NOTES TO STATEMENT OF FINANCIAL CONDITION

DECEMBER 31, 2005

1. NOTES ON SIGNIFICANT BUSINESS ACTIVITIES

Bengal Partners, LLC (the "Company") was organized as a Delaware Limited Liability Company in March 1998 and began doing business as a registered broker-dealer in securities with the Securities and Exchange Commission and the National Association of Securities Dealers in June 1998. The Company operates on a fully disclosed basis through its clearing broker, Fortis Investments Services, LLC.

In the normal course of its business, the Company enters into financial transactions where the risk of potential loss due to changes in market (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the amounts recorded for the transaction.

The Company's policy is to continuously monitor its exposure to market and counter-party risk through the use of a variety of financial, position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker-dealer, clearing organization, customer and/or other counter-party with which it conducts business.

2. SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America required management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

The Company records commission income and related revenues and expenses on a trade date basis.

Security transactions and financing with the clearing broker are classified as operating activities on the statement of cash flows since this is the Company's principal business.

The Company maintains its books and records on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

Depreciation of furniture and equipment is provided for using straight-line and accelerated methods over the estimated useful lives of the related property.
