Transaction Overview

Collateral:

The Mortgage Loans will consist of approximately 1,668 adjustable-rate and fixed-rate, first and second lien, closed-end, mortgage loans. The aggregate outstanding principal balance of all of the Mortgage Loans is approximately \$165,618,319. A majority of the Mortgage Loans are loans that either have document deficiencies or fall outside of the originators' underwriting guidelines based on a variety of factors. The mortgage pool also contains Mortgage Loans which have defaulted in the past and are now re-performing either pursuant to the terms of the original note or under the provisions of a bankruptcy plan. For those Mortgage Loans which are re-performing, the borrower's "Legal Balance" is equal to the outstanding principal balance of the related Mortgage Loan as of the Cut-off Date plus any Arrearage. The "Arrearage" with respect to each re-performing Mortgage Loan is equal to the interest portion of the payments due on such Mortgage Loan but not received as of the Cut-off Date. Approximately 8.55% of the Mortgage Loans are Daily Simple Interest Loans.

NOTE: The information related to the Mortgage Loans described herein reflects information as of April 30, 2005. It is expected that on or prior to the Closing Date, scheduled and unscheduled principal payments will reduce the principal balance of the Mortgage Loans and may cause a decrease in the aggregate principal balance of the Mortgage Loans, as reflected herein, of up to 10%. **Consequently, the initial principal balance of any of the Offered Certificates by the Closing Date is subject to a decrease of up to 10% from amounts shown on the front cover hereof.**

Daily Simple Interest Loans:

The Daily Simple Interest Loans provide for substantially equal monthly payments that are allocated to principal and interest according to the daily simple interest method. Each monthly payment consists of an installment of interest which is calculated according to the simple interest method on the basis of the outstanding principal balance of the mortgage loan multiplied by the stated note rate and further multiplied by a fraction, the numerator of which is the number of days in the period elapsed since the last day interest was paid and the denominator of which is 365 days, as opposed to the customary method, on which 30 days of interest is owed each month irrespective of the day on which the payment is received. As payments are received, the amount received is applied first to interest accrued to the date of payment and the balance is applied to reduce the unpaid principal balance. Accordingly, if a mortgagor pays a fixed monthly installment before its scheduled due date, the portion of the payment allocable to interest for the period since the preceding payment was made will be less than it would have been had the payment been made on the scheduled due date, and the portion of the payment applied to reduce the unpaid principal balance will be correspondingly greater. However, if the next succeeding payment is made on the scheduled due date, a greater amount will be allocated to interest than would be the case if the previous payment had also been received on the scheduled due date. Conversely, if a mortgagor pays a fixed monthly installment after its scheduled due date, the portion of the payment allocable to interest for the period since the preceding payment was made will be greater than it would have been had the payment been made on the scheduled due date, and the remaining portion, if any, of the payment applied to reduce the unpaid principal balance will be correspondingly less. If each scheduled payment is made on or prior to its scheduled due date, the principal balance of the mortgage loan will amortize in the manner described above. However, if the mortgagor consistently makes scheduled payments after the scheduled due date the mortgage loan will amortize more slowly than scheduled. Any remaining unpaid principal is payable on the final maturity date of the mortgage loan.

Transaction Overview

Interest Accrual Period:	Interest on the Certificates will initially accrue on all Certificates from the Closing Date to (but excluding) the first Distribution Date, and thereafter, from the prior Distribution Date to (but excluding) the current Distribution Date on an actual/360 basis. The Certificates will initially settle flat (no accrued interest).
Interest Distribution Amount:	For the Certificates of any class on any Distribution Date is equal to interest accrued during the related Interest Accrual Period on the Certificate Principal Balance of that class immediately prior to such Distribution Date at the then applicable pass-through rate for such class, and reduced (to not less than zero), in the case of each such class, by the allocable share, if any, for such class of prepayment interest shortfalls to the extent not covered by Compensating Interest paid by the Master Servicer or the Servicers and shortfalls resulting from the application of the Servicemembers' Civil Relief Act or similar state or local laws.
Interest Carry Forward Amount:	The Interest Carry Forward Amount with respect to any class of Offered Certificates and any Distribution Date is equal to the amount, if any, by which the Interest Distribution Amount for that class of certificates for the immediately preceding Distribution Date exceeded the actual amount distributed on such class of Offered Certificates in respect of interest on the immediately preceding Distribution Date, together with any Interest Carry Forward Amount with respect to such class of Offered Certificates remaining unpaid from the previous Distribution Date, plus interest accrued thereon at the related pass-through rate for the most recently ended Interest Accrual Period, to the extent permitted by applicable law.
Senior Interest Distribution Amount:	For the Class A Certificates on any Distribution Date is an amount equal to the sum of the Interest Distribution Amount for such Distribution Date for the Class A-1 Certificates and the Interest Carry Forward Amount, if any, for such Distribution Date for the Class A-1 Certificates.
Administration Fee Rate:	The Master Servicer, Servicers and Credit Risk Manager will be paid monthly fees on the outstanding principal balance of the Mortgage Loans. These fees ("Administration Fee Rate") initially aggregate to a weighted average cost of approximately 0.605% for the Mortgage Loans.
Compensating Interest:	Ocwen, Wells Fargo and Wamu will be required to cover Prepayment Interest Shortfalls with respect to prepayments in full on the related Mortgage Loans up to (i) with respect to Ocwen, the Servicing Fee payable to Ocwen (ii) with respect to Wells Fargo, the Servicing Fee payable to Wells Fargo and (iii) with respect to Wamu, the lesser of (x) the sum of (a) the aggregate Servicing Fee received by Wamu with respect to the related Mortgage Loans, (b) for prepayments in full received during the related Prepayment Period, the aggregate investment earnings realized by Wamu (net of investment losses) from investment of each such prepayment in full from the date of receipt of such prepayment in full until the business day immediately preceding the related servicer remittance date, and (c) for prepayments in full received on or after the first day and before the sixteenth day of the calendar month of such servicer remittance date, the amount of interest accrued thereon at the Expense Adjusted Mortgage Rate (as defined below) and (y) the Servicing Fee payable to Wamu. SPS will be required to cover Prepayment Interest Shortfalls with respect to prepayments in full on the related Mortgage Loans up to one half of the Servicing Fee payable to SPS.
Prepayment interest Shortfalls:	Interest shortfalls attributable to voluntary principal prepayments on the Mortgage Loans.
Expense Adjusted Mortgage Rate:	For any Mortgage Loan for any Distribution Date shall be a per annum rate equal to the applicable Mortgage Rate for such Mortgage Loan as of the first day of the month preceding the month in which such Distribution Date occurs minus the Administration Fee Rate.

Transaction Overview (Cont.)

Optional Termination:	On any Distribution Date on which the aggregate outstanding principal balance of the Mortgage Loans (and the fair market value of all properties acquired by the trust in respect of the Mortgage Loans) as of the related Determination Date is less than or equal to 10% of the aggregate outstanding principal balance of the Mortgage Loans as of the Cut-off Date, the Master Servicer may repurchase the Mortgage Loans (and all properties acquired by the trust in respect of the Mortgage Loans) remaining in the trust, causing an early retirement of the Certificates, but is not required to do so. If the Master Servicer elects to repurchase the Mortgage Loans, the outstanding Certificate Principal Balance of each class of certificates will be paid in full, together with accrued interest.
Monthly Servicer Advances:	Each Servicer will collect monthly payments of principal and interest on the Mortgage Loans serviced by such Servicer and will be obligated to make advances of delinquent monthly principal and interest payments. Each Servicer is required to advance delinquent payments of principal and interest on the Mortgage Loans serviced by such Servicer only to the extent such amounts are deemed recoverable. If a Servicer fails to make any such advance, the Master Servicer will be required to do so subject to its determination of recoverability. The Servicers and the Master Servicer are entitled to be reimbursed for these advances, and therefore these advances are not a form of credit enhancement
Credit Enhancement:	<ol style="list-style-type: none">1) Arrearage (if any)2) Excess Interest3) Overcollateralization ("OC")4) Subordination
Allocation of Realized Losses:	<p>Any Realized Losses on the Mortgage Loans will be allocated on any Distribution Date, first, for those Mortgage Loans with Arrearages, to the amount of such Mortgage Loan's Arrearage, second, to Net Monthly Excess Cashflow, third, to the Class CE Certificates, fourth, to the Class M-4 Certificates, fifth, to the Class M-3 Certificates, sixth, to the Class M-2 Certificates, and seventh, to the Class M-1 Certificates. There will be no allocation of Realized Losses to the Class A Certificates. Investors in the Class A Certificates should note, however, that although Realized Losses cannot be allocated to such Certificates, under certain loss scenarios there may not be enough principal and interest on the Mortgage Loans to distribute to the holders of the Class A Certificates all principal and interest amounts to which they are then entitled.</p> <p>Once Realized Losses have been allocated to the Mezzanine Certificates the principal amount of the reduction in the Certificate Principal Balance of such certificates will no longer accrue interest and will not be reinstated thereafter. However, allocated Realized Losses may be paid to the holders of the Mezzanine Certificates from Net Monthly Excess Cashflow to the extent available.</p>
Required Overcollateralization Amount:	Overcollateralization refers to the amount by which the aggregate principal balance of the Mortgage Loans exceeds the Certificate Principal Balance of the Certificates. This excess (the "Overcollateralization Amount") is intended to protect the certificateholders against shortfalls in payments on the Certificates. The Overcollateralization Amount for the Certificates will initially be 4.85% and is anticipated to build to approximately 7.30% of the aggregate principal balance of the Mortgage Loans as of the Cut-off Date (the "Required Overcollateralization Amount"). On or after the Stepdown Date and provided that a trigger event is not in effect, the Required Overcollateralization Amount may be permitted to decrease to approximately 14.60% of the ending aggregate principal balance of the Mortgage Loans as of such Due Period, subject to a floor amount of approximately 0.50% of the aggregate outstanding principal balance of the Mortgage Loans as of the Cut-off Date. If, due to losses, the Overcollateralization Amount is reduced below the Required Overcollateralization Amount, excess spread, if any is available will be paid to the Certificates then entitled to receive distributions in respect of principal in order to reduce the Certificate Principal Balance of such Certificates to the extent necessary to reach the Required Overcollateralization Amount.

Net Monthly Excess Cashflow: For any Distribution Date is equal to the sum of (i) any Overcollateralization Reduction Amount, (ii) all amounts collected as Arrearage payments and (iii) the excess of the Available Distribution Amount over the sum of (x) with respect to the Class A Certificates, the Senior Interest Distribution Amount for such Distribution Date, (y) with respect to the Mezzanine Certificates, the aggregate Interest Distribution Amount for such Distribution Date and (z) the amount of principal required to be distributed to the holders of the Certificates on such Distribution Date.

Net WAC Pass-Through Rate: Offered Certificates: The per annum rate equal to the weighted average of the Expense Adjusted Mortgage Rates of Mortgage Loans subject to adjustment based on the actual number of days elapsed in the related Interest Accrual Period.

Transaction Overview (Cont.)

Net WAC Rate Carryover Amount:	If on any Distribution Date the Pass-Through Rate for any class of the Series 2005-SD2 Certificates is limited by the Net WAC Pass-Through Rate, such class will be entitled to the "Net WAC Rate Carryover Amount" which will be equal to the sum of (i) the excess of (a) the amount of interest that would have accrued on such class based on one month LIBOR plus the related margin over (b) the amount of interest accrued on such class based on the Net WAC Pass-Through Rate and (ii) the unpaid portion of any related Net WAC Rate Carryover Amount from the prior Distribution Date together with accrued interest on such unpaid portion of one month LIBOR plus the related margin for the most recently ended Interest Accrual Period. Any Net WAC Rate Carryover Amount will be paid on such Distribution Date or future Distribution Dates to the extent of funds available.
Cap Agreement:	On the Closing Date, the Trustee will enter into a "Cap Agreement" to make payments in respect of any Net WAC Rate Carryover Amounts. The Cap Agreement requires a cap payment in an amount equal to the product of: (1) the excess, if any, of one-month LIBOR over 8.25% for the related Distribution Date, (2) the related scheduled notional amount, which will be the lesser of the expected amortization of the Mortgage Loans and the aggregate Certificate Principal Balance of the Class A, Mezzanine and Class CE Certificates and (3) a fraction, the numerator of which is the actual number of days elapsed from the previous Distribution Date to but excluding the current Distribution Date (or, for the first Distribution Date, the actual number of days elapsed from the Closing Date to but excluding the first Distribution Date), and the denominator of which is 360. If, on any Distribution Date, the cap payments made by the Cap Provider with respect to the certificates exceed the amount of the Net WAC Rate Carryover Amounts payable to any such class for such Distribution Date, such excess will be distributed to the Class CE Certificates.
Available Distribution Amount:	For any Distribution Date, net of the administrative fees, an amount equal to (i) the aggregate amount of scheduled monthly payments on the Mortgage Loans due on the related Due Date and received on or prior to the related Determination Date; (ii) unscheduled payments in respect of the Mortgage Loans (including prepayments, insurance proceeds, liquidation proceeds and proceeds from repurchases of and substitutions for the Mortgage Loans occurring during the Prepayment Period); (iii) all P&I Advances with respect to the Mortgage Loans received for the Distribution Date; (iv) all Compensating Interest paid by the Servicers or the Master Servicer in respect of Prepayment Interest Shortfalls for the related Due Period; and (v) payments received on the Cap Agreement, if any, to pay the Net WAC Rate Carryover Amount on the Class A Certificates and the Mezzanine Certificates.
Class A Principal Distribution Amount:	Until the Stepdown Date, or if a Trigger Event occurs, the Class A Certificates will receive the principal collected on the Mortgage Loans plus any excess interest required to maintain the Required Overcollateralization Amount until the aggregate Certificate Principal Balance of the Class A Certificates has been reduced to zero. On or after the Stepdown Date, if no Trigger Event occurs, principal paid on the Class A Certificates will be an amount such that the Class A Certificates will maintain approximately a 64.50% Credit Enhancement Percentage (2x the Class A Target Credit Enhancement Percentage).
Class M Principal Distribution Amount:	<p>The Mezzanine Certificates will not receive any principal payments until the Stepdown Date. On or after the Stepdown Date (if no Trigger Event occurs), principal will be paid to the Mezzanine Certificates, first to the Class M-1 Certificates until it reaches approximately a 41.70% Credit Enhancement Percentage (2x the Class M-1 Target Credit Enhancement Percentage), second to the Class M-2 Certificates until it reaches approximately a 28.50% Credit Enhancement Percentage (2x the Class M-2 Target Credit Enhancement Percentage), third to the Class M-3 Certificates until it reaches approximately a 17.60% Credit Enhancement Percentage (2x the Class M-3 Target Credit Enhancement Percentage), and fourth to the Class M-4 Certificates until it reaches approximately an 14.60% Credit Enhancement Percentage (2x the Class M-4 Target Credit Enhancement Percentage).</p> <p>If a Trigger Event occurs, principal payments will be paid first to the Class A Certificates in the manner described under "Class A Principal Distribution Amount" and then sequentially to the Mezzanine Certificates in their order of seniority, in each case until the Certificate Principal Balance of each such class has been reduced to zero.</p>

If a BPO was not available, then an AVM was used. For purposes of calculating updated CLTV's, a BPO was used for 99.94% of the Fixed Rate Mortgage Loans by balance and an AVM was used for 0.06% of the Fixed Rate Mortgage Loans by balance.

1. Current Updated CLTV's are calculated by taking the UPB date plus the senior balance, in the case of second liens, divided by the BPO value, if available. If a BPO was not available, then an AVM was used. For purposes of calculating updated CLTV's, a BPO was used for 100.00% of the Adjustable Rate Mortgage Loans by balance and an AVM was used for 0.00% of the Adjustable Rate Mortgage Loans by balance.

2. The Weighted Average Initial Periodic Cap was calculated by taking the Initial Periodic Cap for those loans that have not yet reset and the Subsequent Periodic Cap for those loans that have already reset.
