\* Stock name : KLK  
\* Stock code : 2445  
\* Contact person : J. C. Lim  
\* Designation : Company Secretary

\* Type :  Announcement  Reply to query

\* Subject :  
**KUALA LUMPUR KEPONG BERHAD ("KLK")  
PROPOSED ACQUISITION OF A SUBSIDIARY COMPANY:  
DAVOS LIFE SCIENCE PTE. LTD. ("DAVOS")**

### \* Contents :-

#### **Introduction**

Pursuant to the requirements of paragraphs 9.19(23) and 10.07(a) of the Bursa Malaysia Securities Berhad Listing Requirements, we wish to advise that KLK, has entered into a conditional agreement ("the S&P") to acquire from Capital Bliss Investments Limited ("the Vendor"), a 51% equity stake in Davos comprising 306,000 fully paid-up ordinary shares of USD1/- each ("the Sale Shares") for a cash consideration of USD306,000/- ("the Purchase Consideration").

#### **Details of the Proposed Acquisition**

Davos is a company incorporated in Singapore and has an authorised share capital of USD30,000,000/- comprising of 30,000,000 ordinary shares of USD1/- each, and an issued and fully paid-up share capital of USD600,000/- comprising 600,000 ordinary shares of USD1/- each.

Davos is a start-up company manufacturing nutraceutical, cosmeceutical and pharmaceutical products.

The Proposed Acquisition is conditional on the fulfillment of various conditions precedent on or before 24 December 2005 or such other date mutually determined by the parties, amongst which is the approval of Bank Negara Malaysia.

The Purchase Consideration will be financed from KLK's internally generated funds and payable to the Vendor only after all the conditions precedent stated in the S&P have been fulfilled.

On Completion of the S&P, Davos will become a subsidiary of KLK. Thereafter, KLK and the Vendor will enter into a Joint Venture Agreement ("the JVA") which sets out the rights and obligations of each party in relation to Davos.

### **Other Information**

The scope of the JVA is for Davos to conduct process and applicational research and development in areas related to Davos' manufacturing and marketing activities.

More specifically, Davos will engage in the isolation and purification of minor components derived from vegetable and animal oils and fats (including Palm Oil). In this connection, KLK will advance to Davos a shareholder's loan not exceeding USD15m for preliminary funding of inter alia, its capital and operating expenditure. This shareholder loan will ultimately be capitalized.

### **Effects of the Proposed Acquisition**

The Proposed Acquisition will not have any effect on the share capital and shareholding structure of KLK. Further, it will not have any material effect on the net tangible asset and earnings of the KLK Group for the current financial year ending 30 September 2006.

### **Rationale for the Proposed Acquisition**

Palm Oil, as well as other vegetable and animal fat streams, contains a number of micronutrients, which have been shown to have beneficial properties for human health.

KLK is a large palm oil producer, and therefore this investment is synergistic with our core business. Davos has developed proprietary technologies to extract such minor components, particularly tocotrienols.

Added to that, KLK has the necessary management skills to oversee the construction of the related manufacturing facilities, and supervise the future operations of Davos.

We believe that the new Joint Venture has the potential to start contributing to the profitability of KLK in the near future.

### **Investment Considerations**

#### **1. Dependence on Key Personnel**

The technology was developed by the founder of Davos, who also acts as the Managing Director of the Joint Venture. As a result, the Joint Venture's immediate success, and medium term development is largely dependent on him.

## 2. Operating/Technology/Market Risks

There are inherent risks associated with the implementation of any new technology development. The following are some of the risks that the Joint Venture anticipates:

- (a) Some equipment may prove to be less efficient than expected, some process steps may be difficult to operate, or prove to yield lower volumes or quality than planned. The final product quality may not be up to expectations, and marketability could be affected.
- (b) Competitors are carrying out Research & Development, and could implement more competitive technologies, either in terms of cost, or in terms of product purity.
- (c) The intended markets may be slower to develop than planned, considering the risks related to products that go into the food chain, pharmaceutical and cosmetic applications.
- (d) Obtaining approvals from various authorities to sell the products in some markets (e.g. the USA) could take longer than expected.
- (e) Some applications may be patented, limiting direct access to the market for Davos.

## 3. Exposure to interest and exchange rate fluctuations

No significant risk.

## 4. Environmental

No specific environmental issues are expected to stem from the process of extraction of micronutrients.

## **Directors' and Substantial Shareholders' Interests**

None of the Directors or substantial shareholders of KLK or any person connected to the Directors and substantial shareholders has any interest, direct or indirect, in the Proposed Acquisition.
