INDEPENDENT AUDITOR'S REPORT

To the Shareholders and
Board of Directors
Boenning & Scattergood Inc.

We have audited the accompanying statement of financial condition of Boenning & Scattergood Inc. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We believe that our audit provides a reasonable basis for our opinion.

1. ORGANIZATION

Boenning & Scattergood Inc. ("The Company") is a registered broker dealer with the Securities and Exchange Commission ("SEC") and the National Association of Securities Dealers ("NASD"). The Company is also registered as an investment advisor with the Commonwealth of Pennsylvania and is incorporated under the laws of the Commonwealth of Pennsylvania. The Company, like other broker dealers and investment advisors, is directly affected by general economics and market conditions, including fluctuations in volume and price level of securities, changes in interest rates and securities brokerage services, all of which have an impact on the Company's liquidity.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue - Securities transactions (and related commission revenue and expense, if applicable) are recorded on a trade date basis.

Fair Value of Securities - Securities owned and sold, but not yet purchased, are valued at market value and the resulting difference between cost and market is included in income.

The market value of securities owned, consisting of equities, corporate obligations, United States government obligations, and state and municipal obligations, is determined by the Company utilizing quoted market prices, dealer quotes and prices obtained from independent third parties. Other securities with no ready market are valued at fair value as determined by management.

Substantially all of the Company's financial assets and liabilities are carried at market value or at amounts which, because of short-term nature of the financial instruments, approximate current fair value.

Investment banking fees - Fees for investment banking services are recorded when the transaction has been completed. Expenses are recorded as incurred. Fees for investment banking services also include fees earned from providing merger and acquisition and financial restructuring advisory services. These fees are recorded when earned.

Concentration of Credit Risks - The Company maintains its cash in bank deposit accounts that, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts. Management believes the Company is not exposed to any significant credit risk related to cash.

Depreciation and Amortization - Furniture and equipment are stated at cost and depreciated over estimated useful lives, ranging from two to seven years using accelerated methods. Leasehold improvements are stated at cost and amortized over the term of the respective lease.

Board of Directors
Boenning & Scattergood Inc.

In planning and performing our audit of the financial statements and supplemental schedules of Boenning & Scattergood Inc. ("the Company") for the year ended December 31, 2005, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1) Making quarterly securities examinations, counts, verifications, and comparisons.
- 2) Recordation of differences required by rule 17a-13.
- 3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including procedures for safeguarding securities, which we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the NASD and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
