Re: Form 19b-4(e) Filing for a New Derivative Securities Product:
 Options on the Certain CBOE Narrow-Based Indexes

Dear Ms. Jackson:

Please find enclosed an original and Nine (9) copies of Form 19b-4(e) for each of the following listed narrow-based indexes, on which the Chicago Board Options Exchange intends to list options:

- CBOE PowerPacksSM Bank Index
- CBOE PowerPacksSM Biotechnology Index
- CBOE PowerPacksSM Gold Index
- CBOE PowerPacksSM Internet Index
- CBOE PowerPacksSM Iron & Steel Index
- CBOE PowerPacksSM Oil Index
- CBOE PowerPacksSM Oil Services Index
- CBOE PowerPacksSM Pharmaceuticals Index
- CBOE PowerPacksSM Retail Index
- CBOE PowerPacksSM Semiconductor Index
- CBOE PowerPacksSM Technology Index
- CBOE PowerPacksSM Telecom Index

CBOE is submitting along with this letter, a Form 19b-4(e) in accordance with Rule 19b-4(e) of the Securities Exchange Act of 1934, as amended ("Act"), for each of the above indexes. As you know, pursuant to Rule 19b-4(e) of the Act, the listing and trading of a new derivatives security product by a self-regulatory organization shall not be deemed a proposed rule change if the Commission has approved, pursuant to section 19(b) of the Act, trading rules, procedures, and listing standards for the product class that would include the new derivative security product. Instead, an Exchange merely needs to submit SEC Form 19b-4(e) to the Commission within Five (5) business days after commencement of trading of the new derivative securities product.¹

¹ Securities Exchange Act Release No. 34-43108 (December 22, 1998) ("Release") provides that, when submitting a Form 19b-4(e) for the purposes of listing a new derivative security product, an Exchange "need not submit a rule filing pursuant to section 19(b) of the Act and Rule 19b-4 thereunder merely

CBOE believes that each of these indexes satisfy the generic listing standards for narrow-based indexes under CBOE Rule 24.2(b), as previously approved by the Commission.

Also enclosed is an exhibit that illustrates the clerical amendments that must be made to certain sections of CBOE Chapter 24 (*Index Options*) to reflect the addition of these indexes as separate index option classes. Specifically, each separate index must be added to Interpretation and Policy .01 to Rule 24.1 to designate each index's reporting authority; to Rule 24.6 to reflect the applicable trading days and hours for options on each index; to Rule 24.9(a)(3) and (a)(4) to establish that options on each index will be "European-Style" exercised and will be "A.M.-settled;" to Rule 24.9(b) to reflect that each index is eligible for both LEAP and Reduced-LEAP options; and to Interpretation and Policy .01 to Rule 24.9 to reflect that series of options on each index will trade in \$2.50 strike price intervals. None of these changes are substantive. (See attached Exhibit A).

Finally, as Rule 24A.4(b) provides that the Exchange may approve and open for trading any FLEX options series on any index that has been approved for non-FLEX options trading on the Exchange, CBOE may in the future list FLEX options on these indexes. Accordingly, any FLEX options on these indexes will be subject to the position and exercise limits currently provided under Rule 24.4A.

If you have any questions or should you require additional information, please feel free to contact me directly at (312) 786-7070.
