Contributions

Each year, participants may contribute up to 19 percent of their annual compensation as a pre-tax contribution, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The plan currently offers 31 mutual funds and 1 Company stock fund as investment options for participants. The Company contributes 25 percent of the first 2 percent of base compensation that a participant contributes to the Plan. The matching Company contribution is invested in various investment options, as directed by the participants. Contributions are subject to limitations established in the Internal Revenue Code (IRC) Section 415 (c). Additionally, the Tax Reform Act of 1986 limits annual amounts deferred by participants under all deferral arrangements to \$13,000 for taxable year 2004.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) any applicable fund earnings or losses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately and fully vested in their pre-tax and after-tax contributions, including earnings thereon.

Effective January 1, 2002, the Company's matching contributions became vested as follows:

Years of Service

Fewer than 3	0%
3 or more	100%

In addition, the Plan provides for full vesting of the Company's contributions, including earnings thereon, upon retirement, death or permanent and total disability. Normal retirement age is 65.

If a participant who is not fully vested terminates employment and returns to service after a break of five years or more, the value of the Company's contributions credited to the participant's account prior to termination of employment is permanently forfeited. If a participant terminates employment but returns to service after a break in service of less than five years, the current value of the Company's contributions credited to the participant's account prior to termination of service is credited to the participant's account upon the participant's return to service.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.00 percent to 10.57 percent, which are commensurate with the prime rate as announced the last business day of each calendar quarter. Principal and interest are paid ratably through at least monthly payroll deductions.

Payment of Benefits

If a participant's account balance exceeds \$5,000 upon termination due to retirement, death or disability, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, a partial payment (up to four per year), or quarterly installments over a period not to exceed the life expectancy of the participant and his beneficiary. If upon termination, a participant's account balance does not exceed \$5,000, it will be distributed in the form of a single lump sum distribution. A lump-sum withdrawal may also be made upon attainment of age 59-1/2 or in the event of hardship. Withdrawal requests for financial hardship must be approved by the administrative committee and are limited to the amount of a participant's fully vested account balance.

Forfeited Accounts

As of December 31, 2004 and 2003, the Plan had amounts totaling \$590 and \$7,310, respectively, representing forfeited, nonvested amounts resulting from employee terminations. These amounts were allocated back into the Plan subsequent to employee termination, and will be used to restore accounts of rehired former participants, pay Plan fees and expenses, and to reduce future matching contributions.

Fees and Expenses

The Plan provides that the Company will pay administrative costs and expenses of the Plan, including trustee and management fees. Such costs not paid by the Company are paid from the Plan's assets. Fees for participant loans are paid by the respective participants.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding principal balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Vanguard Fiduciary Trust Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan amounted to \$10,319 for the year ended December 31, 2004.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated August 14, 2002 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The restated Plan also provided for full vesting of the Company's matching contributions made after October 31, 2002 upon the completion of three or more years of service.

Effective January 1, 2000, Amendment No.1 revised the eligibility date from the month following an initial 12-month eligibility period to the first day of the payroll period following the initial 12-month eligibility period.

Report of Independent Registered Public Accounting Firm

Participants and Plan Administrator
Longview Fibre Company Hourly Employees 401(k) Savings Plan

We have audited the accompanying statements of net assets available for benefits of the Longview Fibre Company Hourly Employees 401(k) Savings Plan (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan Administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Longview Fibre Company Hourly Employees 401(k) Savings Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets Held at End of Year is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
