Press Release

CSM NOTES PRESS RELEASE BY CERTAIN SHAREHOLDERS

Diemen, The Netherlands, 17 November 2005 – CSM notes today's press release by certain shareholders. As we remarked in August, for CSM 2005 is a transition year. The cost-cutting program is well on the way, and part of the proceeds are being used in our expenditure on sales, marketing, and R&D to bolster our competitive position and maintain market leadership. In addition, we have returned over EUR 167 million to shareholders this year.

Following the sale earlier this year of the sugar confectionery division, CSM has been re-positioning itself as a company active in Bakery Supplies & Food Ingredients. At the end of August CSM announced a program (3S program) aimed at further margin improvement. The company is forging ahead with the 3S program, which will yield substantial cost savings in 2006, gradually leading to an annual improvement in the operating result of at least EUR 50 million as of 2008.

In 2005, the beet processing operations in Breda (NL) have been closed down, PURAC and some parts of Bakery Supplies in North America and Europe have been reorganized, and some non-core-business operations of Bakery Supplies in Europe have been sold. At the same time we are increasing expenditure on sales, marketing and R&D. Overall, this program will create a solid platform for profitable long-term organic growth.

Both during 2005 and the remainder of the 3S program we will continue to place particular emphasis on managing our cash flow and balance sheet in order to deliver attractive shareholder returns, while at the same time building the business for the long term. During 2005 we have repurchased EUR 100 million of shares and paid a dividend of EUR 67 million.

In March of next year, the new management team will provide an update on the progress made in 2005 and outline their plans for the subsequent phases of the implementation and execution of CSM's repositioning strategy. In the interim CSM remains, as always, receptive to the views of its shareholders.
