INDEPENDENT AUDITORS' REPORT

To the Stockholders
Nikoh Securities Corporation
Northbrook, Illinois

We have audited the accompanying statement of financial condition of Nikoh Securities Corporation, (an Illinois Corporation), (the "Company") as of December 31, 2005, and the related statements of income, changes in stockholders' equity and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Nikoh Securities Corporation as of December 31, 2005, and the results of its operations and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements, taken as a whole. The information contained on pages 8 through 10 inclusive, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the examination of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements as a whole.

Disclosure of Accounting Policy

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of one year or less to be cash equivalents.

The accompanying notes are an integral part of these financial statements.

NIKOH SECURITIES CORPORATION
(an Illinois Corporation)
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies, which have been followed in preparing the accompanying financial statements, is set forth below.

Nature of Business

Nikoh Securities Corporation (the "Company") is a limited (mutual funds and/or variable annuities) broker-dealer registered with the Securities Exchange Commission ("SEC") and is a member of the National Association of Securities Dealers, Inc. ("NASD"). The Company earns concessions for introducing customer accounts to other broker-dealers, mutual funds or variable annuity concerns.

Revenue Recognition

Concession revenue and related expenses are recorded on trade date that is the date when the transaction originated.

Income Taxes

The Company has elected to be treated as an "S Corporation" for federal tax purposes under the Internal Revenue Code, as amended. Consequently, for federal and state income tax purposes, the Company's income is directly taxable to the individual shareholders. However, the Company is subject to the Illinois Personal Property Replacement Tax of 1.5% of net income, as defined.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities (and disclosures of contingent assets and liabilities) at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - MARKETABLE SECURITIES OWNED

Securities owned are carried on the statement of financial condition at market or quoted value as provided by the respective carrying broker/dealer, mutual fund or trust company. At December 31, 2005, the market value was \$35,180.

NOTE 3 - NON-MARKETABLE SECURITIES OWNED

Warrants on non-marketable securities owned represent 1,500 shares of NASDAQ Voting Trust common stock, which is carried at cost as there is no readily determinable market value. To the extent that a market develops for such securities, its quoted value could be significantly less than the value included in the statement of financial condition on December 31, 2005.

NIKOH SECURITIES CORPORATION
(an Illinois Corporation)
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

(continued)

NOTE 4 - RELATED PARTY TRANSACTIONS

The majority of the Company's concessions revenue is attributable to transactions it performed on behalf of Emerald Investments Limited Partnership, an Illinois limited partnership ("Emerald"). Emerald is an investment partnership that operates under the direction of DH2 Inc., its General Partner. DH2 Inc. is also affiliated with the management and stockholders of the Company. Gary S. Hokin, President of the Company, is also the President of DH2 Inc. For the year ended December 31, 2005, the Company's concessions revenue which was related to securities transactions placed on behalf of Emerald was approximately \$355,800.

Various operating expenses, including clerical and management staff, as well as office space, communications and equipment, among other things, are provided to the Company from an affiliate for a charge of approximately \$460 per month.

NOTE 5 - NET CAPITAL REQUIREMENTS

As a registered broker-dealer and member of the National Association of Securities Dealers, Inc., the Company is subject to the Uniform Net Capital Rule which requires net capital, as defined, to be at a minimum the greater of \$5,000 or 6 2/3% of aggregate indebtedness, as defined. At December 31, 2005, the Company had net capital requirements and net capital of \$6,892 and \$119,208, respectively. The net capital requirements may effectively restrict the payment of cash dividends, the making of unsecured loans to affiliates and the withdrawal of equity capital.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL ACCOUNTING CONTROL REQUIRED BY SEC RULE 17a-5

To the Stockholders of
Nikoh Securities Corporation

We have examined the financial statements of Nikoh Securities Corporation (the "Company"), for the year ended December 31, 2005, and issued our report thereon dated February 24, 2006. As part of our examination, we made a study and evaluation of the Company's system of internal accounting control (which includes the procedures for safeguarding securities) to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing, and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

Also, as required by Rule 17a-5(g) (1) of the Securities and Exchange Commission (the "Commission"), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) (1), in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and the procedures for determining compliance with the exemptive provision of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3, because the Company does not carry securities accounts for customers or perform custodial functions related to customer securities.

The management of the Company is responsible for establishing and maintaining a system of internal accounting control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. The objectives of a system and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005, to meet the Commission's objectives.

This report is intended solely for information and use of management, the Securities and Exchange Commission and the National Association of Securities Dealers and should not be used for any other purpose.
