REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors
American Funds and Trusts, Inc.

We have audited the accompanying statement of financial condition of American Funds and Trusts, Inc., as of December 31, 2005, and the related statements of operations, cash flows, and changes in stockholders' equity for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Funds and Trusts, Inc. at December 31, 2005, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

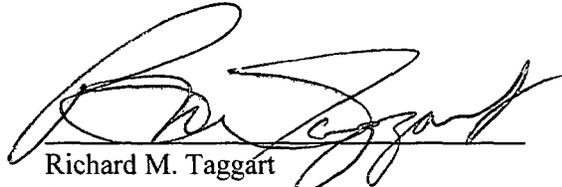

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information on pages 10 through 12 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

AMERICAN FUNDS AND TRUSTS, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2005

1. **SUMMARY OF SIGNIFICANT ACCOUNT POLICIES**

a. **Business**

The Company was incorporated under the laws of the State of Utah in 1958, generally to engage in the business of a securities broker dealer. The Company's business is principally limited to the sale of mutual fund investments for customers living in Utah. In addition to Utah, the Company is licensed to do business in Arizona, California and Nevada. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers, Inc. (NASD).

b. **Revenue Recognition**

Securities transactions and the related commission revenue are recorded in the accounts on a trade date basis, which is the day the transaction is executed.

c. **Customer Security Transactions**

The Company does not handle customer funds or securities and is exempt from the provisions of the Customer Protection Rule (Rule 15c3-3).

d. **Furniture, Equipment and Depreciation**

Furniture and equipment are stated at cost less accumulated depreciation. Depreciation on office furniture, equipment and leasehold improvements is provided using accelerated methods over expected useful lives of 5 to 7 years. Normal repair and maintenance items are expensed as incurred.

e. **Cash and Cash Equivalents**

The Company utilizes money market sweep accounts at its bank whereby available funds are invested overnight. For purposes of reporting cash flows, the Company considers all highly liquid cash investments with a maturity of three months or less to be cash equivalents.

f. **Management Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

g. **Income Taxes**

The Company utilizes the asset and liability method to account for income taxes. The objective of this method is to establish deferred tax assets and liabilities for the temporary differences between net income for financial reporting basis and tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized.

Notes to the Financial Statements - continued

Income tax benefit is provided based upon the financial statement losses of the Company. Depreciation expense is recognized in different periods for tax and financial accounting purposes due to the use of accelerated depreciation methods for income tax purposes. The tax effects of this difference is reported as deferred income taxes in the financial statements.

2. COMMISSIONS RECEIVABLE

Commissions receivable represent amounts due from mutual fund companies and other broker dealers, for commissions earned through December 31, 2005. Amounts due are received in the subsequent month, therefore, an allowance for doubtful accounts is not considered necessary.

3. FURNITURE AND EQUIPMENT

The major classes of depreciable assets are as follows:

Furniture and equipment	\$ 55,089
Leasehold improvements	<u>3,979</u>
Total	59,068
Less accumulated depreciation	<u>(53,034)</u>
Fixed assets, net	<u>\$ 6,034</u>

Depreciation expense for the year ended December 31, 2005 was \$4,576.

4. INCOME TAXES

Income taxes are provided at statutory rates for the tax effects of transactions reported in the financial statements and consist of taxes currently due and for deferred taxes which relate to timing differences for the expense recognition of depreciation.

Income tax benefit consists of the following:

Current year income taxes due:

Federal	\$ 163
State	<u>100</u>
Total	263

Deferred taxes for current year timing differences	<u>(700)</u>
Total income tax (benefit)	<u>\$ (437)</u>

Refundable income taxes consist of estimated tax payments in excess of amounts due.

5. **LEASE COMMITMENT FOR OFFICE SPACE**

The Company signed a five year operating lease for office space in May, 2001 which expires April 30, 2006. Rent expense under this agreement for 2005 was \$31,338. Future minimum lease payments required by the agreement are \$10,800 through the end of the present lease. The Company is negotiating with the landlord the terms of a new lease agreement.

6. **NET CAPITAL REQUIREMENTS**

As a broker dealer, the Company is subject to the uniform net capital rule adopted and administered by the Securities and Exchange Commission. The rule requires maintenance of minimum net capital and prohibits a broker dealer from engaging in securities transactions at a time when its net capital is less than the required minimum, as those terms are defined by the rule. At December 31, 2005, the Company's net capital was \$101,656 which was \$76,656 in excess of the \$25,000 minimum required.

7. **RISK MANAGEMENT**

Transactions involving financial instruments involve varying degrees of market, credit and operating risk. The Company monitors its exposure to risk on a regular basis.

Market Risk

The Company does not invest in securities for its own account and, therefore is not directly subject to market risk.

Credit Risk

The Company's transactions with customers are recorded on a trade date basis and are collateralized by the underlying securities. The Company's exposure to credit risk associated with nonperformance by customers is impacted by volatile or illiquid trading markets. Should customers fail to perform, the Company may be required to complete the transaction at prevailing market prices. The Company manages credit risk by principally requiring funds to be on deposit at the time of purchase. Also, management has determined that investing in mutual funds helps mitigate volatility and illiquidity and has limited its business primarily to investing in major mutual funds for customers.

Operating Risk

Operating risk focuses on the Company's ability to accumulate, process, and communicate information necessary to conduct its daily operations. Deficiencies in technology, financial systems and controls, and losses attributed to operational problems all pose potential operating risks. In order to mitigate these risks, the Company has established and maintains an internal control environment which incorporates various control mechanisms throughout the organization. In addition, the Company periodically monitors its technological needs and makes changes as deemed appropriate.

**INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS' SUPPLEMENTARY
REPORT ON INTERNAL ACCOUNTING CONTROL**

Board of Directors
American Funds and Trusts, Inc.

In planning and performing our audit of the financial statements and supplementary schedules of American Funds and Trusts, Inc. (the Company), for the year ended December 31, 2005, we considered its internal control, including its activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005 to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, NASD, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Shelton, Vance & Company, P.C.
