Independent Auditor's Report

I have audited the statement of financial condition of A & M Securities, LLC, as of December 31, 2005 and the related statements of income, cash flows, and changes in shareholders' equity for the year then ended. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on the audit.

I conducted the audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that this audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly in all material respects, the financial position of A & M Securities, LLC as of December 31, 2005, and the results of its operations and cash flows for the period then ended in conformity with generally accepted accounting principles.

My audit was made for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained in Schedules I, II, and III is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

A & M Securities, LLC

Gentlemen:

I have audited the financial statements of A & M Securities, LLC (the "Company") for the period ended December 31, 2005, and have issued a report thereon dated February 13, 2006. As part of the audit, I made a study and evaluation of the Company's system of internal accounting control to the extent I considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of the study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

I also made a study of the practices and procedures followed by the Company in making the periodic computations of aggregated indebtedness and net capital under Rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. No facts came to my attention indicating that the exemption conditions had not been in compliance. I did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts and verifications, and recording of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 or Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures can be expected to achieve the Commission's objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5 (g) lists additional objectives of the practices and procedures listed in the above paragraph.

Because of inherent limitation in any internal accounting control procedures or the practices and procedures referred to above, errors and irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level, the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities, that I consider to be material weakness as defined above.

I understand that the practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and my study, I believe that the Company's practices and procedures were adequate at December 31, 2005 to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, the National Association of Securities Dealers, and any other regulatory agencies which rely on Rule 17a-5(g) under the Securities Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose

Sincerely,
