To the Stockholder and Board of Directors
Baron Capital, Inc.

We have audited the accompanying statement of financial condition of Baron Capital, Inc. (the "Company"), a wholly owned subsidiary of Baron Capital Group, Inc., as of February 28, 2006, that you are filing pursuant to Rule 17a-5 under the Securities Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

BARON CAPITAL, INC.

Notes to Statement of Financial Condition February 28, 2006

NOTE A - THE COMPANY

Baron Capital, Inc. (the "Company"), a wholly owned subsidiary of Baron Capital Group, Inc. ("BCG"), is a registered broker/dealer which cleared all of its customer transactions through a correspondent broker on a fully disclosed basis. On October 13, 2005, the Company ceased its institutional brokerage services and has not earned commissions since that date. The Company is also the distributor of the shares of seven affiliated regulated investment companies operating pursuant to Rule 12b-1 under the Investment Company Act of 1940.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Securities transactions and valuation:

The Company records securities transactions on a trade-date basis. Realized gains and losses from securities transactions are calculated on a specific identification method.

Investments in marketable securities and marketable securities sold, but not yet purchased are valued on the last business day of the year at the last available reported price.

Investment in a nonmarketable security is carried at estimated fair value as determined by the Board of Directors.

The Company is a limited partner in an affiliated partnership that invests in nonmarketable securities which have been valued by the partnership's management. This investment is being carried at estimated fair value in the statement of financial condition, based upon the underlying investments.

Because of the inherent uncertainty of valuation of the nonmarketable security and the affiliated limited partnership, their estimated fair values may differ from the values that would have been used had a ready market existed and the difference could be material.

[2] Use of estimates:

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

NOTE C - INCOME TAXES

The accounts of the Company, its parent and two affiliated companies are included in consolidated federal, state and local income tax returns. The Company computes its tax expense as if it were a separate entity.

At February 28, 2006, the Company had a deferred net tax liability of \$748,250, which relates to net unrealized gains.

NOTE D - PROFIT-SHARING PLAN

The Company maintains a defined contribution profit-sharing plan. All employees who have completed one year of service and have attained 21 years of age are eligible to participate. Plan contributions are based on the compensation of the participant. The contribution percentage is determined at the discretion of the Board of Directors. Participants in the plan become fully vested upon obtaining eligibility status.

BARON CAPITAL, INC.

Notes to Statement of Financial Condition February 28, 2006

NOTE E - NET CAPITAL

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c-3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At February 28, 2006, the Company had net capital of approximately \$3,816,000, which is \$3,384,000 in excess of its required net capital. The Company's ratio of aggregate indebtedness to net capital was 1.70 to 1.

The Company is exempt from the provisions of Rule 15c3-3 per paragraph (k)2(ii).

NOTE F - DERIVATIVE FINANCIAL INSTRUMENTS AND CONCENTRATION OF CREDIT RISK

In the normal course of its business, the Company enters into transactions in various financial instruments including derivatives held or issued for trading purposes. These transactions include securities sold, but not yet purchased. Securities sold, but not yet purchased represent obligations of the Company to deliver the underlying securities sold. The Company's ultimate obligation on such instruments may exceed the amount recognized in the statement of financial condition. The Company monitors its positions continuously to reduce the risk of potential loss due to changes in market value.

NOTE G - RELATED PARTY TRANSACTIONS

A substantial part of the Company's income is generated from seven affiliated regulated investment companies and an offshore fund.

The Company shares office, administrative and occupancy expenses with BCG and two affiliated corporations. The Company recognizes its share of such expenses by a formula determined by management.

NOTE H - COMMITMENTS AND CONTINGENCIES

The Company leases office space under two long-term operating leases, expiring at December 31, 2023.

The estimated minimum aggregate rentals are as follows:

<u>Year Ending February 28,</u>	
2007	\$ 6,218,000
2008*	6,218,000
2009	6,263,000
2010	6,491,000
2011	6,491,000
Thereafter	<u>93,427,000</u>
	<u>\$125,108,000</u>

* Year ending February 29

In addition, the leases contain escalation clauses for increases in real estate taxes and operating costs. The facility, which the Company uses, is also shared with BCG and affiliates. The rent is apportioned to the occupants by a formula determined by management.
