## Notice Regarding Trade Receivables Outstanding in Iraq Being Uncollectible

On November 24, 2005, the Japanese Government and the Iraqi Government agreed upon the conditions regarding debt relief measures to the Republic of Iraq, and notes to this effect were exchanged. The debt relief measures include the write-off of the trade receivables up to 80% in total in several phases.

Based on the agreement, the amount up to 80% of the total amount of Mitsubishi Corporation's trade receivables outstanding in Iraq, which is approximately 29.0 billion yen (principal: approximately 16.0 billion yen, penalty for delayed payment: approximately 13.0 billion yen), will be uncollectible in the future.

Mitsubishi Corporation has already booked provision accounts for doubtful receivables for the whole amount of the concerned receivable in the past fiscal year.
