net change in non-cash working capital	**2.6**	8.8	(70)
Cash from operations (GAAP financial measure)	**24.2**	30.7	(21)

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations after interest and taxes without regard to changes in the Corporation's working capital in the period.

NET REVENUE	Three months ended March 31 **2004**	2003	% Change
Non-GAAP financial measure	**57.2**	54.4	5
Add: Cost of goods sold	**136.3**	149.0	(9)
Revenue (GAAP financial measure)	**193.5**	203.4	(5)

Net revenue is provided in the extraction component and the Natural Gas Distribution and Energy Services segments as net revenue better reflects organic growth in the business than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold. This reconciliation shows the difference between revenue and net revenue amounts in the table for Financial and Operating Results for the Gathering and Processing segment.

RESULTS OF OPERATIONS BY SEGMENT

OPERATING INCOME ($ millions, unless otherwise noted)	Three months ended March 31 **2004**	2003[1]	% Change
Gathering and Processing	**12.0**	9.7	24
Energy Services	**5.3**	6.0	(12)
Natural Gas Distribution	**3.9**	5.2	(25)
	21.2	20.9	1

[1] Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

Operating income in the Gathering and Processing segment in the first quarter 2004 showed significant improvement when compared to the same period in 2003, while operating income from the Energy Services and Natural Gas Distribution segments was lower than in the same quarter of the prior year. Key drivers for the business results of each segment are discussed at the component level in the information below.

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, and in the "other" component, AltaGas' investments in businesses ancillary to the gathering and processing business.

FINANCIAL RESULTS ($ millions, unless otherwise noted)	Three months ended March 31 **2004**	2003[1]	% Change
Revenue	**44.7**	43.3	3
Net revenue	**37.8**	34.2	11
Operating and administrative	**19.5**	18.4	6
Amortization expense	**6.3**	6.1	3
Operating income	**12.0**	9.7	24

[1] Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

OPERATING STATISTICS	Three months ended March 31		
	2004	2003	% Change
Field gathering and processing			
Capacity (Mmcf/d)	**901**	847	6
Throughput (gross Mmcf/d)[2]	**560**	535	5
Capacity utilization (percent) [2]	**62**	63	(2)
Average working interest (percent) [1]	**87**	88	(1)
Extraction			
Inlet capacity (Mmcf/d)	**349**	349	-
Production (Bbls/d)	**9,047**	6,416	41
Transmission volumes (Mmcf/d) [2][3]	**396**	319	24

[1] As at March 31
[2] First quarter average
[3] Excludes condensate pipeline volumes

AltaGas' natural gas processing capacity ranks it as one of the top ten Canadian processors of natural gas and one of the top four largest Canadian midstream processors. The Gathering and Processing segment includes more than 6000 kilometers of gathering lines, 69 processing facilities, interests in four extraction facilities and six transmission pipelines. These long-life assets provide service to a diverse customer base under arrangements which include a significant portion of cost of service, fixed fee and recovery of operating cost contracts. Commodity price exposure is minimal and revenues are generally volume driven. Future opportunities derive from the requirement that all natural gas must be processed to meet downstream pipeline specifications en route to the end user. With its extensive gathering infrastructure and the ability to quickly redeploy assets due to the mobile nature of its field gathering and processing plant, the Company is well positioned to offer producers quick access to markets for their natural gas.

For the three months ended March 31, 2004 net revenue for AltaGas' Gathering and Processing segment was $37.8 million, compared to $34.2 million for the first quarter of 2003. Net revenue growth in this segment was the result of increased volumes in the field gathering and processing, extraction and transmission components.

Volumes processed in the field gathering and processing component in the first quarter of 2004 rose due to the December, 2003 acquisition of the Rainbow Lake facilities in northwestern Alberta and from the record number of well tie-ins experienced during the quarter. Gas drilling activity in the Western Canadian Sedimentary Basin continued to strengthen during the first quarter of 2004. A record 155 wells were tied in to AltaGas' field gathering and processing facilities compared with 85 during the same period in 2003. Previous strong tie-in activity, along with the new volumes from the Rainbow Lake facility acquisition more than offset normal natural production declines and increased AltaGas' gross average throughput to 560 Mmcf/d during the first quarter of 2004 compared to 535 Mmcf/d during the first quarter of 2003. These volume increases resulted in field gathering and processing net revenue of $26.5 million in the first quarter of 2004 compared to $24.3 million during the same period in 2003.

During the first quarter of 2004, AltaGas continued its program of internal expansion, completing three development projects in its field gathering and processing areas. At Martin Creek, booster compression was installed, which will increase throughput by 5 Mmcf/d. At the company's Doris facilities, construction of a pipeline was completed that will open up new access to processing areas and increase throughput by 4 Mmcf/d, with the potential to double by year-end. During the quarter, AltaGas also purchased the remaining 25 percent of its Namaka facility bringing its ownership to 100 percent. All three development projects are supported by producer commitments designed to minimize AltaGas' financial exposure to throughput declines.

In the extraction component, processed volumes for the first quarter of 2004 increased to 9,047 Bbls/d of ethane and natural gas liquids (NGLs) compared to an average of 6,416 Bbls/d for the same period in 2003. The higher average production for the first three months of 2004 is a result of modifications to the Empress EnCana extraction facility that increased ethane production effective the fourth quarter of 2003 and the full quarter impact of the Joffre ethane extraction plant commissioning,which was commissioned during the first quarter of 2003. As a result of the higher volumes, net revenue for the extraction component grew 18 percent during the first quarter of 2004 compared to the first quarter of 2003, reaching $3.5 million.

Extraction continues to be a vital link in AltaGas' midstream energy value chain and AltaGas is committed to growing its extraction asset portfolio. Late in the first quarter of 2004, AltaGas entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) for BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant (EEEP) located at Edmonton, Alberta. The plant has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. The $46.0 million acquisition, expected to close during the second quarter of 2004, increases AltaGas' net extraction processing capacity to 539 Mmcf/d. AltaGas' share of plant products will be sold under long term contracts and a long term gas supply contract provides secure feedstock supply to EEEP.

During the first quarter of 2004, net revenue in AltaGas' transmission component grew 13 percent to $7.0 million from $6.2 million in the first quarter of 2003. AltaGas' total average transmission volumes increased to 396 Mmcf/d for the first quarter of 2004 from 319 Mmcf/d for the same period in 2003. This is primarily a result of increased drilling and completion activities in the Suffield area.

Net additions to capital assets in the Gathering and Processing segment were $10.9 million during the first quarter of 2004, up from $5.3 million in 2003. In 2004 $8.7 million was invested in acquisitions and expansions, including approximately $7.0 million for a deposit on BP Canada Energy Resources Company's 48 2/3 percent interest in EEEP. The balance of $2.2 million in 2004 was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

ENERGY SERVICES

The Energy Services segment is comprised of the power services, gas services and oil and gas production components. The financial results of the power services component account for 94 percent of overall segment financial results and as such the commentary in this section will be restricted to the contributions from power services.

FINANCIAL RESULTS	**Three months ended March 31**		
($ millions, unless otherwise noted)	**2004**	2003	% Change
Revenue	**133.4**	148.8	(10)
Net revenue[(1)]	**9.8**	9.7	1
Operating income[(2)]	**5.3**	6.0	(12)

[(1)] Gross revenue less cost of sales
[(2)] Gross revenue less costs of sales less operating and general and administration expense and amortization

OPERATING STATISTICS	**Three months ended March 31**		
	2004	2003	% Change
Volume of power sold (thousands of MWh)	**863**	660	31
Average price received on the sale of power ($/MWh)[(1)]	**45.78**	46.07	(1)
Alberta Power Pool average spot price ($/MWh) [(1)]	**48.78**	83.85	(42)

[(1)] Average for the period

The Energy Services segment generated net revenue of $9.8 million for the first quarter of 2004 compared to $9.7 million for the same period in 2003. In the first quarter of 2004 AltaGas had 453 megawatts of power capacity which represents approximately 6 percent of Alberta's power capacity. Power supply was 100 megawatts higher than first quarter of 2003 as a result of the addition of the Genesee energy contract volumes on April 1, 2003.

Increases in revenues in this segment resulting from the additional volumes were partially offset by higher transmission and interconnection charges from Sundance B, outages at both the Sundance and Genesee plants during the first quarter of 2004 and to true ups on transmission charges by the Alberta Electric System Operator (AESO or the Operator - formerly the Transmission Authority). AESO is entitled to recover or refund variances between revenues collected through transmission charges and expenses incurred by the Operator through true up adjustments calculated quarterly. For first quarter of 2004, the adjustment resulted in a charge to income while in the first quarter of 2003 the adjustment was in AltaGas' favour.

AltaGas does not engage in speculative trading of power but reduces its exposure to power price volatility by using a balanced portfolio of contracts to lock in power margins. The average price AltaGas received from power sales in the first quarter of 2004 was $45.78 per MWh compared to $46.07 per MWh in the first quarter of 2003. Average Alberta Power Pool spot prices were $48.78 per MWh and $83.85 per MWh in the first quarters 2004 and 2003 respectively.

In this segment, the Corporation also reports the results of the oil and gas production component and the gas services component. AltaGas is not in the business of exploration and development of natural gas reserves. However, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AltaGas Utilities or AUI), AltaGas' one-third interest in Inuvik Gas Ltd. (Inuvik Gas) and its 24.9 percent interest in Heritage Gas Limited (Heritage Gas).

FINANCIAL RESULTS	**Three months ended March 31**

Number of customers[3]	**59,528**	58,700	1

[1] AUI only
[2] Variance from 20 year average. Positive variances are favorable
[3] At March 31

In the first quarter of 2004, net revenue in AltaGas' Natural Gas Distribution segment was $9.7 million compared to $10.6 million for the same period in 2003. This decrease is due partially to warmer weather in 2004 compared to the first quarter of 2003 and to the impact of completion of negotiations on AUI's general rate application filed with the Alberta utilities regulator. AUI and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated cost of service and an

allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service, less accumulated deprecation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity. The recent negotiations resulted in final allowable rates for interest expense and return on equity lower than AUI anticipated and a charge to net income of $0.5 million in the first quarter of 2004 related to previously recorded 2003 results.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

Net additions to capital assets in the Natural Gas Distribution segment were $1.8 million during the quarter ended March 31, 2004 compared to $1.4 million for the same period in 2003. Of the additions in 2004, $1.0 million were related to costs associated with routine system betterment projects and new business development.

LIQUIDITY

Funds generated from operations were $21.6 million in the first quarter of 2004 compared to $21.9 million for the same period in 2003.

In the first quarter of 2004 $16.5 million of the funds generated from operations were used to acquire and expand facilities, up slightly from $9.1 million in the first quarter of 2003. AltaGas invested $2.2 million in the first quarter of 2004 to acquire additional Taylor NGL Limited Partnership units. Dividend payments in first quarter 2004 of $5.1 million were higher than the first quarter 2003 payments of $3.6 million due to the strength and sustainability of AltaGas earnings.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at March 31, 2004 was $230.0 million. At March 31, 2004 interest rates had been fixed on approximately 84 percent of the Corporation's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, including payments due for each of the next five years and thereafter, since December 31, 2003. For further information on these contractual obligations, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

CAPITAL RESOURCES

AltaGas believes that its access to debt and equity markets, unutilized bank credit facilities and cash generated from operations will provide it with sufficient capital resources and liquidity to fund existing operations, future AltaGas Income Trust distributions, and certain acquisition and expansion opportunities in 2004. A description of the AltaGas' credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in AltaGas' 2003 Annual Report.

The use of debt or equity funding is determined on the basis of capital structure. AltaGas' capital structure is determined by considering the norms and risks associated with each of its business components and segments. AltaGas funds all subsidiary borrowings.

At March 31, 2004, AltaGas had total debt outstanding of $394.3 million, compared to $396.9 million at December 31, 2003. This $2.6 million debt reduction, after investing activities of $18.4 million and dividends of $5.1 million demonstrates the cash flow generation capability of AltaGas' assets. AltaGas' debt to total capitalization ratio decreased to 51.5 percent at March 31, 2004 from 52.2 percent at December 31, 2003. As an income trust, AltaGas will continue to decrease debt as a proportion of its capital structure and will target a debt to total capitalization ratio between 45 percent and 50 percent.

OFF BALANCE SHEET ARRANGEMENTS

The Corporation is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Corporation has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

RELATED PARTIES

On March 19, 2004 AltaGas purchased 320,000 units of Taylor NGL Limited Partnership (Taylor) at a cost of $2.2 million. Taylor's business is the ownership and operatorship of facilities in the midstream sector of the Western Canadian natural gas industry including a fifty percent interest in the Joffre ethane extraction plant. AltaGas owns the other 50 percent interest in that plant. AltaGas' interest in Taylor after this purchase is 18.5 percent.

PROPOSED TRANSACTIONS

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN. As a mutual fund trust, AltaGas Income Trust owns AltaGas' business and will make regular monthly cash distributions to unitholders.

On March 18, 2004, AltaGas announced that it had entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The transaction is expected to close during the second quarter of 2004 after the receipt of provincial government approval of the transfer of operator licenses to AltaGas.

CHANGES IN ACCOUNTING POLICY

Effective January 1, 2004, the Company prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. The Company has determined the effectiveness of the hedges are well above thresholds required in the provisions and therefore there has been no impact on the consolidated financial statements.

Also effective January 1, 2004, AltaGas retroactively adopted the provisions of the CICA Handbook Section 3870 regarding stock based compensation and other stock based payments, which results in expensing of stock options granted to employees. Implementation of this Section resulted in a decrease to the first quarter 2004 net income of $0.1 million and an adjustment to shareholders' equity accounts of $0.5 million.

CRITICAL ACCOUNTING ESTIMATES

Since a determination of many assets, liabilities, revenues and expenses is dependent upon future events, the preparation of the Company's consolidated financial statements requires the use of estimates and assumptions which have been made using careful judgment. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For further information on these critical accounting estimates, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices, particularly in the power component and interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power component. Power Pool monthly average spot prices ranged in the first quarter of 2004 from $45.46 per MWh to $56.51 per MWh. Through the use of financial hedges on the portion of its portfolio deemed optimal by management, AltaGas moderated the impact of this volatility.

OUTSTANDING SHARE DATA

AltaGas common and preferred shares outstanding at March 31, 2004 were 45,927,793, up from 45,716,844 at December 31, 2003. The most significant change during the period related to the issue of shares for cash on the exercise of options. At March 31, 2003 45,331,342 common and preferred shares were outstanding.

Under the terms of the restructuring of AltaGas into an Income Trust effective May 1, 2004, AltaGas securityholders exchanged their shares in the company for mutual fund trust units and eligible securityholders also received exchangeable units that are exchangeable into mutual fund trust units on a one for one basis. At May 1, 2004 a total of 45,928,293 units were outstanding comprising 3,394,216 Limited Partnership #1 exchangeable units, 8,866,009 Limited Partnership #2 exchangeable units and 33,668,068 mutual fund trust units. The mutual fund trust units trade on the TSX under the symbol ALA.UN. The exchangeable units do not trade on the TSX.

Holders of limited partnership units issued under the reorganization are reminded that in order to obtain tax-deferred treatment (in full or in part) with respect to the transfer of your common shares of AltaGas Services Inc., there is a requirement to complete the applicable income tax election form(s) and submit that form (or those forms) to Computershare Trust Company of Canada within 90 days of May 1, 2004, as more particularly set forth in Section 2.4 of the Plan of Arrangement attached as Schedule A to Appendix C to the Information Circular and Proxy Statement of AltaGas Services Inc. dated March 26, 2004.

SELECTED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

($ thousands except per share amounts or where otherwise noted)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of AltaGas Services Inc. (the Company) have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Company's annual consolidated financial statements for the fiscal year ended December 31, 2003, except as noted below in note 2. These interim consolidated financial statements for the quarter ending March 31, 2004 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in AltaGas' 2003 Annual Report.

2. CHANGE IN ACCOUNTING POLICY

Effective January 1, 2004, the Company adopted the new Canadian Institute of Chartered Accountants standard for accounting for stock-based compensation ("Section 3870"), which requires the use of the fair value method to account for stock options. Based on the Black-Scholes option valuation model, stock options are valued at the date of the grant and recognized as compensation expense over their expected life.

This change in accounting policy has been adopted retroactively without prior period restatement. In accordance with Section 3870, only stock options issued on, or after, the initial adoption date of the section are recognized in the financial statements. No compensation expense is recorded for stock options issued and outstanding prior to January 1, 2002. This change in accounting policy resulted in a reduction of opening retained earnings for 2004 and a charge to income in the first quarter of 2004 as presented below as increases (decreases) in the affected categories of the Consolidated Balance Sheets and Consolidated Statements of Income and Retained Earnings.

	March 31 2004
Consolidated Balance Sheet	
Contributed surplus	$ 468
Opening retained earnings	(332)
Consolidated Income Statement	
Operating and administrative	$ 136

3. SHARE CAPITAL

Authorized:

- an unlimited number of common shares without nominal or par value.
- an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:	Number of Shares	Amount
December 31, 2003	36,716,844	$ 179,076
Issued for cash on exercise of options	208,949	1,747
Issued for compensation	2,000	39
March 31, 2004	**36,927,793**	**$ 180,862**

Preferred Shares Issued:	Number of Shares	Amount
December 31, 2003 and March 31, 2004	**9,000,000**	**$ 88,964**
Total shares issued	**45,927,793**	**$ 269,826**

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At March 31, 2004 3,800,000 common shares were reserved for issuance under the plan. To March 31, 2004 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. Options outstanding under the plan have a weighted average exercise price of $9.31 and a weighted average remaining contractual life of 8.29 years.

	Number of Options	Weighted Average Exercise Price
Stock options outstanding, December 31, 2003	1,506,362	$ 8.74
Granted	107,000	15.07
Exercised	(208,949)	8.37
Cancelled	(19,925)	7.24
Stock options outstanding, March 31, 2004	**1,384,488**	**$ 9.31**
Exercisable at March 31, 2004	**451,025**	**$ 7.53**

The basic number of shares outstanding for the three months ended March 31, 2004 was 45.9 million (March 31, 2003 - 45.3 million) and the diluted number of shares outstanding for the three months ended March 31, 2004 was 46.6 million (March 31, 2003 - 45.7 million).

4. RELATED PARTY TRANSACTIONS

During 2003, AltaGas acquired a 19.2 percent interest in the outstanding limited partnership units of Taylor NGL Limited Partnership ("Taylor") for total consideration of $18.1 million.

On March 18, 2004, AltaGas purchased an additional 320,000 limited partnership units of Taylor for $2.2 million. The purchase resulted in a dilution of AltaGas' ownership in Taylor to 18.5 percent and an unrealized dilutive gain of $192 thousand.

5.

5. SEGMENTED INFORMATION

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

For the three months ended March 31, 2004	**Gathering and Processing**	**Energy Services**	**Natural Gas Distribution**	**Intersegment Elimination**	**Total**

6. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the December 31, 2003 adoption of CICA Handbook Section on accounting for asset retirement obligations.

7. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

8. SUBSEQUENT EVENTS

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received regulatory and court approvals on April 30, 2004 and the Trust began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN. As a new open-ended investment trust, AltaGas Income Trust owns AltaGas' existing business and will make regular monthly cash distributions to unitholders.

On March 18, 2004, AltaGas announced that it entered into a purchase and sale agreement with BP Canada Energy Resources Company ("BP") to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The transaction is expected to close during the second quarter of 2004 after the receipt of provincial government approval of the transfer of operator licenses to AltaGas.

OTHER INFORMATION

(6) Q2 and Q3 2003 financial results and natural gas distributed (Bcf) reflect the normal lower seasonal demand for natural gas in the Natural Gas Distribution segment.

DIVIDENDS

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. No dividends were paid on any shares of AltaGas from the date of its incorporation to the end of December 2000. The following table summarizes AltaGas' dividend history.

(dollars)	**2004**	2003	2002	2001
First quarter	**$ 0.11**	$ 0.08	$ 0.06	$ 0.03
Second quarter	not applicable	0.08	0.06	0.03
Third quarter	not applicable	0.11	0.08	0.06
Fourth quarter	not applicable	0.11	0.08	0.06
	$ 0.11	$ 0.38	$ 0.28	$ 0.18

On April 29, 2004, AltaGas announced that AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and holders of Exchangeable Units of record on May 25, 2004. The amount of the distribution will be $0.15 for each Trust Unit and each Exchangeable Unit.

Distribution levels will be reviewed periodically by the Board of Directors giving consideration to AltaGas' growth-related initiatives, financial position, financing requirements, cash flow and other relevant factors.

EARNINGS COVERAGE RATIO

The following table sets forth AltaGas Services Inc.'s earnings coverage ratio which is provided in connection with its continuous offering of medium term notes. The financial ratio has been calculated based on Canadian generally accepted accounting principles.

	March 31 2004	December 31 2003
Earnings coverage on short and long term debt	**3.8 x**	3.8x

DEFINITIONS

Bbls/d	barrels per day
Bcf	billion cubic feet
Mmcf/d	million cubic feet per day
MW	megawatt
MWh	megawatt-hour
Net revenue	gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements

When used in this report, the words "outlook", "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward-looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as result of new information or future events.

ALTAGAS GENERATES RECORD FIRST QUARTER EARNINGS OF $11.0 MILLION

RECEIVED
2004 JUN 15 P 3:53
OFFICE OF INTERNATIONAL
32

CALGARY, Alberta - May 12, 2004 - TSX: ALA.UN

FIRST QUARTER 2004 HIGHLIGHTS

(All financial figures are in Canadian dollars unless otherwise stated.)

- AltaGas Services Inc. delivered record first quarter net income of $11.0 million or $0.24 per share, compared to $10.2 million or $0.23 per share for the same period of 2003. Net income growth for the first quarter of 2004 reflects increased throughput in the Gathering and Processing and Energy Services segments, partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

- Funds generated from operations for the first quarter of 2004 were $21.6 million compared to $21.9 million the first quarter of 2003. These cash flows were used to fund investment of $18.4 million, dividends of $5.1 million and reduce AltaGas Services Inc.'s total debt by $2.6 million during the quarter. As a result of the debt reduction, AltaGas Services Inc.'s debt to total capitalization ratio decreased to 51.5 percent from 52.2 percent at December 31, 2003.

- Commenting on the quarter, David Cornhill, Chairman and Chief Executive Officer, said "We had a very solid first quarter in all of our businesses. Producers have been extremely active in many of AltaGas' operating areas and we have seen the result of this activity in record tie-in rates for the quarter." Mr. Cornhill added, "We expect pricing and operations to improve in all of our segments and that, looking forward, every quarter this year will surpass last year."

- On April 29, 2004, the securityholders of AltaGas Services Inc. voted 99.9 percent in favour of a plan of arrangement to reorganize the business of AltaGas Services Inc. into an income trust called AltaGas Income Trust (Trust). The plan of arrangement was approved by the Court of Queen's Bench of Alberta on April 30, 2004, and was effected on May 1, 2004. The Plan of Arrangement allowed for securityholders to receive either Trust Units or limited partnership units (Exchangeable Units) that are exchangeable into Trust Units on a one-for-one basis. The Trust currently has approximately 33.7 million Trust Units and 12.2 million Exchangeable Units issued and outstanding. The income trust structure will allow the Trust to reduce future cash tax liability at the corporate level thereby increasing the amount of cash available for distribution to unitholders.

- The Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and Exchangeable Units of record on May 25, 2004. The amount of the distribution on that date will be $0.15 for each Trust Unit and each Exchangeable Unit. The Trust's Units began trading on May 5, 2004 on the Toronto Stock Exchange (TSX) under the trading symbol ALA.UN. The Exchangeable Units do not trade on the TSX.

- Commenting on the re-organization, David Cornhill, Chairman and Chief Executive Officer, said, "On April 1, 2004, AltaGas Services Inc. celebrated its tenth anniversary as an operating company. We are very proud of the value we have created over the past ten years and we are confident that our change in structure will enhance the value creation opportunities that AltaGas is pursuing. As AltaGas Income Trust, our discipline will continue and our fundamental business strategy will remain the same, based on the acquisition and expansion of infrastructure-based midstream assets. We expect to continue to be efficiently managed by the same qualified team of professionals that has grown AltaGas into a leader in the Canadian midstream industry. We will remain financially conservative, focused on operational excellence, and we will continue to grow our business."

- On March 18, 2004, AltaGas Services Inc. announced that it has entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The acquisition, expected to close during the second quarter of 2004, will increase AltaGas' net extraction processing capacity to 539 Mmcf/d.

CONSOLIDATED FINANCIAL HIGHLIGHTS

($ millions)	Three months ended March 31 2004	2003 [4]
Revenue	193.5	203.4
Net revenue [1]	57.2	54.4
EBITDA [2]	31.2	30.7
Net income	11.0	10.2
Funds generated from operations	21.6	21.9

Results per share (dollars except number of shares)	2004	2003 [4]
EBITDA [2]	0.68	0.68
Net income	0.24	0.23
Funds generated from operations	0.47	0.48
Dividends paid per share	0.11	0.08
Basic shares outstanding for the period (millions) [3]	45.9	45.3
Shares outstanding at period end (millions)	45.9	45.3

Certain comparative figures have been reclassified to conform to the current financial presentation.

(1) Net revenue is gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements.
(2) Earnings before interest expense, income taxes, and amortization. EBITDA is provided to assist investors in determining the ability of AltaGas to generate cash from operations. This measure does not have any standardized meaning prescribed by generally accepted accounting principles and may not be comparable to similar measures presented by other companies.
(3) Based on the weighted average number of shares outstanding for the period.
(4) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirement for accounting for asset retirement obligations

ABOUT ALTAGAS

AltaGas moves energy from its source to the end user, adding value through the process. AltaGas has over $900 million of assets and a market capitalization of approximately $950 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. AltaGas provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

REPORT TO SHAREHOLDERS
FOR THE THREE MONTHS ENDED MARCH 31, 2004

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis dated May 12, 2004 should be read in conjunction with the accompanying unaudited consolidated financial statements of AltaGas Services Inc. (AltaGas or the Company) for the three months ended March 31, 2004 and the notes thereto and with the Management's Discussion and Analysis contained in the Company's annual report for the year ended December 31, 2003.

Prospective data, comments and analysis are also provided wherever appropriate to assist existing and new investors to see the business from a corporate management viewpoint. Such disclosure is subject to the reasonable constraints of maintaining the confidentiality of certain information which, if published would probably have an adverse impact on the competitive position of the Corporation.

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust (the Trust) began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN.

CONSOLIDATED FINANCIAL RESULTS

Consolidated Operating Results	Three months ended March 31	
($ millions)	2004	2003[1]
Revenue	193.5	203.4
Net revenue[2]	57.2	54.4
Net income	11.0	10.2
Funds generated from operations[2]	21.6	21.9
Net additions to capital assets	14.3	7.5

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirement for accounting for asset retirement obligations
(2) Non-GAAP financial measure. See discussion below

Common Share Statistics	Three months ended March 31	
(dollars except number of shares)	2004	2003
Net income per share[1]	$ 0.24	$ 0.23
Dividends per share[1]	$ 0.11	$ 0.08
Common and preferred shares outstanding (millions)		
Basic	45.9	45.3
End of period	45.9	45.3

(1) Per share amounts are based on the basic number of shares outstanding during the period.

AltaGas' first quarter 2004 net income is the highest the Company has earned in a first quarter of a year since formation and continues the growth trend achieved throughout the Corporation's 10 year history.

Revenue for the first quarter of 2004 is 5 percent lower than the same period last year due mainly to the lower average prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments.

Net revenue, which is gross revenue less cost of sales, increased 5 percent for the first quarter 2004 compared to first quarter 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold.

Volumes in the Gathering and Processing segment increased in all operating components. In the Energy Services segment, power component volumes were higher quarter over quarter, due to the addition on April 1, 2003 of volumes from the Genesee energy contract. Natural Gas Distribution volumes at AltaGas Utilities Inc. declined slightly year over year due to warmer average weather in 2004

versus 2003, offsetting an increase in the customer base. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. AltaGas' 24.9 percent share of Heritage Gas' net earnings did not have a material impact on the consolidated results in the first quarter of 2004.

AltaGas' earnings before interest, taxes and amortization increased 2 percent for the quarter ended March 31, 2004 compared to the same quarter of 2003. Amortization expense was up 2 percent, due mainly to Gathering and Processing segment acquisitions and expansions during 2003 and the first quarter of 2004.

Lower average debt levels and higher interest rates resulted in effectively flat interest expense when compared to the same period in 2003.

Income tax expense for the first quarter of 2004 is less than reported for the same period of 2003 even though income before tax was higher. The income of the company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. The lower first quarter 2004 income tax rate is a result of federal reductions mid year 2003, a provincial rate reduction arising out of the March 19, 2004 Alberta Budget and a higher relative proportion of income arising from the Gathering and Processing segment which attracts a lower current rate.

Financial results for the balance of 2004 are expected to continue to strengthen in the Gathering and Processing segment. Drilling activity in the majority of the company's operating areas is expected to remain strong given the favorable commodity pricing environment. In addition, the pursuit of exploitation opportunities in existing operating areas and improved processes are all expected to increase processed volumes. In the Energy Services segment, power prices are expected to be higher providing improved results on the unhedged portion of the company's power portfolio.

Non-GAAP Financial Measures

The company provides certain financial measures in this Management Discussion and Analysis that do not have any standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other companies.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated in accordance with previous disclosures by the Company. All amounts are in millions of dollars unless otherwise noted.

	Three months ended March 31		
Funds Generated From Operations	2004	2003	% Change
Non-GAAP financial measure	21.6	21.9	(1)
Add (deduct): Net change in non-cash working capital	2.6	8.8	(70)
Cash from operations (GAAP financial measure)	24.2	30.7	(21)

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations after interest and taxes without regard to changes in the Corporation's working capital in the period.

	Three months ended March 31		
Net Revenue	2004	2003	% Change
Non-GAAP financial measure	57.2	54.4	5
Add: Cost of goods sold	136.3	149.0	(9)
Revenue (GAAP financial measure)	193.5	203.4	(5)

Net revenue is provided in the extraction component and the Natural Gas Distribution and Energy Services segments as net revenue better reflects organic growth in the business than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold. This reconciliation shows the difference between revenue and net revenue amounts in the table for Financial and Operating Results for the Gathering and Processing segment

RESULTS OF OPERATIONS BY SEGMENT

Operating Income	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003[1]	% Change
Gathering and Processing	12.0	9.7	24
Energy Services	5.3	6.0	(12)
Natural Gas Distribution	3.9	5.2	(25)
	21.2	20.9	1

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

Operating income in the Gathering and Processing segment in the first quarter 2004 showed significant improvement when compared to the same period in 2003, while operating income from the Energy Services and Natural Gas Distribution segments was lower than in the same quarter of the prior year. Key drivers for the business results of each segment are discussed at the component level in the information below.

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, and in the "other" component AltaGas' investments in businesses ancillary to the gathering and processing business.

Financial Results	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003[1]	% Change
Revenue	44.7	43.3	3
Net revenue	37.8	34.2	11
Operating and administrative	19.5	18.4	6
Amortization expense	6.3	6.1	3
Operating income	12.0	9.7	24

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

Operating Statistics	Three months ended March 31		
	2004	2003	% Change
Field gathering and processing			
Capacity (Mmcf/d)	901	847	6
Throughput (gross Mmcf/d)[2]	560	535	5
Capacity utilization (percent)[2]	62	63	(2)
Average working interest (percent)[1]	87	88	(1)
Extraction			
Inlet capacity (Mmcf/d)	349	349	-
Production (Bbls/d)	9,047	6,416	41
Transmission volumes (Mmcf/d) [2][3]	396	319	24

(1) As at March 31

(2) First quarter average

(3) Excludes condensate pipeline volumes

AltaGas' natural gas processing capacity ranks it as one of the top ten Canadian processors of natural gas and one of the top four largest Canadian midstream processors. The Gathering and Processing segment includes more than 6000 kilometers of gathering lines, 69 processing facilities, interests in four extraction facilities and six transmission pipelines. These long-life assets provide service to a diverse customer base under arrangements which include a significant portion of cost of service, fixed fee and recovery of operating cost contracts. Commodity price exposure is minimal and revenues are generally volume driven. Future opportunities derive from the requirement that all natural gas must be processed to meet downstream pipeline specifications en route to the end user. With its extensive gathering infrastructure and the ability to quickly redeploy assets due to the mobile nature of its field gathering and processing plant, the Company is well positioned to offer producers quick access to markets for their natural gas.

For the three months ended March 31, 2004 net revenue for AltaGas' Gathering and Processing segment was $37.8 million, compared to $34.2 million for the first quarter of 2003. Net revenue growth in this segment was the result of increased volumes in the field gathering and processing, extraction and transmission components.

Volumes processed in the field gathering and processing component in the first quarter of 2004 rose due to the December, 2003 acquisition of the Rainbow Lake facilities in northwestern Alberta and from the record number of well tie-ins experienced during the quarter. Gas drilling activity in the Western Canadian Sedimentary Basin continued to strengthen during the first quarter of 2004. A record 155 wells were tied in to AltaGas' field gathering and processing facilities compared with 85 during the same period in 2003. Previous strong tie-in activity, along with the new volumes from the Rainbow Lake facility acquisition more than offset normal natural production declines and increased AltaGas' gross average throughput to 560 Mmcf/d during the first quarter of 2004 compared to 535 Mmcf/d during the first quarter of 2003. These volume increases resulted in field gathering and processing net revenue of $26.5 million in the first quarter of 2004 compared to $24.3 million during the same period in 2003.

During the first quarter of 2004, AltaGas continued its program of internal expansion, completing three development projects in its field gathering and processing areas. At Martin Creek, booster compression was installed, which will increase throughput by 5 Mmcf/d. At the company's Doris facilities, construction of a pipeline was completed that will open up new access to processing areas and increase throughput by 4 Mmcf/d, with the potential to double by year-end. During the quarter, AltaGas also purchased the remaining 25 percent of its Namaka facility, bringing ownership to 100 percent. All three development projects are supported by producer commitments designed to minimize AltaGas' financial exposure to potential fluctuating throughput declines.

In the extraction component, processed volumes for the first quarter of 2004 increased to 9,047 Bbls/d of ethane and natural gas liquids (NGLs) compared to an average of 6,416 Bbls/d for the same period in 2003. The higher average production for the first three months of 2004 is a result of modifications to the Empress EnCana extraction facility that increased ethane production effective the fourth quarter of 2003 and the full quarter impact of the Joffre ethane extraction plant commissioning,which was commissioned during the first quarter of 2003. As a result of the higher volumes, net revenue for the extraction component grew 18 percent during the first quarter of 2004 compared to the first quarter of 2003, reaching $3.5 million.

Extraction continues to be a vital link in AltaGas' midstream energy value chain and AltaGas is committed to growing its extraction asset portfolio. Late in the first quarter of 2004, AltaGas entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) for BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant (EEEP) located at Edmonton, Alberta. The plant has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. The $46.0 million acquisition, expected to close during the second quarter of 2004, increases AltaGas' net extraction processing capacity to 539 Mmcf/d. AltaGas' share of plant products will be sold under long term contracts and a long term gas supply contract provides secure feedstock supply to EEEP.

During the first quarter of 2004, net revenue in AltaGas' transmission component grew 13 percent to $7.0 million from $6.2 million in the first quarter of 2003. AltaGas' total average transmission volumes increased to 396 Mmcf/d for the first quarter of 2004 from 319 Mmcf/d for the same period in 2003. This is primarily a result of increased drilling and completion activities in the Suffield area.

Net additions to capital assets in the Gathering and Processing segment were $10.9 million during the first quarter of 2004, up from $5.3 million in 2003. In 2004, $8.7 million was invested in acquisitions and expansions, including approximately $7.0 million for a deposit on BP Canada Energy Resources Company's 48 2/3 percent interest in EEEP. The balance of $2.2 million in 2004 was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

ENERGY SERVICES

The Energy Services segment is comprised of the power services, gas services and oil and gas production components. The financial results of the power services component account for 94 percent of overall segment financial results and as such the commentary in this section will be restricted to the contributions from power services.

Financial Results

	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003	% Change
Revenue	133.4	148.8	(10)
Net revenue[1]	9.8	9.7	1
Operating income[2]	5.3	6.0	(12)

(1) Gross revenue less cost of sales
(2) Gross revenue less costs of sales less operating and general and administration expense and amortization

Operating Statistics

	Three months ended March 31		
	2004	2003	% Change
Volume of power sold (thousands of MWh)	863	660	31
Average price received on the sale of power ($/MWh)[1]	45.78	46.07	(1)
Alberta Power Pool average spot price ($/MWh)[1]	48.78	83.85	(42)

(1) Average for the period

The Energy Services segment generated net revenue of $9.8 million for the first quarter of 2004 compared to $9.7 million for the same period in 2003. In the first quarter of 2004 AltaGas had 453 megawatts of power capacity which represents approximately 6 percent of Alberta's power capacity. Power supply was 100 megawatts higher than first quarter of 2003 as a result of the addition of the Genesee energy contract volumes on April 1, 2003.

Increases in revenues in this segment resulting from the additional volumes were partially offset by higher transmission and interconnection charges from Sundance B, outages at both the Sundance and Genesee plants during the first quarter of 2004 and to true ups on transmission charges by the Alberta Electric System Operator (AESO or the Operator - formerly the Transmission Authority). AESO is entitled to recover or refund variances between revenues collected through transmission charges and expenses incurred by the Operator through true up adjustments calculated quarterly. For first quarter of 2004, the adjustment resulted in a charge to income while in the first quarter of 2003 the adjustment was in AltaGas' favour.

AltaGas does not engage in speculative trading of power but reduces its exposure to power price volatility by using a balanced portfolio of contracts to lock in power margins. The average price AltaGas received from power sales in the first quarter of 2004 was $45.78 per MWh compared to $46.07 per MWh in the first quarter of 2003. Average Alberta Power Pool spot prices were $48.78 per MWh and $83.85 per MWh in the first quarters 2004 and 2003 respectively.

In this segment, the Corporation also reports the results of the oil and gas production component and the gas services component. AltaGas is not in the business of exploration and development of natural gas reserves. However, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AltaGas Utilities or AUI), AltaGas' one-third interest in Inuvik Gas Ltd. (Inuvik Gas) and its 24.9 percent interest in Heritage Gas Limited (Heritage Gas).

Financial Results	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003	% Change
Revenue	48.1	58.3	(17)

Number of customers[3]	59,528	58,700	1

(1) AUI only
(2) Variance from 20 year average. Positive variances are favorable
(3) At March 31

In the first quarter of 2004, net revenue in AltaGas' Natural Gas Distribution segment was $9.7 million compared to $10.6 million for the same period in 2003. This decrease is due partially to warmer weather in 2004 compared to the first quarter of 2003 and to the impact of completion of negotiations on AUI's general rate application filed with the Alberta utilities regulator. AUI and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated cost of service and an allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service, less accumulated deprecation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity. The recent negotiations resulted in final allowable rates for interest expense and return on equity lower than AUI anticipated and a charge to net income of $0.5 million in the first quarter of 2004 related to previously recorded 2003 results.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

Net additions to capital assets in the Natural Gas Distribution segment were $1.8 million during the quarter ended March 31, 2004 compared to $1.4 million for the same period in 2003. Of the additions in 2004, $1.0 million were related to costs associated with routine system betterment projects and new business development.

LIQUIDITY

Funds generated from operations were $21.6 million in the first quarter of 2004 compared to $21.9 million for the same period in 2003.

In the first quarter of 2004 $16.5 million of the funds generated from operations were used to acquire and expand facilities, up slightly from $9.1 million in the first quarter of 2003. AltaGas invested $2.2 million in the first quarter of 2004 to acquire additional Taylor NGL Limited Partnership units. Dividend payments in first quarter 2004 of $5.1 million were higher than the first quarter 2003 payments of $3.6 million due to the strength and sustainability of AltaGas earnings.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at March 31, 2004 was $230.0 million. At March 31, 2004 interest rates had been fixed on approximately 84 percent of the Corporation's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, including payments due for each of the next five years and thereafter, since December 31, 2003. For further information on these contractual obligations, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

CAPITAL RESOURCES

AltaGas believes that its access to debt and equity markets, unutilized bank credit facilities and cash generated from operations will provide it with sufficient capital resources and liquidity to fund existing operations, future AltaGas Income Trust distributions, and certain acquisition and expansion opportunities in 2004. A description of the AltaGas' credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in AltaGas' 2003 Annual Report.

The use of debt or equity funding is determined on the basis of capital structure. AltaGas' capital structure is determined by considering the norms and risks associated with each of its business components and segments. AltaGas funds all subsidiary borrowings.

At March 31, 2004, AltaGas had total debt outstanding of $394.3 million, compared to $396.9 million at December 31, 2003. This $2.6 million debt reduction, after investing activities of $18.4 million and dividends of $5.1 million demonstrates the cash flow generation capability of AltaGas' assets. AltaGas' debt to total capitalization ratio decreased to 51.5 percent at March 31, 2004 from 52.2 percent at December 31, 2003. As an income trust, AltaGas will continue to decrease debt as a proportion of its capital structure and will target a debt to total capitalization ratio between 45 percent and 50 percent.

OFF BALANCE SHEET ARRANGEMENTS

The Corporation is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Corporation has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

RELATED PARTIES

On March 19, 2004 AltaGas purchased 320,000 units of Taylor NGL Limited Partnership (Taylor) at a cost of $2.2 million. Taylor's business is the ownership and operatorship of facilities in the midstream sector of the Western Canadian natural gas industry including a fifty percent interest in the Joffre ethane extraction plant. AltaGas owns the other 50 percent interest in that plant. AltaGas' interest in Taylor after this purchase is 18.5 percent.

PROPOSED TRANSACTIONS

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN. As a mutual fund trust, AltaGas Income Trust owns AltaGas' business and will make regular monthly cash distributions to unitholders.

On March 18, 2004, AltaGas announced that it had entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The transaction is expected to close during the second quarter of 2004 after receipt of the provincial government approval of the transfer of operator licenses to AltaGas.

CHANGES IN ACCOUNTING POLICY

Effective January 1, 2004, the Company prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. The Company has determined the effectiveness of the hedges are well above thresholds required in the provisions and therefore there has been no impact on the consolidated financial statements.

Also effective January 1, 2004, AltaGas retroactively adopted the provisions of the CICA Handbook Section 3870 regarding stock based compensation and other stock based payments, which results in expensing of stock options granted to employees. Implementation of this Section resulted in a decrease to the first quarter 2004 net income of $0.1 million and an adjustment to shareholders' equity accounts of $0.5 million.

CRITICAL ACCOUNTING ESTIMATES

Since a determination of many assets, liabilities, revenues and expenses is dependent upon future events, the preparation of the Company's consolidated financial statements requires the use of estimates and assumptions which have been made using careful judgment. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For further information on these critical accounting estimates, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices particularly in the power component and interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power component. Power Pool monthly average spot prices ranged in the first quarter of 2004 from $45.46 per MWh to $56.51 per MWh. Through the use of financial hedges on the portion of its portfolio deemed optimal by management, AltaGas moderated the impact of this volatility.

OUTSTANDING SHARE DATA

AltaGas common and preferred shares outstanding at March 31, 2004 were 45,927,793, up from 45,716,844 at December 31, 2003. The most significant change during the period related to the issue of shares for cash on the exercise of options. At March 31, 2003 45,331,342 common and preferred shares were outstanding.

Under the terms of the restructuring of AltaGas into an Income Trust effective May 1, 2004, AltaGas securityholders exchanged their shares in the company for mutual fund trust units and eligible securityholders also received exchangeable units that are exchangeable into mutual fund trust units on a one for one basis. At May 1, 2004 a total of 45,928,293 units were outstanding comprising 3,394,216 Limited Partnership #1 exchangeable units, 8,866,009 Limited Partnership #2 exchangeable units and 33,668,068 mutual fund trust units. The mutual fund trust units trade on the TSX under the symbol ALA.UN. The exchangeable units do not trade on the TSX.

Holders of limited partnership units issued under the reorganization are reminded that in order to obtain tax-deferred treatment (in full or in part) with respect to the transfer of your common shares of AltaGas Services Inc., there is a requirement to complete the applicable income tax election form(s) and submit that form (or those forms) to Computershare Trust Company of Canada within 90 days of May 1, 2004, as more particularly set forth in Section 2.4 of the Plan of Arrangement attached as Schedule A to Appendix C to the Information Circular and Proxy Statement of AltaGas Services Inc. dated March 26, 2004.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of AltaGas Services Inc. (the Company) have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Company's annual consolidated financial statements for the fiscal year ended December 31, 2003, except as noted below in note 2. These interim consolidated financial statements for the quarter ending March 31, 2004 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in AltaGas' 2003 Annual Report.

2. CHANGE IN ACCOUNTING POLICY

Effective January 1, 2004, the Company adopted the new Canadian Institute of Chartered Accountants standard for accounting for stock-based compensation ("Section 3870"), which requires the use of the fair value method to account for stock options. Based on the Black-Scholes option valuation model, stock options are valued at the date of the grant and recognized as compensation expense over their expected life.

This change in accounting policy has been adopted retroactively without prior period restatement. In accordance with Section 3870, only stock options issued on, or after, the initial adoption date of the section are recognized in the financial statements. No compensation expense is recorded for stock options issued and outstanding prior to January 1, 2002. This change in accounting policy resulted in a reduction of opening retained earnings for 2004 and a charge to income in the first quarter of 2004 as presented below as increases (decreases) in the affected categories of the Consolidated Balance Sheets and Consolidated Statements of Income and Retained Earnings.

	March 31 2004
Consolidated Balance Sheet	
Contributed surplus	$ 468
Opening retained earnings	(332)
Consolidated Income Statement	
Operating and administrative	$ 136

3. SHARE CAPITAL

Authorized:

- an unlimited number of common shares without nominal or par value.
- an unlimited number of preferred shares without nominal or par value.

Common Shares Issued:

	Number of Shares	Amount
December 31, 2003	36,716,844	$ 179,076
Issued for cash on exercise of options	208,949	1,747
Issued for compensation	2,000	39
March 31, 2004	36,927,793	$ 180,862

Preferred Shares Issued:

	Number of Shares		Amount
December 31, 2003 and March 31, 2004	9,000,000	$	88,964
Total shares issued	45,927,793	$	269,826

The Company has an employee stock option plan under which both employees and directors are eligible to receive grants. At March 31, 2004 3,800,000 common shares were reserved for issuance under the plan. To March 31, 2004 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. Options outstanding under the plan have a weighted average exercise price of $9.31 and a weighted average remaining contractual life of 8.29 years.

	Number of Options		Weighted Average Exercise Price
Stock options outstanding, December 31, 2003	1,506,362	$	8.74
Granted	107,000		15.07
Exercised	(208,949)		8.37
Cancelled	(19,925)		7.24
Stock options outstanding, March 31, 2004	1,384,488	$	9.31
Exercisable March 31, 2004	451,025	$	7.53

The basic number of shares outstanding for the three months ended March 31, 2004 was 45.9 million (March 31, 2003 - 45.3 million) and the diluted number of shares outstanding for the three months ended March 31, 2004 was 46.6 million (March 31, 2003 - 45.7 million).

4. RELATED PARTY TRANSACTIONS

During 2003, AltaGas acquired a 19.2 percent interest in the outstanding limited partnership units of Taylor NGL Limited Partnership ("Taylor") for total consideration of $18.1 million.

On March 18, 2004, AltaGas purchased an additional 320,000 limited partnership units of Taylor for $2.2 million. The purchase resulted in a dilution of AltaGas' ownership in Taylor to 18.5 percent and an unrealized dilutive gain of $192 thousand.

5. SEGMENTED INFORMATION

AltaGas is a midstream energy company with a portfolio of assets and services used to move energy from the source to the end-user. The Company has three reportable segments:

Gathering and Processing - natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services - power services, gas services and oil and natural gas production.

Natural Gas Distribution - natural gas distribution to end users and related services.

SEGMENTED INFORMATION *continued*

For the three months ended March 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 44,692	$ 133,409	$ 48,129	$ (32,711)	$ 193,519

Operating and administrative expenses	(18,515)	(1,551)	(3,778)	114	(23,727)
Amortization	(6,052)	(2,168)	(1,542)	–	(9,762)
Operating income	$ 9,667	$ 5,963	$ 5,247	$ –	$ 20,877
Net additions to capital assets	$ 5,270	$ 859	$ 1,395		$ 7,524
Segment assets	$ 596,220	$ 176,680	$ 145,754		$ 918,654

6. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation. Prior periods have been restated for the impacts of the December 31, 2003 adoption of CICA Handbook Section on accounting for asset retirement obligations.

7. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

8. SUBSEQUENT EVENTS

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received regulatory and court approvals on April 30, 2004 and the Trust began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN. As a new open-ended investment trust, AltaGas Income Trust owns AltaGas' existing business and will make regular monthly cash distributions to unitholders.

On March 18, 2004, AltaGas announced that it entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The transaction is expected to close during the second quarter of 2004 after the receipt of provincial government approval of the transfer of operator licenses to AltaGas.

	21.2	25.9	19.2	17.6	20.9

(1) Q2 and Q3 2003 financial results and natural gas distributed (Bcf) reflect the normal lower seasonal demand for natural gas in the Natural Gas Distribution segment.

Notes: Certain comparative figures have been reclassified to conform to the current financial statement presentation.
AltaGas adopted CICA Handbook guidelines on asset retirement obligations in 2003. Prior year information has been restated for the effect of this adoption.

(1) At period end.
(2) Quarter average.
(3) Variance from 20-year average. Positive variances are favourable.
(4) Excludes condensate transmission volumes.
(5) Excludes Inuvik Gas Ltd. and Heritage Gas Limited operating statistics.
(6) Q2 and Q3 2003 financial results and natural gas distributed (Bcf) reflect the normal lower seasonal demand for natural gas in the Natural Gas Distribution segment.

DIVIDENDS

On January 11, 2001 the Corporation declared its first quarterly cash dividend per fully paid common share and participating share in the capital stock of the Company, which was paid on March 31, 2001. No dividends were paid on any shares of AltaGas from the date of its incorporation to the end of December 2000. The following table summarizes AltaGas' dividend history.

(dollars)	2004	2003	2002	2001
First quarter	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter	not applicable	0.08	0.06	0.03
Third quarter	not applicable	0.11	0.08	0.06
Fourth quarter	not applicable	0.11	0.08	0.06
	$ 0.11	$ 0.38	$ 0.28	$ 0.18

On April 29, 2004, AltaGas announced that AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and holders of Exchangeable Units of record on May 25, 2004. The amount of the distribution will be $0.15 for each Trust Unit and each Exchangeable Unit.

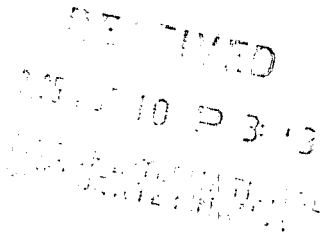
Distribution levels will be reviewed periodically by the Board of Directors giving consideration to AltaGas' growth-related initiatives, financial position, financing requirements, cash flow and other relevant factors.

EARNINGS COVERAGE RATIO

The following table sets forth AltaGas Services Inc.'s earnings coverage ratio which is provided in connection with its continuous offering of medium term notes. The financial ratio has been calculated based on Canadian generally accepted accounting principles.

	March 31 2004	December 31 2003
Earnings coverage on short and long term debt	3.8 x	3.8x

DEFINITIONS



Bbls/d	barrels per day
Bcf	billion cubic feet
Mmcf/d	million cubic feet per day
MW	megawatt
MWh	megawatt-hour
Net revenue	gross revenue less the costs of the purchase of natural gas for resale and the costs to purchase power under power purchase arrangements

When used in this report, the words "outlook", "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward-looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as result of new information or future events.

REPORT TO SHAREHOLDERS
FOR THE THREE MONTHS ENDED MARCH 31, 2004

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis dated May 12, 2004 should be read in conjunction with the accompanying unaudited consolidated financial statements of AltaGas Services Inc. (AltaGas or the Company) for the three months ended March 31, 2004 and the notes thereto and with the Management's Discussion and Analysis contained in the Company's annual report for the year ended December 31, 2003.

Prospective data, comments and analysis are also provided wherever appropriate to assist existing and new investors to see the business from a corporate management viewpoint. Such disclosure is subject to the reasonable constraints of maintaining the confidentiality of certain information which, if published would probably have an adverse impact on the competitive position of the Corporation.

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust (the Trust) began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN.

CONSOLIDATED FINANCIAL RESULTS

Consolidated Operating Results	Three months ended March 31	
($ millions)	2004	2003[1]
Revenue	193.5	203.4
Net revenue[2]	57.2	54.4
Net income	11.0	10.2
Funds generated from operations[2]	21.6	21.9
Net additions to capital assets	14.3	7.5

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirement for accounting for asset retirement obligations
(2) Non-GAAP financial measure. See discussion below

Common Share Statistics	Three months ended March 31	
(dollars except number of shares)	2004	2003
Net income per share[1]	$ 0.24	$ 0.23
Dividends per share[1]	$ 0.11	$ 0.08
Common and preferred shares outstanding (millions)		
Basic	45.9	45.3
End of period	45.9	45.3

(1) Per share amounts are based on the basic number of shares outstanding during the period.

AltaGas' first quarter 2004 net income is the highest the Company has earned in a first quarter of a year since formation and continues the growth trend achieved throughout the Corporation's 10 year history.

Revenue for the first quarter of 2004 is 5 percent lower than the same period last year due mainly to the lower average prices received for natural gas and power sold in the Natural Gas Distribution and Energy Services segments.

Net revenue, which is gross revenue less cost of sales, increased 5 percent for the first quarter 2004 compared to first quarter 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold.

Volumes in the Gathering and Processing segment increased in all operating components. In the Energy Services segment, power component volumes were higher quarter over quarter, due to the addition on April 1, 2003 of volumes from the Genesee energy contract. Natural Gas Distribution volumes at AltaGas Utilities Inc. declined slightly year over year due to warmer average weather in 2004

versus 2003, offsetting an increase in the customer base. Heritage Gas activated its natural gas distribution system on December 20, 2003 and served its first customer on December 23, 2003. AltaGas' 24.9 percent share of Heritage Gas' net earnings did not have a material impact on the consolidated results in the first quarter of 2004.

AltaGas' earnings before interest, taxes and amortization increased 2 percent for the quarter ended March 31, 2004 compared to the same quarter of 2003. Amortization expense was up 2 percent, due mainly to Gathering and Processing segment acquisitions and expansions during 2003 and the first quarter of 2004.

Lower average debt levels and higher interest rates resulted in effectively flat interest expense when compared to the same period in 2003.

Income tax expense for the first quarter of 2004 is less than reported for the same period of 2003 even though income before tax was higher. The income of the company is subject to a variety of tax rates and rate reductions currently and in the future. The consolidated income tax rate varies from quarter to quarter depending on the mix and the anticipated timing of the income stream being subject to taxation. The lower first quarter 2004 income tax rate is a result of federal reductions mid year 2003, a provincial rate reduction arising out of the March 19, 2004 Alberta Budget and a higher relative proportion of income arising from the Gathering and Processing segment which attracts a lower current rate.

Financial results for the balance of 2004 are expected to continue to strengthen in the Gathering and Processing segment. Drilling activity in the majority of the company's operating areas is expected to remain strong given the favorable commodity pricing environment. In addition, the pursuit of exploitation opportunities in existing operating areas and improved processes are all expected to increase processed volumes. In the Energy Services segment, power prices are expected to be higher providing improved results on the unhedged portion of the company's power portfolio.

Non-GAAP Financial Measures

The company provides certain financial measures in this Management Discussion and Analysis that do not have any standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other companies.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated in accordance with previous disclosures by the Company. All amounts are in millions of dollars unless otherwise noted.

	Three months ended March 31		
Funds Generated From Operations	2004	2003	% Change
Non-GAAP financial measure	21.6	21.9	(1)
Add (deduct): Net change in non-cash working capital	2.6	8.8	(70)
Cash from operations (GAAP financial measure)	24.2	30.7	(21)

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations after interest and taxes without regard to changes in the Corporation's working capital in the period.

	Three months ended March 31		
Net Revenue	2004	2003	% Change
Non-GAAP financial measure	57.2	54.4	5
Add: Cost of goods sold	136.3	149.0	(9)
Revenue (GAAP financial measure)	193.5	203.4	(5)

Net revenue is provided in the extraction component and the Natural Gas Distribution and Energy Services segments as net revenue better reflects organic growth in the business than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of goods sold. This reconciliation shows the difference between revenue and net revenue amounts in the table for Financial and Operating Results for the Gathering and Processing segment

RESULTS OF OPERATIONS BY SEGMENT

Operating Income	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003[1]	% Change
Gathering and Processing	12.0	9.7	24
Energy Services	5.3	6.0	(12)
Natural Gas Distribution	3.9	5.2	(25)
	21.2	20.9	1

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

Operating income in the Gathering and Processing segment in the first quarter 2004 showed significant improvement when compared to the same period in 2003, while operating income from the Energy Services and Natural Gas Distribution segments was lower than in the same quarter of the prior year. Key drivers for the business results of each segment are discussed at the component level in the information below.

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, and in the "other" component AltaGas' investments in businesses ancillary to the gathering and processing business.

Financial Results	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003[1]	% Change
Revenue	44.7	43.3	3
Net revenue	37.8	34.2	11
Operating and administrative	19.5	18.4	6
Amortization expense	6.3	6.1	3
Operating income	12.0	9.7	24

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook requirements on accounting for asset retirement obligations

Operating Statistics	Three months ended March 31		
	2004	2003	% Change
Field gathering and processing			
Capacity (Mmcf/d)	901	847	6
Throughput (gross Mmcf/d)[2]	560	535	5
Capacity utilization (percent)[2]	62	63	(2)
Average working interest (percent)[1]	87	88	(1)
Extraction			
Inlet capacity (Mmcf/d)	349	349	-
Production (Bbls/d)	9,047	6,416	41
Transmission volumes (Mmcf/d) [2][3]	396	319	24

(1) As at March 31

(2) First quarter average

(3) Excludes condensate pipeline volumes

AltaGas' natural gas processing capacity ranks it as one of the top ten Canadian processors of natural gas and one of the top four largest Canadian midstream processors. The Gathering and Processing segment includes more than 6000 kilometers of gathering lines, 69 processing facilities, interests in four extraction facilities and six transmission pipelines. These long-life assets provide service to a diverse customer base under arrangements which include a significant portion of cost of service, fixed fee and recovery of operating cost contracts. Commodity price exposure is minimal and revenues are generally volume driven. Future opportunities derive from the requirement that all natural gas must be processed to meet downstream pipeline specifications en route to the end user. With its extensive gathering infrastructure and the ability to quickly redeploy assets due to the mobile nature of its field gathering and processing plant, the Company is well positioned to offer producers quick access to markets for their natural gas.

For the three months ended March 31, 2004 net revenue for AltaGas' Gathering and Processing segment was $37.8 million, compared to $34.2 million for the first quarter of 2003. Net revenue growth in this segment was the result of increased volumes in the field gathering and processing, extraction and transmission components.

Volumes processed in the field gathering and processing component in the first quarter of 2004 rose due to the December, 2003 acquisition of the Rainbow Lake facilities in northwestern Alberta and from the record number of well tie-ins experienced during the quarter. Gas drilling activity in the Western Canadian Sedimentary Basin continued to strengthen during the first quarter of 2004. A record 155 wells were tied in to AltaGas' field gathering and processing facilities compared with 85 during the same period in 2003. Previous strong tie-in activity, along with the new volumes from the Rainbow Lake facility acquisition more than offset normal natural production declines and increased AltaGas' gross average throughput to 560 Mmcf/d during the first quarter of 2004 compared to 535 Mmcf/d during the first quarter of 2003. These volume increases resulted in field gathering and processing net revenue of $26.5 million in the first quarter of 2004 compared to $24.3 million during the same period in 2003.

During the first quarter of 2004, AltaGas continued its program of internal expansion, completing three development projects in its field gathering and processing areas. At Martin Creek, booster compression was installed, which will increase throughput by 5 Mmcf/d. At the company's Doris facilities, construction of a pipeline was completed that will open up new access to processing areas and increase throughput by 4 Mmcf/d, with the potential to double by year-end. During the quarter, AltaGas also purchased the remaining 25 percent of its Namaka facility, bringing ownership to 100 percent. All three development projects are supported by producer commitments designed to minimize AltaGas' financial exposure to potential fluctuating throughput declines.

In the extraction component, processed volumes for the first quarter of 2004 increased to 9,047 Bbls/d of ethane and natural gas liquids (NGLs) compared to an average of 6,416 Bbls/d for the same period in 2003. The higher average production for the first three months of 2004 is a result of modifications to the Empress EnCana extraction facility that increased ethane production effective the fourth quarter of 2003 and the full quarter impact of the Joffre ethane extraction plant commissioning,which was commissioned during the first quarter of 2003. As a result of the higher volumes, net revenue for the extraction component grew 18 percent during the first quarter of 2004 compared to the first quarter of 2003, reaching $3.5 million.

Extraction continues to be a vital link in AltaGas' midstream energy value chain and AltaGas is committed to growing its extraction asset portfolio. Late in the first quarter of 2004, AltaGas entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) for BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant (EEEP) located at Edmonton, Alberta. The plant has a licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. The $46.0 million acquisition, expected to close during the second quarter of 2004, increases AltaGas' net extraction processing capacity to 539 Mmcf/d. AltaGas' share of plant products will be sold under long term contracts and a long term gas supply contract provides secure feedstock supply to EEEP.

During the first quarter of 2004, net revenue in AltaGas' transmission component grew 13 percent to $7.0 million from $6.2 million in the first quarter of 2003. AltaGas' total average transmission volumes increased to 396 Mmcf/d for the first quarter of 2004 from 319 Mmcf/d for the same period in 2003. This is primarily a result of increased drilling and completion activities in the Suffield area.

Net additions to capital assets in the Gathering and Processing segment were $10.9 million during the first quarter of 2004, up from $5.3 million in 2003. In 2004, $8.7 million was invested in acquisitions and expansions, including approximately $7.0 million for a deposit on BP Canada Energy Resources Company's 48 2/3 percent interest in EEEP. The balance of $2.2 million in 2004 was spent to maintain throughput at existing field gathering and processing, extraction and transmission facilities and pipelines.

ENERGY SERVICES

The Energy Services segment is comprised of the power services, gas services and oil and gas production components. The financial results of the power services component account for 94 percent of overall segment financial results and as such the commentary in this section will be restricted to the contributions from power services.

Financial Results	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003	% Change
Revenue	133.4	148.8	(10)
Net revenue[1]	9.8	9.7	1
Operating income[2]	5.3	6.0	(12)

(1) Gross revenue less cost of sales
(2) Gross revenue less costs of sales less operating and general and administration expense and amortization

Operating Statistics	Three months ended March 31		
	2004	2003	% Change
Volume of power sold (thousands of MWh)	863	660	31
Average price received on the sale of power ($/MWh)[1]	45.78	46.07	(1)
Alberta Power Pool average spot price ($/MWh)[1]	48.78	83.85	(42)

(1) Average for the period

The Energy Services segment generated net revenue of $9.8 million for the first quarter of 2004 compared to $9.7 million for the same period in 2003. In the first quarter of 2004 AltaGas had 453 megawatts of power capacity which represents approximately 6 percent of Alberta's power capacity. Power supply was 100 megawatts higher than first quarter of 2003 as a result of the addition of the Genesee energy contract volumes on April 1, 2003.

Increases in revenues in this segment resulting from the additional volumes were partially offset by higher transmission and interconnection charges from Sundance B, outages at both the Sundance and Genesee plants during the first quarter of 2004 and to true ups on transmission charges by the Alberta Electric System Operator (AESO or the Operator - formerly the Transmission Authority). AESO is entitled to recover or refund variances between revenues collected through transmission charges and expenses incurred by the Operator through true up adjustments calculated quarterly. For first quarter of 2004, the adjustment resulted in a charge to income while in the first quarter of 2003 the adjustment was in AltaGas' favour.

AltaGas does not engage in speculative trading of power but reduces its exposure to power price volatility by using a balanced portfolio of contracts to lock in power margins. The average price AltaGas received from power sales in the first quarter of 2004 was $45.78 per MWh compared to $46.07 per MWh in the first quarter of 2003. Average Alberta Power Pool spot prices were $48.78 per MWh and $83.85 per MWh in the first quarters 2004 and 2003 respectively.

In this segment, the Corporation also reports the results of the oil and gas production component and the gas services component. AltaGas is not in the business of exploration and development of natural gas reserves. However, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc. (AltaGas Utilities or AUI), AltaGas' one-third interest in Inuvik Gas Ltd. (Inuvik Gas) and its 24.9 percent interest in Heritage Gas Limited (Heritage Gas).

Financial Results	Three months ended March 31		
($ millions, unless otherwise noted)	2004	2003	% Change
Revenue	48.1	58.3	(17)
Net revenue[1]	9.7	10.6	(8)
Operating income[2]	3.9	5.2	(25)

(1) Gross revenue less cost of sales
(2) Gross revenue less costs of sales less operating and general and administration expense and amortization

Operating Statistics[1]	Three months ended March 31		
	2004	2003	% Change
Volume of natural gas distributed			
Sales (Bcf)	5.5	5.9	(7)
Transportation (Bcf)	3.0	1.9	58
Degree day variance (percent)[2]	2.0	9.2	(78)
Number of customers[3]	59,528	58,700	1

(1) AUI only
(2) Variance from 20 year average. Positive variances are favorable
(3) At March 31

In the first quarter of 2004, net revenue in AltaGas' Natural Gas Distribution segment was $9.7 million compared to $10.6 million for the same period in 2003. This decrease is due partially to warmer weather in 2004 compared to the first quarter of 2003 and to the impact of completion of negotiations on AUI's general rate application filed with the Alberta utilities regulator. AUI and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated cost of service and an allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service, less accumulated deprecation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity. The recent negotiations resulted in final allowable rates for interest expense and return on equity lower than AUI anticipated and a charge to net income of $0.5 million in the first quarter of 2004 related to previously recorded 2003 results.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

Net additions to capital assets in the Natural Gas Distribution segment were $1.8 million during the quarter ended March 31, 2004 compared to $1.4 million for the same period in 2003. Of the additions in 2004, $1.0 million were related to costs associated with routine system betterment projects and new business development.

LIQUIDITY

Funds generated from operations were $21.6 million in the first quarter of 2004 compared to $21.9 million for the same period in 2003.

In the first quarter of 2004 $16.5 million of the funds generated from operations were used to acquire and expand facilities, up slightly from $9.1 million in the first quarter of 2003. AltaGas invested $2.2 million in the first quarter of 2004 to acquire additional Taylor NGL Limited Partnership units. Dividend payments in first quarter 2004 of $5.1 million were higher than the first quarter 2003 payments of $3.6 million due to the strength and sustainability of AltaGas earnings.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. The total amount of debt with variable interest rates that was fixed through interest rate swaps at March 31, 2004 was $230.0 million. At March 31, 2004 interest rates had been fixed on approximately 84 percent of the Corporation's total debt, including the swaps and AltaGas' $100.0 million of medium term notes.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, including payments due for each of the next five years and thereafter, since December 31, 2003. For further information on these contractual obligations, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

CAPITAL RESOURCES

AltaGas believes that its access to debt and equity markets, unutilized bank credit facilities and cash generated from operations will provide it with sufficient capital resources and liquidity to fund existing operations, future AltaGas Income Trust distributions, and certain acquisition and expansion opportunities in 2004. A description of the AltaGas' credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in AltaGas' 2003 Annual Report.

The use of debt or equity funding is determined on the basis of capital structure. AltaGas' capital structure is determined by considering the norms and risks associated with each of its business components and segments. AltaGas funds all subsidiary borrowings.

At March 31, 2004, AltaGas had total debt outstanding of $394.3 million, compared to $396.9 million at December 31, 2003. This $2.6 million debt reduction, after investing activities of $18.4 million and dividends of $5.1 million demonstrates the cash flow generation capability of AltaGas' assets. AltaGas' debt to total capitalization ratio decreased to 51.5 percent at March 31, 2004 from 52.2 percent at December 31, 2003. As an income trust, AltaGas will continue to decrease debt as a proportion of its capital structure and will target a debt to total capitalization ratio between 45 percent and 50 percent.

OFF BALANCE SHEET ARRANGEMENTS

The Corporation is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Corporation has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

RELATED PARTIES

On March 19, 2004 AltaGas purchased 320,000 units of Taylor NGL Limited Partnership (Taylor) at a cost of $2.2 million. Taylor's business is the ownership and operatorship of facilities in the midstream sector of the Western Canadian natural gas industry including a fifty percent interest in the Joffre ethane extraction plant. AltaGas owns the other 50 percent interest in that plant. AltaGas' interest in Taylor after this purchase is 18.5 percent.

PROPOSED TRANSACTIONS

On April 29, 2004, AltaGas' shareholders voted in favour of reorganizing AltaGas' business into an income trust. The Plan of Arrangement received court approval on April 30, 2004 and was effective May 1, 2004. The AltaGas Income Trust began trading on the Toronto Stock Exchange on May 5, 2004 under the trading symbol ALA.UN. As a mutual fund trust, AltaGas Income Trust owns AltaGas' business and will make regular monthly cash distributions to unitholders.

On March 18, 2004, AltaGas announced that it had entered into a purchase and sale agreement with BP Canada Energy Resources Company (BP) to acquire BP's 48 2/3 percent interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The transaction is expected to close during the second quarter of 2004 after receipt of the provincial government approval of the transfer of operator licenses to AltaGas.

CHANGES IN ACCOUNTING POLICY

Effective January 1, 2004, the Company prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. The Company has determined the effectiveness of the hedges are well above thresholds required in the provisions and therefore there has been no impact on the consolidated financial statements.

Also effective January 1, 2004, AltaGas retroactively adopted the provisions of the CICA Handbook Section 3870 regarding stock based compensation and other stock based payments, which results in expensing of stock options granted to employees. Implementation of this Section resulted in a decrease to the first quarter 2004 net income of $0.1 million and an adjustment to shareholders' equity accounts of $0.5 million.

CRITICAL ACCOUNTING ESTIMATES

Since a determination of many assets, liabilities, revenues and expenses is dependent upon future events, the preparation of the Company's consolidated financial statements requires the use of estimates and assumptions which have been made using careful judgment. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For further information on these critical accounting estimates, refer to Management's Discussion and Analysis in AltaGas' 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices particularly in the power component and interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power component. Power Pool monthly average spot prices ranged in the first quarter of 2004 from $45.46 per MWh to $56.51 per MWh. Through the use of financial hedges on the portion of its portfolio deemed optimal by management, AltaGas moderated the impact of this volatility.

OUTSTANDING SHARE DATA

AltaGas common and preferred shares outstanding at March 31, 2004 were 45,927,793, up from 45,716,844 at December 31, 2003. The most significant change during the period related to the issue of shares for cash on the exercise of options. At March 31, 2003 45,331,342 common and preferred shares were outstanding.

Under the terms of the restructuring of AltaGas into an Income Trust effective May 1, 2004, AltaGas securityholders exchanged their shares in the company for mutual fund trust units and eligible securityholders also received exchangeable units that are exchangeable into mutual fund trust units on a one for one basis. At May 1, 2004 a total of 45,928,293 units were outstanding comprising 3,394,216 Limited Partnership #1 exchangeable units, 8,866,009 Limited Partnership #2 exchangeable units and 33,668,068 mutual fund trust units. The mutual fund trust units trade on the TSX under the symbol ALA.UN. The exchangeable units do not trade on the TSX.

Holders of limited partnership units issued under the reorganization are reminded that in order to obtain tax-deferred treatment (in full or in part) with respect to the transfer of your common shares of AltaGas Services Inc., there is a requirement to complete the applicable income tax election form(s) and submit that form (or those forms) to Computershare Trust Company of Canada within 90 days of May 1, 2004, as more particularly set forth in Section 2.4 of the Plan of Arrangement attached as Schedule A to Appendix C to the Information Circular and Proxy Statement of AltaGas Services Inc. dated March 26, 2004.

NEWS RELEASE

RECEIVED

ALTAGAS INCOME TRUST ANNOUNCES PREMIUM DISTRIBUTION™, DISTRIBUTION REINVESTMENT AND OPTIONAL UNIT PURCHASE PLANS

(36)

Calgary, Alberta, May 20, 2004 – AltaGas Income Trust ("AltaGas" or the "Trust") is pleased to announce that it has adopted a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan ("trust unitholder plan") for holders ("trust unitholders") of the trust units ("trust units") of AltaGas Income Trust and a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan ("limited partnership unitholder plan") for holders ("limited partnership unitholders") of Class B limited partnership units ("exchangeable units") of either AltaGas Holding Limited Partnership No. 1 or AltaGas Holding Limited Partnership No. 2 (collectively, the "AltaGas LPs").

Trust unitholders and limited partnership unitholders (collectively, the "unitholders") of record on May 25, 2004 may now elect to participate in the trust unitholder plan or the limited partnership unitholder plan (collectively, the "Plans"), as applicable, commencing with the monthly cash distribution or cash payment payable on June 15, 2004. To participate in the applicable Plan, eligible registered unitholders must deliver the appropriate properly completed and signed authorization forms provided by the Trust for such purpose to Computershare Trust Company of Canada no later than 3:00 p.m. (Calgary Time) on the business day immediately preceding a distribution record date in order for the cash distribution or cash payment to which such record date relates to be reinvested or invested, as the case may be, under the applicable Plan.

Beneficial owners of trust units or exchangeable units (i.e. owners of trust units or exchangeable units that are held through a nominee such as a broker or custodian) who wish to participate in the applicable Plan should contact their broker, investment dealer, financial institution or other nominee who hold their trust units or exchangeable units to provide instructions regarding their participation in the applicable Plan.

Participation in the Plans is subject to proration in certain events.

Premium Distribution™ Component of the Plans

The Plans provide an opportunity for eligible unitholders to elect, under the Premium Distribution™ component, to direct that cash distributions paid by AltaGas in respect of their existing trust units be reinvested or cash payments made by the AltaGas LPs in respect of their exchangeable units be invested in new trust units at 95% of the average market price (as defined in the applicable Plan) of a trust unit on the applicable distribution date and to exchange such new trust units for a premium cash distribution equal to 102% of the cash distribution or cash payment that such unitholders would have otherwise been entitled to receive on such distribution payment date. Canaccord Capital Corporation will act as plan broker under the Premium Distribution™ component of both Plans. Currently, unitholders who are "control persons" under securities legislation are not eligible to participate in the Premium Distribution™ component of either Plan.

Distribution Reinvestment Component of the Plans

The Plans will also enable eligible unitholders to direct cash distributions paid by AltaGas in respect of their existing trust units be reinvested or cash payments made by the AltaGas LPs in respect of their exchangeable units be invested in additional trust units at 95% of the average market price of a trust unit on the applicable distribution date. Additional trust units purchased under either Plan will be credited to an account for the unitholder in accordance with the Plans.

Optional Cash Payment Component of the Plans

The Plans also allow unitholders who participate in either the Premium Distribution™ component or the distribution reinvestment component of the applicable Plan to purchase new trust units from the treasury of AtlaGas at the average market price in minimum amounts of $1,000 per remittance and maximum aggregate amounts of $100,000 per month, all subject to an overall annual limit of trust units that may be purchased in this manner under both Plans of 2% of the outstanding trust units.

Generally, no commissions, service charges or brokerage fees will be payable by unitholders who participate in the Plans, but unitholders should make enquiries with their broker, investment dealer or financial institution through which their trust units or exchangeable units are held as to any policies of such party that would result in any charges, fees or commissions being payable under the applicable Plan.

AltaGas reserves the right to determine how much new equity is available under the Plans on any particular distribution date. Accordingly, participation may be pro-rated in certain circumstances.

Please note that registered and beneficial owners of trust units and registered and beneficial owners of exchangeable units who are not resident in Canada are not eligible to participate in the applicable Plan.

Participation in the applicable Plan does not relieve unitholders of any liability for taxes that may be payable on cash distributions or cash payments. Unitholders should consult their tax advisors concerning the tax implications of their participation in the applicable Plan having regard to their particular circumstances.

Unitholders are encouraged to carefully read the complete text of the applicable Plan before making any decisions regarding their participation in such Plan.

The full text of the Plans, an accompanying series of questions and answers, authorization forms and cash payment forms will be mailed to registered trust unitholders of AltaGas and registered limited partnership unitholders of the AltaGas LPs. Copies of these materials will also be made available on AltaGas' website at www.altagas.ca under the heading "DRIP".

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has over $900 million of assets and a market capitalization of approximately $850 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

AltaGas' trust units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

AltaGas **NEWS RELEASE** (37)

ALTAGAS INCOME TRUST ANNOUNCES PREMIUM DISTRIBUTION™, DISTRIBUTION REINVESTMENT AND OPTIONAL UNIT PURCHASE PLANS

Calgary, Alberta, May 20, 2004 – AltaGas Income Trust ("AltaGas" or the "Trust") is pleased to announce that it has adopted a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan ("trust unitholder plan") for holders ("trust unitholders") of the trust units ("trust units") of AltaGas Income Trust and a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan ("limited partnership unitholder plan") for holders ("limited partnership unitholders") of Class B limited partnership units ("exchangeable units") of either AltaGas Holding Limited Partnership No. 1 or AltaGas Holding Limited Partnership No. 2 (collectively, the "AltaGas LPs").

Trust unitholders and limited partnership unitholders (collectively, the "unitholders") of record on May 25, 2004 may now elect to participate in the trust unitholder plan or the limited partnership unitholder plan (collectively, the "Plans"), as applicable, commencing with the monthly cash distribution or cash payment payable on June 15, 2004. To participate in the applicable Plan, eligible registered unitholders must deliver the appropriate properly completed and signed authorization forms provided by the Trust for such purpose to Computershare Trust Company of Canada no later than 3:00 p.m. (Calgary Time) on the business day immediately preceding a distribution record date in order for the cash distribution or cash payment to which such record date relates to be reinvested or invested, as the case may be, under the applicable Plan.

Beneficial owners of trust units or exchangeable units (i.e. owners of trust units or exchangeable units that are held through a nominee such as a broker or custodian) who wish to participate in the applicable Plan should contact their broker, investment dealer, financial institution or other nominee who hold their trust units or exchangeable units to provide instructions regarding their participation in the applicable Plan.

Participation in the Plans is subject to proration in certain events.

Premium Distribution™ Component of the Plans

The Plans provide an opportunity for eligible unitholders to elect, under the Premium Distribution™ component, to direct that cash distributions paid by AltaGas in respect of their existing trust units be reinvested or cash payments made by the AltaGas LPs in respect of their exchangeable units be invested in new trust units at 95% of the average market price (as defined in the applicable Plan) of a trust unit on the applicable distribution date and to exchange such new trust units for a premium cash distribution equal to 102% of the cash distribution or cash payment that such unitholders would have otherwise been entitled to receive on such distribution payment date. Canaccord Capital Corporation will act as plan broker under the Premium Distribution™ component of both Plans. Currently, unitholders who are "control persons" under securities legislation are not eligible to participate in the Premium Distribution™ component of either Plan.

Distribution Reinvestment Component of the Plans

The Plans will also enable eligible unitholders to direct cash distributions paid by AltaGas in respect of their existing trust units be reinvested or cash payments made by the AltaGas LPs in respect of their exchangeable units be invested in additional trust units at 95% of the average market price of a trust unit on the applicable distribution date. Additional trust units purchased under either Plan will be credited to an account for the unitholder in accordance with the Plans.

Optional Cash Payment Component of the Plans

The Plans also allow unitholders who participate in either the Premium Distribution™ component or the distribution reinvestment component of the applicable Plan to purchase new trust units from the treasury of AtlaGas at the average market price in minimum amounts of $1,000 per remittance and maximum aggregate amounts of $100,000 per month, all subject to an overall annual limit of trust units that may be purchased in this manner under both Plans of 2% of the outstanding trust units.

Generally, no commissions, service charges or brokerage fees will be payable by unitholders who participate in the Plans, but unitholders should make enquiries with their broker, investment dealer or financial institution through which their trust units or exchangeable units are held as to any policies of such party that would result in any charges, fees or commissions being payable under the applicable Plan.

AltaGas reserves the right to determine how much new equity is available under the Plans on any particular distribution date. Accordingly, participation may be pro-rated in certain circumstances.

Please note that registered and beneficial owners of trust units and registered and beneficial owners of exchangeable units who are not resident in Canada are not eligible to participate in the applicable Plan.

Participation in the applicable Plan does not relieve unitholders of any liability for taxes that may be payable on cash distributions or cash payments. Unitholders should consult their tax advisors concerning the tax implications of their participation in the applicable Plan having regard to their particular circumstances.

Unitholders are encouraged to carefully read the complete text of the applicable Plan before making any decisions regarding their participation in such Plan.

The full text of the Plans, an accompanying series of questions and answers, authorization forms and cash payment forms will be mailed to registered trust unitholders of AltaGas and registered limited partnership unitholders of the AltaGas LPs. Copies of these materials will also be made available on AltaGas' website at www.altagas.ca under the heading "DRIP".

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has over $900 million of assets and a market capitalization of approximately $850 million. 2004 JUN 10 P 3:41
OFFICE OF INTERNATIONAL

ALTAGAS INCOME TRUST ANNOUNCES TRUST UNIT OFFERING

Calgary, Alberta (May 27, 2004) -- AltaGas Income Trust ("AltaGas") (TSE:ALA.UN) announced today that it has filed a preliminary short form prospectus with the securities commissions in each of the provinces of Canada with respect to the issue of Trust Units. AltaGas intends to raise approximately $75 million from the offering which is anticipated to close during the week of June 7, 2004. The syndicate of Underwriters is lead by RBC Capital Markets and Clarus Securities Inc., and includes BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc., National Bank Financial Inc., Canaccord Capital Corporation and Peters & Co. Limited. AltaGas has also granted the Underwriters an over-allotment option to purchase up to an additional 10 percent of the issue, exercisable, in whole or in part, within 30 days following the date of closing.

The net proceeds attributable to the sale of Trust Units will be used to reduce bank indebtedness, which may be redrawn and used for general corporate purposes including AltaGas' ongoing capital program, the funding of the Edmonton Ethane Extraction Plant acquisition announced on March 18, 2004 and future acquisitions.

Commenting on the offering, David W. Cornhill, Chairman and Chief Executive Officer of AltaGas Ltd., administrator of AltaGas, said, "This unit offering, our first since our conversion into an income trust on May 1, 2004, will reduce our debt to total capitalization ratio to within our new target range of 45 to 50 percent. With a considerably stronger balance sheet and predictable, long term cash flows generated by our diversified asset base we will continue to be positioned to take advantage of attractive investment opportunities as they arise."

AltaGas Income Trust will commence monthly distributions on June 15, 2004 to holders of Trust Units and Exchangeable Securities of record on May 25, 2004. The amount of the distribution on that date will be $0.15 for each Trust Unit and each Exchangeable Security. It is expected that purchasers of Trust Units under this offering will be eligible to receive the anticipated July 15, 2004 distribution.

Enbridge Inc. (Enbridge) is not participating in this offering of Trust Units. Upon completion of the offering Enbridge is expected to hold a fully diluted ownership interest of approximately 36 percent.

AltaGas announced yesterday that it has executed a letter of intent to purchase the business of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc. for approximately $22.0 million payable by way of 993,789 Trust Units issued from AltaGas Income Trust treasury plus approximately $1.2 million cash. The transaction is conditional on the execution of a purchase and sale agreement, which is expected to occur prior to July 1, 2004.

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has assets totaling almost $950 million and a market capitalization of approximately $900 million. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

This news release does not constitute an offer to sell securities, nor is it a solicitation of an offer to buy securities, in any jurisdiction. All sales will be made through registered securities dealers in jurisdictions where the offering has been qualified for distribution. The Trust Units offered are not, and will not be, registered under the securities laws of the United States of America, nor any State thereof and may not be sold in the United States of America absent registration in the United States or the availability of an exemption from such registration.

When used in this press release, the words "anticipate", "estimate", and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as a result of new information or future event.

NOT FOR DISTRIBUTION IN THE UNITED STATES OR OVER U.S. WIRE SERVICES.

A copy of this preliminary short form prospectus has been filed with the securities regulatory authorities in each of the provinces of Canada but has not yet become final for the purpose of the sale of securities. Information contained in this preliminary short form prospectus may not be complete and may have to be amended. The securities may not be sold until a receipt for the short form prospectus is obtained from the securities regulatory authorities.

No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise. This short form prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities. These securities have not been and will not be registered under the United States Securities Act of 1933, as amended, (the "1933 Act") or any state securities laws. Accordingly, these securities may not be offered or sold within the United States of America or to a U.S. Person (as such term is defined in Regulation S under the 1933 Act) unless registered under the 1933 Act and applicable state securities laws or an exemption from such registration is available. This short form prospectus does not constitute an offer to sell or a solicitation of an offer to buy any of these securities within the United States of America. See "Plan of Distribution".

Preliminary Short Form Prospectus

New Issue **May 27, 2004**

ALTAGAS INCOME TRUST

$●
● Trust Units

This short form prospectus qualifies the distribution of ● trust units ("Units") of AltaGas Income Trust (the "Trust"). The outstanding Units are listed on the Toronto Stock Exchange (the "TSX") under the trading symbol "ALA.UN". On May 26, 2004, the last trading day prior to the announcement of the offering, the closing price of the Units on the TSX was $19.08. The Trust has applied to list the Units offered hereby on the TSX. Listing will be subject to the Trust fulfilling all of the listing requirements of the TSX. The price of the Units was determined by negotiation between AltaGas General Partner Inc., on behalf of the Trust, and RBC Dominion Securities Inc., Clarus Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc., National Bank Financial Inc., Canaccord Capital Corporation and Peters & Co. Limited (collectively, the "Underwriters").

Price: $● per Unit

	Price to Public	Underwriters' Fee	Net Proceeds to the Trust[1]
Per Unit	$●	$●	$●
Total[2]	$●	$●	$●

(1) Before deducting expenses of the offering, estimated to be $●, which will be paid from general funds of the Trust.

(2) The Trust has also granted to the Underwriters an option (the "Over-Allotment Option") to purchase up to an additional ● Units at a price of $● per Unit, exercisable in whole or in part, at any time prior to 30 days after the closing of the offering, solely to cover over-allotments, if any, and for market stabilization purposes. If the Over-Allotment Option is exercised in full, the Price to Public, Underwriters' Fee and Net Proceeds to the Trust will be $●, $● and $●, respectively. This short form prospectus qualifies the distribution of the Units issuable upon exercise of the Over-Allotment Option. See "Plan of Distribution."

Subscribers who purchase Units pursuant to the offering and who hold such Units on the relevant record date will be eligible to receive distributions commencing with the distribution anticipated to be payable on or about July 15, 2004, provided closing of the offering occurs by June 25, 2004, the anticipated record date for such distribution. Subscribers will not be eligible to receive the distribution to be paid on June 15, 2004, the record date for which was May 25, 2004.

The Underwriters, as principals, conditionally offer the Units, subject to prior sale, if, as and when issued and sold by the Trust and accepted by the Underwriters in accordance with the conditions contained in the underwriting agreement referred to under "Plan of Distribution" and subject to approval of certain legal matters on behalf of the Trust by Stikeman Elliott LLP and on behalf of the Underwriters by Blake, Cassels & Graydon LLP. Subscriptions for Units will be received subject to rejection or allotment in whole or in part and the right is reserved to close the subscription books at any time without notice. The Underwriters may over-allot or effect transactions which stabilize or maintain the market price for the Units at levels other than those which otherwise might prevail in the open market. See "Plan of Distribution". Definitive Unit certificates will be available for delivery at closing, which is expected to occur on or about June ●, 2004 but in any event not later than ●, 2004.

RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. are subsidiaries of Canadian banks that are lenders to AltaGas Ltd. ("AltaGas"), an indirect subsidiary of the Trust, and to which AltaGas is currently indebted. Accordingly, under applicable securities laws, the Trust may be considered a "connected issuer" to RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. See "Relationships Among the Trust, AltaGas and Certain Underwriters."

The Units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that Act or any other legislation. Furthermore, the Trust is not a trust company and, accordingly, it is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

This short form prospectus and the documents incorporated by reference herein contain forward-looking statements. When used in this short form prospectus and the documents incorporated by reference herein, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions, including, without limitation, those described in this short form prospectus under the heading "Risk Factors". Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this short form prospectus and the documents incorporated by reference herein. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this short form prospectus and the documents incorporated by reference herein as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this short form prospectus or the documents incorporated by reference herein should not be unduly relied upon. These statements speak only as of the date of this short form prospectus or as of the date specified in the documents incorporated by reference herein, as the case may be. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

In particular, this short form prospectus and the documents incorporated by reference herein contain forward-looking statements pertaining to the following: the amount and timing of distributions in respect of the Units; treatment under applicable tax legislation; expectations regarding the ability to maintain its competitive position; expectations regarding the ability to raise capital; treatment under governmental regulatory regimes; and commodity prices.

Actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this short form prospectus: general economic conditions in Canada and the United States; industry conditions; governmental regulations; volatility of commodity prices; currency fluctuations; environmental risks; competition; lack of availability of qualified personnel or management; the ability to integrate technological advances and match advances of competition; the availability of capital; and the other factors considered under "Risk Factors".

These factors should not be construed as exhaustive.

GLOSSARY

"**AltaGas**" means AltaGas Ltd., a corporation formed by amalgamation pursuant to the CBCA and an indirect subsidiary of the Trust;

"**AltaGas LP #1**" means AltaGas Holding Limited Partnership No. 1, a limited partnership created pursuant to the laws of Alberta;

"**AltaGas LP #2**" means AltaGas Holding Limited Partnership No. 2, a limited partnership created pursuant to the laws of Alberta;

"**AltaGas Services**" means AltaGas Services Inc., a predecessor of AltaGas;

"**Arrangement**" means the arrangement, under the provisions of section 192 of the CBCA, involving, among others, AltaGas Services, the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 pursuant to which the business of AltaGas Services was reorganized into an income trust effective May 1, 2004;

"**Budget**" means the Canadian Federal Budget presented in the House of Commons on March 23, 2004;

"**Cash Flow of the Trust**" means for, or in respect of, any Distribution Period: (i) all cash amounts which are received by the Trust for, or in respect of, the Distribution Period, including, without limitation, interest, dividends, distributions, proceeds from the disposition of securities, returns of capital and repayments of indebtedness; plus (ii) the proceeds of any issuance of Units or any other securities of the Trust, net of the expenses of distribution, and, if applicable, the use of proceeds of any such issuance for the intended purposes; less the sum of (iii) all amounts which relate to the redemption of Units and which have become payable in cash by the Trust in the Distribution Period and any expenses of the Trust in the Distribution Period; and (iv) any other amounts (including taxes) required by law or the Declaration of Trust to be deducted, withheld or paid by or in respect of the Trust in such Distribution Period;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Declaration of Trust**" means the declaration of trust dated as of March 26, 2004 between the settlor and the Trustee, pursuant to which the Trust was created, as from time to time amended, supplemented or restated;

"**Distribution Period**" means each calendar month, or such other periods as may be determined from time to time by the General Partner on behalf of the Trustee from and including the first day thereof and to and including the last day thereof;

"**Exchangeable Securities**" means, collectively, Class B limited partnership units of AltaGas LP #1 and AltaGas LP #2;

"**Exempt Plans**" means, collectively, trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans, each as defined in the Tax Act;

"**General Partner**" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust and the general partner of AltaGas LP #1 and AltaGas LP #2;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta, all of the beneficial interests of which are owned by the Trust;

"**Holding Trust Note Indenture**" means the agreement dated as of March 26, 2004 between Holding Trust and Computershare Trust Company of Canada, as note trustee, pursuant to which Holding Trust Notes have been, and may in the future be, issued by Holding Trust, as from time to time amended, supplemented or restated;

"**Holding Trust Notes**" means the unsecured subordinated notes issued pursuant to the Holding Trust Note Indenture;

"**NGLs**" means natural gas liquids:

"**Resident**" means a person who is resident in Canada for purposes of the Tax Act;

"**Special Voting Unit**" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee to which is attached that number of voting rights (each such voting right being equal to the voting rights

attached to one Unit) equal to the number of outstanding Exchangeable Securities held by registered holders, other than the Trust and its affiliates;

"**Tax Act**" means the *Income Tax Act* (Canada), including the regulations thereunder, as amended from time to time;

"**Trustee**" means Computershare Trust Company of Canada, as initial trustee pursuant to the Declaration of Trust;

"**Unitholders**" means the holders from time to time of Units;

"**Voting and Exchange Trust Agreement**" means the voting and exchange trust agreement dated May 1, 2004 among the Trust, AltaGas LP #1, AltaGas LP #2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

All dollar amounts in this short form prospectus are in Canadian dollars unless otherwise stated.

DESCRIPTION OF CASH FLOW OF THE TRUST

Throughout this short form prospectus and the documents incorporated by reference herein, the Trust uses the terms "Cash Flow of the Trust" to refer to the amount of cash that is to be available for distributions to Unitholders. "Cash Flow of the Trust" is not a measure recognized by Canadian generally accepted accounting principles ("**GAAP**") and does not have a standardized meaning prescribed by GAAP, but is an amount calculated in accordance with the terms of the Declaration of Trust. Therefore, Cash Flow of the Trust may not be comparable to similar measures presented by other issuers, and investors are cautioned that Cash Flow of the Trust should not be considered as an alternative to net earnings, cash flow from operating activities or other measures of financial performance calculated in accordance with GAAP.

ELIGIBILITY FOR INVESTMENT

Based in part upon representations made by AltaGas as to certain factual matters, in the opinion of Stikeman Elliott LLP and Blake, Cassels & Graydon LLP, the Units offered hereby will, on the date of closing, be qualified investments under the Tax Act for Exempt Plans and will not, on the date of closing, be foreign property for purposes of the Tax Act.

It is not certain whether the Trust would be a "business income trust" or whether the Units would constitute "restricted investment property" as described in proposed amendments to the Tax Act announced by the Minister of Finance (Canada) in the Budget. Under that Budget proposal, certain investors, including registered pension funds or plans and pension corporations, but not Exempt Plans, were to be liable to a penalty tax commencing in 2005 in respect of their holdings of restricted investment property and units of business income trusts in excess of the limits described in the Budget proposal. On May 18, 2004, the Minister of Finance (Canada) announced that this Budget proposal will be suspended pending further consultation and review. See "Certain Canadian Federal Income Tax Considerations" and "Risk Factors."

DOCUMENTS INCORPORATED BY REFERENCE

Information has been incorporated by reference in this short form prospectus from documents filed with securities commissions or similar authorities in Canada. For the purpose of the Province of Québec, this simplified prospectus contains information to be completed by consulting the permanent information record. Copies of the documents incorporated herein by reference and of the permanent information record may be obtained on request without charge from the Vice-President, General Counsel and Corporate Secretary of AltaGas at 1700, 355 – 4th Avenue S.W., Calgary, Alberta, T2P 0J1, Telephone: (403) 691-7540. These documents are also available through the Internet on the System for Electronic Document Analysis and Retrieval (SEDAR), which can be accessed at www.sedar.com.

The following documents of the Trust or AltaGas, filed with the various provincial securities commissions or similar authorities in Canada, are specifically incorporated into and form an integral part of this short form prospectus:

(a) the Renewal Annual Information Form of AltaGas Services dated March 18, 2004 (the "**AIF**"), including management's discussion and analysis of the financial condition and operations of AltaGas Services for the year ended December 31, 2003 incorporated by reference therein;

(b) the audited consolidated financial statements of AltaGas Services as at and for the years ended December 31, 2003 and 2002, together with the auditors' report thereon;

(c) the unaudited consolidated financial statements of AltaGas Services as at and for the three months ended March 31, 2004 and 2003;

(d) management's discussion and analysis of the financial condition and operations of AltaGas Services for the three months ended March 31, 2004 and 2003;

(e) the Information Circular and Proxy Statement dated March 26, 2004 relating to the Special Meeting of Securityholders of AltaGas Services held on April 29, 2004 (the "**Information Circular**"), excluding the sections entitled "Report on Employee and Executive Compensation", "Performance Graph" and "Statement of Corporate Governance Practices";

(f) the material change report of AltaGas Services dated March 22, 2004 with respect to the reorganization of the business of AltaGas Services into an income trust;

(g) the material change report of the Trust dated May 10, 2004 with respect to the completion of reorganization of the business of AltaGas Services into an income trust; and

(h) the material change report of the Trust dated ●, 2004 with respect to the offering.

Any material change reports (except confidential material change reports), comparative interim financial statements, comparative annual financial statements and the auditors' report thereon and information circulars (excluding the disclosure in an information circular relating to the downward repricing of options or stock appreciation rights, the composition of the Trust's compensation committee and its report on executive compensation, the performance graph and corporate governance practices) filed by the Trust with the provincial securities commissions or similar authorities in Canada after the date of this short form prospectus and before the termination of the offering, are deemed to be incorporated by reference in this short form prospectus.

Any statement contained in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for the purposes of this short form prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is, or is deemed to be, incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation, an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in light of the circumstances in which it was made. Any statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this short form prospectus.

ALTAGAS INCOME TRUST

General

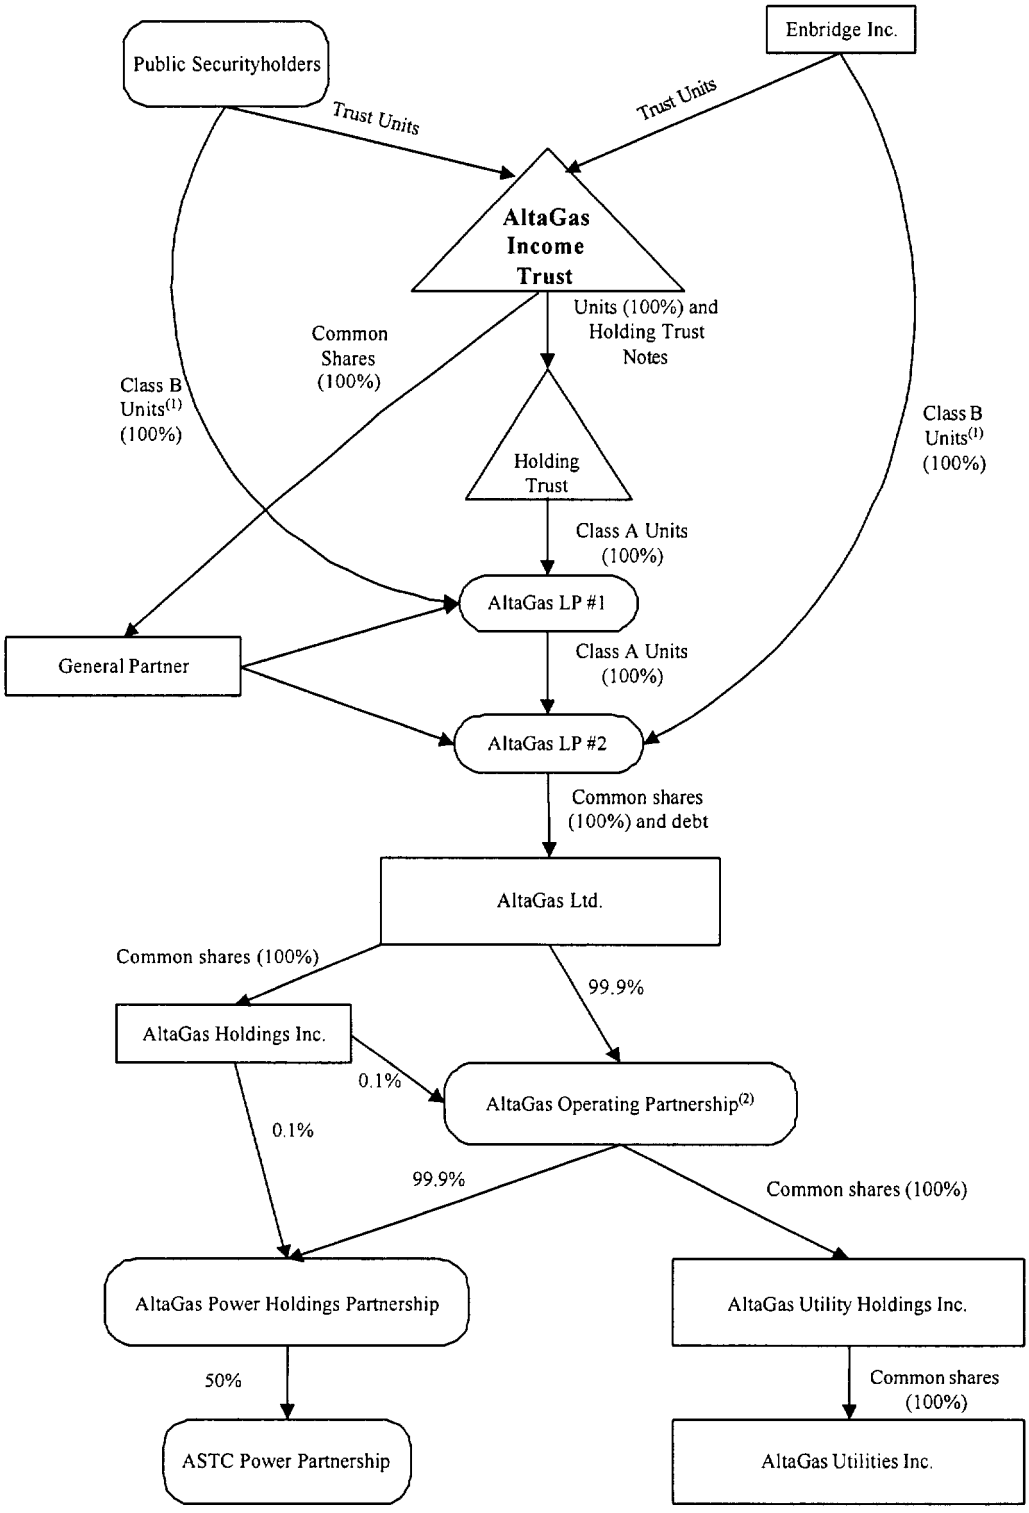
The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust. The head and principal office of the Trust is located at 1700, 355 - 4th Avenue S.W., Calgary, Alberta T2P 0J1. The Trust was established for the purposes of acquiring or investing in the securities of entities involved in the business of, or the ownership, lease or operation of assets or property in connection with gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses and such other investments as the Trust may determine.

Holders of Units are the sole beneficiaries of the Trust. Computershare Trust Company of Canada is the initial trustee of the Trust.

General Partner

The Trust is administered by the General Partner, which is also the general partner of AltaGas LP #1 and AltaGas LP #2. The board of directors of the General Partner also has the power to manage, or supervise the management of, the business and affairs of AltaGas pursuant to a unanimous shareholder agreement.

Business of AltaGas



AltaGas is an energy infrastructure based company and an indirect subsidiary of the Trust. AltaGas, directly and indirectly:

- Physically gathers, processes, extracts and transports natural gas;
- Contractually markets and transports natural gas and electrical power;
- Converts energy across and along the energy value chain to create higher-value added products; and
- Consumes natural gas and electrical power to operate its facilities.

AltaGas expects to continue to develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power business in Canada and the northern United States.

Organizational Structure of the Trust

The following diagram shows the inter-entity relationships among the Trust and its material subsidiaries.

Notes:

(1) Class B limited partnership units of AltaGas LP #1 and AltaGas LP #2 are exchangeable for Trust Units at the option of the holder on a one-for-one basis, are entitled to vote with Unitholders pursuant to the Special Voting Unit and are entitled to the same cash payments per unit as the cash distributions made on a Unit.

(2) Subsequent to the Arrangement, substantially all of the operating assets formerly owned by AltaGas were contributed to, and certain obligations of AltaGas were assumed by, the AltaGas Operating Partnership.

RECENT DEVELOPMENTS

Trust Conversion

Effective May 1, 2004, the business of AltaGas Services was reorganized pursuant to the Arrangement and holders of common shares of AltaGas Services received Units and/or Exchangeable Securities in exchange for their common shares. AltaGas Services became an indirect subsidiary of the Trust and was amalgamated to form AltaGas. Additional information relating to the Arrangement is contained in the Information Circular, which is incorporated by reference herein.

Edmonton Ethane Extraction Plant Acquisition

On March 18, 2004, AltaGas Services announced that it had entered into a purchase and sale agreement with BP Canada Energy Resources Company ("**BP**") to acquire BP's 48 2/3 % interest in the Edmonton Ethane Extraction Plant located at Edmonton, Alberta for approximately $46 million. The acquisition, expected to close during the second quarter of 2004, will increase AltaGas' net extraction processing capacity to 539 million cubic feet of gas per day.

Adoption of Distribution Reinvestment Plans

On May 20, 2004, the Trust adopted a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan for Unitholders and each of AltaGas LP #1 and AltaGas LP #2 adopted a Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plan for holders of Exchangeable Securities (collectively, the "**DRIP Plans**"), available in respect of monthly cash distributions or cash payments payable on or after June 15, 2004.

Under the DRIP Plans, eligible Unitholders and eligible holders of Exchangeable Securities may elect to receive a cash distribution up to 102% of the cash distribution from the Trust, in the case of Units, or up to 102% of the cash payment from AltaGas LP #1 or AltaGas LP #2, as applicable, in the case of Exchangeable Securities, that such Unitholder or holder of Exchangeable Securities would have otherwise been entitled to receive. Alternatively, Unitholders or holders of Exchangeable Securities can direct cash distributions or cash payments, as applicable, to be reinvested in additional Units at 95% of the "average market price" as defined in the DRIP Plans.

PremStar Energy Canada Ltd.

On May 26, 2004, the Trust announced that a subsidiary of the trust has executed a letter of intent to purchase the business of PremStar Energy Canada Ltd. and its subsidiaries, ECNG Inc. and Energistics Group Inc., for approximately $22.0 million payable by way of 993,789 Trust Units issued from treasury plus approximately $1.2 million cash. The transaction is conditional on the execution of a purchase and sale agreement, which is expected to occur prior to July 1, 2004.

The PremStar group specializes in the procurement and supply of energy to end use customers. The PremStar acquisition will build on AltaGas' low risk, fee for service business through the provision of physical energy supply from the gas field directly to end use customers located primarily in Ontario. On a fee for service basis, the PremStar group provides energy supply, arranges for transportation services, and supports customers with valuable market information.

PLAN OF DISTRIBUTION

Pursuant to an agreement dated ●, 2004 (the "**Underwriting Agreement**") between the Trust, AltaGas, AltaGas Operating Partnership and the Underwriters, the Trust has agreed to issue and sell ● Units and the Underwriters have severally agreed to purchase all of such Units on June ●, 2004 or on such other date as may be agreed among the parties to the Underwriting Agreement (such date not to be later than ●, 2004) at a price of $● per Unit. The Underwriting Agreement provides that the Underwriters will be paid a fee of $● per Unit purchased by the Underwriters from the Trust in consideration for their services in connection with the offering. The offering price of the Units was determined by negotiation between General Partner, on behalf of the Trust, and the Underwriters.

The Trust has granted to the Underwriters the Over-Allotment Option to purchase up to an additional ● Units at a price of $● per Unit, exercisable in whole or in part, at any time prior to 30 days after the closing of the offering, solely to cover over-allotments, if any, and for market stabilization purposes. If the Over-Allotment Option is exercised in full, the total

offering, Underwriters' fee and net proceeds to the Trust will be $●, $● and $●, respectively. This short form prospectus qualifies the distribution of the Units issuable upon exercise of the Over-Allotment Option.

The obligations of the Underwriters under the Underwriting Agreement are several, and not joint, and may be terminated upon the occurrence of certain stated events. If an Underwriter fails to purchase the Units which it has agreed to purchase, the remaining Underwriter or Underwriters may terminate their obligation to purchase their allotment of Units, or may, but are not obligated to, purchase the Units not purchased by the Underwriter or Underwriters which fail to purchase. The Underwriters are, however, obligated to take up and pay for all of the securities if any of the securities are purchased under the Underwriting Agreement. Pursuant to the Underwriting Agreement, the Trust, AltaGas and AltaGas Operating Partnership have agreed to indemnify the Underwriters and their respective agents, shareholders, directors, officers and employees against certain liabilities.

The Trust has applied to list the Units offered hereby on the TSX. Listing will be subject to the Trust fulfilling all of the listing requirements of the TSX.

The Trust has agreed with the Underwriters that it will not, during the period ending 90 days following the closing of the offering, issue or sell any Units or any securities convertible into or exchangeable for Units, without the prior written consent of RBC Dominion Securities Inc., such consent not to be unreasonably withheld, other than any issue of options pursuant to the Trust's Trust Unit Option Plan, and any issue of Units pursuant to options under such Plan, upon the exchange of Exchangeable Securities or pursuant to the Trust's DRIP Plans. Enbridge has agreed with the Underwriters that it will not, during the period ending 90 days following the closing of the offering, sell any Units or any securities convertible into or exchangeable for Units without the prior written consent of RBC Dominion Securities Inc., such consent not to be unreasonably withheld.

Pursuant to applicable securities laws, the Underwriters may not, throughout the period of distribution under this short form prospectus, bid for or purchase Units. The foregoing restriction is subject to certain exceptions including: (i) a bid or purchase permitted under the by-laws and rules of the TSX relating to market stabilization and passive market making activities; and (ii) a bid or purchase made for or on behalf of a customer where the order was not solicited during the period of the distribution, provided that the bid or purchase was not engaged in for the purpose of creating actual or apparent active trading in, or raising the price of the Units. In connection with the offering, the Underwriters may over-allot or effect transactions that stabilize or maintain the market price of the Units at a level other than that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time.

The Units offered hereby have not been and will not be registered under the 1933 Act or any state securities laws, and accordingly may not be offered or sold within the United States of America or to U.S. Persons (as such term is defined in Regulation S under the 1933 Act) except in transactions exempt from the registration requirements of the 1933 Act and applicable state securities laws. However, the Underwriting Agreement permits the Underwriters to offer and resell the Units acquired pursuant to the Underwriting Agreement to qualified institutional buyers (as defined in Rule 144A under the 1933 Act) in the United States, provided such offers and sales are made in accordance with Rule 144A under the 1933 Act. In addition, the Underwriting Agreement provides that the Underwriters will offer and sell Units outside the United States only in accordance with Regulation S under the 1933 Act. In addition, until 40 days after the commencement of this offering, any offer or sale of Units offered hereby within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the 1933 Act if such offer or sale is made otherwise than in accordance with Rule 144A under the 1933 Act.

USE OF PROCEEDS

The net proceeds of the offering to the Trust, after payment of the Underwriters' fee of $● and expenses of the offering estimated to be $●, will be approximately $●. If the Over-Allotment Option is exercised in full, the net proceeds of the offering to the Trust, after payment of the Underwriters' fee of $● and expenses of the offering estimated to be $●, will be approximately $●. See "Plan of Distribution." The net proceeds of the offering will be used by the Trust to indirectly subscribe for securities of AltaGas or will be indirectly loaned to AltaGas. AltaGas will use the net proceeds of the offering to reduce bank indebtedness, which may be redrawn and used for general corporate purposes including AltaGas' ongoing capital program, funding the acquisition of the Edmonton Ethane Extraction Plant referred to under "Recent Developments" and funding future acquisitions. See "Capitalization of the Trust" and "Relationship Among the Trust, AltaGas and Certain Underwriters."

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

In the opinion of Stikeman Elliott LLP and Blake, Cassels & Graydon LLP ("**Counsel**"), the following summary fairly describes the principal Canadian federal income tax considerations generally applicable under the Tax Act to a subscriber who acquires Units pursuant to the offering and who, for purposes of the Tax Act and at all relevant times, holds the Units as capital property and deals at arm's length with, and is not affiliated with, the Trust and the Underwriters. Generally, Units will be considered to be capital property to a holder provided the holder does not hold the Units in the course of carrying on a business of buying or selling securities and does not acquire them in one or more transactions considered to be an adventure in the nature of trade. Certain holders who are Residents and who might not otherwise be considered to hold their Units as capital property may, in certain circumstances, be entitled to make an irrevocable election in accordance with subsection 39(4) of the Tax Act to have them, and any other "Canadian securities" (as defined in the Tax Act), deemed to be capital property. Holders contemplating making such an election should first consult their own tax advisors.

This summary is not applicable to a Unitholder that is a "specified financial institution" as defined in the Tax Act or a "financial institution" as defined in the Tax Act for purposes of the mark-to-market rules, nor is it applicable to a Unitholder an interest in which would be a "tax shelter investment" under the Tax Act.

This summary is based upon the provisions of the Tax Act in force as of the date hereof, all specific proposals to amend the Tax Act publicly announced by the Minister of Finance (Canada) prior to the date hereof (the "**Proposed Amendments**"), and Counsel's understanding of the current published administrative practices of the Canada Revenue Agency ("**CRA**"). This summary is not exhaustive of all possible Canadian federal income tax considerations, and except for the Proposed Amendments, does not take into account or anticipate any changes in law or administrative practice, whether by legislative, governmental or judicial action, nor does it take into account provincial, territorial or foreign income tax legislation or considerations which may differ significantly from the Canadian federal income tax considerations discussed herein. No assurance can be given that the Proposed Amendments will be enacted as currently proposed or at all.

A Budget proposal to impose a tax on a registered pension plan's investment in trust units above certain limits unless 90% or more of the fair market value of the particular trust's property is attributable to, *inter alia*, real property was suspended by the Minister of Finance (Canada) on May 18, 2004 pending further consultation and review. Further, the Budget proposes to introduce changes to the Tax Act that will subject persons who are not Residents to tax in respect of certain distributions made by mutual fund trusts that currently are not subject to taxation in Canada. It is not clear whether these proposals, if enacted, will result in tax consequences to Unitholders that are materially different from those disclosed herein. Prospective Unitholders that are registered pension plans or who are not Residents should consult their own tax advisors regarding the income tax considerations applicable to them in their particular circumstances.

Based in part upon representations made by AltaGas as to certain factual matters, in the opinion of Counsel, the Trust presently qualifies as a "mutual fund trust" as defined in the Tax Act, and this summary assumes that the Trust will continue to so qualify at all times. In the event the Trust were not to so qualify, the income tax considerations would in some respects be materially different from those described below.

Taxation of the Trust

The Trust is subject to tax in each taxation year on its taxable income for the year, including net realized taxable capital gains, less the portion thereof that is paid or payable in the year to Unitholders and that is deducted by the Trust in computing its income for purposes of the Tax Act. An amount will be considered to be payable in a taxation year to a Unitholder if the Unitholder is entitled in the year to enforce payment of the amount. The taxation year of the Trust is the calendar year.

All or substantially all of the income of the Trust will consist of the income of Holding Trust (including net realized taxable capital gains) that is paid or becomes payable in the year by Holding Trust to the Trust and that is deducted by Holding Trust in computing its income for purposes of the Tax Act.

In computing its income, the Trust may deduct reasonable administrative, interest and other expenses incurred to earn income (provided such amounts are not reimbursed to it) and may amortize, over a five year period (subject to prorating for short taxation years) the underwriting fees and other expenses of the offering.

Under the Declaration of Trust, an amount equal to all of the income of the Trust for each year, including net realized capital gains, but excluding income which is designated by the Trust to a redeeming Unitholder and capital gains the tax on

which may be offset by capital losses carried forward from prior years or is recoverable by the Trust, generally will be payable in the year to Unitholders by way of cash distributions, subject to the following exceptions. Income of the Trust which is applied to finance cash redemptions of Units or is otherwise unavailable for cash distributions will be distributed to Unitholders in the form of additional Un its.

Capital gains of the Trust realized in connection with an *in specie* redemption of Units and certain income of the Trust may be designated to the redeeming Unitholder, with the result that the taxable portion of such gains and such income generally should be taxable to the redeeming Unitholder and not to the Trust.

Counsel has been advised that the Trust intends to make sufficient distributions in each year (in cash or by way of additional Units) of its income for tax purposes and any net realized taxable capital gains so that the Trust generally will not be liable for income tax under the Tax Act. The Trust generally is expected to designate to the Unitholders any taxable dividends or net taxable capital gains received or realized by it or designated to it by Holding Trust so that such amounts retain their character when received by Unitholders.

Taxation of Holding Trust

Holding Trust is subject to tax in each taxation year on its taxable income for the year, including net realized taxable capital gains, less the portion thereof that is paid or payable in the year to the Trust and that is deducted by Holding Trust in computing its income for purposes of the Tax Act. The taxation year of Holding Trust is the calendar year.

All or substantially all of the income of Holding Trust will consist of the portion of the income of AltaGas LP #1 that is allocated to Holding Trust. Amounts received or realized by AltaGas LP #1 as taxable dividends or net taxable capital gains will retain their character and be treated as such in the hands of Holding Trust to the extent allocated to Holding Trust. The amount of income allocated to Holding Trust from AltaGas LP #1 may exceed or be less than the amount of cash distributed by AltaGas LP #1 to Holding Trust.

In computing its income for tax purposes, Holding Trust may deduct reasonable administrative, interest and other expenses incurred to earn income (provided such amounts are not reimbursed to it).

Under the Holding Trust declaration of trust, an amount equal to all of the income of Holding Trust, including net realized capital gains, generally will be payable to the Trust and, therefore, deductible in computing Holding Trust's income for tax purposes. Accordingly, Holding Trust generally will not be liable for income tax. Holding Trust generally is expected to designate to the Trust any taxable dividends and net taxable capital gains received under the Tax Act so that such amounts retain their character as such when received by the Trust.

Taxation of AltaGas LP #1 and AltaGas LP #2

Neither AltaGas LP #1 nor AltaGas LP #2 is subject to tax under the Tax Act. AltaGas LP #1, as a partner of AltaGas LP #2, is required to include in computing its income for a particular fiscal year its share of the income or loss of AltaGas LP #2 for the fiscal year of AltaGas LP #2 ending in that fiscal year of AltaGas LP #1, whether or not any such income is distributed to AltaGas LP #1 in the year. Similarly, Holding Trust, as a partner of AltaGas LP #1, is required to include in computing its income for a particular taxation year its share of the income or loss of AltaGas LP #1 for the fiscal year of AltaGas LP #1 ending in that taxation year of Holding Trust, whether or not any such income is distributed to Holding Trust in the year.

For these purposes, the income or loss of AltaGas LP #2 and AltaGas LP #1 will be computed for each of their respective fiscal years as if each of them was a separate person resident in Canada, and in making those computations, each of AltaGas LP #1 and AltaGas LP #2 will be entitled to deduct reasonable administrative, interest and other expenses incurred to earn income (provided such amounts are not reimbursed to it). All or substantially all of the income of AltaGas LP #2 for a fiscal year will consist of interest on the indebtedness of AltaGas that accrues to AltaGas LP #2 to the end of the year, or is received or becomes receivable by it before the end of the year, to the extent that such interest was not included in computing its income for a preceding year. Also, AltaGas LP #2 will include in its income for a fiscal year any dividends received by it on shares of AltaGas in that year. Such amounts will then be included in the income of AltaGas LP #1 to the extent they are allocated to AltaGas LP #1.

Residents

The following portion of this summary is applicable to a Unitholder who at all relevant times is, or is deemed to be, a Resident. The taxation of Unitholders who are not Residents is described below under "Persons other than Residents".

This summary does not address the tax considerations of participating in the DRIP Plans. Additional information with respect to the DRIP Plans is available on the Trust's website at www.altagas.ca.

Trust Distributions

A Unitholder generally will be required to include in computing income for a particular taxation year of the Unitholder such portion of the net income of the Trust for a taxation year, including net realized taxable capital gains, as is paid or becomes payable to the Unitholder in that particular taxation year, whether received in cash, additional Units or otherwise. Provided that appropriate designations are made by the Trust and Holding Trust, such portion of any taxable dividends received from taxable Canadian corporations and net taxable capital gains as is paid or payable to a Unitholder will effectively retain its character and be treated as such in the hands of the Unitholder for purposes of the Tax Act. All other income of the Trust that is paid or becomes payable to a Unitholder generally will be considered income from property, irrespective of its source. Any loss of the Trust or Holding Trust for the purposes of the Tax Act cannot be allocated to, and cannot be treated as a loss of, a Unitholder.

The non-taxable portion of any net realized capital gains of the Trust that is paid or payable to a Unitholder in a taxation year will not be included in computing the Unitholder's income for the year and will not reduce the adjusted cost base ("**ACB**") of the Units held by the Unitholder. Any other amount in excess of the income of the Trust that is paid or payable to a Unitholder in a taxation year (otherwise than as proceeds of disposition on a redemption of Units) generally will not be included in the Unitholder's income for the year but will reduce the ACB of the Units held by the Unitholder. To the extent that the ACB of a Unit to a Unitholder would otherwise be a negative amount, that negative amount will be deemed to be a capital gain of the Unitholder from the disposition of the Unit in the year in which the negative amount arises, and the ACB of the Unit to the Unitholder will be reset to nil.

The cost to a Unitholder of a Unit will include all amounts paid or payable by the Unitholder for the Unit with certain adjustments. The cost to a Unitholder of additional Units received in lieu of a cash distribution of income (including net capital gains) will be the amount of such income paid in additional Units. The cost to a Unitholder of all Units held as capital property will be averaged to determine the ACB of each such Unit.

Acquisition of Units

Since the income of the Trust will be distributed on a monthly basis, a purchaser of a Unit may become taxable on a portion of the income of the Trust accrued or realized by the Trust in a month before the time the Unit was purchased but which was not paid or made payable to Unitholders until the end of the month and after the time the Unit was purchased. A similar result may apply on an annual basis in respect of a portion of net taxable capital gains accrued or realized by the Trust in a year before the time the Unit was purchased but which is paid or made payable to Unitholders at year end and after the time the Unit was purchased.

Disposition of Units

The disposition or deemed disposition by a Unitholder of a Unit, whether on redemption or otherwise, generally will result in the Unitholder realizing a capital gain (or a capital loss) equal to the amount by which the proceeds of disposition exceed (or are less than) the aggregate of the Unitholder's ACB of the Unit and any reasonable costs of disposition. Proceeds of disposition will not include an amount payable by the Trust that is otherwise required to be included in the Unitholder's income. The treatment of capital gains and losses is described below under "Residents – Taxation of Capital Gains and Capital Losses".

Where a Unitholder receives Holding Trust Notes on a redemption of Units, the proceeds of disposition to the Unitholder of the Units will be equal to the fair market value ("**FMV**") of the Holding Trust Notes so distributed less any amount designated by the Trust to be an income distribution from the Trust. The Declaration of Trust provides that the Trustees have the discretion to designate certain income and any capital gain realized by the Trust as a result of the redemption of Units to the Unitholder redeeming Units, as is reasonable in the circumstances. The Unitholder will be required to include in income any such income so designated.

The cost of any Holding Trust Notes distributed by the Trust to a Unitholder upon a redemption of Units will be equal to the FMV of the Holding Trust Notes at the time of the distribution. For this purpose, the Unitholder will be required to determine the FMV of the Holding Trust Notes on a reasonable basis. A Unitholder who is a Resident will thereafter be required to include in income, in accordance with the provisions of the Tax Act, interest received, receivable or accruing on such Holding Trust Notes.

Taxation of Capital Gains and Capital Losses

Under the Tax Act, one-half of any capital gain realized by a Unitholder, and the amount of any net taxable capital gains designated by the Trust in respect of a Unitholder, will be included in such holder's income as a taxable capital gain. Subject to certain specific rules in the Tax Act, one-half of any capital loss (an "allowable capital loss") realized by a Unitholder must be deducted from taxable capital gains realized by, or designated to, the Unitholder in the year of disposition, and allowable capital losses in excess of taxable capital gains in the year of disposition may be deducted against taxable capital gains realized in any of the three preceding taxation years or any subsequent taxation year.

A Unitholder that throughout the relevant taxation year is a "Canadian-controlled private corporation", as defined in the Tax Act, may be liable to pay an additional refundable tax of $6^2/_3\%$ on certain investment income, including taxable capital gains.

A capital loss realized on the disposition of a Unit by a Unitholder that is a corporation or trust (other than a mutual fund trust), whether directly or as a member of a partnership, may be reduced in respect of certain distributions to the Unitholder out of dividends received by the Trust directly or through Holding Trust, AltaGas LP #1 or AltaGas LP #2 and designated by the Trust in respect of the Unitholder, to the extent and under the circumstances described in the Tax Act.

Minimum Tax

Net income of the Trust that is paid or payable to a Unitholder that is designated as taxable dividends or as net taxable capital gains, and capital gains realized on the disposition of Units may increase the Unitholder's liability for minimum tax if the Unitholder is an individual.

Qualified Investment Status

Units will be qualified investments for Exempt Plans (subject to the specific provisions of any particular Exempt Plan) provided that the Trust qualifies as a mutual fund trust or a registered investment for purposes of the Tax Act. Counsel has been advised that the Trust intends to apply to be a registered investment under the Tax Act effective from the date of its formation. If the Trust does not become a registered investment, the Units would immediately cease to be qualified investments for Exempt Plans if the Trust ceased to be a mutual fund trust. If the Trust becomes a registered investment and subsequently ceased to qualify as a mutual fund trust, and consequently (or for any other reason) loses its status as a registered investment, the Units would cease to be qualified investments for Exempt Plans effective January 1st of the second calendar year following the year in which the Trust ceases to be a registered investment.

Holding Trust Notes received as a result of an *in specie* redemption of Units by the Trust will not be qualified investments for Exempt Plans, which could give rise to adverse consequences to the Exempt Plan or the annuitant thereunder. Accordingly, Exempt Plans that own Units should consult their own tax advisors before deciding to exercise the redemption right attached to the Units.

Registered Pension Plans

It is not certain whether the Trust would be a "business income trust" or whether the Units would constitute "restricted investment property" as described in certain Proposed Amendments announced by the Minister of Finance (Canada) in the Budget. Under those Proposed Amendments, certain investors, including registered pension funds or plans and pension corporations, but not Exempt Plans, were to be liable to a penalty tax commencing in 2005 in respect of their holdings of restricted investment property and units of business income trusts in excess of the limits described in those Proposed Amendments. On May 18, 2004, the Minister of Finance (Canada) announced that those Proposed Amendments will be suspended pending further consultation and review.

Foreign Property

Based in part on representations of the Trust, Holding Trust, AltaGas and the General Partner as to certain factual matters, the Units will not constitute foreign property for purposes of the Tax Act.

The Units may become foreign property at any time if the Trust either (i) ceases to qualify as a mutual fund trust and either does not become, or ceases to be, a registered investment, or (ii) does not restrict its holdings of foreign property within the limits provided under the Tax Act at any time that it is not a registered investment.

Persons other than Residents

The following portion of this summary generally is applicable to a Unitholder who at all relevant times is not, and is not deemed to be, a Resident ("**Non-Resident**") and who does not use or hold, and is not deemed to use or hold Units in connection with carrying on a business in Canada. Special rules, which are not discussed herein, may apply to a Unitholder that is a Non-Resident and that is an insurer carrying on business in Canada and elsewhere.

Trust Distributions

Generally, amounts in respect of income of the Trust that are paid or credited or deemed to be paid or credited, to a Non-Resident Unitholder, other than amounts designated by the Trust to be net taxable capital gains, will be subject to Canadian withholding tax at a rate of 25%, unless such rate is reduced under an applicable income tax convention. The rate of withholding tax is reduced to 15% where such distributions are paid or credited, or deemed to be paid or credited, to Unitholders who are Non-Residents and who are residents of the United States for purposes of the *Canada-United States Tax Convention*.

Pursuant to certain Proposed Amendments included in the Budget, the Trust will be required to maintain a separate account (the "**TCP Gains Distribution Account**") to which it will add its net capital gains from dispositions after March 22, 2004 of "taxable Canadian property" and from which it will deduct losses from dispositions of such property and distributions designated by the Trust to be capital gains. Amounts paid by the Trust to a Non-Resident Unitholder, which the Trust designates as capital gains, will be subject to Canadian withholding tax at the same rate as distributions in respect of Trust income to the extent the Trust has a positive balance in its TCP Gains Distribution Account.

Also under the Proposed Amendments, effective for distributions after 2004, if the value of the Units is considered to be primarily attributable to real property in Canada, all distributions by the Trust that would otherwise not be subject to withholding tax as described above may be subject to a special Canadian withholding tax of 15% of the amount of the distribution. This withholding tax, if applicable, may be refunded in certain circumstances where the holder disposes of Units at a loss, subject to detailed provisions contained in the Proposed Amendments. It is not certain whether this special withholding tax will apply to distributions by the Trust.

Disposition of Units

A Non-Resident Unitholder generally will not be subject to tax under the Tax Act in respect of any capital gain realized on a disposition or deemed disposition of a Unit (whether the disposition of such Unit is on sale, redemption, by virtue of capital distributions in excess of the Unitholder's ACB or otherwise) unless the Unit constitutes "taxable Canadian property" for purposes of the Tax Act of the Non-Resident Unitholder and no relief is available to the Non-Resident Unitholder under an applicable income tax convention.

A Unit generally will not be considered to be taxable Canadian property of a Unitholder unless either: (i) at any time during the 60 month period that ends at the time of the disposition of the Unit, 25% or more of the issued Units were owned by the Unitholder, by persons with whom the Unitholder did not deal at arm's length or by any combination thereof; or (ii) at the time of disposition, the Trust is not a "mutual fund trust" as defined in the Tax Act.

If a Non-Resident's Units are considered to be taxable Canadian property, on the disposition or deemed disposition thereof, the capital gain (or capital loss) generally will be treated in the manner described above under "Certain Canadian Federal Income Tax Considerations – Residents – Taxation of Capital Gains and Capital Losses". However, an applicable income tax convention may provide relief from Canadian tax on any such capital gain realized by the Unitholder.

Interest paid or credited on any Holding Trust Notes received by a Non-Resident Unitholder on an in specie redemption of Units will be subject to Canadian withholding tax at a rate of 25%, subject to a reduction in such rate under the terms of an applicable income tax treaty. Such rate of withholding tax generally will be reduced to 10% in the case of a non-resident who is a resident of the United States for purposes of the *Canada-United States Tax Convention*.

RELATIONSHIP AMONG THE TRUST, ALTAGAS AND CERTAIN UNDERWRITERS

RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. are subsidiaries of Canadian banks that are lenders to AltaGas. Accordingly, pursuant to applicable securities legislation, the Trust may be considered a "connected issuer" to RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. As at May 1, 2004, AltaGas was indebted to such banks in the amount of approximately $290.7 million. In addition, such banks have issued letters of credit to AltaGas in the aggregate amount of $28.7 million as at May 1, 2004. AltaGas is not in default of its obligations to such banks and none of such banks has waived any breach by AltaGas of such agreements since their execution. The financial position of AltaGas has not changed substantially since the indebtedness under the credit facilities was incurred. The indebtedness is unsecured. The net proceeds of the offering to the Trust will be used to indirectly subscribe for securities of AltaGas or indirectly loaned to AltaGas. AltaGas will use the net proceeds of the offering to reduce bank indebtedness which may be redrawn and used for general corporate purposes including expanding AltaGas' ongoing capital program and funding future acquisitions. The decision to issue the Units offered hereby and the determination of the terms of the distribution were made through negotiation among the Trust and the Underwriters. The Canadian banks of which RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. are subsidiaries did not have any involvement in such decision or determination. As a consequence of the offering, each of RBC Dominion Securities Inc., BMO Nesbitt Burns Inc., Scotia Capital Inc., CIBC World Markets Inc. and National Bank Financial Inc. will receive its proportionate share of the Underwriters' fee.

CAPITALIZATION OF THE TRUST

The following table sets forth the consolidated capitalization of the Trust as at May 1, 2004, both before and after giving effect to the offering.

Designation	As at May 1, 2004 before giving effect to the offering	As at May 1, 2004 after giving effect to the offering
	(unaudited)	(unaudited)
Debt:		
Operating loans [1][3]	$290,704 000	$●
Medium Term Notes [2]	$100,000,000	$100,000,000
Unit Capital:		
Units [3][4]	$200,474,000 (33,668,068 Units)	$● (● Units)
Exchangeable Securities [5][6]	$73,002,000 (12,260,225 units)	$73,002,000 (12,260,225 units)

(1) At May 1, 2004, AltaGas had: i) a $50.0 million demand operating credit facility with a Canadian chartered bank (the "**Operating Facility**"); ii) a $300.0 million extendible revolving term credit facility with a syndicate of Canadian chartered banks (the "**Extendible Facility**"); and iii) a $75.0 million 364 day extendible revolving letter of credit facility with a Canadian chartered bank (the "**LC Facility**") (collectively, the "**Operating Loans**"). The Operating Facility bears interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. The Extendible Facility bears interest at the lenders' prime rate or at the bankers' acceptance rate plus a stamping fee. The Extendible Facility matures on October 10, 2004 and may be extended for an additional 364 days or can be converted by AltaGas on that date to a two year term loan. The term loan is repayable over the two year period or at the end of the two year period, depending on the bond rating category of the long term senior unsecured indebtedness of AltaGas. The LC Facility bears fees and interest at market rates. It matures on July 31, 2004 but can be extended at AltaGas' request and acceptance by the bank. See "Risk Factors."

(2) On October 4, 2000, AltaGas Services issued $100 million of 7.28% medium term notes (the "**Medium Term Notes**"). Interest is payable semi-annually and the principal is due on October 4, 2005. Following the Arrangement, AltaGas Operating Partnership became the obligor for the Medium Term Notes and is in compliance with all covenants and requirements contained in the indenture pursuant to which such notes were issued. See "Risk Factors."

(3) In the event the Over-Allotment Option is exercised in full, the number of outstanding Units will be ● ($●) and the outstanding indebtedness under the Operating Loans will be reduced to $●.

(4) As at May 1, 2004, the Trust had outstanding, to officers, directors and employees, options to purchase an aggregate of 1,382,988 Units at prices ranging from $4.80 to $15.87 per Unit.

(5) There is one Special Voting Unit outstanding, representing, in aggregate, a maximum of 12,260,225 votes at meetings of Unitholders, subject to proportionate reduction upon exchange of Exchangeable Securities. See "Description of Units – Special Voting Units".

(6) Class B limited partnership units of AltaGas LP #1 and AltaGas LP #2 are exchangeable for Units at the option of the holder on a one-for-one basis, are entitled to vote with Unitholders pursuant to the Special Voting Unit and are entitled to the same cash payments per unit as the cash distributions made on a Unit.

(7) As at March 31, 2004, AltaGas Services' retained earnings were $100,943,000.

DESCRIPTION OF UNITS

Units

An unlimited number of Units may be created and issued pursuant to the Declaration of Trust. Each Unit entitles the holder thereof to one vote at any meeting of the Unitholders or in respect of any written resolution of Unitholders and represents an equal undivided beneficial interest in any distribution from the Trust (whether of income, net realized capital gains or other amounts) and in any net assets of the Trust in the event of termination or winding-up of the Trust. All Units shall rank among themselves equally and rateably without discrimination, preference or priority, whatever may be the actual date or terms of issue thereof. Each Unit is transferable, is not subject to any conversion or pre-emptive rights and entitles the holder thereof to require the Trust to redeem any or all of the Units held by such holder for cash or, in certain circumstances, Holding Trust Notes.

Issuance of Units

The Declaration of Trust provides that Units, including exchangeable securities, rights, warrants, options or other securities convertible into or exchangeable for Units, may be created, issued, sold and delivered on such terms and conditions and at such times as the Trustee may determine. The Declaration of Trust also provides that the Trustee may authorize the creation and issuance of any type of debt securities or convertible debt securities of the Trust from time to time on such terms and conditions to such persons and for such consideration as the Trustee may determine.

Special Voting Units

The Declaration of Trust allows for the creation of special voting units that will enable the Trust to provide voting rights to holders of Exchangeable Securities. A Special Voting Unit was issued pursuant to the Arrangement to enable the holders of Exchangeable Securities issued by AltaGas LP #1 and AltaGas LP #2 to vote at meetings of Unitholders.

The holder of a special voting unit, including the Voting and Exchange Trustee in respect of the Special Voting Unit, is not entitled to any interest or share in the distributions or net assets of the Trust and is only entitled to such number of votes at meetings of Unitholders as is equal to the number of Units into which the exchangeable securities to which such special voting unit relates are exchangeable or convertible.

Under the terms of the Voting and Exchange Trust Agreement, the Trust issued the Special Voting Unit to the Voting and Exchange Trustee for the benefit of every person who received Exchangeable Securities pursuant to the Arrangement. The Voting and Exchange Trustee is obligated to vote the Special Voting Unit at meetings of Unitholders pursuant to the instructions of the holders of Exchangeable Securities. However, if no instructions are provided by the holders of Exchangeable Securities, the votes associated therewith in the Special Voting Unit will be withheld from voting.

The special voting units will be subject to such other rights and limitations as may be determined by the Trustee at the time of issuance of the special voting unit. The Declaration of Trust provides that, upon the exchange of Exchangeable Securities for Units, the entitlement to vote pursuant to the special voting unit will be eliminated in respect of those Exchangeable Securities.

Cash Distributions

Pursuant to the Declaration of Trust, the Trust is required to make cash distributions to Unitholders each month equal to the Cash Flow of the Trust. Cash received by the Trust from its subsidiaries will be managed by the General Partner, giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements of the Trust, the consolidated debt repayment requirements of the Trust and other factors. The intent of the General Partner is to maximize the cash received by the Trust from its subsidiaries giving consideration to these various factors.

Distributions in respect of a month will be paid to Unitholders of record as at the close of business on each determined distribution record date. The distribution for any month will be paid on the determined distribution payment date. In addition, the Declaration of Trust provides that, if necessary, on December 31st of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year.

Subscribers who purchase Units pursuant to the offering and who hold such Units on the relevant record date will be eligible to receive distributions commencing with the distribution anticipated to be payable on or about July 15, 2004, provided closing of the offering occurs by June 25, 2004, the anticipated record date for such distribution. Subscribers will not be eligible to receive the distribution to be paid on June 15, 2004, the record date for which was May 25, 2004. The General Partner expects that substantially all of the cash distributions to Unitholders will be taxed as ordinary income or as dividends.

For additional information in respect of the Units, including information respecting Unitholders' limited liability, restrictions on non-resident Unitholders, the redemption right attached to the Units, meetings of Unitholders, and amendments to the Declaration of Trust, see "Declaration of Trust and Description of Units" on pages 79 through 85, inclusive, of the Information Circular.

LEGAL MATTERS

Certain legal matters in connection with the issuance of the Units offered hereby will be passed upon on behalf of the Trust by Stikeman Elliott LLP, Calgary, Alberta, and on behalf of the Underwriters by Blake, Cassels & Graydon LLP, Calgary, Alberta.

INTERESTS OF EXPERTS

The partners and associates of Stikeman Elliott LLP, as a group, and the partners and associates of Blake, Cassels & Graydon LLP, as a group, each own, directly or indirectly, less than 1% of the outstanding Units and Exchangeable Securities. As of the date hereof, the partners and professional staff of Ernst & Young LLP, as a group, do not beneficially

own, directly or indirectly, any of the Units or Exchangeable Securities. In addition, none of the aforementioned persons or companies, nor any director, officer or employee of any of the aforementioned persons or companies, is or is expected to be elected, appointed or employed as a director, officer or employee of the Trust or of any associate or affiliate of the Trust.

RISK FACTORS

A prospective investor should consider carefully the risk factors set out below and in the AIF incorporated by reference herein. In addition, prospective investors should carefully review and consider all other information contained in this short form prospectus before making an investment decision and consult their own experts where necessary.

Risks Inherent in an Investment in Units

Nature of Units

The Units do not represent a traditional investment in the diversified energy services business and should not be viewed by Unitholders as shares in AltaGas. The Units represent a fractional interest in the Trust. As holders of Units, Unitholders will not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions. The Trust's sole assets are the shares of the General Partner, the units of the Holding Trust, Holding Trust Notes and other investments in securities.

Cash distributions of the Trust are not guaranteed and the price per Unit is a function of anticipated distributions, the underlying assets of the Trust and management's ability to effect long-term growth in the value of AltaGas and other entities now or hereafter owned directly or indirectly by the Trust. The market price of the Units will be sensitive to a variety of market conditions including, but not limited to, interest rates, electricity prices and natural gas and natural gas liquids prices. Changes in market conditions may adversely affect the trading price of the Units.

The Units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that Act or any other legislation. Furthermore, the Trust is not a trust company and, accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

Potential Sales of Additional Units

The Trust may issue additional Units or securities convertible into or exchangeable for Units in the future to directly or indirectly fund capital expenditure requirements of AltaGas and other entities now or hereafter owned directly or indirectly by the Trust, including to finance acquisitions by those entities. Such additional Units may be issued without the approval of Unitholders. Unitholders will have no pre-emptive rights in connection with such additional issues. The Board of Directors of the General Partner has discretion in connection with the price and the other terms of the issue of such additional Units.

Nature of Distributions

Unlike interest payments on an interest-bearing security, cash distributions by income trusts on trust units (including those of the Trust) are, for Canadian tax purposes, composed of different types of payments (portions of which may be fully or partially taxable or may constitute non-taxable "returns of capital"). The composition for tax purposes of those cash distributions may change over time, thus affecting the after-tax return to Unitholders. Therefore, a Unitholder's rate of return over a defined period may not be comparable to the rate of return on a fixed-income security that provides a return on capital over the same period. This is because a Unitholder may receive cash distributions that constitute a return of capital (rather than a return on capital) to some extent during the relevant period. Returns on capital are generally taxed as ordinary income or as dividends in the hands of a Unitholder while returns of capital are generally non-taxable to a Unitholder (but reduce a Unitholder's cost base in the Unit for tax purposes). The General Partner expects that substantially all of the cash distributions to Unitholders will be taxed as ordinary income or as dividends. See "Description of Units – Cash Distributions". Unitholders are advised to consult their own tax advisors with respect to the implications of the distinction discussed above in their own circumstances.

Variability of Distributions

As the Cash Flow of the Trust available for distribution to Unitholders is a function of numerous factors, including AltaGas' financial performance, the impact of interest rates, electricity prices, natural gas and natural gas liquids prices, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of Units and Exchangeable Securities outstanding, depending on the operations of AltaGas and the performance of its assets, distributions may be reduced or suspended entirely.

The market value of the Units may deteriorate if the Trust is unable to meet its distribution targets in the future, and that deterioration may be material.

Changes in Legislation

Income tax laws relating to the Trust, such as the status of mutual fund trusts, may be changed in a manner which adversely affects Unitholders. If the Trust ceases to qualify as a mutual fund trust, the Units will cease to be qualified investments for Exempt Plans. If the Trust ceases to qualify as a "mutual fund trust" and either did not become or ceased to be a registered investment under the Tax Act, the income tax considerations described under the heading "Certain Canadian Federal Income Tax Considerations" would be materially and adversely different in certain respects.

The Budget contained a proposal to subject distributions of capital after 2004 to non-residents by certain income trusts (which distributions currently are not subject to Canadian income tax) to a new 15% withholding tax. This tax will apply to Unitholders only if the value of the Units is "primarily attributable to real property in Canada or a Canadian resource property". It is not clear whether the Trust would meet this test and thereby be subject to the application of this proposal. If this proposal applies with respect to the Trust, it may adversely affect non-resident Unitholders who are not entitled to a deduction or credit for such withholding tax against income taxes otherwise payable by them in another jurisdiction.

The Budget also contained several proposals relating specifically to the tax treatment of certain tax exempt holders of units of certain income trusts. After 2004, a penalty tax is proposed for certain Canadian tax exempt entities, such as registered pension funds, which hold excess amounts of units or debt of "business income trusts". Generally, the restrictions limit the aggregate amount of such holdings to 1% of the cost of all of the entity's property and limit the holdings of such entities (together with entities with which they do not deal at arm's length) to 5% of the total fair market value of any class of units of a particular trust. These proposals do not apply to Exempt Plans. Due to the nature of the assets held indirectly by the Trust, it is not clear for the purposes of these rules whether the Trust will be considered to be a "business income trust" to which these restrictions will apply. The Minister of Finance (Canada) announced on May 18, 2004 that this proposal would be suspended pending further consultation and review. There can be no assurance as to whether such suspension will be permanent or, alternatively, such restrictions on "business income trusts" applied as previously announced or in some modified form.

Environmental and applicable operating legislation may be changed in a manner which adversely affects AltaGas through the imposition of restrictions on its business activities or by the introduction of regulations that increase AltaGas' operating costs thereby indirectly affecting the Trust and potentially reducing distributions to Unitholders.

Loss of Mutual Fund Trust Status

The General Partner intends that the Trust will continue to qualify as a mutual fund trust for purposes of the Tax Act. The Trust may not, however, always be able to satisfy any future requirements for the maintenance of mutual fund trust status. See "– Changes in Legislation" above. Should the status of the Trust as a mutual fund trust be lost or successfully challenged by a relevant tax authority, certain adverse consequences may arise for the Trust and Unitholders. Some of the significant consequences of losing mutual fund trust status are listed below.

(a) If at the time the Trust ceased to be a mutual fund trust it had not become a registered investment, the Units would immediately cease to be qualified investments for Exempt Plans. If the Trust were a registered investment, it may, as a consequence of ceasing to be a mutual fund trust, also cease to be a registered investment. In that event, Units would cease to be qualified investments for Exempt Plans effective January 1st of the second calendar year following the year in which the Trust ceases to be a registered investment. If, at the end of any month, an Exempt Plan holds Units that are not qualified investments, the plan must pay a tax equal to 1% of the fair market value of the Units at the time the Units were acquired by the Exempt Plan. A registered retirement savings plan or registered retirement

income fund holding Units that are not qualified investments would be subject to taxation on income attributable to the Units, including the full amount of any capital gain from a disposition of such Units. If a registered education savings plan holds Units that are not qualified investments, it may have its registration revoked by the CRA.

(b) Units held by Non-Resident Unitholders would become taxable Canadian property. Non-Resident Unitholders would be subject to Canadian income tax and reporting requirements on any gains realized on a disposition of Units held by them.

(c) The Trust would be taxed on certain types of income distributed to Unitholders. Payment of this tax may have adverse consequences for some Unitholders, particularly Unitholders that are not residents of Canada and residents of Canada that are otherwise exempt from Canadian income tax.

(d) The Trust would cease to be eligible for the capital gains refund mechanism available under Canadian tax laws if it ceased to be a mutual fund trust.

(e) The Trust would no longer be exempt from the application of the alternative minimum tax provisions of the Tax Act.

(f) If the Trust either does not become a registered investment, or having become a registered investment also ceased to be a registered investment, the Units would constitute "foreign property" for the purposes of the Tax Act.

In addition, the Trust may take certain measures in the future to the extent it believes necessary to ensure that the Trust maintains its status as a mutual fund trust. These measures could be adverse to certain Unitholders, particularly Non-Residents. See "- Risks Associated With the Level of Foreign Ownership" below.

Risks Associated With the Level of Foreign Ownership

The Declaration of Trust contains a number of provisions designed to protect the status of the Trust as a "mutual fund trust" under the Tax Act which, *inter alia*, requires that a mutual fund trust cannot be established or maintained primarily for the benefit of Non-Residents. There is no indication that the mutual fund trust status of the Trust currently is in jeopardy. If, in the future, the General Partner determines that any such risk exists, it is entitled to take a number of actions under the Declaration of Trust, including to require Unitholders that it believes are Non-Residents to sell their Units, which action may have an adverse effect on the market price of the Units. In addition, there can be no assurances that the Tax Act will not be amended in the future in a manner that would have a material adverse impact on the mutual fund trust status of the Trust.

Distribution of Holding Trust Notes or Other Securities on Redemption or Termination of the Trust

It is anticipated that the redemption right will not be the primary mechanism for Unitholders to liquidate their investment. Holding Trust Notes which may be received as a result of a redemption of Units will not be listed on any stock exchange and no market for Holding Trust Notes is expected to develop. The Holding Trust Notes will not be qualified investments for Exempt Plans. On termination of the Trust, the Trustee may distribute securities directly to Unitholders, subject to obtaining all of the necessary regulatory approvals. In addition, there may be resale restrictions imposed by applicable law upon the recipients of Holding Trust Notes pursuant to the redemption right. The Holding Trust Notes will not be guaranteed by any other party, and the provisions of the Holding Trust Note Indenture governing events of default and the remedies available thereunder will not provide protection to the holders of Holding Trust Notes which would be comparable to the provisions generally found in debt securities issued to the public.

Debt Service

AltaGas may, from time to time, finance a significant portion of its operations through debt. Amounts paid in respect of interest and principal on debt incurred by AltaGas may impair AltaGas' ability to satisfy its obligations under indebtedness held indirectly by the Trust. Variations in interest rates and scheduled principal repayments could result in significant changes in the amount required to be applied to debt service before payment by AltaGas of its obligations under its indirect indebtedness to the Trust. Ultimately, this may result in lower levels of Cash Flow of the Trust.

The Operating Loans are unsecured and subject to customary covenants and financial tests which may in certain circumstances restrict AltaGas' ability to make distributions to AltaGas LP #2 and ultimately to Unitholders. The Medium Term Notes are subject to customary covenants and financial tests, including a restriction on total funded obligations as a ratio of total capitalization, and may in certain circumstances restrict AltaGas Operating Partnership's ability to make distributions to AltaGas and ultimately to Unitholders.

Structural and Contractual Subordination

In the event of a bankruptcy, liquidation or reorganization of AltaGas or AltaGas Operating Partnership, holders of their respective indebtedness and trade payables will generally be entitled to payment of their claims from the assets of AltaGas or AltaGas Operating Partnership, as applicable, before any assets are made available for distribution to the Trust. The Units are therefore effectively junior to indebtedness under the Operating Loans and the Medium Term Notes and most other liabilities (including trade payables) of AltaGas and AltaGas Operating Partnership. Neither AltaGas nor AltaGas Operating Partnership is limited in its ability (except pursuant to restrictive covenants under the Operating Loans and the Medium Term Notes) to incur secured or unsecured indebtedness.

AltaGas distributes a substantial portion of its cash flow to AltaGas LP #2 pursuant to an interest bearing loan agreement. Payments by AltaGas under this loan agreement are expressly subordinated to the prior payment in full of all indebtedness of AltaGas to third parties, including all indebtedness and obligations under the Operating Loans. Upon a default under the Operating Loans or the Medium Term Notes, AltaGas may be prevented from distributing cash to AltaGas LP #2 thereby ultimately reducing cash available for distribution to Unitholders.

Dependence on AltaGas

The Trust will be entirely dependent upon the success of the operations of AltaGas through its indirect ownership of AltaGas. Accordingly, the distributions to the Unitholders will be dependent on the ability of AltaGas to generate cash flow.

Taxation of AltaGas

Income fund structures often involve significant amounts of inter-entity debt, generating substantial interest expense, which serves to reduce earnings and therefore income tax payable. The Board of Directors of the General Partner expects this to be the case in respect of AltaGas and its interest expense on its indirect indebtedness to the Trust. There can be no assurance that taxation authorities will not seek to challenge the amount of interest expense deducted. If such a challenge were to succeed against AltaGas, it could have a materially adverse effect on the Cash Flow of the Trust available for distribution to Unitholders.

Unitholder Limited Liability

The Declaration of Trust provides that no Unitholder will be subject to any liability in connection with the Trust or its obligations and affairs and, in the event that a court determines Unitholders are subject to any such liabilities, the liabilities will be enforceable only against, and will be satisfied only out of the Trust's assets. Pursuant to the Declaration of Trust, the Trust will indemnify and hold harmless each Unitholder from any costs, damages, liabilities, expenses, charges and losses suffered by a Unitholder resulting from or arising out of such Unitholder not having such limited liability. There is no assurance that at the relevant time the Trust will have sufficient assets to be able to satisfy such indemnity.

The Declaration of Trust provides that all written instruments signed by or on behalf of the Trust must contain a provision to the effect that obligations under those instruments will not be binding upon Unitholders personally. Personal liability may however arise in respect of claims against the Trust that do not arise under contracts, including claims in tort, claims for taxes and possibly certain other statutory liabilities. The possibility of any personal liability of this nature arising is considered unlikely.

The operations of the Trust will be conducted, upon the advice of counsel to the Trust, in such a way and in such jurisdictions as to avoid as far as possible any material risk of liability to the Unitholders for claims against the Trust, including by obtaining appropriate insurance, where available and to the extent commercially feasible.
