Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The first and last quarters each year are the Trust's most profitable on the basis of the contribution from the Natural Gas Distribution segment which reports higher earnings in colder periods than in warmer periods.

Net income of $10.2 million in the first quarter of 2003 set a new high for AltaGas for that period in a year. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of this performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity with a record 85 wells tied-in during the first quarter. Final commissioning of the Joffre ethane extraction plant provided volume increases in the extraction component and volumes in the transmission component were higher due to the 2002 Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs, partially offset the gains made in the other segments. On April 1, 2003 AltaGas commenced selling power from the Genesee energy contract which provides for 100 megawatts of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the fourth quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. Higher NGL fractionation spreads at the Empress ATCO extraction plant contributed to the increase. In addition, power prices improved over the same quarter in the prior year. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to announced changes in federal large corporations tax legislation, was still the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and to the completion of modifications to increase AltaGas' share of ethane production by 1400 Bbls/d at the EnCana-operated Empress extraction plant late in the quarter of 2003.

First quarter 2004 produced record net income of $11.0 million for that period in a year based on increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

The second quarter of 2004 saw AltaGas convert from a corporate structure to an income trust. Very strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million and income per unit of $0.25 both improved substantially compared to the same quarter of the prior year. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds used to reduce the Trust's debt. This quarter also saw AltaGas commence monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of EEEP, high NGLs fractionation spreads and the acquisition of the Alberta power peaking capacity.

Fourth quarter 2004 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

Effective January 1, 2004, AltaGas prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. AltaGas' hedging relationships are effective and appropriately designated and documented and therefore gains and losses relating to hedges are deferred and recognized in the same period and financial statement category as the hedged transaction.

Effective the first quarter of 2004, AltaGas' changed its accounting policy for stock-based compensation, now recognizing the compensation expense related to stock options in the financial statements according to the fair-value method. Prior to the change in policy, the Trust did not record compensation expense but disclosed the impact of the accounting for stock options under the fair-value method on a pro-forma basis. Under the provisions set out by the CICA, AltaGas has adopted the change retroactively. The impact was to reduce retained earnings at January 1, 2004 by $0.3 million, and to reduce first quarter 2004 earnings by $0.1 million which amounts were based on the vesting status and exercise assumptions in existence at the end of the first quarter 2004. Subsequent to the conversion of AltaGas Services Inc. to an income trust all unvested options became fully vested.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to Management's Discussion and Analysis in ASI's 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power services component. Alberta Power Pool daily average spot prices ranged from $7.13 per MWh to $165.47 per

MWh in the fourth quarter of 2004. Through the use of financial hedges on a portion of its 2004 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At December 31, 2004 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $239.2 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 85 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During 2004, AltaGas acquired $130.2 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $70.8 million in the previous year.

Growth capital accounted for $119.0 million of 2004 investment, and included gathering and processing facility acquisitions and expansions, investments in limited partnership units of Taylor, the acquisition of PremStar and the Alberta peaking plants capital lease. Maintenance capital projects amounting to $6.4 million in 2004 and $10.6 million in 2003 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments. Also spent in 2004 was $4.8 million (2003 - $4.3 million) on administrative capital including computer hardware and software projects expected to increase the effectiveness of the operating and administrative functions of the Trust.

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the year ended December 31, 2004 increased to $108.6 million from $90.2 million for the year ended December 31, 2003.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium Distribution™ programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in ASI's 2003 Annual Report.

On June 10, 2004 the Trust closed a public offering of 4,730,000 Trust units, at a price of $18.70 per Trust unit for gross proceeds of $88.5 million. The net proceeds of the offering to the Trust, after payment of fees and expenses of $4.7 million was approximately $83.8 million. The net proceeds were used to reduce bank indebtedness and for general corporate purposes including AltaGas' ongoing capital program, the acquisition of EEEP and funding future acquisitions.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At December 31, 2004 AltaGas had total debt outstanding of $359.5 million compared to $396.9 million at December 31, 2003. AltaGas Operating Partnership had $100.0 million in medium term notes outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit though bank lines of approximately $425.0 million. At December 31, 2004 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $239.2 million and letters of credit outstanding of $28.7 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at December 31, 2004 decreased to 43 percent from 52 percent at December 31, 2003.

AltaGas had a working capital deficiency of $106.5 million at December 31, 2004 compared to working capital surplus of $9.1 million at December 31, 2003. The primary driver for this change in working capital is related to the classification of AltaGas' $100 million MTN balance to current portion of long term debt.

Following AltaGas' announcement in March 2004 of its then proposed conversion to a trust Standard & Poor's (S&P) confirmed the rating on AltaGas' long term corporate credit at BBB- with a negative outlook and the rating on the senior unsecured debt at BBB-. The Dominion Bond Rating Service (DBRS) confirmed the rating of AltaGas Income Trust at BBB (low) with a stable trend and applied the same rating to AltaGas Operating Partnership and the medium term notes held by AltaGas Operating Partnership. The Trust has a stability rating of SR-3 (stable outlook) from S&P and STA-3 (mid) from DBRS.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received Exchangeable units that are exchangeable into Trust units on a one for one basis. The Exchangeable units are not listed for trading on an exchange.

As of January 31, 2005 the Trust had 51.2 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.2 billion based on a closing trading price on January 31, 2005 of $23.36 per trust unit. There are 0.2 million options exercisable under the terms of the unit option agreement brought forward in the reorganization. All options currently issued under this plan have vested effective May 1, 2004.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

AltaGas entered into a capital lease with Maxim Energy Group Ltd. for the right to 25 megawatts of gas fired power peaking capacity in Alberta. AltaGas retains 100 percent of the ancillary service and peaking sales revenues. The contract has a 10 year term which commenced September 1, 2004 and includes an option at the end of the initial term to extend the term for a further 15 years or purchase the assets. The cost of the lease to AltaGas is $13.8 million which has been paid for with a cash prepayment of $0.8 million and a charge recorded to long term debt of $13.0 million, of which $1.0 million is due over the next twelve months.

There have been no other material changes to AltaGas' contractual obligations, since December 31, 2003. For further information on these contractual obligations, refer to the MD&A in ASI's 2003 Annual Report.

RELATED PARTIES

On each of October 17, 2003 and August 19, 2004 the Trust purchased 1.6 million units of Taylor NGL Limited Partnership (Taylor) from Taylor's treasury. AltaGas paid $8.7 million and $10.6 million respectively for the investments.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

OUTLOOK

The outlook for the Gathering and Processing segment for 2005 is positive as a result of the late August 2004 acquisition of EEEP and due to the expectation that drilling activity in the majority of AltaGas' operating areas is

expected to remain strong given the favorable commodity pricing environment. In the Energy Services segment, spot power prices are anticipated to weaken however prices on hedges volumes are improved from 2004 levels. The full year impact of the addition of the 25 MW of power peaking capacity and the fourth quarter 2004 close of the PremStar acquisition in the gas services component are expected to contribute additional volumes in the power services and the gas services components.

SUBSEQUENT EVENTS

On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million realizing a pre-tax gain of approximately $5.0 million. The sale reduces AltaGas' ownership in Taylor to 4.0 million units or 14.0 percent.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

SELECTED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)
(tabular amounts in thousands of dollars)

1. STRUCTURE OF ALTAGAS INCOME TRUST

The Trust is an unincorporated open-ended trust established under the laws of Canada, pursuant to a Declaration of Trust dated March 26, 2004. The Trust commenced operations on May 1, 2004 as successor to AltaGas Services Inc. (ASI) when it acquired all of the shares of ASI for consideration of Trust units or Exchangeable units on a one for one basis. These unaudited interim consolidated financial statements follow the continuity of interest basis of accounting whereby the Trust is considered a continuation of ASI. As a result, the comparative period figures are those of ASI while the results of operations include ASI's results for the period up to and including April 30, 2004 and the Trust's results of operations from May 1, 2004 to December 31, 2004.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Trust have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in ASI's annual consolidated financial statements for the fiscal year ended December 31, 2003, except as described in note 3. These interim consolidated financial statements for the quarter ending December 31, 2004 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in ASI's 2003 Annual Report.

3. CHANGE IN ACCOUNTING POLICY

Effective January 1, 2004, the Trust adopted the new Canadian Institute of Chartered Accountants standard for accounting for stock-based compensation (Section 3870), which requires the use of the fair value method to account for stock or unit options. Based on the Black-Scholes option valuation model, stock or unit options are valued at the date of the grant and recognized as compensation expense over the vesting period. This change in accounting policy resulted in a reduction of opening retained earnings for 2004 of $0.3 million and an increase to equity contributed surplus.

Stock option compensation expense charged for the year ended December 31, 2004 is $2.5 million with an increase in contributed surplus. No compensation expense is recorded for stock options issued prior to January 1, 2002.

Prior to January 1, 2004 AltaGas accounted for stock based compensation using the intrinsic value method of accounting, whereby no compensation expense was recognized for stock options granted to employees or directors unless the market value of the stock exceeded the option's exercise price at the date of grant. Consideration paid by employees or directors on the exercise of stock options was credited to unit capital. Options were issued at current market value, consequently no compensation was recorded.

4. ACQUISITIONS

On October 6, 2004 AltaGas acquired substantially all of the assets and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc. for $21.9 million including acquisition costs. Consideration paid was $1.5 million cash and Trust units with an ascribed value of $19.0 million. The acquisition was accounted for using the purchase method, whereby assets acquired are recorded at fair value and the results are included in these consolidated financial statements from the date of acquisition. The final allocation of the purchase price has not been finalized and may be subject to adjustments.

Net assets acquired	
Working capital	$ 2,568
Capital assets	905
Energy service arrangements and contracts	1,839
Energy service relationships	16,548
	21,860
Net acquisition costs	(1,341)
	$ 20,519

5. UNITHOLDERS' EQUITY

	December 31 2004	December 31 2003
Unitholders'/shareholders' capital (note 6)	**$ 386,638**	$ 268,040
Contributed surplus (note 3)	**2,823**	-
Accumulated earnings	**196,819**	131,350
Accumulated dividends	**(41,114)**	(36,063)
Accumulated unitholders' distributions	**(61,651)**	-
	$ 483,515	$ 363,327

For the year ended December 31, 2004 $5.1 million (2003 - $17.3 million) of dividends and $53.7 million (2003 - nil) of distributions were paid by the Trust.

6. UNITHOLDERS' CAPITAL

Authorized December 31, 2003

- an unlimited number of common shares without nominal or par value
- an unlimited number of preferred shares without nominal or par value

Authorized December 31, 2004

- an unlimited number of trust units redeemable for cash at the option of the holder
- an unlimited number of AltaGas Holding Limited Partnership No. 1 (LP1) class B limited partnership units (Exchangeable units) which are exchangeable into trust units on a one for one basis. Prior to May 1, 2014 the exchange is at the option of the unitholder at any time, and at the option of the Trust should the number of LP1 units outstanding fall below 750,000. After May 1, 2014 the exchange is at the option of either the Trust or unitholder
- an unlimited number of AltaGas Holding Limited Partnership No. 2 (LP2) class B limited partnership units (Exchangeable units) which are exchangeable into trust units on a one for one basis. Prior to May 1, 2009 the exchange is at the option of the unitholder at anytime, and at the option of the Trust should the number of LP2 units outstanding fall below 1,000,000. After May 1, 2009 the exchange is at the option of either the Trust or unitholder

Common shares issued and outstanding:	Number of shares	Amount

Issued and outstanding December 31, 2004	**53,195,535**	**$ 386,638**

The Trust has an employee unit option plan under which both employees and directors are eligible to receive grants. At December 31, 2004 3,800,000 units were reserved for issuance under the plan. To December 31, 2004 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. On May 1, 2004 subsequent to the establishment of the Trust all options granted were vested. There have been no options granted since May 1, 2004.

At December 31, 2004 outstanding options are exercisable at various dates to the year 2014 (2003 – 2013). Options outstanding under the plan have a weighted average exercise price of $9.02 (2003 - $8.74) and a weighted average remaining term of 7.44 years (2003 – 7.21 years). As at December 31, 2004 the unexpensed fair value of unit option compensation cost associated with future periods was nil (2003 - $2.3 million).

Expiry date	Number of options	Exercise price
2009	10,900	$7.00
2010	8,000	$5.20
2011	146,075	$6.09 - $7.25
2012	92,250	$6.50 - $9.75
2013	61,386	$9.48 - $15.05
2014	30,800	$15.14 - $15.87
	349,411	

	2004		2003	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of year	**1,506,362**	**$ 8.74**	1,670,676	$ 7.66
Granted	**107,000**	**15.07**	400,638	11.76
Exercised	**(1,231,576)**	**9.25**	(471,752)	7.74

Exercisable at end of year	**349,411**	**$ 9.02**	622,974	$ 7.75

The basic number of units outstanding for the year ended December 31, 2004 was 49.4 million (December 31, 2003 – 45.5 million ASI shares) and the diluted number of units outstanding for the year ended December 31, 2004 was 50.2 million (December 31, 2003 – 45.9 million ASI shares).

7. RELATED PARTY TRANSACTIONS

On September 4, 2003, the Trust loaned $29.0 million to Taylor NGL Limited Partnership (Taylor). The loan was interest bearing at prime plus one percent and was repaid on October 17, 2003. Interest earned by AltaGas on the loan was $0.2 million with fees of $0.4 million. On each of the October 17, 2003 and August 19, 2004 the Trust purchased 1.6 million units of Taylor from Taylor's treasury. AltaGas paid $8.7 million and $10.6 million for the respective investments.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

8. SEGMENTED INFORMATION

AltaGas is a midstream energy trust with a portfolio of assets and services used to move energy from the source to the end-user. The Trust has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end-users and related services.

9. EMPLOYEE FUTURE BENEFITS

Substantially all full-time employees of the Trust's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

The total post retirement benefit cost recorded in the statement of income for the three and twelve months ended December 31, 2004 is $0.3 million (2003 - $0.3 million) and $1.1 million (2003 - $0.9 million) respectively.

10. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation.

11. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

12. SUBSEQUENT EVENTS

On February 7, 2005, the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million and pre-tax gain of $5.0 million. The sale reduces AltaGas' ownership in Taylor to 4.0 million units or 14.0 percent.

CONFERENCE CALL

The Trust will hold a conference call on March 2, 2005 at 3:30 p.m. (ET) to comment on its 2004 fourth quarter and year end results. The discussion will be followed by a question and answer period.

To participate in the conference call, you may dial 416-640-4127 or 800-814-4857 toll-free. Shortly after the conclusion of the live call, a replay will be available by dialing 416-640-1917 or 877-289-8525. The pass code is 21111354 followed by the pound key. The replay will expire at midnight (ET) on March 9, 2005.

ABOUT ALTAGAS INCOME TRUST

The Trust moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totaling over $1 billion and a market capitalization of over $1 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

AltaGas' Income Trust nits are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

ALTAGAS DELIVERS ITS 11TH CONSECUTIVE YEAR OF RECORD RESULTS FOR 2004 AND THE STRONGEST QUARTER IN ITS HISTORY

CALGARY, Alberta, March 2, 2005 - AltaGas Income Trust (AltaGas or the Trust) (TSX: ALA.UN) today released its financial results for the fourth quarter and twelve months ended December 31, 2004. AltaGas declared a distribution of $0.15 per trust unit and exchangeable unit payable on April 15, 2005 to holders of record on March 28, 2005.

"The 2004 year and fourth quarter were exceptional for AltaGas," said David Cornhill, Chairman and Chief Executive Officer. "AltaGas' talented team of people delivered the 11th successive year of record net income and funds from operations. The fourth quarter was the strongest quarter in our history. We continued to grow with a disciplined focus on premium assets closing the acquisitions of the businesses of PremStar Energy Canada Ltd. (PremStar) and a 48 2/3 percent interest in the Edmonton ethane extraction plant. During 2004 we also added 25 megawatts of power capacity and expanded facilities in our existing portfolio. Our asset base now exceeds $1.0 billion. Our transition to a trust was effected without any ripples. Our assets were well suited to a trust structure and our operating model has remained the same. Unitholders were rewarded with a 54 percent total return from unit price and distributions in 2004, which outpaced the TSX by 41.5 percent and the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index by 39 percent and 37 percent respectively." Mr. Cornhill added, "Over the year ahead we remain committed to the disciplined execution of the strategies that have contributed to AltaGas' outstanding financial and operational performance to date, and that will drive our future success."

HIGHLIGHTS

- Record net income for 2004 was $65.8 million or $1.33 per unit, an increase of 72 percent from $38.3 million or $0.84 per unit recorded for the same period of 2003. The increase is due to the strong financial performance in the Gathering and Processing and Energy Services segments and the favorable income tax impacts associated with converting to an income trust on May 1, 2004.

- Generated the highest quarterly net income in our history at $25.8 million, an increase from $12.0 million for the same period of 2003. On a per unit basis, net income was $0.49 compared to $0.26 for the fourth quarter of 2003. The increase was driven by the Energy Services segment which benefited from higher power prices on hedged volumes and the acquisition of PremStar. The Gathering and Processing segment also contributed due to increased volumes from the acquisition of the Edmonton extraction ethane plant, higher natural gas liquids prices (NGLs) and stronger transmission performance.

- Generated record funds from operations for the twelve months of 2004 and the fourth quarter. Funds from operations were $108.6 million for the twelve months of 2004 compared to $90.2 million for the 2003, an increase of 20 percent. For the fourth quarter of 2004, funds from operations were $33.9 million, an increase of 27 percent, compared to $26.6 million for the same period of 2003. Funds from operations for the twelve months of 2004 are after $7.8 million in costs incurred in 2004 associated with the conversion to an income trust and costs associated with major turnarounds at key field processing facilities.

- On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor NGL Limited Partnership (Taylor) for net proceeds of $12.8 million and a pre-tax gain of $5.0 million. The sale reduces AltaGas' ownership in Taylor to 14.1 percent.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis (MD&A) of operations and unaudited interim consolidated financial statements presented herein report on a continuity-of-interest accounting basis which recognizes AltaGas Income Trust (AltaGas or the Trust) as the successor to AltaGas Services Inc.(ASI). This MD&A dated March 2, 2005 is a review of the results of operations and the liquidity and capital resources of the Trust. It should be read in conjunction with the accompanying unaudited consolidated financial statements of the Trust, formerly ASI, for the three and twelve month periods ended December 31, 2004 and the notes thereto and with the financial statements and MD&A contained in ASI's annual report for the year ended December 31, 2003.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this short MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, filed as AltaGas Services Inc. prior to May 1, 2004, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of ASI voted in favor of a plan of arrangement to reorganize the business of AltaGas Services Inc. into an open-ended investment trust effective May 1, 2004. For each common share of AltaGas Services Inc., shareholders received either one unit of the Trust (Trust unit) or one Exchangeable unit of AltaGas Holding Limited Partnership No. 1 or AltaGas Holding Limited Partnership No. 2. (Trust unit and Exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipelines Partnership and AltaGas Utilities Inc. (collectively AltaGas or the operating subsidiaries). The cash flow of the Trust is solely dependent on the results of the operating subsidiaries and is derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held.

AltaGas General Partner Inc., through its Board of Directors, who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries. At December 31, 2004 AltaGas Ltd. and its subsidiaries employed a total of 588 people.

The Trust has incurred costs and charges to implement the plan of arrangement, which are anticipated to total approximately $17.0 million. In the fourth quarter of 2004 approximately $0.3 million was charged to unitholders' capital, and $1.3 million was charged to income, resulting in total charges for 2004 of $8.6 million and $5.7 million to unitholders' capital and income respectively. The balance is expected to be charged to income in future periods.

DISTRIBUTIONS

AltaGas' distributions are determined giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust. The Trust targets to pay out substantially all of its ongoing sustainable distributable cash flow through regular monthly distributions made to unitholders.

On April 29, 2004, the Trust announced it would commence monthly distributions of $0.15 for each trust unit and exchangeable unit on June 15, 2004 to holders of trust units and holders of exchangeable units. The Trust pays cash distributions on the 15th day of each month, to unitholders of record on the 25th day of the previous month or in each case the following business day if the payment date or record date falls on a weekend or holiday.

Fourth quarter distributions declared were $0.45 per unit or $23.9 million. From the date of conversion to an income trust on May 1, 2004, through to December 31, 2004, AltaGas had declared cash distributions of $61.7 million or $1.20 per unit. The following table summarizes AltaGas' dividend and distribution declaration history.[1]

(dollars per unit)	2004	2003	2002	2001
First quarter	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter	0.30	0.08	0.06	0.03
Third quarter	0.45	0.11	0.08	0.06
Fourth quarter	0.45	0.11	0.08	0.06
	$ 1.31	$ 0.38	$ 0.28	$ 0.18

(1) Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Prior to December 2000 no dividends were paid. Monthly distributions to Unitholders began in second quarter of 2004

On May 20, 2004 AltaGas adopted Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust, AltaGas Holding Limited Partnership No. 1 and AltaGas Holding Limited Partnership No. 2. DRIP participation in the fourth quarter of 2004 generated $5.7 million in new equity through the issuance of 280,897 Trust units, and $10.3 million in new equity and 521,326 Trust units on a year to date basis. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

For income tax purposes the Trust expects that approximately 75 percent of the distributions declared in 2004 will be taxed as interest with the remaining 25 percent to be classified as return of capital. For most unitholders, the return of capital amount will reduce the cost base of their Trust units for purposes of calculating the capital gains amount upon disposition of their Trust units. Unitholders should seek independent tax advice in respect of the consequences to them of acquiring, holding and disposing of Trust units.

CONSOLIDATED FINANCIAL RESULTS

Consolidated Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Revenue	311.8	179.0	859.2	710.6
Net revenue [1]	71.6	61.0	249.8	219.9
EBITDA [1]	40.6	34.7	133.4	121.4

(1) Non-GAAP financial measure. See discussion in the following section of this MD&A

(2) Distributions of $0.15 per unit paid commencing May, 2004, dividends of $0.11 per share paid in Q3, Q4 2003 and Q1 2004, dividends of $0.08 per unit paid in Q1, Q2 2003

AltaGas' net income for the twelve months and the fourth quarter of 2004 increased 72 percent and 115 percent compared to the same periods of 2003, establishing new records since AltaGas' formation. Net income for the year ended December 31, 2004 was $65.8 million or $1.33 per unit compared to $38.3 million or $0.84 per unit for the year ended December 31, 2003. Acquisitions and expansions in AltaGas' Energy Services and Gathering and Processing segments drove the improvement in operating results. In addition, reduced income tax expense in the current year associated with converting to an income trust had a significant favorable impact. One time costs related to the conversion to an income trust and costs associated with regularly scheduled major maintenance turnarounds at two of AltaGas' facilities partially offset the increases on both year over year and quarter over quarter results.

Revenue for the year ended December 31, 2004 rose 21 percent to $859.2 million compared to the same period in 2003. For the three months ended December 31, 2004, revenue increased 74 percent to $311.8 million compared to $179.0 million for the three months ended December 31, 2003. The increases in revenue are primarily due to volume increases related to the acquisitions in the gas services and extraction components. Also contributing to the increases were higher NGL prices in the extraction component and higher average prices received on hedged power volumes sold in the power component.

Net revenue increased 14 percent for full year 2004 to $249.8 million and 17 percent to $71.6 million for the fourth quarter of 2004 when compared to the same periods of 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

The net revenue increases for the fourth quarter were driven by increased volumes in the extraction component from the acquisition of a 48 2/3 percent interest in Edmonton ethane extraction plant (EEEP) which closed in late August 2004, very high NGL fractionation spreads at the JEEP and Empress ATCO extraction plants, volume increases in the field gathering and processing component and increased gas volumes supplied in the gas services component resulting from the acquisition of PremStar which closed in the fourth quarter of 2004. Higher spot prices received on volumes sold in the power component also contributed to the increase.

Operating and administrative expenses were 19 percent higher for the full year and 18 percent higher in the fourth quarter of 2004 compared to the same periods of 2003. Operating costs increased year over year due to the full year impact of 2003 and 2004 acquisitions as well as the completion of major maintenance turnarounds at AltaGas' Bantry and Rainbow Lake facilities in 2004. Administrative expense increased in 2004 due to payments of $3.3 million related to the conversion to an income trust, and a further non-cash charge of $2.4 million in compensation expense as a result of the vesting of all employee trust unit options on May 1, 2004. Increased staffing required to support the Trust's growth also contributed to higher administrative costs.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the year and three months ended December 31, 2004 rose nine percent to $133.4 million and 17 percent to $40.6 million respectively compared to the same periods of 2003.

Amortization expense of $41.8 million was up nine percent for the twelve months of 2004 and up 27 percent to $11.2 million for the fourth quarter of 2004 compared to the same periods in 2003. The higher charges are due mainly to increases in the capital base related to acquisitions and internal expansion projects.

Interest expense of $21.2 million for the twelve months of 2004 was four percent lower than $22.1 million for the same period in 2003 and for the fourth quarter of 2004 interest expense of $5.4 million was comparable to $5.3 million for the fourth quarter of 2003. The decrease in interest expense year over year was primarily due to lower average debt balances during the year, partially offset by higher blended average interest rates. Debt was reduced by the net proceeds of AltaGas' June 2004 Trust unit offering.

Income tax expense for 2004 was $18.6 million less than that reported for 2003 even though income before taxes was higher. This variance is driven by AltaGas' conversion to an income trust. AltaGas' consolidated income from corporations was taxable in 2003 and for the period January 1 through April 30, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. The impact of the restructuring from a corporation to a trust contributed $15.5 million of the reduction in income tax expense on a full year basis and $9.0 million reduction for the fourth quarter of 2004 compared to the fourth quarter of 2003. Amortization expense now exceeds capital cost allowance claimed, resulting in a reversal of the future income tax liability. AltaGas' first eight months as a trust resulted in the reversal driving a credit to income tax expense of $3.1 million.

The income of AltaGas' operating entities are subject to a variety of tax rates and rate reductions currently and in the future. Consequently, there are several items which impact income tax expense and the effective tax rate from period to period. Contributing to the variance from 2003 to 2004 in the effective tax rate was a $0.7 million charge in the second quarter of 2003 to the future income tax liability to record the impact of federal rate and resource allowance adjustments. Income tax expense for 2004 was reduced by $0.7 million as a result of the application of a provincial rate reduction arising out of the March 19, 2004 Alberta government budget. The impact of recording a charge to income for compensation expense related to stock options in 2004, which has no current or future income tax implication, partially offset these rate reductions by $0.8 million.

NON-GAAP FINANCIAL MEASURES

AltaGas provides certain financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

Funds Generated From Operations	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Funds generated from operations	33.9	26.6	108.6	90.2
Add (deduct): Net change in non-cash working capital and other	34.5	(11.7)	39.1	6.3
Cash from operations (GAAP financial measure)	68.4	14.9	147.7	96.5

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations after interest and taxes without regard to changes in the Trust's non-cash working capital in the period.

EBITDA	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
EBITDA	40.6	34.7	133.4	121.9
Add (deduct):				
Amortization	(11.2)	(8.8)	(41.8)	(38.5)
Interest	(5.4)	(5.3)	(21.2)	(22.1)
Income taxes	1.8	(8.6)	(4.6)	(23.2)
Net income (GAAP financial measure)	25.8	12.0	65.8	38.3

Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in understanding the ability of the organization to generate cash and its ability to cover interest payments.

Operating Income	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Operating income	29.4	25.9	91.6	83.6
Add (deduct):				
Interest	(5.4)	(5.3)	(21.2)	(22.1)
Income taxes	1.8	(8.6)	(4.6)	(23.2)
Net income (GAAP financial measure)	25.8	12.0	65.8	38.3

AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

Distributable Cash Flow	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Distributable cash flow	31.8	21.0	102.2	79.6
Add (deduct): Maintenance capital expenditures	2.1	5.6	6.4	10.6
Net change in non-cash working capital	34.5	(11.7)	39.1	6.3
Cash from operations (GAAP financial measure)	68.4	14.9	147.7	96.5

The Trust's distributable cash flow is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash flow is not a defined performance measure under GAAP and distributable cash flow can not be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash flow is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.

Net Revenue	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Net revenue	71.6	61.0	249.8	219.9
Add cost of sales	240.2	118.0	609.4	490.7
Revenue (GAAP financial measure)	311.8	179.0	859.2	710.6

In the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue. As changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects organic growth in the business. This table reconciles the revenue and net revenue amounts to illustrate the relationship between these non-GAAP and GAAP measures where used throughout this MD&A.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

Operating Income	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003[1]	2004	2003[1]
Gathering and Processing	14.1	13.4	45.4	42.3
Energy Services	11.4	8.8	38.3	32.6
Natural Gas Distribution	3.9	3.7	7.9	8.7
	29.4	25.9	91.6	83.6

(1) Restated for certain NGL operations reported in the Gathering and Processing segment previously managed and reported in Energy Services

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003[1]	2004	2003[1]
Revenue	76.2	45.4	218.9	169.2
Net revenue	47.6	38.7	164.9	140.4
Operating and administrative expense	26.7	20.3	93.3	74.5
Amortization expense	6.8	5.0	26.2	23.6
Operating income	14.1	13.4	45.4	42.3

(1) Restated for certain NGL operations in the Gathering and Processing segment previously managed and reported in Energy Services now being reported in Gathering and Processing

Operating Statistics	Three months ended December 31		Year ended December 31	
	2004	2003	2004	2003
Field gathering and processing				
Capacity (Mmcf/d)[1]	913	861	913	861
Throughput (gross Mmcf/d)[2]	558	523	558	523
Throughput (gross average annual MMcf/d)[3]			560	520
Capacity utilization (percent)[1]	61	61	61	61
Average working interest (percent)[1]	90	90	90	90
Extraction				
Inlet capacity (Mmcf/d)[1]	539	349	539	349
Production (Bbls/d)[3]	21,244	9,459	13,436	7,575
Transmission volumes (Mmcf/d) [2][4]	432	403	432	403

(1) As at December 31
(2) Fourth quarter average
(3) Average for the period
(4) Excludes condensate pipeline volumes

The Gathering and Processing segment generated revenue of $218.9 million for the year and $76.2 million for the three months ended December 31, 2004, increases of 29 percent and 68 percent respectively compared to the same periods in 2003. Net revenue, increased to $164.9 million, an increase of 17 percent for the year ended December 31, 2004 and to $47.6 million for the fourth quarter of 2004 up 23 percent compared to the same period of 2003.

Growth in operating income in this segment for 2004 compared to 2003 was due to higher volumes processed at extraction facilities, processing fee increases and higher throughput volumes at field gathering and processing facilities achieved through acquisitions, internal expansions and producer drilling activity. Favorable extraction fractionation spreads throughout 2004 compared to 2003 also contributed to the improved results.

Net revenue in the field gathering and processing component increased 13 percent over 2003 to $115.5 million. Increased producer volumes due to a 32 percent increase over full year 2003 in well tie-ins to AltaGas facilities along with facility expansions and a full year's operations at AltaGas' Rainbow Lake facility contributed to net revenue increases.

Average field gathering and processing capacity and throughput volumes increased by six percent and seven percent respectively to 913 Mmcf/d and 558 Mmcf/d in the fourth quarter of 2004 compared to the fourth quarter of 2003. Capacity increased due to the acquisition of the 43 Mmcf/d Mica Pouce Coupe gas plant and gathering system in the first quarter 2004 and the seven Mmcf/d expansion of the Kirkpatrick lake facility in December 2004. Strong producer drilling and tie-in activity generated the need to expand throughput capability at AltaGas' Marten Creek and Windfall facilities with the addition of booster compression during 2004. Throughput volumes were higher in 2004 due to the combined impact of the late 2003 Rainbow Lake plant acquisition, well tie-ins and plant expansions which more than offset the impact of normal natural gas production declines and maintenance turnarounds. Drilling activity in the Western Canadian Sedimentary Basin continued to be strong during the fourth quarter of 2004, resulting in 93 wells tied-in to AltaGas' field gathering and processing facilities compared with 97 well tie-ins during the same period in 2003. During 2004, AltaGas invested approximately $16.4 million on internal expansion projects in the field gathering and processing component. These projects are supported by producer commitments designed to control AltaGas' financial exposure to throughput declines. The fees generated by these projects and the renegotiation of existing processing contracts have increased the average fee earned per unit processed when comparing 2004 to 2003.

Field gathering and processing capacity utilization was 61 percent. Capacity utilization is negatively affected by the low cost acquisition of Mica Pouce Coupe where AltaGas acquired 43 Mmcf/d of capacity with minimal throughput to date. AltaGas expects to increase Mica Pouce Coupe capacity utilization through application of engineering optimization. Without the dampening effect of Mica Pouce Coupe, AltaGas' utilization rate would be 64 percent. Similarly, 2003 utilization numbers were low due to the late December acquisition of Rainbow Lake which added capacity but little associated throughput in the fourth quarter. In 2003 AltaGas' utilization without Rainbow Lake was 63 percent.

In the extraction component higher volumes processed and the favourable NGL pricing environment resulted in growth in net revenue of 129 percent to $8.3 million during the fourth quarter of 2004 compared to the fourth quarter of 2003. Average NGL volumes processed for the fourth quarter of 2004 more than doubled reaching 21,244 Bbls/d compared to 9,159 Bbls/d for the same period in 2003. On full year basis average NGL volumes processed increased to 13,436 Bbls/d compared to 7,575 Bbls/d in 2003. Volume increases for the year and fourth quarter were primarily due to the late August 2004 closing of its interest in EEEP. The plant has a gross licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. The acquisition increased AltaGas' total net licensed inlet extraction capacity to 539 Mmcf/d. AltaGas' share of plant products are sold under long-term contracts and feedstock supply is provided by a long-term gas supply contract to EEEP. Production at the Empress EnCana facility and the Joffre ethane extraction plant were also higher during the year.

Transmission volumes increased during the full year and three months ended December 31, 2004 compared to the full year and three months ended December 31, 2003 primarily due to well tie-ins and increased EnCana Corporation volumes on the Suffield system.

Operating and administrative expenses in the Gathering and Processing segment increased 25 percent to $93.3 million in 2004 and 32 percent to $26.7 million for the fourth quarter of 2004 compared to the same periods of 2003. The increases were primarily due to operating costs associated with the 2004 EEEP acquisition and acquisitions and expansions in the field gathering and processing component. Turnarounds at two major facilities in the current year and higher administrative costs as a result of growth in the business also contributed to the increase.

Amortization expense for the Gathering and Processing segment was higher for the year ended and three months ended December 31, 2004 compared to the same periods of 2003 primarily due to the Rainbow Lake and EEEP acquisitions and the capital invested in gathering and processing facility expansions.

ENERGY SERVICES

The Energy Services segment is comprised of the power services and gas services components. In this segment, the Trust also reports the results of the oil and gas production component. AltaGas is not in the business of exploration and development of natural gas reserves; however, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003

Volume of power sold (thousands of MWh)	879	873	3,481	3,266
Average price received on the sale of power ($/MWh)[1]	50.17	47.10	48.77	47.56
Alberta Power Pool average spot price ($/MWh)[1]	54.95	54.78	54.54	62.98
Gas services				
Volume of gas marketed (Mmcf/d)	182.0	109.2	129.0	108.6

(1) Average for the period

The Trust completed two acquisitions in the Energy Services segment. On September 1, 2004 AltaGas entered into a ten year capital lease with Maxim Energy Group Ltd. for 25 megawatts of capacity generated by four gas fired peaking plants located in southern Alberta. The capital lease requires AltaGas to pay monthly variable operating and maintenance charges plus a capacity fee. AltaGas retains all of the ancillary service and peaking sales revenues.

AltaGas has provided gas services since 1994. This low risk, fee for service business component was significantly expanded on October 6, 2004 when AltaGas acquired substantially all of the assets, including the company names, and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc (collectively PremStar). The purchase price of $20.5 million, before acquisition costs, was paid primarily by way of the issuance of 993,789 Trust units. PremStar is one of Canada's leading energy agency businesses, specializing in the procurement and supply of energy to end use customers across Canada. On a fee for service basis, PremStar provides energy supply, arranges for transportation services, and supports customers with valuable market information.

Revenue in the Energy Services segment increased 98 percent to $248.3 million in the fourth quarter of 2004 and 23 percent to $630.4 million for the full year 2004 when compared to the same periods of 2003. On a quarter over quarter basis key drivers for the increases were higher prices on hedged power volumes sold and the PremStar business acquired at the beginning of the quarter. On a year over year basis, volumes in the power component were higher primarily as a result of a full year of power sales from the Genesee energy contract which was entered into April 1, 2003.

The power services component generated net revenue of $47.9 million for the full year of 2004 compared to $41.0 million for 2003 and $13.2 million for the fourth quarter of 2004 compared to $11.2 for the same period in 2003. The drivers, similar to those for revenue, were higher prices on hedged volumes in the power component on a quarter over quarter basis and higher volumes sold on a year over year basis.

AltaGas manages its acquired power capacity to provide stable, predictable earnings and cash flows over time and does not engage in the speculative trading of power. AltaGas reduces its exposure to floating power prices by supplying its own operating electrical demand requirements and by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. The average price AltaGas received from power sales in the fourth quarter of 2004 was $50.17 per MWh compared to $47.10 per MWh in the fourth quarter of 2003 and $48.77 per MWh for the twelve months of 2004 compared to $47.56 per MWh for the same period in 2003. Average Alberta Power Pool spot prices were $54.95 per MWh and $54.78 per MWh in the fourth quarters of 2004 and 2003 respectively, and $54.54 per MWh and $62.98 per MWh in the twelve months of 2004 and 2003 respectively.

The gas services component contributed net revenue of $5.3 for the full year 2004 compared to $0.7 in 2003 and $4.0 million for the fourth quarter compared to $0.4 in 2003. The significant increase in the fourth quarter resulted from the addition of PremStar. The PremStar energy supply and agency business is a people based business and carries a relatively high proportion of administrative expense which tempers its net revenue's impact on operating income. The increase in amortization expense in the segment for 2004 compared to 2003 is due to amortization of the PremStar contracts and relationships purchased.

Net additions to capital assets in the Energy Services segment were $15.1 million during 2004 compared to $2.5 million during 2003. The growth in capital assets relates mainly to the addition of the peaking plant capital lease.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

Financial Results	Three months ended December 31		Year ended December 31

(3) At December 31

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarters results that show either small profits or losses.

For the full year 2004, net revenue in AltaGas' Natural Gas Distribution segment was $30.7 million compared to $30.6 million for the same period in 2003. AUI generates the majority of net revenue for the segment. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board (AEUB), to be passed through to supply customers. Net revenue growth from an increase in customers for the twelve months of 2004 was largely offset by the impact of the completion of negotiations on AUI's 2003 and 2004 general rate application. Lower than anticipated allowed rates of return on rate base and interest and operating expenses for 2003 resulted in a charge to net income of $0.5 million in 2004 related to previously recorded 2003 results.

In the fourth quarter of 2004, net revenue in AltaGas' Natural Gas Distribution segment was $9.7 million compared to $9.3 million for the same period in 2003. Increases from growth in the customer base were partially offset by weather in the AUI operating area for the fourth quarter 2004, as measured by heating degree days, that was 7.8 percent warmer than the fourth quarter of 2003.

Higher operating and administrative expenses in this segment in 2004 were due to increases in the cost of insurance, pension costs and routine operating and maintenance activities.

In July 2004, the AEUB issued its Generic Cost of Capital decision confirming for AUI a capital structure at 41 percent equity and 59 percent debt and establishing the 2004 rate of return on common equity at 9.6 percent. In August 2004, the AEUB confirmed the AUI revenue requirements negotiated for 2003 and 2004. AUI filed an application to allocate costs of service to rate classes and the hearing on resulting rate design concluded on January 14, 2005. A decision is expected early in the second quarter of 2005. AUI filed a General Rate Application for 2005 and 2006 in the fourth quarter of 2004, and expects a hearing in mid 2005.

Heritage received approval of a final Schedule of Rates, Tolls and Charges by the Nova Scotia Utility and Review Board in June of 2004. This decision approved the requested 13.25 percent return on equity, a 45 percent equity and 55 percent debt capital structure, an 8.75 percent cost of debt, the capital expenditure and revenue requirements, and resultant tariff to 2008.

Heritage activated its Nova Scotia natural gas distribution system in late December 2003 and is in the initial stages of its planned growth. During 2004 Heritage had installed services to 180 customers and had activated service to approximately 140 customers increasing its rate base to $14.7 million. Heritage is focused on building momentum behind a consumer movement to switch heating fuel sources in Nova Scotia's market place. The company has achieved the 150 customer commitments which meet the economic feasibility and revenue requirement tests for expansion of natural gas service to the town of Amherst and expects that natural gas service will be available to Amherst in the fourth quarter of 2005.

Net additions to capital assets in the Natural Gas Distribution segment were $9.6 million during the year ended December 31, 2004 compared to $16.8 million for the same period in 2003. Included in 2003 net capital additions is an amount of $10.2 million related to the retirement of AUI's prior years' capital contributions in aid of construction. There is an equal and offsetting amount charged to accumulated amortization.

SUMMARY OF EIGHT MOST RECENT COMPLETED CONSOLIDATED QUARTERLY RESULTS[1]

($ millions)	Q4/04	Q3/04	Q2/04	Q1/04	Q4/03	Q3/03	Q2/03	Q1/03
Net revenue	71.6	61.5	58.5	57.2	61.0	53.3	51.2	54.4

Diluted	0.48	0.33	0.25	0.24	0.26	0.20	0.15	0.22
Dividends/distributions [2]	0.45	0.45	0.30	0.11	0.11	0.11	0.08	0.08

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations

(2) The Trust pays a monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust. Prior to May 1, 2004 ASI paid dividends quarterly

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The first and last quarters each year are the Trust's most profitable on the basis of the contribution from the Natural Gas Distribution segment which reports higher earnings in colder periods than in warmer periods.

Net income of $10.2 million in the first quarter of 2003 set a new high for AltaGas for that period in a year. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of this performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity with a record 85 wells tied-in during the first quarter. Final commissioning of the Joffre ethane extraction plant provided volume increases in the extraction component and volumes in the transmission component were higher due to the 2002 Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs, partially offset the gains made in the other segments. On April 1, 2003 AltaGas commenced selling power from the Genesee energy contract which provides for 100 megawatts of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the fourth quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. Higher NGL fractionation spreads at the Empress ATCO extraction plant contributed to the increase. In addition, power prices improved over the same quarter in the prior year. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to announced changes in federal large corporations tax legislation, was still the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and to the completion of modifications to increase AltaGas' share of ethane production by 1400 Bbls/d at the EnCana-operated Empress extraction plant late in the quarter of 2003.

First quarter 2004 produced record net income of $11.0 million for that period in a year based on increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

The second quarter of 2004 saw AltaGas convert from a corporate structure to an income trust. Very strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million and income per unit of $0.25 both improved substantially compared to the same quarter of the prior year. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds used to reduce the Trust's debt. This quarter also saw AltaGas commence monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of EEEP, high NGLs fractionation spreads and the acquisition of the Alberta power peaking capacity.

Fourth quarter 2004 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

Effective January 1, 2004, AltaGas prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. AltaGas' hedging relationships are effective and appropriately designated and documented and therefore gains and losses relating to hedges are deferred and recognized in the same period and financial statement category as the hedged transaction.

Effective the first quarter of 2004, AltaGas' changed its accounting policy for stock-based compensation, now recognizing the compensation expense related to stock options in the financial statements according to the fair-value method. Prior to the change in policy, the Trust did not record compensation expense but disclosed the impact of the accounting for stock options under the fair-value method on a pro-forma basis. Under the provisions set out by the CICA, AltaGas has adopted the change retroactively. The impact was to reduce retained earnings at January 1, 2004 by $0.3 million, and to reduce first quarter 2004 earnings by $0.1 million which amounts were based on the vesting status and exercise assumptions in existence at the end of the first quarter 2004. Subsequent to the conversion of AltaGas Services Inc. to an income trust all unvested options became fully vested.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to Management's Discussion and Analysis in ASI's 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power services component. Alberta Power Pool daily average spot prices ranged from $7.13 per MWh to $165.46 per MWh in the fourth quarter of 2004. Through the use of financial hedges on a portion of its 2004 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At December 31, 2004 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $239.2 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 85 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During 2004, AltaGas acquired $130.2 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $70.8 million in the previous year.

Growth capital accounted for $117.7 million of 2004 investment, and included gathering and processing facility acquisitions and expansions, investments in limited partnership units of Taylor, the acquisition of PremStar and the Alberta peaking plants capital lease. Maintenance capital projects amounting to $6.4 million in 2004 and $10.6 million in 2003 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments. Also spent in 2004 was $4.8 million (2003 - $4.3 million) on administrative capital including computer hardware and software projects expected to increase the effectiveness of the operating and administrative functions of the Trust.

Invested Capital by Segment

For the three months ended December 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Net additions:				
Capital assets	$ 22.7	$ 0.2	$ 2.9	$ 25.8

	$ 51.5	$ 2.5	$ 16.8	$ 70.8

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the year ended December 31, 2004 increased to $108.6 million from $90.2 million for the year ended December 31, 2003.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium DistributionTM programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in ASI's 2003 Annual Report.

On June 10, 2004 the Trust closed a public offering of 4,730,000 Trust units, at a price of $18.70 per Trust unit for gross proceeds of $88.5 million. The net proceeds of the offering to the Trust, after payment of fees and expenses of $4.7 million was approximately $83.8 million. The net proceeds were used to reduce bank indebtedness and for general corporate purposes including AltaGas' ongoing capital program, the acquisition of EEEP and funding future acquisitions.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At December 31, 2004 AltaGas had total debt outstanding of $359.5 million compared to $396.9 million at December 31, 2003. AltaGas Operating Partnership had $100.0 million in medium term notes outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit though bank lines of approximately $425.0 million. At December 31, 2004 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $239.2 million and letters of credit outstanding of $28.7 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at December 31, 2004 decreased to 43 percent from 52 percent at December 31, 2003.

AltaGas had a working capital deficiency of $106.5 million at December 31, 2004 compared to working capital surplus of $9.1 million at December 31, 2003. The primary driver for this change in working capital is related to the classification of AltaGas' $100 million MTN balance to current portion of long term debt.

Following AltaGas' announcement in March 2004 of its then proposed conversion to a trust Standard & Poor's (S&P) confirmed the rating on AltaGas' long term corporate credit at BBB- with a negative outlook and the rating on the senior unsecured debt at BBB-. The Dominion Bond Rating Service (DBRS) confirmed the rating of AltaGas Income Trust at BBB (low) with a stable trend and applied the same rating to AltaGas Operating Partnership and the medium term notes held by AltaGas Operating Partnership. The Trust has a stability rating of SR-3 (stable outlook) from S&P and STA-3 (mid) from DBRS.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units that are exchangeable into Trust units on a one for one basis. The Exchangeable units are not listed for trading on an exchange.

As of January 31, 2005 the Trust had 51.2 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.2 billion based on a closing trading price on January 31, 2005 of $23.36 per trust unit. There are 0.2 million options exercisable under the terms of the unit option agreement brought forward in the reorganization. All options currently issued under this plan have vested effective May 1, 2004.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

AltaGas entered into a capital lease with Maxim Energy Group Ltd. for the right to 25 megawatts of gas fired power peaking capacity in Alberta. AltaGas retains 100 percent of the ancillary service and peaking sales revenues. The contract has a 10 year term which commenced September 1, 2004 and includes an option at the end of the initial term to extend the term for a further 15 years or purchase the assets. The cost of the lease to AltaGas is $13.8 million which has been paid for with a cash prepayment of $0.8 million and a charge recorded to long term debt of $13.0 million, of which $1.0 million is due over the next twelve months.

There have been no other material changes to AltaGas' contractual obligations, since December 31, 2003. For further information on these contractual obligations, refer to the MD&A in ASI's 2003 Annual Report.

RELATED PARTIES

On October 17, 2003 the Trust purchased 1,592,250 units of Taylor for a cost of $8.7 million from Taylor's treasury.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

OUTLOOK

The outlook for the Gathering and Processing segment for 2005 is positive as a result of the late August 2004 acquisition of EEEP and due to the expectation that drilling activity in the majority of AltaGas' operating areas is expected to remain strong given the favorable commodity pricing environment. In the Energy Services segment, spot power prices are anticipated to weaken however prices on hedges volumes are improved from 2004 levels. The full year impact of the addition of the 25 MW of power peaking capacity and the fourth quarter 2004 close of the PremStar acquisition in the gas services component are expected to contribute additional volumes in the power services and the gas services components.

SUBSEQUENT EVENTS

On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million realizing a pre-tax gain of approximately $5.0 million. The sale reduces AltaGas' ownership in Taylor to 14.1 percent.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

See accompanying notes to the consolidated financial statements

1. STRUCTURE OF ALTAGAS INCOME TRUST

The Trust is an unincorporated open-ended trust established under the laws of Canada, pursuant to a Declaration of Trust dated March 26, 2004. The Trust commenced operations on May 1, 2004 as successor to AltaGas Services Inc. (ASI) when it acquired all of the shares of ASI for consideration of Trust units or Exchangeable units on a one for one basis. These unaudited interim consolidated financial statements follow the continuity of interest basis of accounting whereby the Trust is considered a continuation of ASI. As a result, the comparative period figures are those of ASI while the results of operations include ASI's results for the period up to and including April 30, 2004 and the Trust's results of operations from May 1, 2004 to December 31, 2004.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Trust have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in ASI's annual consolidated financial statements for the fiscal year ended December 31, 2003, except as described in note 3. These interim consolidated financial statements for the quarter ending December 31, 2004 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in ASI's 2003 Annual Report.

3. CHANGE IN ACCOUNTING POLICY

Effective January 1, 2004, the Trust adopted the new Canadian Institute of Chartered Accountants standard for accounting for stock-based compensation (Section 3870), which requires the use of the fair value method to account for stock or unit options. Based on the Black-Scholes option valuation model, stock or unit options are valued at the date of the grant and recognized as compensation expense over the vesting period. This change in accounting policy resulted in a reduction of opening retained earnings for 2004 of $0.3 million and an increase to equity contributed surplus.

Stock option compensation expense charged for the year ended December 31, 2004 is $2.5 million with an increase in contributed surplus. No compensation expense is recorded for stock options issued prior to January 1, 2002.

Prior to January 1, 2004 AltaGas accounted for stock based compensation using the intrinsic value method of accounting, whereby no compensation expense was recognized for stock options granted to employees or directors unless the market value of the stock exceeded the option's exercise price at the date of grant. Consideration paid by employees or directors on the exercise of stock options was credited to unit capital. Options were issued at current market value, consequently no compensation was recorded.

4. ACQUISITIONS

On October 6, 2004 AltaGas acquired substantially all of the assets and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc. for $21.9 million including acquisition costs. Consideration paid was $1.5 million cash and Trust units with an ascribed value of $19.0 million. The acquisition was accounted for using the purchase method, whereby assets acquired are recorded at fair value and the results are included in these consolidated financial statements from the date of acquisition. The final allocation of the purchase price has not been finalized and may be subject to adjustments.

Net Assets Acquired	
Working capital	$ 2,568
Capital assets	905
Energy service arrangements and contracts	1,839
Energy service relationships	16,548
	21,860
Net acquisition costs	(1,341)
	$ 20,519

5. UNITHOLDERS' EQUITY

	December 31 2004	December 31 2003
Unitholders' / shareholders' capital (note 5)	$ 386,638	$ 268,040
Contributed surplus (note 3)	2,823	-
Accumulated earnings	196,819	131,350
Accumulated dividends	(41,114)	(36,063)
Accumulated unitholders' distributions	(61,651)	-
	$ 483,515	$ 363,327

For the year ended December 31, 2004 $5.1 million (2003 - $17.3 million) of dividends and $53.7 million (2003 - nil) of distributions were paid by the Trust.

6. UNITHOLDER'S CAPITAL

Authorized December 31, 2003

- an unlimited number of common shares without nominal or par value
- an unlimited number of preferred shares without nominal or par value

Authorized December 31, 2004

- an unlimited number of trust units redeemable for cash at the option of the holder
- an unlimited number of AltaGas Holding Limited Partnership No. 1 (LP1) class B limited partnership units (Exchangeable units) which are exchangeable into trust units on a one for one basis. Prior to May 1, 2014 the exchange is at the option of the unitholder at any time, and at the option of the Trust should the number of LP1 units outstanding fall below 750,000. After May 1, 2014 the exchange is at the option of either the Trust or unitholder.
- an unlimited number of AltaGas Holding Limited Partnership No. 2 (LP2) class B limited partnership units (Exchangeable units) which are exchangeable into trust units on a one for one basis. Prior to May 1, 2009 the exchange is at the option of the unitholder at anytime, and at the option of the Trust should the number of LP2 units outstanding fall below 1,000,000. After May 1, 2009 the exchange is at the option of either the Trust or unitholder.

Issued and Outstanding December 31, 2004	53,195,535	$	386,638

The Trust has an employee unit option plan under which both employees and directors are eligible to receive grants. At December 31, 2004 3,800,000 units were reserved for issuance under the plan. To December 31, 2004 options granted under the plan generally had a term of ten years to expiry and vested no longer than over a four year period. On May 1, 2004 subsequent to the establishment of the Trust all options granted were vested. There have been no options granted since May 1, 2004.

At December 31, 2004 outstanding options are exercisable at various dates to the year 2014 (2003 - 2013). Options outstanding under the plan have a weighted average exercise price of $9.02 (2003 - $8.74) and a weighted average remaining term of 7.44 years (2003 - 7.21 years). As at December 31, 2004 the unexpensed fair value of unit option compensation cost associated with future periods was nil (2003 - $2.3 million).

Expiry date	Number of options	Exercise price
2009	10,900	$7.00
2010	8,000	$5.20
2011	146,075	$6.09 - $7.25
2012	92,250	$6.50 - $9.75
2013	61,386	$9.48 - $15.05
2014	30,800	$15.14 - $15.87
	349,411	

	2004		2003	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of year	1,506,362	$ 8.74	1,670,676	$ 7.66
Granted	107,000	15.07	400,638	11.76
Exercised	(1,231,576)	9.25	(471,752)	7.74
Cancelled	(32,375)	7.24	(93,200)	7.47
Unit options outstanding, end of year	349,411	$ 9.02	1,506,362	8.74
Exercisable at end of year	349,411	$ 9.02	622,974	7.75

The basic number of units outstanding for the year ended December 31, 2004 was 49.4 million (December 31, 2003 - 45.5 million ASI shares) and the diluted number of units outstanding for the year ended December 31, 2004 was 50.2 million (December 31, 2003 - 45.9 million ASI shares).

7. RELATED PARTY TRANSACTIONS

On September 4, 2003, the Trust loaned $29.0 million to Taylor NGL Limited Partnership (Taylor). The loan was interest bearing at prime plus one percent and was repaid on October 17, 2003. Interest earned by AltaGas on the loan was $0.2 million with fees of $0.4 million. On each of the October 17, 2003 and August 19, 2004 the Trust purchased 1.6 million units of Taylor from Taylor's treasury. AltaGas paid $8.7 million and $10.6 million for the respective investments.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

8. SEGMENTED INFORMATION

AltaGas is a midstream energy trust with a portfolio of assets and services used to move energy from the source to the end-user. The Trust has three reportable segments:

Gathering and Processing - natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services - power services, gas services and oil and natural gas production.

Natural Gas Distribution - natural gas distribution to end users and related services.

9. EMPLOYEE FUTURE BENEFITS

Substantially all full-time employees of the Trust's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

The total post retirement benefit cost recorded in the statement of income for the three and twelve months ended December 31, 2004 is $0.3 million (2003 - $0.3 million) and $1.1 million (2003 - $0.9 million) respectively.

10. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation.

11. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

12. SUBSEQUENT EVENTS

On February 7, 2005, the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million and pre-tax gain of $5.0 million. The sale reduces AltaGas' ownership in Taylor to 14.1 percent.

FINANCIAL SUMMARY BY BUSINESS SEGMENT

MWh	megawatt-hour

ABOUT ALTAGAS

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling approximately $1 billion and a market capitalization of approximately $1 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and sale of power from its power purchase based arrangements.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis (MD&A) of operations and unaudited interim consolidated financial statements presented herein report on a continuity-of-interest accounting basis which recognizes AltaGas Income Trust (AltaGas or the Trust) as the successor to AltaGas Services Inc.(ASI). This MD&A dated March 2, 2005 is a review of the results of operations and the liquidity and capital resources of the Trust. It should be read in conjunction with the accompanying unaudited consolidated financial statements of the Trust, formerly ASI, for the three and twelve month periods ended December 31, 2004 and the notes thereto and with the financial statements and MD&A contained in ASI's annual report for the year ended December 31, 2003.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this short MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, filed as AltaGas Services Inc. prior to May 1, 2004, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of ASI voted in favor of a plan of arrangement to reorganize the business of AltaGas Services Inc. into an open-ended investment trust effective May 1, 2004. For each common share of AltaGas Services Inc., shareholders received either one unit of the Trust (Trust unit) or one Exchangeable unit of AltaGas Holding Limited Partnership No. 1 or AltaGas Holding Limited Partnership No. 2. (Trust unit and Exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipelines Partnership and AltaGas Utilities Inc. (collectively AltaGas or the operating subsidiaries). The cash flow of the Trust is solely dependent on the results of the operating subsidiaries and is derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held.

AltaGas General Partner Inc., through its Board of Directors, who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries. At December 31, 2004 AltaGas Ltd. and its subsidiaries employed a total of 588 people.

The Trust has incurred costs and charges to implement the plan of arrangement, which are anticipated to total approximately $17.0 million. In the fourth quarter of 2004 approximately $0.3 million was charged to unitholders' capital, and $1.3 million was charged to income, resulting in total charges for 2004 of $8.6 million and $5.7 million to unitholders' capital and income respectively. The balance is expected to be charged to income in future periods.

DISTRIBUTIONS

AltaGas' distributions are determined giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust. The Trust targets to pay out substantially all of its ongoing sustainable distributable cash flow through regular monthly distributions made to unitholders.

On April 29, 2004, the Trust announced it would commence monthly distributions of $0.15 for each trust unit and exchangeable unit on June 15, 2004 to holders of trust units and holders of exchangeable units. The Trust pays cash distributions on the 15th day of each month, to unitholders of record on the 25th day of the previous month or in each case the following business day if the payment date or record date falls on a weekend or holiday.

Fourth quarter distributions declared were $0.45 per unit or $23.9 million. From the date of conversion to an income trust on May 1, 2004, through to December 31, 2004, AltaGas had declared cash distributions of $61.7 million or $1.20 per unit. The following table summarizes AltaGas' dividend and distribution declaration history.[1]

(dollars per unit)	2004	2003	2002	2001
First quarter	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter	0.30	0.08	0.06	0.03
Third quarter	0.45	0.11	0.08	0.06
Fourth quarter	0.45	0.11	0.08	0.06
	$ 1.31	$ 0.38	$ 0.28	$ 0.18

(1) Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Prior to December 2000 no dividends were paid. Monthly distributions to Unitholders began in second quarter of 2004

On May 20, 2004 AltaGas adopted Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust, AltaGas Holding Limited Partnership No. 1 and AltaGas Holding Limited Partnership No. 2. DRIP participation in the fourth quarter of 2004 generated $5.7 million in new equity through the issuance of 280,897 Trust units, and $10.3 million in new equity and 521,326 Trust units on a year to date basis. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

For income tax purposes the Trust expects that approximately 75 percent of the distributions declared in 2004 will be taxed as interest with the remaining 25 percent to be classified as return of capital. For most unitholders, the return of capital amount will reduce the cost base of their Trust units for purposes of calculating the capital gains amount upon disposition of their Trust units. Unitholders should seek independent tax advice in respect of the consequences to them of acquiring, holding and disposing of Trust units.

CONSOLIDATED FINANCIAL RESULTS

Consolidated Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003

(1) Non-GAAP financial measure. See discussion in the following section of this MD&A
(2) Distributions of $0.15 per unit paid commencing May, 2004, dividends of $0.11 per share paid in Q3, Q4 2003 and Q1 2004, dividends of $0.08 per unit paid in Q1, Q2 2003

AltaGas' net income for the twelve months and the fourth quarter of 2004 increased 72 percent and 115 percent compared to the same periods of 2003, establishing new records since AltaGas' formation. Net income for the year ended December 31, 2004 was $65.8 million or $1.33 per unit compared to $38.3 million or $0.84 per unit for the year ended December 31, 2003. Acquisitions and expansions in AltaGas' Energy Services and Gathering and Processing segments drove the improvement in operating results. In addition, reduced income tax expense in the current year associated with converting to an income trust had a significant favorable impact. One time costs related to the conversion to an income trust and costs associated with regularly scheduled major maintenance turnarounds at two of AltaGas' facilities partially offset the increases on both year over year and quarter over quarter results.

Revenue for the year ended December 31, 2004 rose 21 percent to $859.2 million compared to the same period in 2003. For the three months ended December 31, 2004, revenue increased 74 percent to $311.8 million compared to $179.0 million for the three months ended December 31, 2003. The increases in revenue are primarily due to volume increases related to the acquisitions in the gas services and extraction components. Also contributing to the increases were higher NGL prices in the extraction component and higher average prices received on hedged power volumes sold in the power component.

Net revenue increased 14 percent for full year 2004 to $249.8 million and 17 percent to $71.6 million for the fourth quarter of 2004 when compared to the same periods of 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

The net revenue increases for the fourth quarter were driven by increased volumes in the extraction component from the acquisition of a 48 2/3 percent interest in Edmonton ethane extraction plant (EEEP) which closed in late August 2004, very high NGL fractionation spreads at the JEEP and Empress ATCO extraction plants, volume increases in the field gathering and processing component and increased gas volumes supplied in the gas services component resulting from the acquisition of PremStar which closed in the fourth quarter of 2004. Higher spot prices received on volumes sold in the power component also contributed to the increase.

Operating and administrative expenses were 19 percent higher for the full year and 18 percent higher in the fourth quarter of 2004 compared to the same periods of 2003. Operating costs increased year over year due to the full year impact of 2003 and 2004 acquisitions as well as the completion of major maintenance turnarounds at AltaGas' Bantry and Rainbow Lake facilities in 2004. Administrative expense increased in 2004 due to payments of $3.3 million related to the conversion to an income trust, and a further non-cash charge of $2.4 million in compensation expense as a result of the vesting of all employee trust unit options on May 1, 2004. Increased staffing required to support the Trust's growth also contributed to higher administrative costs.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the year and three months ended December 31, 2004 rose nine percent to $133.4 million and 17 percent to $40.6 million respectively compared to the same periods of 2003.

Amortization expense of $41.8 million was up nine percent for the twelve months of 2004 and up 27 percent to $11.2 million for the fourth quarter of 2004 compared to the same periods in 2003. The higher charges are due mainly to increases in the capital base related to acquisitions and internal expansion projects.

Interest expense of $21.2 million for the twelve months of 2004 was four percent lower than $22.1 million for the same period in 2003 and for the fourth quarter of 2004 interest expense of $5.4 million was comparable to $5.3 million for the fourth quarter of 2003. The decrease in interest expense year over year was primarily due to lower average debt balances during the year, partially offset by higher blended average interest rates. Debt was reduced by the net proceeds of AltaGas' June 2004 Trust unit offering.

Income tax expense for 2004 was $18.6 million less than that reported for 2003 even though income before taxes was higher. This variance is driven by AltaGas' conversion to an income trust. AltaGas' consolidated income from corporations was taxable in 2003 and for the period January 1 through April 30, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. The impact of the restructuring from a corporation to a trust contributed $15.5 million of the reduction in income tax expense on a full year basis and $9.0 million reduction for the fourth quarter of 2004 compared to the fourth quarter of 2003. Amortization expense now exceeds capital cost allowance claimed, resulting in a reversal of the future income tax liability. AltaGas' first eight months as a trust resulted in the reversal driving a credit to income tax expense of $3.1 million.

The income of AltaGas' operating entities are subject to a variety of tax rates and rate reductions currently and in the future. Consequently, there are several items which impact income tax expense and the effective tax rate from period to period. Contributing to the variance from 2003 to 2004 in the effective tax rate was a $0.7 million charge in the second quarter of 2003 to the future income tax liability to record the impact of federal rate and resource allowance adjustments. Income tax expense for 2004 was reduced by $0.7 million as a result of the application of a provincial rate reduction arising out of the March 19, 2004 Alberta government budget. The impact of recording a charge to income for compensation expense related to stock options in 2004, which has no current or future income tax implication, partially offset these rate reductions by $0.8 million.

NON-GAAP FINANCIAL MEASURES

AltaGas provides certain financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

Funds Generated From Operations	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Funds generated from operations	33.9	26.6	108.6	90.2
Add (deduct): Net change in non-cash working capital and other	34.5	(11.7)	39.1	6.3
Cash from operations (GAAP financial measure)	68.4	14.9	147.7	96.5

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations after interest and taxes without regard to changes in the Trust's non-cash working capital in the period.

EBITDA	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
EBITDA	40.6	34.7	133.4	121.9
Add (deduct):				
Amortization	(11.2)	(8.8)	(41.8)	(38.5)
Interest	(5.4)	(5.3)	(21.2)	(22.1)
Income taxes	1.8	(8.6)	(4.6)	(23.2)
Net income (GAAP financial measure)	25.8	12.0	65.8	38.3

Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in understanding the ability of the organization to generate cash and its ability to cover interest payments.

Operating Income	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Operating income	29.4	25.9	91.6	83.6
Add (deduct):				
Interest	(5.4)	(5.3)	(21.2)	(22.1)
Income taxes	1.8	(8.6)	(4.6)	(23.2)
Net income (GAAP financial measure)	25.8	12.0	65.8	38.3

AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

Distributable Cash Flow	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Distributable cash flow	31.8	21.0	102.2	79.6
Add (deduct): Maintenance capital expenditures	2.1	5.6	6.4	10.6
Net change in non-cash working capital	34.5	(11.7)	39.1	6.3
Cash from operations (GAAP financial measure)	68.4	14.9	147.7	96.5

The Trust's distributable cash flow is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash flow is not a defined performance measure under GAAP and distributable cash flow can not be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash flow is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.

Net Revenue	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003
Net revenue	71.6	61.0	249.8	219.9
Add cost of sales	240.2	118.0	609.4	490.7
Revenue (GAAP financial measure)	311.8	179.0	859.2	710.6

In the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue. As changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects organic growth in the business. This table reconciles the revenue and net revenue amounts to illustrate the relationship between these non-GAAP and GAAP measures where used throughout this MD&A.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

Operating Income	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003[1]	2004	2003[1]
Gathering and Processing	14.1	13.4	45.4	42.3
Energy Services	11.4	8.8	38.3	32.6
Natural Gas Distribution	3.9	3.7	7.9	8.7
	29.4	25.9	91.6	83.6

(1) *Restated for certain NGL operations reported in the Gathering and Processing segment previously managed and reported in Energy Services*

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003[1]	2004	2003[1]
Revenue	76.2	45.4	218.9	169.5
Net revenue	47.6	38.7	164.9	140.4
Operating and administrative expense	26.7	20.3	93.3	74.5
Amortization expense	6.8	5.0	26.2	23.6
Operating income	14.1	13.4	45.4	42.3

(1) Restated for certain NGL operations in the Gathering and Processing segment previously managed and reported in Energy Services now being reported in Gathering and Processing

Operating Statistics	Three months ended December 31		Year ended December 31	
	2004	2003	2004	2003
Field gathering and processing				
Capacity (Mmcf/d)[1]	913	861	913	861
Throughput (gross Mmcf/d)[2]	558	523	558	523
Throughput (gross average annual MMcf/d)[3]			560	520

Average working interest (percent)[1]	90	90	90	90
Extraction				
Inlet capacity (Mmcf/d)[1]	539	349	539	349
Production (Bbls/d)[3]	21,244	9,159	13,436	7,575
Transmission volumes (Mmcf/d) [2][4]	432	403	432	403

(1) As at December 31
(2) Fourth quarter average
(3) Average for the period
(4) Excludes condensate pipeline volumes

The Gathering and Processing segment generated revenue of $218.9 million for the year and $76.2 million for the three months ended December 31, 2004, increases of 29 percent and 68 percent respectively compared to the same periods in 2003. Net revenue, increased to $164.9 million, an increase of 17 percent for the year ended December 31, 2004 and to $47.6 million for the fourth quarter of 2004 up 23 percent compared to the same period of 2003.

Growth in operating income in this segment for 2004 compared to 2003 was due to higher volumes processed at extraction facilities, processing fee increases and higher throughput volumes at field gathering and processing facilities achieved through acquisitions, internal expansions and producer drilling activity. Favorable extraction fractionation spreads throughout 2004 compared to 2003 also contributed to the improved results.

Net revenue in the field gathering and processing component increased 13 percent over 2003 to $115.5 million. Increased producer volumes due to a 32 percent increase over full year 2003 in well tie-ins to AltaGas facilities along with facility expansions and a full year's operations at AltaGas' Rainbow Lake facility contributed to net revenue increases.

Average field gathering and processing capacity and throughput volumes increased by six percent and seven percent respectively to 913 Mmcf/d and 558 Mmcf/d in the fourth quarter of 2004 compared to the fourth quarter of 2003. Capacity increased due to the acquisition of the 43 Mmcf/d Mica Pouce Coupe gas plant and gathering system in the first quarter 2004 and the seven Mmcf/d expansion of the Kirkpatrick lake facility in December 2004. Strong producer drilling and tie-in activity generated the need to expand throughput capability at AltaGas' Marten Creek and Windfall facilities with the addition of booster compression during 2004. Throughput volumes were higher in 2004 due to the combined impact of the late 2003 Rainbow Lake plant acquisition, well tie-ins and plant expansions which more than offset the impact of normal natural gas production declines and maintenance turnarounds. Drilling activity in the Western Canadian Sedimentary Basin continued to be strong during the fourth quarter of 2004, resulting in 93 wells tied-in to AltaGas' field gathering and processing facilities compared with 97 well tie-ins during the same period in 2003. During 2004, AltaGas invested approximately $16.4 million on internal expansion projects in the field gathering and processing component. These projects are supported by producer commitments designed to control AltaGas' financial exposure to throughput declines. The fees generated by these projects and the renegotiation of existing processing contracts have increased the average fee earned per unit processed when comparing 2004 to 2003.

Field gathering and processing capacity utilization was 61 percent. Capacity utilization is negatively affected by the low cost acquisition of Mica Pouce Coupe where AltaGas acquired 43 Mmcf/d of capacity with minimal throughput to date. AltaGas expects to increase Mica Pouce Coupe capacity utilization through application of engineering optimization. Without the dampening effect of Mica Pouce Coupe, AltaGas' utilization rate would be 64 percent. Similarly, 2003 utilization numbers were low due to the late December acquisition of Rainbow Lake which added capacity but little associated throughput in the fourth quarter. In 2003 AltaGas' utilization without Rainbow Lake was 63 percent.

In the extraction component higher volumes processed and the favourable NGL pricing environment resulted in growth in net revenue of 129 percent to $8.3 million during the fourth quarter of 2004 compared to the fourth quarter of 2003. Average NGL volumes processed for the fourth quarter of 2004 more than doubled reaching 21,244 Bbls/d compared to 9,159 Bbls/d for the same period in 2003. On full year basis average NGL volumes processed increased to 13,436 Bbls/d compared to 7,575 Bbls/d in 2003. Volume increases for the year and fourth quarter were primarily due to the late August 2004 closing of its interest in EEEP. The plant has a gross licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of propane-plus product. The acquisition increased AltaGas' total net licensed inlet extraction capacity to 539 Mmcf/d. AltaGas' share of plant products are sold under long-term contracts and feedstock supply is provided by a long-term gas supply contract to EEEP. Production at the Empress EnCana facility and the Joffre ethane extraction plant were also higher during the year.

Transmission volumes increased during the full year and three months ended December 31, 2004 compared to the full year and three months ended December 31, 2003 primarily due to well tie-ins and increased EnCana Corporation volumes on the Suffield system.

Operating and administrative expenses in the Gathering and Processing segment increased 25 percent to $93.3 million in 2004 and 32 percent to $26.7 million for the fourth quarter of 2004 compared to the same periods of 2003. The increases were primarily due to operating costs associated with the 2004 EEEP acquisition and acquisitions and expansions in the field gathering and processing component. Turnarounds at two major facilities in the current year and higher administrative costs as a result of growth in the business also contributed to the increase.

Amortization expense for the Gathering and Processing segment was higher for the year ended and three months ended December 31, 2004 compared to the same periods of 2003 primarily due to the Rainbow Lake and EEEP acquisitions and the capital invested in gathering and processing facility expansions.

ENERGY SERVICES

The Energy Services segment is comprised of the power services and gas services components. In this segment, the Trust also reports the results of the oil and gas production component. AltaGas is not in the business of exploration and development of natural gas reserves; however, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

Financial Results	Three months ended December 31		Year ended December 31	
($ millions)	2004	2003	2004	2003

Gas services				
Volume of gas marketed (Mmcf/d)	182.0	109.2	129.0	108.6

(1) Average for the period

The Trust completed two acquisitions in the Energy Services segment. On September 1, 2004 AltaGas entered into a ten year capital lease with Maxim Energy Group Ltd. for 25 megawatts of capacity generated by four gas fired peaking plants located in southern Alberta. The capital lease requires AltaGas to pay monthly variable operating and maintenance charges plus a capacity fee. AltaGas retains all of the ancillary service and peaking sales revenues.

AltaGas has provided gas services since 1994. This low risk, fee for service business component was significantly expanded on October 6, 2004 when AltaGas acquired substantially all of the assets, including the company names, and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc (collectively PremStar). The purchase price of $20.5 million, before acquisition costs, was paid primarily by way of the issuance of 993,789 Trust units. PremStar is one of Canada's leading energy agency businesses, specializing in the procurement and supply of energy to end use customers across Canada. On a fee for service basis, PremStar provides energy supply, arranges for transportation services, and supports customers with valuable market information.

Revenue in the Energy Services segment increased 98 percent to $248.3 million in the fourth quarter of 2004 and 23 percent to $630.4 million for the full year 2004 when compared to the same periods of 2003. On a quarter over quarter basis key drivers for the increases were higher prices on hedged power volumes sold and the PremStar business acquired at the beginning of the quarter. On a year over year basis, volumes in the power component were higher primarily as a result of a full year of power sales from the Genesee energy contract which was entered into April 1, 2003.

The power services component generated net revenue of $47.9 million for the full year of 2004 compared to $41.0 million for 2003 and $13.2 million for the fourth quarter of 2004 compared to $11.2 for the same period in 2003. The drivers, similar to those for revenue, were higher prices on hedged volumes in the power component on a quarter over quarter basis and higher volumes sold on a year over year basis.

AltaGas manages its acquired power capacity to provide stable, predictable earnings and cash flows over time and does not engage in the speculative trading of power. AltaGas reduces its exposure to floating power prices by supplying its own operating electrical demand requirements and by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk. The average price AltaGas received from power sales in the fourth quarter of 2004 was $50.17 per MWh compared to $47.10 per MWh in the fourth quarter of 2003 and $48.77 per MWh for the twelve months of 2004 compared to $47.56 per MWh for the same period in 2003. Average Alberta Power Pool spot prices were $54.95 per MWh and $54.78 per MWh in the fourth quarters of 2004 and 2003 respectively, and $54.54 per MWh and $62.98 per MWh in the twelve months of 2004 and 2003 respectively.

The gas services component contributed net revenue of $5.3 for the full year 2004 compared to $0.7 in 2003 and $4.0 million for the fourth quarter compared to $0.4 in 2003. The significant increase in the fourth quarter resulted from the addition of PremStar. The PremStar energy supply and agency business is a people based business and carries a relatively high proportion of administrative expense which tempers its net revenue's impact on operating income. The increase in amortization expense in the segment for 2004 compared to 2003 is due to amortization of the PremStar contracts and relationships purchased.

Net additions to capital assets in the Energy Services segment were $15.1 million during 2004 compared to $2.5 million during 2003. The growth in capital assets relates mainly to the addition of the peaking plant capital lease.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

Financial Results	Three months ended December 31		Year ended December 31

(1) AUI only
(2) Variance from 20 year average. Positive variances are favorable
(3) At December 31

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarters results that show either small profits or losses.

For the full year 2004, net revenue in AltaGas' Natural Gas Distribution segment was $30.7 million compared to $30.6 million for the same period in 2003. AUI generates the majority of net revenue for the segment. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board (AEUB), to be passed through to supply customers. Net revenue growth from an increase in customers for the twelve months of 2004 was largely offset by the impact of the completion of negotiations on AUI's 2003 and 2004 general rate application. Lower than anticipated allowed rates of return on rate base and interest and operating expenses for 2003 resulted in a charge to net income of $0.5 million in 2004 related to previously recorded 2003 results.

In the fourth quarter of 2004, net revenue in AltaGas' Natural Gas Distribution segment was $9.7 million compared to $9.3 million for the same period in 2003. Increases from growth in the customer base were partially offset by weather in the AUI operating area for the fourth quarter 2004, as measured by heating degree days, that was 7.8 percent warmer than the fourth quarter of 2003.

Higher operating and administrative expenses in this segment in 2004 were due to increases in the cost of insurance, pension costs and routine operating and maintenance activities.

In July 2004, the AEUB issued its Generic Cost of Capital decision confirming for AUI a capital structure at 41 percent equity and 59 percent debt and establishing the 2004 rate of return on common equity at 9.6 percent. In August 2004, the AEUB confirmed the AUI revenue requirements negotiated for 2003 and 2004. AUI filed an application to allocate costs of service to rate classes and the hearing on resulting rate design concluded on January 14, 2005. A decision is expected early in the second quarter of 2005. AUI filed a General Rate Application for 2005 and 2006 in the fourth quarter of 2004, and expects a hearing in mid 2005.

Heritage received approval of a final Schedule of Rates, Tolls and Charges by the Nova Scotia Utility and Review Board in June of 2004. This decision approved the requested 13.25 percent return on equity, a 45 percent equity and 55 percent debt capital structure, an 8.75 percent cost of debt, the capital expenditure and revenue requirements, and resultant tariff to 2008.

Heritage activated its Nova Scotia natural gas distribution system in late December 2003 and is in the initial stages of its planned growth. During 2004 Heritage had installed services to 180 customers and had activated service to approximately 140 customers increasing its rate base to $14.7 million. Heritage is focused on building momentum behind a consumer movement to switch heating fuel sources in Nova Scotia's market place. The company has achieved the 150 customer commitments which meet the economic feasibility and revenue requirement tests for expansion of natural gas service to the town of Amherst and expects that natural gas service will be available to Amherst in the fourth quarter of 2005.

Net additions to capital assets in the Natural Gas Distribution segment were $9.6 million during the year ended December 31, 2004 compared to $16.8 million for the same period in 2003. Included in 2003 net capital additions is an amount of $10.2 million related to the retirement of AUI's prior years' capital contributions in aid of construction. There is an equal and offsetting amount charged to accumulated amortization.

SUMMARY OF EIGHT MOST RECENT COMPLETED CONSOLIDATED QUARTERLY RESULTS[1]

($ millions)	Q4/04	Q3/04	Q2/04	Q1/04	Q4/03	Q3/03	Q2/03	Q1/03
Net revenue	71.6	61.5	59.5	57.2	61.0	53.3	51.2	54.4
Net income	25.8	17.1	11.9	11.0	12.0	9.3	6.8	10.2

Diluted	0.48	0.33	0.25	0.24	0.26	0.20	0.15	0.22
Dividends/distributions [2]	0.45	0.45	0.30	0.11	0.11	0.11	0.08	0.08

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations

(2) The Trust pays a monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust. Prior to May 1, 2004 ASI paid dividends quarterly

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The first and last quarters each year are the Trust's most profitable on the basis of the contribution from the Natural Gas Distribution segment which reports higher earnings in colder periods than in warmer periods.

Net income of $10.2 million in the first quarter of 2003 set a new high for AltaGas for that period in a year. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of this performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity with a record 85 wells tied-in during the first quarter. Final commissioning of the Joffre ethane extraction plant provided volume increases in the extraction component and volumes in the transmission component were higher due to the 2002 Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs, partially offset the gains made in the other segments. On April 1, 2003 AltaGas commenced selling power from the Genesee energy contract which provides for 100 megawatts of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the fourth quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. Higher NGL fractionation spreads at the Empress ATCO extraction plant contributed to the increase. In addition, power prices improved over the same quarter in the prior year. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to announced changes in federal large corporations tax legislation, was still the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and to the completion of modifications to increase AltaGas' share of ethane production by 1400 Bbls/d at the EnCana-operated Empress extraction plant late in the quarter of 2003.

First quarter 2004 produced record net income of $11.0 million for that period in a year based on increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

The second quarter of 2004 saw AltaGas convert from a corporate structure to an income trust. Very strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million and income per unit of $0.25 both improved substantially compared to the same quarter of the prior year. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds used to reduce the Trust's debt. This quarter also saw AltaGas commence monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of EEEP, high NGLs fractionation spreads and the acquisition of the Alberta power peaking capacity.

Fourth quarter 2004 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

Effective January 1, 2004, AltaGas prospectively adopted the provisions of the CICA's new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. AltaGas' hedging relationships are effective and appropriately designated and documented and therefore gains and losses relating to hedges are deferred and recognized in the same period and financial statement category as the hedged transaction.

Effective the first quarter of 2004, AltaGas' changed its accounting policy for stock-based compensation, now recognizing the compensation expense related to stock options in the financial statements according to the fair-value method. Prior to the change in policy, the Trust did not record compensation expense but disclosed the impact of the accounting for stock options under the fair-value method on a pro-forma basis. Under the provisions set out by the CICA, AltaGas has adopted the change retroactively. The impact was to reduce retained earnings at January 1, 2004 by $0.3 million, and to reduce first quarter 2004 earnings by $0.1 million which amounts were based on the vesting status and exercise assumptions in existence at the end of the first quarter 2004. Subsequent to the conversion of AltaGas Services Inc. to an income trust all unvested options became fully vested.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to Management's Discussion and Analysis in ASI's 2003 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2004 business has been to provide revenue stability in the power services component. Alberta Power Pool daily average spot prices ranged from $7.13 per MWh to $165.46 per MWh in the fourth quarter of 2004. Through the use of financial hedges on a portion of its 2004 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At December 31, 2004 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $239.2 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 85 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During 2004, AltaGas acquired $130.2 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $70.8 million in the previous year.

Growth capital accounted for $117.7 million of 2004 investment, and included gathering and processing facility acquisitions and expansions, investments in limited partnership units of Taylor, the acquisition of PremStar and the Alberta peaking plants capital lease. Maintenance capital projects amounting to $6.4 million in 2004 and $10.6 million in 2003 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments. Also spent in 2004 was $4.8 million (2003 - $4.3 million) on administrative capital including computer hardware and software projects expected to increase the effectiveness of the operating and administrative functions of the Trust.

Invested Capital by Segment

For the three months ended December 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Net additions:				
Capital assets	$ 22.7	$ 0.2	$ 2.9	$ 25.8

	$ 51.5	$ 2.5	$ 16.8	$ 70.8

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the year ended December 31, 2004 increased to $108.6 million from $90.2 million for the year ended December 31, 2003.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium DistributionTM programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 7 and 8 to the consolidated financial statements included in ASI's 2003 Annual Report.

On June 10, 2004 the Trust closed a public offering of 4,730,000 Trust units, at a price of $18.70 per Trust unit for gross proceeds of $88.5 million. The net proceeds of the offering to the Trust, after payment of fees and expenses of $4.7 million was approximately $83.8 million. The net proceeds were used to reduce bank indebtedness and for general corporate purposes including AltaGas' ongoing capital program, the acquisition of EEEP and funding future acquisitions.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At December 31, 2004 AltaGas had total debt outstanding of $359.5 million compared to $396.9 million at December 31, 2003. AltaGas Operating Partnership had $100.0 million in medium term notes outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit though bank lines of approximately $425.0 million. At December 31, 2004 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $239.2 million and letters of credit outstanding of $28.7 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at December 31, 2004 decreased to 43 percent from 52 percent at December 31, 2003.

AltaGas had a working capital deficiency of $106.5 million at December 31, 2004 compared to working capital surplus of $9.1 million at December 31, 2003. The primary driver for this change in working capital is related to the classification of AltaGas' $100 million MTN balance to current portion of long term debt.

Following AltaGas' announcement in March 2004 of its then proposed conversion to a trust Standard & Poor's (S&P) confirmed the rating on AltaGas' long term corporate credit at BBB- with a negative outlook and the rating on the senior unsecured debt at BBB-. The Dominion Bond Rating Service (DBRS) confirmed the rating of AltaGas Income Trust at BBB (low) with a stable trend and applied the same rating to AltaGas Operating Partnership and the medium term notes held by AltaGas Operating Partnership. The Trust has a stability rating of SR-3 (stable outlook) from S&P and STA-3 (mid) from DBRS.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units that are exchangeable into Trust units on a one for one basis. The Exchangeable units are not listed for trading on an exchange.

As of January 31, 2005 the Trust had 51.2 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.2 billion based on a closing trading price on January 31, 2005 of $23.36 per trust unit. There are 0.2 million options exercisable under the terms of the unit option agreement brought forward in the reorganization. All options currently issued under this plan have vested effective May 1, 2004.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

AltaGas entered into a capital lease with Maxim Energy Group Ltd. for the right to 25 megawatts of gas fired power peaking capacity in Alberta. AltaGas retains 100 percent of the ancillary service and peaking sales revenues. The contract has a 10 year term which commenced September 1, 2004 and includes an option at the end of the initial term to extend the term for a further 15 years or purchase the assets. The cost of the lease to AltaGas is $13.8 million which has been paid for with a cash prepayment of $0.8 million and a charge recorded to long term debt of $13.0 million, of which $1.0 million is due over the next twelve months.

There have been no other material changes to AltaGas' contractual obligations, since December 31, 2003. For further information on these contractual obligations, refer to the MD&A in ASI's 2003 Annual Report.

RELATED PARTIES

On October 17, 2003 the Trust purchased 1,592,250 units of Taylor for a cost of $8.7 million from Taylor's treasury.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

OUTLOOK

The outlook for the Gathering and Processing segment for 2005 is positive as a result of the late August 2004 acquisition of EEEP and due to the expectation that drilling activity in the majority of AltaGas' operating areas is expected to remain strong given the favorable commodity pricing environment. In the Energy Services segment, spot power prices are anticipated to weaken however prices on hedges volumes are improved from 2004 levels. The full year impact of the addition of the 25 MW of power peaking capacity and the fourth quarter 2004 close of the PremStar acquisition in the gas services component are expected to contribute additional volumes in the power services and the gas services components.

SUBSEQUENT EVENTS

On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million realizing a pre-tax gain of approximately $5.0 million. The sale reduces AltaGas' ownership in Taylor to 14.1 percent.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

OFFICE OF INTERNATIONAL
CORPORATE FINANCE

ALTAGAS INCOME TRUST ANNOUNCES APPOINTMENT OF TWO NEW DIRECTORS

Calgary, Alberta (March 16, 2005) – AltaGas Income Trust (TSX:ALA.UN) is pleased to announce that Mr. Allan L. Edgeworth and Mr. Robert B. Hodgins have been appointed Directors of AltaGas General Partner Inc., the delegate of the Trustee of AltaGas Income Trust, effective March 2, 2005. Both Mr. Edgeworth and Mr. Hodgins bring extensive industry experience to AltaGas.

Mr. Edgeworth was the President and CEO of Alliance Pipeline from 2001 until December 2004. Mr. Edgeworth joined Alliance Pipeline in 1998 as Executive Vice President and Chief Operating Officer. Prior to that, Mr. Edgeworth spent almost 20 years with Westcoast Energy where he held various positions including Vice President of Pipeline Operations and Senior Vice President of Regulatory Affairs.

Mr. Hodgins recently retired from a full time executive role following a career that spanned more than 25 years with several senior Canadian corporations. Most recently, he served as the Chief Financial Officer of Pengrowth Energy Trust from 2002 to 2004. Prior to that, Mr. Hodgins held the position of Vice President and Treasurer of Canadian Pacific Limited from 1998 to 2002 and was Chief Financial Officer of TransCanada Pipelines Limited from 1993 to 1998. Mr. Hodgins is a trustee of Calpine Power Income Fund and a director of Enerflex Systems Ltd.

David Cornhill, Chairman and Chief Executive Officer, said "I am extremely pleased to welcome Mr. Edgeworth and Mr. Hodgins to the Board of Directors. Their knowledge and experience will enhance our already strong Board of Directors."

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling over $1 billion and a market capitalization of approximately $1.2 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids and the sale of power from its power purchase based arrangements.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

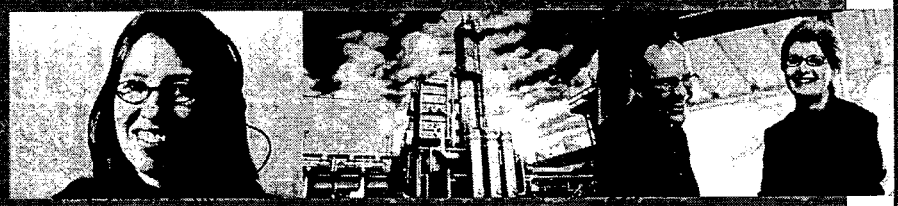
AltaGas Corporate Profile



AltaGas Income Trust is one of Canada's largest and fastest growing integrated energy businesses. Since 1994, we have been defining Canada's midstream business, moving energy from its source to the end-user, transforming it and adding value along the way.

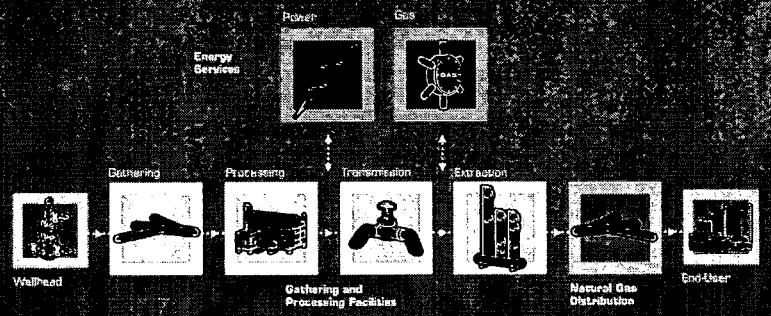
Our premium assets stretch across Canada and include natural gas gathering and processing, extraction, transmission, natural gas distribution, natural gas marketing and energy supply management, and wholesale power and are valued at over $1 billion.

Our success is driven by the skills, diverse expertise and dedication of our people. It takes an exceptional team to deliver the record results that AltaGas has provided, and we have featured just some of our nearly 600 AltaGas employees in this report.

We offer investors long term value through disciplined growth, a diversified asset base, seasoned management and an innovative approach to the movement of energy. We have a solid track record, proven strategy and an abundant array of opportunities.

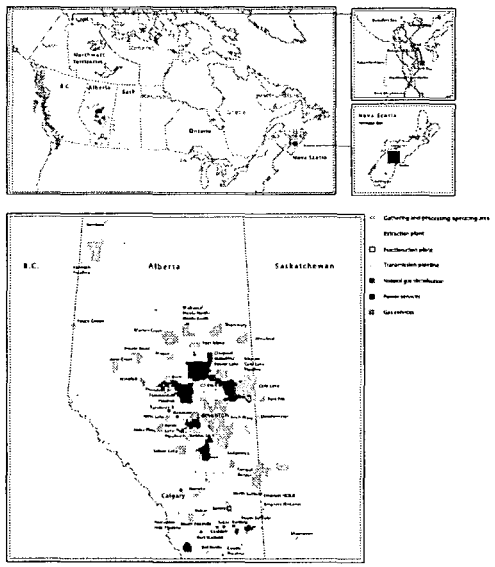
AltaGas...the right assets, the right people...the right choice.

AltaGas' units trade on the Toronto Stock Exchange under the symbol "ALA.UN".
Our website is www.altagas.ca



AltaGas Strategy

AltaGas uses its midstream assets and services to move energy from its source to the end-user. We add unitholder value by increasing the operating efficiency and utilization of our assets and linking the components of our midstream energy business.



We take a low risk approach to business. We have invested carefully and well, and will continue to do so. Earnings and returns have grown consistently and deliberately through acquisitions, organic growth of our energy infrastructure, expansion of energy services and through operational excellence. We look for opportunities to extend the horizon of our cash flow streams to ensure predictability and sustainability. The growth of each of our business components is planned to ensure concentrations of risk are managed. The asset mix is deliberately diversified in terms of revenue source, contractual terms, exposure to industry cycles and geographic location to support overall stability. We maintain a strong balance sheet to ensure we can execute quickly when prudent opportunities are presented.

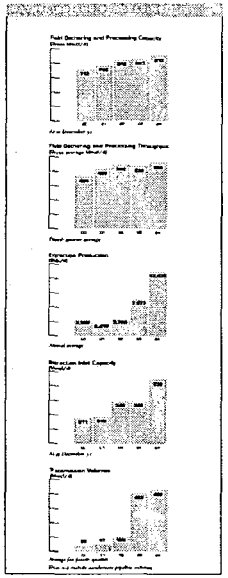
Our strategy of dominating the midstream energy business, linking and controlling as many of the components as we can along the energy value chain is fundamental to value creation in the midstream business.

Midstream Energy Value Chain

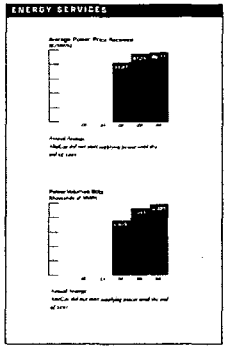
AltaGas Energy Infrastructure and Services Locations

AltaGas Three Key Operating Segments

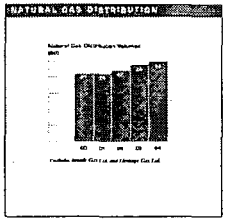
COMPONENT	POSITION	ASSETS	KEY DRIVERS	ALTAGAS ADVANTAGE	OPPORTUNITIES
Gathering and processing	▪ AltaGas is one of the top 10 Canadian processors of natural gas and one of the four largest Canadian midstream across by volume	▪ Over 6,000 kilometres of gathering lines, 87 processing facilities, 20 operating at last, 512 kilos/hr of processing capacity, 80 owners, average working interest	▪ Portion of volumes processed, fees for service	▪ Contractual processor matched to processing mill, large portion of operating margin underformed to producer commitments ▪ Facility customer geographic diversity ▪ Operational excellence, operator integrity of facilities ▪ Long life assets with a significant portion of facilities that can easily be moved ▪ Minimal commodity price exposure	▪ All gas must be processed, significant infrastructure demand ▪ Internal expansion opportunities, driven acquisition strategy ▪ Increase facility utilization with bolt on or additional capital investment
Extraction	▪ Interests in four of the 10 oshore and NGLs extraction plants in Canada	▪ Four extraction plants with 539 kms/Pd of net inlet capacity and field fractionation facility	▪ Natural gas volume processed, natural gas extraction, Fels for ethane/ad to NGLs and natural gas prices	▪ Approximately 75 percent of operating margin from fixed fee or cost of service type arrangements ▪ Majority of contracts are small long term commercial arrangements	▪ Modifications to increase product recoveries at facilities where AltaGas has an interest ▪ Acquisition of interests in existing or new facilities
Transmission	▪ Represents a growing economy	▪ Six transmission pipelines	▪ Portion of volumes transported	▪ Majority of operating margin based on long term, fixed fee contracts with volume commitments	▪ Construction or acquisition where AltaGas has existing gathering and processing facilities ▪ Organic growth can be captured through the leverage of existing facilities



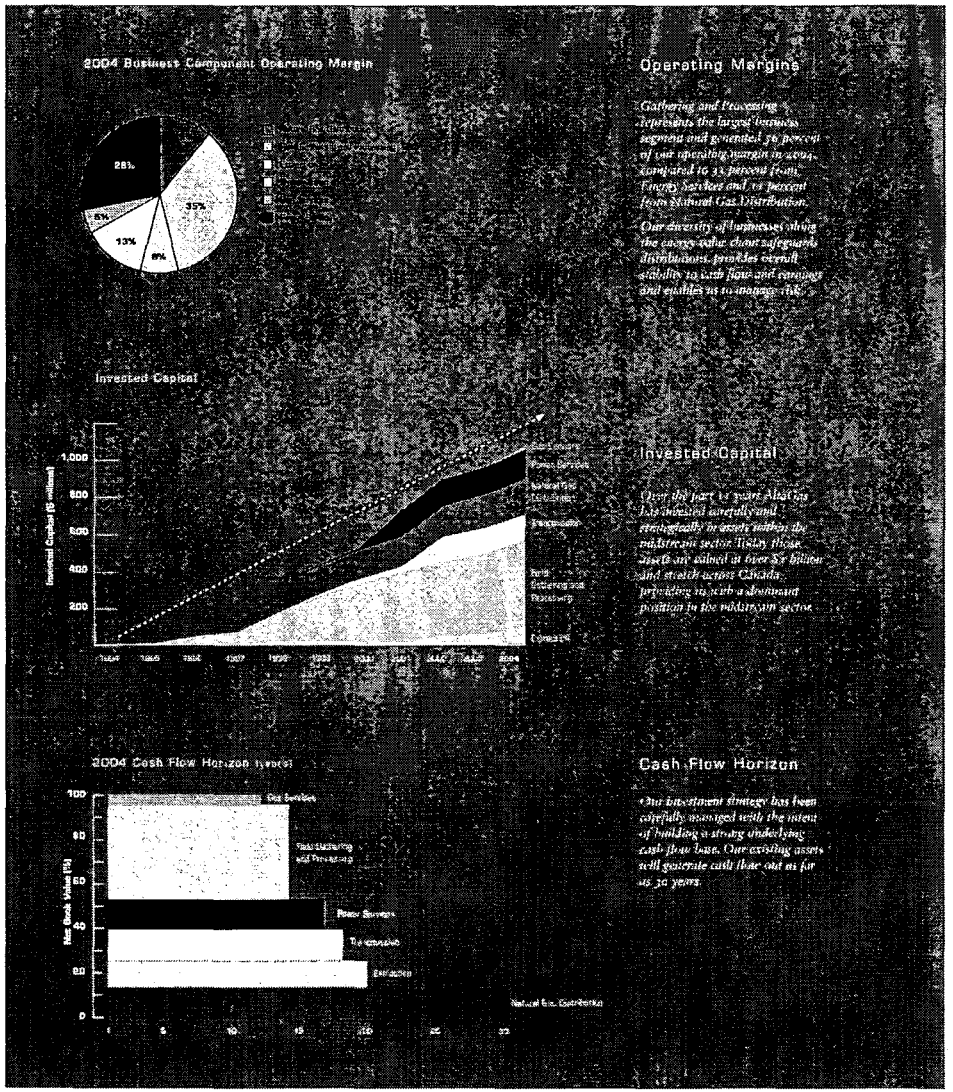
ENERGY SERVICES



COMPONENT	POSITION	ASSETS	KEY DRIVERS	ALTAGAS ADVANTAGE	OPPORTUNITIES
Power services $1.2004 plus recovered over 90 percent of this segments operating margin	▪ Supply six percent of Alberta's power capacity	▪ 478 MW of power supply of which 453 MW is through power purchase arrangements and 25 MW of gas generated power peaking capacity	▪ MW hours of production sold ▪ Alberta power pool prices	▪ Managed commodity price exposure over time through contracts which lock in a significant portion of power margins ▪ Long term contracts with credit worthy power supply purchasers in Alberta's deregulated power market ▪ Power supply is from two of the lowest cost coal fired plants in Alberta ▪ Power sourced from five independent units	▪ Active acquisition and development and transmission opportunities, distributed power generation projects ▪ Add gathering and processing assets
Gas services	▪ PrimeEnr is one of Canada's leading energy agency businesses	▪ Industry expertise ▪ Over 1,000 customers ▪ An energy agency business marketed under AltaGas, PrimeEnr and ECNG trade names	▪ Volumes supplied or marketed ▪ Fees for service	▪ Minimal capital required ▪ Managed commodity price risk, fee for service revenue ▪ Expertise in energy procurement and consulting services, energy supply and natural gas transportation and storage opportunities as end use customers	▪ Growth in existing businesses ▪ Opportunities for value driven rationalization with other consolidators



On October 1, 2004 AltaGas acquired substantially all of the assets, including the business names, and liabilities of PrimeEnr Energy Canada Ltd. and its subsidiary ECNG Inc. and Energystore Group Inc. collectively PrimeEnr.



NATURAL GAS DISTRIBUTION

COMPONENT	POSITION	ASSETS	KEY DRIVERS	ALTAGAS ADVANTAGE	OPPORTUNITIES
AltaGas Utilities Inc.	▪ Six percent of the Alberta natural gas distribution market	▪ 90 communities in Alberta, approximately 80,400 customers	▪ Volumes sold, weather	▪ Regulated cost of service, long term franchise agreements ▪ Return on equity of 8.5 percent on an equity component of 41 percent ▪ No commodity price risk	▪ Growth within existing and new franchise areas and existing franchise base
Inuvik Gas Inc. (33.3 percent)	▪ The only distribution system north of the Arctic circle	▪ Services the town of Inuvik, NWT	▪ Volumes sold, weather	▪ Subject to light handed regulation on a consistent basis ▪ Formula return on equity	▪ Relicensed for northern development
Heritage Gas Limited (34.9 percent)	▪ First natural gas distribution franchise serving Nova Scotia	▪ Six counties in Nova Scotia including the Halifax Regional Municipality	▪ Volumes sold, weather	▪ Regulated cost of service ▪ Return on equity of 13 percent on an equity component of 40 percent	▪ Unlimited expansions – initial infrastructure will be built over ten years

Unitholders' Equity ($ millions)

Chairman's Message to Unitholders

Our unitholders were rewarded with a 2004 total unitholder return of 54 percent. With over $1.0 billion in assets across Canada, market capitalization of $1.2 billion and enterprise value of $1.6 billion, AltaGas has become a truly national, integrated energy business.

The combination of the right assets and the right people continues to be a winning formula for AltaGas. Our strategic positioning of assets throughout the energy value chain, expertly managed and optimized by our talented team, delivered the 11th successive year of record net earnings and funds from operations. Our unitholders were rewarded with a 2004 total unitholder return of 54 percent. With over $1.0 billion in assets across Canada, market capitalization of approximately $1.2 billion and enterprise value of close to $1.6 billion, AltaGas has become a truly national, integrated energy business.

The 2004 year was a significant milestone in the strategic, operational, and financial evolution of AltaGas. Our transition to a trust on May 1 was effected efficiently. Our assets are ideally suited to a trust structure and our operating model, which remains the same as when we were a corporation, works exceedingly well as a Trust. Industry conditions during the year provided AltaGas with an excellent platform for strong financial performance and for internal expansion and new project development. We also grew through strategic acquisitions and expansions in our three business segments. The most significant additions were the acquisitions of the businesses of PremStar Energy Canada Ltd.; 25 MWs of gas generated power peaking capacity in Alberta, which provided diversification to our coal generated power portfolio; and the 48 2/3 percent interest in the Edmonton ethane extraction plant (EEEP) which added 190 Mmcf/d of extraction capacity. In total we invested $130.2 million in 2004.

We closed 2004 with increased liquidity and financial flexibility. We issued $88.5 million in Trust units in June 2004. We also implemented Premium Distribution™, Distribution Reinvestment, and Optional Unit Purchase Plans for eligible holders of units. The successes of these transactions reflect the strength of AltaGas in the eyes of the investment community. At year end our balance sheet was very strong with debt as a percent of total capital at 43 percent, below our target levels.

In August and September Enbridge Inc. successfully sold its 36 percent interest in AltaGas into the open market. Enbridge was a good financial investor for AltaGas and over the past five years received significant return from its investment in AltaGas. I wish to thank the Enbridge nominees to the Board of Directors of the past five years: Stephen Letwin, Bonnie DuPont and Richard Bird for their wisdom, support and hard work.

We will focus on opportunities that can be linked to existing assets and services to increase overall value through enhanced efficiency and utilization.

Looking forward, as a Trust we do not expect our growth prospects or growth strategies to change. We will continue to concentrate on reducing business risk, on enhancing earnings potential and predictability and on long-term unitholder value. We will continue to deliberately grow AltaGas through acquisitions, organic growth of existing assets, and expansion of energy services. We expect growth to occur in each of our businesses and we are very confident of our ability to continue to successfully and sustainably grow AltaGas' asset base, earnings and cash flow.

We will focus on opportunities that can be linked to existing assets and services to increase overall value through enhanced efficiency and utilization. A recent example is our acquisition of PremStar, one of Canada's leading energy agency businesses; its addition expands our gas services business across Canada. The addition of this strong team of energy professionals, based primarily in Ontario, has opened up new growth opportunities in that market and our existing markets. We have already begun to realize additional benefits by processing PremStar volumes through one of our Empress extraction facilities, enhancing our share of revenues from that facility.

In acquiring assets, AltaGas remains focused on selected Canadian and northern United States natural gas and power markets where our assets, stakeholder relationships and market knowledge can provide us with the most attractive growth opportunities.

We believe that North America's natural gas producing regions will continue to require significant investment in drilling and field development to support current levels of production and that natural gas prices will remain high. North American power demand has grown steadily for many decades and we expect it will continue to grow well into the future. We have a fundamental view that market prices for power, over the long run, have to support the construction of new and more environmentally friendly generation to meet new demand and replace retiring assets. This translates into opportunity for AltaGas. We understand the importance of physically linking energy supply to market and as we grow our integrated energy business, we expect to expand our reach to markets throughout North America. We will also consider expansion of our business along the energy value chain into new businesses including power transmission and oil processing and upgrading.

Growth continues to be an important part of AltaGas' strategy and growth must be balanced by returns on equity and enhancing long-term unitholder value. We will remain focused on executing those financial and business strategies which will maintain the profitable growth that characterized AltaGas as a company. We are committed to the strong financial performance and earnings per unit growth necessary to safeguard future distributions for our unitholders.

At the time of our conversion to a Trust, AltaGas management and Board established a $0.15 per unit monthly distribution on the basis that that amount was manageable through our seasonality and sustainable on an annual basis with our current businesses. The full year impact of the EEEP, PremStar and the power peaking plant acquisitions, facility expansions, and 2004 maintenance capital projects that will improve efficiencies at our facilities, will contribute to increased cash flow in 2005.

While there can be no question our assets have performed extremely well over the past 11 years and that they will continue to do so in the future, I have to emphasize the reason for our continued successful performance is the team of people who add value every day to our businesses through their expertise and dedication. AltaGas is much more complex than when we started up in 1994. To manage that complexity we have, over time, transitioned our employee base through acquisitions, strategic new hires, and an emphasis on training. We offer all staff opportunities on site for ongoing skill upgrading in many areas, from leadership and team development to financial analysis and negotiating, and we financially support offsite continuing education programs. Today, our close to 600 employees provide an extremely competent, highly skilled pool of expertise.

We are committed to these employees and to continuous learning, good governance, the safety of our people, and the preservation of our environment. Our corporate governance practices are guided by the highest standards of the regulatory authorities and by strict adherence to best in class practices set by the Governance committee of the Board of Directors.

Management, with the full support of the Environment and Safety committee of the Board of Directors, has committed AltaGas' operations, safety and environment standards to be best in class. We annually conduct safety and environmental third party audits using industry-accepted criteria. Evidence of our efforts is seen in AltaGas Utilities being awarded the Canadian Gas Association Safety Award for three of the past four years; as well, all of our field gathering and processing operating areas will receive the Gas Processing Association of Canada Safety Awards for no lost-time accidents in 2004. Early in 2005 AltaGas announced plans for our largest single community donation ever through a partnership with the Alberta Shock Trauma Air Rescue Society (STARS). The donation will not only help expand the reach and speed of response of this critical service, but also enhances the safety of our field staff by registering our field sites with STARS.

In 2004 AltaGas received recognition on many fronts. In December we were nominated for the prestigious Platt's Global Energy Company of the Year award. This nomination truly recognized the great job done by the AltaGas employees over many years.

AltaGas is committed to the reduction of greenhouse gas emissions. We believe there are many profitable investment opportunities which combine increasing energy production with reduction of greenhouse gas emissions. One example is our recent $5.5 million investment in the construction of a gas conservation processing plant near Shaunavon, Saskatchewan. This processing plant is expected to reduce CO_2 by 18 kilotonnes annually.

In 2004 AltaGas received recognition on many fronts. In December we were nominated for the prestigious Platt's Global Energy Company of the Year award. This nomination truly recognized the great job done by AltaGas employees over many years. I am very pleased that our employees have been recognized for their efforts and I am proud of what they have accomplished on behalf of our stakeholders. 2004 was also the third year we were named as one of Canada's fastest growing companies, the fifth consecutive year we ranked as one of Alberta's fastest growing companies and the third consecutive year that AltaGas was named one of Canada's top 100 employers. It was also our fifth consecutive year and ninth overall year to receive a Platinum Award for participation in Calgary's annual United Way Campaign.

As part of the continuing development of our organization, the Board of Directors has appointed effective March 2, 2005, Allan Edgeworth and Robert Hodgins to the Board. Mr. Edgeworth and Mr. Hodgins fill the vacancies created when the Enbridge nominee directors stepped down following the sale of Enbridge's investment in AltaGas. We also continue to finalize the process to identify candidates to replace me as Chief Executive Officer when I step down, which I currently plan to do in 2006.

AltaGas is in excellent shape with an outstanding team of people, a strong asset base and abundant opportunities for growth. We have the breadth and depth throughout AltaGas to continue strategic and profitable growth.

David W. Cornhill
Chairman of the Board and Chief Executive Officer

ALTAGAS The Right People

AltaGas' continued success is driven by our team of people who add value every day to our business through their expertise and dedication. Today, our close to 600 employees provide an extremely competent and highly skilled pool of resources.

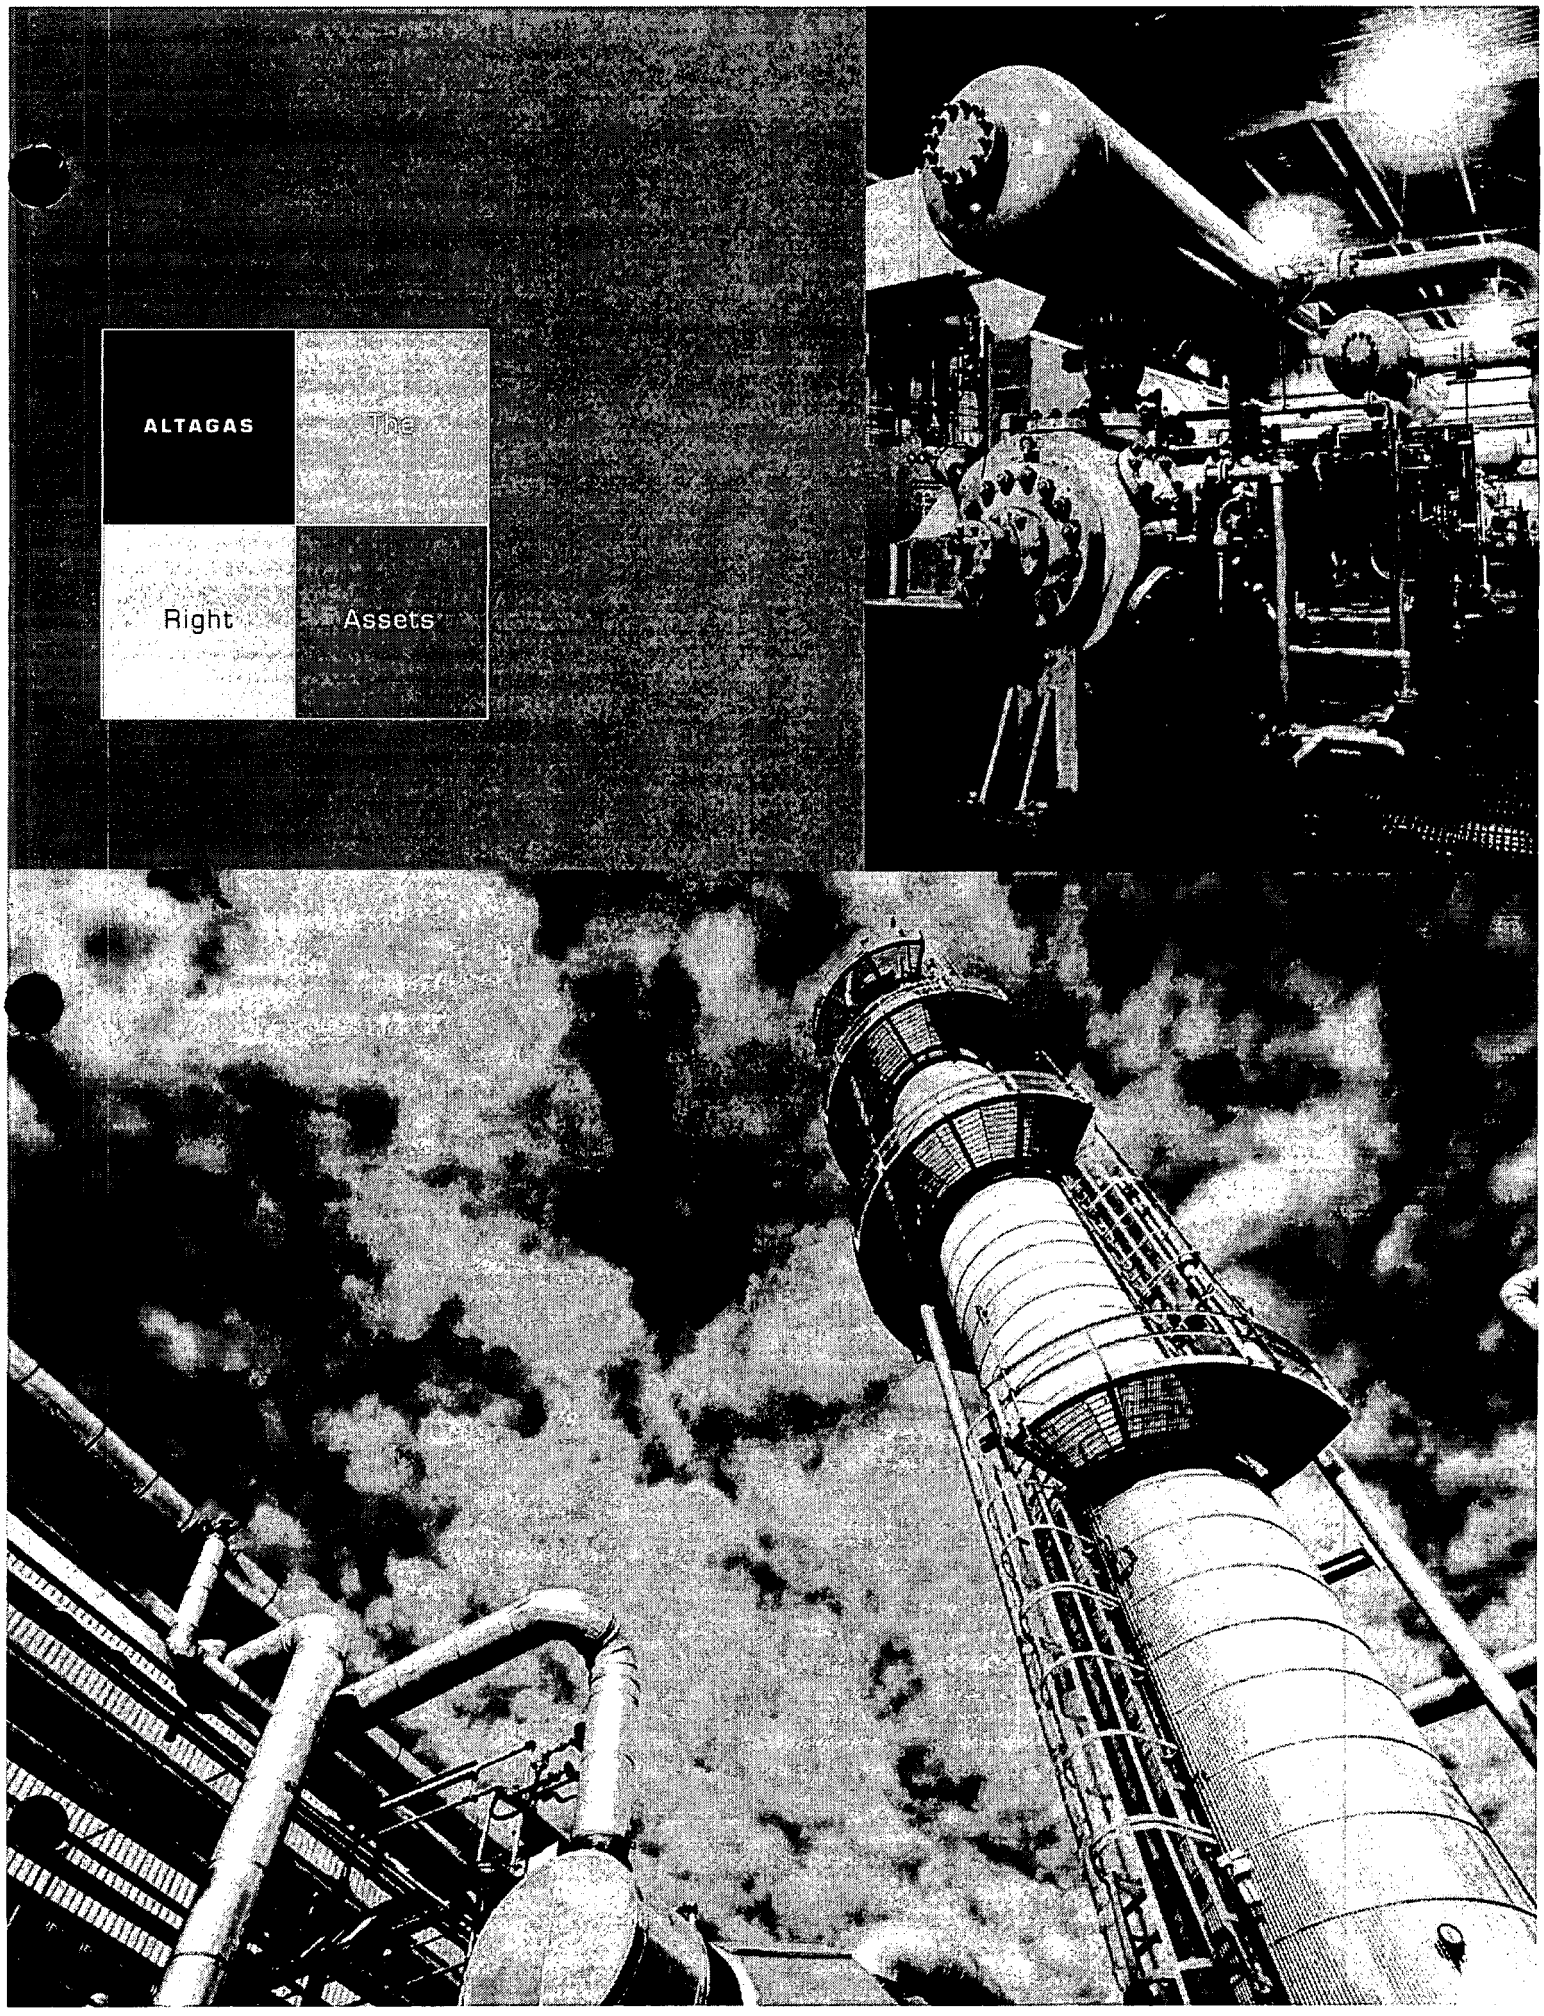
The right assets, the right people... the right choice.

Alcatraz The Right People

Our employees' dedication, innovation and hard work have played a significant role in delivering our 11th successive year of record net earnings and funds from operations.

President and Chief Operating Officer's Message to Unitholders

We achieved 'step change' improvements in our operational performance, significantly expanded our portfolio of assets, added new business to our value chain and converted to an income trust in 2004.



AltaGas took several major steps forward in 2004 on our journey to become one of Canada's great energy infrastructure businesses. We achieved 'step change' improvements in our operational performance, significantly expanded our portfolio of assets, added new business to our value chain and converted to an income trust. The year 2004, our 11th year of operation, will truly be remembered as a crossroads for our customers, investors and employees. I am very proud of AltaGas' strong position from an operational standpoint, and credit goes to our employees who worked very hard over the year to capitalize on opportunities and position us for future success.

BUILDING ON OPERATIONAL EXCELLENCE

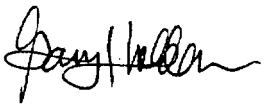
Operational excellence is a major focus throughout AltaGas. I believe the secret to success in implementing a winning formula across our value chain lies in two key principles of communication and teamwork plus a focus on our customers' needs.

In 2003, we established initiatives to streamline information management, upgrade asset management practices, specify information technology improvements and bolster our human resources. During 2004, we converted all of that creativity, critical thinking and planning into action. Today, throughout our organization employees have a better understanding of our business drivers, objectives and strategy. Through structured communication between our business segments, we are identifying synergies and achieving value gains across our portfolio of assets.

At AltaGas we are firmly committed to reaching new levels of customer service. During the year our operations team invested a significant amount of time identifying priorities and understanding our customers' drivers for each operational area. These activities included setting performance objectives on reliability, response time and effective decision making. From our managers to our field staff our employees are now supported by analytical and forecasting tools to improve their ability to anticipate problems and think ahead. As a result of all their hard work, we are very well positioned for 2005.

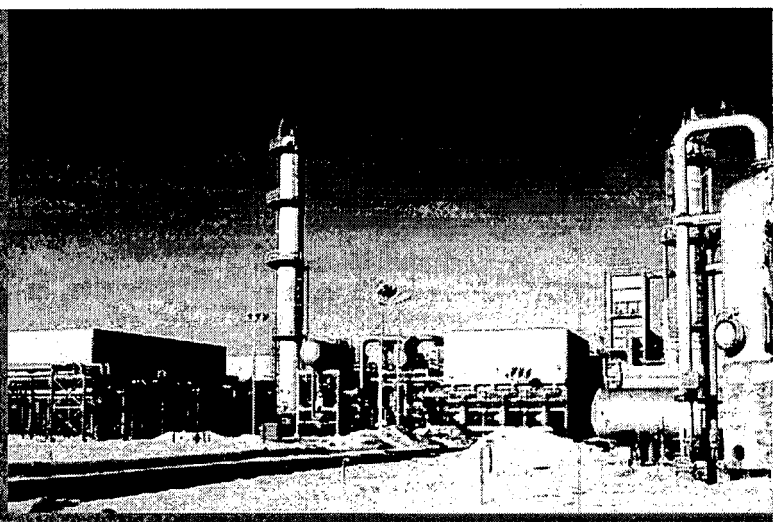
ALTAGAS
The
Right
Assets

In 2004, we enhanced our position in the Alberta power market. To add further operational flexibility to our coal-based power purchase arrangements (PPAs), we acquired 25 MW of fast-response peaking capacity through a long-term lease arrangement. This acquisition provides AltaGas both an opportunity to earn additional revenues during high-priced periods, and provides some backstopping to outages in our hedged power portfolio. This acquisition is an excellent example of our people constantly looking for ways to improve earnings and manage risk – the right people with the right assets making the right choices.

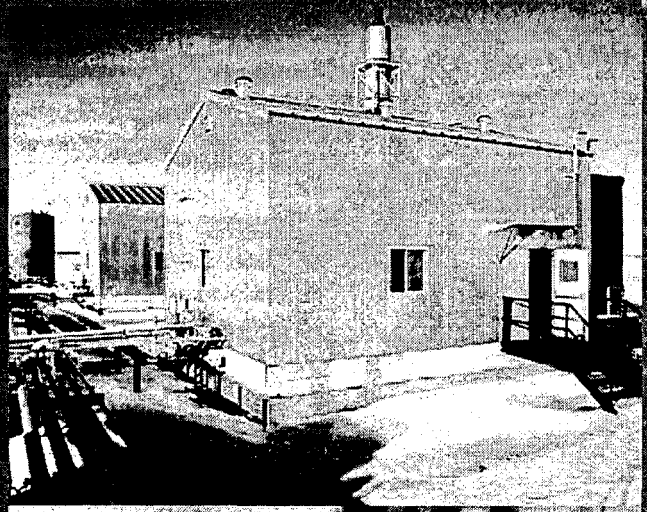


KEEPING SAFETY AND THE ENVIRONMENT OUR FIRST PRIORITY

It is equally important to highlight our commitments to safety and the environment. In our 2003 annual report, I spoke about our focus on safety and stressed the importance safety would have in our business planning and execution. We made meaningful improvements in our safety programs in 2004. David Cornhill's letter speaks of many safety achievements over the year, in particular the excellence shown in our gas utility business, AltaGas Utilities. The commitment to safety by AltaGas and our employees is demonstrated by our safety record. Our people in the field have shown great determination to follow our policies and programs strictly and as a result we continue to lessen our safety-related incidents and lower our lost-time accident rate to an industry-leading level. In addition, we have improved the results of our safety audits, which are performed by independent consultants, to reach best in class status.

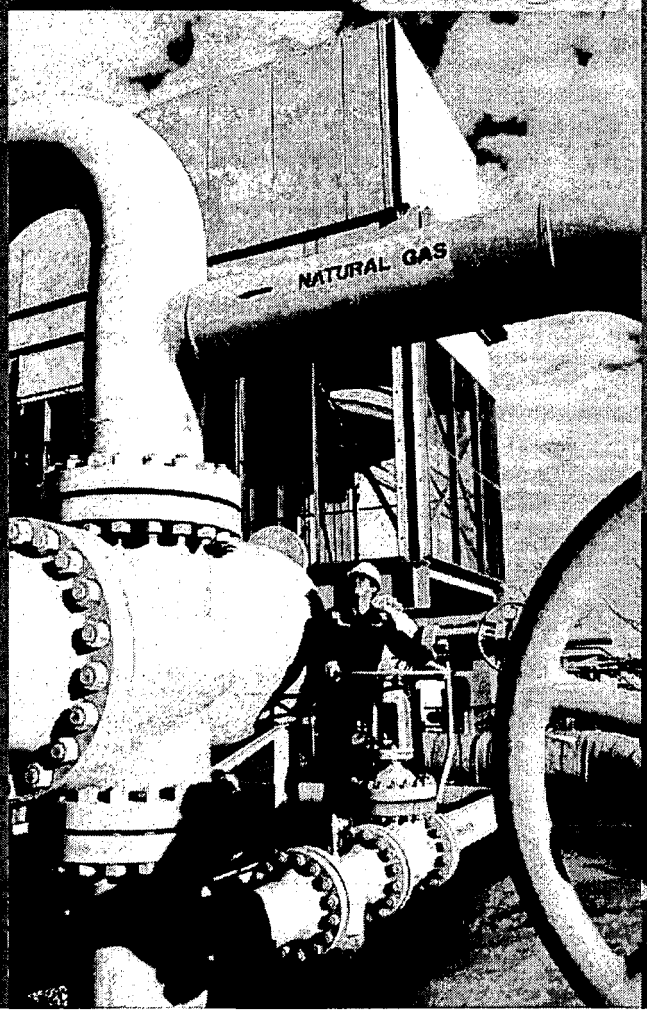


In the area of environmental stewardship, we are honoured that the Alberta Energy and Utilities Board recently recognized AltaGas for our exemplary performance on environmental matters during 2004. In an industry that deals with products and materials that require careful environmental management, we are pleased to say that we continue to move in the right direction.

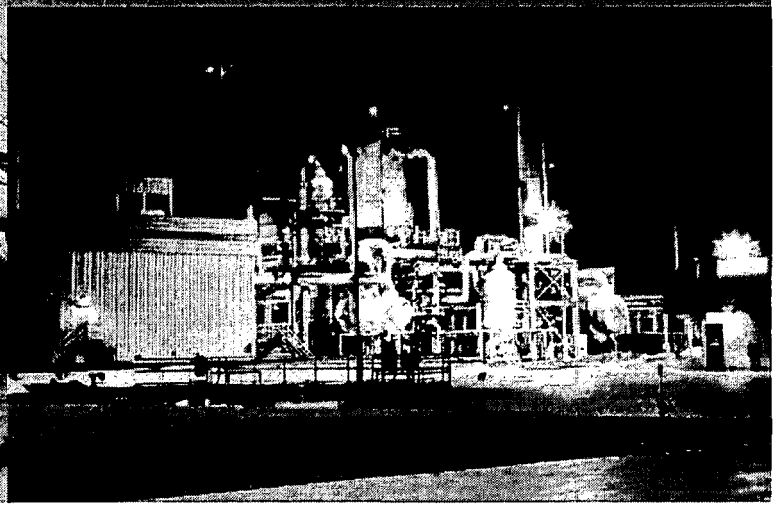


When you look across our impressive portfolio of assets, it is clear that we have come a long way in our drive to be recognized for operational excellence. Furthermore, we have a stong platform for continued growth for our unitholders as we diligently and confidently expand our skill base, develop best in class business processes and strengthen the financial viability of our assets through risk diversification.

I like to think our recipe for success is one part assets, two parts solid operational practices and three parts our high-quality workforce. With a recipe like that, we will continue to deliver the results expected by us in a well-managed, safe and environmentally sensitive manner.



Gary Holden
President and Chief Operating Officer



Moving energy to create value is what we do. In our 11 years of business we have grown from $37,000 in assets and 20 people to $1 billion in assets and almost 600 employees. In the process we have defined Canada's midstream business, applying a strategy of starting small, thinking big and leaving a soft footprint. Today we are one of the largest, most diversified Canadian infrastructure-based business trusts in Canada. We continue to see opportunities to integrate services across a spectrum of energy sources where customer needs can be met.

The right assets, the right people... the right choice.

In 2004, we successfully completed the design, development and commissioning of our new customer information and billing system. We now have all of our customer information and contracts in an integrated business tool that dramatically improves accuracy, significantly expedites the process of adding new wells and new volumes, and meets the rigorous deadlines that drive our industry.

Our customers continue to see value in doing business with AltaGas, and in fact are choosing to expand their relationship with us over building their own facilities. As our level of service further improves, the choice will become easier for our customers. In other words, we believe that by being a first-rate service provider, our business will grow. This focus will drive us as we go forward.

BUSINESS SEGMENTS UPDATE

It was a very active year for the oil and gas sector throughout the Western Canadian Sedimentary Basin. By some measures, it may have been the most active year in Alberta's long history of serving North America's energy needs. In the field gathering and processing segment AltaGas was ready to capitalize on the rapid increase in activity as our customers' success is directly linked to our performance. We connected into our field gathering and processing facilities between one and two new wells every single day, or over 420 wells during the year, an increase of 32 percent over 2003. We managed the volumetric information, contractual framework and physical integration of these new wells quickly and efficiently and in an operationally sound manner. The well tie-ins resulted in large volume improvements at our Rainbow Lake, Doris, Bonnie Glen, Sylvan Lake, Windfall and Wabasca processing facilities.

In 2004, we spent over $20 million in expanding our gathering systems, compression sites and processing facilities to provide the services needed by our customers to move their product to market. We expanded our Marten Creek, Kirkpatrick Lake and Windfall facilities, to name a few. We also started construction of a sour gas processing plant in Shaunavon, Saskatchewan, that will eliminate the flaring of solution gas from nearby wells – a great example of our creativity and ambition to make both economic and environmental gains at the same time.

As the Alberta oil and natural gas sector continues to mature, we believe that more and more investment opportunities will present themselves to AltaGas. We will continue to expand our capabilities and extend our core skills to be well positioned to capture these opportunities as they become available. An often overlooked value of an acquisition is the pool of expertise that joins our team as a result of the transaction. Our investment in the Edmonton ethane extraction plant provided people that leverage our knowledge base and expand our operational capabilities. As operator of this facility, we have acquired a number of highly skilled experts in the extraction business in a high-quality facility in a prime location. The acquisition also allowed us to expand our relationship with an excellent partner, ATCO Midstream, and further our dealings with a leader in the industry, BP Canada, as our principal customer.

A key element of our success is to continue to build on our existing asset base and the services we provide. The addition of the PremStar businesses to our energy services offering in 2004 extends our value-chain vision to establish an even closer relationship with end-use customers. Through the acquisition we strengthened our ability to analyze downstream market conditions, improved our capability to rigorously analyze market risk and enhanced our ability to extract further margins on gas transported from Alberta to eastern markets. As we look to the future, we expect to leverage our knowledge, expertise and market position to provide growth.

Management's Responsibility for Financial Statements

Management recognizes that it is responsible for the preparation of the consolidated financial statements and is satisfied that these statements have been prepared using Canadian generally accepted accounting principles and are within reasonable limits of materiality. Further, management is satisfied that the financial information contained in this annual report is consistent with that presented in the consolidated financial statements. The Trust's internal controls and systems are designed to provide reasonable assurance that its assets are safeguarded and to facilitate the preparation of relevant, reliable and timely information.

External auditors have been engaged by the Trust to examine the consolidated financial statements. The Audit Committee of the Board of Directors has reviewed these statements with the external auditors and management and has reported its findings to the Board. The Board of Directors, on the recommendation of the Audit Committee, has approved the consolidated financial statements contained in this report.

Auditors' Report

To the Unitholders of AltaGas Income Trust

We have audited the consolidated balance sheets of AltaGas Income Trust as at December 31, 2004 and 2003 and the consolidated statements of income and accumulated earnings and cash flows for the years then ended. These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In our opinion, these consolidated financial statements present fairly, in all material respects, the financial position of AltaGas Income Trust as at December 31, 2004 and 2003 and the results of its operations and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

1. STRUCTURE OF ALTAGAS INCOME TRUST

AltaGas Income Trust (AltaGas or the Trust) is an unincorporated open-ended trust established under the laws of Canada, pursuant to a Declaration of Trust dated March 26, 2004. The Trust commenced operations on May 1, 2004 as successor to AltaGas Services Inc. (ASI) when it acquired all of the shares of ASI for consideration of trust units or exchangeable units on a one for one basis. These audited consolidated financial statements follow the continuity of interest basis of accounting whereby the Trust is considered a continuation of ASI. As a result, the comparative period figures are those of ASI while the results of operations include ASI's results for the period up to and including April 30, 2004 and the Trust's results of operations from May 1, 2004 to December 31, 2004.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements are prepared by management in accordance with Canadian generally accepted accounting principles. Significant accounting policies are summarized below:

Basis of Presentation

These consolidated financial statements include the accounts of AltaGas Income Trust and all of its wholly-owned subsidiaries, and its proportionate interests in the ASTC Power Partnership, Heritage Gas Limited and Inuvik Gas Ltd. Transactions between the Trust, wholly-owned subsidiaries and the proportionate interests are eliminated on consolidation.

The Trust's subsidiary, AltaGas Utilities Inc. is engaged in the distribution and sale of natural gas in various communities located within the province of Alberta and is regulated by the Alberta Energy and Utilities Board (AEUB). These regulations cover such matters as tariffs, rates, construction, operations, financing and accounting. AltaGas Utilities Inc.'s accounting policies conform to generally accepted accounting principles in the utility industry and reflect the policies established from time to time by the AEUB.

The Trust has entered into joint venture arrangements, and accordingly the accounts reflect only the Trust's proportionate interest in these activities.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand and balances with banks, and investments in money market instruments with maturities less than three months.

Customer Deposits

Cash deposited by customers under the terms of natural gas and power marketing contracts is invested in short-term deposits with a Canadian Chartered bank. These funds are restricted and are not available for general use by the Trust. The offsetting liability is classified as customer deposits within current liabilities.

Inventory

Materials and supplies are valued at the lower of average cost and replacement cost. Natural gas inventories are valued at the lower of cost or current market values.

Capital Assets and Amortization

Capital assets are recorded at cost plus interest incurred during the construction period to finance long-term construction projects. The allowance for funds used during the construction of regulated natural gas distribution assets is capitalized at rates authorized by the regulatory authorities in Alberta and Nova Scotia.

Contributions in aid of construction of natural gas distribution assets are deducted from the cost of acquiring capital assets, with subsequent amortization calculated on the net cost. Repairs and maintenance costs are expensed in the period incurred.

The Trust amortizes the cost of capital assets, net of salvage value, on a straight-line basis based on the estimated useful life of the assets except for regulated natural gas distribution assets, where amortization is calculated on a straight-line basis at rates approved by the regulatory authority.

Gathering and Processing	
Gathering and processing assets	15 – 40 years
Other assets	1 – 5 years
Energy Services	
Energy services assets	8 – 20 years
Capital lease	10 years
Other assets	1 – 5 years
Natural Gas Distribution	
Natural gas distribution assets	0.8 – 21.2 percent
Other assets	2.5 – 33.3 percent

AltaGas follows the full cost method of accounting for oil and gas exploration and development activities. Capitalized costs are accumulated in a single cost centre and amortized to income on a unit of production basis over the estimated production life of proved reserves.

Leases are classified as either capital or operating. Leases which transfer substantially all the benefits and risks of ownership of property to AltaGas are accounted for as capital leases. Capital leases are accounted for as assets and are amortized on a straight-line basis over the lease term. The capital lease obligations reflect the present value of future lease payments. The finance element of the lease payments is charged to income over the term of the lease. Commitments to repay the principal amounts arising under capital lease obligations are included in current liabilities to the extent that the amount is repayable within one year; otherwise the principal is included as a long-term liability.

Energy Services Arrangements, Contracts, Relationships and Amortization

Energy services arrangements, contracts and relationships are recorded at cost which was fair value at the time of purchase, and are amortized on a straight-line basis over their term or estimated useful life:

Sundance Power Purchase Arrangements (PPAs)	19 years
Natural gas and power marketing contracts	18 months
Energy services relationships	15 years

AltaGas owns 50 percent of two Sundance B PPAs through its interest in the ASTC Power Partnership (ASTC). ASTC is committed to purchase all of the power from the 706 megawatt capacity Sundance generating units. The investment in the PPAs and their revenue and expenses thereunder are recorded on a proportionate basis. The Sundance B PPAs are the right to the committed generating capacity of two regulated Alberta generating units and required a capital outlay to acquire. The Trust is obligated to make payments to the owners of the underlying generating units over the remaining terms of the PPAs to December 31, 2020. Such amounts are recorded as cost of sales as incurred. Revenue from the sale of the committed power is recorded when delivered.

The Genesee energy contract is the right to generating capacity at a regulated Alberta generating unit for a three year period ending March 31, 2006 which required no capital outlay but includes monthly capacity charges, which amounts are recorded as cost of sales. Revenue from the sale of the committed power is recorded when delivered.

The Marketing service arrangements and contracts are the rights and obligations to buy and sell fixed volumes of natural gas and power at contracted prices. Revenue and expenses are recorded when delivered.

Energy services relationships were purchased along with substantially all of the assets and liabilities of PremStar Energy Canada Ltd., ECNG Inc. and Energistics Group Inc. and are recorded at fair value and amortized on a straight-line basis commencing with the termination of the related short-term contracts over the 15 year expected useful life of the relationships.

Goodwill

Goodwill represents that portion of the purchase price of the Suffield natural gas pipeline system which was in excess of the fair value of the net assets acquired. Goodwill is not subject to amortization but is tested at least annually for impairment by comparing the fair value of the natural gas transmission component with its book value.

Long-Term Investments and Other Assets

Investments in entities in which AltaGas has the ability to exercise significant influence are accounted for by the equity method. Other long-term investments are recorded at cost. Any other than temporary impairment in value of an investment is charged against income when determined.

Asset Retirement Obligations

The Trust recognizes asset retirement obligations in the period in which the obligation is incurred and a reasonable estimate of a fair value can be determined. The associated asset retirement costs are capitalized as part of the carrying amount of the asset and are depreciated over the estimated useful life of the asset. The liability is increased due to the passage of time over the estimated period until the settlement of the obligation, with an offsetting charge to accretion expense in the income statement.

In the Natural Gas Distribution and Gathering and Processing segments, certain of AltaGas' assets have an indeterminate life and thus a future retirement obligation is not recognized.

Derivative Instruments

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates. These contracts are designated as hedges when the underlying risks of the hedged and hedging instruments offset to manage the Trust's exposure. Gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction. If financial derivative contracts cease to be effective as hedges or if the hedge relationship is terminated, any cumulative gains or losses arising prior to such time continue to be deferred over the period of the original hedged transaction and subsequent changes in the fair value of the derivative contracts are recognized as adjustments to income. The effectiveness of hedges is tested quarterly to ensure the correlation of the underlying risks.

AltaGas enters into commodity derivative contracts for the future delivery of commodities at fixed prices. These contracts are not recognized in the financial statements until they are settled.

Revenue Recognition

Revenue for gathering and processing services is recorded as the services are rendered. Energy marketing and natural gas distribution revenue are recognized at the time the product is delivered.

Unit Based Compensation Plans

The Trust follows the fair value method of accounting for trust unit options granted during the year. Unit options are valued at the date of the grant and recognized as compensation expense over the vesting period of the options. Consideration received by the Trust on exercise of the option rights is credited to unitholders' capital.

AltaGas has an incentive phantom unit plan which requires settlement by cash payments. During the graded vesting period, compensation expense is recognized using the liability method and is recorded as operating and administrative expense over the life of the vesting period. A change in value of the phantom units is recognized in the period the change occurs.

Pension Plans and Retirement Benefits

The cost of defined benefit pension and other retirement benefits is actuarially determined using the projected benefit method prorated on service and management's best estimate of expected plan investment performance, salary escalation, retirement ages of employees and expected health care costs. The current service cost of the benefit is the sum of the individual current service costs, and the accrued benefit obligation is the sum of the accrued liabilities for all participants.

For purposes of calculating the expected return on plan assets, those assets are valued at fair value. The cumulative net actuarial gain or loss at the beginning of the year in excess of 10 percent of the greater of the accrued benefit obligation and the fair value of plan assets is amortized on a straight-line basis over the average remaining service life of the active employees. The average remaining service periods of the active members covered by the pension plans and other retirement benefits plans are 14 to 16 years. Transitional obligations are being amortized on a straight-line basis over the remaining service life of active employees. Past service costs resulting from plan amendments are amortized on a straight-line basis over the average remaining service life of active employees for the respective plan.

Income Taxes

The Trust is a taxable entity under the Income Tax Act (Canada) and is taxable on income that is not distributed or distributable to the unitholders. As the Trust allocates all of its Canadian taxable income to the unitholders in accordance with its Trust indenture, and meets the requirements of the Income Tax Act (Canada) applicable to the Trust, no provision for Canadian income tax expense has been made for AltaGas Income Trust.

Except for rate-regulated natural gas distribution subsidiaries, income taxes are calculated in the subsidiary companies of the Trust using the liability method of tax accounting. Under this method, future income tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities, and are measured using the substantively enacted tax rates and laws that are anticipated to be in effect in the periods in which the differences are expected to be settled or realized.

Income taxes in the rate regulated natural gas distribution subsidiaries are provided using the taxes payable method approved by the regulatory authorities. In accordance with regulated accounting, provision is made only for those income taxes currently payable and no future tax is recorded on the differences between the financial reporting and tax basis of assets and liabilities.

Per Unit Information

Basic net income per unit is calculated on the basis of the weighted average number of trust and exchangeable units outstanding during the year. Diluted net income per unit is calculated as if the proceeds obtained upon exercise of options were used to purchase units at the average market price during the year.

Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and the reported amounts of revenue and expenses during the period. By their nature, these estimates are subject to measurement uncertainty and may impact the financial statements of future periods.

3. CHANGES IN ACCOUNTING POLICY

Effective January 1, 2004 the Trust retroactively adopted the fair value method of accounting for stock or unit options approved by the Canadian Institute of Chartered Accountants. This change in accounting policy resulted in a reduction of opening accumulated earnings for 2004 of $0.3 million and an increase to contributed surplus.

Stock option compensation expense charged to operating and administrative expense for the year ended December 31, 2004 is $2.5 million with a corresponding increase to contributed surplus. No compensation expense is recorded for stock options issued prior to January 1, 2002.

Previously, AltaGas accounted for stock based compensation using the intrinsic value method of accounting. No compensation expense was recognized for stock options granted, but it was disclosed on a proforma basis in the notes to the consolidated financial statements. Proceeds received on the exercise of stock options was credited to unit capital.

4. ACQUISITIONS

On October 6, 2004 AltaGas acquired substantially all of the assets and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc. for $21.9 million including acquisition costs. Consideration paid was $1.5 million cash and trust units with an ascribed value of $19.0 million issued from treasury. The acquisition was accounted for using the purchase method, whereby assets acquired are recorded at fair value and the results are included in these consolidated financial statements from the date of acquisition. The allocation of the purchase price has not been finalized and may be subject to adjustment.

Net Assets Acquired		
Working capital	$	2,568
Capital assets		905
Energy services arrangements and contracts		1,839
Energy services relationships		16,548
		21,860
Net acquisition costs		(1,341)
	$	20,519

5. CASH AND CASH EQUIVALENTS

	2004	2003
Cash on hand and balances with banks	$ 1,919	$ –
Short-term investments	750	–
Cash and cash equivalents	$ 2,669	$ –

The effective interest rate on short-term investments was 1.8 percent.

6. CAPITAL ASSETS

	2004			2003		
	Cost	Accumulated amortization	Net book value	Cost	Accumulated amortization	Net book value
Gathering and Processing						
Gathering and processing assets	$695,292	$111,024	$584,268	$621,817	$ 88,599	$533,218
Other assets	10,969	4,282	6,687	7,550	1,480	6,070
Energy Services						
Energy services assets	28,913	9,999	18,914	27,910	7,857	20,053
Capital lease	13,798	457	13,341	–	–	–
Other assets	2,831	1,466	1,365	2,515	1,101	1,414
Natural Gas Distribution						
Natural gas distribution assets	165,557	60,394	105,163	157,062	54,606	102,456
Other assets	26,625	9,634	16,991	25,515	10,815	14,700
	$943,985	$197,256	$ 746,729	$842,369	$164,458	$677,911

Interest capitalized on long-term capital construction projects for the year ended December 31, 2004 was $0.2 million (2003 – $0.2 million). At December 31, 2004 the Trust had spent approximately $24.9 million (2003 – $13.4 million) on capital projects under construction that were not yet subject to amortization.

7. ENERGY SERVICES ARRANGEMENTS, CONTRACTS AND RELATIONSHIPS

	2004			2003		
	Cost	Accumulated amortization	Net book value	Cost	Accumulated amortization	Net book value
Energy services arrangements and contracts	$115,217	$ 18,663	$ 96,554	$113,367	$ 12,332	$101,035
Energy services relationships	16,548	–	16,548	–	–	–
	$131,765	$ 18,663	$ 113,102	$113,367	$ 12,332	$ 101,035

The amortization of the energy services relationships will begin on April 1, 2006.

8. LONG-TERM INVESTMENTS AND OTHER ASSETS

	2004	2003
Common shares of public companies	$ 475	$ 825
Common shares of private companies	696	841
Equity accounted investments in units of a public partnership	30,665	17,925
Equity accounted investments in common shares of private companies	–	654
Advances *(note 20)*	–	2,335
Other	3,040	2,518
	$ 34,876	$ 25,098

At December 31, 2004 the quoted market value of the holdings of public entities was approximately $45.9 million (2003 – $22.1 million). The fair market value of investments in private companies is not reasonably determinable.

The Trust owns approximately 18.9 percent of Taylor NGL Limited Partnership (Taylor), which is accounted for by the equity method.

9. SHORT-TERM DEBT

At December 31, 2004 the Trust, through AltaGas Holdings Limited Partnership No. 1, held a $50.0 million (2003 held by AltaGas Services Inc. – $50.0 million) unsecured demand operating credit facility with a Canadian chartered bank. Draws on the facility bear interest at the lender's prime rate or at the bankers' acceptance rate plus a stamping fee. At December 31, 2004 the Trust had prime loans of $7.0 million and letters of credit of $6.9 million (2003 – $4.4 million and $14.6 million respectively) outstanding against the facility.

At December 31, 2004 the Trust, through AltaGas Holdings Limited Partnership No. 1, held a $75.0 million (2003 held by AltaGas Services Inc. – $75.0 million) unsecured 364 day extendible revolving term letter of credit facility with a Canadian chartered bank. The facility has a maturity date of November 28, 2005 and can be extended for 364 days from the maturity date. AltaGas may borrow up to $25.0 million by way of prime loans, US base rate loans, Libor loans or bankers' acceptances on the letter of credit facility. Borrowings on the facility bear fees and interest at rates relevant to the nature of the draw made. At December 31, 2004 the Trust had drawn debt of nil (2003 – $0.1 million) and letters of credit of $28.7 million (2003 – $11.9 million) outstanding against the extendible revolving term letter of credit facility.

The prime lending rate at December 31, 2004 was 4.25 percent (2003 – 4.50 percent). The average rate on the Trust's outstanding bankers' acceptances at December 31, 2004 was 3.86 percent (2003 – 4.00 percent).

10. LONG-TERM DEBT

	2004	2003
Operating loans	$ 239,210	$ 292,358
Capital lease obligation	13,253	–
Medium term notes	100,000	100,000
	$ 352,463	$ 392,358
Less current portion	101,001	–
	$ 251,462	$ 392,358

Operating Loans

At December 31, 2004 the Trust, through AltaGas Holdings Limited Partnership No. 1, held a $300.0 million (2003 held by AltaGas Services Inc. – $300.0 million) unsecured extendible revolving term credit facility with a syndicate of Canadian chartered banks. Borrowings on the facility can be by way of prime loans, US base rate loans, Libor loans, bankers' acceptances or documentary credits. Borrowings on the facility bear fees and interest at rates relevant to the nature of the draw. The facility has a maturity date of November 28, 2005 and can be extended for an additional year at that time or the facility can be converted by the Trust to a two year term loan. The term loan is repayable over the two year period or at the end of the two year term, depending on the senior unsecured debt rating of the Trust or certain subsidiaries or partnerships of the Trust. At December 31, 2004 the Trust had drawn bankers' acceptances of $239.0 million (2003 – $289.0 million) outstanding against the facility.

Medium Term Notes

A short form shelf prospectus was filed on January 10, 2003 to renew for a two year period the medium term note (MTN) program initiated on September 27, 2000. MTNs may be issued in an aggregate principal amount of up to $250.0 million at prices and terms determined at the time of issue. On October 4, 2000, $100.0 million of 7.28 percent MTNs were issued pursuant to the program. Interest is payable semi-annually and the principal is due on October 4, 2005. On May 1, 2004 AltaGas Operating Partnership assumed all of the obligations, indebtedness and liabilities of AltaGas Services Inc. pursuant to the MTN Trust Indenture dated September 27, 2000, the First Supplemental Indenture dated May 1, 2004 and the MTNs.

Capital Lease Obligation

On September 1, 2004 the Trust entered into a 10 year capital lease with an option to extend the term for an additional 15 years. The lease has payment commitments over the next five years as follows:

2005	$ 1,878
2006	1,878
2007	1,878
2008	1,878
2009	1,878
Thereafter	8,769
	18,159
Less imputed interest at 6.85 percent	(4,906)
Present value of minimum lease payments	13,253
Less current portion	(1,001)
	$ 12,252

Interest expense on capital leases amount to $0.3 million (2003 – nil).

11. ASSET RETIREMENT OBLIGATIONS

	December 31, 2004	December 31, 2003
Balance, beginning of year	$ 13,962	$ 12,925
New obligations in the year	1,066	117
Accretion expense	1,094	920
Balance, end of year	$ 16,122	$ 13,962

AltaGas estimates the undiscounted cash required to settle the asset retirement obligations is $49.1 million (2003 – $45.0 million). The asset retirement obligations have been recorded in the financial statements at estimated values discounted at rates between 7.6 percent and 8.5 percent and are expected to be incurred between 2010 and 2040. The majority of the costs are expected to be incurred between 2025 and 2035. No assets have been legally restricted for settlement of the estimated liability.

12. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

In the course of normal operations the Trust issues short and long-term debt, and purchases and sells natural gas and power commodities. These activities result in exposures to fluctuations in interest rates and commodity prices. The Trust uses financial derivative instruments that result in cash settlements to manage the price or cash flow risk that results from these activities. The Trust does not make use of derivative instruments for speculative purposes.

The fair values of financial derivatives have been estimated using year-end market rates. These fair values approximate the amount that the Trust would receive or pay if the instruments were closed out at these dates.

Commodity Price Risk Management

Under the PPAs AltaGas has an obligation to buy power at agreed terms and prices to December 31, 2020. The Trust sells the power to the Alberta Electric System Operator at spot prices and uses swaps and collars to fix the prices over time on a portion of the volumes. AltaGas' strategy is to lock in margins to provide predictable earnings. At December 31, 2004 the Trust had no intention to terminate any contracts prior to maturity.

At December 31 the Trust had the following contracts outstanding:

Derivative instruments	Fixed Price (per MWh)	Period (months)	Notional Volume (MWh) Sales	Purchases	Fair Value
2004					
Swaps and collars	$41.50 to 63.25	3 to 12	2,440,573	–	$ 1,307
Swap	$ 55.77	156	–	341,856	$ (2,099)
2003					
Swaps and collars	$41.50 to 52.00	12 to 15	2,531,176	–	$ (17,834)
Swap	$ 56.43	168	–	368,064	$ (3,394)

Interest Rate Risk Management

To hedge against the effect of future interest rate movements, the Trust enters into interest rate swap agreements to fix the interest rate on a portion of its bankers' acceptances issued under credit facilities. The Trust has no intention of terminating any swap agreements prior to maturity.

At December 31 the Trust had the following contracts outstanding:

Interest rate swaps	Period (months)	Principal	Weighted Average Interest Rate	Fair Value
2004	3 to 51	$ 200,000	3.93%	$ (1,797)
2003	3 to 60	$ 180,000	4.21%	$ (1,576)

Credit Risk on Financial Instruments

Credit risk results from the possibility that a counterparty to a derivative in which the Trust has an unrealized gain fails to perform according to the terms of the contract.

Credit exposure is minimized by entering into transactions with credit worthy counterparties in accordance with established credit policies and practices. At December 31, 2004 AltaGas did not have a significant concentration of credit risk with any single counterparty to financial contracts.

13. UNITHOLDERS' EQUITY

	December 31, 2004	December 31, 2003
Unitholders' capital *(note 14)*	$ 386,638	$ 268,040
Contributed surplus *(note 3)*	2,823	–
Accumulated earnings	196,819	131,350
Accumulated dividends	(41,114)	(36,063)
Accumulated unitholders' distributions declared	(61,651)	–
	$ 483,515	$ 363,327

For the year ended December 31, 2004 $5.1 million (2003 – $17.3 million) of dividends and $53.7 million (2003 – nil) of distributions were paid by the Trust.

14. UNITHOLDERS' CAPITAL

Authorized December 31, 2003

- an unlimited number of common shares without nominal or par value
- an unlimited number of preferred shares without nominal or par value

Authorized December 31, 2004

- an unlimited number of trust units redeemable for cash at the option of the holder
- an unlimited number of AltaGas Holding Limited Partnership No. 1 (LP1) class B limited partnership units which are exchangeable into trust units on a one for one basis. Prior to May 1, 2014 the exchange is at the option of the unitholder at any time, and at the option of the Trust should the number of LP1 units outstanding fall below 750,000. After May 1, 2014 the exchange is at the option of either the Trust or the unitholder.
- an unlimited number of AltaGas Holding Limited Partnership No. 2 (LP2) class B limited partnership units which are exchangeable into trust units on a one for one basis. Prior to May 1, 2009 the exchange is at the option of the unitholder at anytime, and at the option of the Trust should the number of LP2 units outstanding fall below 1,000,000. After May 1, 2009 the exchange is at the option of either the Trust or the unitholder.

Common shares issued and outstanding:

	Number	Amount
December 31, 2002	36,237,092	$ 175,326
Issued for cash on exercise of options	471,752	3,652
Issued for compensation	8,000	98
December 31, 2003	36,716,844	179,076
Common shares issued for cash on exercise of options	209,449	1,752
Common shares issued for compensation	2,000	39
Common shares issued on conversion of preferred shares	9,000,000	88,964
Common shares repurchased and cancelled on trust conversion	(45,928,293)	(269,831)
December 31, 2004	–	–

Preferred shares issued and outstanding:

December 31, 2002	9,000,000	88,964
December 31, 2003	9,000,000	88,964
Converted to common shares	(9,000,000)	(88,964)
December 31, 2004	–	–

Trust units issued and outstanding:

	Number	Amount
December 31, 2003	–	–
Units issued on conversion (net of $5.6 million of after tax conversion costs)	33,668,068	194,073
Units issued on public unit offering (net of $4.7 million of issuance costs)	4,730,000	83,760
Units issued on purchase of assets	993,789	18,961
Units issued for cash on exercise of options	1,022,127	9,638
Units issued under distribution reinvestment program	521,326	10,038
Units issued for exchangeable units	8,889,931	50,879
December 31, 2004	49,825,241	367,349

Exchangeable units issued and outstanding:

December 31, 2003	–	–
Issued by LP1 (net of conversion costs)	3,394,216	19,426
Issued by LP2 (net of conversion costs)	8,866,009	50,742
LP1 units redeemed for trust units	(23,922)	(137)
LP2 units redeemed for trust units	(8,866,009)	(50,742)
December 31, 2004	3,370,294	19,289
Issued and outstanding December 31, 2004	53,195,535	$386,638

The Trust has an employee unit option plan under which both employees and directors are eligible to receive grants. At December 31, 2004 3,800,000 units were reserved for issuance under the plan. To December 31, 2004 options granted under the plan generally had a term of 10 years to expiry and vested no longer than over a four year period. On May 1, 2004 subsequent to the establishment of the Trust all options granted were vested. There have been no options granted since May 1, 2004.

At December 31, 2004 outstanding options are exercisable at various dates to the year 2014 (2003 – 2013). Options outstanding under the plan have a weighted average exercise price of $9.02 (2003 – $8.74) and a weighted average remaining term of 7.44 years (2003 –7.21 years). As at December 31, 2004 the unexpensed fair value of unit option compensation cost associated with future periods was nil (2003 – $2.3 million).

Expiry date	Number of options	Exercise price
2009	10,900	$7.00
2010	8,000	$5.20
2011	146,075	$6.09 – 7.25
2012	92,250	$6.50 – 9.75
2013	61,386	$9.48 – 15.05
2014	30,800	$15.14 – 15.87
	349,411	

	2004		2003	
	Number of Options	Weighted Average Exercise Price	Number of Options	Weighted Average Exercise Price
Stock options outstanding, beginning of year	1,506,362	$ 8.74	1,670,676	$ 7.66
Granted	107,000	15.07	400,638	11.76
Exercised	(1,231,576)	9.25	(471,752)	7.74
Cancelled	(32,375)	7.24	(93,200)	7.47
Unit options outstanding, end of year	349,411	$ 9.02	1,506,362	$ 8.74
Exercisable at end of year	349,411	$ 9.02	622,974	$ 7.75

The basic number of units outstanding for the year ended December 31, 2004 was 49.4 million (December 31, 2003 – 45.5 million ASI shares) and the diluted number of units outstanding for the year ended December 31, 2004 was 50.2 million (December 31, 2003 – 45.9 million ASI shares).

15. COMMITMENTS

Future minimum lease payments under operating leases for office space, office equipment and automotive equipment are estimated as follows:

2005	$ 3,392
2006	3,039
2007	2,628
2008	145
2009	31
	$ 9,235

Under the terms of a 1997 long-term gas supply contract the Trust is committed to supply natural gas for prices ranging from $2.12/Mcf in 2004 to $2.40/Mcf by contract expiry in 2009. The Trust contracted with several producers to provide the volumes for the term of the 10 year contract. One of those producers defaulted in 1999 on its obligation under its gas supply contract, resulting in the delivery commitment for 2,845 Mcf/d being assumed by the Trust. The Trust owns natural gas reserves as a hedge against the obligation under this supply contract. The natural gas produced from these reserves is in excess of the commitment under the contract.

In addition to the production from its own reserves, in 1999 the Trust acquired a right to purchase natural gas from specific reserves for $0.05 per Mcf for the life of the reserves. The production from these reserves was 1,138 Mcf/d in 2004 (2003 – 1,407 Mcf/d) and also serves as a hedge against the commitment under the contract.

The Trust was a successful bidder for 100 megawatts of power capacity in the Alberta government's second phase of the Market Achievement Plan auction. As a result, the Trust entered into an energy contract (Genesee Energy Contract) with the Balancing Pool Administrator for the right and obligation to purchase power from 100 megawatts of power capacity at the EPCOR Generation Inc. operated Genesee power plant for a three year term commencing April 1, 2003. The Trust has an obligation to pay a competitively priced fixed monthly capacity charge for the power capacity under this power purchase arrangement.

16. INCOME TAXES

Taxation of the Trust

Payments received by the Trust in the form of interest, distributions or other income from its subsidiaries are taxable income to the Trust. The Trust is entitled to deduct for income tax purposes its costs and its distributions to unitholders and since it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future.

Taxation of the Operating Subsidiaries

Incorporated operating subsidiaries of the Trust are subject to tax in the same manner as any other corporation. Operating subsidiaries are generally not expected to pay significant taxes, with the exception of the Large Corporations Tax, either currently or in the foreseeable future under existing tax legislation. Subsidiaries of the Trust that operate under utility board regulation will incur and expense income tax annually on income earned.

Consolidated Tax Position

The tax provision recorded on the consolidated financial statements differs from the amount computed by applying the combined Canadian federal and provincial income tax statutory rates to income before tax as follows:

	2004	2003
Income before taxes – consolidated	$ 70,412	$ 61,482
Income from AltaGas Income Trust distributed to unitholders	(48,616)	–
Income before taxes – operating subsidiaries	21,796	61,482
Statutory income tax rate	38.87%	40.75%
Expected taxes at statutory rate	8,472	25,054
Add (deduct) the tax effect of:		
Resource allowance	(2,529)	(2,351)
Manufacturing and processing credit	(136)	(426)
Large Corporations Tax	1,129	1,179
Rate reductions applied to future income tax liabilities	(3,418)	(628)
Permanent differences between accounting and tax bases of assets and liabilities	527	(358)
Other	566	689
Income tax provision		
Current	7,715	10,587
Future	(3,104)	12,572
	$ 4,611	$ 23,159
Effective income tax rate	6.55%	37.67%

AltaGas' income taxes are calculated according to government tax laws and regulations which result in different values for certain assets and liabilities for income tax purposes than for financial statement purposes. The amount shown on the Consolidated Balance Sheets as future income tax assets and liabilities represents the net differences between tax values and book carrying values on the operating subsidiaries' balance sheets at substantively enacted tax rates. Generally accepted accounting principles require these future income tax

assets or liabilities to be recognized in the consolidated financial statements. In the case of AltaGas, these future income taxes are not expected to result in cash taxes being paid due to the expectation of continued future intercompany interest deductions at the operating subsidiary level.

As at December 31 future income taxes are comprised of the following:

	2004		2003	
	Assets	Liabilities	Assets	Liabilities
Capital assets	$ –	$ 29,492	$ –	$ 40,189
Net operating losses unused for tax purposes	208	–	208	(6,002)
Deferred debt charges	–	87	–	85
Share issue costs	–	(3,013)	–	(511)
Partnerships	–	28,890	–	28,426
Other	–	708	–	350
	$ 208	$ 56,164	$ 208	$ 62,537

Future income tax expense and future income tax assets and liabilities have not been recognized for the Trust's rate regulated natural gas distribution subsidiary. Unrecognized future income tax expense for the year ended December 31, 2004 is $0.9 million (2003 – $0.2 million). Unrecognized future income tax liabilities at December 31, 2004 are $7.4 million (2003 – $6.5 million).

17. NET CHANGE IN NON-CASH WORKING CAPITAL

The net change in the following non-cash working capital items increases (reduces) cash flows from operations as follows:

	2004	2003
Accounts receivable	$ (72,044)	$ 10,533
Inventory	1,629	1,891
Other current assets	961	(626)
Accounts payable and accrued liabilities	69,868	(2,439)
Distributions payable to unitholders	7,979	–
Customer deposits	26,550	–
Other current liabilities	6,336	460
Other	(205)	–
	41,074	9,819
Less increase in working capital from non-cash acquisition	585	–
Less decrease (increase) in capital costs payable	5,442	(3,527)
Add increase in distributions payable	(7,979)	–
Net change in non-cash working capital from operations	$ 39,122	$ 6,292

The following cash payments have been included in the determination of earnings:

	2004	2003
Interest paid	$ 19,809	$ 22,065
Income taxes paid	$ 11,436	$ 9,113

18. UNIT BASED COMPENSATION

AltaGas implemented a unit based compensation plan during 2004 which awards phantom units to certain employees. The phantom units have value if the Trust declares distributions during the vesting period. The value is further based on the level of the distributions declared and the trading price of the Trusts' units. The units vest on a graded vesting schedule. Total compensation expense recognized in 2004 under this plan was $1.1 million (2003 – nil).

Vesting date	Number of phantom units
2005	16,295
2006	16,295
2007	213,720
	246,310

19. PENSION PLANS AND RETIREMENT BENEFITS

Substantially all full-time employees of the Trust's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care. The other benefit plans are not funded.

Plan contributions in 2004 and 2003 were made in accordance with 2002 reports on the actuarial valuation for funding purposes. The next actuarial valuations for funding purposes must be no later than September 30, 2005.

	2004		2003	
	Pension Plans	Other Benefit Plans	Pension Plans	Other Benefit Plans
Accrued benefit obligation				
Balance, beginning of year	$ 11,656	$ 1,020	$ 9,300	$ 814
Experience loss	496	107	1,133	115
Current service cost	778	47	668	40
Interest cost	776	66	684	59
Benefits paid	(36)	(16)	(129)	(8)
Balance, end of year	13,670	1,224	11,656	1,020
Plan assets				
Fair value, beginning of year	9,792	–	8,241	–
Actual return on plan assets	1,596	–	871	–
Employer contributions	1,432	16	809	8
Benefits paid	(36)	(16)	(129)	(8)
Fair value, end of year	12,784	–	9,792	–
Funding deficit	(886)	(1,224)	(1,864)	(1,020)
Unamortized transitional obligation	419	331	467	361
Unamortized past service costs	138	–	171	–
Unamortized net actuarial loss	1,060	345	1,491	247
Accrued benefit asset (liability)	$ 731	$ (548)	$ 265	$ (412)

All of the individual plans included in the pension plans have funding deficits. The Salaried Employees' Pension Plan has a deficit of $0.7 million (2003 – $1.3 million); the Bargaining Unit Pension Plan has a deficit of $0.2 million (2003 – $0.6 million).

	2004		2003	
	Pension Plan Benefits	Other Benefit Plans	Pension Plan Benefits	Other Benefit Plans

Transitional obligations	48	30	48	30
Net periodic benefit plan costs recognized	$ 966	$ 152	$ 796	$ 133

The proportion of pension plan assets invested by type is as follows:

Canadian equity securities	39%
Foreign equity securities	25
Debt securities	35
Cash	1
	100%

20. RELATED PARTY TRANSACTIONS

On September 4, 2003 the Trust loaned $29.0 million to Taylor. The loan was interest bearing at prime plus one percent and was repaid on October 17, 2003. Interest earned by AltaGas on the loan was $0.2 million with fees of $0.4 million. On each of October 17, 2003 and August 19, 2004 the Trust purchased 1.6 million units of Taylor from Taylor's treasury. AltaGas paid $8.7 million and $10.6 million respectively for the investments.

On June 30, 2004 L.O.P. Inc. (LOP), an equity accounted investee, repaid the $2.3 million loan extended to it by the Trust. At the same time, the Trust sold its investment in LOP to LOP's majority shareholder for proceeds of $0.5 million. During 2003 AltaGas purchased maintenance services totaling $0.1 million from LOP. These transactions have been recorded at their exchange amounts.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

21. JOINT VENTURES

The Trust's proportionate interest in its partnership and joint venture arrangements is summarized as follows:

	2004	2003
Proportionate share of operating income		
Revenue	$ 194,609	$ 162,649
Expenses	156,123	117,030
	$ 38,486	$ 45,619
Proportionate share of net assets		
Current assets	$ 13,393	$ 17,027
Capital assets	54,119	53,076
Energy services arrangements and contracts	92,871	98,666
Investments and other assets	489	114
Current liabilities	(17,286)	(18,156)
	$ 143,586	$ 150,727
Proportionate share of cash flows		
Operating activities	$ 49,075	$ 54,961
Investing activities	(2,333)	(5,140)
Financing activities	(46,741)	(49,821)
	$ 1	$ -

22. SEGMENTED INFORMATION

AltaGas is a midstream energy trust with a portfolio of assets and services used to move energy from the source to the end user. Transactions between the reporting segments are recorded at fair value. The Trust has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

December 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment Elimination	Total
Revenue	$ 218,862	$ 630,412	$ 124,645	$ (114,700)	$ 859,219
Cost of sales	(53,985)	(570,485)	(93,991)	109,012	(609,449)

23. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation.

24. SUBSEQUENT EVENTS

On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million realizing a pre-tax gain of approximately $5.0 million. The sale reduces AltaGas' ownership in Taylor to 4.0 million units or 14.0 percent.

DIVIDENDS/DISTRIBUTIONS

On April 29, 2004 the Trust announced that it would commence monthly distributions of $0.15 for each trust unit and exchangeable unit on June 15, 2004 to holders of trust units and holders of exchangeable units. Prior to the conversion to a trust AltaGas Services Inc. paid quarterly cash dividends per fully paid common share and participating share in the capital stock of AltaGas Services Inc. from March 31, 2001. No dividends were paid on any shares of AltaGas Services Inc. from the date of its inception to the end of December 2000.

Distribution levels will be reviewed periodically by the Board of Directors giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements and the consolidated debt repayment requirements of the Trust. The Trust targets to pay out substantially all of its ongoing sustainable distributable cash flow through regular monthly distributions made to unitholders.

The following table summarizes the dividends paid by AltaGas Services Inc.

	2004	2003	2002	2001
First quarter	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second Quarter	n/a	0.08	0.06	0.03
Third quarter	n/a	0.11	0.08	0.06
Fourth quarter	n/a	0.11	0.08	0.06
	$ 0.11	$ 0.38	$ 0.28	$ 0.18

The following table summarizes the monthly cash distributions of the Trust.

Record Date	Payment Date	Distribution per Unit
May 25, 2004	June 15, 2004	$0.15
June 25, 2004	July 15, 2004	$0.15
July 26, 2004	August 16, 2004	$0.15
August 25, 2004	September 15, 2004	$0.15
September 27, 2004	October 15, 2004	$0.15
October 25, 2004	November 15, 2004	$0.15
November 25, 2004	December 15, 2004	$0.15
December 29, 2004	January 17, 2005	$0.15

Total 2004 cash dividends and distributions were $1.31 per (share) unit.

ALTAGAS INCOME TRUST

INSTRUMENT OF PROXY

FOR THE ANNUAL MEETING OF UNITHOLDERS

TO BE HELD ON APRIL 28, 2005

The undersigned holder of trust units of AltaGas Income Trust (the "**Trust**") hereby appoints David W. Cornhill, Chairman, Chief Executive Officer of AltaGas General Partner Inc. (the "**General Partner**"), of the City of Calgary, in the Province of Alberta, or, failing him, Patricia M. Newson, Chief Financial Officer of the General Partner, of the City of Calgary, in the Province of Alberta, or instead of either of the foregoing, _____, as proxyholder of the undersigned, with full power of substitution, to attend, act and vote for and on behalf of the undersigned at the annual meeting (the "**Meeting**") of holders of trust units and the special voting unit of the Trust ("**Unitholders**") to be held on Thursday, April 28, 2005 at 3:00 p.m. (Calgary time) at the Metropolitan Centre, 333 - 4th Avenue S.W., Calgary, Alberta and at any adjournment thereof, and on every ballot that may take place in consequence thereof to the same extent and with the same powers as if the undersigned were personally present at the Meeting with authority to vote at the said proxyholder's discretion, except as otherwise specified below.

Without limiting the general powers hereby conferred, the undersigned directs the said proxyholder to vote the trust units represented by this Instrument of Proxy in the following manner (check (√) the appropriate box):

1. **FOR** ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to direct Computershare Trust Company of Canada, as trustee of the Trust, to cause the election of those nominees described in the Management Information Circular of the Trust dated March 16, 2005 (the "**Information Circular**") as directors of the General Partner;

2. **FOR** ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to appoint Ernst & Young LLP as auditors of the Trust and to authorize the directors of the General Partner to fix Ernst & Young LLP's remuneration in that capacity; and

3. At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine.

This Instrument of Proxy is solicited on behalf of Computershare Trust Company of Canada in its capacity as trustee of the Trust (the "Trustee") by the General Partner. The trust units represented by this Instrument of Proxy will be voted and, where the Unitholder has specified a choice with respect to the above matters, will be voted as directed above or, if no direction is given, will be voted in favour of the above matters.

Each Unitholder has the right to appoint a proxyholder other than the persons designated above, who need not be a Unitholder, to attend and to act for and on behalf of such Unitholder at the Meeting. To exercise such right, the names of the persons designated on behalf of the Trustee by the General Partner should be crossed out and the name of the Unitholder's appointee should be legibly printed in the blank space provided.

THE UNDERSIGNED HEREBY REVOKES ANY PROXIES HERETOFORE GIVEN.

DATED this ___day of_____, 2005

_____

(signature of Unitholder)

_____

(name of Unitholder – please print)

NOTES:

1. **If the Unitholder is a corporation, its corporate seal must be affixed or it must be signed by an officer or attorney thereof duly authorized.**

2. This instrument of proxy must be dated and the signature hereon should be exactly the same as the name in which the trust units are registered. If the Instrument of Proxy is not dated in the above space, it is deemed to bear the date on which it is mailed by the person making the solicitation.

3. Persons signing as executors, administrators, trustees, etc., should so indicate and give their full title as such.

4. This Instrument of Proxy will not be valid and not be acted upon or voted unless it is completed as outlined herein and delivered to the attention of Computershare Trust Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario, M5J 2Y1 Attention: Proxy Department, no later than 5:00 p.m. (Calgary time) on the second business day before the date of the meeting or any adjournment thereof. A proxy is valid only at the Meeting in respect of which it is given or any adjournment of that Meeting.

VOTING INSTRUCTION FORM
(HOLDERS OF CLASS B LIMITED PARTNERSHIP UNITS)

FOR THE ANNUAL MEETING OF UNITHOLDERS OF ALTAGAS INCOME TRUST

TO BE HELD ON APRIL 28, 2005

The undersigned holder of Class B Limited Partnership Units of AltaGas Holding Limited Partnership No.1 (the "**Securityholder**"), as a beneficiary under that Voting and Exchange Trust Agreement as of May 1, 2004 among AltaGas Income Trust (the "**Trust**"), AltaGas Holding Limited Partnership No. 1, AltaGas Holding Limited Partnership No. 2 and Computershare Trust Company of Canada, as trustee, (the "**Voting Trustee**"), in respect of the voting rights to which the Securityholder is entitled pursuant to the Voting and Exchange Trust Agreement at the annual meeting (the "**Meeting**") of holders of trust units and the special voting unit of the Trust to be held on Thursday, April 28, 2005 at 3:00 p.m. (Calgary time) at the Metropolitan Centre, 333 - 4th Avenue S.W., Calgary, Alberta and at any adjournment thereof, and on every ballot that may take place in consequence thereof, hereby (**put an "X" on the line adjacent to the applicable one of the following three sections**):

___ 1. directs the Voting Trustee to appoint David W. Cornhill, Chairman and Chief Executive Officer of AltaGas General Partner Inc. (the "**General Partner**"), of the City of Calgary, in the Province of Alberta, or, failing him, Patricia M. Newson, Chief Financial Officer of the General Partner, of the City of Calgary, in the Province of Alberta, or instead of either of the foregoing, _____, as proxyholder of the Voting Trustee, with full power of substitution, to attend, act and exercise the voting rights for and on behalf of the Voting Trustee to the same extent and with the same powers as if the Voting Trustee were personally present at the meeting with authority to vote at the said proxyholder's discretion, except as otherwise specified below and directs the Voting Trustee to direct the said proxyholder to exercise the voting rights in the following manner (**check (√) the appropriate box**):

FOR ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to direct Computershare Trust Company of Canada, as trustee of the Trust, to cause the election of those nominees described in the Information Circular and Proxy Statement of the Trust dated March 16, 2005 (the "**Information Circular**") as directors of the General Partner;

FOR ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to appoint Ernst & Young LLP as auditors of the Trust and to authorize the directors of the General Partner to fix Ernst & Young LLP's remuneration; and

At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine; **or**

___ 2. directs the Voting Trustee to exercise the voting rights described above in the following manner (**check (√) the appropriate box**

FOR ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to direct Computershare Trust Company of Canada, as trustee of the Trust, to

cause the election of those nominees described in the Information Circular and Proxy Statement of the Trust dated March 16, 2005 (the "**Information Circular**") as directors of the General Partner;

FOR ☐ or **WITHHOLD FROM VOTING** ☐ (and, if no specification is made, FOR) passing an ordinary resolution to appoint Ernst & Young LLP as auditors of the Trust and to authorize the directors of the General Partner to fix Ernst & Young LLP's remuneration; and

At the discretion of the said proxyholders, upon any amendment or variation of the above matters or any other matter that may be properly brought before the Meeting or any adjournment thereof in such manner as such proxy, in such proxyholder's sole judgment, may determine; **or**

___ 3. directs the Voting Trustee to provide to the Securityholder, or _____, as the Securityholder's designee, as proxyholder of the Voting Trustee in respect of the voting rights, with full power of substitution, to attend, act and exercise the voting rights for and on behalf of the Voting Trustee to the same extent and with the same powers as if the Voting Trustee were personally present at the Meeting

This proxy in Section 1 and Section 2 of this Voting Instruction Form is solicited on behalf of Computershare Trust Company of Canada in its capacity as trustee of the Trust (the "Trustee") by the General Partner. The voting rights represented by this Voting Instruction Form will be exercised and, where the Securityholder has specified a choice with respect to the above matters, will be voted as directed above or, if no direction is given, will be voted in favour of the matters described in Section 1 and Section 2 above.

Each Securityholder has the right to direct the Voting Trustee to appoint the Securityholder or his/her designee (who need not be a holder of Class B Limited Partnership Units) as a proxyholder of the Voting Trustee in respect of the voting rights to which the Securityholder is entitled pursuant to the Voting and Exchange Trust Agreement at the Meeting rather than the persons designated in Section 1 above, to attend and to vote at the Meeting. To exercise that right, put an "X" on the line adjacent to Section 3 above and, if applicable, the name of the person designated by the Securityholder should be legibly printed in the blank space provided in that Section 3.

THE UNDERSIGNED HEREBY REVOKES ANY INSTRUCTIONS HERETOFORE GIVEN.

DATED this ___day of_____, 2005

_____

(signature of Securityholder)

_____

(name of Securityholder - please print)

NOTES:

1. **If the holder of the Class B Limited Partnership Units is a corporation, its corporate seal must be affixed or it must be signed by an officer or attorney thereof duly authorized.**

2. This Voting Instruction Form must be dated and the signature hereon should be exactly the same as the name in which the Class B Limited Partnership Units are registered. If the Voting Instruction Form is not dated in the above space, it is deemed to bear the date on which it is mailed by the person making the solicitation.

3. Persons signing as executors, administrators, trustees, etc., should so indicate and give their full title as such.

4. This Voting Instruction Form will not be valid and not be acted upon or voted unless it is completed as outlined herein and delivered to the attention of Computershare Trust Company of Canada at 600, 530-8th Avenue S.W., Calgary, Alberta T2P 3S8 Attention: Proxy Department, no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof. This Voting Instruction Form is valid only at the Meeting in respect of which it is given or any adjournment of that Meeting.

AltaGas

ALTAGAS INCOME TRUST

Notice of Meeting

and

Management Information Circular

for the

ANNUAL MEETING OF UNITHOLDERS

to be held on April 28, 2005

Dated March 16, 2005

AltaGas

ALTAGAS INCOME TRUST

March 16, 2005

Dear Unitholder:

Please accept this as my personal invitation for you to attend the first Annual Meeting of the unitholders of AltaGas Income Trust to be held on Thursday, April 28, 2005 at 3:00 p.m. (Calgary time) at the Metropolitan Conference Centre, 333 – 4th Avenue S.W., Calgary, Alberta.

The Notice of Meeting and Management Information Circular attached to this letter provide details as to the formal business items to be considered at the meeting. In addition to the formal business items, I will be presenting an overview of the Trust's results for the financial year ended December 31, 2004 and discussing the Trust's strategy for the future. The meeting is also an opportunity for you to:

(i) meet the board of directors of AltaGas General Partner Inc., the entity to which management of the business and affairs of the Trust has been delegated;

(ii) meet the senior executives of AltaGas Ltd., the entity to which the administration of the Trust has been delegated; and

(iii) learn more about the income trust that you and the other unitholders own.

If you are unable to attend the meeting in person, I encourage you to complete the enclosed form of proxy or, if applicable, voting instruction form and return it within the time frames indicated, so that your vote is counted at the meeting.

Information concerning the Trust's consolidated financial and operational performance in the financial year ended December 31, 2004 is presented in the enclosed Annual Report. Further information is available on the Trust's website at www.altagas.ca.

I appreciate your continued support of the Trust, and look forward to seeing you at the meeting.

Yours truly,

ALTAGAS INCOME TRUST, by its administrator, ALTAGAS LTD.

"David W. Cornhill"
David W. Cornhill
Chairman and Chief Executive Officer

AltaGas

ALTAGAS INCOME TRUST

NOTICE OF THE ANNUAL MEETING OF UNITHOLDERS TO BE HELD ON APRIL 28, 2005

NOTICE IS HEREBY GIVEN that the annual meeting (the "**Meeting**") of the holders ("**Unitholders**") of trust units and the special voting unit of AltaGas Income Trust (the "**Trust**") will be held at the Metropolitan Conference Centre, 333 – 4th Avenue S.W., Calgary, Alberta, on Thursday, April 28, 2005, at 3:00 p.m. (Calgary time) for the following purposes:

1. to receive the annual report of the directors of AltaGas General Partner Inc. (the "**General Partner**"), on behalf of the Trust, to the Unitholders and the consolidated financial statements of the Trust for the year ended December 31, 2004 and the auditors' report thereon;

2. to consider the nominees standing for election as directors of the General Partner and to direct Computershare Trust Company of Canada, as trustee of the Trust, to cause the election of the directors of the General Partner;

3. to appoint Ernst & Young LLP as auditors of the Trust and to authorize the directors of the General Partner to fix Ernst & Young LLP's remuneration in that capacity; and

4. to transact such other business as may properly be brought before the Meeting or any adjournment thereof.

Information relating to the matters to be brought before the Meeting is set forth in the Management Information Circular which accompanies this notice and which is expressly made a part of this notice.

DATED at Calgary, Alberta, as of the 16th day of March, 2005.

BY ORDER OF THE BOARD OF DIRECTORS OF ALTAGAS GENERAL PARTNER INC., for and on behalf of ALTAGAS INCOME TRUST

"David W. Cornhill"
David W. Cornhill
Chairman and Chief Executive Officer

Unitholders of record at the close of business on March 14, 2005 (the "Record Date"), will be entitled to receive notice of, and to attend and vote at, the Meeting. No Unitholder who becomes a Unitholder after the Record Date shall be entitled to attend or vote at the Meeting.

A Unitholder who is unable to attend the Meeting in person is requested to complete and sign the enclosed form of proxy and deliver it by regular mail to Computershare Trust Company of Canada, 100 University Ave., 9th Floor, Toronto, Ontario M5J 2Y1 (or to send it by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W, Calgary, Alberta, T2P 3S8). In order to be valid and acted upon at the Meeting, the form of proxy must be received no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or be deposited with the Chairman of the Meeting prior to its commencement.

Holders of Class B limited partnership units ("LP #1 B Units") in the capital of AltaGas Holding Limited Partnership No. 1 of record at the close of business on the Record Date will be entitled to receive notice of, and to attend and vote at the Meeting.

Holders of LP #1 B Units who are unable to attend the meeting in person are requested to complete and sign the enclosed Voting Instruction Form and deliver it by regular mail to Computershare Trust Company of Canada, 100 University Ave., 9th Floor, Toronto, Ontario M5J 2Y1 (or to send it by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W., Calgary, Alberta, T2P 3S8). In order to be valid and acted upon at the Meeting, the Voting Instruction Form must be received no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or be deposited with the Chairman of the Meeting prior to its commencement.

SCHEDULE A - STATEMENT OF GENERAL PARTNER'S GOVERNANCE PRACTICES 1

AltaGas

ALTAGAS INCOME TRUST
MANAGEMENT INFORMATION CIRCULAR

GENERAL PROXY INFORMATION

Solicitation of Proxies

This management information circular ("Information Circular") is furnished in connection with the solicitation of proxies on behalf of Computershare Trust Company of Canada (the "Trustee") in its capacity as trustee of AltaGas Income Trust (the "Trust") by AltaGas General Partner Inc. (the "General Partner") for use at the Annual Meeting (the "Meeting") of the holders ("Unitholders") of trust units ("Trust Units") and the Special Voting Unit (described below) of the Trust to be held at the Metropolitan Conference Centre, 333 – 4th Avenue S.W. , Calgary, Alberta, on Thursday, April 28, 2005, at 3:00 p.m. (Calgary time) and at any adjournments thereof for the purposes set out in the accompanying notice of meeting (the "Notice of Meeting"). Although it is expected that the solicitation of proxies will be primarily by mail, proxies may also be solicited personally or by telephone, facsimile or e-mail by regular employees of AltaGas Ltd. ("**AltaGas**"). Pursuant to National Instrument 54-101 *Communication with Beneficial Owners of Securities of a Reporting Issuer*, arrangements have been made with clearing agencies, brokerage houses and other financial intermediaries to forward proxy solicitation material to the beneficial owners of the Trust Units and the Exchangeable Units (as hereinafter defined). The cost of any such solicitation will be borne by the Trust. Information contained herein is given as of the date hereof unless otherwise specifically stated.

For the purpose of this Information Circular, unless the context otherwise requires, capitalized terms shall have the meanings ascribed to those terms in the declaration of trust dated as of March 26, 2004, between Christopher W. Nixon, the initial Unitholder, and the Trustee, as amended by a first supplemental indenture dated as of April 30, 2004 (the declaration of trust, as amended, being referred to herein as the "**Declaration of Trust**"). A copy of the Declaration of Trust is available to Unitholders from the head office of AltaGas on demand and upon payment of reasonable reproduction costs.

Appointment of Proxy

Unitholders who wish to vote their Trust Units should complete, sign and deliver by regular mail the enclosed form of proxy to the Trust's registrar and transfer agent, Computershare Trust Company of Canada ("**Computershare**"), 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1 Attention: Proxy Department (or send it by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W., Calgary, Alberta T2P 3S8). In order to be valid and acted upon at the Meeting, a form of proxy must be received no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or be deposited with the Chairman of the Meeting prior to the commencement thereof. By a resolution of the board of directors of the General Partner (the "**Board of Directors**"), the record date for the Meeting has been established as the close of business on Monday, March 14, 2005 (the "**Record Date**"). Only Unitholders of record as at the Record Date are entitled to receive notice of, and to attend and vote at, the Meeting. A Unitholder of record on the Record Date will be entitled to vote those Trust Units included in the list of Unitholders entitled to vote at the Meeting prepared as at the Record Date, even though the Unitholder may subsequently dispose of his or her Trust Units. No Unitholder who has become a Unitholder after the Record Date shall be entitled to attend or vote at the Meeting or any adjournment thereof.

The document appointing a proxy shall be in writing and shall be executed by the Unitholder or his attorney authorized in writing or, if the Unitholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized.

A Unitholder submitting a form of proxy has the right to appoint a person to represent him or her at the Meeting (who need not be a Unitholder) other than the persons designated in the form of proxy furnished on behalf of the Trustee by the General Partner. To exercise that right, the names of the persons designated on behalf of the Trustee by the General Partner should be crossed out and the name of the Unitholder's appointee should be legibly printed in the blank space provided. In addition, the Unitholder should notify the appointee of his or her appointment, obtain his or her consent to act as appointee and instruct him or her on how the Unitholder's Trust Units are to be voted.

Revocation of Proxy

A Unitholder who has submitted a form of proxy as directed hereunder may revoke it at any time prior to the exercise thereof. If a person who has given a proxy attends personally at the Meeting at which that proxy is to be voted, that person may revoke the proxy and vote in person. In addition to the revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing executed by the Unitholder or his attorney or authorized agent and deposited either at the office of the Trustee at 600, 530 – 8th Avenue S.W., Calgary, Alberta, T2P 3S8 at any time up to 5:00 p.m. (Calgary time) on the last business day before the date of the Meeting, or any adjournment thereof, or with the Chairman of the Meeting on the day of the Meeting or any adjournment thereof, in either case prior to its commencement, and upon either of those deposits, the proxy is revoked.

Exercise of Discretion by Proxy

The Trust Units represented by proxy will be voted on any ballot at the Meeting and, where the Unitholder specifies a choice with respect to any matter to be voted upon, those Trust Units shall be voted on or shall be withheld from voting on any ballot in accordance with the specification so made. **In the absence of any such specification, those Trust Units will be voted in favour of the proposed resolutions contained herein. The persons appointed under the form of proxy furnished on behalf of the Trustee by the General Partner are conferred with discretionary authority with respect to amendments or variations of those matters specified in the proxy and Notice of Meeting and as to other matters which may properly be brought before the Meeting. At the time of mailing of this Information Circular, neither the Trustee nor the General Partner know of any such amendment, variation or other matter.**

Notice to Beneficial Holders of Trust Units

The information set forth in this section is of significant importance to many Unitholders, as a substantial number of the Unitholders do not hold Trust Units in their own name. Unitholders who do not hold their Trust Units in their own name (referred to herein as "**Beneficial Unitholders**") should note that only proxies deposited by Unitholders whose names appear on the records of the Trust as the registered holders of Trust Units can be recognized and acted upon at the Meeting or any adjournment thereof. If Trust Units are listed in an account statement provided to a Unitholder by a broker, then in almost all cases those Trust Units will not be registered in the Unitholder's name on the records of the Trust. Those Trust Units will more likely be registered under the name of the Unitholder's broker or an agent of that broker. In Canada, the vast majority of those Trust Units are registered under the name of CDS & Co. (the registration name for The Canadian Depository for Securities Limited, which acts as nominee for many Canadian brokerage firms). Trust Units held by brokers or their nominees can only be voted (for or against resolutions) upon the instructions of the Beneficial Unitholder. Without specific instructions, the broker/nominees are prohibited from voting Trust Units for their clients. The Trust does not know for whose benefit the Trust Units registered in the name of CDS & Co., a broker or another nominee, are held.

Applicable regulatory policy requires intermediaries (such as brokers or other nominees) to seek voting instructions from Beneficial Unitholders in advance of Unitholders' meetings. Every intermediary/broker has its own mailing procedures and provides its own return instructions, which should be carefully followed by Beneficial Unitholders in order to ensure that their Trust Units are voted at the Meeting or any adjournment thereof. Often, the form of proxy supplied to a Beneficial Unitholder by its broker is identical to the form of proxy provided to registered Unitholders; however, its purpose is limited to instructing the registered Unitholder how to vote on behalf of the Beneficial Unitholder. Beneficial Unitholders who wish to appear in person and vote at the Meeting should be appointed as their own representatives at the Meeting in accordance with the directions of their intermediaries. The majority of brokers now delegate responsibility for obtaining instructions from clients to ADP Investor

Communications Inc. (formerly Independent Investor Communications Corporation) ("**ADP**"). ADP typically mails a scannable voting instruction form in lieu of the form of proxy. The Beneficial Unitholder is requested to complete and return the voting instruction form to ADP by mail or facsimile. Alternatively, the Beneficial Unitholder can call a toll-free telephone number to vote the Trust Units held by the Beneficial Unitholder or access ADP's dedicated voting website at www.proxyvotecanada.com to deliver the Beneficial Unitholder's voting instructions. ADP then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of Trust Units to be represented at the Meeting or any adjournment thereof. A Beneficial Unitholder receiving a voting instruction form cannot use that voting instruction form to vote Trust Units directly at the Meeting or any adjournment thereof as the voting instruction form must be returned as directed by ADP well in advance of the Meeting or any adjournment thereof, as the case may be, in order to have the Trust Units voted.

VOTING SECURITIES AND PRINCIPAL HOLDERS THEREOF

Trust Units

The Trust is authorized to issue an unlimited number of Trust Units. As at the Record Date, 51,318,201 Trust Units were issued and outstanding. Unitholders of record are entitled to notice of and to attend at the Meeting, in person or by proxy, and to one vote per Trust Unit held on any ballot thereat. All votes on matters to be brought before the Meeting that require approval by a special resolution shall be conducted by a poll.

When any Trust Unit is held jointly by several persons, any one of them may vote at the Meeting in person or by proxy in respect of such Trust Unit, but if more than one of them shall be present at the Meeting in person or by proxy, and such joint owners or their proxies so present disagree as to any vote to be cast, such vote purporting to be executed by or on behalf of a Unitholder shall be deemed valid unless challenged at or prior to its exercise, and the burden of proving invalidity shall rest on the challenger.

Exchangeable Units

In accordance with a Voting and Exchange Trust Agreement dated May 1, 2004 among the Trust, AltaGas Holding Limited Partnership No. 1 ("**AltaGas LP #1**"), AltaGas Holding Limited Partnership No. 2 ("**AltaGas LP #2**") and Computershare Trust Company of Canada, in its capacity as voting and exchange trustee (the "**Voting and Exchange Trustee**"), the Trust issued a special voting unit (the "**Special Voting Unit**") to the Voting and Exchange Trustee for the benefit of the holders (other than the Trust and its affiliates) of the Class B limited partnership units of AltaGas LP #1 (the "**LP #1 B Units**") and the Class B limited partnership units of AltaGas LP #2 (the "**LP #2 B Units**" and together with the LP #1 B Units referred to collectively as the "**Exchangeable Units**"). The Special Voting Unit carries a number of votes exercisable at the Meeting equal to the product of the number of Exchangeable Units outstanding on the Record Date multiplied by the number of votes to which a holder of one Trust Unit is entitled (the "**Equivalent Vote Amount**").

Each holder of an Exchangeable Unit on the Record Date is entitled to direct the Voting and Exchange Trustee to exercise the part of the Equivalent Vote Amount attached to the Special Voting Unit corresponding to the Exchangeable Units held by that holder. Alternatively, that holder is entitled to direct the Voting and Exchange Trustee to give a proxy to that holder or his designee to personally exercise those votes or to a designated agent or other representative of the General Partner. **The Voting and Exchange Trustee will exercise each vote attached to the Special Voting Unit only as directed by the holder of an Exchangeable Unit and, in the absence of instructions from a holder as to voting, will not exercise those votes.** Only holders of Exchangeable Units of record on the Record Date are entitled to receive notice of, and to direct the Voting and Exchange Trustee regarding voting at, the Meeting. Holders of Exchangeable Units of record on the Record Date will be entitled to direct the voting of the corresponding votes attached to the Special Voting Unit to the extent of the rights attached to the Exchangeable Units included in the list(s) of those holders prepared as at the Record Date, even though any such holder may subsequently dispose of those Exchangeable Units.

The Voting and Exchange Trustee has sent copies of the Notice of Meeting to the holders of the Exchangeable Units, together with copies of this Information Circular and the related meeting materials and a statement as to the manner in which the holder may instruct the Voting and Exchange Trustee to exercise the votes attaching to the Special Voting Unit. Such instructions may be delivered by regular mail to Computershare Trust

Company of Canada, 100 University Avenue, 9th Floor, Toronto, Ontario M5J 2Y1 Attention: Proxy Department (or sent by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W., Calgary, Alberta, T2P 3S8). In order to be valid and acted upon those instructions must be received by the Voting and Exchange Trustee not less than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or deposited with the Chairman of the Meeting prior to the commencement thereof.

A holder of Exchangeable Units who has submitted instructions to the Voting and Exchange Trustee with respect to the exercise of votes attached to the Special Voting Unit may revoke those instructions at any time prior to the exercise thereof. In addition to the revocation in any other manner permitted by law, voting instructions provided to the Voting and Exchange Trustee may be revoked by instrument in writing executed by the holder of the Exchangeable Units or his attorney or authorized agent and deposited with the Voting and Exchange Trustee at 600, 530 – 8th Avenue S.W., Calgary, Alberta, T2P 3S8 at any time up to 5:00 p.m. (Calgary time) on the last business day before the date of the Meeting, or any adjournment thereof, or with the Chairman of the Meeting on the day of the Meeting or any adjournment thereof, in either case prior to its commencement, and upon either of those deposits, the voting instructions are revoked.

As at the Record Date, AltaGas LP #1 had 2,217,341 issued and outstanding LP #1 B Units exchangeable in the aggregate into 2,217,341 Trust Units. As at the Record Date, AltaGas LP #2 had no issued and outstanding LP #2 B Units.

Principal Holders of Trust Units and Exchangeable Units

To the best of the knowledge of the Board of Directors, no person or company beneficially owns, directly or indirectly, or controls or directs, Trust Units and Exchangeable Units carrying in aggregate ten percent (10%) or more of the votes attached to all of the issued and outstanding Trust Units and the Special Voting Unit.

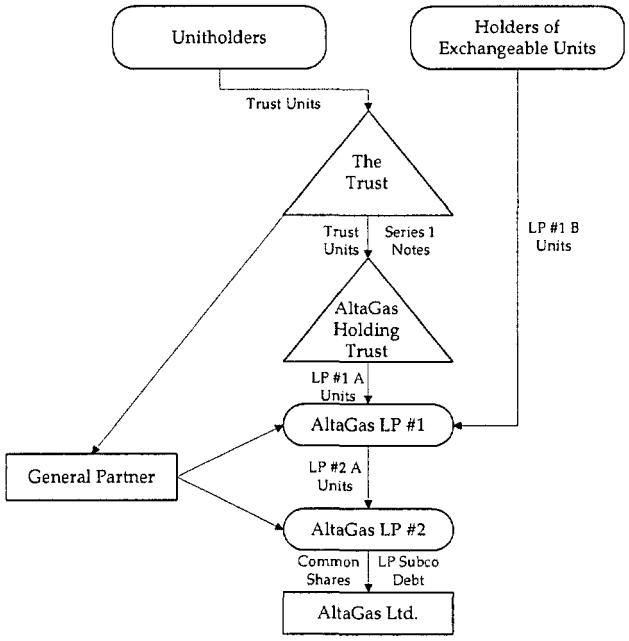
QUORUM FOR MEETING

At the Meeting, a quorum shall consist of two or more individuals present in person either holding personally or representing as proxies not less in aggregate than five percent (5%) of the votes attached to all issued and outstanding Trust Units and the Special Voting Unit. If a quorum is not present at the Meeting within 30 minutes after the time fixed for the holding of the Meeting, the Meeting shall stand adjourned to such day being not less than seven days later and to such place and time as may be determined by the Chairman of the Meeting. At that adjourned Meeting, the Unitholders present either personally or by proxy shall constitute a quorum.

APPROVAL REQUIREMENTS

The specific resolutions that Unitholders will be asked to approve at the Meeting include resolutions regarding the election of the directors of the General Partner and the appointment of the auditors of the Trust.

In order to be effective, the foregoing resolutions require the approval of more than fifty percent (50%) of the votes cast in respect of those resolutions by or on behalf of Unitholders and the holders of Exchangeable Units present in person or represented by proxy at the Meeting.



BACKGROUND TO AND ADMINISTRATION OF THE TRUST

Background

Pursuant to a plan of arrangement (the "**Arrangement**") under the *Canada Business Corporations Act* involving AltaGas Services Inc. ("**AltaGas Services**"), its securityholders and certain other parties, AltaGas Services' business was re-organized into the Trust effective May 1, 2004 (the "**Effective Date**") and AltaGas Services amalgamated with certain affiliates and continued as AltaGas Ltd. ("**AltaGas**"). Generally, holders of common shares ("**Common Shares**") of AltaGas Services prior to the Arrangement received Trust Units on a

one-for-one basis, while taxable holders of Common Shares were able to elect to receive a combination of Trust Units and Exchangeable Units.

The following diagram sets out the simplified organizational structure of the Trust, the General Partner and AltaGas following the Arrangement:

Under applicable securities legislation, the Trust is required to provide certain information with respect to the Trust. The Trust, however, does not carry on business, does not have officers and is entirely dependent for its results on the performance of its direct and indirect subsidiaries, including without limitation AltaGas. The Trust's purpose is solely to hold investments as described below under "Administration". The General Partner and AltaGas are each responsible for administering different aspects of the Trust in accordance with the Delegation Agreement and the Administration Agreement, respectively, as described below. Consequently, in addition to information relating to the Trust, this Information Circular includes information relating to the General Partner, the Board of Directors and AltaGas.

Administration

The Trust is an unincorporated open-ended trust established under the laws of the Province of Alberta by the Declaration of Trust. The Trust was established to, among other things, acquire, invest in, hold, transfer, dispose of and otherwise deal with securities of, or issued by, AltaGas Holding Trust ("**Holding Trust**"), the General Partner, AltaGas, or any associate or affiliate thereof, or of, or issued by, any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, electricity or other forms of energy and related businesses.

The Declaration of Trust provides that the assets and affairs of the Trust are subject to the power, control and authority of the Trustee. Without in any way limiting the general power and authority over the assets and affairs of the Trust granted to the Trustee, the Trustee has the specific powers and authorities to do the following or to cause the same to be done, among other things: (a) supervise the activities and manage the investments and conduct the affairs of the Trust; (b) maintain records and provide reports to Unitholders; (c) effect payment of distributions

to Unitholders; (d) invest funds of the Trust; (e) where reasonably required, engage or employ on behalf of the Trust any persons as agents, representatives, administrators, employees or independent contractors (including, without limitation, investment advisors, registrars, transfer agents, underwriters, accountants, lawyers, appraisers, brokers or otherwise) in one or more capacities; (f) arrange for the procedures regarding the limitations on non-resident ownership; (g) except as prohibited by applicable law, delegate any of the powers and duties of the Trustee in relation to the Trust as provided in the Declaration of Trust or otherwise to any one or more agents, representatives, administrators, officers, employees, independent contractors or other persons (including but not limited to the General Partner or AltaGas) without liability to the Trustee, except as provided in the Declaration of Trust, and may, from time to time, with the consent of the General Partner, change the administrator of the Trust; (h) enter into or perform the obligations of the Trust under and in respect of any and all agreements to which the Trust becomes a party; (i) without limit as to amount, issue any type of debt securities or convertible debt securities and borrow money or incur any other form of indebtedness for the purpose of carrying out the purposes of the Trust or for other expenses incurred in connection with the Trust and enter into hedging arrangements with respect thereto; (j) guarantee the obligations of any person controlled, directly or indirectly, by the Trust and any subsidiary of any of them and any other subsidiary of the Trust pursuant to any debt for borrowed money or other obligation incurred by such entity in good faith for the purpose of carrying on its business, and pledging securities and other property owned by the Trust as security for such guarantee as directed by the General Partner; (k) grant security, in any form, over any or all of the Trust's assets to secure any or all of the obligations of the Trust including its obligations under any guarantee as directed by the General Partner; and (l) do all such other acts and things as are incidental to or related to the foregoing, and exercise all powers which are necessary or useful to carry on the purpose and activities of the Trust, to promote any of the purposes for which the Trust is formed and to carry out the provisions of the Declaration of Trust.

As specifically authorized by the Declaration of Trust, the Trustee has delegated to AltaGas pursuant to the Administration Agreement (as defined below) the power, authority and responsibility of the Trustee in respect of those matters referred to in the Administration Agreement. See below under "*Administration Agreement*". In addition, the Trustee has delegated to the General Partner, pursuant to the Delegation Agreement (as defined below), the power, authority and responsibility of the Trustee in respect of those matters referred to in the Delegation Agreement. See below under "*Delegation Agreement*".

Administration Agreement

Generally, AltaGas provides administrative and support services to, and is responsible for the management and general administration of, the affairs of the Trust, pursuant to an administration agreement dated May 1, 2004 among, AltaGas, the Trust, Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 (the "**Administration Agreement**"), including the power and authority to: (a) undertake any matters required by the terms of the Declaration of Trust to be performed by the Trustee, which are not otherwise delegated therein, pursuant to the Delegation Agreement or the Administration Agreement and generally provide all other services as may be necessary or as requested by the Trustee for the administration of the Trust; (b) prepare all returns, filings and documents and make all determinations necessary for the discharge of the Trustee's obligations under the Declaration of Trust; (c) authorize and pay on behalf of the Trust of operation expenses incurred on behalf of the Trust and the negotiation of contracts with third party providers of services (including, but not limited to, transfer agents, legal counsel, auditors and printers); (d) subject to the direction and approval of the General Partner, deal with banks and other institutional lenders; (e) subject to the approval of the General Partner, compute, determine and make on the Trust's behalf distributions to Trust Unitholders of distributions properly payable by the Trust and administer on behalf of the Trust such distribution reinvestment plans and other similar plans as the Trust may establish from time to time; (f) ensure compliance by the Trust with, and enforcing all rights of the Trust under, all agreements entered into by the Trust, including the Voting and Exchange Trust Agreement; (g) ensure compliance by the Trust with all applicable securities legislation including without limitation, continuous disclosure obligations; (h) subject to the approval of the General Partner, prepare on behalf of the Trust any circular or other disclosure document required under applicable securities legislation with respect to an offer to acquire securities of another person or in response to an offer to purchase Trust Units; (i) provide investor relations services to the Trust; (j) call and hold all annual and/or special meetings of Unitholders pursuant to the Declaration of Trust and subject to the approval of the General Partner, prepare and arrange for the distribution of all materials (including notices of meetings and information circulars) in respect thereof; and (k) subject to the approval of the General Partner, prepare and provide or cause to be provided to Unitholders on a timely basis all information to which Unitholders

are entitled under the Declaration of Trust and under applicable laws, including information or proxy circulars, annual information forms, prospectuses, quarterly and annual reports, notices, financial reports and tax information relating to the Trust.

AltaGas provides similar administrative services to the foregoing to each of Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2 pursuant to the Administration Agreement, modified as necessary to take into account the nature of the entity and the terms, conditions and limitations of the constating documents of Holding Trust, the General Partner, AltaGas LP #1 and AltaGas LP #2, respectively.

Delegation Agreement

In addition to the delegation of duties to AltaGas pursuant to the Administration Agreement, the Trustee has also delegated certain of its other powers and duties to the General Partner pursuant to the terms of a delegation agreement dated May 1, 2004 among the Trust, the General Partner and the Trustee (the "**Delegation Agreement**").

Pursuant to the terms of the Delegation Agreement, the Trustee has delegated to the General Partner the responsibility for, among other things: (a) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the determination of distributions (including the designation of any capital gain) to Unitholders; (b) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the redemption of Trust Units; (c) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to ensuring compliance with the restrictions contained in the Declaration of Trust with respect to non-resident ownership of Trust Units; (d) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to the direct or indirect acquisition of Trust assets by the Trust and the negotiation of agreements in respect thereof; (e) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to any offering by the Trust; (f) undertaking responsibility to make all directions and approve the negotiation and securing of bank financing or refinancing of one or more credit or debt facilities, hedging or swap facilities or other ancillary facilities in respect of the Trust or any entity in which the Trust holds any direct or indirect interest; (g) approving on behalf of the Trust the annual audited and interim unaudited financial statements of the Trust, as well as relevant tax information; (h) approving on behalf of the Trust all information to which Unitholders are entitled under the Declaration of Trust and under applicable laws; (i) undertaking and performing, by and through the Audit Committee of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf or in relation to the Trust, as is required by applicable law or desirable of an Audit Committee of the Trust; (j) undertaking and performing, by and through committees of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf of or in relation to the Trust, as is required by applicable law or desirable of the applicable committee of the governing body of the Trust; (k) undertaking all matters in connection with any take-over bid, merger, amalgamation, arrangement, reorganization, recapitalization, purchase or repurchase of any securities or assets of any person, any business combination, or any other similar transaction involving the Trust; and (l) doing all such other acts and things whatsoever as may be incidental to or required in connection with the foregoing.

MATTERS TO BE CONSIDERED AT THE MEETING

Financial Statements

At the Meeting, the consolidated financial statements of the Trust for the year ended December 31, 2004 and the auditors' report thereon will be presented. These consolidated financial statements and Management's Discussion & Analysis relating thereto are included in the 2004 Annual Report of the Trust.

Election of Directors

The Board of Directors currently consists of eight members, all of whom are elected annually. It is proposed that the number of directors to be elected be fixed at eight and that the Trustee be directed to cause the persons named below to be elected as directors of the General Partner.

The following persons are proposed by the General Partner on behalf of the Trustee as the nominees for election as directors of the General Partner to serve until the next annual meeting of Unitholders or until their successors are duly elected or appointed. If any vacancies occur in the slate of those nominees because any nominee is unable to serve or will not serve, the discretionary authority conferred by the proxies will be exercised to grant approval to the Trustee to vote for the election of any other person or persons nominated by the General Partner on behalf of the Trustee. The names of the nominees for election as directors, their municipalities of residence, principal occupations, year in which each became a director of the General Partner and numbers of Trust Units and Exchangeable Units, if any, beneficially owned or over which control or direction is exercised by those persons, as at December 31, 2004, are as follows:

Name of Proposed Nominee, Position with the General Partner and AltaGas and Municipality of Residence	Principal Occupation during the Last Five Years	Director Since	Units Beneficially Owned or Controlled[1][2]
David W. Cornhill[3] Chairman and Chief Executive Officer of AltaGas and the General Partner Calgary, Alberta, Canada	Chairman and Chief Executive Officer of AltaGas Services from 2003 to 2004; Prior thereto President and Chief Executive Officer of AltaGas Services	May 1, 2004 Director of AltaGas Services from March 28, 1994 to April 30, 2004	1,097,538 Trust Units 100,000 Trust Options
John B. Breen[4][5][6] Director of the General Partner Toronto, Ontario, Canada	Managing Partner of MWI & Partners (merchant banking fund)	May 1, 2004 Director of AltaGas Services from May 27, 1999 to April 30, 2004	51,543 Trust Units[6] Nil Trust Options
Allan L. Edgeworth [4] Director of the General Partner Calgary, Alberta, Canada	President, ALE Energy Inc. from January 2005; President and CEO, Alliance Pipeline 2001 to 2004; Executive Vice President and COO, Alliance Pipeline 1998 to 2001	March 2, 2005	Nil Trust Units Nil Trust Options
Denis C. Fonteyne[3][4][7][8] Director of the General Partner Calgary, Alberta, Canada	Natural gas industry consultant since 1997	May 1, 2004 Director of AltaGas Services from September 1, 1998 to April 30, 2004	36,300 Trust Units Nil Trust Options
Daryl H. Gilbert[4][5] Director of the General Partner Calgary, Alberta, Canada	Businessman from January 2005; prior thereto President and Chief Executive Officer of Gilbert Laustsen Jung Associates Ltd. (an engineering consulting firm)	May 1, 2004 Director of AltaGas Services from May 4, 2000 to April 30, 2004	36,800 Trust Units Nil Trust Options
Robert B. Hodgins [4] Director of the General Partner Calgary, Alberta, Canada	Investor from December, 2004; Chief Financial Officer, Pengrowth Energy Trust 2002 to 2004; Vice President and Treasurer Canadian Pacific Limited 1998 to 2002; Chief Financial Officer, TransCanada Pipelines, 1993 to 1998	March 2, 2005	Nil Trust Units Nil Trust Options
Myron F. Kanik[3][4][7][8][9] Director of the General Partner Calgary, Alberta, Canada	President, Kanik and Associates Ltd. (an energy industry consulting company), since 1999	May 1, 2004 Director of AltaGas Services from June 1, 2001 to April 30, 2004	30,000 Trust Units 30,000 Trust Options
David F. Mackie[4][5][7][8] Director of the General Partner Houston, Texas, United States of America	Energy industry consultant and investor	May 1, 2004 Director of AltaGas Services from January 12, 1995 to April 30, 2004	1,077,630 Trust Units Nil Trust Options

Notes:

(1) References to Trust Units in this column includes both Trust Units and Exchangeable Units beneficially owned, directly or indirectly, or over which control or direction is exercised by each nominee for director. Certain of the directors have also been granted Trust Options. See "*Executive Compensation*" and "*Report on Employee and Executive Compensation*".
(2) The nominees for directors of the General Partner hold approximately 4.38% of the total issued and outstanding Trust Units.
(3) Member of the Environment and Safety Committee.
(4) Unrelated directors (see Guideline 3 in Schedule A).
(5) Member of the Audit Committee.
(6) Mr. Breen is managing partner of MWI & Partners, which owned 1,945,714 Trust Units at December 31, 2004. MWI & Partners sold all of their Trust Units on January 24, 2005.
(7) Member of the Human Resources and Compensation Committee.
(8) Member of the Governance Committee.
(9) Lead director.

Appointment of Auditors

Unless it is specified in a proxy that the Unitholder withholds approval for the Trustee to cause the appointment of Ernst & Young LLP ("**E&Y**") as auditors of the Trust, the persons named in the enclosed form of proxy intend to grant approval to the General Partner on behalf of the Trustee to cause the appointment of E&Y as auditors of the Trust, to hold office until the next annual meeting of Unitholders following the Meeting, with remuneration to be determined by the General Partner. Fees paid to E&Y during 2004 totalled $592,331, of which $157,762 pertained to non-audit matters.

E&Y were the auditors of AltaGas Services (the predecessor to AltaGas) since April 30, 1997 and became the auditors of the Trust on the Effective Date of the Arrangement.

Representatives of E&Y will be present at the Meeting and will have the opportunity to make a statement and to respond to appropriate questions.

INTEREST OF CERTAIN PERSONS OR COMPANIES IN MATTERS TO BE ACTED UPON

Other than as set forth herein, the General Partner and AltaGas are not aware of any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, of any current or nominee member of the Board of Directors or executive officer of AltaGas, respectively, at any time since the Effective Date of the Arrangement, or any associate or affiliate of any of the foregoing persons, in any matter to be acted upon other than the election of directors or the appointment of auditors.

INTEREST OF INFORMED PERSONS IN MATERIAL TRANSACTIONS

The General Partner and AltaGas are not aware of any material interest, direct or indirect, of any informed person of the Trust, any nominee director of the General Partner, or any associate or affiliate of any informed person or nominee director, in any transaction since the Effective Date of the Arrangement, or in any proposed transaction, that has materially affected or would materially affect the Trust or any of its subsidiaries. Information in respect of the interest of any informed persons of AltaGas Services for the period from January 1, 2004 to the Effective Date of the Arrangement in material transactions, including the Arrangement itself, is contained in the information circular and proxy statement of AltaGas Services dated March 26, 2004 (the "**Circular**"), which Circular is expressly incorporated by reference herein. The Circular is available under AltaGas' documents on the System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com and upon request, a Unitholder will promptly be provided a copy thereof free of charge.

For the purposes of this Information Circular an "informed person" means, in the context of the Trust, a director or executive officer of any subsidiary of the Trust, including without limitation the General Partner, Holding Trust, AltaGas LP #1, AltaGas LP #2 and AltaGas.

INDEBTEDNESS OF DIRECTORS AND EXECUTIVE OFFICERS

The General Partner and AltaGas are not aware of any individuals who are, or who at any time during the most recently completed financial year were, a director of the General Partner or executive officer of AltaGas, a proposed nominee for election as a director of the General Partner, or an associate of any of those directors, executive officers or proposed nominees, who are, or have been at any time since the Effective Date of the Arrangement, indebted to the Trust or any of its subsidiaries or whose indebtedness to another entity is, or at any time since the Effective Date of the Arrangement has been, the subject of a guarantee, support agreement, letter of credit or other similar arrangement or understanding provided by the Trust or any of its subsidiaries.

TRUST GOVERNANCE

General

Pursuant to the Delegation Agreement, the Board of Directors of the General Partner is responsible for managing the business and affairs of the Trust generally and believes that good governance improves performance and benefits all Unitholders. The Board of Directors is therefore committed to the highest standards of governance. In addition, pursuant to a unanimous shareholder agreement dated May 1, 2004 among the General Partner, AltaGas LP #1, AltaGas LP #2 and AltaGas (the "**Unanimous Shareholder Agreement**"), AltaGas has granted to the General Partner the power, among other things, of the directors of AltaGas to appoint the executive officers of AltaGas and to manage, or to supervise the management of, the business and affairs of AltaGas.

Since the Trust Units are listed on the Toronto Stock Exchange (the "**TSX**"), the Trust is subject to the policies of the TSX's Company Manual, which includes guidelines for effective corporate governance (the "**TSX Guidelines**"). The TSX Guidelines deal with matters such as the constitution and independence of boards, the functioning of boards, and the effectiveness and education of board members. The General Partner on behalf of the Trust is required under the TSX Guidelines to disclose its corporate governance system on an annual basis with reference to each of the TSX Guidelines. In addition, the General Partner has structured its governance to comply with other applicable legislation and policies, including National Policy 41-201 – *Income Trusts and Other Indirect Offerings* and Multilateral Instrument 52-110 – *Audit Committees* ("**MI 52-110**"). **Attached as "Schedule A - Statement of General Partner's Governance Practices" to this Information Circular is a description of the General Partner's corporate governance practices with specific reference to the TSX Guidelines and MI 52-110.** The Board of Directors believes that the General Partner's governance policies and practices fully comply with the recommendations set forth in the TSX Guidelines and the requirements of MI 52-110. In addition, the General Partner stays abreast of legislative and other policy initiatives pertaining to corporate governance matters and proactively seeks to adjust its corporate governance to address such potential requirements. In that respect, the General Partner is monitoring proposed National Policy 58-201 - *Corporate Governance Guidelines* ("**Proposed NP 58-201**") and proposed National Instrument 58-101 - *Disclosure of Corporate Governance Practices* ("**Proposed NI 58-101**") and the requirements that each would potentially impose on both the General Partner's corporate governance practices and the disclosure thereof, and will ensure that it is in full compliance with both Proposed NP 58-201 and Proposed NI 58-101 once their implementation has been confirmed.

The Board of Directors discharges its responsibilities directly and through its committees. At regularly scheduled meetings, the Board of Directors and management of AltaGas discuss the issues relevant to the Trust's strategy and business. Currently, the Board of Directors meets a minimum of five times per year and each scheduled Board of Directors' meeting is followed by a meeting of the directors without the presence of management of AltaGas. The nature of the business discussed and conducted by the Board of Directors at any particular meeting is dependent on the then-current state of the Trust's business and the opportunities and risks that the Trust faces at that time. However, every Board of Directors' meeting includes a review of the Trust's consolidated financial and operational status and performance and a report from any committees that have met since the last board meeting.

The General Partner does not provide formal education programs for new directors, but does provide such orientation and information as individual directors may request. All directors, notwithstanding the manner in which they were nominated, are required to act in the best interests of the General Partner. Of the current members of the Board of Directors of the General Partner, all such directors, with the exception of Mr. Cornhill, the Chief Executive Officer of the General Partner and AltaGas, may be considered unrelated.

Board Committees

A majority of the members of the Board of Directors of the General Partner are "unrelated directors" within the meaning of the TSX Guidelines.

The Board of Directors of the General Partner has in place appropriate structures and procedures to ensure that it functions independently of management (which, for greater certainty, shall include management of both the General Partner and AltaGas). In addition, the Governance Committee (as discussed below) provides an oversight role and monitors its effectiveness.

The limits of management's responsibilities are clearly defined by the Board of Directors of the General Partner. This is accomplished both by specifically identifying the roles and responsibilities of the Chief Executive Officer and Chief Financial Officer of the General Partner and specifying that all material decisions relating to the business and operations of the General Partner and AltaGas are to be made by the Board of Directors or a committee thereof.

Committees

The Board of Directors has established four committees: the Audit Committee, the Governance Committee, the Environment and Safety Committee and the Human Resources and Compensation Committee. All of the members of the Audit Committee, the Governance Committee and the Human Resources and Compensation Committee are unrelated directors. A majority of members of the Environment and Safety Committee are unrelated directors.

Pursuant to the Unanimous Shareholder Agreement, the committees of the Board of Directors of the General Partner have authority over both the General Partner and AltaGas on those matters covered by their respective mandates.

Audit Committee

The Board of Directors has developed written terms of reference outlining the Audit Committee's roles and responsibilities and provides appropriate guidance to Audit Committee members as to their duties. These terms of reference are reviewed annually by the Board of Directors. The Audit Committee reviews the annual and interim financial statements of the Trust and makes recommendations to the Board of Directors with respect to those statements. The Audit Committee also reviews the nature and scope of the annual audit as proposed by the auditors and management, and the adequacy of the internal accounting control procedures and systems within AltaGas. The Audit Committee is responsible for ensuring that management has implemented an effective system of internal control and has oversight responsibility for management reporting on internal control.

The Audit Committee meets with the Trust's auditors regularly, independent of management, and has direct communication channels with the Trust's external auditors to discuss and review specific issues as appropriate.

The Audit Committee is currently comprised of John B. Breen, Daryl H. Gilbert and David F. Mackie, all of whom are unrelated directors. Daryl H. Gilbert is the chair of the Audit Committee.

Governance Committee

The Governance Committee is responsible for the development of the overall governance of the Trust and its affiliates; a continuing assessment of corporate governance matters; and making recommendations to the Board of Directors regarding the Trust's approach to corporate governance.

The Governance Committee is currently comprised of Denis C. Fonteyne, Myron F. Kanik and David F. Mackie, all of whom are unrelated directors. Myron F. Kanik is the chair of the committee and the Lead Director.

Environment and Safety Committee

The Environment and Safety Committee monitors and makes recommendations with respect to the environment, health and safety policies, practices and procedures of the Trust's affiliates, including AltaGas and its subsidiaries. The committee has established an environmental risk management system and monitors its operation through regular reports.

The Environment and Safety Committee is currently comprised of David W. Cornhill, Denis C. Fonteyne and Myron F. Kanik, of whom Messrs. Fonteyne and Kanik are unrelated directors. Denis C. Fonteyne is the chair of the committee.

Human Resources and Compensation Committee

The mandate of the Human Resources and Compensation Committee includes developing appropriate compensation policies for the senior management of AltaGas and evaluating senior management performance. These responsibilities include reporting and making recommendations to the Board of Directors for their consideration and approval.

The Human Resources and Compensation Committee is currently comprised of Denis C. Fonteyne, Myron F. Kanik and David F. Mackie, all of whom are unrelated directors. Myron F. Kanik is the chair of the committee.

EXECUTIVE COMPENSATION

As indicated above under "*Background to and Administration of the Trust*", the Trust has no management personnel, as the management and administration of the Trust has been delegated to the General Partner and AltaGas, respectively. Accordingly, the following provides information on compensation paid to AltaGas' executive officers. As described under "*Report on Employee and Executive Compensation*", compensation of AltaGas' executive officers, as with all of AltaGas' employees, includes short-term and long-term compensation with fixed and variable components designed to recognize and reward individual performance and provide an industry-competitive level of compensation.

For the purposes of this section, "**executive officer**" means the chair and any vice-chair of the Board of Directors of the General Partner; the president; any vice president in charge of a principal business unit, division or function such as sales, finance or production; any officer of any subsidiary of the Trust, including AltaGas or of a subsidiary of AltaGas; and any other person who performed a policy-making function for any subsidiary of the Trust, including AltaGas. A "**Named Executive Officer**" means, collectively:

(a) the Chief Executive Officer ("**CEO**") of the General Partner and of AltaGas;

(b) the Chief Financial Officer ("**CFO**") of the General Partner and of AltaGas;

(c) AltaGas' three most highly compensated executive officers other than the CEO and CFO who were serving as executive officers at the end of the most recently completed financial year and whose respective total salary and bonus exceeded $150,000; and

(d) any other individuals for whom disclosure would have been provided under (c) but for the fact that they were not serving as an officer of AltaGas at the end of the most recently completed financial year.

The following table sets forth information concerning the compensation paid by AltaGas to its Named Executive Officers for the three most recently completed financial years. **Prior to the Effective Date of the Arrangement the following individuals were Named Executive Officers of AltaGas Services. As a result, information in respect of the Named Executive Officers for those prior periods is in relation to their capacity as executive officers of that predecessor entity.**

		Annual Compensation			Long Term Compensation			
					Awards		Payouts	
Name and Principal Position	Year Ended Dec 31	Salary ($)	Bonus ($)	Other Annual Compen-sation[1] ($)	Securities Under Options/SARs Granted (#)	Restricted Shares or Restricted Share Units ($)	Long Term Incentive Plan Payouts ($)	All Other Compensation[4] ($)
David W. Cornhill Chairman of the Board and CEO	2004	415,000	725,000	-	54,652[3]	-	-	454,018[5]
	2003	392,500	180,000	-	-	-	-	38,465

	2002	161,000	78,909	-	16,000[2]	-	-	-

Notes:

(1) Other than as indicated above, the value of other annual compensation was no greater than the lesser of $50,000 and 10 percent (10%) of the total annual salary and bonus of each Named Executive Officer in each financial year.

(2) Trust Units under Trust Unit Option Plan.

(3) See discussion of the Mid-Term Incentive Plan ("MTIP") in more detail below under ***"Executive Compensation – Mid-Term Incentive Plan".***

(4) AltaGas makes contributions under the Employee Unit Purchase Savings Plan and the Group RRSP. These plans are described in more detail below under ***"Executive Compensation - Employee Unit Purchase Savings Plan"*** and ***"Executive Compensation - Pension Plan"***, respectively.

(5) Includes amounts paid in 2004 regarding a change of control under Employment Agreements with David W. Cornhill, Gary R. Holden, Patricia M. Newson and Dennis A. Dawson. The Employment Agreements and the retention arrangements required as a result of the change of control are described in more detail below under ***"Executive Compensation – Employment Agreements"*** and ***"Retention of Employees on Change of Control".***

(6) Gary Holden was appointed President and Chief Operating Officer of AltaGas Services effective April 1, 2003.

Employment Agreements

AltaGas Services Inc. was a party to an employment agreement with each of David W. Cornhill, AltaGas' Chairman and Chief Executive Officer; Gary R. Holden, AltaGas' President and Chief Operating Officer; Patricia M. Newson, AltaGas' Senior Vice-President, Finance and Chief Financial Officer; and Dennis A. Dawson, AltaGas' Vice-President, General Counsel and Corporate Secretary (collectively, the "**Employment Agreements**").

The Employment Agreement with Mr. Cornhill commenced on March 31, 2003 and superceded and replaced an earlier Employment Agreement dated May 12, 1999. The Employment Agreement with Mr. Holden commenced on April 1, 2003. Mr. Cornhill's and Mr. Holden's Employment Agreements were to continue indefinitely unless terminated in accordance with the applicable Employment Agreement. The Employment Agreement with each of Ms. Newson and Mr. Dawson commenced on September 1, 1999 and were to continue indefinitely thereafter unless terminated in accordance with the respective Employment Agreement.

The Employment Agreements did not set a salary; rather, the salary for each of these executive officers was set by the board of AltaGas Services after consideration of the recommendation of the Human Resources and Compensation Committee.

The Employment Agreements with Mr. Cornhill and Mr. Holden provided for termination by AltaGas Services for just cause or in the event of the permanent disability of the officer, and were to terminate automatically in the event of the death of the officer. The Employment Agreements also provided for termination by AltaGas Services upon the giving of notice and the payment by AltaGas Services of an amount (the "**Retirement Allowance**") equal to the sum of (i) 24 times the gross monthly base salary paid to the executive officer in the last full month of employment; (ii) two times the annual base salary multiplied by the annual target bonus percentage; and (iii) a cash amount equal to the value of the benefit entitlements for a two year period.

If at any time during the term of the Employment Agreements with Mr. Cornhill and Mr. Holden there was a change of control (as defined below), the officer was entitled, at any time after 6 months but before 12 months, in the case of Mr. Cornhill or 9 months in the case of Mr. Holden, after the effective date of such change of control, to terminate his employment with AltaGas Services by the giving of 60 days' notice to that effect. In that event, the officer was to be entitled to the Retirement Allowance, provided that the first element of Mr. Cornhill's Retirement Allowance was to increase to an amount equal to the sum of (i) 30 months of compensation calculated using the gross monthly base salary paid to Mr. Cornhill in the last full month of employment; (ii) two times the product of the annual base salary at the time the change of control occurs multiplied by the annual target bonus percentage; and (iii) a cash amount equal to the value of benefit entitlements for a 30 month period. "Change of control" includes the acquisition of control by any means and "control" means the power to direct or cause the direction of the management and policies of AltaGas Services; provided that a reverse take-over of AltaGas Services shall not constitute a change of control so long as more than one-half of the members of the board of AltaGas Services immediately prior to the reverse take-over constitute more than one-half of the board of directors of the other company involved in the reverse take-over of AltaGas Services following the reverse take-over.

Mr. Cornhill was entitled to terminate his employment with AltaGas Services Inc. by giving 6 months notice to that effect. In this event, Mr. Cornhill was to be entitled to receive the Retirement Allowance.

The Employment Agreements with Ms. Newson and Mr. Dawson provided for termination by AltaGas Services for just cause or in the event of the permanent disability of the executive officer, and were terminated automatically in the event of the death of the executive officer. The Employment Agreements also provided for termination by AltaGas Services upon the giving of notice and the payment by AltaGas Services of an amount (the "**Retirement Allowance**") equal to two times the sum of (i) 12 times the gross monthly base salary paid to the executive officer in the last full month of employment; (ii) the gross amount of any bonuses accrued in the last full year of employment; and (iii) the value of the benefit entitlements for a one year period.

If at any time during the term of the Employment Agreements with Ms. Newson and Mr. Dawson there was a change of control (as defined below), the executive officer was entitled, at any time within 180 days after the

effective date of such change of control, to terminate his or her employment with AltaGas Services by the giving of 60 days notice to that effect. In that event, the executive officer was to be entitled to the Retirement Allowance. "Change of control" includes the acquisition of control by any means and "control" means the power to direct or cause the direction of the management and policies of AltaGas Services; provided that a reverse take-over of AltaGas Services shall not constitute a change of control so long as more than one-half of the members of the AltaGas Services immediately prior to the reverse take-over constitute more than one-half of the board of directors of the other company involved in the reverse take-over of AltaGas Services following the reverse take-over.

Other than pursuant to the Employment Agreements, there was no plan or arrangement in respect of compensation received or that may be received by executive officers in the most recently completed financial year with a view to compensating those officers in the event of termination of their employment or a change of responsibilities following a change in control.

Retention of Employees on Change of Control

The reorganization of the business of AltaGas Services into the Trust pursuant to the Arrangement constituted a change of control under the Employment Agreements.

As a result of that change of control each of Mr. Cornhill, Mr. Holden, Ms. Newson and Mr. Dawson were entitled to terminate their employment with AltaGas and receive the Retirement Allowance respectively payable to them in that event. In order to avoid the loss of these valued employees and their extensive knowledge of AltaGas, AltaGas entered into agreements with each of these executive officers pursuant to which they waived their rights to terminate their employment with AltaGas on the basis of that change of control. In addition each of those executive officers agreed on May 1, 2004 to continue their employment with AltaGas after the completion of the Arrangement in exchange for retention payments equal to their entitlement under their respective Employment Agreements. The payments were structured in the form of performance-vested units ("**PUs**") and 4 equal cash installments over a 21 month period on each of July 31, 2004, January 31, 2005, July 31, 2005 and January 31, 2006.

The total amount of the retention payments payable to each of these executive officers is equal to the Retirement Allowances that would have been payable to the applicable executive officer under the executive officer's Employment Agreement as a result of the change of control. The total amount of the retention payments payable, including the value of the PUs at the date of grant, to each of the executive officers is, respectively: David W. Cornhill, $1,837,101; Gary R. Holden, $857,540; Patricia M. Newson, $950,490; and Dennis A. Dawson, $699,375. The executive officers must be employed by AltaGas on the instalment payment date to receive the instalment payment and must be employed by AltaGas on March 2, 2007 to have received the full amounts of the payments and the PUs. The PUs are subject to performance vesting criteria as discussed in ***"Executive Compensation – Mid-Term Incentive Plan"***.

Finally the Employment Agreements with these executive officers were amended and restated effective May 1, 2004 so that those agreements for the most part have similar terms and conditions. Each of the amended and restated Employment Agreements is effective May 1, 2004. The terms of those agreements continue indefinitely. The base salaries provided in those agreements for each of those executive officers are indicated in the Annual Compensation table provided above.

The definition of change of control in each of the amended and restated employment contracts was modified to reflect that given the organization structure of the Trust depicted in the "*Background to and Administration of the Trust – Background*" section of this Information Circular a change of control could occur by acquiring control of the shares of AltaGas or any of the entities above AltaGas in the structure.

Otherwise the termination provisions under the amended and restated Employment Agreement for Mr. Cornhill and Mr. Holden were essentially unchanged from those indicated above that were applicable before the amendment and restatement of their respective Employment Agreements. The termination provisions under the amended and restated Employment Agreements for Ms. Newson and Mr. Dawson were revised so that they are now substantially the same as indicated above for Mr. Holden.

Short Term Incentive Plan

All executive officers and employees of AltaGas participate in the Short Term Incentive Plan. Under the Short Term Incentive Plan, AltaGas pays bonuses annually following the fiscal year end. In order to reward individual performance, eligibility for compensation under the Short Term Incentive Plan is linked to individual, team and corporate performance. The more senior the position in the organization, the greater the weighting towards corporate measures.

Team and individual performance for each employee are assessed annually against objectives set at the beginning of each year. Team performance objectives include, for example, business segment results such as return on investment or operating income. Individual performance objectives include, for example, pre-determined individual targets.

Corporate performance is measured based on consolidated financial results weighted 50% on return on equity and 50% on earnings per unit against a predetermined target for each set at the beginning of each year.

Mid-Term Incentive Plan

AltaGas has adopted a mid-term incentive plan ("**MTIP**") for directors, officers and employees. The purpose of the MTIP is to link a portion of the at-risk compensation to the achievement of AltaGas' and the Trust's performance targets and to thereby promote the attraction, motivation and retention of highly qualified individuals.

The incentive bonus compensation contemplated under the MTIP will be granted in the form of both time-vested restricted units ("**RUs**") and performance-restricted units ("**PUs**"). Unless otherwise determined by the Human Resources and Compensation Committee, the RUs will vest as to one-third per year over a three year period commencing with the year of grant, contingent upon AltaGas and the Trust achieving a threshold level of performance during each year of the vesting period. The PUs will vest at the end of a three-year period commencing with the year of grant, contingent upon AltaGas and the Trust achieving a threshold level of performance during the three-year vesting period.

The Human Resources and Compensation Committee of the Board of Directors of the General Partner will determine in its sole discretion the appropriate performance vesting criteria for the purpose of the RU and PU aspects of the plan. That authority has been delegated to the General Partner pursuant to the Unanimous Shareholder Agreement.

The MTIP functions as follows:

(a) the Board of Directors approves individual grants under the MTIP that are a function of the extent to which individual performance targets were achieved and the level of total compensation provided to similarly placed and qualified individuals in AltaGas and comparable-sized entities;

(b) following the determination of an individual's grant, the cash value of the grant is converted to phantom whole units (split evenly between RUs and PUs unless the Board of Directors determines otherwise) equal to the number of whole Trust Units that such individual's grant would have been able to acquire at the date of grant, based on the fair market value ("**FMV**") of the Trust Units. For that purpose, the FMV of the Trust Units is equal to the average of the closing prices of the Trust Units on the TSX (or if the Trust Units are not then listed on the TSX then such other exchange upon which the Trust Units are listed) for the immediately preceding 20 trading days prior to the date of grant;

(c) the RUs and PUs are tracked during the applicable vesting period and distributions on a Trust Unit during that period are deemed to be paid on the dates of distribution on each PU and RU and reinvested to acquire more phantom whole units and accrue to the benefit of that individual in the accounts maintained for that individual, to be paid to the individual if and to the extent vesting occurs; and

(d) upon the vesting of RUs or PUs, and contingent upon the applicable performance criteria being achieved, AltaGas has the option to pay out the RUs or PUs (including the additional units acquired on reinvestment of the accrued distributions in respect thereof), as the case may be, in cash or in Trust Units equivalent in value acquired by the plan administrator in the open market.

The aggregate number of RUs and PUs held at December 31, 2004, the market value of the RUs and PUs at their respective award dates and their vesting schedules are as follows:

Name	Securities Under Options/SARS Granted (#)	Percent of Total Options/SARS Granted to Employees in Financial Year	Exercise Price or Base Price ($/Security)[1]	Market Value of Securities Underlying Options/SARS on the Date of Grant ($/Security)
David W. Cornhill	32,719[2]	18.66%	-	$17.03
	21,932[3]	44.86%	-	$17.03
Gary R. Holden	49,973[2]	28.50%	-	$17.03
	9,689[3]	19.82%	-	$17.03
Patricia M. Newson	19,971[2]	11.39%	-	$17.03
	8,808[3]	18.02%	-	$21.45
	20,000[4]	66.67%	-	$17.03
Marshal L. Thompson	10,863[2]	6.20%	-	$17.03
	5,000[4]	16.67%	-	$21.45
Dennis A. Dawson	12,676[2]	7.23%	-	$17.03
	4,463[3]	9.13%	-	$17.03

Notes:

(1) The base price varies with the market value of the Trust Units in the open market.
(2) PUs: Vesting date is March 2, 2007.
(3) RUs: Vesting as to one third on each of March 2, 2005, March 2, 2006 and March 2, 2007;
(4) PUs: Vesting date is November 10, 2007.

Trust Unit Option Plan

AltaGas adopted a trust unit option plan (the "**Trust Unit Option Plan**") in connection with the Arrangement as a continuing form of long-term variable compensation incentive for directors, officers, employees, consultants and other personnel of the Trust and any of its subsidiaries, including AltaGas. As part of the Arrangement, existing option holders exchanged vested and unexercised options to acquire common shares of AltaGas Services ("**Options**") and unvested Options, for options to acquire Trust Units ("**Trust Options**") issued under the Trust Unit Option Plan. The Board of Directors accelerated the vesting of those Trust Options following the Arrangement to provide for immediate vesting. With the introduction of the MTIP, it is not intended that the Trust Unit Option Plan be the primary form of long-term variable compensation for AltaGas. Should any grants be made under the Trust Unit Option Plan, the quantum and granting of any additional Trust Options will be related to individual performance and used as incentives to attract, retain and motivate a highly qualified staff. Factors considered in granting new Trust Options and the terms of those Trust Options will include the extent to which

individual performance targets were achieved and the level of Trust Options granted to similarly placed and qualified individuals in AltaGas and comparable corporations.

There were no Trust Options granted to Named Executive Officers in the financial year ended December 31, 2004.

The following table shows the aggregate number of Trust Units acquired on exercise of Trust Options (or if prior to the Effective Date of the Arrangement, Common Shares on exercise of Options) during the financial year ended December 31, 2004, the value realized upon exercise of the Options, the number of unexercised Trust Options held at year-end and the year-end value of the unexercised Trust Options for Trust Options held by Named Executive Officers.

Name	Securities Acquired on Exercise (#)	Aggregate Value Realized[1] ($)	Unexercised Options/SARs at Fiscal Year-End Exercisable / Unexercisable (#/#)	Value of Unexercised in-the-Money Options/SARS at Fiscal Year-End[2] Exercisable / Unexercisable ($/$)
David W. Cornhill	69,500	$808,895.00	100,000 / -	$1,480,000.00 / -
Gary R. Holden	100,000	$875,000.00	- / -	- / -
Patricia M. Newson	133,800	$1,362,438.00	- / -	- / -
Marshal L. Thompson	66,349	$560,444.98	- / -	- / -
Dennis A. Dawson	39,000	$379,280.00	42,150 / -	$677,559.00 / -

Notes:

(1) For the purpose of calculating the aggregate value realized, the exercise price of each Trust Option exercised was subtracted from the closing trading price for the Trust Units (or prior to the Effective Date of the Arrangement, the Common Shares), as the case may be, on the TSX on the day on which the Trust Options or Options were exercised, and the resulting value was multiplied by the number of Trust Units or Common Shares obtained on exercise of Trust Options or Options. Note that all Trust Units or Common Shares obtained on exercise of Trust Options or Options may not have been sold, so that these values may not have been actually realized by the optionees.

(2) For the purpose of calculating the in-the-money values of the Trust Options, the exercise price of each Trust Option was subtracted from the closing price of the Trust Units on the TSX on December 31, 2004, the last trading day in AltaGas' financial year ended December 31, 2004, which was $23.15.

Employee Unit Purchase Savings Plan

AltaGas implemented an Employee Share Purchase Savings Plan effective in 2000. All employees of AltaGas are eligible to participate. Employees can contribute up to ten percent (10%) of their base pay into the savings plan. AltaGas will match employee contributions up to a maximum of two and one-half percent (2.5%) of base pay for those employees with up to three years of service; three and three-quarters percent (3.75%) of base salary for those employees with three to six years of service; and five percent (5%) of base pay for those employees with more than six years of service. Employee contributions can be invested in Trust Units, a short-term investment fund or a combination of such investments. AltaGas' contributions are invested in Trust Units.

Pension Plan

AltaGas does not have a pension plan for executive officers or employees other than those at AltaGas Utilities described below. AltaGas coordinates a group (the "**Group RRSP**") registered retirement savings plan

("**RRSP**") whereby employee contributions into their self-directed RRSPs will be matched by AltaGas at a rate of 80% of the employee's contribution, to a maximum of 4.8% of base pay. Substantially all full-time employees at AltaGas Utilities are members of one of two defined benefit non-contributory pension plans.

Long Term Incentive Plans

Other than the MTIP, the Trust Unit Option Plan, the Short Term Incentive Plan, the Employee Unit Purchase Savings Plan and the Group RRSP, AltaGas does not have any plans which provide compensation intended to serve as an incentive to Named Executive Officers for performance to occur over a period longer than one financial year.

Other Compensation

Other than as herein set forth, AltaGas did not pay any additional compensation to its executive officers in the financial year ended December 31, 2004.

Trust Unit Ownership Guideline for Officers

In recognition of the importance of ensuring an alignment of financial interests of officers with those of Unitholders, AltaGas has adopted Trust Unit ownership guidelines for officers of AltaGas effective January 1, 2004.

Under the guidelines, incumbents in the following officer positions will be expected to make reasonable efforts to achieve targeted Trust Unit ownership levels within a five-year period commencing on the later of January 1, 2004 or upon the date of formal appointment as an officer of AltaGas.

Officer	Targeted Ownership (# of Trust Units)	Actual Trust Units held as at Fiscal Year-End (held directly or indirectly)[1]
David W. Cornhill Chairman of the Board of Directors and Chief Executive Officer	120,000	1,097,538
Gary R. Holden President and Chief Operating Officer	50,000	100,000
Patricia M. Newson Senior Vice President and Chief Financial Officer	50,000	307,793
Marshal L. Thompson Vice President Business Development	25,000	27,316
Dennis A. Dawson Vice President, General Counsel and Corporate Secretary	20,000	44,420
Kent A. Stout Vice President Corporate Resources	20,000	11,940

Note:

(1) For purposes of administering AltaGas' Trust Unit Ownership guidelines, unvested RUs and PUs count toward Trust Unit ownership, but are not included in these totals. With the inclusion of RUs and PUs, all officers of AltaGas were at or very near the targeted levels of Trust Unit ownership at December 31, 2004, four years ahead of the target deadline established by the Board of Directors.

Other officers of AltaGas have a targeted Trust Unit ownership level of 15,000 Trust Units.

The Human Resources and Compensation Committee will periodically review share holding levels to monitor the progress individual officers are making towards their targeted ownership levels and to encourage officers to meet and maintain those levels.

Report on Employee and Executive Compensation

The Human Resources and Compensation Committee

The mandate of the Human Resources and Compensation Committee (the "**HR Committee**") includes developing appropriate compensation policies for the senior management of AltaGas, including AltaGas' Mid-Term Incentive Plan and Trust Unit Option Plan, and evaluating senior management performance. Following review of data and discussion by members of the HR Committee, recommendations are made by the HR Committee to the Board of Directors for their consideration and approval. In all cases, the Board of Directors has acted upon HR Committee recommendations without modification in any material way. The HR Committee meets at least quarterly to fulfill its mandate.

The HR Committee is currently comprised of Denis C. Fonteyne, Myron F. Kanik and David F. Mackie, all of whom are unrelated directors. Myron F. Kanik is chair of the committee. None of the members of the committee was an officer or employee of AltaGas or any of its subsidiaries in the most recently completed financial year; was formerly an officer of AltaGas or any of its subsidiaries; or had or has any relationship that requires disclosure under the headings "*Indebtedness of Directors and Executive Officers*" or "*Interest of Informed Persons in Material Transactions*" in this Information Circular; was an executive officer of AltaGas and also served as a member of the compensation committee (or equivalent) of another issuer, one of whose executive officers served on the HR Committee; was an executive officer of AltaGas and also served as a director of another issuer, one of whose executive officers served on the HR Committee; or was an executive officer of AltaGas and also served as a member of the compensation committee (or equivalent) of another issuer, one of whose executive officers served as a director of the General Partner.

Compensation Policy

Overview

The philosophy of the Board of Directors is that if AltaGas does well, the employees will also do well and will be rewarded through cash bonuses, increases in long-term variable compensation, such as Trust Option and mid-term incentive awards, additional long-term variable compensation awards or combinations of any or all of the foregoing. The goal of the HR Committee in making compensation recommendations is to recognize and reward individual performance as well as to provide a competitive industry level of compensation, taking into consideration the individual's experience and performance and the financial performance of the Trust and AltaGas.

AltaGas' human resources department reviews industry compensation information provided by consultants and compares its level of overall compensation with those of comparably-sized trusts and companies. A summary of this information is provided to the HR Committee to assist in approving AltaGas' overall compensation policy and the compensation to be paid, especially to the senior officers. The HR Committee also periodically independently retains external consultants to review compensation matters. Comparable trusts and corporations are chosen based on their being in the oil and gas industry. Comparable positions are identified based on publicly available information on such corporations.

The HR Committee views total compensation as a linked strategy towards achieving overall performance targets and has designed a total compensation package of short-term and long-term compensation with fixed and variable compensation components. Currently the compensation program for employees of AltaGas is comprised of salary, benefits and the Short Term Incentive Plan by way of short-term compensation; and the Trust Unit Option Plan, the Mid-Term Incentive Plan, the Employee Unit Purchase Savings Plan and the Group RRSP by way of long-term compensation.

AltaGas emphasizes fair annual fixed and variable compensation to provide an immediate incentive for short-term performance. A lesser emphasis is placed on longer-term compensation, the focus of which is longer-term commitment by AltaGas' officers and employees.

Annual Salary

Annual salary is intended to provide a competitive rate of compensation and recognize the skills, competencies and level of responsibility of employees. Generally, the HR Committee targets base salaries at levels

approximating those holding similar positions in comparably-sized companies in the industry (as outlined above) and hopes to achieve targeted total compensation levels through other fixed and variable compensation components.

Short Term Incentive Plan

AltaGas implemented a Short Term Incentive Plan for permanently employed executive officers and employees of AltaGas to provide annual cash bonuses based on individual, team and overall performance. The operation of this plan is outlined under "*Executive Compensation - Short Term Incentive Plan*".

Pursuant the Arrangement AltaGas Services' business was re-organized into the Trust on the Effective Date, necessitating a change in the performance indicators to take into account the period from January 1, 2004 to the Effective Date of the Arrangement plus the period from the Effective Date of the Arrangement to the financial year ended December 31, 2004. Accordingly, the corporate performance indicators under the Short Term Incentive Plan in respect of the entire 2004 year were return on equity of 15.65% and earnings of $1.33 per Trust Unit, compared with, respectively, 2003 results of return on equity of 10.98% and earnings of $0.84 per share. See also "***Report on Employee and Executive Compensation - Performance Graph***" for changes in the cumulative Unitholder return of AltaGas over time and as compared with key industry indicators.

No awards were made to any Named Executive Officer under the Short Term Incentive Plan in cases where the Named Executive Officer did not meet any specific performance criteria.

Mid-Term Incentive Plan

The Mid-Term Incentive Plan, is an additional form of long-term variable compensation incentive. The quantum and granting of units under the MTIP is related to individual performance and is used to attract, retain and motivate a highly qualified staff. Factors considered in granting RUs and PUs include the extent to which individual performance targets are achieved and the level of RUs and PUs granted to similarly placed and qualified individuals in AltaGas.

Trust Options

AltaGas uses Options as a form of long-term variable compensation incentive. The quantum and granting of Options is related to individual performance and is used as an incentive to attract, retain and motivate a highly qualified staff. Factors considered in granting new Trust Options and the terms of those Trust Options include the extent to which individual performance targets were achieved and the level of Trust Options granted to similarly placed and qualified individuals in AltaGas and the comparative trusts and corporations discussed above. Outstanding Trust Options are not considered in granting new options.

Employee Unit Purchase Savings Plan

The Employee Share Purchase Savings Plan was implemented by AltaGas in 2000 to encourage share ownership by employees, as a long-term incentive and to ensure AltaGas' compensation was competitive in the oil and gas industry. The Employee Share Purchase Savings Plan was changed to an Employee Unit Purchase Savings Plan from and after the Effective Date. All employees of AltaGas are eligible to participate.

Group RRSP

The Group RRSP was implemented by AltaGas as the primary long-term retirement savings plan. All employees of AltaGas are eligible to participate.

Chief Executive Officer Compensation

The HR Committee has the responsibility for reviewing AltaGas' compensation policies. The HR Committee makes recommendations to the Board of Directors as to remuneration for the Chief Executive Officer.

The policy of the HR Committee with respect to compensation for the Chief Executive Officer is to set his base salary, total cash compensation (which includes short term-incentives) and total direct compensation (which includes long-term incentives) at approximately the median among public trusts and companies in the Canadian oil and gas industry of comparable size and complexity. A comparator group of peer companies was initially developed

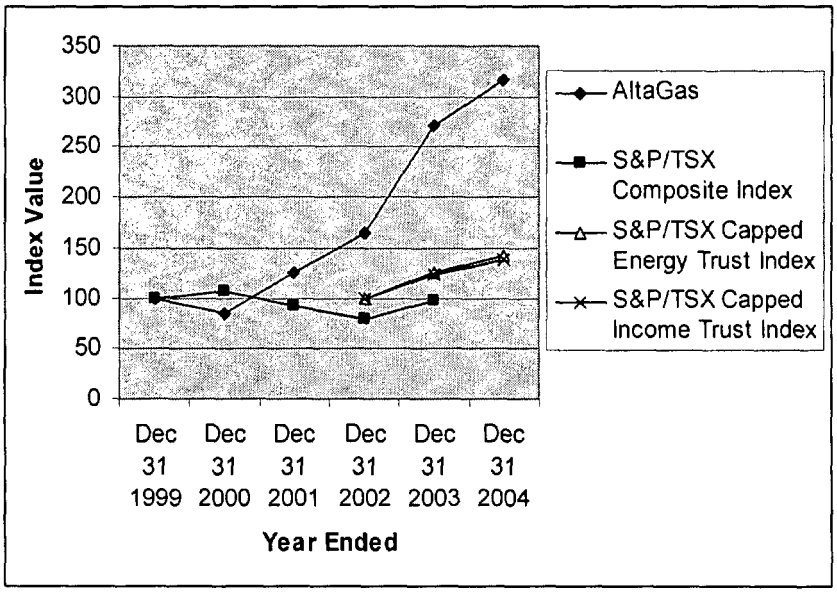
in 2001 based on those industry compensation survey participants whose revenues or assets were within 50% and 200% of those of AltaGas. The peer group composition is reviewed annually to ensure that it continues to provide a reasonable basis for comparison.

The HR Committee considers among other things, data from industry compensation surveys and the overall performance of AltaGas and the Trust, including return on equity ("**ROE**"), earnings per share or Trust Unit ("**EPS**"), successful acquisitions and the successful implementation of AltaGas' strategy.

The Chief Executive Officer's salary, short-term incentives, MTIP grants and Trust Option awards are determined based on the overall success of AltaGas and the Trust. The Chief Executive Officer's entitlement under AltaGas' Short Term Incentive Plan is based on a combination of corporate performance (70%) and team-individual performance (30%). Corporate performance is measured relative to preset targets for ROE and EPS.

Grants under the Mid-Term Incentive Plan are an additional form of long-term variable compensation incentive. The quantum and granting of RUs and PUs under the MTIP is related to competitive conditions determined as outlined above and individual performance.

Trust Options are granted dependent on the number of Trust Options available for grant, competitive conditions determined as outlined above and individual performance.



Mr. Cornhill, the Chief Executive Officer and a director of the General Partner, does not vote and is excused from Board and Committee meetings with respect to compensation matters affecting him.

Performance Graph

The Common Shares of AltaGas Services were listed on The Alberta Stock Exchange (the "**ASE**"), a predecessor to the Canadian Venture Exchange Inc. ("**CDNX**") on July 22, 1999. The Common Shares of AltaGas Services were subsequently listed on the TSX on January 17, 2000. On January 31, 2000, the Common Shares of AltaGas Services were automatically delisted from CDNX pursuant to CDNX's policy not to continue the inter-listing of issuers also listed on the TSX. Following the Effective Date of the Arrangement, the Trust Units were listed on the TSX in substitution for the Common Shares of AltaGas Services and are included in the S&P/TSX Capped Energy Trust and S&P/TSX Capped Income Trust indices.

The following table and graph compare the yearly percentage change in the cumulative shareholder return over the last five years on the Common Shares (assuming a $100 investment was made on January 1, 2000) with the cumulative total return of the S&P/TSX Composite Index, the S&P/TSX Capped Energy Trust Index and the S&P/TSX Capped Income Trust Index. While the values assume the reinvestment of any declared dividends or distributions, no dividends were paid by AltaGas Services prior to 2001.

	Dec 31, 1999	**Dec 31, 2000**	**Dec 31, 2001**	**Dec 31, 2002**	**Dec 31, 2003**	**Dec 31, 2004**
AltaGas	100	85	125	165	271	317
S&P/TSX Composite Index	100	106	91	79	98	N/A
S&P/TSX Capped Energy Trust Index	N/A	N/A	N/A	99	126	143
S&P/TSX Capped Income Trust Index	N/A	N/A	N/A	99	123	138

Compensation of Directors

The Board of Directors is entitled to compensation for their services as directors of the General Partner. In the year ended December 31, 2004, the compensation for the directors, other than the directors who are also executive officers or employees of the General Partner or AltaGas, is a retainer of $27,000 per year plus a meeting fee of $1,000 per meeting after the fifth meeting of the Board of Directors in the calendar year and reimbursement for their out-of-pocket expenses incurred in acting as a director. The Chairman of the Board of Directors is an executive officer of AltaGas and receives no additional fees for service on the Board of Directors. The Lead Director receives an annual fee of $60,000 for the increased workload associated with the role of Lead Director. In the year ended December 31, 2004, each director who is a chair of one of the General Partner's committees was compensated, with the chair of the Audit Committee receiving an additional annual retainer of $6,000 and the chair of each of the other committees receiving an additional annual retainer of $3,000. No additional meeting fees were paid for attendance at committee meetings.

Effective January 1, 2005, the compensation for the directors, other than the directors who are also executive officers or employees of the General Partner or AltaGas, is a retainer of $28,000 per year plus a meeting fee of $1,000 per meeting after the fifth meeting of the Board of Directors in the calendar year and reimbursement for their out-of-pocket expenses incurred in acting as a director. The Chairman of the Board of Directors is an executive officer of AltaGas and receives no additional fees for service on the Board of Directors. The Lead Director receives an annual fee of $60,000 for the increased workload associated with the role of Lead Director. Effective January 1, 2005, each director who is a chair of one of the General Partner's committees is compensated, with the chair of the Audit Committee receiving an additional annual retainer of $10,000 and the chair of each of the other committees receiving an additional annual retainer of $5,000. Each member of a committee will receive an additional annual retainer of $3000 per committee. No additional meeting fees are paid for attendance at committee meetings.

The board of directors of AltaGas is not entitled to compensation for services rendered to AltaGas in their capacities as such. The members of the board of directors will instead receive compensation in their capacities as executive officers of AltaGas.

Directors and Officers Liability Insurance

Directors and officers insurance has been obtained for the Board of Directors and officers of AltaGas and its subsidiaries with a policy limit of $40,000,000 aggregate per policy year. Under this insurance coverage, AltaGas

would be reimbursed for indemnity payments made on behalf of the Board of Directors and officers of AltaGas subject to a deductible of $500,000 per occurrence, which would be paid by AltaGas. The total premium paid by AltaGas for directors and officers' liability insurance during the financial year ended December 31, 2004 was $140,000.00.

Other Compensation

Other than as herein set forth, the General Partner did not pay any additional compensation to the Board of Directors in the financial year ended December 31, 2004.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

The following table sets forth information related to AltaGas' equity compensation plans for the financial year ended December 31, 2004:

Plan Category	Number of Securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by securityholders	349,411	$9.02	369,931
Equity Compensation plans not approved by securityholders	N/A	N/A	N/A
Total	349,411	$9.02	369,931

OTHER MATTERS

The General Partner knows of no amendment, variation or other matter to come before the Meeting other than the matters referred to in the Notice of Meeting; however, if any other matter properly comes before the Meeting, the accompanying proxy will be voted on such matter in accordance with the best judgment of the person or persons voting the proxy.

AltaGas shall provide without charge, upon request being made to AltaGas, a copy of the Trust's annual information form, together with any document, or the pertinent pages of any document, incorporated by reference therein, the Trust's most recently filed comparative annual financial statements, together with the accompanying report of the auditor, the Trust's most recently filed annual Management Discussion and Analysis and any interim financial statements of the Trust that have been filed thereafter and the interim Management Discussion and Analysis relating thereto.

Additional information relating to the General Partner, AltaGas and the Trust is available on SEDAR at www.sedar.com.

DATE: March 16, 2005.

SCHEDULE A

STATEMENT OF GENERAL PARTNER'S GOVERNANCE PRACTICES

The following table sets forth the TSX Guidelines for effective corporate governance together with the General Partner's corporate governance approach. In addition, where applicable the table references the requirements contained in Multilateral Instrument 52-110 - *Audit Committees* ("**MI 52-110**") and the General Partner's compliance therewith. The Board of Directors of the General Partner believes that the General Partner's corporate governance policies and practices fully comply with the recommendations set forth in the TSX Guidelines and the requirements of MI 52-110.

Mandate of the Board	
Guideline 1	**The board of directors of every corporation should explicitly assume responsibility for the stewardship of the corporation. The board should adopt a formal mandate that sets out its stewardship responsibilities.**
Does the General Partner Align?	Yes
Description of Approach	The mandate of the Board of Directors pursuant to the *Canada Business Corporations Act* (the "**CBCA**") is to manage or supervise the management of the business and affairs of the General Partner. Pursuant to the Unanimous Shareholder Agreement the Board of Directors has also assumed that role in respect of AltaGas. The Board of Directors has adopted a formal mandate in accordance with the CBCA and has explicitly assumed the stewardship of the General Partner and AltaGas. Details regarding the Board of Directors' mandate are described below.
Guideline 1a	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the adoption of a strategic planning process and approval of a strategic plan which takes into account, among other things, opportunities and risks of the business.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors' responsibilities include developing and adopting AltaGas' strategic planning process and approving the strategic plan; AltaGas' major business development initiatives; and the general review of AltaGas' operating results, including the evaluation of the general and specific performance of management. The Board of Directors sets one meeting per year for a comprehensive review and approval of AltaGas' budget and plan for AltaGas and each of its affiliates the following year. The Board of Directors has also established one meeting per year for a comprehensive review and approval of the overall strategic plan of AltaGas and its affiliates. Management regularly provides the Board of Directors with operational reviews of AltaGas' and its affiliates' activities. In conjunction with these reviews, the Board of Directors discusses various strategic planning matters and identifies business and other risks associated with the activities of AltaGas and its affiliates, as it considers appropriate.
Guideline 1b	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the identification of the principal risks of the corporation's business and ensuring the implementation of appropriate systems to manage these risks.**
Does the General Partner Align?	Yes

Description of Approach	The Board of Directors is responsible for understanding the principal risks associated with the business of AltaGas and its affiliates on an ongoing basis and management is responsible to ensure that the Board of Directors and its committees are kept well informed of these changing risks on a timely basis. The Audit Committee of the Board of Directors reviews AltaGas' risk management policies and procedures for AltaGas and its affiliates and reports quarterly to the Board of Directors on these matters. The Board of Directors also receives and reviews reports from the Environment and Safety Committee at least two times per year.
Guideline 1c	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for succession planning, including appointing, training and monitoring senior management.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors believes that succession planning and management development are important to the success of the Trust. The Chief Executive Officer provides a detailed report to the Human Resources and Compensation Committee and a summary presentation to the Board of Directors on these matters on an annual basis. The Human Resources and Compensation Committee annually reviews and reports to the Board of Directors on existing management resources and plans, including recruitment and training programs, for ensuring that qualified personnel will be available for succession to key officer positions in AltaGas. The Human Resources and Compensation Committee conducts an annual review and assessment of the performance of the Chief Executive Officer and the officers of AltaGas. The Governance Committee's mandate includes monitoring the relationship between management and the Board of Directors.
Guideline 1d	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for a communication policy for the corporation.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors has put processes in place to ensure effective, timely and non-selective communications between the Trust, its stakeholders and the public. The Board of Directors, or the appropriate committee thereof, reviews the content of the Trust's major communications to unitholders and the investing public, including the quarterly and annual reports, and approves the information circular, the annual information form and any prospectuses that may be issued. The disclosed information is released through mailings to unitholders, news wire services, the general media and the Trust's home page on the internet, as required. The Board of Directors believes that it is the function of management to speak for the Trust in its communications with the investment community, the media, customers, suppliers, employees, governments and the general public. AltaGas has executives responsible for investor relations, who respond to analyst, institutional and individual shareholder inquiries and who are responsible for inquiries from media, government and the public. Individual queries can be made at any time by calling or writing directly to AltaGas' head office in Calgary, Alberta.

Guideline 1e	**As part of the overall stewardship responsibility, the board of directors of every corporation should assume responsibility for the integrity of the corporation's internal control and management information systems.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors has appointed four committees, each of which is responsible for reviewing and advising the Board of Directors on controls related to their specific area. The Audit Committee regularly reviews the Trust's internal controls through management and the Trust's external auditors.
Composition of the Board	
Guideline 2	**The board of directors of every corporation should be constituted with a majority of individuals who qualify as unrelated directors.[1] If the corporation has a significant shareholder,[2] in addition to a majority of unrelated directors, the board should include a number of directors who do not have interests in or relationships with either the corporation or the significant shareholder and which fairly reflects the investment in the corporation by shareholders other than the significant shareholder.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors, the Governance Committee and each director has reviewed the relevant provisions of the TSX Guidelines and determined that seven of the General Partner's eight directors are unrelated directors for the purposes of the TSX Guidelines, being John B. Breen, Allan L. Edgeworth, Denis C. Fonteyne, Daryl H. Gilbert, Robert. B. Hodgins, Myron F. Kanik and David F. Mackie. One of the directors, David W. Cornhill, is not an unrelated director by virtue of also being an officer of AltaGas and the General Partner. The Board of Directors and the Governance Committee have reviewed the relevant provisions of the TSX Guidelines and determined that, to its knowledge, the Trust does not have a significant Unitholder for the purposes of the TSX Guidelines.
Guideline 3	**The application of the definition of "unrelated director" to the circumstances of each individual director should be the responsibility of the board which will be required to disclose on an annual basis whether the board has a majority of unrelated directors or, in the case of a corporation with a significant shareholder, whether the board is constituted with the appropriate number of directors which are not related to either the corporation or the significant shareholder. The board will also be required to disclose on an annual basis the analysis of the application of the principles supporting this conclusion.**
Does the General Partner Align?	Yes

[1] The TSX Guidelines define an unrelated director as a director that is not a member of management and does not have an interest or relationship that could be seen to interfere with the director's ability to act in the best interests of the General Partner or AltaGas, other than interests and relationships arising from securityholding.

[2] The TSX Guidelines define a "significant shareholder" to be a shareholder with the ability to exercise the majority of the votes for the election of the board of directors.

Description of Approach	Each of the directors individually, the Governance Committee and the Board of Directors as a whole, has reviewed the relevant provisions of the TSX Guidelines and considered such director's respective interests in and relationship with AltaGas or the General Partner. Only one (1) director, David W. Cornhill, is not independent of management. No director has an interest in AltaGas or the General Partner or the assets or business of AltaGas or the General Partner, other than as a result of securityholding in the Trust. No director has a business or any other relationship, other than as a result of securityholding in the Trust, that could or could reasonably be perceived to materially interfere with the director's ability to act with a view to the best interests of the Trust. Based on this review, the Board of Directors made the determination set out in Guideline 2 above in respect of the number of unrelated directors.
Evaluation and development of the Board	
Guideline 4	**The board of directors of every corporation should appoint a committee of directors composed exclusively of outside directors, a majority of whom are unrelated directors, with the responsibility for proposing to the full board new nominees to the board and for assessing directors on an ongoing basis.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee's mandate includes recommending directors to the Board of Directors, to fill vacancies on the Board of Directors or to be proposed for election by the Trustee, at the direction of the Unitholders. The qualifications of the new Board of Directors nominees are reviewed by the Governance Committee based on criteria set by the Board of Directors from time to time. The Governance Committee's mandate also includes establishing appropriate practices for measuring the performance and for the review of the performance of the Board of Directors, Board of Directors committees and individual directors.
Guideline 5	**Every board of directors should implement a process to be carried out by the nominating committee or other appropriate committee for assessing the effectiveness of the board as a whole, the committees of the board and the contribution of individual directors.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee is responsible for conducting an annual assessment of Board of Directors and committee activities and performance. As part of the assessment, directors are asked for input as to areas where and how the Board of Directors' effectiveness could be improved, and areas where additional training or education may be beneficial.
Guideline 6	**Every corporation, as an integral element of the process for appointing new directors, should provide an orientation and education program for new recruits to the board.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee is responsible for establishing formal orientation, development and education programs and materials for new directors. Ongoing education of all directors is offered where a need is perceived or based on input obtained from individual directors as part of the assessment process.

Size of Board	
Guideline 7	**Every board of directors should examine its size and undertake, where appropriate, a program to establish a board size which facilitates effective decision-making.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee's mandate includes reviewing and making recommendations as to the size of the Board of Directors and practices for measuring performance. Based on these recommendations, the Board of Directors considers its size each year when it considers the number of directors to recommend to the Unitholders for election at the annual meeting of Unitholders, taking into account the number required to carry out the Board of Directors' duties effectively and to maintain a diversity of view and experience.
Compensation of Directors	
Guideline 8	**The board of directors should review the adequacy and form of the compensation of directors and ensure the compensation realistically reflects the responsibilities and risk involved in being a director.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee's mandate includes reviewing and approving appropriate practices for determining and establishing compensation for the Board of Directors to ensure it reflects the responsibilities and risks of being a director of a public vehicle.
Committees of the Board	
Guideline 9	**Subject to Guideline 13, committees of the board of directors should generally be composed of outside directors, a majority of whom are unrelated directors, although some board committees may include one or more inside directors.**
Does the General Partner Align?	Yes
Description of Approach	The Audit Committee, the Governance Committee and the Human Resources and Compensation Committee are composed entirely of unrelated directors. The Environment and Safety Committee has a majority of unrelated directors.
Responsibility for Corporate Governance	
Guideline 10	**Every board of directors should expressly assume responsibility for, or assign to a committee of directors the general responsibility for, developing the corporation's approach to governance issues. The committee would, among other things, be responsible for the corporation's response to these governance guidelines.**
Does the General Partner Align?	Yes
Description of Approach	The Governance Committee is responsible for the development of the overall governance of the Trust, a continuing assessment of corporate governance matters, and to make recommendations to the Board of Directors regarding the General Partner's approach to corporate governance.

Objectives for the Board and the CEO, and expectations of management	
Guideline 11	**The board of directors, together with the CEO, should develop position descriptions for the board and for the CEO, including the definition of the limits to management's responsibilities. In addition, the board should approve or develop the corporate objectives which the CEO is responsible for meeting and assess the CEO against these objectives.**
Does the General Partner Align?	Yes
Description of Approach	The Board of Directors together with AltaGas' Chief Executive Officer, has developed and maintains position descriptions for the Board of Directors and the Chief Executive Officer (within the context of the requirements imposed by the Declaration of Trust, the CBCA and AltaGas' by-laws), which include the limits on management's responsibilities. The Governance Committee's mandate includes review of the description of the directors' duties and the division of duties between and among directors, the Chairman, the Lead Director, the Chief Executive Officer and management. The Board of Directors develops corporate objectives for which the Chief Executive Officer is responsible through its annual budget and strategic plan review, and otherwise as required. The Human Resources and Compensation Committee evaluates the Chief Executive Officer against those objectives and reports the results of the evaluation to the Board of Directors. The Board of Directors considers that certain decisions are sufficiently important that management should seek prior approval of the Board of Directors. Such decisions include: approval of the annual capital and operating budgets and any material changes to or deviations from these budgets; acquisition or sale of significant assets, including significant commitments with industry partners; significant debt or equity financing; changes in management; all matters as required under the Declaration of Trust or the CBCA; and significant changes incorporate policies, goals or objectives.
Independence of the Board	
Guideline 12	**Every board of directors should implement structures and procedures which ensure that the board can function independently of management. An appropriate structure would be to:** **(i) appoint a chair of the board who is not a member of management with responsibility to ensure the board discharges its responsibilities; or** **(ii) assign this responsibility to an outside director, sometimes referred to as the "lead director".** **The chair or lead director should ensure that the board carries out its responsibilities effectively which will involve the board meeting on a regular basis without management present and may involve assigning the responsibility for administering the Board of Directors' relationship to management to a committee of the board.**
Does the General Partner Align?	Yes
Description of Approach	David W. Cornhill is the Chairman of the Board of Directors and Chief Executive Officer of the General Partner and AltaGas. To ensure that the Board of Directors can function independently of management, the Board of Directors has appointed Myron F. Kanik, an outside director, as Lead Director. The Board of Directors meets in-camera and independently of management often and whenever appropriate. Mr. Kanik determines when such a meeting is appropriate and acts as chair of the Board of Directors at these times. In addition, responsibility for administering the Board of Directors' relationship to management has been assigned to the Governance Committee.

Audit Committee	
Guideline 13	**The audit committee of every board of directors should be composed only of unrelated directors.** **All of the members of the audit committee should be financially literate and at least one member should have accounting or related financial expertise. Each board shall determine the definition of and criteria for "financial literacy" and "accounting or related financial expertise".** **The board should adopt a charter for the audit committee which sets out the roles and responsibilities of the audit committee members as to their duties. The audit committee should have direct communication channels with the internal and external auditors to discuss and review specific issues as appropriate. The audit committee duties should include oversight responsibility for management reporting on internal control. While it is management's responsibility to design and implement an effective system of internal control, it is the responsibility of the audit committee to ensure that management has done so.**
MI 52-110 Requirement	**The audit committee must have a minimum of three members, each of whom must be "independent" and "financially literate".**
Does the General Partner Align?	Yes
Description of Approach	The CBCA, the corporate statute governing the General Partner, requires that the Audit Committee of the General Partner be composed of not less than three directors, a majority of whom are not officers or employees of the General Partner or any of its affiliates, including AltaGas. The Audit Committee complies with these requirements and the TSX Guidelines. All members of the Audit Committee are "financially literate" and Daryl H. Gilbert, John B. Breen and David F. Mackie have "accounting or related financial expertise", based on criteria established by the Board of Directors in accordance with the TSX Guidelines. The Board of Directors has adopted the TSX definitions of "financially literate" and "accounting or related financial expertise".[3] The Board of Directors has developed written terms of reference outlining the Audit Committee's roles and responsibilities and which provide appropriate guidance to Audit Committee members as to their duties. These terms of reference are reviewed annually by the Board of Directors. The Audit Committee reviews the annual and interim financial statements of the Trust and makes recommendations to the Board of Directors with respect to such statements. The Audit Committee also reviews the nature and scope of the annual audit as proposed by the auditors and management, and the adequacy of the internal accounting control procedures and systems within the Trust and its affiliates. The Audit Committee is responsible to ensure that management has implemented an effective system of internal control and has oversight responsibility for management reporting on internal control. The Audit Committee meets with the Trust's auditors regularly, independent of management, and has direct communication channels with the Trust's external auditors to discuss and review specific issues as appropriate.

[3] The TSX defines "financial literacy" as the ability to read and understand a balance sheet, an income statement and a cash flow statement, and "accounting or related financial expertise" as the ability to analyze and interpret a full set of financial statements, including the notes attached thereto, in accordance with Canadian generally accepted accounting principles.

Outside Advisors to Board Members	
Guideline 14	**The board of directors should implement a system which enables an individual director to engage an outside adviser at the expense of the company in appropriate circumstances. The engagement of the outside advisor should be subject to the approval of an appropriate committee of the board.**
Does the General Partner Align?	Yes
Description of Approach	In certain circumstances, it may be appropriate for a committee of the Board of Directors, an individual director or a group of directors to engage outside legal, financial or other services at the expense of the Trust. The Board of Directors has implemented a system providing for this, pursuant to which the Governance Committee is responsible for establishing the circumstances in which such an outside advisor may be engaged and approves the engagement of such an outside advisor.
Audit Committee Charter	
MI 52-110 Requirement	The Audit Committee must have a written charter that sets out its mandate and responsibilities
Does the General Partner Align?	Yes
Description of Approach	The Audit Committee has a charter in place. See the Trust's 2004 Annual Information Form for the text of the charter.

This Management's Discussion and Analysis (MD&A) of operations and financial statements presented herein report on a continuity-of-interest accounting basis which recognizes the Trust as the successor to AltaGas Services Inc.(ASI). This MD&A dated March 2, 2005 is a review of the results of operations and the liquidity and capital resources of AltaGas Income Trust (AltaGas or the Trust) for the year ended December 31, 2004 compared to 2003. It should be read in conjunction with the accompanying audited consolidated financial statements of the Trust for the year ended December 31, 2004.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, filed as AltaGas Services Inc. prior to May 1, 2004, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of ASI voted in favour of a plan of arrangement to reorganize the business of ASI into an open-ended investment trust effective May 1, 2004. For each common share of ASI, shareholders received either one unit of the Trust (trust unit) or one exchangeable unit of AltaGas Holding Limited Partnership No.1 or AltaGas Holding Limited Partnership No.2 (trust units and exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds, through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by ASI. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipeline Partnership and AltaGas Utilities Inc. (collectively the operating subsidiaries). The cash flow of the Trust is solely dependent on the results of the operating subsidiaries and is derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held.

AltaGas General Partner Inc., through its Board of Directors, who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries. At December 31, 2004 AltaGas Ltd. and its subsidiaries employed a total of 588 people.

The Trust has incurred costs and charges to implement the plan of arrangement, which are anticipated to total approximately $17.0 million. Total amounts incurred in 2004 of $8.6 million and $5.7 million have been charged to unitholders' capital and income respectively. The balance is expected to be charged to income in future periods.

DISTRIBUTIONS

AltaGas' distributions are determined by giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust. The Trust targets to pay out substantially all of its ongoing sustainable distributable cash flow through regular monthly distributions made to unitholders.

On April 29, 2004 the Trust announced it would commence monthly distributions of $0.15 for each trust unit and exchangeable unit on June 15, 2004 to holders of units. AltaGas pays cash distributions on the 15th day of each month to unitholders of record on the 25th day of the previous month, or in each case the following business day if the payment date falls on a weekend or holiday.

From the date of conversion to an income trust on May 1, 2004, through to December 31, 2004, AltaGas declared cash distributions of $61.7 million or $1.20 per unit. The following table summarizes AltaGas' dividend and distribution declaration history for the last three years.[1]

($ per unit)	2004	2003	2002
First quarter	$ 0.11	$ 0.08	$ 0.06
Second quarter	0.30	0.08	0.06
Third quarter	0.45	0.11	0.08
Fourth quarter	0.45	0.11	0.08
	$ 1.31	$ 0.38	$ 0.28

[1] *Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Prior to December 2000 no dividends were paid. Monthly distributions to unitholders began in the second quarter of 2004.*

On May 20, 2004 AltaGas adopted Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust, AltaGas Holding Limited Partnership No. 1 and AltaGas Holding Limited Partnership No. 2. DRIP participation generated $10.3 million in new equity through the issuance of 521,326 trust units in 2004. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

For income tax purposes approximately 75 percent of the distributions declared in 2004 will be taxed as interest with the remaining 25 percent classified as return of capital. For most unitholders, the return of capital amount will reduce the cost base of their trust units for purposes of calculating the capital gains amount upon disposition of their trust units. Unitholders should seek independent tax advice in respect of the consequences to them of acquiring, holding and disposing of trust units.

OVERVIEW OF THE BUSINESS AND STRATEGY

AltaGas Income Trust is in the business of moving energy from its source to the end-user. The Trust's objective is to generate long-term value for investors through disciplined investment that links energy infrastructure and energy services along the energy value chain. AltaGas' businesses are organized into three segments - Gathering and Processing, Energy Services and Natural Gas Distribution. Within each segment, management focuses on operating components. Gathering and Processing includes natural gas field gathering and processing facilities, ethane and natural gas liquids extraction plant interests and natural gas transmission pipelines. Energy Services primarily includes power services and gas services. Natural Gas Distribution includes AltaGas Utilities Inc. a wholly owned subsidiary, a one-third interest in Inuvik Gas Ltd., and AltaGas' 24.9 percent ownership interest in Heritage Gas Ltd.

The Trust expects to continue to grow its integrated energy businesses through internal expansion and through acquisition opportunities, deliberately growing each of its business components to reduce concentrations of risk and enhance earnings potential. In the period from 2000 through 2004, AltaGas invested $586.7 million, approximately 35 percent or $208.2 million was expended on internal development projects to meet customer demand, and 65 percent or $378.5 million was expended to acquire various midstream assets and businesses.

CONSOLIDATED FINANCIAL RESULTS

($ millions)	2004	2003	2002[1]
Revenue	859.2	710.6	492.7
Net revenue [2]	249.8	219.9	169.9
EBITDA [2]	133.4	121.9	94.8

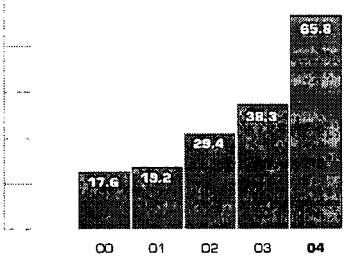
[1] *Restated for the impacts of the adoption of asset retirement obligation accounting*

[2] *Non-GAAP financial measure. See discussion in the following section of this MD&A*

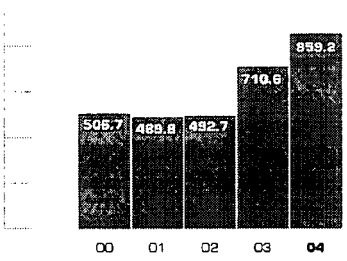
[3] *Distributions of $0.15 per unit declared commencing May, 2004. Dividends of $0.06-$0.11/share paid in quarters dated prior to trust conversion*

AltaGas' net income for 2004 increased 72 percent compared to 2003, establishing a new record since AltaGas' formation. Net income for the year ended December 31, 2004 was $65.8 million or $1.33 per unit compared to $38.3 million or $0.84 per unit for the year ended December 31, 2003. Acquisitions and expansions in AltaGas' Energy Services and Gathering and Processing segments contributed to the improvement in operating results. In addition, reduced income tax expense in the current year associated with converting to an income trust had a significant favourable impact on net income. One-time costs related to the conversion to an income trust and costs associated with regularly scheduled major maintenance turnarounds at two of AltaGas' sour gas processing facilities partially offset the increases.



On a consolidated basis, revenue for the year ended December 31, 2004 increased 21 percent to $859.2 million compared to $710.6 million for the same period in 2003. The increase in revenue was primarily due to volume increases related to the acquisitions in the gas services and extraction components. Also contributing to the increase were higher natural gas liquids (NGLs) prices and higher average prices received in the power component on hedged power volumes sold.

Net revenue increased 14 percent to $249.8 million for full year 2004 when compared to 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

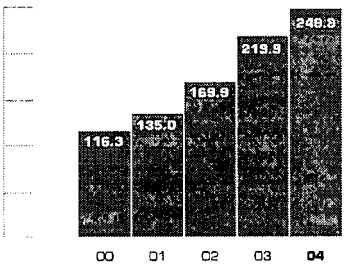


Operating and administrative expense was $18.4 million or 19 percent higher in 2004 than 2003. Operating costs increased primarily due to field gathering and processing facilities acquisitions late in 2003 as well as the completion of major maintenance turnarounds at AltaGas' Bantry and Rainbow Lake facilities during 2004. Cash costs of $3.3 million related to the conversion to an income trust, and a further non-cash charge of $2.4 million in compensation expense as a result of the vesting of all outstanding unvested employee trust unit options on May 1, 2004 were the major drivers of increased administrative expense. Increased staffing required to support the Trust's growth also contributed to higher administrative costs.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for 2004 rose nine percent to $133.4 million compared to 2003. Amortization expense increased nine percent to $41.8 million for 2004 compared to $38.3 million for 2003. The increase in amortization expense was driven by increases in AltaGas' capital base related to acquisitions and internal expansion projects.

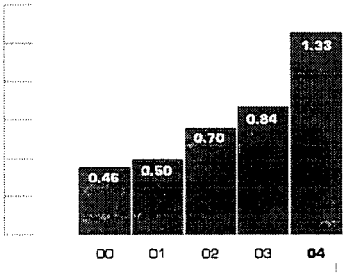
Consolidated Net Income ($ millions)

Consolidated Revenue ($ millions)



Interest expense of $21.2 million for 2004 was four percent lower than 2003 due to lower average debt balances during the year, partially offset by higher blended average interest rates. Income tax expense for 2004 was $18.6 million less than that reported for 2003 even though income before taxes was higher. The variance was driven by AltaGas' conversion to an income trust. AltaGas' consolidated income from corporations was taxable in 2003 and for the period January 1 through April 30, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. The impact of the restructuring from a corporation to a trust contributed $15.5 million of the reduction in income tax expense for 2004.

As a result of AltaGas' conversion to an income trust, and consequently interest expense reducing taxable income, amortization expense now exceeds capital cost allowance claimed, resulting in a reversal over time of the Trust's future income tax liability. AltaGas' first eight months as a trust resulted in the reversal driving a credit to income tax expense of $3.1 million.



The income of AltaGas' operating entities is subject to a variety of tax rates and rate reductions, currently and in the future. Consequently, there are several items which impact income tax expense and the effective tax rate from period to period. Contributing to the variance from 2004 to 2003 in the effective tax rate was a $0.7 million charge in the second quarter of 2003 to the future income tax liability to record the impact of federal rate and resource allowance adjustments. Income tax expense for 2004 was reduced by $0.7 million as a result of the application of a provincial rate reduction arising out of the March 19, 2004 Alberta government budget. The impact of recording a charge to income for compensation expense related to stock options in 2004, which has no current or future income tax implication, partially offset these rate reductions by $0.8 million.

The Trust will continue to pay Large Corporations Tax for all of its subsidiaries until it is phased out after 2007. Incorporated subsidiaries in AltaGas' Natural Gas Distribution segment which operate as regulated businesses under utility board regulation will continue to pay income tax.

Consolidated Net Revenue ($ millions)

Net Income Per Unit ($/basic unit)

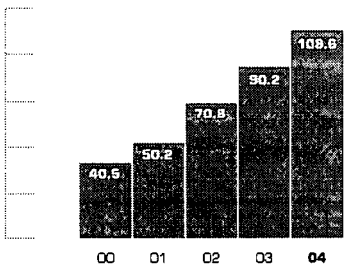
NON-GAAP FINANCIAL MEASURES

AltaGas provides financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

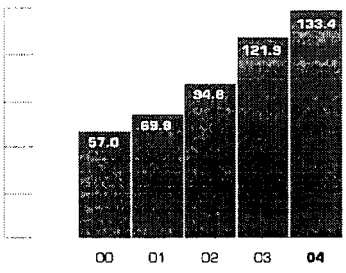
FUNDS GENERATED FROM OPERATIONS

($ millions)	2004	2003	2002
Funds generated from operations	108.6	90.2	70.8
Add: Net change in non-cash working capital and other	39.1	6.3	4.4
Cash from operations (GAAP financial measure)	147.7	96.5	75.2



Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations, after interest and taxes, without regard to changes in the Trust's non-cash working capital in the period.

EBITDA



($ millions)		2004	2003	2002
EBITDA		133.4	121.9	94.8
Deduct:	Amortization	(41.8)	(38.3)	(33.8)
	Interest	(21.2)	(22.1)	(18.1)
	Income taxes	(4.6)	(23.2)	(13.5)
Net income (GAAP financial measure)		65.8	38.3	29.4

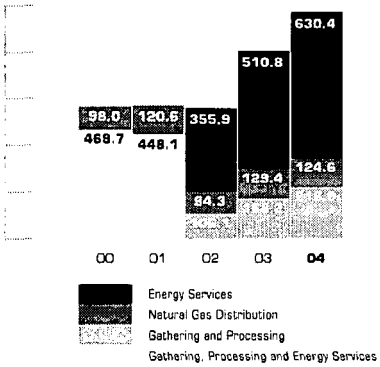
Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in understanding the ability of the organization to generate cash and its ability to cover interest payments.

Funds Generated From Operations
($ millions)

Consolidated EBITDA ($ millions)

OPERATING INCOME

($ millions)	2004	2003	2002
Operating income	91.6	83.6	61.0
Deduct: Interest	(21.2)	(22.1)	(18.1)
Income taxes	(4.6)	(23.2)	(13.5)
Net income (GAAP financial measure)	65.8	38.3	29.4

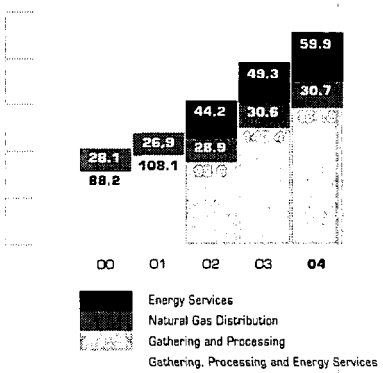


AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

DISTRIBUTABLE CASH FLOW

($ millions except per unit information)	2004	2003	2002
Distributable cash flow	102.2	79.6	66.1
Add: Maintenance capital expenditures	6.4	10.6	4.7
Net change in non-cash working capital	39.1	6.3	4.4
Cash from operations (GAAP financial measure)	147.7	96.5	75.2
Distributable cash flow per unit	$ 2.07	$ 1.75	$ 1.56

The Trust's distributable cash flow is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash flow is not a defined performance measure under GAAP and distributable cash flow can not be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash flow is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.



Revenue by Segment ($ millions)

Excludes Intersegment Eliminations

Prior to January 1, 2002 the Trust had two business segements

Net Revenue by Segment ($ millions)

Excludes Intersegment Eliminations

NET REVENUE

($ millions)	2004	2003	2002
Net revenue	249.8	219.9	169.9
Add cost of sales	609.4	490.7	322.8
Revenue (GAAP financial measure)	859.2	710.6	492.7

In the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects organic growth in the business.

RESULTS OF OPERATIONS BY SEGMENT

The Trust reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

OPERATING INCOME

($ millions)	2004	2003[1]	2002[2]
Gathering and Processing	45.4	42.3	28.2
Energy Services	38.3	32.6	24.0
Natural Gas Distribution	7.9	8.7	8.8
	91.6	83.6	61.0

(1) *Restated for certain NGLs operations previously reported in Energy Services now managed and reported in Gathering and Processing*

(2) *Restated for the impacts of asset retirement obligation accounting*

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

FINANCIAL RESULTS

($ millions)	2004	2003[1]	2002[2]
Revenue	218.9	169.2	106.1
Net revenue	164.9	140.4	99.6
Operating and administrative expense	93.3	74.5	52.2
Amortization expense	26.2	23.6	19.2
Operating income	45.4	42.3	28.2

(1) *Restated for certain NGLs operations previously reported in Energy Services and now managed and reported in Gathering and Processing*

(2) *Restated for the impacts of asset retirement obligation accounting*

OPERATING STATISTICS

	2004	2003	2002
Field gathering and processing			
Capacity (Mmcf/d) [1]	913	861	842

[2] *Fourth quarter average*
[3] *Average for period*
[4] *Excludes condensate pipeline volumes*

Business activities

The Gathering and Processing segment consists of the field gathering and processing, extraction and transmission businesses. The assets in this segment include 69 natural gas field gathering and processing plants, more than 6,000 kilometres of gathering lines, interests in five ethane and NGLs extraction and fractionation facilities and six natural gas transmission lines. AltaGas' natural gas processing capacity ranks the Trust in the top ten Canadian processors of natural gas and one of the four largest Canadian midstream processors. These long-life assets provide service to a diverse customer base under arrangements which include a significant portion of contracts that provide cost of service, fixed fee and recovery of operating cost terms.

Revenues are generally volume driven and commodity price exposure is minimal. The main drivers of performance in this segment are processed volumes for the field gathering and processing and extraction components and transported volumes for the transmission component and fees earned per unit processed or transported. On the small portion of the extraction business that is not under fixed fee sales or cost of service contracts, performance can be subject to the price spread between NGLs extracted and the natural gas purchased to make up the heating value of the NGLs extracted after subtracting operating costs (frac spread).

In the field gathering and processing component, contracts with natural gas producers are volumetric service fee structures, based on a rate per mcf of throughput. Approximately 73 percent of contracts in place at December 31, 2004 were subject to annual price escalation related to changes in the Alberta Consumer Price Index. This "toll for service" structure does not create exposure to commodity price risk as revenues are a function of volumes processed.

In the extraction component, AltaGas' net share of ethane production is sold through long-term cost of service or fixed fee arrangements. The sales price received under these contracts provides for a return on and of capital and the recovery of certain operating costs, including shrinkage make-up attributable to that production. AltaGas' share of ethane production is sold at the plant gate, with the product purchaser responsible for all downstream transportation and handling.

AltaGas' NGLs can be sold under a variety of arrangements, but approximately 75 percent of AltaGas' net NGLs production is sold under long term fixed fee arrangements. These volumes do not bear any commodity price risk. The revenue from these NGLs sales and the ethane sales provides a stable, predictable cash flow base.

Approximately 20 percent of AltaGas' NGLs production is sold under short term contracts. The margins received on these volumes are subject to frac spread. The remaining five percent of NGLs production is sold under a profit and loss arrangement. If commodity prices or operating costs make NGLs extraction uneconomic, the NGLs may be reinjected or the facilities may be turned down or shut in.

In the transmission component the Suffield system which consists of two natural gas pipelines at Suffield, Alberta, is the largest contributor to component revenues. The two pipelines each have 200 Mmcf/d of transmission capacity. The majority of the Suffield system's capacity is contracted through transport or pay and volume commitments which expire in 2022 and are renewable for one year periods thereafter. Volume commitments will increase annually from approximately 322 Mmcf/d in 2004 to approximately 385 Mmcf/d in 2010 and decline thereafter. AltaGas expects to work with other potential shippers to develop transportation opportunities to maximize the system's contribution.

Results of operations

Revenue in the Gathering and Processing segment for 2004 increased to $218.9 million or 29 percent from 2003. Net revenue increased by 17 percent to $164.9 million compared to $140.4 million for 2003. The increases were driven by higher throughput volumes in the field gathering and processing and extraction components due to acquisitions and expansions and by an increase in shipper transported volumes in the transmission component. A record number of well tie-ins in 2004 also helped maintain throughput levels in the field gathering and processing component. Favourable frac spreads through the latter half of the year contributed to increased net revenues in the extraction component.

Operating and administrative expenses increased 24 percent in 2004 compared to 2003 due to incremental operating costs related to facility acquisitions and major maintenance turnarounds at two of AltaGas' major processing facilities. Efficient turnaround work is important to AltaGas, as well as its customers, to minimize downtime and the associated period of lost revenue.

In the field gathering and processing component, capacity increased to 913 Mmcf/d at end of 2004 compared to 861 Mmcf/d at the end of 2003. Capacity in the field gathering and processing increased due to the acquisition of the 43 Mmcf/d Mica Pouce Coupe gas plant and gathering system in the first quarter 2004 and the seven Mmcf/d expansion of the Kirkpatrick Lake facility in December 2004. Throughput volumes increased to 560 Mmcf/d from 520 Mmcf/d in 2003. Throughput volumes were higher in 2004 due to the combined impact of the late 2003 Rainbow Lake plant acquisition, well tie-ins and plant expansions which more than offset the impact of normal natural gas production declines and maintenance turnarounds. In 2004, 428 wells were tied-in to AltaGas' facilities compared to 324 in 2003 generating the need to expand

throughput at AltaGas' Marten Creek, Doris and Windfall facilities with the addition of booster compression. During 2004, AltaGas invested approximately $16.4 million on internal expansion projects in the field gathering and processing component. In addition, 36 movable processing components were relocated, contributing further to the increases in throughput. While AltaGas' investment is generally protected by the life of reserves behind the facility, since producing wells typically remain connected to a gathering and processing system for their entire productive lives, these projects are often supported by producer commitments designed to underpin AltaGas' capital commitments. The fees generated by these projects and the renegotiation of existing processing contracts have increased the average fee earned per mcf processed when comparing 2004 to 2003.

During the first quarter of 2004 AltaGas also captured an opportunity to increase its ownership in the 25 Mmcf/d Namaka facility to 100 percent from 75 percent allowing AltaGas to benefit from more of the processing upside expected to develop in the area.

On a full-year basis average NGLs volumes processed increased to 13,436 Bbls/d compared to 7,575 Bbls/d in 2003. Volume increases for the year were primarily due to the late August 2004 closing of AltaGas' acquisition of an interest in EEEP. The plant has gross licensed inlet capacity of 390 Mmcf/d of natural gas and gross natural gas liquids production of approximately 15,000 Bbls/d of specification ethane and 6,000 Bbls/d of NGLs. The acquisition increased AltaGas' total net licensed inlet extraction capacity to 539 Mmcf/d. AltaGas' share of plant products are sold under long-term contracts and feedstock supply is provided by a long-term gas supply contract to EEEP. Production at the Empress EnCana facility and the Joffre ethane extraction plant were also higher during the year.

The volume increases, combined with a favourable NGLs pricing environment, resulted in extraction net revenue growth of 89 percent reaching $20.9 million during 2004 compared to $11.1 million in 2003.

AltaGas' transmission component net revenue was up $0.4 million in 2004 compared to 2003. Volumes increased due to well tie-ins and increased shipper volumes on the Suffield system.

Business strategy

Fundamental opportunities in the gathering and processing business derive from the requirement for all natural gas to be processed to meet downstream pipeline specifications prior to delivery to the end-user.

In the field gathering and processing component facility utilization can often be increased with little or no additional capital investment. Facility utilization in the field gathering and processing component averaged 61 percent at December 31, 2004. With its extensive gathering infrastructure and the mobile nature of the majority of its field gathering and processing plants, AltaGas has a unique ability to quickly redeploy assets in response to producer drilling activity, and to size facilities to meet demand while reducing operating costs and minimizing the time required to bring new production on line, improving producer and AltaGas' cash flow. AltaGas' operating areas have investment opportunities which will be realized should economic and resource conditions warrant. During the third quarter of 2004 AltaGas announced the construction of a $5.5 million sour gas processing plant and approximately 37 kilometres of pipeline near the town of Shaunavon, Saskatchewan. The Shaunavon plant became operational in February 2005 and will process 1.0 Mmcf/d per day of solution gas currently being flared from two oil batteries. AltaGas is pursuing additional opportunities in Saskatchewan to process flared gas.

In the extraction component opportunities arise from organic growth and the pursuit of additional acquisition opportunities. In 2005 the impact of a full year of operations of EEEP under AltaGas' ownership is expected to boost 2005 NGLs production to new records. In addition, AltaGas expects to invest approximately $5.1 million in its extraction component during 2005 to increase efficiency and undertake other natural gas value chain optimization. Opportunities to purchase additional interests in facilities in which the Trust currently owns interests, or in facilities new to AltaGas, will be evaluated and pursued within the Trust's framework of economically sound decision making.

In the transmission component acquisition opportunities are available and organic growth can be captured through the leverage of existing facilities.

Business risks

The majority of AltaGas' gathering and processing facilities process or transport natural gas from the Western Canadian Sedimentary Basin. The ongoing capacity utilization of these systems is dependent on a number of factors including the level of exploration and development within the basin, the longer term price of natural gas, the ability of natural gas producers to deliver natural gas to the various pipeline systems and the regulatory environment for producers, transporters and consumers of natural gas.

Throughput at AltaGas' field gathering and processing facilities is influenced by production of natural gas in the areas serviced by AltaGas. At its field gathering and processing facilities, AltaGas actively pursues opportunities to maintain or increase throughput and has been successful in offsetting natural production declines. AltaGas' contract provisions further mitigate the impact of volume declines, generate additional volumes for gathering and processing at its facilities, encourage expansion into areas where AltaGas' facilities are located and allow AltaGas to recover portions of its expansion capital over a relatively short period of time. The majority of AltaGas' field processing facilities are skid-mounted and can be moved to areas with favourable production potential should a particular area's production decline significantly.

AltaGas' extraction business depends in part on the level of demand for and the pricing of NGLs. AltaGas cannot predict the impact of future economic conditions, fuel conservation measures, alternative fuel requirements, governmental regulation or technological advances in fuel economy and energy generation devices, all of which could reduce the demand for natural gas and NGLs. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGLs prices and crude oil prices. As crude oil prices fall, NGLs prices will generally decrease subject to other factors that influence the supply and demand.

AltaGas' gathering and processing businesses are subject to regulation in the jurisdictions in which they carry on business. Pipelines and field gathering and processing facilities can be subject to common carrier and common processor applications and to rate setting by the regulatory authorities in the event an agreement on fees or tariffs cannot be reached with producers. To the extent that producers believe processing fees or tariffs respecting pipelines and facilities are too high, they may seek relief through regulator intervention. AltaGas' operated facilities have not faced this situation.

ENERGY SERVICES

The Energy Services segment is comprised of the power services, gas services and the oil and gas production components.

FINANCIAL RESULTS

($ millions)	2004	2003[3]	2002
Revenue	630.4	510.8	355.9
Net revenue [1]	59.9	49.3	44.2
Operating income [2]	38.3	32.6	24.0

[1] *Gross revenue less cost of sales*

[2] *Gross revenue less costs of sales less operating and general and administration expense and amortization*

[3] *Restated for certain NGLs operations previously managed and reported in Energy Services now reported in Gathering and Processing*

	2004	2003	2002
Volume of power sold (thousands of MWh)	3,481	3,266	2,669
Price received on the sale of power ($/MWh) [1]	48.77	47.56	41.27
Alberta power pool spot price ($/MWh) [1]	54.54	62.98	43.85

[1] *Average for the year*

Business activities

The Energy Services segment includes the provision of electricity to the Alberta wholesale market, the procurement and supply of energy to end-user customers across Canada and the production of oil and gas. The portfolio of assets in this segment includes coal generation capacity through long-term power purchase agreements (PPAs), a gas fired peaking power complex through a long-term lease and an energy agency business marketed under AltaGas, PremStar and ECNG trade names. Also included is a small portfolio of oil and natural gas reserves acquired over time in association with various asset acquisitions that have been retained as underpinning to certain gas services contracts.

The main drivers of performance for the power services component are megawatt hours (MWh) of power sold, forward sales prices and the Alberta power pool prices on volumes sold on the spot market. Gas services component performance drivers are volumes marketed and exchanged on behalf of customers and the fees earned for the service provided.

AltaGas' power portfolio at the end of 2004 was 478 megawatts (MW) of power generation capacity representing approximately six percent of the Alberta power capacity. The Sundance B power purchase arrangements provide 353 MW of power generation capacity at two plants in Alberta until December 31, 2020. The 36 month Genesee energy contract, entered into April 1, 2003, provides a further 100 MW at an additional two plants. On September 1, 2004 AltaGas entered into a ten year capital lease with Maxim Energy Group Ltd. for 25 MW of capacity, generated by four gas fired peaking plants, located in southern Alberta. The capital lease requires AltaGas to pay monthly variable operating and maintenance charges plus a capacity fee. AltaGas retains all of the ancillary service and peaking sales revenues.

The addition of the 25 MW of natural gas generation peaking capacity provides fuel diversity to AltaGas' coal fired generation. It adds a fifth independent supply source to the Trust's portfolio. The gas fired peaking power assets can ramp up quickly, providing a degree of operational backstopping to AltaGas' Sundance B PPAs and the Genesee energy contract. The peaking gas supply requirement is managed by AltaGas' gas services component.

Since 1994, AltaGas has marketed natural gas processed through its field gathering and processing, transmission and extraction facilities and gas supplied by a pool of producers. On October 6, 2004 AltaGas significantly expanded this component with the acquisition of substantially all of the assets, including the company names, and liabilities of PremStar Energy Canada Ltd. and its subsidiaries ECNG Inc. and Energistics Group Inc. (collectively PremStar). The purchase price of $20.5 million net of acquisition costs, after closing adjustments from the effective date of April 1, 2004, was paid primarily by way of the issuance of 993,789 trust units from treasury. PremStar is one of Canada's leading energy agency businesses, which on a fee for service basis, provides energy supply, arranges for transportation services, and supports customers with valuable market information. There is minimal capital required to operate the gas services business.

Results of operations

Revenue in the Energy Services segment increased 23 percent to $630.4 million in 2004 from $510.8 million in 2003. The increase was primarily driven by higher power sales volumes.

The power services component generated net revenue of $47.9 million for the full year of 2004 compared to $41.0 million for the same period in 2003. Increases for 2004 were due to higher volumes sold due to the full year contribution from the Genesee energy contract entered into on April 1, 2003 and the addition of the Alberta peaking plants and higher realized prices on power sales. The Alberta Electric System Operator (AESO) is entitled quarterly to recover or refund variances between the revenues collected through transmission charges and the expenses incurred by them. For 2004, the cumulative quarterly adjustments have resulted in a net credit to AltaGas' operating income of $0.9 million compared to a credit of $3.6 million for 2003.

The gas services component contributed net revenue of $5.3 million for the full year 2004 compared to $0.7 in 2003. The PremStar acquisition at the beginning of the fourth quarter of 2004 was the main driver for the growth contributing $3.8 million.

Partially offsetting the increase in net revenue was a significant increase in administrative costs in the segment. This is largely due to PremStar, which, as an energy marketing and agency businesses, is a people based business and carries a relatively high proportion of administrative expense, which tempers its net revenues impact on operating income. The increase in amortization expense, in this segment for 2004 compared to 2003 is due to the amortization of the PremStar contracts and relationships purchased.

Net additions to capital assets in the Energy Services segment were $15.1 million during 2004 compared to $2.5 million during 2003. The addition of the peaking plants was the primary driver of the year over year increase.

Business strategy

The Sundance B PPAs provide AltaGas with a profitable low cost coal-based generation position in the Alberta power market where power pricing is driven by the natural gas fuel cost of plants that provide peak loads. This natural gas link of power to the gathering and processing and gas services businesses means that as natural gas becomes more expensive, AltaGas' coal fired power will receive higher prices. Since 2001, AltaGas has diversified its power portfolio and optimized its original investment by mitigating the operational risks inherent in owning rights to only two generating units. In 2003 the Genessee energy contract provided AltaGas with more diversity of power supply from the two additional units, and the Alberta peaking plants leased in 2004 provide further insurance for operational outages. The peaking plants also allow the Trust to quickly capture attractive peak load power pricing.

AltaGas will continue to invest in power opportunities to optimize its existing power investments. The Trust will pursue additional PPAs and other assets that are supported by long-term power arrangements. AltaGas will not invest in plants that are solely merchant risk, but will look for gas fired, renewable or hydro-power assets with contractual underpinning, with a view to augmenting its existing volumes, reducing operating risk and capturing peak prices in a low risk manner. Underlying these goals is an intent to provide additional related business for the gas services component and to build on the Trust's expertise in operating natural gas-fired equipment.

The business strategy for PremStar's energy supply and consulting services is focused on end-users in the commercial, industrial and institutional sectors in Ontario. It builds on PremStar's long-term relationships, responsive customer service and efficient back-office systems. Expertise in gas markets and innovative contracting arrangements enable PremStar to create value and lock in margins. The PremStar acquisition is expected to increase 2005 and subsequent year's gas services component's results. By offering natural gas marketing services to customers moving product through AltaGas' western Canadian gathering and processing and natural gas distribution assets, the gas services component is a link in the AltaGas strategy of value chain optimization. The access to end-user demand through PremStar is expected to bring more volumes through AltaGas' extraction plants, improving margins in both components.

Business risks

AltaGas' revenue from power sales are subject to Alberta electricity market factors such as fluctuating supply and demand, which may be affected by weather, customer usage, economic activity and growth. Each of these may have an impact on the prices the Trust receives for the power sold, which in turn can create volatility in earnings. AltaGas reduces its exposure to floating electricity prices by supplying internal electrical demand requirements and by using a balanced portfolio of forward sales contracts to lock in power margins to reduce pricing risk. Contracts are of terms and at prices dictated by market liquidity and other conditions. For 2005, contracts are in place for periods ranging from three months to 18 months in duration. AltaGas' peaking generation is activated to meet peak power demand or when power is required to offset operating risk at AltaGas PPA plants.

AltaGas does not engage in the speculative trading of power. The Trust actively manages its acquired power capacity to provide stable, predictable earnings and cash flow. The average price AltaGas received from power sales for the 12 months of 2004 was $48.77 per MWh compared to $47.56 per MWh for the same period in 2003. Average Alberta Power Pool spot prices were $54.54 per MWh and $62.98 per MWh for 2004 and 2003 respectively.

AltaGas does not take on commodity price risk in connection with gas services activities and has implemented rigorous risk management processes and systems to carefully monitor and manage its gas services business. Included in these are policies and procedures to manage counterparty credit risk.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

FINANCIAL RESULTS

($ millions)	2004	2003	2002

Business activities

AltaGas Utilities Inc. (AUI), which services 90 communities in Alberta, celebrated 50 years of service as a provincially regulated natural gas distribution utility in 2004. Inuvik Gas Ltd. (Inuvik Gas) distributes gas to the town of Inuvik in the Northwest Territories. Heritage Gas Limited (Heritage) has distribution franchises to deliver natural gas to six counties in Nova Scotia and delivered gas off its Dartmouth system to its first customer in late 2003.

AUI and Heritage Gas are provincially regulated as to natural gas rates and terms and conditions of service. Customer rates are based on anticipated sales as well as the revenue required to recover estimated costs of service and an allowed return on rate base. Rate base generally consists of the aggregate of the utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Return on rate base is comprised of regulatory allowed financing costs and return on common equity.

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual distribution net revenue, resulting in strong first and fourth quarter results and second and third quarter results that show either small profits or losses.

The main drivers of performance in the Natural Gas Distribution segment are the allowed regulatory returns on equity and weather in the AUI franchise areas. The segment performance is expected to be impacted in future years by growth within the Heritage Gas franchise areas. Inuvik Gas is small, and while profitable, segment results are not materially impacted by changes in its operating performance.

In July 2004, the Alberta Energy and Utilities Board (AEUB) issued its Generic Cost of Capital decision confirming a capital structure at 41 percent equity and 59 percent debt and establishing the 2004 rate of return on common equity for AUI at 9.6 percent. A formula was approved which establishes the rate of return on common equity at 9.5 percent for 2005. In August 2004, the AEUB confirmed the AUI revenue requirements negotiated for 2003 and 2004. AUI filed an application to allocate costs of service to rate classes and the hearing on resulting rate design concluded on January 14, 2005. A decision is expected early in the second quarter of 2005. AUI filed a General Rate Application for 2005 and 2006 in the fourth quarter of 2004, and expects a hearing in mid 2005.

AUI continues to make moderate increases in the customer base in its franchise areas. During the third quarter of 2004 AUI entered into an agreement to acquire distribution assets that provide natural gas service to approximately 112 customers in the hamlet of Suffield in southern Alberta. Subject to the approval of the AEUB, this purchase will be the last of the small independently owned natural gas distribution companies in Alberta.

Heritage received approval of a final Schedule of Rates, Tolls and Charges by the Nova Scotia Utility and Review Board in June of 2004. This decision approved the requested 13.0 percent return on equity, a 45 percent equity, 55 percent debt capital structure, 8.75 percent cost of debt, capital expenditures, revenue requirement and tariffs. Heritage is focused on building momentum for consumers to switch heating fuel sources in Nova Scotia's market place.

Results of operations

Net revenue for the year ended December 31, 2004, increased slightly compared to 2003 due to an increase in the volume of gas delivered. In 2004, net revenue in AltaGas' Natural Gas Distribution segment was $30.7 million compared to $30.6 million for the same period in 2003. AUI generates the majority of the Natural Gas Distribution segment net revenue. AUI's net revenue is unaffected by changes in the cost of gas as the actual cost is permitted, subject to approval by the Alberta Energy and Utilities Board, to be passed through to the default supply customers. The increase in revenues associated with customer growth for 2004 was partially offset by the impact of the completion of negotiations on AUI's 2003 and 2004 general rate application. Lower than anticipated allowed rates of return on rate base and interest and operating expenses for 2003 resulted in a charge to net income of $0.5 million in the first quarter of 2004 related to previously recorded 2003 results.

Heritage is in the initial stages of its planned growth and activated its Nova Scotia natural gas distribution system in late December 2003. At the end of 2004, Heritage Gas had 138 customers using natural gas, an additional 42 service lines installed, which will be activated early in 2005 and signed commitments from another 36 customers, increasing its rate base to $14.7 million.

Higher operating and administrative expenses in this segment in 2004 were related to increases in the cost of insurance, pension costs and routine operating and maintenance activities.

Net additions to capital assets in the Natural Gas Distribution segment were $9.6 million during the year ended December 31, 2004 compared to $16.8 million for the same period in 2003. Additions in 2003 included a regulatory adjustment of $10.2 million, which had an offsetting amount charged to accumulated amortization.

Business strategy

AUI will continue to pursue growth in its existing franchise areas and is positioned well to capture opportunities arising in the areas around Edmonton. Inuvik Gas' presence north of the Arctic Circle positions it to capture possible growth as northern development occurs with the major pipeline projects bringing Alaskan and northern Canadian gas to southern markets. Heritage Gas has a five year development plan, filed with regulators, that involves extending its reach and customer base gradually as the Nova Scotia markets embrace the benefits of natural gas. The development strategy of Heritage Gas is to obtain anchor loads and other customer commitments sufficient to meet economic targets prior to undertaking system expansions. The company has achieved the 150 customers required to meet the economic feasibility and revenue requirement tests for expansion of natural gas service to the town of Amherst and expects that natural gas services will be available to the town in the fourth quarter of 2005.

Business risks

AltaGas' natural gas distribution businesses are subject to regulation in the jurisdictions in which they carry on business. In the natural gas distribution business, where parties are subject to return on rate base regulation, rates are set to allow the regulated entity the opportunity to cover its costs and earn a reasonable return on a set capital structure. There is no guarantee that the entity will earn its allowed return because rates are set to cover future estimated costs, and estimated demand is based on normal weather conditions. The entity's actual revenues may be more or less than forecast due to variations from normal weather, conservation and other factors which impact customer usage. Expenses and other revenues may also be higher or lower than forecast.

INVESTED CAPITAL

During 2004, AltaGas acquired $130.2 million in capital assets, energy services arrangements, contracts and relationships and long-term investments compared to $70.8 million in the previous year. Growth capital accounted for $119.0 million of the total 2004 investment, and included gathering and processing facility acquisitions and expansions, investments in limited partnership units of Taylor NGL Limited Partnership (Taylor), the acquisition of the businesses of PremStar and the Alberta peaking plants capital lease. Maintenance capital projects amounting to $6.4 million in 2004 ($10.6 million in 2003) were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments. Also spent in 2004 were $4.8 million ($4.3 million in 2003) on administrative capital requirements, which generally include computer hardware and software projects expected to increase the effectiveness of the operating and administrative functions of the Trust.

INVESTED CAPITAL BY SEGMENT

For the year ended December 31, 2004 ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Net additions:				
Capital assets	$ 76.9	$ 15.1	$ 9.6	$ 101.6
Energy services arrangements, contracts and relationships	–	18.4	–	18.4
Long-term investments and other assets	9.4	–	0.8	10.2
	$ 86.3	$ 33.5	$ 10.4	$ 130.2

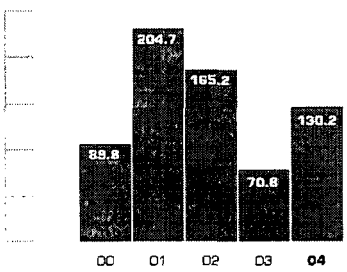
For the year ended December 31, 2003 ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Net additions:				
Capital assets	$ 33.3	$ 2.5	$ 16.8	$ 52.6
Long-term investments and other assets	18.2	–	–	18.2
	$ 51.5	$ 2.5	$ 16.8	$ 70.8

INVESTED CAPITAL BY ACTIVITY

AltaGas' categorizes its invested capital into maintenance, growth and administrative. The breakdown for 2004 and 2003 periods are:

For the year ended December 31, 2004 ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Capital				
Maintenance	$ 3.4	$ 0.2	$ 2.8	$ 6.4
Growth	79.5	33.0	6.5	119.0
Administrative	3.4	0.3	1.1	4.8
	$ 86.3	$ 33.5	$ 10.4	$ 130.2

For the year ended December 31, 2003 ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Capital				
Maintenance	$ 6.3	$ 1.9	$ 2.4	$ 10.6
Growth	42.4	–	3.3	45.7
Administrative	2.8	0.6	0.9	4.3
Regulatory adjustment	–	–	10.2	10.2
	$ 51.5	$ 2.5	$ 16.8	$ 70.8



FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction. The most significant impact of these contracts on 2004 business has been to provide net revenue stability in the power services component. Alberta Power Pool daily average spot prices ranged from $7.13 per MWh to $165.47 per MWh in 2004. Through the use of financial hedges on a portion of its 2004 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At December 31, 2004 AltaGas had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $239.2 million total drawn bank debt. Including AltaGas' medium term notes (MTNs), the rate has been fixed on 85 percent of AltaGas' total debt. The proportion of fixed rate debt was higher than AltaGas' target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

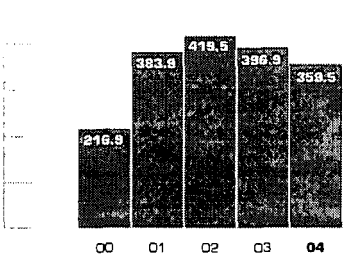
On June 10, 2004 the Trust closed a public offering of 4,730,000 trust units, at a price of $18.70 per trust unit for gross proceeds of $88.5 million. The net proceeds of the offering to the Trust, after payment of fees and expenses of $4.7 million was approximately $83.8 million. The net proceeds were used to reduce bank indebtedness and for general corporate purposes including AltaGas' ongoing capital program, the acquisition of EEEP and funding future acquisitions.

Invested Capital ($ millions)

LIQUIDITY AND CAPITAL RESOURCES

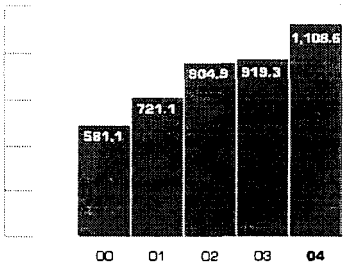
Funds generated from operations for the year ended December 31, 2004 increased to $108.6 million from $90.2 million for the year ended December 31, 2003.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium Distribution™ programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005.



The use of debt or equity funding is based on AltaGas' capital structure, determined by considering the norms and risks associated with each of its business components and segments. At December 31, 2004 AltaGas had total debt outstanding in its operating subsidiaries of $359.5 million compared to $396.9 million at December 31, 2003. AltaGas Operating Partnership had $100.0 million in MTNs outstanding and AltaGas Holding Limited Partnership No. 1 had access to prime loans, banker's acceptances and letters of credit through bank lines of approximately $425.0 million. At December 31, 2004 AltaGas Holding Limited Partnership No. 1 had drawn bank debt of $239.2 million and letters of credit outstanding of $28.7 million. These two entities fund all operating subsidiaries.

As an income trust, AltaGas targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at December 31, 2004 decreased to 43 percent from 52 percent at December 31, 2003.



AltaGas had a working capital deficiency of $106.5 million at December 31, 2004 compared to a working capital surplus of $9.1 million at December 31, 2003. The primary driver for this change in working capital is related to the classification of AltaGas' $100.0 million MTN balance as current portion of long-term debt.

Following AltaGas' announcement in March, 2004 of its then proposed conversion to a trust Standard & Poor's (S&P) confirmed the rating on AltaGas' long-term corporate credit at BBB- with a negative outlook and the rating on the senior unsecured debt at BBB-. The Dominion Bond Rating Service (DBRS) confirmed the rating of AltaGas Income Trust at BBB (low) with a stable trend and applied the same rating to AltaGas Operating Partnership and the medium term notes held by AltaGas Operating Partnership. The Trust has a stability rating of SR-3 (stable outlook) from S&P and STA-3 (mid) from DBRS.

Total Debt ($ millions)

Total Assets ($ millions)

CONTRACTUAL OBLIGATIONS

AltaGas entered into a capital lease with Maxim Energy Group Ltd. for the right to 25 MW of gas fired power peaking capacity and its related ancillary service and peaking sales revenues. The contract has a ten year term commencing September 1, 2004 and includes an option at the end of the initial term to extend the term for a further 15 years or to purchase the assets. The lease commitment is for $13.8 million, $0.8 million of which was paid on closing with the balance due in monthly payments comprised of principal and interest of $0.2 million.

AltaGas' obligations for the next five years and for periods thereafter are illustrated in the table below.

	Payments Due by Period				
Contractual Obligations ($ millions)	Total	Less than1 year	1 – 3 years	4 – 5 years	After 5 years
Long-term debt	346.2	107.0[1]	239.2[2]	–	–
Capital leases	18.2	1.9	3.8	3.8	8.7
Operating leases	9.2	3.4	5.6	0.2	–
Total contractual obligations	373.6	112.3	248.6	4.0	8.7

(1) *Includes AltaGas' $100.0 million medium term notes maturing on October 4, 2005. The balance relates to short term debt drawn on the operating facility*

(2) *Extendible revolving term credit facility which can be extended beyond the current term date of November 28, 2005 for an additional year*

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas Services Inc. into an income trust effective May 1, 2004, ASI's securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units. They are exchangeable into trust units on a one for one basis. The exchangeable units are not listed for trading on an exchange.

On August 17, 2004 Enbridge Inc. completed a sale of 13,397,500 trust units of AltaGas and 4,800,000 trust units on October 4, 2004. As at December 31, 2004 Enbridge Inc. held no AltaGas trust units.

As of January 31, 2005 the Trust had 51.2 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.2 billion based on a closing trading price on January 31, 2005 of $23.36 per trust unit. There are 0.2 million exercisable options under the terms of the unit option agreement brought forward in the reorganization. All options currently issued under this plan were vested on May 1, 2004.

CHANGES IN ACCOUNTING POLICIES

Effective January 1, 2004, AltaGas prospectively adopted the provisions of the Canadian Institute of Chartered Accountants' (CICA) new Accounting Guideline "Hedging Relationships" that specifies the circumstances in which hedge accounting is appropriate, including the identification, documentation, designation and effectiveness of hedges, and the discontinuance of hedge accounting. AltaGas' hedging relationships are effective and appropriately designated and documented and therefore gains and losses relating to hedges are deferred and recognized in the same period and financial statement category as the hedged transaction.

Effective the first quarter of 2004, AltaGas changed its accounting policy for stock-based compensation, now recognizing the compensation expense related to stock options in the financial statements according to the fair value method. Prior to the change in policy, the Trust did not record compensation expense but disclosed the impact of the accounting for stock options under the fair-value method on a pro-forma basis. Under the provisions set out by the CICA, AltaGas has adopted the change retroactively.

On January 18, 2005 the CICA issued revised draft EIC-151 "Exchangeable Securities issued by Subsidiaries of Income Trusts" that states that exchangeable securities issued by a subsidiary of an income trust should be reflected as either non-controlling interest or debt in the consolidated balance sheet unless they meet certain criteria. The exchangeable units issued and outstanding at December 31, 2004 by AltaGas Limited Partnership No. 1 meet the criteria in the draft EIC-151 and as such are reflected in unitholders' equity in the Trust's balance sheet.

Subsequent to the date of AltaGas financial statements, the CICA released the final version of EIC-151 with restated criteria that would require, effective June, 2005, AltaGas to reflect exchangeable securities as non-controlling interest or debt.

CRITICAL ACCOUNTING ESTIMATES

Since a determination of the value of many assets, liabilities, revenues and expenses is dependent upon future events, the preparation of the Trust's consolidated financial statements requires the use of estimates and assumptions which have been made using careful judgment. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment.

With respect to impairment assessment, management has made fair value determinations related to goodwill, estimating future cash flows as well as appropriate discount rates. The estimates have been applied consistently with prior periods. Management has determined no impairment has occurred.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

RELATED PARTIES

The business of Taylor NGL Limited Partnership (Taylor) is the ownership and operatorship of facilities in the midstream sector of the western Canadian natural gas industry including the Joffre ethane extraction plant in which AltaGas has a 50 percent ownership interest. On September 4, 2003, the Trust loaned $29.0 million to Taylor. The loan was interest bearing at prime plus one percent and was repaid on October 17, 2003. On each of October 17, 2003 and August 19, 2004 the Trust purchased 1.6 million units of Taylor. AltaGas paid $8.7 million and $10.6 million respectively for the investments.

The Trust pays rent under a lease for office space to 2013761 Ontario Inc. which is owned by an employee. Payments of $21 thousand were made in 2004. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

During 2003, AltaGas purchased maintenance services totaling $0.1 million from L.O.P. Inc. (LOP). These transactions have been recorded at their exchange amounts. On June 30, 2004, LOP, an equity accounted investee, repaid a $2.3 million loan extended to it by the Trust. At the same time, the Trust sold its investment in LOP to LOP's majority shareholder for proceeds of $0.5 million.

4TH QUARTER HIGHLIGHTS

Fourth quarter 2004 was another record quarter for the Trust generating net income of $25.8 million or $0.49 per unit up from $12.0 million for the same period of 2003. Contributing to the quarter's results were the PremStar acquisition, inclusion of the first full quarter of EEEP in operating earnings and continued strong operating results and favourable pricing in the gathering and processing, extraction and power components of the business. The income tax benefit of the Trust structure also contributed to the growth in net income.

Revenue for the three months ended December 31, 2004 rose 74 percent to $311.8 million compared to the same period in 2003. The increases in revenue are primarily due to the acquisition in Energy Services and Gathering and Processing segments, internal growth, higher frac spreads and higher average prices received on hedged power volumes sold.

Net revenue increased 17 percent for the three months ended December 31, 2004 to $71.6 million compared to the same period of 2003. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and the cost of goods sold.

SUMMARY OF EIGHT MOST RECENT QUARTERS[1]

($ millions)	Q4 04	Q3 04	Q2 04	Q1 04	Q4 03	Q3 03[1]	Q2 03[1]	Q1 03[1]
Net revenue	71.6	61.5	59.5	57.2	61.0	53.3	51.2	54.4
Net income	25.8	17.1	11.9	11.0	12.0	9.3	6.8	10.2
($ per unit)								
Earnings								
Basic	0.49	0.33	0.25	0.24	0.26	0.20	0.15	0.23
Diluted	0.48	0.33	0.25	0.24	0.26	0.20	0.15	0.22
Dividends/distributions [2]	0.45	0.45	0.30	0.11	0.11	0.11	0.08	0.08

[1] *Restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations*

[2] *The Trust pays a stable monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust*

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favourable business environment, and seasonality in the business. The first and last quarters each year are AltaGas' most profitable on the basis of the contribution from the Natural Gas Distribution segment which, as a distributor of natural gas for heating purposes, reports higher earnings in colder periods than in warmer periods.

Net income of $10.2 million in the first quarter of 2003 set a new high for ASI for that period in a year. The projects and acquisitions undertaken in the fourth quarter of 2002 were the main drivers of this performance, along with an improved business environment in all business segments. The Wabasca facilities acquisition increased throughput in the field gathering and processing component as did sharply increased tie-in activity with a record 85 wells tied-in during the first quarter. Final commissioning of the Joffre ethane extraction plant provided volume increases in the extraction component and volumes in the transmission component were higher due to the Suffield pipelines acquisition. Unplanned outages in the power services component, combined with higher than expected transmission costs at the Alberta Electric System Operator, partially offset the gains made in the other segments. AltaGas commenced selling power on April 1, 2003 from the Genesee energy contract which provides for 100 MW of power capacity from the Genesee power plant.

Second quarter 2003 net income was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold resulting from the Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the second quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. Higher NGL fractionation spreads at the Empress ATCO extraction plant contributed to the increase. In addition, power prices improved over the same quarter in the prior year. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavourable income tax expense charge of $1.2 million related to announced changes in federal large corporation's tax legislation, was still the highest quarterly net income reported by AltaGas since inception. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract, strong power prices and the completion of modifications to increase AltaGas' share of ethane production at the EnCana-operated Empress extraction plant late in the third quarter of 2003.

First quarter 2004 produced record net income of $11.0 million for that quarter based on increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

The second quarter of 2004 saw AltaGas convert from a corporate structure to an income trust. Very strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million and income per unit of $0.25 both improved substantially compared to the same quarter of the prior year. During the quarter, the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds used to reduce the Trust's debt. This quarter also saw AltaGas commence monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter that contributed to the bottom line included the closing of the EEEP acquisition on August 25, 2004, the acquisition of the Alberta power peaking capacity and high NGLs fractionation spreads.

Fourth quarter 2004 was highlighted above.

SENSITIVITY ANALYSIS

The following table illustrates the anticipated effects of economic and operational changes on AltaGas' 2005 net income.

Factor Share	Increase or Decrease	Increase or Decrease Net income per unit
Field gathering and processing volumes at existing facilities	Five Mmcf/d	0.012
Field gathering and processing operating margin per mcf	One cent	0.026
Electricity prices	$1 per MWh	0.010
Natural gas prices	$0.50/mcf	0.001
Natural gas liquids fractionation spread	$1 per Bbl	0.005
Interest rates	25 basis points	0.002
Degree days [1]	Ten percent	0.015
Change in allowed ROE [2]	One percent	0.007

[1] *Degree day – The cumulative extent to which the daily mean temperature falls below 18 degrees Celsius. Normal degree days are based on a 20 year rolling average. The 10 percent is relative to the 20 year rolling average*

[2] *The change in allowed ROE pertains to AltaGas Utilities Inc.*

OUTLOOK

The outlook for 2005 is positive. AltaGas expects to grow earnings and assets in all parts of its business through internal growth opportunities and strategic acquisitions. Drilling activity in the majority of AltaGas' operating areas is expected to remain strong given the favourable commodity pricing environment, resulting in high well tie-in activity in the field gathering and processing component. As well, operating management has identified a number of internal expansion opportunities to pursue, which will further add value in that component. Exploitation of synergies across the businesses are expected to increase processed volumes or otherwise present improved revenue opportunities. Power prices received on the Trust's hedged volumes are expected to be higher in 2005 than 2004 although average spot prices on unhedged volumes are expected to be lower. The late August 2004 acquisition of the Edmonton ethane extraction plant, the power peaking plant purchase and the October 2004 acquisition of PremStar businesses are expected to contribute to improved operating results for a full year in 2005.

AltaGas has grown through accretive acquisitions in the past and expects to continue the trend. In the current environment, multiples being paid to acquire properties are, in many cases, too high in management's view. Management expects to adhere to the principles it has in the past ensuring any acquisitions it pursues will: provide long-term stable earnings and cash flows, will ensure concentrations of risk are minimized and will create long-term value for unitholders.

SUBSEQUENT EVENTS

On February 7, 2005 the Trust sold 1.4 million units of its investment in Taylor NGL Limited Partnership for net proceeds of $12.8 million realizing a pre-tax gain of approximately $5.0 million. The sale reduces AltaGas' ownership in Taylor to 4.0 million units or 14.0 percent.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, default, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

Corporate Governance

As members of the Board of Directors of AltaGas General Partner Inc., elected by the Trust at the direction of the unitholders to manage or supervise the management, business and affairs of the Trust, it is our responsibility to ensure that the interests of unitholders and other stakeholders are properly represented. To that end, the Board of Directors has assumed responsibility for stewardship of the Trust and has developed standards and procedures for its operations that meet the highest standards of governance. We regularly review the activities of the Trust with a view to ensuring its business affairs are conducted appropriately, with the honesty, integrity, transparency and accountability that unitholders expect. We are committed to continuing to direct the activities of this Trust to those high standards.

On behalf of the Board of Directors:

Myron F. Kanik

Lead Director

AltaGas believes that good governance improves performance and benefits all unitholders. AltaGas is committed to the highest standards of governance. The following is a summary of the Trust's Governance Practices. A more detailed description of the Trust's practices can be found in the Trust's Information Circular filed on the SEDAR system.

Statement of Governance Practices

MANDATE OF THE BOARD

The Board of Directors of the General Partner exercises overall responsibility for the management and supervision of the affairs of the Trust. This includes the appointment of the Chief Executive Officer and senior officers of AltaGas Ltd. and AltaGas General Partner Inc., approval of their compensation and monitoring of the Chief Executive Officer's performance.

The Board of Directors also reviews and adopts an annual strategic plan. Key objectives, as well as quantifiable operational and financial targets, and systems for the identification, monitoring and mitigation of principal business risks are incorporated into the annual strategy review.

The Board of Directors ensures that a process is established that adequately provides for succession planning, including the appointing, training and monitoring of senior management.

The Board of Directors also annually reviews a communications policy in relation to unitholders, employees, financial analysts, the media and other stakeholders. The policy contains procedures and practical guidelines for the consistent, transparent, regular and timely public disclosure of material and non-material information about the Trust.

BOARD COMPOSITION

The Board is currently composed of eight Directors, seven of whom are unrelated directors under the existing TSX Guidelines. Mr. David Cornhill, Chairman and Chief Executive Officer of AltaGas General Partner Inc., is the only member of the Board of Directors who is also a member of management.

BOARD COMMITTEES

The Board has four standing committees: Governance; Audit; Environment and Safety; and Human Resources and Compensation. The Governance, Audit and Human Resources and Compensation committees are comprised solely of non-management, unrelated directors. The Environment and Safety Committee is comprised of a majority of non-management, unrelated directors. The Chairman and Chief Executive Officer of AltaGas General Partner Inc. serves on the Environment and Safety Committee. Each of the committees has a Board of Directors approved mandate which prescribes its composition and responsibilities as well as administrative duties.

GOVERNANCE COMMITTEE

The Governance Committee is responsible for identifying individuals qualified to become Board of Directors members, and recommending to the Board of Directors proposed nominees for election to the Board of Directors and Board of Directors compensation. The Committee is also responsible for reviewing, reporting and providing recommendations for improvement to the Board with respect to all aspects of governance. The Governance Committee, on a periodic basis, assesses the effectiveness of the Board of Directors as a whole, the Committees of the Board of Directors and the contributions of individual members. As well, the committee is responsible for the orientation and education of new members of the Board of Directors and continuing development of existing members of the Board of Directors.

AUDIT COMMITTEE

The Audit Committee reviews, reports and provides recommendations to the Board of Directors on the annual and interim financial statements and on: the integrity of the financial reporting of the Trust; the adequacy of the Trust's processes for identifying and managing financial risk; the adequacy of its internal control system; the appointment, terms of engagement, provision of non-audit services and proposed fees of the independent auditor. The Audit Committee meets regularly in-camera with the external auditor without management present.

ENVIRONMENT AND SAFETY COMMITTEE

The Environment and Safety Committee is responsible for reviewing, reporting and making recommendations to the Board of Directors on the Trust's policies and procedures with respect to environment, occupational health and safety.

HUMAN RESOURCES AND COMPENSATION COMMITTEE

The Human Resources and Compensation Committee reviews, reports and provides recommendations to the Board of Directors on the compensation of the Chief Executive Officer and the appointment and compensation of senior corporate officers, succession plans, the compensation policy for all other employees and the approval of all grants of stock options.

ALTAGAS INCOME TRUST

NOTICE OF THE ANNUAL MEETING OF UNITHOLDERS TO BE HELD ON APRIL 28, 2005

NOTICE IS HEREBY GIVEN that the annual meeting (the "**Meeting**") of the holders ("**Unitholders**") of trust units and the special voting unit of AltaGas Income Trust (the "**Trust**") will be held at the Metropolitan Conference Centre, 333 – 4th Avenue S.W., Calgary, Alberta, on Thursday, April 28, 2005, at 3:00 p.m. (Calgary time) for the following purposes:

1. to receive the annual report of the directors of AltaGas General Partner Inc. (the "**General Partner**"), on behalf of the Trust, to the Unitholders and the consolidated financial statements of the Trust for the year ended December 31, 2004 and the auditors' report thereon;

2. to consider the nominees standing for election as directors of the General Partner and to direct Computershare Trust Company of Canada, as trustee of the Trust, to cause the election of the directors of the General Partner;

3. to appoint Ernst & Young LLP as auditors of the Trust and to authorize the directors of the General Partner to fix Ernst & Young LLP's remuneration in that capacity; and

4. to transact such other business as may properly be brought before the Meeting or any adjournment thereof.

Information relating to the matters to be brought before the Meeting is set forth in the Management Information Circular which accompanies this notice and which is expressly made a part of this notice.

DATED at Calgary, Alberta, as of the 16th day of March, 2005.

BY ORDER OF THE BOARD OF DIRECTORS OF ALTAGAS GENERAL PARTNER INC., for and on behalf of ALTAGAS INCOME TRUST

"David W. Cornhill"
David W. Cornhill
Chairman and Chief Executive Officer

Unitholders of record at the close of business on March 14, 2005 (the "Record Date"), will be entitled to receive notice of, and to attend and vote at, the Meeting. No Unitholder who becomes a Unitholder after the Record Date shall be entitled to attend or vote at the Meeting.

A Unitholder who is unable to attend the Meeting in person is requested to complete and sign the enclosed form of proxy and deliver it by regular mail to Computershare Trust Company of Canada, 100 University Ave., 9th Floor, Toronto, Ontario M5J 2Y1 (or to send it by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W, Calgary, Alberta, T2P 3S8). In order to be valid and acted upon at the Meeting, the form of proxy must be received no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or be deposited with the Chairman of the Meeting prior to its commencement.

Holders of Class B limited partnership units ("LP #1 B Units") in the capital of AltaGas Holding Limited Partnership No. 1 of record at the close of business on the Record Date will be entitled to receive notice of, and to attend and vote at the Meeting.

Holders of LP #1 B Units who are unable to attend the meeting in person are requested to complete and sign the enclosed Voting Instruction Form and deliver it by regular mail to Computershare Trust Company of Canada, 100 University Ave., 9th Floor, Toronto, Ontario M5J 2Y1 (or to send it by courier or hand delivery to Computershare Trust Company of Canada's Calgary office at 600, 530 – 8th Avenue S.W., Calgary, Alberta, T2P 3S8). In order to be valid and acted upon at the Meeting, the Voting Instruction Form must be received no later than 5:00 p.m. (Calgary time) on the second business day before the date of the Meeting or any adjournment thereof or be deposited with the Chairman of the Meeting prior to its commencement.

ONTARIO
FEE RULE

FORM 13.502F1
ANNUAL PARTICIPATION FEE FOR REPORTING ISSUERS

Reporting Issuer Name:	AtlaGas Income Fund		
Financial Year Ending, used in calculating the participation fee:	December 31, 2004		
Complete Only One of 1, 2 or 3:			
1. Class 1 Reporting Issuers (Canadian Issuers – Listed in Canada and/or the U.S.)			
Market value of equity securities:			
Total number of equity securities of a class or series outstanding at the end of the issuer's most recent financial year	53,145,535		
Simple average of the closing price of that class or series as of the last trading day of each of the months of the financial year (under paragraph 2.5(a)(ii)(A) or (B) of the Rule) X	20.51		X
Market value of class or series =	1,091,040,423		
			(A)
(Repeat the above calculation for each class or series of equity securities of the reporting issuer that are listed and posted for trading, or quoted on a marketplace in Canada or the United States of America at the end of the financial year)	n/a		(A)
Market value of corporate debt or preferred shares of Reporting Issuer or Subsidiary Entity referred to in Paragraph 2.5(b)(ii):	102,536,000		(B)
[Provide details of how determination was made.]			
(Repeat for each class or series of corporate debt or preferred shares)			(B)
Total Capitalization (add market value of all classes and series of equity securities and market value of debt and preferred shares) (A) + (B) =	**1,193,576,423**		
Total fee payable in accordance with Appendix A of the Rule	**$50,000**		

Reduced fee for new Reporting Issuers (see section 2.8 of the Rule)			
Total Fee Payable x Number of entire months remaining in the issuer's financial year / 12			
Late Fee, if applicable (please include the calculation pursuant to section 2.9 of the Rule)			
2. Class 2 Reporting Issuers (Other Canadian Issuers)			
Financial Statement Values (use stated values from the audited financial statements of the reporting issuer as at its most recent audited year end):			
Retained earnings or deficit			
Contributed surplus			
Share capital or owners' equity, options, warrants and preferred shares (whether such shares are classified as debt or equity for financial reporting purposes)			
Long term debt (including the current portion)			
Capital leases (including the current portion)			
Minority or non-controlling interest			
Items classified on the balance sheet between current liabilities and shareholders' equity (and not otherwise listed above)			
Any other item forming part of shareholders' equity and not set out specifically above			
Total Capitalization			
Total Fee payable pursuant to Appendix A of the Rule			
Reduced fee for new Reporting Issuers (see section 2.8 of the Rule)			
Total Fee Payable x Number of entire months remaining in the issuer's financial year / 12			
Late Fee, if applicable (please include the calculation pursuant to section 2.9 of the Rule)			

3. Class 3 Reporting Issuers (Foreign Issuers)			
Market value of securities:			
If the issuer has debt or equity securities listed or traded on a marketplace located anywhere in the world (see *paragraph 2.7(a) of the Rule):*			
Total number of the equity or debt securities outstanding at the end of the reporting issuer's most recent financial year			
Simple average of the published closing market price of that class or series of equity or debt securities as of the last trading day of each of the months of the financial year on the marketplace on which the highest volume of the class or series of securities were traded in that financial year. X			
Percentage of the class registered in the name of an Ontario person X			
(Repeat the above calculation for each class or series of equity or debt securities of the reporting issuer) =			
Capitalization (add market value of all classes and series of securities)			
Or, if the issuer has no debt or equity securities listed or traded on a marketplace located anywhere in the world (see paragraph 2.7(b) of the Rule):			
Financial Statement Values (use stated values from the audited financial statements of the reporting issuer as at its most recent audited year end):			
Retained earnings or deficit			
Contributed surplus			
Share capital or owners' equity, options, warrants and preferred shares (whether such shares are classified as debt or equity for financial reporting purposes)			
Long term debt (including the current portion)			
Capital leases (including the current portion)			
Minority or non-controlling interest			
Items classified on the balance sheet between current liabilities and shareholders' equity (and not otherwise listed above)			
Any other item forming part of shareholders' equity and not set out specifically above			

Percentage of the outstanding equity securities registered in the name of an Ontario person X	
Capitalization	
Total Fee payable pursuant to Appendix A of the Rule	
Reduced fee for new Reporting Issuers (see section 2.8 of the Rule)	

Total Fee Payable x $\frac{\text{Number of entire months remaining in the issuer's financial year}}{12}$ _____

Late Fee, if applicable	
(please include the calculation pursuant to section 2.9 of the Rule)

FORWARD-LOOKING INFORMATION

This Annual Information Form contains forward-looking statements. When used in this Annual Information Form and information incorporated herein by reference, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions, including, without limitation, those described in this Annual Information Form under the heading Risk Factors. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this Annual Information Form. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this Annual Information Form as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this Annual Information Form should not be unduly relied upon. Such statements speak only as of the date of this Annual Information Form. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

All dollar amounts in this Annual Information Form are in Canadian dollars unless otherwise stated.

GLOSSARY

"**Administration Agreement**" means the agreement among the Trust, the General Partner, AltaGas Ltd., as administrator, and others as described under Management of the Trust – Administration Agreement;

"**AEUB**" means the Alberta Energy and Utilities Board;

"**AltaGas**" means AltaGas Ltd., AltaGas Limited Partnership and the other operating affiliates of the Trust;

"**AltaGas LP1**" means AltaGas Holding Limited Partnership No. 1;

"**AltaGas LP2**" means AltaGas Holding Limited Partnership No. 2;

"**AltaGas Services**" or "**ASI**" means AltaGas Services Inc., a predecessor by amalgamation to AltaGas Ltd.;

"**AltaGas Utilities**" or "**AUI**" means AltaGas Utilities Inc.;

"**Arrangement**" means the arrangement, under the provisions of section 192 of the CBCA, involving, among others, AltaGas Services, the Trust, Holding Trust, the General Partner, AltaGas LP1 and AltaGas LP2 pursuant to which the business of AltaGas Services was reorganized into an income trust effective May 1, 2004;

"**ASTC Partnership**" means ASTC Power Partnership;

"**Bbls**" means stock tank barrels of NGLs, expressed in standard 42 US gallon barrels or 34.972 Imperial gallon barrels; "**MBbls**" means 1,000 Bbls; "**Bbls/d**" means Bbls per day;

"**Bcf**" means 1,000,000 Mcf of natural gas; "**Bcf/d**" means 1,000,000 Mcf of natural gas per day;

"**Board of Directors**" means the board of directors of the General Partner, as from time to time constituted;

"**BTU**" means one British thermal unit; "**MMBTU**" means 1,000,000 BTU;

"**Cash Flow of the Trust**" means for, or in respect of, any Distribution Period: (i) all cash amounts which are received by the Trust for, or in respect of, the Distribution Period, including, without limitation, interest, dividends, distributions, proceeds from the disposition of securities, returns of capital and repayments of indebtedness; plus (ii) the proceeds of any issuance of Trust units or any other securities of the Trust, net of the expenses of distribution, and, if applicable, the use of proceeds of any such issuance for the intended purposes; less the sum of (iii) all amounts which relate to the redemption of Trust units and which have become payable in cash by the Trust in the Distribution Period and any expenses of the Trust in the Distribution Period; and (iv) any other amounts (including taxes) required by law or the Declaration of Trust to be deducted, withheld or paid by or in respect of the Trust in such Distribution Period;

"**CBCA**" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"**Closing Market Price**" means: (i) an amount equal to the closing price of the Trust units if there was a trade on the date on which Trust units were tendered for redemption and the exchange or market provides a closing price; (ii) an amount equal to the average of the highest and lowest prices of the Trust units on the date on which the Trust units were tendered for redemption if there was trading and the exchange or other market provides only the highest and lowest prices of Trust units traded on a particular day; or (iii) the average of the last bid and last ask prices if there was no trading on the date;

"**Declaration of Trust**" means the declaration of trust dated as of March 26, 2004 between the settlor and the Trustee, pursuant to which the Trust was created, as from time to time amended, supplemented or restated;

"**Delegation Agreement**" means the agreement entered into among the Trust, the General Partner and the Trustee described under Management of the Trust – Delegation Agreement;

"**Distribution Period**" means each calendar month, or such other periods as may be determined from time to time by the General Partner on behalf of the Trustee from and including the first day thereof and to and including the last day thereof;

"**Exchangeable units**" means Class B limited partnership units of AltaGas LP1 and prior to their exchange in August 2004, Class B limited partnership units of AltaGas LP2;

"**Exempt Plans**" means, collectively, trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans, each as defined in the Tax Act;

"**General Partner**" means AltaGas General Partner Inc., a direct wholly-owned subsidiary of the Trust and the general partner of AltaGas LP1, AltaGas LP2, AltaGas Limited Partnership, PremStar Energy Canada Limited Partnership and ECNG Limited Partnership;

"**GJ**" means gigajoule or 1,000,000,000 joules;

"**Heritage Gas**" means Heritage Gas Limited, a company incorporated pursuant to the laws of Nova Scotia;

"**Holding Declaration of Trust**" means the declaration of trust dated as of March 26, 2004 between the Trust, as settlor, and Holding Trust Trustee, pursuant to which Holding Trust was created, as from time to time amended, supplemented or restated;

"**Holding Trust**" means AltaGas Holding Trust, an unincorporated investment trust, all of the beneficial interests of which are owned by the Trust;

"**Holding Trust Note Indenture**" means the agreement dated as of March 26, 2004 between Holding Trust and Computershare Trust Company of Canada, as note trustee, pursuant to which Holding Trust Notes have been, and may in the future be, issued by Holding Trust, as from time to time amended, supplemented or restated;

"**Holding Trust Notes**" means the unsecured subordinated notes issued pursuant to the Holding Trust Note Indenture;

"**Holding Trust Trustee**" means AltaGas Holding Trust Corp., as initial trustee of Holding Trust;

"**Km**" means kilometre;

"**m^3**" means a cubic metre of natural gas at standard conditions of measurement;

"**Market Price**" means an amount equal to the simple average of the closing price of the Trust units for each of the trading days on which there was a closing price; provided that if the applicable exchange or market does not provide a closing price but only provides the highest and lowest prices of the Trust units traded on a particular day, the market price shall be an amount equal to the simple average of the highest and lowest prices for that trading day if there was a trade; and provided further that if there was trading on the applicable exchange or market for fewer than five of the ten trading days before the applicable date, the market price shall be the simple average of the following prices established for each of the ten trading days: the average of the bid and ask prices for each day on which there was no trading; the weighted average trading price of the Trust units for each day that there was trading if the exchange or market provides a weighted average trading price; and the average of the highest and lowest prices of the Trust units for each day that there was trading, if the market provides only the highest and lowest prices of Trust units traded on a particular day;

"**Mcf**" means thousands of cubic feet of natural gas at standard imperial conditions of measurement, "**Mcf/d**" means Mcf per day; "**Mmcf**" means million cubic feet, "**Mmcf/d**" means Mmcf per day;

"**Mm**" means millions;

"**MW**" means megawatt. One MW is 1,000,000 watts; "**MWh**" means megawatt hour or 1,000,000 watt hours. The watt is the basic electrical unit of power. The watt hour is equal to one watt of power flowing steadily for one hour;

"**NGLs**" means natural gas liquids which includes primarily propane, butane and pentanes plus;

"**PPA**" means power purchase arrangement;

"**PremStar**" means PremStar Energy Canada Limited Partnership; and where applicable includes its affiliates;

"**Special Voting Unit**" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee to which is attached that number of voting rights (each such voting right being equal to the voting rights attached to one Trust unit) equal to the number of outstanding Exchangeable units held, other than by the Trust and its affiliates;

"**Tax Act**" means the *Income Tax Act* (Canada), including the regulations thereunder as amended from time to time;

"**Taylor**" means Taylor NGL Limited Partnership, a limited partnership created pursuant to the laws of Alberta;

"**Tcf**" means 1,000,000,000 Mcf;

"**Trust**" means AltaGas Income Trust and, where appropriate, includes its affiliates;

"**Trust units**" means trust units of the Trust;

"**Trustee**" means Computershare Trust Company of Canada, as initial trustee pursuant to the Declaration of Trust;

"**TSX**" means the Toronto Stock Exchange;

"Unanimous Shareholder Agreement" means the agreement entered into on May 1, 2004 among the General Partner, AltaGas LP1, AltaGas LP2 and AltaGas Ltd. pursuant to which AltaGas Ltd. granted to the General Partner the powers of the directors of AltaGas Ltd. to manage, or supervise the management of, the business and affairs of AltaGas Ltd., as from time to time amended, supplemented or restated as described under Management of the Trust – Unanimous Shareholders Agreement;

"**unit**" **or** "**units**" means Trust units and Exchangeable unit;

"**unitholders**" means the holders of Trust units and Exchangeable units;

"**Voting and Exchange Trust Agreement**" means the agreement dated May 1, 2004 among the Trust, AltaGas LP1, AltaGas LP2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"**Voting and Exchange Trustee**" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

METRIC CONVERSION

The following table sets forth certain standard conversions between Standard Imperial Units and the International System of Units (or metric units).

To Convert From	To	Multiply by
Mcf	cubic metres	28.174
cubic metres	cubic feet	35.494
Bbls	cubic metres	0.159
cubic metres	Bbls	6.290
tonnes	long tons	0.984
feet	metres	0.305

To Convert From	To	Multiply By
metres	feet	3.281
miles	kilometres	1.609
kilometres	miles	0.621
acres	hectares	0.405
hectares	acres	2.471
gigajoule	Mcf	0.9482

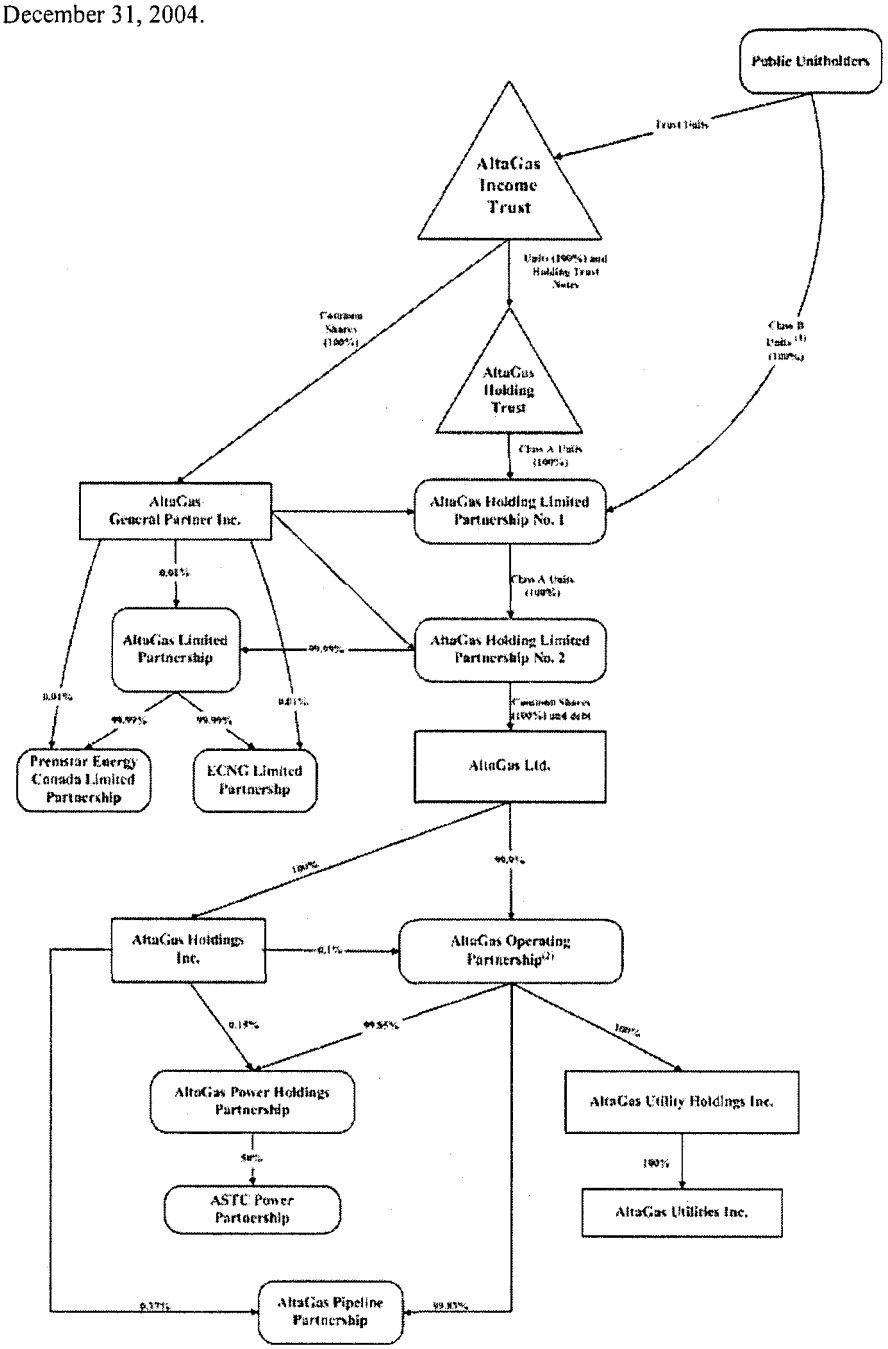
ALTAGAS INCOME TRUST

AltaGas Income Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust (see Declaration of Trust). The Trust indirectly holds all of the assets, liabilities and businesses formerly owned by AltaGas Services. AltaGas Services was incorporated on August 30, 1993 under the CBCA as 2950341 Canada Ltd. and commenced operations on April 1, 1994. Effective May 1, 2004 the business of AltaGas Services was reorganized pursuant to the Arrangement and holders of common shares of AltaGas Services received Trust units and/or Exchangeable units in exchange for their common shares. AltaGas Services became an indirect subsidiary of the Trust and was amalgamated to form AltaGas Ltd.

The operational and financial results presented in this Annual Information Form report on a continuity-of-interest accounting basis which recognizes the Trust as the successor to AltaGas Services.

The Trust was established principally for the purposes of acquiring or investing in the securities of entities involved in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, natural gas liquids or other related products, power or other forms of energy and related businesses and such other investments as the Trustee may determine. See Description of the Trust.

At December 31, 2004 the Trust had 49.8 million outstanding Trust units and 3.4 million outstanding Exchangeable units. The Trust units are listed on the TSX under the trading symbol ALA.UN. The Exchangeable units are not listed for trading on an exchange.



Holders of Trust units are the sole beneficiaries of the Trust. Computershare Trust Company of Canada is the trustee of the Trust.

The Trust's fiscal year end is December 31 and references in this Annual Information Form to particular years mean the Trust's fiscal years unless otherwise indicated.

The head, principal and registered office of the Trust is located at 1700, 355 - 4th Ave. S.W. Calgary, Alberta, T2P 0J1.

TRUST STRUCTURE

The Trust and certain of its affiliates are shown in the following chart. Excluded from the chart are certain of the Trust's affiliates whose total assets individually did not constitute more than 10 percent of the consolidated assets of the Trust at December 31, 2004 and whose total revenues individually did not exceed 10 percent of the Trust's consolidated revenues at the year ended December 31, 2004. These excluded affiliates, in the aggregate, represented less than 20 percent of the consolidated assets of the Trust as at December 31, 2004 and less than 20 percent of the consolidated revenues of the Trust for the year ended December 31, 2004.

Notes:

(1) The Exchangeable units are exchangeable for Trust units at the option of the holder on a one-for-one basis, are entitled to vote with unitholders and are entitled to the same cash payments per Exchangeable unit as the cash distributions made on a Trust unit. See Declaration of Trust and Description of Units.

(2) Substantially all of the operating assets formerly owned by AltaGas Services and its subsidiaries were contributed to, and certain obligations of AltaGas Services and its subsidiaries were assumed by AltaGas Operating Partnership on May 1, 2004.

(3) The Trust, AltaGas Holding Trust and each of the partnerships are established under the laws of Alberta. Each of AltaGas General Partner Inc., AltaGas Ltd., AltaGas Utility Holdings Inc. and AltaGas Utilities Inc. is a corporation incorporated or formed by amalgamation under the CBCA.

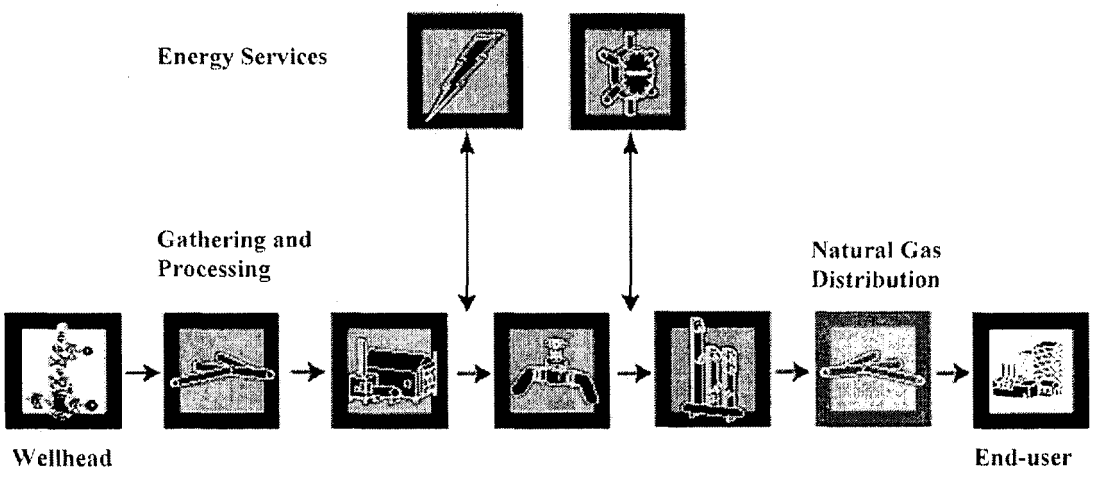
OBJECTIVE OF THE TRUST

The objective of the Trust is to provide unitholders with stable and growing cash distributions. The Trust employs a strategy to provide Trust unit holders and Exchangeable unitholders with a competitive annual cash-on-cash yield by making monthly cash distributions.

In order to provide the stability necessary to achieve its objective the Trust, through its operating affiliates owned directly or indirectly, will:

- develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and the northern United States;
- continue to maintain existing assets and any acquired assets in a manner that provides predictable cash flow;
- focus on assets that are diversified in terms of their revenue source, contractual terms, exposure to industry cycles and geographic location;
- build on the current mix of assets which provides a combination of regulated cost of service, fixed fee and margin-based service revenue; revenue streams that are relatively predictable, with minimal or managed exposure to commodity prices; and a cash flow horizon extending out as long as 30 years; and
- continue to expand each of its business components through development, expansion and acquisition opportunities that ensure concentrations of risk are minimized, provide long-term stable cash flows and are accretive to unitholders.

BUSINESS STRATEGY



AltaGas uses its midstream infrastructure and provides services to move energy from its source to the end-user. AltaGas' objective is to increase unitholder value by increasing the operating efficiency and utilization of its assets and linking the components of its integrated energy business.

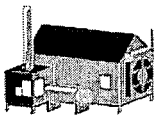
Energy Value Chain Integration

Energy value chain integration is the partial or full integration of the natural gas, electric power and petroleum markets and industries, at several points along the energy value chain. The natural gas and electricity industries have become interdependent as a result of events including natural gas and electrical deregulation, the continuing development of natural gas as the fuel of choice for new power generation, and ongoing fluctuations in energy pricing.

Through its both natural gas and power assets, AltaGas intends to capture value effectively and efficiently. With control of the physical assets, AltaGas believes it has better leverage of the assets, the energy relationships, and the arbitrage opportunities that exist across these commodities.

Midstream Energy Value Chain

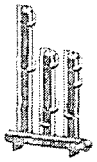
BUSINESS SEGMENTS



The Trust reports consolidated financial and operating results, on the basis of three business segments:

- Gathering and Processing, which includes field gathering and processing; transmission pipelines and ethane and NGLs extraction.
- Energy Services, which includes power services, natural gas services and oil and natural gas production.
- Natural Gas Distribution, which consists of the distribution of natural gas.

AltaGas' assets and services are described below.



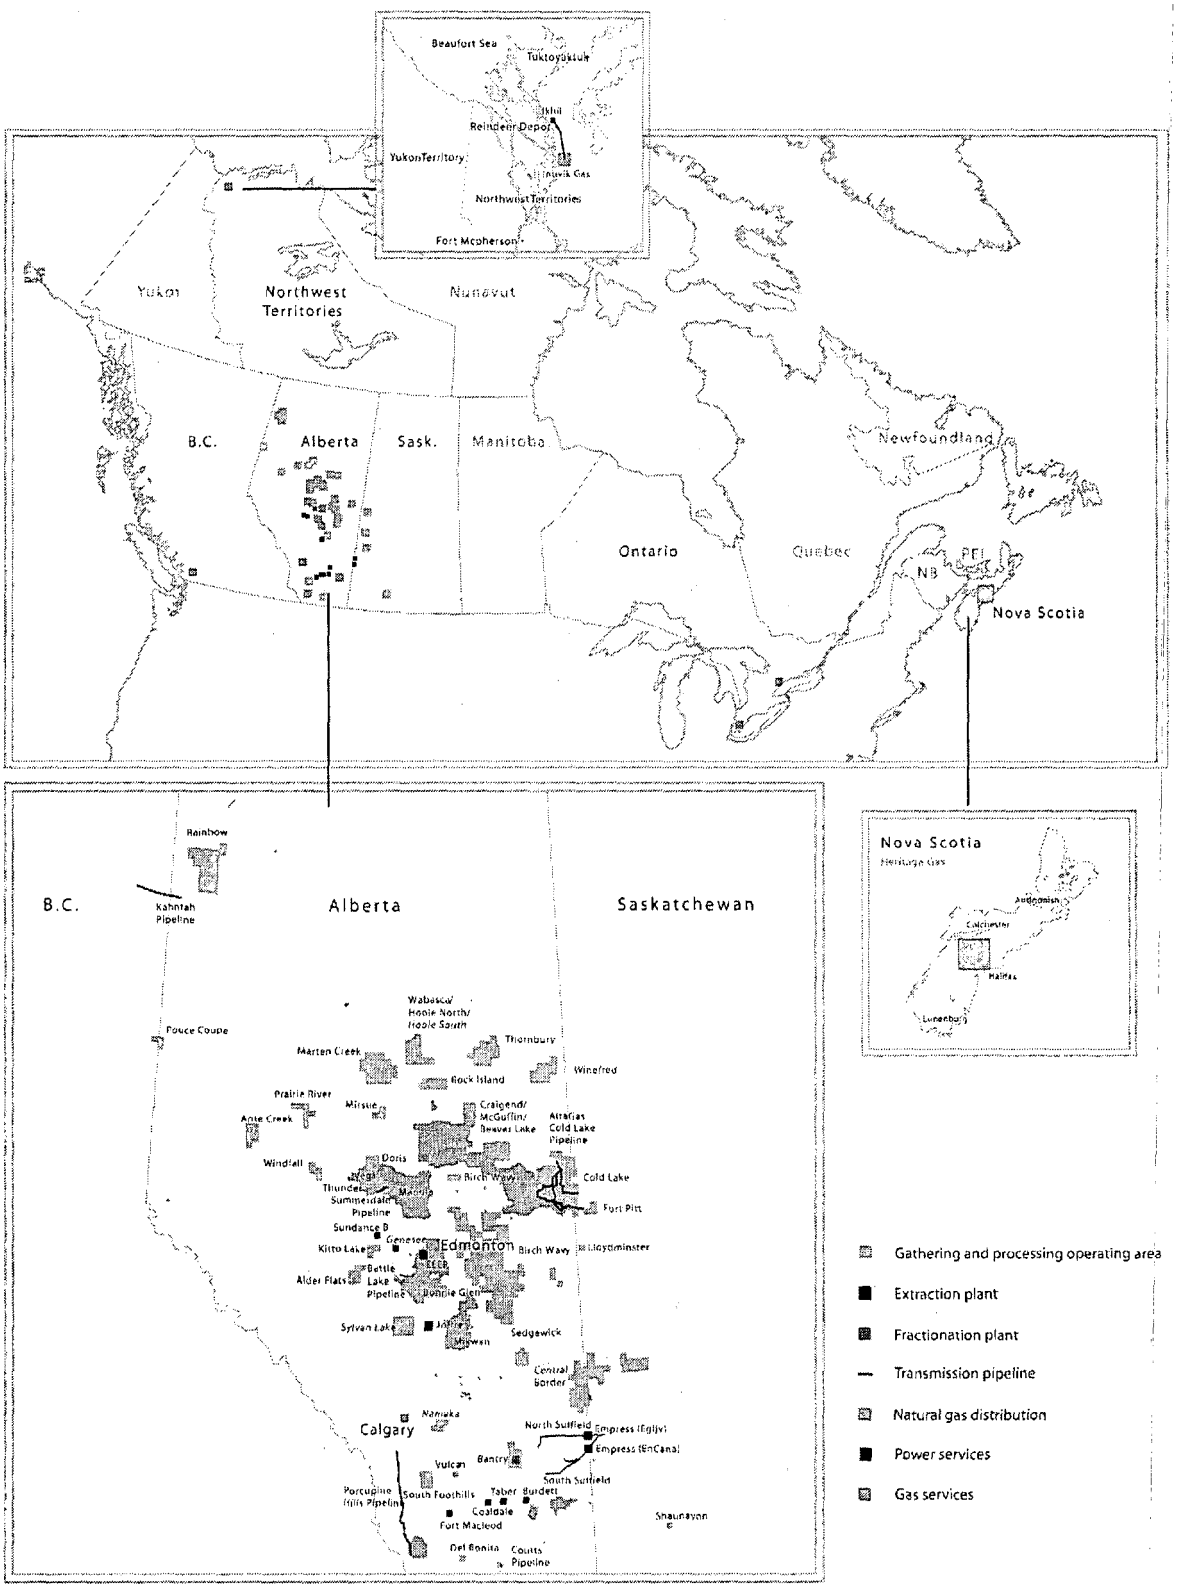
Gathering — Gathering systems or gathering lines move natural gas from producing wells to processing facilities.

Processing — Processing facilities remove certain hydrocarbon components and impurities from natural gas in addition to compressing the gas to meet downstream pipelines' operating specifications for transportation.

Transmission — Transmission pipelines provide natural gas and condensate transportation services to distribution systems, end-users or other downstream pipelines.

Extraction — Extraction plants reprocess natural gas from field plants to extract and recover ethane and NGLs.

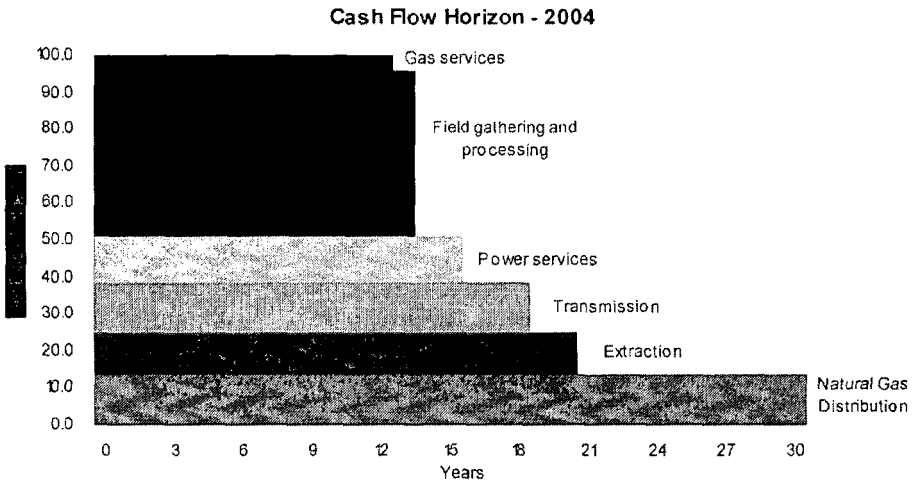
Power services — AltaGas supplies power to markets through PPAs and a capital lease for gas fired power peaking capacity.



Gas services — AltaGas procures and aggregates natural gas for end users, arranges for physical delivery of energy to the customer and provides energy consulting and management services to energy end-users.

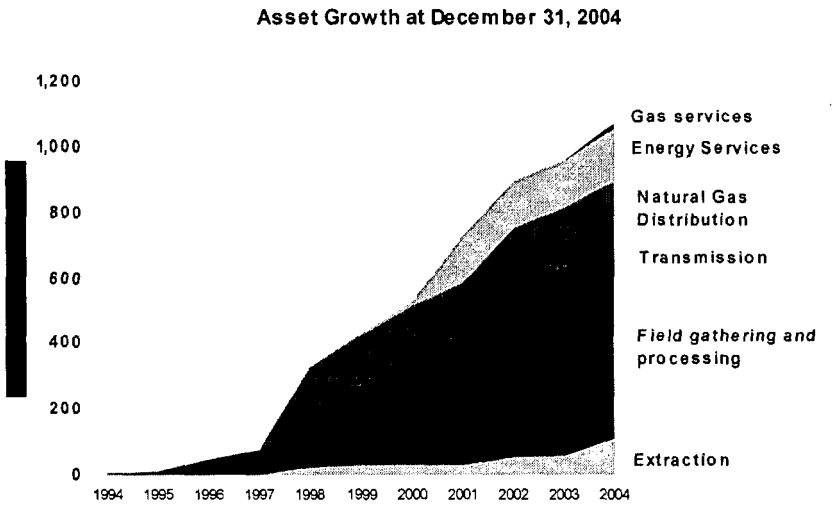
Natural Gas Distribution — Distribution companies deliver natural gas to end-users for heating and other purposes.

MAP OF ALTAGAS' ENERGY INFRASTRUCTURE AND SERVICES LOCATIONS



GENERAL DEVELOPMENT OF THE TRUST'S BUSINESS

OVERVIEW - THE MIDSTREAM INDUSTRY



AltaGas moves, processes and uses energy to create value. AltaGas:

- physically gathers, processes, extracts and transports natural gas;
- contractually markets and transports natural gas and electrical power;
- converts energy across and along the energy value chain to create higher value-added products; and
- consumes natural gas and electrical power to operate its facilities.

AltaGas' mix of assets provide revenue streams that are relatively predictable, with minimal or managed exposure to commodity prices and have a cash flow horizon extending out as far as 30 years. Going forward, while investing in a larger asset base, AltaGas intends to grow each of its business components to ensure concentrations of risk related to factors including commodity, market and geographic location, are minimized.

Note:
(1) Gas services includes data for gas services and oil and gas production components

HISTORICAL DEVELOPMENT

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust effected on May 1, 2004. The Trust indirectly holds all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. (ASI). On April 29, 2004 the securityholders of ASI voted 99.9 percent in favour of a plan of arrangement to reorganize the business of ASI into an income trust called AltaGas Income Trust. The plan of arrangement was approved by the Court of Queen's Bench of Alberta on April 30, 2004.

ASI commenced operations on April 1, 1994 with a team of 20 people with experience in the natural gas industry. The founding vision was to build a major Canadian natural gas midstream business combining a portfolio of natural gas-related services with long-life assets to grow net income. The concept of a distinct, full-service midstream business was unique in Canada at the time. ASI commenced operations with two major contracts to provide transportation, regulatory and gas management services. The revenue generated from these contracts during 1994 and 1995, together with private placement equity financings, provided the funds for ASI to establish its midstream asset base and make the transition from a consulting services company to a midstream operating company.

The nature of AltaGas' participation in the midstream industry has evolved from holding primarily service contracts and non-operated return on investment-based assets to include investments in fully-operated natural gas facility assets of which AltaGas owns 100 percent or in which it has a controlling interest. Since 1994 AltaGas has acquired or constructed over $974 million in midstream assets.

OPPORTUNITIES

AltaGas is continually evaluating growth opportunities along the midstream energy value chain. Management of AltaGas believes that North America's natural gas producing regions will continue to require significant investment in drilling and field development to support the levels of production seen in 2004 and that natural gas prices will remain high for the next decade as markets continue to compete for supply. North American power demand has grown steadily for many decades. Management of AltaGas expects power demand to grow well into the future and has a fundamental view that market prices for power, over the long run, must support the construction of new generation or new generation will not be built to meet new demand and replace retired assets.

AltaGas will pursue opportunities that offer a competitive advantage, acceptable financial returns and future growth potential. In the last two years AltaGas has captured several opportunities to expand its integrated energy business and has added $201.0 million in net additions to invested capital.

Net Additions to Invested Capital ($ millions)	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
(Year ended December 31)				
2003	$ 51.5	$ 2.5	$ 16.8	$ 70.8
2004	$ 86.3	$ 33.5	$ 10.4	$ 130.2
Total segment assets at December 31, 2004	$ 784.8	$ 166.0	$ 157.8	$ 1,108.6

Opportunities - Gathering and Processing

Management of AltaGas believes that in the field gathering and processing component, its network of approximately 6,000 km of gathering lines, substantial processing capacity, expansion potential and access to downstream transportation pipelines, which offer customers diverse marketing opportunities, leave AltaGas well positioned to take advantage of existing and future gathering and processing needs of its customers.

Existing field gathering and processing areas are generally surrounded by adjoining or overlapping gathering and processing systems. As AltaGas has grown, opportunities to expand by tying in new wells and purchasing adjoining facilities and systems have increased. New area development comes in large part from AltaGas' existing and expanding customer base and drilling programs by producers. At present, most gathering and processing infrastructure in western Canada is still owned by oil and gas producers. AltaGas believes that its operational skills and market coverage create opportunities to work with exploration and production companies to provide gathering and processing services. In an environment where capital is carefully rationed, AltaGas provides an option for those asset owners who wish to channel capital to exploration and production opportunities.

Transmission pipeline opportunities arise through the leveraging of existing facilities and when AltaGas is able to capture additional market share through the construction or acquisition of transmission pipelines, often combined with natural gas marketing and transportation brokerage services. In previously unserved areas, AltaGas works with customers to create transmission solutions. In capturing opportunities, AltaGas largely focuses on cost of service type contractual arrangements.

Extraction opportunities may result from modifications to increase product recoveries at a plant in which AltaGas already has an ownership interest, the acquisition of an interest in an existing extraction plant or new facilities construction. Extraction plant opportunities typically reflect a lower-risk, long term, cost of service ethane processing arrangement contracted with an Alberta ethylene producer, lower-risk, long term NGLs fixed processing fee arrangements or short term sales of NGLs based on an Edmonton or U.S. index.

Opportunities - Energy Services

In the power services component, AltaGas enhances the overall value of its power business by supplying internal electrical demand requirements and by reducing its exposure to floating power prices. To reduce exposure to floating power prices, AltaGas uses a balanced portfolio of contracts to lock in margins on a substantial portion of its power, generally as far out as 18 months, at prices that ensure a consistent operating margin and a reasonable return on invested capital. AltaGas expects to continue to invest in the power industry where opportunities meet its investment guidelines and strategies.

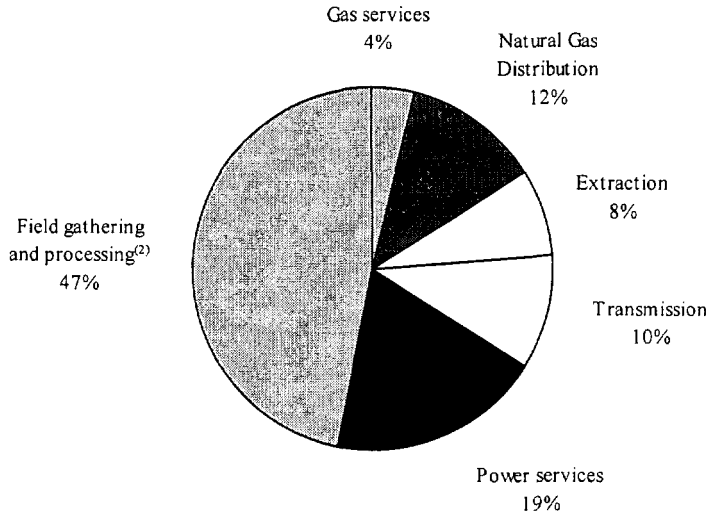
In the gas services component AltaGas has strong long term relationships with its customers based on focussed customer service. With the addition of PremStar, AltaGas expects to expand this fee for service business by adding customers in the industrial, commercial and institutional sectors and by expanding its energy supply related services.

Through its knowledge of natural gas supply markets across Canada, PremStar expects to be able to identify opportunities and develop innovative contracting arrangements to create value and lock in margins. This is expected to provide AltaGas with ongoing opportunities to deliver earnings without capital asset additions.

Opportunities - Natural Gas Distribution

The Natural Gas Distribution segment includes AltaGas Utilities, AltaGas' one-third interest in Inuvik Gas and AltaGas' 24.9 percent interest in Heritage Gas. The primary function and responsibility of the natural gas distribution companies as public utilities is to maintain high operating standards to ensure a dependable, safe and secure natural gas supply for their customers.

AltaGas Utilities is focused on growing its business in conjunction with the growth of the Alberta communities that it serves through expansion into new subdivisions and servicing of commercial developments. Growth is expected to come from increases in the number of customers in existing franchise areas and new franchise additions.



Inuvik Gas is the distribution arm of the Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle. Inuvik Gas distributes natural gas to the Northwest Territories Power Corporation and the town of Inuvik. AltaGas views this project as an important first step in establishing a presence leading to future natural gas projects in the North. An application was filed with the National Energy Board on October 7, 2004 by the MacKenzie Gas Project group to connect Mackenzie Delta natural gas to the North American pipeline grid. AltaGas has not concluded any other projects in the North to date, but continues to assess opportunities and believes that, once the application to construct a pipeline to connect the Mackenzie Delta gas reserves and all ancillary facilities is approved, AltaGas will be in a better position to consider complementary projects.

Heritage Gas has the franchise to distribute natural gas to all or part of six counties in the province of Nova Scotia, including the Halifax Regional Municipality. Heritage Gas provides AltaGas with the opportunity to apply its knowledge and experience in building a greenfield utility. It expands AltaGas' geographic footprint in Canada while complementing AltaGas' strategy to invest in infrastructure-based assets that it believes will provide long term cash flows.

BUSINESS OF THE TRUST

The Trust has grown its net revenue from $6.0 million in 1995, the first full year of operation to $249.8 million for the twelve month period ended December 31, 2004.

Net Revenue by Component [1]

Notes:
(1) Net revenue is gross revenue less the costs to purchase natural gas for resale, and costs to purchase power under power purchased based arrangements. Excludes intersegment eliminations.
(2) Field gathering and processing includes AltaGas' investments in business ancillary to the gathering and processing business. Gas services includes oil and gas production.

GATHERING AND PROCESSING

The Gathering and Processing segment includes three inter-related components: (i) field gathering and processing facilities; (ii) extraction plants; and (iii) transmission pipelines. The Gathering and Processing segment contributed net revenues of $164.9 million for the year ended December 31, 2004 representing approximately 65 percent of the Trust's total net revenues before intersegment eliminations.

In the field gathering and processing component at December 31, 2004 AltaGas had interests in 69 gathering and processing facilities and approximately 6,000 km of gathering lines delivering sales gas into nine downstream pipeline systems in 28 operating areas located in Western Canada and the Northwest Territories. AltaGas operated 66 of these processing facilities which in aggregate had gross processing capacity of 913 Mmcf/d including 210 Mmcf/d of sour gas capacity.

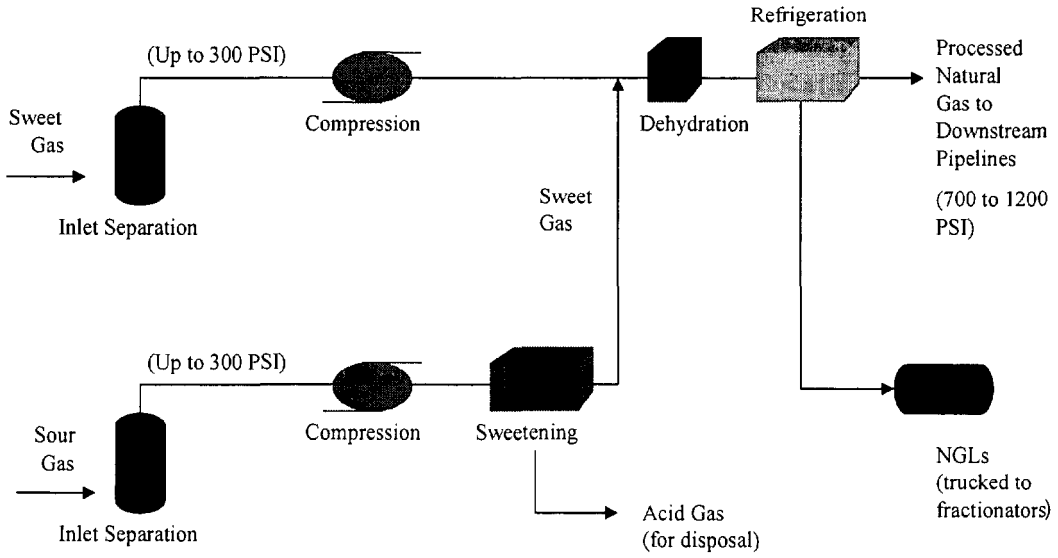
AltaGas' extraction assets include interests in four of the ten NGLs extraction plants in Canada: two at Empress, Alberta, one at Joffre, Alberta and one at Edmonton, Alberta. AltaGas also owns the Bantry fractionation facility. AltaGas' net raw gas licensed inlet capacity at these plants was 539 Mmcf/d at December 31, 2004.

AltaGas' transmission pipelines include the Cold Lake, Battle Lake, Suffield and Summerdale natural gas transmission pipelines in Alberta, the Kahntah natural gas transmission pipeline in British Columbia and the Porcupine Hills condensate pipeline in Alberta.

Field Gathering and Processing

Field Gathering and Processing - Business Strategy

Field gathering and processing facilities are critical to the delivery of natural gas from the wellhead to the end-use market. AltaGas has grown rapidly based on a field gathering and processing facilities acquisition and development strategy distinct in the Canadian midstream market. AltaGas' strategy is to:



- focus on under-utilized assets which offer upside through increased throughput;
- maintain flexibility by investing in moveable assets that can be easily relocated;
- create large facility complexes by pursuing extensive gathering systems and interconnecting facilities;
- offer customers diverse marketing opportunities by focusing on assets that have good access to downstream transportation pipelines;
- control operations and increase efficiency by acquiring and maintaining large working interests in assets; and
- reduce overall corporate risk through geographic and customer diversity.

AltaGas seeks to increase the utilization of its facilities by:

- pursuing new natural gas supplies by working closely with producers in the development of new and existing natural gas fields;
- offering flexible contractual terms for access to all producers in the areas in which AltaGas operates;
- enhancing operational efficiencies through consolidation and plant upgrades; and
- expanding facilities and constructing or acquiring and connecting complementary facilities to create large facility complexes.

AltaGas complements its field gathering and processing assets with infrastructure investments in transmission pipelines, extraction plants and natural gas distribution systems. AltaGas looks to enhancing the value of its infrastructure investments by offering its other services along the midstream energy value chain.

Field Gathering and Processing - Typical Field Gas Processing Plant

Raw natural gas produced at the wellhead is a mixture of methane and other hydrocarbon components and impurities, including water vapour, carbon dioxide and hydrogen sulphide. Gas that has hydrogen sulphide present in amounts in excess of downstream pipeline specifications is considered sour gas. All other gas is considered sweet gas. All natural gas must be processed through a natural gas plant to remove the various hydrocarbon components and impurities before the natural gas is delivered via downstream pipelines for ultimate sale and consumption. The amount and complexity of processing required before the raw gas is of saleable quality is a function of the quantity of the NGLs and other impurities present in the raw gas stream.

The raw natural gas is first gathered from the wellhead through natural gas gathering systems, and then delivered to and processed through a natural gas processing plant. The design of a natural gas processing plant is determined by the composition of the raw gas that it is intended to process. Natural gas that contains minimal or no amounts of NGLs or other elements will bypass certain processes within a typical natural gas plant configuration.

Raw natural gas entering the natural gas plant is subject to inlet separation where free water and any free NGLs are separated from the natural gas stream. If the natural gas is sour, it is sweetened by the removal of hydrogen sulphide. The natural gas is then usually dehydrated to remove any remaining water. If significant NGLs are still present in the sweet gas they are removed to meet downstream pipeline specifications. NGLs generally have greater value if extracted in liquid form and additional NGLs recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field gas plants or at large-scale extraction plants (see Extraction). AltaGas has NGLs extraction capability at 24 of its natural gas field processing facilities.

The remaining processed gas exiting the natural gas plant is delivered to the downstream transportation pipeline for eventual distribution to end-use markets. NGLs must be further processed (fractionated) into their individual components: propane, butane and condensate. The NGLs may be fractionated on site, as is the case at AltaGas' Bantry plant, or trucked or pipelined to fractionation facilities.

Field Gathering and Processing - Facilities

AltaGas' field gathering and processing component generates revenues from fees for volumes of natural gas processed at a processing facility or gathered through a gathering system.

AltaGas' target utilization rate is 70 percent for facilities over which it has operational control. Volume additions at facilities, which come from new well tie-ins and from reactivations, recompletions and well optimizations performed by producers, are offset by natural production declines. The historical utilization rate for all of AltaGas' combined facilities remains lower than the targeted rate due to its ongoing facilities acquisition strategy of focusing on underutilized assets.

Field Gathering and Processing Facility Capacity and Throughput

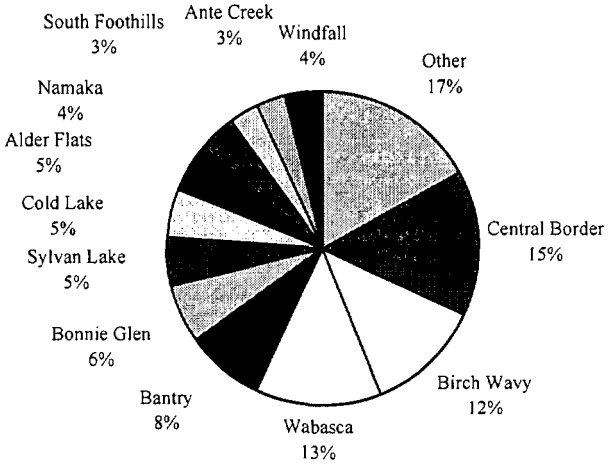
	2004	2003	2002
Processing capacity (gross Mmcf/d)[1][3]	913	861	842
Capacity growth (percent year over year)	6	2	10
Processed throughput (gross Mmcf/d)[2][3]	558	523	532
Processed throughput (gross annual average Mmcf/d) [3]	560	520	492
Capacity utilization (percent) [1]	61	61	63

Notes:
(1) As at December 31.
(2) Fourth quarter average.
(3) Gross numbers are before and not adjusted to reflect AltaGas' working interest.

Natural gas well completions were high in the oil and gas sector in 2004, with industry estimates of 16,525 natural gas wells completed in the Western Canadian Sedimentary Basin. Strong industry drilling activity in many of AltaGas' operating areas resulted in 428 new natural gas wells tied into AltaGas' field gathering and processing facilities in 2004 compared to 324 new wells tied-in during 2003. Natural gas gathering and processing gross average throughput for the year ended December 31, 2004 increased to 560 Mmcf/d from 520 Mmcf/d for the year ended December 31, 2003. AltaGas' processing facilities and gathering lines cover a significant geographic area which continues to enable AltaGas to more than offset normal natural gas production declines and scheduled maintenance turnarounds at AltaGas' existing facilities.

Field Gathering and Processing - Significant Operating Areas

AltaGas has historically focused on smaller, moveable midstream facilities in western Canada with processing capacity of under 50 Mmcf/d, which AltaGas has identified as its niche in the midstream industry and which it believes has distinguished it from most of its competitors. AltaGas' facilities are often physically linked, creating facility complexes that offer delivery options and revenue continuity in the event that one of the plants in a complex shuts down.



In December, 2002 AltaGas acquired the Wabasca System from EnCana which includes eight distinct but geographically concentrated gathering and processing systems. AltaGas has a 100 percent ownership interest in seven of the systems and a 50 percent ownership interest in one of the systems. The Wabasca System acquisition included approximately 800 kilometres of gathering pipeline, over 23,000 horsepower of compression and 74 Mmcf/d of processing capacity.

In late 2003 and early 2004, AltaGas acquired interests in two natural gas processing systems, Rainbow Lake and Mica Pouce Coupe, for approximately $17.0 million. The Rainbow Lake gathering and processing system acquisition, which closed on December 22, 2003, included a 100 percent interest in a 40 Mmcf/d sour natural gas processing facility and 130 kms of gathering lines located near the town of Rainbow Lake in northwestern Alberta. The Mica Pouce Coupe gathering and processing system acquisition, which closed on January 30, 2004 included a 40.8 percent interest in a sweet gas processing facility with gross capacity of 43 Mmcf/d and approximately 70 kms of gathering lines located along the Alberta/BC border.

Strong producer drilling and tie-in activity generated the need to expand throughput capability at AltaGas' Marten Creek, Doris, Thunder Lake, Manola and Windfall facilities with the addition of booster compression in 2004 and to increase the Kirkpatrick Lake processing facility capacity by 7 Mmcf/d during 2004. AltaGas also increased its ownership in the 25 Mmcf/d Namaka facility to 100 percent from 75 percent. With this increased ownership AltaGas expects to benefit from natural gas development in the area. During 2004, AltaGas invested approximately $16.4 million in internal expansion projects in the field gathering and processing component.

With 69 processing plants in 28 operating areas, AltaGas' field gathering and processing component is not dependent on any one facility or operating area. Field gathering and processing operating margin represented approximately 33 percent of AltaGas' consolidated 2004 operating margin. The following chart provides a breakout of field gathering and processing operating margin by significant operating area for the year ended December 31, 2004.

Operating Margin by Area

The following table provides a summary of AltaGas' most significant field gathering and processing operating areas as at December 31, 2004.

Operating Area	Ownership (Percent)	Facility Type	Facility Count	Gross Capacity (Mmcf/d)[1]	Gross Throughput (Mmcf/d)[1][2]	Number of Compressors (includes boosters)	Operated or Non-operated
Western Canada							
Alder Flats	100.0	sweet	1	40	25	5	Operated
Ante Creek	100.0	sweet	1	36	26	2	Operated
Bantry	100.0	sour	1	25	22.2	8	Operated
Birch Wavy South	90.8	sweet	5	32	19.6	13	Operated
Birch Wavy North	79.7	sweet	7	69	56.6	25	Operated
Bonnie Glen	100.0	sweet	2	41	50.9	11	Operated
Central Border	100.0	sweet/sour	7	89	54.8	27	Operated
Cold Lake	86.7	sweet	7	64	48.5	39	Operated
Namaka	100.0	sweet	2	25	11.8	4	Operated
Rainbow Lake	100.0	sour	1	40	17.2	2	Operated

Total			69	913	557.8	229	

Notes:
(1) Gross numbers and not adjusted to reflect AltaGas' working interest.
(2) Represents 2004 fourth quarter average.
(3) AltaGas, Inuvialuit Petroleum Corporation and Enbridge Inc. each participate as to a one-third interest in all phases of the Ikhil Gas Project to supply natural gas to the Northwest Territories Power Corporation and the town of Inuvik. The Ikhil Gas Project, the first Canadian commercial natural gas development project north of the Arctic Circle, has three components: development and production of reserves, a 50 km pipeline and a processing facility, and a natural gas retail distribution system (see Business of the Trust-Natural Gas Distribution-Inuvik Gas). AltaGas is the operator of the entire upstream portion of the Ikhil Gas Project.

Field Gathering and Processing - Customers

AltaGas conducts business with over 250 customers in its 28 operating areas, with no customer representing more than five percent of consolidated revenues during 2004 or 2003. Its top 10 customers represented 21 percent of consolidated revenues for 2004.

Field Gathering and Processing - Contracts

AltaGas gathers and processes natural gas under contracts with natural gas producers. There are approximately 860 active gathering and processing contracts. These contracts are, in general, designed to:

- set the prices for the gathering and processing services offered by AltaGas;
- define the producers' access rights to gathering and processing services;
- establish minimum throughput commitments with producers where capital investment is required by AltaGas, to use appropriate fee structures to recover invested capital early in the life of the contract where capital investment is required by AltaGas, and
- define the terms and conditions under which future production is processed at an AltaGas facility.

The amount of capital that AltaGas commits to a gathering and processing facility, either by acquisition or tie-in, is linked to AltaGas' assessment of production available to be processed at the facility, reserves in the area, the extent of the reserve dedication and the processing fees to be paid by producers for its services. When a facility is acquired, AltaGas conducts an independent review of the natural gas reserves and production in the area surrounding each facility using, among other sources, AEUB production data and reserve estimates and producers' reserve reports for the area. AltaGas also conducts a review of the physical plant and equipment and the operating and maintenance costs for each facility.

Fee Structure

AltaGas, in determining appropriate contractual provisions including a reasonable payback period on its invested capital, attempts to align its interests with the financial and business objectives of its producer customers. The vast majority of AltaGas' gathering and processing contracts are volumetric service fee structures, based on a rate per Mcf of throughput. Approximately 73 percent of contracts in place at December 31, 2004 were subject to annual price escalation related to changes in the Alberta Consumer Price Index. This toll for service structure (as opposed to the commodity spread-based price structures predominantly used by midstream companies in the U.S.) does not create exposure to commodity price risk as revenues are a function of volumes processed. AltaGas' investment is generally protected by the life of reserves behind the facility since producing wells typically remain connected to a gathering and processing system for their entire productive lives.

AltaGas may seek additional contract support to underpin capital commitments through the addition of one or more of the following provisions:

Take or Pay: Take or pay arrangements are designed to ensure AltaGas recovers its invested capital in a relatively short period of time. This is achieved by producers providing minimum volume or capital recovery commitments to AltaGas. With minimum volume commitments the producer must process a specified volume at a rate per Mcf over a specified period of time or pay any revenue shortfall. With capital recovery commitments the sum of the processing revenues must provide AltaGas with a return on and of capital within a specified period or the producer pays the shortfall. Risk is limited to counterparty creditworthiness.

Capital and Operating Cost Recovery: The producer pays two distinct fees to AltaGas, one to provide a return of and on capital and the other to cover AltaGas' operating costs. Return of capital is made more certain by reducing the risk of unexpected operating costs. Risk is largely limited to the timing of production.

Area of Mutual Interest: These contract terms ensure any production brought on stream in a specified area must flow to an AltaGas facility. When AltaGas acquires or expands a new or existing facility, it generally secures projected future natural gas throughput by contractually committing the vendor of the facility to dedicate any production from specified reserves or future areas of development surrounding the facility. When AltaGas acquires a facility the vendor is typically the largest producer utilizing that facility. As a result, AltaGas is usually entitled to gather and process the majority of the natural gas production associated with the facilities it acquires as a result of its reserve dedication contracts, thus reducing the possibility of competitive plants being built in the same area. Risk is largely limited to the timing of production.

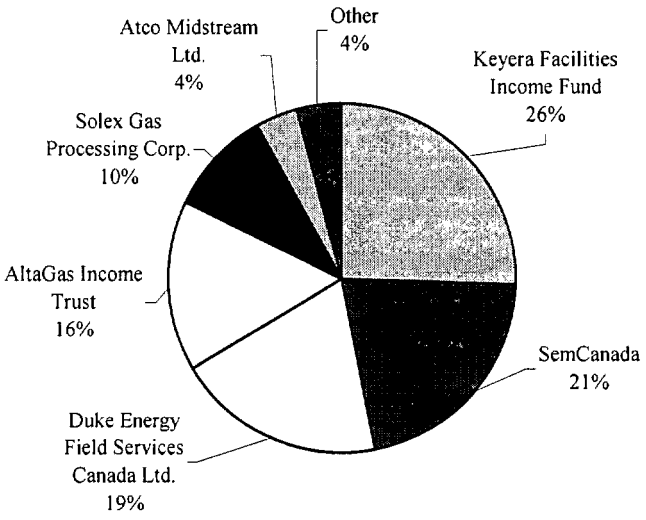
Geographic Franchise with Economic Out: Contract provisions allow AltaGas to terminate or renegotiate a contract if it is not economical to continue processing. Risk is largely limited to the timing of production and operating cost efficiencies.

Length of Term

Where natural gas reserves have been dedicated under contract, the contract normally extends beyond one year and up to the life of the reserves depending on the amount of capital invested by AltaGas in the facility. Where reserves have not been dedicated under contract or AltaGas has not made a significant capital investment, the contracts are normally subject to termination by either party upon one to three months notice.

Type of Service

In general, producers have access to either firm service or interruptible service. Firm service offers producers priority to have their natural gas processed at the applicable AltaGas facility subject to industry standard maintenance and force majeure. Interruptible service is available only if the applicable facility has capacity available after all firm service commitments with respect to such facility have been satisfied. Firm service is normally provided to a producer when the producer's natural gas reserves have been dedicated to an AltaGas facility.



Field Gathering and Processing - Operating and Maintenance Expenses

Operating and maintenance expenses for gathering and processing facilities generally include: (i) labour costs for operators; (ii) materials consumed in processing or maintenance, including chemicals and lubricants; (iii) land lease costs; (iv) property taxes; (v) fuel and power costs and (vi) other overhead costs. For the plants operated by AltaGas, the most significant expenses are labour, utilities, property taxes and repair and maintenance.

Field Gathering and Processing - Competition

Midstream entities currently provide a small portion of the midstream field processing function in Canada. AltaGas estimates that on a net capacity basis, approximately 15 to 16 percent of the total estimated field processing capacity in western Canada is owned by midstream entities. AltaGas competes with other midstream entities operating in the Western Canadian Sedimentary Basin, including SemCanada, Duke Energy Field Services Canada Ltd., Keyera Facilities Income Fund, Solex Gas Processing Corp, and ATCO Midstream Ltd. The remaining processing capacity generally continues to be provided by the upstream natural gas exploration and production companies.

Midstream Market Share in Canada (Field Processing)

Note: Based on net processing capacity in the Western Canadian Sedimentary Basin as of December 31, 2004, and excludes National Energy Board regulated plants. Source: Canadian Gas Plant Directory

The midstream industry continues to evolve and the competitive environment also continues to change. AltaGas believes that with its field gathering and processing strategies and business attributes it will continue to effectively compete in the

midstream market place. AltaGas also believes that its operational skills and market coverage make it a preferred business partner for many exploration and production companies.

Extraction

AltaGas owns extraction plant capacity through its interests in the ATCO and EnCana operated extraction plants at Empress, Alberta, the Taylor operated extraction plant at Joffre, Alberta and the AltaGas operated ethane extraction plant at Edmonton, Alberta. AltaGas' working interest in these extraction assets provides stable fixed fee or cost of service type revenues and margin based revenues. Also included in extraction is AltaGas' Bantry field fractionation facility. Fractionation services at Bantry are provided on a rate per m^3 of product processed. Investment in extraction and field fractionation plants as at December 31, 2004 was approximately $95.0 million.

Extraction - Business Description

NGLs generally have greater value if extracted in liquid form and additional NGLs recovery beyond downstream pipeline specifications may be carried out in order to capture the value of the NGLs. This additional recovery process can be done at field gas plants or at large extraction plants where economies of scale are realized. Although there are in excess of 700 field plants in western Canada which recover NGLs, 10 extraction plants currently extract approximately 40 percent of all of the propane and butane and approximately 70 percent of ethane produced within the region. Nine of the plants are located in Alberta and process the vast majority of the natural gas exported from Alberta. Large extraction plants are located along major high volume pipeline transmission systems that transport natural gas to end-markets. Extraction plants straddle these transmission systems so that sufficient volumes of residual ethane and NGLs in the natural gas stream can be recovered to provide an acceptable rate of return on investment.

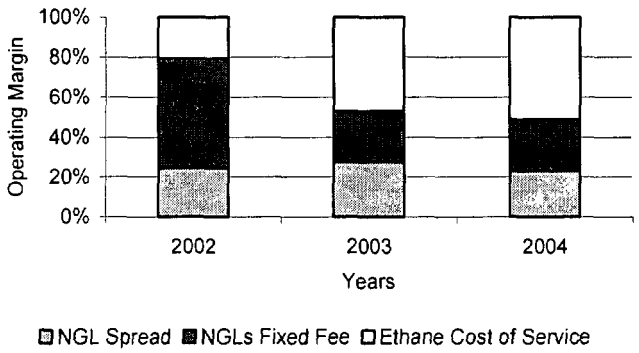
After extraction, NGLs must be fractionated into their constituent components of propane, butane and pentanes-plus. Some NGLs are fractionated at Empress, Alberta, or in the field, such as at AltaGas' Bantry facility. However, most NGLs from field and extraction plants are shipped to Fort Saskatchewan, Alberta, Sarnia, Ontario, or Marysville, Michigan for fractionation. Propane, butane and pentanes-plus are used directly as energy products and as feedstock for the petrochemical and crude oil refining industries.

The economics of NGLs extraction are a function of the difference between the premium value of the ethane, propane, butane and condensate as separate marketable commodities compared to their value as constituents of the natural gas stream. If the components are not extracted, they are sold as natural gas for their heating value at the prevailing natural gas price. As NGLs, the components are sold at higher prices that reflect the premium value of each of the individual commodities.

When an extraction plant has more than one owner, the operator manages the facility according to the terms and conditions of an agreement that covers the construction, ownership and operation of the plant (CO&O agreement). CO&O agreements describe, among other things, the voting procedures and other mechanisms governing operating and capital expenditure decisions, processing rights, supply obligations and other aspects of facility operations. A CO&O agreement may also empower the operator to negotiate extraction rights and enter into ethane and NGLs sales arrangements on behalf of all co-owners in the facilities. AltaGas has directly negotiated extraction rights and ethane and NGLs sales arrangements for the majority of its net processing capacity and net production. AltaGas also regularly attends the operating committee meetings for those extraction plants where it owns a working interest.

Extraction assets are long life assets. AltaGas estimates that the average remaining life of its extraction facilities is in excess of 20 years which is based on large regional natural gas supply and demand.

Extraction - Plant Fee Structures



Extraction facility owners have the right to extract liquids from the natural gas stream, either directly as the owner of the gas, or through gas extraction agreements. The typical commercial arrangement involves the ethane and NGLs extraction plant owner contracting with shippers on a gas transmission system for the right to extract the ethane and NGLs from the shipper's natural gas. By removing ethane and NGLs, the extraction plant is, in effect, extracting or shrinking a portion of the energy contained in the shipper's natural gas. The extraction plant owner pays the shipper for the extracted energy or alternatively purchases a sufficient volume of natural gas from the market to replace the extracted energy thereby keeping the shipper whole. This purchased gas is referred to as shrinkage make-up. Extraction contract terms may be for firm or interruptible processing, and may vary from monthly to multi-year in length. Currently the majority of AltaGas' extraction agreements are multi-year term arrangements.

AltaGas' net share of ethane production is sold through long term cost of service or fixed fee arrangements. The sales price received under these contracts provides for a return on and of capital and the recovery of certain operating costs, including shrinkage make-up attributable to that production. AltaGas' share of ethane production is sold at the outlet of the plants, with the purchaser responsible for all downstream transportation and handling.

NGLs can be sold under a variety of arrangements. Approximately 75 percent of AltaGas' net NGLs production is sold under long term fixed fee arrangements. These volumes do not bear any commodity price risk. The revenue from these NGLs sales and the ethane sales provides a stable, predictable cash flow base.

Approximately 20 percent of AltaGas' NGLs production is sold under short term contracts. The margins received on these volumes are subject to the spread between the price received for the NGLs extracted and the price paid for the natural gas purchased to make up the heating value of the NGLs extracted, after subtracting operating costs. The remaining five percent is sold under a profit and loss arrangement. If commodity prices or operating costs make NGLs extraction uneconomic, the NGLs may be reinjected or the facilities may be turned down or shut in. Because NGLs are a feedstock to the petrochemical industry, there is a historical relationship between NGLs prices and crude oil prices. As crude prices fall, NGLs prices will generally decrease subject to other factors that influence supply and demand.

The following diagram shows the operating margin based on type of extraction contract.

Extraction - Plant Production

Extraction production is a function of natural gas volume processed, natural gas composition, recovery efficiency of the extraction plant and plant on line time. The following table represents a summary of the net capacity and production associated with extraction and fractionation plants in which AltaGas holds an interest.

Extraction or Fractionation Plant	Interest (percent)	Net Inlet Processing Capacity (Mmcf/d)[3]	Liquids Production 2004 (Bbls/d)[1]		Liquids Production 2003 (Bbls/d)[1]	
Edmonton[2]	48.6667	190	NGLs mix	2,699	NGLs mix	N/A
			Ethane	8,418	Ethane	N/A
Empress ATCO	7.2	79	NGLs mix	508	NGLs mix	611
			Ethane	512	Ethane	668
Empress EnCana	10	120	NGLs mix	1,169	NGLs mix	1,162
			Ethane	2,056	Ethane	2,105
Joffre	50	125	NGLs	869	NGLs mix	634
			Ethane	3,487	Ethane	2609
Bantry	100	25	NGLs	360	NGLs	393
Total		539	NGLs mix	5,605	NGLs mix	2,800
			Ethane	14,473	Ethane	5,382

Notes:
(1) Average volumes for the fourth quarter.
(2) AltaGas acquired a 48 2/3 percent interest in the Edmonton ethane extraction plant on August 25, 2004
(3) At December 31, 2004.

AltaGas' net extraction and field fractionation plant annual average production since 2002 are as follows:

Extraction and Fractionation Plant Production [1]	2004	2003	2002
NGLs (Bbls/d)	3,797	2,504	1,974
Ethane (Bbls/d)	8,602	4,056	1,425
Total	12,399	6,560	3,399

Note:
(1) Average Bbls/d net to AltaGas for years ended December 31.

Extraction - Empress ATCO Extraction Plant

At December 31, 2004 AltaGas' ownership interest in the Empress ATCO extraction plant located in southeast Alberta on the Alberta-Saskatchewan border was approximately 7.2 percent. The remaining interest in the facility is held by nine other owners with varying interests. AltaGas' ownership corresponds to a 79 Mmcf/d share of the plant's 1,100 Mmcf/d of natural gas inlet capacity. Until June 30 2004, when one of AltaGas' long term contracts expired, AltaGas had contracted approximately 60 Mmcf/d of gas supply to fill its portion of the plant's capacity under long term contracts. The remainder was being supplied through short term contracts. With the start of the new gas year, November 1, 2004, AltaGas has replaced a portion of that gas supply through its ownership of PremStar. Current firm gas supply under contract is 48Mmcf/d of which 28 Mmcf/d is under contract until December 2009. At the Empress ATCO extraction plant, AltaGas also processes any interruptible gas volumes that PremStar may have available from time to time. As there are five other extraction plants in the Empress area, there is considerable competition amongst the owners of the plants for producer's extraction rights. The Empress ATCO plant consists of four processing trains which provide the flexibility to easily manage production to reduce fixed operating costs, minimizing any downside associated with fluctuating production volumes.

A five-year ethane sales contract for AltaGas' share of Empress ATCO ethane production expired December 31, 2003. AltaGas' net ethane production is being sold under a month-to-month cost-plus sales arrangement until a replacement supply contract is negotiated. AltaGas' share of NGLs production at Empress ATCO is sold under one year evergreen marketing arrangements at the monthly market price for NGLs. Approximately 60 percent of AltaGas' share of NGLs production generates revenue subject to a long term profit and loss arrangement which includes a processing fee and revenues vary with product pricing. The remainder is sold at monthly market price for NGLs.

Extraction - Empress EnCana Extraction Plant

Effective April 1, 1998 AltaGas acquired a 10 percent interest in the Empress EnCana extraction plant. The other owners are EnCana Corporation (EnCana) (70 percent), Devon Canada Corporation (10 percent) and Husky Oil Operations Limited (10 percent). The Empress EnCana extraction plant is located two km southeast of the Empress ATCO extraction plant and began operations in September 1996. The plant is licensed to process 1,200 Mmcf/d of natural gas of which 120 Mmcf/d is AltaGas' net share. Ethane recovery capability was added to the Empress EnCana extraction plant in the first quarter of 1999 and in October 2003 modifications were completed to increase the ethane production capability. AltaGas' net share of modification costs was $5.5 million, increasing its net ethane production by approximately 1,200 Bbls/d.

AltaGas has managed its gas supply risk at this facility by securing up to 120 Mmcf/d of natural gas throughput on a long term basis.

AltaGas' net share of ethane production is sold under a long term cost of service type contract which provides for the recovery of certain operating costs. Approximately 85 percent of AltaGas' net share of NGLs production generates fixed fee revenue plus reimbursement of associated operating costs, under a long term processing arrangement. The remainder is sold under a one-year evergreen marketing arrangement at the monthly market price for NGLs.

Extraction - Joffre Ethane Extraction Plant

AltaGas and Taylor each own 50 percent of the ethane extraction plant at Joffre, Alberta. The Joffre plant, which was constructed during 2002 at a net cost to AltaGas of $24.8 million, started operations in December 2002. AltaGas' share of processing capacity is 125 Mmcf/d of natural gas and is capable of producing up to 5,200 barrels per day of ethane and NGLs. Taylor is operator of the facility.

The Joffre plant is adjacent to NOVA Chemicals Corporation's (Nova) Joffre petrochemical complex and recovers ethane and NGLs from the fuel gas used at the complex. All ethane production from the Joffre plant is sold under a cost of service type contract with Nova which expires in 2031. Under this ethane sales agreement, a portion of the operating cost risk is borne by AltaGas and Taylor. This portion is a function of the ratio of NGLs production to total plant production. If operating costs increase or the ratio of ethane to total NGLs production falls, then the cost to AltaGas and Taylor increases. AltaGas and Taylor each market their respective 50 percent share of the NGLs production from the facility. AltaGas sells its net share of NGLs production under a one year evergreen marketing agreement at the monthly average market price for NGLs.

The Joffre plant is physically configured such that NGLs production can easily be matched to market demand. This ability to step in and out of the NGLs market depending on NGLs pricing allows AltaGas and Taylor to fully participate in the market when NGLs prices are strong, while minimizing exposure during times of unfavourable pricing.

Extraction – Edmonton Ethane Extraction Plant

In late August 2004, AltaGas acquired a 48 2/3 percent interest in the Edmonton ethane extraction plant (EEEP) from BP Canada Energy Resources for approximately $43.4 million, after adjusting for the economic benefit from the January 1, 2004 effective date to closing. The remaining interest in the plant is held by ATCO Midstream Ltd. AltaGas operates the plant and employs the EEEP staff. The plant has a licensed gross inlet capacity of 390 Mmcf/d of natural gas and gross production of specification ethane of 15,000 Bbls/d and NGLs of 6,000 Bbls/d. A long term gas supply contract provides a secure feedstock supply to EEEP. AltaGas' share of the plant products is sold under long term contracts through cost of service or cost plus sales arrangements.

EEEP is directly connected to the Alberta Ethane Gathering System, and to BP Canada Energy Resources' Co-Ed NGL pipeline, providing safe and reliable outlets for the plant products. The processed gas from the facility feeds the City of Edmonton, Alberta.

Extraction - Bantry Field Fractionation Facility

AltaGas purchased the Bantry natural gas processing plant in May 2000 and expanded it in 2001 (see Field Gathering and Processing Facilities). The plant is equipped with fractionation facilities capable of producing up to 400 Bbls/d of specification propane, butane and pentanes-plus for sale to local markets.

Extraction - Competition

Currently there are six extraction plants in the Empress area. This results in significant competition for natural gas supply. AltaGas is largely insulated from this natural gas supply competition through its long term natural gas supply contracts.

Transmission

AltaGas entered the transmission business in 1998 and has acquired or constructed several transmission pipelines since that time.

AltaGas provides transportation on its transmission lines through cost of service type fee structures, with the exception of the Suffield and Kahntah pipelines which are take or pay arrangements. The largest contributor to AltaGas' transmission revenues is the Suffield System, which consists of two natural gas pipelines at Suffield, Alberta. AltaGas acquired the Suffield System from subsidiaries of EnCana for approximately $95.0 million on December 19, 2002. The Suffield System, located in southeastern Alberta, transports natural gas produced on and around the Suffield military block to the TransCanada Transmission Canadian mainline at Burstall, Saskatchewan. Constructed by EnCana between 1998 and 2001, the Suffield System is regulated by the National Energy Board and rates on the system are based on a market-based tolling methodology. The two pipelines each have 200 Mmcf/d of transmission capacity. The south Suffield pipeline is a 147 km pipeline of six to 16 inch diameter pipe. The north Suffield pipeline is 96 km of 16 inch diameter pipe. The majority of the Suffield System's capacity is currently contracted by EnCana through transport or pay and volume commitments which will expire in 2022 and be renewable for one year periods thereafter. Volume commitments will increase annually from approximately 340,000 GJ/d in 2004 to approximately 406,000 GJ/day in 2010 and declining thereafter. AltaGas anticipates an expanded transportation role for the Suffield System and expects to work with potential shippers to develop transportation opportunities to maximize the system's capabilities.

In June 2002, AltaGas reclassified certain pipeline segments in the Cold Lake operating area in northeastern Alberta from gathering to transmission pipelines to align with the Alberta Department of Energy's new petroleum registry system implemented on November 1, 2002.The reclassified pipeline segments were combined with the Whitney Lake pipeline to create the Cold Lake natural gas transmission system. AltaGas owns and operates the Cold Lake natural gas transmission system which interconnects with TransCanada's Nova Gas Transmission Limited system and the TransGas Limited system, and consists of 36 receipt points and 39 delivery points (including five pipeline interconnects).

The Cold Lake and Summerdale pipelines provide AltaGas' gas services team with marketing and exchange opportunities as the pipelines are connected to major downstream pipeline systems that allow AltaGas' customers to access Alberta and Saskatchewan markets.

The Kahntah pipeline, built to transport natural gas from British Columbia to Alberta, is regulated by the National Energy Board on a complaints basis. The entire capacity of that system is contracted until March 2005. Negotiations are currently in progress to renew the contract for an additional two years. The Porcupine pipeline, located in southeast Alberta, is a single shipper pipeline with contract expiry in 2006. Both systems are integral in the delivery of their respective products to market and new contracts are expected to be negotiated prior to expiration.

The following table provides a summary of the gross capacity of AltaGas' transmission pipelines at December 31, 2004.

Transmission Pipeline	Product	Area	Design Capacity	Operating Capacity	Throughput[1]	Length (km)
Suffield	Natural Gas	SE Alberta	400 Mmcf/d	400 Mmcf/d	355 Mmcf/d	243
Cold Lake	Natural Gas	East Central Alberta	80 Mmcf/d	80 Mmcf/d	56 Mmcf/d	253
Summerdale	Natural Gas	Central Alberta	24 Mmcf/d	24 Mmcf/d	16 Mmcf/d	18
Kahntah	Natural Gas	NE B.C.	95 Mmcf/d	35 Mmcf/d	3 Mmcf/d	55
Battle Lake	Natural Gas	Central Alberta	15 Mmcf/d	15 Mmcf/d	2 Mmcf/d	16
Porcupine Hills	Condensate	SW Alberta	11,600 Bbls/d	11,600 Bbls/d	3,805 Bbls/d	164

Note:
(1) Represents 2004 fourth quarter average.

Other

AltaGas makes modest investments in industry service companies where it considers it to be prudent to do so and which provide an opportunity to enhance AltaGas' existing business activities. At December 31, 2004 AltaGas' investment in public and private companies was $31.8 million.

AltaGas holds limited partnership units in Taylor whose business is the ownership and operatorship of facilities in the midstream sector of the western Canadian natural gas industry. AltaGas' ownership of Taylor was 5,389,985 limited partnership units or approximately 18.9 percent at December 31, 2004. On February 7, 2005, the Trust sold 1.4 million units of its investment in Taylor for net proceeds of $12.8 million and pre-tax gain of $5.0 million. The sale reduced AltaGas' ownership in Taylor to 14.1 percent.

ENERGY SERVICES

Energy Services includes power services, natural gas services and oil and natural gas production.

Power Services

AltaGas entered the power business in December 2001 and at December 31, 2004 had 478 MW of power generation capacity in Alberta through a 50 percent ownership interest in the Sundance B PPAs, the Genesee energy contract, and a capital lease for gas fired power peaking capacity. AltaGas' 478 MW of power is estimated by management to be approximately six percent of Alberta's power capacity at December 31, 2004.

Power Services - Sundance B Power Purchase Arrangements

PPAs were established in 1999 under Alberta's program of power industry deregulation. Alberta is currently the only province providing this opportunity. PPAs, which in form resemble contracts, were created to separate ownership of the physical power generation assets from ownership of their output. The Sundance B PPAs are divided into two PPAs, one for each of the two units comprising the Sundance B Plant.

The ASTC Power Partnership

AltaGas and TransCanada Energy Ltd. (TransCanada) are partners in the ASTC Partnership. Each partner owns a 50 percent share and contributed 50 percent of the approximately $220.0 million required for the ASTC Partnership to purchase the Sundance B PPAs from Enron Canada Power Corporation (ECPC) on December 28, 2001. ECPC originally purchased the Sundance B PPAs for $294.8 million at an auction arranged by the government of the Province of Alberta on August 24, 2000. The Partnership holds the Sundance B PPAs as partnership property, with both partners having an equal interest in each PPA.

The 50 percent interest in the Sundance B PPAs provides AltaGas with the rights to 353 MW of power generation capacity, energy and ancillary services from the coal fired Sundance B plant until December 31, 2020.

The ASTC Partnership started dispatching power effective December 29, 2001. AltaGas maintains the books and records of the ASTC Partnership, including providing accounting services. TransCanada, currently manages daily Sundance B PPAs operations including the dispatch of power into the Alberta Power Pool (the Pool). AltaGas is responsible for managing its own market risk associated with its share of acquired power generation capacity.

The Sundance B Plant

TransAlta Corporation owns the coal fired Sundance B Plant which is located approximately 70 kms west of Edmonton, Alberta, and has been operating since 1976 (Unit 3) and 1977 (Unit 4). The Sundance complex consists of Units 1 through 6. An auction conducted on August 24, 2000 grouped the Units into three plants: Sundance A Plant - Units 1 and 2, Sundance B Plant - Units 3 and 4, and Sundance C Plant - Units 5 and 6.

The Sundance complex is connected to the Alberta Interconnected Electric System, allowing access to markets in Alberta, British Columbia, Saskatchewan and the United States.

The Sundance B Plant - Power Sales

Revenue from the sale of power is largely driven by megawatt hours of production and by Pool prices. The relationship between production, Pool prices and cost of sales is complex. All of the power produced in Alberta is currently sold into the Pool. The Pool operates an open market for the exchange of electricity. The Pool establishes the power price based on power offers from Pool participants utilizing a uniform pricing model whereby the marginal unit establishes the price for all generators. Pool schedulers sort the offers by price into a stacked merit order beginning with the lowest cost producer thereby defining a supply curve for each hour. By matching energy supply with demand, the Pool establishes a uniform hourly market price, which is published on the Pool's website. In Alberta, coal fired electrical generation is generally produced at a lower cost than gas fired electrical generation.

Under the Sundance B PPAs, the Partnership holds the rights to the power capacity and ancillary services from Units 3 and 4 of the Sundance B Plant. Day to day operation of the Sundance B PPAs requires the ASTC Partnership to communicate the volume of power available and the price of the power to TransAlta and to sell that power as it becomes available. The ASTC Partnership is obligated to pay TransAlta a price which covers TransAlta's capital and operating costs as determined by mechanisms in the Sundance B PPAs and provides TransAlta with a reasonable profit. The majority of the ASTC Partnership's cost of sales are the relatively fixed costs paid to TransAlta and the variable costs of transmission and Pool trading charges.

Each of Units 3 and 4 has a nameplate capacity of 353 MWs. The Sundance B PPAs recognize that the plant will not produce at 100 percent capacity all of the time. TransAlta is obligated to provide AltaGas financial compensation to a stated target availability level regardless of actual generation of electricity from the Sundance B units. This is accomplished by a financial payment based on the difference of the actual availability below the target availability level multiplied by the Rolling 30-Day Average Pool Price (RAPP). During these under-generation periods AltaGas has financial exposure on the difference between the Alberta spot price and RAPP on the difference between volumes generated to target availability.

The operational risk associated with being hedged is minimized through the diversification offered by the two units at each of the Sundance B and Genesee power plants, the 25 MW gas fired peaking capacity, unit contingent hedges and, if necessary, replacement power purchases.

TransAlta is an experienced operator of coal-fired electrical generation facilities and has financial incentives to operate the Sundance B plant efficiently and at high levels of electricity generation. The plant uses coal from the adjacent Highvale Mine which is anticipated to have sufficient reserves for the expected fuel requirements of the Sundance B plant beyond the life of the Sundance B PPAs.

Power Services - Genesee Energy Contract

On March 18, 2003 AltaGas announced it was a successful bidder for 100 MW of power capacity in the Alberta government's Market Achievement Plan (MAP) II auction. Accordingly, AltaGas entered into an energy contract with the Balancing Pool Administrator (BPA) for the right to 100 MW of power capacity at the EPCOR Generation Inc. operated Genesee power plant located southwest of Edmonton, Alberta for a three year term commencing April 1, 2003. The 100 MW of power capacity is a portion of the capacity at the Genesee power plant to which the BPA has rights pursuant to PPAs. The Genesee power plant is a coal fired facility consisting of two independent units.

The energy contract required no capital outlay by AltaGas, but instead requires AltaGas to pay a competitively priced fixed monthly capacity charge for the power capacity in Alberta. Other costs associated with the contract include a monthly energy payment and incentive payment, transmission and Pool trading charges. The Genesee energy contract expires March 31, 2006. It is expected that the Balancing Pool will hold a MAP III auction for the Genesee capacity.

Power Services - Gas Fired Peaking Capacity

On September 1, 2004 AltaGas entered into a long term capital lease with Maxim Energy Group Ltd. for 25 MW of gas fired power peaking capacity in southern Alberta. The capital lease has a 10 year term commencing September 1, 2004 and includes an option at the end of the initial term to extend the term for a further 15 years or purchase the assets. The capital lease requires AltaGas to pay Maxim monthly variable operating and maintenance charges plus a capacity fee. AltaGas retains 100 percent of the ancillary services and merchant peaking sales revenues.

The gas fired power peaking capacity provides energy during times of peak power demand. The peaking gas requirement is managed by AltaGas' gas services component and dispatch of the units is managed by AltaGas' real time desk at the Edmonton ethane extraction plant. The addition of the 25 MW of natural gas generated power capacity provides fuel diversity to AltaGas' coal fired generation and adds a fifth independent supply source. Operationally, given the speed at which the peaking plants can be ramped up, the peaking supply provides some backstopping to AltaGas' Sundance B PPAs and Genesee energy contract.

Power Services - Risk Mitigation

The main risk faced by AltaGas in the power business is the fluctuation in the margin between power revenues and the cost for power. This is generally created through changes in power prices, increases in operating costs, changes in transmission rates, and reductions in power available for sale, mainly due to outage and force majeure events. AltaGas attempts to mitigate this risk by maintaining a balanced portfolio of contracts to lock in power margins.

AltaGas does not engage in speculative trading of power. AltaGas manages its acquired power capacity to provide stable, predictable earnings and cash flow over time. AltaGas reduces its exposure to floating power prices by supplying its own operating electrical demand requirements and by using a balanced portfolio of contracts to lock in power margins to reduce pricing risk.

During 2004, the average monthly Pool price ranged from a low of $42.46 per MWh in March to a high of $67.13 per MWh in May. The average all hours Pool price for 2004 was $54.54/MWh compared to $62.98 per MWh for 2003. The average sales price received by AltaGas for 2004 was $48.77 per MWh compared to $47.56 per MW during 2003. AltaGas has sold a substantial portion of its power forward for 2005. Pool prices are primarily driven by industrial and residential demand and a changing portfolio of supply.

The following chart provides a summary of power prices and volumes for the three years AltaGas has been in the power business.

	2004	2003	2002
Volume of power sold (thousands of MWh)	3,481	3,266	2,669
Average price received on the sale of power ($/MWh)[1]	48.77	47.56	41.27
Alberta Power Pool average spot price ($/MWh)[1]	54.54	62.98	43.85

Note:
(1) Annual average.

The Sundance B and Genesee plants are each made up of two units that are physically independent of each other. Furthermore, the supply portfolio's operational flexibility and reliability has been enhanced with the addition of the 25 MW gas fired peaking capacity. With AltaGas' five independent supply sources it would be unusual that all units would experience reduction in production or would be shut down at the same time whether for planned maintenance or otherwise.

In the event of any force majeure related to the Sundance B PPAs, AltaGas is entitled to a termination payment from the balancing pool equal to its portion of the net present value of the amortized Sundance B PPAs purchase price to that date. With respect to a force majeure event on the Genesee contract, AltaGas may elect to terminate the contract upon paying three monthly capacity charges or alternatively can continue to suspend payment and revenues from the specific Genesee unit. AltaGas has further minimized the risk of a force majeure event to a particular unit by diversifying its supply over four independent baseload units, acquiring 25 MW of gas fired peaking capacity, entering into unit contingent hedges, and executing independent backstopping arrangements to supply electricity in the event of a force majeure.

Power Services - Competition

AltaGas does not sell retail power and targets customers with a minimum baseload requirement of two MWs. The Sundance B PPAs and Genesee plants are two of the lowest-cost power producers in their market and lowest in the dispatch merit order. AltaGas expects most new supply to come from natural gas-generated power, which is not expected to be less costly than its coal generated power through its PPAs.

Gas Services

AltaGas has managed and marketed natural gas since 1994. There is minimal capital required to operate AltaGas' gas services business. AltaGas does not speculate on the commodity price of natural gas on its own behalf or on behalf of its customers. AltaGas has implemented rigorous risk management processes and systems to carefully monitor and manage its gas services business. AltaGas has traditionally marketed natural gas processed through its field gathering and processing, transmission and extraction facilities, and gas supplied by a pool of producers. On October 6, 2004 AltaGas significantly expanded this component with the acquisition of substantially all of the assets, including the company names, and liabilities of PremStar and its subsidiaries ECNG Inc. (ECNG) and Energistics Group Inc. (Energistics). The purchase price of $22.0 million, after closing adjustments from the effective date of April 1, 2004 was paid primarily by way of the issuance of 993,789 Trust units.

The addition of PremStar builds on this low risk, fee for service business. PremStar is one of Canada's leading energy agency businesses, specializing in the procurement and supply of energy to end use customers across Canada. On a fee for service basis, PremStar provides energy supply, arranges for transportation services, and supports customers with valuable market information. This acquisition is expected to make a significant positive impact on AltaGas' gas services component through PremStar's existing business and through value chain optimization with other components of AltaGas.

Gas Services - Natural Gas Marketing and Energy Supply Management

The gas services component is comprised of three business lines:

- energy procurement and consulting services;
- energy supply; and
- natural gas transportation and storage optimization.

The energy procurement and consulting services business is primarily a fee for service business, the majority of which is based on one to three year evergreen contracts. The energy supply and natural gas transportation and storage optimization businesses are margin based, with revenue increases directly linked to increases in costs to purchase the transportation or commodity. As a result, commodity price swings have minimal impact on AltaGas' operating cash flows.

Energy Procurement and Consulting Services

With the acquisition of PremStar in October 2004, the majority of energy procurement and consulting in the gas services component is conducted through service agreements with commercial, industrial and institutional end-use customers on a fee for service basis. PremStar enters into one to three year agency retainer agreements with clients under which it provides gas and electricity supply purchasing and price management advice to its customers. Under these agency agreements, PremStar on behalf of its end-use customers, also purchases and manages gas supply and fixes the price of their electricity purchases. PremStar acts as agent on behalf of its customers and as such is not exposed to the commodity price for gas or electricity supplies.

In addition to PremStar business, AltaGas also provides energy procurement services for a select group of industrial and other users including AltaGas Utilities. AltaGas purchases gas for AltaGas Utilities under a fee for service contract. The arrangement, which has been in place since 1999, establishes AltaGas as the exclusive supply manager in respect of all matters relating to AltaGas Utilities regulated distribution supply. AltaGas receives a monthly fee for service plus the reimbursement of all third party and extraordinary costs incurred by AltaGas. Similar gas supply management arrangements are in place with other industrial and producer customers, including the Joffre ethane extraction plant. In addition, AltaGas manages the third party pipeline transportation requirements for many of its gas marketing customers under contractual arrangements whereby it is indemnified for all risks and obligations relating to the customer's transportation contracts.

Energy Supply

AltaGas markets natural gas supply to producers, retailers and end-users. The supply comes from deliveries of natural gas processed at AltaGas' facilities and from other producers and wholesalers with natural gas supply not associated with AltaGas' facilities. Natural gas supply sales come from AltaGas controlled production or from back-to-back supply purchases. Fees are earned on a margin which is fixed at the time the contract is executed.

Natural Gas Transportation and Storage Optimization

Optimization is a wholesale marketing activity which identifies opportunities to exchange, re-allocate or re-sell pipeline capacity and storage to increase its utilization and value. Net revenues from such opportunities are derived from low-risk opportunities based on transportation cost differentials between pipeline systems available from in-depth knowledge of transportation systems and natural gas markets. Margins are earned by simultaneously locking in buy and sell transactions and effectively managing credit exposures among the wholesale counterparties.

AltaGas carries on optimization business through PremStar focusing on transportation arrangements into the eastern Canadian markets. Optimization business is also conducted within Alberta in the form of gas exchange arrangements with AltaGas' gathering and processing customers. AltaGas markets or exchanges all of the volumes that flow through its Cold Lake and Summerdale pipeline systems. In a gas exchange transaction AltaGas buys natural gas on the TransCanada system

to pay back clients whose natural gas has been physically delivered to customers on an AltaGas system. By purchasing or exchanging gas on these pipeline systems and at other facilities, AltaGas has been successful in achieving positive margins for AltaGas while providing improved netbacks for producers.

In addition, AltaGas has contracted for a nominal amount of firm receipt capacity on TransCanada's Alberta system with terms varying between one and five years which it uses to offset producer client deliveries using higher-priced interruptible service. These differentials are retained by AltaGas.

Gas Services - Customers

AltaGas has, through PremStar, agency retainer arrangements with over 1,000 customers. Customer retention rates are over 90 percent. These customers are commercial, industrial and institutional end-users in Ontario, Quebec, and Manitoba. PremStar buys natural gas and electricity on behalf of its customers through 17 suppliers. In its energy supply and optimization business, AltaGas buys natural gas from approximately 100 suppliers and sells natural gas to approximately 45 customers. No gas services customer represented seven percent or more of consolidated revenues during 2004.

Gas Services - Competition

In the natural gas supply business, AltaGas' competitors range from single-person operations to large marketing and aggregation companies. Prior to 2002, many large energy marketers competed for very thin margins with success achieved by providing a wide range of "value-added" energy services and by trading large volumes. As a result of recent changes in the industry, the primary source of competition is now the marketing arms of large oil and gas producers, as well as a few creditworthy energy utilities.

AltaGas competes in this environment by focusing on marketing natural gas produced at its gathering and processing facilities, as well as the gas of smaller natural gas producers whose needs cannot be met by larger marketers who have difficulty providing personal service to smaller clients. AltaGas also acts as an aggregator, buying natural gas from larger wholesale marketers for resale to its customers.

In the procurement and consulting business, AltaGas competes against other marketing and consulting firms. AltaGas, through ECNG, believes it is successful in this market because of its history and experience, its focus on commercial and institutional end-users across a variety of business sectors, focused customer service, and the effectiveness in its back office systems and processes which allow it to closely manage customers' energy supplies.

Oil and Natural Gas Production

AltaGas is not in the business of exploration and development of natural gas reserves as it does not want to compete with producers flowing natural gas through AltaGas' gathering and processing systems. However, in connection with larger acquisitions that included gathering and processing facilities, AltaGas has accumulated a portfolio of oil and natural gas production and shares of small oil and gas production companies. AltaGas continues to hold and produce some of the production to act as natural hedges to business activities such as shrinkage make-up at extraction plants, and natural gas marketing related risks including credit risk. At December 31, 2004 AltaGas' capital investment in oil and natural gas production was $28.2 million. Oil and natural gas production represented less than three percent of the Trust's total operating margin in 2004. AltaGas' focus in 2004 was to maintain production, offsetting declines with minor investments.

NATURAL GAS DISTRIBUTION

AltaGas operates a natural gas distribution business through its indirect wholly owned subsidiary, AUI, its one-third interest in Inuvik Gas and its 24.9 percent interest in Heritage Gas. AUI operates as a provincially regulated natural gas distribution utility in its areas of service in the province of Alberta. Inuvik Gas distributes natural gas to the Northwest Territories Power Corporation and to the town of Inuvik in the Northwest Territories and Heritage Gas has the distribution franchise to deliver natural gas to six counties in Nova Scotia. Natural gas distribution companies provide natural gas to residential, farm, commercial and industrial users for heating and other purposes.

The Natural Gas Distribution segment contributed net revenues of $30.7 million for the year ended December 31, 2004 which was approximately 12 percent of the Trust's total net revenues compared to net revenues of $30.6 million for the year ended December 31, 2003 which was approximately 14.0 percent of the Trust's total net revenues.

Natural Gas Distribution – Net Additions to Capital Assets

Approximate capital expenditures, net of customer contributions, government grants and asset disposal proceeds for the Natural Gas Distribution segment during the past five years ended December 31 are set out below:

Year	Net Additions to Capital Assets (million)
2004	$9.6
2003[1]	$16.8
2002	$3.7
2001	$5.4
2000	$4.4

Note:
(1) Includes $10.2 million related to the retirement of prior years' capital contribution in aid of construction.

Natural Gas Distribution - AltaGas Utilities

The AltaGas Utilities acquisition effective June 30, 1998 included the purchase of AUI for $62.5 million plus $45.3 million of assumed AUI's debt. At December 31, 2004 AUI served approximately 60,400 customers, representing approximately six percent of the Alberta natural gas distribution market.

AUI's head office is located in Leduc, Alberta. Operating since 1954, AUI delivers natural gas to residential, farm and small commercial customers in more than 90 communities and surrounding rural areas throughout Alberta including Athabasca, Barrhead, Bonnyville, Drumheller, Elk Point, Grande Cache, Hanna, High Level, Leduc, Morinville, Pincher Creek, St. Paul, Stettler, Two Hills, Wabasca, Three Hills and Westlock. During 2004 AltaGas Utilities delivered approximately 24.6 Bcf through its system.

AUI has entered into an agreement with Orr Mineral Developments Ltd. (Orr) to acquire its distribution assets which provide natural gas service to approximately 112 customers in the hamlet of Suffield in southern Alberta. The sale by Orr requires the approval of the AEUB, which is expected to be obtained in early 2005.

AUI, like all Canadian natural gas distribution companies, is provincially regulated as to natural gas tariffs for sales and transportation. AUI is regulated by the AEUB which exercises statutory authority over matters such as rate base, rate of return on common equity, capital structure and natural gas cost recovery rates. Rate base generally consists of the aggregate of a utility's approved investment in plant, property and equipment in service less accumulated depreciation plus an allowance for working capital. Net rate base excludes no-cost capital, which consists of unamortized contributions and grants from governments and customers. AUI's gross rate base was $142.5 million in 2004 compared to $140.4 million in 2003 and net rate base was $92.4 million for 2004 compared to $88.2 million in 2003. The increase in rate base is due to normal capital expenditures required to provide service to new customers and to replace and improve existing facilities offset in part by amortization of existing plant and facilities.

On June 27, 2003 AUI filed a 2003 and 2004 general rate application with the AEUB proposing a negotiated settlement process for Phase 1 of this proceeding. In Phase 1 proceedings the revenue requirements of the company are determined. On July 29, 2003 the AEUB approved the commencement of negotiations with respect to all components of revenue requirements except the 2004 capital structure and rate of return on common equity. These components were determined through a Generic Cost of Capital Proceeding. The negotiated settlement process for the 2003 and 2004 Phase 1 proceedings concluded in early 2004 with an agreement with customer representatives. The AEUB issued its decision on August 3, 2004 confirming the revenue requirements resulting from the negotiated settlement process. AUI filed its Phase 2 application, for the 2003 and 2004 test years, arising from the AEUB approval of its Phase 1 application. The Phase 2 portion of the general rate proceeding encompasses allocating costs to rate classes and the design of rates. The hearing on this phase was completed on January 14, 2005 and a decision is expected to be reached early in the second quarter 2005. The Generic Cost of Capital Proceeding established the allowed return on common equity for 2004 at 9.6 percent and the capital structure at 59 percent debt and 41 percent equity. The return on equity for years subsequent to 2004 will be adjusted based on a formula which is driven by changes in the return on long term Canada bonds. The return on equity for 2005 under the formula is 9.5 percent. AUI filed a Phase 1 General Rate Application for 2005 and 2006 in the fourth quarter of 2004. A decision on Phase 1 is expected in the third quarter of 2005.

The natural gas distribution business is highly seasonal with the majority of natural gas demand occurring during the winter heating season which extends from November to March. Natural gas sales during the winter typically account for approximately two-thirds of annual natural gas distribution revenue resulting in strong first and fourth quarter results and second and third quarter results that show either small profits or losses.

AltaGas Utilities - Transmission and Distribution System

AltaGas Utilities' distribution system consists of approximately 19,400 kms of pipeline, operating at pressures from 200 kilopascals to 8,755 kilopascals. AUI uses steel and aluminium pipe to transport natural gas at higher pressures while natural gas at lower pressures is transported primarily by plastic pipe. There are approximately 740 small and mid-sized metering and pressure regulating stations throughout AUI's distribution network. AUI's distribution system does not require any compressors.

Substantially all of AUI's transmission pipelines are constructed on rights-of-way granted by the Government of Alberta or the owners of privately-held lands. The duration of these grants may be either in perpetuity, for as long as the rights-of-way are used for a pipeline or for fixed terms negotiated by AUI. Crossings under highways, railways and bridges have been constructed pursuant to orders or permits from the appropriate authorities or owners. Distribution pipelines are installed primarily under highways and streets pursuant to permits or orders from the appropriate authorities, franchise agreements entered into with municipalities and rights-of-way held directly. Buildings such as the administration, storage and maintenance buildings owned by AUI throughout its franchise areas are located on freehold land owned by AUI.

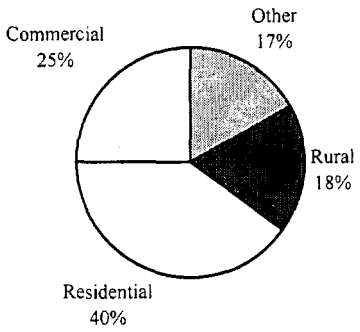
AltaGas Utilities - Natural Gas Supply and Transportation Arrangements

AltaGas assumed the management of AltaGas Utilities' natural gas supply arrangements on November 1, 1999. The majority of natural gas supply is purchased from natural gas producers and marketing companies. AUI currently buys the majority of its natural gas under monthly and peaking arrangements. AUI has a deferred natural gas accounting process in place whereby the customers pay the forecast cost of natural gas and differences between forecast and actual costs are either refunded to or collected from customers in a subsequent period.

AUI purchases the majority of its natural gas off TransCanada's Alberta system. Deliveries are made at various Alberta delivery points into the AUI system for delivery to its customers. AUI's natural gas supply arrangements provide that third party transportation charges are paid by natural gas suppliers.

AltaGas Utilities - Franchises

As of December 31, 2004 AltaGas Utilities held 73 franchises; 50 distribution franchise agreements under the Municipal Government Act (Alberta) (MGA), four permits granted by Indian and Northern Affairs Canada (INAC) and 19 rural franchise approvals under the Gas Distribution Act (Alberta). The distribution franchise agreements under the MGA can have terms of up to 20 years. As at December 31, 2004, the MGA franchises had an average remaining term of 3.8 years, compared to 2.1 years as at December 31, 2003. The majority of the distribution franchise agreements contain a provision to the effect that if the municipality chooses not to renew the franchise, the municipality must purchase AUI's distribution system within the municipality. The purchase price may be set by the AEUB should the parties fail to agree. Prior Supreme Court of Canada decisions support a price at the full reproduction value less loss in value of the system. While such franchise



or operating agreements are in effect some municipalities receive fees based on a percentage of either the gross or net revenue from natural gas sales in the municipality. Franchise fees are collected directly from customers as a separate item similar to a sales tax and are not included in revenues. The permit granted by INAC and a related operating agreement are currently under renegotiation. The rural franchise approvals under the Gas Distribution Act (Alberta) continue in perpetuity or until revoked by the Government of Alberta. Four rural franchises, covering Métis settlements, are also subject to the terms of operating agreements which contain provisions for the settlements to acquire the distribution systems. Two Métis settlements are currently evaluating the feasibility of acquiring the distribution systems serving their areas. These systems serve approximately 350 customers representing 0.6 percent of AUI's customer base.

In 2003, AltaGas Utilities was involved in negotiations with the Alberta Urban Municipalities Association to establish a standard franchise agreement. It is expected that most municipalities in Alberta will use this standard agreement when renewing franchises with natural gas distributors. AltaGas Utilities filed an application to renew the franchise for the town of Bonnyville using the new standard agreement. A public hearing before the AEUB that was held to review the application resulted in the AEUB approving the application. Several municipalities had not renewed their franchises pending the drafting and approval of the standard franchise agreement. With the approval of the standard franchise agreement AUI was able to obtain AEUB approval for 11 franchise renewals. At December 31, 2004 one franchise renewal application had also been filed for approval with the AEUB. Each of these renewals is for a 10 year period.

AltaGas Utilities - Customers

AltaGas Utilities' market consists primarily of residential and small commercial customers located in smaller population centres or rural areas of Alberta. Within AltaGas Utilities' current franchise areas, AltaGas Utilities has nearly achieved market saturation. Growth opportunities in these areas are tied to the general strength and growth of the local economies. New customers are added primarily as new subdivisions are developed. AltaGas Utilities expects customer growth of approximately two percent annually in these existing areas. New customer installations totalled 1,209 in 2004, 1,119 in 2003, 1,511 in 2002, 886 in 2001, and 889 in 2000.

Percent of Revenue by Customer Type

AltaGas Utilities had three franchise areas as shown below that each accounted for 3.9 percent or more of AltaGas Utilities' revenues and distribution volumes at December 31, 2004.

Area	Percentage of AltaGas Utilities' Revenues	Percentage of AltaGas Utilities' Distribution Volumes
City of Leduc	9.9	9.6
Town of Drumheller	4.5	4.3
Town of Bonnyville	4.2	3.9

AltaGas Utilities - Competition

AltaGas Utilities is a regulated natural gas distribution monopoly within its current franchise areas, but competes with distributors of other forms of energy including electricity, heating oil and propane. Natural gas is an economical and environmentally preferred fuel choice. Natural gas is the predominant energy form in the heating market throughout AUI's franchise areas. In 2004, the majority of AUI's revenues resulted from natural gas sales to the residential and commercial heating market.

AltaGas expects that natural gas will continue to hold a price and environmental advantage over alternative energy sources.

AltaGas Utilities – Collective Bargaining Unit

AltaGas Utilities is the only affiliate of AltaGas Ltd. that has members of a collective bargaining unit. Approximately 87 employees of AUI are members of the Communications, Energy and Paperworkers Union of Canada (CEP) Local 1947. In the first quarter of 2004 the collective agreement between AUI and CEP Local 1947 was renegotiated for the period January 1, 2004 to December 31, 2007. Over the 22-year history of its relationship with the bargaining unit, AUI has not experienced any labour disruption due to the collective bargaining process.

Natural Gas Distribution - Inuvik Gas

Inuvik Gas is the distribution portion of the Ikhil Gas Project and distributes natural gas to the Northwest Territories Power Corporation and in the town of Inuvik. Inuvik Gas obtained an exclusive franchise agreement from the town of Inuvik to distribute and sell natural gas within the town. Inuvik Gas provides the town of Inuvik with an economical alternative energy source for power generation and commercial and residential heating. Previously, diesel brought in from Edmonton was the town's primary energy source.

Several of the government buildings (including public housing, schools, hospital and college) were converted to natural gas service during the initial start-up of the distribution system in the fall of 1999. Other commercial and residential buildings have subsequently been converted bringing the total number of buildings using natural gas service at December 31, 2004 to 705 from 666 at December 31, 2003. The annual average volume of natural gas distributed in 2004 was 0.816 Mmcf/d. Any future volume growth is dependent on customer conversions to natural gas and new construction projects in the Inuvik area.

Inuvik Gas is regulated by the Northwest Territories Public Utilities Board (NWTPUB) and is presently exempt from full regulation as a public utility, but is subject to regulation on a complaint basis and is required to file its rates and terms and conditions of service with the NWTPUB as and when revised from time to time.

Enbridge Inc. and AUI provide engineering and administrative support respectively for Inuvik Gas Ltd.

Natural Gas Distribution - Heritage Gas

AltaGas embarked on an opportunity in 2002 to take advantage of its knowledge and experience in the natural gas distribution business and to diversify its geographic operating area. On August 16, 2002 Heritage Gas, owned by AltaGas (24.9 percent), SaskEnergy International Inc., a subsidiary of SaskEnergy Inc., (50.1 percent), and Scotia Investments Limited, a private investment holding company (25.0 percent) filed an application for the right to distribute natural gas to certain counties in Nova Scotia. The Nova Scotia Utility and Review Board (NSUARB) rendered a decision on February 7, 2003 that granted Heritage Gas a full regulation class franchise for a period of 25 years.

In its decision the NSUARB granted Heritage Gas a regulated rate of return of 13 percent on a 45 percent equity component and an 8.75 percent cost of debt on a 55 percent debt component of its capital structure. Heritage Gas accepted the distribution franchise on June 3, 2003 and has since acquired and constructed gas distribution facilities and undertaken those activities necessary to establish an operating natural gas distribution utility. On December 19, 2003 the NSUARB issued an interim approval of a schedule of rates, tolls and charges and a license to operate. Heritage Gas activated its natural gas distribution system on December 20, 2003. A full general tariff application for test years 2004 to 2009 was filed in 2004 and was approved by the NSUARB essentially as filed, thus establishing the rates to be charged to four separate classes of customers, depending on their level of consumption.

During the first five years of operation, the weather normalized under or over recovery of the annual revenue requirement will be accumulated and either recovered from or refunded to customers through adjustments to future rates.
At December 31, 2004, Heritage Gas' distribution system consisted of approximately 30 kms of pipeline infrastructure in the Halifax Regional Municipality, which provides access to approximately 1,500 customers. The distribution system was effectively doubled in size in 2004. Construction of a major facilities extension to serve Nova Scotia Power Incorporated's Burnside peaking station, located in the Halifax Regional Municipality, was constructed during the third quarter of 2004. The facilities are capable of delivering the daily contracted volume of 16,700 GJ. Heritage Gas anticipates that the facilities will be activated and billing to the customer will commence sometime in 2005.

Heritage Gas is focused on providing Nova Scotia consumers with the opportunity to switch heating fuel sources. At the end of the fourth quarter of 2004, Heritage Gas had installed services to approximately 180 customers of which 138 were activated at year end. In addition Heritage Gas had signed commitments from another 36 customers in the Halifax Regional Municipality. Heritage Gas has received approximately 150 customer commitments to convert to natural gas which meets the economic feasibility and revenue requirement tests for expansion of natural gas service to the town of Amherst. It is expected that natural gas service to Amherst could be available in the fourth quarter of 2005.

DESCRIPTION OF THE TRUST

GENERAL

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust (see AltaGas Income Trust; see also Declaration of Trust and Description of Units.) The Trust's operations and activities are restricted but include among other things: acquiring, investing in, holding, transferring, disposing of and otherwise dealing with securities of whatever nature or kind of, or issued by, Holding Trust, the General Partner, AltaGas Ltd. or any associate or affiliate of any thereof, or of, or issued by, any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, NGLs or other related products, power or other forms of energy and related businesses and such other investments as the Trustee may determine, and to borrow funds and issue debt securities, directly or indirectly, for that purpose and enter into hedging arrangements in relation thereto; engaging in all activities ancillary or incidental to any of these activities; and undertaking such other activities or taking such actions including investing in securities as shall be approved by the Trustee from time to time, provided that the Trust shall not, in any event, undertake any activity, take any action, or make any investment which would result in the Trust not being considered a "unit trust" or a "mutual fund trust" for purposes of the Tax Act or the Trust units being considered "foreign property" for the purposes of the Tax Act or the Trust itself being liable for any tax under Part XI of the Tax Act.

MANAGEMENT OF THE TRUST

THE TRUSTEE

The Declaration of Trust provides that the assets and affairs of the Trust are subject to the power, control and authority of the Trustee. Computershare Trust Company of Canada is the Trust's Trustee and also acts as transfer agent and registrar for the units of the Trust.

The initial term of the Trustee's appointment is until the third annual meeting of unitholders. The unitholders shall, at that annual meeting of the unitholders, re-appoint, or appoint a successor to the Trustee for an additional three-year term, and thereafter, the unitholders shall reappoint or appoint a successor to the Trustee at the annual meeting of unitholders three years following the reappointment or appointment of the successor to the Trustee.

The Trustee may be removed by notice in writing delivered by AltaGas Ltd. or the General Partner to the Trustee in the event that, at any time: (a) the Trustee no longer qualifies as such; (b) the Trustee is declared bankrupt or insolvent or enters into liquidation, whether compulsory or voluntary, to wind-up its affairs; (c) if the assets of the Trustee, or a substantial part thereof, otherwise become subject to seizure or confiscation; (d) if the Trustee otherwise becomes incapable of performing its responsibilities under the Declaration of Trust; or (e) as a result of a material increase in the fees charged by the Trustee. In such case, the removal is not effective until approved by an ordinary resolution of the unitholders and upon the acceptance or appointment of a successor Trustee. The Trustee may also be removed by ordinary resolution of the unitholders with or without cause.

The Trustee is required to act honestly and in good faith with a view to the best interests of the Trust and in connection therewith to exercise the degree of care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

Powers of the Trustee

Without in any way limiting the general power and authority over the assets and affairs of the Trust granted to the Trustee, the Trustee has the specific powers and authorities to do the following or to cause the same to be done, among other things: (a) supervise the activities and manage the investments and conduct the affairs of the Trust; (b) maintain records and provide reports to unitholders; (c) effect payment of distributions to Trust unitholders; (d) invest funds of the Trust; (e) where reasonably required, engage or employ on behalf of the Trust any persons as agents, representatives, administrators, employees or independent contractors in one or more capacities; (f) arrange for the procedures regarding the limitations on non-resident ownership as described under the heading Declaration of Trust and Description of Units – Limitation on Non-Resident Ownership, (g) except as prohibited by applicable law, delegate any of the powers and duties of the Trustee in relation to the Trust as provided in the Declaration of Trust or otherwise to any one or more agents, representatives, administrators, officers, employees, independent contractors or other persons (including but not limited to the General Partner or AltaGas Ltd.) without liability to the Trustee, except as provided in the Declaration of Trust, and may, from time to time,

with the consent of the General Partner, change the administrator of the Trust; (h) enter into or perform the obligations of the Trust under and in respect of any and all agreements to which the Trust becomes a party; and (i) without limit as to amount, issue any type of debt securities or convertible debt securities and borrow money or incur any other form of indebtedness for the purpose of carrying out the purposes of the Trust or for other expenses incurred in connection with the Trust; and exercise all powers which are necessary or useful to carry on the purpose and activities of the Trust, to promote any of the purposes for which the Trust is formed and to carry out the provisions of the Declaration of Trust.

The Trustee has delegated to the General Partner, pursuant to the Delegation Agreement, the power, authority and responsibility of the Trustee in respect of those matters referred to in the Delegation Agreement (see Delegation Agreement). In addition, the Trustee has contracted to AltaGas Ltd. to provide management, administrative and operating support pursuant to the Administration Agreement.

Restrictions on Trustee's Powers

Notwithstanding any of the Trustee's power and authority, the Trustee may not under any circumstances: vote the Holding Trust units, the Trust's securities of the General Partner or, where applicable, the Holding Trust Notes; or vote the Trust's securities of, or permit Holding Trust or the General Partner to vote their interests in, AltaGas LP1 or AltaGas LP2; or AltaGas LP1 to vote its interests in AltaGas LP2; or AltaGas LP2 to vote its securities of AltaGas Ltd., to authorize:

(f) any sale, lease or other disposition of all or substantially all of the assets of the General Partner, Holding Trust, AltaGas LP1, AltaGas LP2 or AltaGas Ltd., except in conjunction with an internal reorganization or a pledge to secure indebtedness incurred in carrying out the purposes of the Trust;

(g) any merger, amalgamation, arrangement, reorganization, recapitalization, business combination or similar transaction involving Holding Trust, AltaGas LP1, AltaGas LP2 or AltaGas Ltd., except in conjunction with an internal reorganization;

(h) any material amendment to the Holding Trust Note Indenture, other than an amendment which is not prejudicial to the Trust;

(i) the winding-up, liquidation or dissolution of the General Partner, Holding Trust, AltaGas Ltd. or (unless all of such limited partnership interests therein are owned directly or indirectly by the Trust) AltaGas LP1 or AltaGas LP2 prior to the end of the term of the Trust; or

(j) any material amendment to the Holding Declaration of Trust, the AltaGas LP1 limited partnership agreement, the AltaGas LP2 limited partnership agreement, or the articles of the Holding Trust Trustee, the General Partner or AltaGas Ltd., in a manner prejudicial to the Trust,

without the approval of the unitholders by special resolution at a meeting of unitholders called for that purpose. In addition, except as part of an internal reorganization of the direct or indirect assets of the Trust as a result of which the Trust has the same interest, whether direct or indirect, in the assets as the interest, whether direct or indirect, that it had prior to the reorganization, the Trustee has no power to:

(a) sell or otherwise dispose of any securities of the General Partner, Holding Trust units or Holding Trust Notes, except pursuant to a pledge pursuant to the Declaration of Trust or an in specie redemption; or

(b) sell all or substantially all of the Trust's assets or cause Holding Trust to sell all or substantially all of its assets, or cause Holding Trust to cause any subsidiary thereof to sell all or substantially all of the direct or indirect assets of the Trust, in each case in a single transaction or a series of related transactions, without the approval of the unitholders by special resolution.

Compensation of the Trustee

The Trustee shall be paid by the Trust such fees as may be agreed upon in writing from time to time by the General Partner and the Trustee, and if any such fees are not paid by the Trust within 30 days of the date of any invoice in respect thereof, the Trustee shall be entitled to have such fees paid out of the Trust's assets. As part of the expenses of the Trust, the Trustee may pay or cause to be paid all reasonable fees, costs and expenses incurred in connection with the discharge of any of the duties in the Declaration of Trust, including, without limitation, fees, costs and expenses of AltaGas Ltd. pursuant to the Administration Agreement, auditors, accountants, lawyers, appraisers and other agents, consultants, professional advisors employed by or on behalf of the Trust and the cost of reporting or giving notices to unitholders, including remuneration of the

Trustee for services rendered to the Trust in any other capacity (including as transfer agent or Depository).

Liability of Trustee

Except in the event of a breach of the standard of care, diligence and skill required of the Trustee, the Trustee shall not be liable to any unitholder for any action taken in good faith in reliance on any documents that are, prima facie, properly executed; for any depreciation of, or loss to, the Trust incurred by reason of the sale of any security; for the loss or disposition of monies or securities; or for any other action or failure to act including, without limitation, the failure to compel in any way any former trustee to redress any breach of trust or any failure by Holding Trust to perform obligations or pay monies owed to the Trust. If the Trustee has retained an appropriate expert or advisor with respect to any matter connected with its duties under the Declaration of Trust, the Trustee may act or refuse to act based on the advice of such expert or advisor and, notwithstanding any provision of the Declaration of Trust, including, without limitation, the standard of care, diligence and skill required of the Trust, the Trustee shall not be liable for any action or refusal to act based on the advice of any such expert or advisor which it is reasonable to conclude is within the expertise of such expert or advisor to give.

Subject to the standard of care required of the Trustee, neither the Trustee nor any officer, director, employee or agent thereof shall be subject to any liability whatsoever in tort, contract or otherwise, in connection with the Trust assets or the affairs of the Trust, including, without limitation, in respect of any loss or diminution in value of any Trust assets to the Trust or to the unitholders or to any other person for anything done or permitted to be done by the Trustee. The Trustee shall not be subject to any personal liability for any debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses against or with respect to the Trust arising out of anything done or permitted or omitted to be done in respect of the execution of the duties of the office of Trustee for or in respect of the affairs of the Trust. No property or assets of the Trustee, owned in its personal capacity or otherwise, will be subject to any levy, execution or other enforcement procedure with regard to any obligations under the Declaration of Trust or under any other related agreements. No recourse may be had or taken, directly or indirectly, against the Trustee in its personal capacity. The Trust shall be solely liable therefore and resort shall be had solely to the Trust assets for payment or performance thereof.

DELEGATION AGREEMENT

Pursuant to the Declaration of Trust and the Delegation Agreement the Trustee is authorized to, and may, delegate to the General Partner the power, authority and responsibility to make all decisions required to be made by the Trustee from time to time in relation to the Trust including, without limitation the power, authority and responsibility for any and all matters referred to in the Delegation Agreement.

Pursuant to the terms of the Delegation Agreement, the Trustee has delegated to the General Partner the responsibility for:

(a) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the determination of distributions (including the designation of any capital gain) to Trust unitholders and including, without limitation, the determination from time to time of the record dates for, and payment dates of, such distributions;

(b) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to the redemption of Trust units;

(c) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to ensuring compliance with the restrictions contained in the Declaration of Trust with respect to non-resident ownership of Trust units;

(d) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to the direct or indirect acquisition of Trust assets by the Trust and the negotiation of agreements in respect thereof;

(e) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to all matters related to any offering of Trust units or other securities of the Trust including:

(i) the listing and maintaining of the listing on the TSX of the Trust units;

(ii) the filing of documents or obtaining of permission from any governmental authority or the taking of any other step under federal or provincial law to enable securities which a unitholder is entitled to receive to be properly and legally delivered and thereafter traded;

(iii) ensuring compliance with all applicable laws;

(iv) the content of any offering documents, the accuracy of the disclosure contained therein, and the certification thereof;

(v) all matters concerning the terms of the sale or issuance of Trust units or rights to Trust units including without limitation all matters concerning any underwriting agreement;

(f) undertaking responsibility to make all directions and approve the negotiation and securing of bank financing or refinancing of one or more credit or debt facilities, hedging or swap facilities or other ancillary facilities in respect of the Trust or any entity in which the Trust holds any direct or indirect interest;

(g) approving on behalf of the Trust the annual audited and interim unaudited financial statements of the Trust, as well as relevant tax information;

(h) approving on behalf of the Trust all information to which unitholders are entitled under the Declaration of Trust and under applicable laws, including information or proxy circulars, annual information forms, prospectuses, quarterly and annual reports, notices, financial reports and tax information relating to the Trust;

(i) undertaking responsibility to make all determinations, and take, or cause to be taken, all such actions as relate to any and all proceedings from time to time before or in respect of governmental authorities on behalf of the Trust;

(j) approving on behalf of the Trust, any prospectus or comparable documents of the Trust to qualify the sale of securities of the Trust from time to time;

(k) undertaking and performing, by and through the audit committee of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf or in relation to the Trust, as is required by applicable law or desirable of an audit committee of the Trust;

(l) undertaking and performing, by and through committees of the Board of Directors, all acts and making all decisions and doing all other things, for, on behalf of or in relation to the Trust, as is required by applicable law or desirable of the applicable committee of the governing body of the Trust;

(m) undertaking responsibility to make all decisions and take, or cause to be taken, all such actions relating to all matters pertaining to the Trust in respect of which the administrator has a conflict of interest;

(n) determining the timing and terms of any offer by the Trust for, and repurchase by the Trust of, previously issued Trust units;

(o) determining whether to make any amendments to the Declaration of Trust, as in the opinion of the Board of Directors may be necessary or appropriate, in order to provide unitholders with the benefit of any legislation limiting their liability (including, if appropriate, amendments to effect a change in the situs of the Trust or the laws governing the Trust); and

(p) undertaking all matters in connection with any take-over bid, merger, amalgamation, arrangement, reorganization, recapitalization, purchase or repurchase of any securities or assets of any person, any business combination, or any other similar transaction involving the Trust (the foregoing individually referred to as a Transaction and collectively as the Transactions), including, without limiting the generality of the foregoing, the right, power and authority to:

(i) establish, implement and amend (when and as required, once established) any unitholder rights plan as the General Partner may determine to be desirable for the Trust to establish;

(ii) issue news releases and ensure compliance by the Trust with its continuous disclosure obligations under all applicable securities legislation;

(iii) provide, or arrange for the provision of, investor relations services to the Trust;

(iv) approve, prepare or cause to be prepared, and send or cause to be sent to unitholders, any circular or other disclosure documents (and all amendments thereto) required under applicable securities legislation in response to any offer for the Trust units; and

(v) call and hold, as well as prepare or cause to be prepared all materials (including notices of meetings and information circulars) in respect of, all special meetings of unitholders required in connection with any Transaction;

(q) making all determinations, enter all agreements, prepare all documents and take all other actions with respect to any Transaction which the General Partner may determine to be necessary, expedient, desirable or advisable for the best interests of the Trust and its unitholders, and so as to comply with all applicable laws; and

(r) doing all such other acts and things whatsoever as may be incidental to or required in connection with the foregoing.

The Delegation Agreement will continue in full force and effect until such time as the first of the following occurs: (a) the Trust or the General Partner terminates the Delegation Agreement by notice to the other parties to the Delegation Agreement, with termination to become effective 30 days after the receipt of such notice by the last of the parties; (b) the parties mutually agree in writing to terminate the Delegation Agreement; or (c) the Trust is terminated pursuant to the Declaration of Trust.

EXPENSES

Pursuant to the Delegation Agreement, generally, all costs, charges and expenses reasonably incurred by the General Partner and the Board of Directors in carrying out the General Partner's obligations and duties under the Delegation Agreement in connection with the provision and performance of the services delegated thereunder (including, without limitation, salary, wages, and other forms of compensation paid to employees engaged in rendering the services to be provided thereunder and/or management fees paid to management entities which might be engaged to provide such services) shall be payable by the Trust out of the Trust's assets.

Pursuant to the Administration Agreement, AltaGas Ltd. is reimbursed by each of the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 and the General Partner, without duplication, for such of the expenses (including, without limitation, salary, wages and other forms of compensation paid to employees engaged in rendering services under the Administration Agreement, and out-of-pocket expenses) incurred by AltaGas Ltd. as are, in the opinion of AltaGas Ltd., acting reasonably, reasonably allocable respectively thereto.

AltaGas Ltd. as administrator calculates the expenses and allocation thereof for each month and periodically invoices each of the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 and the General Partner, without duplication, in respect thereof by setting out the details of the services provided by AltaGas Ltd. and the expenses and taxes incurred by AltaGas Ltd. in connection therewith. Such amounts shall be payable by each of the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 and the General Partner, without duplication, not later than 30 days after such month. Notwithstanding the foregoing, each of the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 and the General Partner, without duplication, shall have the right from time to time on written notice to AltaGas Ltd. to assign the obligation to reimburse AltaGas Ltd., whereupon the assignee shall be responsible for such reimbursements until further notice and shall be invoiced for such.

Notwithstanding the foregoing, in respect of expenses allocable to the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 or the General Partner that are not, in accordance with the Tax Act properly deductible against the respective income in the fiscal year in which the expense is incurred, AltaGas Ltd. has agreed to waive reimbursement in that fiscal year of that portion of the expense which is not deductible in that fiscal year and to provide AltaGas LP2 (or, if AltaGas LP2 has been wound-up or otherwise no longer exists, AltaGas LP1) with the funds necessary to pay the non-deductible portion of the expenses of the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 or the General Partner by repayment of loan, return of capital or otherwise. AltaGas LP2 (or, if AltaGas LP2 has been wound-up or otherwise no longer exists, AltaGas LP1) will lend an amount equal to that non-deductible portion to the applicable entity. The amount loaned will be non-interest bearing and repayable at the end of the first calendar quarter of each subsequent fiscal year of that entity as to the amount then deductible in accordance

with the Tax Act in such fiscal year, until fully repaid.

ADMINISTRATION AGREEMENT

Except as otherwise provided in the Declaration of Trust or as expressly prohibited by applicable law, the Trustee has the power to grant or delegate to an administrator such authority as the Trustee may in its sole discretion deem necessary or desirable to effect the actual administration of the duties of the Trustee under the Declaration of Trust, without regard to whether such authority is normally granted or delegated by trustees. The Trustee may grant broad discretion to such administrator to administer and manage the day-to-day operations of the Trust, to act as agent for the Trust, to execute documents on behalf of the Trust and to make decisions which conform to general policies and general principles set forth in the Declaration of Trust or established by the Trustee. Pursuant to that authority, AltaGas Ltd. has been given the powers and duties expressly provided for in the Declaration of Trust and in the Administration Agreement, including the power to further delegate administration of the Trust.

Generally, AltaGas Ltd. provides administrative and support services to, and is responsible for the management and general administration of, the affairs of the Trust, and pursuant to the Administration Agreement:

(a) undertakes any matters required by the terms of the Declaration of Trust to be performed by the Trustee, which are not otherwise delegated therein, pursuant to the Delegation Agreement or the Administration Agreement and generally provides all other services as may be necessary or as requested by the Trustee for the administration of the Trust;

(b) prepares all returns, filings and documents and makes all determinations necessary for the discharge of the Trustee's obligations under the Declaration of Trust;

(c) retains and monitors, on behalf of the Trustee, the transfer agent and other organizations serving the Trust;

(d) on behalf of the Trust , authorizes and pays operation expenses incurred on behalf of the Trust and negotiates contracts with third party providers of services (including, but not limited to, transfer agents, legal counsel, auditors and printers);

(e) provides office space, telephone, office equipment, facilities, supplies and executive, secretarial and clerical services;

(f) subject to the direction and approval of the General Partner, deals with banks and other institutional lenders, including in respect of the maintenance of bank records and the negotiation and securing of bank financing or refinancing of one or more credit or debt facilities, hedging or swap facilities or other ancillary facilities in respect of the Trust or any entity in which the Trust holds any direct or indirect interest;

(g) subject to the approval of the General Partner, prepares and provides to the unitholders annual audited and interim unaudited financial statements of the Trust, as well as relevant tax information;

(h) submits all income tax returns and filings to the Trustee in sufficient time prior to the dates upon which they must be filed so that the Trustee has a reasonable opportunity to review them, execute them and return them to AltaGas Ltd., and arranges for their filing within the time required by applicable tax law;

(i) subject to the approval of the General Partner, computes, determines and makes on the Trust's behalf distributions to Trust unitholders of distributions properly payable by the Trust and administers on behalf of the Trust such distribution reinvestment plans and other similar plans as the Trust may establish from time to time;

(j) ensures compliance by the Trust with, and enforces all rights of the Trust under, all agreements entered into by the Trust, including the Support Agreement among the Trust, Holding Trust, AltaGas LP1, AltaGas LP2 and AltaGas Services and the Voting and Exchange Trust Agreement;

(k) ensures compliance by the Trust with all applicable securities legislation including without limitation, continuous disclosure obligations;

(l) subject to the approval of the General Partner, prepares on behalf of the Trust any circular or other disclosure document required under applicable securities legislation with respect to an offer to acquire securities of another person or in response to an offer to purchase Trust units;

(m) provides investor relations services to the Trust;

(n) calls and holds all annual and/or special meetings of unitholders pursuant to the Declaration of Trust and subject to the approval of the General Partner, prepares and arranges for the distribution of all materials (including notices of meetings and information circulars) in respect thereof;

(o) subject to the approval of the General Partner, prepares and provides or causes to be provided to unitholders on a timely basis all information to which unitholders are entitled under the Declaration of Trust and under applicable laws, including information or proxy circulars, annual information forms, prospectuses, quarterly and annual reports, notices, financial reports and tax information relating to the Trust;

(p) takes all steps necessary to complete the issuance of securities of the Trust as directed by the General Partner;

(q) attends to all administrative and other matters arising in connection with any redemptions of Trust units;

(r) obtains and maintains appropriate liability insurance for the benefit of the directors and officers of the Holding Trust Trustee, the General Partner and AltaGas Ltd. and its subsidiaries;

(s) ensures that the Trust elects in the prescribed manner and within the prescribed time under subsection 132(6.1) of the Tax Act to be a "mutual fund trust" within the meaning of that act since inception, and assuming the requirements for such election are met, monitors on behalf of the General Partner the Trust's status as such a mutual fund trust and provides the Trustee and the General Partner with written notice when the Trust ceases or is at risk of ceasing to be such a mutual fund trust;

(t) monitor the investments of the Trust to ensure that the aggregate cost amount of the "foreign property" of the Trust does not exceed the limits prescribed in the Tax Act, the result of which would be to expose the Trust to Part XI tax under such act;

(u) under the direction of the General Partner, undertakes, manages and prosecutes any and all proceedings from time to time before or in respect of governmental authorities on behalf of the Trust;

(v) subject to the approval of the General Partner, prepares any prospectus or comparable documents of the Trust to qualify the sale of securities of the Trust from time to time; and

(w) promptly notifies the Trust of any event that might reasonably be expected to have a material adverse effect on the affairs of the Trust.

AltaGas Ltd. provides similar administrative services to the foregoing to each of Holding Trust, the General Partner, AltaGas LP1 and AltaGas LP2 pursuant to the Administration Agreement, modified as necessary to take into account the nature of the entity and the terms, conditions and limitations of the Holding Declaration of Trust, the constating documents of the General Partner, AltaGas LP1 Limited Partnership Agreement and AltaGas LP2 Limited Partnership Agreement, respectively.

In the conduct of its duties pursuant to the Administration Agreement, AltaGas Ltd. has full right, power and authority to execute and deliver all contracts, leases, licenses and other documents and agreements, to make applications and filings with governmental authorities and take such other actions as it considers appropriate in connection with the business of the Trust, Holding Trust, the General Partner, AltaGas LP1 and AltaGas LP2, respectively.

AltaGas Ltd. must exercise the powers and discharge the duties conferred under the Administration Agreement honestly, in good faith and in the best interests of the Trust, Holding Trust, the General Partner, AltaGas LP1 and AltaGas LP2 and exercise the degree of care, diligence and skill that a reasonably prudent administrator in Canada having responsibilities of a similar nature would exercise in comparable circumstances.

DECLARATION OF TRUST AND DESCRIPTION OF UNITS

The following is a summary which does not purport to be complete of the material attributes and characteristics of the Trust units and special voting units and certain provisions of the Declaration of Trust. Reference is made to the Declaration of Trust for the full text of its provisions and a complete description of the Trust units and special voting units.

TRUST UNITS

An unlimited number of Trust units may be created and issued pursuant to the Declaration of Trust. Each Trust unit entitles the holder thereof to one vote at any meeting of the unitholders or in respect of any written resolution of unitholders and represents an equal undivided beneficial interest in any distribution from the Trust (whether of income, net realized capital gains or other amounts) and in any net assets of the Trust in the event of termination or winding-up of the Trust. All Trust units shall rank among themselves equally and rateably without discrimination, preference or priority, whatever may be the actual date or terms of issue thereof. Each Trust unit is transferable, is not subject to any conversion or pre-emptive rights and entitles the holder thereof to require the Trust to redeem any or all of the Trust units held by such holder (see Declaration of Trust and Description of Units – Trust Unit Redemption Right).

SPECIAL VOTING UNITS

The Declaration of Trust allows for the creation of special voting units which enables the Trust to provide voting rights to holders of exchangeable securities. A Special Voting Unit was issued pursuant to the Arrangement to enable the holders of Exchangeable units issued by AltaGas LP1 and AltaGas LP2 to vote at meetings of unitholders. The Special Voting Unit created and issued pursuant to the Arrangement was issued to the Voting and Exchange Trustee. The holder of a special voting unit, including in respect of the Special Voting Unit, the Voting and Exchange Trustee, is not entitled to any interest or share in the distributions or net assets of the Trust and is only entitled to such number of votes at meetings of unitholders as is equal to the number of Trust units into which the exchangeable securities to which such special voting unit relates are exchangeable or convertible.

Under the terms of the Voting and Exchange Trust Agreement, the Trust has issued the Special Voting Unit to the Voting and Exchange Trustee for the benefit of every person who received Exchangeable units pursuant to the Arrangement. The Voting and Exchange Trustee is obligated to vote the Special Voting Unit at meetings of unitholders pursuant to the instructions of the holders of Exchangeable units. However, if no instructions are provided by the holders of Exchangeable units, the votes associated therewith in the Special Voting Unit will be withheld from voting.

The special voting units will be subject to such other rights and limitations as may be determined by the Trustee at the time of issuance of the special voting unit. The Declaration of Trust provides that upon the exchange of Exchangeable units for Trust units, the entitlement to vote pursuant to the Special Voting Unit will be eliminated in respect of those Exchangeable units.

EXCHANGEABLE UNITS

AltaGas LP1 is authorized to issue an unlimited number of class B units of that limited partnership (AltaGas LP1 B units). Similarly, AltaGas LP2 is authorized to issue an unlimited number of class B units of that limited partnership (AltaGas LP2 B units). AltaGas LP1 and AltaGas LP2 issued AltaGas LP1 B units and AltaGas LP2 B units, respectively, to eligible AltaGas Services securityholders in consideration for their common shares pursuant to the Arrangement.

Each Exchangeable unit is exchangeable for a Trust unit on a one-for-one basis at any time at the option of the holder, entitles the holder thereof to receive non-interest bearing loans from AltaGas LP1 or AltaGas LP 2, as the case may be, in an amount in cash equal to the cash distributions made by the Trust on a Trust unit, entitles the holder thereof to direct the Voting and Exchange Trustee to vote the Special Voting Unit at all meetings of unitholders, entitles the holder thereof to vote separately as a class in respect of proposals to add to, change or remove any right, privilege, restriction or condition attaching to the Exchangeable units or in respect of any other amendment to the applicable limited partnership agreement which will have an adverse impact on the holders of such Exchangeable units, will not be transferable except to eligible transferees, and AltaGas LP1 or AltaGas LP2, as the case may be, will be entitled to acquire all of the Exchangeable units in exchange for Trust units in certain specified circumstances, including there being outstanding fewer than 750,000 AltaGas LP1 B units or 1,000,000 AltaGas LP2 B units or in the event of certain transactions which may involve a change of control of the Trust.

ISSUANCE OF UNITS

The Declaration of Trust provides that Trust units, including exchangeable securities, rights, warrants, options or other securities convertible into or exchangeable for Trust units, may be created, issued, sold and delivered on such terms and conditions and at such times as the Trustee may determine. The Declaration of Trust also provides that the Trustee may authorize the creation and issuance of any type of debt securities or convertible debt securities of the Trust from time to time on such terms and conditions to such persons and for such consideration as the Trustee may determine.

DISTRIBUTIONS

Pursuant to the Declaration of Trust, the Trust is required to make cash distributions to unitholders each calendar month (or such other periods as may be determined by the Trustee) of all or any part of the Cash Flow of the Trust. Cash received by the Trust from its subsidiaries will be managed by the General Partner, giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements of the Trust, the consolidated debt repayment requirements of the Trust and other factors. The intent of the General Partner is to maximize the cash received by the Trust from its subsidiaries giving consideration to these various factors.

Distributions in respect of a month will be paid to unitholders of record as at the close of business on each determined distribution record date. The distribution for any month will be paid on the determined distribution payment date. In addition, the Declaration of Trust provides that, if necessary, on December 31st of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year.

PURCHASE OF UNITS

The Trust may from time to time purchase for cancellation some or all of the Trust units (or other securities of the Trust which may be issued and outstanding from time to time) in the market, by private agreement or upon any recognized stock exchange on which such Trust units are traded or pursuant to tenders received by the Trust upon request for tenders addressed to all holders of record of Trust units, provided in each case that the Trustee has determined that such purchases are in the best interests of the Trust. Any such purchases may constitute an "issuer bid" under Canadian provincial securities legislation and must be conducted in accordance with the applicable requirements thereof. A unitholder will not have the right at any time to require the Trust to purchase such unitholder's Trust units.

TRUST UNIT REDEMPTION RIGHT

Trust units are redeemable at any time on demand by the holders thereof upon delivery to the Trust of a duly completed and properly executed notice requesting the Trust to redeem Trust units. Upon receipt of the notice to redeem Trust units by the Trust, the holder thereof shall thereafter cease to have any rights with respect to the Trust units tendered for redemption (other than to receive the redemption payment therefor unless the redemption payment is not made as required) including the right to receive any distributions thereon which are declared payable on a date subsequent to the day of receipt by the Trust of the notice requesting redemption.

Cash Redemption

Upon receipt by the Trust of the notice to redeem Trust units, the tendering unitholder will thereafter be entitled to receive a price per Trust unit (the Market Redemption Price) equal to the lesser of: (a) 90 percent of the Market Price per Trust unit on the principal stock exchange on which the Trust units are listed (or, if the Trust units are not listed on any such exchange, on the principal market on which the Trust units are quoted for trading) during the period of the last 10 trading days immediately prior to the date on which the Trust units were tendered for redemption; and (b) 100 percent of the Closing Market Price on the principal stock exchange on which the Trust units are listed (or, if the Trust units are not listed on any such exchange, on the principal market on which the Trust units are quoted for trading) on the date that the Trust units were tendered for redemption.

The aggregate Market Redemption Price payable by the Trust in respect of the Trust units surrendered for redemption during any calendar month shall be satisfied by way of a cash payment within five business days after the end of the calendar month in which the Trust units were tendered for redemption.

Trust unitholders will not receive cash upon the redemption of their Trust units if:

(a) the total amount payable by the Trust in respect of such Trust units and all other Trust units tendered for redemption in the same calendar month exceeds $50,000; provided that the Trustee may, in its sole discretion, waive such limitation in respect of all Trust units tendered for redemption in any calendar month. If this limitation is not so waived, the Trust units tendered for redemption in such calendar month shall be redeemed for cash based on the Market Redemption Price and, unless any applicable regulatory approvals are required, by a distribution in specie of the Trust's assets, based on the in specie Redemption Price (as defined below), which may include Series 3 Notes issued by Holding Trust (Series 3 Notes) (see *Holding Trust – Holding Trust Notes*) or other assets held by the Trust, on a pro rata basis;

(b) at the time such Trust units are tendered for redemption, the outstanding Trust units are not listed for trading on the TSX or traded or quoted on any stock exchange or market which the Trustee considers, in its sole opinion, provides representative fair market value prices for the Trust units;

(c) the normal trading of the Trust units is suspended or halted on any stock exchange on which the Trust units are listed for trading or, if not so listed, on any market on which the Trust units are quoted for trading, on the date that such Trust units tendered for redemption were tendered to the Trust for redemption or for more than five trading days during the 10-day trading period prior to the date on which such Trust units were tendered for redemption; or

(d) the redemption of Trust units will result in the delisting of the Trust units on the principal stock exchange on which the Trust units are listed.

In Specie Redemption

If a cash redemption is not available for Trust units tendered for redemption by a unitholder, then such unitholder will, instead of the Market Redemption Price per Trust unit, be entitled to receive a price per Trust unit (the in specie Redemption Price) equal to the fair market value of a Trust unit as determined by the Trustee in its sole discretion. The in specie Redemption Price will, subject to all necessary regulatory approvals, be paid and satisfied by way of a distribution in specie of Trust assets, which may include Series 3 Notes or other assets held by the Trust (other than Holding Trust units), as determined in the sole discretion of the Trustee.

The aggregate in specie Market Redemption Price payable by the Trust in respect of the Trust units surrendered for redemption during any calendar month shall be paid by the transfer, to or to the order of the Trust unitholder who exercised the right of redemption, within five business days after the end of the calendar month in which the Trust units were tendered for redemption, of Trust assets.

It is anticipated that this redemption right will not be the primary mechanism for holders of Trust units to dispose of their Trust units. Series 3 Notes which may be distributed in specie to Trust unitholders in connection with a redemption will not be listed on any stock exchange and no market is expected to develop in such Series 3 Notes. Series 3 Notes will not be qualified investments for trusts governed by registered retirement savings plans, registered retirement income funds, deferred profit sharing plans and registered education savings plans.

MEETINGS OF UNITHOLDERS

The Declaration of Trust provides that meetings of unitholders must be called and held for, among other matters, the election of the Board of Directors, the appointment or removal of the auditors of the Trust, the approval of amendments to the Declaration of Trust (except as described under Declaration of Trust and Description of Units - Amendments to the Declaration of Trust), the sale of all or substantially all of the Trust's assets, the dissolution or termination of the Trust and the appointment or removal of the Holding Trust Trustee. Meetings of unitholders will be called and held annually for, among other things, the election of the Board of Directors and the appointment of the auditors of the Trust.

A meeting of unitholders may be convened at any time and for any purpose by the Trustee and must be convened, except in certain circumstances, if requisitioned by the holders of not less than five percent of all votes entitled to be voted at a meeting of unitholders (including the votes attached to Exchangeable units by virtue of the Special Voting Unit) by a written requisition. A requisition must, among other things, state in reasonable detail the business purpose for which the meeting is to be called.

Subject to the Voting and Exchange Trust Agreement, only unitholders of record may attend and vote at all meetings of unitholders either in person or by proxy and a proxyholder need not be a unitholder. Two persons present in person or represented by proxy and representing in the aggregate at least five percent of the votes attaching to all outstanding Trust units

and the Special Voting Unit shall constitute a quorum for the transaction of business at all such meetings. For the purposes of determining such quorum, the Special Voting Unit shall be regarded as representing outstanding Trust units equivalent in number to the number of Exchangeable units represented by proxy by the Voting and Exchange Trustee at such meeting.

The Declaration of Trust contains provisions as to the notice required and other procedures with respect to the calling and holding of meetings of unitholders in accordance with the requirements of applicable laws.

LIMITATION ON NON-RESIDENT OWNERSHIP

In order to ensure that the Trust qualifies as a "mutual fund trust" under the Tax Act, the Declaration of Trust provides, in part, that:

(a) the General Partner shall: (i) prior to the consummation of any transaction involving the acquisition by the Trust of any properties or assets other than securities of the General Partner or Holding Trust; (ii) prior to any material modification to the Trust other than as contemplated by (i); (iii) promptly following any proposed amendment to paragraph 132(7)(a) of the Tax Act or the publication of any administrative bulletin or other notice of interpretation relating to the interpretation or application of such section; or (iv) otherwise at any time when requested by the Trustee, obtain an opinion of counsel confirming whether the Trust is, at the date thereof and following such transaction or event (which in the case of (iii) shall mean the coming into effect of the amendment or change of interpretation), entitled to rely on paragraph 132(7)(a) of the Tax Act (or any successor provision thereto) for purposes of qualifying as a "mutual fund trust" under the Tax Act;

(b) if at any time the Board of Directors determines, in its sole discretion, or becomes aware, pursuant to (a) above or otherwise, that the Trust's ability to continue to rely on paragraph 132(7)(a) of the Tax Act (or any successor provision thereto) for purposes of qualifying as a "mutual fund trust" thereunder is in jeopardy, then forthwith after such determination:

  (i) the Trust shall not be maintained primarily for the benefit of non-residents and it shall be the sole responsibility of the General Partner to monitor the holdings by non-residents; and

  (ii) the General Partner shall take such steps as are necessary or desirable to ensure that the Trust is not maintained primarily for the benefit of non-residents;

(c) the General Partner may, at any time and from time to time, in its sole discretion, request that the Trustee make reasonable efforts, as practicable in the circumstances, to obtain declarations as to beneficial ownership of Trust units, perform residency searches of Trust unitholders and holders of Exchangeable units and beneficial Trust unitholders and holders of Exchangeable units mailing address lists and take such other steps specified by the General Partner, at the cost of the Trust, to determine or estimate as best possible the residence of the beneficial owners of Trust units; and

(d) if at any time the Board of Directors, in its sole discretion, determines that it is in the best interest of the Trust, the General Partner, notwithstanding the ability of the Trust to continue to rely on subsection 132(7)(a) of the Tax Act for the purpose of qualifying as a "mutual fund trust" under the Tax Act or otherwise, may:

  (i) require the Trustee to refuse to accept a subscription for Trust units from, or issue or register a transfer of Trust units to, a person unless the person provides a declaration to the Trust that the Trust units to be issued or transferred to such person will not when issued or transferred be beneficially owned by a non-resident;

  (ii) to the extent practicable in the circumstances, send a notice to registered holders of Trust units which are beneficially owned by non-residents, chosen in inverse order to the order of acquisition or registration of such Trust units beneficially owned by non-residents or in such other manner as the General Partner may consider equitable and practicable, requiring them to sell their Trust units which are beneficially owned by non-residents or a specified portion thereof within a specified period of not less than 60 days. If the Trust unitholders receiving such notice have not sold the specified number of such Trust units or provided the General Partner with satisfactory evidence that such Trust units are not beneficially owned by non-

residents within such period, the General Partner may, on behalf of such registered Trust unitholders, sell such Trust units and, in the interim, suspend the voting and distribution rights attached to such Trust units and make any distribution in respect of such Trust units by depositing such amount in a separate bank account in a Canadian chartered bank (net of any applicable taxes). Any sale shall be made on any stock exchange on which the Trust units are then listed and, upon such sale, the affected holders shall cease to be holders of Trust units so deposited of and their rights shall be limited to receiving the net proceeds of sale, and any distribution in respect thereof deposited as aforesaid, net of applicable taxes and costs of sale, upon surrender of the Trust Certificates representing such Trust units;

(iii) delist the Trust units from non-Canadian stock exchanges; and/or

(iv) take such other actions as the Board of Directors determines, in its sole discretion, are appropriate in the circumstances that will reduce or limit the number of Trust units held by non-resident Trust unitholders to ensure that the Trust is not maintained primarily for the benefit of non-residents.

AMENDMENTS TO THE DECLARATION OF TRUST

The Trustee may, without the consent, approval or ratification of any of the unitholders, amend the Declaration of Trust at any time:

(a) for the purpose of ensuring the Trust's continuing compliance with applicable laws, regulations or policies of any governmental authority having jurisdiction over the Trustee or the Trust;

(b) in a manner which, in the opinion of the Trustee, provide additional protection for the unitholders;

(c) in a manner which, in the opinion of the Trustee, is necessary or desirable as a result of changes in Canadian tax laws;

(d) to remove any conflicts or inconsistencies in the Declaration of Trust or to make minor corrections which are, in the opinion of the Trustee, necessary or desirable and not prejudicial to the unitholders; or

(e) to change the *situs* of, or the laws governing, the Trust which, in the opinion of the Trustee is desirable in order to provide unitholders with the benefit of any legislation limiting their liability.

TERM OF THE TRUST

The unitholders may vote by special resolution to terminate the Trust at any meeting of the unitholders duly called for that purpose, following which the Trustee shall commence to wind-up the affairs of the Trust (and shall thereafter be restricted to only such activities).

Unless the Trust is earlier terminated or extended by vote of the unitholders, the Trustee shall commence to wind-up the affairs of the Trust on such date as may be determined by the Trustee, being not more than two years prior to the earlier of March 24, 2104 and the date which is one day prior to the date, if any, the Trust would otherwise be void by virtue of any applicable rule against perpetuities then in force in Alberta. In the event that the Trust is wound-up, the Trustee will sell and convert into money the assets of the Trust in one transaction or in a series of transactions at public or private sales and do all other acts appropriate to liquidate the property of the Trust, and shall in all respects act in accordance with the directions, if any, of the unitholders (in respect of termination authorized pursuant to a special resolution). After paying, retiring or discharging or making provision for the payment, retirement or discharge of all known liabilities and obligations of the Trust and providing for indemnity against any other outstanding liabilities and obligations, the Trustee shall, subject to obtaining all necessary regulatory approvals, distribute the remaining part of the proceeds of the sale of the assets together with any cash forming part of Trust's assets pro rata among the unitholders.

TAKE-OVER BIDS

The Declaration of Trust contains provisions to the effect that if a take-over bid, as defined under the Securities Act (Alberta), is made for the Trust units and not less than 90 percent of the Trust units (including Trust units issuable upon the conversion, exercise or exchange of any securities exchangeable into Trust units but not including any Trust units held at the date of the take-over bid by or on behalf of, or issuable to, the offeror or an affiliate or associate of the offeror) are taken up and paid for by the offeror, the offeror will be entitled to acquire the Trust units and exchangeable securities held by unitholders who did not accept the take-over bid on the terms offered by the offeror.

HOLDING TRUST

The Holding Declaration of Trust contains provisions substantially similar to those of the Declaration of Trust relating to the Trust. The principal differences between the Holding Declaration of Trust and the Declaration of Trust for the Trust are those described below. The description below is a summary only and is qualified in its entirety by reference to the text of the Holding Declaration of Trust and the Declaration of Trust.

GENERAL

Holding Trust is an unincorporated investment trust established under the laws of Alberta pursuant to the Holding Declaration of Trust. Its activities are restricted but include specifically, among other things: acquiring, investing in, holding, transferring, disposing of and otherwise dealing with securities of whatever nature or kind of, or issued by, AltaGas LP1, AltaGas LP2, AltaGas Ltd. or any associate or affiliate of any thereof, or of, or issued by, any other corporation, partnership, trust or other person involved, directly or indirectly, in the business of, or the ownership, lease or operation of assets or property in connection with, gathering, processing, extracting, transporting, buying, storing or selling of petroleum, natural gas, natural gas liquids, and other related products, power or other forms of energy, and related businesses, and such other investments as the Holding Trust Trustee may determine, and borrowing funds and issuing debt securities for such purposes and entering into hedging arrangements in relation thereto; and engaging in all activities ancillary or incidental to any of the foregoing activities and undertaking such other activities or taking such actions including investing in securities as shall be approved by the Holding Trust Trustee from time to time.

As at the date of this Annual Information Form, Holding Trust does not intend to hold securities of any entities other than AltaGas LP1.

RESTRICTIONS ON HOLDING TRUST TRUSTEE'S POWERS

Notwithstanding any of the Holding Trust Trustee's power and authority, the Holding Trust Trustee may not under any circumstances vote its securities of AltaGas LP1, or permit AltaGas LP1 to vote its interests in AltaGas LP2 or AltaGas LP2 to vote its securities of AltaGas Ltd., to authorize:

(a) any sale, lease or other disposition of all or substantially all of the assets of AltaGas LP1, AltaGas LP2 or AltaGas Ltd., except in conjunction with an internal reorganization or a pledge to secure indebtedness incurred in carrying out the purposes of Holding Trust;

(b) any merger, amalgamation, arrangement, reorganization, recapitalization, business combination or similar transaction involving AltaGas LP1, AltaGas LP2 or AltaGas Ltd., except in conjunction with an internal reorganization;

(c) the winding-up, liquidation or dissolution of AltaGas Ltd., or (unless all of such limited partnership interests therein are owned directly or indirectly by the Trust) AltaGas LP1 or AltaGas LP2 prior to the end of the term of Holding Trust or the Trust; or

(d) any material amendment to the AltaGas LP1 limited partnership agreement, the AltaGas LP2 limited partnership agreement, or the constating documents of AltaGas Ltd., in a manner prejudicial to Holding Trust or the Trust,

without the approval of the unitholders of Holding Trust by special resolution at a meeting of such unitholders called for that purpose. In addition, except as part of an internal reorganization of the direct or indirect assets of Holding Trust as a result of which Holding Trust has the same interest, whether direct or indirect, in the assets as the interest, whether direct or indirect, that it had prior to the reorganization, the Holding Trust Trustee shall have no power to sell all or substantially all of its assets

or cause any subsidiary to sell all or substantially all of the direct or indirect assets of the Trust, in each case in a single transaction or a series of related transactions, without the approval of the unitholders of Holding Trust by special resolution.

REDEMPTION RIGHT

The right of redemption conferred upon a holder of trust units of Holding Trust by the Holding Declaration of Trust and discussed below may only be exercised after the holder of trust units of Holding Trust has received written notice from the Holding Trust Trustee that it may exercise that right, such that holders of Holding Trust trust units will not be entitled to redeem their Holding Trust trust units on demand.

Subject to the foregoing limitation, the Holding Trust trust units will be redeemable, upon meeting the terms and conditions to exercise such right (including time period(s)) specified in the written notice by the Holding Trust Trustee, upon delivery to Holding Trust of a duly completed and properly executed notice requiring Holding Trust to redeem Holding Trust trust units, in a form reasonably acceptable to the Holding Trust Trustee, together with the certificates for Holding Trust trust units representing Holding Trust trust units to be redeemed and written instructions as to the number of Holding Trust trust units to be redeemed. Upon tender of Holding Trust trust units by a holder thereof for redemption, the holder of Holding Trust trust units tendered for redemption will no longer have any rights with respect to such Holding Trust trust units, including the right to receive any distributions thereon which are declared payable to the holders of Holding Trust trust units of record on a date which is subsequent to the day of receipt by Holding Trust of such notice, other than the right to receive the redemption price for such Holding Trust trust units. The redemption price for each Holding Trust trust unit tendered for redemption will be equal to (the Holding Redemption Price):

$$\frac{(A \times B) - C}{D}$$

Where:

- A = the cash redemption price per Trust unit calculated as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder of Holding Trust trust units;
- B = the aggregate number of Trust units outstanding as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof;
- C = the aggregate unpaid principal amount and accrued interest thereon of any indebtedness held by or owed to the Trust (including the Holding Trust Notes) and the fair market value of any other assets or investments held by the Trust (other than Holding Trust trust units) as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof; and
- D = the aggregate number of Holding Trust trust units outstanding as of the close of business on the date the Holding Trust trust units were so tendered for redemption by a holder thereof.

The aggregate Holding Redemption Price payable by Holding Trust in respect of any Holding Trust trust unit tendered for redemption by the holders thereof during any month will be satisfied, at the option of the Holding Trust Trustee: (a) in immediately available funds, by cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable to or to the order of the holder whose Holding Trust trust units are to be redeemed; (b) by the issuance to or to the order of the holder whose Holding Trust trust units are to be redeemed of such aggregate amount of Series 2 Notes as is equal to the aggregate Holding Redemption Price payable to such holder rounded down to the nearest $10, with the balance of any such aggregate Holding Redemption Price not paid-in Series 2 Notes to be paid in immediately available funds by cheque, drawn on a Canadian chartered bank or trust company in lawful money of Canada, payable to or to the order of such holder; or (c) by any combination of payment in immediately available funds, drawn on a Canadian chartered bank or trust company in lawful money of Canada, and Series 2 Notes as the Holding Trust Trustee shall determine in its discretion, in each such case payable or issuable on the last day of the calendar month following the calendar month in which the Holding Trust trust units were so tendered for redemption; provided, however, that a holder whose Holding Trust trust units are to be redeemed may elect, at any time prior to the payment of the Holding Redemption Price, to receive Series 2 Notes, pursuant to clause (b) above in the place of all or part of a payment pursuant to clause (a) or (b) above of the cash otherwise payable, the amount of such Series 2 Notes payable to be equal to the amount of cash otherwise payable, rounded down to the nearest $10, in each such case payable or issuable on the last day of the calendar month following the calendar month in which the Holding Trust trust units were so tendered for redemption.

CASH DISTRIBUTIONS

Holding Trust intends to make monthly cash distributions to the Trust of its net monthly cash flow, after satisfaction of its interest obligations on the Holding Trust Notes, if any, and less any estimated cash amounts required for expenses, costs and other obligations of Holding Trust. Such distributions will be paid on the day which is the same as the Trust's distribution payment date to enable the Trust to pay its distributions.

If the Holding Trust Trustee determines that Holding Trust does not have cash in an amount sufficient to make payment of the full amount of any distribution, the payment may include the issuance of additional Holding Trust trust units or Holding Trust Notes having a value equal to the difference between the amount of such distribution and the amount of cash which has been determined by the Holding Trust Trustee to be available for the payment of such distribution. The value of each Holding Trust trust unit so issued will be the Holding Redemption Price thereof and the value of each Holding Trust Note so issued will be the redemption amount thereof as determined pursuant to the Holding Trust Note Indenture.

Any Holding Trust trust units transferred to unitholders pursuant to a distribution *in specie* may be subject to resale and transfer restrictions and cannot be resold or transferred except as permitted by applicable securities law.

LIMITATION ON NON-RESIDENT OWNERSHIP

Notwithstanding any other provision of the Holding Declaration of Trust, no Holding Trust trust unit may be issued to, held by or transferred to a non-resident.

RESTRICTIONS ON TRANSFER OF HOLDING TRUST UNITS

Notwithstanding any other provision of the Holding Declaration of Trust, no transfer of any Holding Trust trust unit will be made without the consent of the Holding Trust Trustee, which consent may be withheld by the Holding Trust Trustee for any reason.

HOLDING TRUST NOTES

The Holding Trust Note Indenture authorizes the creation and issuance of Series 1 Notes, Series 2 Notes and Series 3 Notes (collectively the Holding Trust Notes) in Canadian currency. Each series of Holding Trust Notes consists of an unlimited aggregate principal amount, is issuable in denominations of $10 and integral multiples of $10, represents an unsecured debt obligation of Holding Trust and is redeemable pursuant to the provisions of the Holding Trust Note Indenture. In addition, the specific characteristics unique to each series of Holding Trust Note are as follows:

(a) Series 1 Notes:

  (i) payable on demand and, in any event, mature on the 25th anniversary of the date of issuance;

  (ii) non-interest bearing until maturity and thereafter bear interest;

(b) Series 2 Notes:

  (i) may be issued only to holders of Holding Trust trust units in payment of, and for an aggregate principal amount equal to, the Holding Redemption Price of such Holding Trust trust units;

  (ii) mature on a date determined by Holding Trust Trustee, not to exceed five years from issuance; and

  (iii) bear interest from and including the date of issuance at a market rate determined at the time of issuance by the Holding Trust Trustee; and

(c) Series 3 Notes:

  (i) may be issued only to holders of Series 1 Notes in payment of, and for an aggregate principal amount equal to, the Holding Redemption Price of such Series 1 Notes;

  (ii) mature on the 25th anniversary of the date of issuance; and

  (iii) bear interest from and including the date of issuance at a market rate determined at the time of issuance by the Holding Trust Trustee.

Payment Upon Maturity

On maturity, Holding Trust will repay the Holding Trust Notes by paying to the Note Trustee under the Holding Trust Note Indenture in cash an amount equal to the principal amount of the outstanding Holding Trust Notes which have then matured, together with accrued and unpaid interest thereon.

Redemption

The Holding Trust Notes are redeemable at the option of Holding Trust prior to maturity.

Subordination/Security

The Holding Trust Notes rank pari passu with one another. However the payment of the principal amount and interest on any of the Holding Trust Notes is expressly subordinated in right of payment to the prior payment in full of all senior indebtedness, being all indebtedness, liabilities and obligations of Holding Trust which, by the terms of the instrument creating or evidencing the same, is not expressed to rank in right of payment in subordination to or pari passu with the indebtedness evidenced by the Holding Trust Note Indenture. In addition, any liens held by the Note Trustee or holders of Holding Trust Notes, as well as the rights, remedies and recourses granted to the Note Trustee or holders of Holding Trust Notes, are completely subordinated to any and all liens held at present or in the future by the holders of senior indebtedness notwithstanding any ranking that might otherwise be established by law.

The Holding Trust Note Indenture provides that upon any distribution of the assets of Holding Trust in the event of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization or other similar proceedings relative to Holding Trust, or in the event of any proceedings for voluntary liquidation or termination or other winding-up of Holding Trust, the holders of all such senior indebtedness will be entitled to receive payment in full (of principal, premium or penalty, if any, and interest) before the holders of the Holding Trust Notes are entitled to receive any payment.

Default

The Holding Trust Note Indenture provides that any of the following shall constitute an event of default:

(a) if default is made in the payment of any principal due on any of the Holding Trust Notes of any series when the same becomes due under any provision of the Holding Trust Note Indenture or of the Holding Trust Notes as required under Holding Trust Note Indenture and such default shall have continued for a period of 10 business days; or

(b) if default is made in the payment of any interest due on any of the Holding Trust Notes and such default shall have continued for a period of 15 business days; or

(c) if default is made in the performance or breach by Holding Trust of any other covenant or agreement under the provisions of the Holding Trust Notes or the Holding Trust Note Indenture which shall continue for 30 days after written notice specifying such default and requiring such default to be remedied shall have been given to Holding Trust by the Note Trustee; or

(d) if there occurs with respect to any issue or issues of indebtedness of Holding Trust having an outstanding principal amount of $100 million or more an event of default that has caused the holder thereof to declare such indebtedness to be due and payable prior to its maturity and such indebtedness has not been discharged in full or such acceleration has not been rescinded or annulled within 30 days of such acceleration; or

(e) if a proceeding or action shall be commenced against Holding Trust, except in certain circumstances, in any court of competent jurisdiction, seeking (i) its reorganization, liquidation, termination or winding-up, or the composition or readjustment of its debts, (ii) the appointment of a receiver, custodian, liquidator or the like of Holding Trust or all or any substantial part of its property, or (iii) similar relief in respect of Holding Trust under any law relating to bankruptcy, insolvency, reorganization, winding-up or composition or adjustment of debts, and such proceeding or action shall continue undismissed, or an order, judgment or decree approving or ordering any of the foregoing shall be entered and continue unstayed and in effect, for a period of 60 or more days, or an order for relief against Holding Trust shall be entered in an involuntary case under the Bankruptcy and Insolvency Act (Canada) (the Bankruptcy Act); or

(f) if Holding Trust shall (i) apply for or consent to the appointment of, or the taking of possession by, a receiver, custodian, examiner, liquidator or the like of itself or of all or any substantial part of its property, (ii) make a general assignment for the benefit of its creditors, (iii) commence a voluntary case under the Bankruptcy Act or any other similar foreign statute, (iv) institute any proceeding or file a petition seeking to take advantage of any other law relating to bankruptcy, insolvency, reorganization, liquidation, termination, winding-up or composition or readjustment of debts, (v) fail to contest in a timely and appropriate manner, or acquiesce in writing to, any petition filed against it in an involuntary case under the Bankruptcy Act or any other similar foreign statute, or (vi) take any action for the purpose of effecting any of the foregoing; or

(g) if a creditor shall have taken possession of all or substantially all of the assets of Holding Trust.

Holding Trust Unit Certificates

As Holding Trust trust units are not intended to be issued or held by any person other than the Trust, registration of interests in, and transfers of, the Holding Trust trust units will not be made through the book-entry system administered by the Canadian Depository for Securities Limited. Rather, holders of Holding Trust trust units will be entitled to receive certificates therefore.

MEETINGS OF HOLDING TRUST UNITHOLDERS

An annual meeting of holders of Holding Trust trust units shall be called on a day on or before June 30 in each year, at such time and place as shall be prescribed for the purpose of presenting the audited financial statements of Holding Trust, appointing the auditors of Holding Trust for the ensuing year and transacting such other business as the Holding Trust Trustee may determine or as may properly be brought before the meeting. Notwithstanding the foregoing, a resolution in writing executed by holders of Holding Trust trust units holding more than $66^2/_3$ percent of the votes attached to Holding Trust trust units at any time will be valid and binding for all purposes.

GENERAL PARTNER

Pursuant to the Delegation Agreement, the General Partner is delegated certain of the Trustee's powers and duties in respect of the business and affairs of the Trust and pursuant to the Unanimous Shareholder Agreement the General Partner is entitled to exercise the powers of the directors of AltaGas Ltd. and any other entities as determined to manage, or supervise the management of, the business and affairs of AltaGas Ltd. (see Management of the Trust – Delegation Agreement; and see also Declaration of Trust and Description of Units – Meetings of Unitholders).

The General Partner is the general partner of AltaGas LP1, AltaGas LP2, AltaGas Limited Partnership, PremStar Energy Canada Limited Partnership and ECNG Limited Partnership. The General Partner is also a party to the Administration Agreement pursuant to which AltaGas Ltd. provides certain administrative services to the General Partner (see Management of the Trust – Administration Agreement).

DIRECTORS AND OFFICERS

The number of directors of the General Partner is to be determined from time to time by resolution of the Board of Directors. The number of directors is currently fixed at eight, seven of which will be unrelated directors, until such time as the Board of Directors passes a resolution to fix the number of directors at a new number.

The term of office of any director continues until the annual meeting of shareholders of the General Partner next following the director's election or appointment or (if an election or appointment of a director is not held at such meeting or if such meeting does not occur) until the date on which the director's successor is elected or appointed, or earlier if the director dies or resigns or is removed or disqualified, or until the director's term of office is terminated for any other reason in accordance with the constating documents of the General Partner. Pursuant to the Declaration of Trust, the unitholders will annually be entitled to direct the Trustee as to the persons to be elected to the Board of Directors.

The names, municipalities of residence, positions with the General Partner and principal occupations within the last five years of the current directors and officers of the General Partner are set out below.

Name of Director, Municipality of Residence and Position with the General Partner	Principal Occupation during the Past Five Years	Director Since	Securities Beneficially Owned or Controlled[1] Dec. 31, 2004
John B. Breen[3][4][5] Director Toronto, Ontario, Canada	Managing Partner of MWI & Partners (merchant banking fund).	May 1, 2004 Director of AltaGas Services from May 27, 1999 to April 30, 2004	51,543 Trust units[5] Nil Trust Options

(1) References to Trust units in this column includes both Trust units and Exchangeable units beneficially owned, directly or indirectly, or over which control or direction is exercised by each director and officer.
(2) Member of the Environment and Safety Committee.
(3) Unrelated directors.
(4) Member of the Audit Committee.
(5) Mr. Breen is managing partner of MWI & Partners, which owned 1,945,714 Trust units at December 31, 2004. MWI & Partners sold all of their Trust units on January 24, 2005.
(6) Member of the Human Resources and Compensation Committee.
(7) Member of the Governance Committee.
(8) Lead director.
(9) Mr. Daryl H. Gilbert, a director of AltaGas General Partner Inc., is also a director of Globel Direct, Inc. ("Globel"). Globel was the subject of a cease trade order issued by the Alberta Securities Commission and the British Columbia Securities Commission on November 7, 2002 because Globel had not filed its Annual Financial Statements for its fiscal year ending May 31, 2002 and its Interim Financial Statements for its first quarter ended August 31, 2002 prior to the prescribed filing deadlines. Globel filed the Annual Financial Statements and Interim Financial Statements on December 20, 2002 and the cease trade order was removed on December 20, 2002.

Name of Officer, Municipality of Residence and Position with the General Partner	Principal Occupation during the Past Five Years	Officer Since	Units Beneficially Owned at Dec. 31, 2004[1]
David W. Cornhill Calgary, Alberta, Canada Chairman and Chief Executive Officer	In 2004, named Chief Executive Officer. Chairman and Chief Executive Officer of AltaGas Services from 2003 to 2004; prior thereto President and Chief Executive Officer of AltaGas Services.	May 1, 2004 Director of AltaGas Services from March 28, 1994 to April 30, 2004	1,097,538 Trust units
Patricia M. Newson Calgary, Alberta, Canada Chief Financial Officer	In 2004, named Chief Financial Officer. Senior Vice President Finance and Chief Financial Officer of AltaGas Services since 1998.	May 1, 2004 Officer of AltaGas Services from 1998 to April 30, 2004	307,793 Trust units

Notes:
(1) References to Trust units in this column includes both Trust units and Exchangeable units beneficially owned, directly or indirectly, or over which control or direction is exercised by each director and officer.

David W. Cornhill, Chairman and Chief Executive Officer, informed the Board of Directors on November 10, 2004 that he will relinquish the role of Chief Executive Officer of AltaGas Ltd. and the General Partner sometime in 2006, but will continue in his capacity as Chairman of the Board of Directors. Mr. Cornhill has held both roles at AltaGas Services from 1994 to April 30, 2004. The Board of Directors and Mr. Cornhill are working together to identify internal and external candidates for the role of Chief Executive Officer.

As at December 31, 2004 the directors and executive officers of the General Partner and AltaGas Ltd., as a group, owned beneficially, directly or indirectly, or exercised control or direction over approximately 3,252,562 million of the outstanding Trust units and Exchangeable units, or approximately 6.11 percent of the outstanding Trust units and Exchangeable units. As at December 31, 2004, certain of the directors and officers also had been granted options (Trust Options) to acquire an aggregate of 241,836 Trust units.

AUDIT COMMITTEE CHARTER

Constitution

The Board of Directors of the General Partner in accordance with the Delegation Agreement among the Trust, the General Partner and the Trustee, has established an Audit Committee (Committee) to serve as the Committee of the Trust. Such Committee shall be in compliance with the guidelines for corporate governance of the TSX and any regulatory or legal authority having jurisdiction over the Trust.

The Committee shall supervise the audit of the Trust's financial records and will ensure the adequacy and effectiveness of its policies and procedures regarding the Trust's financial reporting, internal accounting, financial controls, management information and risk management.

Membership

Following each annual meeting of unitholders of the Trust, the Board of Directors shall elect from its Members, not less than three Directors to serve on the Committee (Members). The Members and the chair of the Committee are nominated and elected by the Board of Directors. Every Member must be:

- a Director of the General Partner,
- independent, and
- financially literate.

No Member of the Committee shall be an officer or employee of the Corporation or any other subsidiary or affiliate of the Trust. Any Member may be removed or replaced at any time by the Board and shall cease to be a Member upon ceasing to be a Director of the Corporation. Each Member shall hold office until the Member resigns or is replaced, whichever first occurs.

The Board will appoint a Member as chair of the Committee on an annual basis.

The corporate secretary of AltaGas Ltd. (Corporate Secretary) shall be the Corporate Secretary to the Committee unless the Committee directs otherwise.

Meetings

The Committee shall convene no less than four times per year at such times and places designated by its Chair or whenever a meeting is requested by a Member, the Board, or an officer of the General Partner of AltaGas Ltd. A minimum of 24 hours notice of each meeting shall be given to each Member. The Corporate Secretary and management of AltaGas Ltd. shall attend whenever requested to do so by a Member.

A meeting of the Committee shall be duly convened if all Members are present, or a majority of the Members are present. Where the Members consent, and proper notice has been given or waived, Members of the Committee may participate in a meeting of the Committee by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate adequately with each other, and a Member participating in such a meeting by any such means is deemed to be present at that meeting.

In the absence of the chair of the Committee, the Members may choose one of the Members to be the chair of the meeting.

The external auditor will be given notice of and be provided the opportunity to attend every meeting of the Committee.

The Committee will hold in camera sessions with management, the internal and external auditors as may be deemed appropriate by the Members.

Minutes shall be kept of all meetings of the Committee by the Corporate Secretary or designate of the Corporate Secretary.

Duties and Responsibilities

The Committee shall, as permitted by and in accordance with the requirements of the CBCA, the Delegation Agreement, the articles and by-laws of the General Partner and any legal or regulatory authority having jurisdiction, periodically assess the adequacy of procedures for the public disclosure of financial information and review on behalf of the Board of Directors and report to the Board of Directors the results of its review and its recommendation regarding all material matters of a financial reporting and audit nature, including, but not limited to the following main subject areas:

(a) financial statements, including Management's Discussion and Analysis,

(b) reports to unitholders and others,

(c) annual and interim press releases regarding financial results,

(d) internal controls,

(e) audits and reviews of financial statements of the Trust and its subsidiaries,

(f) filings to securities regulators,

(g) review and approval of issuer's hiring policies regarding current and former partners and employees of the external auditor, and

(h) pre-approve non-audit work undertaken by the external audit firm.

The Committee shall ensure satisfactory procedures for receipt, retention and resolution of complaints and for the confidential, anonymous submission by employees regarding any accounting, internal accounting controls or auditing matters. The Board of Directors will be kept informed of the Committee's activities by a report at each regular meeting of the Board.

The Committee will review the relevance and adequacy of this charter on at least an annual basis and will provide recommendations to the governance committee of the Board.

External Auditor

The Committee shall recommend the appointment of the external auditor annually. Once appointed by the unitholders, the external auditor shall report directly to the Committee.

The Committee shall pre-approve all non-audit services provided by the external auditor, and shall have direct responsibility for overseeing the work of the external auditor engaged for the purpose of preparing or issuing an auditor's report or performing other audit, review or attest services, including the resolution of disagreements between the external auditor and management.

Relations with Management

The Committee will ensure that it coordinates its activities with the Chief Financial Officer of the General Partner on audit and financial matters and will:

- meet regularly with management to discuss areas of concern,
- review and assess the quality of the executives involved in financial reporting process, and
- ensure management provides adequate funding to the Committee so that it may independently engage and remunerate the auditor and any advisors.

Committee Timetable

The major activities of the Committee will be outlined in an annual schedule.

Composition of the Audit Committee

The Committee is currently comprised of John B. Breen, Daryl H. Gilbert and David F. Mackie. Daryl H. Gilbert is the chair of the Committee. All of the members of the Committee are independent and financially literate as defined under Canadian securities law.

Relevant Education and Experience

John B. Breen is the Managing Partner of MWI & Partners, a merchant banking fund. Prior to joining MWI & Partners in 1996, Mr. Breen was Managing Director of CIBC Wood Gundy Capital and Vice President of CIBC from 1989 to 1996. From 1979 to 1996, Mr. Breen held various positions with CIBC.

Daryl H. Gilbert has been a businessman since January 2005. Prior to 2005, Mr. Gilbert had a 26 year career with Gilbert Laustsen Jung Associates Ltd., a reservoir engineering company, most recently President and Chief Executive Officer for the past 11 years.

David F. Mackie is a U.S. based natural gas industry executive, consultant and venture capital investor. Mr. Mackie has a broad range of experience, having spent over 32 years in various executive capacities with El Paso Natural Gas Co. and Transco Energy Co. He also has extensive consulting experience with many senior energy companies and the Maritimes and Northeast Pipeline Project.

Pre-Approval Policies and Procedures

As set forth in the Committee's charter, the Committee must pre-approve all non-audit services provided by the external auditor and has direct responsibility for overseeing the work of the external auditor.

External Auditor Service Fees by Category

Audit Fees

The aggregate fees billed by Ernst & Young LLP, the Trust's external auditors, for audit services were $431,788 in 2004 and $376,063 in 2003.

Audit-Related Fees

The aggregate fees billed by Ernst & Young LLP, the Trust's external auditors, for assurance and related services that were reasonably related to the performance of the audit or review of the Trust's financial statements and were not reported under "Audit Fees" above were $2,781 in 2004 and $1,672 in 2003. The nature of the services was for corporate reorganization consultation.

Tax Fees

The aggregate fees billed by Ernst & Young LLP, the Trust's external auditors, for professional services for tax compliance, tax advice and tax planning were $112,161 in 2004 and $148,130 in 2003. The nature of the services was tax services and tax planning.

All Other Fees

The aggregate fees billed by Ernst & Young LLP, the Trust's external auditors, for products and services, other than those reported above, were $45,601 in 2004 and $84,629 in 2003. The nature of the services was for translation services.

UNANIMOUS SHAREHOLDER AGREEMENT

Pursuant to the Unanimous Shareholder Agreement, the General Partner was granted the powers of the directors of AltaGas Ltd. to manage, or supervise the management of, the business and affairs of AltaGas Ltd., including without limitation in respect of the following matters:

(a) the appointment of the board of directors of AltaGas Ltd., as determined by the Board of Directors in its sole discretion; and

(b) the appointment, mandates and compensation of the executive officers of AltaGas Ltd.

ALTAGAS LTD.

AltaGas Ltd. is the resultant corporation from the amalgamation of ASI, certain of its subsidiaries and an electing shareholder pursuant to the Arrangement. As a result, AltaGas Ltd. owns, directly or indirectly, all of the assets that ASI owned, directly or indirectly, prior to conversion of the business of ASI to the Trust. AltaGas Ltd. retained certain of the liabilities of ASI, including liabilities relating to corporate and income tax matters.

In accordance with the Administration Agreement, AltaGas Ltd. provides all the management, administrative and operating services to the Trust. At December 31, 2004 AltaGas Ltd. and its subsidiaries employed a total of 588 individuals. Approximately 275 individuals were directly employed in the Gathering and Processing segment, 73 were directly employed in the Energy Services segment and 159 were directly employed in the Natural Gas Distribution segment, with corporate support of 81 employees.

DIRECTORS AND OFFICERS

The names, municipality of residence and position of each of the executive officers of AltaGas Ltd. are as follows:

Name of Officer, Municipality of Residence and Position with the Corporation	Principal Occupation During the Past Five Years
David W. Cornhill Calgary, Alberta, Canada Chief Executive Officer and Director	Chairman and Chief Executive Officer of AltaGas Ltd since 2003. President and Chief Executive Officer of AltaGas Services from 1994 to 2003.
Dennis A. Dawson Calgary, Alberta, Canada Vice President, General Counsel and Corporate Secretary and a Director	Vice President, General Counsel and Corporate Secretary since 1998.
Gary R. Holden Calgary, Alberta, Canada President and Chief Operating Officer and a Director	President and Chief Operating Officer since April 1, 2003. Chairman, CEO and President of EnSource Energy Services Inc. from April 2000 to July 2002. Executive Vice President of Generation at TransAlta Corporation from October 1998 through April 2000.
Kim R. Hubick Calgary, Alberta, Canada Vice President Controller	Vice President Controller since December 15, 2004. Corporate Controller from June 1, 2003 to December 15, 2004. Vice President, Finance and Business Services with Central Alberta Midstream from August 2001 through May 2003. Financial Director, Operations Canadian Pacific Railway from November 1998 to June 2001.
Gerry M. Malin Calgary, Alberta, Canada Vice President Regulatory and Northern Development	Vice President Regulatory and Northern Development since 2001. Vice President Gas Services of AltaGas Services from 1994 to 2001.
Patricia M. Newson Calgary, Alberta, Canada Senior Vice President Finance and Chief Financial Officer and a Director	Senior Vice President Finance and Chief Financial Officer since 1998.
Marilyn A. Pfaefflin Calgary, Alberta, Canada Treasurer	Treasurer since 1998.
Kent E. Stout Calgary, Alberta, Canada Vice President Corporate Resources	Vice President Corporate Resources since 2002. Director Human Resources of AltaGas from 1999 to 2002.
Marshal L. Thompson Calgary, Alberta, Canada Vice President Business Development	Vice President Business Development since 2004. Segment Vice President Gathering and Processing of AltaGas from 2002 to 2004. Director of Marketing and Extraction of AltaGas from 2000 to 2002. Vice President, Employee Relations TransCanada PipeLines Limited 1999 to 2000.

RISK FACTORS

RISKS RELATING TO THE TRUST AND THE UNITS OF THE TRUST

A security holder should consider carefully the risk factors set out below. In addition, prospective security holders should carefully review and consider all other information contained in this Annual Information Form before making an investment decision and consult their own experts where necessary.

Nature of Trust Units

The Trust units do not represent a traditional investment in the diversified energy services business and should not be viewed by unitholders as shares in AltaGas. The units represent a fractional interest in the Trust. As holders of units, unitholders will not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring "oppression" or "derivative" actions. The Trust's sole assets are the shares of the General Partner, the units of the Holding Trust, Holding Trust Notes and other investments in securities.

Cash distributions of the Trust are not guaranteed and the price per Trust unit is a function of anticipated distributions, the underlying assets of the Trust and management's ability to effect long-term growth in the value of AltaGas and other entities now or hereafter owned directly or indirectly by the Trust. The market price of the Trust units will be sensitive to a variety of market conditions including, but not limited to, interest rates, electricity prices and natural gas and NGLs prices. Changes in market conditions may adversely affect the trading price of the Trust units.

The Trust units are not "deposits" within the meaning of the *Canada Deposit Insurance Corporation Act* (Canada) and are not insured under the provisions of that Act or any other legislation. Furthermore, the Trust is not a trust company and, accordingly, is not registered under any trust and loan company legislation as it does not carry on or intend to carry on the business of a trust company.

Potential Sales of Additional Trust units

The Trust may issue additional Trust units in the future to directly or indirectly fund capital expenditure requirements of entities now or hereafter owned directly or indirectly by the Trust, including to finance acquisitions by those entities. Such additional Trust units may be issued without the approval of unitholders. Unitholders will have no pre-emptive rights in connection with such additional issues. The Board of Directors has discretion in connection with the price and the other terms of the issue of such additional Trust units.

Nature of Distributions

Unlike interest payments on an interest-bearing security, cash distributions by income trusts on Trust units (including those of the Trust) are, for Canadian tax purposes, composed of different types of payments (portions of which may be fully or partially taxable or may constitute non-taxable returns of capital). The composition for tax purposes of those cash distributions may change over time, thus affecting the after-tax return to unitholders. Therefore, a unitholder's rate of return over a defined period may not be comparable to the rate of return on a fixed-income security that provides a return on capital over the same period. This is because a unitholder may receive cash distributions that constitute a return of capital (rather than a return on capital) to some extent during the relevant period. Returns on capital are generally taxed as ordinary income or as dividends in the hands of a unitholder while returns of capital are generally non-taxable to a unitholder (but reduce a unitholder's cost base in the Trust unit for tax purposes). The Trust expects that substantially all of the cash distributions to unitholders will be taxed as ordinary income or as dividends (see Declaration of Trust and Description of Units – Distributions). Unitholders are advised to consult their own tax advisors with respect to the implications of the distinction discussed above in their own circumstances.

Variability of Distributions

As the Cash Flow of the Trust available for distribution to unitholders is a function of numerous factors, including AltaGas' financial performance, the impact of interest rates, electricity prices, natural gas and NGLs prices, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of units outstanding, depending on the operations of AltaGas and the performance of its assets, distributions may be reduced or suspended entirely.

The market value of the Trust units may deteriorate if the Trust is unable to meet its distribution targets in the future, and that deterioration may be material.

Changes in Legislation

Income tax laws relating to the Trust, such as the status of mutual fund trusts, may be changed in a manner which adversely affects unitholders. If the Trust ceases to qualify as a mutual fund trust, and is not a registered investment, the Trust units will cease to be qualified investments for Exempt Plans. If the Trust ceases to qualify as a mutual fund trust, the income tax considerations described would be materially and adversely different in certain respects.

In the 2004 budget, the Government of Canada identified a risk to tax revenue posed by business income trusts. In the 2005 budget, the Government has stated that it will consult stakeholders on tax issues related to business income trusts and other flow-through entities. A consultation paper is to be released by the Department of Finance. The consultation is to be open and transparent and will involve third parties to seek to ensure a range of views is engaged on a broad spectrum of options.

The 2005 budget also proposed that the rule that restricts the amount of "foreign property" that may be held in Exempt Plans be eliminated as of January 2005.

Environmental and applicable operating legislation may be changed in a manner which adversely affects AltaGas through the imposition of restrictions on its business activities or by the introduction of regulations that increase AltaGas' operating costs thereby indirectly affecting the Trust and potentially reducing distributions to unitholders.

Loss of Mutual Fund Trust Status

The General Partner intends that the Trust will continue to qualify as a mutual fund trust for purposes of the Tax Act. The Trust may not, however, always be able to satisfy any future requirements for the maintenance of mutual fund trust status (see Changes in Legislation above). Should the status of the Trust as a mutual fund trust be lost or successfully challenged by a relevant tax authority, certain adverse consequences may arise for the Trust and unitholders. Some of the significant consequences of losing mutual fund trust status are listed below.

(a) If at the time the Trust ceased to be a mutual fund trust it had not become a registered investment, the units would immediately cease to be qualified investments for Exempt Plans. If the Trust were a registered investment, it may, as a consequence of ceasing to be a mutual fund trust, also cease to be a registered investment. In that event, units would cease to be qualified investments for Exempt Plans effective January 1st of the second calendar year following the year in which the Trust ceases to be a registered investment. If, at the end of any month, an Exempt Plan holds units that are not qualified investments, the plan must pay a tax equal to one percent of the fair market value of the units at the time the units were acquired by the Exempt Plan. A registered retirement savings plan or registered retirement income fund holding units that are not qualified investments would be subject to taxation on income attributable to the units, including the full amount of any capital gain from a disposition of such units. If a registered education savings plan holds units that are not qualified investments, it may have its registration revoked by the Canadian Revenue Agency.

(b) Units held by non-resident unitholders would become taxable Canadian property. Non-resident unitholders would be subject to Canadian income tax and reporting requirements on any gains realized on a disposition of units held by them.

(c) The Trust would be taxed on certain types of income distributed to unitholders. Payment of this tax may have adverse consequences for some unitholders, particularly unitholders that are not residents of Canada and residents of Canada that are otherwise exempt from Canadian income tax.

(d) The Trust would cease to be eligible for the capital gains refund mechanism available under Canadian tax laws if it ceased to be a mutual fund trust.

(e) The Trust would no longer be exempt from the application of the alternative minimum tax provisions of the Tax Act.

(f) If the Trust either does not become a registered investment, or having become a registered investment also ceased to be a registered investment, the units would constitute "foreign property" for the purposes of the Tax Act. However, the 2005 budget proposed that the rule restricts the amount of "foreign property" That may be held in Exempt Plans be eliminated as of January 2005.

In addition, the Trust may take certain measures in the future to the extent it believes necessary to ensure that the Trust maintains its status as a mutual fund trust. These measures could be adverse to certain unitholders, particularly non-residents (see Risks Associated With the Level of Foreign Ownership below).

Risks Associated With the Level of Foreign Ownership

The Declaration of Trust contains a number of provisions designed to protect the status of the Trust as a "mutual fund trust" under the Tax Act which, *inter alia*, requires that a mutual fund trust cannot be established or maintained primarily for the benefit of non-residents. There is no indication that the mutual fund trust status of the Trust currently is in jeopardy. If, in the future, the General Partner determines that any such risk exists, it is entitled to take a number of actions under the Declaration of Trust, including to require unitholders that it believes are non-residents to sell their Trust units, which action may have an adverse effect on the market price of the Trust units. In addition, there can be no assurances that the Tax Act will not be amended in the future in a manner that would have a material adverse impact on the mutual fund trust status of the Trust.

Distribution of Holding Trust Notes or Other Securities on Redemption or Termination of the Trust

It is anticipated that the redemption right will not be the primary mechanism for unitholders to liquidate their investment. Holding Trust Notes which may be received as a result of a redemption of units will not be listed on any stock exchange and no market for Holding Trust Notes is expected to develop. The Holding Trust Notes will not be qualified investments for Exempt Plans. On termination of the Trust, the Trustee may distribute securities directly to unitholders, subject to obtaining all of the necessary regulatory approvals. In addition, there may be resale restrictions imposed by applicable law upon the recipients of Holding Trust Notes pursuant to the redemption right. The Holding Trust Notes will not be guaranteed by any other party, and the provisions of the Holding Trust Note Indenture governing events of default and the remedies available thereunder will not provide protection to the holders of Holding Trust Notes which would be comparable to the provisions generally found in debt securities issued to the public;

Debt Service

The Trust or its affiliates may, from time to time, finance a significant portion of their operations through debt. Amounts paid in respect of interest and principal on debt incurred by these entities may impair the ability to satisfy any obligations under its indebtedness held by the Trust or indirectly by the Trust. Variations in interest rates and scheduled principal repayments could result in significant changes in the amount required to be applied to debt service. Ultimately, this may result in lower levels of Cash Flow of the Trust and could reduce distributions to unitholders.

Loans to the Trust or its affiliates are unsecured and subject to customary covenants and financial tests which may in certain circumstances restrict the Trusts' ability to make distributions to unitholders or AltaGas' ability to make distributions to AltaGas LP2 and ultimately to unitholders. The medium term notes described in Credit and Stability Ratings are subject to customary covenants and financial tests, including a restriction on total funded obligations as a ratio of total capitalization, and may in certain circumstances restrict AltaGas Operating Partnership's ability to make distributions to AltaGas Ltd. and ultimately to unitholders.

Structural and Contractual Subordination

In the event of a bankruptcy, liquidation or reorganization of AltaGas LP1, AltaGas or AltaGas Operating Partnership, holders of their respective indebtedness and trade payables will generally be entitled to payment of their claims from the assets of AltaGas or AltaGas Operating Partnership, as applicable, before any assets are made available for distribution to the Trust. The Trust units are therefore effectively junior to indebtedness under the Operating Loans and the Medium Term Notes and most other liabilities (including trade payables) of AltaGas and AltaGas Operating Partnership. Neither AltaGas nor AltaGas Operating Partnership is limited in its ability (except pursuant to restrictive covenants under the Operating Loans and the Medium Term Notes) to incur secured or unsecured indebtedness.

AltaGas distributes a substantial portion of its cash flow to AltaGas LP2 pursuant to an interest bearing loan agreement. Payments by AltaGas under this loan agreement are expressly subordinated to the prior payment in full of all indebtedness of AltaGas to third parties, including all indebtedness and obligations under the Operating Loans. Upon a default under the Operating Loans or the Medium Term Notes, AltaGas may be prevented from distributing cash to AltaGas LP2 thereby ultimately reducing cash available for distribution to unitholders.

Dependence on Operating Entities

The Trust will be entirely dependent upon the success of the operations of affiliates. Accordingly, the distributions to the unitholders will be dependent on the ability of these entities to generate cash flow.

Taxation of Corporate Entities

Income fund structures often involve significant amounts of inter-entity debt, generating substantial interest expense, which serves to reduce earnings and therefore income tax payable. The Board of Directors expects this to be the case in respect of AltaGas Ltd. and its interest expense on its subordinated debt. There can be no assurance that taxation authorities will not seek to challenge the amount of interest expense deducted. If such a challenge were to succeed against AltaGas Ltd. it could have a material adverse affect on the Cash Flow of the Trust available for distribution to unitholders.

Unitholder Limited Liability

The Declaration of Trust provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs and, in the event that a court determines unitholders are subject to any such liabilities, the liabilities will be enforceable only against, and will be satisfied only out of the Trust's assets. Pursuant to the Declaration of Trust, the Trust will indemnify and hold harmless each unitholder from any costs, damages, liabilities, expenses, charges and losses suffered by a unitholder resulting from or arising out of such unitholder not having such limited liability. There is no assurance that at the relevant time the Trust will have sufficient assets to be able to satisfy such indemnity.

The Declaration of Trust provides that all written instruments signed by or on behalf of the Trust must contain a provision to the effect that obligations under those instruments will not be binding upon unitholders personally. Personal liability may however arise in respect of claims against the Trust that do not arise under contracts, including claims in tort, claims for taxes and possibly certain other statutory liabilities. The possibility of any personal liability of this nature arising is considered unlikely.

The operations of the Trust will be conducted, upon the advice of counsel to the Trust, in such a way and in such jurisdictions as to avoid as far as possible any material risk of liability to the unitholders for claims against the Trust, including by obtaining appropriate insurance, where available and to the extent commercially feasible.

On July 1, 2004, the *Income Trusts Liability Act (Alberta)* came into force, which provides that a unitholder will not be, as a beneficiary, liable for any act, default, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

Deductibility of Expenses

Although the General Partner is of the view that all expenses to be claimed by the Trust, Holding Trust, AltaGas LP1 and AltaGas LP2 will be reasonable and deductible, there can be no assurance that Canadian Revenue Agency (CRA) will agree. If the CRA successfully challenges the deductibility of any such expenses, the return to unitholders may be adversely affected.

Potential Conflicts of Interest

Circumstances may arise where directors and officers of AltaGas and the General Partner are directors or officers of other entities that are in competition to the interests of AltaGas and the Trust. The General Partner owes a fiduciary duty to AltaGas and the Trust. While the General Partner has agreed to indemnify the Trust in certain circumstances, the General Partner may not have sufficient assets to honour such indemnification.

RISKS INHERENT IN THE TRUST'S OPERATING ENTITIES

The following are the primary risks associated with the business and affairs of the Trust's operating affiliates and should be considered carefully in light of the fact that the Trust will depend entirely on the operations and assets of these entities for its cash flow, and thereby its ability to pay distributions to unitholders. These risks are applicable to AltaGas' current operations and AltaGas' expected future operations.

Operating Risk

As the Trust continues to grow and diversify its midstream energy business the risk profile of the Trust may change. Operating entities may enter into or expand business components where there is greater economic exposure and more "at risk" capital. The Trust's expectation of higher returns from these businesses justifies the level of risk. In addition the Trust enters into these businesses on the basis that these risks can be actively managed.

Current operations are subject to the risks normally associated with the operation and development of natural gas and power facilities, including mechanical failure, physical degradation, operator error, manufacturer defects, sabotage, terrorism, failure of supply, catastrophic events and natural disasters. The occurrence or continuation of these events could increase AltaGas' costs and reduce its ability to process or transport natural gas or deliver power.

The Trust believes that operational risk is best managed by maintaining control over the timing of capital expenditures, operational decisions and costs by becoming the operator of the facilities in which it invests. At the end of 2004, AltaGas operated 66 of its 69 field gathering and processing facilities, all of its transmission facilities, all of AUI's distribution assets and the Edmonton ethane extraction plant. AltaGas does not operate its PPAs. Failure by the operators of these facilities to operate at the cost or in the manner projected by AltaGas could negatively affect AltaGas' results.

Facility Throughput

The majority of AltaGas' gathering and processing facilities process or transport natural gas from the Western Canadian Sedimentary Basin. Continuing use of these systems is dependent on a number of factors including the level of exploration and development within the basin, the longer term price of natural gas, the ability of natural gas producers to deliver natural gas to the various pipeline systems and the regulatory environment for producers, transporters and consumers of natural gas.

Throughput at AltaGas' gathering and processing facilities is influenced by production of natural gas in the areas serviced by AltaGas. At all of its field gathering and processing facilities, AltaGas actively pursues opportunities to maintain or increase throughput and has been successful in offsetting production declines. AltaGas' contract provisions mitigate the impact of volume declines, generate additional volumes for gathering and processing at its facilities, encourage expansion into areas where AltaGas' facilities are located and allow AltaGas to recover its invested capital in a relatively short period of time. The majority of AltaGas' field processing facilities are skid-mounted and can be moved to areas with favourable production potential should a particular area's production decline significantly.

Market Risk

AltaGas is exposed to market risks resulting from movements in commodity prices and interest rates. AltaGas manages its exposure to these risks through the use of various physical and financial instruments.

AltaGas' Commodity Risk Management Policy details the parameters used to measure monitor and report commodity price risks. It also includes risk management guidelines and objectives, risk tolerance and approved products. This policy prohibits the use of physical and financial instruments for speculative purposes.

Electricity Prices

AltaGas' revenue from sales related to PPAs and Alberta peaking plant generation under long-term lease are subject to Alberta electricity market factors such as fluctuating supply and demand, which may be affected by weather, customer usage, economic activity and growth. AltaGas reduces its baseload generation exposure to floating electricity prices by supplying internal electrical demand requirements and locking in margins with financial instruments out as far as 18 months.

Interest Rates

The Trust is exposed to interest rate fluctuations on variable rate debt. The Trust monitors its level of fixed to variable rate debt and from time to time enters into interest rate swaps to help maintain balances of each commensurate with the Trust's target to have 70 to 75 percent of its debt at fixed interest rates. At December 31, 2004 the Trust had fixed interest rates on $200 million or 81.3 percent of its floating rate debt through interest rate swaps. At year end approximately $300 million or 83.5 percent of the Trust's total debt, including its Medium Term Notes, capital lease and swaps, was at fixed interest rates.

Weather

The AEUB sets rates based upon an allowed capital structure, an allowed rate of return on common equity, an approved rate base, costs expected to be incurred and sales volumes which assume normal weather conditions. As customers are billed on an actual volume basis, the utility's ability to earn the allowed rate of return depends, in part, upon achieving the forecast distribution volumes, variations in weather from normal conditions, which are based a 20 year average, will impact the utility's actual sales volumes. Degree days are used to measure coldness in a franchise area. Degree day deficiency is a measure of coldness. It is calculated by accumulating for each day in the fiscal period the total number of degrees by which the daily mean temperature falls below 18 degrees Celsius. Warmer than normal weather may result in lower than expected demand, and a lower rate of return than allowed.

Regulatory

The Trust's businesses are subject to regulation in the jurisdictions in which they carry on business. Pipeline and facilities can be subject to common carrier and common processor applications and to rate setting by the regulatory authorities in the event an agreement on fees or tariffs cannot be reached with producers. To the extent that producers believe processing fees or tariffs respecting pipelines and facilities are too high, they may seek relief through regulator intervention. In the natural gas distribution business where parties are subject to return on rate base regulation, rates are set which allow the regulated entity the opportunity to cover its costs and earn a reasonable return. However there is no guarantee that the entity will earn its fair return because rates are set to cover future estimated costs based on future estimated demand and "normal weather" conditions and the entity's actual revenues may be more or less than the actual costs.

Credit Risk

The Trust is exposed to credit-related losses in the event that counterparties to contracts fail to fulfill their present or future financial obligations to AltaGas. AltaGas minimizes counterparty risk by conducting credit reviews on clients prior to providing services, by participating in contract negotiations to include credit mitigation clauses and by obtaining financial or performance assurances from clients. AltaGas provides an allowance for doubtful accounts in the normal course of its business.

AltaGas has credit risk relating to numerous industrial, commercial and institutional counterparties comprising the retail gas portfolio. AltaGas is satisfied that the portfolio is sufficiently well diversified such that there is no concentration of risk associated with any particular industry or counterparty. As such, any adverse credit event within the portfolio would not have a material financial impact on the Trust.

Collateral

AltaGas is able to obtain unsecured credit limits from its counterparties in order to lock in baseload electricity margins and also to procure natural gas supply and services for its energy services business. If counterparties' credit exposure to AltaGas exceeds the unsecured credit limits granted, AltaGas may have to provide collateral in the form of letters of credit or in certain circumstances, parent guarantees. AltaGas mitigates this risk through negotiation of contractual terms with counterparties related to unsecured credit, and diversification of electricity sales and natural gas purchases among a number of counterparties. Through accepted industry practices, AltaGas performs sensitivity analysis to ensure the Trust has sufficient bank lines of credit available to withstand commodity price movements that may require AltaGas to provide counterparties with letters of credit.

ENVIRONMENTAL REGULATION

The natural gas gathering and processing industry, the natural gas distribution industry and the power generation industry are subject to environmental regulation pursuant to local, provincial, territorial and federal legislation. Environmental legislation provides for restrictions and prohibitions on releases or emissions of various substances produced in association with certain oil and natural gas industry operations. Due to the highly toxic and corrosive nature of sour gas, numerous extra regulatory precautions are applied to sour gas wells, processing facilities and pipelines. Environmental legislation can affect the operation of facilities and limit the extent to which facility expansion is permitted. In addition, provincial, territorial and federal legislation requires that facility sites and pipelines be abandoned and reclaimed to the satisfaction of provincial authorities and local landowners. A breach of such legislation may result in the imposition of fines, the issuance of clean-up orders or the shutting down of facilities and pipelines.

AltaGas takes its responsibility to protect the environment in which it operates very seriously. Its mandate is to fully comply

with all environmental laws and regulations and to immediately and efficiently deal with any environmental incidences. AltaGas believes that the cost of complying with current environmental laws and regulations has not had and will not have a material effect on the Trust's financial position.

With respect to the Kyoto Protocol on Climate Change, although federal and provincial implementing legislation and related regulations are not currently available, AltaGas has substantially completed a program of its field gathering and processing facilities to quantify its current level of greenhouse gas emissions. In that way, AltaGas will be in a position to proactively develop a strategy to meet the prescribed levels of greenhouse gas emissions permitted under federal and provincial legislation and regulations. Until the relevant legislation and regulations are enacted, AltaGas is not in a position to accurately determine the impact of any reduced greenhouse gas emission levels that may be presented on its financial position.

However, the Trust is confident that any impact of any reduced greenhouse gas emission levels that may be prescribed will not have a material effect on the Trust's financial position.

DIVIDENDS/DISTRIBUTIONS

On April 29, 2004 the Trust announced that it would commence monthly distributions of $0.15 for each Trust unit and Exchangeable unit on June 15, 2004 to holders of Trust units and holders of Exchangeable units. Prior to the conversion to a trust, AltaGas Services paid quarterly cash dividends per common share and participating share in the capital stock of AltaGas Services, from March 31, 2001. No dividends were paid on any shares of AltaGas Services from the date of its incorporation to the end of December 2000.

The Trust and AltaGas LP1 pay cash distributions on or about the 15th day of each month, or if that date is not a business day then the next following business day, to unitholders of record on the 25th day of the previous month, or if that day is not a business day the next following business day.

Distribution levels are reviewed periodically by the Board of Directors giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements and the consolidated debt repayment requirements of the Trust. The Trust targets to pay out substantially all of its ongoing sustainable distributable cash flow through regular monthly distributions made to unitholders.

In addition, the Declaration of Trust provides that, if necessary, on December 31 of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year. It is expected that substantially all of the cash distributions to unitholders will be taxed as ordinary income.

The following table summarizes the dividends per common share paid by AltaGas Services prior to the Arrangement.

	2004	2003	2002	2001
First quarter	$0.11	$0.08	$0.06	$0.03
Second quarter	Not applicable	$0.08	$0.06	$0.03
Third quarter	Not applicable	$0.11	$0.08	$0.06
Forth quarter	Not applicable	$0.11	$0.08	$0.06
Total	$0.11	$0.38	$0.28	$0.18

The following table summarizes the monthly 2004 cash distributions of the Trust.

Record Date	Payment Date	Distribution per Unit
May 25, 2004	June 15, 2004	$0.15
June 25, 2004	July 15, 2004	$0.15
July 26, 2004	August 16, 2004	$0.15
August 25, 2004	September 15, 2004	$0.15
September 27, 2004	October 15, 2004	$0.15
October 25, 2004	November 15, 2004	$0.15
November 25, 2004	December 15, 2004	$0.15
December 29, 2004	January 17, 2005	$0.15
	Total 2004 Distributions	$1.20

Total 2004 cash dividends and distributions in 2004 were $1.31 per common share/Unit.

DISTRIBUTION REINVESTMENT PLAN

The Trust has adopted Distribution Reinvestment, Premium Distribution™ and Optional Unit Purchase Plan (the Plans) for holders of Trust units of the Trust and holders of Exchangeable units.

The Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plans, as may be amended from time to time, provides eligible holders of Trust units and Exchangeable units with the opportunity to reinvest the cash distributions paid by the Trust or AltaGas LP1 on their units towards the purchase of new Trust units at a five percent discount to the Average Market Price of the Trust units, as defined below, on the applicable distribution payment date (the distribution reinvestment component of the Plans) or to elect to exchange such Trust units for a cash payment equal to 102 percent of such distributions on such date (the premium distribution component of the Plans). The Trust unitholder Plan also provides Trust unitholders who are enrolled in either the distribution reinvestment component or the premium distribution component of the Plans with the opportunity to purchase new Trust units at the Average Market Price (with no discount) on the applicable distribution payment date (the optional cash payment component of the Plans). Each of the components of the Plans is subject to prorating and other limitations on availability of new Trust units in certain events.

The Average Market Price, in respect of a particular distribution payment date, refers to the arithmetic average (calculated to four decimal places) of the daily volume weighted average trading prices of Trust units on the TSX for the trading days on which at least one board lot of Trust units is traded during the period beginning on the later of the 21st business day preceding a distribution payment date and the second business day following the record date applicable to such distribution payment date and ending on the second business day preceding such Distribution payment date. Such trading prices will be appropriately adjusted for certain capital changes (including Trust unit subdivisions, Trust unit consolidations, certain rights offerings and certain distributions).

No brokerage commissions will be payable in connection with the purchase of Trust units under the Distribution Reinvestment Plan or Optional Unit Purchase Plan and all administrative costs under the Plans are borne by the Trust. Proceeds received by the Trust upon the issuance of additional Trust units under the Distribution Reinvestment Plan will be used by AltaGas for future acquisitions, capital improvements and working capital. Unitholders resident outside of Canada are not entitled to participate in the Plans. Upon ceasing to be a resident of Canada, unitholders will be required to terminate their participation in the Plans.

MARKET FOR SECURITIES

AltaGas Services common shares ceased trading on May 4, 2004. The Trust units commenced trading on the TSX on May 5, 2004 under the symbol "ALA.UN". The Exchangeable units are not listed for trading on an exchange.

On June 10, 2004 the Trust closed a public offering of 4.73 million Trust units, at a price of $18.70 per Trust unit for gross proceeds of $88.5 million. The net proceeds of the offering to the Trust, after payment of fees and expenses of $4.7 million were approximately $83.8 million. The net proceeds were used to reduce bank indebtedness, for general corporate purposes including AltaGas' ongoing capital program, and funding the acquisition of the Edmonton ethane extraction plant.

As a result, both the unitholder agreement and the registration rights agreement were terminated.

The following chart provides the reported high and low trading prices and volume of trading of AltaGas Services' common

shares by month from January to May 4, 2004 and of Trust units by month from May 5, 2004 to December 31, 2004 as reported by the TSX.

Month	High	Low	Volume
January	$15.95	$14.66	3,149,929
February	$20.16	$15.15	4,690,140
March	$22.99	$19.00	3,423,439
April	$23.00	$19.55	3,309,296
May	$21.50	$18.52	4,949,280
June	$20.48	$18.75	3,020,155
July	$21.17	$19.45	3,656,929
August	$19.86	$19.25	5,326,707
September	$20.80	$19.73	12,232,930
October	$21.70	$20.40	4,538,068
November	$22.99	$21.48	3,349,085
December	$23.49	$20.75	2,466,998

ENBRIDGE INC.

Pursuant to certain agreements dated May 12, 1999 ASI and Enbridge Inc. (Enbridge) agreed to establish a strategic alliance to provide midstream natural gas services to natural gas producers in the Western Canadian Sedimentary Basin. A shareholder agreement set forth certain rights and obligations of ASI and Enbridge reflective of the strategic alliance between them and Enbridge's influence over, but not control of ASI. A registration rights agreement set forth certain rights of Enbridge in respect of registration of the Trust units and Exchangeable units owned by it in certain circumstances. Enbridge sold all of its units in August and September of 2004 and at December 31, 2004 Enbridge held no Trust units.

SELECTED CONSOLIDATED FINANCIAL INFORMATION

The Trust reports consolidated financial and operating results on the basis of three business segments:

- Gathering and Processing includes: natural gas field gathering and processing, transmission pipelines, ethane and NGLs extraction;
- Energy Services includes: power services, natural gas services and oil and natural gas production;
- Natural Gas Distribution includes: the distribution of natural gas.

The following table summarizes selected financial information for the last three financial years.

	Year ended and as at December 31		
($ millions, except per unit[(1)] amounts)	**2004**	**2003**	**2002**
Revenue			
Gathering and Processing	$ 218.9	$ 169.2	$ 106.1
Energy Services	630.4	510.8	355.9
Natural Gas Distribution	124.6	129.4	94.3
Intersegment elimination	(114.7)	(98.8)	(63.6)
	$ 859.2	$ 710.6	$ 492.7
Net revenue			
Gathering and Processing	$ 164.9	$ 140.4	$ 99.6
Energy Services	59.9	49.3	44.2
Natural Gas Distribution	30.7	30.6	28.9
Intersegment elimination	(5.7)	(0.4)	(2.8)
	$ 249.8	$ 219.9	$ 169.9
EBITDA	133.4	121.9	94.8
- per unit (basic)	2.70	2.68	2.24
Net income	65.8	38.3	29.4
- per unit (basic)	1.33	0.84	0.70
Funds from operations	108.6	90.2	70.8
- per unit (basic)	2.20	1.98	1.67
Total assets	$ 1,108.6	$ 919.3	$ 904.9
Total debt	$ 359.5	$ 396.9	$ 419.5

Notes:
(1) References to unit above in periods prior to May 1, 2004 mean common shares of AltaGas Services.

CREDIT AND STABILITY RATINGS

Credit ratings are intended to provide investors with an independent measure of credit quality of an issue of securities. Stability ratings are intended to convey the opinion of a rating agency in respect of the relative stability and sustainability of an income trust's distribution stream when compared to other rated Canadian income trusts.

Standard & Poor's (S&P) and Dominion Bond Rating Service Limited (DBRS) are rating agencies that provide credit ratings (Rating Agencies). The Rating Agencies' ratings for debt instruments range from a high of AAA to a low of D and for stability ratings range from a high of SR-1 (S&P) / STA-1 (DBRS) to a low of SR-7 (S&P) / STA-7 (DBRS). S&P also assigns a corporate rating which ranges from a high of AAA to a low of D.

DBRS rates the Trust, AltaGas Operating Partnership and the medium term notes held by AltaGas Operating Partnership at BBB (low) with a stable trend. S&P rates the Trust's senior unsecured debt owed by AltaGas Operating Partnership at BBB- and AltaGas long term corporate credit at BBB- with a negative outlook. The Trust has a stability rating of SR-3 from S&P and STA-3 (middle) from DBRS.

According to the DBRS rating system, debt securities rated BBB are of adequate credit quality. Protection of interest and principal is considered adequate, but the entity is more susceptible to adverse changes in financial and economic conditions, or there may be other adversities present which reduce the strength of the entity and its rated securities. "High" or "low" grades are used to indicate the relative standing within a particular rating category. A stability rating of STA-3 is considered to have good stability and sustainability of distributions per unit. The stability rating is further separated into high, middle and low to indicate where within the ratings category the Trust falls. Seven areas are reviewed and assigned a ranking of superior, moderate or weak in determining the overall stability rating. The areas reviewed are operating characteristics, asset quality, financial flexibility, diversification, size and market position, sponsorship and governance, and growth.

According to the S&P rating system, an obligor rated BBB has adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. A stability rating of SR-3 indicates that the Trust has a high level of cash distribution stability relative to other rated Canadian income funds.

The Trust's DBRS debt rating reflects the continuation of favourable financial and operating results, and the maintenance of a reasonable financial profile for the current business risk profile. Key risks to its earnings and cash flows continue to be its exposure to changes in commodity prices, weather and interest rates. The Trust's DBRS stability rating of STA-3 reflects the superior ranking for diversification given the Trust's involvement in three business segments (gas gathering and processing, gas distribution and energy services) and a high degree of diversification within each segment. The Trust's financial flexibility is considered weak due to a combination of (a) a continued high level of debt given the Trust's risk profile, (b) interest rate risk, (c) tight margin for internally funding cash distributions of $0.15 per unit per month from the existing portfolio.

S&P's corporate credit and senior unsecured debt rating of BBB- reflects the large proportion of the Trust's operating income from stable fee for service and cost-of-service businesses. The negative outlook reflects the operating risks and commodity price exposure associated with its energy services segment. S&P is also concerned with the execution risks associated with future acquisitions. The Trust's S&P stability rating of SR-3 reflects the high predictability of the Trust's distributable cash flow. The Trust's sustainable and predictable operating margins are supported by its diversified and integrated business operations and contractual arrangements that vary in length. Offsetting factors include the Trust's commodity price exposure from its energy service business, natural gas production declines associated with the mature basins in Alberta, aggressive growth strategy, and limited financial flexibility.

The credit ratings accorded to the securities by the Rating Agencies are not recommendations to purchase, hold or sell the securities in as much as such ratings do not comment as to market price or suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a Rating Agency in the future if, in its judgment, circumstances so warrant.

Neither DBRS nor S&P has announced that it is reviewing or intends to revise or withdraw the ratings on the Trust.

MATERIAL CONTRACTS

Set out below are agreements that may be considered material to the Trust:

- Declaration of Trust (see Declaration of Trust and Description of Units);
- Holding Trust Note Indenture (see Holding Trust – Holding Trust Notes);
- Administration Agreement (see Management of the Trust – Administration Agreement);
- Delegation Agreement (see Management of the Trust – Delegation Agreement);
- Voting and Exchanging Trust Agreement (see Declaration of Trust and Description of Units – Special Voting Units);
- Unanimous Shareholders' Agreement (see Unanimous Shareholder Agreement); and
- Support Agreement (see Management of The Trust – Administration Agreement).

INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS

The General Partner and AltaGas Ltd. are not aware of any material interest, direct or indirect, of any director or officer of the General Partner or AltaGas Ltd., any director or officer of a corporation that is an insider or subsidiary of the Trust, or any other insider of the Trust, or any associate or affiliate of any such person, in any transaction since the commencement of the Trust's or AltaGas Services' last three completed financial years, or in any proposed transaction, that has materially affected or would materially affect the Trust or any of its subsidiaries.

LEGAL PROCEEDINGS

AltaGas Ltd. is not aware of any material legal proceedings to which the Trust, or its affiliates, is a party and to which their property is subject.

INTERESTS OF EXPERTS

The auditors of the Trust are Ernst & Young LLP, Chartered Accountants, 1000, 440 – 2nd Avenue S.W., Calgary, Alberta T2P 5E9. The Trust's consolidated financial statements as at December 31, 2004 and for the year then ended have been filed under National Instrument 51-102 in reliance on the report of Ernst & Young LLP, independent chartered accountants, given on their authority as experts in auditing and accounting. As of December 31, 2004, the partners and employees of Ernst & Young LLP collectively owned less than one percent of the Trust's outstanding Trust units.

ADDITIONAL INFORMATION

Additional information, including directors and officers remuneration and indebtedness, principal holders of the Trust's securities, options to purchase the Trust's securities, and interests of insiders in material transactions, where applicable, is contained in the Trust's 2005 Information Circular which is expected to be filed on or about March 22, 2005 in connection with the Annual Meeting of unitholders to be held April 28, 2005 (the 2005 Information Circular).

Additional financial information is contained in the Trust's consolidated financial statements for the year ended December 31, 2004 (the Annual Financial Statements) and management's discussion and analysis contained in the 2004 Annual Report of the Trust.

The Trust routinely files all required documents through the SEDAR system and on its own website. Internet users may retrieve such material through the SEDAR website www.sedar.com.The Trust's website is located at www.altagas.ca but the Trust's website is not incorporated by reference into this Annual Information Form.

TRANSFER AGENTS AND REGISTRARS

The registrar and transfer agent for the Trust units and Exchangeable units is Computershare Trust Company of Canada, 600, 530 8th Avenue S.W. Calgary, Alberta T2P 3S8, Telephone 1-888-267-6555.

The registrar and trustee for AltaGas Operating Partnership's medium term notes is Computershare Trust Company of Canada, 710, 530 8th Avenue S.W. Calgary, Alberta T2P 3S8, Telephone 1-888-267-6555.

EFFECTIVE DATE

Unless otherwise specifically herein provided, the information contained in this Annual Information Form is stated as at December 31, 2004.

AltaGas NEWS RELEASE

ALTAGAS INCOME TRUST ANNOUNCES MONTHLY DISTRIBUTION

Calgary, Alberta (April 13, 2005) – AltaGas Income Trust (AltaGas or the Trust) (TSE:ALA.UN) announced today that a monthly distribution will be paid on May 16, 2005 to holders of record on April 25, 2005, of Trust Units and limited partnership units that are exchangeable into Trust Units (Exchangeable Units). The amount of the distribution will be $0.15 for each Trust Unit and each Exchangeable Unit.

AltaGas has adopted Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plans (the Plans) for eligible holders of Trust Units and Exchangeable Units (collectively Unitholders) of AltaGas Income Trust, and AltaGas Holding Limited Partnership No. 1.

To participate in either of the Plans, registered Unitholders must deliver the appropriate properly completed and signed authorization forms provided by AltaGas for such purpose to Computershare Trust Company of Canada no later than 3:00 p.m. (Calgary time) on the business day immediately preceding a distribution record date in order for the cash distribution or cash payment to which such record date relates to be reinvested or invested, as the case may be, under the applicable Plan. Beneficial owners of Trust Units or Exchangeable Units (i.e. owners of Trust Units or Exchangeable Units that are held through a nominee such as a broker or custodian) who wish to participate in the applicable Plan should contact their broker, investment dealer, financial institution or other nominee who hold their Trust Units or Exchangeable Units to provide instructions regarding their participation in the applicable Plan. See additional information on the Plans on AltaGas' website at www.altagas.ca.

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling over $1 billion and a market capitalization of approximately $1.2 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

When used in this news release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as a result of new information or future event.

NEWS RELEASE

ALTAGAS INCOME TRUST ANNOUNCES RESIGNATION OF PRESIDENT AND CHIEF OPERATING OFFICER

Calgary, Alberta (April 13, 2005) – AltaGas Income Trust (TSX:ALA.UN) today announced that Gary Holden, President and Chief Operating Officer of AltaGas Ltd., administrator of the Trust, has resigned effective April 15, 2005. Mr. Holden has accepted the position of President and Chief Executive Officer at a Calgary-based energy organization. Mr. Holden joined AltaGas as President and Chief Operating Officer on April 1, 2003.

"During his two years at AltaGas, Gary provided us with strong leadership and we wish him success," said David Cornhill, Chairman and Chief Executive Officer. "We have begun the search for a new President and Chief Executive Officer."

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling over $1 billion and a market capitalization of approximately $1.2 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

Base Shelf Prospectus

A copy of this preliminary short form prospectus has been filed with the securities regulatory authorities in each of the provinces of Canada but has not yet become final for the purpose of the sale of securities. Information contained in this preliminary short form prospectus may not be complete and may have to be amended. The securities may not be sold until a receipt for the short form prospectus is obtained from the securities regulatory authorities.

This short form prospectus constitutes a public offering of these securities only in those jurisdictions where they may be lawfully offered for sale and therein only by persons permitted to sell such securities. No securities regulatory authority has expressed an opinion about these securities and it is an offence to claim otherwise. The securities to be offered hereunder have not been, and will not be, registered under the United States Securities Act of 1933, as amended, or any state securities laws and, subject to certain exceptions, may not be offered or sold in the United States of America or to U.S. persons. See "Plan of Distribution".

This short form prospectus has been filed under legislation in each of the provinces of Canada that permits certain information about these securities to be determined after this prospectus has become final and that permits the omission from this prospectus of that information. The legislation requires the delivery to purchasers of a prospectus supplement containing the omitted information within a specified period of time after agreeing to purchase any of these securities.

New Issue **PRELIMINARY SHORT FORM PROSPECTUS DATED APRIL 22, 2005** •, 2005

[GRAPHIC]

ALTAGAS INCOME TRUST
$500,000,000
Trust Units
Debt Securities

AltaGas Income Trust (the "Trust") may from time to time offer and issue trust units or unsecured debt securities (collectively, the "Securities"), up to an aggregate offering price of $500,000,000 (or its equivalent in any other currency used to denominate the Securities) during the 25-month period that this short form base shelf prospectus (the "prospectus"), including any amendments hereto, remains effective.

The specific terms of any offering of Securities will be set forth in a shelf prospectus supplement (a "prospectus supplement") including, where applicable: (i) in the case of trust units, the number of units offered and the offering price; and (ii) in the case of debt securities, the specific designation of the debt securities, any limit on the aggregate principal amount of the debt securities, the currency, the maturity, the offering price, whether the debt securities will bear interest, the interest rate or method of determining the interest rate, any terms of redemption, any conversion or exchange rights and any other specific terms. A prospectus supplement may include other specific terms pertaining to the Securities that are not prohibited by the parameters set forth in this prospectus.

All shelf information permitted under applicable laws to be omitted from this prospectus will be contained in one or more prospectus supplements that will be delivered to purchasers together with this prospectus. Each prospectus supplement will be incorporated by reference into this prospectus for the purposes of securities legislation as of the date of the prospectus supplement and only for the purposes of the distribution of the Securities to which the prospectus supplement pertains.

The Trust may sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell the Securities directly to one or more purchasers pursuant to applicable statutory exemptions or through agents. See "Plan of Distribution". The prospectus supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Trust in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including the method of distribution of such Securities, the proceeds to the Trust and any fees, discounts or any other compensation payable to underwriters, dealers or agents and any other material terms of the plan of distribution.

In connection with any offering of Securities, the underwriters, dealers or agents, as the case may be, may over allot or effect transactions which stabilize or maintain the market price of the Securities at a level above that which

otherwise might prevail on the open market. Such transactions, if commenced, may be discontinued at any time. See "Plan of Distribution". The trust units of the Trust are listed on the Toronto Stock Exchange under the symbol "ALA.UN". **There is currently no market through which the debt securities may be sold and purchasers may not be able to resell such securities issued under this prospectus.**

A rate of return on an investment in the trust units of the Trust over a defined period may not be comparable to the rate of return on an investment in a fixed-income security that provides a return on capital over the same period. The recovery of an initial investment in the trust units of the Trust is at risk, and the anticipated return on such investment is based on many performance assumptions. Although the Trust intends to make distributions of its available cash to holders of trust units ("Unitholders"), these cash distributions may be reduced or suspended. The actual amount distributed will depend on numerous factors including: the financial performance of the subsidiaries of the Trust, electricity prices, regulation, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of trust units outstanding. In addition, the market value of the trust units may deteriorate if the Trust is unable to meet its distribution targets in the future, and that deterioration may be material.

It is important for an investor to consider the particular risk factors that may affect the industry in which it is investing. See, for example, "Nature of Trust Units", "Nature of Distributions", "Variability of Distributions", "Changes in Legislation", "Loss of Mutual Fund Trust Status", "Risks Associated With the Level of Foreign Ownership", "Debt Service" and "Structural and Contractual Subordination" under "Risk Factors" on pages 59 to 61 of the AIF (as defined herein). These sections also describe the Trust's assessment of those risk factors, as well as the potential consequences to an investor if a risk should occur.

The after-tax return from an investment in trust units to Unitholders, subject to Canadian income tax, can be made up of both a return on and a return of capital. That composition may change over time, thus affecting an investor's after-tax return. The Trust expects that substantially all of the cash distributions to Unitholders will be taxed as ordinary income or as dividends. Returns on capital are generally taxed as ordinary income or as dividends in the hands of a Unitholder. Returns of capital are generally tax-deferred (and reduce the Unitholder's cost base in the trust unit for tax purposes).

Standard & Poor's ("S&P") has assigned a stability rating of SR-3 to the Trust and the Dominion Bond Rating Service Limited ("DBRS") has assigned a stability rating of STA-3 (middle) to the Trust. S&P's stability ratings range from a high of SR-1 to a low of SR-7 and DBRS' stability ratings range from a high of STA-1 to a low of STA-7. S&P has assigned a long term issuer credit rating of BBB- with a stable outlook to the Trust. S&P's long term issuer credit ratings range from a high of AAA to a low of D. Stability ratings and issuer credit ratings are not a recommendation to buy, sell or hold securities and are subject to revision or withdrawal by S&P or DBRS at any time. See "Ratings".

GLOSSARY

In this prospectus, the following terms have the meanings set forth below.

"AltaGas" means AltaGas Ltd., a corporation formed by amalgamation pursuant to the CBCA, an indirect subsidiary of the Trust and a successor by amalgamation to AltaGas Services;

"AltaGas LP 1" means AltaGas Holding Limited Partnership No. 1, a limited partnership created pursuant to the laws of Alberta;

"AltaGas LP 2" means AltaGas Holding Limited Partnership No. 2, a limited partnership created pursuant to the laws of Alberta;

"AltaGas Services" means AltaGas Services Inc., a predecessor by amalgamation to AltaGas;

"Arrangement" means the arrangement, under the provisions of section 192 of the CBCA, involving among other parties, AltaGas Services, the Trust, Holding Trust, the General Partner, AltaGas LP 1 and AltaGas LP 2 pursuant to which the business of AltaGas Services was reorganized into an income trust effective May 1, 2004;

"Cash Flow of the Trust" means for, or in respect of, any Distribution Period: (i) all cash amounts which are received by the Trust for, or in respect of, the Distribution Period, including, without limitation, interest, dividends, distributions, proceeds from the disposition of securities, returns of capital and repayments of indebtedness; plus (ii) the proceeds of any issuance of trust units or any other securities of the Trust, net of the expenses of distribution, and, if applicable, the use of proceeds of any such issuance for the intended purposes; less (iii) the sum of (A) all amounts which relate to the redemption of trust units and which have become payable in cash by the Trust in the Distribution Period and any expenses of the Trust in the Distribution Period; and (B) any other amounts (including taxes) required by law or the Declaration of Trust to be deducted, withheld or paid by or in respect of the Trust in such Distribution Period;

"CBCA" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"Declaration of Trust" means the declaration of trust dated as of March 26, 2004 between the settlor and the Trustee, pursuant to which the Trust was created, as from time to time amended, supplemented or restated;

"Distribution Period" means each calendar month, or such other periods as may be determined from time to time by the General Partner on behalf of the Trustee from and including the first day thereof and to and including the last day thereof;

"Exchangeable Units" means, Class B limited partnership units of AltaGas LP 1 and, prior to their exchange in August 2004, Class B limited partnership units of AltaGas LP 2;

"General Partner" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust and the general partner of AltaGas LP 1 and AltaGas LP 2;

"Holding Trust" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta, all of the beneficial interests of which are owned by the Trust;

"NGLs" means natural gas liquids;

"Note Trustee" means Computershare Trust Company of Canada, as initial trustee under the Trust Indenture, and any successor thereto or replacement thereof;

"Special Voting Unit" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee to which is attached that number of voting rights (each such voting right being equal to the voting rights

attached to one trust unit) equal to the number of outstanding Exchangeable Units held by registered holders, other than the Trust and its affiliates;

"Trust Indenture" means the trust indenture to be entered into between the Trust and the Note Trustee providing for the issuance of debt securities hereunder;

"Trustee" means Computershare Trust Company of Canada, as initial trustee pursuant to the Declaration of Trust;

"Unitholders" means the holders from time to time of trust units of the Trust;

"Voting and Exchange Trust Agreement" means the voting and exchange trust agreement dated May 1, 2004 among the Trust, AltaGas LP 1, AltaGas LP 2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"Voting and Exchange Trustee" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

All dollar amounts set forth in this prospectus are expressed in Canadian dollars unless otherwise indicated.

NOTE REGARDING FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated by reference herein contain forward-looking statements. When used in this prospectus and the documents incorporated by reference herein, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions, including, without limitation, those described in this prospectus under the heading "Risk Factors". Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this prospectus and the documents incorporated by reference herein. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this prospectus and the documents incorporated by reference herein as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this prospectus or the documents incorporated by reference herein should not be unduly relied upon. These statements speak only as of the date of this prospectus or as of the date specified in the documents incorporated by reference herein, as the case may be. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

In particular, this prospectus and the documents incorporated by reference herein contain forward-looking statements pertaining to the following: the amount and timing of distributions in respect of the trust units; treatment under applicable tax legislation; expectations regarding the ability to maintain its competitive position; expectations regarding the ability to raise capital; treatment under governmental regulatory regimes; and commodity prices.

Actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this prospectus: general economic conditions in Canada and the United States; industry conditions; governmental regulations; volatility of commodity prices; currency fluctuations; environmental risks; competition; lack of availability of qualified personnel or management; the ability to integrate technological advances and match advances of competition; the availability of capital; and the other factors considered under "Risk Factors".

These factors should not be construed as exhaustive.

DESCRIPTION OF CASH FLOW OF THE TRUST

Throughout this prospectus and the documents incorporated by reference herein, the Trust uses the term "Cash Flow of the Trust" to refer to the amount of cash that is to be available for distributions to Unitholders. Management of the Trust believes that Cash Flow of the Trust is a useful indication of the performance of the Trust and an indicator of cash that will be available for distributions to Unitholders. "Cash Flow of the Trust" is not a measure recognized by Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP, but is an amount calculated in accordance with the terms of the Declaration of Trust. Therefore, Cash Flow of the Trust may not be comparable to similar measures presented by other issuers, and investors are cautioned that Cash Flow of the Trust should not be considered as an alternative to net earnings, cash flow from operating activities or other measures of financial performance calculated in accordance with GAAP.

DOCUMENTS INCORPORATED BY REFERENCE

Information has been incorporated by reference in this short form prospectus from documents filed with securities commissions or similar authorities in Canada. For the purpose of the Province of Québec, this simplified prospectus contains information to be completed by consulting the permanent information record. Copies of the documents incorporated herein by reference and of the permanent information record may be obtained on request without charge from the Vice-President, General Counsel and Corporate Secretary of AltaGas at 1700, 355 – 4th Avenue S.W., Calgary,

Alberta, T2P 0J1, Telephone: (403) 691-7575. These documents are also available through the Internet on the System for Electronic Document Analysis and Retrieval (SEDAR), which can be accessed at www.sedar.com.

The following documents of the Trust, filed with the various provincial securities commissions or similar authorities in Canada, are specifically incorporated into and form an integral part of this prospectus, provided that such documents are not incorporated by reference to the extent that their contents are modified or superseded by a statement contained in this prospectus or in any other subsequently filed document that is also incorporated by reference in this prospectus:

(a) the audited comparative consolidated financial statements of the Trust and notes thereto for the years ended December 31, 2004 and 2003 together with the auditors' report thereon, and management's discussion and analysis of results of operations and financial condition ("MD&A") for the year ended December 31, 2004;

(b) the Annual Information Form of the Trust dated March 16, 2005 (the "AIF") for the year ended December 31, 2004; and

(c) the Information Circular dated March 16, 2005 relating to the Annual Meeting of Unitholders of the Trust to be held on April 28, 2005 (the "Information Circular"), excluding the sections entitled "Report on Employee and Executive Compensation", "Performance Graph" and "Statement of General Partner's Governance Practices".

Any material change reports (except confidential material change reports), unaudited interim comparative consolidated financial statements and accompanying management's discussion and analysis, audited comparative consolidated financial statements and the auditors' report thereon and information circulars (excluding the disclosure in an information circular relating to the downward repricing of options or stock appreciation rights, the composition of the Trust's compensation committee and its report on executive compensation, the performance graph and corporate governance practices) and annual information forms filed by the Trust with the provincial securities commissions or similar authorities in Canada after the date of this prospectus and before the termination of the offering, are deemed to be incorporated by reference in this prospectus.

Upon a new annual information form and related audited annual consolidated financial statements and accompanying management's discussion and analysis being filed by the Trust with, and where required, accepted by, the applicable securities regulatory authorities during the currency of this prospectus, the previous annual information form, the previous audited annual consolidated financial statements and accompanying management's discussion and analysis and all unaudited interim consolidated financial statements and accompanying management's discussion and analysis, information circulars and material change reports filed prior to the commencement of the Trust's financial year in which the new annual information form is filed shall be deemed no longer to be incorporated into this prospectus for purposes of future offers and sales of Securities under this prospectus.

Upon unaudited interim consolidated financial statements and the accompanying management's discussion and analysis being filed by the Trust with the applicable securities regulatory authorities during the currency of this prospectus, all unaudited interim consolidated financial statements and the accompanying management's discussion and analysis filed prior to the new unaudited interim consolidated financial statements shall be deemed no longer to be incorporated into this prospectus for purposes of future offers and sales of Securities under this prospectus.

Any statement contained in this prospectus or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the

document that it modifies or supersedes. Any statement so modified or superseded shall not be deemed to constitute a part of this prospectus, except as so modified or superseded.

Updated earnings coverage ratios will be filed quarterly with applicable securities regulatory authorities either as prospectus supplements or as exhibits to the Trust's unaudited interim consolidated financial statements and audited annual consolidated financial statements and will be deemed to be incorporated by reference in this prospectus for the purpose of the offering of debt securities.

A prospectus supplement containing the specific terms of any Securities offered thereunder will be delivered to purchasers of such Securities together with this prospectus and will be deemed to be incorporated by reference into this prospectus as of the date of the prospectus supplement solely for the purposes of the offering of the Securities covered by that prospectus supplement.

ALTAGAS INCOME TRUST

General

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust. The head and principal office of the Trust is located at 1700, 355 - 4th Avenue S.W., Calgary, Alberta T2P 0J1. The Trust was established principally for the purposes of acquiring or investing in the securities of entities involved in the business of, or the ownership, lease or operation of assets or property in connection with gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, NGLs or other related products, power or other forms of energy and related businesses and such other investments as the Trust may determine.

The Unitholders are the sole beneficiaries of the Trust. Computershare Trust Company of Canada is the initial trustee of the Trust.

General Partner

The Trust is administered by the General Partner, which is also the general partner of AltaGas LP 1 and AltaGas LP 2. The board of directors of the General Partner also has the power to manage, or supervise the management of, the business and affairs of AltaGas pursuant to a unanimous shareholder agreement.

Business of AltaGas

AltaGas is an energy infrastructure based company and an indirect subsidiary of the Trust. AltaGas, directly and indirectly:

- Physically gathers, processes, extracts and transports natural gas;
- Contractually markets and transports natural gas and electrical power and performs similar services as agents on behalf of energy users;
- Converts energy across and along the energy value chain to create higher-value added products; and
- Consumes natural gas and electrical power to operate its facilities.

AltaGas expects to continue to develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and, through it United States affiliates, in the northern United States.

AltaGas administers the affairs of the Trust, Holding Trust, the General Partner, AltaGas LP 1, AltaGas LP 2, AltaGas Limited Partnership, Premstar Energy Canada Limited Partnership and ECNG Limited Partnership.

USE OF PROCEEDS

The net proceeds to be derived from the sale of trust units or debt securities will be the issue price less any commission paid in connection therewith and expenses relating to the particular offering of trust units or debt securities. Unless otherwise specified in a prospectus supplement, the net proceeds from the sale of the Securities will be used for general trust purposes, to repay indebtedness and to fund capital expenditures. The amount of net proceeds to be used for any such purpose will be set forth in a prospectus supplement. The Trust may, from time to time, issue securities (including debt securities) other than pursuant to this prospectus.

RATINGS

Stability ratings are intended to convey the opinion of a rating agency in respect of the relative stability and sustainability of an income trust's distribution stream when compared to other rated Canadian income trusts. S&P has assigned a stability rating of SR-3 to the Trust and DBRS has assigned a stability rating of STA-3 (middle) to the Trust. S&P's stability ratings range from a high of SR-1 to a low of SR-7 and DBRS' stability ratings range from a high of STA-1 to a low of STA-7.

According to the S&P stability rating system, a stability rating of SR-3 indicates that the Trust has a high level of cash distribution stability relative to other rated Canadian income funds. According to the DBRS stability rating system, a stability rating of STA-3 is considered to have good stability and sustainability of distributions per unit. DBRS further separates the ratings into high, middle and low to indicate where within the rating category the income trusts fall. Stability ratings take into consideration seven main factors of operational and industry characteristics, asset quality, financial flexibility, size and market position, diversification, sponsorship and growth. In addition, consideration is given to specific structural or contractual elements that may eliminate or mitigate risks or other potentially negative factors. A stability rating is not a recommendation to buy, sell or hold securities and is subject to revision or withdrawal by S&P or DBRS at any time.

Issuer credit ratings are intended to convey the opinion of a rating agency in respect of an obligor's overall financial capacity to pay its financial obligations. S&P has assigned a long term issuer credit rating of BBB- with a stable outlook to the Trust. S&P's long term issuer credit ratings range from a high of AAA to a low of D.

According to the S&P long term issuer credit rating system, an obligor rated BBB has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. An issuer credit rating is not a recommendation to purchase, sell or hold securities, as such does not comment on market price or suitability for a particular investor, and is subject to revision or withdrawal by S&P at any time.

DESCRIPTION OF TRUST UNITS

Trust Units

An unlimited number of trust units may be created and issued pursuant to the Declaration of Trust. Each trust unit entitles the holder thereof to one vote at any meeting of the Unitholders or in respect of any written resolution of Unitholders and represents an equal undivided beneficial interest in any distribution from the Trust (whether of income, net realized capital gains or other amounts) and in any net assets of the Trust in the event of termination or winding-up of the Trust. All trust units shall rank among themselves equally and rateably without discrimination, preference or priority, whatever may be the actual date or terms of issue thereof. Each trust unit is transferable, is not subject to any conversion or pre-emptive rights and entitles the holder thereof to require the Trust to redeem any or all of the trust units held by such holder.

Issuance of Units

The Declaration of Trust provides that trust units, including exchangeable securities, rights, warrants, options or other securities convertible into or exchangeable for trust units, may be created, issued, sold and delivered on such terms and conditions and at such times as the Trustee may determine. The Declaration of Trust also provides that the Trustee may authorize the creation and issuance of any type of debt securities or convertible debt securities of the Trust from time to time on such terms and conditions to such persons and for such consideration as the Trustee may determine.

Special Voting Units

The Declaration of Trust allows for the creation of special voting units which enables the Trust to provide voting rights to holders of exchangeable securities. A Special Voting Unit was issued pursuant to the Arrangement to enable the holders of Exchangeable Units issued by AltaGas LP 1 and AltaGas LP 2 to vote at meetings of Unitholders. The Special Voting Unit created and issued pursuant to the Arrangement was issued to the Voting and Exchange Trustee. The holder of a special voting unit, including in respect of the Special Voting Unit, the Voting and Exchange Trustee, is not entitled to any interest or share in the distributions or net assets of the Trust and is only entitled to such number of votes at meetings of Unitholders as is equal to the number of trust units into which the exchangeable securities to which such special voting unit relates are exchangeable or convertible.

Under the terms of the Voting and Exchange Trust Agreement, the Trust has issued the Special Voting Unit to the Voting and Exchange Trustee for the benefit of every person who received Exchangeable Units pursuant to the Arrangement. The Voting and Exchange Trustee is obligated to vote the Special Voting Unit at meetings of Unitholders pursuant to the instructions of the holders of Exchangeable Units. However, if no instructions are provided by the holders of Exchangeable Units, the votes associated therewith in the Special Voting Unit will be withheld from voting.

The special voting units will be subject to such other rights and limitations as may be determined by the Trustee at the time of issuance of the special voting unit. The Declaration of Trust provides that, upon the exchange of Exchangeable Units for trust units, the entitlement to vote pursuant to the Special Voting Unit will be eliminated in respect of those Exchangeable Units.

Distributions

Pursuant to the Declaration of Trust, the Trust is required to make cash distributions to Unitholders each calendar month (or such other periods as may be determined by the Trustee) of all or any part of the Cash Flow of the Trust. Cash received by the Trust from its subsidiaries will be managed by the General Partner, giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements of the Trust, the consolidated debt repayment requirements of the Trust and other factors. The intent of the General Partner is to maximize the cash received by the Trust from its subsidiaries giving consideration to these various factors.

Distributions in respect of a month will be paid to Unitholders of record as at the close of business on each determined distribution record date. The distribution for any month will be paid on the determined distribution payment date. In addition, the Declaration of Trust provides that, if necessary, on December 31st of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year.

For additional information in respect of the trust units, including information respecting limitations on non-resident ownership, the redemption right attached to the trust units, meetings of Unitholders and amendments to the Declaration of Trust, see "Declaration of Trust and Description of Units" on pages 43 through 48, inclusive, of the AIF.

DESCRIPTION OF DEBT SECURITIES

The debt securities will be issued under the Trust Indenture to be entered into between the Trust and the Note Trustee. The following description of the terms of debt securities sets forth certain general terms and provisions of debt securities in respect of which a prospectus supplement will be filed. The particular terms and provisions of debt securities offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in the prospectus supplement filed in respect of such debt securities.

The following summaries of certain provisions of the Trust Indenture and the debt securities do not purport to be complete and such summaries are subject to the detailed provisions of the Trust Indenture to which reference is hereby made, including the definitions of certain terms used herein, and for other information regarding the debt securities. A copy of the Trust Indenture may be reviewed at the offices of the Trust in Calgary, Alberta during normal business hours during the period of distribution of any debt securities.

General

The aggregate principal amount of debt securities authorized under the Trust Indenture is unlimited and debt securities may be issued from time to time in one or more series thereunder. The debt securities will be unsecured and will be unsubordinated obligations of the Trust.

Certain terms of each issue of debt securities, as well as any modifications of or additions to the general terms of the debt securities as described herein that may be applicable to a particular issue of debt securities, will be described in the prospectus supplement relating to the offering of such debt securities.

Reference is made to the prospectus supplement for the following applicable terms of, and information relating to, the debt securities being offered thereby:

(a) the specific designation, aggregate principal amount, authorized denominations and maturity dates of the debt securities;

(b) the rate or rates of interest, which may be a fixed rate or floating rate, and the amounts payable in respect of principal and premium, if any, on the debt securities;

(c) covenants relating to the payment of principal and interest on the debt securities and other covenants applicable to such debt securities to which the Trust will be bound;

(d) the date or dates from which interest shall accrue, the dates on which interest shall be payable and the record dates for the interest payable on any interest payment date;

(e) the place or places where the principal of and premium, if any, and interest on the debt securities will be payable;

(f) the period or periods within which, the price or prices at which, and the terms and conditions upon which, the debt securities may be redeemed, in whole or in part, at the option of the Trust;

(g) the obligation, if any, of the Trust to redeem, purchase or repay the debt securities pursuant to any mandatory redemption, sinking fund or analogous provisions or at the option of a holder thereof; and the period or periods within which, the price or prices at which, and the terms and conditions upon which, the debt securities shall be redeemed or purchased, in whole or in part, pursuant to such obligation or option;

(h) provisions relating to the conversion of the debt securities for trust units or other securities of the Trust or its subsidiaries;

(i) the currency or currencies (which may be in the Canadian dollar or in any other currency) in which the debt securities will be denominated and in which the principal of and premium, if any, and interest on such debt securities will be payable;

(j) the application, if any, of any defeasance provisions to the debt securities; and

(k) whether the debt securities may be exchanged or converted into securities of the Trust or another issuer.

The debt securities may be issued as original issue discount debt securities (bearing no interest, or interest at a rate that at the time of issuance is below market rates) at prices below their stated principal amount.

Ranking

The debt securities will be direct, unsecured obligations of the Trust and, subject to certain exceptions set forth in the Trust Indenture, will rank *pari passu* with all other present and future unsubordinated and unsecured indebtedness of the Trust.

Form of Debt Securities

Unless otherwise specified in the applicable prospectus supplement, the debt securities will be issued only in the form of fully registered global notes (the "Global Notes") to be held by, or on behalf of, The Canadian Depository for Securities Limited ("CDS"), as depositary for its Participants (as defined below), and will be registered in the name of CDS or its nominee. Debt securities represented by Global Notes will not be issued in definitive form unless (i) the Trust, in its sole discretion, elects to prepare and deliver definitive notes (the "Definitive Notes"), (ii) CDS notifies the Trust that it is unwilling or unable to continue to be depositary in connection with a Global Note, (iii) CDS ceases to be eligible to be a depositary and the Trust is unable to find a qualified successor, or (iv) holders of not less than 25% of the debt securities, following the occurrence of an event of default which is continuing under the Trust Indenture, request debt securities to be issued as Definitive Notes.

Beneficial interests in the Global Notes, constituting ownership of the debt securities, will be represented through book-entry accounts of institutions acting on behalf of owners of debt securities, as direct and indirect participants (the "Participants") of CDS. Each purchaser of a debt security represented by a Global Note will receive a customer confirmation of purchase from the dealer from which the debt security is purchased in accordance with the practices and procedures of such dealer. Such practices may vary between dealers, but generally customer confirmations are issued promptly following execution of a customer order. CDS will be responsible for establishing and maintaining book-entry accounts for its Participants having interests in Global Notes.

Unless otherwise specified in the applicable prospectus supplement, debt securities will be issued in denominations of $5,000 and multiples of $1,000 above such amount.

Transfer of Debt Securities

Transfer of ownership of debt securities represented by Global Notes will be effected through records maintained by CDS or its nominee for such Global Notes (with respect to interests of Participants) and through the records of Participants (with respect to interests of persons other than Participants). Unless debt securities are issued as Definitive Notes, owners of debt securities who are not Participants in CDS's book-entry system, but who desire to purchase, sell or otherwise transfer ownership of debt securities, may do so only through Participants in CDS's book-entry system.

The ability of an owner of a debt security represented by a Global Note to pledge or otherwise take action with respect to such owner's debt security (other than through a Participant) may be limited by the unavailability of a certificate registered in such owner's name.

Payment of Principal, Premium and Interest

Payments of interest, if any, and principal of and premium, if any, on each Global Note will be made to CDS or its nominee, as the case may be, as registered holder of the Global Note. So long as CDS or its nominee is the registered holder of a Global Note, CDS or its nominee, as the case may be, will be considered to be the sole owner of the Global Note for the purpose of receiving payments of interest, if any, and principal of and premium, if any, on such Global Note and for all other purposes under such Global Note. The record date for the payment of interest will be the tenth business day prior to the applicable interest payment date.

The Trust understands that CDS or its nominee, upon receipt of any payment of interest, if any, or principal and premium, if any, in respect of a Global Note, will credit Participants' accounts, on the date interest, if any, or principal and premium, if any, is paid, with payments in amounts proportionate to their respective interests in the principal amount of such Global Note as shown on the records of CDS or its nominee. The Trust also understands that payments of interest, if any, or principal and premium, if any, by Participants to the owners of beneficial interests in such Global Note held through such Participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participants. The responsibility and liability of the Trust in respect of payments on Global Notes are limited solely and exclusively, while the debt securities are represented by a Global Note, to making payment of interest, if any, and principal and premium, if any, due on such Global Note to CDS or its nominee. The Trust will not have any responsibility or liability for any aspect of the records relating to beneficial interests in the Global Note or for maintaining, supervising or reviewing any records relating to such beneficial interests.

If the due date for payment of interest, if any, or principal of or premium, if any, on any debt security is not, at the place of payment, a business day, such payment will be made on the next business day and the holder of such debt security will not be entitled to any further interest or other payment in respect of such delay.

Modification

The Trust Indenture will provide that supplemental indentures containing modifications and alterations thereto may be made by the Note Trustee and the Trust, when authorized by a resolution of the board of directors of the General Partner, as delegate of the Trustee of the Trust: (a) to add or amend covenants of the Trust to protect or benefit holders of debt securities or to provide for additional events of default; (b) to make such provisions not inconsistent with the Trust Indenture with respect to matters or questions arising under the Trust Indenture including the making of any modifications to the form of debt securities which do not affect the substance thereof, provided that in the opinion of the Note Trustee such provisions and modifications shall not be prejudicial to the interests of holders of debt securities; (c) to evidence succession; (d) to establish the terms and conditions attached to an issue of debt securities; (e) to give effect to an Extraordinary Resolution (as defined below) of holders of debt securities; (f) to make amendments to the Trust Indenture to comply with applicable law; and (g) for any other propose not inconsistent with the Trust Indenture.

The Trust Indenture will also provide that the holders of debt securities or holders of debt securities of a particular series shall have the power to modify the rights of the holders of debt securities or holders of debt securities of a particular series, as applicable, under the Trust Indenture. For that purpose, among others, the Trust Indenture will contain provisions to render binding on holders of debt securities, or holders of debt securities of a particular series, resolutions passed by the affirmative votes of the holders of not less than 66 2/3% of the aggregate principal amount of debt securities or of debt securities of a particular series who are present in person or represented by proxy at the meeting or serial meeting, as the case may be, or instruments in writing signed by holders of not less than 66 2/3% of the principal amount of outstanding debt securities or debt securities of a particular series entitled to vote thereon ("Extraordinary Resolutions"). The quorum

for meetings of holders of debt securities or serial meetings for holders of debt securities of a particular series at which such an Extraordinary Resolution will be considered shall be holders representing not less than 50% of the principal amount of outstanding debt securities or debt securities of a particular series then entitled to vote thereon. In certain circumstances, if holders representing not less than 50% of the principal amount of debt securities or debt securities of a particular series are not represented at the meeting or serial meeting, then the meeting or serial meeting shall stand adjourned and if properly reconvened in accordance with the terms of the Trust Indenture then those holders represented at the reconvened meeting or serial meeting shall constitute a proper quorum to consider, vote on and pass an Extraordinary Resolution.

PLAN OF DISTRIBUTION

The Trust may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and also may sell the Securities directly to one or more purchasers pursuant to applicable statutory exemptions or through agents. The distribution of the Securities may be effected from time to time in one or more transactions at a fixed price or prices, or at non-fixed prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at prices to be negotiated with purchasers at the time of sale, which prices may vary as between purchasers and during the period of distribution.

The prospectus supplement relating to each offering of Securities will identify each underwriter, dealer or agent, as the case may be, and will also set forth the terms of the offering, including the type of security being offered, the public offering price (or the manner of determination thereof if offered on a non-fixed price basis), the proceeds to the Trust and any compensation payable to the underwriters, dealers or agents.

If underwriters are used in the sale, the Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, at market prices prevailing at the time of sale or at prices related to such prevailing market prices. The obligations of the underwriters to purchase such Securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all of the Securities offered by the prospectus supplement if any such securities are purchased.

In connection with any offering of Securities, the underwriters, dealers or agents, as the case may be, may over allot or effect transactions which stabilize or maintain the market price of the Securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. Any underwriters, dealers or agents to or through whom Securities are sold by the Trust for public offering and sale may make a market in the Securities at any time without notice. No assurance can be given that a trading market in the Securities will develop or as to the liquidity of any trading market of the Securities.

RISK FACTORS

Investment in the Securities is subject to various risks including those risks inherent to the industry in which the Trust operates. Before deciding whether to invest in any Securities, investors should consider carefully the risks incorporated by reference in this prospectus (including subsequently filed documents incorporated by reference) and those described in a prospectus supplement relating to a specific offering of Securities.

Discussions of certain risk factors affecting the Trust in connection with its business are provided in the Trust's disclosure documents filed with the various securities regulatory authorities which are incorporated by reference in this prospectus. In particular, see "Risk Factors" in the AIF and "Business Risks" in the description of each of the Trust's business segments in the MD&A. Before investing, prospective purchasers of Securities should carefully consider the information contained or incorporated by reference in this prospectus.

LEGAL MATTERS

Unless otherwise specified in a prospectus supplement, certain legal matters relating to the Securities offered by a prospectus supplement will be passed upon, on behalf of the Trust, by McCarthy Tétrault LLP. If any underwriters, dealers or agents named in a prospectus supplement retain their own counsel to pass upon legal matters relating to the Securities, the counsel will be named in the prospectus supplement.

AUDITORS, TRANSFER AGENT AND REGISTRAR

The auditors of the Trust are Ernst & Young LLP, Chartered Accountants, Calgary, Alberta.

The transfer agent and registrar for the trust units is Computershare Trust Company of Canada at its principal offices in Toronto and Calgary.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the province in which the purchaser resides for the particulars of these rights or consult with a legal advisor.

AUDITORS' CONSENT

We have read the short-form prospectus of AltaGas Income Trust (the "Trust") dated April •, 2005 relating to the qualification for distribution of $500,000,000 aggregate principal amount of trust units and debt securities of the Trust. We have complied with Canadian generally accepted standards for an auditors' involvement with offering documents.

We consent to the incorporation by reference in the above-mentioned short-form prospectus of our report to the Unitholders of the Trust on the consolidated balance sheets of the Trust as at December 31, 2004 and 2003 and the consolidated statements of income and retained earnings and cash flows for the years then ended. Our report is dated February 14, 2005.

Calgary, Alberta
April •, 2005

CERTIFICATE OF THE TRUST

Dated: April 22, 2005

This short form prospectus, together with the documents incorporated in this prospectus by reference, will, as of the date of the last supplement to this prospectus relating to the securities offered by this prospectus and the supplement(s), constitute full, true and plain disclosure of all material facts relating to the securities offered by this prospectus and the supplement(s) as required by the securities legislation of each of the provinces of Canada and will not contain any misrepresentation likely to affect the value or the market price of the securities to be distributed.

AltaGas

NEWS RELEASE

ALTAGAS INCOME TRUST TO HOST TELECONFERENCE ON MAY 11, 2005

Calgary, Alberta (May 5, 2005) -- AltaGas Income Trust (AltaGas or the Trust) will announce its first quarter 2005 earnings results on Wednesday, May 11, 2005. The Trust will host a teleconference to discuss the first quarter financial and operating results.

Conference Call details:

Date: Wednesday, May 11, 2005
Time: 2:30 p.m. Mountain Time (4:30 p.m. Eastern Time)
Dial-in: 416-640-4127 or 800-814-4861 toll-free

Shortly after the conclusion of the live call, a replay will be available by dialing 416-640-1917 or 877-289-8525. The pass code is 21121981 followed by the pound key. The replay will expire at midnight (ET) on May 20, 2005.

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling over $1 billion and a market capitalization of approximately $1.3 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

When used in this news release, the words "anticipate," "estimate," and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions that could cause actual results to differ materially from those contemplated in the forward looking statements. These risks and uncertainties include operating performance, regulatory and environmental issues, weather and economic conditions, competition and financing availability. For additional information on these and other factors see the reports filed by AltaGas with Canadian securities regulators. AltaGas disclaims any intention or obligation to update or revise any forward looking information whether as a result of new information or future event.

RECEIVED
2005 MAY 10 P 3:3

ALTAGAS REPORTS STRONG FIRST QUARTER 2005 RESULTS

CALGARY, Alberta - May 11, 2005 - (TSX: ALA.UN) AltaGas Income Trust (AltaGas) today announced first quarter net income of $27.6 million, up from $11.0 million for the same quarter of 2004.

AltaGas declared a distribution of $0.15 per trust unit and exchangeable unit payable on June 15, 2005 to holders of record on May 25, 2005. AltaGas' total distributions for the first quarter 2005 were $0.45 per unit.

"Our financial and operational performance was solid for the first quarter of 2005," said David Cornhill, Chairman and Chief Executive Officer. "We are now benefiting from the successful integration of acquisitions made in the latter half of 2004 as well as strong performance from our existing asset base."

HIGHLIGHTS

- **Net income** – Net income for the three months ended March 31, 2005 was $27.6 million or $0.52 per unit, up from $11.0 million or $0.24 per share for the three months ended March 31, 2004. Net income for the first quarter 2005 includes a pre-tax gain of $4.8 million due to the sale of 1.4 million units of Taylor NGL Limited Partnership (Taylor) as well as a dilution gain of $4.4 million. The dilution gain was recorded as a result of a common unit issuance by Taylor in which AltaGas did not participate.

- **Net revenue** – Net revenue for the three months ended March 31, 2005 was $78.0 million, an increase of 36 percent from $57.2 for the three months ended March 31, 2004. The increase was largely due to acquisitions in the latter half of 2004, higher prices received on hedged power volumes and one-time gains resulting from AltaGas' reduced ownership interest in Taylor.

- **Funds generated from operations** – Record funds generated from operations of $31.1 million for the three months ended March 31, 2005 compared to $22.1 million for the three months ended March 31, 2004.

AltaGas will hold a teleconference today at 2:30 p.m. (Mountain)/4:30 p.m. (Eastern) to discuss the first quarter 2005 financial and operational results and other general issues and developments concerning the Trust. Members of the media, investment community and other interested parties may dial 416-640-4127 or toll free at 800-814-4861. No passcode is required.

Shortly after the conclusion of the call, a replay will be available by dialing 416-640-1917 or 877-289-8525. The pass code is 21121981. The replay will expire at midnight (Eastern) on May 18, 2005.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis (MD&A) of operations and unaudited interim consolidated financial statements presented herein report on a continuity-of-interest accounting basis which recognizes AltaGas Income Trust (AltaGas or the Trust) as the successor to AltaGas Services Inc.(ASI). This MD&A dated May 11, 2005 is a review of the results of operations and the liquidity and capital resources of the Trust. It should be read in conjunction with the accompanying unaudited consolidated financial statements of the Trust for the three month period ended March 31, 2005 and the notes thereto and with the audited consolidated financial statements and MD&A contained in the Trust's annual report for the year ended December 31, 2004.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this short MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of AltaGas Services Inc. (ASI) voted in favor of a plan of arrangement to reorganize the business into an open-ended investment trust effective May 1, 2004. For each common share of ASI, shareholders received either one unit of the Trust (trust unit) or one exchangeable unit of AltaGas Holding Limited Partnership No.1 or AltaGas Holding Limited Partnership No.2. (trust units and exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipelines Partnership and AltaGas Utilities Inc. (collectively the operating subsidiaries). The cash flows of the Trust are solely dependent on the results of the operating subsidiaries and are derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held within the trust structure.

AltaGas General Partner Inc., through its Board of Directors who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries.

DISTRIBUTIONS

AltaGas' distributions are determined giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust.

The Trust pays cash distributions on the 15th day of each month, to unitholders of record on the 25th day of the previous month or in each case the following business day if the payment date or record date falls on a weekend or holiday.

First quarter 2005 distributions declared were $0.15 monthly, or $0.45 per unit amounting to $24.1 million. During the first quarter of 2004, ASI paid dividends of $0.11 per common share. The following table summarizes AltaGas' dividend and distribution declaration history.[1]

(dollars per unit)	**2005**	2004	2003	2002	2001
First quarter	**$ 0.45**	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter		0.30	0.08	0.06	0.03
Third quarter		0.45	0.11	0.08	0.06
Fourth quarter		0.45	0.11	0.08	0.06
	$ 0.45	$ 1.31	$ 0.38	$ 0.28	$ 0.18

(1) Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Monthly distributions to unitholders began in May 2004.

AltaGas has Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust and AltaGas Holding Limited Partnership No. 1. DRIP participation generated $6.1 million in new equity through the issuance of 266,376 trust units in the first quarter of 2005. Since the DRIP was introduced in May 2004 it has contributed a total of $16.4 million of new equity. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

CONSOLIDATED RESULTS

Consolidated Financial Results ($ millions)	**Three months ended March 31**	
	2005	2004

(1) Non-GAAP financial measure. See discussion in the following section of this MD&A

(2) Distributions of $0.15 per unit per month paid commencing June 2004 (declared in May) and dividends of $0.11 per share paid in Q1 2004

(3) Based on cash from operations and is not impacted by investing and financing activities, consequently the first quarter of 2005 does not include proceeds of $12.8 million from sale of units in Taylor NGL Limited Partnership

Net income for the three months ended March 31, 2005 was $27.6 million compared to $11.0 million for the three months ended March 31, 2004. The increase of $16.6 million includes a one-time after-tax gain of $7.9 million recorded as a result of AltaGas' percentage ownership reduction in Taylor.

On February 7, 2005, AltaGas sold 1.4 million units of Taylor resulting in a pre-tax gain of $4.8 million reducing its ownership interest to 4.0 million units or 14 percent. On March 22, 2005, Taylor offered partnership units for sale in a public offering, in which AltaGas did not participate, resulting in a reduction in AltaGas' ownership interest in Taylor to approximately 10 percent. The reduction resulted in a pre-tax dilution gain of $4.4 million.

Excluding the after-tax gain on Taylor, net income increased primarily as a result of contributions from PremStar and the Edmonton ethane extraction plant (EEEP), both of which were acquired in the latter half of 2004, higher prices received on hedged power volumes and lower income taxes. These net income increases were partially offset by higher operating and administrative costs as well as lower prices received for unhedged power volumes.

Funds generated from operations for the three months ended March 31, 2005 was $31.1 million or $9.0 million higher than the same period last year due to improved business performance and lower income tax payments. Funds generated from operations are calculated prior to the inclusion of $12.8 million in proceeds from the sale of units in Taylor.

For the three months ended March 31, 2005, revenue increased 80 percent to $349.0 million compared to $193.5 million for the same period last year. Net revenue in the first quarter 2005 was $78 million or $20.8 million higher than the first quarter of 2004. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and cost of sales.

The increase in net revenue in the first quarter of 2005 compared to the same period last year was mainly due to the acquisition of EEEP and PremStar , overall higher power prices received on hedged volumes sold and the gains resulting from AltaGas' reduced ownership interest in Taylor.

Operating and administrative expenses were $31.7 million for the three months ended March 31, 2005 compared to $26.0 million for the same period of 2004. The increase was primarily due to 2004 acquisitions.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the three months ended March 31, 2005 rose 48 percent to $46.3 million compared to $31.2 million for the same three month period in 2004.

Amortization expense increased 21 percent to $12.1 million for the first quarter of 2005 compared to $10.0 million for the same period in 2004. The higher expense was due mainly to increases in the Trust's capital asset base due to acquisitions and internal expansion projects.

Interest expense of $5.1 million for the first quarter of 2005 was nine percent lower than the $5.6 million for the first quarter of 2004. The decrease in interest expense was primarily due to lower 2005 average debt balances driven by the Trust's equity issue in June 2004 and higher funds generated from operations partially offset by capital lease interest expense.

Income tax expense for the first three months of 2005, including the Taylor transactions, was $3.1 million less than that reported for the same period in the prior year even though income before taxes was higher. AltaGas' consolidated income from corporations was taxable for the period January 1 through March 31, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. Incorporated subsidiaries in AltaGas' Natural Gas Distribution segment which operate as a regulated business under Utility Board regulation will continue to pay income tax.

NON-GAAP FINANCIAL MEASURES

AltaGas provides certain financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

Net Revenue	Three months ended March 31	
($ millions)	**2005**	2004
Net revenue	**78.0**	57.2
Add: Cost of sales	**271.0**	136.3
Revenue (GAAP financial measure)	**349.0**	193.5

In the Natural Gas Distribution and Energy Services segments as well as the extraction component, net revenue better reflects performance than revenue. As changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects growth in the business.

Operating Income	Three months ended March 31	
($ millions)	**2005**	2004
Operating income	**34.2**	21.2
Add (deduct): Interest	**(5.1)**	(5.6)
Income taxes	**(1.5)**	(4.6)
Net income (GAAP financial measure)	**27.6**	11.0

AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

EBITDA	Three months ended March 31	
($ millions)	**2005**	2004
EBITDA	**46.3**	31.2
Add (deduct): Amortization	**(12.1)**	(10.0)
Interest	**(5.1)**	(5.6)
Income taxes	**(1.5)**	(4.6)
Net income (GAAP financial measure)	**27.6**	11.0

Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in evaluating AltaGas' ability to generate cash and its ability to cover interest payments.

Net Income Before Gains on Reduction in Ownership Interest in Long-term Investments	Three months ended March 31	
($ millions)	**2005**	2004
Net income before gains on reduction in ownership interest in long-term investments	**19.7**	10.9
Gains on long-term investments[1]	**7.9**	0.1
Net income (GAAP financial measure)	**27.6**	11.0

(1) After tax gain resulting from sale of Taylor units and dilution gain.

Funds Generated from Operations	Three months ended March 31	
($ millions)	**2005**	2004
Funds generated from operations	**31.1**	22.1
Add (deduct): Net change in non-cash working capital and other	**(15.0)**	2.1
Cash from operations (GAAP financial measure)	**16.1**	24.2

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations, after interest and taxes, without regard to changes in the Trust's non-cash working capital in the period.

Distributable Cash	Three months ended March 31	
($ millions)	**2005**	2004
Distributable cash flow	**29.7**	20.8
Add (deduct): Maintenance capital expenditures	**1.4**	1.3
Net change in non-cash working capital and other	**(15.0)**	2.1
Cash from operations (GAAP financial measure)	**16.1**	24.2

The Trust's distributable cash is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash is not a defined performance measure under GAAP and distributable cash cannot be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.

In the first quarter of 2005, AltaGas sold 1.4 million units of Taylor NGL Limited Partnership for proceeds of $12.8. As the Trust's distributable cash is based on cash from operations net of the change in non-cash working capital and maintenance capital expenditures, it is not impacted by any changes to cash resulting from investing or financing activities and hence does not include the $12.8 million in proceeds from sale of Taylor units.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

Operating Income	Three months ended March 31	
($ millions)	**2005**	2004
Gathering and Processing	**20.0**	12.0
Energy Services	**9.0**	5.3
Natural Gas Distribution	**5.2**	3.9
	34.2	21.2

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

Financial Results ($ millions)	Three months ended March 31 **2005**	2004
Revenue	**82.9**	44.7
Net revenue	**53.8**	37.8
Operating and administrative expense	**26.5**	19.5
Amortization expense	**7.3**	6.3
Operating income	**20.0**	12.0

Operating Statistics	Three months ended March 31 **2005**	2004
Field gathering and processing		
Capacity (Mmcf/d)[1]	**901**	901
Throughput (gross Mmcf/d)[2]	**558**	560
Capacity utilization (percent)[1]	**62**	62

Inlet capacity (Mmcf/d)[1]	**539**	349
Production (Bbls/d)[2]	**21,103**	10,020
Transmission volumes (Mmcf/d)[2][3]	**429**	396

(1) As at March 31
(2) Average for the period
(3) Excludes condensate pipeline volumes

The Gathering and Processing segment generated revenue of $82.9 million for the three months ended March 31, 2005, an increase of 85 percent when compared to $44.7 million reported in the same period in 2004. Net revenue increased to $53.8 million, up $16.0 million for the first quarter of 2005 compared to $37.8 million reported in the same period in 2004.

Operating income for the three months ended March 31, 2005 increased to $20.0 million compared to $12.0 in the same period in 2004. Growth in operating income was due to gains recorded on transactions related to AltaGas' investment in Taylor, higher volumes processed at extraction facilities and higher field gathering and processing fees, partially offset by higher compressor repair and maintenance costs in the field gathering and processing component.

In the field gathering and processing component, net revenue for the three months ended March 31, 2005 was $29.9 million compared to $26.5 million for the same period last year. Volumes increased with the continuing strong gas drilling activity in the Western Canadian Sedimentary Basin during the first quarter of 2005 with 139 wells tied in to AltaGas' facilities compared with 155 during the same period in 2004. In addition, the Shaunavon, Saskatchewan solution gas recovery plant was commissioned in the first quarter of 2005. Over the last half of 2004 and into the first quarter of 2005, AltaGas continued its program of internal expansion installing additional facilities to increase capacity at Kirkpatrick Lake, Windfall, Thunder Lake and Mundare. These development projects are supported by producer commitments designed to mitigate AltaGas' financial exposure to potential throughput declines. Much of

the installed equipment at these facilities was redeployed from other AltaGas locations as was the majority of the equipment used in the construction of the Shaunavon plant. These increases in active processing assets were offset by the sale of the bulk of AltaGas' Winefred assets where production had been reduced as a result of the Alberta Energy and Utilities Board (EUB) decision on the gas over bitumen issue.

AltaGas also participated with a producer, in the construction of a large gathering line near the Rainbow Lake plant. This line is expected to result in an increase in the gas processed through the Rainbow Lake facility.

These increases in volumes processed in the first quarter 2005 were offset by temporary volume restrictions imposed by a third party during February 2005 reducing throughput at AltaGas' Rainbow Lake facility.

In the extraction component higher volumes processed resulted in net revenue of $7.2 million for the three months ended March 31, 2005 compared to $3.5 million for the same period in 2004. Average ethane and NGL volumes extracted for the first quarter of 2005 more than doubled reaching 21,103 Bbls/d compared to 10,020 Bbls/d for the same period in 2004. Volume increases for the first quarter were mainly due to the late August 2004 acquisition of its 48 2/3 interest in EEEP, the addition of PremStar volumes at the Empress ATCO facility and the Joffre ethane extraction plant.

Invested capital in the Gathering and Processing segment was $3.6 million, which is offset by the disposition of non-core assets and the Taylor units during the quarter ended March 31, 2005, compared to $14.1 million for the same period in 2004.

For the remainder of 2005 gas prices are expected to remain strong and continue to drive drilling activity. AltaGas has a series of expansion projects it expects to undertake at existing facilities during the balance of 2005. The projects are expected to positively impact volumes processed. In addition, processing fee and operating cost recovery negotiations will continue to have a positive impact on the financial results of the gathering and processing component.

The full year impact of the EEEP acquisition and the realization of value chain synergies with other components of the Trust's businesses are expected to provide stronger financial results in the extraction component in 2005. In the transmission component results are expected to be above 2004 levels based on higher volume commitments.

Additionally AltaGas will continue to explore investment or acquisition opportunities providing long term value to unitholders.

ENERGY SERVICES

The Energy Services segment is comprised of the power services and gas services components. This segment also includes the results of the oil and gas production component. AltaGas is not in the business of exploration and development of natural gas reserves; however, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

Financial Results ($ millions)	Three months ended March 31 2005	2004
Revenue	**283.6**	133.4
Net revenue	**16.5**	9.8
Operating and administrative expense	**4.7**	2.4
Amortization expense	**2.8**	2.1
Operating income	**9.0**	5.3

Operating Statistics	Three months ended March 31 2005	2004
Power services		
Volume of power sold (thousands of MWh)	**851**	863
Average price received on the sale of power ($/MWh)[1]	**47.24**	45.78
Alberta Power Pool average spot price ($/MWh)[1]	**45.90**	48.78

[1] Average for the period

Revenue in the Energy Services segment for the three months ended March 31, 2005 was $283.6 million compared to $133.4 million for the same period last year, mainly due to the acquisition of the PremStar businesses in October 2004.

Net revenue in the first quarter 2005 from the power services component was $10.4 million, an increase of 35 percent compared to $7.7 million for the first quarter of 2004. The increase was primarily due to higher prices received on hedged volumes and fewer outage days this quarter compared to the first quarter last year, partially offset by lower power pool prices received on the sale of unhedged power volumes.

The average price received for power sales in the first quarter of 2005 was $47.24 per MWh compared to $45.78 per MWh in the first quarter of 2004. Average Alberta Power Pool spot prices were $45.90 per MWh and $48.78 per MWh in the first quarters of 2005 and 2004 respectively.

The gas services component contributed net revenue of $4.1 million for the first quarter of 2005 compared to $0.4 million in 2004. The increase was driven by service fees generated by PremStar which were acquired by AltaGas in the fourth quarter of 2004.

The outlook for the Energy Services segment for 2005 is positive with favourable pricing on hedged power volumes in the power business and reduced power costs experienced in the early part of the year are projected to continue throughout the year. The Gas Services component, including PremStar, continues to be on track with the outlook at the beginning of the year. PremStar continues to experience high rates of customer contract renewals.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

Financial Results ($ millions)	Three months ended March 31 2005	2004
Revenue	**46.4**	48.1
Net revenue	**11.8**	9.7
Operating income[1]	**5.2**	3.9

Volume of natural gas distributed		
Sales (Bcf)	**5.4**	5.5
Transportation (Bcf)	**2.6**	3.0
Degree day variance (percent)[2]	**(1.8)**	2.0
Number of customers[3]	**60,638**	59,528

[1] AUI only
[2] Variance from 20 year average. Positive variances are favorable
[3] At March 31

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual net revenue, resulting in strong first and fourth quarter results and second and third quarters results that show either small profits or losses.

In the first quarter 2005, net revenue in AltaGas' Natural Gas Distribution segment was $11.8 million compared to $9.7 million for the same period in 2004. The increase was due to anticipated rate increases to recover higher operating costs and amortization, partially offset by warmer weather in the first quarter this year compared to the first quarter last year as well as a negative regulatory adjustment in the first quarter of 2004.

On April 12, 2005 the EUB issued Decision 2005-029, which approved a request by AltaGas Utilities Inc. (AUI) to increase its rates to cover costs in providing gas to its residential and irrigation customers, effective May 1, 2005. Based on an average residential customer using 135 GJ/year, the EUB approved an increase on the distribution portion of a customer's bill of 4.4 per cent. The EUB also approved an increase in distribution rates for approximately 285 irrigation customers by 10 percent.

In December 2004 AUI filed a Phase 1 General Rate Application for 2005 and 2006. A hearing on the application is scheduled to begin on July 18, 2005 with a decision on this phase expected in the fourth quarter of 2005.

At the end of the first quarter of 2005 Heritage Gas Limited (Heritage) had commitments from 244 customers in Dartmouth, with 184 activated, 31 services installed expecting activation early in the second quarter of 2005 and 29 services remaining to be installed.

For the balance of 2005, Natural Gas Distribution segment financial results are expected to be slightly improved compared to 2004. This segment provides limited growth opportunities in the base business, so year over year the change is not expected to be significant. Heritage Gas Limited franchise area continues to expand with the impacts on financial results more likely to be evidenced in years beyond 2005.

SUMMARY OF EIGHT MOST RECENTLY COMPLETED CONSOLIDATED QUARTERLY RESULTS

($ millions)	**Q1 05**	Q4 04	Q3 04	Q2 04	Q1 04	Q4 03[1]	Q3 03[1]	Q2 03[1]
Net revenue	78.0	71.6	61.5	59.5	57.2	61.0	53.3	51.2
Net income	27.6	25.8	17.1	11.9	11.0	12.0	9.3	6.8
($ per unit)								
Earnings								
Basic	0.52	0.49	0.33	0.25	0.24	0.26	0.20	0.15
Diluted	0.52	0.48	0.33	0.25	0.24	0.26	0.20	0.15
Dividends/distributions[2]	0.45	0.45	0.45	0.30	0.11	0.11	0.11	0.08

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations

(2) The Trust pays a monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust. Prior to May 1, 2004 ASI paid quarterly dividends from the Q1 2001 through Q1 2004

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The Natural Gas Distribution segment reports higher earnings in colder periods than in warmer periods resulting in the first and last quarters of each year being the most profitable for the consolidated entity.

Net income in the second quarter 2003 was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the second quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to changes announced in the federal large corporations tax legislation, was the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and the completion of modifications to increase AltaGas' share of ethane production by 1,400 Bbls/d at the EnCana-operated Empress extraction plant late in the third quarter of 2003.

Reported net income in the first quarter 2004 was $11.0 million due to increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

In the second quarter of 2004 AltaGas converted from a corporate structure to an income trust. Strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million improved substantially compared to the same quarter of the prior year, the combined impact of higher operational earnings and reduced income taxes, the latter driven by the conversion to an income trust. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds which was used to reduce the Trust's debt. In the second quarter 2004 AltaGas commenced monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of the EEEP acquisition and the acquisition of 25 megawatts of power peaking capacity in southern Alberta and a full quarter of reduced income tax expense resulting from the conversion to an income trust.

The highest quarterly net income in AltaGas' history highlighted the fourth quarter of 2004 as the Trust recorded $25.8 million or $0.49 per unit in net income. The increase was driven by the Energy Services segment, which benefited from higher power volumes sold and higher power prices on hedged volumes and the acquisition of the PremStar businesses. The Gathering and Processing segment, also provided improved results based on contributions from the acquisition of the Edmonton extraction ethane plant and improved operating performance in the field gathering and processing component.

First quarter 2005 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

The Canadian Institute of Chartered Accountants (CICA) issued Accounting guideline 15 (AcG-15) "Consolidation of Variable Interest Entities" which is effective for annual and interim reporting periods commencing after November 1, 2004. This guideline requires organizations to assess any entity in which it may have a variable interest to determine whether or not the assets, liabilities and results of the entities' activities should be reported on other than a consolidated basis. AltaGas' has determined there is no requirement for change to its reporting with regard to its interests in those entities reported in its consolidated financial statements.

On March 18, 2005 the CICA issued revised Emerging Issues Committee Abstract (EIC) 151 "Exchangeable Securities issued by Subsidiaries of Income Trusts". The EIC states that exchangeable securities issued by a subsidiary of an income trust should be reflected as either non-controlling interest or debt in the consolidated balance sheet unless they meet certain criteria. A initial draft of the EIC was released January 19, 2005 under which guidance AltaGas determined that the exchangeable securities issued and outstanding by AltaGas Limited Partnership No. 1 at December 31, 2004 and March 31, 2005 met the criteria for consolidation accounting at those dates.

The revised EIC becomes effective for annual and interim reporting periods ending on or after June 30, 2005. AltaGas expects that the exchangeable securities issued and outstanding by AltaGas Limited Partnership No. 1 will meet the criteria at June 30, 2005.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to MD&A in AltaGas' 2004 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2005 business has been to provide revenue stability in the power services component. Alberta Power Pool prices ranged from $7.74 per MWh to $997.00 per MWh in the first quarter of 2005. Through the use of financial hedges on the portion of its 2005 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At March 31, 2005 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $232.7 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 90 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During the first quarter of 2005, AltaGas invested $6.0 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $16.3 million in the same period in 2004. AltaGas disposed of non-core assets in the gathering and processing segment totaling $7.1 million in original cost and reduced its investment interest in the Taylor NGL Limited Partnership through a sale of units and non-participation in a public equity offering by Taylor.

Invested capital by segment

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Additions, net of disposals:				
Capital assets	$ (3.5)	$ 0.5	$ 1.9	$ (1.1)
Energy service arrangements, contracts and relationships	-	-	-	-
Long-term investments and other assets	(8.1)	-	-	(8.1)
	$ (11.6)	$ 0.5	$ 1.9	$ (9.2)

For the three months ended March 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Additions, net of disposals:				
Capital assets	$ 12.1	$ 0.3	$ 1.8	$ 14.2

Long-term investments and other assets	2.0	-	0.1	2.1
	$ 14.1	$ 0.3	$ 1.9	$ 16.3

AltaGas' categorizes its invested capital into maintenance, growth and administrative. Growth capital accounted for $3.9 million, which included Gathering and Processing facility acquisitions and expansions as well as expansions in the Natural Gas Distribution segment. Maintenance capital projects amounting to $1.4 million in the first three months of 2005 and $1.3 million for the same period of 2004 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments to maintain the productive capability of the facilities and gathering and distribution systems. Administrative capital expenditures, including computer hardware and software projects, totaled $0.7 million in the first quarter of 2005 compared to $0.9 million in the same period in 2004.

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the quarter ended March 31, 2005 increased to $31.1 million from $22.1 million for the quarter ended March 31, 2004.

AltaGas had a working capital deficit of $94.8 million at March 31, 2005 compared to a working capital deficit of $106.5 million at December 31, 2004 and a working capital surplus of $2.9 million at March 31,

2004. The primary driver for this change in working capital is related to the reclassification of AltaGas' $100.0 million medium-term notes (MTNs) due October 4, 2005 to current portion of long term debt.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium Distribution™ programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 9 and 10 to the consolidated financial statements included in the Trust's 2004 Annual Report.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At March 31, 2005 AltaGas had total debt outstanding of $345.7 million down from $359.5 million at December 31, 2004. AltaGas Operating Partnership had $100.0 million in MTNs outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit through bank lines totaling $425.0 million. As at March 31, 2005 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $232.7 million and letters of credit outstanding of $36.6 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at March 31, 2005 decreased to 41.1 percent from 42.6 percent at December 31, 2004.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units that are exchangeable into trust units on a one for one basis. The exchangeable units are not listed for trading on an exchange.

As of April 30, 2005 the Trust had 51.6 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.3 billion based on a closing trading price on April 29, 2005 of $24.17 per trust unit. There are $0.3 million options exercisable under the terms of the unit option plan brought forward in the reorganization.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, since December 31, 2004. For further information on these contractual obligations, refer to the MD&A in AltaGas' 2004 Annual Report.

RELATED PARTIES

The Trust pays rent under a lease for office space to a company. which is owned by a member of management. Payments of $20.0 thousand were made in the first quarter 2005. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

SUBSEQUENT EVENTS

On April 29, 2005 AltaGas filed a Universal Shelf Prospectus with Canadian Securities Commissions pursuant to which AltaGas Income Trust may issue up to an aggregate of $500 million of trust units and debt securities over a 25 month period. This filing will provide AltaGas with the flexibility to raise funds from the offering of trust units or debt securities through one or more methods of distribution when market conditions are appropriate. AltaGas plans to use the proceeds raised from any offerings to reduce outstanding indebtedness under the Trust's existing credit facilities and for general corporate purposes including the financing of acquisitions, other capital expenditures and investments.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

SELECTED NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(tabular amounts in $ thousands)

1. STRUCTURE OF ALTAGAS INCOME TRUST

AltaGas Income Trust (the Trust) is an unincorporated open-ended trust established under the laws of Canada, pursuant to a Declaration of Trust dated March 26, 2004. The Trust commenced operations on May 1, 2004 as successor to AltaGas Services Inc. (ASI) when it acquired all of the shares of ASI for consideration of trust units or exchangeable units on a one for one basis. These unaudited interim consolidated financial statements follow the continuity of interest basis of accounting whereby the Trust is considered a continuation of ASI. As a result, the comparative period figures prior to December 31, 2004 are those of ASI.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Trust have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Trust's annual consolidated financial statements for the fiscal year ended December 31, 2004. These interim consolidated financial statements for the three months ended March 31, 2005 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in the Trust's Annual Report.

3. GAIN ON INVESTMENTS

On February 7, 2005 the Trust sold 1.4 million partnership units of Taylor NGL Limited Partnership (Taylor) for proceeds of $12.8 million realizing a pre-tax gain of $4.8 million. The sale reduced the Trust's ownership in Taylor to 4.0 million units or14.0 percent.

On March 22, 2005 Taylor issued 13.0 million limited partnership units. AltaGas did not participate in this issue which reduced the Trust's ownership in Taylor to 9.6 percent and resulted in a pre-tax dilution gain of $4.4 million.

4. UNITHOLDERS' EQUITY

	March 31, 2005	December 31, 2004
Unitholders' capital (note 6)	**$ 394,584**	$ 386,638
Contributed surplus	**2,823**	2,823
Accumulated earnings	**224,439**	196,819
Accumulated dividends	**(41,114)**	(41,114)
Accumulated unitholders' distributions	**(85,733)**	(61,651)
	$ 494,999	$ 483,515

For the quarter ended March 31, 2005 $nil (2004 - $5.1 million) of dividends and $24.0 million (2004 - $nil) of distributions were paid by the Trust.

5. UNITHOLDERS' CAPITAL

Authorized

- an unlimited number of trust units redeemable for cash at the option of the holder
- an unlimited number of AltaGas Holding Limited Partnership No. 1 (LP1) class B limited partnership units which are exchangeable into trust units on a one for one basis no later than May 1, 2014. Prior to May 1, 2014 the exchange is at the option of the unitholder at any time, and at the option of the Trust should the number of LP1 units outstanding fall below 750,000. After May 1, 2014 the exchange is at the option of the Trust.
- an unlimited number of AltaGas Holding Limited Partnership No. 2 (LP2) class B limited partnership units which are exchangeable into trust units on a one for one basis no later than May 1, 2009. Prior to May 1, 2009 the exchange is at the option of the unitholder at anytime, and at the option of the Trust should the number of LP2 units outstanding fall below 1,000,000. After May 1, 2009 the exchange is at the option of the Trust.

Trust units issued and outstanding:	Number of units		Amount
December 31, 2004	**49,825,241**	**$**	**367,349**
Units issued for cash on exercise of options	**214,978**		**1,861**
Units issued under distribution reinvestment program	**266,376**		**6,085**
Units issued for exchangeable units	**1,187,958**		**6,799**
March 31, 2005	**51,494,553**		**382,094**
Exchangeable units issued and outstanding:			
December 31, 2004	**3,370,294**		**19,289**
LP1 units redeemed for trust units	**(1,187,958)**		**(6,799)**
March 31, 2005	**2,182,336**		**12,490**
Issued and outstanding March 31, 2005	**53,676,889**	**$**	**394,584**

The Trust has an employee unit option plan under which both employees and directors are eligible to receive grants. At March 31, 2005 3,800,000 units were reserved for issuance under the plan. To March 31, 2005 options granted under the plan, including those granted in the first quarter of 2005, generally had a term of ten years to expiry and vested no longer than over a four year period. On May 1, 2004 subsequent to the establishment of the Trust all options granted were vested.

At March 31, 2005 outstanding options are exercisable at various dates to the year 2015 (2003 - 2014). Options outstanding under the plan have a weighted average exercise price of $13.09 (2004 - $9.31) and a weighted average remaining term of 8.13 years (2004 - 8.29 years). As at March 31, 2005 the unexpensed fair value of unit option compensation cost associated with future periods was $nil (December 31, 2004 - $nil).

	Number of Options	Weighted Average Exercise Price
Unit options outstanding, December 31, 2004	**349,411**	**$ 9.02**
Granted	**40,000**	**24.62**
Exercised	**(214,978)**	**8.62**
Unit options outstanding, March 31, 2005	**174,433**	**$ 13.09**
Exercisable at March 31, 2005	**134,433**	**$ 9.66**

The basic number of units outstanding for the three months ended March 31 2005 was 53.4 million (March 31, 2004 – 45.9 million ASI shares) and the diluted number of units outstanding for the three months ended March 31, 2005 was 53.6 million (March 31, 2004 – 46.6 million ASI shares).

6. RELATED PARTY TRANSACTIONS

The Trust pays rent under a lease for office space a company which is owned by a member of management. Payments of $20.0 thousand were made during the quarter ended March 31, 2005 (March 31, 2004 – nil). The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years. These transactions have been recorded at their exchange amounts.

7. SEGMENTED INFORMATION

AltaGas is an integrated energy trust with a portfolio of assets and services used to move energy from the source to the end-user. Transactions between the reporting segments are recorded at fair value. The Trust has three reportable segments:

Gathering and Processing – natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services – power services, gas services and oil and natural gas production.

Natural Gas Distribution – natural gas distribution to end users and related services.

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment elimination	Total

8. PENSION PLANS AND RETIREMENT BENEFITS

Substantially all full-time employees of the Trust's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

The total post retirement benefit cost recorded in the statement of income for the three months ended March 31, 2005 is $0.3 million (March 31, 2004 - $0.3 million).

9. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation.

10. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

AltaGas Reports Strong First Quarter 2005 Results

CALGARY, Alberta - May 11, 2005 - (TSX: ALA.UN) AltaGas Income Trust (AltaGas) today announced first quarter net income of $27.6 million, up from $11.0 million for the same quarter of 2004.

AltaGas declared a distribution of $0.15 per trust unit and exchangeable unit payable on June 15, 2005 to holders of record on May 25, 2005. AltaGas' total distributions for the first quarter 2005 were $0.45 per unit.

"Our financial and operational performance was solid for the first quarter of 2005," said David Cornhill, Chairman and Chief Executive Officer. "We are now benefiting from the successful integration of acquisitions made in the latter half of 2004 as well as strong performance from our existing asset base."

HIGHLIGHTS

- **Net income** - Net income for the three months ended March 31, 2005 was $27.6 million or $0.52 per unit, up from $11.0 million or $0.24 per share for the three months ended March 31, 2004. Net income for the first quarter 2005 includes a pre-tax gain of $4.8 million due to the sale of 1.4 million units of Taylor NGL Limited Partnership (Taylor) as well as a dilution gain of $4.4 million. The dilution gain was recorded as a result of a common unit issuance by Taylor in which AltaGas did not participate.

- **Net revenue** - Net revenue for the three months ended March 31, 2005 was $78.0 million, an increase of 36 percent from $57.2 for the three months ended March 31, 2004. The increase was largely due to acquisitions in the latter half of 2004, higher prices received on hedged power volumes and one-time gains resulting from AltaGas' reduced ownership interest in Taylor.

- **Funds generated from operations** - Record funds generated from operations of $31.1 million for the three months ended March 31, 2005 compared to $22.1 million for the three months ended March 31, 2004.

Management's Discussion and Analysis

The Management's Discussion and Analysis (MD&A) of operations and unaudited interim consolidated financial statements presented herein report on a continuity-of-interest accounting basis which recognizes AltaGas Income Trust (AltaGas or the Trust) as the successor to AltaGas Services Inc.(ASI). This MD&A dated May 11, 2005 is a review of the results of operations and the liquidity and capital resources of the Trust. It should be read in conjunction with the accompanying unaudited consolidated financial statements of the Trust for the three month period ended March 31, 2005 and the notes thereto and with the audited consolidated financial statements and MD&A contained in the Trust's annual report for the year ended December 31, 2004.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this short MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of AltaGas Services Inc. (ASI) voted in favor of a plan of arrangement to reorganize the business into an open-ended investment trust effective May 1, 2004. For each common share of ASI, shareholders received either one unit of the Trust (trust unit) or one exchangeable unit of AltaGas Holding Limited Partnership No.1 or AltaGas Holding Limited Partnership No.2. (trust units and exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipelines Partnership and AltaGas Utilities Inc. (collectively the operating subsidiaries). The cash flows of the Trust are solely dependent on the results of the operating subsidiaries and are derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held within the trust structure.

AltaGas General Partner Inc., through its Board of Directors who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries.

DISTRIBUTIONS

AltaGas' distributions are determined giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust.

The Trust pays cash distributions on the 15th day of each month, to unitholders of record on the 25th day of the previous month or in each case the following business day if the payment date or record date falls on a weekend or holiday.

First quarter 2005 distributions declared were $0.15 monthly, or $0.45 per unit amounting to $24.1 million. During the first quarter of 2004, ASI paid dividends of $0.11 per common share. The following table summarizes AltaGas' dividend and distribution declaration history.[1]

(dollars per unit)	2005	2004	2003	2002	2001
First quarter	$ 0.45	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter		0.30	0.08	0.06	0.03
Third quarter		0.45	0.11	0.08	0.06
Fourth quarter		0.45	0.11	0.08	0.06
	$ 0.45	$ 1.31	$ 0.38	$ 0.28	$ 0.18

(1) Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Monthly distributions to unitholders began in May 2004.

AltaGas has Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust and AltaGas Holding Limited Partnership No. 1. DRIP participation generated $6.1 million in new equity through the issuance of 266,376 trust units in the first quarter of 2005. Since the DRIP was introduced in May 2004 it has contributed a total of $16.4 million of new equity. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

CONSOLIDATED RESULTS

CONSOLIDATED FINANCIAL RESULTS ($ millions)	Three months ended March 31 2005	2004

Distributions/dividends[2]	0.45	0.11
Units outstanding (millions)		
Basic	53.4	45.9
End of period	53.7	45.9

(1) Non-GAAP financial measure. See discussion in the following section of this MD&A

(2) Distributions of $0.15 per unit per month paid commencing June 2004 (declared in May) and dividends of $0.11 per share paid in Q1 2004

(3) Based on cash from operations and is not impacted by investing and financing activities, consequently the first quarter of 2005 does not include proceeds of $12.8 million from sale of units in Taylor NGL Limited Partnership

Net income for the three months ended March 31, 2005 was $27.6 million compared to $11.0 million for the three months ended March 31, 2004. The increase of $16.6 million includes a one-time after-tax gain of $7.9 million recorded as a result of AltaGas' percentage ownership reduction in Taylor.

On February 7, 2005, AltaGas sold 1.4 million units of Taylor resulting in a pre-tax gain of $4.8 million reducing its ownership interest to 4.0 million units or 14 percent. On March 22, 2005, Taylor offered partnership units for sale in a public offering, in which AltaGas did not participate, resulting in a reduction in AltaGas' ownership interest in Taylor to approximately 10 percent. The reduction resulted in a pre-tax dilution gain of $4.4 million.

Excluding the after-tax gain on Taylor, net income increased primarily as a result of contributions from PremStar and the Edmonton ethane extraction plant (EEEP), both of which were acquired in the latter half of 2004, higher prices received on hedged power volumes and lower income taxes. These net income increases were partially offset by higher operating and administrative costs as well as lower prices received for unhedged power volumes.

Funds generated from operations for the three months ended March 31, 2005 was $31.1 million or $9.0 million higher than the same period last year due to improved business performance and lower income tax payments. Funds generated from operations are calculated prior to the inclusion of $12.8 million in proceeds from the sale of units in Taylor.

For the three months ended March 31, 2005, revenue increased 80 percent to $349.0 million compared to $193.5 million for the same period last year. Net revenue in the first quarter 2005 was $78 million or $20.8 million higher than the first quarter of 2004. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and cost of sales.

The increase in net revenue in the first quarter of 2005 compared to the same period last year was mainly due to the acquisition of EEEP and PremStar , overall higher power prices received on hedged volumes sold and the gains resulting from AltaGas' reduced ownership interest in Taylor.

Operating and administrative expenses were $31.7 million for the three months ended March 31, 2005 compared to $26.0 million for the same period of 2004. The increase was primarily due to 2004 acquisitions.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the three months ended March 31, 2005 rose 48 percent to $46.3 million compared to $31.2 million for the same three month period in 2004.

Amortization expense increased 21 percent to $12.1 million for the first quarter of 2005 compared to $10.0 million for the same period in 2004. The higher expense was due mainly to increases in the Trust's capital asset base due to acquisitions and internal expansion projects.

Interest expense of $5.1 million for the first quarter of 2005 was nine percent lower than the $5.6 million for the first quarter of 2004. The decrease in interest expense was primarily due to lower 2005 average debt balances driven by the Trust's equity issue in June 2004 and higher funds generated from operations partially offset by capital lease interest expense.

Income tax expense for the first three months of 2005, including the Taylor transaction, was $3.1 million less than that reported for the same period in the prior year even though income before taxes was higher. AltaGas' consolidated income from corporations was taxable for the period January 1 through March 31, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. Incorporated subsidiaries in AltaGas' Natural Gas Distribution segment which operate as a regulated business under Utility Board regulation will continue to pay income tax.

NON-GAAP FINANCIAL MEASURES

AltaGas provides certain financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

NET REVENUE		Three months ended March 31	
($ millions)		2005	2004
Net revenue		78.0	57.2
Add:	Cost of sales	271.0	136.3
Revenue (GAAP financial measure)		349.0	193.5

In the Natural Gas Distribution and Energy Services segments as well as the extraction component, net revenue better reflects performance than revenue. As changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects growth in the business.

OPERATING INCOME		Three months ended March 31	
($ millions)		2005	2004
Operating income		34.2	21.2
Add (deduct):	Interest	(5.1)	(5.6)
	Income taxes	(1.5)	(4.6)
Net income (GAAP financial measure)		27.6	11.0

AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

EBITDA		Three months ended March 31	
($ millions)		2005	2004
EBITDA		46.3	31.2
Add (deduct):	Amortization	(12.1)	(10.0)
	Interest	(5.1)	(5.6)
	Income taxes	(1.5)	(4.6)
Net income (GAAP financial measure)		27.6	11.0

Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in evaluating AltaGas' ability to generate cash and its ability to cover interest payments.

NET INCOME BEFORE GAINS ON REDUCTION IN OWNERSHIP INTEREST IN LONG-TERM INVESTMENTS	Three months ended March 31	
($ millions)	2005	2004
Net income before gains on reduction in ownership interest in long-term investments	19.7	10.9
Gains on long-term investments[1]	7.9	0.1
Net income (GAAP financial measure)	27.6	11.0

(1) After tax gain resulting from sale of Taylor units and dilution gain

FUNDS GENERATED FROM OPERATIONS	Three months ended March 31	
($ millions)	2005	2004
Funds generated from operations	31.1	22.1
Add (deduct): Net change in non-cash working capital and other	(15.0)	2.1
Cash from operations (GAAP financial measure)	16.1	24.2

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations, after interest and taxes, without regard to changes in the Trust's non-cash working capital in the period.

DISTRIBUTABLE CASH	Three months ended March 31	
($ millions)	2005	2004
Distributable cash flow	29.7	20.8
Add (deduct): Maintenance capital expenditures	1.4	1.3
Net change in non-cash working capital and other	(15.0)	2.1
Cash from operations (GAAP financial measure)	16.1	24.2

The Trust's distributable cash is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash is not a defined performance measure under GAAP and distributable cash cannot be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.

In the first quarter of 2005, AltaGas sold 1.4 million units of Taylor NGL Limited Partnership for proceeds of $12.8. As the Trust's distributable cash is based on cash from operations net of the change in non-cash working capital and maintenance capital expenditures, it is not impacted by any changes to cash resulting from investing or financing activities and hence does not include the $12.8 million in proceeds from sale of Taylor units.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

OPERATING INCOME	Three months ended March 31	
($ millions)	2005	2004
Gathering and Processing	20.0	12.0
Energy Services	9.0	5.3
Natural Gas Distribution	5.2	3.9
	34.2	21.2

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

FINANCIAL RESULTS ($ millions)	Three months ended March 31 2005	2004
Revenue	82.9	44.7
Net revenue	53.8	37.8
Operating and administrative expense	26.5	19.5
Amortization expense	7.3	6.3
Operating income	20.0	12.0

OPERATING STATISTICS	Three months ended March 31 2005	2004
Field gathering and processing		
Capacity (Mmcf/d)[1]	901	901
Throughput (gross Mmcf/d)[2]	558	560
Capacity utilization (percent) [1]	62	62
Average working interest (percent)[1]	90	87
Extraction		
Inlet capacity (Mmcf/d)[1]	539	349
Production (Bbls/d)[2]	21,103	10,020
Transmission volumes (Mmcf/d)[2][3]	429	396

(1) *As at March 31*

(2) *Average for the period*

(3) *Excludes condensate pipeline volumes*

The Gathering and Processing segment generated revenue of $82.9 million for the three months ended March 31, 2005, an increase of 85 percent when compared to $44.7 million reported in the same period in 2004. Net revenue increased to $53.8 million, up $16.0 million for the first quarter of 2005 compared to $37.8 million reported in the same period in 2004.

Operating income for the three months ended March 31, 2005 increased to $20.0 million compared to $12.0 in the same period in 2004. Growth in operating income was due to gains recorded on transactions related to AltaGas' investment in Taylor, higher volumes processed at extraction facilities and higher field gathering and processing fees, partially offset by higher compressor repair and maintenance costs in the field gathering and processing component.

In the field gathering and processing component, net revenue for the three months ended March 31, 2005 was $29.9 million compared to $26.5 million for the same period last year. Volumes increased with the continuing strong gas drilling activity in the Western Canadian Sedimentary Basin during the first quarter of 2005 with 139 wells tied in to AltaGas' facilities compared with 155 during the same period in 2004. In addition, the Shaunavon, Saskatchewan solution gas recovery plant was commissioned in the first quarter of 2005. Over the last half of 2004 and into the first quarter of 2005, AltaGas continued its program of internal expansion installing additional facilities to increase capacity at Kirkpatrick Lake, Windfall, Thunder Lake and Mundare. These development projects are supported by producer commitments designed to mitigate AltaGas' financial exposure to potential throughput declines. Much of the installed equipment at these facilities was redeployed from other AltaGas locations as was the majority of the equipment used in the construction of the Shaunavon plant. These increases in active processing assets were offset by the sale of the bulk of AltaGas' Winefred assets where production had been reduced as a result of the Alberta Energy and Utilities Board (EUB) decision on the gas over bitumen issue.

AltaGas also participated with a producer, in the construction of a large gathering line near the Rainbow Lake plant. This line is expected to result in an increase in the gas processed through the Rainbow Lake facility.

These increases in volumes processed in the first quarter 2005 were offset by temporary volume restrictions imposed by a third party during February 2005 reducing throughput at AltaGas' Rainbow Lake facility.

In the extraction component higher volumes processed resulted in net revenue of $7.2 million for the three months ended March 31, 2005 compared to $3.5 million for the same period in 2004. Average ethane and NGL volumes extracted for the first quarter of 2005 more than doubled reaching 21,103 Bbls/d compared to 10,020 Bbls/d for the same period in 2004. Volume increases for the first quarter were mainly due to the late August 2004 acquisition of its 48 2/3 interest in EEEP, the addition of PremStar volumes at the Empress ATCO facility and the Joffre ethane extraction plant.

Invested capital in the Gathering and Processing segment was $3.6 million, which is offset by the disposition of non-core assets and the Taylor units during the quarter ended March 31, 2005, compared to $14.1 million for the same period in 2004.

For the remainder of 2005 gas prices are expected to remain strong and continue to drive drilling activity. AltaGas has a series of expansion projects it expects to undertake at existing facilities during the balance of 2005. The projects are expected to positively impact volumes processed. In addition, processing fee and operating cost recovery negotiations will continue to have a positive impact on the financial results of the gathering and processing component.

The full year impact of the EEEP acquisition and the realization of value chain synergies with other components of the Trust's businesses are expected to provide stronger financial results in the extraction component in 2005. In the transmission component results are expected to be above 2004 levels based on higher volume commitments.

Additionally AltaGas will continue to explore investment or acquisition opportunities providing long term value to unitholders.

ENERGY SERVICES

The Energy Services segment is comprised of the power services and gas services components. This segment also includes the results of the oil and gas production component. AltaGas is not in the business of exploration and development of natural gas reserves; however, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

FINANCIAL RESULTS	Three months ended March 31	
($ millions)	2005	2004
Revenue	283.6	133.4
Net revenue	16.5	9.8
Operating and administrative expense	4.7	2.4
Amortization expense	2.8	2.1
Operating income	9.0	5.3

OPERATING STATISTICS	Three months ended March 31	
	2005	2004
Power services		
Volume of power sold (thousands of MWh)	851	863
Average price received on the sale of power ($/MWh)[1]	47.24	45.78
Alberta Power Pool average spot price ($/MWh)[1]	45.90	48.78

(1) *Average for the period*

Revenue in the Energy Services segment for the three months ended March 31, 2005 was $283.6 million compared to $133.4 million for the same period last year, mainly due to the acquisition of the PremStar businesses in October 2004.

Net revenue in the first quarter 2005 from the power services component was $10.4 million, an increase of 35 percent compared to $7.7 million for the first quarter of 2004. The increase was primarily due to higher prices received on hedged volumes and fewer outage days this quarter compared to the first quarter last year, partially offset by lower power pool prices received on the sale of unhedged power volumes.

The average price received for power sales in the first quarter of 2005 was $47.24 per MWh compared to $45.78 per MWh in the first quarter of 2004. Average Alberta Power Pool spot prices were $45.90 per MWh and $48.78 per MWh in the first quarters of 2005 and 2004 respectively.

The gas services component contributed net revenue of $4.1 million for the first quarter of 2005 compared to $0.4 million in 2004. The increase was driven by service fees generated by PremStar which was acquired by AltaGas in the fourth quarter of 2004.

The outlook for the Energy Services segment for 2005 is positive with favourable pricing on hedged power volumes in the power business and reduced power costs experienced in the early part of the year are projected to continue throughout the year. The Gas Services component, including PremStar, continues to be on track with the outlook at the beginning of the year. PremStar continues to experience high rates of customer contract renewals.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

FINANCIAL RESULTS ($ millions)	Three months ended March 31 2005	2004
Revenue	46.4	48.1
Net revenue	11.8	9.7
Operating income[1]	5.2	3.9

(1) Gross revenue less costs of sales less operating administrative expense and amortization

OPERATING STATISTICS[1]	Three months ended March 31 2005	2004
Volume of natural gas distributed		
Sales (Bcf)	5.4	5.5
Transportation (Bcf)	2.6	3.0
Degree day variance (percent)[2]	(1.8)	2.0
Number of customers[3]	60,638	59,528

(1) AUI only
(2) Variance from 20 year average. Positive variances are favorable
(3) At March 31

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual net revenue, resulting in strong first and fourth quarter results and second and third quarters results that show either small profits or losses.

In the first quarter 2005, net revenue in AltaGas' Natural Gas Distribution segment was $11.8 million compared to $9.7 million for the same period in 2004. The increase was due to anticipated rate increases to recover higher operating costs and amortization, partially offset by warmer weather in the first quarter this year compared to the first quarter last year as well as a negative regulatory adjustment in the first quarter of 2004.

On April 12, 2005 the EUB issued Decision 2005-029, which approved a request by AltaGas Utilities Inc. (AUI) to increase its rates to cover costs in providing gas to its residential and irrigation customers, effective May 1, 2005. Based on an average residential customer using 135 GJ/year, the EUB approved an increase on the distribution portion of a customer's bill of 4.4 percent. The EUB also approved an increase in distribution rates for approximately 285 irrigation customers by 10 percent.

In December 2004 AUI filed a Phase 1 General Rate Application for 2005 and 2006. A hearing on the application is scheduled to begin on July 18, 2005 with a decision on this phase expected in the fourth quarter of 2005.

At the end of the first quarter of 2005 Heritage Gas Limited (Heritage) had commitments from 244 customers in Dartmouth, with 184 activated, 31 services installed expecting activation early in the second quarter of 2005 and 29 services remaining to be installed.

For the balance of 2005, Natural Gas Distribution segment financial results are expected to be slightly improved compared to 2004. This segment provides limited growth opportunities in the base business, so year over year the change is not expected to be significant. Heritage Gas Limited franchise area continues to expand with the impacts on financial results more likely to be evidenced in years beyond 2005.

SUMMARY OF EIGHT MOST RECENTLY COMPLETED CONSOLIDATED QUARTERLY RESULTS

($ millions)	Q1 05	Q4 04	Q3 04	Q2 04	Q1 04	Q4 03[1]	Q3 03[1]	Q2 03[1]
Net revenue	78.0	71.6	61.5	59.5	57.2	61.0	53.3	51.2
Net income	27.6	25.8	17.1	11.9	11.0	12.0	9.3	6.8
($ per unit)								
Earnings								
Basic	0.52	0.49	0.33	0.25	0.24	0.26	0.20	0.15
Diluted	0.52	0.48	0.33	0.25	0.24	0.26	0.20	0.15
Dividends/distributions[2]	0.45	0.45	0.45	0.30	0.11	0.11	0.11	0.08

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations

(2) The Trust pays a monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust. Prior to May 1, 2004 ASI paid quarterly dividends from the Q1 2001 through Q1 2004

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The Natural Gas Distribution segment reports higher earnings in colder periods than in warmer periods resulting in the first and last quarters of each year being the most profitable for the consolidated entity.

Net income in the second quarter 2003 was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the second quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to changes announced in the federal large corporations tax legislation, was the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and the completion of modifications to increase AltaGas' share of ethane production by 1,400 Bbls/d at the EnCana-operated Empress extraction plant late in the third quarter of 2003.

Reported net income in the first quarter 2004 was $11.0 million due to increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

In the second quarter of 2004 AltaGas converted from a corporate structure to an income trust. Strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million improved substantially compared to the same quarter of the prior year, the combined impact of higher operational earnings and reduced income taxes, the latter driven by the conversion to an income trust. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds which was used to reduce the Trust's debt. In the second quarter 2004 AltaGas commenced monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of the EEEP acquisition and the acquisition of 25 megawatts of power peaking capacity in southern Alberta and a full quarter of reduced income tax expense resulting from the conversion to an income trust.

The highest quarterly net income in AltaGas' history highlighted the fourth quarter of 2004 as the Trust recorded $25.8 million or $0.49 per unit in net income. The increase was driven by the Energy Services segment, which benefited from higher power volumes sold and higher power prices on hedged volumes and the acquisition of the PremStar businesses. The Gathering and Processing segment, also provided improved results based on contributions from the acquisition of the Edmonton extraction ethane plant and improved operating performance in the field gathering and processing component.

First quarter 2005 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

The Canadian Institute of Chartered Accountants (CICA) issued Accounting guideline 15 (AcG-15) "Consolidation of Variable Interest Entities" which is effective for annual and interim reporting periods commencing after November 1, 2004. This guideline requires organizations to assess any entity in which it may have a variable interest to determine whether or not the assets, liabilities and results of the entities' activities should be reported on other than a consolidated basis. AltaGas' has determined there is no requirement for change to its reporting with regard to its interests in those entities reported in its consolidated financial statements.

On March 18, 2005 the CICA issued revised Emerging Issues Committee Abstract (EIC) 151 "Exchangeable Securities issued by Subsidiaries of Income Trusts". The EIC states that exchangeable securities issued by a subsidiary of an income trust should be reflected as either non-controlling interest or debt in the consolidated balance sheet unless they meet certain criteria. An initial draft of the EIC was released January 19, 2005 under which guidance AltaGas determined that the exchangeable

securities issued and outstanding by AltaGas Limited Partnership No. 1 at December 31, 2004 and March 31, 2005 met the criteria for consolidation accounting at those dates.

The revised EIC becomes effective for annual and interim reporting periods ending on or after June 30, 2005. AltaGas expects that the exchangeable securities issued and outstanding by AltaGas Limited Partnership No. 1 will meet the criteria at June 30, 2005.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to MD&A in AltaGas' 2004 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2005 business has been to provide revenue stability in the power services component. Alberta Power Pool prices ranged from $7.74 per MWh to $997.00 per MWh in the first quarter of 2005. Through the use of financial hedges on the portion of its 2005 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At March 31, 2005 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $232.7 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 90 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During the first quarter of 2005, AltaGas invested $6.0 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $16.3 million in the same period in 2004. AltaGas disposed of non-core assets in the gathering and processing segment totaling $7.1 million in original cost and reduced its investment interest in the Taylor NGL Limited Partnership through a sale of units and non-participation in a public equity offering by Taylor.

INVESTED CAPITAL BY SEGMENT

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Additions, net of disposals:				
Capital assets	$ (3.5)	$ 0.5	$ 1.9	$ (1.1)

Long-term investments and other assets	2.0	-	0.1	2.1
	$ 14.1	$ 0.3	$ 1.9	$ 16.3

AltaGas categorizes its invested capital into maintenance, growth and administrative. Growth capital accounted for $3.9 million, which included Gathering and Processing facility acquisitions and expansions as well as expansions in the Natural Gas Distribution segment. Maintenance capital projects amounting to $1.4 million in the first three months of 2005 and $1.3 million for the same period of 2004 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments to maintain the productive capability of the facilities and gathering and distribution systems. Administrative capital expenditures, including computer hardware and software projects, totaled $0.7 million in the first quarter of 2005 compared to $0.9 million in the same period in 2004.

	$ 14.1	$ 0.3	$ 1.9	$ 16.3

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the quarter ended March 31, 2005 increased to $31.1 million from $22.1 million for the quarter ended March 31, 2004.

AltaGas had a working capital deficit of $94.8 million at March 31, 2005 compared to a working capital deficit of $106.5 million at December 31, 2004 and a working capital surplus of $2.9 million at March 31, 2004. The primary driver for this change in working capital is related to the reclassification of AltaGas' $100.0 million medium-term notes (MTNs) due October 4, 2005 to current portion of long term debt.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium Distribution™ programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 9 and 10 to the consolidated financial statements included in the Trust's 2004 Annual Report.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At March 31, 2005 AltaGas had total debt outstanding of $345.7 million down from $359.5 million at December 31, 2004. AltaGas Operating Partnership had $100.0 million in MTNs outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit through bank lines totaling $425.0 million. As at March 31, 2005 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $232.7 million and letters of credit outstanding of $36.6 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at March 31, 2005 decreased to 41.1 percent from 42.6 percent at December 31, 2004.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units that are exchangeable into trust units on a one for one basis. The exchangeable units are not listed for trading on an exchange.

As of April 30, 2005 the Trust had 51.6 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.3 billion based on a closing trading price on April 29, 2005 of $24.17 per trust unit. There are $0.3 million options exercisable under the terms of the unit option plan brought forward in the reorganization.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, since December 31, 2004. For further information on these contractual obligations, refer to the MD&A in AltaGas' 2004 Annual Report.

RELATED PARTIES

The Trust pays rent under a lease for office space to a company which is owned by a member of management. Payments of $20.0 thousand were made in the first quarter 2005. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

SUBSEQUENT EVENTS

On April 29, 2005 AltaGas filed a Universal Shelf Prospectus with Canadian Securities Commissions pursuant to which AltaGas Income Trust may issue up to an aggregate of $500 million of trust units and debt securities over a 25 month period. This filing will provide AltaGas with the flexibility to raise funds from the offering of trust units or debt securities through one or more methods of distribution when market conditions are appropriate. AltaGas plans to use the proceeds raised from any offerings to reduce outstanding indebtedness under the Trust's existing credit facilities and for general corporate purposes including the financing of acquisitions, other capital expenditures and investments.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

Selected Notes to the Consolidated Financial Statements

(Unaudited)
(tabular amounts in $ thousands)

1. STRUCTURE OF ALTAGAS INCOME TRUST

AltaGas Income Trust (the Trust) is an unincorporated open-ended trust established under the laws of Canada, pursuant to a Declaration of Trust dated March 26, 2004. The Trust commenced operations on May 1, 2004 as successor to AltaGas Services Inc. (ASI) when it acquired all of the shares of ASI for consideration of trust units or exchangeable units on a one for one basis. These unaudited interim consolidated financial statements follow the continuity of interest basis of accounting whereby the Trust is considered a continuation of ASI. As a result, the comparative period figures prior to May 1, 2004 are those of ASI.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of the Trust have been prepared by management in accordance with Canadian generally accepted accounting principles. The accounting policies applied are consistent with those outlined in the Trust's annual consolidated financial statements for the fiscal year ended December 31, 2004. These interim consolidated financial statements for the three months ended March 31, 2005 do not include all of the disclosures required in the annual financial statements, and should be read in conjunction with the audited consolidated financial statements included in the Trust's Annual Report.

3. GAIN ON INVESTMENTS

On February 7, 2005 the Trust sold 1.4 million partnership units of Taylor NGL Limited Partnership (Taylor) for proceeds of $12.8 million realizing a pre-tax gain of $4.8 million. The sale reduced the Trust's ownership in Taylor to 4.0 million units or 14.0 percent.

On March 22, 2005 Taylor issued 13.0 million limited partnership units. AltaGas did not participate in this issue which reduced the Trust's ownership in Taylor to 9.6 percent and resulted in a pre-tax dilution gain of $4.4 million.

4. UNITHOLDERS' EQUITY

	March 31 2005	December 31 2004
Unitholders' capital (note 6)	$ 394,584	$ 386,638
Contributed surplus	2,823	2,823
Accumulated earnings	224,439	196,819
Accumulated dividends	(41,114)	(41,114)
Accumulated unitholders' distributions	(85,733)	(61,651)
	$ 494,999	$ 483,515

For the quarter ended March 31, 2005 $nil (2004 - $5.1 million) of dividends and $24.0 million (2004 - $nil) of distributions were paid by the Trust.

5. UNITHOLDERS' CAPITAL

Authorized

- an unlimited number of trust units redeemable for cash at the option of the holder
- an unlimited number of AltaGas Holding Limited Partnership No. 1 (LP1) class B limited partnership units which are exchangeable into trust units on a one for one basis no later than May 1, 2014. Prior to May 1, 2014 the exchange is at the option of the unitholder at any time, and at the option of the Trust should the number of LP1 units outstanding fall below 750,000. After May 1, 2014 the exchange is at the option of the Trust.
- an unlimited number of AltaGas Holding Limited Partnership No. 2 (LP2) class B limited partnership units which are exchangeable into trust units on a one for one basis no later than May 1, 2009. Prior to May 1, 2009 the exchange is at the option of the unitholder at anytime, and at the option of the Trust should the number of LP2 units outstanding fall below 1,000,000. After May 1, 2009 the exchange is at the option of the Trust.

Trust units issued and outstanding:	Number of units		Amount
December 31, 2004	49,825,241	$	367,349
Units issued for cash on exercise of options	214,978		1,861
Units issued under distribution reinvestment program	266,376		6,085
Units issued for exchangeable units	1,187,958		6,799
March 31, 2005	51,494,553		382,094
Exchangeable units issued and outstanding:			
December 31, 2004	3,370,294		19,289
LP1 units redeemed for trust units	(1,187,958)		(6,799)
March 31, 2005	2,182,336		12,490
Issued and outstanding March 31, 2005	53,676,889	$	394,584

The Trust has an employee unit option plan under which both employees and directors are eligible to receive grants. At March 31, 2005 3,800,000 units were reserved for issuance under the plan. To March 31, 2005 options granted under the plan, including those granted in the first quarter of 2005, generally had a term of ten years to expiry and vested no longer than over a four year period. On May 1, 2004 subsequent to the establishment of the Trust all options granted were vested.

At March 31, 2005 outstanding options are exercisable at various dates to the year 2015 (2003 - 2014). Options outstanding under the plan have a weighted average exercise price of $13.09 (2004 - $9.31) and a weighted average remaining term of 8.13 years (2004 - 8.29 years). As at March 31, 2005 the unexpensed fair value of unit option compensation cost associated with future periods was $nil (December 31, 2004 - $nil).

	Number of Options		Weighted Average Exercise Price
Unit options outstanding, December 31, 2004	349,411	$	9.02
Granted	40,000		24.62
Exercised	(214,978)		8.62
Unit options outstanding, March 31, 2005	174,433	$	13.09
Exercisable at March 31, 2005	134,433	$	9.66

The basic number of units outstanding for the three months ended March 31, 2005 was 53.4 million (March 31, 2004 - 45.9 million ASI shares) and the diluted number of units outstanding for the three months ended March 31, 2005 was 53.6 million (March 31, 2004 - 46.6 million ASI shares).

6. RELATED PARTY TRANSACTIONS

The Trust pays rent under a lease for office space to a company which is owned by a member of management. Payments of $20.0 thousand were made during the quarter ended March 31, 2005 (March 31, 2004 - nil). The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years. These transactions have been recorded at their exchange amounts.

7. SEGMENTED INFORMATION

AltaGas is an integrated energy trust with a portfolio of assets and services used to move energy from the source to the end-user. Transactions between the reporting segments are recorded at fair value. The Trust has three reportable segments:

Gathering and Processing - natural gas gathering and processing, natural gas transmission, and ethane and natural gas liquids extraction.

Energy Services - power services, gas services and oil and natural gas production.

Natural Gas Distribution - natural gas distribution to end users and related services.

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Intersegment elimination	Total
Revenue	$ 82,948	$ 283,556	$ 46,374	$ (63,894)	$ 348,984
Cost of sales	(29,149)	(267,115)	(34,558)	59,818	(271,004)
Operating and administrative expenses	(26,553)	(4,619)	(4,621)	4,076	(31,717)
Amortization	(7,257)	(2,817)	(1,981)	-	(12,055)
Operating income	$ 19,989	$ 9,005	$ 5,214	$ -	$ 34,208
Net additions to:					
Capital assets	$ (3,542)	$ 515	$ 1,903	$ -	$ (1,124)

Goodwill	$ 18,860	$ -	$ -	$ -	$ 18,860
Segment assets	$ 784,837	$ 165,998	$ 157,761	$ -	$ 1,108,596

8. PENSION PLANS AND RETIREMENT BENEFITS

Substantially all full-time employees of the Trust's natural gas distribution subsidiary, AltaGas Utilities Inc., are members of one of two defined benefit non-contributory pension plans. AltaGas Utilities Inc. also has plans that provide other post-retirement benefits such as life insurance and health care.

The total post retirement benefit cost recorded in the statement of income for the three months ended March 31, 2005 is $0.3 million (March 31, 2004 - $0.3 million).

9. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform to the current financial statement presentation.

10. SEASONALITY

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual gas distribution revenue, resulting in strong first and fourth quarter results and second and third quarters that show either small profits or losses.

ABOUT ALTAGAS

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totaling over $1 billion and a market capitalization of $1.3 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through the Ikhil Gas Project and distributes gas in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

Management's Discussion and Analysis

The Management's Discussion and Analysis (MD&A) of operations and unaudited interim consolidated financial statements presented herein report on a continuity-of-interest accounting basis which recognizes AltaGas Income Trust (AltaGas or the Trust) as the successor to AltaGas Services Inc.(ASI). This MD&A dated May 11, 2005 is a review of the results of operations and the liquidity and capital resources of the Trust. It should be read in conjunction with the accompanying unaudited consolidated financial statements of the Trust for the three month period ended March 31, 2005 and the notes thereto and with the audited consolidated financial statements and MD&A contained in the Trust's annual report for the year ended December 31, 2004.

This MD&A contains forward-looking statements. When used in this MD&A the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions. Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this MD&A. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this MD&A as intended, planned, anticipated, believed, estimated or expected, and such forward looking statements included in this MD&A herein should not be unduly relied upon. These statements speak only as of the date of this short MD&A. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements.

Additional information relating to AltaGas Income Trust can be found on its website at www.altagas.ca. The continuous disclosure materials of the Trust, including its annual MD&A and audited financial statements, Annual Information Form, Information Circular and Proxy Statement, material change reports and press releases issued by the Trust are also available through the Trust's website or directly through the SEDAR system at www.sedar.com.

ALTAGAS INCOME TRUST

On April 29, 2004 the securityholders of AltaGas Services Inc. (ASI) voted in favor of a plan of arrangement to reorganize the business into an open-ended investment trust effective May 1, 2004. For each common share of ASI, shareholders received either one unit of the Trust (trust unit) or one exchangeable unit of AltaGas Holding Limited Partnership No.1 or AltaGas Holding Limited Partnership No.2. (trust units and exchangeable units being collectively units). As a result of implementing the reorganization, the Trust now indirectly holds through its subsidiaries and partnerships all of the assets, liabilities and businesses formerly owned by AltaGas Services Inc. The material businesses are operated by AltaGas Ltd., AltaGas Operating Partnership, AltaGas Limited Partnership, AltaGas Power Holdings Partnership, AltaGas Pipelines Partnership and AltaGas Utilities Inc. (collectively the operating subsidiaries). The cash flows of the Trust are solely dependent on the results of the operating subsidiaries and are derived from interest earned on loans to the operating subsidiaries and from dividends or returns of capital from equity interests held within the trust structure.

AltaGas General Partner Inc., through its Board of Directors who are elected by the Trust at the direction of the holders of the units, manages or supervises the management of the business and affairs of the Trust. AltaGas Ltd. provides all the management, administrative and operating services to the Trust and its subsidiaries.

DISTRIBUTIONS

AltaGas' distributions are determined giving consideration to the ongoing sustainable distributable cash flow as impacted by the consolidated net income, maintenance and growth capital requirements and the debt repayment requirements of the Trust.

The Trust pays cash distributions on the 15th day of each month, to unitholders of record on the 25th day of the previous month or in each case the following business day if the payment date or record date falls on a weekend or holiday.

First quarter 2005 distributions declared were $0.15 monthly, or $0.45 per unit amounting to $24.1 million. During the first quarter of 2004, ASI paid dividends of $0.11 per common share. The following table summarizes AltaGas' dividend and distribution declaration history.[1]

(dollars per unit)	2005	2004	2003	2002	2001
First quarter	$ 0.45	$ 0.11	$ 0.08	$ 0.06	$ 0.03
Second quarter		0.30	0.08	0.06	0.03
Third quarter		0.45	0.11	0.08	0.06
Fourth quarter		0.45	0.11	0.08	0.06
	$ 0.45	$ 1.31	$ 0.38	$ 0.28	$ 0.18

(1) Dividends were paid to shareholders from first quarter 2001 through first quarter 2004. Monthly distributions to unitholders began in May 2004.

AltaGas has Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase plans (DRIP) for eligible holders of trust units and exchangeable units of AltaGas Income Trust and AltaGas Holding Limited Partnership No. 1. DRIP participation generated $6.1 million in new equity through the issuance of 266,376 trust units in the first quarter of 2005. Since the DRIP was introduced in May 2004 it has contributed a total of $16.4 million of new equity. Complete details on DRIP are available on the AltaGas website at www.altagas.ca.

CONSOLIDATED RESULTS

CONSOLIDATED FINANCIAL RESULTS ($ millions)	Three months ended March 31 2005	2004
Revenue	349.0	193.5
Net revenue[1]	78.0	57.2
EBITDA[1]	46.3	31.2

Net income	0.52	0.24
Cash flows		
Funds generated from operations	0.58	0.48
Distributable cash[1][3]	0.56	0.45
Distributions/dividends[2]	0.45	0.11
Units outstanding (millions)		
Basic	53.4	45.9
End of period	53.7	45.9

(1) Non-GAAP financial measure. See discussion in the following section of this MD&A

(2) Distributions of $0.15 per unit per month paid commencing June 2004 (declared in May) and dividends of $0.11 per share paid in Q1 2004

(3) Based on cash from operations and is not impacted by investing and financing activities, consequently the first quarter of 2005 does not include proceeds of $12.8 million from sale of units in Taylor NGL Limited Partnership

Net income for the three months ended March 31, 2005 was $27.6 million compared to $11.0 million for the three months ended March 31, 2004. The increase of $16.6 million includes a one-time after-tax gain of $7.9 million recorded as a result of AltaGas' percentage ownership reduction in Taylor.

On February 7, 2005, AltaGas sold 1.4 million units of Taylor resulting in a pre-tax gain of $4.8 million reducing its ownership interest to 4.0 million units or 14 percent. On March 22, 2005, Taylor offered partnership units for sale in a public offering, in which AltaGas did not participate, resulting in a reduction in AltaGas' ownership interest in Taylor to approximately 10 percent. The reduction resulted in a pre-tax dilution gain of $4.4 million.

Excluding the after-tax gain on Taylor, net income increased primarily as a result of contributions from PremStar and the Edmonton ethane extraction plant (EEEP), both of which were acquired in the latter half of 2004, higher prices received on hedged power volumes and lower income taxes. These net income increases were partially offset by higher operating and administrative costs as well as lower prices received for unhedged power volumes.

Funds generated from operations for the three months ended March 31, 2005 was $31.1 million or $9.0 million higher than the same period last year due to improved business performance and lower income tax payments. Funds generated from operations are calculated prior to the inclusion of $12.8 million in proceeds from the sale of units in Taylor.

For the three months ended March 31, 2005, revenue increased 80 percent to $349.0 million compared to $193.5 million for the same period last year. Net revenue in the first quarter 2005 was $78 million or $20.8 million higher than the first quarter of 2004. In the extraction component and the Natural Gas Distribution and Energy Services segments, net revenue better reflects performance than does revenue, as changes in the market price of natural gas and power affect both revenue and cost of sales.

The increase in net revenue in the first quarter of 2005 compared to the same period last year was mainly due to the acquisition of EEEP and PremStar , overall higher power prices received on hedged volumes sold and the gains resulting from AltaGas' reduced ownership interest in Taylor.

Operating and administrative expenses were $31.7 million for the three months ended March 31, 2005 compared to $26.0 million for the same period of 2004. The increase was primarily due to 2004 acquisitions.

Earnings before interest, taxes, depreciation and amortization (EBITDA) for the three months ended March 31, 2005 rose 48 percent to $46.3 million compared to $31.2 million for the same three month period in 2004.

Amortization expense increased 21 percent to $12.1 million for the first quarter of 2005 compared to $10.0 million for the same period in 2004. The higher expense was due mainly to increases in the Trust's capital asset base due to acquisitions and internal expansion projects.

Interest expense of $5.1 million for the first quarter of 2005 was nine percent lower than the $5.6 million for the first quarter of 2004. The decrease in interest expense was primarily due to lower 2005 average debt balances driven by the Trust's equity issue in June 2004 and higher funds generated from operations partially offset by capital lease interest expense.

Income tax expense for the first three months of 2005, including the Taylor transaction, was $3.1 million less than that reported for the same period in the prior year even though income before taxes was higher. AltaGas' consolidated income from corporations was taxable for the period January 1 through March 31, 2004. Once restructured as an income trust, corporate subsidiaries' taxable income is generally reduced to zero by interest payments to the Trust. Payments received by the Trust in the form of interest distributions or other income from its subsidiaries are taxable income to the Trust. As the Trust is entitled to deduct its administrative costs and distributions to unitholders and since in accordance with its Trust indenture it distributes all of its income to unitholders, the Trust is not expected to be liable for income taxes either currently or in the foreseeable future. Incorporated subsidiaries in AltaGas' Natural Gas Distribution segment which operate as a regulated business under Utility Board regulation will continue to pay income tax.

NON-GAAP FINANCIAL MEASURES

AltaGas provides certain financial measures in this MD&A that do not have a standardized meaning prescribed by Canadian generally accepted accounting principles (GAAP). These non-GAAP financial measures may not be comparable to similar measures presented by other trusts.

The purpose of these financial measures and their reconciliation to GAAP financial measures is shown below. All of the measures have been calculated consistent with previous disclosures by AltaGas.

NET REVENUE		Three months ended March 31	
($ millions)		2005	2004
Net revenue		78.0	57.2
Add:	Cost of sales	271.0	136.3
Revenue (GAAP financial measure)		349.0	193.5

In the Natural Gas Distribution and Energy Services segments as well as the extraction component, net revenue better reflects performance than revenue. As changes in the market price of natural gas and power purchased for resale affect both revenue and the cost of sales, net revenue better reflects growth in the business.

OPERATING INCOME		Three months ended March 31	
($ millions)		2005	2004
Operating income		34.2	21.2
Add (deduct):	Interest	(5.1)	(5.6)
	Income taxes	(1.5)	(4.6)
Net income (GAAP financial measure)		27.6	11.0

AltaGas reports segmented operating income in the Notes to the Consolidated Financial Statements since interest and income taxes are not allocated to business segments. Operating income is used to measure operating performance without reference to financing decisions and income tax impacts which are not controlled at the operating management level.

EBITDA		Three months ended March 31	
($ millions)		2005	2004
EBITDA		46.3	31.2
Add (deduct):	Amortization	(12.1)	(10.0)
	Interest	(5.1)	(5.6)
	Income taxes	(1.5)	(4.6)
Net income (GAAP financial measure)		27.6	11.0

Earnings before interest, taxes, depreciation and amortization (EBITDA) is provided to assist in evaluating AltaGas' ability to generate cash and its ability to cover interest payments.

NET INCOME BEFORE GAINS ON REDUCTION IN OWNERSHIP INTEREST IN LONG-TERM INVESTMENTS	Three months ended March 31	
($ millions)	2005	2004
Net income before gains on reduction in ownership interest in long-term investments	19.7	10.9
Gains on long-term investments[1]	7.9	0.1
Net income (GAAP financial measure)	27.6	11.0

(1) After tax gain resulting from sale of Taylor units and dilution gain

FUNDS GENERATED FROM OPERATIONS	Three months ended March 31	
($ millions)	2005	2004
Funds generated from operations	31.1	22.1
Add (deduct): Net change in non-cash working capital and other	(15.0)	2.1
Cash from operations (GAAP financial measure)	16.1	24.2

Funds generated from operations is provided to assist in determining the ability of AltaGas to generate cash from operations, after interest and taxes, without regard to changes in the Trust's non-cash working capital in the period.

DISTRIBUTABLE CASH	Three months ended March 31	
($ millions)	2005	2004
Distributable cash flow	29.7	20.8
Add (deduct): *Maintenance capital expenditures*	1.4	1.3
Net change in non-cash working capital and other	(15.0)	2.1
Cash from operations (GAAP financial measure)	16.1	24.2

The Trust's distributable cash is equal to consolidated funds generated from operations before changes in non-cash working capital, after providing for maintenance capital expenditures. Distributable cash is not a defined performance measure under GAAP and distributable cash cannot be assured. The Trust's calculation of distributable cash flow may differ from similar calculations used by comparable entities. Distributable cash is a main performance measure used by management and investors to evaluate the performance of the Trust and its operating subsidiaries.

In the first quarter of 2005, AltaGas sold 1.4 million units of Taylor NGL Limited Partnership for proceeds of $12.8. As the Trust's distributable cash is based on cash from operations net of the change in non-cash working capital and maintenance capital expenditures, it is not impacted by any changes to cash resulting from investing or financing activities and hence does not include the $12.8 million in proceeds from sale of Taylor units.

RESULTS OF OPERATIONS BY SEGMENT

AltaGas reports consolidated financial and operating results to the operating income level on the basis of three business segments: Gathering and Processing, Energy Services and Natural Gas Distribution.

OPERATING INCOME	Three months ended March 31	
($ millions)	2005	2004
Gathering and Processing	20.0	12.0
Energy Services	9.0	5.3
Natural Gas Distribution	5.2	3.9
	34.2	21.2

GATHERING AND PROCESSING

The Gathering and Processing segment includes the field gathering and processing, extraction, and transmission components, as well as AltaGas' investments in businesses ancillary to the gathering and processing business.

FINANCIAL RESULTS ($ millions)	Three months ended March 31 2005	2004
Revenue	82.9	44.7
Net revenue	53.8	37.8
Operating and administrative expense	26.5	19.5
Amortization expense	7.3	6.3
Operating income	20.0	12.0

OPERATING STATISTICS	Three months ended March 31 2005	2004
Field gathering and processing		
Capacity (Mmcf/d)[1]	901	901
Throughput (gross Mmcf/d)[2]	558	560
Capacity utilization (percent) [1]	62	62
Average working interest (percent)[1]	90	87
Extraction		
Inlet capacity (Mmcf/d)[1]	539	349
Production (Bbls/d)[2]	21,103	10,020
Transmission volumes (Mmcf/d)[2][3]	429	396

(1) As at March 31

(2) Average for the period

(3) Excludes condensate pipeline volumes

The Gathering and Processing segment generated revenue of $82.9 million for the three months ended March 31, 2005, an increase of 85 percent when compared to $44.7 million reported in the same period in 2004. Net revenue increased to $53.8 million, up $16.0 million for the first quarter of 2005 compared to $37.8 million reported in the same period in 2004.

Operating income for the three months ended March 31, 2005 increased to $20.0 million compared to $12.0 in the same period in 2004. Growth in operating income was due to gains recorded on transactions related to AltaGas' investment in Taylor, higher volumes processed at extraction facilities and higher field gathering and processing fees, partially offset by higher compressor repair and maintenance costs in the field gathering and processing component.

In the field gathering and processing component, net revenue for the three months ended March 31, 2005 was $29.9 million compared to $26.5 million for the same period last year. Volumes increased with the continuing strong gas drilling activity in the Western Canadian Sedimentary Basin during the first quarter of 2005 with 139 wells tied in to AltaGas' facilities compared with 155 during the same period in 2004. In addition, the Shaunavon, Saskatchewan solution gas recovery plant was commissioned in the first quarter of 2005. Over the last half of 2004 and into the first quarter of 2005, AltaGas continued its program of internal expansion installing additional facilities to increase capacity at Kirkpatrick Lake, Windfall, Thunder Lake and Mundare. These development projects are supported by producer commitments designed to mitigate AltaGas' financial exposure to potential throughput declines. Much of the installed equipment at these facilities was redeployed from other AltaGas locations as was the majority of the equipment used in the construction of the Shaunavon plant. These increases in active processing assets were offset by the sale of the bulk of AltaGas' Winefred assets where production had been reduced as a result of the Alberta Energy and Utilities Board (EUB) decision on the gas over bitumen issue.

AltaGas also participated with a producer, in the construction of a large gathering line near the Rainbow Lake plant. This line is expected to result in an increase in the gas processed through the Rainbow Lake facility.

These increases in volumes processed in the first quarter 2005 were offset by temporary volume restrictions imposed by a third party during February 2005 reducing throughput at AltaGas' Rainbow Lake facility.

In the extraction component higher volumes processed resulted in net revenue of $7.2 million for the three months ended March 31, 2005 compared to $3.5 million for the same period in 2004. Average ethane and NGL volumes extracted for the first quarter of 2005 more than doubled reaching 21,103 Bbls/d compared to 10,020 Bbls/d for the same period in 2004. Volume increases for the first quarter were mainly due to the late August 2004 acquisition of its 48 2/3 interest in EEEP, the addition of PremStar volumes at the Empress ATCO facility and the Joffre ethane extraction plant.

Invested capital in the Gathering and Processing segment was $3.6 million, which is offset by the disposition of non-core assets and the Taylor units during the quarter ended March 31, 2005, compared to $14.1 million for the same period in 2004.

For the remainder of 2005 gas prices are expected to remain strong and continue to drive drilling activity. AltaGas has a series of expansion projects it expects to undertake at existing facilities during the balance of 2005. The projects are expected to positively impact volumes processed. In addition, processing fee and operating cost recovery negotiations will continue to have a positive impact on the financial results of the gathering and processing component.

The full year impact of the EEEP acquisition and the realization of value chain synergies with other components of the Trust's businesses are expected to provide stronger financial results in the extraction component in 2005. In the transmission component results are expected to be above 2004 levels based on higher volume commitments.

Additionally AltaGas will continue to explore investment or acquisition opportunities providing long term value to unitholders.

ENERGY SERVICES

The Energy Services segment is comprised of the power services and gas services components. This segment also includes the results of the oil and gas production component. AltaGas is not in the business of exploration and development of natural gas reserves; however, associated with certain of its facility acquisitions, AltaGas has accumulated a portfolio of oil and natural gas reserves that it continues to hold and produce.

FINANCIAL RESULTS	Three months ended March 31	
($ millions)	2005	2004
Revenue	283.6	133.4
Net revenue	16.5	9.8
Operating and administrative expense	4.7	2.4
Amortization expense	2.8	2.1
Operating income	9.0	5.3

OPERATING STATISTICS	Three months ended March 31	
	2005	2004
Power services		
Volume of power sold (thousands of MWh)	851	863
Average price received on the sale of power ($/MWh)[1]	47.24	45.78
Alberta Power Pool average spot price ($/MWh)[1]	45.90	48.78

(1) Average for the period

Revenue in the Energy Services segment for the three months ended March 31, 2005 was $283.6 million compared to $133.4 million for the same period last year, mainly due to the acquisition of the PremStar businesses in October 2004.

Net revenue in the first quarter 2005 from the power services component was $10.4 million, an increase of 35 percent compared to $7.7 million for the first quarter of 2004. The increase was primarily due to higher prices received on hedged volumes and fewer outage days this quarter compared to the first quarter last year, partially offset by lower power pool prices received on the sale of unhedged power volumes.

The average price received for power sales in the first quarter of 2005 was $47.24 per MWh compared to $45.78 per MWh in the first quarter of 2004. Average Alberta Power Pool spot prices were $45.90 per MWh and $48.78 per MWh in the first quarters of 2005 and 2004 respectively.

The gas services component contributed net revenue of $4.1 million for the first quarter of 2005 compared to $0.4 million in 2004. The increase was driven by service fees generated by PremStar which was acquired by AltaGas in the fourth quarter of 2004.

The outlook for the Energy Services segment for 2005 is positive with favourable pricing on hedged power volumes in the power business and reduced power costs experienced in the early part of the year are projected to continue throughout the year. The Gas Services component, including PremStar, continues to be on track with the outlook at the beginning of the year. PremStar continues to experience high rates of customer contract renewals.

NATURAL GAS DISTRIBUTION

The Natural Gas Distribution segment includes AltaGas Utilities Inc., AltaGas' one-third interest in Inuvik Gas Ltd. and its 24.9 percent interest in Heritage Gas Limited.

FINANCIAL RESULTS	Three months ended March 31	
($ millions)	2005	2004
Revenue	46.4	48.1
Net revenue	11.8	9.7
Operating income[1]	5.2	3.9

(1) Gross revenue less costs of sales less operating administrative expense and amortization

OPERATING STATISTICS[1]	Three months ended March 31	
	2005	2004
Volume of natural gas distributed		
Sales (Bcf)	5.4	5.5
Transportation (Bcf)	2.6	3.0
Degree day variance (percent)[2]	(1.8)	2.0
Number of customers[3]	60,638	59,528

(1) AUI only

(2) Variance from 20 year average. Positive variances are favorable

(3) At March 31

The natural gas distribution business is highly seasonal with the majority of natural gas deliveries occurring during the winter heating season. Gas sales during the winter typically account for approximately two-thirds of annual net revenue, resulting in strong first and fourth quarter results and second and third quarters results that show either small profits or losses.

In the first quarter 2005, net revenue in AltaGas' Natural Gas Distribution segment was $11.8 million compared to $9.7 million for the same period in 2004. The increase was due to anticipated rate increases to recover higher operating costs and amortization, partially offset by warmer weather in the first quarter this year compared to the first quarter last year as well as a negative regulatory adjustment in the first quarter of 2004.

On April 12, 2005 the EUB issued Decision 2005-029, which approved a request by AltaGas Utilities Inc. (AUI) to increase its rates to cover costs in providing gas to its residential and irrigation customers, effective May 1, 2005. Based on an average residential customer using 135 GJ/year, the EUB approved an increase on the distribution portion of a customer's bill of 4.4 percent. The EUB also approved an increase in distribution rates for approximately 285 irrigation customers by 10 percent.

In December 2004 AUI filed a Phase 1 General Rate Application for 2005 and 2006. A hearing on the application is scheduled to begin on July 18, 2005 with a decision on this phase expected in the fourth quarter of 2005.

At the end of the first quarter of 2005 Heritage Gas Limited (Heritage) had commitments from 244 customers in Dartmouth, with 184 activated, 31 services installed expecting activation early in the second quarter of 2005 and 29 services remaining to be installed.

For the balance of 2005, Natural Gas Distribution segment financial results are expected to be slightly improved compared to 2004. This segment provides limited growth opportunities in the base business, so year over year the change is not expected to be significant. Heritage Gas Limited franchise area continues to expand with the impacts on financial results more likely to be evidenced in years beyond 2005.

SUMMARY OF EIGHT MOST RECENTLY COMPLETED CONSOLIDATED QUARTERLY RESULTS

($ millions)	Q1 05	Q4 04	Q3 04	Q2 04	Q1 04	Q4 03[1]	Q3 03[1]	Q2 03[1]
Net revenue	78.0	71.6	61.5	59.5	57.2	61.0	53.3	51.2
Net income	27.6	25.8	17.1	11.9	11.0	12.0	9.3	6.8
($ per unit)								
Earnings								
Basic	0.52	0.49	0.33	0.25	0.24	0.26	0.20	0.15
Diluted	0.52	0.48	0.33	0.25	0.24	0.26	0.20	0.15
Dividends/distributions[2]	0.45	0.45	0.45	0.30	0.11	0.11	0.11	0.08

(1) Prior periods have been restated for the impacts of the adoption of CICA Handbook guidance on accounting for asset retirement obligations

(2) The Trust pays a monthly distribution of $0.15 per unit. The distributions for Q2 2004 are for the period starting May 1, 2004, the effective date of the Trust. Prior to May 1, 2004 ASI paid quarterly dividends from the Q1 2001 through Q1 2004

Identifiable trends in AltaGas' business across the past eight quarters reflect the organization's growth, a favorable business environment and seasonality in the business. The Natural Gas Distribution segment reports higher earnings in colder periods than in warmer periods resulting in the first and last quarters of each year being the most profitable for the consolidated entity.

Net income in the second quarter 2003 was $6.8 million, 39 percent higher than the same quarter in 2002, a result of stronger contributions from the transmission, power services and extraction components. Increases in the transmission component related to the Suffield pipeline acquisition at the end of 2002. In the power services component, increases in net revenue were driven by higher average prices received for power and by the increased volumes sold under the newly acquired Genesee energy contract. Extraction component performance was better than the same quarter in the prior year as a result of the commissioning of the Joffre ethane extraction plant at the end of 2002. Improved operating income was offset by higher interest expense due to higher debt levels in the second quarter of 2003 when compared to the same quarter of the prior year, and as a result of a charge to income for legislative changes to the taxation of resource income.

Power services, extraction and transmission components were the key contributors in the third quarter of 2003 to a 63 percent increase in net income to $9.3 million when compared to the third quarter of 2002. AltaGas paid a quarterly dividend of $0.11 per share, up from $0.08 per share in the second quarter of 2003 on the basis of the increased strength and sustainability of AltaGas' earnings.

Fourth quarter 2003 net income of $12.0 million, including an unfavorable income tax expense charge of $1.2 million related to changes announced in the federal large corporations tax legislation, was the highest quarterly net income reported by AltaGas since it was formed. The increase from the prior year's quarter was a result of the late 2002 gathering and processing segment acquisitions, incremental power volumes sold from the Genesee energy contract and the completion of modifications to increase AltaGas' share of ethane production by 1,400 Bbls/d at the EnCana-operated Empress extraction plant late in the third quarter of 2003.

Reported net income in the first quarter 2004 was $11.0 million due to increased volumes in the Gathering and Processing and Energy Services segments which were partially offset by lower margins in the Energy Services segment and warmer weather and regulatory adjustments in the Natural Gas Distribution segment.

In the second quarter of 2004 AltaGas converted from a corporate structure to an income trust. Strong operational performance in the second quarter of 2004 was driven by volume increases in the Gathering and Processing segment from acquisitions and expansions and from higher power volumes sold. Net income of $11.9 million improved substantially compared to the same quarter of the prior year, the combined impact of higher operational earnings and reduced income taxes, the latter driven by the conversion to an income trust. During the quarter the Trust made its first public offering of units as an income trust and raised $88.5 million with net proceeds which was used to reduce the Trust's debt. In the second quarter 2004 AltaGas commenced monthly distributions to unitholders of $0.15 per unit.

The third quarter of 2004 was the first full quarter as an income trust. The Trust generated record funds from operations of $28.6 million and increased net income to $17.1 million or $0.33 per unit. Highlights for the quarter included the closing of the EEEP acquisition and the acquisition of 25 megawatts of power peaking capacity in southern Alberta and a full quarter of reduced income tax expense resulting from the conversion to an income trust.

The highest quarterly net income in AltaGas' history highlighted the fourth quarter of 2004 as the Trust recorded $25.8 million or $0.49 per unit in net income. The increase was driven by the Energy Services segment, which benefited from higher power volumes sold and higher power prices on hedged volumes and the acquisition of the PremStar businesses. The Gathering and Processing segment, also provided improved results based on contributions from the acquisition of the Edmonton extraction ethane plant and improved operating performance in the field gathering and processing component.

First quarter 2005 results are discussed in detail in an earlier section of this MD&A.

CHANGES IN ACCOUNTING POLICIES

The Canadian Institute of Chartered Accountants (CICA) issued Accounting guideline 15 (AcG-15) "Consolidation of Variable Interest Entities" which is effective for annual and interim reporting periods commencing after November 1, 2004. This guideline requires organizations to assess any entity in which it may have a variable interest to determine whether or not the assets, liabilities and results of the entities' activities should be reported on other than a consolidated basis. AltaGas' has determined there is no requirement for change to its reporting with regard to its interests in those entities reported in its consolidated financial statements.

On March 18, 2005 the CICA issued revised Emerging Issues Committee Abstract (EIC) 151 "Exchangeable Securities issued by Subsidiaries of Income Trusts". The EIC states that exchangeable securities issued by a subsidiary of an income trust should be reflected as either non-controlling interest or debt in the consolidated balance sheet unless they meet certain criteria. An initial draft of the EIC was released January 19, 2005 under which guidance AltaGas determined that the exchangeable

securities issued and outstanding by AltaGas Limited Partnership No. 1 at December 31, 2004 and March 31, 2005 met the criteria for consolidation accounting at those dates.

The revised EIC becomes effective for annual and interim reporting periods ending on or after June 30, 2005. AltaGas expects that the exchangeable securities issued and outstanding by AltaGas Limited Partnership No. 1 will meet the criteria at June 30, 2005.

CRITICAL ACCOUNTING ESTIMATES

AltaGas' financial statements have been prepared in accordance with generally accepted accounting principles. Certain accounting policies require that management make appropriate decisions with respect to the formulation of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. AltaGas' critical accounting estimates continue to be amortization expense, asset retirement obligations and asset impairment assessment. For a full discussion of these critical accounting estimates, refer to MD&A in AltaGas' 2004 Annual Report.

FINANCIAL INSTRUMENTS

AltaGas enters into financial derivative contracts such as swaps and collars to manage exposure to fluctuations in commodity prices and interest rates, particularly in the power services component and with respect to interest rates on debt. These contracts are designed as hedges and gains and losses relating to such contracts are deferred and recognized in the same period and financial statement category as the corresponding hedged transaction.

The most significant impact of these contracts on 2005 business has been to provide revenue stability in the power services component. Alberta Power Pool prices ranged from $7.74 per MWh to $997.00 per MWh in the first quarter of 2005. Through the use of financial hedges on the portion of its 2005 power portfolio deemed optimal by management, AltaGas moderated the impact of this volatility on its business.

AltaGas reduces financing costs and minimizes the effect of future interest rate movements on its cash flows through the use of interest rate swaps. At March 31, 2005 the Trust had interest rates fixed through swap transactions with varying terms to maturity on $200.0 million of its $232.7 million total drawn bank debt. Including AltaGas' medium term notes, the rate has been fixed on 90 percent of AltaGas' total debt, including capital leases. The amount of fixed rate debt was higher than the Trust's target of 70 to 75 percent of total debt due to the proceeds of the June 2004 equity offering being applied to floating rate debt.

INVESTED CAPITAL

During the first quarter of 2005, AltaGas invested $6.0 million in capital assets, energy services arrangements, contracts and relationships and long term investments compared to $16.3 million in the same period in 2004. AltaGas disposed of non-core assets in the gathering and processing segment totaling $7.1 million in original cost and reduced its investment interest in the Taylor NGL Limited Partnership through a sale of units and non-participation in a public equity offering by Taylor.

INVESTED CAPITAL BY SEGMENT

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Additions, net of disposals:				
Capital assets	$ (3.5)	$ 0.5	$ 1.9	$ (1.1)
Energy service arrangements, contracts and relationships	-	-	-	-
Long-term investments and other assets	(8.1)	-	-	(8.1)
	$ (11.6)	$ 0.5	$ 1.9	$ (9.2)

For the three months ended March 31, 2004	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Additions, net of disposals:				
Capital assets	$ 12.1	$ 0.3	$ 1.8	$ 14.2
Energy service arrangements, contracts and relationships	-	-	-	-
Long-term investments and other assets	2.0	-	0.1	2.1
	$ 14.1	$ 0.3	$ 1.9	$ 16.3

AltaGas categorizes its invested capital into maintenance, growth and administrative. Growth capital accounted for $3.9 million, which included Gathering and Processing facility acquisitions and expansions as well as expansions in the Natural Gas Distribution segment. Maintenance capital projects amounting to $1.4 million in the first three months of 2005 and $1.3 million for the same period of 2004 were undertaken mainly in the Gathering and Processing and Natural Gas Distribution segments to maintain the productive capability of the facilities and gathering and distribution systems. Administrative capital expenditures, including computer hardware and software projects, totaled $0.7 million in the first quarter of 2005 compared to $0.9 million in the same period in 2004.

INVESTED CAPITAL BY ACTIVITY

For the three months ended March 31, 2005	Gathering and Processing	Energy Services	Natural Gas Distribution	Total
Capital

Capital				
Maintenance	$ 0.5	$ -	$ 0.8	$ 1.3
Growth	13.2	-	0.9	14.1
Administrative	0.4	0.3	0.2	0.9
	$ 14.1	$ 0.3	$ 1.9	$ 16.3

LIQUIDITY AND CAPITAL RESOURCES

Funds generated from operations for the quarter ended March 31, 2005 increased to $31.1 million from $22.1 million for the quarter ended March 31, 2004.

AltaGas had a working capital deficit of $94.8 million at March 31, 2005 compared to a working capital deficit of $106.5 million at December 31, 2004 and a working capital surplus of $2.9 million at March 31, 2004. The primary driver for this change in working capital is related to the reclassification of AltaGas' $100.0 million medium-term notes (MTNs) due October 4, 2005 to current portion of long term debt.

The Trust believes that its access to debt and equity markets, unutilized bank credit facilities, funds generated from operations and funds generated from the Trust's Distribution Reinvestment and Premium Distribution™ programs will provide it with sufficient capital resources and liquidity to fund existing operations, future distributions, and certain acquisition and expansion opportunities in 2005. A description of the Trust's credit facilities can be found in Notes 9 and 10 to the consolidated financial statements included in the Trust's 2004 Annual Report.

The use of debt or equity funding is based on AltaGas' capital structure determined by considering the norms and risks associated with each of its business components and segments. At March 31, 2005 AltaGas had total debt outstanding of $345.7 million down from $359.5 million at December 31, 2004. AltaGas Operating Partnership had $100.0 million in MTNs outstanding and AltaGas Holding Limited Partnership No.1 had access to prime loans, banker's acceptances and letters of credit through bank lines totaling $425.0 million. As at March 31, 2005 AltaGas Holding Limited Partnership No.1 had drawn bank debt of $232.7 million and letters of credit outstanding of $36.6 million. These two entities fund all operating subsidiaries. As an income trust, the Trust targets a debt to total capitalization ratio between 45 percent and 50 percent. The Trust's debt to total capitalization ratio as at March 31, 2005 decreased to 41.1 percent from 42.6 percent at December 31, 2004.

TRUST UNIT INFORMATION

Under the terms of the restructuring of AltaGas into an income trust effective May 1, 2004, ASI securityholders exchanged their shares in the company for trust units and eligible securityholders also received exchangeable units that are exchangeable into trust units on a one for one basis. The exchangeable units are not listed for trading on an exchange.

As of April 30, 2005 the Trust had 51.6 million trust units and 2.2 million exchangeable units outstanding and a market capitalization of $1.3 billion based on a closing trading price on April 29, 2005 of $24.17 per trust unit. There are $0.3 million options exercisable under the terms of the unit option plan brought forward in the reorganization.

OFF BALANCE SHEET ARRANGEMENTS

The Trust is not party to any contractual arrangement under which an unconsolidated entity may have any obligation under certain guarantee contracts, a retained or contingent interest in assets transferred to an unconsolidated entity or similar arrangement that serves as credit, liquidity or market risk support to that entity for such assets. The Trust has no obligation under derivative instruments, nor under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk or credit risk support to the registrant, or engages in leasing, hedging or research and development services with the registrant.

CONTRACTUAL OBLIGATIONS

There have been no material changes to AltaGas' contractual obligations, since December 31, 2004. For further information on these contractual obligations, refer to the MD&A in AltaGas' 2004 Annual Report.

RELATED PARTIES

The Trust pays rent under a lease for office space to a company which is owned by a member of management. Payments of $20.0 thousand were made in the first quarter 2005. The five year lease expires in 2007 and is renewable at the option of AltaGas for another five years.

SUBSEQUENT EVENTS

On April 29, 2005 AltaGas filed a Universal Shelf Prospectus with Canadian Securities Commissions pursuant to which AltaGas Income Trust may issue up to an aggregate of $500 million of trust units and debt securities over a 25 month period. This filing will provide AltaGas with the flexibility to raise funds from the offering of trust units or debt securities through one or more methods of distribution when market conditions are appropriate. AltaGas plans to use the proceeds raised from any offerings to reduce outstanding indebtedness under the Trust's existing credit facilities and for general corporate purposes including the financing of acquisitions, other capital expenditures and investments.

UNITHOLDER LIMITED LIABILITY LEGISLATION

On July 1, 2004, the Income Trusts Liability Act (Alberta) came into force which provides that a unitholder will not be, as a beneficiary, liable for any act, defaults, obligation or liability of the Trustee that arises after the particular provision of such legislation comes into force.

The AltaGas Income Trust indenture itself provides that no unitholder will be subject to any liability in connection with the Trust or its obligations and affairs or for any act or omission of the trustee of the Trust, provided that in the event that a court determines that unitholders are subject to such liabilities, the liabilities will be enforceable only against and will be satisfied out of the Trust's assets. The trust indenture also provides that contracts to which the Trust is a party should contain language restricting the liability of unitholders.

AltaGas

ALTAGAS INCOME TRUST
$500,000,000
Trust Units
Debt Securities

AltaGas Income Trust (the "Trust") may from time to time offer and issue trust units or unsecured debt securities (collectively, the "Securities"), up to an aggregate offering price of $500,000,000 (or its equivalent in any other currency used to denominate the Securities) during the 25-month period that this short form base shelf prospectus (the "prospectus"), including any amendments hereto, remains effective.

The specific terms of any offering of Securities will be set forth in a shelf prospectus supplement (a "prospectus supplement") including, where applicable: (i) in the case of trust units, the number of units offered and the offering price; and (ii) in the case of debt securities, the specific designation of the debt securities, any limit on the aggregate principal amount of the debt securities, the currency, the maturity, the offering price, whether the debt securities will bear interest, the interest rate or method of determining the interest rate, any terms of redemption, any conversion or exchange rights and any other specific terms. A prospectus supplement may include other specific terms pertaining to the Securities that are not prohibited by the parameters set forth in this prospectus.

All shelf information permitted under applicable laws to be omitted from this prospectus will be contained in one or more prospectus supplements that will be delivered to purchasers together with this prospectus. Each prospectus supplement will be incorporated by reference into this prospectus for the purposes of securities legislation as of the date of the prospectus supplement and only for the purposes of the distribution of the Securities to which the prospectus supplement pertains.

The Trust may sell the Securities to or through underwriters or dealers purchasing as principals, and may also sell the Securities directly to one or more purchasers pursuant to applicable statutory exemptions or through agents. See "Plan of Distribution". The prospectus supplement relating to a particular offering of Securities will identify each underwriter, dealer or agent, as the case may be, engaged by the Trust in connection with the offering and sale of the Securities, and will set forth the terms of the offering of such Securities, including the method of distribution of such Securities, the proceeds to the Trust and any fees, discounts or any other compensation payable to underwriters, dealers or agents and any other material terms of the plan of distribution.

In connection with any offering of Securities, the underwriters, dealers or agents, as the case may be, may over allot or effect transactions which stabilize or maintain the market price of the Securities at a level above that which otherwise might prevail on the open market. Such transactions, if commenced, may be discontinued at any time. See

"Plan of Distribution". The trust units of the Trust are listed on the Toronto Stock Exchange under the symbol "ALA.UN". **There is currently no market through which the debt securities may be sold and purchasers may not be able to resell such securities issued under this prospectus.**

A rate of return on an investment in the trust units of the Trust over a defined period may not be comparable to the rate of return on an investment in a fixed-income security that provides a return on capital over the same period. The recovery of an initial investment in the trust units of the Trust is at risk, and the anticipated return on such investment is based on many performance assumptions. Although the Trust intends to make distributions of its available cash to holders of trust units ("Unitholders"), these cash distributions may be reduced or suspended. The actual amount distributed will depend on numerous factors including: the financial performance of the subsidiaries of the Trust, electricity prices, regulation, weather, debt covenants and obligations, working capital requirements, future capital requirements and the number of trust units outstanding. In addition, the market value of the trust units may deteriorate if the Trust is unable to meet its distribution targets in the future, and that deterioration may be material.

It is important for an investor to consider the particular risk factors that may affect the industry in which it is investing. See, for example, "Nature of Trust Units", "Nature of Distributions", "Variability of Distributions", "Changes in Legislation", "Loss of Mutual Fund Trust Status", "Risks Associated With the Level of Foreign Ownership", "Debt Service" and "Structural and Contractual Subordination" under "Risk Factors" on pages 59 to 61 of the AIF (as defined herein). These sections also describe the Trust's assessment of those risk factors, as well as the potential consequences to an investor if a risk should occur.

The return from an investment in trust units to Unitholders, for Canadian income tax purposes, can be made up of both a return on and a return of capital. That composition may change over time, thus affecting an investor's after-tax return. The Trust expects that substantially all of the cash distributions to Unitholders will be returns on capital. Returns on capital are generally taxed as ordinary income or as dividends in the hands of a Unitholder. Returns of capital are generally tax-deferred for Unitholders who are resident in Canada for purposes of the *Income Tax Act* (Canada) (the "Act") (and reduce such Unitholder's adjusted cost base in the trust unit for purposes of the Act). Returns of capital to a Unitholder who is not resident in Canada for purposes of the Act or is a partnership that is not a "Canadian partnership" for purposes of the Act may be subject to Canadian withholding tax. Prospective Unitholders should consult their own tax advisors with respect to the Canadian income tax considerations in their own circumstances.

Standard & Poor's ("S&P") has assigned a stability rating of SR-3 to the Trust and Dominion Bond Rating Service Limited ("DBRS") has assigned a stability rating of STA-3 (middle) to the Trust. S&P's stability ratings range from a high of SR-1 to a low of SR-7 and DBRS' stability ratings range from a high of STA-1 to a low of STA-7. S&P has assigned a long term issuer credit rating of BBB- with a stable outlook to the Trust and DBRS has assigned a long term issuer credit rating of BBB (low) with a stable outlook to the Trust. S&P's and DBRS' long term issuer credit ratings range from a high of AAA to a low of D. Stability ratings and issuer credit ratings are not a recommendation to buy, sell or hold securities and are subject to revision or withdrawal by S&P or DBRS at any time. See "Ratings".

GLOSSARY

In this prospectus, the following terms have the meanings set forth below.

"AltaGas" means AltaGas Ltd., a corporation formed by amalgamation pursuant to the CBCA, an indirect subsidiary of the Trust and a successor by amalgamation to AltaGas Services;

"AltaGas LP 1" means AltaGas Holding Limited Partnership No. 1, a limited partnership created pursuant to the laws of Alberta;

"AltaGas LP 2" means AltaGas Holding Limited Partnership No. 2, a limited partnership created pursuant to the laws of Alberta;

"AltaGas Services" means AltaGas Services Inc., a predecessor by amalgamation to AltaGas;

"Arrangement" means the arrangement, under the provisions of section 192 of the CBCA, involving among other parties, AltaGas Services, the Trust, Holding Trust, the General Partner, AltaGas LP 1 and AltaGas LP 2 pursuant to which the business of AltaGas Services was reorganized into an income trust effective May 1, 2004;

"Cash Flow of the Trust" means for, or in respect of, any Distribution Period: (i) all cash amounts which are received by the Trust for, or in respect of, the Distribution Period, including, without limitation, interest, dividends, distributions, proceeds from the disposition of securities, returns of capital and repayments of indebtedness; plus (ii) the proceeds of any issuance of trust units or any other securities of the Trust, net of the expenses of distribution, and, if applicable, the use of proceeds of any such issuance for the intended purposes; less (iii) the sum of (A) all amounts which relate to the redemption of trust units and which have become payable in cash by the Trust in the Distribution Period and any expenses of the Trust in the Distribution Period; and (B) any other amounts (including taxes) required by law or the Declaration of Trust to be deducted, withheld or paid by or in respect of the Trust in such Distribution Period;

"CBCA" means the *Canada Business Corporations Act*, R.S.C. 1985, c. C-44, as amended from time to time, including the regulations from time to time promulgated thereunder;

"Declaration of Trust" means the declaration of trust dated as of March 26, 2004 between the settlor and the Trustee, pursuant to which the Trust was created, as from time to time amended, supplemented or restated;

"Distribution Period" means each calendar month, or such other periods as may be determined from time to time by the General Partner on behalf of the Trustee from and including the first day thereof and to and including the last day thereof;

"Exchangeable Units" means, Class B limited partnership units of AltaGas LP 1 and, prior to their exchange in August 2004, Class B limited partnership units of AltaGas LP 2;

"General Partner" means AltaGas General Partner Inc., a corporation incorporated pursuant to the CBCA as a direct wholly-owned subsidiary of the Trust and the general partner of AltaGas LP 1 and AltaGas LP 2;

"Holding Trust" means AltaGas Holding Trust, an unincorporated investment trust established under the laws of Alberta, all of the beneficial interests of which are owned by the Trust;

"NGLs" means natural gas liquids;

"Note Trustee" means Computershare Trust Company of Canada, as initial trustee under the Trust Indenture, and any successor thereto or replacement thereof;

"Special Voting Unit" means the special voting unit of the Trust issued by the Trust and deposited with the Voting and Exchange Trustee to which is attached that number of voting rights (each such voting right being equal to the voting rights

attached to one trust unit) equal to the number of outstanding Exchangeable Units held by registered holders, other than the Trust and its affiliates;

"Trust Indenture" means the trust indenture dated as of May 12, 2005, as amended and supplemented from time to time, between the Trust and the Note Trustee providing for the issuance of debt securities hereunder;

"Trustee" means Computershare Trust Company of Canada, as initial trustee pursuant to the Declaration of Trust;

"Unitholders" means the holders from time to time of trust units of the Trust;

"Voting and Exchange Trust Agreement" means the voting and exchange trust agreement dated May 1, 2004 among the Trust, AltaGas LP 1, AltaGas LP 2 and the Voting and Exchange Trustee, as from time to time amended, supplemented or restated; and

"Voting and Exchange Trustee" means Computershare Trust Company of Canada, as initial trustee under the Voting and Exchange Trust Agreement, or such other person as becomes the trustee under the Voting and Exchange Trust Agreement in accordance with such agreement.

All dollar amounts set forth in this prospectus are expressed in Canadian dollars unless otherwise indicated.

NOTE REGARDING FORWARD LOOKING STATEMENTS

This prospectus and the documents incorporated by reference herein contain forward-looking statements. When used in this prospectus and the documents incorporated by reference herein, the words "may", "would", "could", "will", "intend", "plan", "anticipate", "believe", "seek", "propose", "estimate", "expect", and similar expressions, as they relate to the Trust or an affiliate of the Trust, are intended to identify forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. Such statements reflect the Trust's current views with respect to future events and are subject to certain risks, uncertainties and assumptions, including, without limitation, those described in this prospectus under the heading "Risk Factors". Many factors could cause the Trust's actual results, performance or achievements to vary from those described in this prospectus and the documents incorporated by reference herein. Should one or more of these risks or uncertainties materialize, or should assumptions underlying forward-looking statements prove incorrect, actual results may vary materially from those described in this prospectus and the documents incorporated by reference herein as intended, planned, anticipated, believed, estimated or expected, and such forward-looking statements included in this prospectus or the documents incorporated by reference herein should not be unduly relied upon. These statements speak only as of the date of this prospectus or as of the date specified in the documents incorporated by reference herein, as the case may be. The Trust does not intend, and does not assume any obligation, to update these forward-looking statements except as required pursuant to applicable securities laws.

In particular, this prospectus and the documents incorporated by reference herein contain forward-looking statements pertaining to the following: the amount and timing of distributions in respect of the trust units; treatment under applicable tax legislation; expectations regarding the ability to maintain its competitive position; expectations regarding the ability to raise capital; treatment under governmental regulatory regimes; and commodity prices.

Actual results could differ materially from those anticipated in these forward-looking statements as a result of the risk factors set forth below and elsewhere in this prospectus: general economic conditions in Canada and the United States; industry conditions; governmental regulations; volatility of commodity prices; currency fluctuations; environmental risks; competition; lack of availability of qualified personnel or management; the ability to integrate technological advances and match advances of competition; the availability of capital; and the other factors considered under "Risk Factors".

These factors should not be construed as exhaustive.

DESCRIPTION OF CASH FLOW OF THE TRUST

Throughout this prospectus and the documents incorporated by reference herein, the Trust uses the term "Cash Flow of the Trust" to refer to the amount of cash that is to be available for distributions to Unitholders. Management of the Trust believes that Cash Flow of the Trust is a useful indication of the performance of the Trust and an indicator of cash that will be available for distributions to Unitholders. "Cash Flow of the Trust" is not a measure recognized by Canadian generally accepted accounting principles ("GAAP") and does not have a standardized meaning prescribed by GAAP, but is an amount calculated in accordance with the terms of the Declaration of Trust. Therefore, Cash Flow of the Trust may not be comparable to similar measures presented by other issuers, and investors are cautioned that Cash Flow of the Trust should not be considered as an alternative to net earnings, cash flow from operating activities or other measures of financial performance calculated in accordance with GAAP.

DOCUMENTS INCORPORATED BY REFERENCE

Information has been incorporated by reference in this short form prospectus from documents filed with securities commissions or similar authorities in Canada. For the purpose of the Province of Québec, this simplified prospectus contains information to be completed by consulting the permanent information record. Copies of the documents incorporated herein by reference and of the permanent information record may be obtained on request without charge from the Vice-President, General Counsel and Corporate Secretary of AltaGas at 1700, 355 – 4th Avenue S.W., Calgary,

Alberta, T2P 0J1, Telephone: (403) 691-7575. These documents are also available through the Internet on the System for Electronic Document Analysis and Retrieval (SEDAR), which can be accessed at www.sedar.com.

The following documents of the Trust, filed with the various provincial securities commissions or similar authorities in Canada, are specifically incorporated into and form an integral part of this prospectus, provided that such documents are not incorporated by reference to the extent that their contents are modified or superseded by a statement contained in this prospectus or in any other subsequently filed document that is also incorporated by reference in this prospectus:

(a) the audited comparative consolidated financial statements of the Trust and notes thereto for the years ended December 31, 2004 and 2003 together with the auditors' report thereon, and management's discussion and analysis of results of operations and financial condition for the year ended December 31, 2004;

(b) the Annual Information Form of the Trust dated March 16, 2005 (the "AIF") for the year ended December 31, 2004;

(c) the Information Circular dated March 16, 2005 relating to the Annual Meeting of Unitholders of the Trust held on April 28, 2005 (the "Information Circular"), excluding the sections entitled "Report on Employee and Executive Compensation", "Performance Graph" and "Statement of General Partner's Governance Practices"; and

(d) the unaudited comparative consolidated financial statements of the Trust and notes thereto for the three months ended March 31, 2005 and 2004, and management's discussion and analysis of results of operations and financial condition for the three months ended March 31, 2005.

Any material change reports (except confidential material change reports), unaudited interim comparative consolidated financial statements and accompanying management's discussion and analysis, audited comparative consolidated financial statements and the auditors' report thereon and information circulars (excluding the disclosure in an information circular relating to the downward repricing of options or stock appreciation rights, the composition of the Trust's compensation committee and its report on executive compensation, the performance graph and corporate governance practices) and annual information forms filed by the Trust with the provincial securities commissions or similar authorities in Canada after the date of this prospectus and before the termination of the offering, are deemed to be incorporated by reference in this prospectus.

Upon a new annual information form and related audited annual consolidated financial statements and accompanying management's discussion and analysis being filed by the Trust with, and where required, accepted by, the applicable securities regulatory authorities during the currency of this prospectus, the previous annual information form, the previous audited annual consolidated financial statements and accompanying management's discussion and analysis and all unaudited interim consolidated financial statements and accompanying management's discussion and analysis, information circulars and material change reports filed prior to the commencement of the Trust's financial year in which the new annual information form is filed shall be deemed no longer to be incorporated into this prospectus for purposes of future offers and sales of Securities under this prospectus.

Upon unaudited interim consolidated financial statements and the accompanying management's discussion and analysis being filed by the Trust with the applicable securities regulatory authorities during the currency of this prospectus, all unaudited interim consolidated financial statements and the accompanying management's discussion and analysis filed prior to the new unaudited interim consolidated financial statements shall be deemed no longer to be incorporated into this prospectus for purposes of future offers and sales of Securities under this prospectus.

Any statement contained in this prospectus or in a document incorporated or deemed to be incorporated by reference herein shall be deemed to be modified or superseded for purposes of this prospectus to the extent that a statement contained herein or in any other subsequently filed document which also is or is deemed to be incorporated by reference herein modifies or supersedes such statement. The modifying or superseding statement need not state that it has modified or superseded a prior statement or include any other information set forth in the document that it modifies or supersedes. Any statement so modified or superseded shall not be deemed to constitute a part of this prospectus, except as so modified or superseded.

Updated earnings coverage ratios will be filed quarterly with applicable securities regulatory authorities either as prospectus supplements or as exhibits to the Trust's unaudited interim consolidated financial statements and audited annual consolidated financial statements and will be deemed to be incorporated by reference in this prospectus for the purpose of the offering of debt securities.

A prospectus supplement containing the specific terms of any Securities offered thereunder will be delivered to purchasers of such Securities together with this prospectus and will be deemed to be incorporated by reference into this prospectus as of the date of the prospectus supplement solely for the purposes of the offering of the Securities covered by that prospectus supplement.

ALTAGAS INCOME TRUST

General

The Trust is an unincorporated open-ended investment trust governed by the laws of Alberta and created pursuant to the Declaration of Trust. The head and principal office of the Trust is located at 1700, 355 - 4th Avenue S.W., Calgary, Alberta T2P 0J1. The Trust was established principally for the purposes of acquiring or investing in the securities of entities involved in the business of, or the ownership, lease or operation of assets or property in connection with gathering, processing, transporting, extracting, buying, storing or selling petroleum, natural gas, NGLs or other related products, power or other forms of energy and related businesses and such other investments as the Trust may determine.

The Unitholders are the sole beneficiaries of the Trust. Computershare Trust Company of Canada is the initial trustee of the Trust.

General Partner

The Trust is administered by the General Partner, which is also the general partner of AltaGas LP 1 and AltaGas LP 2. The board of directors of the General Partner also has the power to manage, or supervise the management of, the business and affairs of AltaGas pursuant to a unanimous shareholder agreement.

Business of AltaGas

AltaGas is an energy infrastructure based company and an indirect subsidiary of the Trust. AltaGas, directly and indirectly:

- Physically gathers, processes, extracts and transports natural gas;
- Contractually markets and transports natural gas and electrical power and performs similar services as agent on behalf of energy users;
- Converts energy across and along the energy value chain to create higher-value added products; and
- Consumes natural gas and electrical power to operate its facilities.

AltaGas expects to continue to develop its asset base by seeking opportunities for expansion and acquisition in the natural gas, NGLs and power businesses in Canada and, through it United States affiliates, in the northern United States.

AltaGas administers the affairs of the Trust, Holding Trust, the General Partner, AltaGas LP 1, AltaGas LP 2, AltaGas Limited Partnership, Premstar Energy Canada Limited Partnership and ECNG Limited Partnership.

USE OF PROCEEDS

The net proceeds to be derived from the sale of trust units or debt securities will be the issue price less any commission paid in connection therewith and expenses relating to the particular offering of trust units or debt securities. Unless otherwise specified in a prospectus supplement, the net proceeds from the sale of the Securities will be used for general trust purposes, to repay indebtedness and to fund capital expenditures. The amount of net proceeds to be used for any such purpose will be set forth in a prospectus supplement. The Trust may, from time to time, issue securities (including debt securities) other than pursuant to this prospectus.

RATINGS

Stability ratings are intended to convey the opinion of a rating agency in respect of the relative stability and sustainability of an income trust's distribution stream when compared to other rated Canadian income trusts. S&P has assigned a stability rating of SR-3 to the Trust and DBRS has assigned a stability rating of STA-3 (middle) to the Trust. S&P's stability ratings range from a high of SR-1 to a low of SR-7 and DBRS' stability ratings range from a high of STA-1 to a low of STA-7.

According to the S&P stability rating system, a stability rating of SR-3 indicates that the Trust has a high level of cash distribution stability relative to other rated Canadian income funds. According to the DBRS stability rating system, a stability rating of STA-3 is considered to have good stability and sustainability of distributions per unit. DBRS further separates the ratings into high, middle and low to indicate where within the rating category the income trusts fall. Stability ratings take into consideration seven main factors of operational and industry characteristics, asset quality, financial flexibility, size and market position, diversification, sponsorship and growth. In addition, consideration is given to specific structural or contractual elements that may eliminate or mitigate risks or other potentially negative factors. A stability rating is not a recommendation to buy, sell or hold securities and is subject to revision or withdrawal by S&P or DBRS at any time.

Issuer credit ratings are intended to convey the opinion of a rating agency in respect of an obligor's overall financial capacity to pay its financial obligations. S&P has assigned a long term issuer credit rating of BBB- with a stable outlook to the Trust and DBRS has assigned a long term issuer credit rating of BBB (low) with a stable outlook to the Trust. S&P's and DBRS' long term issuer credit ratings range from a high of AAA to a low of D.

According to the S&P long term issuer credit rating system, an obligor rated BBB has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories. According to the DBRS rating system, long-term debt rated BBB is of adequate credit quality. Protection of interest and principal is considered acceptable, but the entity is fairly susceptible to adverse changes in financial and economic conditions, or there may be other adverse conditions present which reduce the strength of the entity and its rated securities. "High" or "low" grades are used to indicate the relative standing within a particular rating category. An issuer credit rating is not a recommendation to purchase, sell or hold securities, as such does not comment on market price or suitability for a particular investor, and is subject to revision or withdrawal by S&P at any time.

EARNINGS COVERAGE

The following financial ratios have been calculated on a consolidated basis for the 12 month period ended December 31, 2004 and are based on audited financial information. The following ratios do not give effect to the issue of any debt securities pursuant to this prospectus. The financial ratios have been calculated based on Canadian generally accepted accounting principles.

	December 31, 2004
Earnings coverage on short term and long-term debt	4.3 times

DESCRIPTION OF TRUST UNITS

Trust Units

An unlimited number of trust units may be created and issued pursuant to the Declaration of Trust. Each trust unit entitles the holder thereof to one vote at any meeting of the Unitholders or in respect of any written resolution of Unitholders and represents an equal undivided beneficial interest in any distribution from the Trust (whether of income, net realized capital gains or other amounts) and in any net assets of the Trust in the event of termination or winding-up of the Trust. All trust units shall rank among themselves equally and rateably without discrimination, preference or priority, whatever may be the actual date or terms of issue thereof. Each trust unit is transferable, is not subject to any conversion or pre-emptive rights and entitles the holder thereof to require the Trust to redeem any or all of the trust units held by such holder.

Issuance of Units

The Declaration of Trust provides that trust units, including exchangeable securities, rights, warrants, options or other securities convertible into or exchangeable for trust units, may be created, issued, sold and delivered on such terms and conditions and at such times as the Trustee may determine. The Declaration of Trust also provides that the Trustee may authorize the creation and issuance of any type of debt securities or convertible debt securities of the Trust from time to time on such terms and conditions to such persons and for such consideration as the Trustee may determine.

Special Voting Units

The Declaration of Trust allows for the creation of special voting units which enables the Trust to provide voting rights to holders of exchangeable securities. A Special Voting Unit was issued pursuant to the Arrangement to enable the holders of Exchangeable Units issued by AltaGas LP 1 and AltaGas LP 2 to vote at meetings of Unitholders. The Special Voting Unit created and issued pursuant to the Arrangement was issued to the Voting and Exchange Trustee. The holder of a special voting unit, including in respect of the Special Voting Unit, the Voting and Exchange Trustee, is not entitled to any interest or share in the distributions or net assets of the Trust and is only entitled to such number of votes at meetings of Unitholders as is equal to the number of trust units into which the exchangeable securities to which such special voting unit relates are exchangeable or convertible.

Under the terms of the Voting and Exchange Trust Agreement, the Trust has issued the Special Voting Unit to the Voting and Exchange Trustee for the benefit of every person who received Exchangeable Units pursuant to the Arrangement. The Voting and Exchange Trustee is obligated to vote the Special Voting Unit at meetings of Unitholders pursuant to the instructions of the holders of Exchangeable Units. However, if no instructions are provided by the holders of Exchangeable Units, the votes associated therewith in the Special Voting Unit will be withheld from voting.

The special voting units will be subject to such other rights and limitations as may be determined by the Trustee at the time of issuance of the special voting unit. The Declaration of Trust provides that, upon the exchange of Exchangeable Units for trust units, the entitlement to vote pursuant to the Special Voting Unit will be eliminated in respect of those Exchangeable Units.

Distributions

Pursuant to the Declaration of Trust, the Trust is required to make cash distributions to Unitholders each calendar month (or such other periods as may be determined by the Trustee) of all or any part of the Cash Flow of the Trust. Cash received by the Trust from its subsidiaries will be managed by the General Partner, giving consideration to the consolidated net income of the Trust, the consolidated growth and maintenance capital requirements of the Trust, the consolidated debt repayment requirements of the Trust and other factors. The intent of the General Partner is to maximize the cash received by the Trust from its subsidiaries giving consideration to these various factors.

Distributions in respect of a month will be paid to Unitholders of record as at the close of business on each determined distribution record date. The distribution for any month will be paid on the determined distribution payment date. In addition, the Declaration of Trust provides that, if necessary, on December 31st of each year, the Trust will distribute an additional amount such that the Trust will not be liable for ordinary income taxes for such year.

For additional information in respect of the trust units, including information respecting limitations on non-resident ownership, the redemption right attached to the trust units, meetings of Unitholders and amendments to the Declaration of Trust, see "Declaration of Trust and Description of Units" on pages 43 through 48, inclusive, of the AIF.

DESCRIPTION OF DEBT SECURITIES

The debt securities will be issued under the Trust Indenture. The following description of the terms of debt securities sets forth certain general terms and provisions of debt securities in respect of which a prospectus supplement will be filed. The particular terms and provisions of debt securities offered by any prospectus supplement, and the extent to which the general terms and provisions described below may apply thereto, will be described in the prospectus supplement filed in respect of such debt securities.

The following summaries of certain provisions of the Trust Indenture and the debt securities do not purport to be complete and such summaries are subject to the detailed provisions of the Trust Indenture to which reference is hereby made, including the definitions of certain terms used herein, and for other information regarding the debt securities. A copy of the Trust Indenture may be reviewed at the offices of the Trust in Calgary, Alberta during normal business hours during the period of distribution of any debt securities.

General

The aggregate principal amount of debt securities authorized under the Trust Indenture is unlimited and debt securities may be issued from time to time in one or more series thereunder. The debt securities will be unsecured and will be unsubordinated obligations of the Trust.

Certain terms of each issue of debt securities, as well as any modifications of or additions to the general terms of the debt securities as described herein that may be applicable to a particular issue of debt securities, will be described in the prospectus supplement relating to the offering of such debt securities.

Reference is made to the prospectus supplement for the following applicable terms of, and information relating to, the debt securities being offered thereby:

(a) the specific designation, aggregate principal amount, authorized denominations and maturity dates of the debt securities;

(b) the rate or rates of interest, which may be a fixed rate or floating rate, and the amounts payable in respect of principal and premium, if any, on the debt securities;

(c) covenants relating to the payment of principal and interest on the debt securities and other covenants applicable to such debt securities to which the Trust will be bound;

(d) the date or dates from which interest shall accrue, the dates on which interest shall be payable and the record dates for the interest payable on any interest payment date;

(e) the place or places where the principal of and premium, if any, and interest on the debt securities will be payable;

(f) the period or periods within which, the price or prices at which, and the terms and conditions upon which, the debt securities may be redeemed, in whole or in part, at the option of the Trust;

(g) the obligation, if any, of the Trust to redeem, purchase or repay the debt securities pursuant to any mandatory redemption, sinking fund or analogous provisions or at the option of a holder thereof; and the period or periods within which, the price or prices at which, and the terms and conditions upon which, the debt securities shall be redeemed or purchased, in whole or in part, pursuant to such obligation or option;

(h) provisions relating to the conversion of the debt securities for trust units or other securities of the Trust or its subsidiaries;

(i) the currency or currencies (which may be in the Canadian dollar or in any other currency) in which the debt securities will be denominated and in which the principal of and premium, if any, and interest on such debt securities will be payable;

(j) the application, if any, of any defeasance provisions to the debt securities; and

(k) whether the debt securities may be exchanged or converted into securities of the Trust or another issuer.

The debt securities may be issued as original issue discount debt securities (bearing no interest, or interest at a rate that at the time of issuance is below market rates) at prices below their stated principal amount.

Ranking

The debt securities will be direct, unsecured obligations of the Trust and, subject to certain exceptions set forth in the Trust Indenture, will rank *pari passu* with all other present and future unsubordinated and unsecured indebtedness of the Trust.

Form of Debt Securities

Unless otherwise specified in the applicable prospectus supplement, the debt securities will be issued only in the form of fully registered global notes (the "Global Notes") to be held by, or on behalf of, The Canadian Depository for Securities Limited ("CDS"), as depositary for its Participants (as defined below), and will be registered in the name of CDS or its nominee. Debt securities represented by Global Notes will not be issued in definitive form unless (i) the Trust, in its sole discretion, elects to prepare and deliver definitive notes (the "Definitive Notes"), (ii) CDS notifies the Trust that it is unwilling or unable to continue to be depositary in connection with a Global Note, (iii) CDS ceases to be eligible to be

a depositary and the Trust is unable to find a qualified successor, or (iv) holders of not less than 25% of the debt securities, following the occurrence of an event of default which is continuing under the Trust Indenture, request debt securities to be issued as Definitive Notes.

Beneficial interests in the Global Notes, constituting ownership of the debt securities, will be represented through book-entry accounts of institutions acting on behalf of owners of debt securities, as direct and indirect participants (the "Participants") of CDS. Each purchaser of a debt security represented by a Global Note will receive a customer confirmation of purchase from the dealer from which the debt security is purchased in accordance with the practices and procedures of such dealer. Such practices may vary between dealers, but generally customer confirmations are issued promptly following execution of a customer order. CDS will be responsible for establishing and maintaining book-entry accounts for its Participants having interests in Global Notes.

Unless otherwise specified in the applicable prospectus supplement, debt securities will be issued in denominations of $5,000 and multiples of $1,000 above such amount.

Transfer of Debt Securities

Transfer of ownership of debt securities represented by Global Notes will be effected through records maintained by CDS or its nominee for such Global Notes (with respect to interests of Participants) and through the records of Participants (with respect to interests of persons other than Participants). Unless debt securities are issued as Definitive Notes, owners of debt securities who are not Participants in CDS's book-entry system, but who desire to purchase, sell or otherwise transfer ownership of debt securities, may do so only through Participants in CDS's book-entry system.

The ability of an owner of a debt security represented by a Global Note to pledge or otherwise take action with respect to such owner's debt security (other than through a Participant) may be limited by the unavailability of a certificate registered in such owner's name.

Payment of Principal, Premium and Interest

Payments of interest, if any, and principal of and premium, if any, on each Global Note will be made to CDS or its nominee, as the case may be, as registered holder of the Global Note. So long as CDS or its nominee is the registered holder of a Global Note, CDS or its nominee, as the case may be, will be considered to be the sole owner of the Global Note for the purpose of receiving payments of interest, if any, and principal of and premium, if any, on such Global Note and for all other purposes under such Global Note. The record date for the payment of interest will be the tenth business day prior to the applicable interest payment date.

The Trust understands that CDS or its nominee, upon receipt of any payment of interest, if any, or principal and premium, if any, in respect of a Global Note, will credit Participants' accounts, on the date interest, if any, or principal and premium, if any, is paid, with payments in amounts proportionate to their respective interests in the principal amount of such Global Note as shown on the records of CDS or its nominee. The Trust also understands that payments of interest, if any, or principal and premium, if any, by Participants to the owners of beneficial interests in such Global Note held through such Participants will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participants. The responsibility and liability of the Trust in respect of payments on Global Notes are limited solely and exclusively, while the debt securities are represented by a Global Note, to making payment of interest, if any, and principal and premium, if any, due on such Global Note to CDS or its nominee. The Trust will not have any responsibility or liability for any aspect of the records relating to beneficial interests in the Global Note or for maintaining, supervising or reviewing any records relating to such beneficial interests.

If the due date for payment of interest, if any, or principal of or premium, if any, on any debt security is not, at the place of payment, a business day, such payment will be made on the next business day and the holder of such debt security will not be entitled to any further interest or other payment in respect of such delay.

Modification

The Trust Indenture provides that supplemental indentures containing modifications and alterations thereto may be made by the Note Trustee and the Trust: (a) to add or amend covenants of the Trust to protect or benefit holders of debt securities or to provide for additional events of default; (b) to make such provisions not inconsistent with the Trust Indenture with respect to matters or questions arising under the Trust Indenture including the making of any modifications to the form of debt securities which do not affect the substance thereof, provided that in the opinion of the Note Trustee such provisions and modifications shall not be prejudicial to the interests of holders of debt securities; (c) to evidence succession; (d) to establish the terms and conditions attached to an issue of debt securities; (e) to give effect to an Extraordinary Resolution (as defined below) of holders of debt securities; (f) to make amendments to the Trust Indenture to comply with applicable law; and (g) for any other purpose not inconsistent with the Trust Indenture.

The Trust Indenture also provides that the holders of debt securities or holders of debt securities of a particular series shall have the power to modify the rights of the holders of debt securities or holders of debt securities of a particular series, as applicable, under the Trust Indenture. For that purpose, among others, the Trust Indenture contains provisions to render binding on holders of debt securities, or holders of debt securities of a particular series, resolutions passed by the affirmative votes of the holders of not less than 66 2/3% of the aggregate principal amount of debt securities or of debt securities of a particular series who are present in person or represented by proxy at the meeting or serial meeting, as the case may be, or instruments in writing signed by holders of not less than 66 2/3% of the principal amount of outstanding debt securities or debt securities of a particular series entitled to vote thereon ("Extraordinary Resolutions"). The quorum for meetings of holders of debt securities or serial meetings for holders of debt securities of a particular series at which such an Extraordinary Resolution will be considered shall be holders representing not less than 50% of the principal amount of outstanding debt securities or debt securities of a particular series then entitled to vote thereon. In certain circumstances, if holders representing not less than 50% of the principal amount of debt securities or debt securities of a particular series are not represented at the meeting or serial meeting, then the meeting or serial meeting shall stand adjourned and if properly reconvened in accordance with the terms of the Trust Indenture then those holders represented at the reconvened meeting or serial meeting shall constitute a proper quorum to consider, vote on and pass an Extraordinary Resolution.

PLAN OF DISTRIBUTION

The Trust may offer and sell the Securities to or through underwriters or dealers purchasing as principals, and also may sell the Securities directly to one or more purchasers pursuant to applicable statutory exemptions or through agents. The distribution of the Securities may be effected from time to time in one or more transactions at a fixed price or prices, or at non-fixed prices. If offered on a non-fixed price basis, the Securities may be offered at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at prices to be negotiated with purchasers at the time of sale, which prices may vary as between purchasers and during the period of distribution.

The prospectus supplement relating to each offering of Securities will identify each underwriter, dealer or agent, as the case may be, and will also set forth the terms of the offering, including the type of security being offered, the public offering price (or the manner of determination thereof if offered on a non-fixed price basis), the proceeds to the Trust and any compensation payable to the underwriters, dealers or agents.

If underwriters are used in the sale, the Securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale, at market prices prevailing at the time of sale or at prices related to such prevailing market prices. The obligations of the underwriters to purchase such Securities will be subject to certain

conditions precedent, and the underwriters will be obligated to purchase all of the Securities offered by the prospectus supplement if any such securities are purchased.

In connection with any offering of Securities, the underwriters, dealers or agents, as the case may be, may over allot or effect transactions which stabilize or maintain the market price of the Securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. Any underwriters, dealers or agents to or through whom Securities are sold by the Trust for public offering and sale may make a market in the Securities at any time without notice. No assurance can be given that a trading market in the Securities will develop or as to the liquidity of any trading market of the Securities.

RISK FACTORS

Investment in the Securities is subject to various risks including those risks inherent to the industry in which the Trust operates. Before deciding whether to invest in any Securities, investors should consider carefully the risks incorporated by reference in this prospectus (including subsequently filed documents incorporated by reference) and those described in a prospectus supplement relating to a specific offering of Securities.

Discussions of certain risk factors affecting the Trust in connection with its business are provided in the Trust's disclosure documents filed with the various securities regulatory authorities which are incorporated by reference in this prospectus. In particular, see "Risk Factors" in the AIF and "Business Risks" in the description of each of the Trust's business segments in the management's discussion and analysis of results of operations and financial condition. Before investing, prospective purchasers of Securities should carefully consider the information contained or incorporated by reference in this prospectus.

LEGAL MATTERS

Unless otherwise specified in a prospectus supplement, certain legal matters relating to the Securities offered by a prospectus supplement will be passed upon, on behalf of the Trust, by Fraser Milner Casgrain LLP. If any underwriters, dealers or agents named in a prospectus supplement retain their own counsel to pass upon legal matters relating to the Securities, the counsel will be named in the prospectus supplement.

AUDITORS, TRANSFER AGENT AND REGISTRAR

The auditors of the Trust are Ernst & Young LLP, Chartered Accountants, Calgary, Alberta.

The transfer agent and registrar for the trust units is Computershare Trust Company of Canada at its principal offices in Toronto and Calgary.

STATUTORY RIGHTS OF WITHDRAWAL AND RESCISSION

Securities legislation in certain of the provinces of Canada provides purchasers with the right to withdraw from an agreement to purchase securities. This right may be exercised within two business days after receipt or deemed receipt of a prospectus and any amendment. In several of the provinces, the securities legislation further provides a purchaser with remedies for rescission or, in some jurisdictions, damages if the prospectus and any amendment contains a misrepresentation or is not delivered to the purchaser, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's province. The purchaser should refer to any applicable provisions of the securities legislation of the province in which the purchaser resides for the particulars of these rights or consult with a legal advisor.

AUDITORS' CONSENT

We have read the short-form prospectus of AltaGas Income Trust (the "Trust") dated May 18, 2005 relating to the qualification for distribution of $500,000,000 aggregate principal amount of trust units and debt securities of the Trust. We have complied with Canadian generally accepted standards for an auditors' involvement with offering documents.

We consent to the incorporation by reference in the above-mentioned short-form prospectus of our report to the Unitholders of the Trust on the consolidated balance sheets of the Trust as at December 31, 2004 and 2003 and the consolidated statements of income and retained earnings and cash flows for the years then ended. Our report is dated February 14, 2005.

Calgary, Alberta
May 18, 2005

CERTIFICATE OF THE TRUST

Dated: May 18, 2005

This short form prospectus, together with the documents incorporated in this prospectus by reference, will, as of the date of the last supplement to this prospectus relating to the securities offered by this prospectus and the supplement(s), constitute full, true and plain disclosure of all material facts relating to the securities offered by this prospectus and the supplement(s) as required by the securities legislation of each of the provinces of Canada and will not contain any misrepresentation likely to affect the value or the market price of the securities to be distributed.

RECEIVED

TRUST INDENTURE

May 12, 2005

BETWEEN:

ALTAGAS INCOME TRUST, a trust formed under the laws of the Province of Alberta (the **"Trust"**)

and

COMPUTERSHARE TRUST COMPANY OF CANADA, a trust company having an office in Calgary, Alberta (the **"Trustee"**)

Recitals

A. The Trust desires to raise money through the issuance and sale of Debentures provided for by this Trust Indenture.

B. The Trust is duly authorized to create and issue the Debentures as herein provided.

C. All necessary trust action and other proceedings have been taken and conditions complied with to make the creation and issue of the Debentures hereunder and this Trust Indenture and the execution thereof legal, valid and binding on the Trust in accordance with the laws relating to the Trust.

D. The foregoing recitals are made as representations and statements of fact by the Trust and not by the Trustee.

The parties agree as follows:

ARTICLE 1
INTERPRETATION

1.1 Definitions

In this Trust Indenture and in the Debentures, unless there is something in the subject matter or context inconsistent therewith, the following expressions shall have the following meanings, namely:

"Additional Debentures" means Debentures of any one or more series other than the Medium Term Notes;

"Administrator" means AltaGas Ltd. and its successors and includes any other Person appointed by the Trust as the administrator of its business and affairs in place of AltaGas Ltd. and its successors;

"Business Day" means a day which is not a Saturday or Sunday or a civic or statutory holiday in Calgary, Alberta;

"Commodity Swap" means an agreement or arrangement entered into by the Trust or a Subsidiary of the Trust and a counterparty (that is not an affiliate thereof) on a case by case basis, the purpose and effect of which is to mitigate or eliminate the exposure of the Trust or the Subsidiary to fluctuations in commodity prices and includes any such agreement or arrangement for the making or taking of physical delivery of any commodity;

"Consolidated Equity" means, in respect of the Trust and its Designated Subsidiaries, as of the date of determination thereof and as determined in accordance with Generally Accepted Accounting Principles on a consolidated basis, without duplication, an amount equal to the amount of equity of the Trust as shown on a consolidated balance sheet of the Trust and its Designated Subsidiaries including, without limitation, unitholders' capital, contributed surplus, accumulated earnings and other equity entries;

"Consolidated Total Assets" means, in respect of the Trust and its Designated Subsidiaries, as of the date of determination thereof and as determined in accordance with Generally Accepted Accounting Principles on a consolidated basis, without duplication, an amount equal to the total assets of the Trust and its Designated Subsidiaries as shown on a consolidated balance sheet of the Trust and its Designated Subsidiaries;

"Counsel" means a barrister or solicitor or firm of barristers or solicitors retained or employed by the Trustee or retained or employed by the Trust and acceptable to the Trustee;

"Currency Swap" means an agreement or arrangement entered into between the Trust or a Subsidiary of the Trust and a counterparty (that is not an affiliate thereof) on case by case basis, the purpose and effect of which is to mitigate or eliminate the exposure by the Trust or the Subsidiary to fluctuations in currency exchange rates;

"Debentures" means the debentures, notes or other evidences of indebtedness of any one or more series of the Trust issued and certified hereunder and for the time being outstanding, whether in definitive or interim form, and without limiting the generality of the foregoing:

(a) **"fully registered Debentures"** means Debentures which are registered as to principal and interest as hereinafter provided; and

(b) **"Registered Global Debenture"** means a Debenture representing all or part of any series of Debentures that is issued to and registered in the name of the Depositary for such series, or its nominee, pursuant hereto;

"Debentureholders" means, as regards fully registered Debentures, the several Persons for the time being entered in the registers hereinafter mentioned as holders of any of the Debentures;

"Depositary" means, with respect to the Debentures of any series issuable or issued in the form of one or more Registered Global Debentures, the Person designated as Depositary by the Trust pursuant to this Trust Indenture until a successor Depositary shall have become such pursuant to the applicable provisions of this Trust Indenture, and thereafter "Depositary" shall mean each Person who is then a Depositary hereunder; and if at any time there is more than one such Person, "Depositary" as used with respect to the Debentures of a series shall mean the Depositary with respect to the Registered Global Debentures of such series;

"Designated Subsidiary" means any Subsidiary of the Trust which by Written Direction of the Trust is declared to be a Designated Subsidiary, provided that any Designated Subsidiary may by Written Direction of the Trust be declared to no longer be a Designated Subsidiary if, at the time of any such declaration and after giving effect thereto, the ratio of Funded Obligations to Total Capitalization would not exceed 70%;

"Director" means a director of the Administrator for the time being and **"Directors"** means the directors of the Administrator or, if duly constituted and whenever duly empowered, the executive committee of the directors of the Administrator for the time being, and reference to action by the directors means action by the directors of the Administrator as a board or action by the executive committee as such committee;

"Event of Default" means any event specified in Section 8.1, provided that there has been satisfied any requirement in connection with such event for the giving of notice, or the lapse of time, or the happening of any further condition, event or act;

"Extraordinary Resolution" has the meaning set forth in Section 11.12 and 11.15;

"Funded Obligations" means, in respect of the Trust and its Designated Subsidiaries, as of the date of determination thereof and as determined in accordance with Generally Accepted Accounting Principles on a consolidated basis, without duplication, an amount equal to the Indebtedness which would be classified as long term debt on a consolidated balance sheet of the Trust and its Designated Subsidiaries excluding (a) Non-Recourse Debt; (b) Subordinated Debt; (c) Purchase Money Obligations; and (d) any amount in respect of obligations of the Trust to a Designated Subsidiary or of a Designated Subsidiary to the Trust or another Designated Subsidiary;

"Generally Accepted Accounting Principles" means Generally Accepted Accounting Principles established by the Canadian Institute of Chartered Accountants, or any successor thereto, consistently applied by the Trust, except for any changes in any method of accounting or changes in accounting policies which may be required by any regulatory authority or may be implemented by the Trust as a result of any changes usual to the business of the Trust, which are in effect from time to time in Canada;

"Governmental Authority" means: (a) any federal, provincial, state, county, local or municipal government; (b) any governmental body, agency, authority, board, bureau, department or commission (including any taxing authority); and (c) any instrumentality

or office of any of the foregoing (including any court or tribunal) exercising executive, legislative, judicial, regulatory or administrative functions;

"Indebtedness" means all items of indebtedness in respect of any amounts borrowed which, in accordance with Generally Accepted Accounting Principles, would be recorded in the financial statements as at the date of which Indebtedness is to be determined, and in any event including, without duplication:

(a) obligations secured by any Security Interest existing on property owned subject to such Security Interest, whether or not the obligations secured thereby shall have been assumed; and

(b) guarantees, indemnities, endorsements (other than endorsements for collection in the ordinary course of business) or other contingent liabilities in respect of obligations of another person for indebtedness of that other person in respect of any amounts borrowed by them;

"Interest Swap" means an agreement or arrangement entered into between the Trust or a Subsidiary of the Trust and a counterparty (that is not an affiliate thereof) on a case by case basis, the purpose and effect of which is to mitigate or eliminate the exposure of the Trust or the Subsidiary to fluctuations in interest rates;

"Material Adverse Effect" means any event, circumstance, occurrence or change which would reasonably be expected to materially impair or have a material adverse effect on (a) the ability of the Trust to repay the amounts outstanding under the Debentures; or (b) the ability of the Trust to perform any of its other obligations hereunder; or (c) the validity or enforceability of this Trust Indenture or the Debentures or the priority of the Debentures;

"Medium Term Notes" has the meaning set forth in Section 4.1(a);

"Non-Recourse Debt" means indebtedness, liabilities or other obligations including guarantees, indemnities, endorsements (other than endorsements for collection in the ordinary course of business) or other contingent obligations in respect of obligations for another Person and, in each case, incurred or assumed to finance or refinance the creation, construction, development or acquisition directly or indirectly of assets and any increases in or extensions, renewals or refunding of any such indebtedness, liabilities and obligations provided that the recourse of the lender thereof (or any agent, trustee, receiver or other Person acting on behalf of the lender in respect of such indebtedness, liabilities and obligations) or any judgement in respect thereof is limited, in all circumstances (other than in respect of false or misleading representations and warranties and customary indemnities provided with respect to such financings, in respect of which such lender (or other Person acting on behalf of such lender) may have recourse on an unsecured basis) to the assets directly or indirectly created, constructed, developed or acquired (including all personal property arising from or related to such assets) in respect of which such indebtedness, liabilities or other obligations have been incurred or assumed and to any receivables, inventory, equipment, chattel paper, intangibles and other rights, collateral or

proceeds arising from or connected with such assets (and, for certainty, shall include the shares or other ownership interests of a single purpose entity which holds directly or indirectly only such assets and other rights and collateral arising from or connected therewith) and to which such lender (or other Person acting on behalf of such lender) has recourse;

"Officers' Certificate" means a certificate signed by any two officers of the Administrator, provided at least one signatory is the Chief Executive Officer, the President, the Chief Financial Officer, or a Vice President;

"Paying Agent" means any Person, which may be the Trust, authorized by the Trust to pay the principal of and premium, if any, and interest on any Debentures on behalf of the Trust;

"Permitted Encumbrances" means, with respect to any Person and any property, any of the following:

(a) any Security Interest given on current assets in the ordinary course of business to any bank or banks or other lending institutions to secure any Indebtedness payable on demand or maturing within 18 months of the date such Indebtedness is incurred or of the date of any renewal or extension thereof;

(b) Security Interests for taxes, assessments or governmental charges which are not due or delinquent, or the validity of which the Trust or any of its Designated Subsidiaries shall be contesting in good faith; provided the Trust or such Designated Subsidiary shall have made adequate provision therefor in accordance with Generally Accepted Accounting Principles;

(c) the Security Interest of any judgment rendered, or claim filed, against the Trust or any of its Designated Subsidiaries which the Trust or any such Designated Subsidiary shall be contesting in good faith; provided the Trust or such Designated Subsidiary shall have made adequate provision therefor in accordance with Generally Accepted Accounting Principles;

(d) Security Interests imposed or permitted by law such as carriers' liens, builders' liens, materialmens' liens and other liens, privileges or other charges of a similar nature which relate to obligations not due or delinquent or if due or delinquent, any such Security Interest which the Trust or any of its Designated Subsidiaries shall be contesting in good faith if the loss of such contest will not have a Material Adverse Effect;

(e) Security Interests arising in the ordinary course of, and incidental to, construction or current operations which have not been filed pursuant to law against the Trust or any of its Designated Subsidiaries or in respect of which no steps or proceedings to enforce such Security Interest have been initiated or which relate to obligations which are not due or delinquent or if due or delinquent, any such Security Interest which the Trust or any of its Designated Subsidiaries shall be contesting in good faith; provided the Trust or such Designated Subsidiary shall

have made adequate provision therefor in accordance with Generally Accepted Accounting Principles;

(f) Security Interests incurred, created or assumed in the ordinary course of business and in accordance with industry practice in respect of the joint development or operation of pipelines, oil and gas production or processing facilities as security in favour of any other Person conducting the development or operation of the property to which such Security Interests relate, for the Trust's or any of its Designated Subsidiaries' portion of the costs and expenses of such development or operation provided that such costs or expenses are not due or delinquent or, if due or delinquent, any such Security Interests which the Trust or such Designated Subsidiary shall be contesting in good faith; provided the Trust or such Designated Subsidiary shall have made adequate provision therefor in accordance with Generally Accepted Accounting Principles;

(g) easements, rights-of-way, servitudes, zoning, surface rights or other similar rights or restrictions in respect of land held by the Trust or any of its Designated Subsidiaries (including, without limitation, rights-of-way and servitudes for railways, sewers, drains, pipelines, gas and water mains, electric light and power and telephone or telegraph or cable television conduits, poles, wires and cables) which, either alone or in the aggregate, do not have a Material Adverse Effect;

(h) any Security Interest arising in connection with workers' compensation, unemployment insurance, pension and employment laws or regulations;

(i) any Security Interest given by the Trust or any of its Designated Subsidiaries to a public utility or any Governmental Authority in the ordinary course of the business of the Trust and its Designated Subsidiaries in connection with operations of the Trust or any such Designated Subsidiary if such security does not, either alone or in the aggregate, have a Material Adverse Effect;

(j) the right reserved to or vested in any Governmental Authority by the terms of any lease, license, grant or permit or by any statutory or regulatory provision to terminate any such lease, license, grant or permit or to require annual or other periodic payments as a condition of the continuance thereof;

(k) all reservations in the original grant from the Crown of any lands and premises or any interests therein and all statutory exceptions, qualifications and reservations in respect of title;

(l) any right of first refusal, option to purchase or pre-emptive right in favour of any Person granted in the ordinary course of business with respect to all or any of the assets of the Trust or any of its Designated Subsidiaries;

(m) any Security Interest the satisfaction of which has been provided for by deposit with the Trustee of cash, cash equivalent, surety bond or other security satisfactory to the Trustee in an amount sufficient to pay the liability in respect of such Security Interest in full;

(n) any Security Interest on cash or marketable securities of the Trust or its Designated Subsidiaries granted in connection with Swaps provided that at the time of granting such Security Interest the obligations secured by such Security Interest are not due and delinquent;

(o) Security Interests granted to secure, or assumed or created in connection with, Non-Recourse Debt and Security Interests granted to secure, or assumed or created in connection with, Purchase Money Obligations;

(p) any Security Interest granted in or any right of distress reserved in or exercisable under any lease for rent and for compliance with the terms of such lease;

(q) any Security Interest in favour of the Trust or a Designated Subsidiary;

(r) any Security Interest on any property, real or personal, of a Person (other than a Security Interest granted in contemplation of a merger, amalgamation or consolidation hereinafter referred to) which Security Interest exists at the time such Person is merged into, or amalgamated or consolidated with, the Trust or a Designated Subsidiary or such property is otherwise acquired by the Trust or a Designated Subsidiary;

(s) any Security Interest in respect of any obligations or duties affecting the property of the Trust or any Designated Subsidiary given to any Governmental Authority with respect to any franchise, grant, licence or permit and any defects in title to structures or other facilities arising solely from the fact that such structures or facilities are constructed or installed on lands held by the Trust or such Designated Subsidiary under government permits, leases or other grants, which obligations, duties and defects in the aggregate do not materially impair the use of such property, structures or facilities for the purpose for which they are held by the Trust or such Designated Subsidiary;

(t) any Security Interest in respect of any deposits in connection with bids or tenders;

(u) any Security Interest in respect of expropriation proceedings, surety or appeal bonds or costs of litigation;

(v) any extension, renewal or replacement of any Security Interest permitted under any of the other paragraphs of this definition of Permitted Encumbrances, provided that any such extension, renewal or replacement Security Interest will not secure repayment of an amount in excess of any principal amount of Indebtedness outstanding with respect thereto immediately prior to such extension, renewal or replacement and that such extension, renewal or replacement is limited to all or a part of the property and accretions thereto and improvements thereon which was subject to the Security Interest so extended, renewed or replaced;

(w) Security Interests not permitted by any of the other paragraphs of this definition of Permitted Encumbrances, provided that Security Interests shall not be

permitted under this paragraph (w) if the effect thereof would be to cause the total amount of Indebtedness secured by Security Interests permitted under this paragraph (w) to exceed the greater of $25,000,000 and 10% of Consolidated Equity; and

(x) any Security Interests against the property or assets of the Trust or any of its Designated Subsidiaries existing on the date hereof;

"Person" means an individual, corporation, company, partnership (whether general or limited), association or trust;

"Prime Rate" means an annual rate of interest equal to the floating annual rate of interest from time to time set by Royal Bank of Canada or its successor as the prime rate used by it to determine rates of interest charged on Canadian dollar commercial loans to customers in Canada, being the rate from time to time designated as such by the said bank at its main branch in Calgary, Alberta;

"Purchase Money Obligation" means any indebtedness or monetary obligation incurred, created or assumed as, or incurred, created or assumed to provide funds to pay, all or part of (a) the purchase price (which shall be deemed to include any costs of construction or installation or lease payments, as the case may be) of any property acquired (including by way of lease) after the date of this Trust Indenture or (b) the cost of improvements made after the date of this Trust Indenture to any property, provided that the principal amount of such indebtedness or monetary obligation does not, at the time incurred, created or assumed, exceed the purchase price of the property when originally acquired, or the cost of improvements, as the case may be, and is incurred, created or assumed not later than 180 days after such purchase or the completion of such acquisition, construction, installation or improvement, as the case may be, and includes any extension, renewal, refunding or refinancing thereof so long as the principal amount outstanding immediately prior to the date of such extension, renewal, refunding or refinancing is not increased;

"Security Interest" means any assignment, mortgage, charge, pledge, lien, encumbrance, title retention agreement or any security interest whatsoever, howsoever created or arising, whether absolute or contingent, fixed or floating, legal or equitable, perfected or not, which secures payment or performance of an obligation but does not include a right of set-off created in the ordinary course of business unless such right of set-off is created for the purposes of securing repayment of Indebtedness for borrowed money;

"Subordinated Debt" means any Indebtedness which is or is expressed to be subordinate in all instances and in all respects (including in right of payment) to the payment of principal of and the premium (if any) and interest on the Medium Term Notes issued hereunder;

"Subsidiary" means, with respect to a Person:

(a) any corporation of which such number of Voting Shares having by the terms thereof ordinary voting power to elect a majority of the board of directors of such corporation (irrespective of whether at the time shares of any other class or classes of such corporation might have voting power by reason of the happening of any contingency, unless the contingency has occurred and then only for as long as it continues) is at the time directly, indirectly or beneficially owned or controlled by such Person or one or more of its Subsidiaries, or such Person and one or more of its Subsidiaries;

(b) any partnership of which, at the time, such Person, or one or more of its Subsidiaries, or such Person and one or more of its Subsidiaries directly, indirectly or beneficially own or control more than 50% of the income, capital, beneficial or ownership interests (however designated) thereof; or

(c) any other Person of which at least a majority of the income, capital, beneficial or ownership interests (however designated) are at the time directly, indirectly or beneficially owned or controlled by such Person, or one or more of its Subsidiaries, or such Person and one or more of its Subsidiaries;

"Subsidiary Guarantee" means a guarantee given by a Designated Subsidiary to the Trust substantially in the form attached hereto as Schedule B or such other form as may be agreed to by the Trustee;

"Successor" has the meaning set forth in Section 10.1(a);

"Swap" means any Commodity Swap, Currency Swap or Interest Swap;

"Total Capitalization" means, in respect of the Trust and its Designated Subsidiaries, as of the date of determination thereof and as determined in accordance with Generally Accepted Accounting Principles on a consolidated basis, the aggregate amount of Consolidated Equity, Subordinated Debt, Funded Obligations and the amount of any minority interests.

"Trust" means AltaGas Income Trust or any Successor which shall have complied with the provisions of Article 10, as the case may be;

"Trust's Auditors" means an independent firm of chartered or certified public accountants duly appointed as auditors of the Trust;

"Trust Indenture" means this trust indenture and includes each and every instrument supplemental or ancillary hereto;

"Trustee" means Computershare Trust Company of Canada or its successor or successors for the time being as trustee hereunder;

"Voting Shares" means the shares of any class of any corporation or other securities of that corporation or other securities of any other Person which carry voting rights to elect

the board of directors (or other Persons performing similar functions) under any circumstances; and

"Written Direction of the Trust" means an instrument in writing signed by any two officers of the Administrator, provided at least one signatory is the Chief Executive Officer, the President, the Chief Financial Officer, or a Vice President.

1.2 Special Accounting Provisions

For the purposes of this Trust Indenture and in respect of the Medium Term Notes and any Additional Debentures and the determinations required to be made under any of the covenants herein contained which relate to the Medium Term Notes and any Additional Debentures and the definitions set forth in Section 1.1, the following shall apply:

(a) whenever any conversion of United States currency or any other currency into Canadian currency or vice versa is required herein, such conversion shall, unless otherwise provided herein, be at a rate of exchange determined by the Trust in accordance with Generally Accepted Accounting Principles;

(b) Consolidated Equity may be determined to be not less than a stated amount, without determining the exact greater amount thereof;

(c) "Consolidated Total Assets" may be determined to be not greater than a stated amount, without determining the exact lesser amount thereof;

(d) Funded Obligations may be determined to be not more than a stated amount, without determining the exact lesser amount thereof;

(e) Total Capitalization may be determined to be not less than a stated amount, without determining the exact greater amount thereof;

(f) all determinations shall be made in accordance with Generally Accepted Accounting Principles and shall give effect to retirements of securities or repayment of debt to be effected substantially concurrently with or prior to any proposed action; and

(g) absent manifest error, all determinations made hereunder shall be conclusive and binding for all purposes of this Trust Indenture.

1.3 Meaning of "Outstanding"

Every Debenture certified and delivered by the Trustee hereunder shall be deemed to be outstanding until it shall be cancelled or delivered to the Trustee for cancellation or moneys for the payment or redemption thereof shall have been set aside under Section 5.6 or Section 9.2, as the case may be, provided that:

(a) Debentures which have been partially redeemed, purchased or converted shall be deemed to be outstanding only to the extent of the unredeemed, unpurchased or unconverted part of the principal amount thereof;

(b) when a new Debenture has been issued in substitution for a Debenture which has been lost, stolen or destroyed, only one of such Debentures shall be counted for the purpose of determining the aggregate principal amount of Debentures outstanding; and

(c) for the purposes of any provision of this Trust Indenture entitling holders of outstanding Debentures to vote, sign consents, requisitions or other instruments or take any other action under this Trust Indenture, Debentures owned directly or indirectly, legally or beneficially, by the Trust shall be disregarded except that:

(i) for the purpose of determining whether the Trustee shall be protected in relying on any such vote, consent, acquisition or other instrument or action only the Debentures which the Trustee knows are so owned shall be so disregarded; and

(ii) Debentures so owned which have been pledged in good faith other than to the Trust (if permitted by this Trust Indenture) shall not be so disregarded if the pledgee shall establish to the satisfaction of the Trustee the pledgee's right to vote such Debentures in his discretion free from the control of the Trust.

1.4 Interpretation

In this Trust Indenture:

(a) **"hereto", "herein", "hereby", "hereunder", "hereof"** and similar expressions refer to this Trust Indenture and not to any particular Article, Section, subsection, clause, subdivision or other portion hereof;

(b) words importing the singular number or masculine gender shall include the plural number or the feminine or neuter gender, and vice versa;

(c) all references to Articles and Schedules refer, unless otherwise specified, to Articles of and Schedules to this Trust Indenture;

(d) all references to Sections refer, unless otherwise specified, to sections, subsections or clauses of this Trust Indenture and reference to subsections or clauses refer to paragraphs in the same section as the reference or to clauses in the same subsection as the reference; and

(e) words and terms denoting inclusiveness (such as "include" or "includes" or "including"), whether or not so stated, are not limited by and do not imply limitation of their context or the words or phrases which precede or follow them.

1.5 Headings, Etc.

The division of this Trust Indenture into Articles and Sections, the provision of a table of contents and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation of this Trust Indenture or the Debentures.

1.6 Day Not a Business Day

In the event that any day on or before which any action required to be taken hereunder is not a Business Day, then such action shall be required to be taken on or before the requisite time on the next succeeding day that is a Business Day.

1.7 Applicable Law

This Trust Indenture and the Debentures shall be construed in accordance with the laws of the Province of Alberta and shall be treated in all respects as Alberta contracts.

1.8 Monetary References

All references to currency herein and in the Debentures shall be to lawful money of Canada, unless otherwise expressed.

1.9 Invalidity, Etc.

Any provision hereof which is prohibited or unenforceable shall be ineffective only to the extent of such prohibition or unenforceability, without invalidating the remaining provisions hereof.

1.10 Language

This document is drawn up in English at the express wish of the parties. In the event of any inconsistency between the English and French version (if any) of the Debentures, the English version shall govern.

ARTICLE 2
ISSUE OF DEBENTURES

2.1 Limit of Issue

The aggregate principal amount of Debentures which may be authorized and outstanding at any one time hereunder is unlimited.

2.2 Creation and Issue of Debentures

(a) The Debentures may be issued in one or more series and the Debentures of each such series shall rank equally and *pari passu* with all other unsecured and unsubordinated debt of the Trust. There shall be established herein or in or pursuant to one or more resolutions of the Directors (and to the extent established pursuant to, rather than set forth in, a resolution of the Directors, in a Written

Direction of the Trust detailing such establishment) or established in one or more indentures supplemental hereto, prior to the initial issuance of Debentures of any particular series:

(i) the designation of the Debentures of the series, (which need not include the term "Debentures") which shall distinguish the Debentures of the series from the Debentures of all other series;

(ii) any limit upon the aggregate principal amount of the Debentures of the series that may be certified and delivered under this Trust Indenture (except for Debentures certified and delivered upon registration of, transfer of, amendment of, or in exchange for, or in lieu of, other Debentures of the series pursuant to Sections 2.9 or 2.10 or Article 3);

(iii) the date or dates, or the method by which such date or dates will be determined or extended, on which the principal of the Debentures of the series is payable;

(iv) the rate or rates at which the Debentures of the series shall bear interest, if any, the date or dates from which such interest shall accrue, on which such interest shall be payable and on which a record, if any, shall be taken for the determination of Debentureholders to whom such interest shall be payable and/or the method or methods by which such rate or rates or date or dates shall be determined;

(v) the place or places where the principal of, premium, if any, and any interest on Debentures of the series shall be payable or where any Debentures of the series may be surrendered for registration of transfer or exchange and, if different than the location specified in Section 12.1(b), the place or places where notices or demands to or upon the Trust in respect of the Debentures of the series and this Trust Indenture may be served;

(vi) the right, if any, of the Trust to redeem Debentures of the series, in whole or in part, at its option and the price or prices at which, the period or periods within which, and any terms and conditions upon which Debentures of the series may be so redeemed, pursuant to any sinking fund or otherwise;

(vii) the obligation, if any, of the Trust to redeem, purchase or repay Debentures of the series pursuant to any mandatory redemption, sinking fund or analogous provisions or at the option of a holder thereof and the price or prices at which, the period or periods within which, the date or dates on which, and any terms and conditions upon which, Debentures of the series shall be redeemed, purchased or repaid, in whole or in part, pursuant to such obligation;

(viii) if other than denominations of $1,000 and any integral multiple thereof, the denominations in which Debentures of the series shall be issuable;

(ix) any trustees, Depositaries, authenticating or Paying Agents, transfer agents or registrars or any other agents with respect to the Debentures of the series;

(x) any deletions from, modifications of or additions to the Events of Default or covenants of the Trust with respect to the Debentures of the series, whether or not such Events of Default or covenants are consistent with the Events of Default or covenants contained in this Trust Indenture;

(xi) whether and under what circumstances the Debentures of the series will be convertible into or exchangeable for securities of any Person;

(xii) the form and terms of the Debentures of the series;

(xiii) if other than Canadian currency, the currency or currency unit in which the Debentures of the series are issuable and/or payable and any provisions with respect to exchange rates and an exchange rate agent;

(xiv) the appointment of any Depositary or Paying Agent with respect to such services; and

(xv) any other terms of the Debentures of the series (which terms shall not, unless set forth in an indenture supplemental hereto, be inconsistent with the provisions of this Trust Indenture).

(b) The Debentures of any series may be of different denominations and forms and may contain such variations of tenor and effect, not inconsistent with the provisions of this Trust Indenture, as are incidental to such differences of denomination and form including variations in the provisions for the exchange of Debentures of different denominations or forms and in the provisions for the registration or transfer of Debentures, and any series of Debentures may consist of Debentures having different dates of issue, different dates of maturity, different terms and conditions, different rates of interest and/or different redemption prices, if any, and/or different sinking fund provisions, if any, carrying the benefit of a sinking fund and partly of Debentures with no sinking fund provided therefor.

(c) Subject to the foregoing provisions and subject to any limitation as to the maximum principal amount of Debentures of any particular series, any of the Debentures may be issued as part of any series of Debentures previously issued, in which case, other than as provided in a Written Direction of the Trust with respect thereto, they shall bear the same designation and designating letters or numbers as have been applied to such similar prior issue and shall be numbered consecutively upwards in respect of each denomination of Debentures in like manner and following the numbers of the Debentures of such prior issue.

(d) Before the issue of any Additional Debentures of any series, the Trust may execute and deliver to the Trustee an indenture supplemental hereto for the purpose of establishing the terms thereof and the forms, if any, and denominations in which they may be issued, and the appointment of any Depositary or any Paying Agent, and the Trustee shall execute and deliver such supplemental indenture pursuant to Article 14.

(e) Whenever any series of Additional Debentures shall have been authorized as aforesaid, such Additional Debentures may be from time to time executed by the Trust and delivered to the Trustee and shall be certified by the Trustee and delivered by it to or to the order of the Trust upon receipt by and deposit with the Trustee of the following:

(i) an Officers' Certificate that no Event of Default has occurred which is continuing and that the Trust has complied with all the requirements of this Trust Indenture in connection with the issue of the Additional Debentures in respect of which certification is requested;

(ii) a Written Direction of the Trust for the certification and delivery of a specified principal amount of Additional Debentures; and

(iii) an opinion of Counsel that all requirements imposed by this Trust Indenture or by law in connection with the proposed issue of Additional Debentures have been complied with by the Trust.

(f) No Additional Debentures shall be certified or delivered hereunder if, to the knowledge of the Trustee, an Event of Default shall have occurred and be continuing.

2.3 Issue of Registered Global Debenture

(a) If the Trust shall establish that the Debentures of a series are to be issued in whole or in part in the form of one or more Registered Global Debentures, then the Trust shall execute and the Trustee shall certify and deliver one or more Registered Global Debentures that shall:

(i) represent the aggregate principal amount of the outstanding Debentures of such series to be represented by one or more Registered Global Debentures;

(ii) be registered in the name of the Depositary for such Registered Global Debenture or Debentures or the nominee of such Depositary;

(iii) be delivered by the Trustee to such Depositary or pursuant to such Depositary's instructions; and

(iv) bear a legend substantially to the following effect:

This Debenture is a Registered Global Debenture within the meaning of Trust Indenture dated May 12, 2005 between AltaGas Income Trust and Computershare Trust Company of Canada and is registered in the name of a Depositary or a nominee thereof. This Debenture may not be transferred to, or exchanged for Debentures registered in the name of, any person other than the Depositary or a nominee thereof and no such transfer or exchange may be registered, except in the limited circumstances described in the Trust Indenture. Every Debenture authenticated and delivered upon registration or transfer of, or in exchange for or in lieu of, this Debenture shall be a Registered Global Debenture subject to the foregoing, except in such limited circumstances described in the Trust Indenture.

2.4 Debentures to Rank Pari Passu

All Debentures issued pursuant to the provisions of this Trust Indenture shall rank pari passu without discrimination, preference or priority whatever may be the actual date thereof or of the certification thereof or terms of issue of the same respectively, save only as to defeasance, purchase or sinking fund, amortization fund or analogous provisions, if any, applicable to different series.

2.5 Interest

Except as otherwise provided in the terms of the Debentures of any series:

(a) Each Debenture shall bear interest from the date thereof or from the last interest payment date to which interest shall have been paid or made available for payment on such Debentures, whichever shall be later.

(b) Interest shall be payable semi-annually in equal instalments.

(c) Interest shall cease to accrue from the maturity date of a Debenture unless, upon due presentation, payment of principal is improperly withheld or refused.

(d) Interest on the Debentures of each series shall be computed on the basis of a 365 or 366 day year (as the case may be).

2.6 Signing of Debentures

The Debentures shall be signed on behalf of the Trust by any two of the Chairman, the Chief Executive Officer, the President, the Chief Financial Officer, any Vice-President and the Treasurer of the Administrator or any two authorized officers of the Administrator holding office at the time of signing. The signatures of such officers may be mechanically reproduced and Debentures bearing such mechanical signatures shall be binding upon the Trust as if they had been manually signed by such officers. Any Debenture signed as aforesaid shall be valid and binding upon the Trust, notwithstanding that any of the Persons whose manual or mechanical signature appears on any Debenture as one of such officers may no longer hold office at the date

of this Trust Indenture or at the date of such Debenture or at the date of certification and delivery thereof.

2.7 Form of Debentures

The Debentures of any series may be engraved, lithographed, printed, mimeographed or typewritten, or partly in one form and partly in another, as the Trust may determine or as otherwise may be provided herein.

2.8 Certification by Trustee

(a) No Debenture shall be issued or, if issued, shall be obligatory or entitle the holder to the benefit hereof until it has been certified by or on behalf of the Trustee substantially in the form applicable to such Debenture or in some other form approved by the Trustee. Such certification by the Trustee upon any Debenture shall be conclusive evidence as against the Trust that the Debenture so certified has been duly issued hereunder and is a valid obligation of the Trust and that the holder is entitled to the benefit hereof.

(b) The certificate of the Trustee on Debentures or interim Debentures issued hereunder shall not be construed as a representation or warranty by the Trustee as to the validity of this Trust Indenture or of the Debentures or interim Debentures (except the due certification thereof) and the Trustee shall in no respect be liable or answerable for the use made of the Debentures or interim Debentures or any of them or of the proceeds thereof. The certificate of the Trustee signed on any definitive or interim Debentures shall, however, be a representation and warranty by the Trustee that said definitive or interim Debentures have been duly certified by or on behalf of the Trustee pursuant to the provisions of this Trust Indenture.

2.9 Interim Debentures

Pending the delivery of definitive Debentures of any series to the Trustee, the Trust may issue and the Trustee shall certify in lieu thereof interim Debentures in such forms and in such denominations and signed in such manner as the Trustee and the Trust may approve, entitling the holders thereof to definitive Debentures of the said series in any authorized denominations when the same are ready for delivery; provided, however, that the total amount of interim Debentures shall not exceed the aggregate principal amount of Debentures of such series authorized for issue. When so issued and certified, such interim Debentures shall, for all purposes, be deemed to be Debentures and, pending the exchange thereof for definitive Debentures, the holders of the said interim Debentures shall be deemed to be Debentureholders and entitled to the benefit of this Trust Indenture to the same extent and in the same manner as though the said exchange had actually been made. Forthwith after the Trust shall have executed and delivered the definitive Debentures to the Trustee, the Trustee shall, at the Trust's expense, call in for exchange all interim Debentures that shall have been issued and forthwith after such exchange shall cancel the same. No charge shall be made by the Trust or the Trustee to the holders of such interim Debentures for such exchange thereof. All interest paid upon interim Debentures shall be noted

thereon by the Paying Agent as a condition precedent to such payment unless paid by cheque to the registered holders thereof.

2.10 Mutilation, Loss, Theft or Destruction of Debentures

(a) In case any of the Debentures issued and certified hereunder shall become mutilated or be lost, destroyed or stolen, the Trust in its discretion may issue, and thereupon the Trustee shall certify and deliver, a new Debenture of like date and tenor as the one mutilated, lost, destroyed or stolen in exchange for and in place of and upon cancellation of such mutilated Debenture or in lieu of and in substitution for such lost, destroyed or stolen Debenture and the new Debenture shall be in a form approved by the Trustee and shall be entitled to the benefit hereof to the same extent as the Debenture so mutilated, lost, destroyed or stolen.

(b) The applicant for the issue of a new Debenture pursuant to this Section 2.10 shall bear the cost of the issue thereof and in case of loss, destruction or theft shall, as a condition precedent to the issue thereof, furnish to the Trust and to the Trustee such evidence of ownership and of the loss, destruction or theft of the Debenture so lost, destroyed or stolen as shall be satisfactory to the Trust and the Trustee in their discretion. As a further condition, such applicant may also be required to furnish indemnity in amount and form satisfactory to the Trust and the Trustee in their discretion, and shall pay the reasonable charges of the Trust and the Trustee in connection therewith.

ARTICLE 3
REGISTRATION, TRANSFER, EXCHANGE AND OWNERSHIP OF DEBENTURES

3.1 Fully Registered Debentures

(a) Unless otherwise provided in this Trust Indenture or in the terms of any Debentures, the Trust shall cause to be kept by the Trustee, at its principal office in Calgary, Alberta, a register in which shall be entered the names and addresses of the holders of Debentures of each series and particulars of the Debentures held by them respectively and facilities for the exchange and transfer of Debentures. The Trust may from time to time provide additional facilities for such registration, exchange and transfer at other offices of the Trustee or at other agencies, as registrar.

(b) No transfer of a fully registered Debenture shall be valid unless made at one of the offices or other agencies referred to in subsection 3.1(a) by the registered Debentureholder or his executors, administrators or other legal representatives or his or their attorney duly appointed by an instrument in writing in form and execution satisfactory to the Trustee and upon compliance with such reasonable requirements as the Trustee may prescribe.

(c) The registered Debentureholder may at any time and from time to time have the registration of such Debenture transferred from the register on which the

registration thereof appears to another authorized register upon compliance with such reasonable requirements as the Trustee and/or other registrar may prescribe and upon payment of a reasonable fee to be fixed by the Trustee. Such change of registration shall be noted on such Debenture by the Trustee or other registrar unless a new Debenture shall be issued upon such change of registration.

3.2 Registered Global Debentures

(a) With respect to Debentures of any series issued in whole or in part in the form of one or more Registered Global Debentures, the Trust shall cause to be kept by the Trustee at its principal office in Calgary, Alberta, and by the Trustee or such other registrar as the Trust, with the approval of the Trustee, may appoint at such other place or places, if any, as may be specified in the Debentures of such series or as the Trust may designate with the approval of the Trustee, registers in which shall be entered the name and address of the Depositary or its nominee for each such Registered Global Debenture and particulars of the Registered Global Debenture held by it, and such registration shall be noted on the Registered Global Debenture by the Trustee or other registrar. With respect to any Debentures of such series that are at any time not represented by one or more Registered Global Debentures, the provisions of Section 3.1 or Section 3.3, whichever are applicable, shall govern with respect to registrations and transfers.

(b) Notwithstanding any other provision of this Article 3, unless and until it is wholly exchanged for fully registered Debentures in definitive form in accordance with the terms hereof or the particular terms applicable to the series of Debentures it represents, a Registered Global Debenture representing all or a portion of the Debentures of a series may not be transferred except as a whole by:

(i) the Depositary to a nominee of such Depositary;

(ii) a nominee of such Depositary to such Depositary or to another nominee of such Depositary; or

(iii) such Depositary or any such nominee to a successor Depositary for such series or a nominee of such successor Depositary, and only if the transfer is duly recorded by the Trustee on the register for such series and, if required, on the Registered Global Debenture.

(c) If at any time the Depositary for a Registered Global Debenture representing all or a portion of the Debentures of a series notifies the Trust that it is unwilling or unable to continue as Depositary for such Registered Global Debenture, or ceases to be eligible to be a Depositary, then the Trust may appoint a successor Depositary with respect to such Registered Global Debenture. If a successor Depositary for such Registered Global Debenture is not appointed by the Trust within 90 days after the Trust receives such notice or becomes aware of such ineligibility, then the Trust's determination that the Debentures represented by such Registered Global Debenture be held as a Registered Global Debenture shall

no longer be effective with respect to the Debentures represented by such Registered Global Debenture, and the Trust will execute, and the Trustee, upon receipt of a Written Direction of the Trust for the certification and delivery of individual Debentures of such series, will certify and deliver, in exchange for such Registered Global Debenture, individual Debentures of such series, subject to and in accordance with subsections 3.2(e) and 3.2(f), in an aggregate principal amount equal to the principal amount of such Registered Global Debenture.

(d) The Trust may at any time in its sole discretion, and shall upon the request of holders of 25% of the principal amount of the outstanding Debentures following the occurrence of an Event of Default which is continuing, determine that Debentures of any series issued in the form of one or more Registered Global Debentures shall no longer be represented by such Registered Global Debentures, in which event the Trust shall execute, and the Trustee, upon receipt of a Written Direction of the Trust for the certification and delivery of individual Debentures of such series, shall certify and deliver, in exchange for such Registered Global Debentures, individual Debentures of such series, subject to and in accordance with subsections 3.2(e) and 3.2(f), in an aggregate principal amount equal to the principal amount of such Registered Global Debentures.

(e) In any exchange provided for in either of subsections 3.2(c) and 3.2(d), or in the terms applicable to any particular series of Debentures, the Trust will execute and the Trustee will certify and deliver individual Debentures as fully registered Debentures in authorized denominations, all according to instructions from the Depositary to the Trustee in that regard, as contemplated by subsection 3.2(f).

(f) Upon the exchange of a Registered Global Debenture for individual Debentures in definitive form pursuant to either of subsections 3.2(c) and 3.2(d), or pursuant to the terms applicable to any particular series of Debentures, such Registered Global Debenture shall be cancelled by the Trustee. Individual registered Debentures exchanged for portions of a Registered Global Debenture shall be registered in such names and addresses and in such authorized denominations as the Depositary for such Registered Global Debenture, pursuant to instructions from its direct or indirect participants or otherwise, shall instruct the Trustee. The Trustee shall deliver any such registered Debentures to the Persons in whose names such Debentures are so registered.

(g) If authorized by the Trust pursuant to Section 2.3 or otherwise with respect to a series of Debentures issued in whole or in part in the form of one or more Registered Global Debentures, the Depositary of a Registered Global Debenture representing such Debentures may surrender the Registered Global Debenture for such Debentures in exchange in whole or in part for individual Debentures of such series on such terms as are acceptable to the Trust and such Depositary. Thereupon, the Trust shall execute, and the Trustee shall certify and deliver to:

(i) each Person specified by such Depositary, one or more new individual Debentures of the same series in any authorized denomination as

requested by such Depositary in an aggregate principal amount equal to and in exchange for such Person's beneficial interest in the Registered Global Debenture; and

(ii) such Depositary a new Registered Global Debenture in a denomination equal to the difference, if any, between the principal amount of the surrendered Registered Global Debenture and the aggregate principal amount of new individual Debentures delivered to Persons under this subsection 3.2(g).

(h) All Debentures executed for delivery upon any transfer or exchange of a Registered Global Debenture shall be valid obligations of the Trust, evidencing the same debt and entitled to the same benefits under this Trust Indenture as the Registered Global Debenture surrendered for such transfer or exchange. No service charge shall be made for any registration of transfer or exchange of a Registered Global Debenture but the Trust may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any transfer, registration of transfer or exchange of a Registered Global Debenture.

(i) None of the Trust, the Trustee or any other registrar shall be required to:

(i) execute for delivery, register the transfer of or exchange a Registered Global Debenture of any particular series during a period beginning at the opening of business 15 days before the day of the mailing of a notice of redemption of all or any part of a Registered Global Debenture selected for redemption and ending at the close of business on the day of such mailing; or

(ii) register the transfer of or exchange any portion of a Registered Global Debenture so selected for redemption in whole or in part, except the unredeemed portion of any Registered Global Debenture being redeemed in part.

3.3 Transferee Entitled to Registration

The transferee of a registered Debenture, other than a Registered Global Debenture, shall, after the appropriate form of transfer is lodged with the Trustee or other agent and upon compliance with all other conditions in that behalf required by this Trust Indenture or by law, be entitled to be entered on the register as the owner of such Debenture free from all equities or rights of set-off or counterclaim between the Trust and his transferor or any previous holder of such Debenture, save in respect of equities of which the Trust or Debentureholder is required to take notice by statute or by order of a court of competent jurisdiction.

3.4 Exchange of Debentures

(a) Debentures in any authorized form or denomination, other than Registered Global Debentures, may be exchanged upon reasonable notice for Debentures in any

other authorized form or denomination, of the same series, as the case may be, and date of maturity, bearing the same interest rate and other terms and conditions and of the same aggregate principal amount as the Debentures so exchanged.

(b) Debentures of any series may be exchanged only at the principal office of the Trustee in Calgary, Alberta or at such other place or places, if any, as may be specified in the Debentures of such series and at such other place or places, if any, as may from time to time be designated by the Trust with the approval of the Trustee. The Trust shall execute and the Trustee shall certify all Debentures necessary to carry out exchanges as aforesaid. All Debentures surrendered for exchange shall be cancelled.

(c) Debentures issued in exchange for Debentures which at the time of such issue have been selected or called for redemption at a later date shall be deemed to have been selected or called for redemption in the same manner and shall have noted thereon a statement to that effect.

3.5 Charges for Registration, Transfer and Exchange

(a) Unless otherwise provided in any Written Direction of the Trust or supplemental indenture, for each Debenture exchanged, registered, transferred or discharged from registration, the Trustee or other agent shall, if required by the Trust, make a reasonable charge for its services and for each new Debenture issued, if any. However, no charge to a Debentureholder shall be made hereunder for any:

(i) exchange, registration, transfer or discharge from registration of any Debenture applied for within the period of two months from and including the date of original issue of such Debenture;

(ii) exchange of any interim or temporary Debenture or interim certificate that has been issued under Section 2.9;

(iii) exchange of a Registered Global Debenture as contemplated in Section 3.2; or

(iv) exchange of any Debenture resulting from a partial redemption under Article 5.

(b) Payment of any such charges and reimbursement of the Trustee or other agent or the Trust for any transfer taxes or governmental or other charges required to be paid shall be made by the party requesting such exchange, registration, transfer or discharge from registration as a condition precedent thereto.

3.6 Registers Open for Inspection

The registers shall, at all reasonable times and at such reasonable costs as established by the Trustee, be open for inspection by the Trust, the Trustee or any Debentureholder. The Trustee and every registrar shall, from time to time when requested to do so by the Trust or by

the Trustee, furnish the Trust or the Trustee, as the case may be, with a list of names and addresses of holders of registered Debentures entered on the register and showing the principal amount and serial numbers of the Debentures held by each such Debentureholder.

3.7 Closing of Registers

(a) Subject to any restriction herein provided, the Trust, with the approval of the Trustee, may at any time close any register, other than the register kept at the principal office of the Trustee in Calgary, Alberta, and transfer the registration of any Debentures registered thereon to another register and thereafter such Debentures shall be deemed to be registered on such other register and notice of such transfer shall be given in the manner provided in Section 12.2 to the holders of the Debentures registered in the register so closed.

(b) Neither the Trust nor the Trustee nor any other agent shall be required to make:

(i) exchanges or transfers of fully registered Debentures of any series on any interest payment date for such Debentures, as applicable, or during the 14 preceding days; or

(ii) exchanges or transfers of any fully registered Debentures of any series on the day of any selection by the Trustee of such Debentures to be redeemed or during the 14 preceding days; or

(iii) exchanges or transfers of any fully registered Debentures of any series which have been called for redemption in whole or in part unless, upon due presentation thereof for redemption, such Debentures shall not be redeemed.

3.8 Ownership of Debentures

(a) The Person in whose name any fully registered Debenture is registered shall, for all the purposes of this Trust Indenture, be and be deemed to be the legal and beneficial owner thereof and payment of or on account of the principal of and premium, if any, and interest on such Debenture shall be made only to or upon the order in writing of such registered Debentureholder.

(b) Neither the Trust nor the Trustee nor any other agent shall be bound to take notice of or see to the execution of any trust, whether express, implied or constructive, in respect of any Debenture and may transfer the same on the direction of the Person registered as the holder thereof, whether named as trustee or otherwise, as though that Person were the beneficial owner thereof.

(c) The registered holder for the time being of any registered Debenture shall be entitled to the principal, premium, if any, and/or interest evidenced by such Debenture respectively free from all equities or rights of set-off or counterclaim between the Trust and the original or any intermediate holder thereof, except in the case of any prior overpayment with respect to a Debenture, and all Persons

may act accordingly, and the receipt of any such registered Debentureholder for any such principal, premium, if any, or interest shall be a good discharge to the Trust, the Trustee and any other agent for the same and neither the Trust, the Trustee nor any other agent shall be bound to inquire into the title of any such registered Debentureholder.

(d) The Trust, the Trustee and any other agent may treat the registered holder of any Debenture as the owner thereof without actual production of such Debenture for the purpose of any Debentureholders' Request, requisition, direction, consent instrument or other document.

(e) Where a registered Debenture is registered in more than one name, the principal premium, if any, and interest from time to time payable in respect thereof may be paid by cheque payable to the order of all such Debentureholders, failing written instructions from them to the contrary, and the receipt of any one of such Debentureholders therefor shall be a valid discharge to the Trustee and any other agent and to the Trust, unless such cheque is not paid at par on presentation at any one of the places where such principal, premium, if any, and interest is, by the terms of such Debenture, made payable.

(f) In the case of the death of one or more joint registered Debentureholders, the principal, premium, if any, and interest on fully registered Debentures may be paid by cheque to the survivor or survivors of such registered Debentureholders whose receipt therefor shall constitute a valid discharge to the Trustee and any other agent and to the Trust, unless such cheque is not paid at par on presentation at any one of the places where such principal, premium, if any, and interest is, by the terms of such Debenture, made payable.

ARTICLE 4
ISSUE OF MEDIUM TERM NOTES

4.1 Form and Terms of Medium Term Notes

(a) The first series of Debentures authorized to be issued hereunder shall be designated as "Medium Term Notes" which may be issued from time to time in accordance with this Trust Indenture. The aggregate principal amount of Medium Term Notes that may be issued hereunder is unlimited. Notwithstanding anything to the contrary herein contained, each issue of Medium Term Notes having the same maturity date, interest rate and other terms and conditions, irrespective of the date or dates of issue, shall for the purposes of this Trust Indenture be deemed to be a single series of Debentures issued hereunder.

(b) Unless otherwise specified in the applicable Written Direction of the Trust or supplemental indenture, each Medium Term Note shall be issuable as a fully registered Debenture or, subject to the terms of Article 3, a Registered Global Debenture registered in the name of The Canadian Depository for Securities Limited being designated the initial Depositary therefor or its nominee, CDS &

CO., and with the register being maintained by the Trustee or available to it in Calgary, Alberta.

(c) Each Medium Term Note shall be dated as of such date, shall mature on such date, shall be issued and payable in such currency, shall bear interest at such rates of interest and shall have such other terms and conditions as shall be determined by the Trust at or prior to the time of issue thereof.

(d) Unless otherwise specified in the applicable Written Direction of the Trust or supplemental indenture, the Medium Term Notes shall be issued in minimum denominations of $5,000 and multiples of $1,000 above such amount.

(e) The Medium Term Notes and the certificate of the Trustee endorsed thereon shall be substantially in the form set out in Schedule A to this Trust Indenture with such appropriate insertions, omissions, substitutions and variations as the Trustee may approve and shall be numbered in such manner as the Trustee may approve, such approvals of the Trustee to be conclusively evidenced by its certification of the Medium Term Notes.

(f) Unless otherwise specified in the applicable Written Direction of the Trust or supplemental indenture, the principal of all Medium Term Notes and the premium, if any, and interest thereon and all sums which may at any time become payable thereon, whether at maturity, on a declaration, on redemption or otherwise shall be payable at any branch in Canada of the Royal Bank of Canada, or such other financial institution as may be designated from time to time by the Trust, against surrender of the Medium Term Notes, except that the Trust may agree with any holder of Medium Term Notes or the Depositary to make other arrangements for payments on or in respect of Medium Term Notes registered in such holder's name.

4.2 Issue of Medium Term Notes

Medium Term Notes are hereby created and may forthwith and from time to time be executed by the Trust and delivered to the Trustee and shall thereupon be certified by the Trustee and delivered by the Trustee upon the Written Direction of the Trust, without the Trustee receiving any consideration therefor, upon receipt by the Trustee of a Written Direction of the Trust to the effect that:

(a) all conditions precedent provided for in this Trust Indenture and by applicable law relating to the authorization, execution, issuance, certification and delivery of Medium Term Notes have been complied with or satisfied in accordance with the terms of this Trust Indenture and such applicable law, and

(b) at the time of the certification and delivery of Medium Term Notes by the Trustee, no Event of Default under this Trust Indenture has occurred and is continuing.

The Written Direction of the Trust required by Section 4.2 for the certification and delivery of Medium Term Notes shall specify in a schedule or in such other manner satisfactory to the Trustee (the **"Terms Schedule"**) to such Written Direction of the Trust, the date, principal amount, maturity date, interest rate, if any, (or the method of calculation thereof), interest payment dates (if any), and redemption provisions (if any) applicable to such Medium Term Notes, whether the Medium Term Notes are to be issued as fully registered Debentures or a Registered Global Debenture, place of delivery for each Medium Term Note requested to be certified and delivered and such other terms and conditions applicable to such Medium Term Notes not inconsistent with the terms of this Indenture. Upon the certification and delivery by the Trustee of Medium Term Notes in accordance with such Written Direction of the Trust, the Terms Schedule to such Written Direction of the Trust shall be deemed to be a schedule to and form part of this Trust Indenture. The Trustee shall have no duty or responsibility with respect to the use or application of any of the Medium Term Notes so certified and delivered or of the proceeds thereof.

ARTICLE 5
REDEMPTION AND PURCHASE OF DEBENTURES

5.1 Redemption of Debentures

The Trust shall have the right at its option to redeem either in whole at any time or in part from time to time before maturity the Debentures issued hereunder of any series (including Medium Term Notes) which by their terms are made so redeemable (subject, however, to any applicable restriction on the redemption of Debentures of such series) at such premium (if any) and on such date or dates and in accordance with such other provisions as shall have been determined at the time of issue of such Debentures and as shall have been expressed in this Trust Indenture or in the Written Direction of the Trust or supplemental indenture authorizing or providing for the issue thereof.

5.2 Partial Redemption of Debentures

(a) If less than all the Debentures of any series for the time being outstanding are to be redeemed, then, unless otherwise provided herein or in the Written Direction of the Trust or supplemental indenture providing for the issue of such series, the Trust shall in each such case, at least 15 days before the date upon which the notice of redemption is to be given, notify the Trustee by Written Direction of the Trust of its intention to redeem Debentures and of the aggregate principal amount of Debentures so to be redeemed. The Debentures so to be redeemed shall be selected by the Trustee by lot or in such other manner as the Trustee may deem equitable and expedient. For this purpose, the Trustee may make, and from time to time amend, regulations with regard to the manner in which such Debentures may be so selected. Regulations so made shall be valid and binding upon all Debentureholders notwithstanding the fact that, as a result thereof, one or more of such Debentures become subject to redemption in part only.

(b) Debentures in denominations in excess of $1,000 may be selected and called for redemption in part only (such part being $1,000 or an integral multiple thereof)

and, unless the context otherwise requires, references to Debentures in this Article 5 shall be deemed to include any such part of the principal amount of Debentures which shall have been so selected and called for redemption. The holder of any Debenture called for redemption in part only, upon surrender of such Debenture for payment as required by Section 5.8, shall be entitled to receive, without expense to such Debentureholder, one or more new Debentures for the unredeemed part of the Debenture so surrendered, and the Trust shall execute and the Trustee shall certify and deliver, at the expense of the Trust, such new Debenture or Debentures upon receipt of the Debenture so surrendered.

5.3 Notice of Redemption

Unless the provisions attaching to any series of Debentures provide otherwise, notice of intention to redeem any Debentures shall be given by or on behalf of the Trust in the following manner:

(a) notice of intention to redeem such Debentures shall be given in the manner provided in Section 12.2 not less than 30 nor more than 60 days prior to the date specified for redemption, provided that the accidental omission to mail or deliver any such notice or the non-receipt of any such notice by any such Debentureholder or Debentureholders shall not invalidate or otherwise prejudicially affect the redemption of such Debentures; and

(b) every notice of redemption shall specify the redemption date and the redemption price, the place or places of payment and shall state that if the Debentures specified in such notice be not presented for redemption on such redemption date all interest thereon shall cease from and after the said date, and if a Debenture is to be redeemed in part only, shall also specify that part of the principal amount thereof so to be redeemed.

5.4 Debentures Due on Redemption Dates

Upon notice having been given as aforesaid, all the Debentures so called for redemption shall thereupon be and become due and payable at the redemption price, on the redemption date specified in such notice, in the same manner and with the same effect as if it were the date of maturity specified in such Debentures, anything therein or herein to the contrary notwithstanding, and from and after such redemption date, if the moneys necessary to redeem such Debentures shall have been deposited as hereinafter provided and affidavits or other proof satisfactory to the Trustee as to the giving of such notices shall have been lodged with it, such Debentures shall not be considered as outstanding hereunder and interest upon such Debentures shall cease to accrue after the redemption date. In case any question shall arise as to whether any notice has been given as above provided and any such deposit made, such question shall be decided by the Trustee whose decision shall be final and binding upon all parties in interest.

5.5 Deposit of Redemption Moneys

Upon Debentures having been called for redemption as hereinbefore provided, the Trust shall deposit with the Trustee or any Paying Agent to the order of the Trustee, on or before the

redemption date fixed in the notice of the redemption thereof, such sums as may be sufficient to pay the redemption price of the Debentures so to be redeemed together with the Trustee's estimate of the reasonable charges and expenses to be incurred by it in connection with such redemption. From the sums so deposited the Trustee shall pay or cause to be paid to the holders of such Debentures so called for redemption, upon surrender of such Debentures, the principal, interest and premium (if any) to which they are respectively entitled on redemption.

5.6 Failure to Surrender Debentures Called for Redemption

In case the holder of any such Debenture so called for redemption shall within 30 days from the date fixed for redemption fail so to surrender any of his Debentures or shall not within such time accept payment of the redemption moneys payable in respect thereof or give such receipt therefor (if any) as the Trustee may require, such redemption moneys shall be set aside in trust for such Debentureholder, at such rate of interest as the depositary may allow, either in the deposit department of the Trustee or in some chartered bank in Canada and such setting aside shall for all purposes be deemed a payment to the Debentureholder of the sum so set aside, and to that extent such Debentures shall thereafter not be considered as outstanding hereunder and the Debentureholder shall have no right except to receive payment out of the moneys so paid and deposited upon surrender and delivery up of his Debenture or Debentures of the redemption price of such Debenture or Debentures, plus such interest thereon (if any) as the depositary may allow.

5.7 Cancellation

(a) All Debentures redeemed or purchased by the Trust under this Article 5 shall forthwith be delivered to the Trustee and shall be cancelled by it and no Debentures shall be issued in substitution therefor.

(b) All matured Debentures shall likewise be delivered to the Trustee and cancelled by it and no Debentures shall be issued in substitution therefor.

5.8 Surrender of Debentures for Cancellation

If the principal moneys due upon any Debenture issued hereunder shall become payable by redemption or otherwise before the date of maturity thereof, the Person presenting such Debenture for payment must surrender the same for cancellation, the Trust nevertheless paying or causing to be paid the interest accrued and unpaid thereon (computed on a per diem basis to the redemption date).

5.9 Purchase of Debentures for Cancellation

Unless the provisions attaching to any series of Debentures provide otherwise, and provided that no Event of Default has occurred and is continuing, the Trust may purchase all or any of the Debentures in the market (which shall include purchase from or through an investment dealer or a firm holding membership on a recognized stock exchange) or by tender or by private contract at any price. If, upon an invitation for tenders, more Debentures are tendered at the same lowest price than the Trust is prepared to accept, the Debentures to be purchased by the Trust will be selected by the Trustee on a pro rata basis, by lot, or in such other manner as the Trustee may deem equitable and expedient, from the Debentures tendered by each tendering

Debentureholder who tendered at such lowest price. For this purpose the Trustee may make, and from time to time amend, regulations with respect to the manner in which Debentures may be so selected and regulations so made shall be valid and binding upon all Debentureholders, notwithstanding the fact that, as a result thereof, one or more of such Debentures become subject to purchase in part only. If only part of a Debenture is purchased, the holder of such Debenture upon surrender of such Debenture for payment shall be entitled to receive without expense to such Debentureholder one or more new Debentures for the part of the Debenture so surrendered which is not being purchased, and the Trust shall execute and the Trustee shall certify and deliver, at the expense of the Trust, such new Debenture or Debentures upon receipt of the Debenture so surrendered.

ARTICLE 6
COVENANTS OF THE TRUST

6.1 General Covenants

The Trust covenants with the Trustee that so long as any Debentures remain outstanding:

(a) the Trust will duly and punctually pay or cause to be paid to the holder of every Debenture issued hereunder the principal of such Debenture and the premium, if any, and interest accrued thereon (including, in case of default, interest on all amounts overdue at the rate specified therein) on the dates and at the places, in the currencies, and in the manner mentioned herein and in such Debentures;

(b) unless otherwise provided in the Debentures or in any Written Direction of the Trust or supplemental indenture creating a series of Debentures:

(i) as interest becomes due on each fully registered Debenture (except at maturity or on redemption, when interest may at the option of the Trust be paid upon surrender of such Debenture for payment) the Trust, either directly or through the Trustee or a Paying Agent, shall send by prepaid ordinary mail a cheque for such interest (less any tax required to be withheld therefrom) payable to the order of the holder of such Debenture registered on the appropriate register as at the close of business on the tenth Business Day prior to the date on which such payment is due and addressed to such Debentureholder at such Debentureholder's last address appearing on the appropriate register, or shall provide for the payment thereof by such other means as may be agreed to by the Trustee;

(ii) if payment is made by cheque, then such cheque shall be forwarded at least three Business Days prior to each date on which interest on such Debentures becomes due and if payment is made by other means (such as wire transfer of funds), then such payment shall be made in a manner whereby the Debentureholder receives credit for such payment on the day such interest on such Debentures becomes due;

(iii) in the case of joint Debentureholders, the cheque or other payment shall be made payable to, or directed to the order of, all such joint

Debentureholders at the address maintained on the register in respect of such joint holding;

provided however, that notwithstanding the foregoing,

(iv) if all or any part of any series of Debentures is represented by a Registered Global Debenture, then all payments on the portion represented by the Registered Global Debenture may be made, at the determination of the Trust, by electronic funds transfer or otherwise to the Depositary or its nominee for subsequent payment by the Depositary or its nominee to holders of beneficial interests in that Registered Global Debenture;

(v) the mailing of such cheque or the making of such payment by other means shall, to the extent of the sum represented thereby plus the amount of any tax withheld as aforesaid, satisfy and discharge the liability of the Trust for interest on such Debenture unless, in case of payment by cheque, such cheque is not paid at par on presentation at any one of the places where such interest is, by the terms of such Debenture, made payable. In the event of non-receipt of any such cheque by the Person to whom it is sent as aforesaid, the Trust shall issue to such Person a replacement cheque for a like amount upon being furnished with such evidence of non-receipt as it shall reasonably require and upon being indemnified to its satisfaction;

(vi) none of the Trust, the Trustee or any Paying Agent for any Debentures issued as a Registered Global Debenture will be responsible or liable to any Person for any aspect of the records related to or payments made or not made on account of beneficial interests in any Registered Global Debenture or for maintaining, supervising or reviewing any records relating to such beneficial interests; and

(vii) if the due date for the payment of interest, if any, or principal of or premium, if any, on any Debenture is not, at the place of payment a Business Day, such payment will be made on the next Business Day and the holder of such Debenture will not be entitled to any further interest or other payment in respect of such delay; provided, however, that if such next Business Day falls in a subsequent calendar year such payment may be made on the preceding Business Day;

(c) the Trust shall maintain its existence in good standing under the laws of the jurisdiction of its formation and register and qualify and remain registered and qualified to carry on business in all jurisdictions where the character of the properties owned by it or the nature of the business transacted by it makes such registration or qualification necessary, except to the extent that failure to be in good standing or to be so registered or qualified does not have a Material Adverse Effect;

(d) the Trust shall cause each of its Designated Subsidiaries to maintain its existence in good standing under the laws of the jurisdiction of its formation and shall cause each Designated Subsidiary to register and qualify and remain registered and qualified to carry on business in all jurisdictions where the character of the properties owned by it or the nature of the business transacted by it makes such registration or qualification necessary, except to the extent that failure to be in good standing or to be so registered or qualified does not have a Material Adverse Effect;

(e) within 140 days after the end of each fiscal year of the Trust and in any event within ten Business Days (or such longer period as the Trustee in its discretion may consent to) after the filing by the Trust of its annual audited consolidated financial statements for such fiscal year with Canadian securities regulatory authorities, if required, the Trust shall furnish to the Trustee a copy of such annual audited consolidated financial statements; within 60 days after the end of each of the first three fiscal quarters during each fiscal year of the Trust and in any event within ten Business Days (or such longer period as the Trustee in its discretion may consent to) after the filing by the Trust of its quarterly unaudited consolidated financial statements for such fiscal quarter with Canadian securities regulatory authorities, if required, the Trust shall furnish to the Trustee a copy of such unaudited consolidated financial statements, all such financial statements to be prepared in accordance with Generally Accepted Accounting Principles;

(f) the Trust shall and shall cause each of its Designated Subsidiaries to pay or cause to be paid all rents, taxes, rates, levies, royalties and assessments, ordinary or extraordinary, government fees, dues, and other obligations to pay money validly levied, assessed or imposed upon it, or upon its properties or any part thereof, as and when the same become due and payable, except to the extent that failure to do so does not have a Material Adverse Effect or except to the extent and for so long as the Trust or such Designated Subsidiary shall contest in good faith its obligation to do so if such contestation will invoke no risk of loss of any material part of the property of the Trust and its Designated Subsidiaries taken as a whole;

(g) the Trust will or will cause all of its property and the property of its Designated Subsidiaries which is of a character usually insured by business entities operating like businesses to be properly insured and kept insured with reputable insurers (which may include associations or other organizations for mutual or reciprocal insurance or, to the extent customary, through self insurance or co-insurance) against loss or damage by fire or other hazards of the nature and to the extent and in the amount that such properties are usually insured by business entities operating like businesses, provided that the relevant insurance policies may contain such deductibles, exclusions and other limitations as are in accordance with industry practice;

(h) the Trust shall give notice in writing to the Trustee of the occurrence of any Event of Default forthwith upon becoming aware thereof and without waiting for the

Trustee to take any further action, and specifying the nature of such default and the steps taken or proposed to be taken to remedy the same; and

(i) within 140 days after the end of each fiscal year of the Trust and in any event within ten Business Days (or such longer period as the Trustee in its discretion may consent to) after the filing by the Trust of its annual audited consolidated financial statements for such fiscal year with Canadian securities regulatory authorities, if required, the Trust shall furnish the Trustee with an Officers' Certificate certifying that no Event of Default has occurred and is continuing hereunder of which the officers signing such Officers' Certificate are aware, or, if such is not the case, setting forth with reasonable particulars the circumstances of any failure to comply.

6.2 [Intentionally Deleted]

6.3 Appointments to Fill Vacancies in Trustee's Office

The Trust, whenever necessary to avoid or fill a vacancy in the office of trustee, will appoint a qualified trustee, so that there shall at all times be a Trustee hereunder.

6.4 To Pay Trustee's Remuneration

The Trust will pay the Trustee reasonable remuneration for its service as Trustee hereunder and will repay to the Trustee on demand all moneys which shall have been paid by the Trustee in and about the execution of the trusts hereby created (including the compensation and disbursements of the Trustee's Counsel on the basis of a solicitor and his own client and all other advisors and assistants not regularly in the Trustee's employ), with interest, if demanded by the Trustee, at a rate equal to the Prime Rate from 30 days after the date of the invoice from the Trustee to the Trust in respect of such expenditure until payment. Such moneys and the interest thereon, including the Trustee's remuneration, shall be payable out of any funds coming into the possession of the Trustee in priority to any of the Debentures or interest thereon. The said remuneration shall continue to be payable until the trusts hereof are finally wound up and whether or not the trusts of this Trust Indenture shall be in the course of administration by or under the direction of the court. Without limiting the generality of the foregoing provisions of this Section 6.4, the costs to be paid to the Trustee shall include all costs, charges and expenses of the Trustee in connection with the provision of waivers and consents and the recovery or enforcement or repayment of the Debentures or any part thereof.

6.5 Not to Extend Time for Payment of Interest

In order to prevent any accumulation after maturity of unpaid interest, the Trust will not directly or indirectly extend or assent to the extension of time for payment of any interest upon any Debentures and it will not directly or indirectly be or become a party to or approve any such arrangement by purchasing or funding any interest on Debentures or in any other manner. In case the time for the payment of any such interest shall be so extended, whether or not such extension is made by or with the consent of the Trust, notwithstanding anything herein or in the Debentures contained, such interest shall not be entitled in case of default hereunder to the

benefits of this Trust Indenture except subject to the prior payment in full of all interest on Debentures the payment of which has not been so extended.

6.6 Trustee May Perform Covenants

If the Trust shall fail to perform any covenant on its part herein contained, the Trustee may in its discretion, but (subject to Section 8.2) need not, notify the Debentureholders of such failure or itself may perform any of said covenants capable of being performed by it and, if any such covenant requires the payment or expenditure of money, it may make such payment or expenditure with its own funds, or with money borrowed by or advanced to it for such purposes, but shall be under no obligation so to do. All sums so expended or advanced shall be repayable by the Trust in the manner provided in Section 6.4, but no such performance or payment shall be deemed to relieve the Trust from any default hereunder.

ARTICLE 7
COVENANTS RELATING TO THE MEDIUM TERM NOTES

7.1 Covenants Relating to the Medium Term Notes

The Trust covenants with the Trustee that so long as any of the Medium Term Notes remain outstanding:

(a) the Trust shall not and shall not permit any of its Designated Subsidiaries to create, incur, assume or suffer to exist any Security Interest securing Indebtedness for borrowed money, except for Permitted Encumbrances, upon or with respect to any of its undertaking, business, revenues or income, properties, rights or assets, whether now owned or hereafter acquired unless it causes the Medium Term Notes to be secured equally and rateably with such Security Interest;

(b) the Trust shall not and shall not permit any of its Designated Subsidiaries to create, assume or otherwise incur any Funded Obligations if at the time of such creation, assumption or incurrence and after giving effect thereto, the ratio of Funded Obligations to Total Capitalization would exceed 70%; provided, however, for purposes of this subsection 7.1(b), any rollover, conversion, extension of the term or substantially concurrent refinancing or other refunding of an existing obligation in respect of Funded Obligations under a line of credit or other credit facility with a bank or banks or other lending institutions shall be deemed not to be the creation, assumption or other incurrence of any Funded Obligation except to the extent of an increase in the principal amount thereof; and

(c) the Trust shall not permit its Designated Subsidiaries (excluding those Designated Subsidiaries which have provided to the Trustee a Subsidiary Guarantee) in the aggregate to create, assume or otherwise incur Funded Obligations (other than Funded Obligations incurred pursuant to the issuance of $100 million of 7.28% medium term notes due October 4, 2005) which, in the aggregate, exceed 10% of Consolidated Total Assets.

ARTICLE 8
DEFAULT

8.1 Events of Default and Waiver

Upon the happening of one or more of the following events (each an "**Event of Default**") (other than the happening of an event applicable to a Designated Subsidiary that the Trust could declare to be no longer a Designated Subsidiary in compliance with the definition of Designated Subsidiary, provided that such declaration is made within 10 days of notice by the Trust to the Trustee of such event):

(a) if the Trust makes default in payment of the principal of or premium (if any) or interest on any Debenture when the same becomes due and payable under any provision hereof or of the Debentures and such default continues for a period of five (5) Business Days after written notice to the Trust from the Trustee that such amount is overdue;

(b) if a decree or order of a court having jurisdiction is entered adjudging the Trust or a Designated Subsidiary a bankrupt or insolvent under the *Bankruptcy and Insolvency Act* (Canada), the *Companies' Creditors Arrangement Act* (Canada) or any other bankruptcy, insolvency or analogous laws, or appointing a receiver, receiver and manager or receiver-manager of, or of any substantial part of the property of, the Trust or a Designated Subsidiary or ordering the winding-up or liquidation of the affairs of the Trust or a Designated Subsidiary, and any such decree or order or appointment continues unstayed and in effect for a period of 30 consecutive days;

(c) if a resolution is passed for the dissolution, winding-up or liquidation of the Trust or a Designated Subsidiary (except in the course of carrying out or pursuant to a transaction where the business of the Trust continues to be carried on by a Successor and where certain other conditions, as set forth herein, have been satisfied) or if the Trust or a Designated Subsidiary institutes proceedings to be adjudicated a bankrupt or insolvent or consents to the institution of bankruptcy or insolvency proceedings against it under the *Bankruptcy and Insolvency Act* (Canada) or the *Companies' Creditors Arrangement Act* (Canada) or any other bankruptcy, insolvency or analogous laws; or, if the Trust or a Designated Subsidiary consents to or otherwise becomes subject to the appointment of a receiver, receiver and manager or receiver-manager of, or of any substantial part of, the property of the Trust or a Designated Subsidiary; or, if the Trust or a Designated Subsidiary makes a general assignment for the benefit of creditors or admits in writing its inability to pay its debts generally as they become due or takes corporate action in furtherance of any of the aforesaid purposes;

(d) if the Trust or any of its Designated Subsidiaries defaults (which default has not been waived or cured) (i) under any obligation to repay when due outstanding borrowed money (other than Non-Recourse Debt and other than in respect of the Debentures) in excess of the greater of $25,000,000 and 5% of Consolidated

Equity and after all applicable grace or curative periods have expired or (ii) in the performance or observance of any other agreement or condition in respect of outstanding borrowed money in excess of the greater of $25,000,000 and 5% of Consolidated Equity if, as a result thereof, the requirement to repay such borrowed money has been accelerated upon exercise of any right of a creditor or otherwise;

(e) if an encumbrancer takes possession of all of the property of the Trust or a Designated Subsidiary or any part thereof which is a substantial part of the property of the Trust on a consolidated basis, or if any process of execution is levied or enforced upon or against all of the property of the Trust or a Designated Subsidiary or any part thereof which is a substantial part of the property of the Trust on a consolidated basis and remains unsatisfied for such period as would permit any such property to be sold thereunder, unless such process is in good faith contested by the Trust or the Designated Subsidiary; and

(f) if the Trust shall neglect to observe or perform in any material respect any other material covenant or condition herein contained on its part to be observed or performed and, after notice in writing has been given by the Trustee to the Trust specifying such default and requiring the Trust to put an end to the same (which notice shall be given by the Trustee upon receipt of a request in writing signed by the holders of not less than 25% in principal amount of the Debentures then outstanding), the Trust shall fail to remedy such default within a period of 45 days, unless the Trustee (having regard to the subject matter of the default) shall have agreed to a longer period, and in such event, within the period agreed to by the Trustee;

then in each and every such event the Trustee may in its discretion and shall upon receipt of a request in writing signed by the holders of not less than 25% in principal amount of the Debentures then outstanding (or, if more than one series of Debentures is outstanding, in the case of default in the payment of principal, premium or interest in respect of any one or more series of Debentures or in any material covenant or condition which by its terms is effective only so long as Debentures of one or more series are outstanding, signed by the holders of not less than 25% in principal amount of the Debentures of all such series so in default then outstanding), subject to the provisions of Section 8.3, by notice in writing to the Trust declare the principal of and premium (if any) and interest on all Debentures then outstanding (and, where such declaration is based upon a voluntary winding-up or liquidation of the Trust or where otherwise not contrary to law, the premium (if any) thereon which would have been payable if the Trust had redeemed the Debentures (otherwise than out of sinking fund moneys) on the date of such declaration) and all other moneys outstanding hereunder to be due and payable and the same shall forthwith become immediately due and payable to the Trustee, anything therein or herein to the contrary notwithstanding, and the Trust shall forthwith pay to the Trustee for the benefit of the Debentureholders such principal, premium (if any) as aforesaid, and accrued and unpaid interest and all other moneys outstanding hereunder, together with interest at the rate borne by the Debentures on such principal, premium (if any), interest and such other moneys from the date of the said declaration until payment is received by the Trustee. Such payment when made shall be

deemed to have been made in discharge of the Trust's obligations hereunder and any moneys so received by the Trustee shall be applied in the manner provided in Section 8.6.

8.2 Notice of Events of Default

If an Event of Default shall occur and be continuing the Trustee shall, within 10 days after it becomes aware of the occurrence of such Event of Default, give notice of such Event of Default to the Debentureholders in the applicable manner provided in Section 12.2, provided that, notwithstanding the foregoing, unless the Trustee shall have been requested to do so by the holders of at least 25% of the principal amount of the Debentures then outstanding, the Trustee shall not be required to give such notice if the Trustee in good faith shall have determined that the withholding of such notice is in the best interests of the Debentureholders and shall have so advised the Trust in writing.

8.3 Waiver of Default

Upon the happening of any Event of Default hereunder, other than default in payment of any Debentures at maturity:

(a) Debentureholders by Extraordinary Resolution shall have the power (in addition to the powers exercisable by Extraordinary Resolution as hereinafter provided) either by a meeting or by an instrument in writing to instruct the Trustee to waive any Event of Default and to cancel any declaration made by the Trustee pursuant to Section 8.1 and the Trustee shall thereupon waive the Event of Default and cancel such declaration, or either, upon such terms and conditions as shall be prescribed in such resolution or instrument; and

(b) the Trustee, so long as it has not become bound to declare the principal of and premium (if any) and interest on the Debentures then outstanding to be due and payable, or to obtain or enforce payment of the same, shall have power to waive any Event of Default if, in the Trustee's opinion, the same shall have been cured or adequate satisfaction made therefor, and in such event to cancel any such declaration theretofore made by the Trustee in the exercise of its discretion, upon such terms and conditions as the Trustee may deem advisable.

No such act or omission either of the Trustee or of the Debentureholders shall extend to or be taken in any manner whatsoever to affect any subsequent Event of Default or the rights resulting therefrom.

8.4 Enforcement by the Trustee

(a) Subject to the provisions of Section 8.3 and to the provisions of any Extraordinary Resolution that may be passed by the Debentureholders, in case the Trust shall fail to pay to the Trustee, forthwith after the same shall have been declared to be due and payable under Section 8.1, the principal of and premium (if any) and interest on all Debentures then outstanding together with any other amounts due hereunder, the Trustee may in its discretion and shall upon receipt of a request in writing signed by the holders of not less than 25% in principal amount of the

Debentures then outstanding (or, if more than one series of Debentures is outstanding, in the case of default in the payment of principal, premium or interest in respect of any one or more series of Debentures or in any material covenant or condition which by its terms is effective only so long as Debentures of one or more series are outstanding, signed by the holders of not less than 25% in principal amount of the Debentures of all such series so in default then outstanding) and upon being indemnified to its reasonable satisfaction against all costs, expenses and liabilities to be incurred, proceed in its name as Trustee hereunder to obtain or enforce payment of the said principal of and premium (if any) and interest on all the Debentures then outstanding together with any other amounts due hereunder by such proceedings authorized by this Trust Indenture or by law or equity as the Trustee in such request shall have been directed to take, or if such request contains no such direction, or if the Trustee shall act without such request, then by such proceedings authorized by this Trust Indenture or by suit at law or in equity as the Trustee shall deem expedient.

(b) The Trustee shall be entitled and empowered, either in its own name or as trustee of an express trust, or as attorney-in-fact for the Debentureholders or in any one or more of such capacities, to file such proof of debt, amendment of proof of debt, claim, petition or other document as may be necessary or advisable in order to have the claims of the Trustee and of the Debentureholders allowed in any insolvency, bankruptcy, liquidation or other judicial proceedings relative to the Trust or its creditors or relative to or affecting its property. The Trustee is hereby irrevocably appointed (and the successive respective Debentureholders by taking and holding the same shall be conclusively deemed to have so appointed the Trustee) the true and lawful attorney-in-fact of the respective Debentureholders with authority to make and file in the respective names of the Debentureholders (if known) or on behalf of the Debentureholders as a class, subject to deduction from any such claims of the amounts of any claims filed by any of the Debentureholders themselves, any proof of debt, amendment of proof of debt, claim, petition or other document in any such proceedings and to receive payment of any sums becoming distributable on account thereof, and to execute any such other papers and documents and to do and perform any and all such acts and things for and on behalf of such Debentureholders, as may be necessary or advisable in the opinion of the Trustee, in order to have the respective claims of the Trustee and of the Debentureholders against the Trust or its property allowed in any such proceeding, and to receive payment of or on account of such claims; provided that nothing contained in this Trust Indenture shall be deemed to give to the Trustee, unless so authorized by Extraordinary Resolution, any right to accept or consent to any plan of reorganization or otherwise by action of any character in such proceeding to waive or change in any way any right of any Debentureholder.

(c) The Trustee shall also have power at any time and from time to time to institute and to maintain such suits and proceedings as it may be advised shall be necessary or advisable to preserve and protect its interests and the interests of the Debentureholders.

(d) All rights of action hereunder may be enforced by the Trustee without the possession of any of the Debentures or the production thereof on the trial or other proceedings relating thereto. Any such suit or proceeding instituted by the Trustee shall be brought in the name of the Trustee as trustee of an express trust, and any recovery of judgment shall be for the rateable benefit of the Debentureholders subject to the provisions of this Trust Indenture. In any proceeding brought by the Trustee (and also any proceeding in which a declaratory judgment of a court may be sought as to the interpretation or construction of any provision of this Trust Indenture, to which the Trustee shall be a party) the Trustee shall be held to represent all the Debentureholders, and it shall not be necessary to make any Debentureholders parties to any such proceeding.

8.5 No Suits by Debentureholders

No Debentureholder shall have any right to institute any action, suit or proceeding at law or in equity for the purpose of enforcing payment of the principal of or premium (if any) or interest on the Debentures or for the execution of any trust or power hereunder or for the appointment of a liquidator or receiver, receiver and manager or receiver-manager or for a receiving order under the *Bankruptcy and Insolvency Act* (Canada) or to have the Trust wound up or to file or prove a claim in any liquidation or bankruptcy proceeding or for any other remedy hereunder, unless (a) such Debentureholder shall previously have given to the Trustee written notice of the happening of an Event of Default hereunder; and (b) the Debentureholders by Extraordinary Resolution or by written instrument signed by the holders of at least 25% in principal amount of the Debentures then outstanding (or, if more than one series of Debentures is outstanding, in the case of default in the payment of principal, premium (if any) or interest in respect of any one or more series of Debentures or in any material covenant or condition which by its terms is effective only so long as Debentures of one or more series are outstanding, signed by the holders of not less than 25% in principal amount of Debentures of all such series so in default then outstanding) shall have made a request to the Trustee and the Trustee shall have been afforded reasonable opportunity either itself to proceed to exercise the powers hereinbefore granted or to institute an action, suit or proceeding in its name for such purpose; and (c) the Debentureholders, or any of them shall have furnished to the Trustee, when so requested by the Trustee, sufficient funds and security and indemnity satisfactory to it against the costs, expenses and liabilities to be incurred therein or thereby; and (d) the Trustee shall have failed to act within a reasonable time after such notification, request and offer of indemnity and such notification, request and offer of indemnity are hereby declared in every such case, at the option of the Trustee, to be conditions precedent to any such proceeding.

8.6 Application of Moneys by Trustee

Except as herein otherwise expressly provided any moneys received by the Trustee from the Trust pursuant to the foregoing provisions of this Article 8, or as a result of legal or other proceedings or from any trustee in bankruptcy or liquidator of the Trust, shall be applied, together with any other moneys in the hands of the Trustee available for such purpose, as follows:

(a) first, in payment or in reimbursement to the Trustee of its compensation, costs, charges, expenses, borrowings, advances or other moneys furnished or provided by or at the instance of the Trustee in or about the execution of its trusts under, or otherwise in relation to, this Trust Indenture, with interest thereon as herein provided;

(b) second, but subject as hereinafter in this Section 8.6 provided, in payment, rateably and proportionately to the Debentureholders, of the principal of and premium (if any) and accrued and unpaid interest and interest on amounts in default on the Debentures which shall then be outstanding in the priority of principal first and then premium (if any) and then accrued and unpaid interest and interest on amounts in default unless otherwise directed by Extraordinary Resolution and in that case in such order or priority as between principal, premium and interest as may be directed by such resolution; and

(c) third, in payment of the surplus, if any, of such moneys to the Trust or its assigns;

provided that no payment shall be made pursuant to clause (b) above in respect of the principal of or premium (if any) or interest on any Debenture held, directly or indirectly, by or for the benefit of the Trust (other than, if permitted hereunder, any Debenture pledged for value and in good faith to a Person other than the Trust but only to the extent of such Person's interest therein) except subject to the prior payment in full of the principal of and premium (if any) and interest on all Debentures which are not so held.

8.7 Distribution of Proceeds

Payments to Debentureholders pursuant to Section 8.6(b) shall be made as follows:

(a) at least 15 days notice of every such payment shall be given in the applicable manner provided in Section 12.2 specifying the time when and the place or places where the Debentures are to be presented and the amount of the payment and the application thereof as between principal, premium (if any) and interest;

(b) payment of any Debenture shall be made upon presentation thereof at any one of the places specified in such notice and any such Debenture thereby paid in full shall be surrendered, otherwise a memorandum of such payment shall be endorsed thereon; but the Trustee may in its discretion dispense with presentation and surrender for endorsement in any special case upon such indemnity being given as it shall deem sufficient;

(c) from and after the date of payment specified in the notice, interest shall accrue only on the amount owing on each Debenture after giving credit for the amount of the payment specified in such notice unless the Debenture in respect of which such amount is owing be duly presented on or after the date so specified and payment of such amount not be made; and

(d) the Trustee shall not be bound to apply or make any partial or interim payment of any moneys coming into its hands if the amount so received by it, after reserving

thereout such amount as the Trustee may think necessary to provide for the payments mentioned in Section 8.6(a), is insufficient to make a distribution of at least 5% of the aggregate principal amount of the outstanding Debentures, but it may retain the money so received by it and invest or deposit the same as provided in Section 13.9 until the money or the investments representing the same, with the income derived therefrom, together with any other moneys for the time being under its control shall be sufficient for the said purpose or until it shall consider it advisable to apply the same in the manner hereinbefore set forth. The foregoing shall, however, not apply to a final payment in distribution hereunder.

8.8 Remedies Cumulative

No remedy herein conferred upon or reserved to the Trustee, or, subject to the other provisions hereof, upon or to the Debentureholders is intended to be exclusive of any other remedy, but each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now existing or hereafter to exist by law or by statute.

8.9 Judgment Against the Trust

The Trust covenants and agrees with the Trustee that, in case of any judicial or other proceedings to enforce the rights of the Debentureholders, judgment may be rendered against it in favour of the Debentureholders or in favour of the Trustee, as trustee for the Debentureholders, for any amount which may remain due in respect of the Debentures and the interest thereon and any other moneys owing hereunder.

8.10 Immunity of Shareholders and Others

The Debentureholders and the Trustee hereby waive and release any right, cause of action or remedy now or hereafter existing in any jurisdiction against any past, present or future unitholder, trustee, director, officer or employee of the Trust or of any Successor and against any incorporator, shareholder, director, officer or employee of any manager or administrator of the Trust or any Successor for the payment of the principal of or premium (if any) or interest on any of the Debentures or on any covenant, agreement, representation or warranty or determination by the Directors or the Trust herein or in the Debentures or otherwise in respect of any matter relating to this Trust Indenture or the Debentures.

8.11 Trustee Appointed Attorney

The Trust hereby irrevocably appoints the Trustee to be the attorney of the Trust in the name and on behalf of the Trust to execute any instruments and do any acts and things which the Trust ought to execute and do, and has not executed or done, under the covenants and provisions contained in this Trust Indenture and generally to use the name of the Trust in the exercise of all or any of the powers hereby conferred on the Trustee, with full powers of substitution and revocation.

ARTICLE 9
SATISFACTION AND DISCHARGE

9.1 Cancellation and Destruction

All matured Debentures shall forthwith after payment thereof be delivered to the Trustee and cancelled by it. All Debentures cancelled or required to be cancelled under this or any other provision of this Trust Indenture shall be destroyed by the Trustee and if required by the Trust, the Trustee shall furnish to it a destruction certificate setting out the designating numbers of the Debentures so destroyed.

9.2 Non-Presentation of Debentures

In case any Debentureholder shall fail to present the same for payment on the date on which the principal thereof and premium (if any) or the interest thereon or represented thereby becomes payable either at maturity or otherwise or shall not accept payment on account thereof and give such receipt therefor (if any) as the Trustee may require:

(a) the Trust shall be entitled to pay to the Trustee and direct the Trustee to set aside;

(b) in respect of moneys in the hands of the Trustee which may or should be applied to the payment of the Debenture, the Trust shall be entitled to direct the Trustee to set aside; or

(c) if the redemption was pursuant to notice given hereunder, the Trustee may itself set aside;

in each case either in the deposit department of the Trustee or in a chartered bank in Canada, the principal moneys and premium (if any) or the interest, as the case may be, in trust to be paid to the holder of such Debenture upon due presentation or surrender thereof in accordance with the provisions of this Trust Indenture; and thereupon the principal moneys and premium (if any) or the interest payable on or represented by each Debenture in respect whereof such moneys have been set aside shall be deemed to have been paid and the Debentureholder shall thereafter have no right in respect thereof except that of receiving payment of the moneys so set aside by the Trustee upon due presentation and surrender thereof, subject to the provisions of Section 9.3.

9.3 Repayment of Unclaimed Moneys

Any moneys set aside under Section 5.5 or Section 9.2 and not claimed by and paid to Debentureholders as provided in Section 9.2 within six years after the date of such setting aside shall be repaid to the Trust by the Trustee on demand and thereupon the Trustee shall be released from all further liability with respect to such moneys and thereafter the Debentureholders in respect of which such moneys were so repaid to the Trust shall have no rights in respect thereof except to obtain payment of the moneys due thereon from the Trust up to such time as the right to proceed against the Trust for recovery of such moneys has become statute barred under the laws of the Province of Alberta.

9.4 Discharge

The Trustee shall at the request of the Trust release and discharge this Trust Indenture and execute and deliver such instruments as it shall be advised by Counsel are requisite for that purpose and to release the Trust from its covenants herein contained (other than the provisions relating to the indemnification of the Trustee), upon proof being given to the reasonable satisfaction of the Trustee that the principal of and premium (if any) and interest (including interest on amounts in default, if any) on all the Debentures and all other moneys payable hereunder have been paid or satisfied or that, all the Debentures having matured or having been duly called for redemption, payment of the principal of and premium, if any, and interest (including interest on amounts in default, if any) on such Debentures and of all other moneys payable hereunder has been duly and effectually provided for in accordance with the provisions hereof.

9.5 Defeasance

(a) The Trust shall be deemed to have fully paid, satisfied and discharged all the outstanding Debentures or all the outstanding Debentures of any series and the Trustee, at the expense of the Trust, shall execute and deliver proper instruments acknowledging the full payment, satisfaction and discharge of such Debentures, when, with respect to all outstanding Debentures or all the outstanding Debentures of any series issued hereunder, as the case may be, either:

(i) the Trust has deposited or caused to be deposited with the Trustee as trust funds in trust for the purpose, an amount sufficient to pay, satisfy and discharge the entire amount of principal, premium (if any) and accrued and unpaid interest to the maturity date or any repayment date, as the case may be, of all the outstanding Debentures or all the outstanding Debentures of such series; or

(ii) the Trust has deposited or caused to be deposited with the Trustee as trust property in trust for the purpose, such amount of direct obligations of, or obligations the principal, premium (if any) and interest of which are guaranteed by, the Government of Canada or of the United States of America as will, together with the income to accrue thereon without consideration of any reinvestment thereof, be sufficient to pay and discharge the entire amount of principal, premium (if any) and accrued and unpaid interest to the maturity date or any repayment date, as the case may be, of all the outstanding Debentures or all the outstanding Debentures of such series;

and in either event:

(iii) the Trust has paid or caused to be paid all other sums payable with respect to all the outstanding Debentures or all the outstanding Debentures of such series;

(iv) the Trust has delivered to the Trustee an Officers' Certificate stating that all conditions precedent herein provided relating to the payment, satisfaction and discharge of all the outstanding Debentures or all the outstanding Debentures of such series have been complied with; and

(v) except in respect of taxes arising with respect to deposited funds or other provision for payment in respect of the Debentures or Debentures of such series as hereinbefore provided, for the payment of which the Trust has deposited funds with the Trustee as trust funds in trust for such purpose, the Trustee shall have received an opinion of national recognized counsel to the effect that the holders of Debentures or such series of Debentures will not be subject to any additional taxes as a result of the exercise by the Trust of the defeasance option provided in this section 9.5 and that they will be subject to taxes, if any, including those in respect of income (including taxable capital gain), on the same amount, in the same manner and at the same time or times as would have been the case if such option had not been exercised.

(b) Any deposits with the Trustee referred to in this Section 9.5 shall be irrevocable and shall be made under the terms of an escrow trust agreement in form and substance satisfactory to the Trustee, acting reasonably, and which provides for the due and punctual payment of the principal and accrued interest of all the outstanding Debentures or all the outstanding Debentures of such series.

(c) Upon the satisfaction of the conditions set forth in this Section 9.5 with respect to all the outstanding Debentures or all the outstanding Debentures of such series, the terms and conditions of all the outstanding Debentures or all the outstanding Debentures of such series, including the terms and conditions with respect thereto set forth in this Trust Indenture, other than those contained in Section 2.10, Article 3, Sections 8.5, 8.10 and 9.2, Article 12 and Article 13 and the provisions of Article 1 pertaining thereto, shall no longer be binding upon or applicable to the Trust.

(d) Any funds or obligations deposited with the Trustee pursuant to this Section 9.5 shall be denominated in the currency in which the Debentures so deemed to be fully paid, satisfied and discharged are denominated.

ARTICLE 10
SUCCESSORS

10.1 Certain Requirements

The Trust shall not enter into any transaction (including by way of reconstruction, re-organization, consolidation, arrangement, amalgamation, merger, liquidation, transfer, sale or otherwise) whereby all or substantially all of its undertaking, property and assets would become the property of any other Person or, in the case of any such amalgamation, of the continuing corporation resulting therefrom, unless:

(a) such other Person (herein called "**Successor**") is a corporation, company, partnership, trust or other entity formed under the laws of Canada or one of its provinces;

(b) the Successor shall execute, prior to or contemporaneously with the consummation of such transaction, such instruments (if any) as are in the opinion of Counsel necessary or advisable to evidence the assumption by the Successor of liability for the due and punctual payment of the principal of and premium (if any) and interest on all of the Debentures then outstanding, and all other monies payable hereunder, the covenant of the Successor to pay the same and the agreement of the Successor to observe and perform all the covenants and obligations of the Trust under this Trust Indenture and the Debentures;

(c) such transaction shall be upon such terms as to substantially preserve and not impair any of the rights and powers of the Trustee or the Debentureholders hereunder; and

(d) no Event of Default or event or circumstance which, with the giving of notice or lapse of time or otherwise, would constitute an Event of Default shall have occurred and be continuing immediately prior to such transaction or will occur as a result of such transaction.

Upon completion of such assignment and assumption by the Successor, the Trust (or any previous successor to the Trust) shall be released from all liabilities and obligations under this Trust Indenture and all outstanding Debentures.

10.2 Vesting of Powers in Successor

Whenever the conditions of Section 10.1 have been duly observed and performed, the Successor shall possess and from time to time may exercise each and every right and power of the Trust under this Trust Indenture in its own name or in the name of the Trust or otherwise and any act or proceeding by any provision of this Trust Indenture required to be done or performed by any Directors or officers of the Trust or the Administrator may be done and performed with like force and effect by the directors or officers of such Successor.

ARTICLE 11
MEETINGS OF DEBENTUREHOLDERS

11.1 Right to Convene Meeting

The Trustee or the Trust may at any time and from time to time and the Trustee shall on receipt of a written request of the Trust or a written request signed by the holders of not less than 25% in principal amount of the Debentures then outstanding and upon being indemnified to its reasonable satisfaction by the Trust or by the Debentureholders signing such request against the costs which may be incurred in connection with the calling and holding of such meeting, convene a meeting of the Debentureholders. In the event of the Trustee failing within 30 days after receipt of any such request and such indemnity to give notice convening a meeting, the Trust or such Debentureholders, as the case may be, may convene such meeting. Any such

meeting shall be held in Calgary, Alberta or Toronto, Ontario, or such other place as may be determined by the Trustee with the consent of the Trust.

11.2 Notice of Meetings

At least 21 days notice of any meeting shall be given to the Debentureholders in the applicable manner provided in Section 12.2 and a copy thereof shall be provided to the Trustee, unless the meeting has been called by it. Such notice shall state the time when and the place where the meeting is to be held and shall state briefly the general nature of the business to be transacted thereat and it shall not be necessary for any such notice to set out the terms of any resolution to be proposed or any of the provisions of this Article 11. The accidental omission to give notice of a meeting to any Debentureholder shall not invalidate any resolution passed at any such meeting.

11.3 Chairman

Some Person, who need not be a Debentureholder, nominated in writing by the Trustee shall be chairman of the meeting and if no Person is so nominated, or if the Person so nominated is not present within 15 minutes from the time fixed for the holding of the meeting, the Debentureholders present in person or by proxy shall choose some Person present to be chairman.

11.4 Quorum

Subject to the provisions of Section 11.12, at any meeting of the Debentureholders a quorum shall consist of Debentureholders present in person or by proxy and representing at least 25% in principal amount of the outstanding Debentures. If a quorum of the Debentureholders shall not be present within 30 minutes from the time fixed for holding any meeting, the meeting, if summoned by the Debentureholders or pursuant to a request of the Debentureholders, shall be dissolved. In any other case, the meeting shall be adjourned to the same day in the next week (unless such day is not a Business Day in which case it shall be adjourned to the next following Business Day thereafter) at the same time and place and no notice shall be required to be given in respect of such adjourned meeting. At the adjourned meeting, the Debentureholders present in person or by proxy shall form a quorum and may transact the business for which the meeting was originally convened notwithstanding that they may not represent 25% of the principal amount of the outstanding Debentures. Any business may be brought before or dealt with at an adjourned meeting which might have been brought before or dealt with at the original meeting in accordance with the notice calling the same. No business shall be transacted at any meeting unless the required quorum be present at the commencement of business.

11.5 Power to Adjourn

The chairman of any meeting at which a quorum of the Debentureholders is present may with the consent of the holders of a majority in principal amount of the Debentures represented thereat adjourn any such meeting and no notice of such adjournment need be given except such notice, if any, as the meeting may prescribe.

11.6 Show of Hands

Every question submitted to a meeting shall, subject to Section 11.7, be decided in the first place by a majority of the votes given on a show of hands. At any such meeting, unless a poll is duly demanded as herein provided, a declaration by the chairman that a resolution has been carried or carried unanimously or by a particular majority or lost or not carried by a particular majority shall be conclusive evidence of the fact. The chairman of any meeting shall be entitled, both on a show of hands and on a poll, to vote in respect of the Debentures (if any) held by him.

11.7 Poll

On every Extraordinary Resolution, and on any other question submitted to a meeting when demanded by the chairman or by one or more Debentureholders or proxies for Debentureholders, a poll shall be taken in such manner and either at once or after an adjournment as the chairman shall direct. Questions other than Extraordinary Resolutions shall, if a poll be taken, be decided by the votes of the holders of a majority in principal amount of the Debentures represented at the meeting and voted on the poll.

11.8 Voting

On a show of hands every Person who is present and entitled to vote, whether as a Debentureholder or as proxy for one or more Debentureholders or both, shall have one vote. On a poll each Debentureholder present in person or represented by a proxy duly appointed by an instrument in writing shall be entitled to one vote in respect of each $1,000 principal amount of Debentures of which he shall then be the Debentureholder. A proxy need not be a Debentureholder. In the case of joint registered holders of a Debenture, any one of them present in person or by proxy at the meeting may vote in the absence of the other or others, but in case more than one of them be present in person or by proxy, they shall vote together in respect of the Debentures of which they are joint registered holders.

11.9 Regulations

(a) The Trustee, or the Trust with the approval of the Trustee, may from time to time make and from time to time vary or revoke such regulations relating to the meeting as it shall from time to time think fit including regulations providing for and governing:

(i) the voting by proxy by holders of registered Debentures and the form of the instrument appointing a proxy, which shall be in writing, and the manner in which the same shall be executed and the production of the authority of any Person signing on behalf of a Debentureholder;

(ii) the deposit of instruments appointing proxies at such place as the Trustee, the Trust or the Debentureholder convening the meeting, as the case may be, may in the notice convening the meeting, direct and the time (if any) before the holding of the meeting or any adjournment thereof by which the same be deposited; and

(iii) the deposit of instruments appointing proxies at some approved place or places other than the place at which the meeting is to be held and enabling particulars of such instruments appointing proxies to be mailed or telecopied before the meeting to the Trust or to the Trustee at the place where the same is to be held and for the voting of proxies so deposited as though the instruments themselves were produced at the meeting.

(b) Any regulations so made shall be binding and effective and the votes given in accordance therewith shall be valid and shall be counted. Save as such regulations may provide, the only Persons who shall be recognized at any meeting as the holders of any Debentures, or as entitled to vote or be present at the meeting in respect thereof, shall be the holders of registered Debentures and Persons whom Debentureholders have by instrument in writing duly appointed as their proxies.

11.10 Persons Entitled to Attend Meetings

The Trust and the Trustee, by their respective officers and directors and the officers and directors of their managers and administrators, and the legal and other advisers of the Trust and the Trustee may attend any meeting of the Debentureholders, but shall have no vote as such.

11.11 Powers Exercisable by Extraordinary Resolution

In addition to the powers conferred upon them by any of the other provisions of this Trust Indenture or by law, a meeting of the Debentureholders shall have the following powers exercisable from time to time by Extraordinary Resolution:

(a) power to sanction any modification, abrogation, alteration, compromise or arrangement of the rights of the Debentureholders or the Trustee against the Trust, or against its property, whether such rights arise under this Trust Indenture, the Debentures, a Subsidiary Guarantee or otherwise;

(b) power to assent to any modification of or change in or addition to or omission from the provisions contained in this Trust Indenture, any Debenture or any Subsidiary Guarantee which shall be agreed to by the Trust and to authorize the Trustee to concur in and execute any indenture supplemental or other instrument hereto embodying any modification, change, addition or omission;

(c) power to sanction any scheme for the reconstruction or reorganization of the Trust or for the consolidation, amalgamation or merger of the Trust with any other Person or for the sale, leasing, transfer or other disposition of the undertaking, property and assets of the Trust or any part thereof, provided that no such sanction shall be necessary in respect of any such transaction if the provisions of Section 10.1 shall have been complied with;

(d) power to direct or authorize the Trustee to exercise any power, right, remedy or authority given to it by this Trust Indenture in any manner specified in any such

Extraordinary Resolution or to refrain from exercising any such power, right, remedy or authority;

(e) power to waive and direct the Trustee to waive any default hereunder or cancel any declaration made by the Trustee pursuant to Section 8.1 either unconditionally or upon any condition specified in such resolution;

(f) power to restrain any Debentureholder from taking or instituting any suit, action or proceeding for the purpose of enforcing payment of the principal of or premium, if any, or interest on the Debentures, or for the execution of any trust or power hereunder;

(g) power to direct any Debentureholder who, as such, has brought any action, suit or proceeding to stay or discontinue or otherwise deal with the same upon payment, if the taking of such suit, action or proceeding shall have been permitted by Section 8.5, of the costs, charges and expenses reasonably and properly incurred by such Debentureholder in connection therewith;

(h) power to assent to any compromise or arrangement with any creditor or creditors or any class or classes of creditors, whether secured or otherwise, and with holders of securities of the Trust;

(i) power to appoint a committee with power and authority (subject to such limitations (if any) as may be prescribed in the resolution) to exercise, and to direct the Trustee to exercise, on behalf of the Debentureholders, such of the powers of the Debentureholders as are exercisable by Extraordinary Resolution or other resolution as shall be included in the resolution appointing the committee. The resolution making such appointment may provide for payment of the expenses and disbursements of and compensation to such committee. Such committee shall consist of such number of persons as shall be prescribed in the resolution appointing it and the members need not be themselves Debentureholders. Every such committee may elect its chairman and may make regulations respecting its quorum, the calling of its meetings, the filling of vacancies occurring in its number and its procedure generally. Such regulations may provide that the committee may act at a meeting at which a quorum is present or may act by instruments signed by the number of members thereof necessary to constitute a quorum. All acts of any such committee within the authority delegated to it shall be binding upon all Debentureholders. Neither the committee nor any member thereof shall be liable for any loss arising from or in connection with any action taken or omitted to be taken by them in good faith;

(j) power to authorize the distribution in specie of any shares, bonds, debentures or other securities or obligations or cash or other consideration received hereunder or the use or disposal of the whole or any part of such shares, bonds, debentures or other securities or obligations or cash or other consideration in such manner and for such purpose as may be deemed advisable and specified in such Extraordinary Resolution;

(k) power to authorize the Trustee or any other Person to bid at any sale of the Trust's properties or assets or any part thereof and to borrow the moneys required to make any deposit at said sale or pay the balance of the purchase price and to hypothecate, mortgage, pledge, charge, cede and transfer the property or assets so purchased as security for the repayment of the moneys so borrowed and interest thereon, or to advance such moneys (in which event they shall have a lien upon the property or assets so purchased for the amount so advanced and interest thereon) and to hold any property or assets so purchased (subject to any hypothec, mortgage, pledge, charge or lien to secure any moneys so borrowed or advanced) in trust for all the holders of the Debentures outstanding at the time of such sale pro rata in proportion to the amounts due to them thereon respectively for principal, premium (if any) and interest before such sale, and to sell, transfer and convey the whole or any part or parts of the property or assets so purchased for such consideration in cash or in the shares, bonds, debentures or other securities or obligations of any company formed or to be formed, or partly in cash and partly in such securities or obligations and upon such terms and conditions as may be determined by such Extraordinary Resolution of the Debentureholders and, subject to such terms and conditions, to dispose of such cash, shares, bonds, debentures or other securities or obligations pursuant to the provisions of subsection (j), and until the sale, transfer or conveyance of the whole of such property or assets so purchased to maintain and operate such part of said property and assets as has not been disposed of, and for such purposes to borrow moneys and to hypothecate, mortgage, pledge, charge and cede and transfer the property and assets so purchased, or any part thereof, as security for the repayment of the moneys so borrowed, with interest thereon, or to advance such moneys (in which event they shall have a lien or charge upon the property and assets so purchased for the amounts so advanced and interest thereon) and otherwise deal with such property and assets and the proceeds of any sale, transfer or conveyance thereof as the Debentureholders may by such Extraordinary Resolution direct;

(l) power to remove the Trustee from office and to appoint a new Trustee or Trustees;

(m) power to sanction the exchange of the Debentures for or the conversion thereof into shares, bonds, debentures or other securities or obligations of the Trust or of any Person formed or to be formed;

(n) power, notwithstanding Section 6.5, to authorize the Trust and the Trustee to grant extensions of time for payment of interest on any of the Debentures, whether or not the interest, the payment in respect of which is extended, is at the time due or overdue; and

(o) power to amend, alter or repeal any Extraordinary Resolution previously passed or sanctioned by the Debentureholders or by any committee appointed pursuant to subsection (i).

11.12 Meaning of "Extraordinary Resolution"

(a) The expression "**Extraordinary Resolution**" when used in this Trust Indenture means, subject as hereinafter in this Article 11 provided, a resolution proposed to be passed as an Extraordinary Resolution at a meeting of Debentureholders (including an adjourned meeting) duly convened for the purpose and held in accordance with the provisions of this Article 11 at which the holders of not less than 50% of the principal amount of the Debentures then outstanding are present in person or by proxy and passed by the favourable votes of the holders of not less than 66 2/3% of the principal amount of Debentures represented at the meeting and voted on a poll upon such resolution.

(b) If, at any such meeting, the holders of not less than 50% in principal amount of the Debentures outstanding are not present in person or by proxy within 30 minutes after the time appointed for the meeting, then the meeting, if convened by or on the requisition of Debentureholders, shall be dissolved. In any other case, it shall stand adjourned to such date, being not less than 21 nor more than 60 days later, and to such place and time as may be determined by the Trust. Not less than 10 days notice shall be given of the time and place of such adjourned meeting in the applicable manner provided in Section 12.2. Such notice shall state that at the adjourned meeting the Debentureholders present in person or by proxy shall form a quorum but it shall not be necessary to set forth the purposes for which the meeting was originally called or any other particulars. At the adjourned meeting the Debentureholders present in person or by proxy shall form a quorum and may transact the business for which the meeting was originally convened and a resolution proposed at such adjourned meeting and passed by the requisite vote as provided in subsection (a) shall be an Extraordinary Resolution within the meaning of this Trust Indenture, notwithstanding that the holders of not less than 50% in principal amount of the Debentures then outstanding are not present in person or by proxy at such adjourned meeting.

11.13 Powers Cumulative

It is hereby declared and agreed that any one or more of the powers in this Trust Indenture stated to be exercisable by the Debentureholders by Extraordinary Resolution or otherwise may be exercised from time to time and the exercise of any one or more of such powers from time to time shall not be deemed to exhaust the rights of the Debentureholders to exercise the same or any other such power or powers thereafter from time to time.

11.14 Minutes

Minutes of all resolutions and proceedings at every meeting of Debentureholders shall be made and duly entered in books to be from time to time provided for that purpose by the Trustee at the expense of the Trust, and any such minutes, if signed by the chairman of the meeting at which such resolutions were passed or proceedings had, or by the chairman of the next succeeding meeting of the Debentureholders, shall be prima facie evidence of the matters therein stated and, until the contrary is proved, every such meeting, in respect of the proceedings of

which minutes shall have been made, shall be deemed to have been duly held and convened and all resolutions passed thereat or proceedings taken thereat to have been duly passed and taken.

11.15 Instruments in Writing

All actions which may be taken and all powers that may be exercised by the Debentureholders at a meeting held as in this Article 11 provided may also be taken and exercised by the holders of more than 50% of the principal amount of the outstanding Debentures, or, in respect of an Extraordinary Resolution, by the holders of at least 66 2/3% of the principal amount of all the outstanding Debentures by an instrument in writing signed in one or more counterparts and the expression "**Extraordinary Resolution**" when used in this Trust Indenture shall include an instrument so signed by the holders of at least 66 2/3% of the principal amount of all the outstanding Debentures.

11.16 Binding Effect of Resolutions

Every resolution and every Extraordinary Resolution passed in accordance with the provisions of this Article 11 at a meeting of Debentureholders shall be binding upon all the Debentureholders, whether present at or absent from such meeting, and every instrument in writing signed by Debentureholders in accordance with Section 11.15 shall be binding upon all the Debentureholders, whether signatories thereto or not, and each and every Debentureholder and the Trustee (subject to the provisions for its indemnity herein contained) shall be bound to give effect accordingly to every such resolution, Extraordinary Resolution and instrument in writing.

11.17 Evidence of Rights of Debentureholders

Any request, direction, notice, consent or other instrument which this Trust Indenture may require or permit to be signed or executed by the Debentureholders may, in any number of concurrent instruments of similar tenor, be signed or executed by such Debentureholders in person or by attorney duly appointed in writing. Proof of the execution of any such request or other instrument or of a writing appointing any such attorney or (subject to the provisions of this Article 11 with regard to voting at meetings of Debentureholders) of the holding by any Person of Debentures shall be sufficient for any purpose of this Trust Indenture if made in the following manner, namely, the fact and date of execution by any Person of such request or other instrument or writing may be proved by the certificate of any notary public, or other officer authorized to take acknowledgments of deeds to be recorded at the place where such certificate is made, that the Person signing such request or other instrument in writing acknowledged to him the execution thereof, or by an affidavit of a witness of such execution or in any other manner which the Trustee may consider adequate.

The Trustee may, nevertheless, in its discretion require further proof in cases where it deems further proof desirable or may accept such other proof as it shall consider proper.

11.18 Serial Meetings

(a) If any business to be transacted at a meeting of Debentureholders, or any action to be taken or power to be exercised by instrument in writing under Section 11.15,

specifically affects the rights of the Debentureholders of one or more series in a manner or to an extent substantially differing from that in or to which it affects the rights of the Debentureholders of any other series then:

(i) reference to such fact, indicating each series so specifically affected, shall be made in the notice of such meeting and the meeting shall be and is herein called a "**Serial Meeting**"; and

(ii) the holders of Debentures of a series so specifically affected shall not be bound by any action taken at a Serial Meeting or by instrument in writing under Section 11.15 unless in addition to compliance with the other provisions of this Article:

(A) at such Serial Meeting:

(1) there are present in person or by proxy holders of at least 25% (or for the purpose of passing an Extraordinary Resolution, holders of at least 50%) of the outstanding principal amount of the Debentures of such series, subject to the provisions of this Article 11 as to quorum at adjourned meetings; and

(2) the ordinary resolution is passed by the affirmative votes of the holders of a majority (or in the case of an Extraordinary Resolution not less than 66 2/3%) of the outstanding principal amount of Debentures of such series on the resolution; or

(B) in the case of action taken or power exercised by instrument in writing under Section 11.15, such instrument is signed in one or more counterparts by the holders of a majority (or in the case of an Extraordinary Resolution, at least 66 2/3%) of the principal amount of the outstanding Debentures of such series;

provided, however, that, notwithstanding the foregoing and Section 11.18(c), if any business to be transacted at a meeting of Debentureholders or any action to be taken or power exercised by instrument in writing under Section 11.15 affects the rights of the holders of Debentures of two or more series in substantially the same manner or substantially to the same extent then such two or more series shall be deemed to be and treated as one series for the purposes of this Section 11.18 only.

(b) If in the opinion of Counsel any business to be transacted at any meeting, or any action to be taken or power to be exercised by instrument in writing under Section 11.15, does not adversely affect the rights of the holders of Debentures of one or more particular series, the provisions of this Article 11 shall apply as if the Debentures of such series were not outstanding and no notice of any such meeting need be given to the holders of Debentures of such series. Without limiting the generality of the foregoing, a proposal to modify or terminate any covenant or

agreement which is effective only so long as Debentures of a particular series are outstanding shall be deemed not to adversely affect the rights of holders of Debentures of any other series.

(c) A proposal:

(i) to extend the maturity of Debentures of any particular series or to reduce the principal amount thereof, the rate of interest or redemption premium thereon or to impair any conversion right thereof;

(ii) to modify or terminate any covenant or agreement which by its terms is effective only so long as Debentures of a particular series are outstanding; or

(iii) to reduce with respect to Debentureholders of any particular series any percentage or fractional requirement stated in Section 11.4, 11.7, 11.12 or 11.15 or in this Section 11.18;

shall be deemed to specifically affect the rights of the Debentureholders of such series in a manner substantially differing from that in which it affects the rights of holders of Debentures of any other series.

ARTICLE 12
NOTICES

12.1 Notice to Trust and Trustee

(a) Notices to the Trust and the Trustee may be delivered:

(i) personally by leaving them with the party, or at the offices of the party, to whom they are addressed at that party's address hereinafter given, and notices so served shall be deemed to have been received by the addressee thereof on the day of delivery, unless actually delivered on a day which is not a Business Day or after 4:00 p.m. local time on the day of delivery, in which case notice shall be deemed to be received on the next ensuing Business Day;

(ii) by telecopier, or any other like method by which a message may be sent, directed to the party to whom they are to be sent at that party's address hereinafter given, and notices so sent shall be deemed to have been received by the addressee thereof on the Business Day next ensuing after the day of sending; and

(iii) by mailing them first class (air mail if to or from a country other than Canada) registered post, postage prepaid, to the party to whom they are to be delivered, in which case notices mailed shall be deemed to be received by the addressee thereof the fifth Business Day following the day of mailing thereof.

(b) The address of each of the parties to this Trust Indenture shall be as follows:

(i) to the Trust:

AltaGas Ltd.
1700, 355 - 4th Avenue S.W.
Calgary, Alberta
T2P OJI

Telecopier No. 403-691-7548
Attention: Corporate Secretary

(ii) to the Trustee:

710, 530 - 8th Avenue S.W.
Calgary, Alberta
T2P 3S8

Telecopier No. 403-267-6598
Attention: Manager, Corporate Trust Department

(c) Any party to this Trust Indenture may change its address by notice delivered in accordance with this Trust Indenture.

12.2 Notice to Debentureholders

(a) Unless herein otherwise expressly provided, any notice to be given hereunder to Debentureholders shall be deemed to be validly given to the holders of registered Debentures, and to the Depositary in the case of Registered Global Debentures, if such notice is sent by surface or air mail, registered or unregistered, postage prepaid, delivered in person, or by facsimile or other electronic means of written communication, addressed to such Debentureholders at their respective addresses appearing on the register maintained under Article 3, and in the case of joint holders of any Debentures to the first address maintained on the register in respect of such joint holding.

(b) Notice by mail shall be deemed to have been effectively given three Business Days after the date of mailing and if delivered shall be deemed to have been received on the date of the delivery thereof. Notice by facsimile or other electronic means of communication shall be deemed to have been given on the day the facsimile or other electronic means of communication was sent if sent before 4:30 p.m. at the place of receipt on a Business Day, and if not, on the next Business Day.

(c) In determining under any provision hereof the date when notice of any meeting, redemption or other event must be given, the date of giving the notice shall be included and the date of the meeting, redemption or other event shall be excluded.

Any costs relating to the giving of any notice by publication shall be borne by the Trust. Accidental error or omission in giving notice or accidental failure to mail notice to any Debentureholder shall not invalidate any action or proceeding founded thereon.

12.3 Mail Service Interruption

If by reason of strike, lockout or other work stoppage, actual or threatened, of postal employees, any notice to be given by mail to the Trust, the Trustee, the Depositary or a Debentureholder would reasonably be unlikely to reach its destination, such notice shall be valid and effective only if delivered to the Person to whom it is addressed at the appropriate address in accordance with Section 12.1 or Section 12.2 by personal delivery or by telecopy or, in the case of notice to the Debentureholders, if such notice is delivered in person or is published, once in a newspaper of national circulation or otherwise as determined by the Trust, provided that in the case of notice convening a meeting of Debentureholders, the Trustee may require such additional publications of such notice as it may deem necessary for the reasonable protection of the Debentureholders, provided the provisions of this Section 12.3 shall be in addition to the requirements of any applicable legislation governing the giving of notice during mail service interruption.

ARTICLE 13
CONCERNING THE TRUSTEE

13.1 No Conflict of Interest

The Trustee represents to the Trust that at the date of execution and delivery by it of this Trust Indenture there exists no material conflict of interest in the role of the Trustee as a fiduciary hereunder but if, notwithstanding the provisions of this Section 13.1, such a material conflict of interest exists, the validity and enforceability of this Trust Indenture, and the Debentures issued hereunder shall not be affected in any manner whatsoever by reason only that such material conflict of interest exists but the Trustee shall, within 90 days after ascertaining that it has a material conflict of interest, either eliminate such material conflict of interest or resign in the manner and with the effect specified in Section 13.2.

13.2 Replacement of Trustee

(a) The Trustee may resign its trust and be discharged from all further duties and liabilities hereunder by giving to the Trust three months' notice in writing or such shorter notice as the Trust may accept as sufficient. In the event of the Trustee resigning or being removed or being dissolved, becoming bankrupt, going into liquidation or otherwise becoming incapable of acting hereunder, the Trust shall forthwith appoint a new Trustee. Failing such appointment by the Trust, the retiring Trustee or any Debentureholder may apply to a Judge of the Court of Queen's Bench of Alberta, on such notice as such Judge may direct, for the appointment of a new Trustee. Any new Trustee appointed under any provision of this Section 13.2 shall be a trust company authorized to carry on business of a trust company in the Province of Alberta. On any new appointment the new

Trustee shall be vested with the same powers, rights, duties and responsibilities as if it had been originally named herein as Trustee.

(b) Any company into which the Trustee may be merged or with which it may be consolidated or amalgamated or any company resulting from any merger, consolidation or amalgamation to which the Trustee shall be a party, shall be the successor trustee under this Trust Indenture without the execution of any instrument or any further act. Nevertheless, upon the written request of the successor Trustee or of the Trust, the Trustee ceasing to act shall execute and deliver an instrument assigning and transferring to such successor Trustee, upon the trusts herein expressed, all the rights, powers and trusts of the Trustee so ceasing to act, and shall duly assign, transfer and deliver all property and money held by such Trustee to the successor Trustee so appointed in its place. Should any deed, conveyance or instrument in writing from the Trust be required by any new Trustee for more fully and certainly vesting in and confirming to it such estates, properties, rights, powers and trusts, then any and all such deeds, conveyances and instruments in writing shall, on request of said new Trustee, be made, executed, acknowledged and delivered by the Trust.

13.3 Duties of Trustee

In the exercise of the rights, duties and obligations prescribed or conferred by the terms of this Trust Indenture, the Trustee shall exercise that degree of care, diligence and skill that a reasonably prudent trustee would exercise in comparable circumstances.

13.4 Reliance Upon Declarations, Opinions, etc.

In the exercise of its rights, duties and obligations hereunder the Trustee may, if acting in good faith, rely, as to the truth of the statements and accuracy of the opinions expressed therein, upon statutory declarations, opinions, reports or certificates furnished pursuant to any covenant, condition or requirement of this Trust Indenture or required by the Trustee to be furnished to it in the exercise of its rights and duties hereunder, if the Trustee examines such statutory declarations, opinions, reports or certificates and determines that they comply with Section 13.5, if applicable, and with any other applicable requirements of this Trust Indenture. The Trustee may nevertheless, in its discretion, require further proof in cases where it deems further proof desirable. Without restricting the foregoing, the Trustee may rely on an opinion of Counsel satisfactory to the Trustee notwithstanding that it is delivered by a solicitor or firm which acts as solicitors for the Trust.

13.5 Evidence and Authority to Trustee, Opinions, etc.

(a) The Trust shall furnish to the Trustee evidence of compliance with the conditions precedent provided for in this Trust Indenture relating to any action or step required or permitted to be taken by the Trust or the Trustee under this Trust Indenture, including the certification and delivery of Debentures hereunder, the satisfaction and discharge of this Trust Indenture and the taking of any other action to be taken by the Trustee at the request of or on the application of the

Trust, forthwith if and when (i) such evidence is required by this Trust Indenture to be furnished to the Trustee in accordance with the terms of this Section 13.5 or (ii) the Trustee, in the exercise of its rights and duties under this Trust Indenture, gives the Trust written notice requiring it to furnish such evidence in relation to any such particular action or obligation specified in such notice.

(b) Such evidence shall consist of:

(i) an Officers' Certificate stating that any such condition precedent has been complied with in accordance with the terms of this Trust Indenture;

(ii) in the case of any such condition precedent compliance with which is, by the terms of this Trust Indenture, made subject to review or examination by a solicitor, an opinion of Counsel that such condition precedent has been complied with in accordance with the terms of this Trust Indenture; and

(iii) in the case of any such condition precedent compliance with which is subject to review or examination by auditors or accountants, an opinion or report of the Trust's Auditors (whom the Trustee for such purposes hereby approves), stating that such condition precedent has been complied with in accordance with the terms of this Trust Indenture.

(c) Whenever such evidence relates to a matter other than the certification and delivery of Debentures or the satisfaction and discharge of this Trust Indenture, and except as otherwise specifically provided herein, such evidence may consist of a report or opinion of any solicitor, auditor, accountant, engineer or appraiser or any other Person whose qualifications give authority to a statement made by him, provided that if such report or opinion is furnished by a Director, officer or employee of the Trust or the Administrator it shall be in the form of a statutory declaration or Officers' Certificate. Such evidence shall be, so far as appropriate, in accordance with the immediately preceding paragraph of this Section 13.5.

(d) Each statutory declaration, certificate, opinion or report with respect to compliance with a condition precedent provided for in this Trust Indenture shall include (i) a statement by the Person giving the evidence that he has read and is familiar with those provisions of this Trust Indenture relating to the condition precedent in question, (ii) a brief statement of the nature and scope of the examination or investigation upon which the statements or opinions contained in such evidence are based, (iii) a statement that, in the belief of the Person giving such evidence, he has made such examination or investigation as is necessary to enable him to make the statements or give the opinions contained or expressed therein, and (iv) a statement whether in the opinion of such Person the conditions precedent in question have been complied with or satisfied.

(e) The Trust shall furnish to the Trustee at any time if the Trustee reasonably so requires, an Officers' Certificate stating that the Trust has complied with all

covenants, conditions or other requirements contained in this Trust Indenture, the non-compliance with which would, with the giving of notice or the lapse of time, or both, or otherwise, constitute an Event of Default, or if such is not the case, specifying the covenant, condition or other requirement which has not been complied with and giving particulars of such non-compliance. The Trust shall, whenever the Trustee so reasonably requires, furnish the Trustee with evidence by way of Officers' Certificate, opinion, report or other certificate as specified by the Trustee as to any action or step required or permitted to be taken by the Trust or as a result of any obligation imposed by this Trust Indenture.

13.6 Officers' Certificate as Evidence

Except as otherwise specifically provided or prescribed by this Trust Indenture, whenever in the administration of the provisions of this Trust Indenture the Trustee shall deem it necessary or desirable that a matter be proved or established prior to taking or omitting any action hereunder, the Trustee, if acting in good faith, may rely upon an Officers' Certificate.

13.7 Experts, Advisers and Agents

The Trustee may:

(a) employ or retain as may be reasonably necessary, and act on the opinion or advice of or information obtained from, any solicitors (who may, but need not be, solicitors for the Trust), auditor, valuer, engineer, surveyor, appraiser or other expert, whether obtained by the Trustee or by the Trust, or otherwise, and shall not be liable for acting in good faith on any such opinion or advice and may pay proper and reasonable compensation for all such legal and other advice or assistance;

(b) employ such agents and other assistants as it may reasonably require for the proper discharge of its duties hereunder, and may pay reasonable remuneration for all services performed for it (and shall be entitled to receive reasonable remuneration for all services performed by it) in the discharge of the trusts hereof; and

(c) recover compensation for all disbursements, costs and expenses made or incurred by it in the discharge of its duties hereunder and in the management of the trusts hereof.

13.8 Trustee May Deal in Debentures

The Trustee may, in its personal or other capacity, buy, sell, lend upon and deal in the Debentures and generally contract and enter into financial transactions with the Trust or otherwise, without being liable to account for any profits made thereby.

13.9 Investment of Moneys Held by Trustee

(a) Unless otherwise provided in this Trust Indenture, any moneys held by the Trustee which under the trusts of this Trust Indenture may or ought to be invested or which may be on deposit with the Trustee or which may be in the hands of the Trustee may be invested and reinvested in the name or under the control of the Trustee in securities in which, under the laws of the Province of Alberta, trustees are authorized to invest trust moneys, provided that such securities are expressed to mature within two years after their purchase by the Trustee, and, unless and until the Trustee shall have declared the principal of and premium (if any) and interest on the Debentures to be due and payable, the Trustee shall so invest such moneys at the request of the Trust.

(b) Pending the investment of any moneys as hereinbefore provided, such moneys may be deposited in the name of the Trustee in any chartered bank of Canada or, with the consent of the Trust, in the deposit department of the Trustee or any other loan or trust company authorized to accept deposits under the laws of Canada or any province thereof at the rate of interest then current on similar deposits.

(c) Unless and until the Trustee shall have declared the principal of and premium (if any) and interest on the Debentures to be due and payable, the Trustee shall pay over to the Trust all interest received by the Trustee in respect of any investments or deposits made pursuant to the provisions of this Section 13.9.

13.10 Trustee Not Ordinarily Bound

Except as provided in Section 8.2 and as otherwise specifically provided herein, the Trustee shall not, subject to Section 13.3, be bound to give notice to any Person of the execution hereof; nor to do, observe or perform or see to the observance or performance by the Trust of any of the obligations herein imposed upon the Trust or of the covenants on the part of the Trust herein contained, nor in any way to supervise or interfere with the conduct of the Trust's business, unless the Trustee shall have been required to do so in writing by the holders of not less than 25% of the aggregate principal amount of the Debentures then outstanding or by any Extraordinary Resolution of the Debentureholders passed in accordance with the provisions contained in Article 11, and then only after it shall have been indemnified to its satisfaction against all actions, proceedings, claims and demands to which it may render itself liable and all costs, charges, damages and expenses which it may incur by so doing.

13.11 Trustee Not Required to Give Security

The Trustee shall not be required to give any bond or security in respect of the execution of the trusts and powers of this Trust Indenture or otherwise in respect of the premises.

13.12 Trustee Not to be Appointed Receiver

The Trustee and any Person related to the Trustee shall not be appointed a receiver or receiver-manager or receiver and manager or liquidator of all or any part of the assets or undertaking of the Trust.

13.13 Trustee Not Bound to Act on Trust's Request

Except as in this Trust Indenture otherwise specifically provided, the Trustee shall not be bound to act in accordance with any direction or request of the Trust or of the Directors until a duly authenticated copy of the instrument or resolution containing such direction or request shall have been delivered to the Trustee, and the Trustee shall be empowered to act upon any such copy purporting to be authenticated and believed by the Trustee to be genuine.

13.14 Conditions Precedent to Trustee's Obligations to Act Hereunder

The obligation of the Trustee to commence or continue any act, action or proceeding for the purpose of enforcing the rights of the Trustee and of the Debentureholders hereunder shall be conditional upon the Debentureholders furnishing, when required by notice in writing by the Trustee, sufficient funds to commence or continue such act, action or proceeding and indemnity reasonably satisfactory to the Trustee to protect and hold harmless the Trustee against the costs, charges and expenses and liabilities to be incurred thereby and any loss and damage it may suffer by reason thereof. None of the provisions contained in this Trust Indenture shall require the Trustee to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties or in the exercise of any of its rights or powers unless indemnified as aforesaid. The Trustee may, before commencing or at any time during the continuance of any such act, action or proceeding require the Debentureholders at whose instance it is acting to deposit with the Trustee the Debentures held by them for which Debentures the Trustee shall issue receipts.

13.15 Authority to Carry on Business

The Trustee represents to the Trust that at the date of execution and delivery by it of this Trust Indenture it is authorized to carry on the business of a trust company in the Province of Alberta but if, notwithstanding the provisions of this Section 13.15, it ceases to be so authorized to carry on business, the validity and enforceability of this Trust Indenture and the securities issued hereunder shall not be affected in any manner whatsoever by reason only of such event but the Trustee shall, within 90 days after ceasing to be authorized to carry on the business of a trust company in the Province of Alberta either become so authorized or resign in the manner and with the effect specified in Section 13.2.

13.16 Action by Trustee to Protect Interests

The Trustee shall have power to institute and to maintain such actions and proceedings as it may consider necessary or expedient to preserve, protect or enforce its interests and the interests of the Debentureholders.

13.17 Legislation

If and to the extent that any provision of this Trust Indenture limits, qualifies or conflicts with a mandatory requirement of applicable legislation, such mandatory requirement shall prevail. The Trust and the Trustee agree that each shall at all times in relation to this Trust Indenture and any action to be taken hereunder, observe and comply with and be entitled to the benefits of all applicable legislation.

13.18 Indemnity to the Trustee

Except for its acts of negligence, wilful misconduct or a breach of its duties under applicable legislation, the Trustee shall not be liable for any act done or step taken or omitted by it in good faith, or for any mistake of fact or law and the Trust agrees to indemnify and save harmless the Trustee from and against all claims, demands, actions, suits or other proceedings by whomsoever made, prosecuted or brought and from all loss, costs, damages and expenses (including legal costs as between a solicitor and his own client) in any manner based upon, occasioned by or attributed to any act of the Trustee in the execution of its duties hereunder. It is understood and agreed that this indemnification shall survive the termination of this Trust Indenture.

13.19 Acceptance of Trust

The Trustee hereby accepts the trusts in this Trust Indenture declared and provided for and agrees to perform the same upon the terms and conditions herein set forth and to hold all rights, privileges and benefits conferred hereby and by law in trust for the various Persons who shall from time to time be Debentureholders, subject to all the terms and conditions herein set forth.

ARTICLE 14
SUPPLEMENTAL INDENTURES

14.1 Supplemental Indentures

From time to time the Trustee and the Trust may, and they shall when required by this Trust Indenture, execute, acknowledge and deliver by their proper officers indentures supplemental hereto which thereafter shall form part hereof for any one or more of the following purposes:

(a) adding to or amending the covenants of the Trust herein contained for the protection or benefit of the Debentureholders or providing for Events of Default in addition to those herein specified;

(b) making such provisions not inconsistent with this Trust Indenture as may be necessary or desirable with respect to matters or questions arising hereunder, including the making of any modifications in the form of the Debentures which do not affect the substance thereof and which, in the opinion of the Trustee, it may be expedient to make, provided that the Trustee shall be of the opinion that such provisions and modifications will not be prejudicial to the interests of the Debentureholders;

(c) evidencing the succession, or successive successions, of other entities to the Trust and the covenants of and obligations assumed by any such successor in accordance with the provisions of this Trust Indenture;

(d) establishing the terms and conditions attaching to a series of Additional Debentures;

(e) giving effect to any Extraordinary Resolution passed as provided in Article 11;

(f) making such amendments to this Trust Indenture as may be necessary to comply with applicable law; and

(g) for any other purpose not inconsistent with the terms of this Trust Indenture.

The Trustee may also, without the consent or concurrence of the Debentureholders, by supplemental indenture or otherwise, concur with the Trust in making any changes or corrections in this Trust Indenture which it shall have been advised by Counsel are required for the purpose of curing or correcting any ambiguity or defective or inconsistent provisions or clerical omissions or mistakes or manifest errors contained herein or in any deed or indenture supplemental or ancillary hereto, provided that in the opinion of the Trustee the rights of the Trustee and of the Debentureholders are in no way prejudiced thereby.

ARTICLE 15
FORMAL DATE

15.1 Formal Date

For the purpose of convenience this Trust Indenture may be referred to as bearing a formal date of May 12, 2005, irrespective of the actual date of execution hereof

Executed and delivered.

AltaGas Income Trust (the "Trust") for value received hereby promises to pay to the registered holder hereof on the Maturity Date, or on such earlier date as the Principal Amount

may become due in accordance with the provisions of the Trust Indenture (as defined below), on presentation and surrender of this Medium Term Note, the Principal Amount in lawful money of Canada, and to pay interest on the Principal Amount at the Interest Rate Per Annum from the later of the Issue Date and the last Interest Payment Date on which interest has been paid or made available for payment on this Medium Term Note, in like money, half-yearly on the Interest Payment Dates in each year, the first such payment to be payable on the Initial Interest Payment Date, and if the Trust at any time defaults in the payment of any principal or interest, to pay interest on the amount in default at the same rate, in like money, and half-yearly on the same dates. Prior to each Interest Payment Date, the Trust (except in case of payment at maturity at which time payment of interest will be made only upon surrender of this Medium Term Note and except as otherwise provided in the Trust Indenture) shall mail to the registered address of the registered holder of this Medium Term Note in the register, or in the case of joint holders to the registered address of the joint holder first named in the register, in each case, as at the close of business on the tenth Business Day prior to the applicable Interest Payment Date, a cheque for the interest, less any tax required by law to be deducted or withheld, payable to the order of such holder or holders. The mailing of such cheque shall satisfy and discharge the liability for interest upon this Medium Term Note to the extent of the sum represented thereby (plus the amount of any tax deducted or withheld) unless such cheque is not paid on presentation.

This Medium Term Note is one of a series of the Medium Term Notes of the Trust issued and to be issued under a trust indenture (the "Trust Indenture") dated as of May 12, 2005, made between the Trust and Computershare Trust Company of Canada (the "Trustee"), as trustee. The Trust Indenture specifies the terms and conditions upon which the Medium Term Notes are issued or may be issued and held and the rights of the holders of Medium Term Notes, the Trust and the Trustee, all of which are incorporated by reference in this Medium Term Note and to all of which the holder of this Medium Term Note, by acceptance hereof, agrees.

The Medium Term Notes may be issued without limitation as to aggregate principal amount, but only upon the terms and subject to the restrictions set out in the Trust Indenture.

Provided that no Event of Default (as defined in the Trust Indenture) has occurred and is continuing, the Trust shall be entitled to purchase Medium Term Notes in the market or by tender or by private contract at any price. Medium Term Notes purchased by the Trust will be cancelled and may not be reissued.

In case an Event of Default has occurred with respect to the Medium Term Notes, the principal and interest on the Medium Term Notes then outstanding may be declared due and payable upon the conditions and in the manner and with the effect provided in the Trust Indenture.

The Trust Indenture contains provisions for the holding of meetings of holders of Medium Term Notes and Additional Debentures and rendering resolutions passed at such meetings, and instruments in writing signed by the holders of a specified majority of Medium Term Notes or Additional Debentures binding on all holders of Medium Term Notes.

This Medium Term Note has not been and will not be registered under the *U.S. Securities Act of 1933* and may not be offered or sold to a U.S. person or person within the United States except pursuant to registration under the *U.S. Securities Act of 1933* or an exemption therefrom.

This Medium Term Note may be transferred only upon compliance with the conditions prescribed in the Trust Indenture on one of the registers kept at the principal offices of the Trustee in Calgary, Alberta and at such other place or places, if any, and by such other registrar or registrars, if any, as the Trust may designate, by the registered holder hereof or the holder's legal representative or attorney duly appointed by an instrument in writing in form and execution satisfactory to the Trustee, and upon compliance with such reasonable requirements as the Trustee or other registrar may prescribe, and such transfer shall be duly noted hereon by the Trustee or other registrar.

The Trust Indenture and this Medium Term Note are governed by and shall be construed in accordance with the laws of the Province of Alberta and the laws of Canada applicable therein.

This Medium Term Note shall not become obligatory for any purpose until it shall have been certified by the Trustee under the Trust Indenture.

IN WITNESS WHEREOF AltaGas Ltd., on behalf of AltaGas Income Trust, has caused this Medium Term Note to be signed by two of its authorized officers.

ALTAGAS INCOME TRUST, by its Administrator ALTAGAS LTD.

GUARANTEE

THIS GUARANTEE is made as of **[date]**;

WHEREAS the Guarantor is a Designated Subsidiary of the Trust;

AND WHEREAS the Guarantor has agreed to provide a guarantee with respect to the Medium Term Notes issued by the Trust pursuant to the Trust Indenture;

NOW THEREFORE, in consideration of the covenants and agreements herein contained, the sum of $10.00 now paid by the Beneficiary to the Guarantor and other good and valuable consideration (the receipt and sufficiency of which are hereby conclusively acknowledged), the Guarantor hereby covenants and agrees with the Beneficiary as follows:

ARTICLE 1
INTERPRETATION

1.1 Definitions

(a) In this Guarantee and the recitals hereto, unless something in the subject matter or context is inconsistent therewith:

"**Beneficiary**" means the Trustee in its capacity as a trustee under the Trust Indenture for and on behalf of the holders of the Medium Term Notes.

"Guarantee" means this guarantee, as amended, modified, supplemented or restated from time to time in accordance with the provisions hereof.

"Guaranteed Obligations" means, collectively and at any time and from time to time, all of the obligations, indebtedness and liabilities (present or future, absolute or contingent, matured or not) of the Trust under the Medium Term Notes.

"Guarantor" means **[name of Designated Subsidiary]** and its successors.

"Trust Indenture" means the trust indenture made as of May 12, 2005 between AltaGas Income Trust and Computershare Trust Company of Canada (as trustee), as the same may be amended, modified, supplemented or restated from time to time in accordance with the provisions thereof.

(b) Capitalized words and phrases used in this Guarantee and the recitals hereto without express definition herein shall, unless something in the subject matter or context is inconsistent therewith, have the same defined meanings as are ascribed to such words and phrases in the Trust Indenture.

1.2 Headings

The division of this Guarantee into Articles and Sections and the insertion of headings are for convenience of reference only and shall not affect the construction or interpretation of this Guarantee. The terms "this Guarantee", "hereof", "hereunder" and similar expressions refer to this Guarantee and not to any particular Article, Section or other portion hereof and include any agreement supplemental hereto. Unless something in the subject matter or context is inconsistent therewith, references herein to Articles and Sections are to Articles and Sections of this Guarantee.

1.3 Number; persons; including

Words importing the singular number only shall include the plural and vice versa, words importing the masculine gender shall include the feminine and neuter genders and vice versa and words importing persons shall include individuals, partnerships, associations, trusts, unincorporated organizations, corporations and other bodies corporate and vice versa and words and terms denoting inclusiveness (such as "include" or "includes" or "including"), whether or not so stated, are not limited by their context or by the words or phrases which precede or succeed them.

1.4 Nominal Rates

The principle of deemed reinvestment of interest shall not apply to any interest calculation under this Guarantee; all interest payments to be made hereunder shall be paid without allowance or deduction for deemed reinvestment or otherwise, before and after demand, default and judgment. The rates of interest specified in this Guarantee are intended to be nominal rates and not effective rates and any interest calculated hereunder shall be calculated using the nominal rate method and not the effective rate method of calculation.

1.5 References to Guarantor

If the Guarantor is a limited partnership, all references in this Guarantee to representations and warranties by, covenants of, actions and steps by, or the performance of the terms and conditions hereof by the "Guarantor" shall, as the context requires, be and shall be construed as being by the general partner of the Guarantor on behalf of and in respect of such limited partnership.

ARTICLE 2
GUARANTEE

2.1 Guarantee of Obligations

The Guarantor hereby unconditionally and irrevocably guarantees to the Beneficiary the payment and performance of all of the Guaranteed Obligations.

2.2 Indemnity

If any or all of the Guaranteed Obligations are not duly paid or performed by the Trust and are not recoverable under Section 2.1 for any reason whatsoever, the Guarantor will, as a separate and distinct obligation, indemnify and save harmless the Beneficiary from and against all losses resulting from the failure of the Trust to pay and perform such Guaranteed Obligations.

2.3 Guarantor as Principal Obligor

If any or all of the Guaranteed Obligations are not duly paid or performed by the Trust and are not recoverable under Section 2.1 or the Beneficiary is not indemnified under Section 2.2, in each case, for any reason whatsoever, such Guaranteed Obligations shall, as a separate and distinct obligation, be recoverable by the Beneficiary from the Guarantor as the primary obligor and principal debtor in respect thereof and shall be paid to the Beneficiary forthwith after demand therefor as provided herein.

2.4 Guarantee Absolute and Unconditional

The liability and obligations of the Guarantor hereunder shall be continuing, unconditional and absolute and, without limiting the generality of the foregoing, shall not be released, discharged, limited or otherwise affected by:

(a) any extension, other indulgence, renewal, settlement, discharge, compromise, waiver, subordination or release in respect of any Guaranteed Obligation, or any of the covenants or undertakings of the Trust under the Trust Indenture;

(b) any modification or amendment of or supplement to the Guaranteed Obligations;

(c) any loss of or in respect of any security held by the Beneficiary, whether occasioned by the fault of the Beneficiary or otherwise, including any release, non-perfection or invalidity of any such security;

(d) any change in the existence, structure, constitution, name, control or ownership of the Trust or any other person, or any insolvency, bankruptcy, reorganization or other similar proceeding affecting the Trust or any other person or their respective assets;

(e) any provision of applicable law purporting to prohibit or limit the payment by the Trust of any Guaranteed Obligations;

(f) any release, substitution or addition of any other guarantor of the Guaranteed Obligations;

(g) any defence arising by reason of any failure of the Beneficiary to make any presentment, demand, or protest or to give any other notice, including notice of acceptance of this Guarantee, partial payment or non-payment of all or any part of the Guaranteed Obligations and the existence, creation, or incurring of new or additional Guaranteed Obligations;

(h) any defence arising by reason of any failure of the Beneficiary to proceed against the Trust or any other person, or to apply or exhaust any security held from the Trust or any other person for the Guaranteed Obligations, to proceed against, apply or exhaust any security held from the Guarantor or any other person, or to pursue any other remedy available to the Beneficiary;

(i) any defence arising by reason of the invalidity, illegality or lack of enforceability of the Guaranteed Obligations or any part thereof or of any security or guarantee in support thereof, or by reason of any incapacity, lack of authority, or other defence of the Trust or any other person, or by reason of any limitation, postponement or prohibition on the Beneficiary's rights to payment, or the cessation from any cause whatsoever of the liability of the Trust or any other person with respect to all or any part of the Guaranteed Obligations (other than irrevocable and indefeasible payment in full, in cash, of the Guaranteed Obligations), or by reason of any act or omission of the Beneficiary or others which directly or indirectly results in the discharge or release of the Trust or any other person or of all or any part of the Guaranteed Obligations or any security or guarantee therefor, whether by contract, operation of law or otherwise;

(j) any defence arising by reason of the failure by the Beneficiary to obtain, register, perfect or maintain a Security Interest in or upon any property of the Trust or any other person, or by reason of any interest of the Beneficiary in any property, whether as owner thereof or as holder of a Security Interest therein or thereon, being invalidated, voided, declared fraudulent or preferential or otherwise set aside, or by reason of any impairment of any right or recourse to collateral;

(k) any defence arising by reason of the failure of the Beneficiary to marshal assets;

(l) to the extent permitted under applicable law, any defence based upon any failure of the Beneficiary to give to the Trust or the Guarantor notice of any sale or other disposition of any property securing any or all of the Guaranteed Obligations or any other guarantee thereof, or any notice that may be given in connection with any sale or other disposition of any such property;

(m) any defence based upon or arising out of any bankruptcy, insolvency, reorganization, moratorium, arrangement, readjustment of debt, liquidation or dissolution proceeding commenced by or against the Trust or any other person, including any discharge or bar against collection of any of the Guaranteed Obligations; or

(n) any other law, event or circumstance or any other act or failure to act or delay of any kind by the Trust, the Beneficiary or any other person, which might, but for the provisions of this Section 2.4, constitute a legal or equitable defence to or discharge, limitation or reduction of the Guarantor's obligations hereunder;

other than, in any such case, as a result of the indefeasible payment or extinguishment in full of the Guaranteed Obligations.

The foregoing provisions apply to the extent permitted under applicable law, shall be effective even if the effect of any action or failure to take action by the Beneficiary is to destroy or diminish the Guarantor's subrogation rights, the Guarantor's right to proceed against the Trust for reimbursement, the Guarantor's right to recover contribution from any other guarantor or any other right or remedy of the Guarantor.

ARTICLE 3
DEALINGS WITH THE TRUST AND OTHERS

3.1 No Release

The Beneficiary, without releasing, discharging, limiting or otherwise affecting in whole or in part the Guarantor's liability and obligations hereunder, may:

(a) grant time, renewals, extensions, indulgences, releases and discharges to the Trust or any other guarantor, endorser or person;

(b) take or abstain from taking security or collateral from the Trust or any other guarantor, endorser or person or from perfecting security or collateral of the Trust or any other guarantor, endorser or person;

(c) accept compromises from the Trust or any other guarantor, endorser or person; or

(d) otherwise deal with the Trust and all other persons and security as the Beneficiary may see fit.

3.2 No Exhaustion of Remedies

The Beneficiary shall not be bound or obligated to exhaust its recourse against the Trust or other persons or any securities or collateral it may hold or take any other action (other than to make demand pursuant to Article 5) before the Beneficiary shall be entitled to demand, enforce and collect payment from the Guarantor hereunder.

3.3 No Set-off

In any claim by the Beneficiary against the Guarantor hereunder, the Guarantor shall not claim or assert any set-off, counterclaim, claim or other right that either the Trust or the Guarantor may have against the Beneficiary.

ARTICLE 4
CONTINUING GUARANTEE

4.1 Continuing Guarantee

This Guarantee shall be a continuing guarantee and shall continue to be effective even if at any time any payment of any of the Guaranteed Obligations is rendered unenforceable or is rescinded or must otherwise be returned by the Beneficiary or any holder of the

Medium Term Notes for any reason whatsoever (including the insolvency, bankruptcy or reorganization of the Trust), all as though such payment had not been made.

4.2 Revival of Indebtedness

If at any time, all or any part of any payment previously received by the Beneficiary or any holder of the Medium Term Notes and applied to any Guaranteed Obligation must be rescinded or returned by the Beneficiary or any holder of the Medium Term Notes for any reason whatsoever (including the insolvency, bankruptcy or reorganization of the Trust), such Guaranteed Obligation shall, for the purpose of this Guarantee, to the extent that such payment must be rescinded or returned, be deemed to have continued in existence, notwithstanding such application by the Beneficiary or any holder of the Medium Term Notes, and this Guarantee shall continue to be effective or be reinstated, as the case may be, as to such Guaranteed Obligation as though such application by the Beneficiary or any holder of the Medium Term Notes had not been made.

ARTICLE 5
DEMAND FOR PAYMENT, EXPENSES AND INTEREST

5.1 Demand for Payment

The Beneficiary may, upon the occurrence of a Event of Default and a declaration by the Beneficiary under Section 8.1 of the Trust Indenture as to the payment of principal and interest on the Medium Term Notes (which declaration has not been cancelled under Section 8.3 of the Trust Indenture or otherwise cancelled), by notice in writing to the Guarantor, be entitled to make demand upon the Guarantor, and upon any such demand may treat all Guaranteed Obligations as due and payable and may forthwith collect from the Guarantor all Guaranteed Obligations; provided, however, that upon the cancellation of any such declaration under Section 8.3 of the Trust Indenture or otherwise, such demand shall also be rescinded and cancelled.

5.2 Expenses

The Guarantor shall pay to the Beneficiary all reasonable out-of-pocket costs and expenses, including all reasonable legal fees (on a solicitor and his own client basis) and other expenses incurred by the Beneficiary from time to time in the enforcement, realization and collection of or in respect of this Guarantee. All such amounts shall be payable by the Guarantor on demand by the Beneficiary.

ARTICLE 6
REPRESENTATIONS AND WARRANTIES; COVENANTS

6.1 Representations and Warranties

The Guarantor represents and warrants as follows to the Beneficiary and acknowledges and confirms that the Beneficiary is relying upon such representations and warranties:

(a) Status and Authority

It is a corporation, limited partnership, business trust or other entity duly incorporated, amalgamated, continued, formed or established, as the case may be and validly existing under the laws of the province its incorporation, amalgamation, continuance, formation or establishment, as the case may be.

(b) Valid Authorization

The execution, delivery and performance by the Guarantor of this Guarantee (i) is within the Guarantor's authority, capacity and power, and (ii) has been duly authorized by all necessary corporate, partnership, trust, or other action, as the case may be.

(c) Enforceability

This Guarantee constitutes a valid and legally binding obligation of the Guarantor, enforceable against the Guarantor in accordance with its terms subject to applicable bankruptcy, insolvency and other laws of general application limiting the enforceability of creditors' rights and to the fact that equitable remedies are only available in the discretion of the court.

(d) No Conflict

This Guarantee does not conflict with, contravene or constitute a default under (i) the Guarantor's constating documents or its by-laws, or (ii) any law or regulation the consequence of which would be that the Guarantor's ability to perform its obligations under this Guarantee would be materially adversely affected.

ARTICLE 7
SUCCESSORS

7.1 Certain Requirements

If the Guarantor enters into any transaction (including by way of reconstruction, re-organization, consolidation, arrangement, amalgamation, merger, liquidation, transfer, sale or otherwise) whereby all or substantially all of its undertaking, property and assets becomes the property of any other Person or, in the case of any such amalgamation, of the continuing corporation resulting therefrom, and such Person executes, prior to or contemporaneously with the consummation of such transaction, such instruments (if any) as are in the opinion of Counsel necessary or advisable to evidence the assumption by such Person of the liabilities and obligations of the Guarantor under this Guarantee, the Guarantor shall be released from all liabilities and obligations under this Guarantee.

ARTICLE 8
GENERAL

8.1 Release of Guarantee

Provided that no Event of Default has occurred and is continuing and that the release of this Guarantee will not result in an Event of Default immediately after such release, the Beneficiary shall release this Guarantee promptly after receipt of a written request from the Trust to do so.

8.2 Waiver of Notices

The Guarantor hereby waives promptness, diligence, presentment, demand of payment, notice of acceptance and any other notice with respect to this Guarantee and the obligations guaranteed hereunder, except for the demand pursuant to Section 5.1.

8.3 Benefit of the Guarantee

This Guarantee shall enure to the benefit of the respective successors and permitted assigns of the Beneficiary and be binding upon the successors of the Guarantor.

8.4 No Waiver; Remedies

No failure on the part of the Beneficiary to exercise, and no delay in exercising, any right hereunder shall operate as a waiver thereof, nor shall any single or partial exercise of any right hereunder preclude the other or further exercise thereof or the exercise of any other right. The remedies herein provided are cumulative and not exclusive of any remedies provided by law.

8.5 Severability

If any provision of this Guarantee is determined to be invalid or unenforceable in whole or in part, such invalidity or unenforceability shall attach only to such provision or part thereof and the remaining part of such provision and all other provisions hereof shall continue in full force and effect.

8.6 Amendments and Waivers

Any provision of this Guarantee may be amended, waived or a consent given in respect thereof with the concurrence of the Guarantor and the Beneficiary. Any waiver and any consent by the Beneficiary under any provision of this Guarantee must be in writing signed by the Beneficiary and may be given subject to any conditions thought fit by the Beneficiary, as the case may be. Any waiver or consent shall be effective only in the instance and for the purpose for which it is given.

8.7 Notices

Any demand, notice or other communication (hereinafter in this Section 8.7 referred to as a "**Communication**") to be given in connection with this Guarantee shall be given in writing and may be given by personal delivery, telecopier or by registered mail addressed to the recipient as follows:

To the Beneficiary as follows:

Computershare Trust Company of Canada
Suite 710, 530 – 8th Avenue S.W.
Calgary, Alberta
T2P 3S8

Attention: Manager
Facsimile: (403) 267-6598

To the Guarantor:

[Name of Designated Subsidiary]
c/o AltaGas Ltd.
•
Calgary, Alberta
T2P •

Attention: Corporate Secretary
Facsimile: (403) •

or such other address or telecopy number as may be designated by notice by any party to the other. Any Communication given by personal delivery or telecopier shall be conclusively deemed to have been given on the day of actual delivery or transmittal thereof and, if given by registered mail, on the third day following the deposit thereof in the mail. If the party giving any Communication knows or ought reasonably to know of any difficulties with the postal system which might affect the delivery of mail, any such Communication shall not be mailed but shall be given by personal delivery or telecopier.

8.8 Time of Essence

Time is of the essence with respect to this Guarantee and the time for performance of the obligations of the Guarantor under this Guarantee may be strictly enforced by the Beneficiary.

8.9 Entire Agreement

This Guarantee and the Trust Indenture constitute the entire agreement between the Beneficiary and the Guarantor with respect to the subject matter hereof and cancel and supersede any prior understandings and agreements between such parties with respect

thereto. There are no representations, warranties, terms, conditions, undertakings or collateral agreements, expressed, implied or statutory, between such parties other than as expressly set forth herein or therein.

8.10 Governing Law

This Guarantee shall be governed by and construed in accordance with the laws of the Province of Alberta and the federal laws of Canada applicable therein.

8.11 Attornment

The Guarantor and the Beneficiary hereby attorn and submit to the jurisdiction of the courts of the Province of Alberta in regard to legal proceedings relating to this Guarantee. For the purpose of all such legal proceedings, the courts of the Province of Alberta shall have jurisdiction to entertain any action arising under this Guarantee. Notwithstanding the foregoing, nothing in this Section 8.11 shall be construed nor operate to limit the right of the Guarantor or the Beneficiary to commence any action relating hereto in any other jurisdiction, nor to limit the right of the courts of any other jurisdiction to take jurisdiction over any action or matter relating hereto.

IN WITNESS WHEREOF the Guarantor has executed this Guarantee.

Dear Sirs:

Re: AltaGas Income Trust ("AltaGas" or the "Trust")

We refer to the short form base shelf prospectus of Altagas dated May 18, 2005 relating to the Trust's offering of up to $500,000,000 of trust units and debt securities.

We consent to the use, through incorporation by reference in the above-mentioned short form base shelf prospectus, of our report dated February 14, 2005 to the Unitholders of AltaGas Income Trust, on the following financial statements (the "Financial Statements"):

Consolidated balance sheets as at December 31, 2004 and 2003; and

Consolidated statements of operations and accumulated earnings, and cash flows for the years ended December 31, 2004 and 2003.

We report that we have read the short form base shelf prospectus and all information specifically incorporated by reference therein and have no reason to believe that there are any misrepresentations in the information contained therein that are derived from the financial statements upon which we have reported or that are within our knowledge as a result of our audits of such financial statements.

This letter is provided solely for the purpose of assisting the securities regulatory authorities to which it is addressed in discharging their responsibilities and should not be used for any other purpose. Any use that a third party makes of this letter, or any reliance or decisions made based on it, are the responsibility of such third parties. We accept no responsibility for loss or damages, if any, suffered by any third party as a result of decisions made or actions taken based on this letter.

NEWS RELEASE

ALTAGAS INCOME TRUST PROPOSES TO SPIN OUT NATURAL GAS DISTRIBUTION BUSINESS

Calgary, Alberta (May 25, 2005) -- AltaGas Income Trust (AltaGas) (TSX:ALA.UN) announced today that the Board of Directors has approved in principle the disposition of the natural gas distribution business of AltaGas as a public corporation separate from AltaGas Income Trust and its subsidiaries.

AltaGas' natural gas distribution business assets totaled $144.1 million as at March 31, 2005 comprising interests in natural gas distribution utility companies operating in Alberta, Nova Scotia and the Northwest Territories. AltaGas Utilities Inc., 100 percent owned by AltaGas, serves over 60,000 customers in 90 communities in Alberta. Heritage Gas Limited, 24.9 percent owned by AltaGas, has the franchise rights to develop distribution systems in six counties in Nova Scotia, and began deliveries to customers in December 2003. Inuvik Gas Ltd., 33.33 percent owned by AltaGas, owns and operates the natural gas distribution system serving the town of Inuvik, Northwest Territories.

As part of the transaction it is anticipated that AltaGas unitholders would receive a distribution of shares of a newly formed corporation that would indirectly own the assets of the natural gas distribution business. The disposition would be subject to various regulatory approvals and is expected to be implemented in the third quarter of 2005.

David Cornhill, Chairman and CEO of AltaGas remarked "The new company will generate solid performance from its utility businesses, and the build out to new natural gas users in Heritage Gas' franchise areas provides future growth for the new corporation." He went on to say that "The separation of the investment in AltaGas Income Trust into two investments is expected to enhance unitholder value."

AltaGas moves energy from its source to the end user, adding value through the process. AltaGas has consolidated assets totaling over $1 billion and a market capitalization of approximately $1.2 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through Inuvik Gas Ltd. and in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and, as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. AltaGas is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.

AltaGas **NEWS RELEASE**

ALTAGAS INCOME TRUST ANNOUNCES MONTHLY DISTRIBUTION

Calgary, Alberta (July 13, 2005) – AltaGas Income Trust (AltaGas or the Trust) (TSX:ALA.UN) announced today that a monthly distribution will be paid on August 15, 2005 to holders of record on July 25, 2005, of Trust Units and limited partnership units that are exchangeable into Trust Units (Exchangeable Units). The amount of the distribution will be $0.15 for each Trust Unit and each Exchangeable Unit.

AltaGas has adopted Premium Distribution™, Distribution Reinvestment and Optional Unit Purchase Plans (the Plans) for eligible holders of Trust Units and Exchangeable Units (collectively Unitholders) of AltaGas Income Trust, and AltaGas Holding Limited Partnership No. 1.

To participate in either of the Plans, registered Unitholders must deliver the appropriate properly completed and signed authorization forms provided by AltaGas for such purpose to Computershare Trust Company of Canada no later than 3:00 p.m. (Calgary time) on the business day immediately preceding a distribution record date in order for the cash distribution or cash payment to which such record date relates to be reinvested or invested, as the case may be, under the applicable Plan. Beneficial owners of Trust Units or Exchangeable Units (i.e. owners of Trust Units or Exchangeable Units that are held through a nominee such as a broker or custodian) who wish to participate in the applicable Plan should contact their broker, investment dealer, financial institution or other nominee who hold their Trust Units or Exchangeable Units to provide instructions regarding their participation in the applicable Plan. See additional information on the Plans on AltaGas' website at www.altagas.ca.

AltaGas moves energy from its source to the end user, adding value through the process. The Trust has consolidated assets totalling over $1 billion and a market capitalization of approximately $1.4 billion. Its steadily expanding asset base today includes natural gas gathering and processing facilities, interests in ethane and natural gas liquids extraction plants, and transmission pipelines. AltaGas distributes natural gas to Alberta customers through AltaGas Utilities Inc., to customers in the Northwest Territories through Inuvik Gas Ltd. and in Nova Scotia through its interest in Heritage Gas Limited. The Trust provides energy services to customers, including marketing of natural gas and natural gas liquids, sale of power from its power purchase based arrangements and, as a leading energy agency business, specializes in the procurement and supply of energy to end users.

AltaGas' Trust Units are listed on the Toronto Stock Exchange under the symbol ALA.UN. The Trust is included in the S&P/TSX Capped Income Trust Index and the S&P/TSX Capped Energy Trust Index.
