INDEPENDENT AUDITORS' REPORT

Board of Directors
Investment Placement Group

We have audited the accompanying statement of financial condition of Investment Placement Group as of September 30, 2005, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Investment Placement Group as of September 30, 2005, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENT

1. Organization and summary of significant accounting policies

Nature of Operations

Investment Placement Group (the Company), a California corporation, provides broker-dealer services primarily to foreign investors. The Company is a registered broker-dealer under the Securities Exchange Act of 1934 and is a member of the National Association of Securities Dealers, Inc. (NASD). The Company clears its securities transactions on a fully disclosed basis with a clearing broker and, accordingly, is exempt from Rule 15c3-3 of the Securities and Exchange Commission under paragraph (k)(2)(ii) of the Rule.

Valuation of Investments in Securities Owned

The Company values investments in securities owned that are listed on a national securities exchange or reported on the NASDAQ national market at their last sales price as of the last business day of the year. Other securities traded in the over-the-counter markets are valued at fair value using their last reported "bid" price if held long, and last reported "asked" price if sold short.

Investment Transactions and Related Investment Income

Investment transactions are accounted for on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recognized on the accrual basis. Realized gains and losses from securities transactions are reported on a first-in, first-out basis. The Company recognizes markup and commission revenues and related expenses on the trade date of investment transactions.

Translation of Foreign Currency

Purchases and sales of investments, income and expenses that are denominated in foreign currencies are translated into United States dollar amounts on the transaction date. Adjustments arising from foreign currency transactions are reflected in the statement of operations.

The Company does not isolate that portion of the results of operations arising from the effect of changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of investments held. Such fluctuations are included in realized and unrealized gains and losses on securities in the statement of operations.

Property and Equipment

Property and equipment are recorded at cost. Depreciation and amortization are provided for using the straight-line method over the estimated useful lives of the assets which range from five to ten years.

Income Taxes

Income taxes are accounted for under Statement of Financial Accounting Standards No. 109, *Accounting for Income Taxes*, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities.
