NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2005

NOTE 1- ORGANIZATION AND NATURE OF BUSINESS

Organization

Petersen Investments, Inc. (the "Company") a New Jersey corporation is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the National Association of Securities Dealers, Inc. ("NASD")

The Company conducts a general securities business by introducing transactions on a fully-disclosed basis to a clearing broker/dealer which carries all accounts and prepares and maintains all books and records pertaining thereto pursuant to SEC Rules 17a-3 and 17a-4, as are customarily made and kept by a clearing broker/dealer.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

All short-term investments with an original maturity of three months or less are considered to be cash equivalents.

Concentration of Credit risk

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Depreciation and Amortization

The cost of furniture and equipment is depreciated over the estimated useful lives of the related assets of 5 to 7 years. The cost of leasehold improvements is amortized over the length of the related lease of 5 years. Depreciation is computed on a straight line basis for financial reporting purposes and an accelerated basis for income tax purposes. Leasehold improvements for income tax purposes are amortized in accordance with Internal Revenue Service regulations.

Fair Value of Financial Instruments

The carrying value of financial instruments including receivable and payable from/to clearing broker, accounts payable and accrued expenses and taxes payable, approximates their fair value due to the relatively short-term nature of these instruments. The SBA loan payable approximates fair value as the obligation was negotiated at a market rate.

Actual results could differ from those estimates.

NOTE 11- GUARANTEES

FASB Interpretation No. 45 (FIN 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, requires the Company to disclose information about its obligations under certain guarantee arrangements. FIN 45 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or non occurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. FIN 45 also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement as well as indirect guarantees of the indebtedness of others.

Indemnifications

In the normal course of its business, the Company indemnifies and guarantees certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company or its affiliates. The maximum potential amount of future payments that the Company could be required to make under the indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

The Company provides representations and warranties to counterparties in connection with a variety of commercial transactions and occasionally indemnifies them against potential losses caused by the breach of those representations and warranties. The Company may also provide standard indemnifications to some counterparties to protect them in the event additional taxes are owed or payments are withheld, due either to a change in or adverse application of certain tax laws. These indemnifications generally are standard contractual terms and are entered into in the normal course of business. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the consolidated financial statements for these indemnifications.
