The full version of the unaudited consolidated financial statement of OJSC «CenterTelecom» for the first six months of 2005 according to IFRS is available at the corporate web-site of the Company.

**\*Principles of unaudited consolidated financial statement preparation:**

The intermediate statement of OJSC «CenterTelecom» for the first six of 2005 was prepared on the basis of IFRS taking into account a number of limitations listed in «Limitations and assumptions in the statement». The intermediate statement consists of balance sheet, profit and loss statement and notes to financial statements. The statement does not include all the necessary information obligatory for disclosure in intermediate statements under IFRS. However, the Company's management thinks that this statement is sufficient to indicate the financial performance and the Company's operating activities for the first six month of 2005.

The statement under IFRS for the first six month of 2005 is disclosed by OJSC «CenterTelecom» for the first time; CenterTelecom has not provided such disclosure before. This statement is the unaudited consolidated financial statement of OJSC «CenterTelecom». No audit, revision or other similar procedures will be conducted in connection with it. At the same time, taking into account the experience of OJSC «CenterTelecom» in the field of statement disclosure under IFRS, the Company believes that readers of this statement can rely on information given in this statement.

OJSC «CenterTelecom» and its daughter and affiliated companies keep its records in Russian rubles and draw up financial statement in correspondence to the Russian Federation Federal Law «About business accounting». The preparation of this unaudited consolidated financial statement of OJSC «CenterTelecom» was carried out on the basis of the unaudited financial statement of OJSC «CenterTelecom» and its daughter and affiliated companies drawn up in accordance with the International Financial Reporting Standards with a glance to the assumptions given below.

**Limitations and assumptions in the statement of OJSC «CenterTelecom» for the first six months of 2005**

The number of procedures conducted for preparation of this unaudited consolidated financial statement of OJSC «CenterTelecom» is less than it is necessary for financial statements drawn up under IFRS. Thereupon OJSC «CenterTelecom» applied a number of assumptions related to IFRS fixed assets value, fair value of assets and daughter companies obligations, acquired in 2005, value of obligations on retirement insurance, deferred revenues, reserves on fixed assets depreciation, inventories and accounts receivable. The actual figures of the financial statement of the year ended on December 31, 2005 may differ from the figures of the current financial statement due to the verification of information about the assumption made by the Company and appearance of the other updated information.

This unaudited consolidated financial statement does not include information about comparable figures for the first six month of 2004. In order to compare the figures, the Company has included the financial performance for the year ended on December 31, 2004. The list of notes to the unaudited consolidated financial statement of OJSC «CenterTelecom» does not reveal all the necessary information which should be disclosed under the International Financial Reporting Standards.

The list of notes to the annual consolidated financial statement of OJSC «CenterTelecom» may reveal more information than in this unaudited consolidated financial statement of OJSC «CenterTelecom».

**1. General Information**

**Confirmation**

The unaudited consolidated financial statements of CenterTelecom OJSC ("the Company") and its subsidiaries (jointly referred to as "the Group") were prepared for 6 months of 2005.

**Principles of preparation of the unaudited consolidated financial statements**

The financial statements of CenterTelecom OJSC made in accordance with the IFRS for 6 months of 2005 are limited to the Balance Sheet and Profit and Loss Account. The present statements do not include all the disclosures as required by the IFRS, however, are sufficient to represent financial status and performance of the Company for 6 months of 2005.

It is the first time that CenterTelecom OJSC presents financial statements in accordance with the IFRS for 6 months; CenterTelecom OJSC has not presented such statements before. These statements represent unaudited consolidated financial statements of CenterTelecom OJSC. Audit, review and other similar procedures will be applied to these statements. At the same time, taking into account experience of CenterTelecom OJSC in the field of reporting in accordance with the IFRS, the Company believes that users of the financial statements may rely on such statements.

CenterTelecom OJSC and its subsidiaries and related companies maintain their accounting records in Russian Rubles and make financial statements in accordance with the Federal Law of the Russian Federation "On Accounting". The present unaudited consolidated financial statements of CenterTelecom OJSC have been prepared based on the unaudited financial statements of CenterTelecom OJSC and its subsidiaries and related companies made in the format corresponding to the International Financial Reporting Standards and under assumptions described below.

The scope of procedures carried out by CenterTelecom OJSC in preparation of the present unaudited consolidated financial statements is less than could have been applied when preparing annual consolidated financial statements. In this connection, CenterTelecom OJSC made some assumptions, including those on fair value of assets and liabilities of subsidiaries and related companies acquired, value of obligations on pension plans, deferred income, provisions for depreciation of fixed assets, inventories and receivables. Actual indicators of the financial statements for the year ended on December 31, 2005, may differ from those in the present financial statements due to adjustment of the information on the assumptions made by the Company and new information.

The present unaudited consolidated financial statements do not include any information on comparable indicators of financial statements for 6 months of 2004. For the purpose of comparison, the Group presents financial indicators for the year ended on December 31, 2004 and as of December 31, 2004.

The notes to the unaudited consolidated financial statements of CenterTelecom OJSC do not disclose all the information, disclosure of which is required by the International Financial Reporting Standards. The notes to the annual consolidated financial statements of CenterTelecom OJSC may disclose larger scope of information than disclosed in the present unaudited consolidated financial statements of CenterTelecom OJSC.

**2. Fixed assets**

Fixed assets are recorded at cost of acquisition or construction less accumulated depreciation and any impairment in value.

Fixed assets are depreciated by the straight-line method. Estimated times of depreciation taken nearly equal to estimated useful lives of the assets are presented below:

Buildings	50 years
Constructions	20 years
Analogue switches	15 years
Digital switches	15 years
Other telecommunication equipment	15 years
Vehicles	5 years
Computers, office and other equipment	4-5 years
Land sites	Not amortized

For the purpose of information disclosure, the fixed assets are grouped as follows:

- Land sites, buildings and constructions;
- Switches and transmission devices;
- Construction in progress and equipment for installation;
- Other fixed assets, including computers, vehicles and other equipment.

The period of validity of the Company's operating licenses is significantly shorter than the useful lives used for depreciation. The management believes that the operating licenses will be prolonged without significant costs, which would allow the Company to realize the cost of its fixed assets through its normal business.

Construction in progress is recorded as the total of actual expenses incurred by the Company from the beginning of construction to the reporting date. Depreciation is accrued when the fixed assets are put into operation.

Interest on loans obtained for financing construction of fixed assets are capitalized within the cost of the fixed assets item within the period required for completion of construction and preparation of the item for its intended use. Other expenses on loans are recorded in the Profit and Loss Account.

The costs of repair and maintenance are charged to expenses when incurred. The costs of reconstruction and modernization are capitalized, and the replaced items are written off. Any gains or losses resulting from assets writing-off are charged to financial result when the assets are written-off.

IAS 36 "Impairment of Assets" envisages necessary assessment of recoverable value of assets, including fixed assets, if objective facts are available to evidence their possible impairment.

The carrying value of fixed assets is analyzed for impairment, when events or changes in circumstances indicate the carrying value may not be recoverable. If any such indication exists and the carrying value exceeds the estimated recoverable amount, the value of the assets or cash-generating units is written down to their recoverable value. The recoverable value of fixed assets is net selling price of the asset or its value in use, whichever is the greater.

**CenterTelecom OJSC**  
**Notes to the Unaudited Consolidated Financial Statements**  
**for 6 months of 2005**  
(in ths. RUB)

**2. Fixed assets**

In assessing value of an asset in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects the current market assessment of the time value of finance and risks related to the asset. For the assets that do not generate cash inflows, the recoverable value is determined for the cash-generating unit, to which such assets belong. Impairment expenses are recognized in the Profit and Loss Account.

	<b>Land sites, buildings and constructions</b>	<b>Switches and transmission devices</b>	<b>Construction in progress and equipment for installation</b>	<b>Vehicles, other fixed assets</b>	<b>Total</b>
<b>Residual value as of December 31, 2004</b>	11 426 407	11 606 109	3 474 434	3 494 011	30 000 961
<b>Residual value as of June 30, 2005</b>	<b>10 773 145</b>	<b>11 082 426</b>	<b>4 101 010</b>	<b>3 624 045</b>	<b>29 580 626</b>

The Company has applied an exception envisaged by IFRS 1 that allows organizations to assess fixed assets at fair value as of the date of transfer to IFRS and use such fair value as actual value of the fixed assets. The management supposes that the carrying value of all the fixed assets of the Company is comparable with their fair value, but, nevertheless, proceeds with an independent appraiser to confirm such fair value, hence, the carrying value of the fixed assets may be subject to adjustments.

The cost of manufacturing equipment and other fixed assets items related to the main activities of the Company that were transferred to the Company free of charge outside the privatization process is capitalized at fair value as of the date of the equipment transfer. Income from receiving the said fixed assets items is fully recognized in the Profit and Loss Account as of the moment of transfer with the exception of cases when transfer of fixed assets items is related to the Company's rendering services to an entity that has transferred the fixed assets with future use of such assets. In such a case the Company recognizes deferred income in the amount of fair value of the received equipment and other fixed assets items. The said deferred income is recognized in the Profit and Loss Account as the received fixed assets are depreciated within their useful lives as from the date when the Company started to render services to the entity that transferred the assets.

If the fixed assets received free of charge do not generate income for the Company in the future, they are not recognized in the financial statements.

As of June 30, 2005 residual value of fixed assets transferred to the Company under financial lease makes RUB 3,455,146 ths. (RUB 3,387,850 ths. in 2004). The Company uses fixed assets received under financial leases as a security for the relevant lease obligations.

During first 6 months of 2005 the Company increased the value of construction in progress by the amount of capitalized interest equal to RUB 79,975 ths. (RUB 364,281 ths. in 2004).

**3. Intangible Assets**

Intangible assets are capitalized at acquisition cost.

Licenses and software received are depreciated by equal portions within the estimated useful lives of the said assets, which are equal to the period of validity of a license or rights to use software. Useful life of other intangible assets makes 5 years.

If any indications of decrease in value of intangible assets are detected, the carrying value of each asset is assessed, and, if decrease in value is detected, the carrying value is immediately written down to the recoverable amount.

**18. Settlements and transactions with related parties**

**Svyazinvest Group OJSC**

Svyazinvest OJSC, the parent company of CenterTelecom OJSC, was fully owned by the state before July 1997, when the Government of the Russian Federation sold 25% of shares plus one share of Svyazinvest OJSC to private investors.

Availability of effectively functioning communication and data transmission network is extremely important for Russia due to a number of reasons, including economic, strategic and national securities interests. In this connection the Government has and will most likely have significant influence on the activities of Svyazinvest OJSC and its subsidiaries.

Influence of the Government is not limited to the shareholding of Svyazinvest OJSC shares. The Government reserves the rights to regulate tariffs, including those on international telephone communication. Moreover, the Ministry for Information Technologies and Communications of the Russian Federation controls the process of licensing companies providing telecommunication services.
