RICHARDS BAY COAL TERMINAL EXPANSION PAVES WAY FOR CONSTRUCTION OF INYANDA JOINT VENTURE

Kumba Resources Limited (Kumba) and Eyesizwe Coal (Eyesizwe) welcome today's announcement by the Richards Bay Coal Terminal (RBCT) regarding the go-ahead of the RBCT expansion which paves the way for the construction of their 50:50 joint venture, Inyanda coal mine.

The Inyanda coal mine, previously approved by both the Kumba and Eyesizwe boards and subject to the RBCT expansion, is situated near Witbank and will produce 1Mtpa of thermal coal for the export market, via RBCT.

Construction of the mine will commence during June 2006, with capital expenditure set at R184 million and an estimated commissioning date of December 2007.

The RBCT expansion is expected to be completed in July 2008 and will provide 6Mtpa of export capacity to members of the South Dunes Coal Terminal (SDCT), namely Kumba (2Mtpa), Eskom Enterprises (3Mtpa) and Anker Coal (1Mtpa). Emerging BEE companies will be allocated 4Mtpa with a further 10Mtpa expansion available for subscription.

We are pleased that the RBCT Board has given the green light for this long awaited expansion which enables Kumba and Eyesizwe to now proceed with the Inyanda joint venture and take advantage of the buoyant international coal market, said Ernst Venter, general manager of Kumbas coal division.

FURTHER CAUTIONARY ANNOUNCEMENT

Further to the cautionary announcement published on 13 October 2005 relating to a proposed empowerment transaction (The Transaction), Kumba shareholders are advised that the parties are in the process of undertaking due diligence reviews and preparing the requisite legal agreements. A further announcement will be published once the legal agreements have been signed and the financial effects finalised.

Accordingly, Kumba shareholders are advised to exercise caution when dealing in their Kumba shares until such a time as a further announcement is published.
