Increase achieved despite growth in Frutarom's issued share capital as a result of capital raised in February 2005 on the LSE

Haifa, Israel – November 21, 2005. Frutarom (LSE: FRUTq, TASE: FRUT, OTC: FRUTF) today presented its third quarter results for 2005.

During the third quarter of 2005, Frutarom continued its trend of increased sales, profitability and profits for the twenty-fourth consecutive quarter. This growth in Frutarom's financial results is the result of the successful implementation of Frutarom's rapid growth strategy, combining organic growth in core activities at rates above the industry average with strategic acquisitions of activities and know-how in the Company's main fields of business and in strategic geographic regions.

*Ori Yehudai, the Frutarom Group's President and Chief Executive Officer*, said, "Frutarom achieved good results, and profitability continued to improve despite the relatively weak period experienced by processed food manufacturers in Western Europe. The results were achieved due to the integration of the Food Systems activity, acquired from IFF during the second half of 2004, with the Frutarom Group's global activity. Frutarom continued to focus on identifying and leveraging the synergy and cross-selling opportunities between the new customers and products added by the acquisition, and Frutarom's existing customers and products. The main impact of the cross-selling will materialize over the next two years. The growth in the Fine Ingredient Division's sales and profitability, mainly due to the successful introduction of new products and expansion in the global sales and R&D global infrastructure, also contributed to the growth in Frutarom's results."

Frutarom invests considerable efforts and resources in implementing its growth strategy and achieving its goals, which will significantly strengthen Frutarom's position as a leading global company. *Yehudai* noted, "Frutarom's management invests considerable resources in finding and executing strategic acquisitions. Frutarom is in contact with several very interesting potential candidates for acquisition, mainly in countries and markets where we already have substantial activity. The US\$ 76 million UK offering carried out by the Company in February 2005, allow Frutarom to leverage its solid equity structure in order to execute future strategic acquisitions "

*Yehudai* added, "Frutarom will continue to focus on both large multinational customers

and on mid-size and local customers, providing superior, high quality and tailor-made products and service. We will persevere in strengthening our presence in developed markets, such as Western Europe and the United States, and in intensifying our activities in the fast growing emerging markets where we currently operate, as well as entering new emerging markets where the growth rate is higher than the global average. We will continue to invest in developing new products and offering our customers a broad product portfolio consisting largely of natural products and new innovative products such as functional food ingredients. We believe that the imminent addition to our management team of Mr. Kobi Levy, who comes to us from Strauss, a leading dairy producer and member of the renowned worldwide Danone Group and will become an Executive Vice President at Frutarom and the Manager of the Global Flavors Division, will also contribute to the execution of our growth strategy."

Frutarom's sales in the third quarter of 2005 totaled US\$ 59.4 million, a 15.6% increase compared with the same quarter of 2004. Sales during the first three quarters of the year totaled US\$ 191.2 million, a 36.7% increase compared with the same period of 2004. The integration of the food systems activity acquired from IFF in Switzerland, Germany, and France with the Frutarom Group's global operations contributed to the growth in sales. Furthermore, growth in the fine ingredients division's sales, mainly due to the introduction of new products, expansion and development of global sales infrastructure and the successful integration and utilization of the synergy existing between its research and development and production sites worldwide. And the utilization of the synergy and cross selling opportunities between Frutarom's Divisions, existing customers and products and those added through the acquisitions made in recent years.

The increase in sales was slightly offset by the relatively weak period of processed food manufacturers in Western Europe; the weakening of the Western European currencies (in which most of Frutarom's sales are conducted) against the US dollar; the significant erosion in selling prices of natural extracts and flavors compounds containing natural vanilla, due to the significant decline in the raw materials costs required for their manufacture; and the decline in ArtChem sales due to lower demand by the main customer.

Gross profit for the third quarter of 2005 rose 18.3% to reach US\$ 23 million compared with US\$ 19.5 million in the same quarter last year. During the first three quarters of the year, gross profit grew 38.5% to reach US\$ 75 million compared with US\$ 54.1 million during the same period in 2004. Gross margin during the third quarter reached 38.8% compared with 37.9% during the same quarter in 2004, and during the first three quarters reached 39.2% compared with 38.7% during the same period in 2004. Operating profit grew by 21.1% during the third quarter of 2005 to US\$ 7.9 million compared with the same period in 2004, while during the first three quarters of 2005 operating profit continued the growth seen in previous years and reached US\$ 28.8 million, up 62.2% compared with the same period in 2004. In parallel with the growth in operating profit, operating margin continued to rise, reaching 13.3 % in the third quarter of 2005 compared with 12.7% for the same quarter in 2004, and to 15% in the first three quarters

of 2005 compared with 12.7% in the same period in 2004. Taxes on income in the third quarter of 2005 totaled US\$ 1.1 million (13.9% of profit before tax) compared with US\$ 1.5 million (24.7% of profit before tax) during the same period in 2004. This decrease was due to the higher profit achieved in regions with lower than average tax rates and the tax benefits received due to sales growth and increase investments in R&D. Net profit for the third quarter grew by 45.2%, reaching US\$ 6.8 million compared with US\$ 4.7 million during the same quarter last year. Net margin reached 11.4% in the third quarter of 2005 compared with 9.1% during the same quarter in 2004. Net profit for the first three quarters of 2005 rose sharply by 72.7% to reach US\$ 22 million compared with US\$ 12.7 million in the first three quarters in 2004. Net margin also grew and reached 11.5% compared with 9.1% during the first three quarters of last year. Earnings per share continued to grow during the third quarter of the year and reached US\$ 0.12 compared with US\$ 0.11 in the third quarter of 2004. Earnings per share for the first three quarters of the year totaled US\$ 0.40 per share compared with US\$ 0.28 during the same period of 2004.

During the third quarter of 2005, Frutarom achieved cash flow from operating activities of US\$ 13.2 million, compared with US\$ 7.1 million in the third quarter of 2004. During the first three quarters of 2005, Frutarom achieved cash flow from operating activities of US\$ 26.8 million, compared with US\$ 15.5 million in the first three quarters of 2004.

**Yehudai concluded by saying,** "Frutarom continues to be focused on realizing its rapid growth strategy, combining organic growth of core activities at rates above the industry average with strategic acquisitions of activities and knowhow in its main fields of business and in strategic geographic regions. The proceeds from the London offering, together with the successful integration of the activities acquired by Frutarom, form an even more solid base than previously for realizing our rapid growth strategy and ensuring future growth. Our management will continue to invest substantial efforts and resources in identifying and executing potential acquisitions, and in continuing to achieve growth targets in our core activities, which will ensure that we reach our ambitious goals while creating value for our shareholders."

**FRUTAROM INDUSTRIES LTD.  
DIRECTORS REPORT TO THE SHAREHOLDERS  
FOR THE PERIOD ENDING SEPTEMBER 30, 2005<sup>1</sup>**

<b>General</b>
----------------

Frutarom Industries Ltd. ("Frutarom" or "the Company"), a global company, was established in 1933 and became a public company in 1996 with the registration of its shares for trade on the Tel Aviv Stock Exchange. In February 2005, the Company's Global Depository Receipts were listed on the London Stock Exchange Official List. Frutarom develops, produces and markets flavors and fine ingredients used to produce food and beverages, flavors and fragrances, pharma/nutraceuticals, personal care and other products. Frutarom operates production facilities in Europe, North America, Israel and Asia, and produces, markets and sells over 14,000 products to more than 3,500 customers in more than 100 countries. Frutarom operates two divisions: the Flavors Division and the Fine Ingredients Division.

In recent years Frutarom has implemented a strategy for achieving rapid, above-industry average growth, through both internal growth and strategic acquisitions. Frutarom focuses on large multinational customers as well as mid-size and local customers, offering each customer the same superior service and tailor made products. Frutarom concentrates on developed markets such as Western Europe and the United States, as well as fast growing emerging markets such as CIS, Eastern Europe and Asia, where growth rates are higher than the global average. Frutarom offers its customers a wide product range comprised mostly of natural and innovative, value-added products such as natural functional food ingredients, and continues to invest substantial resources in the Company's research and development activities.

During the third quarter of 2005, for the twenty-fourth consecutive quarter, Frutarom continued the trend of increased sales, profitability and profits achieved in recent years and in the first half of 2005. Frutarom's sales for the third quarter of 2005 totaled US\$ 59.4 million, growing 15.6% compared with the same quarter of 2004. Gross profit for the period rose 18.3% to reach US\$ 23.0 million, compared with US\$ 19.5 million in the same quarter of 2004. Gross margin rose to 38.8% compared with 37.9% for the same period of 2004. Operating profit rose by 21.1% to US\$ 7.9 million, compared with US\$ 6.5 million in the same quarter of 2004. Operating margin rose to 13.3% compared with 12.7% for the same quarter of 2004. Net profit grew by 45.2%, reaching US\$ 6.8 million compared with US\$ 4.7 million in the same quarter of 2004, and net margin reached 11.4% compared with 9.1% in the same quarter of 2004. Profit per share also rose during the third quarter of the year and reached US\$ 0.12 compared with US\$ 0.11 during the third quarter of 2004 (despite the growth in the Company's issued share capital as a result of the capital raising and registration on the London Stock Exchange Main List in February 2005).

---

<sup>1</sup> Prepared in accordance with the consolidated financial reports of Frutarom Industries Ltd., which were prepared in accordance with the IFRS as required by the UKLA.

The cash flow from current activities achieved by Frutarom during the third quarter of 2005 totaled US\$ 13.2 million compared with US\$ 7.1 million in the third quarter of 2004. The cash flow was used mainly to repay loans, finance investments in fixed assets and increase the Company's cash balance.

Frutarom's sales for the first three quarters of 2005 totaled US\$ 191.2 million, growing 36.7% compared with the first three quarters of 2004. Gross profit for the period rose 38.5% to reach US\$ 75.0 million, compared with US\$ 54.1 million in the same three quarters of 2004. Gross margin rose to 39.2% compared with 38.7%. Operating profit rose 62.2% to US\$ 28.8 million, compared with US\$ 17.7 million in the first three quarters of 2004, and operating margin rose to 15.0% compared with 12.7% for the same period in 2004. Net profit grew sharply by 72.7%, reaching US\$ 22.0 million compared with US\$ 12.7 million in the first three quarters of 2004. Net margin also rose, reaching 11.5% compared with 9.1% in the same period of 2004. Profit per share rose during the first three quarters of the year and reached US\$ 0.40, compared with US\$ 0.28 during the same period of 2004 (despite the growth in the Company's issued share capital as a result of the capital raising and registration on the London Stock Exchange Main List in February 2005).

The cash flow from current activities achieved by Frutarom during the first three quarters of 2005 totaled US\$ 26.8 million, compared with US\$ 15.5 million in the same period of 2004.

The London offering carried out by the Company in February 2005, by way of issuing GDRs on the London Stock Exchange Official List, improved Frutarom's equity structure (the net proceeds totaled US\$ 76 million) and contributed to Frutarom's positioning as a global company, with leading institutional investors in the USA, UK and throughout the world.

Following the capital raising and the profit for the first three quarters of this year, Frutarom's equity as at September 30, 2005 totaled US\$ 174.7 million (75.7% of the balance sheet), compared with US\$ 72.7 million as at September 30, 2004 (37.4% of the balance sheet). The growth in equity enables Frutarom to leverage its strong equity structure in order to execute future strategic acquisitions in accordance with the rapid growth strategy implemented by the Company in recent years.

The continuous growth in operating and net profit and profitability seen in recent years derive mainly from the rapid expansion in Frutarom's activity resulting from organic growth in core activities of both the Flavors and Fine Ingredients Divisions, and the successful integration of activities acquired in recent years. The ongoing improvement in product mix through steady growth in the proportion of Frutarom's Flavors Division sales (which typically have higher margins than Fine Ingredients Division products) in Frutarom's overall sales, also contributed to the improvement in net profit. (Flavors Division sales reached 64.7% of total sales in the first three quarters of 2005 compared with 56.4% for the entire year of 2004.) The Fine Ingredients Division, which is focusing on developing and introducing new, innovative and value-added products with a higher margin, also contributed to the growth in sales and the improvement in product mix, net profit and margins. Alongside the growth in activity in recent years, Frutarom has maintained a policy of closely controlling expense levels, which also contributed to the increase in profitability and profit.

## Summary of the Company's Activity

Frutarom operates in the global flavors and fine ingredients markets. In the flavors market, Frutarom is active in the segments of flavor compounds and food systems. In the fine ingredients market, Frutarom operates mainly in the segments of natural flavor extracts, natural functional food ingredients, natural pharma/nutraceutical extracts, specialty essential oils, unique citrus products and aroma chemicals.

Based on the data published by SRI Consultants, Frutarom estimates that sales in 2003 in the markets in which it operates totaled US\$ 14.7 billion (excluding sales of natural functional food ingredients outside of the United States and Europe and sales of pharma/nutraceutical extracts) and that global sales in the flavor and fine ingredients markets in which Frutarom operates will grow at an annual rate of between 2% and 4% from 2005 to 2008, although the growth rate is expected to be significantly higher in certain emerging markets such as Eastern Europe, Russia, China and India. In addition, the market for natural functional food ingredients is expected to grow at a higher rate of 9% in Europe and the United States.

The Company's activity is divided into two main divisions, each of which is a major field of activity:

- **The Flavors Division** develops, produces, markets and sells flavor compounds and Food Systems used mainly by manufacturers of food, beverages and other consumer products. Frutarom develops thousands of different flavors, most of which are tailor-made for specific customers, and continuously develops new flavors in order to meet changing consumer preferences and future customer needs. The Flavors Division is the most profitable of Frutarom's Divisions and has experienced accelerated growth since 2001 as a result of both organic growth and the successful integration of a number of strategic acquisitions. The internal growth in the Flavors Division's sales derives mainly from the Division's focus on both developed and emerging markets by providing superior service to global multinationals as well as mid-sized, local customers.
- **The Fine Ingredients Division** develops, produces, markets and sells natural flavor extracts, natural functional food ingredients, natural pharma/nutraceutical extracts, specialty essential oils and citrus products, aroma chemicals, natural gums and peptide building blocks. The Division's products are sold principally to the food and beverage, flavor and fragrance, pharma/nutraceutical and personal care industries. The Fine Ingredients Division has experienced significant growth in recent years as a result of both internal growth and the successful implementation of several strategic acquisitions. The internal growth in the Fine Ingredients Division's sales is mainly the result of the development of new, innovative value-added products with higher than average margin and its focus on multinational, mid-sized and local customers worldwide.

The activities of Frutarom's two Divisions are greatly complementary and synergetic. This synergy is expressed in a number of main fields: (1) sales and marketing – one salesperson handling each customer, and Fine Ingredients Division products that are intended for the food and beverage market are sold through the Flavors Division's

sales force; (2) research and development - the knowhow and familiarity of the Flavors Division's team with the needs of the food and beverage market enable the Fine Ingredients Division to develop and produce new and innovative products for the food and beverage industry; (3) operations - many of Frutarom's production sites are jointly utilized by the Flavors Division and the Fine Ingredients Division; (4) fine ingredients - although the majority of fine ingredients produced by the Company are sold to third parties, some specialty fine ingredients are exclusively used by the Flavors Division to produce certain unique flavors, giving Frutarom a competitive advantage.

Frutarom will continue to invest considerable efforts and resources in successfully implementing the strategy of rapid growth it has successfully implemented in recent years. The strategy combines rapid internal growth of the more profitable core activity at higher than average rates for the industry, with strategic acquisitions of companies, knowhow and activities in fields in which the Company is active, in order to strengthen its positioning as one of the leading global companies in the field of flavors and fine ingredients.

The increase in sales during the third quarter was influenced mainly by the following factors:

- A. The integration of the Food Systems activity acquired from IFF in Switzerland, Germany and France with the Frutarom Group's global activity. The activity acquired in Switzerland and Germany was unified with Frutarom's activity as of mid August 2004 and the activity acquired in France, as of November 2004.
- B. Growth in the Fine Ingredients Division's sales, mainly due to the introduction of new products, expansion and development of the global sales infrastructure and the successful integration and utilization of the synergy existing between its research and development and production sites worldwide.
- C. Utilization of the synergy and cross selling opportunities between Frutarom's Divisions, existing customers and products and those added through the acquisitions made in recent years.

The increase in sales was slightly offset by the following factors:

- A. Relatively weak period of processed food manufactures in Western Europe.
- B. Weakening of the Western European currencies (in which most of Frutarom's sales are conducted) against the US dollar.

- C. Significant erosion in selling prices of natural extracts and flavor compounds containing natural vanilla, due to the significant decline in the raw materials costs required for their manufacture.
- D. Decline in ArtChem sales due to lower demand by the main customer. (ArtChem produces raw materials in the field of peptides intended for the biotechnological pharmaceuticals industry.)

Frutarom's business is subject to seasonal fluctuations, generally with higher sales and profitability (due to product mix) in the first half of a given year and lower sales and profitability in the second half of a given year. A substantial portion of the Company's products are used by its customers in the manufacture of beverages and dairy products such as soft drinks, ice cream and yogurts, for which demand generally increases markedly during the summer months. As a result, sales of certain flavors and fine ingredients produced by Frutarom rise in the first half of the year, as manufacturers of beverages and dairy products restock their inventories and increase production in advance of rising demand during the summer months.

The impact of seasonality on the Company's results has steadily decreased in recent years, as the Company has increased its sales of products such as savory flavors, natural functional food ingredients and natural pharma/nutraceutical extracts. These products are intended for the pharma/nutra industries and generally have lower seasonality in demand.

## Financial Status

Total assets on September 30, 2005 amounted to US\$ 230.8 million, compared with US\$ 194.7 million at September 30, 2004 and US\$ 213.7 million at December 31, 2004.

The Company's current assets totaled US\$ 121.2 million compared with US\$ 94.8 million at September 30, 2004, and US\$ 104.0 million at December 31, 2004.

Fixed assets minus accumulated depreciation and net other assets totaled US\$ 103.4 million on September 30, 2005, compared with US\$ 94.4 million at the end of the third quarter of 2004 and US\$ 102.0 million at December 31, 2004. The decline in fixed assets compared with December 2004 derives from the strengthening of the US dollar against European currencies.

The growth in overall assets, and particularly in current assets, resulted mainly from the growth in activity turnover, the acquisition of IFF's food systems activity and the capital raised by Frutarom in February 2005.

## Liquidity

During the third quarter of 2005, Frutarom achieved cash flow from operating activity of US\$ 13.2 million, compared with US\$ 7.1 million in the same quarter of 2004. The cash flow was used to repay loans, finance investments in fixed assets made by Frutarom and to increase its cash balance.

The cash flow from investment activity during the third quarter included the amount of US\$ 2.5 million returned to Frutarom by IFF for adjustment relating to the acquisition of the food system activity during the second half of 2004.

During the first three quarters of 2005, Frutarom achieved cash flow from operating activity of US\$ 26.8 million compared with US\$ 15.5 million in the same period of 2004.

## Sources of Finance

### Sources of the Company's Shareholders Equity

The Company's shareholders equity at September 30, 2005 totaled US\$ 174.7 million (75.7% of the balance sheet) compared with US\$ 72.7 million (37.4% of the balance sheet) at September 30, 2004. The growth in the Company's shareholders equity during 2005 derives mainly from the capital raised of US\$ 76 million (net) by the Company in February. The growth in profit also contributed to the growth in shareholders equity. A change in the US dollar exchange rate against other currencies that are the main activity currency for the autonomous subsidiaries influenced the "currency translation differences equity fund" and reduced the shareholders equity balance. This item does not affect the profit and loss and the cash flow.

The average scope of long term credit from banks totaled US\$ 3.7 million. During the same period last year, the Company had US\$ 33.5 million at its disposal.

During the third quarter of 2005, the Company granted average credit of US\$ 46.3 million to its customers, compared with US\$ 37.8 million during the same quarter of 2004. Most of the growth in suppliers' and customers' credit results primarily from the growth in activity due to the acquisition of the Food Systems activity from IFF and the growth in activity compared with 2004.
