**Yield Maintenance Agreement:** The issuer will benefit from a series of interest rate cap payments from the Yield Maintenance Provider pursuant to yield maintenance agreements purchased with respect to the hybrid ARM mortgage loans. The Yield Maintenance Agreement is intended to partially mitigate the interest rate risk that could result from the difference between the Formula Rate on the Certificates and the Net WAC Cap Rate (the "Yield Maintenance Agreement").

On each Distribution Date, payments under the Yield Maintenance Agreements will be an amount equal to the product of (i) the excess of one-month LIBOR for such Distribution Date over the strike rate, (ii) the lesser of (a) the Certificate Principal Balance of the respective class for such Distribution Date and (b) the notional balance based on certain prepayment speeds for such class on such Distribution Date as set forth below, and (iii) the actual number of days in the corresponding accrual period divided by 360. It is anticipated that the Yield Maintenance Agreement will include the following terms in the below table:

See Exhibit I for a schedule of Certificate Notional Amount by month.

**STATEMENT REGARDING ASSUMPTIONS AS TO SECURITIES, PRICING ESTIMATES, AND OTHER**  
**INFORMATION**

The information contained in the attached materials (the "Information") may include various forms of performance analysis, security characteristics and securities pricing estimates for the securities addressed. Please read and understand this entire statement before utilizing the Information. Should you receive Information that refers to the "Statement Regarding Assumptions and Other Information," please refer to this statement instead.

The Information is illustrative and is not intended to predict actual results which may differ substantially from those reflected in the Information. Performance analysis is based on certain assumptions with respect to significant factors that may prove not to be as assumed. You should understand the assumptions and evaluate whether they are appropriate for your purposes. Performance results are based on mathematical models that use inputs to calculate results. As with all models, results may vary significantly depending upon the value of the inputs given. Inputs to these models include but are not limited to: prepayment expectations (economic prepayment models, single expected lifetime prepayments or a vector of periodic prepayments), interest rate assumptions (parallel and nonparallel changes for different maturity instruments), collateral assumptions (actual pool level data, aggregated pool level data, reported factors or imputed factors), volatility assumptions (historically observed or implied current) and reported information (paydown factors, rate resets, and trustee statements). Models used in any analysis may be proprietary making the results difficult for any third party to reproduce. Contact your registered representative for detailed explanations of any modeling techniques employed in the Information.

The Information addresses only certain aspects of the applicable security's characteristics and thus does not provide a complete assessment. As such, the Information may not reflect the impact of all structural characteristics of the security, including call events and cash flow priorities at all prepayment speeds and/or interest rates. You should consider whether the behavior of these securities should be tested as assumptions different from those included in the Information. The assumptions underlying the Information, including structure and collateral, may be modified from time to time to reflect changed circumstances. Any investment decision should be based only on the data in the prospectus and the prospectus supplement or private placement memorandum (Offering Documents) and the then current version of the Information. Offering Documents contain data that is current as of their publication dates and after publication may no longer be complete or current. Contact your registered representative for Offering Documents, current Information or additional materials, including other models for performance analysis, which are likely to produce different results, and any further explanation regarding the Information.

Any pricing estimates Bear Stearns has supplied at your request (a) represent our view, at the time determined, of the investment value of the securities between the estimated bid and offer levels, the spread between which may be significant due to market volatility or illiquidity, (b) do not constitute a bid by any person for any security, (c) may not constitute prices at which the securities could have been purchased or sold in any market, (d) have not been confirmed by actual trades, may vary from the value Bear Stearns assigns any such security while in its inventory, and may not take into account the size of a position you have in the security, and (e) may have been derived from matrix pricing that uses data relating to other securities whose prices are more readily ascertainable to produce a hypothetical price based on the estimated yield spread relationship between the securities.

*General Information:* The data underlying the Information has been obtained from sources that we believe are reliable, but we do not guarantee the accuracy of the underlying data or computations based thereon. Bear Stearns and/or individuals thereof may have positions in these securities while the Information is circulating or during such period may engage in transactions with the issuer or its affiliates. We act as principal in transactions with you, and accordingly, you must determine the appropriateness for you of such transactions and address any legal, tax, or accounting considerations applicable to you. Bear Stearns shall not be a fiduciary or advisor unless we have agreed in writing to receive compensation specifically to act in such capacities. If you are subject to ERISA, the Information is being furnished on the condition that it will not form a primary basis for any investment decision. The Information is not a solicitation of any transaction in securities which may be made only by prospectus when required by law, in which event you may obtain such prospectus from Bear Stearns.

On the Closing Date, the price to be paid by investors for the Offered Certificates will include accrued interest from the Cut-off Date up to, but not including, the Closing Date (30 days).

**Other Certificates:** The following Classes of "Other Certificates" will be issued in the indicated approximate original principal amounts, which will provide credit support to the related Offered Certificates, but are not offered hereby.

<u>Certificate</u>	<u>Orig. Balance</u>	<u>PT Rate</u>
Class II-B-4	\$ 11,948,400	WAC (see footnote 5)

Class II-B-6	\$ 4,888,153	WAC (see footnote 5)

**Collateral Description:** As of August 1, 2005, the aggregate principal balance of the Mortgage Loans described herein is approximately \$1.086 billion. The Mortgage Loans are conventional, adjustable rate Six-Month LIBOR, One-Year LIBOR and One-Year CMT indexed mortgage loans with initial rate adjustments occurring either five, seven or ten years after the date of origination ("Hybrid ARMs"). The Mortgage Loans are secured by first liens on one- to four-family residential properties. Approximately 99% (by principal balance) of the mortgage pool allow for payments of interest only for a term equal to the initial fixed period of the mortgage loan. After such interest only period, such mortgage loans will fully amortize over its remaining term. The remaining approximately 1% of the mortgage loans fully amortize over their original term (generally 30-years). Below is a further summary of the collateral characteristics of the Mortgage Loans by each mortgage loan group and the total pool (expected, as of August 1, 2005):

(1) The Group II-1 Mortgage Loans will all be conforming balance mortgage loans.

NOTE: the information related to the Mortgage Loans described herein generally reflects information as of August 1, 2005. It is expected that on or prior to the Closing Date, scheduled and unscheduled principal payments will reduce the principal balance of the Mortgage Loans as of the Cut-off Date and may cause a decrease in the aggregate principal balance of the Mortgage Loans, as reflected herein, of up to 10%. **Consequently, the initial principal balance of any of the Offered Certificates by the Closing Date is subject to a decrease of up to 10% from amounts shown on the front cover hereof.**

**Underwriting Standards:** The Mortgage Loans were underwritten to the guidelines of the originators as more fully described in the prospectus supplement

**Credit Enhancement:**

Credit Enhancement for the Certificates will be provided by a senior/subordinate shifting interest structure. The Class II-B Certificates represent interests in both Mortgage Loan Groups and provide credit enhancement for the Class II-A Certificates.

**Cash-Flow Description:**

Distributions on the Certificates will be made on the 25<sup>th</sup> day of each month (or the next business day). Distributions on the Senior Certificates will generally be made from the Available Funds of the related Loan Group. Distributions on the Class II-B Certificates will be made from Available Funds of all six Loan Groups. "Available Funds" for any distribution date and with respect to each Loan Group will be an amount that generally includes (1) all previously undistributed principal and interest portions of scheduled payments, principal prepayments and the principal and interest portions of net liquidation proceeds, (2) any monthly advances and compensating interest payments made by the Master Servicer or Servicer for such distribution date in respect of the Mortgage Loans in the related Loan Group, (3) any amounts reimbursed by the Master Servicer in connection with losses on certain eligible investments and (4) under limited circumstances, certain prepayments allocated from the Available Funds of another Loan Group, net of (x) fees payable to, and amounts reimbursable to, the Master Servicer, the Servicer, the Securities Administrator, the Trustee and the Custodian and (y) investment earnings on amounts on deposit in the master servicer collection account and the distribution account. Available Funds for each Loan Group will be distributed according to the following priority:

**Group II-1 Available Funds**

1. Payments of interest to the holders of the Class II-1A-1 based on the interest due and payable, at a rate equal to their respective Pass-Through Rates (as described on page 2 hereof); and
2. Payments of principal to the holders of the Class II-1A-1 based on their respective Current Principal Amounts, in an amount equal to the Senior Optimal Principal Amount for Mortgage Loan Group II-1.

**Group II-2 Available Funds**

1. Payments of interest to the holders of the Class II-2A-1 Certificates based on the interest due and payable, at a rate equal to their respective Pass-Through Rates (as described on page 2 hereof); and
2. Payments of principal to the holders of the Class II-2A-1 and Class II-2A-2 Certificates based on their respective Current Principal Amounts, in an amount equal to the Senior Optimal Principal Amount for Mortgage Loan Group II-2.

**Senior Optimal Principal Amount**

With respect to a Loan Group is an amount generally equal to the sum of (i) the Senior Percentage of the principal portion of scheduled payments on the related Mortgage Loans in the related Loan Group, (ii) the Senior Prepayment Percentage of prepayments and net liquidation proceeds in respect of Mortgage Loans in the related Loan Group and (iii) the Senior Prepayment Percentage of amounts received in respect of repurchased or substituted Mortgage Loans in the related Loan Group.

**Bear Stearns Alt-A Trust**  
**Mortgage Pass-Through Certificates, Series 2005-8 Group II**

**Any Remaining Available Funds from all Loan Groups**

1. Payments of interest to the holders of the Class II-B Certificates, sequentially, in order of their numerical class designations, so that each such Class shall receive interest at a rate equal to their respective Pass-Through Rates (as described on the cover page hereof); and
2. Payments of principal to the holders of the Class II-B Certificates, sequentially, in order of their numerical class designation, so that each such Class shall receive such Class' Allocable Share of the Subordinate Optimal Principal Amount.

**Shifting Interest:**

The Senior Certificates will be entitled to receive 100% of the prepayments on the Mortgage Loans up to and including [August 2012]. The Senior Prepayment Percentage can be reduced to the Senior Percentage plus 70%, 60%, 40%, 20% and 0% of the Subordinate Percentage over the next five years provided that (i) the principal balance of the Mortgage Loans 60 days or more delinquent, averaged over the last 6 months, as a percentage of the Current Principal Amount of the Subordinate Certificates does not exceed 50% and (ii) cumulative realized losses for the Mortgage Loans do not exceed 30%, 35%, 40%, 45% or 50% for each test date.

Notwithstanding the foregoing, if after 3 years the current Subordinate Percentage is equal to two times the initial Subordinate Percentage and (i) the principal balance of the Mortgage Loans 60 days or more delinquent, averaged over the last 6 months, as a percentage of the Current Principal Amount of the Subordinate Certificates does not exceed 50% and (ii) cumulative realized losses for the Mortgage Loans do not exceed a) on or prior to [August 2008], 20% or b) after [August 2008], 30%, then prepayments will be allocated among all certificates on a pro rata basis.

If doubling occurs prior to the third anniversary and the above delinquency and loss tests are met, then 50% of the subordinate prepayment percentage can be allocated to the subordinate classes.

**Allocation of Losses:**

Realized Losses on the Mortgage Loans will be allocated to the most junior class of Certificates outstanding beginning with the Class II-B-6 Certificates, until the Certificate Principal Balance of each Subordinate Class has been reduced to zero.

Thereafter, Realized Losses on the Group II-1 Mortgage Loans will be allocated to the Class II-1A-1 Certificates and Realized Losses on the Group II-2 Mortgage Loans will be allocated to the Class II-2A-1 Certificates.

Any pricing estimates Bear Stearns has supplied at your request (a) represent our view, at the time determined, of the investment value of the securities between the estimated bid and offer levels, the spread between which may be significant due to market volatility or liquidity, (b) do not constitute a bid by any person for any security, (c) may not constitute prices at which the securities could have been purchased or sold in any market, (d) have not been confirmed by actual trades, may vary from the value Bear Stearns assigns any such security while in its inventory, and may not take into account the size of a position you have in the security, and (e) may have been derived from matrix pricing that uses data relating to other securities whose prices are more readily ascertainable to produce a hypothetical price based on the estimated yield spread relationship between the securities.
