DAVID E. LATHAM

CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

To the Stockholders of
First Honolulu Securities, Inc.
Honolulu, Hawaii

I have audited the accompanying Statement of Financial Condition of First Honolulu Securities, Inc., as of March 31, 2006, and the related statements of operations, changes in stockholders' equity, changes in liabilities subordinated to claims of creditors and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of First Honolulu Securities, Inc., as of March 31, 2006, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles.

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the schedules on pages 10 through 13 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In preparing the financial statements, management is required to make estimates and assumptions that affect reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Actual results could differ significantly from these estimates.

Material estimates that are particularly susceptible to significant change in the near-term relates to the determination of the value of marketable securities held in inventory, marketable securities are valued at market values which can change substantially as the market reacts to changed circumstances. Management believes that such estimates have been appropriately established.
