For the purpose of calculating interest and principal on the Class A Certificates, the Initial Mortgage Loans have been divided into three loan groups, designated as follows:

Group I Mortgage Loans: 1,554 adjustable-rate and fixed-rate Initial Mortgage Loans with an aggregate scheduled principal balance as of the Cut-off Date of approximately $240,234,623.39 and with principal balances at origination that conform to principal balance limits of Fannie Mae.

The Initial Mortgage Loans and the Subsequent Mortgage Loans (collectively, the "Mortgage Loans") will have an aggregate principal balance as of the Cut-off Date of approximately $2,000,000,080. Any amounts remaining in the Pre-Funding Accounts at the end of the Funding Period will be distributed on the next Distribution Date to the holders of the related Class A Certificates.

Credit Enhancement Percentage: The percentage obtained by dividing (x) the aggregate Certificate Principal Balance of each class of Certificates with a lower distribution priority by (y) the aggregate principal balance of the Mortgage Loans and any remaining funds in the Pre-Funding Accounts.

Class	Initial CE%	Target CE% On/After Stepdown Date
A	19.95%	2x Initial CE%

M-2	13.60%	2x Initial CE%
M-3	11.75%	2x Initial CE%
M-4	10.10%	2x Initial CE%
M-5	8.50%	2x Initial CE%
M-6	7.00%	2x Initial CE%
M-7	5.65%	2x Initial CE%
M-8	4.55%	2x Initial CE%
M-9	3.70%	2x Initial CE%
M-10	2.95%	2x Initial CE%
M-11	2.15%	2x Initial CE%
M-12	1.25%	2x Initial CE%

Overcollateralized Amount: For any Distribution Date will be the excess, if any, of (a) the aggregate principal balance of the Mortgage Loans as of the last day of the related Due Period (after giving effect to scheduled payments received or advanced on or before the related Determination Date and principal prepayments received during the related Prepayment Period) and any amounts on deposit in the Pre-Funding Accounts over (b) the aggregate Certificate Principal Balance of the Class A, Class M and Class P Certificates, after giving effect to distributions to be made on such Distribution Date.

Overcollateralization Reduction Amount: For any Distribution Date, the lesser of (A) the principal remittance amount on such Distribution Date and (B) the excess, if any, of (i) the Overcollateralized Amount for such Distribution Date (calculated for this purpose only after assuming that 100% of the principal remittance amount on such Distribution Date has been distributed) over (ii) the Overcollateralization Target Amount for such Distribution Date.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security or other financial instrument or to participate in any trading strategy. This is not a research report and was not prepared by the Morgan Stanley research department. It was prepared by Morgan Stanley sales, trading or other non-research personnel. Past performance is not necessarily a guide to future performance. Please see additional important information and qualifications at the end of this material.

Net Monthly Excess Cashflow: For any Distribution Date, the excess of the Available Funds, net of any Net Swap Payment made by the Trustee and the Swap Termination Payment, if any, made by the Trustee, over the sum of (i) the monthly interest accrued and any unpaid interest on the Class A Certificates and the monthly interest accrued on the Class M Certificates and (ii) the principal remittance amount.

Allocation of Losses: Any Realized Losses on the Mortgage Loans on any Distribution Date will first be absorbed by the Class CE Certificates. If on any Distribution Date as a result of Realized Losses on the Mortgage Loans, the aggregate certificate principal balance of the Class A and Class M Certificates exceeds the aggregate principal balance of the Mortgage Loans as of the last day of the related Due Period plus any amounts on deposit in the Pre-Funding Accounts, such excess (the "Realized Loss Amount") will be allocated in the following order: Class M-12, Class M-11, Class M-10, Class M-9, Class M-8, Class M-7, Class M-6, Class M-5, Class M-4, Class M-3, Class M-2 and Class M-1 Certificates. There will be no allocation of Realized Losses on the Mortgage Loans to the Class A and the Class P Certificates. Investors in the Class A Certificates should note, however, that although Realized Losses cannot be allocated to such Certificates, under certain loss scenarios there may not be enough principal and interest on the Mortgage Loans to distribute to the holders of such Certificates all principal and interest amounts to which they are then entitled. Once Realized Losses are allocated to the Class M Certificates, such amounts with respect to such Certificates will no longer accrue interest. However, the amount of any Realized Losses allocated to the Class M Certificates may be distributed to the holders of those certificates from Net Monthly Excess Cashflow (including certain amounts received by the Swap Administrator from the Swap Agreement, if any), sequentially, as described in the Pooling and Servicing Agreement.

Net WAC Rate Cap: Group I, Group II or Group III Certificates: The per annum rate (subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to a fraction, expressed as a percentage, the numerator of which is the sum of (i) the amount of interest which accrued on the Mortgage Loans in the related loan group in the prior calendar month minus the Trustee Fee and the Servicing Fee payable with respect to the related Mortgage Loans for such Distribution Date and the Group I Allocation Percentage, Group II Allocation Percentage or Group III Allocation Percentage of any Net Swap Payment made to the Swap Provider for such Distribution Date and (ii) any amount withdrawn from the related Interest Coverage Account, if any, for such Distribution Date and the denominator of which is the sum of (i) the aggregate principal balance of the Mortgage Loans in the related loan group as of the last day of the immediately preceding Due Period (or as of the Cut-off Date with respect to the first Distribution Date), after giving effect to principal prepayments received during the related Prepayment Period and (ii) any amount on deposit in the related Pre-Funding Account.

Class M Certificates: The per annum rate (subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to (x) the weighted average (weighted in proportion to the results of subtracting from the aggregate principal balance of each loan group, the current principal balance of the related Class A Certificates), of (i) the Net WAC Rate Cap for the Group I Certificates, (ii) the Net WAC Rate Cap for the Group II Certificates and (iii) the Net WAC Rate Cap for the Group III Certificates.

Group I Allocation Percentage: The aggregate principal balance of the Group I Mortgage Loans and any amounts remaining on deposit in the Group I Pre-Funding Account divided by the sum of the aggregate principal balance of the Group I Mortgage Loans, the Group II Mortgage Loans and the Group III Mortgage Loans and any amounts on deposit in the Pre-Funding Accounts.

Group II Allocation Percentage: The aggregate principal balance of the Group II Mortgage Loans and any amounts remaining on deposit in the Group II Pre-Funding Account divided by the sum of the aggregate principal balance of the Group I Mortgage Loans, Group II Mortgage Loans and the Group III Mortgage Loans and any amounts on deposit in the Pre-Funding Accounts.

Group III Allocation Percentage: The aggregate principal balance of the Group III Mortgage Loans and any amounts remaining on deposit in the Group III Pre-Funding Account divided by the sum of the aggregate principal balance of the Group I Mortgage Loans, Group II Mortgage Loans and the Group III Mortgage Loans and any amounts on deposit in the Pre-Funding Accounts.

Pass-Through Rate: For any Distribution Date, the lesser of (x) the related Formula Rate for such Distribution Date and (y) the related Net WAC Rate Cap for such Distribution Date.

Formula Rate: For any Distribution Date and any class of Certificates, the lesser of (i) LIBOR plus the applicable certificate margin and (ii) the related Maximum Cap Rate.

This material has been prepared for information purposes only and is not a solicitation of any offer to buy or sell any security or other financial instrument or to participate in any trading strategy. This is not a research report and was not prepared by the Morgan Stanley research department. It was prepared by Morgan Stanley sales, trading or other non-research personnel. Past performance is not necessarily a guide to future performance. Please see additional important information and qualifications at the end of this material.

Maximum Cap Rate:

Group I, Group II or Group III Certificates: The per annum rate (subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to the sum of (x) the weighted average of the Expense Adjusted Net Maximum Mortgage Rates of the Mortgage Loans in the related loan group and (y) the Net Swap Payment made to the Swap Provider, if any, expressed as a percentage of the balance of the Mortgage Loans plus any amounts on deposit in the Pre-Funding Accounts (the "Net Swap Payment Rate")).

Class M Certificates: The per annum rate (subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period) equal to (x) the weighted average (weighted in proportion to the results of subtracting from the aggregate principal balance of each loan group, the current principal balance of the related Class A Certificates), of (i) the Maximum Cap Rate for the Group I Certificates, (ii) the Maximum Cap Rate for the Group II Certificates and (iii) the Maximum Cap Rate for the Group III Certificates.

Coupon Step-up:

If the right to terminate the Trust is not exercised on the Optional Termination Date, the certificate margins on any then outstanding Certificates will increase according to the following:

Class	After Optional Termination
Class A Certificates	2 x Applicable Margin
Class M Certificates	1.5 x Applicable Margin

Net WAC Rate Carryover Amount:

For any Distribution Date, (i) the excess of (a) the amount of interest such class would have accrued for such Distribution Date had the applicable Pass-Through Rate not been subject to the Net WAC Rate Cap, over (b) the amount of interest such class of Certificates accrued for such Distribution Date based on the Net WAC Rate Cap, together with the unpaid portion of any such amounts from the prior Distribution Date and (ii) accrued interest thereon at the then applicable Pass-Through Rate, without giving effect to the Net WAC Rate Cap. The Net WAC Rate Carryover Amount will be distributed from certain amounts received by the Swap Administrator from the Swap Agreement, if any, on a senior basis and from the Net Monthly Excess Cashflow on a subordinated basis on the same Distribution Date or in any subsequent period. The ratings on each class of Certificates do not address the likelihood of the payment of any Net WAC Rate Carryover Amount.

Swap Agreement:

On the Closing Date, the Trustee will enter into a Swap Agreement with an initial notional amount of $2,000,000,000. Under the Swap Agreement, the Trust will be obligated to pay an amount equal to [4.10]% per annum on the notional amount as set forth in the Swap Agreement to the Swap Provider and the Trust will be entitled to receive an amount equal to one-month LIBOR on the notional amount as set forth in the Swap Agreement from the Swap Provider, until the Swap Agreement is terminated. Only the net amount of the two obligations will be paid by the appropriate party ("Net Swap Payment"). See the attached schedule.

Generally, the Net Swap Payment will be deposited into a swap account (the "Swap Account") by the Swap Administrator pursuant to the Pooling and Servicing Agreement and a swap administration agreement and amounts on deposit in the Swap Account will be distributed in accordance with the terms set forth in the Pooling and Servicing Agreement.

Upon early termination of the Swap Agreement, the Trust or the Swap Provider may be liable to make a termination payment (the "Swap Termination Payment") to the other party (regardless of which party caused the termination). The Swap Termination Payment will be computed in accordance with the procedures set forth in the Swap Agreement. **In the event that the Trust is required to make a Swap Termination Payment, in certain instances, that payment will be paid on the related Distribution Date, and on any subsequent Distribution Dates until paid in full, prior to distributions to Certificateholders.**

Interest Carry Forward Amount:

For each class of Class A and Class M Certificates, on any Distribution Date, the sum of (i) the excess of (a) the accrued certificate interest for such class with respect to the prior Distribution Date (excluding any Net WAC Rate Carryover Amount with respect to such class), plus any unpaid Interest Carry Forward Amount from the prior Distribution Date, over (b) the amount actually distributed to such class with respect to interest on such prior Distribution Date and (ii) interest on such excess at the Pass-Through Rate for such class.

Available Funds:

For any Distribution Date, the sum, net of amounts reimbursable to the Master Servicer or the Trustee, of: (i) the aggregate amount of scheduled monthly payments on the Mortgage Loans due during the related Due Period and received on or prior to the related Determination Date; (ii) unscheduled payments in respect of the Mortgage Loans (including prepayments, insurance proceeds, liquidation proceeds, subsequent recoveries and proceeds from repurchases of and substitutions for the Mortgage Loans occurring during the related Prepayment Period or proceeds from the repurchase of the Mortgage Loans due to the Optional Termination of the Trust); (iii) all Master Servicer Advances with respect to the Mortgage Loans received for such Distribution Date; (iv) all compensating interest paid by the Master Servicer in respect of prepayment interest shortfalls for the related period and (v) with respect to the Distribution Date immediately following the end of the Funding Period, any amounts remaining in the Pre-Funding Accounts after giving effect to any purchase of Subsequent Mortgage Loans.

Class A Principal Distribution Amount:

Prior to the Stepdown Date, or if a Trigger Event is in effect, each of the Class A Certificates will receive the principal collected on the related Mortgage Loans plus any Net Monthly Excess Cashflow required to maintain the Overcollateralization Target Amount until the aggregate Certificate Principal Balance of the Class A Certificates has been reduced to zero. On or after the Stepdown Date, if no Trigger Event is in effect, principal distributed on the Class A Certificates will be an amount such that each of the Class A Certificates will maintain 2x the Class A Initial Credit Enhancement Percentage as set forth in the Credit Enhancement Percentage table included herein.

Principal distributions on the Group I Certificates will be allocated *pro rata,* with the exception that if a Sequential Trigger Event is in effect, principal distributions will be allocated sequentially, to the Class A-1A and Class A-1B Certificates, in that order, until the certificate principal balances thereof have been reduced to zero.

Principal distributions on the Group II Certificates will be allocated *pro rata,* with the exception that if a Sequential Trigger Event is in effect, principal distributions will be allocated sequentially, to the Class A-2A and Class A-2B Certificates, in that order, until the certificate principal balances thereof have been reduced to zero.

Principal distributions on the Group III Certificates will be allocated sequentially, to the Class A-3A, Class A-3B, Class A-3C and Class A-3D Certificates, in that order, until the certificate principal balances thereof have been reduced to zero.

Notwithstanding the foregoing, if the aggregate Certificate Principal Balance of the Group I, Group II or Group III Certificates is reduced to zero, then the amount of principal distributions from the related loan group on subsequent Distribution Dates will be distributed to the group(s) of Class A Certificates remaining outstanding, to the extent necessary to provide all required principal distributions to such Certificates.

Sequential Trigger Event:

A Sequential Trigger Event is in effect on any Distribution Date if, before the 37th Distribution Date, the aggregate amount of Realized Losses incurred since the Cut-off Date through the last day of the related Due Period (reduced by subsequent recoveries received through the last day of such Due Period) divided by the sum of (i) the aggregate principal balance of the Initial Mortgage Loans as of the Cut-off Date and (ii) the original pre-funded amounts, exceeds [2.90]%, or if, on or after the 37th Distribution Date, a Trigger Event is in effect.

Class M Principal Distribution Amount:

The Class M Certificates will not receive any principal payments prior to the Stepdown Date. On or after the Stepdown Date (if no Trigger Event is in effect), principal will be distributed on the Class M Certificates in the following order: to the Class M-1 Certificates until it reaches 2x the Class M-1 Initial Credit Enhancement Percentage, then to the Class M-2 Certificates until it reaches 2x the Class M-2 Initial Credit Enhancement Percentage, then to the Class M-3 Certificates until it reaches 2x the Class M-3 Initial Credit Enhancement Percentage, then to the Class M-4 Certificates until it reaches 2x the Class M-4 Initial Credit Enhancement Percentage, then to the Class M-5 Certificates until it reaches 2x the Class M-5 Initial Credit Enhancement Percentage, then to the Class M-6 Certificates until it reaches 2x the Class M-6 Initial Credit Enhancement Percentage, then to the Class M-7 Certificates until it reaches 2x the Class M-7 Initial Credit Enhancement Percentage, then to the Class M-8 Certificates until it reaches 2x the Class M-8 Initial Credit Enhancement Percentage, then to the Class M-9 Certificates until it reaches 2x the Class M-9 Initial Credit Enhancement Percentage, then to the Class M-10 Certificates until it reaches 2x the Class M-10 Initial Credit Enhancement Percentage, then to the Class M-11 Certificates until it reaches 2x the Class M-11 Initial Credit Enhancement Percentage and then to the Class M-12 Certificates until it reaches 2x the Class M-12 Initial Credit Enhancement Percentage; in each case, as set forth in the Credit Enhancement Percentage table included herein.

If a Trigger Event is in effect, principal distributions will be made sequentially first to the Class A Certificates and then to the Class M Certificates in their order of seniority until the Certificate Principal Balance of each such class is reduced to zero.

Trigger Event:

If either the Delinquency Trigger Event or Cumulative Loss Test is violated.

Delinquency Trigger Event:

The percentage obtained by dividing (x) the aggregate Stated Principal Balance of (i) Mortgage Loans Delinquent 60 days or more, (ii) REO Properties and (iii) Mortgage Loans in foreclosure and in bankruptcy by (y) the aggregate Stated Principal Balance of the Mortgage Loans, in each case, calculated prior to taking into account payments of principal on the Mortgage Loans due on the related Due Date or received during the related Prepayment Period, exceeds a percentage (as specified in the Pooling and Servicing Agreement) of the Credit Enhancement Percentage for the most senior class of certificates then outstanding. In the case of the Class A Certificates, the percentage will be [42.00]%.

Cumulative Loss Test:

The aggregate amount of Realized Losses incurred since the Cut-off Date through the last day of the related Due Period (reduced by the aggregate amount of subsequent recoveries received from the Cut-off Date through the last day of the related due period) divided by the sum of (i) the aggregate principal balance of the Initial Mortgage Loans as of the Cut-off Date and (ii) the original pre-funded amounts, exceeds the approximate applicable percentages set forth below with respect to such Distribution Date:

Distribution Date Occurring In	Percentage
June 2007 through May 2008	1.30%
June 2008 through May 2009	2.90%
June 2009 through May 2010	4.60%
June 2010 through May 2011	5.90%
June 2011 and thereafter	6.70%
