## NOTES TO THE STATEMENT OF FINANCIAL CONDITION

JUNE 30, 2005

### **Note 1 - Organization and Nature of Business**

Keane Securities Co., Inc. (the "Company"), was incorporated in New York State on August 27, 1980. The Company is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the National Association of Securities Dealers ("NASD").

The Company operates under the provisions of Paragraph (k) (2) (ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that rule. Essentially, the requirements of Paragraph (k) (2) (ii) provide that the Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer, and promptly transmits all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

### **Note 2 – Summary of Significant Accounting Policies**

*a) Use of Estimates*

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("USGAAP"). The preparation of financial statements in conformity with USGAAP requires management to make estimates and assumptions that affect the reported results and disclosures. Actual results could differ from those estimates and those differences could be material.

*b) Revenue Recognition*

The Company records security transactions on a settlement date basis. The difference between settlement date and trade date is deemed immaterial. Dividend income is recognized on the ex-dividend date and interest income is recognized on an accrual basis.

### Note 2 – Summary of Significant Accounting Policies (Continued)

- c) ***Security Valuation***  
Investments in securities traded on a national securities exchange and the over-the-counter market are stated at their last reported sales price on the day of valuation. Securities for which no such market prices are available, or as to which, in the judgment of the Management, such market prices fail to accurately represent the amount realizable by the Company upon sale or liquidation, are valued at fair value as determined by Management.
- d) ***Investment Banking***  
Investment banking revenues include gains, losses, and fees, net of syndicate expenses, arising from securities offerings in which the Company acts as an underwriter or agent. Investment banking revenues also include fees earned from providing merger-and-acquisition and financial restructuring advisory services. Investment banking management fees are recorded on offering date, and underwriting fees at the time the underwriting is completed and the income is reasonably determinable.
- e) ***Commissions***  
Commissions and related clearing expenses are recorded on a settlement date basis as securities transactions occur.
- f) ***Property and Equipment***  
Property and equipment are carried at cost. Depreciation is provided on a straight-line basis using estimated useful lives of five to seven years. Additions and betterments are capitalized, whereas the costs of repairs and maintenance are charged to expense as incurred.
- g) ***Cash & Cash Equivalents***  
The Company considers demand deposits, money market funds and cash on hand to be cash.

Interest is credited or charged to the account based upon the average daily balance and is compounded monthly. Any amount due to the broker is secured by the pledge of investment securities. As of June 30, 2005, the amount due from the broker was \$196,425.

### Note 5 – Cash Subordination Agreements

Summarized cash subordination agreements with corporate stockholders and officers are as follows:

<u>Debenture Holder</u>	<u>Principal</u>	<u>Due Date</u>

## NOTES TO THE STATEMENT OF FINANCIAL CONDITION

*(Continued)*

JUNE 30, 2005

### **Note 5 – Cash Subordination Agreements (Continued)**

In addition to cash subordination agreements with corporate stockholders and officers, the Company on February 6, 1995 entered into a cash subordination agreement with Henderson Brothers Inc., the Company's then Clearing broker, for \$200,000. During the year ended June 30, 2002, LaBranche Financial Services, Inc. assumed the Henderson Brothers Inc. subordination debenture. The debenture was due February 28, 2005 and paid at that date.

The subordinated borrowings are available in computing net capital under the SEC's uniform net capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

### **Note 6 – Obligation Under Capital Lease**

The Company is obligated under a capital lease for certain computer equipment. The obligation under the capital lease is reflected in the accompanying financial statements at the present value of future minimum lease payments, discounted at an interest rate of approximately 10%. The capitalized cost and accumulated depreciation of this equipment at June 30, 2005 was \$54,401 and \$40,801 respectively.

Future minimum payments under the capital lease are \$16,640 for the year ending June 30, 2006.

### **Note 7 – Income Taxes**

At June 30, 2005, the Company had net operating loss carryforwards of approximately \$700,000 for income tax purposes. Since it is doubtful that such carryforwards will be utilized in the near term, a valuation allowance of approximately \$371,000 has been established to offset the deferred tax asset arising from this carryforward. Therefore, no deferred tax assets have been recorded on the accompanying statement of financial condition.

## NOTES TO THE STATEMENT OF FINANCIAL CONDITION (Continued)

JUNE 30, 2005

### **Note 10 – Uninsured Cash and Cash Equivalents**

The Company maintains cash in bank accounts which, at times, may exceed federally insured limits or where no insurance is provided. The Company has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash and cash equivalents.

### **Note 11 – Financial Instruments with Off-Balance Sheet Credit Risk**

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company's transactions are collateralized and are executed with and on behalf of banks, brokers and dealers and other financial institutions. The Company introduces these transactions for clearance to other broker/dealers on a fully disclosed basis.

The Company's exposure to credit risk associated with nonperformance of customers in fulfilling their obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair customers' ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such nonperformance by its customers.

The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions when necessary.
