INDEPENDENT AUDITORS' REPORT

To the Member of
Terra Nova Trading, L.L.C.

We have audited the accompanying statement of financial condition of Terra Nova Trading, L.L.C. as of December 31, 2004 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Terra Nova Trading, L.L.C. as of December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for purposes of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

TERRA NOVA TRADING, L.L.C.

NOTES TO STATEMENT OF FINANCIAL CONDITION as of December 31, 2004

¶

1. Organization and Business

Terra Nova Trading, L.L.C. (the "Company"), an Illinois limited liability company, was organized on November 14, 1994. The Company is a registered securities broker-dealer with the Securities and Exchange Commission and is a member of the National Association of Securities Dealers, Inc. The Company is also a registered futures commission merchant with the Commodity Futures Trading Commission and is a member of the National Futures Association. The Company provides clearing and execution services primarily for institutional, professional and retail customers.

2. Summary of Significant Accounting Policies

Revenue Recognition

Securities transactions and related commission revenue and expenses are recorded on a settlement date basis. Generally Accepted Accounting Principles normally requires an entity to record securities transactions on a trade date basis, however, a majority of brokers and dealers record most securities transactions on the settlement date rather than on the trade date. The difference between trade date and settlement date accounting is not material to the Company's financial position at December 31, 2004, nor material to the results of its operations for the year then ended. Securities owned are valued at fair value. The resulting difference between cost and fair value is included in income.

Income Taxes

No provision has been made for federal income taxes, as the taxable income of the Company is included in the respective income tax return of the member.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash Equivalents

For the statement of cash flows, cash equivalents consist of money market deposits with maturities of less than three months.

Depreciation and Amortization

Depreciation of furniture and equipment is computed using the straight-line method for financial reporting and accelerated methods for income tax purposes. Leasehold improvements are being amortized using the straight line method over the term of the associated lease.

3. Securities Owned, Not Readily Marketable

Securities not readily marketable include investment securities (a) for which there is no market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933 or (c) that cannot be offered or sold because of other arrangements, restrictions of conditions applicable to the securities or to the company. At December 31, 2004, firm owned securities at fair value consist corporate equities valued at \$5,054,067.

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2004

4. Receivables From and Payables to Brokers, Dealers, and Clearing Organizations

The components of receivables from and payables to brokers, dealers, and clearing organizations are as follows:

	Receivables	Payables
Clearing brokers	\$ 190,129	\$ -
Stock borrowed	22,181,850	-
Fails to deliver/receive	2,734,200	2,936,280
Clearing organizations	1,562,032	870
Commissions receivable/payable	164,384	760,174
	\$ 26,832,595	\$ 3,697,324

5. Related-Party Transactions

The Company has made loans and advances to affiliates, which do not bear interest and are due on demand. At December 31, 2004, receivables from affiliates totaled approximately \$570,862.

6. Employee Benefit Plan

The Company has established a profit sharing/401(k) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement.

7. Commitment

The Company conducts its operations in leased office facilities and annual rentals are charged to current operations. The lease is subject to an escalation clause based on the operating expenses of the lessor.

The approximate minimum annual rental commitments under non-cancelable operating leases are as follows:

<u>Year Ending December 31,</u>	<u>Amount</u>
2005	\$ 253,000
2006	172,000
	\$ 425,000

TERRA NOVA TRADING, L.L.C.

NOTES TO STATEMENT OF FINANCIAL CONDITION, Continued
as of December 31, 2004

8. Off Balance Sheet Risk and Concentration of Credit Risk

The Company engages in the execution, settlement and financing of various customer securities transactions, which may expose the Company to certain off balance sheet risks. In the normal course of business, the Company extends secured credit to certain customers. Receivables arising from transactions executed by the Company are collateralized by securities with market values in excess of amounts due. It is the policy of the Company to monitor the market value of the collateral and maintain possession and control of these securities.

The Company engages in various transactions with broker-dealers and clearing organizations. In the event the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparties to these transactions. It is the Company's policy to monitor the creditworthiness of each party with which it conducts business.

At December 31, 2004, significant credit concentrations consisted of cash deposited in bank accounts that exceeded federally insured limits. The Company has not experienced any losses in such accounts. Management believes that the Company is not exposed to any significant credit risk on cash.

9. Net Capital Requirements

The Company is a broker dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) and is an introducing broker subject to the Commodity Futures Trading Commission Minimum Capital Requirement (Regulation 1.17). Under the more restrictive of these rules, the Company is required to maintain "net capital" equivalent to \$250,000 or two percent of "aggregate debit items" arising from customer transactions, whichever is greater, as these terms are defined.

Adjusted net capital and aggregate debit items change from day to day. Under the more restrictive of these rules, the Company had net capital and net capital requirements of \$7,615,937 and \$1,530,173, respectively. The net capital rule may effectively restrict member withdrawals.

10. Contingencies

In the normal course of business, the Company is subject to legal actions that involve claims for monetary relief. The Company's legal counsel has indicated that it cannot evaluate the likelihood of an unfavorable outcome or estimate the amount or range of potential loss therefrom. In the opinion of management, based on the consultation with legal counsel, these actions will not result in any material adverse effect on the financial position of the Company.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL

To the Member of
Terra Nova Trading, L.L.C.

In planning and performing our audit of the statement of financial condition of Terra Nova Trading, L.L.C. (the "Company") as of December 31, 2004, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in the following:

1. Making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and the reserve required by Rule 15c3-3(e)
2. Making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System
4. Obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3

Also, as required by Regulation 1.16 of the Commodity Futures Trading Commission (the "CFTC"), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Regulation 1.16 in making (1) the periodic computations of minimum financial requirements pursuant to Regulation 1.17, (2) the daily computations of the segregation requirements of section 4d(2) of the Commodity Exchange Act and the regulations thereunder, and the segregation of funds based on such computations, and (3) the daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 of the CFTC.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the proceeding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's and the CFTC's 'above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) and Regulation 1.16(d)(2) list additional objectives of the practices and procedures listed in the proceeding paragraphs.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate. Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC and the CFTC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and the Commodity Exchange Act and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2004 to meet the SEC's and the CFTC's objectives.

This report is intended solely for the information and use of management, the SEC and the CFTC and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and/or Regulation 1.16 of the CFTC in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
