INDEPENDENT AUDITOR'S REPORT

February 22, 2006

To the Board of Directors
Sun Valley Gold Trading, Inc.
P.O. Box 2759
Sun Valley, ID 83353

We have audited the accompanying statement of financial condition of Sun Valley Gold Trading, Inc. as of December 31, 2005, and the related statements of income/loss, changes in shareholder's equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 7, subsequent to December 31, 2005, the board of directors made the decision to discontinue as a broker/dealer and liquidate the Company. As a result, the Company has chosen to use the liquidation method of accounting.

In our opinion, the financial statements referred to above, present fairly, in all material respects, the financial position of Sun Valley Gold Trading, Inc. as of December 31, 2005, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

**NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (Continued)**

(F) Commodities Held

NOTE 2 - USE OF ACCOUNTING ESTIMATES

NOTE 3 - RELATED PARTY TRANSACTIONS

During 2005, the Company reimbursed Sun Valley Gold, LLC, \$60,000 through an Affiliation Agreement for office and research costs paid on behalf of the Company. These payments are reported on the Statement of Income/Loss as General office overhead.

NOTE 5 – FINANCIAL INSTRUMENTS WITH OFF BALANCE SHEET RISK

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL
ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5**

February 22, 2006

To the Board of Directors
Sun Valley Gold Trading, Inc.
P.O. Box 2759
Sun Valley, ID 83353

In planning and performing our audit of the financial statements and supplemental schedules of Sun Valley Gold Trading, Inc. for the year ended December 31, 2005, we considered its internal control structure including procedures for safeguarding securities in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregated debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Firm does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Firm in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Firm is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Firm has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded to properly permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Independent Auditors' Report on Internal
Accounting Control Required by SEC Rule 17a - 5
Sun Valley Gold Trading, Inc.
February 22, 2006

Page 2

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projections of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or the degree of compliance with them may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities and Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Firm's practices and procedures were adequate at December 31, 2005, to meet the SEC's objectives.

This report is intended solely for the use of the board of directors, management, the SEC, and other regulatory agencies which rely on rule 17a-5(g) under the Securities and Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended and should not be used by anyone other than those specified parties.
