INDEPENDENT AUDITORS' REPORT

To the Members
Rainier Securities, LLC
Bellevue, Washington

We have audited the accompanying statement of financial condition of Rainier Securities, LLC as of December 31, 2005, and the related statements of operations, members' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Rainier Securities, LLC as of December 31, 2005, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information included in Schedules I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

Note 1. Organization and Significant Accounting Policies

Organization

Rainier Securities, LLC ("the Company") is a securities broker and dealer as approved by the Securities and Exchange Commission ("the SEC") and the National Association of Securities Dealers, Inc. The Company's activities are primarily comprised of purchasing and selling corporate and municipal bonds, and holding these types of securities for the Company's own account.

As a limited liability company (or, "LLC"), an owner's liability is generally limited to contributions made to the LLC. An LLC owner is referred to as a Member. The Company has seven Members. All are involved in the Company's operations. The LLC has appointed one Member to act as the Managing Member.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Cash

Cash consists of cash in banks. The Company occasionally has deposits in excess of federally insured limits.

Clearing Organization

The Company has an agreement with National Financial Services, LLC to act as the clearing organization for the Company. The clearing organization clears all security transactions.

The Company is required to maintain certain deposit levels with the clearing organization. The amount of the deposit depends on the agreement with the clearing organization and certain exchange market requirements.

Amounts due to the clearing organization bear interest at the Federal funds rate plus 1.0% (resulting in a rate of 5.25% at December 31, 2005) and are secured by securities owned.

Furniture and Equipment

Furniture and equipment are stated at cost and depreciated using straight-line methods over estimated useful lives of three to seven years.

Revenue Recognition

Revenue associated with securities transactions is recognized on a trade date basis. Securities owned and securities sold, not yet purchased (short sales) are recorded at market value and, accordingly, any changes in market value are recognized in the statement of operations. Market value is determined based on price information from nationally recognized pricing services.

Income Taxes

The Company is taxed as a partnership and, with limited exceptions, is not taxed at the Company level. Instead, its items of income, loss, deduction, and credit are passed through to its member owners in computing their individual tax liabilities.

Note 2. Securities Owned

Securities owned are composed of:

Corporate debt securities	\$ 4,177,939
Municipal debt securities	<u>4,672,026</u>
	<u>\$ 8,849,965</u>

Two issuers of corporate debt securities (issuing many different debt securities series) represent a total of 33% of the total corporate debt balance. No other corporate debt issuer is over 10% of the balance. No municipal debt issuer is over 10% of the municipal debt securities balance. However, municipal debt issuers in two states represent a total of 52% of the total municipal debt balance.

Note 3. Trading Activities and Related Risks

The Company actively trades corporate and municipal debt securities. Positions in these securities are subject to varying degrees of market and credit risk.

Market prices are subject to fluctuation and, as such, the Company is exposed to market risk. The fair value of the Company's securities will fluctuate in response to changes in market interest rates. Increases and decreases in prevailing interest rates generally translate into decreases and increases in fair values of those instruments. Additionally, fair values of interest rate sensitive instruments may be affected by the credit worthiness of the issuer, prepayment options, relative values of alternative investments, the liquidity of the instrument, and other general market conditions. Market risk is directly impacted by the volatility and liquidity in the markets in which financial instruments are traded. The Company monitors its exposure to market risk, or its market risk profile, on a daily basis through a variety of financial, security position, and control procedures. The Company also tries to minimize the market risk by holding securities for generally less than 30 days.

Credit risk is the possibility of debt securities being downgraded by the rating agencies or going into default due to non-performance by issuers. The Company's counterparty risk is minimized by trading only with other broker-dealers and by clearing trades via the Federal Wire and the Deposit Trust Company ("DTC"), which ensure settlements occur simultaneously for both sides of the trade.

Note 4. Guaranteed Payments

The Company pays guaranteed payments to all of its Members. Four of the Members receive their guaranteed payments based on trading profits, net of various expenses each month. Two of the Members receive \$52,000 per year and may receive an annual bonus based on the Managing Member's discretion. In addition to the guaranteed payments calculated based on the net trading profits, the Managing Member receives a salary of \$100,000 per year. All payments are increased to cover FICA and Medicare taxes. The seventh Member performs administrative services and is compensated at an hourly rate.

Note 5. Leases

The Company leases its office space under an operating lease that expires in January 2008. The following is a schedule of minimum lease payments required under non-cancelable operating leases for the years ending December 31:

2006	\$	27,132
2007		27,407
2008		2,284
	\$	<u>56,823</u>

Note 6. Retirement Plan

The Company has established a retirement plan, Rainier Securities, LLC 401(k) Plan ("the Plan"). Generally, a Member or employee must be 21 years or older and must have one year of service before he or she can enroll with the Plan. Employer contributions are discretionary and allocation to participants is based on participant contributions. Employer contributions vest to the participants gradually with 100% vesting after three years. The Company did not make any contributions to the Plan in 2005.

Note 7. Subsequent Event

The Company's Members expect to make additional distributions in April 2006, but the amount is undetermined.

Note 8. Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1). Accordingly, the Company is required to maintain a minimum level of net capital (as defined) of \$100,000. At December 31, 2005, the Company had computed net capital of \$2,260,967, which was in excess of the required net capital level by \$2,160,967. In addition, the Company is not allowed to have a ratio of aggregate indebtedness to net capital (as defined) in excess of 15 to 1. At December 31, 2005, the Company's ratio of aggregate indebtedness to net capital was 0.16 to 1.

S U P P L E M E N T A R Y I N F O R M A T I O N

RAINIER SECURITIES, LLC

SCHEDULE I
COMPUTATION OF NET CAPITAL PURSUANT TO RULE 15c3-1

recalculated \$ 2,260,967

No adjustments were proposed to net capital per the broker's unaudited Focus Report, Part IIA,
as a result of our audit.

CERTIFIED PUBLIC ACCOUNTANTS

601 UNION STREET, SUITE 2300

SEATTLE, WASHINGTON 98101

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
REQUIRED BY SEC RULE 17a-5 FOR A BROKER-DEALER
CLAIMING AN EXEMPTION FROM SEC RULE 15c3-3

To the Members
Rainier Securities, LLC
Bellevue, Washington

In planning and performing our audit of the financial statements of Rainier Securities, LLC ("the Company") for the year ended December 31, 2005, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons.
2. Recordation of differences required by Rule 17a-13.
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to

achieve the Securities and Exchange Commission's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, which we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Securities and Exchange Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2005, to meet the Securities and Exchange Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used by anyone other than these specific parties.
